## **Things That Make** Life Worth Living

Electricity and electrical appliances are to the American home what religion is to man. They make life worth living.

Nothing is more wonderful than a comfortable chair, a good book and the soft rays of an electric lamp. For the American Home Electricity has done many things. It has placed pleasures in the house where only drudgery had existed.

The vacuum cleaner, electric range, electric washer, electric ironer, toaster and refrigerator have brought many conveniences and pleasures.

Every one should have electricity and electrical appliances in their home, for when discomfort is abolished, then Life Is Worth Living!

Why dry clothes, for the line, a piece at a time, through a hand fed wringer? Why be satisfied with slow, tedious washing methods? Why put up longer with washer tub materials that cannot compare, in cleanliness or long life, with PORCELAIN? It will take years, for others to equal SPINNER speed, performance, perfection. This complete automatic home laundry banishes the wringer, wash board, boiler, rinse and bluing tub and starch bowl-does almost everything but hang out the clothes. Imagine the joy of owning, and operating, an everlasting PORCELAIN home laundry like this -one that washes without hand rubbing; rinses without extra tubs; starches, too-then does the finishing almost as dry as sprinkled clothes, in its fast revolving SPINNER -without a wringer.
