

2 COMMENTARY

From YOUR perspective

Editor's note: The following note is from wing commander Col. Roger Brady, addressing his concerns for future Carelines.

A Careline column provides one of the many opportunities for a commander to find out what people are thinking, what's bothering them, what they like, etc. If you've wondered why we do something, or just want to make a comment, don't hesitate to call.

If you leave your name and telephone number, we'll get back to you and answer your concern by telephone.

Calls of interest to the Reese community will be published, without the caller's name, in the Roundup the following week. I look forward to hearing from you.

Calls can be made to the Careline 24 hours a day at 3273.

Long-distance thanks

I'm calling from Saudi Arabia about the superb support I received from Ann Nelson and Claudia Overman at the Reese Scheduled Airline Traffic Office. In November, TWA lost my baggage and for the past ten weeks I waited for a speedy claims resolution with them.

Having exhausted my resources, I called SATO on Feb. 11, requesting their help in determining the status of my claim. Their efforts were very successful and I was informed today that I would be receiving 80 percent of the amount claimed within 72 hours.

I believe this resolution came about largely due to their professionalism and determination to help a deployed member. Please pass on my sincere appreciation to these two outstanding members of the wing.

This is what Team Reese is about!

Hats off to Ann Nelson and Claudia Overman for taking care of the Reese family!

And thanks to MSgt. Lee Merchant for his thoughtful call. Doing the right stuff is important, and recognizing people when they do it is just as important!

Hospital kudos

On Jan. 27, my son David was in an unfortunate incident at Frenship High School. Another boy broke my son's nose and chipped his tooth. We took him that evening to the base primary care clinic.

Our family wanted you to know that he received the best care from the hospital that evening. Thanks to the dentist, the dentist's staff and everybody involved with the surgery on his broken nose on Feb. 9. The hospital went out of their way to do everything possible for him.

I have been impressed with our medical and dental folks from my first day here, but it's always great to have such great feedback.

Thank you for taking the time to recognize the hospital's excellence. Lots of people are doing good stuff at Reese, and I appreciate you bringing this one to my attention!

'Have a what and a smile?'

from the Reese Dental Clinic

Dentists have traditionally blamed sticky, sugar-laden foods — such as toffee and even raisins — for much of the nation's tooth decay. While it is true that clingy, sugary foods such as these can threaten dental well-being, sugarsweetened soft drinks may be responsible for as many cavities.

With most of the attention focused on sticky foods, soda's dental dangers have, until recently, gone largely unnoticed. The long-held belief that some foods which stick to teeth have greater decay-causing potential than less adhesive foods (soft drinks among them) is being investigated.

Analyzing data on the dental health and diet . patterns of a cross-section of the U.S. population, scientists have found a strong link between soda pop consumption and the incidence of tooth decay.

Gram for gram, sticky foods may actually have more decay-causing potential than soft

ROUNDUP

Bldg. 11

3236 or 3843

...

drinks, researchers admit. When factors such as quantity and frequency of consumption are taken into account, however, soft drinks appear to cause just as much damage as sweet, sticky foods.

Although Americans drink large quantities of soda, tooth decay is most closely linked to the frequency with which sweetened soft drinks are consumed.

The quantity consumed each time is not nearly as powerfully associated with decay as how often the sugary liquid is consumed. In other words, sipping a sweetened soft drink all afternoon is theoretically more harmful to your teeth than drinking a large soda with a meal and then abstaining from soda for the rest of the day.

With this newfound knowledge, controlling your family's soda intake makes a lot of sense. The Reese Dental Clinic encourages your family to avoid between-meal snacking and to minimize consumption of sugary sticky foods.

Quality CS sergeant's efforts upgrade base computers

by Capt. Frank J. Rossi Jr. 64th Communications Squadron Commander

Quality

It's an elusive term that is difficult to quantify when determining success in an area of responsibility. Within the 64th Communications Squadron, we measure quality by customer support — i.e., what we accomplish and how we provide our support to the mission of the 64th FTW and Reese.

-

R

21

15 mg

1

2

Our support to the wing during the basewide small computer upgrade has produced superb results. Through a year-long effort, Sgt. Robert Battles from our plans and implementation flight brought Reese up to industry standards in the small computer area. Upon finding that the Reese standard was the antiquated (by industry standards) Z-248 computer, he determined an upgrade was desperately needed.

Initially starting with a few machines, the upgrade effort quickly grew to encompass all of Reese. Working hand-in-hand with members of the 64th Contracting Squadron, financial management division, wing command section and a local vendor, he developed an upgrade plan, obtained funding and meticulously managed the purchase of almost \$500,000 in resources. Results: most of Reese's outdated machines are now powerful 486 computers.

Not only did Sergeant Battles effectively upgrade over 250 machines, he did so at an overall cost savings of almost \$40,000! Using the old Z-248's as trade-ins, he was able to procure better, more powerful computers than those available at a higher cost on the Air Force standard contracts. In addition, he bulk purchased over 250 sets of the AETC-preferred Microsoft Office software, saving individual units from ordering their own and further congesting the already over-burdened Air Force program management office at Gunter AFB, Ala.

With the upgraded computers and new software, Reese received an added bonus many people may not be aware of. As we move into an ever-increasing automated environment, local area networks, or "LANS," are rapidly becoming the standard means to transmit and receive files, documents, electronic mail etc., replacing more labor-intensive "air-gap" methods. LANS require a 486 machine, and together with Windows software, we've completed the allimportant first step of LAN implementation.

In closing, the basewide small computer upgrade project was, without a doubt, a quality success story with significant, tangible results. Reese not only gained industry standard machines with powerful software at a significant savings, but can now support present and future automation requirements. This is quality at its best.

The annual Air Force Assistance fund drive starts today on Reese, with the base goal set at \$12,150. Last year Reese members donated a total of \$22,470, exceeding goal by more than 166 percent.

According to 1st Lt. Dave Trotta, AFAF project officer, the campaign will run through March 31.

AL ST

The AFAF supports the Air Force Aid Society, Air Force Enlisted Widows and Dependents Home Foundation Inc., the Air Force Village Indigent Widows' Fund, and the Gen. and Mrs. Curtis E. LeMay Foundation. Contributions may be made through payroll deductions, cash or checks. Contributors may give to the general fund or to a specific AFAF beneficiary.

Last year, the Air Force Aid Society provided over \$13 million to over 21,000 Air Force people in the form of interest-free loans or grants. Locally, the AFAS helped 62 people in the Reese community with over \$33,000 in grants and loans, according to Lieutenant Trotta. AFAF money can be

used to pay rent, food, utilities, funeral expenses and other family emergency expenses. The society offers other services, such as academic assistance, for Air Force people. One such program is the AFAS

and other direct educational expenses.

The society plans to award over 4,000 grants for the 1994-1995 school year to full-time, undergraduate students who are dependents of activeduty, retired or deceased Air Force members. The deadline for preliminary applications is March 25.

Application forms for college grants and other society aid are available through the Reese Family Support Center, located in Bldg. 310. Call 6395 for more information. Those who have questions about the assistance fund drive should contact their

'Bright future' for enlisted training, Chief Sanford says

by Sgt. Pauline Aldridge **AETC** News Service

RANDOLPH AFB. Texas - Air Education and Training Command's senior enlisted advisor forecasts a bright future for enlisted training as AETC takes the lead in shaping tomorrow's Air Force.

The effect of AETC's "Year of Training" initiatives will be felt all over the Air Force as new technical training courses and the College of Enlisted PME stand up, giving the command a prominent position, said CMSgt. Thomas Sanford.

Chief Sanford compared today's shrinking force with the post-Vietnamera force and came to one conclusion - "The Air Force is doing it right.

"We are facing the same drawdown cycle we faced in the 1970s but, this time, we are taking a proactive approach to reorganizing the Air Force," he said.

Year of Training. Restructuring technical training and professional military education shows an investment in the future enlisted force, the chief said. "As a command, we are in great shape. The Air Force is investing a lot of money and energy in building the infrastructure at our training bases. New training courses are also on line.'

As Chief Sanford tours the command, he sees new buildings sprouting up and state-of-the-art equipment coming on line. Many of the threelevel schools are up and running. Seven-level school development is moving along and is expected to be fully implemented in 1996. "These efforts mean a continued emphasis on building the best training capability in the Air Force," Chief Sanford said.

• Non-technical skills such as supervision and management will be developed in the recently conceived College

One step in that approach was the for Enlisted PME, which falls under AETC. Under the education and training career path, PME classes are scheduled at specified times in members' careers as they progress and are promoted. The college is responsible for the curriculum of Airman Leadership School, NCO academies and the Senior NCO Academy. It is an important innovation because all enlisted members will get the same PME regardless of where they are, the chief said.

> Chief Sanford credited the college with providing a focus for PME that will help the enlisted corps lead the Air Force of the future. The college emphasizes Quality Air Force and core values - two concepts Sanford believes are necessary in a competitive environment.

"Quality Air Force teaches the process. But integrity, as a core value, is key to questioning the process as we build a smaller and more effective force," Chief Sanford said.

Chief Sanford sees the enlisted corps taking on much more responsibility. He said the officer-to-enlisted ratio is out of proportion. One solution is to convert some officer positions to enlisted and civilian positions. "We have fine enlisted people who can carry a lot more responsibility than they have before. The time is right as we drawdown to move responsibilities where they should be," Chief Sanford said.

Indicators show junior enlisted members are taking on greater responsibilities even now as the force shrinks, he added.

Today's force is better educated, better trained and is equipped with management skills to handle future demands, Chief Sanford said.

"Since everyone passes through AETC during their career, we owe it to the future of our Air Force to motivate and energize them.'

10 D NEWS / FEATURE

ROUNDUP I FEB. 25, 1994

Editor's note: Items in "Reese achievers" are based solely on inputs to the Roundup staff, Bldg. 11. For deadline information, call 3843.

OPG cites best of the quarter

First Lt. Jim Eisner has been selected as the outstanding company grade support officer during the last quarter for the 64th Operations Group.

Gary Kimball has been chosen as the civilian mission maker in the group during the same period.

OPG officials praised both selectees, saying that they "have displayed extreme dedication to both the Air Force and the Reese mission."

Annual, quarterly MEDG winners honored for performance

The 64th Medical Group has announced their top people for the past year and quarter. They are: □ 1st Lt. Cuvier Lipscomb, officer of the year.

□ Jennie "Flo" Kohanek, civilian of the year. Capt. Diane Goddard, officer of the quarter. □ MSgt. Steven Hastings, senior NCO of the quarter.

□ SSgt. Shirley Board, NCO of the quarter. □ A1C Bradley Ferch, airman of the quarter. □ Ellen Reese, civilian of the quarter.

Safety award announced

MSgt. Norman King, 64th Civil Engineering Squadron, is the winner of the wing quarterly ground safety award.

Sergeant King, the CES unit safety representative, was cited for aggressively identifying and correcting numerous safety hazards during the quarter, implementing an extensive safety training program for CES members and propelling his squadron to a superior showing during the last annual wing safety inspection.

Length of service recognized

The following wing civilians have reached the 10-year mark in their careers:

□ Stephen Jones, 64th Civil Engineering Squadron. He has been on base since 1987 and works as an environmental protection specialist.

□ Latrice Paxton, 64th Logistics Squadron. Paxton is as an office automation clerk and has been at Reese since 1984.

Barbara Williams, 64th Mission Support Squadron. She initially began serving at Reese in 1978 and is currently a test examiner.

On patrol

Civil Air Patrol carries out diverse mission of lifesaving and training

by Sara Rosett Volunteer Staff Writer

They saved 110 lives in 1992, yet many people know little about them.

When an emergency occurs, the Civil Air Patrol usually has a high profile; the Texas Wing of the CAP made three of those 110 saves, according to the patrol's 1992 Congressional report. However, other functions such as aerospace education and cadet training are not as well known.

"It's the best-kept secret around," said CAP Maj. Curtis Trull, commander of the Reese Composite Squadron, in describing the patrol. The squadron is made up of senior members (18 and older) and cadets (13 through 18 or those who have completed the sixth grade).

The most visible part of their mission, emergency services, involves searching for missing aircraft as well as missing people. Last year, the Reese squadron participated in a joint exercise with University Medical Center, Methodist Hospital and the Red Cross. For the exercise, an aircraft crash was simulated in Ransom Canyon.

According to Major Trull, who is also an active-duty senior master sergeant, the general area of the crash was located by signals from

mitter. The patrol launched air sions. The patrol also plays a key teams who in turn directed ground teams to the crash site. Ground teams located victims and began first aid.

Air teams consist of three people: a pilot, an observer and a scanner. The observer is skilled in navigation and using a gridding system while the scanner observes the ground looking for the crash site or the missing person. CAP flies 80 percent of search and rescue misstons directed by the Air Force Rescue Coordination Center, according to Major Trull.

CAP 2nd Lt. Ramon Guerrero, Reese composite squadron's deputy commander for cadets, participated in an actual search Dec. 31. "I got a call late at night. There was a missing plane with three people on board. Four cadets and three senior members made the trip to Van Horn, Texas," said Lieutenant Guerrero, who is also a senior airman in the Air Force. Air teams sited possible aircraft wreckage 60 miles north of Van Horn in the on display. Members from the lowilderness. "Members of our ground cal area, Amarillo and New Mexico officers and administrative positeam, working with the local helped security police with ramp se- tions, to name just a few. sheriff's department, were dis- curity, parking and communicapatched to the crash site. Unfortunately, there were no survivors," he said.

role in times of crisis. Other emer-Trull, include transporting

donated organs and providing emergency transportation in times of disaster. Damage assessment after a tornado, flood or nuclear disaster can be tasked to CAP. Also, they fly counternarcotic surveillance

missions, and when asked by the military, the CAP participates in exercises.

"Multi-faceted" is how Major Trull describes the aerospace education portion of the patrol's mission. They educate cadets, senior members and the public in aerospace matters. The most recent example of aerospace education was during the last Reese air show, said Major Trull. CAP had an aircraft and search and rescue equipment tions.

Cadet training, another aspect of CAP's mission, is "for people inter-Emergency services consist of ested in aviation, aerospace and

the plane's emergency locator trans- more than search and rescue mis- serving the community," said Major Trull.

> "It's great being involved with the gency services, according to Major cadets and getting to pass along some experience to them,"

> > said Lieutenant Guerrero. "Teaching the cadets something that will stay with them for the rest of their lives is one of the best things about working with CAP," he added.

1

As an official auxiliary of the Air Force, the

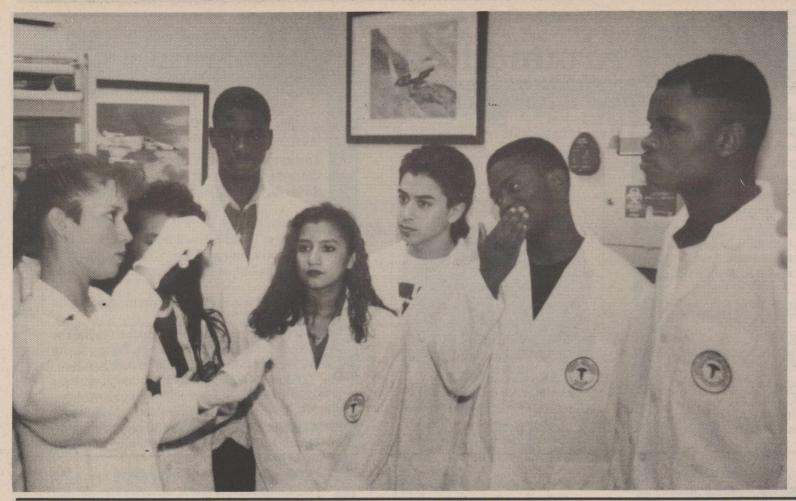

CAP provides an opportunity for citizens, both military and civilian, to voluntarily serve their community. "We're on call all the time," said Major Trull. "(The members) are dedicated."

You don't have to be a pilot or a ground crew member to be a part of CAP according to Major Trull. Emphasizing the variety of positions in the patrol, Major Trull said they have public affairs officers, finance officers, and communications

"CAP does such a wide variety of things," he said, "that there is something for everyone." For more information, contact Major Trull at 3529 or Lieutenant Guerrero at 3896.

Local students tour MEDG

Amn. Melissa Payne, 64th Medical Group Laboratory, talks to students in the Estacado High School Medical Professions Magnet Program Feb. 18. The students, all sophomores, toured the hospital to learn more about the medical profession, which is the aim of the magnet program. Several dozen Estacado students visited MEDG during the tour.

T

Enlisted club holds meeting

The Reese Enlisted Club will hold a general membership meeting at 5 p.m. today. The meeting will be an open forum on the status of the club; all members are encouraged to attend.

Banquet upcoming

The Black History Month banquet is set for 6 p.m. Saturday in the officers club. The featured speakers will be retired Col. William A. Campbell and retired Lt. Col. Herbert E. Carter, two members of the original Tuskegee Airmen.

Tickets cost \$12 for E-5s and above and civilians, and \$8 for E-4s and below. They are available from members of the Black History Month committee. Everyone on base is welcome.

This month in history at

...*in 1986* — The Caprock Cafe reopens after an extensive, six-month renovation.

...in 1987 — Reese Manor, a recreational facility built with savings from Model Installation Program suggestions, formally opened.

...in 1990 — The T-1A "Jayhawk" was selected as the new Air force training aircraft, and Reese was chosen to be the first base to implement specialized UPT.

Honor Guard marches

The Reese Honor Guard will take part in the Lubbock Black History Month parade, set to start at 11 a.m. Saturday at Estacado High School and proceed on Martin Luther King Boulevard to the Mae Simmons Community Center.

Any other wing members who are interested in participating in the parade should call Dwight Pierce at 744-0766.

OWC scholarships available

The dealine for applying for an officers wives club scholarship is near. Interested applicants should contact Lauren Mont at 794-8070 as soon as possible.

Scholarships available

Children and spouses of active-duty military members who are high school seniors or who have graduated in the last four years are eligible for the Anheuser-Busch Inc. scholarship program administered by the United Services Organization.

Twenty-five \$1,000 scholarships will be awarded to students based on scholastic records, test scores and extracurricular activities. Application forms are available at the base education center and must be returned to USO by Tuesday. Call 3634 for more information.

Résumé class scheduled

A two-part class on writing résumés will be held from 9 to 11 a.m. Wednesday and March 9 in the family support center. Reservations are required. Call Pamela Appell at 3305 for details.

Exchange meeting planned

A meeting of the base exchange/commissary advisory council will be held at 2 p.m. Thursday in Reese Manor. People with questions or suggestions for the council should contact their unit representative.

Energy surge

(from the Reese Energy Steering Group) If your refrigerator has coils on the back or the bottom, vacuuming them often can improve efficiency by as much as 30 percent.

Also, make sure the door seals tightly and keeps in the cold air. To check, close the

door on a dollar bill. If you can pull the bill through easily, your seals may need replacing.

Vet clinic closed

The base veterinary clinic will be closed March 9 through 11 while the staff is TDY. It will reopen March 14 at 8 a.m.

ALS graduates

Reese Airman Leadership School Class 94-A will graduate during a luncheon ceremony at 11:30 a.m. March 4 in the enlisted club. Everyone on base is welcome; the luncheon costs \$5.

R.S.V.P. is due by March 1; call 3147.

Civilian SOS nominees

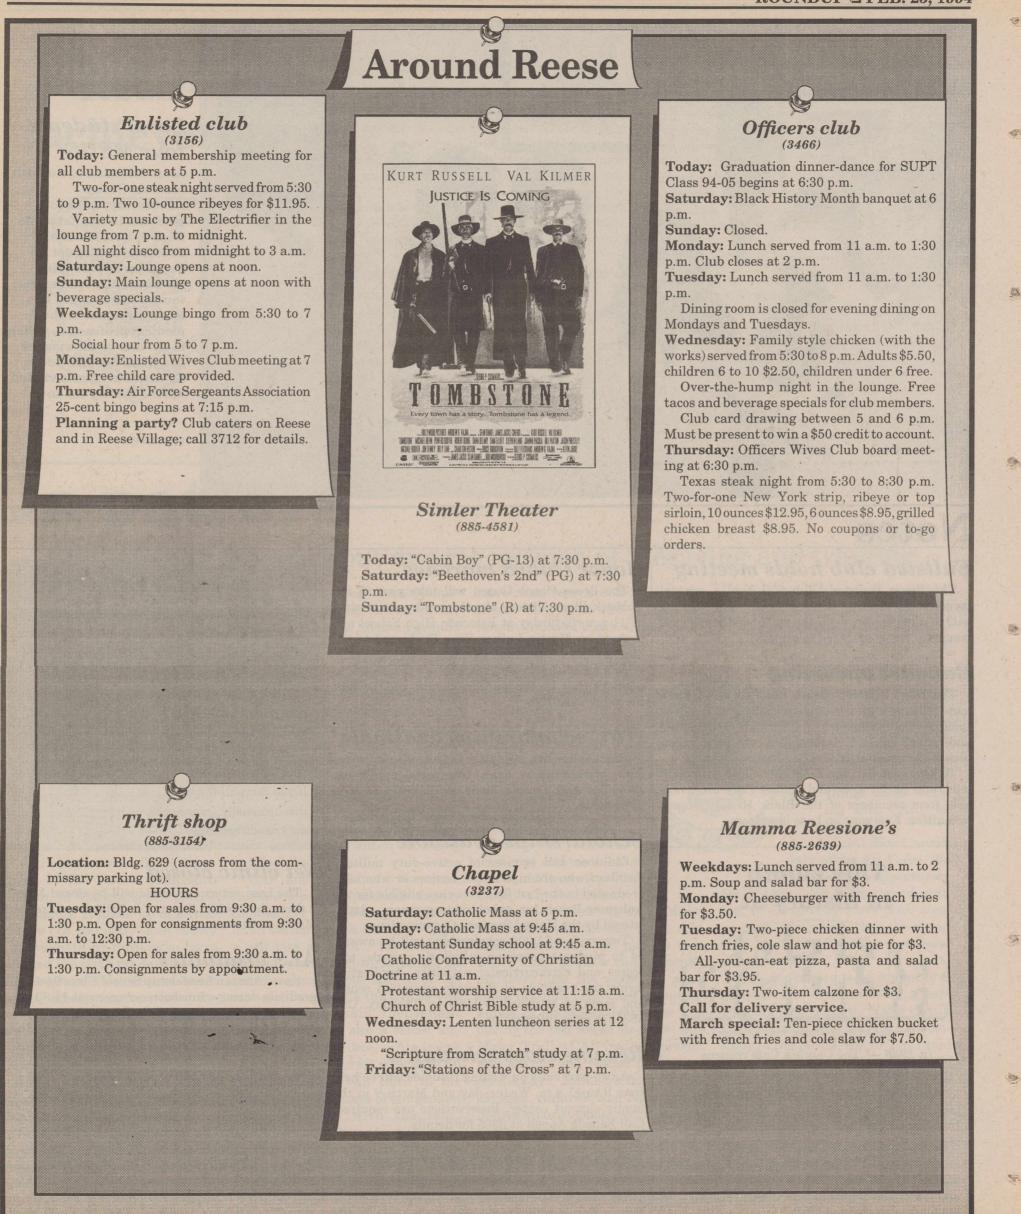

Civilian nominees for Squadron Officers School are being sought by civilian personnel officials. Nominees must be in grades GS-9 through -12, have three years or more federal service and meet the physical requirements in Air Force Regulation 35-11.

Nominations are due to higher headquarters by May 27. Call Nina Dailey at 3803 for more information.

'Polyester panic" under way

The "polyester panic" has begun at the Windmill Lanes Bowling Center and runs through April 30. Bowlers can get three games for \$2 during all open bowling; drawings for cash and prizes will also be held. The grand prize is a television.

Certain rules apply; stop at the desk for more information.

Coaches, players needed

People who want to coach or play on the base softball teams should call Gary Grant at the base fitness center, 3207 or 3782. Coaching applicants should be able to turn in résumés by close of business today.

Bowling schedule

Today: "Polyester panic" all day.

Saturday: Young American Bowling Alliance from 9:30 a.m. to 1 p.m.

"Poor boy" special (three games for \$2) begins at 1 p.m.

Casino night at 7 p.m. Costs \$10 for food and prizes.

Sunday: Open bowling from noon to 10 p.m. Mixed league at 6:30 p.m.

Monday: Mixed league at 6 p.m. Tuesday: Law enforcement league at 7 p.m. Wednesday: Mixed league at 7 p.m. Thursday: Industrial league at 6:30 p.m.

Free aerobics scheduled

A free Saturday aerobics class is held at 10:30 a.m. in the Mathis Community Center. Everyone on base is welcome.

52nd FTS 'racking' it up

Flyers remain unbeaten in intramural racquetball

by A1C Timothy E. Dempsey 64th FTW Public Affairs

The 52nd Flying Training Squadron continued their march for a perfect record in intramural racquetball as the fourth week of competition began Tuesday night at the fitness center.

Capt. Robert Loher led the 52nd FTS (4-0) to victory over the 64th Security Police Squadron (1-3). Captain Loher, Lt. Col. John Mazurowski and Capt. Brian Burns each

defeated their opponents in two games. In the 5 p.m. game, the 35th FTS (3-1) defeated the 64th Civil Engineering Squadron (1-3).

In the make-up games later this week, the 64th Mission Support Squadron (2-1) will battle the 64th Logistics Squadron (2-1) Thursday night and the 64th Medical Group (3-0) will put their unblemished record on the line against the 35th FTS. Also, Lockheed (3-1) will face the 64th Communications Squadron (1-3).

ROUNDUP FEB. 25, 1994

(NAPS) He's "O" so cool and "O" so fun, and now he has a free comic book kids will dance "circles" around. He's TheO", Franco-American[®] SpaghettiOs animated spokescharacter.

When SpaghettiOs was introduced in 1965, a cheerful Happy Face symbol was all that was needed to encourage kids to try "the neat round spaghetti you can eat with a spoon." The Happy Face has evolved into the now familiar "TheO" character who is featured in the first major packaging change in the brand's history. "TheO was born after research with hundreds of kids and moms. As a result, the character became a 'living' symbol of the SpaghettiOs brand," says Marketing Manager for Franco-American Pasta, Vince Melchiorre. "He's a character that kids can relate to because he does the things they like to do—roller skating, skateboarding and playing video games."

ADVERTISEMENT

To help SpaghettiOs lovers everywhere get to know TheO, Franco-American Pasta is offering a free comic book. Entitled "Adventures of TheO," the book takes kids on a journey where they travel through an amusement park, solving clues as a way to find prizes.

"The comic book will encourage children to read, while helping hone their problem-solving skills," notes Melchiorre. "But even more important, the comic book, like TheO himself, provides lots of fun

Uh O! Free Comic Book Offer From SpaghettiOs® Pasta Makes Reading Fun For Kids Of All Ages

> for kids of all ages." With a round "O" shaped body and a huge smile, TheO looks like an animated rendition of the fifteenth letter of the alphabet. While ageless, his frequent skateboarding expeditions and perpetual high-topped sneakers make him extremely popular among children. His favorite color is said to be "o"range, and he reportedly has a sixth sense for knowing when SpaghettiOs are around.

To order a free copy of "Adventures of TheO," send your name and address to: TheO Offer, P.O. Box 964, Bensalem, PA 19020.
