

## BUILD... HASKELL

"Another Ox Gored" Many years the United States Government, through the Postal Department, has been manufacturing and envelopes for public consumption. However, all the kicking the shops might have kept up to objections, amounted to nothing.

It seems the United States Government will manufacture office furnished leather cloth office equipment, and more articles needed in offices. A strong organization to aid the National Manufacturers Association, backed by every State and Manufacturing organization, is to go after the plan with full force and we predict things might yet be different.

Different ox is being gored, or the other foot, now, there will be a more effective bowl than has been heretofore from printing crafts. Statistics show the Manufacturing Institutions of United States buy Government envelopes by the million. That all right, that was good business, saving them money because the government printed is done at the deficit is made up by additional postage, like the postal cent that you now have for mailing a private post card, cost two cents, the government goes for one cent but you must add the card from the government to this half rate. Just as the half extra is now charged on circular sealed mail. As well as the cents you now have to add when you wish to send a newspaper to some place, all this was O. K. but now the turn of Uncle Sam is to go into the manufacturing more extensively, such as furniture, leather and cloth and optical instruments, all of which does not fit well with National Manufacturers Association which is now preparing to fight the issue with little delay.

## FARMERS WARNED BY TEXAS BANKER

R. C. Montgomery of the Farmers State Bank of this city handed us a clipping from one of the state papers which he believes every farmer should read in order that they might better understand the conditions of the cotton market. He believes the farmers should grow their feed and stock their poultry yards with a supply of hens, and the barn lot with a sow and plenty of milk cows. Below we give the article which should interest every farmer in Haskell county and else where.

"It is well that the business men of Texas, led by one hundred of the foremost bankers, manufacturers and merchants constituting the Board of Governors of the Texas Safe Farming Association, are bestirring themselves to promote a more profitable agriculture," said Nathan Adams, president of the American Exchange National bank in a statement issued today.

"I am not an alarmist," continued Mr. Adams. "But I say in all candor that we cannot stand" another such year as 1925 without many business disasters. "The returns from the four million bales of cotton we produced last year will not cover the cost of production. It would barely cover cost at the present price of middling cotton, but it will by no means average middling. A fifth to a fourth of it is low grade; much of it has been sold at 7 to 12 cents a pound.

"This means that our cotton production account for 1925 is 'in the red' it means that much paper in the note case is deferred; it means that our principal source of wealth is in default. "It is well known to every man in the cotton trade that if the approximately 2,500,000 to three million bales of low grade cotton produced in the South last year were tenderable on contract the price of middling today would be much lower.

"Another big cotton crop will mean further and greater loss. "We cannot control the acreage—we can only advise; we cannot order the weather or forbid the pests. There may be a greater yield even upon a smaller acreage; there may be another large volume of untenderable cotton. These are all uncertain and beyond the power of any set of men to govern. "But we do know that we can raise our own food and feed. We are our own market for food and feed; we will sell them to ourselves and we will keep at home some two hundred million dollars which we sent to the Corn Belt last year.

"Then if we get a good price for our cotton we will be in the clear; if we must sell it for a low price we will reduce our loss. "It is plain to every observing man that we cannot prosper—indeed, it is my opinion we cannot survive as healthy communities and as an orderly commonwealth—by following the old practice of cotton-credit farming to buy everything else.

"I am hopeful that the old order will be reversed, but those of us who are giving our time and money through the Texas Safe Farming Association cannot do it alone. We must have the help of every man who is worthy of his citizenship. "I believe there are enough thoughtful and patriotic men in Texas to put this thing over, first, as an emergency measure this year to preserve our solvency, and as a permanent system to insure our future prosperity."

**How To Quickly Stop Bad Coughs**

It is often surprising how quickly the heaviest cough disappears when treated by a remarkable new method.

Here is the method, based on the famous Dr. King's New Discovery for Coughs: You simply take one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals irritation, but also loosens and removes the phlegm and congestion which are the real cause of the coughing. So the severest cough soon disappears completely.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for

a Record Breaking Year... and a still Greater Year to Come

With sales in excess of 250,000 cars, Dodge Brothers, Inc. have just completed the greatest year in their history.

Had it been possible to produce cars in sufficient numbers, their increase over 1924 would have been even more substantial.

This year the production problem has been mastered. A \$10,000,000 expansion program stands completed—and the enormous output of 1925 will be nearly doubled!

Production on this stupendous scale makes possible the astounding low prices announced January 7th.

It makes them possible even though the car is better today than ever before. These are but a few of the vital refinements—

*Rich and attractive new colors.*  
*Absolute smoothness of engine operation.*  
*A new snap and elasticity of operation throughout.*  
*Smart and stylish new body lines.*  
*Complete vision from every angle of the sturdy all-steel body.*

Dodge Brothers Motor Car has always been an exceptional product. With these refinements, at these new prices, it is without question the greatest value Dodge Brothers have ever offered.

This week, Dorothy was reading "The Paper and looked up and said, "This paper says that thousands of people are pouring into Texas, what do you suppose we will do if too crowded?"

Mrs. Chas Parsons was the director and the first number was the devotional led by Mrs. T. A. Williams, who read portions of the 12th chapter of Romans, appropriate songs were sung. Then the following ladies read and discussed chapters of the book: 1st, Mrs. Charles Parsons; 2nd, Mrs. S. R. Rike; 3rd, Mrs. H. M. Smith; 4th, Mrs. I. W. Kirkpatrick; Mrs. O. E. Patterson delighted the audience by her rendition of two Spanish numbers at the piano. 8th, Mrs. Guy Mays. Next Monday the society will have an open house affair at the Parsonage, when all members are urged to be present at 3 o'clock.

## Smith-Williams

On last Sunday, February the 7th, Mr. Charles W. Williams and Miss Katharine Smith drove to Rule and were married at three o'clock in the afternoon by Rev. Abbott, pastor of the Christian church. Miss Katharine Smith is the beautiful daughter of Mr. and Mrs. Jesse B. Smith, old residents of Haskell. Mr. Smith was the popular treasurer and tax assessor of Haskell County for eight years. Mr. and Mrs. Smith now live on their farm North West of Haskell. Mr. Williams came to Haskell last Summer with the Olinger-Williams Skating Rink Company and it was then that this romance began. Mr. and Mrs. Williams will make their home in Abilene.

## Popular Abilene Girl Weds Young Business Man of Haskell.

A wedding of keenest interest to every body in Haskell was that of Miss Ruth Chambers of Abilene, daughter of Mr. and Mrs. S. A. Chambers of that city and Mr. Wallace Cox, son of Mr. and Mrs. Burl Cox of Haskell, last Saturday evening, February the 8th at 8:30 o'clock in the First Christian Church with the pastor, Rev. E. D. Salkeld, officiating. Myriads of white candles and glossy ferns, keeping the color scheme of white and green were used in simple setting. The altar was banked with ferns, and interspersed with white candles, whose white light glistened over the glossy greenery, and flanking the background on either side, were candelabra, holding many candles. The choir rail and the front of the altar were outlined with the candles, and only the light from these and a few concealed lights shed their soft glow over the twilight scene. A program of pre-nuptial music, including favorite love songs of the bride, was given for twenty minutes preceding the ceremony with Mrs. Joe Ellis playing: "Believe Me If All Those Endering Young Charms;" "Melody in F" by Rubenstein; "Drink To Me Only With Thine Eyes;" and after "Just A Song At Twilight," the bride's sister Miss Annie Bess Chambers, sang in her clear sweet voice, "O Promise Me." Then Lohengrin's Wedding march heralded the coming of the wedding party. "Lovely Night" from Tales of Hoffman was played in subdued tone during the ceremony. The bride entered on the arm of her maid, Miss Margaret Bass wearing a lovely gown of Elizabeth crepe of beige tones with trimmings of rare lace, a spring model hat in rose and other accessories to match. A corsage of bride's roses and lilies of the valley completed the dainty costume. Miss Bass was frocked in a handsome green crepe with rose trimmings and carried an arm shaft of La France roses. The groom, who entered unattended, joined them at the altar and the impressive ring ceremony was said. Mr. and Mrs. Cox left immediately after the ceremony for a short wedding tour, after which they will be at home to their friends in Haskell, in the beautiful home that the groom has prepared for his bride.

This wedding is the culmination of a romance begun when Miss Chambers was a much loved and popular teacher

in the Haskell High School. There were gay pre-nuptial days between the announcement of Miss Chamber's marriage and the day of the ceremony, when friends vied with each other for the privilege and pleasure of entertaining her, teas, parties and showers added happiness for friends and the bride and exquisite gifts of linens, silver, pictures, lovely china and glass ware, were the visible tokens left by loving friends.

## Magazine Club.

The Magazine Club met Friday afternoon, with Mrs. V. W. Meadors presiding. After a short business session, Mrs. N. T. Smith took charge of the lesson. Other parts of the program were led by Mesdames Conner, Wallace, and Oates.

## McConnell Honors Her Former Teachers.

As a memento to the service rendered by Mr. and Mrs. J. F. Guillet, to the McConnell School and to the community a reception was given at the school building Thursday night, February 4th. An appreciation of their work during the past three school sessions, was shown by the large number present.

Mr. and Mrs. J. F. Guillet were invited to the stage and after the curtains were drawn the following program was rendered very effectively.

First, Mr. and Mrs. Guillet were introduced to the audience, to their surprise, as Mr. and Mrs. Calvin Coolidge by J. D. Chapman, in colored costume. Then following pseudo characters came on the stage, each dressed in appropriate costume, and were introduced in order with very characteristic remarks pertaining to each.

Valentine Bland and Henry Guillet—Mr. and Mrs. George Washington; Earl Bunkley and Miss Sula Mae Ratliff—Mr. and Mrs. John Adams; H. M. West—(Bachelor) Buckhannon; Nick Guillet and Miss Cecil Breigh—Mr. and Mrs. Abraham Lincoln; Ross Chapman and Mrs. Vasco Guillet—Mr. and Mrs. Grover Cleveland; Mr. Vasco Guillet and Mrs. H. M. Stone—Mr. and Mrs. Theodore Roosevelt.

While this company was on the stage Mrs. John Adams passed to the piano and as she struck the familiar air, the entire audience rose to their feet and sang "America."

Mrs. Theodore Roosevelt next, gave a reading entitled, "I'll Love Him No More," and Mrs. George Washington sang, "My Old Kentucky Home." Following, Mary Bunkley gave very splendidly the reading "Angeline" and the monologue, "In the Dime Museum" rendered by Annie West was good. Messrs. J. C. and R. P. Cauthen and John Lyn Guillet, sang a "Swing Song" which was very pretty.

Again Mrs. John Adams touched the

keys and those on the stage sang "Old Black Joe" and "Dixie." While standing, Wilmer and R. P. Cauthen came on the stage and presented to Mr. and Mrs. J. F. Guillet each a real nice gift as a souvenir of friendship and love from the Primary and Intermediate rooms, respectively.

The colored boy would be on the stage again. He now comes in with an invitation to the President and his company, to the dining room which was in the rear of the primary room. Here they were served with cake, hot coffee, and lemonade. All present were served later.

Last but not least, a little booklet consisting of a picture of the school house drawn by Herbert Fisher, and the names of all present was given to Mr. and Mrs. Guillet. Then with many hearty hand clasps, smiles of good cheer and wishes for success, we bade them good bye.

## Reception Honoring Mr. and Mrs. J. F. Guillet

Friends of Mr. and Mrs. J. F. Guillet planned an informal reception for last Thursday evening honoring Mr. and Mrs. Guillet who are leaving Monday for Arlington where they will make their future home. Mr. and Mrs. Guillet have taught a number of years in the McConnell school and the pupils of each room presented a little remembrance to Mr. and Mrs. Guillet. Refreshments were served consisting of hot coffee, lemonade and cakes, to a large crowd.

## BUNKER HILL

(By Virgie McIntyre)

There is quite a number on the sick list this week, including Mr. and Mrs. V. A. Turner, Robert McIntyre, Norbert Boedecker, Arthur Knippling, G. W. Roberts, Leroy Franks, Otto Mueller and Melba Knippling. The reason for so much sickness is unknown unless it is the change in the weather.

The home economics class entertained the mothers of the school Friday afternoon, serving salad, butter rolls, hot chocolate and cakes.

Bunker Hill was the only rural school represented in the Haskell county basket ball tournament held in Stamford last Saturday. The boys lost to Haskell, but say they don't mind so much for Haskell to beat them, as Haskell is supposed to be the best in the county. This was Bunker Hill's second game on an indoor court and we think they did extremely well. The score was: Haskell 32 and Bunker Hill 16.

Mr. and Mrs. J. R. Rice and family motored to Anson Sunday.

Mr. and Mrs. Henry Schroeder of this community were called Wednesday night to the bedside of her brother in Albany Texas.

A large number of the Bunker Hill people were in Stamford, Saturday.

NOT OCCASIONALLY, BUT  
ALWAYS A GOOD SHOW AT  
THE HASKELL THEATRE

Time was in the not too distant  
past when such terms as "Censor  
Board," "Poor Pictures" and so forth  
were heard even in Haskell. But with  
the general publicity given pictures in  
the daily press and nearly all maga-  
zines, the public can shop for pictures  
today as easily as they can any other  
commodity in trade. And so can the  
picture show man. That is exactly  
what the management of the Haskell  
Theatre does, where you can find "Not  
Occasionally, But Always a Good  
Show." Following this week's run,  
which has been repeat with high class  
pictures, Monday February the 15th  
opens with Rudolph Valentino in  
"Cobra" which will be shown on the  
16th also. Then coming soon (watch  
for the dates) Miss Blue Beard, with  
Bebe Daniels; and "Thank You," a  
William Fox production of a small  
town drama, with an unusually splen-  
did all star cast, containing all of the  
love, hatred, heroism and pettiness,  
sacrifices and gossiping so dear to the  
small town—and to the big town—  
then follows "Golden Princess" with  
Betty Bronson—and then—"Over the  
Hill" with Mary Carr; yes we saw that  
in Haskell three years ago; but this is  
a revision of the same old "Over the  
Hill" and is conceded by all who see  
it, to be the greatest picture that ever  
came their way. Watch the date and  
do not be among those who regret they  
did not get to see "Over the Hill."

Diphtheria at Rose

Little Maggie Lee Piland the 10  
year old daughter of G. W. Piland of  
Rose Chapel, has a bad case of diphtheria.  
She took the diphtheria about  
the 1st of February and has been  
dangerously ill. Last Saturday and  
Sunday was the most dangerous point.  
The diphtheria and serums affected  
her heart and made her very weak.  
She seemed to be some better at last  
report and her many friends wish her  
a speedy recovery.

I. B. Loe of the Rochester Bank was  
in the city on business Monday.

A three-circuit program clock, in-  
stalled by the International Recording  
Company of New York, was started at  
1:43 1/2 p. m. Tuesday, February 9th.  
This clock will ring bells in both the  
North Ward Grammar School and the  
High School buildings, on the five  
school days, and we feel now that in  
many troubles concerning time are in  
the past. If the people want to know  
the school time, they will please ring  
the High School 388, between 8:15  
and 8:30 a. m.

Several teachers and many students  
were out last week on account of ill-  
ness, but the attendance is much bet-  
ter this week, and we trust that every  
one will be back on the job by the  
end of the week. We feel sure that  
no one regrets having been vaccin-  
ated, even tho suffering in some cases  
was very severe. We appreciate very  
much the splendid co-operation of the  
citizens in this move.

An Abraham Lincoln program will  
be given in Assembly on Friday of this  
week. We would like to see many pat-  
rons present.

Historic Gold-rush of '98  
Reproduced in New Picture

Reproducing the historic gold-rush  
of '98 was one of the tasks which con-  
fronted Herbert Brenon in producing  
Thomas Meighan's latest starring pic-  
ture "The Alaskan" which opens at  
the Haskell Theatre shortly.

The picture opens with scenes of the  
stampedee that followed the discovery  
of gold in Alaska in the late nineties.  
"The trail of '98" has become synony-  
mous with suffering hardship. Thou-  
sands of men fought their way into the  
promised land over a frozen mountain  
pass, carrying all their earthly posses-  
sions with them. Many died by the  
way and none of their fellows dared  
waste their own strength in lending a  
helping hand.

"The Alaskan," in which Thomas  
Meighan plays the title role, supported  
by Estelle Taylor, John Sainpolis, Chas.  
Ogle, Frank Campeau and Anna May  
Wong, is from James Oliver Curwoods  
famous story and shows the terrible  
hardships of the first miners who went  
in.

In preparing for these scenes, Her-  
bert Brenon was fortunate in finding  
two men who had actually carried  
packs over the winter trail which led,  
as they believed, to the land flowing  
with gold. It was from their descrip-  
tions that the atmosphere of the gold-  
rush scene was created.

All the out-door scenes of the photo-  
play were filmed in the northern wilds  
and British Columbia by a company  
which travelled four thousand miles to  
secure the proper locations. Wednes-  
day February 17th.

Wise Guy

Frank Lawrence had been trying to  
teach Viola to drive his car and for a  
while Vi practiced and practiced. Then  
one day, she quit cold, and nothing  
would induce her to take hold of the  
steering wheel.

"What was the trouble?" asked  
Blanche, Mickey Neilan's cutter. "Did  
you get cold feet or have an accident?"  
"No," explained Vi, "but I found  
out why Frankie wants me to drive. He  
said that if we ever got into a jam, I  
could out-talk any traffic cop in Cal-  
ifornia, the mean thing."

WHAT "COBRA" MEANS

"Cobra," Rudolph Valentino's inde-  
pendent Ritz-Carlton starring picture  
which opens on Monday at the Haskell  
Theatre is not a snake picture!

It is a modern drama with New York  
as the principal locale, although the ac-  
tion begins in Italy.

There has been considerable specu-  
lation as to the significance of the title.  
It really means the lure of fascinating  
unscrupulous woman the charm which  
the cobra exercises over its victims.

sympathy of the entire community in

Frequent  
Bilious Attacks  
"I suffered with severe bil-  
ious attacks that came on two  
or three times each month,"  
says Mr. J. P. Nevins, of  
Lawrenceburg, Ky. "I would  
get nauseated. I would have  
dizziness and couldn't work.  
I would take pills until I was  
worn-out with them. I didn't  
seem to get relief."  
"A neighbor told me of

BLACK-DRAUGHT  
Liver Medicine

and I began its use. I never  
have found so much relief  
as it gave me. I would not  
be without it for anything. It  
seemed to cleanse my whole  
system and made me feel like  
new. I would take a few  
doses—get rid of the bile and  
have my usual clear head,  
feel full of pep, and could do  
twice the work."

Bilious attacks are "sea-  
sonal" with many people.  
Millions have taken Theod-  
ore's Black-Draught to ward  
off such attacks, and the good  
results they have reported  
should induce you to try it.

"Hush, my own! Don't talk so wild;

"He's my father? No such thing!  
Father died, you know, last spring."  
"Father didn't die, you dub! Father  
joined a golfing club. But they closed  
the club, so he had no place to go, you  
see! No place left for him to roam—  
that is why he's coming home. Kiss  
him—he won't bite you, child. All  
them golfing guys look wild!"

THE HEART OF THE KITCHEN

The modern Electric Range of today "The Heart of the Kitchen" truly, gives an entirely new atmosphere to the kitchen.

It creates a place to generate heat for the cooking of better foods, finer in appearance and better in taste. A place that is always clean without smudge, smoke, or smell. A place where minimum of time should be spent in preparing meals.

Turn the button; instantly the cherry red heat is available. No preliminaries.

No bringing in fuel or taking out ashes. The air carries no greasy soot.

There is very little difference in the cost of operating an electric and an oil stove. There is no fire danger with an electric, and it is so simple a child can operate it.

They are sold at a very reasonable price and on easy terms if desired.

# 111 Lister Planter

A satisfied customer is a firm's best asset and scores of our customers are using the 111 Lister-Planter and we do not know of one who is dissatisfied. They come into our store daily and seeing the planter on our floor they invariably testify as to its long life, its sturdy construction and ease of operation.

If you have never used the No. 111 and contemplate buying a Lister this spring, ask your neighbor who owns and operates one to tell you about it.

The most convincing proof you can get will come from the man who owns and operates a farming tool—and not from us—or the factory that builds the same.

We carry a full line of repairs in stock. Delays in the planting season are costly. Remember this in buying your implements.

## Teach Your Children to Study the Ads

ONE of the finest things you ever can do for your children is to train them in the business of buying. All their lives they will be confronted with problems of personal, if not more complicated, investment. From early youth they should be prepared to meet these duties wisely.

Teach them to study the ads in this paper. Let them get all the joy they can from the "funnies," and we hope they will find much of interest in our news items and articles; but urge them to read the ads.

Newspaper advertisements are entertaining. They are instructive. They are inspirational. As they appeal to the child's imagination, they train his judgment and encourage his desire for the better things of life.

Help your children to become careful buyers, not impulsive spenders. Teach them to study the ads.

**THRIFT IN THE SCHOOL**

The following essay on Thrift was written by Miss Martha Lou Rogers, Woman's Class, Haskell High School. There are ways in which our school can be made much more thrifty. Many of our articles are wasted daily when they could be saved by the practice of thrift.

There is a great waste of paper, especially among girls. These papers are used to solve algebra problems and to write the first drafts of themes when the tablet paper could be used just as well.

Thrift is wasted by being dropped and the board and stepped on, or if care were shown much of it could be saved.

The floors, walks, blackboards and desks could be made to last longer if they were practiced. By carelessly scribbling on the seats, playing around blackboards, and kicking and writing on the walls, the value of the building has been greatly lowered.

The value of books is not realized by many people who ruthlessly buy them without any thought of their value. Books are being torn up and destroyed by children in this school.

There is especially a great waste of time in the study hall, class rooms, and between classes much time is being wasted every day. People waste more time than anything else and it is one of the most valuable possessions we have.

Franklin says: "Lovest thou time? Do not squander TIME for the stuff of which life is made."

**THRIFT IN THE SCHOOLS**

An essay on thrift written by Miss Marine Rike, Sophomore Class, Haskell High School.

Thrift in the schools doesn't mean economy in saving so many things. School children can be thrifty in many ways that are as essential and as useful to them as the thrift used by their fathers.

School children may save themselves and other school supplies by using only the necessary amount and wasting the remainder. Write on both sides of paper; keep books covered and clean to prevent damage; be careful not to lose your books, supplies, or extra.

Thrift can be recognized in the habits of the dress of students, especially girls. It costs almost a fortune to keep the modern "flapper" in the school. Of course she could

wear gingham dresses, cotton stockings, or "brogan shoes," but with these on she feels cramped because everyone else wears the best she possesses—silk stockings, French heel pumps, velvets and satins, and other things admired by most girls. The school girl also feels that she just can not go to school without her straight hair "marcelled," or her white cheeks painted or her lips a cherry red. The girls in our school don't all dress this way, but the majority either dress that way or wish they could. This expensive dress can be remedied in several ways. The D. E. Club can adopt a plan or a Thrift Club can be organized. C. I. A. bulletins and students of C. I. A. give examples of how the school girl should dress.

"3. Thrift can be recognized in the cooking department by using accurate measurements and using "left-over" foods in made-over dishes. In the sewing department economy should be used in making clothes.

"4. Thrift in employing your time whether you are idling, studying, or working. Benjamin Franklin said to work hard while you work and play while you play. If you study systematically and with absolute concentration your school work will take little time and you will have more time to do other things. If you idle through school little benefit is derived and you are likely to idle through life."

**Baby Died**

The hearts of our people go out in tenderest sympathy to Mr. and Mrs. W. A. Copeland, living about three miles west of Haskell, who mourn the death of their baby little Leon, who was eight months old when the close of his earthly existence came. The baby had been sick some time with whooping cough and bronchial pneumonia. He died Monday morning at 5:30 February 8. Funeral services were held at the family home at 4:30 Monday afternoon by Elder W. W. Starns after which the little form was laid to rest in Willow cemetery.

May he who alone can pour balm into wounded hearts sustain the stricken loved ones in their dark hour of sorrow.

Young Husband—I just paid the doctor another ten dollars on his bill!  
Young Wife—Oh, goody; two more payments and the baby is ours.

**The Catarrh That Does Not Affect the Eyes**  
Because of its local and sensitive effect, LAXATIVE BROSOLD QUININE is better than ordinary quinine and does not cause nervousness, ringing in the head. Remember the full name and look for the signature of S. J. CHENEY, M.D.

**Hall's Catarrh Medicine**  
Those who are in a "run-down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Combined Treatment, both local and internal, and has been successful in the treatment of Catarrh for over forty years. Sold by all druggists.

**HASKELL MINISTER HAS WONDERFUL MILCH COW**  
Rev. W. H. Albertson, pastor of the First Baptist Church of this city gave to us the figures on the actual production of a milch cow which he owns and keeps for the family needs. But this cow is of such value in the production of milk and butter that she not only gives to the family their supply of milk and butter but a surplus when sold which more than furnishes the feed and care for herself. The record of this cow for January this year totals in pounds of milk 1,100 pounds, the number of pounds per day average 35.77 pounds, which giving 8 pounds of milk to the gallon averages almost 5 gallons of milk per day. Rev. Albertson weighs carefully each milking and has kept an accurate account.

**FORMER HASKELL BOY WINS HIGH HONORS IN TENNESSEE UNIVERSITY**

The following article is taken from "Cardinal and Cream" the official publication of Union University, Jackson, Tenn., and concerns Roy L. Stewart, well known here, a graduate of Haskell High School, who finishes his studies at Union this term:

"Roy Lee Stewart has been one of the most popular and valuable students enrolled in Union University in several years. We have found him to be an inestimable asset to our football, basketball and baseball teams. Merited mention has been made of him concerning his journalistic endeavors and he has won outstanding honors in this field. The students of Union have bestowed upon him every honor in their power to confer. In short, he has taken prominent part in every literary, social, and athletic activity with which he has been connected.

"Mr. Stewart is the son of Mr. and Mrs. R. W. Stewart. He was born, reared, and received his high school education at Haskell, Texas. After completing his high school work, he came to Union on the recommendation of Yewell P. Kuhn, a former student of this institution.

"Much publicity has been given him for his athletic achievements. He made a brilliant record in high school in both track and football. He won two places on the track team at district meets in Texas and qualified for the state meet. In the first football game he ever played, Stewart got away for a seventy yard run and a touchdown. A pertinent resume reveals that during the five seasons on Union's gridiron, he has played 38 games, has made 35 touchdowns, and kicked 31 goals, a total of 241 points. In baseball, he has made a good fielding record and has batted over 300 for the four year average. He has made five letters in basketball, five in football, and four in baseball with another baseball letter on the way for this Spring. Stewart was awarded the Hal Baker football trophy in 1924. This trophy is awarded each year to that member of the squad, voted as being the best allround player. He has been captain of all three teams at different times and has been assistant coach for two years.

"In his literary work, Stewart has neither been at the top of the honor roll nor at the bottom of the list. His grades have been more than satisfactory and far above the average of the proverbial "Athlete." His major subject is English and his minor is Education. In 1925, he won the A. W. Prince medal for the best article published in the Cardinal & Cream.

"Stewart is a member of the Alpha Tau Omega fraternity, the Apollonian Literary Society, "U" Club, Nestor Club, Booster Club; he either is or has been president of the "U" Club, Nestor Club, Booster Club, Student Body of Union University, and was elected last year as the Bachelor of Ugliness.

"It is the privilege of a very few to make the record and to be the recipient of so many honors as Mr. Stewart. He has served Union with his talents and has been honored in return. We don't suppose a student ever left a school that he did not stop to wonder secretly whether or not he would be missed after he had gone. Soon, he shall don the cap and gown and for the last time shall pass through Union portals as one of its students. He, too, shall linger a moment and ask himself that time-old question, "Will they miss me?" And then the spirit of Union shall break its silence and whisper to him, "We shall miss you, your work has been done well."

**Examinations**

The certificate law of the State has become so complicated that few people who have not made a special study of the certificate law of 1920, enacted by the 36th legislature, do not understand the certificate law of the State. We now have in general use through out the State sixteen different kinds or classes of certificates having various scope of fidelity. There seems to be a general impression among quite a few teachers and others interested in taking examinations that there would be no more examinations held for certificates after Sept. 1, 1925, but this is not the case.

The certificate law of 1921 provided that after Sept. 1, 1925 only two kinds of certificates could be obtained by County Examinations. These certificates are elementary certificate of the second class and high school certificate of the second class. Each certificate is valid for two years only, unless applicant makes a general average of 85 or above, and a grade of not less than 65 on any one subject. The elementary certificate is valid only in grades 1 to 7 inclusive. The high school certificate is valid in elementary grades from 1 to 7 inclusive, and in third class and unclassified high schools, provided that said school is not an applicant for State Aid, then the work of teacher holding said high school certificate of second class must be restricted to elementary grades, that is 1 to 7 inclusive.

Those interested in securing more information in regard to certificate law, should write State Department of Education for bulletin 201.

"Certificates of the second class may be obtained by examinations only. Applicants who desire to take examinations for certificates in any county must register with the county superintendent not later than the twentieth day of the month preceding the examination which he desires to take. Registration may be made by letter or in person. The applicant should give his age, sex, color, number of years of experience in teaching and should specify the subjects in which he wishes to be examined. The examination fee is not paid until the applicant enters the examinations. Registration may be cancelled subsequently, if desired."

Dates for examinations for 1926:  
February 5, 6; April 2, 3; June 4, 5; July 2, 3; August 13, 14; Sept. 3, 4; and December 3, 4.

**Lee Meyers Defeats Pete Buzukos Here Last Saturday**

Lee Meyers of Houston defeated Pete Buzukos at the Elks Club last Saturday night before an enthusiastic crowd of fans. Buzukos, a former title holder, gained the first fall over Meyers with a double toe-lock in about twenty-three minutes of hard work. Meyers was a bit the heaviest of the two, but this advantage was made up for by Buzukos skill and science, which got him out of several tights when it seemed that Meyers had him locked. Meyers won the second fall, in which Buzukos suffered a slight injury to his shoulder when he fell, but showed his gameness in coming back for the third fall to lose the decision.

Meyers, whose home is in Houston, is a clever man on the mat, and made many friends among local fans by his clean wrestling. He has plenty of science, and Haskell fans believe that he is capable of defeating some of the best wrestlers. It seems to like plenty of action, and believes in working hard to get his man—but does it in a clean, sportsmanlike manner.

Meyers is matched with Ackerman of Anson here Friday night, and fans are sure that the match will be worth seeing. Ackerman being conceded a hard man to beat, but local fans seem of the opinion that Meyers is the boy to do it.
