Russians Check Nazi Drive

New Methods May Provide More Rubber

Farish, president of Standard On Company (New Jersey), said Wed-nesday the petroleum industry had developed two new methods of producing synthetic rubber which may provide by the end of next year 34,000,000 more automobile tires than had been expected.

Farish told a House mines subcommittee the new rubber methods may provide 200,000 tons of synthetic rubber in addition to the 800,-000 tons already planned under the government's rubber program.

Tires from this additional rub-

ber, Farish said, would go toward meeting essential civilian transportation needs.

'This is good news," Farish said, "but it does not warrant undue op-timism on the part of American motorists. There should be conservation of rubber. Driving speeds should be reduced to save wear on tires. Unneccessary driving should be

The new methods, Farish said, were known as the "Flexon" and

'Quick Butadienne" processes. Flexon, he explained, is a rubber substitute of the butyl type, already being made in experimental quantities from iso-butylene by makeshift methods involving dry ice.

Russians Demand Second Front Be Opened In Europe

Financing A War

Financial experts estimate, on the basis of current programs, that if this war lasts through the calendar year of 1944 if will have cost the United States 220 billions of

Add approximately 30 billions for "ordinary" expenses of government during the five-year period 1940-1944, and we will have expended a total of quarter of a trillion dollars in those five years.

Billions or trillions, they're all pretty much the same to most of us, to whom thousands or even hundreds come slowly enough. This might help:

If you had been alive 5500 years before the birth of Christ, five thousand years before the dawn of history, and if you had started counting dollar bills then as fast as a bank teller does; if you had counted night and day, Saturdays, Sundays and holidays, you would just about now catch up with the dollars we are spending in this five-year

Apparently present tax plans will finance 90 billions of this vast program, leaving 160 billions to be borrowed. Add to that the 40 billions of national debt at the end of 1939, and we shalll wind up the calendar year 1944 in debt to the tune of 200 billions of dollars.

The Treasury hopes to finance this war at a cost of 21/2 per cent for interest, substantially less than we paid during World War I, and a very reasonable rate.

If peace came with New Year's of 1945, and brought with it a balanced budget, we should be faced with the ne-

Tive billion dollars to pay interest on the public debt.

That five billions, which would not provide a dollar toward amortizing the public debt, is more than the United States had ever taken in from all revenue sources in any since M-68 indicates a stability of the states had ever taken in from all revenue sources in any since M-68 indicates a stability of the number of completions reported last week face not only the added production face not only the added production avoid the necessity of the main line is expected to move approximately 300,000 barrels daily, of which about 120,000 barrels will and dry holes up 25. The leveling of the number of completions since M-68 indicates a stability of the number of completions of the number of completions of the number of constant to avoid the necessity of the May account of which about 120,000 barrels will be shipped East by tank car.

The main line is expected to move approximately 300,000 barrels daily, of which about 120,000 barrels will be shipped East by tank car.

The main line is expected to move approximately 300,000 barrels daily, of which about 120,000 barrels will be shipped East by tank car.

The main line is expected to move approximately 300,000 barrels daily, of which about 120,000 barrels will be shipped East by tank car. year except 1919, 1920 and 1921 up to 1937.

Even this huge sum is not all we shall have to raise. We must finance the ordinary operations of government, which in the eastern states, showings in the Benoist. even before the depression were hovering around four bil- ed to the markets, there is little lions a vear.

Nine billions, the sum of these two items, is more than our government has ever raised, up to 1942, from all rev- California prevents many operators profitable wells. enue sources combined.

What is the moral? We have to spend the money, don't crude. In the meanwhile, equipment

Yes. So far as the war is concerned.

But the next time somebody suggests trying to save a limit report that valves are unobbit here and there on non-war costs, we might have in mind that the minimum of taxation after the war will be fittings to keep wells that are only about half again as heavy as in 1941.

So don't shush him up. Lend him an ear.

-Buy War Bonds And Savings Stamps-

War Damage Insurance

Uncle Sam will sell us war damage insurance at 10 cents and with a fixed price, income is for each \$100, so far as dwellings and household contents are concerned.

Because of constitutional obstructions, this insurance older areas because repressuring cannot be made universally mandatory. All the government operations are frequently conducted can do is make it available and hope that we buy it from in these areas without the drilling private insurance agencies which will act as representativery might be reopened to produce es for Washington.

One can, if he chooses, decline to pay this moderate the shutdown period might be charge. Then, if his home is destroyed, he can ask for char-

Conceding that we aren't going to be bombed or shelled like the British, it still would seem the part of discretion to the pipe lines operating to capacity take a slice of this insurance.

-Buy War Bonds And Savings Stamps-

Invitation To Hoard

Again we are getting from Washington warnings that cost of gathering oil from stripper some 15 more commodities are going to be rationed. "It would be folly to name any specific items which are likely to be rationed," The House Appropriations Committee | small producers that are gradually says. "To do so would cause immediate runs on existing stocks."

Quite so. And what will be done by vague, general reports, from such high authority, that Leon Henderson is going to ration 15 unnamed major items between now and Jan. 1? Isn't that a clear invitation to guess what these will be and stock up on, let's say 25 or 30 items out of which the 15 must come?

Leading With The Chin

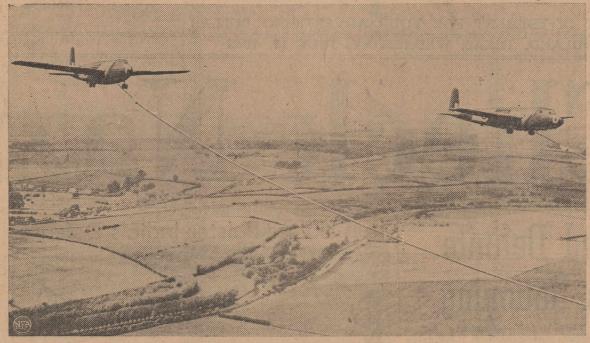

Manpower Commissioner Paul McNutt probably feels forced to his ruling that birth certificates, to prove citizenship, shall no longer be required for employment in war plants where secret government work is being done.

The requirement unquestionably worked hardship on many individuals, and led to delay as vital statistics bureaus are flooded with applications. And the pressure for manpower is tremendous.

We can not help shuddering, however, as we think how many potential spies and saboteurs are at large among our 135,000,000 inhabitants, and how easily a few could swear falsely to American citizenship, obtain employment on secret work, get or do what Hitler needs, and be away long before investigation into their background could be com-

Ends When Stock Is Sold Out

Sure, it Makes You Mad!

DO YOU REALIZE that thousands of our good American soldiers are behind barbed wire—with Jap sentries marching up and down outside?

Do you know that American women and children, too, are in Jap concentration camps?

How long do you want them there—and what are you willing to do to get them out?

You can't do it by flag-waving, by slogans, and by cheers.

- ships. And these don't grow on trees.

You-and you-and you-must buy these things.

Not the Jap way, nor the Nazi way, nor the

It takes planes – tanks – guns – bombs – shells

Fascist way. The American way – freely and gladly. In War Bonds!

The easy way – just by saving a dime from every dollar every payday. TEN PERCENT of your pay. The management of your company will save it for you, and every time it adds up to \$18.75, they'll buy a WAR BOND for you.

You'll get interest on that money. It will increase every year, until for every \$18.75 you invest, you'll get \$25 in ten years.

And your money will buy the stuff to beat the Japs—to attack them—to bomb them, to make them wish to their heathen idols they'd never picked a scrap with Uncle Sam!

And the sooner you do your part, by backing up our boys, the sooner they will blast the Japs right out of their sandals.

Down will come that barbed wire, and out will come your fellow Americans. Home again—to a free, decent, clean country—the country we all love.

And you'll be sitting pretty, too. You'll have the clear conscience of having done your part, and you'll have built up financial protection for you and your family.

So let's get going. Do your part. Ten percent

—a dime from every dollar every payday.

Invest your share in VICTORY!

5 Reasons Why

- By investing in War Bonds you help provide the planes, the tanks, the guns and the ships we must have to survive and conquer.
- 2 You prove that you are a patriotic American.
- You aid the morale of our fighting men, by showing them that the entire Nation is behind them.
 You prove to our enemies that we are a
- (5) You protect your own financial future, as every \$18.75 you invest in a War Bond brings you back \$25 in 10 years. You make the world's safest investment, by buying a share in the world's most power-

Mckenney ON BRIDGE

By William E. McKenney

Southern Appalachian Tournament meat inspection. at Asheville last year. Mrs. M. P. A report on his findings will be Staudt and Miss Julia E. Farmer filed with officials in Washington. brought one of the championship trophies back to Raleigh, when they

won the women's pair event. They will be on hand to defend their title in August.

Miss Farmer, past-president of the Raleigh Bridge Association, pulled a neat little trick on hand I watched her play last fall. West's idea in opening one club was probably to stop a club lead if he later got into no trump. He passed two spades, expecting North to bid higher, but Miss Farmer disappointed him by passing.

North cashed both top clubs, then led a low trump to the king, which West won. West cashed the ace and king of diamonds, on which Miss Farmer let go the jack and queen. Thinking that North had no more diamonds, and that he could wait for the hearts to be opened by the declarer, West exited with a trump. Then North turned up with the six of diamonds to ruff in dummy for entry. Dummy led two top clubs. West ruffed the second, but North got one heart discard, and so made the contract.

BOB WILSON IS CONVINCED FOXX HAS POWER AT BAT

CHICAGO (A) - You can't convince young Bob Wilson, son of Cub Manager Jimmy Wilson, that the veteran Jimmy Foxx has lost his hitting power. Young Bob was struck by one of Foxx' line smashes Tuesday while pitching in batting practice. X-ray pictures showed the right arm was broken.

NEW JOB FOR SCHANG

bookcases.

THE STORY: A series of clever deductions have brought Clyde Dawson, of the Canadian Intelligence Department, from Newfoundland, where one spywas hanged for murder, to Chicago, where his confederates make their headquarters. The girl in the case, who may hold the key to the spy ring's operation, has agreed to meet Dawson secretly, after a first meeting in which Dawson knocks out her insulting companion. At the

ing in which Dawson knocks out her insulting companion. At the agreed meeting place, Dawson narrowly escapes a hail of bul-lets from a ear in which the girl and two men are riding.

Ray Starr Luck Still Bad; Team Loses His Game

By The Associated Press

The secret of successful pitching seems to be luck as much as skill. Tuesday Ray Starr of the Cineinnati Reds pitched three-hit ball and was beaten 2-1 by the Phils because two outfielders collided der a fly hit by pitcher Frank Melton and the ball fell for a home run On the other hand Vern Olsen,

the Chicago Cubs' southpaw, was pummeled for II hits by the New York Giants and not only escaped with his sixth straight victory but

How It. Happened

Starr's misfortune came in the fifth inning just after his teammates had given him a .1-0 lead. He had walked catcher Benny Warren of the Phils and then Melton lifted a fly to left center. Outfielders Max Marshall and Harry Craft raced for it and knocked each other to the ground. The ball rolled away for a homer and time had to be called-and stretchers, too-before

the game could continue. This resulted in Starr being charged with his fifth defeat against a dozen victories and cost Cincinnati a full game's distance

against the Brooklyn Dodgers and St. Louis Cardinals, both of whom At St. Louis Mort Cooper was batted out of the box for the third time in succession, but the Cardinals rallied spectacularly to beat

the Boston Brayes, 7-5, in 11 in-pings and wipe out what would have been Cooper's fifth setback. Brooklyn Wins Brooklyn punished the Pittsburgh

Pirates 5-1 with Whitlow Wyats pitching three-hit ball for his tenth triumph of the year in a night game that drew 21,254 fans at Pittsburgh In the American League, the New York Yankees downed the Detroit Tigers 3-0 on the two-hit hurling of Rookie Hank Borowy and extended their first place margin to six games as the Boston Red Sox

absorbed another beating by the St. Louis Browns, 3-2.

The Yanks made only six hits off big Al Benton, but one of these was a triple by Borowy that was

good for a run in the third inning and another was a two-run homer by Tom Henrich in the sixth. Boston was held to seven hits by knuckleballer John Niggeling, but RESULTS

made the score close because two of these were home runs by Lou Finney and Oscar Judd. Carlsbad To Have
