

FIGHTING RAGES IN SICILY AFTER ALLIES OPEN BATTLE OF EUROPE

Units Of Jap Navy Bombed Near New Georgia By Allies

By C. Yates McDaniel
ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC — (AP) — American planes bombed Japanese cruisers and destroyers attempting to sneak up in the pre-dawn darkness Saturday to the aid of the enemy's imperiled Munda air base, now cut off by American troops from its supply port above it on New Georgia Island.

German Targets Pounded In Two Allied Attacks

By Rice Yahner
LONDON (P) — Resources of the Axis war machine, straining to break through the Russian armies and to stand off Allied invasion in the Mediterranean, were whittled down Saturday by fresh bombing of factories in the Ruhr and air fields in France.

60 Japs Killed

The Japanese lost no time in attempting to force a passage. The first two groups to make the attempt were thrown back with 60 of their number killed.

Seven Killed As Bomber Explodes

LONGVIEW, Tex. — (P) — Seven bodies were recovered from an Army bomber which exploded four miles west of Ore City, Tex., late Saturday, Warrenton Army General Hospital reported Saturday night.

CAB To Reconsider Continental Line's Plan To Serve City

The petition of Continental Air Lines, Inc., requesting the Civil Aeronautics Board to reopen its decision on an application of the company to extend its lines from Hobbs to San Antonio, via Midland, for rehearing, reargument and reconsideration has been granted, according to information received Saturday by the Midland Chamber of Commerce from the CAB.

The Midland Chamber had joined the Continental Air Lines in requesting the reopening of the case. The CAB earlier this year denied Continental's application for authority to engage in air transportation between San Antonio and El Paso, via San Angelo, Big Spring, Midland and Hobbs. Branch Airways' application to provide service between San Antonio and El Paso also was reopened. The airlines were given opportunity to amend their applications to request authority to engage in temporary as well as permanent air transportation to and from the points requested in the original application. No information from Continental Lines relative to the ruling had been received here Saturday, Chamber of Commerce Manager Bill Collins said.

Scene Of Invasion By Allies

American, Canadian and British troops who invaded Sicily early Saturday were reported Saturday night driving northward to cut off ferry routes to the Italian mainland. This map shows how the strategic island is criss-crossed by transportation routes made to order for mechanized warfare.

Reserves Pouring In — Soviet Resistance Limits German Drives To Small Gains In Battle To Widen Initial Break-Through

MOSCOW — (P) — Pouring tremendous reserves of tanks and men into small wedges driven into the southern anchor of the Russian central front near Belgorod, after six days of desperate fighting, the Germans Saturday smashed again into rock-like Soviet resistance which all but immobilized their savage attempts at a clean break-through. It was officially announced Sunday.

Big War Stamp Sale Campaign Lags Here

Midland citizens are lagging badly in the Retailers for Victory campaign to sell \$12,000 worth of War Stamps during July. A check Saturday showed that only \$1,262.50 worth of War Stamps have been sold here this month—far short of the goal of the Retailers for Victory Committee of the Midland Chamber of Commerce.

Kiska Bombarded By U. S. Warship

WASHINGTON — (P) — Blasting shells from an American warship, pounding onto Kiska for several hours, have forced the Japanese to reveal location of at least some of their shore batteries. This, naval sources said, should help prepare the way for the anticipated landing of American ground troops to drive the enemy from that Aleutian Island base.

Midland Retailers Push Sale Of War Stamps In Big July Campaign

Retailers of Midland have been in the forefront of every patriotic movement. They have contributed mightily to our war effort. And so it is no surprise that they are devoting their strength during July in behalf of a national movement to sell enough War Stamps to pay for an aircraft carrier which will serve as a new mystery ship, Shangri-La.

Business and its workers will show the Japanese what power there is in a free people when aroused. The execution of our fliers in reprisal for General Doolittle's raid on Tokyo served to stir us to still greater action. In building another Shangri-La to serve the nation as the Hornet did, we will give expression to our feelings. Whenever we go into a store or theatre in July and are asked to buy War Stamps to pay for the carrier Shangri-La, I know our response will be "yes," eagerly. No American gets mad or annoyed at being reminded to buy War Stamps. That is proved every day in busy markets and stores where the same customers are "asked to buy" over and over again as they move from counter to counter and from department to department. Americans expect to be sold War Stamps and unless with every sale of merchandise or service we say HOW MANY WAR STAMPS WITH YOUR CHANGE they feel let down. There is no substitute for "Ask 'Em To Buy." Our purchase of War Stamps for the Shangri-La should not in any way interfere with our purchase of War Bonds. In fact it should lead us to get sufficient additional War Stamps to get extra Bonds. (Signed Paul McHargue, President Midland Chamber of Commerce.)

Invasion Forces Overcome Enemy Resistance In Three Hours And Advance Inland

ALLIED HEADQUARTERS IN NORTH AFRICA — (AP) — The Allied forces invading Sicily landed along 100 miles of the big island's southeast coast, overcame enemy resistance in three hours, and 90 minutes later began advancing inland under a powerful aerial cover, Gen. Eisenhower's headquarters announced triumphantly Saturday night.

An Allied communique officially pronounced the opening blow at Europe a success.

Hitting the precipitous southeastern coast, the Allied troops appeared to be aiming northward along the coast to isolate the major ferry terminals linking Sicily with the Italian mainland.

Planes Play Big Part In Clearing Way For Soldiers

By Eelman Morin
ALLIED HEADQUARTERS IN NORTH AFRICA — (P) — Allied heavy, medium and fighter bombers attacked roads and communications throughout invaded Sicily and operations were proceeding according to plan, it was announced officially Saturday night.

New Trial Denied Shirley Howard

District Judge Cecil C. Collings Saturday denied a new trial to Shirley Howard, sentenced to 45 years in the penitentiary for the slaying of J. A. Whittenton, South Elementary School custodian, last Fall.

More Blast Furnaces Are Out Of Operation

PITTSBURGH — (P) — The U. S. Steel Corporation took nine more blast furnaces out of production and slashed operations at its huge Clairton by-products works 50 per cent Saturday as insurgent coal strikers ignored a federal investigation of the third mine work stoppage in two months.

City's Budget Hearing Will Be Held Monday

A public hearing on the proposed budget for the City of Midland for the year will be held in City Hall at 4 p. m. Monday, the City Council.

War Bulletins

LONDON — (AP) — The Berlin radio said in a dispatch from Algieras, Spain, Saturday, that a convoy of 30 merchant ships left Gibraltar during the day in the direction of the Mediterranean.

WASHINGTON — (AP) — Navy planes diving on submarine in the South Atlantic bombed and strafed the undersea boat, then left it crippled on the surface until destroyers could move in to complete the kill the Navy reported Saturday.

NEW YORK — (AP) — The London radio reported Saturday that troops fighting on Sicily include "engineers who, working in pairs, carry special torpedoes 15 feet long which are pushed into the barbed wire defenses to blast a way for the infantry."

General Eisenhower Slept Peacefully On Night Before Crucial Attack By Allies

Bill Collins, Chamber of Commerce Manager, said the petition of Continental Air Lines, Inc., requesting the Civil Aeronautics Board to reopen its decision on an application of the company to extend its lines from Hobbs to San Antonio, via Midland, for rehearing, reargument and reconsideration has been granted.

Headlines Vs. Facts

A subcommittee of the Dies Committee on Un-American Activities made daily headlines out of testimony taken in Los Angeles and at the Poston relocation center where Japanese-Americans are being held. The general impression of newspaper readers must be that the War Relocation Authority is doing a pretty slovenly job.

A competent news service man who was present during much of that inquiry wrote the testimony heard by the committee — but his eyes and ears, outside the earnings, told him a different story.

"The gist of the testimony was that the evacuees at Poston were harboring large quantities of food, were loafing, and were preparing to join Japanese invasion forces when the 'expected' attack was launched against the United States.

"To the disinterested observer the testimony was so fantastic it was ludicrous," reports this correspondent.

Cellars beneath barracks supposed to conceal hordes of food proved to have been dug as refuges from 130-degree heat; they contained a few dirty mattresses and cots, but no food.

Evidence of food waste, introduced by the committee's expert investigator, consisted of a half-eaten cheese sandwich found at a warehouse where evacuee workers had eaten lunch.

"The committee heard that a large supply of dynamite had been stolen from a spot 'three miles from the Parker Dam within the last 90 days.' In the conversation at dinner, it developed that the dynamite had been stolen three years ago."

The committee's visit to the Poston center produced evidence disproving much of the testimony received at Los Angeles. But while the testimony was on the record, and received wide publicity, the later disproof did not seem to the committee to be worth passing along to the public.

This is the type of inquiry which originally got the Dies Committee into disrepute. Chairman Dies was not long on the relocation survey, and therefore remains in position to clear the record by making public the real facts as distinguished from irresponsible testimony received, in part at least, from disgruntled ex-employees of the WRA.

at Potatoes

The potato shortage is over. The War Food Administration is begging us to eat potatoes so that they won't spoil. It is very confusing, but it can be explained.

Uno-operative weather delayed the early crop from Florida, which should have come in late April just as the winter carryover stock became exhausted. Then the related Florida potatoes arrived simultaneously with those from other southern states—notably Alabama, Louisiana and the Carolinas—and from Tennessee and California. Now there is a glut of potatoes dug so young they will not keep long in storage.

The crop up to now is estimated at more than 36,000,000 bushels, contrasted with under 30,000,000 from the same states last year. New Jersey and Long Island are about to come along, and in the fall Maine, New York, Pennsylvania, Idaho and other northern states.

The prospects are for plenty of potatoes through next winter.

umber 41

There was talk, some time ago, about how mass-produced freighters, like the Liberty Ships turned out by Henry Kaiser, couldn't be expected to be very good.

Well, the Anne Hutchinson, which limped into port with the stern half blown completely away and the bow pierced by a second torpedo, was Number 41 off the Oregon Shipbuilding Corporation's ways, which when this was written had delivered in excess of 200 ships.

"All of you who worked on this ship can feel justly proud of her," teletyped Maritime Commission Chairman and. "She proved she could take it."

—Buy War Bonds And Savings Stamps—

figures That Lie

The Office of War Information reports that the per capita income in this country has risen from \$47.92 in July of 1940 to \$85.03 in April of 1943, and adds that price boosts already have taken up a part, though by no means the major part, of the increase in income.

The trouble with these figures are that they represent averages, which are fictitious and non-existent. There is no average man.

If the same persons were employed now as in July 1940 the average might have some evidentiary value. At the \$47.92 income then was reduced by the large number of unemployed and of persons who do not ordinarily work but who now are earning.

The rise in income per worker is much less than the figure shown—probably less, so far as the great mass of organized workers go, than the rise in the cost of living.

It's fine to be a person with a heart of gold if it doesn't stop you from having some of the stuff in your pockets.

They'll See the World's Warfronts

The five senators who will make a round-the-world trip to battlefronts to "investigate matters pertaining to the war effort" take a look at the route they'll follow. Left to right they are: Sen. Albert B. Chandler (Dem., Ky.), Sen. James M. Mead (Dem., N. Y.), Sen. Richard B. Russell (Dem., Ga.), Sen. Ralph O. Brewster (Rep., Me.), and Sen. Henry Cabot Lodge, Jr. (Rep., Mass.).

Interpreting The War News —

Allied Smash At Sicily Is Climax To Week Already Filled With Crisis For Ill-Omened Dictator Partners

By Kirk L. Simpson
Surging forward at long last from their hard won North African spearheads, American, Canadian and British troops are locked in crucial battle with their foes on Sicily—stabbing savagely at the soft underbelly of the Axis in Europe.

The Allied assault across the Central Mediterranean narrows climaxed a week already filled with crisis for the ill-omened German, Italian, Japanese war fellowship. North, south, east and west, around the world, the roaring guns, of freedom have been loosed in a mighty and ever-swelling chorus.

Afloat, ashore and in the air the story of that red-letter week of the war which began with a drowsy Sabbath Fourth of July for Americans at home is the same. The Axis is being brought to book at last for its crimes. The "end of the beginning" that Prime Minister Churchill noted last fall has become

"the beginning of the end" in President Roosevelt's phrase.

Anti-Axis Forces Moving Everywhere but in still monsoon-drenched Burma the anti-Axis legions are on the move, closing in for the kill. In Russia and in China, in the far South Pacific, and from the frigid, fog-bound Aleutians to the U-boat infested Atlantic defeat is stalking the foe, and tomorrow or tomorrow's tomorrow may see new Allied attack fronts open.

But even the thrill of Allied landings in Sicily to begin the business of building that first long dreamed of second front in Europe cannot alter the fact that the crux of the struggle still is in Russia. And there, after six days of transcendent battle around the Kursk bulge, Russian armies, bloodied but unbowed, seem holding, as they held before Moscow two years ago and at Stalingrad last year, against a frenzied, eleventh hour Nazi mass attack born of desperation.

It is still too soon to appraise the progress of the battle in Sicily its tactical aspects are as yet unrevealed; but its strategy and ultimate goal, its place in the rapidly unfolding Allied pattern of victory, are quite clear.

Russia Gets Aid And first among major objectives at this stage must stand the aid to valiant Russia that the developing southern second-front operation affords. Anglo-American troops are carving their way ashore in blood, sweat and valor on the big island off the toe of the Italian boot not only ultimately to free France and other Nazi conquered continental peoples, but to take weight now off Russia. Their success could bring final disaster upon Hitler in the east before snow flies again in Russia.

There are other things of crucial importance at stake now in Sicily. There on a greater scale than in Tunisia, the team-work of General Eisenhower's command, American, British and French, ground, sea and air, is being tested.

From results now in the making in Sicily will come the formula that one day will govern even greater Allied attacks upon the continent from the west across the narrower waters of the English Channel and the North Sea. Nor can Berlin rest easy that a third-front Allied action, aimed at the Nazi heart of the Axis itself, may not open within weeks if Sicily succumbs quickly and brings tottering Italy to the brink of collapse.

OPA Community Retail Ceiling Prices Released

The first district-wide order establishing community ceiling prices for retail food stores in the Midland area has been released by the price division of the OPA. Howard Gholson, district director, announced Saturday. Previous orders which have been written for the Lubbock 12-county area and for the city of El Paso are now revoked. This is the first order to bring about a uniform ceiling price on basic commodities in 71 counties of the district extending from the top of the Panhandle to Brewster County on the Mexican border, Gholson pointed out.

The order on community ceiling prices covers approximately 800 basic commodities and became effective July 5, the OPA director said. This does not mean that maximum ceiling prices have not been in effect for various commodities previously, but rather that the maximum prices to be paid by consumers living in this district have been set according to our standard of living, he said. Stores may charge any price lower than the maximum price but they will be in violation of the law if they charge over the set price, he advised.

A copy of this district-wide order has been sent to each retail merchant in the district. Price assistants working through the local War Price and Rationing Boards will contact their local merchants and assist in answering questions.

Roosevelt Describes Invasion Of Sicily As "Beginning Of The End"

By John M. Hightower

WASHINGTON —(P)— President Roosevelt told the world Saturday that the invasion of Sicily means the war against Italy and Germany has entered its final phase with the complete destruction of Nazism and Fascism as the objectives directly ahead.

"I think you can almost say," he declared, "that this action x x x is the beginning of the end."

The chief executive's comments on the historic military development suggested that German forces in France will be attacked both across the channel from Britain and northward from the Mediterranean area.

There was a strong hint, too, of an invasion of Italy although there were no definite commitments in the President's remarks.

Roosevelt's views on the military situation in Europe, as a result of the latest Allied progress, were given out in two ways. First, his press secretary, Stephen Early, released excerpts from an impromptu talk which the President made Friday night at a White House dinner honoring the French General Henri Honore Giraud.

Sends Message To Pope A little later, the White House issued the text of a message to Pope Pius XII in which the President assured the leader of the Roman Catholic Church "that throughout the period of operations the neutral status of Vatican City as well as of the papal do-

main throughout Italy will be respected." The message had opened with a reference to the landings in Sicily and a statement by the President that "our soldiers have come to rid Italy of Fascism and all its unhappy symbols, to drive out the Nazi oppressors who are infesting her soil."

The chief executive advised the pope that in the fighting to come churches and religious institutions would be spared the destructions of war to the extent "that it is within our power."

The recital of events at last night's dinner proved it to be one of the most dramatic state functions held at the executive residence in many a month. Roosevelt and his guests, French and American military, naval and civilian officials, sat down to dinner about 8:15 p. m., and the affair went routinely until about 9 o'clock. Then Roosevelt received word that landings actually had been made on Sicily.

Makes Dramatic Toast

The President was sitting with General Giraud on his right and General George C. Marshall, the American chief of staff, on his left. Across the table were Secretary of State Hull, Admiral William D. Leahy, the President's personal chief of staff; and Admiral Ernest J. King, commander-in-chief of the fleet. Possibly no item of news could have been more exciting to these men, and no subject more heavily on their minds at that

time than the Sicilian operation. But with his sense of the dramatic, Roosevelt kept his information to himself until the concluding stage of the dinner about 10 p. m. At that time he rose to propose a toast and thrilled his assembled guests with these words:

"I have just had word of the first attack against the soft underbelly of Europe."

At that point the President moved into a very brief description of the invasion of Sicily after pledging his hearers to keep secret all he told them until midnight.

This pledge was necessary because simultaneous release times had been fixed for Washington, London and North Africa.

Roosevelt hailed the operation as an outstanding example of carefully accomplished planning and of cooperation between American and British forces. Similar cooperation, he said, has been achieved with the French forces in North Africa.

"Last autumn, (when North Africa was invaded)" he went on, "the prime minister of England called it 'the end of the beginning.' I think you can almost say that this action tonight is the beginning of the end."

ing almost directly to Giraud, assuring him "France is one of the directions" in which Allied forces will strike to destroy Hitler's hold on Europe. Not only will the people in Southern France be liberated, he said, but also "the people in Northern France—Paris."

It was this statement which led to speculation that the President visions invasion thrusts into Europe from both the Mediterranean and the British Isles.

Bill Collins Attends C. Of C. Institute

Bill Collins, manager of the Chamber of Commerce, left Saturday night for Dallas to attend the 37th annual meeting of Texas Chamber of Commerce Managers, and the annual Southwestern Chamber of Commerce Institute. The two meetings are being held jointly this year. Collins, vice-president of the managers' association, will preside at the Monday luncheon.

More than 200 chamber of commerce managers from eight states are expected to attend the session.

Veteran Of Twenty-One Bombing Missions To Address Graduates

When this year's tenth class of "Hell from Heaven Men" graduates Thursday morning at the Midland Bombardier School, they'll hear a man who is a veteran of 21 bombing missions over Germany and occupied Europe.

Speaker at graduation exercises for the Midland Army Air Field's newest class of graduates at 9 a. m. Thursday will be R. L. Templeton, who has been working as an inspector on the final assembly lines at the Dallas division of North American Aviation, Inc., since his career as a Canadian Air Force bomber pilot was cut short by a crash which resulted in an attack of sugar diabetes.

The graduates will receive their diplomas from Col. John P. Kenny, commanding officer of the bombardier school. Bombardier wings will be awarded by the director of training, Lt. Col. John D. Ryan.

From the bombardier school here, the graduates, with 12 weeks of intensive training as Uncle Sam's Axis-blasters behind them, will be assigned either to operational training units, where they will join pilots and navigators and gunners for aerial combat team training, or to Air Forces navigation schools for additional schooling in finding their way around the skies. Some, selected for special abilities, will remain at bombardier schools as instructors for future classes of "Hell from Heaven Men."

Piloted British Bomber
Templeton, who will tell the graduating class of his experience as pilot of a Wellington bomber, was born in Wellington, Texas. Of the original group of 45 pilots who left Canada in March of 1942 to be attached as bomber pilots with the Royal Air Force, he is today the only one alive and free. He joined the Royal Canadian Air Force in the fall of 1940, after having been "washed out" of the U. S. Army Air Corps. A month after he received his wings at Brantford, Ontario, he participated in his first raid. The target was Rostock, Hitler's important Baltic port, and was the longest raid made up to that time by the RAF.

During the next five months he participated in raids on Brest, on the Ruhr valley, and finally drew a place in the 1,000 plane raid which laid Cologne flat.

All in all, he has participated in 16 raids over Germany proper and five over Occupied France and Holland. Rated as a sergeant-pilot, he was commander of a plane which had a crew of seven. Usually, he said, his plane operated as a lone wolf.

His youngest brother, Pat Neff Templeton, was killed, along with his crew, when his RAF bomber, bullet and flak ridden, crashed on the return leg of a bombing mission over Germany in September of 1942. His oldest brother, John W. Templeton, is now training as an aerial gunner with the AAF bomber command; his brother-in-law, Lyle D. Scott, is in the Marine Corps, and his two sisters are working in an aircraft factory.

Beauty at War

The bathing beauties of Miami Beach have let the sunny sands go to work in war plants. Here Eileen Knapp, a former Miss Florida, works as a greased monkey on airplanes.

Davison Pictured As Aggressor In Affray

BOISE, IDAHO —(AP)—Tobie S. Davison was pictured to the Idaho Board of Pardons Saturday as the aggressor in the altercation last Oct. 3 which ended with the fatal stabbing of John W. L. Goode, Dallas, Texas, drug salesman.

Ada County Prosecutor James W. Blaine presented evidence in opposition to that given Friday in support of Davison's plea for clemency, showing the board photographs of the crime scene, clothing worn by both principals, and the scissors which Davison testified he used to stab Goode.

Davison, former Burger, Texas, city councilman, and proprietor of a Boise motor court, is serving a term of 1 to 10 years in the state prison for voluntary manslaughter. Eight witnesses, including his wife and three attorneys, appeared before the board at a four-hour session Friday to ask for his release on the grounds that Goode had provoked the fight and that Davison was acting in self-defense.

Post-War Road Bill Passed By Congress

AUSTIN —(AP)—Texas had a good chance Saturday to obtain more than three million dollars to finance planning for a post-war highway development program.

The Texas Good Roads Association was informed that Congress passed a bill making this money available from previously authorized federal aid appropriations frozen by war conditions. Only the signature of President Roosevelt remains to make the measure law.

Under the terms of the bill, the Texas Highway Department will have available for post-war planning approximately \$2,238,000. These funds will be used to prepare detailed plans and specifications for about \$80,000,000 in work to be let during the first year after termination of hostilities.

TO CHECK MALARIA IN 7 DAYS

Liquid for Malarial Symptoms.

Items Gleaned AROUND TOWN

An Indiana Avenue chicken-raiser complained to police Saturday that between 40 and 50 six-weeks old chicks had been stolen from her residence. Officers are searching for the thief.

A Midland citizen Saturday telephoned a funeral home, asserted he intended to kill himself and gave instructions for his funeral.

Police were notified, went to the man's home, and found he had been drinking.

A Midland citizen, apparently a little provoked at having to answer so many questionnaires from government agencies, attached a note to his application to the ration board for renewal of his "A" gasoline book. In it he said that "due to circumstances beyond my control I am unable to present my birth certificate and marriage license, but if necessary I can produce my poll tax receipt."

This rush of applications and other business at the ration board office is proving upsetting to at least one employe. Mrs. Buster Charlton, clerk, has developed a bad habit of knocking over "coke" bottles and at last reports had maintained a record of upsetting at least one each day for the past three or four days. The other employes say she never upsets any but full bottles.

Claude O. Crane has moved to his new home in Urbandale, becoming the first citizen of the new community to have a home there. Crane is city secretary of Urbandale.

Invasion --

(Continued on Page 2)

cities, below Messina, are about 40 miles apart on the Eastern Sicilian coast. The Vichy report was quoted by the Fighting French Brazzaville station in a broadcast recorded by the U. S. foreign broadcast intelligence service.)

Axis Picture Confused
Axis broadcasts here indicated that both the Italian and German homelands were given only a vague and confused picture of the Allied operation.

Rome radio urged Italians: "Above all—no anxiety." But little news of the fighting was given except that "the enemy has attacked with considerable strength" and that fighting had become "very violent."

The Allied communique did not state how much resistance was met, but indicated that a considerable number of troops and much equipment already had been put ashore during the day.

One airman said that at one point the American troops who jumped ashore apparently did not encounter any enemy gunfire. He told of seeing the Americans deploy, ready for action. "After a brief pause they moved on ahead," he said.

The landing was effected "without serious loss," said Edward Gilling, representing the combined British press, in an Algiers dispatch.

Landings Cover 100 Miles
This triumphant news came at the end of a day of official silence which had shrouded the outcome of this most delicate part of an operation which opens the battle of Europe.

Other offensives may be in the offing. Under cover of the big guns of the British and American navies, which laid down a terrific bombardment, the shock troops of three nations swarmed ashore to successfully pave the way for thousands of their comrades crouched in landing barges out to sea.

Saturday night's communique said of the area of the assault: "The many beaches and landing places used for these first assaults extended over a distance of 100 miles."

Ships Shell Shores
This approximated about two-thirds of the Southern Sicilian coast, but there was no official word on all the precise areas involved. Axis broadcasts said that the southeastern and western coasts had been invaded.

Royal Indian, Dutch, Polish and Greek naval units aided the 90-mile strike across the Mediterranean, herding the invasion barges into shore and shattering the enemy's first line of defenses with a concentrated fire.

Hundreds of Allied planes patrolled over the beaches, and attacked "the few airdromes still being used by the enemy."

The Allied airmen met only negligible opposition, it was said officially.

This meant that Axis fighters and bombers — among the most feared weapons in an operation of this type — had been kept away effectively from the landing points where heavy equipment was being unloaded.

Resistance Not Reported
No mention was made in the official bulletin of the degree of resistance met by the invading Allies. Large Italian forces are known to be on the island, including supply service and headquarters troops.

The Germans, too, have been steadily building up their ranks on this key 10,000-square-mile island which, once conquered, can provide the base for punishing air blows on all Italian armament and rail centers. It also would serve as a springboard for another short amphibious push into Italy which is separated from the northeastern tip of Sicily by only several miles of water.

Indications Of New Field Shown In Western Lea

By Frank Gardner, Oil Editor
HOBBS, N. M.—Indications that a new area has been opened in Western Lea County two miles northeast of the Matamor pool headed developments this week in the Southeast New Mexico sector of the Permian Basin.

The prospective discovery is the C. T. McLaughlin of Midland and Cosden Petroleum Corporation of Big Spring No. 1 State, C NW NE section 7-17s-33e, which encountered gas and a hole full of oil in the Grayburg lime. The well topped and hit the gas at 4,170 feet, present depth. Gas blew tools up the hole, sticking them. The well started spraying oil while crew was jarring on tools and hole filled 1,000 feet with oil in the first two hours.

At the end of 36 hours oil had risen to within 750 feet of the top. It later completely filled the hole. Operators have shut in No. 1 State, with tools still in the hole, pending erection of storage tanks. Cheesman Testing

Maljamar Oil & Gas Company No. 2 Cheesman, C NW NW section 22-18s-32, discovery well three miles southeast of the Maljamar pool, is testing for water shut-off after plugging back to 4,775 feet. On last stage it swabbed 125 barrels of oil in 20 hours through 7-inch casing. The well originally went to 4,840 feet in sand, where it encountered salt water, and it first was plugged back to 4,755 feet. Lower pay zone was shot with 90 quarts of nitro from 4,771 to 4,790 feet, then a 180-quart shot was administered from 4,630 to 4,676 feet, in the main pay zone.

Neville G Penrose Inc., of Fort Worth (formerly Mascho Oil Company of Midland) No. 1 Phillips State, closely watched wildcat in the C SE SE section 3-16s-33e, 6 miles northwest of the Vacuum pool in Lea, is drilling below 3,600 feet in anhydrite and lime. With elevation of 4,220 feet it topped anhydrite at 1,480 feet, corrected measurement, and salt at 1,610 feet. It then logged top of Cowden anhydrite at 2,410 feet, base of salt at 2,550 feet, top of Yates sand at 2,760 feet, and first Yates vein frosted quartz grains at 2,770-80 feet. Geologists pronounce its structural position favorable.

Decrease Noted In Crude Stocks

WASHINGTON —(AP)—The Bureau of Mines reported Saturday stocks of domestic and foreign crude petroleum at the close of the week ended July 3 totaled 240,927,000 barrels, a net decrease of 1,730,000 barrels compared with the previous week. Stocks of domestic oil decreased 1,483,000 barrels for the week and foreign crude 247,000 barrels.

Daily average production for the week was 4,008,000 barrels or an increase of 58,000 barrels compared with the previous week's level. Runs to stills averaged 3,905,000 barrels daily, compared with 4,015,000 barrels for the preceding week.

Stocks of crude petroleum and change from previous week (in thousands of barrels):
Northern La., 5,359—increase 315
Gulf Coast La., 9,607—decrease 378
New Mexico, 7,045—decrease 10
Oklahoma, 37,045—decrease 289
East Texas, 20,984—decrease 1,346
West Texas, 25,607—increase 761
Gulf Coast Tex 30,534—decrease 590
Other Texas, 26,429—decrease 448.

Parachutist Plummet 700-Feet; Desires To Rejoin Paratroopers

ATLANTA —(AP)—Private Blaine D. Hall probably is the only parachutist ever to plummet 700 feet from an airplane under an unopened chute, hit the ground, and live.

Authenticated records just released by Army officials reveal that Hall, participating in a routine jump at Fort Benning, Ga., last October, left the plane at an altitude of 700 feet. When his main chute failed to open he pulled the emergency chute ripcord but that chute also failed to function and he hit the ground at a speed computed at 140 miles per hour.

When a crash ambulance arrived less than a minute later, Hall was still conscious. Physicians found he had numerous fractures, the most serious a broken back.

After several months in a cast, he recently was dismissed from the hospital and Major M. P. Tackoff, his commanding officer, said Hall is doing the same kind of work as any other man might do at the Fourth Service Command motor pool here.

Hall said he wants to rejoin the paratroopers if they'll let him, "just so I can turn in that old chute for a new one."

Seven Men Killed In Pueblo Plane Crash

PUEBLO, COLO. —(AP)—Seven Army men were killed Saturday when a twin-engine bomber from the Pueblo Air Base crashed and burned eight minutes after the takeoff on a routine flight.

The base public relations office said all the victims were badly burned. The plane crashed 25 miles east of Pueblo.

G-Girls Win Praise Of G-Man Edgar Hoover

WASHINGTON —(AP)—The G-Girls of the Federal Bureau of Investigation, packing not a gun but armed with latest weapons of criminology, were credited by G-Man J. Edgar Hoover Saturday with giving "inestimable aid" to the grim business of tracking down wartime criminals.

They have snared deserters, broken codes and caught murderers and now, said the Office of War Information, the "growing army of women" in the FBI totals more than half the entire personnel of 13,000.

U. S. Naval Officer Criticizes FCC Head

WASHINGTON —(AP)—The special House committee investigating the Federal Communications Commission made public Saturday criticism from a naval officer of FCC Chairman James L. Fly for post-war opposition to wire-tapping and to banning Japanese language broadcasts in Hawaii—two moves, the officer added, which might have prevented the Pearl Harbor disaster.

The German national debt was increasing at the rate of four billion marks a month in 1942.

Production Hike May Be Allowed By Commission

BY BRACK CURRY
Associated Press Staff

Authoritative Texas oil sources Saturday placed an absolute ceiling of 2,000,000 barrels on the state's crude oil production capacity as two top-ranking congressional oil spokesmen and Deputy Petroleum Administrator Ralph Davies flatly warned of an imminent petroleum shortage.

On the eve of hearings to determine how much oil Texas can produce without waste, Railroad Commission members estimated that production increases ranging from 250,000 to 350,000 barrels a day can be pyramided on the current schedule of 1,727,000 barrels daily.

Congress May Act
Rep. Wesley E. Disney (D-Okla.) in Washington asserted Congress at the end of its summer recess will enact legislation to increase oil prices if the executive branch of the government fails to act.

In his first public statement since returning from hearings in Texas and other oil producing states, Chairman L. Mendel Rivers (D-SC) of the House Naval Affairs Committee's petroleum investigating committee criticized sub-parity prices for oil.

"The nation would not be faced today with the paradox of a petroleum famine in the lands of plenty" if oil producing areas were "emancipated from bureaucratic bondage," declared Rivers.

The city of Ur, in Iraq, is the most ancient city in the world yet discovered.

Mme. Chiang Almost Becomes Prisoner Of Japanese Government

CHUNGKING —(AP)—Mrs. Chiang Kai-Shek said Saturday her plane strayed on one leg of her journey home from America a week ago and, but for a hunch of the pilot, "We would today have been the state guests of the imperial Japanese government."

The petite first lady of China told a press conference the aircraft accidentally picked up the radio beam of a Japanese air field in Burma while it was groping toward a base in India and almost landed on enemy-occupied territory.

But the pilot suddenly decided something was wrong and pulled away.

Mrs. Chiang said seven hours of flying at 24,000 feet had her in such a state she didn't care at the time where she landed.

Group Asks WMB Be Given Control Of Cattle, Meat

CHICAGO—(AP)—P. O. Wilson, chairman of the Live Stock and Meat Council, Saturday said the organization had sent a telegram to President Roosevelt urging that full control of meat and livestock be placed in the hands of the War Meat Board.

The Live Stock and Meat Council, which represents more than 100 of the leading livestock and meat associations in the country, said the War Meat Board does not have the authority it needs to function properly.

The War Meat Board, recently created, is composed of representatives from the War Food Administration, the Office of Price Administration, the Army Quartermaster Corps, livestock producing associations and meat packing companies.

No More Experimenting
In its telegram, the council asserted, "It is imperative that we have no further experimenting, such as live animal ceilings and allocations, but permit the intelligent management of our meat supply by the War Meat Board. This board was created . . . to get maximum meat production and to distribute it properly at prices in line with the national policy as it may be determined from time to time. x x x"

The council said that, "in the face of the largest total cattle supply this country has ever had, we are startled by the fact that the federally inspected slaughter last week, after taking care of the needs of the armed forces, provided less than one-half pound of beef for each person in this country to consume this week."

Signal troops atop mountains can observe Jap positions across the Salween gorge and advise Chinese of enemy movements. (Photo by Frank Cancellare, Acme cameraman, for the War Picture Pool.)

Two Persons Killed And 33 Injured As Bus Crashes Into Highway Bridge

CORSICANA, TEX.—(AP)—Two persons were killed and 33 injured Saturday in the crash of a heavily-laden, northbound Bowen passenger bus into the concrete pillars of the Richland Creek bridge 10 miles south of here.

The impact sheared off the entire right side of the bus and ripped out about half of its flooring.

Sheriff C. O. Curington said several of the passengers fell through the opening in the floor. The highway was strewn with shoes, purses, money, tickets, baggage checks and other articles.

J. H. Savage of Sherman, Texas, who was found beneath the bus which did not turn over—died in a hospital here shortly after the crash.

Investigation Made

The body of Charles Moore, 5, was recovered when a slough of water was dragged by state and county officers. The slough was dragged several times and Sheriff Curington said he was satisfied it contained no other bodies.

The dead child's father, C. L. Moore, 29, of Brownfield, Texas, and brothers, Herbert, 7, and Windell, 4, were injured seriously, as were nine others.

Curington, assisted by highway patrolmen and state liquor control operatives, began an investigation into causes of the accident, assisted by J. D. Welch of Fort Worth, superintendent of operations of the bus company, and Claim Agent R. L. Reeder. Company officials said cause of the mishap had not been determined.

Many Seriously Hurt

The sheriff said the bus was driven by W. A. Graham of Irving, Texas, who was discharged from a hospital after first aid treatment. In hospitals with serious injuries were:

Mrs. A. J. Wright, 45, Houston, right leg amputated, left leg crushed.

W. Mitchell, 45, Houston shipyard worker, fractured back, moved to Baylor Hospital, Dallas.

Raymond Carroll, Armona, Texas, bruises both arms, both feet, and chest, operation on right heel and left ankle.

C. B. Tiner, 16, Highlands, Texas, crushed face, right leg and left ankle.

Calvin Tiner, 16, Highlands, Texas, strained neck and injury to left eye.

Mrs. Travis Tate, 31, Seminole, Okla., severe bruises right knee and on body.

Bobbie Joe Tate, 7, son of Mrs. Travis Tate, head injury.

Evelyn Tate, daughter of Mrs. Travis Tate, fractured right leg. (A second son of Mrs. Tate, Marvin, 9, received minor injuries.)

Charlie Anderson, 19, Purdon, Texas, fractured right ankle.

Naval Forces Added 6,000 Vessels, 9,000 Planes in Half Year

WASHINGTON—(AP)—More than 6,000 naval craft and 9,000 airplanes were added to the naval forces in the first half of 1943, the Navy reported Saturday.

Landing craft accounted for substantially more than half of the added vessels. However, there was a greater tonnage of newly-completed combatant ships—battle-ships, aircraft carriers, cruisers, destroyers, destroyer escorts and submarines.

"For every three warships in the fleet on Jan. 1, 1943," the Navy announced, "the Navy completed one additional fighting ship during the first half of the year."

Dr. Frank Lou Patten Accidentally Killed

HOUSTON—(AP)—Dr. Frank Lou Patten, 36, assistant director of the reserves division of the Petroleum Administration for War accidentally shot himself to death at his home here Friday while cleaning a shotgun.

Police said Dr. Patten was alone when the accident happened. Mrs. Patten was in another room when she heard the shot but thought it was a backfire from an automobile and did not immediately find the body.

Dr. Patten had held his position with the PAW since last August. Before that he was chief supervisor of the Oil and Gas Division of the State Railroad Commission.

Axis Propaganda Machines Go Into Frenzied Action

LONDON—(AP)—Fierce fighting in Sicily, where American, British and Canadian troops smashed ashore early Saturday, was reported Saturday night by Axis broadcasts while the Nazi press prepared the people for the loss of all Italy's Mediterranean islands before the summer's end.

As expected, the long-awaited blow at Southern Europe sent the Axis propaganda machine into frenzied action. Nazi propagandists belittled the importance of the invasion and insisted that it came as no surprise to them.

Berlin Makes Boasts

At the same time, however, the Berlin radio clogged the air waves with broadcasts telling of elaborate preparations for Sicily's defense and declaring that Germany and Italy are facing the threat with confidence that the Allies will not realize their aims.

"The invasion forces were immediately engaged in heavy fighting which proved extraordinarily costly for them," said Radio Berlin in a broadcast quoting the International Bureau, German propaganda agency.

"Coastal batteries and Axis bombers sank a number of landing transport manned with troops and laden with material," the broadcast went on. "Thirty-three enemy aircraft so far have been brought down in aerial combats. Enemy parachutists who bailed out during the dawn were wiped out."

In additional broadcasts, recorded by The Associated Press, Berlin told the German people that "considerable forces" of the Allies landed in the southeastern part of Sicily with "the support of strong naval and air force formations."

The German high command was even less informative. Its communication said merely: "On the night of July 9, the enemy with the support of strong naval and air forces began an attack on Sicily. The enemy immediately encountered strong defenses on the ground and in the air. Fighting is still progressing."

Not until 1 p. m. (Rome time) were the Italian people told that the triangular island just off the toe of their mainland had been invaded by the Allies.

Then the Rome radio broadcast a brief communique saying only that "violent fighting" was in progress in Southeast Sicily after an Allied attack by air forces and parachute troops supported by naval units.

Board Announces Certificate List

The Midland County War Price and Rationing Board has issued the following certificates:

Passenger Automobiles: Barnsdall Oil Company, Walter H. Drummond.

Passenger Tires, Grade 1: C. B. Hays, W. C. Widner, George Friday, Curington, assisted by highway patrolmen and state liquor control operatives, began an investigation into causes of the accident, assisted by J. D. Welch of Fort Worth, superintendent of operations of the bus company, and Claim Agent R. L. Reeder. Company officials said cause of the mishap had not been determined.

Passenger Tires, Grade 3: Edwin Miller, Ray Gwyn, Peter B. Tyson, C. H. Higdon, J. H. Elder, Jr., W. L. Cook, Jack L. Jones, and Darrell G. Welch.

Passenger Tubes: Willis H. Rodgers, Peter B. Tyson, Harris G. Eastham, Jr., Stanolind Oil & Gas Co., Darrel O'Neal, Woody W. Brooklyn Swamps Pirates 23-6 After Ke Over Suspension Of Newsom

Brooklyn (AP)—After a strike of less than an hour, in protest of the indefinite suspension of Pitcher Bobo Newsom, the Dodgers fielded 10 minutes late against Pittsburgh Saturday and pounded hits to swamp the Pirates 23 to 6.

Dodgers scored 10 runs in the first inning off Johnny Podnd Harry Shuman, added two more in the third, then elated them 10 runs in a big fourth inning off Johnny Gee. Max Macon me with the last Dodger tally in the fifth.

Two Brooklyn players, Pitcher Curt Davis and Catcher Bobby were on the field at 2:30 p. m., the scheduled starting time game. At 2:40 the remaining players, with the exception of a personal, individual appeal by Manager Leo Durocher.

Newsom, star pitcher, was suspended by Durocher for "showing up" Bragan in the third inning of Friday's game against the Pirates when Bragan allowed a third strike to go through him, permitting a Pittsburgh run.

Vaughan Suspends Self

The players told Durocher they objected to the suspension at a clubhouse meeting at 2 p. m. Durocher refused to lift the suspension, then called for volunteers to go on the field. All agreed except Vaughan, who automatically suspended himself by putting on his street clothes. He and Newsom watched the game from seats close to the Brooklyn bullpen in right field.

The score: R H E
Pittsburgh 20 00 020—6 10 1
Brooklyn 1002 1010 00x—23 20 2

Podgajny, Shuman, Gee and Brandt, Lopez and Baker; Davis and Bragan.

Keeps Defeat In Both Ends Doubleheader

Chicago (AP)—The New York Yankees pounded out 24 hits to sweep a doubleheader from the White Sox, 9 to 2, and 8 to 0, in the effective pitching of Bonham and Charley Young.

The Yanks exploded for 14 runs in the seventh inning of the first game.

First Game R H E
Chicago 010 000 701—9 13 0

Red Cross Benefit Meet Scheduled At Midland Country Club In August

The Red Cross will sponsor the Midland Country Club's annual invitation golf tournament here August 6, 7, and 8, and arrangements now are being made for the tourney which is expected to attract the top-notch golfers of West Texas and New Mexico.

Plans were announced Saturday by Fred Hogan, president of the country club, and T. Paul Barron, Red Cross chairman.

Hogan estimated more than a hundred golfers will enter the tournament, which starts the first Friday in August each year.

Qualifying rounds will start Monday August 2 and medal play will be Friday, August 6.

Sixteen golfers will be in each flight of the 18-holes match play. Finalists will go 36-holes, Sunday, August 8.

A number of top-flight golfers at the Midland Army Air Field have indicated they will enter the tournament. The entrance fee is \$4.

Canteen Corps to Serve Barbecue

All proceeds will go to the Red Cross, Hogan explained.

The Red Cross Canteen Corps will serve a barbecue at the country club Friday night, Aug. 6 when the medalist will be announced.

At a meeting Friday in which Hogan met with Red Cross officials to offer the organization the proceeds of the 1943 tournament.

Barron appointed a Red Cross committee to work out plans. Members of the committee are W. B. Harkrider, Ily Pratt and Dick Prather.

Attending the meeting Friday were Barron, Hogan, Pratt, Prather, Bill Collins, Chester Sheppard, Gaither Nowell, James N. Allison, Mrs. P. H. Liberty and Mrs. J. Homer Epley.

Ordinance combined opportune hitting with Pfc. Thomas Farris' effective two-hit pitching Thursday night to wallop the 491st B. T. S. 6 to 2.

A home run with one on in the second inning by Sgt. Mel Rothstein, started the Ordinance team on the road to victory.

Tuesday night the playoff to determine the winner of the first half, in the enlisted men's softball league, will be a game between the 83rd Air Base and Ordinance. Lt. John F. Crooks will be the official umpire.

Cpl. Walter (Bud) Spink, an instructor with the Physical Training Department, has a real background of sports in his blood. He has played commercial basketball, football, and baseball, throughout the state of Michigan.

Before joining the Air Corps, he was a tool and die maker. His one and only hobby is his love for athletics.

Pfc. Harold (Speed) Ahlman, chief clerk of the Physical Training Dept., at M. A. A. P., hails from Mason City, Iowa. He attended college for one year, prior to enlisting in the Air Corps.

His ambition to become a pilot, will soon be a reality, as he is now anxiously awaiting his departure for aviation cadet training.

Manager Eddie Szymanski of the 83rd Air Base team takes no chances when he is attending a softball league meeting, by bringing (his mouth piece) Pfc. Everett Key, to do his talking.

Capt. Allen M. Springer, commanding officer of the 486th B. T. S., appeared at the recent softball league meeting to represent his team, as the captain enjoys being in on a good discussion of sport.

Manager William Clark of the Ordinance team was in such a good mood during the Ordinance and 491st B. T. S. game, that he refused to bench Sgt. Worthington Day, his crack first baseman, when he made two errors in succession.

The enlisted men's boxing program under the direction of Cpl. Mickey Schmarion will get under way Monday.

Net Tourney Planned

The officers' tennis tournament scheduled to start this coming week, has brought a large response, and the event should prove very successful.

Schedules for the second half of the enlisted men's softball league are being drawn up and will be released to the softball managers this coming week.

Corp. Allen Labatt, formerly of

the P. T. dept., now is a member of the Quartermaster Corps.

Pfc. Thomas Gogerty's departure was a loss to the 83rd Air Base team, as he was their official umpire.

Pfc. Neil Berry and Pvt. Richard Weidmayer are the outstanding softball umpires, assigned to games by the P. T. dept.

Tennis is fast becoming popular with the enlisted men, and the courts are in constant use.

Standouts on the tennis courts this last week are Pfc. Joseph Nodge and Pvt. Bernon Runnerstrand.

Outstanding softball player of the week was Sgt. Mel Rothstein, who knocked a home run with one man on base, and caught a fly ball in left field a second before it hit the ground, after running thirty yards.

LIKES BOWLING NEXT

NORFOLK, VA.—(AP)—Phil Rizuto, seaman first class at the Naval Training Station here, picks bowling next to baseball as a hobby.

LOS ANGELES (AP)—Gunder Haegg, indefatigable Swedish fireman, established a new American record for the two-mile run Saturday at 8 minutes 53.9 seconds, and also lowered the time for the official world record, held by Miklos Zsig of Hungary, made in Budapest in 1937, at 8 minutes, 56 seconds.

The long-striding Haegg's time was about six seconds slower than his own unofficial world mark, which he made in his native land last year, 8 minutes, 47.8 seconds.

Gil Dodds, stocky and bespectacled Boston divinity student who furnished the main competition for the 24-year-old Swede, led for the first three laps, but Haegg caught him at the wire starting the fourth lap and finished about 25 yards in the van.

Gunder the wonder seemed to like the clay track in the big Los Angeles Memorial Coliseum, and with cooler weather might have clipped two or three seconds from Saturday's performance. He went the first lap in 65 seconds, was 2:11.1 at the close of the second; 3:19.2 at the third; 4:27 at the fourth; 5:32.4 at the fifth; 6:40.5 at the sixth, and 7:49.9 at the seventh.

The American record for the two mile was set by Don Lash, of the University of Indiana at Princeton, N. J., in 1936. It was 8:58.3.

Texas Christian contributed four — Mike Brumbelow and Walter Roach, football coaches; Mack Clark, track and Grubbs.

Texas sent Jack Gray, basketball coach, and Ed Price, assistant freshman football coach.

Texas A. and M. gave J. W. (Dough) Rollins, Marty Karow and Charles Deware.

Arkansas contributed Fred Thompson, athletic director and football coach; George Cole, football and track mentor, and Glen Rose, basketball.

Baylor chipped in with Football Coach Frank Kimbrough and Basketball Coach Bill Henderson, while Athletic Director Ralph Wolf has been working in a defense plant.

Rice sent Emmett Brunson, business manager of athletics and track coach, and Byron (Buster) Brannon, basketball coach.

PHILADELPHIA (AP)—Although outbit 8 to 6, the Cincinnati Reds defeated Philadelphia 6 to 2 here Saturday, with Riddle going the route in the box. The home team had three errors marked up against it.

The score: R H E
Cincinnati 000 006 000—6 6 0
Philadelphia 000 000 002—2 8 3

Riddle and Mueller; Mathewson and Conger, Livingston.

SHARKEY SHOULD KNOW

BOSTON (AP)—Jack Sharkey, now a tavern owner here, thinks Joe Louis was a better fighter than Jack Dempsey. He was knocked out by both men.

Tougher Than Picking A Winner

English racing fans, refusing to be stopped by skimpy transportation facilities, travel to Newmarket on bicycles. They face tougher problem picking steel steeds from jumbled pile parked outside course, than picking winners among blooded ones.

National League Favored To Whip American Squad In All-Star Game

By Judson Bailey

PHILADELPHIA (AP)—The American League has been the home team.

National Favored

Having thrown off the yoke of the American League in the last world series, the senior circuit now appears to have the best chance of success in the all-star affair since the team piloted by Bill McKechnie smothered the American League 4 to 0 at St. Louis in 1940.

Billy Southworth will be managing the senior circuit squad and assuredly will start Mort Cooper, the St. Louis ace, on the mound.

In addition, at least three of the seven other Cardinals named to the National League squad probably will be in the opening lineup.

Joe McCarthy, bossing the American League representatives again, likely will choose Spurgeon (Spud) Chandler to lead off the pitching.

But the Yankees, who this year have only five men in the game, may have only one other starter — Joe Gordon.

Dickey Logical Choice

Bill Dickey of the Yankees also is the logical catcher, but he has been injured for more than a month and may not be available.

If his withdrawal is necessary it will remove from the cast the only remaining member of the squads selected for the original all-star game at Chicago in 1933.

Charley Keller of the Yankees and Frank McCormick of the Cincinnati Reds already have had to yield their places in the game because of injuries and have been replaced by Dick Wakefield, the Detroit Tigers' slugging rookie, and Elbert (Bibb) Fletcher of the Pittsburgh Pirates.

ATHLETICS RUN OVER DETROIT TIGERS 6-1

DETROIT (AP)—Behind the three-hit pitching of Luman Harris, the Philadelphia Athletics defeated Detroit 6 to 1 here Saturday, handing the Tigers their first defeat in five games.

The score: R H E
Philadelphia 100 200 00—6 9 1
Detroit 000 010 000—1 3 2

L. Harris and Wagner; Trucks, Henshaw, Gorsica and Richards.

CONFERENCE LOSES 20 COACHES TO SERVICES

By The Associated Press

The Southwest Conference has contributed more than 20 members of its athletic coaching staffs to the armed service.

Edward Grubbs, Texas Christian athletic director, is the latest to enroll, bringing the total for the seven schools to 22.

Southern Methodist has sent the most into the service, with Football Coach Matty Bell, Assistant Coach Trigg and Roland Goss, Basketball Coach Forrest Bacanis, Swimming Coach W. F. Foster and Baseball Coach Roswell Higginbotham. Higginbotham died after an operation while in the service.

T. C. U. Gives Four

Texas Christian contributed four — Mike Brumbelow and Walter Roach, football coaches; Mack Clark, track and Grubbs.

Texas sent Jack Gray, basketball coach, and Ed Price, assistant freshman football coach.

Texas A. and M. gave J. W. (Dough) Rollins, Marty Karow and Charles Deware.

Arkansas contributed Fred Thompson, athletic director and football coach; George Cole, football and track mentor, and Glen Rose, basketball.

Baylor chipped in with Football Coach Frank Kimbrough and Basketball Coach Bill Henderson, while Athletic Director Ralph Wolf has been working in a defense plant.

Rice sent Emmett Brunson, business manager of athletics and track coach, and Byron (Buster) Brannon, basketball coach.

Solid Left Landed On Sicily —

Allied Attacks In Mediterranean Hailed In London As First In Rain Of Blows Designed To Defeat Enemy

By Lewis Hawkins LONDON — (AP) — The Allies' solid smash into the underbelly of the Axis on Sicily was hailed in London Saturday as the first in a rain of invasion blows designed to batter the enemy to his knees.

Curtiss-Wright Is Charged With Gross Negligence

WASHINGTON — (AP) — In a report charging delivery of effective airplane engines to the Army and Navy, the Senate's Truman committee Saturday called the Curtiss-Wright Corporation "guilty of gross negligence" about inspection practices designed for the safety of airmen.

The company replied in a statement by its president, G. W. Vaughan, that it has never sold or delivered "to the government, or anyone else, products known to the company to have contained defective or sub-standard parts."

The committee said the defective engines came from the Lockland, Ohio, plant of the Wright Aeronautical Corporation, a wholly-owned subsidiary of Curtiss-Wright, and it said the responsibility for "not ascertaining and correcting" the situation rested with the parent firm.

WFA Suspends Quotas On Cotton Marketing

WASHINGTON — (AP) — The War Food Administration announced Saturday the suspension of cotton marketing quotas for the 1943 crop and indicated that no quotas would be in effect for the 1944 crop.

About 34 Housing Units Completed In Midland Area

DALLAS — Approximately 34 war housing units have been completed in the Midland locality, Preston L. Wright, regional representative of the National Housing Agency, announced Saturday.

Upon completion of all housing programmed a total of 78 units will have been provided to house workers in the war industries of Midland. These will accommodate approximately 312 persons, including workers' families.

Because of acute war-time shortages of critical materials the National Housing Agency can approve new housing only to accommodate the essential immigration of civilian war workers as determined by the War Manpower Commission, and then only to the extent that these workers cannot be housed in existing dwellings, Mr. Wright explained.

Bill Collyns, manager of the Midland Chamber of Commerce, already has listed quarters for many essential war workers in existing houses which were registered by property owners while other additional workers have located such quarters independently.

Must Share Homes Because we cannot build enough new housing in war-time to meet all of the needs of incoming war workers it is imperative that the citizens of Midland continue to share their homes with the men and women moving here to take up essential civilian jobs, Collyns said.

The National Housing Agency has approved 78 privately financed new family dwellings for this area. As of today 34 of these units have been completed and occupied; none are under construction but applications for priorities have been submitted for approximately 24 of the remaining 44 units.

Flying Fortress Crew Prays For Flak In Undisturbed Bombing Mission Over France

A U. S. BOMBER STATION IN ENGLAND — (AP) — The Flying Fortress boys from this station prayed paradoxically "for just one little piece of flak" over France Saturday.

There were no German fighters in sight to speak of. The continent was clouded over so they couldn't see to drop bombs and unless some flak was shot at them their break-fast-time foray would not count as a combat mission.

Then just as they swung onto the target—a Nazi fighter airfield at Caen 15 miles in from the coast—a miraculous hole opened in the overcast.

Everything Peaceful "The clouds were like a blanket of snow and that hole looked like a big footprint," said Lt. John H. Perkins Jr., Chicago pilot of the Fortress "Windy City Challenger."

"The airfield "popped out from under that cloud velvet," said Capt. Clarence R. Webb Jr., San Angelo, Tex., navigator on the Fortress "We The People," which led the raid.

"For a while there when it looked like we were not going to be able to drop our bombs and there was no opposition the boys were
