

# Seek U.S. Help In Middle East

## Churchill, Roosevelt In Secret Meet

### Allied Strategy Will Be Decided

Warrior Chiefs Of Allies Closed With President, Premier, As Plan Second Front

By The Associated Press.

WASHINGTON—Britain's Prime Minister and America's President put their heads together at a secret rendezvous Friday over win-the-war strategy, and an abundance of factors added to a conviction on either side of the Atlantic that they were weighing planes for opening a second battlefield in Europe.

Presidential Secretary Stephen Early said he considered speculation on a second front "perfectly justified."

### Jack D. Bodkins To Drill Test In Northeast Crane

By Frank Gardner  
Oil Editor  
Jack D. Bodkins, Midland oil man, Friday announced location of a 5,500-foot wildcat test in extreme Northeastern Crane County.

He said the well will be spudded on or before Tuesday, June 23, and will be drilled with a combination rig. It is the No. 1 Pauline Slaton, 1,980 feet from the north and 660 from the west line of section 16, block 42, township 4 south, T. & P. survey, Section 16 is at the juncture of Crane, Ector and Upton counties, a portion of it lying in each of the three. Location falls one and five-eighths miles northeast of The Texas Company No. 1 G. C. Fraser-TXL, wildcat recently spudded.

The Texas well is standing at 354 feet in red rock after cementing 15 1/2-inch surface casing at 318 feet with 250 sacks.

Magnolia No. 1 D. K. Glenn, Southwestern Crane Ordovician test between the Sand Hills and Abell fields, is drilling below 2,405 feet in lime.

M. & M. Production Company and Maloney Drilling Company No. 1 Goode, Southeastern Upton County wildcat, Thursday night was drilling at 3,885 feet in lime. Top of lime has not definitely been picked but probably was encountered at around 3,750-60 feet.

Andrews Deep Project  
Stanold Oil & Gas Company has authorized application for permit to drill an 8,000-foot test in Southern Andrews County. It is the No. 1-W University, to be located 1,900 feet from the north and 660 from the west line of section 19, block 10, University survey. The wildcat is one and one-half miles northwest of Phillips Petroleum Company No. 2 University-Andrews, 7,855-foot flush producer from the Ellenburger, lower Ordovician, and discovery well of the Embur pool.

Atlantic Refining Company No. 1-A Texu, scheduled 8,700-foot Ordovician test in Southwest Central Andrews, is drilling Clear Fork, lower Permian, lime at 6,399 feet.

Humble Oil & Refining Company No. 1 H. O. Sims et al, Northwest Andrews wildcat, still is shut down at 7,490 feet in Clear Fork lime while changing drillpipe.

Skelly Oil Company No. 1-J University, north offset to the discovery well of the Mascho pool in Southern Andrews, last was reported swabbing eight to nine barrels of oil per hour. Oil was diluted 11 per cent by acid water. The well is bottomed at 4,510 feet and was acidized with 2,500 gallons. Five hundred gallons of butane was run ahead of the acid. An east offset to the discovery, Magnolia No. 1-26 University, bottomed at 4,500 feet in lime is swabbing one barrel of oil hourly, with dilution of seven per cent sediment. It has been shot with 170 quarts.

Magnolia No. 2-11-37 B. B. Ralph estate, northwest outpost to the Fullerton deep Permian pool of Northwestern Andrews, is drilling at 5,125 feet in lime. A southwest outpost, Fullerton Oil Company No. 1-B H. M. Wilson, is drilling at 460 feet in red beds. Fullerton No. 1-A Wilson, southeast extension try, has reached 3,330 feet in anhydrite.

Martin Well in Lime  
Lime top has been picked at 3,510 feet datum of minute 763, in Magnolia No. 1 Earl B. Powell, scheduled 7,700-foot wildcat test seven and one-half miles north of Stanton in Southeastern Martin County. The well is drilling ahead at 3,796 feet in lime.

In Western Borden County, Ed McCasins and George P. Livermore, Inc., No. 1 W. D. Johnson is shut down for orders at 4,970 feet in lime. Contract depth is 6,000 feet.

In Western Gaines County, Argo Oil Corporation No. 1 H. B. Grant

The spectacular flight of Churchill and his party to this country converted it for the time being into headquarters for a major segment of the Military High Command of the United Nations. The entire world looked toward Washington, as a result, for portentous decisions which might start the war off on a new and fateful tangent.

But the President's usual Friday press conference was cancelled, and Early said no statements need be expected either from Mr. Roosevelt or the Prime Minister during the rest of the week.

There was not the slightest tendency here to minimize the significance of the Roosevelt-Churchill deliberations, coming as they did so soon after Russia's foreign commissar V. M. Molotov had made secret visits to London and Washington.

Fellows Molotov  
As soon as the slightest tendency here to minimize the significance of the Roosevelt-Churchill deliberations, coming as they did so soon after Russia's foreign commissar V. M. Molotov had made secret visits to London and Washington.

Molotov's trip was widely regarded as an integral part of recently developing Allied strategy designed to keep the common enemy working over signposts pointing in the general direction of another fighting front.

Among The Signposts  
A second front could be counted on to siphon off some of the Nazi strength now concentrated on offensives which have set the British back in Libya and hammered with terrific force at the doughy Russian armies in the Crimea and on the Kharkov sector.

Britain in recent weeks had stepped up air raids on continental objectives to a tremendous degree and promised to send a thousand planes a night over Nazi-held war production centers of Western Europe.

Marshall Says Ready  
The United States sent her ranking generals to England in recent weeks for war councils with their British counterparts, and General George C. Marshall, Chief of Staff of the Army, asserted "the time for action is near."

The American expeditionary force in Northern Ireland has been reinforced repeatedly by some of the largest troop convoys ever sent overseas.

Secretary of War Stimson said Thursday that at least temporarily the threat of a Japanese attack on the American coast was "much less" as a result of the punishment inflicted on the Japanese fleet, primarily in the engagements off Midway Island. With such a threat diminished, this country would be in better position to join in a second front operation.

Churchill brought along Sir Alan Francis Brooke, Chief of the Imperial General Staff, who believes in military innovations and who is regarded by many persons as Britain's outstanding authority on mechanization.

Shipping Problem  
Conjectures about a second front immediately suggested that the shipping situation would figure prominently in the Churchill-Roosevelt conversations. Linked with that problem was the question of overall naval strategy and the transportation of the combat units of the fleet between overseas convoy duty and protection of shipping along the coasts.

Government Asks State, County Fairs Be Stopped  
WASHINGTON (AP)—The government asked Friday that all state and county fairs, non-essential conventions, meetings and group tours be postponed until the war is over.

Joseph B. Eastman, Defense Transportation director, made the appeal and said that if civilians restricted their use of trains and buses the government might not have to take direct control over travel.

American troops, being specially trained for invasion landing, are shown landing on a bleak coastline from one of the modern, motored, landing boats. Each unit carries complete motorized equipment, and is a fighting unit that can meet any type of opposition. Here the Americans are shown with some of the "handy gadgets" that enable them to scale a cliff, or to fight any kind of armed forces.

## Drive On Siberia Expected Next Jap Move, As Defeat At Midway Killed Hawaii Attack Plans

### Rubber Scrap

It is vital that the public, from factory owner to smallest householder, co-operate fully and promptly with President Roosevelt's rubber salvage drive. Estimates as to the quantity of recoverable rubber range from a conservative and believable half million tons to the apparently fantastic guess of 10 million tons—500 pounds a person. If whatever exists is to be utilized now, while we need it most, we must measure the supply accurately at once. Only by complete public co-operation can this be done. But the public should keep firmly in mind that this rubber is not for tires for pleasure driving. We need it to win the war.

### All Bombardiers Take Oath To Protect Big Bombsight Secret

Before being allowed his first glimpse of the super-secret bombsight, America's greatest military secret, each new cadet arriving at The Midland Army Flying School, Britain's largest training center for bombardiers, takes an oath that he will protect its secrecy "with my life itself." The solemn words of the Bombardier Oath are: "In the presence of Almighty God, I do solemnly swear and affirm that I will accept the sacred trust placed in me by my Commander-in-Chief, the President of the United States of America, by whose direction I have been chosen for Bombardier training. I pledge myself to live and act according to the Code of Honor of the Bombardiers of the Army Air Forces. I solemnly swear that I will keep inviolate the secrecy of any and all confidential information revealed to me, and, in the full knowledge that I am a guardian of one of my country's most priceless military assets, do further swear to protect the secrecy of the American bombsight, if need be, with my life itself." So strictly is the secrecy of the bombsight guarded that bombardier cadets take no classroom or other notes during their 12 weeks of training, carry all data locked securely in their heads.

### Rancher, Farmer Bring In Rubber

Ranchers and farmers of Midland County started a heavy contribution to the rubber salvage campaign Thursday and Friday, after picking up the waste rubber during the first of the week. Several truck loads of old tires and other rubber were brought to Midland Friday morning, from the ranches and farms of the area.

WRECK NAZI TROOP TRAIN IN FRANCE  
VICHY (AP)—Another German troop train has been wrecked by saboteurs in occupied France, and attempts at sabotage have been made against two other trains, it was revealed.

### Australia Braced To Stop Japs In Any New Thrust To The South

The Associated Press  
High Chinese quarters disclosed Friday that Japan has massed nearly 1,000,000 troops in Manchuria and said new advances indicated that the Japanese planned to strike at Russian Siberia some time in July.

Neutral observers, however, expressed belief that Japan would not risk taking on a new enemy until Adolf Hitler had started his long-delayed grand offensive against Russia—and until she was sure that the German push was succeeding.

Russia and Japan have a five-year neutrality and "friendship" pact, signed April 13, 1941, which so far has been observed amid reserves by Moscow and Tokyo to each other against violations.

No Move South  
High quarters in Chungking, Chinese war-time capital, said the Japanese general staff preferred to postpone further thrusts into the South Seas in favor of strategy affecting territory nearer Japan.

The Japanese want to establish a security zone," it was said, against the hour when American war production would be translated into a full-scale offensive against Japan.

With this in mind, the Chinese said, Japan has two principal objectives—Hawaii and Siberia. But the great American victory in the battle of Midway frustrated any Japanese plan for an attack on Hawaii, and Japan therefore was expected to turn against Siberia.

On the China fighting front, Generalissimo Chiang Kai-Shek's Chinese armies doggedly fought against a dozen or more Japanese invasion columns, chiefly in the Eastern and Southern provinces.

Battle of Australia  
In the battle of Australia, an Allied spokesman said the Japanese were using two new type planes—a lighter Zero fighter and a cannon-equipped medium bomber—and he added that the enemy was bombing with even less accuracy than in the Philippines.

Gen. Douglas MacArthur's headquarters said 18 heavy Japanese bombers escorted by fighters again (Continued On Page Five)

BRITISH BOMBERS HIT FRENCH RAIL CENTER  
VICHY (AP)—Low-flying British bombers struck Thursday night at Chaulnes Sur Oise, an important junction on the Paris-Cambrai railway in German-occupied France. Explosives were dropped at switches and in a freight yard.

## European Land Attack Waiting Cleanup Axis Threat To Egypt, Iran

Fear Japanese, German Juncture Attempt, In India, If Mediterranean Battles Lost; Allied Forces Too Small In Eastern Area

By The Associated Press.  
LONDON—One of the main purposes of Prime Minister Churchill's current visit to Washington is believed in some quarters to be enlistment of additional United States help in holding the Middle East against expected German thrusts from Libya toward Egypt and from the Russian Ukraine into the Caucasus.

The extreme gravity of the Libyan-Egyptian situation was viewed by competent sources as likely to postpone until 1943 any really big United Nations land offensive in Western Europe, although Commando raids may be increased.

The hit-and-run raids would meet the clamor for a second European front now—something which the British in a n-i-n-the-street hopes will result from Churchill's present United States visit.

Strategists know that Egypt must be held if the Allies are to bar Hitler from the Middle Eastern oil fields and they know that it is the main bastion against Nazi union with the Japanese somewhere east of Suez for a sharing of the riches of the Indies and a cutting of Allied supply lines to Southern Russia.

The presence of American Army bombers and other war equipment in this theater proves President Roosevelt's regard for the importance of Egypt and the Suez Canal, just as the successes of the Axis Libyan commander, Marshal Rommel, prove that the present forces in the Middle East still are not enough for safety.

Rommel Campaign  
From a purely military standpoint, Rommel's success means: 1. The British may have to divert some troops and thus leave the country adjacent to oil-rich Iran open to Nazi air-borne invasion—just at a time when there are increasing reports of German glider exercises in the region of Crete.

2. The Germans probably will start heavy bombing raids on Alexandria, naval base key to the Eastern Mediterranean.

3. If the Axis can draw away British air and naval strength the Axis might try to invade Malta to ease the Italian-German supply route from Italy to Africa.

4. Rommel can be expected to open a big land offensive toward Egypt, Alexandria and Suez when and if he can remove the Tobruk thorn from the Axis Libyan flank.

STOP DEPORTATION  
CAPETOWN (AP)—The chief immigration officer at Capetown was restrained by supreme court order from deporting a number of American technicians stranded here by a dispute with their employers.

## WAR BULLETINS

LONDON—(AP)—Reuters said Friday it had recorded a Berlin broadcast by DNB reporting that 13 or 14 United States Aircraft making for the Black Sea flew over Turkish territory Thursday night.

AUSTRALIA—(AP)—Attacking for a third time in the past three days, Japanese heavy bombers—this time 18 strong with a formidable fighter escort—struck Friday at Port Moresby's harbor installations. It was the 62nd raid on the Allied base in New Guinea.

WASHINGTON—(AP)—The Navy announced Friday that a small United States merchant vessel had been shelled and sunk by an enemy submarine in the Caribbean and that survivors had been landed at an East coast port.

WASHINGTON—(AP)—An \$8,550,000,000 ship construction measure designed to give the United States Fleet unquestioned world supremacy went to the Senate Friday after winning unanimous and enthusiastic House passage.

### Cox And Hines Will Receive Life Scout Awards At Ceremony

Jack Cox of Troop 51 and Burvin Hines of Troop 54 will receive life Scout awards at the Boy Scout court of honor at 8 p. m. Friday in the county courtroom. A star scout award will go to Louis Hartwell of Troop 51.

The 100 per cent Boys' Life banner will be awarded to Troop 52 of Midland.

John P. Butler, chairman of the court of honor, said merit badges will be awarded to the following Scouts: Cox, Hartwell, Bobby Norris, Donald Gracey, George Edwards, Tony Howard, Tommy Carter, Marvin Prager, Hines, and Charles Barrow.

### Negro Populate To Celebrate June 19th

There'll be a hot time in the old town tonight—for the colored people. It is June 19, a day all colored folks look forward to. They regard June 19 as just as important a day as is July 4th to the white people.

The City Council has granted operators of the night clubs in the negro section of Midland permission to remain open until 2 a. m. Saturday morning instead of the usual 12 o'clock closing time.

Yeah, there'll be dining and dancing all over Texas as is always the custom on Juneteenth. No yards men, no shine boys, and no maid work on June 19.

PASTOR RETURNS FROM SYNODICAL CONFERENCE  
The Rev. Hubert Hopper, pastor of the First Presbyterian Church, returned Thursday from Westminster Encampment near Kerrville, where he was head counselor for the synodical conference of Presbyterians young people.

## High-Powered United States Trainer Planes

The superb flying qualities of the new training planes which are emerging from the mass production lines of a dozen or more American aircraft plants are daily becoming more and more apparent as the U. S. Army and Navy air forces continue with their expanded training programs which are designed to afford America the most daring and efficient combat flyers in all the world. Shown above in the montage prepared by the Aeronautical Chamber of Commerce are ten of the outstanding trainers now in use. Starting at the left and reading clockwise, they are: 1—Curtis SNC-1; 2—Fairchild PT-19; 3—Boeing PT-17; 4—Cessna AT-8; 5—Curtis AT-9; 6—North American AT-6A, also widely used by the R. A. F. as the "Harvard"; 7—Vultee Valiant; 8—Boeing AT-15; 9—Beechcraft AT-11; 10—Ryan PT-20. The pilot at the lower left is wearing Western Electric's throat microphone. Two miniature buttons pressed against the throat enable the aviator to converse during battle, unhampered by the conventional telephone mouthpiece.

## After The War, What?

Everybody is going all-out to win the war and nothing will interfere with that effort—the man on the street, the factory worker, the housewife, the farmer, and the business man are showing grim determination to bring this war to a successful termination. But we shouldn't be human if we didn't sometimes speculate on what will follow.

We face a huge task in winning this war and just as huge a task in winning the peace. To win the peace, we must prepare now—even while we are concentrating on winning the war. No one wants to go back to days of depression, of idle plants, idle men and idle money.

American industry, built and maintained by foresight isn't ignoring this problem. It is tackling it right now, along with the dozens of other problems created by war production itself. It's laying plans for a speedy change-over to increased civilian manufacturing when this emergency is ended.

Industrialists assure us that wonderful new products are in store for the post-war markets. A glass company is preparing to offer prefabricated homes costing about \$3,000 that can be assembled quickly to make cheap housing available; the airplane industry promises new luxury liners, thousands of new air fields for smaller planes, and employment to millions.

Such inventions and changes, forced by the war far sooner than they would have developed naturally, are the mainstay of the widely accepted opinion that a post-war depression of monumental proportions can be averted.

As Walter B. Weisenburger, executive vice-president of the National Association of Manufacturers said, "the development during the war production period of superior manufacturing methods applicable to peacetime production embodies the promise that we may attain in the post-war period of scale of living higher than ever before."

### —Buy War Bonds And Savings Stamps—

## China's Need

From hard-pressed, back-to-the-wall China comes the same message that accompanied the fall of Burma: "We must have planes if we are to beat the Japs." Because the courageous Chinese lack air power, the Nipponese are threatening to join two drives in the Chekiang-Kiangsi campaign.

Which lends poignancy to the plea of Lieut. John Donovan of the famed Flying Tigers, which reached his mother just behind a telegram announcing his death in action:

"If the United States or any other country is interested in fighting the Japs it is about time they should get some equipment and personnel over here. If the Army were to take over today, they would ground every plane that we have. Yet we fly these ships day in and day out."

### —Buy War Bonds And Savings Stamps—

## No Hitler Justice

"We want no Hitler justice here," says Associate Justice Byrnes of the Supreme Court. "We want no trial by ax men instead of juries. We know the meaning of equal justice under the law. We know the blessings of liberty. To preserve these we will give our all."

This, from a high source of sound liberality and unquestionable patriotism, is a plea against condemning nationalistic groups as such, against persecuting loyal citizens because they are their fathers' persecuted to be born in some country now at war with us. It is hard advice to take, but good, so long as we do not permit termites to destroy those very freedoms.

### —Buy War Bonds And Savings Stamps—

## Loading The Cannon

The nation's leading retailers recently met in Chicago with representatives of the government. The topic under consideration was how retailers can give maximum aid in the campaign to sell War Stamps. The retailers pledged themselves to sell \$100,000,000 worth of stamps each month, beginning with July. A practical promotional plan, available to all stores, has been created, and it can be easily adapted to the needs of both large and small retailers.

The importance of this is obvious. It is estimated that 40 per cent of all war savings must come from the sale of stamps. The Treasury is depending upon the retailers to reach the 25,000,000 Americans who cannot be included in payroll savings plans. When War Stamps were first issued, retailers of all kinds promptly stocked them and promoted their sale. Now those efforts will be greatly intensified.

The promotional campaigns will have many phases. Newspaper advertising will be widely used. Attention-demanding window and interior display posters will be distributed to the participating stores. Every consumer will be urged to take part of his change in stamps.

The retailers involved will include thousands of independent stores. They are dealing in food, clothes, general merchandise, hardware—anything and everything that the consumer wants and needs. No industry is in more direct and constant contact with the great American buying public. And none is more determined to do its full share on behalf of the war effort.

It takes years of digging for some golfers to break a hundred.

The whole world always has been a stage—but some people still don't know how to act.

## Civilian Defense Motion Pictures

### Are Shown Here

Two sound motion pictures dealing with Civilian Defense work were shown in the high school auditorium Thursday evening as a part of the required course of training for air raid wardens. Berte R. Haigh, in charge of civilian defense work in Midland, presided at the meeting.

"The Warning" and "Fighting the Fire Bomb" were the titles of the educational films. "The Warning" depicted the devastation of actual air raids in England and showed operations of trained civilian workers.

Booklets, "Manual for Civilian Defense," were distributed to those present through the courtesy of the Midland Chamber of Commerce. The booklets, approved by the Office of Civilian Defense, are available to all civilian defense workers.

Haigh announced the next meeting in the air raid warden course is tentatively scheduled for next Tuesday evening. Other courses in civilian defense will be started early in July.

## You Can Have Plenty Jam, Jelly This Way

Perhaps your supply of jellies, jams and preserves for the table are running short, yet you have some sugar left from the 1/2 pound cup of sugar for each of fruit juice. If so, take some sugar and corn syrup or honey and help keep an ample supply of sweets for home use.

For apples, blackberries, cranberries, grapes, wild goose plums and quinces, you generally use 3/4 cup of sugar for each cup of fruit juice. For making jelly from these fruits, some honey or corn syrup may be used satisfactorily, provided you cook the mixture slightly beyond the jelly stage.

All sugar: One 3/4 cup of sugar to one cup of honey: 3/8 cup of sugar, plus 3/8 cup of honey to one cup of fruit juice.

Sugar and Corn Syrup: 3/16 cup of corn syrup, plus 9/16 cup of sugar to one cup of fruit juice. (One level tablespoon equals 1/16 cup).

For jellies made of crab apples, black raspberries, currants, gooseberries, wild grapes and red raspberries, more sweetening is necessary. The following proportions are recommended:

All Sugar: One cup of sugar to one cup of fruit juice.  
Sugar and Honey: 1/2 cup sugar, plus 1/2 cup honey to one cup of fruit juice.

Sugar and Corn Syrup: 3/4 cup sugar plus 1/4 cup corn syrup for one cup of fruit juice.  
For making jams and preserves, weight rather than containers, is used for deriving correct proportions. When using the following amounts, the time of cooking will be increased slightly, in order to derive the desired consistency.

All Sugar: 1 1/2 cups (or 3/4 pound) of sugar to 1 pound of fruit) sugar and honey (1/2 cup) or 3/8 pound of honey plus 3/8 pound (or 3/4 cup) sugar to 1 pound of fruit.

Sugar plus Corn Syrup: Is the same as for honey.  
Since the beginning of the present war, the Bureau of Home Economics has been busy trying to aid the home maker in finding suitable substitutes for sugar. Many are finding these proportions satisfactory.

**BUILD OWN AIR RAID SIREN**  
OREGON CITY, Ore. (UP)—Oregon City has one of the largest steam driven air raid sirens on the Pacific coast. The four horned device was built by employees of the Hawley Pulp and Paper company of materials available at the mill.

**COLORADO:** The Little Poise Creek structure known since the days when the Dakota was believed to be the lowest pay horizon in this area is finally to get a test.

**EAST TEXAS:** Amerada's Paluxy sand discovery in Wood County flowed at the rate of 1,920 bbl.

**MONTANA:** Plans for unitizing a portion of the Bowdoin gas field have been approved by the Department of the Interior.

**NORTH TEXAS:** The Mississippi lime trend in Young County has been widened as a result of Shell's discovery 7 miles southwest of Burns-Larimore.

**ALBERTA:** A long narrow strip of producing territory may be added to the east side of Turner Valley if Major Oil's test there lives up to present indications. Development of the Fort Norman and Peace Creek areas is taking on more tangible form with preparations under way for drilling in both areas.

**ILLINOIS:** The McClosky lime discovery east of Boylston is showing better results on deepening. Wildcats in Washington and Clinton counties are finding encouraging shows and may revive drilling in the western part of the basin.

Two recent developments which may have a far-reaching effect on future prospecting are the discovery of oil in the Paluxy within the East Texas basin and in the Tuscaloosa on the Texas-Concordia parish line in Central Louisiana.

Both of these finds have definitely increased the depth to which wildcaters must go if they wish for a thorough test. The Paluxy has been a good producing horizon in Tule and Sulphur Bluff, but these fields were in the Mexia fault-zone area and there was a general feeling that this production would not extend farther into the basin. Paluxy production on the flanks of the Sabine uplift was gas-distillate and of little importance so far as the basin itself was concerned.

Discovery of Paluxy oil in the basin will cause the deeper drilling of many structures particularly since Amerada's discovery is showing up as a much better well than those which opened Tule and Sulphur Bluff.

The Louisiana discovery marks a continuation of the trend of development along the Gulf Coast. For several years the Wilcox was not considered of much value because producing wells in the upper or Carrizo member were not large. Eola and Vile Platte revived activity in the upper part of the Wilcox section and operators who were not discouraged at finding the upper section dry but went still deeper opened up important production. It was only a question of time before somebody would go completely through the Wilcox and beyond in the search for deeper production.

Discovery of oil in the Tuscaloosa at Tinsley made this formation a likely producer in neighboring parts of Louisiana. Now that expectations have been translated into realization this formation will undoubtedly be traced to the southwest and around the Sabine uplift where its relations with the Woodbine will be definitely determined.

It is only a question of time before Cretaceous formations are tested throughout the wide relatively nonproductive sector between the Wilcox trend and the North Louisiana, East Texas and fault-line areas. The current discovery

Pecos County, the Hickory (Cambrian) sand has proved productive although the discovery well is drilling ahead in schist before being completed in the pay. The Ellenburger showing in Sutton County proved to be noncommercial and sulphur water broke into the well on test. As a result of enforced drilling of scattered leases in Andrews County there are indications that another large field will be outlined in this sector.

**SOUTHWEST TEXAS:** Wilson County's discovery has been completed to a small pump. Although it may not lead to the development of important production this well will stimulate prospecting for Wilcox oil over a considerable area. Showings are reported from wildcats in Dimmit, La Salle and Lee counties. A new shallow sand has been opened by a Seeligson extension well.

**TEXAS GULF COAST:** Cockfield production has been found in a wildcat 2 1/2 miles southwest of West Silsbee. Wilcox production is a definite possibility east of the Lake Creek field. Mering has been extended 1 mile north making it a major discovery and Fayette County's first discovery in the Cistern area made gas with the spray of fresh water.

**COLORADO:** The Little Poise Creek structure known since the days when the Dakota was believed to be the lowest pay horizon in this area is finally to get a test.

**EAST TEXAS:** Amerada's Paluxy sand discovery in Wood County flowed at the rate of 1,920 bbl.

**MONTANA:** Plans for unitizing a portion of the Bowdoin gas field have been approved by the Department of the Interior.

**NORTH TEXAS:** The Mississippi lime trend in Young County has been widened as a result of Shell's discovery 7 miles southwest of Burns-Larimore.

**ALBERTA:** A long narrow strip of producing territory may be added to the east side of Turner Valley if Major Oil's test there lives up to present indications. Development of the Fort Norman and Peace Creek areas is taking on more tangible form with preparations under way for drilling in both areas.

**ILLINOIS:** The McClosky lime discovery east of Boylston is showing better results on deepening. Wildcats in Washington and Clinton counties are finding encouraging shows and may revive drilling in the western part of the basin.

## Tough Talk

The "talker" of a gun crew aboard a convoyed transport in the Atlantic finds his job isn't made easier by the mask he wears during gas drill.

## Humble, Texas Pass Million In Rubber

HOUSTON (AP)—First companies to announce that their service stations in Texas had passed the 1,000,000-pound mark in scrap rubber collections were Humble Oil & Refining Company and The Texas Company.

Both figures were of rubber collected through Wednesday in the first three days of the drive. Humble announced that 1,100,975 pounds had been collected and The Texas Company announced that its stations had collected in excess of 1,000,000 pounds. Figures on totals were not available at other companies.

About 30 per cent of the 36,000 cases of equine shipping sickness reported last year in the country were fatal.

Ranchers are urged to search their premises for any old rubber which has been discarded and to bring the scrap to any filling station in Midland.

Transportation of farm products is so important to the success of the Food for Freedom program, and to the men who are fighting in our armed forces that a few suggestions have been made on how to lengthen the life span of tires: Arrange with one or more neighbors to exchange trips. Keep larger supplies of necessities on hand to save unnecessary trips to town. Take the best possible care of your car, truck or pick-up, and especially the tires on these vehicles.

## Midland County Agriculture

The most important problem confronting the County Agricultural War Board at this time is the farm labor situation. A possible shortage of labor faces the farmers of the county, and it is the intention of this Board to be prepared to meet this situation if and when it occurs.

To do this, it has been necessary to send a questionnaire to each producer in the county asking for detailed information regarding the anticipated labor needs of each farm. These questionnaires, if properly filled out by the producers, will give the county board data on which to base its plans for securing laborers to meet the needs of the producers. It is very important, therefore, that each producer give considerable time and thought to completing the questionnaire as accurately as possible. If a labor shortage is evident, it will be possible to secure the services of the U. S. Employment Service in solving the problem.

The County Agricultural War Board is cooperating with the County Salvage Committee in the scrap rubber drive. All farmers and

## FEET HURT?

Dr. H. C. Wright, Foot Specialist of Lubbock will be here at Hotel Scharbauer, Room 242, Sun., Mon., Tues., and Wed., June 21, 22, 23 and 24th, specializing in the Treatment and Correction of Feet.

Dr. Wright will have with him a good stock of Health Spot Shoes which remove the CAUSE of most foot troubles, help straighten up weak feet, relieve foot strain, and hold one in balance.

Make your appointment early, as he is usually very busy and cannot take care of too many the last minute.

# SOCIETY

## Shower Tea Is Bridal Courtesy For Mrs. Prothro

To compliment Mrs. Jack Prothro who was Miss Nita Stavall until her marriage in San Francisco recently, Mrs. L. A. Black was hostess for a shower tea, Thursday afternoon. The affair was held at the home of Mrs. Black's sister, Mrs. Ralph Osborne, Jr., 802 N. Big Spring, from 4 o'clock until 6.

Entertaining rooms were decorated with roses and other summer garden flowers.

Receiving the guests were the hostess, the honoree, Mrs. J. M. Prothro, mother of the bridegroom, and Mrs. Neta Stavall, mother of the bride.

The bride wore her wedding dress and her corsage was of white carnations. Other members of the houseparty had pink and white gladioli corsages.

Gifts were on display during the afternoon.

Mrs. Osborne presided at the refreshment table, pouring punch for guests. Tea napkins were in pink with the names "Nita and Jack" in gold lettering.

The invitation list included: The honoree, Mrs. J. M. Prothro, Audrey Buchanan, C. A. Black, J. J. Hewitt, John L. Stoops, J. C. McClure, Lee Quinn, Misses Delpha Wood, Willene Norman, Maude Prather, Mamie Belle McKee, Hester Williams, Hella Mae Williams, Mmes. Fount Armstrong, Guy Tamsitt, Russell Langford, Bruce Goode, Dalton Weaver, E. R. Osburn, W. B. Martin, E. H. Davidson, Geo. Herring, Raymond Doyle.

Mmes. C. C. Watson, J. M. Planigan, De Lo Douglas, J. M. Prothro, Neta Stavall, L. A. Brunson, Lois P. Tatom, John Haley, C. G. Murray, Kenneth Shoemaker, Clinton Myrick, John Colvin, Dick O'Neil, Misses Cordelia Taylor, Fannie Bess Taylor, Lotia Williams, Skippy King, Mmes. Holt Jewell, Otis Lyon, R. V. Lawrence, and W. E. Fox.

## Sock Savers

British girls wear garters as a substitute for stockings, no longer available. Film starlet Susan Peters wears them to save hosiery.

**Mr. and Mrs. Mims Hosts To Picnic**

Mr. and Mrs. Percy Mims were hosts for a picnic in the yard of their home at 210 W. Tennessee, Thursday evening.

Guests were members of the staff of Mims and Crane, insurance firm, and a few neighbors of the host couple.

About 15 persons were present.

## Soldier And Bride To Make Home Here

Private Ira L. Sanders of Midland Army Flying School and Miss Christine W. Majors were married by Justice of the Peace B. C. Girdley at the courthouse, Thursday afternoon at 6:30 o'clock.

Both the bride and groom are from New York state.

The bride is employed at the Sub-Depot at Midland Army Flying School.

Mr. and Mrs. Sanders will make their home here.

**FEATHER MERCHANTS NOTICE**

SAN FRANCISCO Cal. (UP)—Uncle Sam clapped a priority order on the feathers of all California geese and ducks. They make the warmest lining for sleeping bags for soldiers and sailors, it was explained.

## Lieutenant Moore Will Wed Uvalde Girl On Saturday

Lieutenant Jack Edwin Moore of Midland Army Flying School, son of Mr. and Mrs. Frank T. Moore of Oklahoma City, and Miss Daisy White, daughter of Mr. and Mrs. J. W. White of Uvalde, will be married Saturday at St. Mary's Catholic Church in Uvalde. Father Lyons will officiate at the ceremony.

The bride will be attended by her sister-in-law, Mrs. J. W. White of Big Spring, formerly of Midland, as matron of honor.

Lieutenant A. E. West of Midland Army Flying School will serve the bridegroom as his best man.

After the wedding, Lieutenant and Mrs. Moore will leave for a honeymoon trip to El Paso and Carlsbad, New Mexico. Upon their return they will be at home at 501 N. Colorado Street, here.

Lieutenant Moore is a graduate of the University of Oklahoma, at Norman where he was a member of Acacia fraternity, the advertising club, and the Reserve Officers Training Corps. He came to Midland in January of this year and is adjutant with the 487th School Squadron.

The bride-elect graduated in May from the Incarnate Word College in San Antonio and is a member of Delta Sigma Sorority. She is the sister of Lieutenant Colonel J. W. White, project officer of the Big Spring Army Flying School, who was formerly stationed at MAFS.

## Mothers' Center Closes First Year

Mothers' Health Center, Inc., closed its first year's service and reports were heard at a board meeting at 1603 Holloway, Wednesday.

Reports were satisfactory, a member said.

Directors and officers were also elected. Mrs. Fred Fuhrman and Mrs. R. S. Dewey were re-elected to directorships, Mrs. Bert Ross was elected a new director, and Mrs. A. N. Hendrickson was presented as director to fill an unexpired term.

Others on the board are: Mrs. Nell Welch, Mrs. A. P. Shirley, Mrs. John P. Butler, Mrs. Fred Wilcox, Mrs. R. Porterfield, and Mrs. L. A. Absher.

Directors elected officers as follows: Mrs. Porterfield, president; Mrs. Wilcox, vice-president; Mrs. Fuhrman, secretary, and Mrs. Dewey, treasurer.

Mrs. Hendrickson was appointed financial chairman and Mrs. L. A. Absher clinical chairman.

## Mrs. Gilbreth Gives Rules For Good Cake Making

When adding milk and flour alternately in mixing a cake, stir slightly after each addition of milk and beat well after each addition of flour, then beat for about one minute after the final addition of flour in order to insure good texture in the cake. These rules were stressed by Mrs. A. L. Gilbreth in her demonstration on "sugarless cake" making given for the West-side Home Demonstration Club in a meeting in the assembly room at the courthouse, Thursday morning at 10:30 o'clock.

After a covered dish luncheon had been served, Miss Alpha Lynn, county home demonstration agent, demonstrated the canning of pineapple and explained the food preservation plan and its relation to sugar rationing.

Members present were: Mmes. J. O. Sturkie, H. L. Albrecht, J. D. Webb, Joe Mead, Virgil Feazell, Jim W. Baker, and O. R. Phillips. Guests were Miss Lynn and Mrs. Gilbreth.

## Club Seeks Cookery Demonstration

Rankin Highway Home Demonstration Club met Wednesday afternoon at the courthouse and saw Mrs. A. L. Gilbreth make and serve a "sugarless chocolate cake" using a minimum of sugar.

Articles made from feed sacks were displayed and Mrs. W. B. Franklin demonstrated a shredder.

Present were two visitors, Mrs. Gilbreth and Miss Jewella Jones, and the following members: Mmes. T. D. Jones, Jr., Franklin, Roy, O. Sturkie, E. B. Patterson, and Charlie Lynch.

Next meeting will be July 8 with Mrs. W. D. Rayburn.

## STOPS GETTING UP AT NIGHT

Augusta lady gets fast relief from sluggish kidney pains. Backaches gone . . . sleeping fine now.

"Some days my back ached so bad I couldn't do my housework," writes Mrs. Lenora Lybrand. "At night I used to get up almost once an hour. So I'm mighty grateful to Dr. Kilmor's Swamp Root for relieving my kidney troubles. I feel just grand now."

Mrs. Lybrand is one of thousands of sufferers who have found relief with Swamp Root. For this remarkable stomachic and intestinal liquid, which flushes painful acid sediment from your kidneys. It acts fast!

Originally created by a well-known physician, Dr. Kilmor's Swamp Root is a combination of 16 herbs, roots, balsams and other natural ingredients. No harsh chemicals or habit-forming drugs. Just good ingredients that quickly relieve bladder pain, backache, run-down feeling due to tired kidneys. And you can't miss its marvelous tonic effect!

Try Dr. Kilmor's Swamp Root free! Thousands have found relief with only a sample bottle. So send your name and address to Kilmor & Company, Inc., Department 600, Stamford, Conn., for a sample bottle free and postpaid. Be sure to follow directions on package. Offer limited. Send at once!

## Nominal Christian Forgets Privileges Brought By Faith

So then the Lord Jesus, after he had spoken unto them, was received up into heaven, and sat down at the right hand of God.

And they went forth, and preached everywhere, and the Lord working with them, and confirming the word by the signs that followed. Amen.—Mark 16.

By R. A. Weaver

And they went forth, and preached everywhere, the Lord working with them, and confirming the word by the signs that followed. This passage of scripture contains a wealth of hope and consolation to those Christians of today, who remain loyal and steadfast in a world torn by strife and disaster. The Christian, above all others, should forever remember that his Lord and Saviour is alive forever more, and continues to guide and sustain, and fill with Divine power, those of His body.

**Jesus' Life**

Jesus' life was one during every moment of which He was active, busy, and diligent in the mission of revealing the Truth to mankind. His motto was: "Hitherto my Father worketh, and I work"; and also: "I must work the works of Him who sent me while it is day, the night cometh when no man can work". Oh, that each Christian would follow the Master in this great declaration, and make this thought the main purpose and goal of life! Jesus was in deadly earnest, and the earnestness and sincerity of His slowing up the pace, or resting on His laurels.

**Fellowship With Christ**

Christ offered the power which He was embued to all who accepted Him in truth, and promised that wonderful and miraculous gift of divine help in life by saying: "Verily, verily, I say unto you, he that believeth on me, the works that I do shall he do also, and greater works than these shall he do, because I go unto the Father". This astounding promise has become one of the forgotten privileges of the nominal Christian. For most all orthodox churches have abandoned the acceptance of it. The abandonment of these vital and fundamental phases of primitive Christianity is what caused many new sects and organizations to come into being. No one can deny the fact that the great falling away from the orthodox church has been caused by lack of belief in the plain and simple promises of Christ regarding healing, holiness, and the extension of the gifts of the Spirit to this present generation.

But the most important things the Christian should ever keep in mind and acknowledge are the reality of present help, and the actuality of communion with Christ here and now. It is a fatal mistake to tend to relegate to the dim and distant past God's dealing with mankind by prophets and by Apostles, and leave us here in this generation with nothing but the uninspired leadership of those who do not accept the truth that God today inspires, reveals and regenerates man, directly, and individually.

**Power In Direct Church**

The members of the primitive church did the work of God because they believed in the power of God—desired it—sought for it and expected it. The power of God operates in the lives of people only when there is a preparation for it; belief in it, desire for it, and expectancy of it. Inspiration of God cannot operate unless there is something in man which God can handle and use as a medium of inspiration. That is why we are told to "Work out our own salvation with fear and trembling". And the promise is after this: "For it is God who worketh in you both to will and do. The individual who is capable of receiving inspiration is one who has prepared his soul and his mind to be able to become receptive to the divine consciousness. These early Christians were in tune with the Infinite, and this possibility exists today to all who are willing to form a spiritual laws which have always existed, and shall always exist.

**Working With God**

The only way God has ever revealed Himself is through man. God's revelation is limited only by the material that is available. It has been a slow and trying task for God to reveal Himself because mankind has been slow to respond to the divine urge. God is seeking man. Man has seldom if ever sought God. The seeking has been on the part of God. For God is an earnest God. The Heavenly Father offers to work with and through mankind, but mankind, blind and dull of understanding, is found chasing some bauble, or will-o-the-wisp . . . a process whose reward is strikingly shown in a world of chaos today.

In order to get a little glimpse of the power with which Christ works with those of His flock, we turn to Paul, the Great Apostle to the Gentiles. In his own words we may understand something of the power

**Name Paul Miller To Associated Press Post**

NEW YORK (AP)—Announcement that Paul Miller will become chief of bureaus in Washington was made by Kent Cooper, general manager of The Associated Press Thursday.

Mr. Miller, who succeeds the late Brian Bell, has had experience in various departments of the organization and has headed three bureaus. He goes to Washington from the First Baptist Church here the general manager.

**Mrs. Hartwell Is Hostess To Ocho Club, Guests**

Ocho Club members and a trio of guests met with Mrs. M. T. Hartwell, 511 N. Martienfeld, Thursday morning at 10 o'clock for bridge.

Gladiolas were party flowers. After bridge had been played at two tables during the morning, luncheon was served at one o'clock.

Present were Mrs. Wallace Irwin, Mrs. Redditt of San Antonio, and Mrs. A. Knickerbocker, all guests, and the following members: Mmes. R. C. Crabbs, R. L. Dickey, L. G. Mackey, Harry Prickett, W. G. Whitehouse, and the hostess.

**PERSONALS**

Natica Holmsley of Villanova, Penna., is visiting her grandmother, Mrs. W. L. Holmsley, here. The visitor is the daughter of the late Bill Holmsley.

Mr. and Mrs. J. G. Sauer and family will leave Saturday on a vacation trip to Oklahoma.

Miss Cora Lee Morrow of Electra is a guest in the home of her uncle, James N. Allison.

Mrs. Alma Thomas will leave July 1 for American University at Washington, D. C., for a six-weeks course. Post-war planning will be studied. While there she will visit with her son, Capt. Thabert Thomas of the Sanitary Engineers, and his family who are in the East.

**Malaria IN 7 DAYS take 666**

**FEMININE FANCIES**

By Kathleen Eiland

We've seen our first jitterbug dancing. Of course we'd read of it and seen pictures but this was our first honest-to-goodness closeup of the recreation.

Recreation? It looks more like plain hard exercise to us. But the younger generation seems to enjoy the funny little steps and the whirling and contortions.

All joking aside, it is amusing to watch the couples. And unless it were carried to extremes of acrobatics, we'd say that jitterbugging is much more impersonal and, shall we say wholesome? than the jazz dancing of the 1920's and 1930's.

We like the music better, too. It is peppy and gay without having the stark, savage appeal to primitive emotions that the jazz-era music had. Even when drums are used the rhythm is different and less disturbing.

\*\*\*\*\*

Glazed red-checked chintz forms a colorful set of pads for baby's high chair. The chair cushion is separate from the pad which softens the chair back and the arms for baby's tender skin. And the pad for the chair back has a frill to add to its gaiety.

\*\*\*\*\*

We understand that a prominent business man of Midland cut the hedge for his wife and was rewarded by a check, in the manner of any laborer-worthy-of-his-hire. Wish somebody would give us a check for watering the family flowerbeds. Maybe we'd make shift to water them oftener and more efficiently.

**Bible Class To Have Father's Day Program For MAFS Soldiers**

Everyman's Bible Class will meet Sunday morning at Soldiers' Recreation Center. MAFS soldiers and the Scharbauer Men's Class will be guests.

Doughnuts and coffee will be served to all present.

R. A. Weaver will discuss the lesson, using the subject: "Faith of Our Fathers."

Class will meet promptly at 9:45. Transportation will be provided from Midland Army Flying School to all soldiers who are at the gate at 9:20 a. m. At that time a special bus will pick up passengers who will be brought direct to the Recreation Center.

A number of the soldiers have offered to conduct a sing-song, as a part of the program.

## Good Attendance For Baptist Revival Here

Excellent attendance is reported for the young people's revival now in progress at Calvary Baptist Church.

The Rev. Alton Webb is preaching for the daily evening services. The revival will continue through Sunday, closing Sunday evening with a baptismal service.

Friday night the young people of the Odessa First Baptist Church will present special music and Saturday night young people from the First Baptist Church at Stanton will give musical selections.

Thursday night a boys' quartet from the First Baptist Church here sang.

 2 ♥ Pass 3 N.T. Pass  
 Opening—♣ Q. 19

Morris Elis, a Life Master and former world's champion; Phil Abrams, another Life Master, and Melvin Lobell and Harold Ziman, two of New York's outstanding players. Elis' skill is shown in today's hand.

East was allowed to win the first trick. A club continuation was won by Elis, sitting North. A heart lead was won by dummy's king. North got back with the spade ace to lead the other heart, and the queen won. The ten of hearts then forced the ace. West and North discarding low diamonds.

East led a third club. Dummy cashed two hearts. West discarding a diamond and a spade. It was apparent to Elis, with the drop of the ten of spades, that West must have the spade honors. So he then cashed the spade king and led a low spade. West was compelled to lead diamonds and give Elis two tricks in the suit for a score of four-odd.

# Many Tons Rubber Found In Refuse

TERRELL (AP)—Mrs. A. W. Riter used large quantities of discarded bus tires to fill ditches on her plantation east of here, over a period of several years.

The appeal for scrap rubber went out and Mrs. Riter, widow of Able W. Riter, founder of the Sunshine Bus Lines, had the old casings dug up.

She made the largest single contribution to date to the scrap drive here—46,920 pounds of old bus tires.

# Button Closing

It is a smash success—this quick "button upper" presented in today's easy-to-sew pattern. It is cut in just two pieces—then darts are put in for flattering fit through the torso and to give the skirt an easy flare—and it buttons together across the shoulders and down the side! It is no trouble to cut, no trouble to fit and no trouble to sew! Kimono sleeves make it cool for hottest days.

Pattern No. 8171 is in sizes 14 to 20; 40, 42, 44. Size 16 takes 3 1/4 yards 39-inch material.

For this attractive pattern, send 15¢ in coin, your name, address, pattern number and size to The Reporter-Telegram Today's Pattern Service, 211 W. Wacker Drive, Chicago.

Look for more sewing ideas in the summer Fashion Book—newly published! You'll find it in patterns for all needs, sizes for all—from 1 to 52.

Pattern 15c, Pattern Book 15c, One Pattern and Pattern Book, ordered together 25c. Enclose 1¢ postage for each pattern.

# Skiing Would Be A Pleasant Change, But Likes Midland

Despite her pride in the Army Air Forces, Swedish-born Lieutenant Ingrid Wikner, nurse at Midland Army Flying School, probably would like to be nursing for Uncle Sam's ski troops.

Reasons: Nurse Wikner loves skiing, and her brother, Captain Eric Wikner, is with the United States ski troops.

The Wikners are a fighting family, no less. A younger brother, Private Nils P. Wikner, is in the service. He is at Officers Candidate Training School at Fort Benning, Ga.

Miss Wikner is proud both of her Swedish birth and her American citizenship. She came to New York from Sweden when she was 13 years old.

"I love to ski, but I've not even seen a pair 'Deep in the Heart of

# Line Officers Will Put Into The Field

WASHINGTON (AP)—The War Department announced Thursday that it would reduce the number of officers assigned to duty in Washington, replacing many of them with members of the new Army Specialist Corps, but made it plain that the new organization was not to have for job hunters or draft dodgers.

"All political or personal considerations will be rigidly excluded," said Skimston, "and care will be exercised to insure the appointment of men who are fully qualified and specifically needed."

Texas," says blonde Miss Wikner. Anyhow it's a good cool subject these hot days, the nurse explains, and ski troops probably need nurses, what with bruises et al.

# Dodgers And Cardinals Stage Real Free-For-All, With Dodgers Winning

### Early Raps In Victory For Senators In Tights Game With The Indians

By The Associated Press  
Baseball's fiercest feud in many seasons—the two-year-old rhabarb of the rowdy Brooklyn Dodgers and the scrapping St. Louis Cardinals—has broken out again.

St. Louis came steaming into Ebbets Field Thursday night with a seven-game winning streak and visions of shaving down the Dodgers' 4 1/2 game National League lead during their crucial five-game series.

But the Dodgers diverted the Redbirds' attention with a free-for-all at second base in the sixth inning and sneaked off with a 5-2 victory that eventually may prove one of the most vital of the season.

It was two years to the day from the game in which Joe Medwick was beamed by Bob Bowman of the Cardinals and Medwick set off the newest strife with a high lunging slide into shortstop Martin Marion.

Second baseman Frank Crespi knocked Medwick down and the players of both squads waded into each other.

Unlike some baseball battles, it was furious while it lasted and several players came out of it with bumps on their heads, skinned faces and other injuries.

Dixie Walker of the Dodgers twisted his leg and had to withdraw from the game and both Medwick and Crespi were banished by the umpires.

When it was over Lefty Max Lanier was so unsettled he gave up a walk and two singles to let Brooklyn tie the score at 2-2 and had to be replaced by John Beazley to get the final out in the sixth.

The Cards seemed to be still thinking of the skirmish when the Dodgers drove three runs across in the eighth to sew up the game.

This was the only contest carded in the senior circuit and only three games were played in the American League.

The Detroit Tigers tumbled the New York Yankees again 3-1 on the four-hit hurling of Virgil (Fies) Trucks. This gave Detroit the series, three games out of four, and also gave the Tigers an edge in their season's rivalry with the Champions, six victories to four defeats.

Early Winn's seven-hit pitching and the lusty hitting of Buck Ross and Mule Early, provided the Washington Senators a 7-1 verdict over the Cleveland Indians. Catch-

# Joe Louis Matches To Be With Enemy From Here On Out

NEW YORK (AP)—The fighting talents of Corp. Joe Louis will be reserved for the Army, at least until he completes his basic military training and possibly until a victory is won in the scrap that is neither bounded by ropes nor governed by the Marquis of Queensbury rules.

Secretary of War Stimson, whose activities in the fighting business have been confined to more important things than two-man struggles for money and titles, stepped into the ring picture Thursday and announced that Louis had been ordered to a training center to finish his course in soldiering.

"Appearances other than those strictly in behalf of the Armed Forces will not be undertaken" by the heavyweight champion of the world until he completes his training said Stimson, spiking all talk of a possible title fight this summer.

And from the Army information service of the 2nd Corps Area came an announcement that the champion had been ordered transferred to Fort Riley, Kas., one of the leading cavalry training centers.

"Presumably," said Stimson, the question of a championship bout will be considered when Joe finishes this stage of his training.

New York boxing circles, noting that Stimson left the way clear for a defense of the championship after Louis completes the training period, began speculating immediately on the possibility of a September title bout.

Among certain Army men, however, speculation ran the other way. They regarded it as highly improbable that Joe would be allowed to defend the title as long as the war is going on, even if the proceeds were earmarked for relief.

er Early drove in four runs with a double and two singles.

The Chicago White Sox exchanged positions with the Philadelphia Athletics again by winning 7-2 on the five-hit hurling of Buck Ross and Joe Haynes, who worked the last inning. Ross allowed just two hits till the eighth.

# The Wagner Act

Teammates rush to aid of Catcher Hal Wagner of Philadelphia Athletics as he crashes into a dugout in pursuit of a foul in a game with the Cleveland Indians at Shibe Park recently.

# Mrs. Essie Stafford, Midland, Advances In Golf Title Chase

MINERAL WELLS (AP)—Scoring a 1 up victory over Mrs. Ted Huestis of Abilene, Mrs. J. H. Ball of Wichita Falls, defending champion and medalist, still loomed over the field Friday in the Women's West Texas Golf Tournament.

Another favorite, Polly Riley of Fort Worth, drubbed Mrs. Fenner Tubbs of Lubbock, 8 and 5, and established herself as a definite threat to the titleholder.

Other first round results included:

Mrs. Elma Shows of Odessa defeated Mrs. W. G. Carter of Fort Worth, 7 and 6. Mrs. Essie Stafford of Midland won 3 and 2 from Mrs. Cliff Widner of Lubbock.

First flight: Mrs. Harry Stallcup of Big Spring won from Mrs. Virgie Couch of Wichita Falls 1 up; Mrs. E. L. Chilton of Odessa won 8 and 7 from Mrs. Jerry Chestnut of San Angelo.

Boys, Men Needed At AAA Offices Here  
The Midland County A. C. A. needs men and boys to measure the crops on the farms in the county, it was announced by Miss Josephine Elliott, secretary of the AAA, Friday.

Examinations are to be given in the near future, and anyone interested in taking an examination is urged to contact the AAA office in the courthouse immediately.

# Sports Slants

By Shorty Shelburne

Head Coach B. E. McCollum of Midland High thinks people around here have a general conclusion drawn that he is soft and doesn't want to do any hard work. He has been casting around for a job for the summer months and everywhere he goes they start looking for something soft to put him to doing. They have a definitely "off the beam" opinion about McCollum. He is a little on the soft side right at present, but not enough that he can't take on this old hard labor. He trains with his athletic squads—football, basketball, track, and gym classes. His never-ending requirement of athletes is physical fitness, and if you don't think he means it ask some of the Bulldog gridsters who were out for spring football practice.

You're In The Army Now  
"You're in the army now, Joe"—words in short for what Secretary of War Stimson told Joe Louis. The heavyweight champion will make no more personal appearances except those strictly for the Armed Forces until he completes his basic military training.

The Brown Bomber, a corporal now, is stationed at Fort Devens, Mass. He has been unable to keep up with the Army's military training program, the secretary said.

Some of those heavyweight contenders—Pastor, Mauriella, Savoldi, Baer—won't get that first, second, or third chance for a sound thrashing at the hands of Louis for a while. They are all yelling for a shot at the title, and each has his own method by which he will defeat the champ. Those methods all add up to the same thing—just one more victory on the string of Joe Louis.

Hurling Halford Touched  
Pete Halford, the hurlingest soft-baller ever seen in these parts, was touched for his tonsils by the doctors at MAFS Wednesday. He lost his chance to pitch all the games for the Bombers this season.

But he still has a chance to pitch an undefeated season if he gets out of the hospital in time to play before the season ends. He will probably get to pitch for his team in the championship play-off.

Random Sports Story  
Three prominent athletes who once were teammates are now aiding in the physical hardening program at the U. S. Naval Training Station at Great Lakes, Ill. They are Johnny Lucadello, Aldo Forte and Rudy Mucha. They played together on the 1935 Fenger High School baseball team in Chicago.

Lucadello later enrolled at the University of Montana where he starred in football. Mucha went to the University of Washington, where he received all-America recognition. Lucadello stayed in baseball, joining the Postoria Club of the Ohio State League. He was the property of the St. Louis Cardinals until his enlistment in the Navy last April.

Just one of many such cases when former teammates will meet. The Armed Forces are full of top-flight athletes. Everyone of them is an All-American on Uncle Sam's team, and brother they play for keeps.

Racing Donates Plenty  
Racing guaranteed war funds \$2,000,000 and is also contributing many of its finest thoroughbreds to the Remount Service of the Army to aid in building a vast reservoir of horses for the Armed Forces. Col. Edward Riley Bradley heads breeders donating running stock having given up no fewer than 35. Bubbling Over, 1926 Derby winner, has been given, and many other famous mounts. That's just another way of saying "When the sports world speaks, it says something."

Sewery Sports Slants  
SALUTE THE CORPORAL: Joe Louis and Billy Conn got together for a little rag-chewing recently, and someone asked Lewis if a Private wasn't supposed to salute a corporal.

"I don't know," said Louis, "but I been thinking it might be a little shady for a corporal to battle a private." DEMPSEY ALL OUT: Lieut. Jack Dempsey gave up all civilian duties, including the management of his Broadway restaurant and radio program, to take charge of the Coast Guard's physical training program at Manhattan Beach.

WAGNER ACT: They called it the Wagner Act when Hal Wagner of the Philadelphia Athletics crashed into a dugout in pursuit of a foul in a game with Cleveland's Indians at Shibe Park.

Farmer Seale tells its own story: "Here is a laugh. While some of the nation's greatest college coaching talent stacks up on the U. of Georgia's front door-step to help with the Navy's physical fitness program, Frank Sinkwich steps out and joins the Marine Corps. You figure it out."

The fire control equipment of a battleship costs more than \$1,000,000.

Today's Guest Star  
Kenneth Jones, Peoria (Ill.) Journal-Transcript: Occasionally a fight manager is brutally frank. A case in point is Ray Carlen's remark that his fighter, Lou Nova, is as good as he ever was.

This wire from Marine Sergeant
