Ten Killed In Transport Plane Crash

Big Cargo Ship Falls And Burns

MINNEAPOLIS (AP)—Ten Northwest Airlines employees were killed, when a U. S. Army cargo transport plane crashed Thursday on Wold-Chamberlain Field during a takeoff.

Fire which broke out when the plane crashed so badly burned several bodies that identification was impossible.

The known dead, announced by Northwest Airlines officials: Kenneth S. Olson, 28, Minneapolis, co-pilot; John F. Fisher, 26, Fremont, O., co-pilot; Leonard O. Larson, mechanic; Leo D. Hinselwood, mechanic; Wilbur C. Rose, Paul F. Parlin and Winston A. Luchau, all groomers.

Owned By Government The plane, a 247 Boeing 10 passenger, was loaded with 270 gallons of gasoline before the takeoff. The ship, formerly owned by United Airlines, belonged to the government and had been acquired by Northwest Airlines to use as a cargo ship on the northern division.

Olson and Fisher had boarded the ship to make a check flight. The mechanics and groomers went aboard.

The ship, Northwest Airlines employees who witnessed the crash said, was about 200 feet up when it seemed to nose up, swing over to one side, stall and crash. Fire which broke out was quickly extinguished.

Darby Moving In Rig For Outpost To Pyote District

A one-quarter mile west outpost to the new Pyote pool of Ward County is being started by Ward Petroleum Company in its No. 3 University. Rig is being moved to the location, 660 feet out of the southwest corner of section 19, block 16, University survey, 1,320 feet west of the pool opener.

Magnolia Petroleum Company No. 1 D. K. Glenn, deep test in Southwestern Crane County between the Sand Hills and Abell fields, is drilling at 5,362 feet in dolomite. It is in the Ellenburger, lower Ordovician, topped high at 5,258 feet.

In Northwestern Crane wildcat territory The Texas Company No. 1 G. C. Fraser-TEXL still is shut down for orders at 4,730 feet in lime. It logged an estimated three barrels of sulphur water per hour from 4,758-62 feet.

Magnolia No. 1 Alan Robertson, scheduled 6,500-foot wildcat northwest of Fort Stockton in Pecos County, still was unable to get circulation after running 184 sacks of Calsiel in addition to 60 sacks pumped in Wednesday. It is shut down, probably waiting for another cement job. Total depth is 3,633 feet in cavernous lime.

Martin Wildcat In Solid Lime Solid lime was topped at 4,430 feet, a normal point regionally, by Amon G. Carter No. 1 Walter, M. Claer, 5,500-foot wildcat project in Northwestern Martin County. Thursday morning it was drilling ahead at 4,601 feet in lime.

Magnolia No. 1 Earl B. Powell, scheduled 7,700-foot in Southeastern Martin, is drilling at 6,911 feet in black lime.

Texaco No. 1 J. Bay Robertson, Southern Gaines County wildcat (Continued on page eight)

CUB SCOUTS TO HAVE OUBING SATURDAY All Cub Scouts of Midland are asked to meet at the Scout Hall Saturday morning at 10 o'clock to go to Cloverdale for an outing with Cubs of Odessa. Games and contests will be held and a lunch served.

SUGAR STAMPS No. 6 and No. 7 Good Until Aug. 22

Hall Announces Big Cut In Fire Insurance Rates

Texas Policy Holders Will Save \$3,200,000 In Next 12 Months

AUSTIN (AP)—A sweeping, state-wide reduction in fire insurance rates, announced Thursday by Marvin Hall, state fire insurance commissioner, will result in an estimated saving of \$3,200,000 to Texas policy holders during the next 12 months.

The new rates, affecting many classes of insured property, and amounting to as much as a 25 per cent saving in the case of dwellings in future insurance costs, will become effective on policies written after Aug. 1.

The greatest saving in any class will apply to dwellings. Estimated to exceed \$2,250,000 within the next 12 months, this benefit will reach more individual property owners than any other class. Premiums on insured dwellings last year accounted for approximately 40 per cent of the fire insurance business written in Texas.

Costs Now Are Lowest Savings to insurance buyers in Texas as a result of Thursday's order, coupled with reductions during the last six years, reach an approximate total of \$10,000,000, Hall said.

"Insurance costs in Texas are the lowest at any time," he stated. "The lower rates for insurance protection are the direct dividend to the policy holder for preventing fires.

"Our efforts on a constant fire prevention program are now paying dividends. Texas ranks foremost in the nation on fire prevention education."

Fire Prevention Pays The good fire record credits benefitting 506 Texas towns and cities this year will mean a total saving over normal insurance costs of \$2,773,000, the commissioner asserted.

Hall stated that in some instances the saving on fire insurance premiums since the early part of 1936 will amount to 63 per cent.

"Besides the property saved from fire destruction every year," the explorer, "the cost of protection has steadily decreased. There is only one way in which we can preserve the savings record already attained and that is to continue with a vigilant practice of fire prevention in every home and place of business."

Midland Bombardier Gets Nazi Submarine In Gulf Of Mexico

Mark up the first score for this world's largest bombardier college—one German submarine now at the bottom of the Gulf of Mexico.

Score one on the new MAFS "Victory Target" for Lieut. Carlus Turner, of Red Bud, Ky., who, so far as can be determined, is the school's first graduate to smash an Axis objective.

Brigadier General Isiah Davies Thursday announced that a report from Fort Myers Army Base states that Lieutenant Turner, a member of MAFS Class 42-7, has received official credit and a letter of commendation for sinking a German submarine off Yucatan in the Gulf of Mexico on June 21.

The letters of commendation were presented to Lieutenant Turner and other officers and members of the bomber crew of a bomber operating out of the Florida Air Base at a formal review held July 25.

Lieutenant Turner's picture will be the first to hang on the bombardier school's "Victory Target," which is being marked out on a wall in the main corridor of Post Headquarters, General Davies said.

"Lieutenant Turner's exploit is especially gratifying to the officer and instructors of Midland Army Flying School," General Davies stated, "because it brings into sharp focus the sole purpose of this school—to train 'Hell from Heaven' men who can go out and lay their bombs across the most elusive of targets.

"Turner is the first graduate whose combat exploits have been reported back to us. There probably have been many others and will be many more, and we hope that soon the 'Victory Target' will become too small to hold the pictures of MAFS graduates who have hit the enemy wherever they find him," the general emphasized.

Official Report The official account of the engagement in which the U-boat was sunk follows: "On June 21, at 5:36 p. m., while (Continued on page eight)

Bombardiers Keep Cool

When the weather's fine for flying (100 degrees or better) on the sun-baked plains of West Texas, the bombardiers in training at Midland Army Flying School know a spot just three miles away where they can get cooled off. The temperature there, in fact, is far below freezing and you're advised to wear plenty of warm clothing.

Where is this refuge from sizzling summer? It's neither an ice plant, refrigerator, nor an air-cooled theater. It's anywhere 15,000 feet up—and higher—where the "Hell from Heaven Men" fly on their high-altitude bombing missions. It's up where often in mid-summer men wear fur-lined flying suits to keep warm and breathe oxygen to keep alive.

The picture shows how bombardiers and pilots ward off the cold while groundings are combating the heat. A pilot bundles himself into his "fuzzy wuzzy" flying suit while bombardier prepares to slip into his parachute harness before starting a high-altitude bombing mission.

Interference With Preparations For Combat Must End

WASHINGTON (AP)—Every interference with the rapid and efficient preparation of the armed forces for combat must be halted at once, Secretary Stimson said Thursday in response to appeals for furlough of military personnel during the harvest season.

Exceptions to this policy, he said in a letter to Senator Nye (R-ND), were being confined to cases of extreme emergency, and excessive furloughs or leaves would "prejudice the progressive growth of our military power."

Cairo Is Bombed By Axis Planes

CAIRO (AP)—Small forces of Axis bombers made widespread pre-dawn attacks on British-United States airbases in the Nile Delta area, behind the quiescent El Alamein front.

Bombs fell in Cairo proper and provoked the greatest anti-aircraft barrage ever seen there. Sirens also screamed in the Suez Zone and other scattered areas of Egypt.

The British regarded the forays as intended primarily to hinder Allied air operations against Axis sea and land communications to the now stabilized El Alamein front, about 70 miles west of Alexandria.

British fighter-bombers pounded away at the right wing of the Axis line west of El Alamein Wednesday while the center was subjected to harassing artillery fire, General Sir Claude Auchinleck's headquarters reported.

Land operations were limited to minor skirmishes and dust storms curtailed aerial activity to some extent.

SECRETARY TAKES BLAME FOR TELEGRAMS FORT WORTH (AP)—D. Roland Potter, secretary to Senator O'Daniel, Thursday assumed responsibility for the handling of telegrams sent out from Washington over O'Daniel's name, and said if any were charged to the wrong account it was due to an honest mistake on his part.

Potter's statement was made in reply to a dispatch saying Senate committee was waiting to question O'Daniel in regard to sending at government expense some telegrams that were held not to be government business.

New Rubber Source Has Been Found

WASHINGTON (AP)—Petroleum Coordinator Ickes said Thursday the oil industry has uncovered capacity for production of 200,000 tons annually of butadiene.

Ickes said this would make possible the output of 240,000 to 250,000 tons of synthetic rubber annually over and above presently projected rubber programs.

"It's brand-new; it's like finding an oil well," Ickes told his press conference.

This new rubber production could be "brought in" by the end of the year by conversion of existing gasoline refining plants, he said. The material used for butadiene would be gasoline.

Ickes declined to say whether he expected such a program would make more rubber available for civilian use.

Lt. Col. Smith To Command Bomber

Lieutenant Colonel Richard H. Smith, director of flying training at Midland Army Flying School, has been assigned to duty with a bomber wing of the Army Air Forces and will leave MAFS.

Colonel Smith reported to Midland Army Flying School November 26, 1941, from Goodfellow Field, San Angelo.

He graduated from West Point in 1922 and was commissioned in the Infantry the same year. The colonel had flying instruction at the Chicago School of Aeronautics, Randolph Field, and Kelly Field. He was promoted to lieutenant colonel from major Jan. 23, 1942.

Army Plane Crashes Into Houston Home

HOUSTON (AP)—Two army fliers were killed when their plane crashed into a two-story brick house on Riverside drive Thursday. The house is owned by R. W. Baldwin.

The fliers' bodies were not removed from the plane immediately and identification was lacking.

The house was practically demolished.

QUAKE RECORDED

NEW YORK (AP)—Fordham University reported Thursday its seismograph recorded a "very severe" earthquake at 6:08:26 p. m. (CWT) Wednesday night, approximately 9,600 miles from New York. Father Joseph Lynch, seismographer, was unable to determine its direction.

Ickes Says More Gas Rationing Is Not Needed Now

WASHINGTON (AP)—Petroleum Coordinator Ickes Thursday declared that nation-wide gasoline rationing was not needed now as a measure to bring about larger deliveries of petroleum to the rationed eastern states.

The statement, made at his press conference, differed sharply with the position of Joel Dean, gasoline rationing officer in the office of Price Administration who said Wednesday a recommendation for nation-wide rationing, endorsed by himself and OPA Chief Leon Henderson, now was before President Roosevelt.

Shortage In Fuel Oil Ickes declined to discuss the possibilities of universal gasoline rationing as a rubber conservation measure.

As to the eastern petroleum situation, the coordinator told newsmen that next winter "we may have to ask people to set their thermostats at 65 degrees or even lower, and to eliminate heat from several rooms of homes."

He referred to about 1,250,000 homes in the East, and other establishments using fuel oil for heating.

Hubert Hopper Urges Christian People To Unite For Victory

The Rev. Hubert Hopper told Midland Rotarians at their meeting Thursday noon in Hotel Scharbauer that "Christianity is the keystone of democratic ideals," and that "Christianity always goes hand in hand with men who have the democratic ideal of ruling themselves."

The speaker was introduced by Tom Sealy.

Discussing Christianity's place in international relations, Mr. Hopper suggested Christian people throughout the world unite and work together in a united front.

"We must subordinate our little differences and unite against those who work against us," he added. "People are becoming more serious minded in their spiritual realm in these days of serious problems over which we are trying to triumph."

"Men need more than ability to sustain their confidence and keep them acting with courage. We must maintain our Christian ideals."

Percy Bridgewater, club president, announced that the Mustang Club, sponsored by Rotarians would be closed until the opening of school in September and also that Rotarians are planning a program for the entertainment of their ladies August 19. Dan Griffith was appointed program chairman for August. The Rev. Carl Clement was chairman of Thursday's program.

WAR BULLETINS

MOSCOW (AP)—Reinforced by divisions which the Russians said were drawn from Finland and France, Field Marshal Fedor Von Bock's southern front onslaught rolled deeper into the Caucasus south of Rostov Thursday and pressed the Red Army back toward the tip of the Don bend within 80 miles of Stalingrad.

Rio De Janeiro (AP)—The government announced Thursday the Brazilian ship Tamandare had been torpedoed and sunk.

LONDON (AP)—Reuters said it had recorded a Vichy broadcast in which the Vichy news agency reported German forces from the Kerch Peninsula landed Thursday on the Taman Peninsula of the Caucasus.

WASHINGTON (AP)—Henry J. Kaiser, shipbuilder, advised congress Thursday an order from the government was all the nation's shipbuilders needed to launch them on the construction of giant cargo planes to speed the war effort and break the submarine menace.

LONDON (AP)—The Moscow radio broadcast a report Thursday that Yugoslav guerrillas had killed 500 Italian officers and men and wounded 200 in the past two weeks.

BERN, Switzerland (AP)—Three prominent Romans, one a general, have been arrested along with nine Italian industrialists in a Fascist party drive against black market operations, Italian dispatches reported Thursday.

CHUNGKING (AP)—The Japanese now have seventy-five and one-half divisions deployed in China, Manchukuo, Korea and the Southwest Pacific Islands—1,132,500 troops on the basis of 15,000 men per division—according to a statement Thursday by a Chinese Army spokesman.

Break Through Major Rail Line Leading To Caucasus Oil Fields

BY ROGER D. GREENE Associated Press War Editor Adolf Hitler's invasion armies, racing toward the Caspian Sea, reported Thursday they had cut the last major rail line to the Caucasus oil fields, while in the north the Russians declared they had beaten off all German attempts to hammer wedges into Soviet lines above Stalingrad.

Late dispatches indicated the Germans had found a "soft spot" in the Russian defenses east of Rostov and were exerting their main efforts in a drive to isolate the Caucasus.

Meanwhile, amid widespread agitation for an Allied invasion of Western Europe, Sir Stafford Cripps again told Parliament in London that plans regarding a second *front could not be divulged.

Supreme Court Hears Claim Of Nazi Saboteurs

WASHINGTON (AP)—Argument on the claim of seven of the eight Nazis who came by submarine to blast and burn America's war plants that they have the right of trial in civil courts was resumed Thursday before the Supreme Court.

Eight of the nine justices were present, Justice Douglas, who was absent Wednesday because of the long train trip from Oregon, arrived overnight. The only member missing was Justice Murphy, who disqualified himself because he is on duty as a lieutenant colonel in the Army.

Attorney General Biddle resumed his argument in opposition to the petition of the prisoners for a writ which would remove the accused from the custody of the Army and place them before the civil courts. All eight of the prisoners have been on trial before a presidentially-appointed panel of seven generals.

Biddle was expected to require an hour or more to complete his argument.

He will be followed by Colonel Kenneth Royall of the defense staff, who said he might require another hour.

Defense and prosecution counsel centered their efforts on preparation for the final hours of arguing the validity of President Roosevelt's proclamation denying civil courts to the eight men and his decree that they be tried by a panel of seven generals.

The prime question before the court—raised by petitions for habeas corpus to deliver the prisoners from a military commission before which President Roosevelt placed them—was whether men such as these were entitled to the protection of civil courts as a matter of right.

Certainly not, contended Biddle in precise, incisive accents emphasized with the flat of his hand. War "wipes out the rights of the alien," he asserted, and any "relief he may be entitled to in a court depends on the grace of the sovereign."

The men do have rights, argued Colonel Royall. The tall colonel insisted that even if the prisoners be soldiers of the Reich they could claim the shelter of the bill of rights while in this country.

Odessa Youth Dies; Second Auto Victim

HOBBBS, N. M. (AP)—H. J. Howard, 22, of Odessa, Texas, died Wednesday afternoon of injuries suffered in a highway accident in which Cecil E. Slayton, 19, of Big Spring, was killed Tuesday. The youths were employed on an airbase project here.

County Democrats To Hold Meet Saturday The Midland County Democratic convention will be held at 9:30 a. m. Saturday in the county courtroom, said Fred Wemple, county chairman. Delegates to the state convention, starting Sept. 1, in Austin, will be selected.

Following the convention, the county committee will canvass the ballot cast in the primary election. Members of the committee are Wemple, and C. H. Shepard, John M. King, Dick Midkiff, A. G. Bohannon, and John P. Butler.

WEATHER

West Texas: Continued warm.

Another General Doolittle?

John Doolittle, son of Brig. General Jimmie Doolittle who led the air attack on Tokyo, does his stuff as a machine-gunner during battle exercises at West Point. John is a cadet there, learning to be an officer like his famous father. (NEA Telephoto).

Wellington To Marshall To MacArthur

The War Department has made public the text of a letter sent by the Duke of Wellington in 1810 to the then British secretary of state for war:

"I must remind your lordship—for the last time—that so long as I retain an independent position, I shall see that no officer under my command is debarred by attending to the futile driveling of mere quill driving in your Lordship's office—from attending to his first duty—which is, and always has been, so to train the private men under his command that they may, without question, beat any force opposed to them in the field."

General Marshall suggested, in publicizing the letter, that our troop commanders in the field might feel as did the Iron Duke.

The inference, we hope and believe: America expects every field officer to use his head.

Buy War Bonds And Saving Stamps— A Colossal Blunder

Andrew Jackson Higgins, the big, red-faced, gray-haired, tough, rough-and-ready Nebraskan who became a southerner and was all set to revolutionize the building of Liberty ships, is going through punishment in Washington.

"I'm a little older," he says, "a little wiser, a lot more disgusted than I was when I came up here on March 11. I'm certainly no dumber."

When he came to Washington on March 11, it was at government request. He had made a reputation as a miracle shipbuilder, making Navy patrol torpedo boats, landing boats, tank lighters and such specialty craft. The government, through the Maritime Commission, wanted Andrew Jackson Higgins of New Orleans to make Liberty ships—200 if them. He took the contract on March 16 and proposed to build them his own way; on a moving assembly line principle.

They sank perhaps \$20,000,000 of government money into making a start on building the yard. And then on July 18, four months after the contract was let, it was canceled by the government.

The official explanation is that there isn't enough steel plate to make ships in the yards already producing, so why build more yards. But if that is the case, it is almost axiomatic that the contract should never have been let. Somewhere along the long halls of government, somebody pulled the most colossal, \$20,000,000 blunder of this whole cockeyed war.

Buy War Bonds And Saving Stamps— More Doodling In Washington

Henry J. Kaiser's proposal to build 5000 tremendous 200 or 500-ton flying boats in shipyards has set more Washington aviation "experts" to doodling figures on tablecloths than any proposition since the President's original wirecrack about building 50,000 airplanes back in—when was that?—1939 or '40. That was a crazy idea, too, at that time—but look what happened. The country is building 60,000 airplanes this year and hopes to double it next.

They don't laugh when Kaiser sits down at a drafting board, for he has done so many impossible things that he can't be kissed off as another crackpot and anyhow the jump from building ships to building airplanes is no greater than the jump from building dams to building ships. After all, the three devices of dam, ship and flying boat have one great factor in common—it takes water to run 'em, and Kaiser has built both ships and dams faster than anyone in either business before.

This idea of a shipyard building flying boats isn't as silly as it sounds, either. Before the war, the German shipyard that built the luxury liners Europa and the Bremen did some experimenting with aircraft, and came out with four Diesel-powered 19-ton experimental transoceanic craft that landed in mid-ocean, taxied up to a floating mat towed by the Schwabenland, were hoisted aboard for refueling and then catapulted back into the air.

But Washington aviation experts can pick more flaws in the Kaiser flying boat proposals than there are flaws in a Nazi's moral character, and they're doing it.

The resolution of the Petroleum Industry War Council calling for a reduction in restrictions on drilling will meet with hearty support from every operator who desires to remain in business. In recent years, the discovery rate has increased but the fields found have tended to become increasingly smaller. Most discoveries might be considered to result from gleaning operations in old producing districts where the larger fields had previously been found.

A review of drilling and of discoveries shows the extent to which drilling has fallen off and, at the same time, the interesting nature of the discoveries made during the past six months. Whether some of these discoveries will become major fields cannot be forecast because few of them are being drilled up. In previous years, the extension of Ellenburger production into Andrews and Ward counties in West Texas would have been the signal for a real drilling boom. In East Texas, the Paluxy discovery at Black Oak has resulted in considerable activity and Midway has been drilled up with little deviation from normal speed, but these are exceptional fields under the program established this year.

The purpose of exploratory drilling, which is being encouraged by CPC is, naturally, to find new fields. But as has previously been pointed out on this page, a discovery well develops little in the way of new reserves. A systematic drilling campaign on sound engineering principles must follow the discovery, otherwise its potentialities cannot be ascertained. Many good wells have been completed in virgin territory, only to have the surrounding wells come in as small producers. Sometimes a good producer heralds the advent of a one-well pool, but unless additional drilling is done, this fact cannot be ascertained.

Having developed production with no facilities for getting the oil to the refinery is uneconomic but no more so than to develop transportation facilities in advance of definite knowledge of the size of the facilities that will be required.

ILLINOIS: The largest Trenton well ever completed in Illinois is in the St. Jacob field, Madison County. It is expected to spur exploration to the north and west. Jeff has been extended 1 mile east and a Benoist pool has been opened 2 miles west of St. James, Fayette County.

WEST TEXAS: The Chancellor

field near Fort Stockton in Pecos County has a second well which proved better than the discovery and also opened up a new pay for the district, a limestone in the lower Castile just above the Delaware which was the pay in the discovery.

A test midway between Sand Hills and Abell reports the top of the Ellenburger some 500 ft. high.

LOUISIANA GULF COAST: First production is reported on the north flank of the Amis La Butte dome. Marketing production has been opened at West Mermentau 1,000 ft. below the regular pay.

EAST TEXAS: Possible Rodessa or Pettit sand production is reported from a deep test near Larissa, northwestern Cherokee County. Club Lake is proving of limited extent but two producers and five new locations have been added to the Black Oak, Paluxy sand pool.

MICHIGAN: Operators are considering the possibilities of dual completions in such fields as Reed City where Traverse and Monroe pays overlap. A wildcat in Wright Township, Ottawa County, made 65 bbl. on the pump from shallow pay. Oil is also reported in a Clare County wildcat south of the Headquarters field.

KANSAS: Wilkins and Hall-Gurney are each extended 1/2 mile south. Wilcox production has been found in the Lindsay pool, McPherson County. It may, however, be small.

CALIFORNIA: An extensive reconditioning and shallow drilling campaign is getting under way with a view to increasing heavy-oil supplies.

ALBERTA: A test on the Bredonheim structure northeast of Edmonton is reported running higher than anticipated and is showing oil in two horizons and gas in a third.

TEXAS GULF COAST: A new field is reported southeast of Gannado, Jackson County. Four tests have started as a result.

WEST VIRGINIA: Gas has been found in the Newburg horizon of the Lockport (Silurian) dolomite in a Boone County test.

SOUTHWEST TEXAS: Stratton and Seeligson have again been extended.

OKLAHOMA: The Hunton discovery at Romulus improved considerably after acidization. Viola production was extended 1/2 mile east at Hotulke and Layton sand production in the old Tonkawa field was extended 2 miles east.

Former Midland Woman Reported Seriously Ill

Mrs. Gale W. Hensing, the former Miss Laudie Mae Wilmoth of Midland, was reported Thursday to be in a serious condition at the Providence Hospital in El Paso. Mrs. Hensing, who resides in Anthony, New Mexico, was operated on for appendicitis late Wednesday, relatives here were advised.

Lt. John H. Dilks Named Member Examining Board

Lieutenant John H. Dilks was appointed recorder on the Aviation Cadet Examining board at Midland Army Flying School, succeeding Lieut. Jack E. Moore. Dilks' duties as Recorder will be in addition to other duties at the bombardier college. He is assistant intelligence officer.

WOOL

BOSTON (AP-USDA)—New government orders caused more activity in the Boston market Thursday. Inquiries were numerous and some sales made. Sales were reported of both three-eighths and quarter blood bright medium wools at 50 cents, grease basis, delivered. Prices in the country were up about one cent on these wools. Some fine territory wool was sold at a clean price of \$1.17-\$1.18.

SOCIETY

Marriage Of Miss Edna Linebery And W. E. Lynch, Jr. Is Announced At Shower Complimenting Bride

Announcement of the marriage of Miss Edna Earline Linebery, daughter of Mr. and Mrs. T. P. Linebery, to W. E. Lynch, Jr., son of Mr. and Mrs. W. E. Lynch, Sr., on January 2 in Lovington, New Mexico, was the surprise climax of a shower given by Mrs. Zelma King, 911 5 Main, Tuesday afternoon. Guests had been invited to a shower honoring Miss Linebery as bride-elect of Mr. Lynch. Announcement of the wedding, which was attended by Don and Rolla Hyatt of Midland, was made by the bride's mother.

Mrs. W. E. Lynch, Jr., is the former Miss Edna Earline Linebery.

Garden flowers decorated the entertaining rooms. Shower gifts were on display during the calling hours. The bridal theme was featured on the tea plates in the individual cakes which bore the nicknames of the couple, "Eddie and Dub," in pink lettering.

Drum Major
Mrs. Lynch was reared in Midland and is a graduate of Midland High School. For three years she was drum major with the high school band. She attended Major Sincovek's school for drum majors in California. After graduation from high school, she attended Texas Technological College at Lubbock where she was one of the beauty nominees, and Chillicothe Business College, Chillicothe, Missouri, where she was nominated as the most representative girl. Since her return from Chillicothe, she has been employed as secretary at Midland Army Flying School.

Basketball Star
The bridegroom is also a graduate of Midland High School where he was a star basketball player. He was employed by the Shell Oil Company until his induction into the Army early this year. He took his basic training at Camp Roberts and then was transferred to Fort Benning, Georgia, where he is with the parachute troops.

Guests present for the shower included: The honoree, Miss Karl's Baxter, Mmes. N. G. Baker, J. B. Dearman, E. P. Penick, S. Hollingsworth, Bee McClure, Miss Betty Lou Ward, Miss Jennie Lou Woods, Mmes. John Woods, Doris Price, C. M. Bird, Miss Betty Hines, Mrs. Elsie Carlson.

Mmes. Joe Truss, Jack Prothro, O. W. Roberts, J. J. Bailey, Mr. and Mrs. Walter Lynch, Don Hyatt, Ted Wilson, the Rev. and Mrs. R. M. Hocker, Mr. and Mrs. Earl Baxter, Miss Mary Frances Carter, Mrs. Charlie Adams, Miss Marie Haile, Mr. and Mrs. Tom Bellflower, Mr. Moss, Mmes. Roy Jones, J. R. Hill, C. A. McKinney, Jeanie White, J. P. Carson, J. E. Feeler.

Mmes. J. P. Carson, Jr., Porter, John Wharton, L. H. Pittman, J. H. Pittman, Miss Maxine Naron, Mmes. Belle Grammer, Florence Fast, Wiebe, Mr. and Mrs. C. G. Juncocombe, Walter Bryant, from Odessa, Mrs. Harry Crudrup, Mrs. Paul Bolton, and Mrs. Magdalene Hines; and Sammie.

Sending gifts were: Miss Lotta Williams, Mrs. E. H. Norton, Miss Willene Norman, Mrs. Opal Naron, Mrs. L. E. Smyres, Mrs. G. A. Jones, Mrs. Earl Robison, Miss Zelma Gravette, Mrs. Chas. R. Kilborn, Miss Skippy King, Mrs. Ruth Dinkleberg; from San Angelo, Bob Daverton; from Monahans, Mrs. Geo. Wein, Mrs. Mabel Mason, and Mrs. Essary; from Odessa, Mrs. Chas. Geddis and Mrs. Lewis Bewley; and from Big Spring, Mr. and Mrs. H. C. McPherson. Iva's Jewelers also sent a gift.

Mrs. Lynch left Midland Wednesday morning for Fort Benning to join her husband.

Coming Events

FRIDAY
Red Cross workroom in the Old Heidelberg Inn will be open Friday morning from 9 o'clock until 12.

Women's Golf Association will have its weekly luncheon Friday at the Country Club.

Lucky Thirteen Club will have picnic Friday evening at 7:30 o'clock at Cloverdale. Hostesses will be Mrs. Delbert Downing, Mrs. J. A. McClurg, and Mrs. H. S. Collings.

SATURDAY
Regular ballroom dance for enlisted men will not be held at the Soldiers Center, 213 N. Main, Saturday evening, because of the dances at the Airways hangar.

Rankin Highway Club members and their families will have a picnic at Cloverdale Park, Saturday evening at 8 o'clock.

Enlisted men of MAFS will be honored at an informal dance at the Airways hangar, Saturday night.

A games party will be held at the officers' mess at Midland Army Flying School, Saturday night at 9 o'clock.

TAKE COURSE
Mrs. A. N. Hendrickson and Mrs. W. P. Trapnell attended the instruction course on surgical dressings given at Big Spring Tuesday and Wednesday of this week.

RED CROSS TO MEET THURSDAY EVENING
There will be a meeting of the Red Cross, Thursday evening at 7:30 o'clock at the city hall. Every one interested is invited to attend.

Brilliant Colors Form Decorative Motif For Party

Green, orange, yellow and blue were blended into a brilliant color scheme for the afternoon bridge with which Mrs. M. M. Holmes, 721 Cuthbert, feted the Pastime Club and a quartet of guests, Wednesday.

Novel tallies were girl figures with dresses of the different party colors. The same shades were repeated in the table covers, candy, and coasters. Refreshments carried out the favored colors.

In the two tables of bridge played, high score was held by Mrs. D. F. Laechlin, second high by Mrs. J. Wayne Campbell, and bingo by Mrs. C. W. Fillow.

Guests were: Mmes. Verble Mitchell, Wm. E. Hansen, Konrad Kriy, and Eugene Rogers of Alliance, Ohio.

Members present were: Mmes. Campbell, Ted Dykes, Laechlin, Pillow, and the hostess.

Next Wednesday Mrs. Harold J. Flynn will entertain the club at 609 N. Carrizo.

Allen Family Goes All Out For Victory

When it comes to winning the war, the Elva D. Allen family of Henderson County, Kentucky, is 100 per cent all out for victory.

First Lieutenant Carl W. Allen, school secretary at Midland Army Flying School, is a member of that family. His two brothers, Cyrus D. and Raymond E., also are commissioned lieutenants in the armed forces.

The family is following a program that begins with representatives in the service and extends to buying war bonds and producing food which will be sold and converted into war bonds.

Busy With Crops On Farm
At home, farmer Elva D. Allen, who is vice-president of the Henderson County Farm Bureau, is busy raising all that the 1,200 acres he tends can produce in the way of food and needed raw materials. His wife and five children still at home are helping at the job.

But for all their activity on the farm, the Allens have found time to answer the various calls for scrap with contributions of 12 tons of iron and steel and 1,200 pounds of rubber.

The Allens have five hogs entered in the Production Credit Association's Victory Pig Club, and are awaiting the club's big sale day, Sept. 10, when their entries—bearing a "V" mark as a symbol of their dedication to victory—will be sold and the proceeds used for crisp war bonds.

MAFS Soldiers Calling All Girls For Hangar Dance

They get bigger and better all the time—those plans for the big dance Saturday night in the hangar at the Army Airways Station.

Latest plans are for a floor show by soldier talent. Then there'll be music by the "Hell from Heaven Swingsters"—hotter than ever.

The orders are out, too, girls—at least the orders a thousand or two enlisted men at MAFS would like to give—for all West Texas girls to attend the ball on Saturday night.

It's the second "Keep 'em Smiling" event for the enlisted "Keep 'em Flying" men. It will be "bigger and better"—larger dancing space, more girls and a bigger time.

Better be ready before nine. That's when it starts. There will be plenty of jitter-bugging space and a louder public address system to accompany your shuffling.

There will be refreshments, and a thousand or so fellows to dance with you.

A love for dancing—that's the only invitation any girls need. Free transportation will be provided to and from the dance for girls from Midland and Odessa.

Bomb Motif Is Popular At MAFS

It's bombing time, most of the time at Midland Army Flying School!

Even the post theater's clock dial has miniature bombs as numerals. The bomb motif is used for many decorations around the world's largest bombardier school. You find bomb shell ash trays in every recreation room.

The post cafe, serving the bombardiers and the men who keep 'em flying, has bomb-dropping pictures on its menu. And in the mess halls, when a fellow passes bread, it's "bomb away."

Even the pets around the place have such names as "Bombsight Bessie" and "Little Double Salvo." Athletic teams of soldiers are known as Bombers or Bombardiers. A weekly sports column is Sports-bomber.

Official papers carry the heading: Midland Army Flying School (Bomb), Midland, Texas.

When you think of bombardier training, you think of Midland, Army Flying School.

Bombs away!

Rain Coats Will Be Glass-Coated

ST. LOUIS (AP)—It looks like Johnny Doughboy will wear a part of the safety glass windows and windshields you didn't get on that new car you can't buy.

Monsanto Chemical Company told of a new process whereby plastic, ordinarily used to prevent shattering in automobile glass, had been diverted to the coating of Army raincoats.

The plastic, a synthetic resin, will replace rubber, not only in raincoats, but in hospital sheeting, gas protective cloth, life preserver jackets, water bags and other rubber molded articles.

For an army of 10,000,000, the company figured the rubber savings on raincoats alone would be 17,500,000 pounds.

Since with the plastic the use of a lighter raincoat fabric is feasible, Private Doughboy should be pleased. His pack will be two pounds lighter.

George Wilcox is a patient in a Midland hospital where he underwent an operation several days ago.

Mrs. Cole Hostess To Bluebonnet Club

Mrs. S. T. Cole, 1009 W. Louisiana, was hostess to the Bluebonnet Club, Wednesday afternoon.

Club hours were spent in needlework and at tea time a refreshment course was served.

Present were four visitors, Mmes. Fred Middleton, West, Osborn, and Day, and five club members, Mmes. V. Z. Wren, Johnson, Brooks, Pemberton, W. A. Black, and the hostess.

SQUARE DANCE SLATED FOR THURSDAY NIGHT
The weekly square dance for enlisted men and girls of Midland will be held at the Soldiers Center, 213 N. Main, Thursday evening.

Do FALSE TEETH Rock, Slide or Slip?

FASTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, goopy, pasty taste or feeling. FASTEETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.—(adv.)

Personals

Mr. and Mrs. Frank Ingham and Mrs. L. A. Arrington and daughter, Patsy, have returned from the mountains of New Mexico where they visited Mrs. L. B. Pemberton at Pine Lodge. Frank Wade Arrington remained there for a longer visit.

Mrs. J. H. Allison of Wichita Falls arrived in Midland Wednesday to visit her son, James N. Allison, and family. She brought home her grandson, Jimmie, who had been visiting her.

Miss Bessie Orson of Lamesa is visiting relatives here.

Sixteen Members Of WSCS Attend Zone Meeting

Sixteen members of the Midland Methodist WSCS attended the west zone meeting of the Sweetwater district WSCS at Stanton, Wednesday.

The meeting was held at the Stanton Methodist Church and a covered dish luncheon was served at noon.

Mrs. James Jones of Stanton was in charge and Mrs. O. B. Bryan reported on her trip to Mt. Sequoia. Mrs. S. H. Hudkins of Midland presented the devotional at the afternoon session.

About 50 women were present including the following group from Midland: Mmes. W. Carl Clement, Hudkins, W. E. Chapman, W. B. Hunter, C. H. Shepard, Mollie McCormick, J. A. Andrews, Geo. Vanaman, A. C. Moore, J. W. Thorne, O. A. Beals, J. L. Barber, Sr., B. F. Haag, Geo. P. Bradbury, H. A. Ferguson, and R. P. Simpson.

TFWC Head Urges Women Do Housework

AUSTIN—Women should do their own housework as their first contribution to the war effort!

This bit of advice is offered by Mrs. J. W. Walker, president of the Texas Federation of Women's Clubs, who believes that women can help in a great measure towards the prevention of inflation by working more in their own homes.

"Household workers and domestics are becoming scarce, what with entering war production plants as workers," Mrs. Walker told reporters in her office at the Headquarters building here. "When household servants quit the housewife to go to work in war production plants, she should then do her own work if at all possible, for in that way, only, can she hope to keep down the price of labor and prevent drastic wage increases for domestics."

COUNCIL CHECKS BUDGET AND ROUTINE MATTERS

Final check and adoption of some budget items, and other routine matters were attended to Wednesday afternoon at the regular meeting of the city council. Mayor M. C. Ulmer, R. M. Barron, D. H. Roettger, Paul McHargue, Tom Sealy, D. M. Secor, councilmen, and the secretary, J. C. Hudman, attended the session.

Sports Roundup

By Hugh Fullerton, Jr.

Wide World Sports Columnist

NEW YORK—American soldiers are taking their sports along wherever they go, thereby adding greatly to the confusion of world affairs. Recently we've seen a report from Australia on an American football game played there and from Belfast on a clash between soldiers' baseball teams. The Aussie scribe couldn't quite figure out why it was called "football" when there was so little kicking and the Irishman concluded: "One thing Belfast fans will have to remember in the future if they want to appear knowledgeable. Never applaud or get excited about an ordinary or fairly high fly ball."

Today's Guest Star

Pete Norton, Tampa (Fla.) Tribune: "It sounds like the truth... 81,810 citizens of New Jersey and Pennsylvania strolled out \$2,800,000 in bets at the New Camden track last week... If each of these motorists had stayed home, added \$7.50 to the \$30 spent at the race track, he could have bought a \$50 war bond... And very likely have saved gasoline, tires and wear and tear on his nervous system."

Service Dept.

Larry Bauer, who once wrote a column on wild life for the Associated Press, now is trying to suppress wild life as a lieutenant of military police at Fort Riley, Kas... Lou Zamperini, former California miler now a bombardier cadet at Midland, Texas, has one of the world's biggest scrapbooks. It is nine inches thick and weighs 105 pounds... Just the thing to drop on a Jap.

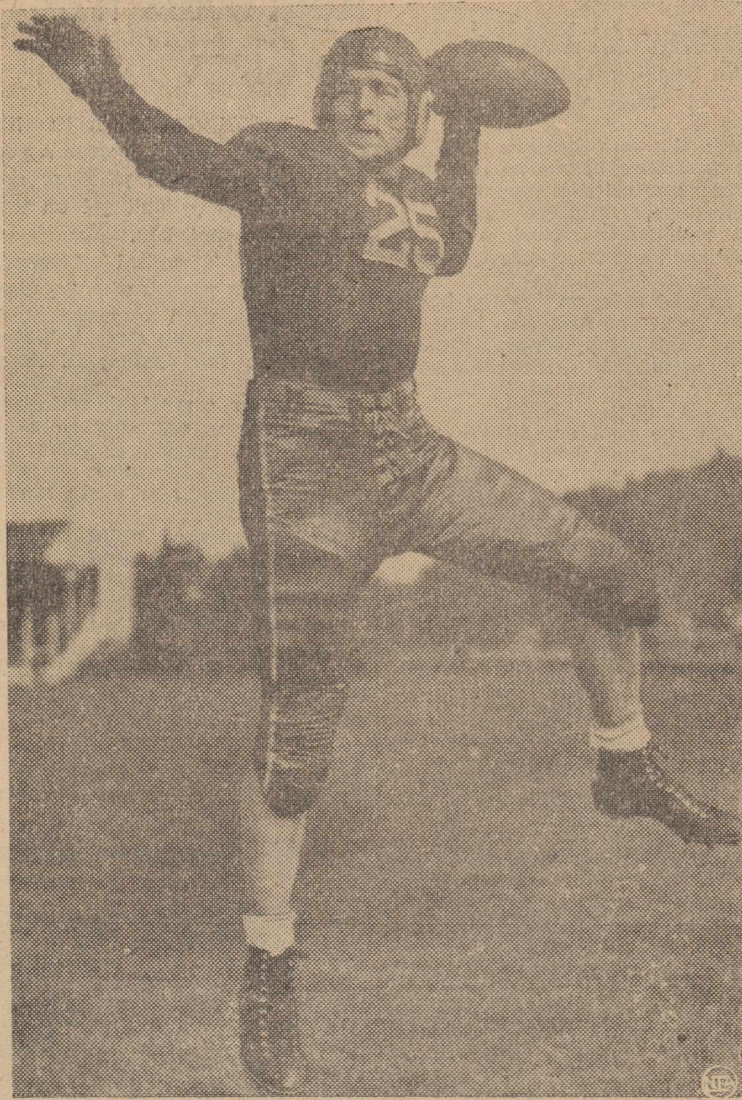

Ideas, Inc.

Sports Ed. Joe Henke of the Idaho Falls Post-Register forwards the suggestion that a lot of war stamps could be sold, if the guys and gals who are always forming pools on ball games, fights, etc., would pay off in stamps instead of cash.

Sox!

When Manager Rogers Hornsby of Fort Worth was protesting to an umpire who had called a well tagged blow by one of Rea's protégés a foul, a Tulsa fan hollered: "You can't see any better out there, Hornsby, than you could at the race track."

SLICK SOUTHPAW

Curt Mecham, who kicks and passes from port side, gives Brooklyn Dodgers one of prize rookies of National Football League.

Industrial Salvage Campaign Is Planned By Committee Here

Plans for an active and far-reaching salvage campaign among industrial concerns of Midland County and this area were made at a meeting of the Midland County Industrial Salvage Committee at the chamber of commerce Wednesday, R. E. Kimsey, committee chairman, presided.

Full cooperation of more than 150 oil producers, drilling contractors, rig builders, oil field equipment and oil field service concerns, pipe lines, machine and sheet metal shops, oil company agents, dairy products companies, ice plants, utility companies, cotton gins and other industries will be requested by members of the committee. The oil concerns will be asked to see that salvage material is gathered on their holdings over West Texas.

Each concern is requested to appoint a salvage manager with authority to survey and dispose of all scrap, obsolete or idle, and unused equipment. The firms also are requested to report scrap tonnage to the War Production Board.

Plans to locate a gathering place for scrap material on the railroad right-of-way, and the possibility of having some person in Midland authorized to purchase scrap were discussed by the group.

Top Notch Softball Teams Would Like To Play Big Game Here

With one win notch each in a hot series, the 97th Material and 83rd Air Base Squadrons want to settle the softball issue under the lights in Midland or Odessa.

The 83rd bomber the 97th, 10-7, Tuesday night to even the series. Millard, shortstop for 97th, hit safely in his twenty-fifth straight game. He got a triple and a double.

Despite four of six hits for extra bases, the 97th lads could not quell the 83rd boys. Dobrino (83rd) and Carrigan (97th) hit homers.

Hot rivals, the two clubs are seeking to arrange a game for civilians to see. If it is arranged, it would benefit Army Emergency Relief.

Softball Players Of 97th Materiel Squadron Provide Lots Of Pepper

The 97th Materiel Squadron softball team, which is soon to lose its name as such and become the 494th S. S. team, has provided a lot of pepper and spirit in the summer league at Midland Army Flying School.

The boys like to win for genial Capt. Allen M. Floyd. They have five wins and two losses thus far in the summer league and the season's total is—13 wins, 11 losses.

The team, practically lock, stock and barrel, has been transferred twice in two weeks. Its men went to the 83rd Air Base Squadron and thence to the 494th.

Experienced Players.

Some of the talent of the colorful 97th group includes:

John Millard, infielder, who hails from Dayton, Tenn., where he played high school sports. Last year he played pro ball with Ashland, Ky. of the Mountain State Class C League. This year he had a tryout with the Columbus Red Birds of the Southern States Class B League but the Army beckoned. Millard has hit in his 25th straight game and has a season average of .677.

Tommie Moreland, shortstop, performed in high school baseball, basketball and amateur baseball in his home town of Knoxville, Tenn.

Joe De Marco, one of the better if not the best third baseman at MAFS, is a product of Jersey City, N. J. There he played high school and amateur baseball.

Irish John Patrick Donahue played amateur baseball in his home city of Boston, Mass.

Jack Norby, a twirler with three wins and two losses, played softball in Belle Plaine, Iowa, before he entered service.

Another Tennesseean

James Duke, another Tennessee softballer, and member of a foursome of players on the team from that state, got his experience at Nashville on handouts and with his high school team.

Bill Craven from Chattanooga, Tenn. waited until he got in the Air Corps to learn softball. With no previous training he has made the sport a good man.

Managed Teams

Manager Clyde Nickle, outfielder from Harrisburg, Pa., organized sandlot baseball leagues and managed teams there. Before entering the service last summer, his teams won nine championships, finished

Oana Pitched And Hit To Win One From San Antonio

By The Associated Press

What Hank Oana lacked in pitching power he made up for in batting punch Wednesday night as the Fort Worth Cats won from the San Antonio Missions, 7 to 6.

The Missions hit three out of the park, two of these being by Jerry White, who also had three singles for a perfect night at bat.

But Oana hit what proved to be the winning blow, a 390-foot homer with nobody on base.

The Beaumont Exporters, five runs down in the ninth, made up that margin to tie the game and scored another run in the eleventh to defeat the Oklahoma City Indians, 9 to 8.

Anse Moore tallied the winning run when he singled, went to second on a passed ball, and galloped home on a double by Dick Wakefield.

The Tulsa Oilers gathered 15 hits off three Shreveport pitchers and downed the Sports, 11 to 5. Harvey Storey was the leading Tulsa hitter

with a home run, a double and a single.

Shreveport nipped Henry Wyse for 13 hits, but failed to bunt their blows except in the ninth, when they scored three times.

The Dallas Rebels, minus Merv Connors and George Jansco, who were sold to Fort Worth, took a licking from the Houston Buffs, 8 to 2.

Lefty Al Brazle gave the Rebs just four hits as the Dallas team lost their fifth game in a row. The Rebels committed five errors and were hitless for six and a third innings.

Hens on American farms laid 5,769,000,000 eggs in May.

Alvon Fattersons Are Hosts For Veinte Cinco

Entertaining with a barbecue in the back yard of their home, 1219 W. Kentucky, Mr. and Mrs. Alvon Fatterson were hosts to the Veinte Cinco Club, Wednesday evening. After the supper 42 was played. Mrs. Harold Hensley scored high for girls and Ernest Nance for boys in the games.

Present were: Messrs. and Mrs. Harold Hensley, John W. Rhoden, Jr., Ernest Nance, Muri Reynolds, Jack Keen, Jake Pogue, E. A. Waldrop, Huster Midkiff, Mrs. Madison Crabb and the host and hostess.

Mr. and Mrs. Waldrop will entertain the club next week.

Provides Protection For Military Secrets

DALLAS (AP)—Companies engaged in secret war production may deny access to their plants to union organizers or agents of the National Labor Relations Board under a new federal court ruling.

The national labor relations board, Judge T. Whitfield Davidson ruled Wednesday has the right to examine the affairs of a corporation respecting its treatment of labor, but exercise of that right to subordinate to protection of military secrets.

He granted a declaratory judgment asked by the American Manufacturing Company of Fort Worth which brought court action to determine its rights under military and naval contracts of a secret nature.

The defendants were representatives of the National Labor Relations Board and the International Association of Machinists (AFL.)

Record-Breaking Cut In Traffic Deaths

CHICAGO (AP)—Ten thousand lives would be saved, the National Safety Council said if a record-breaking reduction in traffic deaths throughout the nation in June were maintained for the rest of the year.

The June total of 2,090 fatalities was 32 per cent less than the June, 1941, toll, the greatest decrease for any one month in the council records.

There were 14,800 traffic deaths in the first six months this year, 15 per cent fewer than in the first half of 1941, and the council slide rule experts figured that if the June drop continued the 1942 total would be only about 30,000, compared with 40,000 in 1941.

Army Airplane Crash Causes Two Deaths

VICTORVILLE, Calif. (AP)—Two men were killed and a third, Frank Filan, veteran photographer of the Associated Press, parachuted to safety in an accident involving two army bombardment training planes Wednesday night.

Killed were Sgt. Pilot Rodney M. Grim, 20, of the Army Air Forces, and Clarence L. Block, 29, Los Angeles, civilian photographer for the West Coast Army Air Forces Training Center.

Candy Company Head Found Dead In Car
HOUSTON (AP)—Officers Thursday investigated the mysterious death of Milton C. Drewa, 36, president and general manager of the Congress Candy Company, who was found in his car on a Harris County road.

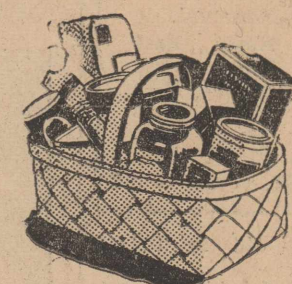

He had been shot in the back of the head.

Bill Would Release Dependents: Payments
WASHINGTON (AP)—Senator Vandenberg (R-Mich.) drafted for introduction in the Senate Thursday a measure to repeal a provision of the soldiers family income allowance bill holding up payments to dependents of service men until after Nov. 1.

Our "Ceilings" Cover a Store full of **SAVINGS**

"Ceilings" vary in different markets today just as prices varied before the Government took this necessary step to curb the rising cost of living. We're all for low prices to the consumer. We've built our successful business by always doing our best to give our customers the best price-for-quality values in town and because of this policy, you will find that our "ceilings" cover a store full of savings. Today, as always, you get the most for your food dollars at Wes-Tex—"the buy-word" for economy!

McKENNEY ON BRIDGE

By William E. McKenney
America's Card Authority

Easley Blackwood, inventor of the Blackwood Convention, which is widely used in slam bidding, has warned repeatedly that players must be careful to leave a margin of safety in using the slam tries and responses. Nevertheless, in every tournament some player traps

Opening—♦ K. 30

himself, as South did in today's hand.

North likes the club bid and sees slam possibilities. He jumps to four clubs, and South duly responds with four no trump, the Blackwood Convention asking for a show of aces. North's bid of five hearts is the conventional response to show two aces.

Knowing that his side has all four aces, South now thinks that six clubs is sure. There may be seven if North has enough kings. So South bids five no trump, the Blackwood way of asking for kings.

But he traps his side. Unless North has no kings at all and responds at six clubs, he is bound to bid a suit that will force South to return to clubs at the level of seven. There is no margin for the bid of five no trump. That is the same thing as bidding seven clubs at once, and South does not have the values for the grand slam.

While the slam is not impossible to make, it is most difficult and only the most far-seeing player could take all thirteen tricks.

Methodist Brotherhood Plans Watermelon Feast

The Men's Brotherhood of the Methodist Church will have a watermelon feast at 8 p. m. Friday at Cloverdale Park.

Every member of the Brotherhood is expected to be there on time with his wife or sweetheart as his guest, sponsors said. A special invitation is extended to any prospective new member and his wife. An attendance of 150 persons is expected.

Strawberry Apron

8230

The theme song of this apron is strawberries! Our designer was inspired to the creation of this colorful apron by a strawberry printed chintz—but you can make it in any gay patterned percale! Do follow the clever idea for a strawberry pocket, however, make it in ripe, luscious red material with a green leaf top!

Pattern No. 8230 is in sizes 14, 16, 18, 20; 40, 42 and 44. Size 16 takes 1 3/4 yards 32-inch material with 3/4 yard contrast for hem and pocket. 8x5-inch piece of green, 8 yards green bias binding.

For this attractive pattern, send 15¢ in coin, your name, address, pattern number and size to The Reporter-Telegram Today's Pattern Service, 211 W Wacker Drive, Chicago.

Send for the Fashion Book if you are seeking smart styles to sew at home. It's our complete catalogue of current patterns—shown in all sizes from 1 to 52.

Pattern 15c, Pattern Book 15c, One Pattern and Pattern Book ordered together 25c. Enclose 1c postage for each pattern.

Distinctive Insignia For MAFS Bandmen

Midland Army Flying School bandmen have been authorized by Brigadier General I. Davies to wear distinctive insignia.

The traditional gold lyre will be basic insignia for the different types of emblems for these band members. Specifically there will be three types: for the sun helmet or service cap the lyre has a silver cross-wing-and-prop embossed, the whole being semi-circled by a half-wreath of gold; garrison cap will be ornamented with a similar insignia with the wreath omitted; and the winter garrison cap will have a smaller model of the summer cap insignia.

During winter months the bandmen will have the following insignia: service cap insignia will be the same as for the summer helmet; the garrison cap will carry a small lyre with silver cross wings-and-

prop; and in addition to cap insignia, band men will wear a larger lyre with cross-wing-and-prop in each lapel of the service blouse.

The Bandmen

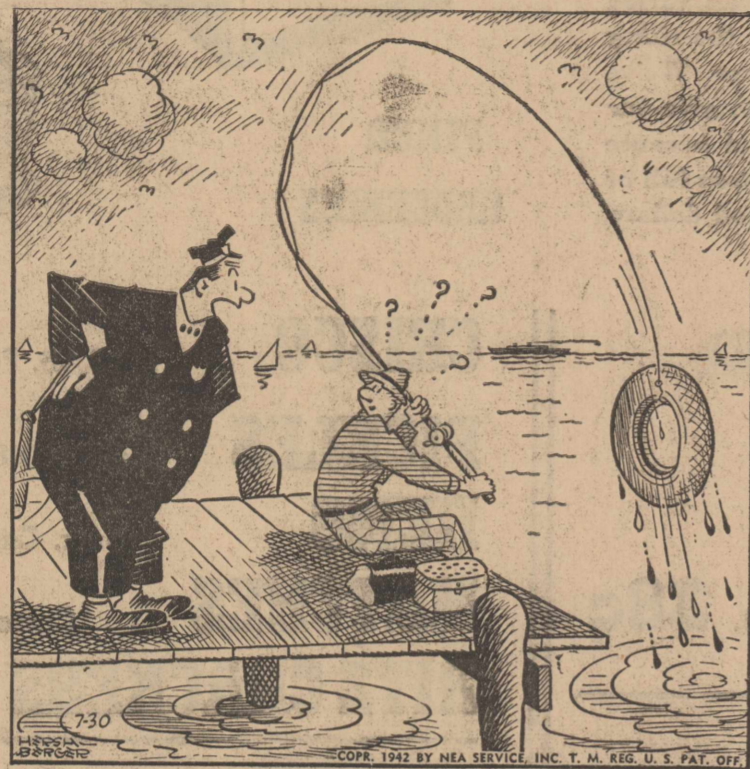

Band members include: Sergeants Thomas Marcell, John E. Maki, Edgar T. Bicknell, Edward Cunningham, Emil Fisetle, Ray D. Haddock, Willard L. Johnson, Orville M. Rouch, Edward A. Tinkel, and Marcus A. Williams.

Corporals: Vincenz N. De Luca, William F. Hayes, James M. Henry, Henry M. Larson, Fred A. Lybarger, Robert J. Mayhew, and Gonzalo Puchi, Jr.

Privates First Class: Dominick Bonelli, Billy J. Collings, Leonard T. Coyle, Robert M. Darrough, Edmund B. Itule, Charles J. Haight, Walter E. Kassis, Julio O. Martinez, Velt N. Rice and Lee E. Saavedra.

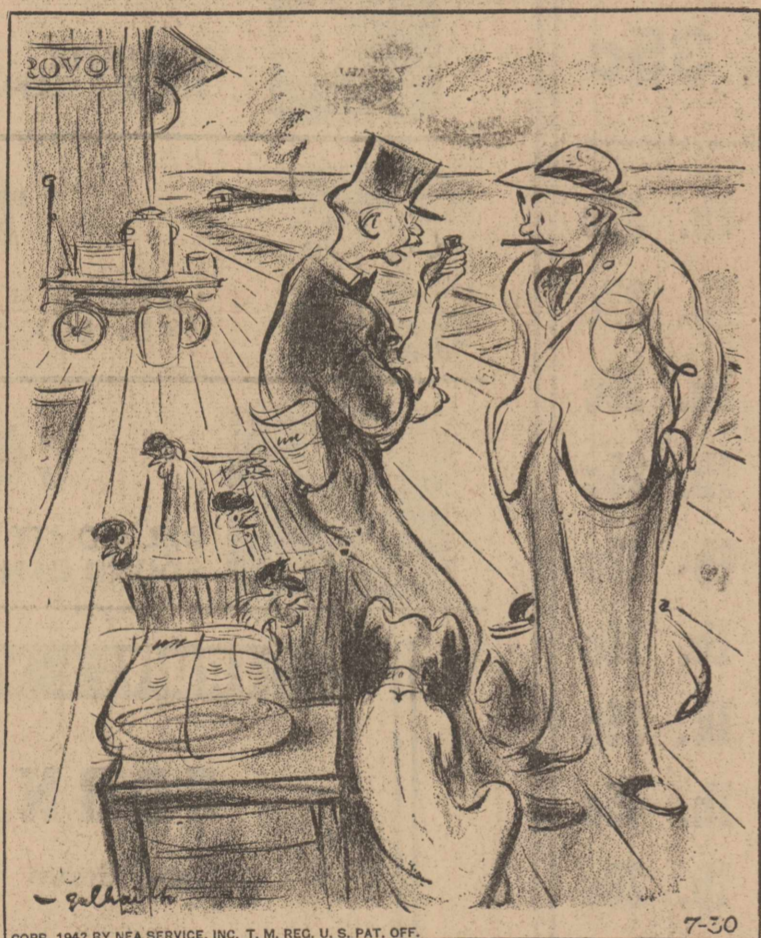

Privates: Carl E. Abbott, Joseph Beercheck, Joseph R. Damron, William T. Downey, Elliott K. Friedemann, John F. Dybala, Hugo Moresi, Benjamin S. Sitek, Adolph Monaco, and Harry T. Tosch.

Nazi Race

(Continued from page one)

Red Star said the Germans reached the eastern bank of the river in one sector but were driven back.

Pravda, the Communist party newspaper, said Germany now was throwing her last resources into the great summer offensive.

"The enemy is not so strong as he appears to some scared panickers," Pravda said.

Front-line dispatches said Marshal Semenov Timoshenko was rushing huge reserves of manpower into the struggle, while Nazi prisoners were quoted as saying that the Germans were forced to shift troops from other sectors of the front to bolster the Don River offensive.

A mid-day bulletin from Soviet headquarters indicated the Germans, hurling waves of 40 to 50 tanks into a series of attacks, had gained some ground in the Kleitskaya sector, 80 miles northwest of Stalingrad, but the communique added:

"All attempts by the Germans to drive wedges into our defenses failed."

This indicated the Russians were doggedly holding their lines intact, slowly yielding where necessary, and frustrating the Nazi tactics of encirclement and annihilation.

Kill 4,000 Germans

Soviet troops were credited with destroying 123 tanks and killing 4,000 Germans in a half a dozen engagements within the last 36 hours.

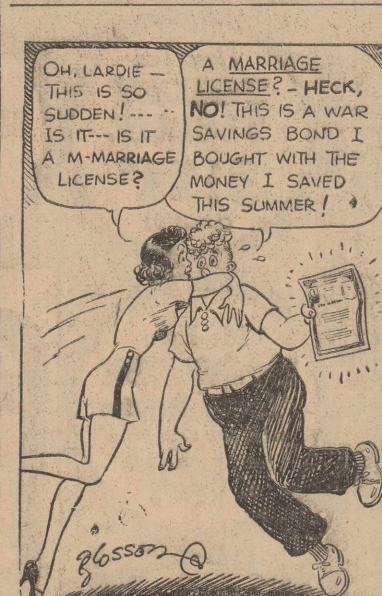

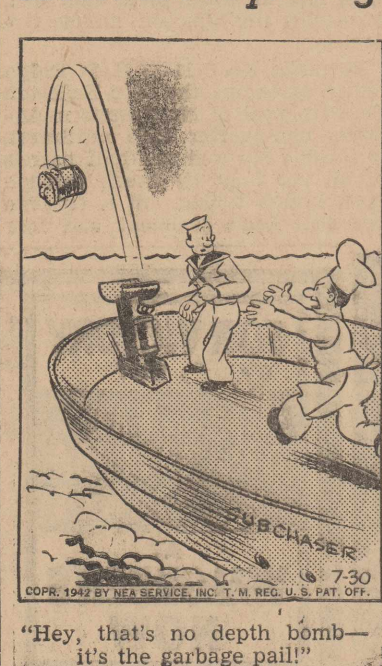

On the far southern front, where Gen. Fedor Von Bock's armies are striking toward the Caucasus oil treasures, the Russians conceded fresh German gains in the Bataisk sector, 15 miles below Rostov-on-Don.

"Heavy fighting is going on," Soviet communique said, referring to this region. "The enemy has launched several attacks and advanced in separate sectors."

A bulletin from Nazi field headquarters declared German troops had stormed and captured the town of Proletarskaya, 100 miles below the lower Don, thereby cutting the last direct rail line to the Caucasus oil fields. Oil may still be shipped, however, up the Caspian Sea to the rail-river city of Astrakhan on the Volga.

Wake Island was discovered by the British in 1796.

Hold Everything

Long Pole Snaps And Great Lorenzo Killed

SALEM, Ill. (AP)—Paul Lorenzo Perkinson, 40, aerial acrobat billed as the Great Lorenzo, fell to his death Wednesday night from a 116-foot pole during a performance before 15,000 spectators at the Marion County soldiers' and sailors' reunion.

The pole, on which Lorenzo was doing a balancing act, snapped about 10 feet from the top. He missed in a desperate effort to grasp a platform on which his wife, Vicki, was standing.

Mr. and Mrs. G. V. Williamson on the birth of a daughter at Ryan's Hospital late Wednesday afternoon.

SERIAL STORY

BANNERS FLYING

BY MARY RAYMOND

THE STORY: Christie Colton has down a badly injured young man to a hospital. The young man seems to think he knows Jan's name. Christie Colton discovers she is home Christie Colton's fiancée, Bart Sanderson, who is in the Air Force. On the eve of a party in Jan's honor comes news of the bombing of Pearl Harbor.

AN EVENTFUL PARTY

CHAPTER VI

A PARTY people would never forget—

Well, at least Christie would never forget it, but she could not look ahead.

Right now, Jan was standing in the doorway of Christie's room. "Oh, twinnie, you're beautiful!" Christie breathed.

"Am I?" Jan asked, her voice stirred by excitement. "I really wanted to be tonight—for just once in my life I want people to stare at me. I'd like to be like you."

"Goodness, Jan, I never looked as beautiful as that. You're like Cinderella—only there won't be any cinders for you tomorrow."

Christie's eyes followed the retreating shimmer that was Jan's gown. "Don't forget to bring Stephen to me," she called.

She secured pink camellias on the shoulder of the simple, white formal she had chosen, and hurried downstairs. She saw her father's pleased appraisal of Jan as she took her place beside him in the receiving line.

JUST then, Christie caught Hollis' eyes. He was standing near the entrance. He looked troubled, and, instantly, Christie felt a sober certainty that something had gone wrong. Nothing except some major domestic disaster could prick through the butler's English calm.

"What's the matter, Hollis?" Christie had crossed the room quickly.

"These, Miss Christie. They've been coming in steadily for the last hour."

Christie's hand shook as she lifted the stack of envelopes from the silver tray. "Don't say anything to Mother, Hollis," she cautioned. She fled to her room, sat down and began opening the notes.

Calling cards—any number of them. Mrs. Pemberton Brooks regrets. Mrs. Donald Trent regrets. Miss Elizabeth Trent.

Miss Lancaster, a member of Westwood's oldest family wrote: "I'm not in a party mood tonight, Eleanor. All I can think about is that Westwood's boys will soon be in this awful war."

Here and there, Christie could see some of those Miss Sarah had swung into line—"flu patients," and others who had been "out of town."

Somebody broke on Christie, and she saw Bart heading for Jan. Around 11, Christie managed to ditch a dance partner and made her way to the library.

The library was quiet, but some-

one had preceded her. A stranger. As he turned, Christie saw that he was not a stranger, but the young man of the plane trip—Jan's friend, Stephen.

"Hello, there," he was smiling. "The first time I saw you things were sort of hazy."

"I remember," Christie answered. "I'm so glad you got well."

"I never did get to thank you for the buggy ride. I had a few conscious moments, and I think I asked a nurse to find you."

"She did. You thought I was Jan, didn't you?"

"Yes. You're so much alike—but very different, too. I would never make the mistake, again."

"I couldn't imagine how the nurse knew my name," Christie said. "I should have figured it out, but—"

She broke off, because the young man had taken both her hands. "Names don't matter. After Jan told me her twin sister had been my pilot, I never thought of you as 'Christie.' It was more fun to think of you as my rescuing angel."

Definitely, he was a young man who must be put in his place. Christie withdrew her hands. "An angel," she laughed. "I gave up my wings when I promised my fiancé not to fly any more."

He surveyed her soberly. "I always suspected I'd be too late for heaven. When I was a kid, I used to have a nightmare. All about St. Peter slamming the gate just as I got there."

"You're extremely—" Christie's voice broke, half in indignation and partly in amusement—"silly," she ended lamely.

"Christie!" Bart was standing in the doorway. Jan was with him. In a quick glance, Christie saw that Bart was amazed, and none too pleased to find her here with a tall, blond stranger. As for Jan. . . she thought Jan looked tired. All the glow had gone.

"She saved my life," Stephen said to Bart. He smiled at Christie. "This is the first time I've seen her since."

"I remember about it," Bart spoke casually. "Christie happened to be the only person at the airport who could pilot a plane."

"That's about the story," Stephen Marsten's voice matched Bart's in coolness. "Funny thing, when I looked up at her, I thought she was Jan."

"Oh, Christie always manages to get there first," Jan said.

Christie flashed a quick look at her sister. Jan's voice had sounded queer, different. And for a fleeting moment, her eyes had looked hard and cynical.

Rambouillet Breeders Re-Elect V. I. Pierce

SAN ANGELO (AP)—Victor I. Pierce of Ozona Wednesday was re-elected president of the American Rambouillet Sheep Breeders Association, convening here.

Wynn S. Hensen of Collingston, Utah, was named vice president.

E. C. Noelle and son of Sheffield paid \$900 for a blue-ribbon yearling Corriedale stud ram to top the Corriedale division of San Angelo sheep show and sale and establish a record on individual sale for Texas, exceeding the previous peak of \$600.

The ram was consigned by Malcolm Monierette of Big Horn, Wyo. The top ewe Wednesday was also a Monierette yearling and went to Duwain Hughes of San Angelo at \$160.

El Salvador ranks fourth in world production of coffee.

OPA Clinic To Be Held In Abilene

An OPA Clinic to explain regulations controlling ceiling prices, including the new orders recently announced, will be held at the chamber of commerce in Abilene August 3, according to information received by the Midland Chamber of Commerce. Midland merchants and other interested parties are invited to attend the session which will open at 10 a. m.

The conference will be conducted by officials from the Office of Price Administration. Actual demonstrations will show how to post ceiling prices, records to keep and those to be filed, merchandise and services under control of the regulation, how maximum prices are established, what items are not affected, and new orders relating to apparel and other commodities.

REFUGEES ARRIVE

BALTIMORE (AP)—The 8,000-ton Portuguese steamer Nyassa docked here Thursday with almost 500 refugees from Europe and the Middle East.

Together For The First Time

GEORGE RAFT (C), a hooper and his girl (JANET BLAIR) with a cop (PAT O'BRIEN) whose heart is bigger than his badge who made them dance to fame with a gun at their backs in Universal's big-scale melodrama, "Broadway," which will show Friday and Saturday at the Yucca.

Eugene Jones, Midland County Farm Lad, Earns College Fund With His Livestock And Cotton

Earning and saving during his high school days a fund sufficient to put him through a full college degree course is a distinction achieved by a Midland County youth. He will go to college this fall, having completed his high school work in June.

Eugene Jones, son of Mr. and Mrs. G. S. Jones of the Valley View community, 10 miles southeast of Midland, has set aside his college fund from earnings in cattle, hogs and cotton, and from prize monies won by the animals he raised. And, he completed his high school career in Midland High School in June with distinctive grades.

The 16-year old youth is president of the Midland County 4-H Club, an office he has held two years; was on the 4-H livestock judging team last year, and a year ago was given the Wilson Award as the outstanding club boy in the county. His work has not been strictly club work, however, for he has made a lot of general improvements on his parents' farm, and has handled his own crop, and plowed out the entire Jones farm each year, assisting his father in many ways. He has made a serious study of feeding, has experimented with various rations, and has built his own breeding equipment, and planted windbreaks for his stock.

Decides On Career
In the summer of 1941 he attended the short course at the Texas A&M College. At that time, he decided to devote his life to agriculture and livestock, and to do his college work at A&M. Since going to the short course he has fed out a good many head of stock, not for show purposes, but for sale, and has made a nice profit on his venture. He gave his cotton land a special "feeding," and came through with a banner yield per acre. He has gone thoroughly into every move he has made, and made his moves pay.

Helps With Projects
But, he has been as useful to others as to himself, for he has cooperated in every club effort, served on the Midland County show committee, helped to paint and place game preserve signs for use over all the county, has assisted with high school and county agent projects, and spread the word among the other boys that they had a great opportunity in livestock and agriculture as a career.

In the 1940-41 season he took prizes with his calves, and sold his cotton and his calves for fine profits. In 1941-42 he added some fine hogs to his stock, took prizes, and

Hawaii Governor

Ingram M. Stainback, U. S. attorney for the District of Hawaii, has been nominated by President to succeed Joseph Poindexter as governor of Hawaii.

got premiums for his show stuff, and good prices for his general sales, and increased his cotton acreage and yield. This made his earnings mount rapidly, and added to the college fund.

Varies Activities
Although this all has been a strictly business proposition for Eugene, he has found time to be active in all of the other normal goings-on of a youngster, is a hail-fellow, well-met, and a natural leader among his friends. He makes a splendid "presiding officer," handles a meeting or a banquet like a veteran, and enjoys it all.

To Ira O. Sturkie, county agent, and to Harlan Howell, high school agriculture, Eugene has gone with many of his problems; and, in turn, he has assisted them in all phases of work in which he might cooperate. They and the boys of the 4-H Club, as well as of the Future Farmers of America Club, of which he has been president in the past, will miss him when he goes to college; but, the two men will be following his progress, and his boy companions will be seeing him when they complete their high school work, and go off to college.

Many of the types of soil found in Texas are not found in any other part of the United States.

Clothing outfits for American aviators cost about \$260 a man.

Paging Fall

THIS is the fingertip-length, boxy fur jacket style that's big news in forthcoming fall-winter collections. Persian lamb is used here. Tiny snow collar, armholes big enough to be comfortable over a suit and big sleeves are fashionable details. Less expensive wraps also take this beautifully simple design this year, because it's a natural with WFB-slim skirts.

on a patrol mission, they sighted a submarine on the surface, made a run for the attack immediately, during which time the submariner made a crash dive from a stationary position. While passing over the U-boat from bow to stern, they released two 325-pound depth charges as the conning tower went below the surface. One depth charge was dropped about 100 feet short and the other about 100 feet over the target. The rear gunner reported that immediately after the depth charges exploded, the U-boat was thrown from the water and
