Cafe Cook Is Stabbed Here; Trio Arrested

A. E. (Whitey) Walker, 31, year old cook at the TP Cafe, was stabbed and wounded critically in an affray at the restaurant about 9 o'clock Friday night.

Police arrested J. C. Steavens, D. C. Rutherford and Guy Rhodes in connection with the affair. Police Chief Lon Tyson said he would recommend that they be charged with assault with a deadly weapon and held in jail.

Given Transfusion. Walker was given a blood transfusion at the Western Clinic Hospital Friday night, but his condition remained critical late Saturday. Physicians said his stomach was punctured and that he suffered from an internal hemorrhage. He also suffered cuts on an ear and on an arm and his chest.

Chief Tyson said a large pocket-knife was used in the stabbing after Walker, on advice of his employers, declined to sell more beer to the customers. The cafe cook first was the target of several glass tumbler, and as he hastened to the door of the cafe, he was stabbed.

He was rushed to the hospital. The arrests followed.

Coke Stevenson calmly received returns indicating his nomination for governor. "I am deeply grateful," he said.

Germans Push Big Campaign On Stalingrad

By Richard McMurray Associated Press War Editor A German drive into the outskirts of Rostov was reported by the Russians Sunday as the mighty military machine of Adolf Hitler threw reserves into the heavy fight for that Russian city and pressed against the Russians defending Stalingrad and the Caucasus.

The Soviet midnight communique officially acknowledged that the battle for Rostov had roared into the outskirts of the city but the Russians said they were fighting fiercely for that vital center.

Indicating no change in the other critical areas, the Russians said their men were pushing the Germans back at Voronezh, the northern end of the 300-mile front, and at Tsimlyansk and Novocheerkassk, in the Don basin.

Rostov's fortifications were breached in sectors. A tentative German bridgehead was established on the lower Don near Tsimlyansk, 120 miles upstream from Rostov. The Germans reached the middle Don and conceivably could be within 45 miles of Stalingrad.

The Reds still were attacking and gaining at Voronezh. "The Russian position was of such peril that the army newspaper Red Star went back to the words of Lenin, to admonish the tired and battered Russian army.

"Fight to the last drop of blood, comrades. Keep on for every inch of land. Be firm until the end."

Americans Bomb Ports On the Egyptian front, U. S. bombers were disclosed to have heavily damaged Axis ports and shipping at Tark, Bengasi and Suda Bay in Crete in seven raids. The RAF added the destruction of more than 20 grounded Axis planes at El Daba while the land fighting divided to artillery exchanges and patrolling 80 miles west of Alexandria.

The balance of power was so delicate that London sources said the arrival of a single convoy—Axis or British—could swing the outcome. That an Allied ship train might be approaching was evidenced by the Italian claim to have sunk a loaded troop transport in the eastern Mediterranean.

Blast Jap Bases Across the world, Allied fliers attacked ceaselessly the latest fruit of Japanese conquest—toeholds on New Guinea at Buna and Gona. Experts were inclined to the view that the landing on the island above Australia was a Japanese attempt to clinch control of the sea to the Solomon Islands, rather than another threat to the northernmost Allied base of Port Moresby.

R. E. submarines kept nibbling at Japanese naval strength and shipping, sinking a modern destroyer, a tanker and three cargo ships. Another freighter was damaged and believed sunk.

Another Second Front Plea Edward Benes, president of Czechoslovakia, added his voice to pleas for a second front. He declared that if the Russians hold, the (Continued on Page Two)

Has Good Lead

W. Lee O'Daniel received election returns at his home in Fort Worth. The incomplete count gave him a lead in his race for a return ticket to the senate.

Latest Returns Make Runoff Probable In Hot Senatorial Race

(Copyright 1942, Texas Election Bureau) DALLAS.—Midnight returns of the Texas Senatorial Primary made a runoff seem probable between W. Lee O'Daniel and James V. Allred.

Copyrighted figures of the Texas Election Bureau showed O'Daniel leading with 44 percent of the votes, compared with 34 percent for Allred and 19 percent for Dan Moody.

Coke Stevenson seemed sure of a full term as governor, since he had a lead of more than two to one over his nearest opponent, Hal Collins.

For lieutenant governor, J. L. Smith was in the lead, with Harold Beck in second place.

Pierce Brooks was ahead for the unexpired term of Railroad Commissioner, with Beauford Jester next.

Incomplete returns from nearly two-thirds of the counties showed incumbents in the lead for other state offices, though it seemed likely that Jesse James would have to face a run-off for state treasurer.

Congressional Races In the Congressional races, all incumbents were in the lead except in District 3, where Representative Lindley Beckworth of Gilmer trailed Ernest Goens of Tyler.

Officers Seek Three Trained Nazi Spies

WASHINGTON (AP)—The possibility that three Nazis trained in the science of sabotage may be at large in the United States led the Federal Bureau of Investigation to broadcast a general request Saturday for officers and the public to be on the lookout for them.

The FBI began distribution of hundreds of thousands of "wanted" circulars bearing the pictures and descriptions of the men, two of whom lived in this country for years.

The men named were: Walter Kappe, alias Walter Kapel, 37, a lieutenant in the German Army intelligence section.

Rheinhold Rudolf Barth, 35, an intelligence officer in the German Army.

Joseph Schmidt, 33 or 34, a former farmer, hunter and trapper in Canada, who fled to Mexico when Canada went to war in 1939.

Tons Of Leaflets Demand Second Front LONDON (AP)—The small but highly vocal Communist party of Great Britain drummed up insistence for a second front Saturday night with a gaudy campaign of leaflets.

2,000 Americans In Jap-Occupied China

LOURENCO MARQUES, Portuguese East Africa (AP)—More than 2,000 American civilians remain in Japanese-occupied China where they face the tightening conditions of war.

"The prime necessity is getting them home as soon as possible," it is emphasized by the civilian leaders included in this first evacuation.

Most of those left behind are well living in their own homes where they can still afford to and are provided with funds when their personal resources are exhausted.

Ratliff Has Lead For Ector Sheriff

ODESSA.—On the basis of unofficial returns at midnight, Hugh Ratliff was elected sheriff of Ector County with a vote of 1,249 over the incumbent, Bill Marrs, who polled 693 votes, in the primary election Saturday.

Pinwheels Of Army Bomber

While two bombardier cadets make final adjustments in the "greenhouse" of a twin-engine bomber at the Midland Army Flying School, the pilot cracks open both throttles to test the motors before taking off on a night bombing mission. The peculiar quality of the spinning props is partly St. Elmo's fire, a phenomenon set up by static electricity and dust in the air.

American Subs Sink 5 Jap Ships

By The Associated Press. United States submarines in new thrusts at enemy shipping in the Far East destroyed five Japanese vessels and severely damaged a sixth, the Navy disclosed, boosting total Japanese victims of American submarines to 55 sunk, 15 probably sunk and 14 damaged.

In addition to a modern destroyer, one medium-sized tanker and three cargo vessels were sunk, the Navy communique said, while the sixth vessel—a medium-sized cargo craft—was damaged and believed sunk.

Meanwhile, the Navy announced the torpedoing of another United States merchant vessel several hundred miles off the Atlantic coast. But all 123 persons aboard were rescued.

The sinking of the United States cargo carrier boosted to 398 the unofficial Associated Press count of Allied and neutral ship losses in the Western Atlantic since Dec. 7.

Triple Production Of War Equipment

WASHINGTON (AP)—War Production Chief Donald M. Nelson told the nation Saturday, the nation's June output of planes, tanks, ships, guns, ammunition and all campaign equipment was almost triple production of last November—but he admonished against "undue optimism."

In the first six months of this year, Nelson said, the volume of such war munitions turned out was one-and-a-half times as large as production during all of 1941.

Government To Pay Cost Of Moving Oil

WASHINGTON (AP)—The government's assumption of abnormal transportation costs on petroleum shipments to the Atlantic Seaboard will be effective on shipments made on and after Aug. 1, Secretary of Commerce Jones announced Saturday.

The financing is to be undertaken by the Defense Supplies Corporation, a subsidiary of the Reconstruction Finance Corporation.

The government will pay the abnormal costs arising from shipment of petroleum by rail, truck and pipe line instead of by tanker, and those arising from the necessity of obtaining petroleum from the Middle West instead of the Southwest, which is the East's customary source of supply.

Canada Comes Through

Before Pearl Harbor, a great argument was heard that the British dominions were holding back and trying to force the United States to carry the burden against the Axis.

For one reason or other, the Canadians and the Australians chose deliberately not to answer such jibes, at first. By the time they began promulgating the record, much harm had been done. Never, up to now, has the Canadian case been presented frankly and clearly.

Just for the record, it is worth while examining a few facts about the Canadian war effort. Australia can be left to fend for herself. The Aussies' fighting has provided a better answer to detractors than any figures. So, too, has the Canadians', but it has been publicized less dramatically.

Canada already has half a million men under arms, and is adding 20,000 a month. Considering differences in population, the United States will need an army of six millions, calling quarter of a million into the service monthly, before we can criticize Canada.

Canada actually has expended five billion dollars on the war. Considering the differences in national income, we shall have actually to pay out eighty billions before we shall equal Canada in financial sacrifice.

Canada is making 4800 planes a year. We should have to turn out 57,600 aircraft a year to catch up with Canada.

Canada has put 835,000 men and women into war jobs. This is equivalent to 10 million American war workers.

We have surpassed Canada in the proportionate number of persons engaged in war production. Paul V. McNutt, War Manpower Commission chairman, announces we have 12,500,000 thus employed. But it must be remembered that this was an industrial nation to begin with, while 25 years ago Canada had so little industry that the government did not trouble to take an annual census of manufactures.

We have far fewer than six million men under arms. We are taking in fewer than quarter of a million men monthly. We have actually spent less than 35 billion dollars on the war from the middle of 1940 to the end of last month. We hope and expect to make 60,000 airplanes this year.

Carping at Canada isn't a popular pastime any more. Nevertheless it may do no harm to note what our neighbor is doing for the defense of democracy.

Oh, Say, Can You See?

There is merit in the suggestion, contained in a clipping whose source is not apparent, that we concentrate upon the last verse of the Star-Spangled Banner.

"Does the Star-Spangled Banner yet wave?" Indeed it does. Not over Corregidor or Guam or Wake, unfortunately. But over the homeland it does, and over Hawaii and Midway and Alaska and Puerto Rico and the Virgin Islands and the Canal Zone and Samoa.

To the victims of Japanese treachery and brutality in the Philippines and Guam and Wake, could we give better pledge than the final words of the last verse of the anthem?

"And the Star-Spangled Banner in triumph shall wave o'er the land of the free and the home of the brave."

Changing Jobs

Unless they are weighed carefully—and to some extent even then—the most recent Labor Department statistics on job quitting are disturbing. They are for April, and the situation may have changed again. But the trend up to that time was consistent.

Half again as many workers were leaving their jobs, for one reason or another, this year as against 1941. That was true alike of voluntary quitting and of discharges. The first, of course, reflects men going into the armed forces and workers taking better position. The second reflects discharges of unskilled workers taken on due to industrial expansion.

Production will proceed much more smoothly when we get the machinery shaken down so labor turnover levels off.

"Impractical! Wait Till Hitler Builds Them First"

Germans would be exhausted by Spring. He said he thought the Russians would survive and that Hitler, lacking a decisive victory, would offer by Oct. 15 peace terms which Benes predicted would be rejected.

Long before then, in fact within six or seven weeks, the Russian front will be virtually immobilized by bottomless mud of the fall rains. Mud first stopped Hitler last winter. By Oct. 15, the snows will be flying.

Capture Novocheerkassk
Official German accounts said Novocheerkassk, 20 miles northeast of Rostov, was captured by storm and that a huge fight was in progress along the Don east and west of the city. The communique seemed to give the lie to the official German claim Friday that Rostov had fallen. Russian and British sources insisted the city still stood although the British said fighting might be in progress in the suburbs.

American planes were fighting for Russia, apparently with Soviet pilots at the controls. The Russian command spoke ominously of German tank, motor and infantry superiority at Rostov and acknowledged that some Russian positions were taken.

Cross Don Twice
The Don was crossed twice near Tsamlyansk, but the first adventures were wiped out and the second "were being dealt with."

The Germans plainly were driving for the Caucasian oil. Equally important, they were striving mightily to cut the Red Army in two, sever the supply line and isolate the Caucasus from the rest of Russia.

Predicts Senate Will Reject Tax Increase

WASHINGTON (AP)—Chairman George (D-Ga.) predicted Saturday that the Senate finance committee would reject treasury proposals to increase individual and corporate income rates in the House-approved \$6,271,000,000 revenue bill, but would explore possible new fields of taxation.

George told reporters that while he believed a majority of the committee would like to attain the Treasury's goal of an \$8,700,000,000 net increase in taxes, he felt certain that members would be willing to go that high only if they could agree on some form of levy not now in the pending bill.

Goodman Takes Early Lead Over Rawlins

Incomplete and unofficial reports from counties of the 88th district indicated early Sunday that James H. Goodman would return to the State House of Representatives. NEW YORK (AP)—If the women want to paint their legs instead of wear hose, it's all right with the National Association of Hosiery Manufacturers, which has concluded, after due consideration, that the practice is a fad and soon will die out.

The decision of the board of the association not to undertake any concerted effort to combat leg painting was unanimous.

Pocket Radio Coming Up, When War Is Over

CLEVELAND, (UP)—It is not so very long—it is hoped—you're going to be able to reach into your pocket and pull out a radio.

Engineers have developed a pocket receiver not much larger than the average notebook—six inches high and about two inches thick. The tiny radio was described to more than 300 technical experts attending the Institute of Radio Engineers' convention held here recently.

The miniature set has a crystal receiver which fits into the ear something like a hard-of-hearing aid. The receiver is connected to the pocket set by a wire, which also contains the antenna for the unit. It contains two smaller batteries and tubes the size of peanuts. The diminutive sets probably will not be marketed until after the war.

McKENNEY ON BRIDGE

By William E. McKenney
America's Card Authority
A group of eight of us from New York recently went down to Baltimore to participate in the Maryland State Masters Pair Championship. Waldemar von Sedwitz and I won the event, but Lehar and Sam Rossant were second and Mrs. McKenney and Peter Leventritt finished fifth.

On one hand we were pretty lucky. I had bid five hearts, prop-

ing to play it there. My partner, feeling I should have at least one ace for all my bidding, decided to try for the slam. Feeling sure my partner was counting on me for an ace, and also that the six-club contract would be defeated, I thought there might be a chance at six no trump, if our opponents could not guess the ace right. That is exactly what happened. A diamond was opened and West won with the ace. The bidding had indicated to West that the declarer must hold seven solid clubs and a singleton heart. West thought from North's strong bidding, he would be more likely to hold the ace and queen of spades than the ace of hearts—in which case, if a spade were returned, declarer could cash seven clubs, three diamonds and two spades. So West returned a heart, hoping to find his partner with the ace—and now the hand was a spread for a slam.

Electric Railway In Laredo Is Salvaged
LAREDO (AP)—The first electric street railway built west of the Mississippi is going into the scrap pile and from thence to the war effort. Two hundred tons of oil rails laid periodically after the transportation system was set up in 1889 in this border city are being salvaged. Some were the original and now practically extinct jumbo "T" type rails with broad lower flanges.
The electric street cars gave way in 1934 to busses.

Texas Fishermen Get Big Price For Fish
CORPUS CHRISTI.—Bronzed Texas fishermen, probing the briny depths of the Gulf and coastal bays, hit the fastest monthly pace in the history of the state's largest fishery during the last eight months, hoisting 12,000,000 pounds of shrimp into Uncle Sam's food basket.
With the \$750,000 which trickled into fishermen's pockets from this catch, the total income of Texas fishermen soared to \$1,250,000 for the period.

According to the best records, the first farm terrace in Texas was constructed by a Newton County farmer, Duke Howell, in 1882.

Twenty-nine sawmills cut almost half of the lumber sawed in East Texas.

Did You Ever Hear Of Bronx Luck Tail? NEW YORK (AP)—You've heard of the Bronx cocktail, no doubt, but have you ever heard of the Bronx duck tail? It's the latest, and quackiest, if you'll pardon the pun of all the various bronx extant. It isn't a drink, it isn't an animal—it's a masculine (?) hairdo. The process is simple—and according to many mothers there, so are the lads who are going in for it. You sit down in the barber chair, Willie the modern barber picks up comb and scissors. He grins—you laugh—and he cuts. Eventually you emerge with a pompadour in front and a straight part down the back of your head after the fashion of a woman's updo. Then the side hairs are swept in towards the part and finger-curlled over. It resembles the tail feathers of a duck.

SERIAL STORY

BANNERS FLYING

BY MARY RAYMOND

THE STORY: Christie, one of the few women who comes down from her first solo flight to find Bart Snaderon at the field. Christie is in love with Bart, a medical student and air enthusiast, but he doesn't approve of her. The fact that she's rich doesn't make it any easier. Driving Christie home, Bart mentions he has met girl on the train, Sandra Rydall, who is coming to live in Westwood. Christie senses the new girl is pretty—therefore dangerous.

COMPETITION ARRIVES

CHAPTER II

CHRISTIE, in Bart's arms, whirled past her mother and Miss Sarah Lancaster. She gave them her most heart-warming smile, because she felt sorry for them both—sitting there against the wall. For her mother, still pretty at 42, her romantic girlhood so far in the background—and for Miss Lancaster, who had never had any romance at all. "Gosh, what a dull evening," Tommy had cut in. "I think it's rather nice, myself," Christie answered. "Why the sweet brotherly attention?" "Well, to be honest, I need a little extra money—all you have in your evening bag." "Tommy are you always broke? Anyway, everything's free. A lobster plate, I'm hearing." "The perfect Family Tone," Tommy laughed. "Let's switch to something pleasant. And I do mean pleasant. There a girl here—well, nothing quite like her has ever set foot in this town before. She came in late with the Robb Nortons. She and I are going to slip out at intermission. I promised to show her our most spectacular night spot. She's really keen about it." Could she be the same girl Bart had been talking about? Of course she was! "She looks pretty social," Bart had said. The next moment, Bart had cut in again. Suddenly, the music stopped abruptly. Then as quickly swung into "God Bless America." "Good tune," Bart said, as the dancing stopped. They were standing now by the arch which separated the ballroom from the enclosed porch. Tommy and a girl were dancing on the dimly-lighted porch. They danced past Christie and Bart into the ballroom; and as though completely unaware of the sensation they were causing, double-stepped the martial rhythm with perfect timing. THE girl wore a bright red frock, with a huge skirt that emphasized her slim waist. Her eyes were enormous and velvety black. "Tommy's a fool," Bart said. "If this had been Europe, he would have been rushed off by the military police. He's pretty lucky he lives in America." "Tommy!" Christie echoed indignantly, "what about that girl? She should have brought some respect for this country when she came from Europe!" Bart spoke slowly, "I think it's rather unfair to judge a person so quickly." Christie's anger fell from her. "Perhaps it is," she said in a low tone. She had realized that not all her anger was directed against the new girl because of the exhibition. She disliked her because she was beautiful and dangerous—because Bart obviously didn't dislike her. Now, she was beating a retreat because Bart might be forced into open championship of the other girl. "It's just that everybody was looking at Tommy as though he were a traitor," Christie said. Her voice trembled a little. "Oh, now look here. Aren't you getting a little hysterical about the whole thing? Nobody is going to spoil this evening for me. Sit this out with me, Christie. I've something to tell you." Christie's personal sky was swept clear of storm clouds. She thought, as Bart piloted her toward the Palm Room: "It's silly to be this much in love." A look from Bart could lift her up or drop her down. Right now she was on top of the world. Bart had something to tell her! They had reached the dim, secluded Palm Room; and Bart had caught her close to him. "Christie, I had it all planned out—to ask you to marry me. Dr. Atwell wants me to come in with him, as soon as I finish my internship." "Dr. Atwell," Christie breathed. Chief surgeon at the near-by Lakeville hospital, head of his clinic, and one of the famous men in his field. "Yes," Bart's voice was low and tense. "But I can't do it, Christie. This war business has got me. I'm going to get in there and pitch." "I'll wait," Christie whispered. "Oh, darling—it might be a long time. But you will stand by, Christie?" "You know I will." He kissed her again, and then released her. A low, amused laugh had startled them. "Hello, soldier." SANDRA RYDALL had come close to them. She was nearer Christie, but her eyes were on Bart. "Hello," Bart said, adding "Christie, this is Sandra Rydall." He turned to Christie: "Shall we tell her?" "Why not?" Christie thought, happily. It would be just as well for this arrogant young beauty to know how things stood. "I'm the seventh daughter of a seventh son," Sandra said lightly. "That makes me know things without being told. Besides I was only two feet away when you sprang the big news." "Oh," Christie's face burned. The girl was bold, shameless. "But it wasn't news to me," Sandra continued carelessly. "You see he had told me before. You're still strong for the Air Corps, I guess?" Christie's shocked surprise was succeeded by pure fury. If she spoke now, she would certainly betray her indignation and contempt for this girl and her cheap tactics. She did not speak, waiting for Bart to put the stranger in her place. But Bart was smiling. He had

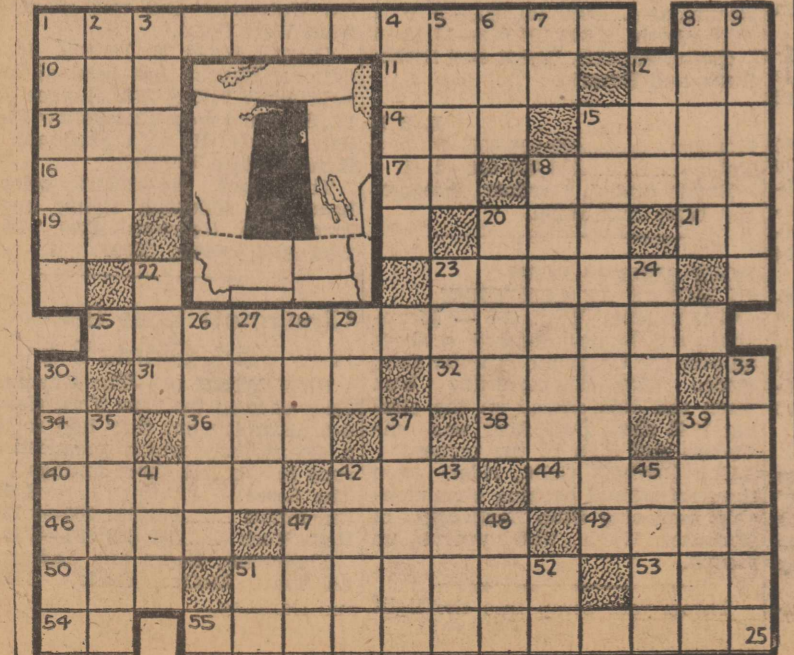

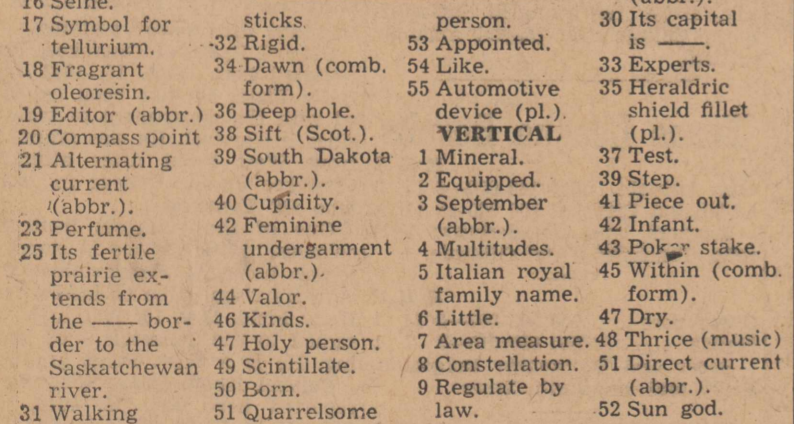

"I'm glad I met you," Sandra said. "I wanted to see what you were like." "I hope I haven't disappointed you," Christie said sweetly.

lighted a cigaret and the brief glow showed the amused gleam in his eyes. "You evidently think I don't know my mind." "People change them," Sandra said slowly. "Well, it's still the Air Corps with me," Bart answered. He added, "and I don't change my mind." Tommy had come up. "Hello," he greeted them. "Where did I lose you, Sandra? One minute you were standing by me and the next you were the little girl who wasn't there. You haven't forgotten we are leaving at intermission?" "I only forget things I don't want to remember," Sandra replied. She turned to Christie. "I'm glad I met you," she said. "I wanted to see what you were like." "I hope I haven't disappointed you," Christie said sweetly. "Not at all," the other girl answered. "I think I know exactly what you would be like." Only her smile robbed the words of malice, and Christie had the feeling that the smile was for Bart's benefit. She waited until Sandra and Tommy had left the room. Then, she turned to Bart. "She knew—about your plans for joining up. About me!" "What's wrong with that?" Bart was looking at her in astonishment. "We were on the train several hours together. It was natural to discuss things we were interested in. She's a direct young person, and she asked if there was a girl at the end of the line, I said there was. Then, we got to talking about the war, and she found out it was the air end of it for me." She could see that he was waiting, half bewildered, for her reply. She must put this hurt back of her. Men didn't think about things the way women did. "Does that clear things up?" Christie nodded. She loved him—the war, and her country's emergency—these were the big concerns. She would not let Sandra or anyone or anything undermine her happiness. Only she hoped she wouldn't run into her again. (To Be Continued)

Ohio Company To Drill Wildcat In Northeastern Lea

By Frank Gardner Oil Editor HOBBS, N. M.—Ohio Oil Company has staked location for an interesting wildcat test in extreme Northeastern Lea County. It is the No. 1 State, in the center of the northeast quarter of the northeast quarter of section 36-9s-37e. Carl B. King Drilling Company has been awarded contract to drill the well to 5,250 feet unless production or sulphur water is encountered at a lesser depth.

Don G. McCormick, Hobbs attorney, is making a substantial contribution of acreage toward drilling of the well. Skelly Oil Company, which has leases in the area, is donating dry-hole money. Neville G. Penrose of Fort Worth No. 1 State, wildcat several miles northwest of the South Lovington pool in Lea, is drilling below 4,550 feet in lime and anhydrite. Driller called the first gray lime stringer at 4,540 feet. The test is in section 22-16s-26e.

Tatum Wildcat Cementing back to 4,994 feet from total depth of 5,175 feet apparently effected a shut-off of bottom-hole self water in Mascho Oil Company of Midland and American Drilling Corporation of Hobbs No. 1 Tide Water-Slate. North Central Lea wildcat in section 16-12s-35e, seven miles west of Tatum. Operators swabbed it dry, getting a slight showing of oil, and are testing at intervals. They probably will acidize pay lime topped at 4,935 feet.

Culbertson & Irwin, Inc., of Midland staked No. 1 T. S. Inger as a wildcat southwest of the Shugart area in Eddy County. It is 660 feet out of the northeast corner of section 23-19s-30e. Contract has been let to Russell & Beckham of McCamey, Texas, and the test is drilling below 210 feet in red rock.

Another new wildcat for Eddy is the Mac T. Anderson No. 1 Stevens, 1,980 feet from the north and 3,800 from the east line of section 31-20s-28e. It is a scheduled 1,000-foot test.

Drilling Line E. Orcutt et al No. 1 Newman-State, wildcat in section 16-21s-26e, five miles northwest of Carlbad in Eddy, is drilling below 927 feet in lime.

In Eddy's active Square Lake pool, Etz Oil Company No. 2 A. N. Etz was completed at 3,011 feet for natural flow of 120 barrels of oil daily through open 2-inch tubing swung at 3.066 feet. More activity for Square Lake was seen as Etz Oil Company staked No. 4-E State and Sanders Brothers located Nos. 9, 10, 11 and 12 Evans in section 33-16s-30e.

Five Former Football Stars At MAFS May Get Gridiron Calls

Names of five former football stars, stationed at Midland Army Flying School, were certified to Washington Saturday as possible material for two football squads now being selected to represent the Army in a series of eight games during September against teams of the National Professional League.

Proceeds of the games will go to Army Emergency Relief. The War Football Fund, Inc., will handle all financial matters.

The ex-collegiate gridsters here are Lieut. Don Scott; Lieutenant Colonel John D. Ryan and James H. Isbell; Lieut. Joe Bailey; and Lieut. E. K. Sarkkinen.

Scott was All-American at Ohio State. He played fullback. The 225-pounder was a powerful runner, kicker and passer, and once led his team to a win over Minnesota.

Ryan and Isbell starred at the U. S. Military Academy. Ryan was a backfielder, fast and shifty in the open field; Isbell, rugged 195-pounder, was a tackle.

Bailey performed at center for Kentucky, weighing 205 pounds, the Colonel ace played in the annual Blue-Gray (North-South) game at Montgomery, Ala., in 1940.

Sarkkinen, brother of an All-American end, was not an obscure halfback himself at Ohio State during the Don Scott days. He is a big six-footer and weighs 180 pounds.

The Army squads will be coached by Col. Robert R. Neyland, formerly at Tennessee and Maj. Wallace Wade, ex-Duke U. mentor.

NEW YORK (AP)—The Kimanis Club of Bayside, Queens, has presented War Bonds totaling \$300 (full count) to Coast Guardsman John C. Cullen, who gave the alarm resulting in the capture of four submarine-landed Nazi saboteurs.

SPORTS--BOMBER

We were eating lunch with the cadets and between fork loads of meaty pork chops, just like mom cooked, mused at the food that strengthens the bombardiers. It's good. It's vitamin-packed, muscle-building chow with a wide variety. They get plenty of leafy and raw vegetables. They get hot foods like the pork chops, and gravy, potatoes, peas, etc. They get jelly and wholewheat bread. And they get carrots too (you know eyes at night, big and bright stuff). This day got lemonade and chocolate cake to follow down the pork chops and potatoes. Cadet mess officers, Lieutenants Shaeffer and Smiser, tell you the boys are getting the best. You agree after eating with them.

Neatly stocked for sport and recreation use at MAFS is a supply of equipment which would do credit to a college. Good old Army, there is a lot of sports equipment out here a civilian could not buy. Just browsing the stock shelves one can find; 12 sets of 16-oz. training boxing gloves; 12 sets of 8-oz. fighting gloves; 5 sets of used boxing gloves for sparring; 2 sets of strike bags; 2 sand bags; assorted (many pairs) boxing shoes; boxing trunks; 2 medicine balls; skip ropes. That's not all either. On hand are 40 (forty) mind your basketballs, 43 footballs, volleyball, soccer balls, softballs and bats; and 15 sets of horseshoes (hard to get with steel at priority). Also interesting is the fact that this equipment is the best money can buy. Uncle Sam bought it for his boys so their Army life would have recreation nad sports.

Captain Edward McKaba, statistical officer at MAFS, is a former athlete. The captain played a lot of football for St. Francis College. Enough to attract pro scouts and he snared a professional football contract. He is from the Brooklyn area and lacrosse is another of his favorite sports.

BOMBSIGHTS . . . Let's go hunting, using names of officers at the bombardier school to tell the story: We will take an archer (Lt. Thomas M. Archer) and a Bowman too (Lt. George A. Bowman) . . . No guns this time, they would cause too much noise (Lt. Russell C. Noyes) . . . Going to the lair (Lt. Maurice C. Lair) of game, somewhere near the Craig (Capt. Franklin Craig) . . . or brook (Lt. Harold W. Brooks) . . . We pass a carpenter (W. O. Grover C. Farmer) . . . a miller (Lt. Robert A. or Robert W. Miller) . . . and a shepherd (Lt. Howard B. Shepherd) . . . We go hunting on Monday (Lt. John A. Munday) . . . day (Lt. Harold E. Day) . . . or knight (Lt. Milton R. Knight) . . . in spring (Lt. Donald H. Spring) . . . Is that a royal hunting party near us in the field? Must be it has a King (Lt. William W. King) . . . a duke (Capt. James L. Duke) . . . and a squire (Lt. William A. Squires) . . . So Archer and Bowman hunted by hand (Lt. John H. Hand) and have plans for more hunts, three in fact (Capt. Embree H. Hunt, Lt. Barton L. Hunt and Lt. John P. Hunt).

More Youngstown, O. worry included Ted Hubbard, outfielder, who played football and baseball in wet letters at Whittier College.

DUNLAP'S (Successor To Wadley's)

Many Star Athletes On 487th School Squadron Team

Small wonder that the trophy for winning the spring softball league at Midland Army Flying School is in the recreation room of the 487th School Squadron.

That squadron had baseball-softball talents, plenty of it. Enough to win a crown!

Pete Halford, Memphis, Tenn., pitching ace has had his acclaim. The boys that helped him deserve the press plaudits.

John "Dizzy" Dziak, right fielder, played amateur baseball at home-town, Cleveland, Ohio.

John Gidowski, third baseman, is from Youngstown, O. He played semi-pro baseball and was an all-around athlete while at Chaney High School.

Collegian Is Pitcher Teammate of Pitching Pete is Maurice "Haw" Hamilton, from Youngstown, O. Haw played high school football, basketball and softball before going to St. Joseph College in Indiana.

Kelth Johnson, outfielder, hails from Minnesota, and played Junior American Legion baseball and high school football and baseball.

John "Peet-Wee" Schultz, outfielder, is a New Jersey boy. He performed in football and baseball for Orange, N. J., high.

Another outer garden fielder, Lloyd "Fat" Jennings, came from Joliet, Ill., where he played football and baseball, along with basketball at Lookport high. He is under professional contract to the Chicago Cubs.

The hometown of Memphis, Tennessee not only furnished Halford but produced C. W. "Stumpy" Ray, outfielder. Stump played a bit of pro baseball and did a bit of football and baseball with Tech High of that city.

A Texan Of Course. What no Texan? Of course there is a Texan. He's Allan "Goatcreeper" McBride from East Texas. Goatcreeper was the sprakplug of the team at shortstop. He has played semi-pro ball.

FALL MADCAP

THIS madcap hat, a little like the French Revolution headpieces of yesteryear, accents the new fall fashion "must"—high crowns. The felt is a fashionable hue—plum—that foretells a strong-color hat scene. It's trimmed with purple grosgrain ribbon. This is a millinery fashion inspiration original.

Like MAFS bombing, it made a hit! So: Bigger and better will be the watchword of the enlisted men's dance Saturday night in the giant hangar at the airways station.

It's the second "Keep 'em Smiling" event for the "Keep 'em Smiling" soldiers for the summer. Where the first event was "extra-special" in fun and frolic, the second will be "super", special service and recreation officers promise.

Everybody had fun at the first dance, soldiers and pretty West Texas girls, agreed. There will be more fun this Saturday night because there will be more people to have it. More than 2,000 attended the first dance; 3,000 are expected for the second.

Music, by popular demand, will be those musical bombardiers of hit tunes—the "Hell from Heaven Swingsters", whose sweet and swing rhythm captivated the khaki boys and their partners last time.

Every girl who loves to dance, is invited! Unlike the first affair, no invitations will be issued. It's just plain "come and have fun" blankety bid to all the girls in Texas. Free transportation will be provided from nearby cities—Midland and Odessa. A Big Spring delegation is expected to come.

There will be refreshments, good music, and a louder public address system to carry it. The big hangar is airy and cool, and girls—there are thousands of men. And a promise—"never a slout at a MAFS dance". Everybody swings; everybody has fun!

Bill Collins, manager of the chamber of commerce, will outline complete aim of the drive.

Materials will be placed on the curbs in front of homes, and the city will gather all salvage immediately, and deliver it to the central gathering place.

Another three weeks gone by and members of the fifth class of bombardiers to graduate from this world's largest bombardier college have received their wings and commissions.

The highlight of the enlisted men's week came in a swell dance given in the hangar at the airport. About four hundred West Texas beauties attended and music was furnished by the 'Hell from Heaven' Swingers.

491st School Sqdn.
Corp. Herb Stielau returned from his three day leave to Fort Worth in a very flighty mood and is now inquiring about separate ratons, which can only mean one thing.

Sgt. Frank Formagus recently had an extra special uniform tailored which he claims fits like a glove and will undoubtedly make him the stand-out of the squadron. A lot of the men are getting these long-awaited furloughs after planning and talking about them for the past month. Pfc. Gerald Rosenthal has left for New York City after acquiring his recent promotion and graduating from the Post Technical School. Pfc. Al Cipriano also just received his stripes and is really proud that he'll be able to show them off to his folks. Going to New York also is Pfc. John Roddy who is going to visit his family and friends for ten days. Staff Sergeant James Collins left for a ten day furlough to his home in Terre Haute, Indiana.

The 491st has played several games of softball lately and has won two and lost two. They are now in good trim and expect to sail through the rest of the season.

One of the squadrons most popular young men, Pvt. Thomas J. Heron, was married last Monday at the Post Chapel. The Reverend Dalheimer officiated. Pvt. and Mrs. Heron now are honeymooning in West Texas.

Pvt. Joe Demboske recently returned from Randolph Field after attending the Airplane and Engine Mechanics School there. He is said to have made one of the highest marks of any of the men taking the course.

Now that Captain Robert L. Springer, C. O. of the 491st School Squadron, has returned from a short furlough, there are two Captain Springers in the 491st Order-

ly Room, as Capt. Allen M. Springer, of the newly activated 817th School Squadron, has his office in this same office. This similarity in these names has resulted in considerable confusion.

First Lieut. Julius G. Schmidt, who until recently was the squadron adjutant, has now become squadron commander of the 488th.

Captain Harry S. Baker is the new squadron adjutant.

852 Ordnance Service Co.
Odds occupations: We have found three members of this organization were formerly connected with various circus units. Pfc. Harry Woods was formerly with Ringling Bros. and Pfc. Cliff Leek and Staff Sgt. George Fiskid traveled with two or three large shows.

Tech. Sgt. Richard Ike and Sgt. Fiskid turned carpenter experts and clad the pool table in a new suit of green felt Thursday. Since the change, proceeds are growing so rapidly there is talk of adding a new table in the near future.

Things are a lot easier for the men on the bomb dump since a civilian contractor has invented a device which loads the bombs with sand and prepares them for the powder charge. Now four bombs are loaded per minute whereas it took three men two minutes to complete one.

Although they have no intentions of appearing on a quiz program Sgt. Nicholas Hollis, Walter Heymann, Anthony DiRocco and Vincent Piobron answered questions appearing in Readers Digest that had stumped the experts and between them attained a perfect score.

Pvt. Joe Scanlon and Pfc. Tommie Holt have been sent to the half-track school at the Aberdeen Proving Ground in Maryland.

Four of the fellows who received furloughs this week all seemed to be going to the same place. North Carolina bound were Corp. Glenn Isaac Petty and Pvt. Gilbert McGordon, Corp. Cletus Doster, Pvt. Vaskill.

Other furlough goers were Sgt. Dixon Kirk who went to Houston and Corp. Claude Ferguson who left for Huntsville. Sgt. Joe Campo and Pvt. Leo Meskaskas both left for Chicago; Pvt. Felix Garbo to Evanston, Ill.; and Pfc. E. W. Bebola to Rockford, Ill.

Corp. Angelo Terrio went to Dellsboro, West Va., and Corp. Frank Wright left for Greensburg, Ky., while Pfc. C. H. Gueritey went to Passaic, N. J., and Pfc. Worthington Day to Bethesda, Md. Pvt. Kenneth Sheidt went to New Augusta.

488th School Squadron
We have all been mighty busy this week due to the split-up of the 488th into the 814th and 862th School Squadrons. Everyone has been rushing around trying to find out who is where, and why. We now have everything under control, and all three orderly room are functioning with full efficiency, even though we are a little crowded.

We who remain in the 488th wish to extend a warm hand of fellowship to departing First Sgt. Preston, who is to become the First Sergeant of the 814th School Squadron. We have enjoyed working with Sergeant Preston, and for the helpful advice he has given us

on so many occasions. We wish him the best of luck in his new undertaking. The 488th is happy to have acting First Sergeant Wagner as our top kick, and we assure him that he has our full cooperation in his efforts to carry on the good old tradition of the 488th, and may it continue to grow in our all out war effort.

This squadron bemoans the loss of Sergeant Hedgepeth, who so ably carried the job as chief clerk, and sincerely wishes the best of luck to him in his new job as acting first sergeant of the 862nd School Squadron.

Another among those we miss is Pfc. Donald McQueen, who has been transferred to Big Spring, Texas, where he will continue his duties in the personnel and payroll section of that field.

Now that we have seen the very attractive Miss Jeanne Garner of El Paso, we can understand why First Sergeant Wagner went around in a daze during her recent visit to Midland.

All of those in the 488th who attended the dance last Saturday night, report a most enjoyable evening, and are all looking forward to the dance August 1.

We are glad to welcome back the following men who have returned from furloughs: Master Sergeant Lindsay, Tech. Sergeant Wiebel, Staff Sergeant Roberts and Private Brush.

Flier Snake-Bitten 3,000 Feet In Air

MELBOURNE, Australia (AP)—Snake-bitten 3,000 feet in the air, S. Army Lieut. Robert Vaught, 24, of Johnson City, Tenn., gave this report on a perilous adventure recently aloft and aground:

While flying 75 miles from his base, Vaught noticed a peculiarly marked snake near his left foot. He put the plane into a slip to try to slide the snake into a corner, but when he touched the rudder bar the snake struck him twice.

Vaught then seized the snake and threw it out.

Almost immediately he began to feel so ill that he made a forced landing in a dry swamp. After fainting several times, he dragged himself to a water hole where he put a tourniquet on his badly-swollen leg and made a mud pack which relieved the pain "somewhat." He thought of sacrificing the wounds but decided it was too late to do any good.

During the afternoon he sighted another plane and radioed for help. That night he had to fire his machine-guns to drive off wild buffaloes that threatened to damage the plane.

When rescuers had not located him next day, Vaught managed to fit a piece of wood to the left rudder pedal so he could operate it by hand. He made a successful takeoff and returned to his base.

After a period in a hospital, he now has rejoined his squadron.

Enlisted Men Have Ballroom Dance

The weekly ballroom dance for enlisted men was held at the Soldiers Center, 213 N. Main, Saturday night.

Forty dozen homemade cookies were supplied by the Cookie Corps for refreshments.

There will be no ballroom dance at the center next Saturday night because of the enlisted men's dance at the Always hangar. The center will be open, however, for soldiers who wish to write letters or otherwise amuse themselves.

Captain Kooistra Commands Dutch Air Arm At MAFS

Captain David Kooistra of the Dutch Fleet Air Arm has arrived in Midland and is now in command of Dutch aviators and bombardiers training at the Midland Army Flying School. He arrived in the United States in May from Australia, and has been with the general Dutch flying command headquarters in Jacksonville, Fla.

Before the war, Captain Kooistra was for 17 years chief officer of the Mercantile Marine in Java, with headquarters in Batavia, and with his home at Soerabaya.

The Dutch unit will be here until about November 1. About 85 men will have completed their training by that time. Lieutenant Henk Palman, who came here with the unit several weeks ago, is second in command.

Transient Held For Virginia Officers

Coyt Stanford Lewis, 19, who was taken by members of the sheriff's staff from a freight train here on Thursday night, has been ordered held in county jail on request of Richmond, Va., chief of detectives, Captain O. D. Garton. Garton said Lewis is wanted for car theft, and for escaping from the Richmond jail. Lewis signed a waiver of extradition Saturday, and will be returned to Richmond.

Lewis was one of 10 men, all under 20 years of age, taken from the train. One of the group tried to escape officers, but was caught by Deputy G. B. Hallman, after a chase across a field. Officers had the train stopped after some of the young men chucked at a passed auto.

All transients now are being picked up by officers, on orders from the FBI, and are fingerprinted and held for complete investigation. Most of the men moving on freights are young, a high percentage of them being under 20 years of age.

Prime Beef Demand Develops Heavy Market Here; Past Week Set Records

The cattle market in Midland during the past week was by far the best in the history of the Texas Cattle Sales, with the weekly auction selling the largest number of animals, the highest prices, and the most widely distributed list of buyers and sellers, as well as the best finished out prime beef.

Prime beef was well represented on the market, and had fast buyers, indicating a big demand for both whole sale and retail markets. The fast increasing number of feeders in the area is developing a big buyer demand, and bringing a steady growth to the market in Midland. Much prime stuff will go directly to the tables of the cafes and homes of the large cities of Texas and Oklahoma. Some of the choicest was sold for Midland tables.

Biggest buyers included J. D. Poe, Tab Marchant, Marshall Cook, Fred Mathews, Sullivan Brothers, Ralph Broughton, Lubbock A & C Co., all taking for out-of-county markets. Other heavy buyers were A. L. Cooper, A & M Packing, Carl Hightower, E. E. Hubbard, A. Saltese, C. O. Welch, and Agnes Cafe, C. E. Baker, Earl Binyon, Lee Brunson, R. E. Crowley, B. C. Day, Dickey, Adams, Doran Produce, Mildred Ethridge, J. T. Flowers, Gene Harwell, L. C. Hazelwood, J. R. Lamonthe, M. G. McConall, J. T. Masters, C. P. Porter, Raggett, Earl Ray, C. D. Westcott, B & E Farms, E. Copeland, R. L. Henson, Alvis McReynolds, and O. C. Stewart.

Selling represented an even wider area, with much finished stuff, both cattle and hogs. Among sellers were J. B. Abbott, Reed Alsbrook, J. A. Andrews, Shorty Beasley, J. P. Beavers, Arch Benga, A. R. Bauman, A. R. Brown, L. A. Brunson, Circle Bar Ranch, Ray Clark, A. Cole, Comer Bros., E. Copeland, C. W. Crowley, and Norman Dawson, C. Flowers, J.

It has been announced in Washington, D. C. that survivors of torpedoed ships will be supplied with emergency clothing kits by the Red Cross immediately upon their rescue at sea. At Navy Department request the kits will become part of the regular stores of the Navy's inshore patrol boats, convoy escorts and other vessels engaged in rescue work. The plan to supply rescued sailors with emergency clothing before they reach a port marks another extension of Red Cross service to the survivors of torpedoed ships. Providing clothing for seamen who have been adrift for many days has been one of the difficult problems of rescue work.
