

NAZI TROOPS EVACUATING KIEV

Fifth Army Sweeps Across Volturno

Troops Advance All Along Line In Big Assault

General Clark Tells Men To 'Hit 'Em Hard' As Drive Is Started

ALLIED HEADQUARTERS, ALGIERS — (AP) — British and American troops of Lt. Gen. Mark W. Clark's Fifth Army cracked the strong German lines along the Volturno River in a fierce night attack early Wednesday and have established several armor-reinforced bridgeheads across that most formidable obstacle in the path to Rome. Allied headquarters announced Thursday.

Gen. Clark struck at a time to take advantage of favorable weather when dry ground allowed deployment of his forces and after a terrific artillery barrage had softened the enemy's defense positions on the north bank.

Fierce Fighting Rages

Engineers bridged the Volturno to get American tanks across the stream, which for days had been virtually impassable because of high water.

But the Germans had rushed fresh contingents south from the Rome area in recent days to meet an expected attack, and as the British and Americans clawed their way up the steep banks fierce fighting raged up and down the north side of the stream.

Seven German divisions were in line across Italy to oppose the Allied advance.

This advance was all along the line.

Guardia Captured.

After a heavy fight troops northwest of Benevento captured the town of Guardia, four miles north of the Calore River and only nine miles east of the Volturno. This advance threatened the left flank of the Germans fighting behind the Volturno defenses.

The British and Canadians in the center of the line drove forward five miles. They pursued the enemy and occupied Gidone, less than a mile southeast of Campobasso, and made other gains to swing the east end of their line forward.

The attack came as one of the (Continued on Page 7)

Allies Causing Slow Death Of Nazi Air Force

By HAL BOYLE

CAPODICHIHO AIRFIELD, ITALY — (AP) — The German air force is slowly dying month by month, week by week, day by day, and when you inspect a once great Axis air base such as Capodichino you readily see how its nests are being blasted from it one after another by the new causing pounding of Allied bombers and fighters.

The grass grows high on Capodichino field. It has met the same fate that befell El Aouma and Sid Ahmed fields at Tunis and Bizerte in Tunisia, and Comiso and Castelvetrano in Sicily. It has undergone the same systematic pattern of destruction, a pattern German air power never has been able to break.

I drove around the great field which lies just outside Naples, and counted more than 100 wrecks of German and Italian airplanes scattered around the green acres. They had been shattered by "frag" bombs dropped by Flying Fortresses and other bombers, or riddled by incendiary bullets from low-flying fighter-bombers.

The planes were of all types. Ruined German fighters stood by ruined German bombers. Several great six-motored transports had been caught on the field and burned. Of one there was little left, but its skeleton framework looked like the bones of a prehistoric monster and the wind blew through it with a melancholy moan.

WEATHER
Slightly cooler.

Jap's Rabaul Air Defenses Shattered

Beauty & Bull

Object of this picture is to point out that this 34-inch tall, 4-year-old, 260-pound animal is the smallest full-grown bull in the world, but with Marcella Gould standing there what can we say?

2 New Tests For Mabee Area As No. 1 Completes

By JAMES C. WATSON, Oil Editor

Applications to drill two new tests in the Mabee area of Southeast Andrews County have been filed by the Texas Company with the Railroad Commission.

No. 1 Mabee, discovery well for San Andres Permian production, is being put on the pump as a producer after swabbing in excess of 300 barrels of pipeline oil per day.

Going To Southwest

Texas No. 2 Mabee is building derrick one and one-half miles southwest of the wildcat which developed into an oil well. Drilling is scheduled to start next week.

Location Is 1,380 feet from the north and east lines of section 44, block 40, G&MMB&A survey, T-2-N.

Another Try Northeast

Texas No. 3 Mabee will be 1,080 feet from the north and west lines of section 32, block 40, G&MMB&A survey, T-2-N, and approximately one and one-half miles northeast of the new producer.

A total of 149 barrels of clean oil was swabbed Wednesday in 1 1/2 hours from No. 1 Mabee. During the last two hours of the swabbing the well produced at the rate of 14.8 barrels per hour. Preparations to install pumping equipment are now underway.

Crane County Explorations

A new wildcat venture in Crane County 14 miles west of Crane is John I. Moore, Operator, No. 1 T. C. Barnsley estate which is to drill to 4,500 feet, starting at once, to explore for the Tubb pay. Richmond Drilling Co. has the contract.

Location of the operation is 660 feet from the north and east lines of section 42, block 32, psi survey, and about two miles southeast of the nearest production in the Tubbs.

The Water Associated Oil Company No. 1-J University, 440 feet from the east and 2,220 feet from south lines of the east half of the west half of section 28, block 30, University survey is a new project in the McElroy area of East Crane County. Drilling to 3,200 feet with rotary is to start immediately.

Mid-Continent To Deepen

Mid-Continent Petroleum Corporation No. 1-B University, wildcat two and one-half miles southeast of the Fullerton field in Northwest Andrews County is reported having flowed oil at the rate of 6 1/2 barrels per hour after the second-stage shot of 6,000 gallons of acid. The initial treatment was 3,000 gallons.

The crew is preparing to drill deeper from the present total depth of 7,105 feet.

Lane Will Cut A Core

Texas Pacific Coal & Oil Company No. 5-A Lane, Upton County deep venture has drilled to 8,295 feet in dolomite and is preparing to go in to cut a core.

Magnolia Petroleum Company and (Continued on Page 7)

Two Destroyers Lost Off Italy

WASHINGTON — (AP) — Loss of two American destroyers in the Mediterranean was reported Thursday by the Navy in a communique which also told of an unsuccessful Japanese bombing raid on Attu Island in the Aleutians.

The destroyers, the Buck and Bristol, both sank as a result of underwater explosions, the Navy said.

The Buck, a 1,500-ton ship, went down off Salerno October 9 and the Bristol, a 1,700-ton vessel, was sunk Wednesday.

Japs Raid Attu

The Navy said casualty details had not been received and that next of kin of all casualties will be notified immediately upon receipt of information.

The bombing raid on Attu, taken from the Japanese late in May, was the first carried out since American occupation of that little island on the tip of the Aleutians chain.

Ten Japanese bombers flew high over Massacre Bay at a great height, the Navy reported. Their bombs were dropped without causing damage.

American fighting pilots flew up to intercept the bombers and they were driven off. No planes were shot down in the engagement.

The Japanese bombers presumably came from the enemy base on Paramushiru at the northern end of the Kurile Island chain, of which Japan is a part. It was assumed that the unsuccessful bombing assault was an attempt to halt American attacks on the Paramushiru base, largest Japanese installation in the North Pacific, which has been hit on various occasions by American bombers flying over the 630 nautical mile route from Attu.

Loss of the two destroyers, each of which carried approximately 250 officers and men, brought to 122 the number of naval craft lost since the war started.

The Buck was placed in service in May, 1940, and the Bristol in October, 1941.

Nazis Send More Men To Balkans

CAIRO — (AP) — Germans have established new general headquarters for the Balkans in Belgrade with Field Marshal Baron Maximilian Von Weichs as supreme commander and a large staff of generals and other high officers under him. Yugoslavs said Thursday.

The old Yugoslav army barracks, not destroyed by the German bombardments of Belgrade in 1941, are now packed with German troops and two national parks, Topchider and Kocutnjak, near the capital have been turned into military camps.

German troops are reported flowing through Belgrade uninterruptedly to reinforce the Nazi forces in Bulgaria and Greece.

Yugoslav government spokesmen here said the Germans have turned the Yugoslavs out of the finest residential districts in Belgrade, including the Frankopanova and Milocha streets, to make room for the influx of staff officers.

IRVIN COBB IMPROVES

SANTA MONICA, CALIF. — (AP) — Irvin S. Cobb, author-humorist, is reported in good condition following two minor operations. Dr. A. W. Kosky said Cobb will be in the hospital about 10 days.

War Bullefin

LONDON — (AP) — U. S. heavy bombers, supported by Thunderbolts, attacked targets in Central Germany Thursday.

LONDON — (AP) — British submarines and torpedo planes attacked a German convoy off Northern Norway Wednesday but failed to inflict any damage, the Berlin radio said Thursday.

LONDON — (AP) — A German news agency broadcast from Berlin said British troops landed at the mouth of the Volturno River Thursday night in a flanking attack on German positions in Italy.

MacArthur Hurls Every Available Plane In Assault

Allies Destroy 177 Planes And Sink 119 Vessels In Big Smash

BY C. YATES MCDANIEL

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC — (AP) — General MacArthur threw every bomber and fighter plane he could risk in a gigantic smash Tuesday at Japan's key sea-air bastion of Rabaul on New Britain, and the resultant devastation prompted the conservative general to say, "I think we have broken its back."

The raid by the biggest air armada ever amassed in this area marks the turning point in the war in the South Pacific, declared the air force commander, Lt. Gen. George C. Kenney.

The far-reaching results—they may speed the unwinning of the whole perimeter of defenses anchored to Rabaul—were:

1. Destruction of severe damage of 177 enemy planes, an estimated 60 per cent of the air force on Rabaul's airbases.

2. Sinking of at least 17,600 tons of ships, including three destroyers and three merchant ships, as well as 43 small seagoing cargo vessels and 70 harbor craft.

3. Severe damaging of a submarine, its 5,000-ton tender, a 6,800-ton destroyer and a 7,000-ton cargo ship.

4. Wrecking and firing of wharves and waterfront installations at Simpson Harbor, one of the finest in the world.

5. Allies Lose Five Planes

These accomplishments cost the (Continued on Page 7)

Rotarians Honor Mustang Leaders

Winners of the Mustang Club's contest were honored Thursday by Midland Rotarians at their meeting in Hotel Schbarbauer.

Rotarians sponsor the Mustang Club for boys of the community and woolen sweaters were presented to the ten winners. They are:

Harold Tisdale, F. B. Hale, Clifford Barker, Marvin Hedges, Jessie Green, Mitchell Green, Alfred Reeves, George Woody, Marvin Hoekendorf and Hugh Miller.

U. A. Hyde, director of the club, was praised by George Abell, who was in charge of the program, for his work with the boys of Midland. The sweaters were awarded by Hyde who told of the boys' accomplishments in the contest which lasted six months. Hyde also outlined the Mustang program.

Gossett Is Honored

A message from Harold Kendrick, founder of the club was read by Roy McKee, Rotary Club president, praising Rotarians for carrying on the work.

The Club honored Lt. Harry Gossett of Camp Hood, an honorary member of the organization since he entered the armed forces. Lieutenant Gossett's career was related by T. Paul Barton, and the officer, a guest of the luncheon, thanked the club and joined in praise for the Mustang program.

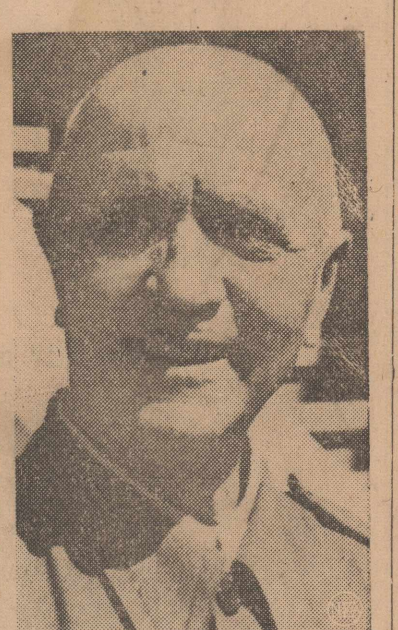

Lawrence Evans was introduced as a new member of the club.

New Trade Outlet For Cotton Growers Found

GREENVILLE, MISS. — (AP) — Cotton plantations in this area have a new trade outlet.

The Washington County Chamber of Commerce reports the sale of 25,000 souvenir cotton bolts to soldiers at the Greenville Air Field during the past year. Now they are seeking to purchase 20,000 additional bolts to fill the demand of Army men wanting to send home "a touch of the South."

Declares War

Marshal Pietro Badoglio's declaration of war on Germany and announcement of the formation of a new Italian government has been greeted with an attitude of waiting by other governments.

Exchange Ships Steaming Toward Portuguese Port

WASHINGTON — (AP) — A Japanese liner steamed toward Portuguese India Tuesday carrying 1,236 Americans released from captivity, most of them missionaries and employees of corporations whose holdings were seized when the Pacific War broke out.

Also aboard the Teia Maru are 21 Canadian and 40 nationals of Latin American republics.

They are to be exchanged at Mormugao for an equal number of Japanese now enroute there on the Swedish exchange liner Gripsholm. Travel Well Lighted.

The vessels travel with lights ablaze, deliberately seeking to be conspicuous so that their diplomatic status, guaranteed by the nations concerned, can be observed by commerce raiders.

Last year the Gripsholm brought 1,500 Americans back from the Orient in the first prisoner exchange, most of them connected with the diplomatic service.

It has been estimated that there still are more than 5,000 U. S. citizens held in Asia, not counting natives of the Philippines who fought with MacArthur's legions. Here in the U. S. there are 3,400 Japanese interned as dangerous aliens and 100,000 more of Japanese ancestry are in relocation centers.

The State Department announced the names of the American aboard the Teia Maru Wednesday night. None was from Midland.

Allies Reported To Have Taken Cyclades

LONDON — (AP) — Official Allied quarters withheld comment Thursday on an Ankara radio report that Allied forces had occupied some of the Cyclades islands off the east coast of Greece.

The radio report, which was lacking in details, followed unconfirmed press dispatches from Istanbul last week saying that British forces had landed at unspecified points in the islands.

Finland To Increase War Debt Payments

WASHINGTON — (AP) — Finland agreed Thursday to increase its war debt payments to this country by more than \$42,000 a year for 20 years in order to overtake a two-year lapse caused by the Russo-Finnish war.

An agreement announced jointly by Finnish Minister Mjalmar J. Procopo and Undersecretary of the Treasury Daniel W. Bell said the payments would be made semi-annually, June 15 and December 15.

Finland, only country still making war debt payments, still owes the United States about \$9,000,000.

New Orleans Chosen For AFL Convention

BOSTON — (AP) — The American Federation of Labor Thursday chose New Orleans for its convention in November, 1944.

Russians Battle Furiously To Take City Before Germans Can Complete Demolitions; Fall Of Melitopol Near

Soviets On Threshold Of Four Large Cities And Appear On Way To Winning Some Of Greatest Victories In Sweeping Advances

MOSCOW — (AP) — The Red Army, now inside on the threshold of four of Russia's large cities—Kiev, Gomel, Zaporozhe and Melitopol—appeared on the way Thursday to winning some of its greatest victories.

Surging across the mud flats of the lower Dnieper River, the Soviets fought their way into Melitopol, a city of 76,000 inhabitants, after breaking the German hold on the Molochna River line.

On the Middle Dnieper River, Red Army forces within two miles of the Ukrainian capitol of Kiev hastened their efforts to take the city before the Nazis could complete demolitions.

Gomel Is Battleground

Capture of Kiev would be a prize of the first order for the Red Army. At the time of its capture by the Germans in September, 1941, its population numbered 850,000.

Gomel, at the northern end of the active front, became a battleground as Soviet forces which crossed the Sozh River came to that White Russian center.

The Red Army of the south appeared battling for a substantial prize—the bottling up in the Crimea of the German 17th Army. Front line dispatches said no withdrawal appeared underway. They added that the Germans' main railway communication with the Crimea was already cut at Melitopol, leaving the Germans only the single-track line recently completed farther west to Kherson, to effect their evacuation.

Fresh Troops Rushed

LONDON — (AP) — Fresh Divisions of German troops were being rushed to Kiev by the German high command in an effort to fend off the Russian drive against the flaming city long enough to evacuate Nazi troops and equipment, a Reuters dispatch said.

Midland Paratrooper Is Injured In Italy

Pvt. George O. Carr, 22, a paratrooper, son of Mrs. Mary K. Carr of Midland, was wounded in Italy September 16, but is recovering in an Army hospital in North Africa.

A War Department telegram informed Mrs. Carr of her son's injury and a letter from Carr Wednesday afternoon informed his mother he was able to walk again. He was wounded slightly when a bullet pierced his leg.

Carr was hurt in Sicily last August when he jumped from an Army truck. He suffered a back injury but recovered quickly.

The paratrooper attended Midland schools and was employed by the Shell Oil Company here when he enlisted in 1940. He trained at Fort Bragg, N. C., before going overseas last April.

Nazis Say Portugal Breached Neutrality

LONDON — (AP) — In the strongest German comment to date on the Portuguese cession of Azores anti-submarine bases to Great Britain, Adolf Hitler's newspaper Voelkischer Beobachter declared Thursday:

"The theft of the Azores is the surrender of Portugal's neutrality and renunciation of its sovereignty in an essential part of its territory. The Azores were Portugal's under the extortionist pressure of Churchill and Roosevelt, the newspaper added this "does not change the undeniable fact that Portugal's attitude bears every mark of a flagrant breach of neutrality." The newspaper was quoted in a Berlin broadcast.

General MacArthur Declares Heavy Raid On Rabaul Has Broken Back Of Jap Air Defenses

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC — (AP) — Gen. Douglas MacArthur strode Sunday into the air force battle operation room in New Guinea and in a calm voice made a disclosure which had the explosive qualities of a bomb.

"I have concentrated all available planes to smash Rabaul," he told hastily assembled war correspondents.

"If God stays with me, I may get some remarkable results." The huge force of planes struck Tuesday, destroying or shattering 177 enemy planes, sinking three destroyers and three merchantmen and stranding the New Britain stronghold of the Japs with ruins Thursday General MacArthur walked back into the operation room and issued this statement:

"It was a crushing and effectively defeat for the enemy at a most vital point. Once more, surprise was predominant. Rabaul has been the focus and very hub of the enemy main advanced effort. I think we have broken its back. Almighty God blessed our arms."

Work Stoppage In 17 Alabama Mines Follows Release

BIRMINGHAM, ALA. — (AP) — At least 17 Alabama coal mines, employing more than 6,500 men and including several of the state's largest industrial fuel producers were shut down Thursday in a work stoppage which both union and operator spokesmen said resulted from government release of the mines to their owners.

An early survey Thursday indicated that 12 mines, including the state's largest, joined those idle of the morning shift. Five were shut down Wednesday. Approximately 25,000 men are employed in all the state's mines.

The closed mines produce approximately 50 per cent of the coal used in the steel and iron plants of the Birmingham district. Industrial fuel supplies are low.

Shuts closed Thursday included the Edgewater mine of Tennessee Coal, Iron and Railroad Co., with 1,650 employees; Sayreton No. 1 and 2, Virginia and Sayre of Republic Steel Corp., with 1,600; Lewisburg and Flat Top of Sloss-Sheffield Steel & Iron Co., with 1,100, and four mines of the Alabama By-Products Corp., with 1,750.

All these workings produce coal used in the coke ovens to produce industrial fuel. In addition, several commercial mines were down.

Coal Shortage

A coal shortage scare has appeared in the East. In New York metropolitan area, building owners who converted from oil at the request of Petroleum Administrator Ickes now complain that Coal Administrator Ickes cannot provide them with fuel to heat their buildings. There is something very mysterious about this situation.

The WPB estimated 1943 bituminous coal needs as 439 million long tons from January 1 through December 31, for industrial use, and 131 million long tons from April 1 through March 30 for heating purposes. Allowing 30 million tons for export, this would require 600 million tons of bituminous this year.

We lost 25 million tons because of John Lewis's work stoppages. In spite of that, through September 11 we were more than seven million tons ahead of 1942, and at present we are bringing coal out of the ground at the record rate of 12 million tons a week.

Experts predict that if there are no further strikes we shall produce the 600 million tons that WPB says will be needed.

Numerous suggested explanations for the alleged shortage have been bandied about. Italy has to be supplied. Well, eight minutes a day—or one extra work day each of five to six weeks in a year—will supply all that Italy has been getting from Germany to meet her minimum needs.

Canada needs coal, say the rumors. If so, she should have it. England needs coal, because of work stoppages there. Again, in that case she should have it if we can get it there.

But have in mind the 30 million ton export allowance in the WPB estimate—12 millions for Italy and 18 millions more, before a single ton has to come out of the allowance for use in this country.

It is suggested that the shortage may be in anthracite. If that is the case, let 'em use bituminous. It may be more smoky, but ask any tenant in a cold country if he would prefer to freeze this winter or be heated by bituminous coal.

Perhaps transportation is at fault—or is it? The railroads say No—that they are moving the coal.

After reading this perhaps you are confused. So are we. So is the coal industry. So, apparently, is Washington.

Beware Of The Realists

Many self-termed "realists" declare that so far as the millions of men and women who work in large corporate enterprises are concerned, it makes little difference whether government or private management runs industry and signs the pay checks. For them, it is claimed, opportunity and free enterprises are merely empty words. Government domination is encouraged on the grounds that it is the easiest solution to the complex problems of an industrial society. Such "realists," and they are found in industry as well as in the ranks of labor and government, are sowing the seeds of destruction of our republic.

The problem of maintaining individual security and opportunity cannot be solved by the spineless expediency of government ownership. Government ownership of basic industries, of mines, other natural resources, power and transportation, would open the way to termination of the liberty of every citizen. No matter how large an industry may be, as long as it is privately owned and operated, it represents economic freedom to those who work in it. That is, they are economic free of any form of political coercion. Their jobs do not depend upon how they vote.

Destruction of private industry means destruction of representative government. This is a fundamental truth which every soldier and every war worker must keep clearly in mind during these troublesome times.

—Buy War Bonds And Savings Stamps—

Concentrating On Quality

The War Department has built up its officer personnel now to the point where it is becoming very choosy about candidates for commissions. More than 206,000 men have been graduated to their gold bars and have started working their ways upward.

This means that fewer enlisted men are being sent to train for commissions. But the way to promotion is not closed. Good men in the ranks still can apply for officerhood with reasonable hope of success. The only change is that their personalities and characters, their educations and experience, their demonstrated devotion to duty and moral, intellectual and physical courage, will be judged much more strictly than heretofore.

—Buy War Bonds And Savings Stamps—

Curran Is I-A

A Selective Service appeal board has decided that National Maritime Union President Joseph Curran, who considered himself superior to draft regulations and shipped as a seaman for what the union publication called a vacation, shall be in I-A.

It could be embarrassing for Curran, who left the country without even asking for the permission that others must have, should he be called for induction while his ship is thousands of miles away.

—Buy War Bonds And Savings Stamps—

The amount of good you'll get in the future from the money you make depends on the amount you invest in War Bonds now.

"Vell, Voi's Der Goot News From Der Front?"

Blockbuster and Baby Bomb

Largest and smallest types of demolition bombs carried by our Flying Fortresses make an odd pair when set side by side. The 300-pound (two-ton) blockbuster is carried under Fortress wings, while several of the 100-pounders can be carried in the plane's regular bomb racks.

Livestock

FORT WORTH — (AP) — Cattle 3,000; calves 2,600; most classes of cattle slow and weak; calves weak to 25 lower; common and medium slaughter steers and yearlings 9.00-12.50; cull yearlings and common, butcher heifers 6.50-9.00; beef cows 7.85-9.50; few choice cows above 10.00; canner and cutter cows 4.00-7.50; bulls 7.00-9.50; fat calves 8.00-11.50; cull calves 7.00-8.00.

During the last half century, the average height of students entering American universities has increased two inches.

NOW SHE SHOPS "CASH AND CARRY"

Without Painful Backache
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.
When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.
Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Nobody At Altus Army Base But Us Smiths

ALTUS, OKLA. — (AP) — They do things alphabetically at the Altus Army Flying School, assigning to each instructor five cadets whose names begin with the same letter as his own.

When instructor Jimmy H. Smith stepped out one morning recently to call the roll of his charges, it went like this—Lynwood S. Smith, Donald J. Smith, Andrew L. Smith, Lloyd Smith, Howard G. Smith.

Impressed, Lieutenant Smith called over to Lt. Anne M. Smith, the field's first WAC arrival, and the whole lot of them had their picture taken with the group's plane, "The Village Smithy."

The photographer was Tech. Sgt. James R. Smith.

Price Ceilings Date Clear Back To 1875

UNION, S. C. — (AP) — Ceiling prices are not new to Union County, not by 133 years.

Courthouse records show that in 1785 the county justices slapped a top on prices of hard liquors, meals at inns and provender for horses.

ITALIAN-SWISS FRONTIER REPORTEDLY RE-OPENED

LONDON — (AP) — The German-controlled Paris Radio said Thursday that the Italian-Swiss frontier, which was closed following Benito Mussolini's fall and the subsequent Italian capitulation, has now been re-opened.

NEPHEW OF MIDLAND MAN KILLED IN ACTION

Ensign Ivan Johnson, Navy flier and nephew of L. M. Fielding of Midland, was killed in action somewhere in the Atlantic war area Oct. 9, the officer's parents, Mr. and Mrs. I. O. Johnson of Tulsa, Okla., have been informed.

Kentucky Gets Credit From Slip Of Tongue

STAUNTON, VA. — (AP) — Major A. Martin, master of ceremonies at the dedication of the new Woodrow Wilson Army General Hospital, made a "slip of the tongue" when he introduced Virginia's Governor Colgate W. Darden, Jr., as "Kentucky's" first citizen.

Governor Darden isn't so sure it was a "slip," though. Neither is Martin.

"After all, perhaps the gentleman isn't mistaken," Darden said, "because Kentucky was carved out of our great commonwealth."

Martin chuckled. "That wasn't a mistake at all. Some friends of mine from Kentucky were on the platform, and they wanted me to somehow, anyhow, say something about Kentucky, so at the first opportunity, I just said 'Kentucky!'"

Petty Officer Wins Right To Wear Monocle

LONDON — (AP) — Because a Royal Navy 1st-class commissioned officer insisted on wearing his monocle aboard ship the Admiralty had to write a new section to the navy's general fleet orders.

The sailor who boldly declared that he had worn a monocle for four years before the war and did not intend to relinquish it is Chief Petty Officer Phillip Morter. His commanding officer found nothing in the books covering the situation and finally sought an official ruling. The admiralty held that a rating may choose between spectacles and a monocle so long as it does not interfere with his efficient discharge of duties.

From where I sit . . .

by Joe Marsh

Every time Lem Martin hears about another Jap battleship being sunk—or another Nazi city being blasted—Lem grits his teeth, and digs into his pocket for more War Bond money.

"With our soldiers over there doin' better 'n' better at their scorin'," Lem says grimly, "we can do the same at home."

It's easy to think that if the war is going well, we can afford to let down just a little instead of realizing that the bigger our offensive gets the more our boys are going to need equipment and munitions.

From where I sit, here's the way it is . . . It's up to everyone of us to put not only our spare money into War Bonds, but to figure out new ways of saving so that we'll have still more money to invest in victory.

As Lem says: "We asked for plenty of action—and we're sure getting it. All over the world our men have got them Axis fellas on the run. Let's Back the Attack with War Bonds."

Joe Marsh

War Production Board Moves To Save Soles And Tempers For Country's Busy Shoe Repair Men

By ANN STEVICK
NEA Staff Correspondent

WASHINGTON—When shoe rationing's bomb-shell first burst about our ears, it sparked a tremendous boom in shoe repairs. Folks had new soles and heels put on worn shoes that, in normal times, they would have discarded. To give you an idea of the boom, 71,000,000 pairs of half-soles were consumed in 1940, but the estimate for the first six months of 1943 ups this to 143,800,000 pairs. The shortages in shoe repair leather this caused are part of the "why" of the new "one-pair-in-six-months" shoe ration probability. If "airplane" stamp

No. 1 in War Ration Book 3 really has to last from Nov. 1 until next May, there may be another mass attack on the shoe repair shops. But steps have been taken to provide a reserve-leather cushion against the shock. WPB has ordered 25 large leather cutters to divert from military and lend-lease supplies substantial portions of the current month's sole leather output and mark it "For Shoe Repair Only."

It has been found that more than 10,000,000 persons are treated annually in the hospitals of the United States.

REEVES ARE VISITORS

Lt. and Mrs. Carl Reeves and daughter, Barbara, were guests here Wednesday of his parents, Mr. and Mrs. Carl S. Reeves. They were enroute from Camp Polk, La., to Lieutenant Reeves' new station with the U. S. Army Signal Corps at Indio, Calif.

Machines of War Feed on Oil

For days the General Staff had been making plans for the invasion . . . All branches of land, sea and air had been put in readiness; the timing of all movements carefully coordinated . . . Then came the Big Moment in the grey of early dawn . . . Paratroops dropped behind the lines, Navy big guns and dive bombers blasted shore defenses, wave after wave of infantry scrambled ashore to establish beach heads—and right on their heels came tanks and jeeps and trucks with food, ammunition and OIL.

NO MATTER how fast a mechanized army can move, it cannot out-distance its supply lines; for to fight, a soldier must have food, his guns must have ammunition, his machines must have OIL.

By devious routes and in many shapes and forms oil finds its way into the smooth operation of every department of our armed forces, even to toluene for T. N. T. (see partial list below).

Yes, Oil is vital to victory, and to victory the best efforts of 13,000 Humble employees are dedicated. Their goal is to produce from petroleum the growing demand of the Army and the Navy for the finest fuels, lubricants and synthetics.

These products are made available for war and industry through leadership in petroleum research, the same research which produces Esso and Humble gasolines, Esso, 997 and Velvet Motor Oils for your car and truck.

HUMBLE PRODUCTS FOR THE MACHINES OF WAR: Asphalt, Aviation Gasolines and Aviation Engine Oils, Camouflage Paints, Diesel Fuels, Engine Oils, Univis Instrument Oils, Marine Paints, Navy Symbol Lubricants, Recoil Oils, Rust-Ban Protective Coatings, Stratosphere Greases, Toluene, Torpedo Greases, Waxes, Waterproof Lubricants, Synthetic Rubber for military uses. FOR THE MACHINES OF INDUSTRY: Automotive Lubricants, Cutting Fluids, Cleaners, Diesel Fuels, Gasolines, Industrial Lubricants, Launching Lubricants, Motor Oils, Paints, Petroleum Solvents, Quenching Oils, Rust Preventives, Waxes. FOR YOUR CAR: Products and service to help you care for your car for your country.

Business Women's Week Is Observed

Business and Professional Women throughout the nation are observing Business and Professional Women's Week from October 10 to October 16 with the purpose in 1943 to emphasize leadership of women in business and the proper solving of problems of "Living On The Home Front."

Today there are 1,700 clubs in the general federation with 73,000 business women members organized in every state in the union, in Alaska, and in Hawaii. The federation was organized in 1924 with 874 clubs and 50,000 members.

The idea and purpose of the organization is to review, dramatize and inspire the contribution of business and professional women to the economic, social and political life of the country.

USO Has Major Job To Perform In Texas

To duplicate, as far as possible, for those in the armed services the environment of their home town and their normal life, is the job of the 163 USO clubs adjacent to every military establishment in Texas and in many war industry centers.

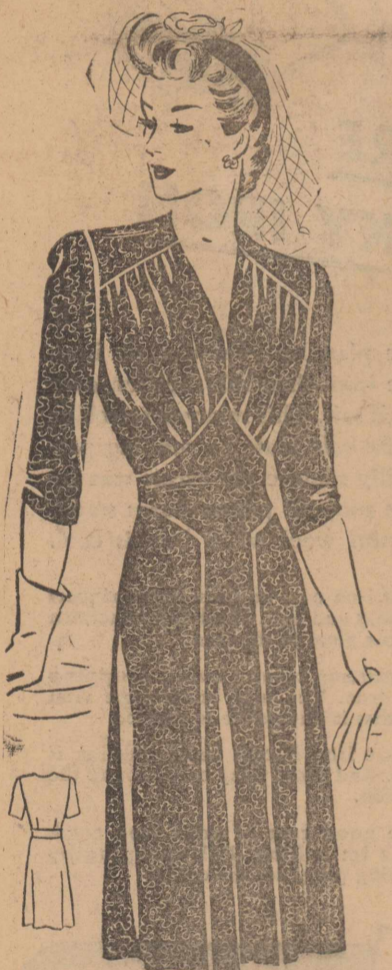

USO operates on the theory that morale cannot be built by slogans or propaganda, according to W. W. Jackson, region executive.

"Each USO facility is operated with a view of taking care of the greatest number possible," Jackson said. "The objective is to surround our young men and women away from home with influences which will preserve their spiritual and physical well-being and give them convictions that inspire their confidence."

OPIUM-EATER CAMELS

Camels coming to market in Egypt are being X-rayed, since officials found half-pound cans of opium were being smuggled in their stomachs.

Slim And Soft

8394
34-48

If it is an afternoon dress your wardrobe lacks, here is the dress for you. It is beautifully slenderizing with soft draping through the top and a skirt designed to fit with pencil slimmess.

Pattern No. 8394 is in sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36, short sleeves, requires 3 3/4 yards 39-inch material.

For this attractive pattern, send 15 cents, plus 1 cent for postage, in coins, with your name, address, pattern number and size to The Reporter-Telegram Today's Pattern Service, 530 South Wells St., Chicago, Ill.

Keep up your wartime sewing, this you are helping bring victory sooner. You'll find 52 pages of absorbing sewing news, 102 new designs in the new fall issue of "FASHION," just out. A copy is 25 cents.

Beta Sigma Phi Members Have Spaghetti Dinner

Beta Delta chapter of Beta Sigma Phi entertained with a spaghetti dinner at the Log Cabin Inn Wednesday evening. The members met in the home of Mrs. J. H. Fine.

The dining table was attractively decorated with harvest time berries and vari-colored fruits indicative of the autumn season.

Places were marked for: Mesdames Pete Stringer, J. H. Fine, Cecil Waldrep, R. H. Frizzell, Jr., Archie Estes, Jack Harrison, Bob Grubbs, Lucille Johnson, Riley Parr, Juanita Sherrod, S. E. McKinney, H. P. Barr, G. B. Hallman, Joe Elder, A. A. Jones, J. B. Bain, John Porter and Ralph Guyger; Misses Faye Frachiseur, Hope Van Meter, Doris Little Leota Segars, Jerry Fields, Janice Watts, Faye Powers, Nita Gothard, Ruth Smith, Dorothy Hamilton, Dorothy Pinkerton, Maelece Roberts, Carolyn Oates, Minnie Lee Hanins and Emma John Blake.

The club will meet again October 27.

TWINKLE THEORY

Stars are kept shining by the transmutation of hydrogen into helium—a process which releases radiant energy, according to astronomers.

Child Welfare Board Has 61 Children Under Supervision

The Midland County Child Welfare Board had its regular meeting in the commissioners court room Tuesday. Mrs. A. E. Culbertson, president, presided over the meeting. Other members present were Judge E. H. Barron, Dana Secor, Mrs. Cooper Hyde, and Mrs. James Chapple. Miss Louise Blackwell, new worker who succeeded Miss Ruth Ferrine, was introduced.

Miss Blackwell gave a report of the Child Welfare Unit's activities during the month of September. The unit has 61 children under supervision and 18 cases are pending, including 29 children. Three cases were reported during the month.

Typical cases are petty thieving on the part of children; children neglected by their parents, and pre-delinquency among teen age girls. It is the purpose of the Child Welfare Unit to study the underlying causes of certain behaviors in order to help each child with his particular problems.

In the Coast Guard, flying officers are designated "aviators," and enlisted men "pilots."

Half And Half

Half and half is a good compromise for those who can't decide between a fur coat and a cloth one. The one pictured here has a broad vest and panels of lustrous mink set on a slim lined body of black wool.

Stanton Study Club Has Luncheon Meeting

The Stanton Study Club held its re-assembly meeting Thursday with a one o'clock luncheon in the home of the new president, Mrs. John F. Priddy.

New officers were introduced by Mrs. Dale Kelly, the retiring president, after which the new president, Mrs. Priddy, extended greetings.

Mrs. Ira Williams presented a resume of the 1943-44 program of the club, following which Mrs. J. Howard Hodge, of Midland, president of the Eighth District, Texas Federation of Women's Clubs, gave a book review on Mrs. John Whitehurst's book, "The United States In A Post War World."

Cranberry Sauce Aids Meats

Serve cranberry sauce with an old-fashioned roast of pork.

By GAYNOR MADDOX
NEA Staff Writer

How about an old-fashioned roast of pork, with bread stuffing spread over the top, and a rich gravy? And how about adding the tart red excitement of fresh cranberry sauce to this combination?

Here are a few sauce suggestions now that cranberries are rolling our way.

Ten-Minute Cranberry Sauce
(Makes 1 quart)
Two cups sugar, 2 cups water, 4 cups fresh cranberries.

Boil sugar and water together 5 minutes. Add cranberries and boil without stirring until all the skins pop open (5 minutes is usually sufficient). Remove from fire and allow the sauce to remain in saucepan until cool.

If you are saving sugar, reduce water to 1 1/2 cups and substitute one of these: 1 cup sugar and 1 cup corn syrup (dark or white), or 1 cup sugar and 1 cup maple syrup, or 1 cup sugar and 1/2 cup honey.

Cranberry Mandarin Sauce
(Makes 1 1/4 quarts)
Two cups sugar, 2 cups water, 4 cups fresh cranberries, 2 tangerines. Boil sugar and water together 5 minutes. Add cranberries and boil, without stirring, until all the skins pop open—about 5 minutes. Remove from heat. Peel, section and seed tangerines. Add to sauce and allow to cool in saucepan. If desired, add a few slivers of tangerine skin to sauce.

If you are saving sugar, reduce water to 1 1/2 cups and substitute

one of these: 1 cup sugar and 1 cup corn syrup (dark or white), or 1 cup sugar and 1 cup maple syrup, or 1 cup sugar and 1/2 cup honey.

Try the Mandarin sauce with chilled rice pudding, and of course with roast duck. Combine it with stewed prunes, sliced pears and apples in a fruit compote.

Use the 10-minute sauce, slightly warmed, with a puffy omelet. Try filling the centers of baked apples with it, also on hot oatmeal, with a little butter or fortified margarine.

CABBAGE

MAKE YOUR OWN SAUERKRAUT.. HERE'S HOW

Fresh, Green, Firm Cabbage

25 POUNDS	50 POUNDS	100 POUNDS
75¢	1.49	2.89

Fresh, Green Solid Heads POUND 3 1/4 ¢

SAUERKRAUT
20 lbs. cabbage 1/2 lb. (1/4 cup) salt

Select firm, sound, mature heads of cabbage. Remove outer leaves; wash well. Quarter, remove core, and slice very fine. Put 5 lbs. (about 7 1/2 qts.) shredded cabbage in a pan, add 2 oz. (3 1/2 tbsps.) salt and mix with hands. Place in deep crock or tight wooden keg and tamp down firmly with wooden masher to extract juice and force out air. Repeat until all cabbage is used. Press down, cover with a clean white cloth, then with a plate or round wooden board small enough to fit down inside crock, and weight down with a clean rock or brick, to keep cabbage covered with brine that forms as salt draws juice from cabbage. Keep in a warm place, 75° to 85° F. Inspect each day, remove scum with spoon, and rinse cloth in clear water.

The kraut will be fermented or "cured" in 10 to 20 days, depending upon the amount of cabbage and the temperature at which it is kept. Its appearance and taste will tell you when it is sufficiently cured.

Kraut may be left in the crock or keg all winter, in a cold cellar or basement, if care is taken to remove any scum that forms; or it may be canned any time from 1 to 3 months after fermentation is completed. Simply drain off juice, pack cold kraut into hot sterilized jars to 1/2 inch from top; heat juice to boiling, pour over kraut, seal and store in cool dark place. Do not process.

TO MAKE KRAUT IN JARS
Mix shredded cabbage with salt, using 1/2 tablespoon salt to each quart cabbage. Pack firmly into clean glass jars, fill with cold water, adjust covers fairly tight, and store where it will keep comfortably warm and where possible overflow of liquid will do no harm. If scum forms remove it. The kraut will ferment for a few days, and will be ready to use in a month. At that time, drain off juice, heat to boiling, pour over kraut again, and seal tight. Do not process.

Midland County Women Asked About Shortages

Midland County farm women last week-end were given an opportunity to tell a representative of the War Production Board's Office of Civilian Requirements which wartime shortages are pinching them most.

Mrs. Janet Lublon of Washington, P. C., visited a number of families in the county and talked with them about the household merchandise they need most when civilian production can be increased or resumed. She also visited rural and urban families in Orange and Gregg counties.

Families whose washing machines are idle because they lack parts were offered a ray of hope by Mrs. Lublon. With persistence, families or dealers can get parts for standard washers, she said.

Difficulties cited

There is little hope at the present for families whose electric irons lack parts or repairs, but families whose electric refrigerators lack parts stand a pretty good chance of relief. No new family-size electric refrigerators are in sight, Mrs. Lublon said. She believes that wash tubs will be available for families now doing their own laundry for the first time. The new wartime glass wash board is proving quite satisfactory, the WPB has been informed.

Home demonstration staff members told Mrs. Lublon how rural homemakers have had difficulty in obtaining boys overalls, baby clothes, scissors, safety-pins, and many other items. Asked about the prospects of getting elastic for repairing underwear, Mrs. Lublon said none could be expected before the latter part of 1944, and that would be synthetic. Homemakers might have to choose between elastic and ties, she commented jokingly.

In the search for rubber, nearly 2,000 varieties of plants found in this hemisphere have been tested.

Former Misdeeds Of Italians Remain Alive Despite Declaration Of War Against Germans

LONDON —(AP)—Italy's former misdeeds remained strongly alive Thursday despite the Badoglio government's declaration of war against Germany and most unofficial quarters appeared to have adopted an attitude of wait-and-see.

The Daily Mail summed it up thus: "Actions will count x x x. The terms to defeated Italy can only be adjusted in the light of the assistance which she gives us. To put it another way—Italy will be punished for her misdeeds, but she may obtain remission for good conduct."

No official comment has been forthcoming so far from the exiled governments of France, Greece, Yugoslavia and Albania — Italy's four chief victims — but men of those nationalities have emphasized that they and their compatriots will not forget easily.

"We certainly are not yet ready to fight shoulder to shoulder with them as allies," declared one Greek. A high Yugoslav said he welcomed "anything that will shorten the war" but added that "if it means a move whereby any new Italian regime will be given concessions at the expense of the Yugoslav nation battling now for its life, we will be disappointed."

The provisional committee of directors of the Italian socialist party in London was frankly antagonistic.

The committee labeled the Badoglio government "an imposition" and asked that President Roosevelt's pledge that the Italians would be allowed to choose their own government after the war be put into effect immediately.

Gholson Urges Motorists To Reduce Nonessential Driving To Minimum

LUBBOCK — Daily increasing activities by American and other United Nations armed forces on scores of farflung battlefronts and the ever increasing problem of supplying greater amounts of all important gasoline and oil to fighters were emphasized Thursday by Howard R. Gholson, district OPA administrator for the area.

Gholson urged motorists to cut nonessential driving to a minimum.

He said the problem of gasoline supply for civilian motorists is growing more critical daily, and there is no immediate prospect for an improved situation. The United States armed forces are consuming a million barrels of gasoline daily on 43 battlefronts, Gholson explained.

"As military demand increases, civilian supply decreases proportionately."

"Nobody is having any fun out of the gas rationing program, and least of all, OPA."

Supplies are allocated

It is OPA's job, he pointed out, to ration the amount of gasoline and petroleum products which are allocated each month by the Petroleum Administrator for War, Harold Ickes. Each month, the PAW assigns the OPA a quota for passenger car driving and nonhighway use, and also assigns the Office of Defense Transportation a quota for buses and trucks.

In the Southwest and Midwest, he asserted, the recent additional ration reductions were necessary because those areas have been exceeding their supply quotas. He said these areas alone were using in September some 75,000 barrels of gasoline per day in excess of allocations—gasoline needed for military use.

Officials directing the war program have emphasized that we cannot continue to use gasoline in passenger cars and for non-highway purposes which the armed forces need.

Situation is "critical"

Farmers and other nonhighway users of gasoline are urged by the director to reduce their consumption to only that most essential.

Gholson said the whole basic oil supply situation is "critical" and will become more so as fighting forces gather strength for heavier blows against the enemy.

"It is easy to say that none of us begrudges our fighters one ounce of gasoline and oil used to beat the enemy," Gholson said, "but it appears that too many of us are not applying this war program to ourselves. Many of us say it's all right for the other fellow to cut down on gas consumption, but not ourselves, when as a matter of fact we all need to shoulder this responsibility together."

Cleveland's Krowiaks Are Busy At War Work On 24-Hour Daily Basis

CLEVELAND—Winning the war is strictly a fulltime job with the busy Stanley Krowiaks. They're at it literally 24 hours a day—two in uniform, four building the wherewithal, and one with a hand in the mail link between home and fighting fronts.

Doing more than any of those is another, in the kitchen. Mrs. Krowiak serves meals nine times a day

"What's cooking, mama?" is the question Mrs. Stanley Krowiak answers nine times a day.

and her round-the-clock family still expresses grateful wonder at the always-warm stove.

Taking it and dishing it out is nothing to stout, cheerful Mama Krowiak, at 5 a. m. In an hour, Johnny comes down for his. About the time he finishes, Joanne is ready for breakfast. While she eats, three lunch boxes are fixed by Mama, who then sits and takes a cup of coffee herself. At 9 a. m. there is dinner for Nellie. Mrs. Krowiak then hurries out with a

sheaf of ration books to visit the grocer and butcher.

Evening Routine

Papa is back, hungry as a bear, for dinner at 3 p. m. That's when Joseph wakes up and eats breakfast. Joanne gets home for supper at 4, and Johnny gets his about an hour later. Ten o'clock brings Nellie in for breakfast. Mrs. Krowiak does one little thing after that—she gets dinner and puts it in the oven for Joseph, who'll be looking for it at 4 a. m.

"I don't mind," Mrs. Krowiak declares, "except that on the kitchen there's always dishes, dishes, dishes."

The senior Krowiaks came here from Poland 34 years ago. One son, Joseph Bernard, is a tail-gunner in the Air Forces. Another son, Frank, is a veteran of six major naval battles in the South Pacific. He was on the carrier Yorktown when it went down, and now he is recovering from wounds in a Washington, D. C. hospital.

Papa Krowiak works with steel. He makes parts for tanks, tractors, ships, at the Crucible Steel Castings Co., from 6 a. m. to 2:30 p. m.

Nellie is a final inspector in aircraft parts at the Thompson Products Co. works. She does the 11 p. m. to 7 a. m. shift. Johnny makes scout cars and half-tracks at White Motor Co. from 7 a. m. to 4 p. m. Joanne makes containers used for shipping delicate aircraft parts, at the Great Lakes Box Company, from 6:45 to 3:15 p. m.

Joseph is the communications man. He hauls mail on and off the trains, in the terminal, from 4 p. m. to 1 a. m. . . . or to 5 a. m. when stuff piles up.

"Don't we ever get together?" Sure! exclaims Mrs. Krowiak, "Sundays! There is one dinner hour that day—at 1 p. m., and those who are tired stay awake and those who have just gone to sleep get up anyway. That one time, we all have dinner together," sighed Mama Krowiak happily.

NAZI MAGAZINES PICTURE GIANT TROOP GLIDERS

LONDON —(AP)—German military magazines are displaying for the first time, the Berlin radio said today, pictures of a giant new Nazi glider known as the BO-240 and capable of carrying troops in numbers "unimaginable to the layman."

Lamofilm

3 PLY PACKAGE Sealed with Rubber!

Admiration's Lamofilm package is no hastily contrived wartime substitute. It's a special coffee container, scientifically designed to preserve the freshness—and therefore the aroma and flavor—of freshly-ground coffee. The inner-liner of the package is made of two sheets of grease and moisture proof paper, bonded together by a patented, rubberized cohesive. Hold a piece of the liner briefly over a match and you'll see. The lithographed paper bag which holds the liner gives added protection, strength—and a third "ply". Thus Admiration comes in three-bags-in-one. But that's not all. These are wrapped and heat sealed in moisture proof cellophane—still another protection. When you open your package of Admiration you gather in that first, wonderful whiff of aroma—you'll understand what a really revolutionary development the Lamofilm package is. Buy it and save the difference.

Duncan's Admiration Coffee

Green Re-Elected President Of AFL On Single Ballot

BOSTON —(AP)—The American Federation of Labor Thursday re-elected President William Green for his 20th term as head of the labor organization.

Green was nominated by Frank Duffy, of the carpenters and joiners union, and was re-elected by the casting of a single ballot.

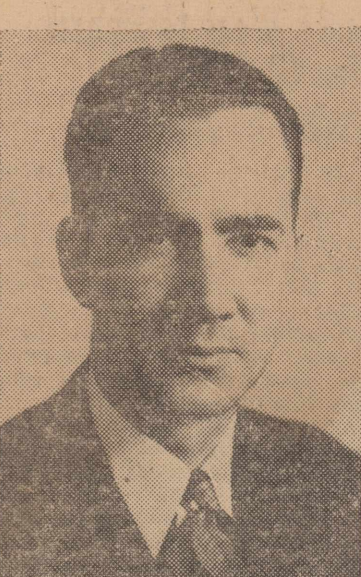

The American Federation of Labor's gesture of welcome to the United Mine Workers put the question of the miners' reaffiliation up to their president, John L. Lewis, Thursday.

The AFL convention attached a condition to its authorization of a charter for the UMW—jurisdictional issues must be negotiated first—but there was no mistaking the federation's willingness to re-admit the Lewis union, not only with bona fide mine workers, but possibly even with other workers, provided they are not in the crafts claimed by AFL unions.

It was made clear, too, that to come back Lewis would have to recede from his position that the AFL take the UMW "as is" and talk about jurisdictions after reaffiliation.

Matthew Woll, resolutions committee chairman, gave this assurance in pleading for adoption of a report giving the executive council authority to deal finally with Lewis. "This formula is designed to protect the interests of every affiliated organization," Woll said.

To Address Jaycees

James E. Oliver of Houston, president of the Texas Junior Chamber of Commerce, will address Midland Jaycees at their meeting in the Cactus Cafe Friday noon.

Agreements Approved For 21 Students Here

Diversified occupation agreements for 21 high school students were approved by the advisory committee of the diversified occupations department of the Midland High School Wednesday afternoon at its first meeting of the term.

The agreements between the students and their employers were received by the committee. J. N. Allison is chairman of the committee. Its members include Calude O. Crane, J. M. Cox, N. B. Larsh and Ab-Midelf.

Steve Briggs directs the department at Midland High School.

Persons who desire to cooperate in the program by furnishing employment for students should contact a member of the committee.

High school students who desire employment during spare time and who desire to participate in the program should see Briggs.

Arizona, Indiana, Nebraska, Oklahoma, South Dakota and Utah are highway debt-free.

Latin Union To Fight Fascists Is Being Organized

WASHINGTON —(AP)—Representatives of France, Italy and Republican Spain have formed a "Latin Union" to fight Fascists in their own countries as soon as the Nazis are pushed out.

Count Carlo Sforza, reported on his way to Italy to work with Marshal Badoglio in the battle against Italy's newly acquired enemy—Germany, is Italian president of the union.

General Charles De Gaulle, co-president of the French Committee for National Liberation, has been invited to be French president but has not yet accepted.

Asked to state the purpose of the union, Lionello Venturi, one of the Italian founders, declared, "We are opposed by the Nazis and the local Fascists so we must organize to fight the local Fascists when the Nazis are shoved out. We must associate together to understand each other and bring our countries to a mutual understanding."

WPB Representative To Visit Midland Friday

Norvell W. Harris, representative of the El Paso district office of the War Production Board, will be at the Midland Chamber of Commerce from 9 a. m. until noon Friday to assist persons with priorities and other WPB orders and regulations.

Duty-Bound Canines

BOISE, IDAHO —(AP)—Bing and Lady, canine guards at Gowen Field, disappeared after a truck in which they were riding overturned.

An intensive search in the vicinity failed to locate them.

Later the dogs were found—on duty at their regular guard stations.

Team Captains Make Plans To Complete Boy Scout Campaign

Team captains in Midland's campaign to provide \$4,000 for the Boy Scouts, so a full time executive may be employed for the program here, will meet at 5 p. m. Thursday on the mezzanine floor of Hotel Scharbauer to make plans to complete their work promptly.

Approximately \$2,400 has been obtained to date in the drive, George Abell, finance chairman, said.

WTCC Ballot Is Being Approved

ABILENE —(AP)—The West Texas Chamber of Commerce reports its 11-point referendum ballot, including a plank urging a national post-war economy based on free enterprise, free competition, private initiative and private financing, has been endorsed by a score of town meetings.

The No. 5 plank proposes that after victory "we petition the Congress of the United States to direct the termination of wartime regulations and restrictions imposed upon the people and upon business, together with the liquidation of such wartime boards, bureaus and commissions making such recommendations."

An infantry division in 1918 was equipped with machines of 3,300 motive horsepower; today's armored division totals 400,000 horsepower.

Wallace Paints Rosy Picture Of Post-War World

WASHINGTON —(AP)—Vice President Wallace sketched for Senators Thursday a post-war world of helicopters, television, light metals, plastics and new foods but cautioned that free private enterprise must be maintained if the nation is to realize the full benefits of broadened industrial frontiers.

Appearing for the second time in recent months before a committee of the legislative body over which he presides, Wallace endorsed the principles of a technological mobilization bill under consideration by a military affairs subcommittee.

"Out of our laboratories, both government and private, are coming a flood of discoveries," he said. "When the veil of secrecy imposed by war is lifted our people will stand amazed at the array of inventions. A new world is being fashioned."

HELPFUL HOUSEHOLD HINTS

HOW TO CURE THAT STICKY IRON

Don't "cuss" at a sticky sole plate on your electric iron. Here's an easy cure. Heat the iron, then rub the iron over a piece of paper sprinkled with salt. This removes starch or other substances. Then wax the sole plate by rubbing paraffin or beeswax over it. Finally remove the excess wax by running the iron over a clean piece of paper. Burnt starch may be removed with fine steel wool when iron is cool.

OTHER HINTS ON IRON CARE

- Never iron over buttons, snaps, zippers or hooks and eyes. Hard objects scratch the sole plate of the iron.
- Use extreme care to avoid dropping your iron. You may break some vital part that is impossible to replace.
- Be sure iron is cool before putting it away. And don't wrap cord around the hot iron.
- Take good care of your iron cord. Don't let it kink. Pull out plug by grasping plug, not the cord.

How to reline a lamp shade

Roll your own. Lighting benefits can be noticeably increased by relining existing dark-on-the-inside shades with good white paper. Roll the lamp shade on white paper, and pencil mark to cut. Fit this lining inside the shade and fasten seam with Scotch tape.

OTHER WAYS TO CONSERVE LIGHT

- Clean lamp bulbs and reflectors (unlighted) regularly with a damp cloth.
- Use shades with white linings that reflect light instead of absorbing it.
- Keep all lights properly shaded to avoid glare.
- Arrange furniture so one lamp serves two or more people.
- Always turn off lights in unoccupied rooms.
- Have eyes examined regularly by a competent eye specialist.

R. L. MILLER, Manager

Fine Arts Club Hears Review By Mrs. J. H. Hodge

The Fine Arts Club held an interesting meeting Wednesday in the home of Mrs. O. J. Hubbard, when Mrs. L. G. Byrley, first vice-president, directed the program.

The club voted to donate ten dollars toward the Boy Scout fund, following which Mrs. Fred H. Fuhrman presented a report on legislation.

In cooperation with the City-County Federation the club will contain with a library-tea Nov. 19, during which Mrs. Hodge will review "Mother Russia" by Maurice Hindus.

A book review by Mrs. Hodge was the outstanding feature of the meeting Wednesday when "Mother Russia" was reviewed comprehensively. Maurice Hindus, the author, spent the summer of 1942 in Russia, and his information on that country is authentic. The book stresses the violent hatred the Russians have for the Germans, and he points out that England, the United States and Russia must speak a common language and have a common understanding. The important facts of the book are the civil war of Russia after the revolution; the five year plans, the constitution, the purge and the N. E. P. Hindus in his book brings out the fact that the Volga River is the heart and soul of Russia and states that the Russian people have denied themselves butter to purchase tractors, in order to make Russia what it is today. In all their murals, the tractor is an important factor.

Those present were Mesdames E. H. Barron, Tom C. Bobo, L. G. Byrley, Lee Cornelius, Fred Fuhrman, J. Howard Hodge, O. J. Hubbard, George Kidd, P. D. Moore, Roy Parks, Foy Proctor, Anton Theis, R. C. Tucker, Paula Vogel, Fred Wemple and Fred H. Wilcox and Miss Lydia G. Watson. Mrs. Alden Donnelly, an associate member, and Mrs. Tom Nance, a special guest of the afternoon, also were present.

The club will meet again October 27 with Mrs. R. C. Tucker.

Cabbage Is Hefty Wartime Dish

A nutritious casserole is made of cabbage, left-over meat, and cheese.

By GAYNOR MADDOX
NEA Staff Writer

Cabbage is a hefty food, inexpensive, plentiful and popular. These country-type recipes are Lucy Maltby's of Corning, N. Y.

Baked Cabbage
(Serves 6)

Two small cabbages, 1/2 teaspoon salt, 1 garlic clove, 1 medium onion, grated; 1 teaspoon lemon juice or vinegar, 4 tablespoons fortified margarine or other table fat, 4 tablespoons flour, 2 cups milk, 1 1/2 teaspoons salt, 1/4 teaspoon pepper, 1/2 cup grated cheese, 1/2 cup bread crumbs.

Quarter cabbages; cook in boiling salted water 15 minutes or until almost tender. Place a layer of cabbage in a well-glazed two-quart heat-resistant glass casserole, rubbed with garlic clove. Sprinkle with some of the grated onion and lemon juice. Melt fat in a saucepan; add flour, making a smooth paste. Gradually add milk to flour mixture, stirring constantly until sauce is thickened. Add salt and pepper; cook for 5 minutes longer. Cover about half the cabbage with half of the white sauce and half of the grated cheese. Place the remainder of the cabbage, grated onion and lemon juice in the casserole. Cover with the remaining white sauce and grated cheese. Bake in moderate oven 25 minutes.

Cabbage Roll-Ups
(Serves 6-8)

One-half cup chopped onion, 1/2 pound ground beef or left-over meat, 1 tablespoon fat, 2 cups cooked noodle rings or cooked dic-

ed potatoes, 1/2 cup diced celery, 1 cup bread crumbs, 1 teaspoon salt, 1/4 teaspoon chili powder, 1 egg, well beaten, 6 or 8 cabbage leaves, 4 tomatoes, cut in halves, 1 teaspoon salt, 1 teaspoon sugar, toothpick.

Brown onion and meat in hot fat. Combine with noodle rings, celery, bread crumbs, salt, chili powder and well-beaten egg. Mix thoroughly. Unless cabbage leaves are very tender, cook in boiling water about three minutes. Place filling on cabbage leaf, roll and fasten with a toothpick. Place the cabbage rolls in a three-quart heat-resistant glass casserole with the tomato halves. Sprinkle sugar and salt over tomatoes. Cover and bake in a hot oven.

JOE W. BEANE IS ASSIGNED TO FIELD HERE

Joe W. Beane of Midland, who entered the service here, was later sent to Sheppard Field at Wichita Falls and to the gunnery school at Harlingen, has been transferred to the Midland Army Air Field. He is the son of Mr. and Mrs. Joseph R. Beane, 806 South Marienfield.

Record Program Is Heard By Club

Civic Music Club held its second meeting of the autumn season Tuesday evening in the studio of Mrs. Lee Cornelius, when the historical sketch was given by Miss Edith Conyers.

The opera "Boris Goudonov," written by Moussorgsky, was presented in a recorded program, which concluded with the Marche Slave by Tschaiakowsky.

Twelve members were present. They were Mesdames Cornelius, De Lo Douglas, Steve T. Briggs, John Casseltian, John Dunagan, George Grant, Holt Jowell, Joe Mims and Frank Miller; Mr. and Mrs. Taylor Cole, and Miss Edith Conyers.

Every mile saved today may be worth 10 miles to your automobile a year from today.

Progressive Study Has Africa As Its Theme Wednesday

Mrs. Stephen Leach was hostess Wednesday afternoon to the regular meeting of the Progressive Study Club in her home at 2106 West Kentucky.

Mrs. Joe Elder and Mrs. Bill Pitchford of McAllen were special guests of the afternoon, and Mrs. Christian Arnold was received into membership of the club.

Mrs. E. N. Stidd was leader of the lesson on "Africa" and presented some interesting facts about that country. She also read an article carried in the Reader's Digest on the North African campaign and how it was organized.

Mrs. John Porter followed with a talk on the saving of the lives of the soldiers through the new "sulpho" and "bread mould" drugs. A social hour followed the lesson, during which tea was served. The

69 Texas Women Leave For Georgia WAC Base

AUSTIN —(AP)— En route to Fort Oglethorpe, Ga., Thursday were 69 new Texas members of the U. S. Women's Army Corps, inducted at a ceremony on the steps of the state capitol Wednesday.

Recruited in a campaign to enroll 3,500 Texas women for the WAC, the 69 who took their oath here were told by State Adjutant General A. R. Knickerbocker that all Texas would be watching their progress.

dining table had as its central figure a large bowl of marigolds.

Those present were Mesdames John Porter, Cecil Waldrep, Stephen Leach, Harold Berg, F. B. Whittaker, E. N. Stidd, Joe Elder, Bill Pitchford, Christian Arnold, and the hostess.

An empty seat in your car may mean that someone is driving needlessly, wasting gas, oil, rubber, and wearing out engines.

Sew Sum Club Meets With Mrs. Wadley

Mrs. E. C. Hitchcock was named chairman of the new Sew Sum Club at a meeting Tuesday afternoon in the home of Mrs. Addison Wadley. Mrs. Percy Mims was elected Red Cross sewing chairman and Mrs. Wesley Edwards was named secretary and treasurer.

Plans for the coming year were

discussed, and a refreshment plate was served at the conclusion of the business session.

Present were Mesdames B. F. Haag, Cecil Collins, W. M. Schrock, N. B. Larsh, S. M. Vaughan, W. I. Pratt, Wesley Edwards, Wilbur Wadley of Quemado, New Mexico.

Coming Events

FRIDAY
Junior Department No. 1 of the First Baptist Church will entertain parents at 8 p. m. in the church basement. All parents are invited.

The Red Cross surgical dressings headquarters in the courthouse will be open from 9 a. m. to 12 noon and from 1 p. m. to 4 p. m.

The Red Cross workroom in the Old Heidelberg Inn will be open for work from 9 a. m. to 12 noon.

The Belmont Bible Class will meet at 3 p. m. in the education building of the First Methodist Church.

SATURDAY
The Treble Clef Club will meet at 9:30 a. m. in the studio of the Watson School of Music.

Treble Clef Club at 9 a. m. instead of 9:30.

The St. Anne's Altar Society will hold a rummage sale at 2 p. m. Saturday in the parish hall.

Tawasi Club Meets With Miss Warner

The Tawasi Club met Wednesday evening at the home of Miss Marjorie Warner, 937 North Baird.

The club constitution was presented in its final form by B. A. McClure, chairman of the constitution and by-laws committee. It was voted upon unanimously, and signed by charter members.

Upon completing the business, the meeting was turned over to the program chairman, Janie Marie Johnson. The program consisted of a number of short and clever biographies given on previously assigned members by Aileen Maxwell, Dorothy Bracewell, Ruth Simmons, Bea McClure, Jo Ann Montgomery and Janie Marie Johnson.

At the conclusion of the program refreshments were served. Mrs. Jeanne Day of Childress was a special guest.

Congratulations To

AIR-RAID
CHAPTER XVI

PAT and Imhof set their faces east and with so early a start reached Wiesbaden in plenty of time to visit the library there before closing hour. They got out Simrock's translation of the Eddas and Imhof set to work. He started through the volume page by page, scrutinizing every mark and annotation. Suddenly he nudged Pat, who, seated beside him, was tensely pretending to read, and pointed to the numerals atop page 49. Including them, as if someone had doodled, was drawn in ink a little circle with a tiny tail.

"Q-49—Enzell's number," said Imhof, and Pat wanted to shout. Page 49 showed no other mark. In a footnote, the title of a cited work was underlined in ink and the page reference corrected. Imhof rose and applied for this book. As soon as he received it he turned to the page given in the correction. It was unmarked. He tried the page originally referred to. Nothing there. He went back and started through the book. Near the end he grew apprehensive. If something went wrong now... He reached the index, floundered religiously through it. One page more. He turned the leaf, bracing himself. But there, beside the capital Q above the few entries under that letter, was written in ink XIXL and, below, one of the entries was underlined.

Getting out this book in turn, Imhof found scattered through it, in ink, a large number of fractions, which he took down in order, noting that the dividends were usually higher numbers, mostly of three digits, whereas the divisors never went beyond the fifties. Accompanying the last fraction came the now familiar notes of music, E D D A, and the name of another German translator. Imhof consulted his work. Characters and situations are fictitious. Any resemblance to actual persons or happenings is coincidental.

Suddenly everyone stopped breathing. There was a big one coming, in howling crescendo that blotted out all lesser sounds. Then it struck, not far from the shelter entrance. There was an incredible roar. All the lights went out. Imhof felt the wall behind him bulge and the floor buckle and heave. At the same instant ruins cascaded down the shelter entrance. Women screamed, men fought and trampled as with one impulse the crowd rushed for the far end of the shelter.

Imhof set his palms to the wall and, with Pat between him and the masonry, strove to preserve her from the wild stampede. His corded muscles ached with the strain; sweat and the veins stood out on his forehead. The human way dashed against him and he swirled past, to fetch up against the far wall in a split mass.

Before the tide could recoil, a second huge bomb struck, collapsing the crowded part of the shelter and leaving Imhof and Pat trapped in a little area of still standing wall and roof between the ruins and the blocked shelter entrance. It was a precarious chamber which the next near hit would demolish.

At the terrific crash that collapsed the shelter Pat had instinctively thrown herself against Imhof, burying her face in his coat. The contact of her body was ineffably sweet, and he put his arms around her, joy and wonder flooding through him.

"Pat!" he cried, straining her to him. "Pat! I love you! I love you!" She raised her face and her arms encircled his neck.

"Kiss me, Ray! Kiss me! Darling! Darling! Darling!"

Their lips joined and, tears streaming down her cheeks, they clung, straining to one another in an ecstasy almost unbearably sharpened—and sweetened—by the looming shadow of death.

With a roar, a blinding light was born in the night outside and as instantly died. Like a table swiftly tilted, the very ground upended, and torn from each other's arms, they were flung—down, down—half falling, half sliding, into a void of darkness.

(To Be Continued)

Midland Army Air Field Going All Out To Cooperate In Salvage Drive

The Midland Army Air Field is going all-out in its cooperation with the WPB's nation-wide salvage drive. But all-out salvage activity is nothing new to this headquarters post of the nation's bombardier training program.

Salvage activities range from bombs to egg crates, and from bottles to burlap bags, according to Major Gilbert E. Maramor, QMC, who is charged with letting the contracts for disposal and sale of all salvage materials at Midland Army Air Field.

Bomb Scraps Chief Item

Chief salvage items are the remains of the hundred pound practice bombs which are dropped by the thousands every day by student bombardiers. Under the supervision of Lt. Guyler Albright, who is in charge of the range section, these bombs collected from each of the field's twenty-two target ranges every sixteen days.

The salvaged bombs are loaded on trucks furnished by the post quartermaster and hauled to a baling point, where they are crushed and baled by special hydraulic machines. After raiting, the bombs are stacked in piles until the arrival of railroad cars to haul them to a processing plant where the metal can be melted down and used again.

The post salvage department is operated by Capt. William Nevil, and under his supervision, every worn-out item on the field is scrutinized for possible re-use of proper disposal. This department handles all salvage items on the post except tires. Tire salvage is under the supervision of the Ordnance Detachment.

Shoes Big Item

Indicative of the scope of Midland Army Air Field's salvage department are the following totals of materials processed during a three-month period: 6500 pounds of lead; 700 pounds of brass; 30,000 pounds of aluminum alloys; 30,000 pounds of raw iron and steel; 400 pounds of copper.

During that same three-month period approximately 140,000 pounds of practice bombs were salvaged from the field's vast bombing ranges.

Salvaged egg crates during the three-month period totaled about 300. Also from the mess halls came 60,000 cans that were collected, shredded and sent to tinning plants for reclamation.

Shoes are a big item. About 300 pair every three months are found no longer usable by the government and are either salvaged or sold to dealers. All repairable shoes and clothes are sent to shops, where they are re-built and mended and put back in service again.

The salvage department also handles renovation of all cadet clothes, which are turned in when the bombardiers are graduated here. These clothes are checked, cleaned, and pressed and turned over to the Quartermaster property officer for resale to cadet centers.

Every Day Job

All non-salvaged material collected on the post is sold to bidders selected by the government as being best fitted to handle the material.

Cardboard cartons, used to case the hundred pound practice bombs for delivery here, are no longer salvaged. They are returned to the manufacturer intact for re-use in delivering new bombs, effecting a great saving in time and labor.

The salvage department also re-

Sheriff's Posse Has Sixty-Three Members

The Midland County Sheriff's Posse Thursday announced the election of six new members, bringing the list of active members to 63. Eight members of the posse who are in the armed forces have been voted honorary members.

The new members announced by H. H. Lawson, adjutant, are M. C. Ulmer, Major Pat Warren, J. L.

Double-Feature Fan

LOS ANGELES (AP)—Mrs. Marie Striker, who works at a war plant, says she can't find a place to live.

So she goes to the home of friends occasionally to freshen up a bit, and they're keeping her eight-year-old daughter Amelia.

They don't have room for Mrs. Striker, though, so she goes to the movies every day—to sleep.

Greene, Paul Osborne, Holt Jowell and R. C. Crabb.

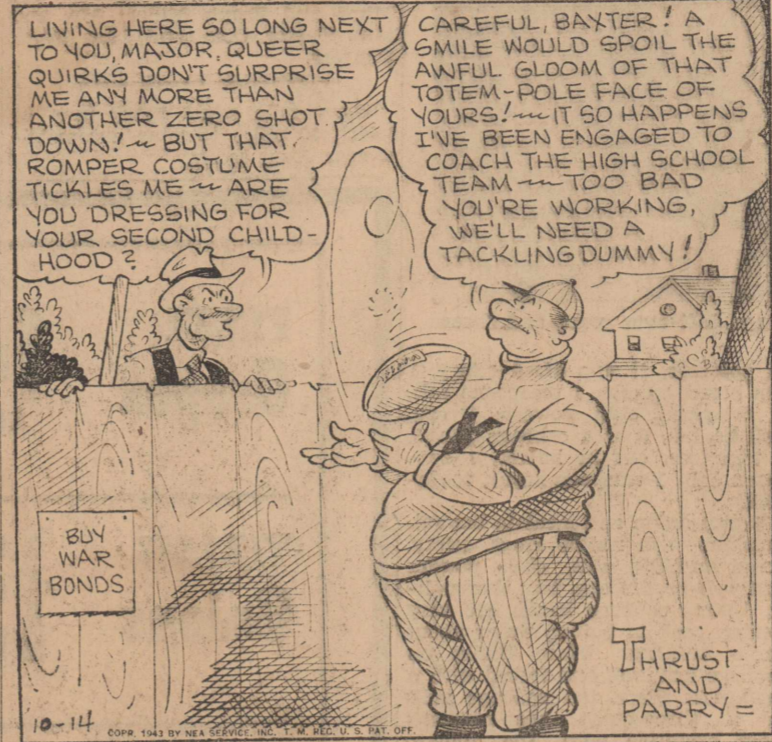

Third Member Of Keys

OKLAHOMA CITY (AP)—Wedding bells will ring Friday for a third member of the Keys Quadruplets, and it'll be a family affair.

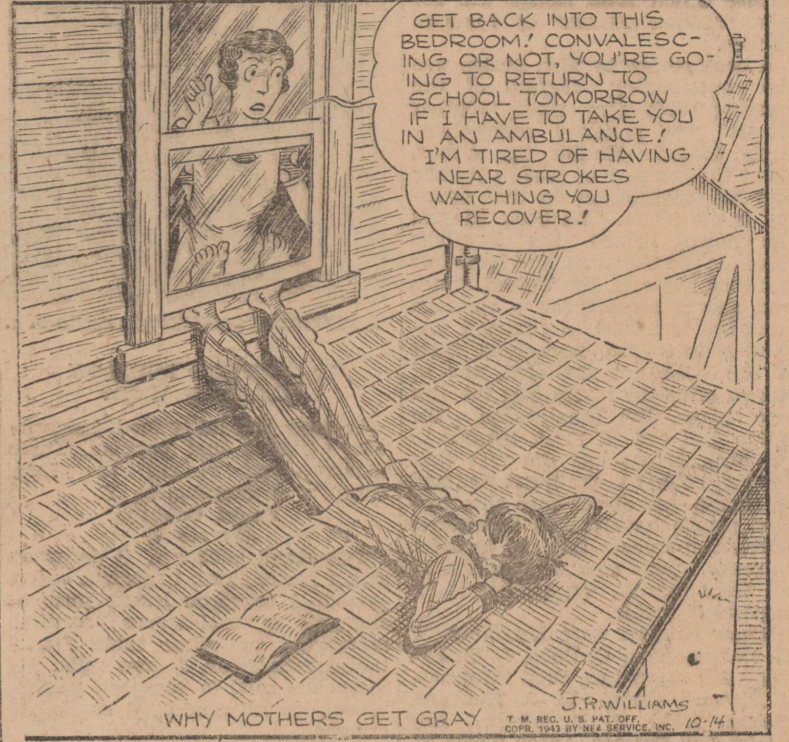

Leota, only blond among the quartet, will marry Master Sgt. Bob Hall of Dothan, Ala.

Bridesmaids will be the two married sisters, Mona and Roberta. And Mary, the remaining single quad, will be maid of honor.

Health Films To Be Shown Here

A new group of health films will be shown to children of school age Saturday morning, beginning at 10:30 a. m., in the Civic Auditorium, it was announced Thursday.

Films to be shown are "It's Health You're Seeking," "Food and Nutrition," "The Eyes and Their Care," "Defeat Diphtheria," and "For Health and Happiness."

The presentation is a part of the Midland Health Unit's visual education program and is the second in a series of similar public motion picture showings scheduled.

Parents are invited to attend the showing with their children. Admission is free.

Soldier Gets Death Sentence For Slaying

FORT SILL, OKLA. (AP)—Harry R. Bever, 26, was sentenced to death by hanging Wednesday night by a courtmartial of 11 officers which convicted him of killing Clint C. Wood, an Amarillo, Texas, cafe operator, and also of deserting from the Army.

Bever was charged with murdering Wood at the latter's Amarillo home after deserting the Army. The case now will go to the Eighth Service Command at Dallas for review, then to the adjutant general's office in Washington, D. C., and to the President.

Soybeans Are Moving To Texas From Midwest

WASHINGTON (AP)—Soybeans have started moving to Texas to relieve the livestock protein feed shortage, reports Carl C. Farington, vice president of the Commodity Credit Corporation.

Several carloads are enroute from the Midwest, he said, and the movement will continue throughout the winter.

Avalanche Of New Drilling Needed, Oil Men Informed

FORT WORTH — (AP) — "A veritable avalanche of wildcat drilling" by the oil industry is needed to meet a rapidly decreasing crude oil supply, asserts Wirt Franklin, special field assistant to the deputy petroleum administration for war.

2 New Tests --

(Continued from Page 1)
Atlantic Refining Company No. 2-96 State - Powell, Pecos County development is getting ready to run 7-inch casing to 4,700 feet in the Ellenburger after taking a Schlumberger test on which no report has been released.

Three Soldiers Burn To Death After Wreck

STEPHENVILLE — (AP) — Three soldiers stationed at Camp Bowie, Brownwood, were burned to death and another was in a critical condition in the Stephenville Hospital after a head-on collision between an automobile and pick-up truck three miles east of here at 9 p. m. Wednesday.

Hearing On Kermit Field Is Scheduled

AUSTIN — (AP) — The Railroad Commission Thursday ordered a hearing in Austin Oct. 29 to determine whether permission should be granted to waterflood the producing formation on a voluntary basis in the Kermit field, Winkler County.

University Running Geophysical Survey On Hudspeth Lands

During October and November a party headed by Dr. Hal P. Bybee, Austin, geologist in charge of University Lands and Estate R. Haigh, Midland, assistant geologist of the University Land organization, is running a geophysical survey of the 460,789 acres of University Lands in Hudspeth County.

Red Army --

(Continued from Page 1)
The dispatch asserted that fighting about the Ukrainian capital is the bloodiest since the battles for Riel and Belgorod last summer.

MacArthur --

(Continued from Page 1)
Allies five planes out of the participating hundreds, the bulk of which were Americans. The raiders expended 350 tons of bombs, 25 tons more than the bomb load dropped last week on Wake Island, and more than 250,000 rounds of ammunition.

Mentors Forced To Use Two Linemen In Backfield Posts

Coaches Gene McCollum and Jack Atkins Wednesday had a good backfield for their Midland High School Bulldogs just standing around watching the remainder of the grid-ders scrimmage.

Not that they have a surplus of backfield material. Anything but that. To piece together some sort of a ball-carrying quartet for the game Friday night against the Plainview Bulldogs in the Hale County city they had to reach up into the line

Plenty Of Action Shown In Sports Event At Field

Five fast boxing matches, two wrestling bouts and a judo exhibition featured the Sports Show which opened the fall season of sports activity in the Post Service Club at Midland Army Air Field Wednesday evening.

A large crowd of officers, enlisted men, WAGs and their guests witnessed the show which was sponsored by the Physical Training Department of the Bombardier College in cooperation with Special Services. Plans call for staging similar shows monthly.

Bell Gets Decision
In the opening boxing bout, a featherweight affair, Pfc. Tom Bell of the 48th B.T.S., won decision over Pvt. Eddie Spenser of the 491st B.T.S. Bell, who hails from Libertyville, Ill., and who was Lake County champion in 1938 and 1939 at 135 pounds, carried the fight all the way. Spenser, whose home is in Odessa, got in some good blows and made it an interesting setto.

Pvt. George Restaino of the 83rd Base Hq. and Air Base Squadron was the victor over Cpl. Salvatore J. Petrucci of the 83rd B.T.S., in the second bout, a welterweight match. Considerable slugging featured the match and the victor had his opponent down momentarily in the first and second rounds. Restaino is a former Golden Gloves scrapper, having won 11 and lost 4 rounds. He is from Newark, N. J. "Little Tony Galento" Petrucci also hails from Newark.

The third bout between Pvt. Charley Petrocci, 48th B.T.S., and Pvt. Paul C. Treants, 491st B.T.S., was one of the best bouts of the evening. Treants won the judge's decision. Considerable slugging drew rounds of applause from the spectators, with both boxers getting in some hard and telling blows. It was a close match.

Treants is from Milwaukee and Petrocci's home is Jersey City. Both have participated in many amateur bouts. Both are welterweights.

Battle To Draw
Pvt. Maxie (Texas Slim) Hulce, 491st B.T.S., and Pvt. Elmer T. Cox, guard squadron, tangled in the fourth bout which was fast and furious and which ended in a draw, according to the judges. The fight was fairly even all the way. Hulce, who hails from Tyler and who was the Golden Gloves champion in the Tyler district in 1940, exploded on several occasions to rock his opponent with lefts and rights, but Cox did not slow. He landed a number of hard blows which shook the lanky Texas Cox is from De Witt and is a Golden Gloves. It was a light heavyweight bout.

Cpl. George Couston, Hq. and Hq. Sq., 83rd B.T.F., scored a technical knockout over Pvt. Jack Spanola, 491st B.T.S., in the second round of the only heavyweight bout of the evening. It was a rough match as far as it went, and until Spanola sprained an ankle and was forced to leave the ring. Couston sent Spanola through the ropes in the first. Both were throwing hard blows and were giving all they had. Couston is from Chicago. Spanola is from North Arlington, N. J.

Pfc. Lee Warren, guard squadron, won over Pfc. Dick Rymer, guard squadron, in a heavyweight wrestling bout. It was a "circus" match and delighted the crowd. Both are from Kansas City, Kan.

Hummel Gets Nod
In a welterweight wrestling bout, S/Sgt. Bud Hummel, 83rd Base Hq. and Air Base Sq. was the victor over Pvt. Donald Evans of the guard squadron. Evans is from Big Spring. Hummel's home is Sterling, Ill.

Lieut. James E. Lutz, assistant provost marshal, and Corp. Pat

Wednesday and extract Black Jack Taylor and Copper Daugherty. With these two linemen they worked out a combination that includes Hubert Drake and Ivan Hall, who have seen action behind the forward wall.

Richards Out
Standing on the sidelines watching the proceedings was a good backfield squad. There were Bill Richards, ace passer; Joe Stuckney, battering ball carrier; L. C. Neatherlin, speedy runner; and M. C. Hale, hard-charging ground gainer. Each of them was suffering ailments and more than likely will be kept out of the fracas at Plainview Friday.

Determined to give their charges a rest period to allow them to heal up, the two coaches plan to keep those with injuries out of the Friday night battle, regardless of the eventual outcome. Stuckney missed the Sweetwater tilt and definitely will not see action Friday. Bill Richards, pivot man of the backfield, will have to have a miracle happen to his leg if he sees action. Neatherlin probably will go in during the tilt, but M. C. Hale's sore leg is expected to keep him out.

Meanwhile, with two days to go, McCollum sent Blackjack Taylor out of the line into the fullback slot. Copper Daugherty was brought in to replace Richards, although he usually plays end. Ralph Vertrees moved into the slot at guard vacated by Taylor. Ed Griswold might start at tackle.

Black Picture
That's the whole sordid picture in a nutshell. But the coaches indicate they'd rather lose a game than a player. Cripples can't play ball and shake off their injuries, they figured.

Taylor and Daugherty were working hard Wednesday afternoon, but the short period of time they've got to develop in may not give them time to learn their new positions well enough to prove of value against the underrated Plainview squad.

Lessons in blocking and tackling, plus a liberal amount of scrimmage, have been meted out to the squad this week.

Yeager Joins Squad
Richards' precision passing probably will be keenly missed by the Bulldogs Friday night. He has thrown a total of 55 ozoners in games this week and 36 of them have connected for gains.

A new face on the practice field Wednesday was that of Wilbur Yeager, junior squad quarterback, noted for his B string. Although he has had but little experience, he may have to be called into play in the game Friday.

Mussolini Threatens Italians With Death

STOCKHOLM—(AP)—The Rome correspondent of the Swedish newspaper Dagens Nyheter reported Thursday that Benito Mussolini had decreed the death penalty for all Italians who:

- Helped the Allies by using radio to transmit information, refuse German or Fascist labor service, tell others to refuse to work, or plunder bombed homes.

Paper Says Mexican Troops To Join Fight

MEXICO CITY—(AP)—The newspaper Excelsior says that Mexico is ready to send an expeditionary force to the battlefronts and predicted that troops would be on their way within six months.

The plan for more active participation in the war has been espoused by a "group of young generals, general staff officers and aviators," Excelsior stated, adding that the government looks favorably upon the idea.

Internationally Noted Golf Professional Dies

EDINBURGH, SCOTLAND—(AP)—Peter Robertson, 62, internationally famous golf professional, died at his home here, it was announced Thursday.

Robertson was professional champion of Scotland in 1921 and 1924 and the only player who shot a two on the famous "road hole" the 17th—at St. Andrew's.

Sports Roundup

By Hugh S. Fullerton Jr.

NEW YORK—(AP)—Now is the time to begin revising your football dope sheets. After Saturday the old ones won't be much good. Reason: the term is about to end for Navy and Marine trainees and by Nov. 1 a lot of them will be missing from the college squads, and a lot of V-12 "freshmen" will become eligible.

Grudge Battle
Back in 1935 Norman beat Amarillo in Amarillo to break the tradition of Butler Field: no Sandie eleven had been defeated on that field since it was installed until the Oklahomaans did it.

Norman returns with one of the finest schoolboy teams in the Southwest. It beat Waco last week on two long runs by a lad named Bill Remey. Amarillo has been touted as the No. 1 Texas team all season. Now it's the showdown.

Ladies' Day
Ray Dumont, the semi-pro baseball solon, reports he discovered a first class wump (woman umpire) in Toronto recently and signed her to officiate in the Canada-United States sandlot world series next August. She's Bobbie Rosenberg, former Olympic athlete and now a Toronto sports writer, who brought down the house in the 1943 Canadian sandlot championships by tossing a player out of a game merely for cussing out one of his own team. She'd never get by with that in Brooklyn.

Quote, Unquote
Herman Hickman, former Tennessee all-America tackle, now coaching the Army line: "If you don't think Duke can give you the acid test, you ought to play against him for seven or eight or ten years."

Service Dept.
Milt Weiler, who stroked the varsity crew and won the intercollegiate boxing championship at Syracuse a dozen years ago, is due to graduate from officers' candidate school at Fort Belvoir, Va., in a few weeks. With his background, he ought to be a natural for some amphibious outfit. The "dream" backfield of the 63rd Battalion touch football team at Camp Wolters, Texas, is composed of Bob Livingston, Notre Dame, Walt McQuade and John Clifford, Colgate's touchdown twins, and John Fekete, Ohio State. To have those four playing "touch" sounds more like a coach's nightmare.

Bullpups Battle Colts At Odessa

Coach John (Jack) Mashburn's Bullpups, junior edition of the high school Bulldogs, jogged to Odessa Thursday to do battle with Coach Lee Taylor's Colts at 4:15 p. m.

Already victors over the Odessans by an 18 to 0 count, the Bullpups were gunning for the Colts without the services of Wilbur Yeager, their promising quarterback, who has been drafted by the Bulldog mentors to replace a vacancy created in the varsity squad by injuries. Larsh was scheduled to step into Yeager's spot Thursday.

Third Time Does Harm

SALT LAKE CITY—(AP)—A Jap bullet that pierced his helmet didn't stop Lt. Auburn Marr of Salt Lake City on New Georgia Island.

He got only a scalp wound. Then a second bullet almost tore off one finger.

After getting first aid, he returned to his post, and several hours later a third bullet pierced his hip. That stopped him.

LL-GOTTEN GAINS

FALLS CITY, NEB.—(AP)—The thief who stole a pig and three hens from Dr. R. W. Hixson should not plan a banquet with his loot.

The hens, Dr. Hixson said, have a fowl typhoid, and the pig was suffering from pyemia, a hog disease.

Amarillo Battle Holds Top Spot On Friday Slate

By The Associated Press

There are plenty of important games along the Texas schoolboy football front this week, but the top battle is one that means nothing in a championship way—Amarillo vs. Norman, Okla.

But this game will mean a lot in sectional pride and in showing if all's true that has been said about the Golden Sandies.

Elsewhere in the state conference games take the spotlight. Five districts feature clashes between teams unbeaten in title play. District 2 has Quanah clashing with Vernon, District 7 has Poly (Port Worth) meeting Fort Worth Tech, District 11 has the Kilgore-Marshall scrap. District 15 sends Kerrville against Brackenridge (San Antonio) and District 16 features the Harlingen-Edinburg struggle.

District 9 has twice-winner Stephenville marching against Breckenridge, the favorite. District 10 opens full blast with Waco at Corsicana and Temple at Cleburne in the upper bracket's first conference struggles. And so on.

85 of them conference affairs.

The schedule by districts includes:
1—Friday: Norman, Okla., at Amarillo, Phillips at Pampa, Midland at Plainview, Brownfield at Levelland.

2—Friday: Odessa at Abilene (conference), Langtry at Big Spring (conference), Ballinger at Sweetwater, Cisco at San Angelo.

Vice Versa Golf

TULSA, Okla.—(AP)—Golfer Morgan Jones shot an ace on the 130-yard No. 14 hole.

Five others in the party followed in order—and took, two, three, four, five and six strokes.

Jones was the high man for the round with 82—and the golfer who took six shots on the 14th won with a 73.

TURNER IS PASCHAL COACH

FORT WORTH—(AP)—Charles Turner, assistant coach at Paschal High School, has been named head coach to succeed P. B. Stovall, who leaves this week to join the Navy.

The 1942 Christmas Seal Sale was the largest in the history of the tuberculosis organizations.

Little Arkansas A&M College Flabbergasted Over Football Fortunes After Many Lean Years

MONTICELLO, ARK.—(AP)—Little Monticello A. and M. College is flabbergasted over its football fortunes this year.

The 1943 team, bolstered by Navy-Marine trainees, walloped Arkansas University of the Southwest Conference, 20 to 12, last Saturday—a feat no A. and M. student ever contemplated.

Big-time ideas already are buzzing in the heads of students who used to be willing to play anybody anywhere and take any kind of a licking just for the fun of it.

Team Gets Coaching

Along with transferred football talent from Southern Methodist, Texas Aggies, Oklahoma A. and M., Arkansas University and other schools, there's a suspicion that some kind of coaching is going on.

"Things seem to be mighty changed around here now," said College President Marvin Bankston, "but I can't tell you much about it because it's a military secret."

Things Have Changed
Before the war, faculty member Stewart A. Ferguson, now in the Navy, accepted the nominal title of coach on condition that he wouldn't be paid, wouldn't have to win any games and wouldn't have to take any advice.

Dutch Meyer Is On Spot After Statement That T.C.U.-Aggie Game Winner Will Take Conference

FORT WORTH—(AP)—Leo (Dutch) Meyer, to whom hedging is something you have around the yard, has put himself on the spot with this comment about the football just scheduled here Saturday between his Texas Christian Horned Frogs and the Texas Aggies.

"The team that wins this game will win the Southwest Conference championship."

Now, it's a safe bet that University of Texas football players and fans won't like that. Texas has been going along feeling it was favored for the title, since most everyone said so. Yet here Coach Meyer in one sentence eliminates the Longhorns.

At least, that's the way Texas fans undoubtedly will construe the words. If the winner the Aggie-TCU game will be champion, it's a reasonable assumption that Meyer thinks that team will beat Texas

and since Texas has yet to play both the Aggies and Frogs.

Of course, should A. and M. win over TCU, Texas fans couldn't be throwing Meyer's words back at him because there hasn't been any such comment from Aggie coaches.

In fact, Meyer gives his Frogs only a fighting chance.

"I've had a headache since I saw that game at Baton Rouge," he said of his scouting trip to watch A. and M. beat Louisiana State last week. The Aggies are much better than I expected them to be. The 28-13 score doesn't tell the real story of how badly they whipped the Tigers. It could have been 40 to 0."

He added that the Aggies are in superb condition, imbued with a great spirit, exceptionally fast and agile and "each one was a well-coached high school star and under the able handling of the A. and M. coaching staff those boys have quickly attained surprising team play."

Of TCU's chances to win he commented: "We have more experience and if we use it we can overcome the greater manpower and natural ability of the Aggies."
