Battle Of The Factories

No amount of slave labor can equal the voluntary cooperation of free men. There's a fact for all of us to hang on to throughout the coming months. And it is a fact, make no mistake about it. We Americans have already proved

Even though we got a late start in the armament race, we're rapidly catching up. We have the materials to do the job and better than the aggressors can. We're the masters of mass production. We out-produced the aggressors in peace-time, building up a standard of living so high that it became the envy of the world.

Now that the cards are on the table we can outproduce them again. It won't be an easy job, perhaps, but it can be done. And it's being done.

Many of our factories switched to war production months ago. They're already hitting their stride. And more factories will join them.

Undoubtedly we'll have black days of discouragement, but the final battle is the one that counts in warfare, and we shall win it, for the spirit of freedom is still the strongest power on earth, just as it's always been.

Insuring The Man Who Fights

A man who joins the fighting forces of the United States in time of war offers to his country the most precious thing man possesses-life itself.

He can be given no security in the full sense, for the taking of life is implicit in war. Nevertheless, every possible effort should be made to protect those dependent on him, and his own status if he returns safely.

The United States has a Social Security system, begun six years ago in time of peace. This it did not have when the country last went to war. Already its effects are being felt. Survivors' insurance benefits are already being rushed to widows and minor children of men who have given their lives in the Pacific fighting.

Modern Study Club Hears Trio Of Papers On Chile

Chilé was the subject of discussion at the meeting of the Modern Study Club with Mrs. Tom Sealy, 410 South L Street, Wednesday aft-

Mrs. F. C. Cummings, as program leader, gave the background for the study.

Mrs. Lamar Lunt read a paper prepared by Mrs. A. H. Riley on "The Switzerland of South America". That title is applied to Chile because of the mountainous terrain of the country.

"Education in Latin America" was discussed in a paper by Mrs. A. J. Bedford. Interesting facts brought out included the one that a degree is presented when a student has finished the equivalent of high school, that anyone who has attended college for a year is a "pro-fessor" and that doctors and engineers are most highly regarded of professional men.

Without Painful Backache Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 virts adve.

blood. They help most people pass about 3 pints a day.
When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting upnights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Stimson, War Secretary, Experienced Soldier And A Real Fighting Leader

By Milton Bronner NEA Service Staff Correspondent

WASHINGTON-The spur of war and the toil that comes with it seems to have been a Fountain of Youth for 74-year-old Secretary of War Henry L. Stimson.

He comes into a room pale from long hours of work, but once he gets talking about the war and the army's part in it, his eyes begin to sparkle and his cheeks to lose their

He is an old war horse himself. He is the only major Secretary of War in the past 80 years in which America went to war who actually saw service on the firing line.

This writer liked Earle Clark. Liked him for what he was a coach and a gentleman-a man's man. Liked him because national recognition as a football player had not swelled his head. Sportslane could sit down and talk it over with Earle. We saw him take some bitter licks. Licks that he was not used to, when he himself could do the playing. Because Earle Clark the player happened to be a winner. TCU didn't soon forget him and Midland shouldn't. We remember sitting in his home and watching him plan for the next game. "Laine," he said, "when are you going to quit me, too." 'We have not won in nine games, isn't it about time for the press to turn on me." Never, Earle Clark, not as long as you did your best, and did it fair and you did. We are glad the Bulldogs won for him that last game. * McKENNEY

By William E. McKenney America's Card Authority

Sam Rossant of New York is a reformed rubber bridge player. For years he scoffed at duplicate, but when at last he tried it out, he fell for it—and fell hard. He has placed in every event in which he has played since he entered tournament bridge a year ago. If you America. asked him what he thought he was going to do in the national open

team-of-four championship at Richmond, he would have answered without a moment's hesitation, "I'm going to win, of course." He did.

Here is one of the hands that helped to bring him and his team

Rossant's no trump bid in the West position was of course based on the hope that the club suit was solid. After the bid of two hearts by his partner, Rossant cautiously bid three hearts in order to confirm the suit without overbidding. East went to three no trump because he now felt that with four probable heart tricks, the hands might win nine tricks in top cards.

On winning the first lead, Rossant saw only eight top tricks. The adverse spades and diamonds would set the contract, once he lost the lead.

But without a moment's hesitation, he made the only play for the contract—he led a low club. North, who quite understandably believed that this lead would not be made away from the three top honors, played low. Thus Rossant gathered 10 top tricks for an incredible score.

He Never Did Like Pampering, And With War On Hands, Your Soldier Would Rather You Dry Your Tears

By Thomas M. Johnson NEA Service Military Writer

WASHINGTON-Meet the U. S Army's forgotten word: "Morale." It has gone with the wind of war that swept hotly over Hawaii in the dawn of a Sabbath morning.

Replacing "morale" is "spirit"— fighting mad, determined. Thank the Japanese for it.

Japan's infamous stabs at Hawaii and the Philippines have cleansed the Army of the last trace of "moral sickness." Recent investigation showed that this was a minor ailment, exaggerated by amateur diagnosticians who knew about soldiers because they had seen a movie or read a book.

Last summer they bulletined: "Patient seriously ill. Widespread discomfort among soldiers. Favorite song is O-H-I-O-'Over the Hill in October."

"Over the hill" means desertion -but October found an Army so engrossed in training that the only hill it went over was some hill held by the "enemy." The predicted epidemic didn't come off.

Even before Pearl Harbor, the Army's most violent complaint was at all the talk about "morale." When I mentioned it to one platoon during the Carolina maneuvers, every man cursed or spat disgustedly

There was some silly "morale" talk about the A. E. F. too, back in World War I. But did they fight? You know they did-and no A.E.F. vet doubts our new army will fight if he has seen them in the field, hiking, lugging equipment, sleep-ing — if at all—on the ground; playing the war game so hard they fought one another with bayonets and rocks; swearing, sweating, yes, even smelling like soldiers. And by much cheerful effort—in three weeks I encountered one grouch-

They were part of an effort to sugar-coat the conscription pill for supposedly queasy American youth. Recently Lieut. Gen. Ben Lear—yes, of yoohoo fame—tightened up his men's saluting and nobody squawked. His men knew that to real soldiers the salute is just mutual courtesy between officers and men.

They were part of an effort to camp-fires, questioning their officers: "Did we lick those other guys today? And how did we do it?"

And they meant how — all about it. They are just as proud of their outfits as the A.E.F. was; and—if their Dads will pardon me—more intelligent. AMERICANS CAN PLAY ROUGH GAMES, TOO

But also they know that American boys can learn, more quickly than others, how to play rough games to win. Already they are physically hard; Japan's treacherous blows have hammered them harder mentally than could month of training. Now they know where they are going, and why; and being Americans they want to go there—

Martin County Has Best Cattle, Cotton Season

STANTON-(Special) - Martin County has just closed the best livestock and farming year in its history, according to County Agent J. H. Martin. Cotton ginnings alone will finally show more than 25,000 bales, he believes; while livestock prices have been good and ranges fine, with good winter feed assur-

One of the best results of the farming year is the fact that several tenant farmers are planning to purchase their own places for the coming year.

Heavy feed crops has brought the building of many trench silos, and some farmers have purchased stock to feed out this winter, though several put enough silage in store to take care of their normal needs

Cattle sales have been heavy, with stockmen weeding out the nonproducer stock for replacements.

Soil conservation has had an acdirection of the Martin-Howard Soil Conservation field force, in cooper-ation with the County Agent. Plans now under way indicate a large teracing program for 1942.

There has likewise been a sub-stantial development of the poultry flocks of the country, and an acive program of building of suitable ousing for poultry. It is expected than the cash crop of poultry will be greatly increased in 1942.
