

# Thousands Allies Await Japs In Java

## United States, British, Australians In Java; 'Will Fight Like Hell'

### Air Victories Lend Confidence As Japs Are Ready To Spring On Last Stand In Rich Dutch Indies

By Roger D. Greene  
Associated Press War Editor

Japanese warplanes were reported Friday to have attacked Indian territory for the first time, twice bombing and machine-gunning the Andaman Islands in the Bay of Bengal, 350 miles southwest of Rangoon, Burma, on a vital United Nations supply route to China, Russia and the Far Pacific.

BATAVIA, N.E.I.—"Many thousands" of soldiers from the United States, Britain and Australia already are in Java to fight with Dutch forces in defense of this imperilled island stronghold, Lieutenant General Hein Ter Poorten, commander in chief of the Netherlands East Indies Army, disclosed Friday.

## Big Spring May Get Air Corps Training School

WASHINGTON (AP)—The Army Air Corps, extremely active in Texas and the Southwest, is undergoing a change in its training program so that greater emphasis will be placed on the entire "air crew" meaning bombardier and navigator as well as pilot.

This was the observation of a War Department press relations officer, who said that under the revised training program bombardier students would be trained at a school which devotes its entire attention to that phase of warfare. Likewise, those students going in for navigation would receive specialized training at a separate school while those to become pilots would train at still another center.

The Air Corps is carefully studying sites over the country for establishment of additional training centers. Among areas in Texas which have been surveyed is the Big Spring region.

## Need More Bombardiers

So much glamor has been built up around pilots, commented the press relations officer, that the Air Corps is now making a deliberate effort to focus the spotlight on bombardiers so that more youths will be anxious to follow that line. He pointed out the obvious fact that in the big heavy bombing planes the pilot was no more essential to a successful attack on the enemy than the man releasing the bombs.

He called attention, too, to the importance of gunners in the heavy bombers. Their skill in many instances makes it possible for a plane to drive through to the enemy target and then escape.

When youths are sent to replacement training centers, after conscriptions, they may apply for

(See BIG SPRING, Page 5)

## French Pledge Will Not Give Navy To Axis

WASHINGTON (AP)—President Roosevelt has warned the Vichy government, Acting Secretary of State Welles said Friday, that if the French ship war materials or supplies to the Axis powers it will place itself in the category of governments assisting the declared enemies of the United States.

The President's warning was communicated to Vichy on February 10, and since that time the Petain government has given renewed assurances that it would abstain from any actions compromising its position of neutrality; that it would not therefore lend any military aid to one of the belligerents, particularly any aid involving the use of French warships.

He bade them "fight like wildcats and fight like hell" against the enemy ready to spring from stepping-stone islands in almost every direction against Java, the United Nations' last Pacific citadel before Australia, into whose defense the determined Dutch are ready to pour all their strength without thought of the sacrifice.

The Americans join United States Air and Naval forces whose blows against the invaders, inflicting a daily mounting toll, have bolstered the Indies' confidence that the Japanese will find their defense too strong and the cost too great to score the blow still needed to cap their conquest of these islands.

Japan sent an aerial "feeler" attack against Port Blair in the Andaman Islands, in the Indian Ocean 350 miles southwest of Rangoon, Burma.

Three Japanese planes bombed and machine-gunned the port on Tuesday and Thursday, executing Japan's farthest thrust to the west since the war began. Two civilians were killed, five wounded.

The Andaman Islands are strategically important as a base for possible Japanese invasion of Ceylon or India.

## Oil Tanker Afire Dock Burning, Off California Base

MARTINEZ, Calif. (AP)—Flames swept an oil tanker and a dock at the Associated Oil Plant at Avon on Suisun Bay Friday.

Fire fighting boats were sent to the scene by the Coast Guard, the Mare Island Navy Yard and San Francisco, about 35 miles away. The tanker, black smoke pouring from her decks, was towed into the stream. Her crew was not on board.

## Three Women Are Shot To Death

OKLAHOMA CITY (AP)—Three women were shot to death Friday by a man in a cheap rooming house district, police reported.

At police headquarters, the victims were listed as Mrs. Monnie Pierce, Betty Cunningham and Ann Bow.

The vice bureau said it understood the assailant was a man who after the shooting set his clothing afire and then leaped from a window.

The suspect was taken to police headquarters where he was being questioned by Capt. Wright Brown of the detective bureau.

## Arrest Negro For Slaying Farm Couples

SPARTANBURG, S. C. (AP)—Sheriff Sam Henry announced Friday the arrest of a 19-year-old negro who, he said, confessed backing to death two elderly South Carolina farm couples within the last two weeks.

He identified the negro as Jesse Jones and said he was arrested at the home of his grandmother in Spartanburg.

Columbus Petrie, an aged farmer, and his sister were beaten to death with an axe in their farm home in the Ben Avon section Feb. 15. Another sister, Maggie, was hacked into unconsciousness.

Mr. and Mrs. J. L. Hughes were slain by axe blows in their Glendale community farm home last Tuesday night.

Appointment of Sir Stafford Cripps as lord privy seal and House of Commons leader brings this liberal and friend of Russia into the driver's seat in Britain right beside Winston Churchill.

## 'Jeep' Jumps Into Good Society, As Term Is Official

Well, folks, go right ahead and call it a "Jeep" . . . for the commandant at Midland Army Flying School has used the term officially. Yes, the mighty midget, the little auto that hauls the Army at break-neck speed across ditches, plowed fields, up mountain sides, or what-have-you in the way of really rough going, has had an official name that even it could not "climb over." In the Army manuals it has been called a "four-by-four quarter-ton supply arm or service vehicle."

But soon after its appearance the boys in the Army and the general public had fondly dubbed it a "Jeep" . . . and "Jeep" it has been to everybody. It appealed to the public imagination, and was the answer to an Army prayer.

So, Thursday, it was noted that in posting an order on the bulletin at the Midland Army Flying School that the commandant had used the term, what quotes . . . It is now official. His order reads: "Post No. 18 shall consist of one sentry who will drive the officer of the day. He will be mounted in a Jeep."

## Small Lease Owners To Be Protected Under New Well-Spacing Plan

WASHINGTON (AP)—Petroleum Coordinator Ickes took steps Friday to protect individual property owners in their right to participate in the development and production of oil and gas fields under the well-spacing provisions of the War Production Board's petroleum conservation order known as M-68.

Pointing out that the order required consolidation of all separate properties within a drilling unit before a well could be drilled, the coordination office sent a communication to the petroleum regulatory agencies of oil producing states, and to industry production committees and to all producers, recommending:

1.—That drilling units be formed in a manner that will afford all owners within each field a reasonable opportunity to participate in the development thereof and the production thereof.

2.—That owners denied reasonable opportunity to participate in the development and production of a field, file applications for exemptions to M-68, which prohibits the use of critical materials for drilling and production purposes except in specified instances.

## Senator Carl Hatch Is Injured Seriously

ALBUQUERQUE, N. M. (AP)—Senator Carl Hatch (D-NM) was internally and possibly seriously injured Friday when an automobile in which he was riding overturned on the highway about 80 miles south-east of Albuquerque near Lucy.

## Radio Propaganda Campaign Of Japs Disregards Truth

Broadcasts Designed To Weaken Morale Of American People

By John M. Hightower  
WASHINGTON (AP)—If wishful thinking won wars, the Japanese would be far along Friday on the road to final victory.

A large section of the West Coast would be a shambles, the Pacific Fleet would be little more than a memory and the native peoples everywhere in the Western Pacific would be welcoming the Japanese invaders with garlands of flowers instead of bullets and bombs.

That, at least, is the broad outline of the radio propaganda picture which Tokyo has been painting since the beginning of the war—presumably for a public it hopes it has in the United States and other United Nations.

The serious purpose of the broadcast claims, officials said Friday, is to create questioning, uncertainty, lack of confidence and suspicion in this country. While they may also be put out for the benefit of Japanese morale and the morale of Japan's Axis partners, it is not definitely known that all the reports are given to the Japanese people.

They are judged here, therefore, on the theory that they are designed primarily to upset Allied and particularly American morale. In the light of what has actually occurred as compared with what the Japanese reported, officials here have been amused by some of the extravagant claims.

One broadcast purported to deal with the historical background of Wake, the island outpost which Japan later captured. Tokyo charged that when American Marines first occupied the island, they killed off all the natives. Actually, until the Marines arrived with their own supply of fresh water, the island never supported human life for any prolonged period.

Then there was the matter of the "great West Coast panic" after the war's outbreak. The Japs claimed the panic extended all the way from Mexico to the Canadian border.

On another occasion soon after war began they reported that San Francisco, which actually had been blacked out by an air raid warning, was in flames from bombing.

The first damage resulting from enemy action on the West Coast mainland occurred only this week in California when a bombardment by a submarine with 5-inch guns caused a total property loss of \$500.

## Midland Ranchers Purchase Choice Sweetwater Stock

Charley and Harry McClintic, John M. Gist, A. G. Bohanan, all of Midland, and the Houston Bros. ranch of Stanton, are taking delivery on several head of choice registered stock which they purchased at the auction sale held at Sweetwater this week by the Sweetwater Hereford Breeders showing.

McClintic purchased Prince Domino Return 24th, Carlos Domino, a Boothe bull, and a Dulaney bull. Gist purchased Princes Domino Vernet Princess 6th, Petrolia 13th, and Prince Domino, and two others, one of which he sold. Bohanan purchased Bob Mischief 7th. Houston Bros. purchased Advance Mischief 4th.

The Sweetwater sale, said to be a good indicator of the trend, had highly choice animals and the prices were considered good.

## Survivors From Two Ships Reach Port

GEORGETOWN, British Guiana (AP)—Survivors from two vessels torpedoed and sunk in the Western Atlantic have been brought into this port within the last 24 hours.

Identities of the two ships were not disclosed immediately.

## Starvation Faced By Countries

Nazis Take All Food For German People And Their Armies

LONDON (AP)—Famine and starvation are facing the occupied countries of Europe, which are being systematically pillaged by the Nazis to provide food for the German people and their armies, the Inter-Allied Information Committee decried Friday.

While hundreds of thousands in conquered lands are undergoing unselfish hardships, the Germans themselves are well-fed, the committee said.

Executed Five Persons  
Dispatches from Switzerland reported Germans were taking increasingly drastic measures to stamp out illicit trading in food and clothing. Five persons were said to have been executed in Germany or German occupied territory during the past week for such offenses and heavy fines and imprisonment were being meted out to others.

The Inter-Allied Committee, which represents every Allied Nation in London, said the German pillaging program, "masquerading as purchase," probably would bring starvation to 500,000 in Greece alone before winter ended.

"One whole generation appears to be already doomed" in Greece, said the committee's report.

In France, whence "every day trains loaded with food go to Germany," the report added, "the whole race is in danger."

## Angelo Goodwillers Guests Of Midland Greeters At Dinner

A jolly bunch of San Angelo Goodwillers rolled into Midland late Thursday, telling the world about the eleventh annual San Angelo Fat, Stock Show and Rodeo, which will be held March 5 to 9, inclusive, with a three day rodeo program starting Friday, March 6.

The Angeloans, riding in a chartered bus, were taken in tow by members of the Sheriff's posse and the Junior Chamber of Commerce and escorted downtown. A buffet dinner was served at the Crawford Hotel.

During the dinner hour Lonnie Preston, singer, and Miss Rickey McNorton, accordionist, entertained and afterward had the entire group singing the old-time melodies. The affair was strictly informal, and many members of the Jaycees and of the posse were in and out during the evening.

Coming from the west, after visiting Mertzon, Big Lake, Texom, McCamey, Crane and Odessa, the Angelo boosters spent the night in Midland, and left Friday for Stanton, Big Spring and Sterling City, enroute home.

The party included the attractive cowgirl and novelty musician Miss McNorton, and an even dozen business and professional men of San Angelo, Macy Rollins, E. L. Buellow, Jim Bennett, Lonnie Preston, Tom Karr, Jack Douglas, E. S. Woullard, Russel Hawley, Al Harris, Lee Lair, Bill Kennedy, and Robert McBurnett.

## Shooting Victim In Serious Condition

The condition of Mrs. John Clevenger, known here as Charlotte Farrell, shot Thursday in Midland by her estranged husband, John Clevenger of Crane, Friday noon was unchanged.

She was shot above the heart, and is in a serious condition. Clevenger is being held in jail.

## WAR BULLETINS

LONDON—(AP)—The British Admiralty announced Friday that the former American destroyer Belmont has been sunk.

MOSCOW—(AP)—Major General Alexei F. Levashov has been killed in performance of his duties with the Russian Army, it was announced officially Friday. The announcement did not say where, how or when his death occurred.

MELBOURNE—(AP)—The greatest war planning conference ever held in Australia convened Friday with the commonwealth war council meeting in secret session with high advisers from the Allied Nations to shape a new offensive strategy based on the possibility of imminent Japanese attack on this continent.

## Defenders Of Rangoon Beat Off Invaders

American Volunteers And British Pilots Destroy 27 Jap Planes

MANDALAY, Burma (AP)—The defense of deserted Rangoon in which American volunteer "Flying Tigers" and RAF Hurricane pilots destroyed 27 Japanese planes surely and seven more probably, beat off the raiders in their biggest daylight air assault in Burma so far.

Such a raid had been expected and the defense was a carefully prepared surprise for the enemy.

Official figures previously had placed the Japanese losses Wednesday at 30 planes.

The American volunteer group, under Squadron Leader Bob Neale of Seattle, Wash., had been ready for two weeks for just such a mass attack as the Japanese finally launched. In its picked flight roster were these combat veterans:

Gregory Boyington, Seattle; M. W. Kuykendall, San Saba, Texas; C. W. Sawyer, Emmett, Idaho; R. H. Smith, Eagle River, Wis.; C. R. Bond, Dallas; R. W. Prescott, Fort Worth, and J. R. Rossi, San Francisco.

Detailed To Defense  
Their spike-nosed Tomahawk fighter planes had been detailed specifically to Rangoon's defense in order to save their engines from excessive wear on long escort missions which had been daily fare after they had broken Japanese fighter sweeps over the Rangoon area late in January.

"When the Japs think we've all cleared out they'll come over in daylight again," Neale told newspapermen when the Army ordered correspondents to move more than 400 miles from the Rangoon front.

"Boy, will they be surprised to find the AVG still in Rangoon," Neale said. "Official information was so lacking in Central Burma that no military authorities were able to say what proportion of victories the AVG scored. There was no official information, either on AVG or RAF losses, if any."

## Petroleum Stocks Show Increase

WASHINGTON (AP)—The Bureau of Mines reported Friday stocks of domestic and foreign crude petroleum at the close of the week ended Feb. 21 totaled 255,861,000 barrels, a net increase of 1,398,000 barrels compared with the previous week. Stocks of domestic oil increased 1,711,000 barrels for the week and foreign crude decreased 313,000 barrels.

Daily average production for the week was 4,077,000 barrels or a decrease of 1,000 barrels compared with the previous week's level. Runs of stills averaged 3,889,000 barrels daily, compared with 3,772,000 barrels for the preceding week.

## Roosevelt Condemns Tactics Of Congress

WASHINGTON (AP)—President Roosevelt condemned Friday as a very reprehensible method of legislating, what he called the attaching of riders that ought to be voted to measures which cannot be vetoed.

The Chief Executive told a press conference that since 1913 he had had the idea it was not quite fair to Congress or the country to attach riders to appropriation measures when the riders were not germane.

His remarks arose from the plan of the Senate farm bloc to tack on a pending \$32,762,737,900 war appropriation bill an amendment designed to prevent sales of government-held farm products below full parity prices.

By making it clear that his views extended to riders on all types of measures, the Chief Executive indicated he would look with disfavor upon adding to a war powers bill pending in the House an amendment which would suspend the 40-hour week while the war lasts.

## Navy Patrol Bomber Crash Kills Four Men

CORSUS CHRISTI (AP)—Four men were killed and a fifth narrowly escaped death Thursday when a patrol bomber from the Corpus Christi Naval Air Station crashed into Corpus Christi Bay.

The dead: Karl L. Brehm, 24, aviation machinist mate of Hamilton, Ohio. Myles Stanton Ross, 24, aviation cadet of Seattle, Wash. John Henry Shepherd, 23, aviation cadet from Fort Arthur, Texas. Kenneth Eugene Spence, radio-man third class of Antelope, Kansas.

## Reds Open New Drive On Nazi

Soviet Cavalrymen Advance To Within 72-Miles Of Latvia

By The Associated Press

Russia's armies opened fierce new attacks at both ends of the 1,200-mile battlefield Friday, lashing out from long-besieged Leningrad in the North and on the Crimea Peninsula in the South, while Stockholm dispatches reported Soviet cavalrymen had advanced within 72 miles of the Latvian frontier.

Meanwhile, the German-controlled Paris radio said "it has been confirmed" that Admiral William D. Leahy, American ambassador in Vichy, had demanded that all movements of the still powerful French Fleet receive prior authorization from the United States.

The radio said the Vichy government rejected "this intolerable demand" and that it was "rumored" Admiral Leahy would leave his post in protest.

Only Use Big Ship  
The 2,500-ton French battleship Dunkerque was reported to have arrived in Toulon, France, from North Africa, stirring Allied fears that it might be pressed into service by the Germans.

On the Russian front, Soviet dispatches from the flaming Staraya Russa battle zone reported the Red Army were breaking down the stand of trapped survivors of the German Sixteenth Army, virtually dooming divisions after division of the encircled Nazis.

Heavy battles were reported raging around Novgorod, key German base on Lake Ilmen 100 miles southeast of Leningrad.

## Block Nazi Reserves

A bulletin from Red Army headquarters said the Russians, apparently striving to divert Nazi reserves from going to the relief of 90,000 Germans reported trapped south of Lake Ilem, destroyed 11 blockhouses and 30 gun emplacements and dugouts, and killed 2,500 Germans in a three-day battle.

Adolf Hitler's field headquarters acknowledged that the Russians were attacking fiercely on the Sevastopol and Kerch fronts, on the Crimea, but asserted that German and Rumanian troops had repulsed them with heavy losses.

Stockholm advices said Red cavalry troops had reached the vicinity of Sustjevo, a railway village, in a drive toward the Latvian border—a thrust imperiling the flank of the German armies before Leningrad.

## Stanolind No. 1 Byrd, Ward County Discovery, Ready For Nitro Shot

By Frank Gardner  
Oil Editor

Virtually assuring opening of a new sand area in Ward County southwest of the Spencer and west of the Estes pool, Stanolind Oil & Gas Company No. 1 H. L. Byrd has 1,350 feet of oil and 50 feet of water in the hole while awaiting shot.

Production is from the Yates sand horizon. The well, located in section 34, block 24, H. & T. C. survey, found sulphur water in the reef lime in drilling to a total depth of 2,890 feet and was plugged back to 2,670 feet.

Shell Oil Company, Inc., No. 1 Sealy-Smith Foundation of Galveston, scheduled 11,900-foot wildcard in Northeastern Ward, is drilling below 9,067 feet, reportedly in lime.

Fullerton Area  
Magnolia Petroleum Company No. 1-11-37 B. B. Ralph, one-half mile west and slightly south of Fullerton Oil Company No. 1 H. M. Wilson, deep Permian (Leonard) discovery producer in Northwestern Andrews County, is drilling below 2,040 feet in anhydrite. No tops have been reported.

Fullerton No. 2 Wilson, west offset to the discovery, is drilling past 3,875 feet in anhydrite, while the company's No. 3 Wilson, a north offset, has reached 1,280 feet in reef beds.

Phillips Petroleum Company No. 1-A University-Andrews, Southwestern Andrews wildcard headed for 8,500 feet or Ordovician production, is drilling in Permian lime at 4,792 feet.

Texas Pacific Coal & Oil Company No. 1 O. B. Holt estate, account 2, in the North Cowden pool of Northern Ector County, flowed 1,204.40 barrels of oil in 12 hours and was assigned special daily production rating of 2,408.80 barrels. Production is natural and originates

## There'll Be Some Changes Made

What does the war mean to you? How will it change your life? No one can look into a crystal ball and see reflected there the days and months ahead. Yet certain facts are clear, and clear enough, to outline the future before us.

Rubber and sugar are being rationed now; tin cans are getting scarce. Industry has stopped turning out automobiles to speed up plane production. In the golden dreamland of plenty that is America such shortages have been rare within the memories of most of us. We've been a prodigal people, secure in our industrial skill and superiority.

Now that the war years are upon us, the dreamland is bound to change. Civilian sacrifices are just beginning to march toward us over the horizon. Many more will follow. We've got to face that fact. We'll have to change our lives in drastic ways to win this war.

The majority of Americans already realize this. A recent public opinion poll indicates that more than three-quarters of them favor a 50 hour work week to help industry speed up its output of weapons beyond its present high levels. More than three-quarters of them are in favor of forbidding defense strikes for the duration of the emergency.

And that's only one field where changes may be made. We're in for difficult days ahead. We're going to have to give up many luxuries until the war is over. The sooner all of us realize that, the sooner we'll be able to turn defeats into victory.

—Buy Defense Bonds and Savings Stamps—

### Whistling While They Work

In one airplane factory the men are a little happier these days. One company official puts it this way: "They smile a little easier" than they used to. The reason for the good cheer? Women have joined the company as mechanics' helpers. Girls who used to be stenographers, dressmakers and salesgirls are now helping to repair airplane engines.

And they are by no means unique, these girls. In factories all over the country women are taking their places at the work benches of freedom, turning out vital material that America needs to crush aggression. In the months to come many of them will help to man the factory front as the vast new plants that are now being built go into swift production, and others are converted to war work. Industry is on the job today, quickly expanding its output of weapons for the fighting forces of free people all over the world. And partly as a result of that expansion half the women of the country will be wage earners within five years—at least, that's one prediction that has recently been made.

Not only are more women on the job now, but in many cases they are doing better work than the men. Because their hands are smaller, they are often more expert at delicate industrial operations than men are. Many companies maintain schools to train them in jobs and help them off to a flying start.

Even though this war is being fought thousands of miles away in places with foreign, unfamiliar names, here at home we're all in it. Stories like these make that fact clear and certain. We all have work that we can do to win our victory. And, whatever our job is, it's up to us to do it better than ever before.

—Buy Defense Bonds and Savings Stamps—

### Necessity Is The Mother . . .

Rabbits pulled out of a hat—that's what magic means to many people. But here in America today there's a better kind of magic.

There's magic in the speed with which our industries are tackling the hard, grim task on winning victory—magic, yes, and a great deal more than magic. The success stories of swiftly raising production are often spectacular, but behind the glamor there are plenty of tales of plain, hard work and the kind of determination to succeed that made America, and made it great.

Recently another such story came to light. American mining engineers have developed a new process to produce valuable metals from ore that used to be worthless, and they use those metals to make vitally needed chromium and aluminum. In that way they help to offset the shortage caused by the reduction of imports since the war.

Valuable as it may be, that process is only one contribution that the mining industry is making to our war effort. Other mining operations are being stepped up, too—operations that are not profitable in normal times because labor costs are so high.

To lick the Axis we've got to use all our resources to the hilt—step up operations all along the line. And that means we've all got to work harder and do our jobs better than ever before. That's one way we can all help out in the sober days ahead.

—Buy Defense Bonds and Savings Stamps—

The war will make women's hats more sensible, says a millinery designer. Instead of wasting fruit and vegetables on hats, we'll put 'em on the table.

The nation's hens broke all records by laying 3,371,000, 000 eggs in January. They also serve who only set.

We don't know whether to take some of the critics of the Army and Navy at their face value or two-faced value.

# SOMEWHERE IN AMERICA

## 1580 Production Soldiers Take Over Second Shift In A Warplane Factory

# Texans At War

By The Associated Press  
Those who slow the war effort are traitors and should be dealt with as such, Major Gen. George V. Strong, commander of the VIII Army Corps, said Thursday night at the annual banquet of the Brown-wood Chamber of Commerce.

"Any individual who knowingly, selfishly and willfully, by any act of omission or commission, contributes to the slowing down of production or preparations for war at this time is a traitor giving aid and comfort to the enemy and should be treated accordingly," he declared, adding:

"We are fighting on two fronts against enemies who at present have more than ten times the number of armed, equipped and trained divisions that we have at our disposal.

In view of these facts, headlines in newspapers and gleeful, optimistic reports of radio commentators playing up as great victories that shooting down of a few aircraft or sinking of a few ships is a great disadvantage to the American people."

### To Aid MacArthur

Other Texas war views and activity: Mrs. W. A. Marsh of Dallas will accept any and all contributions to pay General MacArthur's income tax for him.

She started the fund with a dollar of her own when she read that the commander of United States and Filipino troops on Bataan Peninsula will not have to file a return next month, but will have to make the payment when the war ends.

"Now let's see how many appreciate what he and his men are doing," she said.

**Governor Speaks**  
If America loses the war it will be because "we are divided within," but "we shall win because of our great faith in the ideal of liberty and the pursuit of happiness," Gov. Coke Stevenson said in a speech at Weatherford.

Sites in Texas, including the Big Spring region, are being studied for establishment of additional Air Corps training centers, a War Department press relations officer said in Washington.

He added that greater emphasis will be given to bombardiers and navigators, who are as essential to air operations as pilots.

War Production Board sources revealed that one of six plants to increase production of magnesium, a

# Arizona Mother Shoots Daughter

PHOENIX, Ariz. A mother worrying over her 14-year-old daughter's dates with boys shot and killed the sleeping girl Friday, Detective Sgt. Earl O'Clair said.

Mrs. Inogene Martin, 49, shot her daughter Wilma, pretty high school sophomore, three times in the back, O'Clair reported.

The detective sergeant said he learned that Mrs. Martin arose from a bed she shared with her daughter, obtained a pistol from a dresser drawer and fired at close range. The husband and father, Sam Martin, real estate salesman, was sleeping in the same room. He was awakened by the shots.

"You can't do anything with her. . . I have just shot her," Mrs. Martin told her husband.

light metal essential in war equipment, will be built in Texas. Materials director William L. Batt disclosed that contracts have been concluded between the government-owned Defense Plant Corporation and six companies for units with an aggregate capacity of 157,000,000 pounds of the metal.

Local 449, Oil Workers International Union, composed of employees of Pan-American, Republic and Southport refineries, sent a telegram to Henry L. Stimson, Secretary of War, urging that steps be taken to protect refineries along the Gulf Coast.

### Plan Big Increase In War Production

WASHINGTON (AP)—Administration leaders disclosed Friday that a 30 per cent increase in war production had been charted for the next four months in a progressive speed-up that is expected to boost military expenditures to nearly \$5,000,000,000 monthly by the end of the year.

Senator McKellar (D-Tenn), floor manager for a \$32,762,737,900 military money bill pending before the Senate, said the appropriations committee had been informed that a total of \$13,684,000,000 would be spent for war purposes in the five-month period from January 31 to June 30. This would compare, he said, with \$16,000,000,000 spent from July 1, 1940, up to February 1, 1942.

**Treasury Reports**  
The treasury reported that National Defense expenditures for January were approximately \$2,100,000,000 and this amount would have to be raised to an average of \$2,737,000,000 for February and the next four months, or an increase of 30 per cent, in order to attain the new goal.

Committee members said they expected much more rapid acceleration of expenditure in the latter part of the year, in keeping with President Roosevelt's \$56,000,000,000 war budget for the fiscal year beginning July 1.

Price Administrator Leon Henderson, speaking in New York Thursday night, said that 1942 war production would cost the nation more than \$50,000,000,000 and soar to at least \$75,000,000,000 in 1943. Because of the vast outlay necessary, Henderson predicted the "level of living" in the United States would sink quickly below the lowest point of the last depression.

### MACHINIST ENDS LIFE AFTER BROTHERS ARRESTED

SAN ANTONIO (AP)—Otto Bernhardt, 48, a machinist at Duncan Field and a native of Germany, was found hanged Friday near his home. Relatives notified the sheriff's office Bernhardt disappeared immediately after being informed that two brothers had been arrested by the FBI at Dallas.

A verdict of suicide was returned by O. L. Wiley, justice of the peace.

### Wants Tankers Used To Haul Heating Oil

WASHINGTON (AP)—The Petroleum Coordination Office reported Friday that supplies of oil for heating homes in the East were "dangerously low" and called for use of all suitable tanker ships to haul the needed oil as well as increased movement of domestic heating oil eastward by rail.

Tankers now hauling gasoline from Gulf ports to the Eastern Seaboard should be used to haul fuel oil if they are suitable, Ralph K. Davies, deputy petroleum coordinator, advised the fifteen companies supplying East Coast markets.

The East last week was placed under a rigid system of curtailed heating oil deliveries, with no domestic or industrial user allowed to get more fuel while their tanks are more than one-fifth full.

Over 1,250,000 dwellings in the 17 Eastern States and the District of Columbia use oil for heating.

A petroleum industry source, however, expressed the opinion that rationing of gasoline would be necessary, and he said that should restrictive measures be adopted he believed their application would be on a nation-wide basis and not limited to Eastern and Pacific Northwest areas.

## St. Patrick's Bridge Fetes Cardette Club

The green-and-white of a St. Patrick's Day motif featured party appointments when Mrs. J. Alfred Tom was hostess to the Cardette Club at her home, 406 W. Illinois, Thursday afternoon.

Green-and-white candles and a refreshment plate in the same colors added to the gala air of accessories.

In the three tables of bridge played, high score went to the hostess and second high to Mrs. George Heath.

Present were: Mmes. G. J. Sevier, Heath, Carl Covington, D. R. Carter, B. H. Self, C. G. Cooper, Braun, Joseph Mims, Kenton S. Boone, John Nichols, Pearl Blair, and the hostess.

Next meeting will be with Mrs. V. G. Stolte.

## Mrs. B. C. Girdley Entertains For Needlecraft Club

Blue cornflowers and yellow acacia were floral appointments when Mrs. B. C. Girdley, 1900 W. Missouri, was hostess to the Needlecraft Club, Thursday afternoon.

Knitting and crocheting were done and a salad plate was served. Afterward the group visited a member, Mrs. Geo. Phillips, who recently underwent an operation.

Present were: Mmes. J. A. Tuttle, John Dunagan, J. O. Vance, H. G. Begford, P. B. Kasper, J. K. Wright, Wallace M. Ford, and the hostess.

Next Thursday the club will meet with Mrs. Kasper.

### RETURNS HOME

Mrs. H. C. Watson has returned from New Orleans where she visited her son, Van Ed Watson, who is in the Army Air Corps.

## Bridge-Luncheon Courtesy For The 1928 Club, Guests

Mrs. Tom Sloan complimented the 1928 Club and a trio of guests with a luncheon and bridge at Hotel Scharbauer, Thursday afternoon.

Luncheon was served in the Blue Room where places were laid at a large table centered with red tulips. Afterward three tables of bridge were played in the private dining room. Bridge accessories carried out the George Washington theme.

High score for guest went to Mrs. Foster Schempf and high score for club member to Mrs. John House with bingo award to Mrs. B. H. Blakeney.

Guests were Mrs. Essie Stafford, Mrs. Schempf, and Mrs. Hunt. Members attending were: Mmes. Blakeney, Frank Cowden, James Fitzgerald, John House, Roy Parks, Clarence Scharbauer, William Simpson, Don C. Sivals, John B. Thomas, Ed Whitaker, and the hostess.

## Westside Club Meets At Home Of Mrs. King

Egg and whole wheat cooking were brought out in the program of the Westside Home Demonstration Club meeting at the home of Mrs. Herbert King, Thursday afternoon.

Mrs. J. L. Hundle led the recreation.

Demonstrations were given on the making of whole wheat yeast bread, two raw vegetable salads, with hard-cooked eggs, cheese soufflé, omelet, and egg custard. The cheese soufflé is made as follows:

Make a white sauce by melting 2 tablespoons of butter, adding 3 tablespoons of flour, one teaspoon salt, and one cup hot milk and cooking in a double boiler until smooth.

Let the sauce cool slightly and add to 3 beaten egg whites which are in another container. Then add one cup cheese grated and the unbeaten egg yolks. (If cheese is lumpy put back on stove and heat till it is melted.) Put mixture in baking dish and cook 30 minutes at 300 degrees.

Present at the meeting were: Mmes. V. L. Feazell, C. O. Welch, I. O. Sturkie, O. R. Phillips, J. D. Webb, S. L. Alexander, Jim W. Baker, Blake, Hundle, and the hostess.

**Coming Events**

**SATURDAY**  
Story Hour in the children's library at the courthouse will be Saturday morning at 10 o'clock.

Treble Clef Juvenile Music Club will meet at Watson Studio, 210 W. Ohio, Saturday morning at 10 o'clock.

There will be no soldiers' dance in the recreation room Saturday night.

Minnet Club will have a Forty-Niner party in the Crystal Ballroom of Hotel Scharbauer, Saturday night opening at 10 o'clock. Each couple is asked to come in costume and bring a box lunch.

Town Hall will present Don Blanding in a lecture at the high school auditorium, Saturday evening at 8 o'clock. Each member may bring two guests.

### PRAIRIE LEE CLUB HAS CUPTOWEL DEMONSTRATION

Prairie Lee 4-H Club girls opened their meeting Tuesday with a recreation program including songs and games.

Dessie Casbeer showed how to start making a cup towel and Evelyn Ware showed how to make a corner decoration.

Miss Alpha Lynn, county home demonstration agent, demonstrated patching. Present were: Peggy Lands, Ila Merle Franks, Lavada Crudup, Verma Dodson, Juanita O'Neal, Kathryn Richman, Billie LaJean Pigg, Reta Munsell, Dessie Casbeer, Mary Louise Baze, Evelyn Ware, Fay Casbeer, Ruth O'Kelly, Helen Harrison, and the hostesses, Miss Lynn and Mrs. Riley.

## As You Like It Club Meets With Mrs. Paul Smith

Sewing, conversation, and music were diversion when members of As You Like It Club met with Mrs. Paul Smith, 900 W. Kentucky, Thursday afternoon.

Present were: Mmes. Bob Baker, John Allen Sewell, Opal Ponder, P. E. Curtis, and the hostess.

Next week the club will meet with Mrs. Baker.

### STOCK PONDS WITH FISH

ALBUQUERQUE (AP)—The dust bowl can help, too, in the war effort.

Philip F. Allan, regional biologist of the Soil Conservation Service, suggests farm ponds in the once drought-stricken area be stocked with fish to help contribute food.

### PERSONALS

Mrs. Geo. Phillips is recuperating at her home here, having returned from Lubbock where she underwent major surgery.

Mr. and Mrs. J. M. Hughes were to leave Friday for Memphis, Tenn., where they were called by the serious illness of her brother, Taylor Duncan.

## The Greatest Value May Be Overlooked Until Too Late

Matt. 13:44 The kingdom of heaven is like unto a treasure hidden in the field; which a man found, and hid; and in his joy he goeth and selleth all that he hath, and buyeth that field.

By R. A. Weaver

"The time is now at hand which must probably determine whether Americans are to be freemen or slaves. The fate of unborn millions will now depend, under God, on the courage and conduct of this army. Let us, therefore, animate and encourage each other, and show the whole world that a freeman contending for liberty is superior to any slavish mercenary on earth."

The foregoing is taken from George Washington's General Order of July 2, 1776. Almost 166 years ago, but how aptly this applies to this good day! The Kingdom of Heaven was the Way of Life which Jesus came to set up in the world 1942 years ago. It represents the Good Way of Life which good men have undertaken to perpetuate through the years. But always there have been adversaries, handicaps, reversals and opposition from those who could not see the ideals and the beauty of a World Brotherhood, and the way of this good life has been the way of the Cross—bloody and straitened and wearisome.

### The Cross-Roads

Today every living human being faces the cross-roads of destiny. No one can live today without facing the alternatives of fate. On the one hand there is the Way of Life, which though imperfectly is espoused by those who seek to maintain the democratic way of living. On the other hand, there is the way of life as demonstrated by those who believe in the totalitarian forms of government—a way of life in which the individuals of a state or nation are as mere cogs in the wheels, or pawns on the chessboard of life. On the one hand we have life, liberty and the pursuit of happiness; on the other we have slavery, peonage and death. The world today MUST ANSWER to the question, "Whose will is this day?" Every single individual is COMPELLED to make answer now, for the end depends upon the answers given back by the rank and file of humanity.

### Realism Imperative

The writer of these lessons is a non-belligerent in all matters that pertain to peace and tranquility; but nevertheless, he is a realist, and in the face of facts we must all face what is ahead.

### Two Kingdoms Maintain

There are in the world today two kingdoms seeking supremacy. These kingdoms are seeking to rule the lives of individuals and fashion the way of life in every detail. One of these kingdoms, which seems ferocious, terrible and moved by the most brutish cruelty is represented by the Axis powers. What this power may mean to your way of life can be judged from what happened at Nanking. There things were done that might be expected to be done in America if we do not grid our loins. For it was in Nanking that the foulest spectacle of horror in modern history was perpetrated. The soldiers ran amuck—like wild beasts—robbing, killing, and ravishing. Old women and little girls were dragged from hiding by drunken gangs and left dead. The helpless were slaughtered without mercy, and the gutters ran with blood. But the Japs are not the only ones guilty of this rape of civilization and culture. In Greece—Greece, whose glory once outshone the sun in art and beauty, Greece, whose love for the good, the true and the beautiful found a place in the sun, Greece, glorified by the high ideal of loveliness, was raped by the hordes of barbarians from the land of the Reich. Authenticated reports tell of German planes camouflaged as Greek planes flying over Greek schools, where little boys and girls mistook them for friendly protectors, and as these little boys and girls came out to salute them, these instruments of death greeted the little boys and girls with bombs and machine guns. Well, that is history, and history teaches one how to judge and how to act. All we can say is, Americans cannot stoop so low as to machine-gun defenseless women and children—no matter how hard may become the task to preserve the good way of life. America will never consent to obliterate Japan if it requires the death and destruction of women and children. That is not the way of life that we understand it.

### The Kingdom of Heaven

The other kingdom seeking supremacy is the kingdom set up by the King of Kings and the Lord of Lords. Its government was for and by the people. It guaranteed to all certain unalienable rights—among which were life, liberty and the pursuit of happiness. Its perpetuity depends upon equity, brotherhood, equality before the law, and freedom to worship God. In this Kingdom, happiness depends upon mercy, meekness, charity, faith, hope and love—for these virtues never

## T.E.L. Class Meets For Covered Dish Luncheon

T. E. L. Class of the First Baptist Church met with Mrs. Atchley, 606 S. Main, Thursday, for a covered dish luncheon.

After the luncheon hour, the devotional was presented with Mrs. Hazel Krapf reading the scripture selection and Mrs. S. W. Miller offering prayer.

Plans were discussed for the next month. Present were: Mmes. T. O. Midkiff, Miller, J. H. Williamson, Krapf, J. H. Barron, and the hostess.

## Rankin Highway Club Has Cookery Program

"Things about My Family Diet I Would Like to Change," was the roll call subject at the meeting of the Rankin Highway Home Demonstration Club with Mrs. E. D. Richardson, Wednesday afternoon.

A program on cookery was presented with Mrs. T. D. Jones, Jr., Mrs. W. B. Franklin, and Mrs. Charles Lynch taking part. An egg salad, whole wheat muffins, and cracked wheat cereal were prepared and served.

Mrs. Richardson reported on the county council. The club is doing Red Cross work. The group will entertain husbands with a 42 party, March 6, at the home of Mrs. Lynch.

Mrs. T. O. Midkiff was a visitor and Mrs. Fish Pollard a new member. Other members present were: Mmes. Lynch, Franklin, Jones, R. C. Frasier, J. C. Miles, and the hostess.

## DISCHARGED FROM HOSPITAL

Mrs. Mae Burrus was discharged from Western Clinic Hospital Thursday evening.

## Wool Business Makes Effort To Do Business

BOSTON (AP)—The Commercial Bulletin will say Saturday: "While the promulgation by the government of the new permanent short wool price ceiling and the allocation order for consumption in the second quarter of the year have left the wool industry in a somewhat confused frame of mind, there has been an effort where possible to do business. This has happened especially where the price ceilings have offered a speculative opportunity, because they are higher than the previous individual ceilings."

## Milk Grades Are Posted For Health Unit For Midland

The director of the Midland County health unit, Dr. W. S. Brumage, has announced that grading of all milk supplies distributed in the county had been completed, and has been reported to all sales outlets.

The grade awarded each supply source products is carried on the bottle cap. In general, there are two grades classified as "A", one is pasteurized and the other raw milk. The health department recommends that when raw milk is purchased that it be pasteurized at home. Booklets telling how to pasteurize milk at home are available at the medical unit offices in the court-house.

Awards made on grades in Midland included, for Grade A Pasteurized, the Banner and Snowwhite creameries; and for Grade A Raw for retail sale that of Roy Collins, B. C. Eidsom, L. W. Hines and S. D. Wimberly. All the dairies which supply milk to both the creameries for pasteurization have met the specifications for Grade A Raw milk.

# McKENNEY ON BRIDGE

By William E. McKenney  
America's Card Authority

At the outset of this series of articles on opening leads, I said that there are two questions to be answered: First, what suit should I open? Second, having decided on the suit, which card should I lead?

The articles have discussed the second question in full. Here we find the leads standardized by practice dating back to the earliest days of auction bridge.

Bridge would be a much easier game if we could always infer the best lead (the lead we would choose if we could see all four hands) from the sight of one hand and inferences from the bidding. All that we can do here is to point out some of the factors that the leader should weigh in making his choice.

One factor is a principle important in all defense, caution in cashing aces and kings. These high cards held by the defense often stand in the way of the declarer's developing enough tricks for his contract. They give the defense time to attack; the declarer's weakness, and therefore should not be led out without careful consideration.

In today's hand, West might lead the king of hearts in order to "take a look at dummy," as the saying goes. But this look would give the declarer his contract against any defense.

In clubs West has a solid sequence that can develop a third-round trick. West should open the queen of clubs to develop this trick before his ace and king of hearts are forced out.

## Comfortable Frock

8048

Designed for larger figures, here is a dress which fits with such gracious ease that we particularly recommend it for anyone who has difficulty in finding comfortable styles because of size. Two shoulder yokes of original design frame a pleasing open neckline which is a lovely background for clips or a brooch. Gathers below the yokes and at the waistline control the generous fullness which gives complete ease through the bodice.

Pattern No. 8048 is in sizes 36 to 52. Size 38, short sleeves, requires 4 3/4 yards 35-inch material, three-quarter sleeves, 5 1/8 yards.

For this attractive pattern, send 15c in coin, your name, address, pattern number and size to The Reporter-Telegram Today's Pattern Service, 211 W Wacker Drive, Chicago.

Send for the Fashion Book to help you with your spring sewing problems. This complete catalogue of pattern styles offers suggestions for all sizes from 1 to 52. Pattern 15c. Pattern Book 15c. One Pattern and Pattern Book, ordered together 25c. Enclose 1c postage for each pattern.

## Army May Move Japs From Coast

SAN DIEGO, Calif. (AP)—A report that Japanese residents in this vital military sector are to be shipped "somewhere East of the Sierra" came from the United States attorney's office, stirring talk anew Friday of the ultimate disposal of California's 93,000 Japanese, 33,000 of whom are aliens.

Norman Neukom, Assistant U. S. Attorney, said he was told authoritatively that evacuation orders were being drawn up, affecting the American-born second generation as well as alien Japanese in San Diego County.

Such removal orders would be made by the Army under authority recently given by President Roosevelt to set up military zones from which military authorities could exclude anyone.

## Unpopular Convict Is Electrocut

OSSINING, N. Y. (AP)—The Sing Sing Prison death house lost one of its most unwelcome guests Thursday night when George Joseph Cvek, scorned even by fellow condemned men, was electrocuted for strangling to death a Bronx housewife.

The 24-year-old hitch-hiker, who was convicted of slaying Mrs. Catherine Pappas, 34, and who admitted raping or robbing at least 14 women in various Eastern cities, smiled when he entered the execution chamber.

WASHINGTON (AP)—War Production Chief Donald M. Nelson will broadcast at 8:45 p. m. over the Blue network the first of three talks telling all classes of citizens what they can do to help win the war.

## NEW SIAMESE TWINS ARE BORN IN NEW YORK

NEW YORK (AP)—Science sought an answer Friday to the question whether two newborn girl babies must spend their lives jointed together face to face or whether the knife could rectify nature's phenomenon.

Although an operation to separate the siamese twins is contemplated, Dr. Peter Timponne, who delivered them Thursday to Mrs. Jessie Pic-

ciotto, 25, said at least 10 days would be needed for X-rays and other examinations to determine how closely their organs and circulatory systems were connected.

## FILLO SHORTAGE POSSIBLE

NEW YORK (AP)—A possible pillow shortage confronted the public Friday as the Army and Navy announced the letting of contracts for 1,000,000 duck feather pillows and the Navy one for 650,000 filled with chicken feathers.

## Honors To Cooper And Joan Fontaine

HOLLYWOOD (AP)—Joan Fontaine and Gary Cooper were given gold statuettes as the outstanding actress and actor of 1941 at the movies' first wartime awards meeting Friday.

Miss Fontaine won for her portrayal of a woman who lived in constant fear that her husband would kill her. The picture was

## Says Defense Bonds, And Stamps Check Inflation

OREGON, Ore. (UP)—Defense bonds and stamps constitute an effective way to safeguard against inflation, in the opinion of Edward G. Daniel, professor of business administration at the University of

Oregon. "There are only two ways the federal government can finance the war," he said. "One is taxation and the other is borrowing. "If the citizens of this country will voluntarily lend significant sums to the government through investment in defense bonds and stamps, the purchasing power will be transferred from civilians to the government, thereby reducing the magnitude of inflation."

## FUNNY BUSINESS

"Hey, Joe, how do you feel when temptation hits you?"

## SIDE GLANCES

"There's a bright side to things, too—much to my surprise, I had no trouble persuading my wife it would be unpatriotic to buy the new fur coat she's had her eye on!"

Blow The Man Down!

Want to break your lease? Alienate your friends? Then pick up a second-hand bugle from The Reporter-Telegram want-ads. Get "in the groove." Give the King of Swing some competition.

## THE REPORTER-TELEGRAM

### RATES AND INFORMATION

**WANT ADS:**  
 So a word a day.  
 40 a word two days.  
 80 a word three days.  
**MINIMUM CHARGES:**  
 1 day 25c.  
 2 days 50c.  
 3 days 75c.  
**CASH** must accompany all orders for classified ads, with a specified number of days for each to be inserted.  
**CLASSIFIEDS** will be accepted until 12 noon on week days and 6 p. m., Saturday, for Sunday issues.  
**PROPER** classifications of advertisements will be done in the office of The Reporter-Telegram.  
**ERRORS** appearing in classified ads will be corrected without charge by notice given immediately after the first insertion.  
**FURTHER** information will be given gladly by calling 7 or 1.

### Personal

**LISTEN** in on Radio Station KRLH from 1 to 1:15 P. M. each Saturday—your best cattle market is on the air. LUBBOCK AUCTION & COMMISSION CO. (221-1f)

**PRACTICAL** nursing by day or week, experienced. Hazel Krapf, Magnolia Tank Farm, Cottage 9. (302-3)

**SPENCER** Corsets and Brassiers, individually designed. Mrs. R. O. Collins, 701 N. Big Spring, Phone 637-J. (303-7)

**TRAVEL BUREAU** 5  
**COURTESY TRAVEL BUREAU**  
**CARS** Every way every day. Share expense plan, average cost 1c per mile. For information phone 337, Odessa. (299-6)

**A1 Ford** to Austin Monday return Wednesday. Want passengers to share expense. Palace Barber Shop. (303-3)

**Education and Instruction** 8  
**MEN** or women to enroll as aircraft workers for training. Good earnings. See or write Branham, Aircraft Training Schools, Clark Pontiac Co., Big Spring, Texas. (304-1)

### Help Wanted

Thousands of Assembly Mechanics and Inspectors Needed in Aircraft Industry Men 18 to 65; Women 18 to 40  
 ONLY through Government-approved school can you get your Government A. & E. license. We can qualify you in seven weeks as an assembly mechanic (the shortest and most definite route to a good aircraft job). We will help you finance your training. Build for the future. Do your bit!

 Phone 74  
 Services ALL MAKES of cleaners in 10 towns for patrons of Texas Electric Service Co. Why not yours?  
**Cash For Old Cleaners**

**Teachers Told Keep Study Paced To War**  
**MINNEAPOLIS, Minn. (UP)**—President Walter C. Coffey of the University of Minnesota has called on all faculty members to release the material in their courses to the war.  
 In a letter to the faculty, Dr. Coffey asked the staff to "give an orientation to classroom materials that will help students see relationships between what goes on in the university and the larger problems of the world beyond the campus."  
 He also urged the faculty to point out to students the advantages of sound habits and good health, and requested the staff to take advantage of recreational and body-building facilities at the university.  
 "We are all certain," Dr. Coffey said, "to be called upon to give extra service to the state, government or institution in some form. Ours is a common responsibility. We must share it."  
**Lumbermen Ready To Cut Timber For Plane Needs**  
**WHEELER, Ore. (UP)**—Lumbermen in this area believe high-grade old-growth spruce may be used in American planes because of the metal shortage, and operators are studying areas where they can log in event the call comes.  
 Airplane spruce manufactured in coast mills was used extensively in the last war.

**LITVINOFF WANTS ALLIES TO BEAT HITLER TO PUNCH**  
**NEW YORK (AP)**—Simultaneous United Nations attack on two or more widely separated fronts this Spring would destroy Hitler by Summer, in the opinion of Maxim Litvinoff, Russian ambassador to the United States.  
 Only by this strategy, and by continuing to supply Russia with materials for the Eastern front, he told the Overseas Press Club Thursday night, could the Allies "dispose of" Nazi armed forces.  
 In his first public address since taking his post in Washington the Soviet diplomat, whose remarks were broadcast by the Mutual System, called on Russia's Allies not to miss this opportunity to beat Hitler to the punch with a widespread springtime offensive.  
 "He (Hitler) is preparing for a spring offensive," Litvinoff said, "and he thoroughly understands the importance of the Eastern campaign."  
 "He knows that either he will win this campaign, and win all, or he will lose it and lose all. We should like our Allies and friends to see this as clearly as Hitler does, and to act accordingly."

**Judge Proves Good Linguist At Trial**  
**TYLER, Tex. (UP)**—The prisoner, a Mexican, a follower of the late Pancho Villa, could speak almost no English. Court attaches were searching for an interpreter.  
 But Federal Judge Randolph Bryant stopped them.  
 "You underestimate me," he said.  
 The judge conducted the trial of Jesus Hernandez, charged with manufacturing illegal whiskey, entirely in Spanish.  
 Judge Bryant brought out that Hernandez, whose deep scarred face showed he had at least one close brush with death as a soldier of Villa, had lived in this country 20 years and that this was his first offense against the law in this area.  
 Hernandez pleaded guilty, but was given a suspended sentence as a first violator.  
 The Mexican smiled his appreciation. Then he spoke to Judge Bryant.  
 "Muchas gracias! Yo no hare mas licor."  
 That means — "Thank you! I will make no more liquor."

**Answers To Cranium Crackers**  
 Questions on page 2  
 1. An oyster bar is a place where oysters are sold to be consumed on the premises.  
 2. The poet, Alfred Lord Tennyson, wrote "Let there be no moaning at the bar when I put out to sea" in "Crossing the Bar."  
 3. Sloppy Joe's Bar, famous Havana saloon frequented by Americans, was closed for the duration recently because of the decline in tourist trade.  
 4. Prisons do not necessarily have bars on their windows. Many prisons for women, youths and first offenders have unbarred windows.  
 5. Postal officials can and do bar obscene and treasonable literature from the mails.  
 Motor vehicle accidents accounted for one-third of the accidental deaths in 1940, while death from falls accounted for one-fourth of the death total.

## Oil News--

(Continued from page 1)  
 from zone between 4,510 and 4,730 feet, total depth. Oil tests 32.7-gravity and gas-oil ratio is 526-1.  
 West of Lamesa in Dawson County, Ray A. Albright and Richmond Drilling Company No. 1 Rose is drilling at 4,370 feet in broken lime and anhydrite.  
**Abell Producer**  
 Large production from the Waddell sand, lower of two oil sands in the Abell field of Northern Pecos County, is indicated by Magnolia No. 5 State-Sidney Silverman, in the southwest sector of the pool. It topped the Waddell (Sharp) sand at 5,951 feet and is bottomed at 5,961. After 2-inch tubing was run, mud was displaced with water and water with oil. The well then kicked off, and, through open tubing, flowed 34.84 barrels the first hour and 39.46 the second. The next two hours, through a one-half inch choke on tubing, it flowed 32.43 and 32.44 barrels, respectively. Testing continued.  
 The same firm's No. 1 State-Arthur M. Loe, one mile southeast of Abell production, started coring at 5,454 feet and is coring ahead. At that point it was about due to have encountered the McKee sand of the Simpson, middle Ordovician.  
 Magnolia No. 1 Ella C. Price, Northeastern Pecos wildcat, halted drilling at 5,506 feet in Ellenburger, lower Ordovician, dolomite topped at 5,200 feet. The well already had tested sulphur water in the Ellenburger. It now is shut down for orders after running Schlumberger electrical survey.  
 Skelly Oil Company No. 1 Roberts, scheduled 7,000-foot Ordovician test in Terrell County, is shut down for repairs, bottomed at 3,940 feet in sand and shale.

## Big Spring--

(Continued from page 1)  
 Air Corps assignments if they are between 18 and 26, the officer continued. Those successfully passing "screening tests," which judges them on their general comprehension and aptitude, regardless of their formal educational background, are assigned to branches of the Air Corps for which they are best suited or perhaps desire to enter.  
 Take the case of a youth who successfully passes the screening test and then goes to a bombardier training school. There he is put through various bombing training flights, including those by day and night and at various altitudes. Some flights are in the light, dive bombing planes; some in the light class single-motor two-man planes; training motor heavy bombers. Training is given in use of the secret bomb-sight equipment which the American Air Force boasts.  
 A bombardier effective in a light bomber can fit equally well in a heavy plane, the officer added. When finishing training school he is assigned to an outfit, and in all probability remains with the same pilot and navigator for combat duty.  
 Navigators receive specialized training in following courses, studying weather maps, and other important data. The press officer said he could not state the turnover such schools would have in training of air crews when the program got under full swing.

**Charles A. Shaw Joins Sun Oil Offices Here**  
 Charles A. Shaw has been transferred here from Dallas by the Sun Oil Company and has assumed duties in the geological department of the Midland office. His family will join him shortly.

## KINGS ROW

BY HENRY BELLAMANN

**THE GORDONS ARE STERN**  
 CHAPTER XV  
**ANNA'S** diagnosis of Parris' state of mind was correct. Her observation was a neat compound of native peasant shrewdness and affectionate intuition. Parris was apprehensive and miserable for precisely the reasons she had named.  
 Today, for the first time since—since that dreadful day, he walked boldly down through the evergreen groves toward the pond.  
 "Renee, my darling, I love you. I didn't know then how much. I know now."  
 At the sound of the words which startled him back into the present, all sense of her presence was gone.  
 Time had begun to pass. It wouldn't ever stop now. It would go every day, faster and faster. A stirring, unhappy, frightening thought.  
 Parris sighed. "Maybe it would be more sensible for me just to be a doctor, and not start out to specialize in any sort of way, but—"  
 "Well!"  
 "It's just that I think I really want to. It sounds a lot more interesting."  
 "It is. It is a vast field for research. I don't know if the time has come for this kind of study, or not. It looks as if it might come now."  
 "I guess I keep thinking of Lucy Carr, the—"  
 "Oh, yes. The insane woman you played to. Oh, yes, yes."  
 "And Benny Singer."  
 "You don't feel such people—well, sort of objectionable?"  
 Parris looked as if he didn't understand what the doctor meant. He shook his head. "No, sir. Never. I liked Mrs. Carr, and I like Benny Singer."  
 Dr. Tower half closed his eyes. "I sometimes think the whole thing is a problem for the poet."  
 Dr. Tower stood up. He pushed books and papers about impatiently. "Well, I hope you've enjoyed the chat. I did. Now, get on with you, Parris Mitchell. You've got a summer of tough work ahead. I won't fool you about that. We'll get those letters off to Vienna, and then we'll know in a month or so how things stand."

**PARRIS** found Dr. Tower reading. He appeared as calm and unperturbed as always.  
 "I just heard a few minutes ago about Mrs. Tower. I'm very sorry."  
 Dr. Tower looked as if he were not really listening. He inclined his head again.  
 Parris stammered a little, and continued: "I was away, you know. My grandmother was away, too, in St. Louis, or you would have heard from us."  
 An awkward silence fell between the two. Parris fumbled with some papers.  
 "Madame von Elb came to see me just before she went to St.

**Louis.** She wanted to know if you'd be ready to go to Vienna in September."  
 Parris' breath went out of him. "Oh." His tone was dreary.  
 "Parris, I undertook this work with you with decided misgivings. I guess it's fair to you to tell you that it has been a pleasure."  
 Parris blushed.  
 "I hope that when you get into your work in Vienna you'll find that—all of this has been a help. Some of it has been inadequate, some of it has been—in advance of any institutional study you could have gotten anywhere. I think some of it will prove useful."  
 Parris felt a quick surge of curiosity. He was sure that this man was really able and intelligent—probably a very fine doctor. What was the matter? What landed him here in Kings Row with his sole contact these lectures and talks to a medical student?  
 Parris sighed. "Maybe it would be more sensible for me just to be a doctor, and not start out to specialize in any sort of way, but—"  
 "Well!"  
 "It's just that I think I really want to. It sounds a lot more interesting."  
 "It is. It is a vast field for research. I don't know if the time has come for this kind of study, or not. It looks as if it might come now."  
 "I guess I keep thinking of Lucy Carr, the—"  
 "Oh, yes. The insane woman you played to. Oh, yes, yes."  
 "And Benny Singer."  
 "You don't feel such people—well, sort of objectionable?"  
 Parris looked as if he didn't understand what the doctor meant. He shook his head. "No, sir. Never. I liked Mrs. Carr, and I like Benny Singer."  
 Dr. Tower half closed his eyes. "I sometimes think the whole thing is a problem for the poet."  
 Dr. Tower stood up. He pushed books and papers about impatiently. "Well, I hope you've enjoyed the chat. I did. Now, get on with you, Parris Mitchell. You've got a summer of tough work ahead. I won't fool you about that. We'll get those letters off to Vienna, and then we'll know in a month or so how things stand."

**PARRIS** was deeply concerned for Drake, whose pride had been dealt a telling blow by Dr. Gordon. That Drake was in love with Louise Gordon, Parris did not doubt—not that frail, pretty Louise, weakened in strength and purpose by the united wills of overwhelming parents, loved Drake.

**PARRIS** looked respectfully at Drake.  
 "Are you going to do it?"  
 "Can't. I just halfway hinted to old Curley something about an investment, and he nearly jumped on me. Not a cent till I'm 21! I'd borrow it against my inheritance, but I don't expect anybody'd let me have it. Curley'd stop anything, I guess."

## Rice Owls Lead; Razorbacks Seek Championship Tie

By The Associated Press  
Southwest Conference basketball teams start the last lap in the trail Friday night.

With the Rice Owls ahead in percentage, the Arkansas Razorbacks will be scrambling to draw abreast of them in a battle with Texas Christian University at Fayetteville.

Rice has only one more game to play, that with Texas at Austin Saturday night. Arkansas meets TCU again Saturday night to wind up the schedule.

Rice and Arkansas are favored to come through and thus finish in a tie for the championship.

Southern Methodist plays Baylor at Waco Saturday night and Texas clashes with Texas A&M at College Station next Tuesday night in the remaining games on the schedule.

Thursday night Southern Methodist's Mustangs won their first game of the season, defeating Texas A&M, 35 to 33. SMU was in the lead at half time, 24 to 9.

Triple-threat troops are these U. S. paraskiers who'll go into action as parachutists, skiers and expert marksmen. Now finishing up ski training near Salt Lake City, they'll soon be making their first 'chute jumps.

## Two Service Teams In Basketball Tournament

DALLAS (AP)—Two service teams will compete in the annual Southwestern Amateur Athletic Union Basketball Tournament.

The U. S. Naval Reserves of Hensley Field entered Thursday, L. G. Wilson, tournament director, announced. The Sheppard Field Aviators of Wichita Falls had entered previously.

Other teams to play in the tournament will include the East Texas State Lions and the Texas Wesleyan Rams.

### Wool

BOSTON (AP-USDA)—Demand for spot greasy short domestic wools was very limited Friday in the Boston market. Small quantities of graded French combed length fine territory wools were sold at \$1.12-1.15, scoured basis. Graded French combed length one-half blood territory wool brought \$1.07-1.10, scoured basis. Medium grades of territory wool were generally very quiet.

### GIRLS STATE TOURNEY TO BE AT HILLSBORO

HILLSBORO (AP)—The state high school girls basketball tournament will be held here March 5, 6 and 7. L. C. McKemie of Abbott, director general, announced Friday.

## Joe Miller, Nation's Top Bowling Instructor, Amazes Midland Fans

### Grandfalls-Royalty To Hold Tournament

MONAHANS (Sp) — Grandfalls-Royalty will hold its annual invitation volley ball tournament Saturday, with teams from Kermit, Crane, Fort Stockton, Pyote, Buena Vista, and Wink probably entries.

Trophies are to be awarded first place, second place and consolation winners, and awards will be presented to six girls who are to be picked for all-tournament team. Eliminations are to be held throughout the day with finals in tournament and consolation brackets coming Saturday night.

### Gerald C. Mann Seeks Third Term

AUSTIN (AP)—Texas No 1 political question was answered Friday—Attorney General Gerald C. Mann will run for a third term and not for U. S. Senator or the governorship.

The youthful former football star, in whose office hangs a sign "I sacrificed no principle to gain this office and I will sacrifice none to keep it," announced his candidacy, forwarded his filing fee and thus helped clarify next summer's campaign picture.

When a bowler receives an impressive trophy for rolling high scores, that's to be expected. But, when his pupils present a handsome trophy to a bowling instructor, that's his news.

That is just what happened in the case of Joe Miller of Buffalo, New York who made a personal appearance in a bowling exhibition at Midland's local alley Thursday night.

Presented through the courtesy of his company, makers of Ebonite bowling balls, Miller gave Midland bowlers many valuable tips in Thursday night's exhibition. In addition to his instruction address, he gave some dazzling demonstrations of supposedly impossible shots. Selecting opponents from the audience, Miller gave a surprising display of bowling championship style in duplicating any shot made by his opponents. He would try to lay his pins down in the same order of his opponent's whether it was a strike, spare, or split, and the audience was amazed at his ability to do so.

In explaining why he used such tactics in his exhibitions, Miller said, "I didn't come here to beat your local bowlers, but I did come here to help them. In bowling this method maybe you can see something about my delivery, my speed, or my motion that will help you straighten out some of your faults." Besides being a gift-receiving popular instructor, the well-known Buffalo kegler, has another claim of fame. "Consistency" is Joe's middle name and he gained it when he won the national singles match championship for the 1933-34 season. He qualified in Buffalo with an average of 211 for 32 games. He won the Eastern eliminations with an average of 211 for 128 games. He won the title from Stew Watson, Chicago winner of western eliminations, with an average of 211 for 80 games. In fact his average was 211 for all of the 240 official games.

That was a great season for Joe as he registered a 222 average for 90 games in the Buffalo Classic League.

These are a few of the many reasons why Joe Miller is an A-1 tennis teacher and why his pupils gave him a cup just the other day, proclaiming him America's number one bowling instructor.

### Senate Farm Bloc Defies Roosevelt

WASHINGTON (AP)—The Senate farm bloc defied the administration Friday and pressed its proposal against spending any of the projected \$32,762,737,900 war appropriations for surplus agricultural commodities at less than parity prices.

Leaders sought to prevent Senator Thomas (D-Okla.) from presenting such an amendment, but Thomas told reporters he had no intention of giving ground. In effect, "Thomas' amendment would prevent the War Department from purchasing government-held surpluses of cotton, corn, wheat and other products from the Commodity Credit Corporation at less than parity which is a fixed price, usually based on the 1909-14 period, calculated to give the farm equality of purchasing power.

Employers May Move Them Anyway, with a transportation crisis facing the migrants, their problem of moving from one crop to another and one farm to another is something for the employing landowners to think about. In the truck farming and orchard districts you may see employers being forced to provide transportation for their temporary, seasonal labor. The picture of the landowner sending his trucks south to pick up his labor and haul it right to his own premises is one that may become common—if the employer, of course, rides on rubber good enough to stand such long-distance moving.

Supplementing this there must be considered the fact that an estimated 335,000 agricultural workers have been drawn into other activities—the Army or war industry jobs. That means an increased demand for farm labor. If this demand must be met entirely by the hiring of temporary labor, then a tremendous revolution will take place in the pattern of our civilization as it has been in the past.

### Motor Unit Perfected For Army Optical Need

FORT DAVIS, R. I. (UP)—If a U. S. soldier breaks his glasses in camp or in battle in the future, an optical supply truck will be ready to grind new lenses immediately.

One optical unit already has been built and equipped according to a Fort Adams announcement and five others have been ordered. Each truck will carry an assortment of semi-finished lenses which can be polished to personal specifications.

Five men will operate each unit which will have a production capacity of 120 single lenses daily.

### Given Room And Board To Write Air History

ROCKDALE, Texas (UP)—George Sessions Pender, author of "Hold Autumn in Your Hand," tried to enlist in the Air Corps, but was turned down.

"How about something in the writing job, then?" he asked army authorities.

He was accepted and will write a history of Southwestern aviation schools.

Perry said his job is not a paying one, "not even one of those dollar-a-year things." He will, however, be stationed at Randolph Field, where he will be furnished with room and board.

### YOUTH IS CHAIN SMOKER

LONDON (UP)—A boy of 16, charged at Southwark Juvenile Court with stealing, admitted that he smoked 250 cigarettes a week.

nine or ten years. Instead of the migrant worker being merely endured and put up with and generally kicked around, he will have become an economic necessity, and the maintenance of an effective and ample migrant labor force will have become just as important as a loan from the bank, a roof on the barn, a market for the crops.

It will probably be one of the most ironical touches of the New Deal program if all this solicitude the government has shown for the unfortunate migrant agricultural workers should now bounce back and be reflected in a condition whereby this "pampering" of the Okies has resulted in the salvation, the keeping intact of a patner class which will be an important factor in harvesting the food that will win the war. Impossible as such a situation may seem, it is yet within the realms of likelihood, so far-reaching are the effects of a wartime economy on normal conditions.

Harvest Now On  
There is as yet no shortage of migrant farm labor. People in the northern states may not realize it, but the harvesting of the 1942 farm crop has already begun. Citrus fruits crops of Florida, Texas and California are on the market. Strawberries, first of the berry crops, are beginning to appear in some quantities in carload lots.

From now on until Maine potatoes and Michigan and Washington state late fruits are picked, there is a steadily swelling of activity in the farm lands which city dwellers, sitting down to their shortcake and cream, seldom think about. Farm labor scouts from the canneries have been looking over the situation, and they report enough hands in sight for this season's operations. Not too many, but enough.

Department of Agriculture's marketing service keeps an eye on this situation, too. They report findings in terms of index numbers which give a picture of the whole country. A year ago, they put this surplus farm labor supply at 85. Today it is 64. A year ago the demand for farm labor was put at 86. Today it is 94. The demand for farm labor has gone up. The despised and pitied Okies are becoming an economic necessity.

# How advertising helps lower the cost of goods —brings more joy to living!

ONE of the great paradoxes of American business is that the more a business advertises a product the less the cost of the product to you—the consumer. For instance—take disposable tissues.

When first introduced in 1925 a 200 sheet carton cost you 65c. Today it costs 13c, or two for 25c.

How did this happen?

From the advertising you saw the advantages of disposable tissues and bought. Thousands of others did likewise.

This increased sales—made the economies of mass production and mass distribution possible.

In this manner advertising lowered the cost of disposable tissues to you so you could get them for 1/5 the former cost.

The same principle operates continually with most products. Remember what radios, electrical refrigerators, automobiles, vacuum cleaners, silverware, china, pottery, women's clothing, cameras, etc., cost 15 years ago and what they cost you today. In every case costs to you have been reduced.

And quality has been improved. The system of free competitive private enterprise takes care of that.

Businesses vie to give you better quality at lower prices and through advertising they tell you how their products are better. If a business man gets

Make advertising your buying guide.

It's a guarantee of finest quality at the right price.

And don't let anybody tell you that advertising increases the

his prices too high a competitor comes in with a lower price. You are the gainer every time.

That's how advertising brings you more joy in living.

### WHAT TO DO

cost of goods. When you run into that one, tell them how advertising lowers costs through mass production and raises quality through competitive enterprise—the American system.

## Examples of lowered costs thru advertising

In these 15-year comparisons, you will also recognize that quality is better... service of the article improved
