TEN CHINESE NAMED "AH" GIVE COPS MERRY "HA-HA"

Charged With Disorderly Conduct When All They Were Doing Was "Singing."

New York—Ten Chinese—Ah Foo, Ah Me, Ah Ha, Ah Sha, Ah Hoo, Ah Gee, Ah Well, Ah No, Ah Choo and Ah Be himself—were arraigned recently in West Side court before Magistrate George Ewald.

They had been arrested and booked on charges of disorderly conduct by detectives from the staff of Deputy Chief Inspector James S. Egan, led by Detective Archibald McNeill.

McNeill told the court that complaints had poured in from all the people living anywhere near 188 Claremont avenue that so much noise was going on there that they couldn't sleep. He and his colleagues had rushed up there, he said, and heard the racket themselves.

They traced it to a rear room on the ground floor, listened at the door till they thought their ear drums would burst and then broke in.

Inside, said McNeill, were the ten Chinese. They were seated at a table, he asserted, upon which were a pair of large white bone dice and several pieces of English money—half-crowns, shillings, sixpences, half-pennies, and he believed a threepence or two. The ten men, he said, were shouting craps, and, unless he was the victim of an optical delusion, it was they who had been making hideous noises.

"What do you mean by hideous?" asked Magistrate Ewald.

"Well, your honor," replied McNeill, "when a Chinaman wins at craps he wails out a long, loud, exultant 'Wahoo.' And when he loses he throws back his head and lets loose a long, loud, despondent 'Wahoe.' And as some were winning and some were losing, the combined yells were, we repeat, hideous."

Ah Foo, who said that he is a laundryman, was spokesman for himself and his nine companions. The magistrate asked for his version.

"We were not playing craps, we were playing mah jong," said Ah Foo. "That is, only three of us were playing—Ah Me, Ah Ha and Ah Sha. And we were not very noisy."

"What were the rest of you doing?"

"Three of us were asleep—Ah Hoo, Ah Gee and Ah Well."

"And the rest?"

"Three of us were telling bedtime stories—Ah No, Ah Choo and Ah Be himself."

"And the tenth?"

"He was singing, to amuse us all."

"Dismissed," said Magistrate Ewald.

"Ah, what's the use?" said Detective McNeill. Now all these Ah's will be giving us the Ha-Has."

Weinert Methodists To Observe Closing of Conference Year

Rev. Cecil Fox, pastor of the Weinert Methodist Church, announces that the closing services of the Conference year will be observed at both the morning and evening hour services in their church. The subject for the morning hour will be: "A Glimpse Into a God-Planned Life," and for the evening hour: "A Spirit Filled Church."

Rev. Fox makes the following announcement concerning next Sunday's services:

"These will be the last services of the Conference year, and a cordial invitation is extended to every person in the city and surrounding country to be present. In the message at the noon hour, the pastor will discuss some personal experiences in his call to the ministry, and what God can do with a life given to Him. At the evening hour the pastor will discuss, 'A Spirit Filled Church.'"

"Won't you aid us in this service by being present? Let us make this the greatest day of the year. Our Annual Conference meets at Pampa, Texas, November 13th, and according to the working plan of the Methodist Church many of the pastors will be moved to new fields. It is possible that this might be the last service conducted by your pastor and he will be more than pleased to have you present at both services."

Registration cannot start until January 1, the attorney general's department has ruled, and must be finished before midnight of February 1.

Present combined weight and horsepower basis for fixing the license fees has been abolished, and weight alone will govern the fees in 1930. A scale of weights and costs has been prepared, by which the owner of a car may figure out for himself what his new number plates will cost him. Weight of his car can be ascertained from his present registration slip. To this 100 pounds for water, gasoline and oil will be added. Following is the table of charges on the various weight cars:

Table with 2 columns: Weight (2001-3000 lbs) and Cents per 100 lbs (25 cents).

Interesting Exhibits The world's oldest paper money, in reality a sort of letter of credit, issued in 1661 by a private banker in Stockholm, was sent from Sweden to Amsterdam for exhibition at the international economic exposition. Prior to that time the Swedish currency consisted mostly of copper coins which gradually became so large that they were unwieldy. The largest known weighed about 40 pounds. Another odd exhibit in the Swedish section was a collection of 2,000 match boxes, each with a different label, to illustrate the wide distribution of Swedish safety matches. Actually over 9,000 different designs are in use to suit the various local markets, but the boxes are all of the same standard size.

Oration Peter Gaskell, millionaire socialist, said in a lecture in Boston: "Wealth, after all, is chiefly prized for the ostentation and display it lends itself to. Wealthy people in their hearts are very much like Newrick."

Newrick attended a wedding breakfast with an enormous new diamond in his necktie. Nobody complimented him on the beauty of the stone; though he kept adjusting his necktie nobody appeared even to notice it; so finally he rose from his chair and addressed the bride and groom in loud tones. "May your wedded life," he said, "be as bright and pure as this."

"And he tapped the diamond with his forefinger."

Comparative Riches There is a story of a man whom others called poor and who had just enough fortune to support himself in going about the country in the simplest way and enjoying the life and beauty of it. He was once in the company of a great millionaire, who was engaged in business, working at it daily and getting richer every year, and the poor man said to the millionaire: "I am a richer man than you are." "How do you make that out?" said the millionaire. "Why," he replied, "I have got as much money as I want and you have not."

AUTO OWNERS SAVE MUCH IN LICENSE FEES

Texas automobile owners will have \$11,000,000 pocket change left over in January when they register their cars for the new year, as compared with the costs this year, according to advices from Austin.

The four-cent gasoline tax will gradually absorb much of this, having been raised from 2 cents this mid-year, but this will be taken so gradually that it will be paid later.

License fees for 1930 will range from one-half to two-thirds this year's cost. Light cars will run just half, with a sliding scale based wholly on weight ranging up to two-thirds the old fees on the heaviest passenger cars.

The reduction will average \$10.00 each on the 1,100,000 cars to be registered.

Registration cannot start until January 1, the attorney general's department has ruled, and must be finished before midnight of February 1.

Present combined weight and horsepower basis for fixing the license fees has been abolished, and weight alone will govern the fees in 1930. A scale of weights and costs has been prepared, by which the owner of a car may figure out for himself what his new number plates will cost him. Haskell Baptists CONVERSION

Conversion is a change from one state to another. When applied to religion, it is the name of the change that takes place when one is converted from a child of Satan and becomes a child of God. Acts 3:19 gives the Bible definition of Conversion. There are many outstanding conversions in the Bible, but we will refer to only two at this time.

NEXT SUNDAY 9:45 a. m.—Sunday School. 11:00 a. m.—Prayer service, subject: "CHRIST ACCUSED OF BREAKING THE HOLY SABBATH DAY." There are two extreme views regarding the Sabbath. It is possible for us to take an extreme view. Christ gave His enemies a thorough discussion on the subject. We urge the public to come and bring your Bibles that we may intelligently study this subject. 6:30 p. m.—All E. Y. P. U.'s meet. The wonderful work being done by the different unions is encouraging. We hope the time will soon come when we can have as many people in our E. Y. P. U.'s as we have in Sunday School. 7:15 p. m.—Prayer service, subject: "THE TENDERNESS OF JESUS IN DEALING WITH THE FAULTS OF OTHERS." We often forget and are too harsh in our criticism. May we learn to follow Jesus. GOOD MORNING, GOOD EVENING AND WE QUIT ON THIS

Through an oversight, the Press failed to chronicle the passing on Oct. 18th of Little Billy O'Connell, 8-year-old son of Mr. and Mrs. Shelby Harris of the Sayles community, whose death occurred in the Stamford Sanitarium where he had been taken several days previously when blood poisoning set up following an injury to his foot. Funeral services were held in Stamford on Saturday, Oct. 19th, conducted by Rev. G. Robt. Swenson, pastor of the First Christian Church, and a large concourse of sorrowing friends and relatives gathered to pay their last respects to this lovely young lad whose untimely end brought unmeasurable sorrow not only to his parents and loved ones, but to the hearts of all who knew him. The little form was laid to rest in Willow cemetery, with a profuse floral offering from a host of friends.

### Along the Way

The reformers these days are hitting on both sexes.

In the school of experience you never graduate.

Many a divorced person probably wonders whether warnings at the altar wouldn't be as useful as those at railroad crossings.

A novelist says "a woman who thinks no man is good enough for her is often right." And probably often left.

Calvin Coolidge writes pieces for the magazines. Mrs. Coolidge writes, and Florence Coolidge does too, which must make John feel awfully dumb.

We often wonder what Necessity, looking over some of the inventions thinks of some of her children.

If the prisoners don't like the crowded conditions of the jails they ought to keep out of them.

You don't have to advertise that fried chicken contains certain vitamins to get people to eat it.

If the sleeping car porter feels insulted when you give him a tip, he at least pockets the insult gracefully.

A Boston man claims to have smoked 12 cigars a day for 37 years and has never signed a testimonial. He's the eighth wonder of the world.

A Mexican found hanging to a telephone pole asked for a drink as soon as he was down, says a dispatch. That's what most people found hanging around places ask for first.

Is the underslung pipe to be considered the sign and seal of the new type of diplomat?

Frequently the expert is a fellow who charges you a hundred bucks for doing what some one else would have done for ten.

After all the philanthropic efforts to make our penitentiaries pleasant, these prison murders seem downright ungrateful.

Sickness costs Uncle Sam Four Million Dollars a year, but the old boy seems to get quite a bit of work done every twelve months.

The New York Times heads a letter from a nature lover. "Rescuing Roadside Beauties." Wonder if beauties walking home from a ride in the country are the kind referred to?

### Nebraska City Boasts of Two-Headed Snake

McCook, Neb.—One can go to almost any county fair and see a two-headed calf or a two-headed colt, but McCook has a two-headed snake.

The reptile is about eight inches long, perfectly normal in its actions and to the casual onlooker just twice as dangerous as an ordinary snake. When the snake decides to move across a room it rests one head on the other and wriggles along in snappy style.

Both of the heads are apparently normal in their functioning. Forked tongues protrude from both, both have eyes, and both dart around with lightninglike rapidity.

### Boy Loses Foot Saving His Dog From Train

Kansas City, Mo.—When Smoke, his police puppy, was in danger, Charles Breistein, sixteen years old, didn't hesitate to leap in front of a train to rescue him. Smoke reciprocated by barking until Charlie's father found the boy on the right-of-way, one foot so crushed that it had to be amputated.

Charles and Smoke had been on a hike when the dog got on the path of a Milwaukee train. The youth scooped him off the track but failed by a fraction of a second to jump clear of the locomotive.

### Rattlesnake Proves to Be a Hitch-Hiker

Goose Creek, Texas.—A 10-inch diamond backed rattlesnake with a lust for travel, and a motorist making a tour of west Texas, recently combined to make a filling station attendant wary of future requests for a change of battery water.

T. C. Jordan of Belly Hite realized while driving peacefully on his way that he was playing host to the ride-stealing reptile. He became cognizant of the fact rather abruptly, however, when the attendant informed him of the presence of the snake which was curled up placidly on the battery box, having ridden a distance of 500 miles.

### TALENT—GENIUS

By Joe Meacham

It is true that most any one can learn to play a musical instrument but no two will learn with the same rapidity or accomplish the same ends.

One big teacher and bandmaster says that there is no such a thing as genius or talent inborn in regard to music.

It is true there are seven letters in the musical scale against twenty-six letters in the alphabet. The child does not have to have this scale or alphabet born in it to learn to read. Any child can be taught a common vowel has three sounds, long, broad and soft. These correspond to our naturals, sharps and flats in music. The fingering of a note on the instrument requires only normal education, and nothing more. That C is fingered open or Treble Clef instruments in brass and is made with the third finger on the G string of a violin and is found at a certain place on the piano.

Producing a tone on an instrument is a matter purely physical. The tone is good or bad according to the physical fitness of the lips, the fingers, the bowing arm and the breath control. Time in music is just a matter of arithmetic and nothing more, a whole note equals four and a half note equals two and it does not require a genius to learn

arithmetic. We can do many things if we make ourselves get right down and work.

The definition of genius is work but the born talent is the love born in us for music and other things. The one born with the talent for music or any line, studies it because he loves it and is bound to make better progress.

### CARD OF THANKS

We take this means of expressing our sincere thanks to all our friends for words and deeds of sympathy during the loss of our dear little Billie. Also for the many beautiful flowers. May each of you meet with the same loyal friends as you go through life.

## Hogs—Steers—Sheep

### "The Purina Pound Is Cheap"

IT'S not what we say about Purina Chows counts—it's what the animals say. Through feeding records from all leading hog raising centers, 90,247 hogs shout, "Purina makes pork at \$6.50 hundred," while 19,890 steers add, "and makes at \$10.08." At the same time 33,399 sheep "say \$9.98 per cwt. gain." No wonder Purina feeders are making money—more money than by any other plan of feeding. No wonder we became enthusiastic about Purina and decided to become the local authorized distributor of the Checkerboard line.

You'll be an enthusiastic booster, too, once you've fed Purina to your poultry and live stock. Why not phone us for a supply—or drop in.

**Builds 3,500 Planes First Half of 1935**  
 Cleveland.—Thirty-five hundred commercial and military airplanes, valued at \$25,000,000 were produced in the United States during the first six months of this year, the Aeronautical Chamber of Commerce of America reported at its meeting here recently. Announcement of plane production work has been closely guarded heretofore. These were the first official figures to be made public this year.  
 The open cockpit type of plane led the field for the largest number of single type produced. Cabin monoplanes ranked second with 884, indicating a considerable advance in production over previous years.  
 Because of the rapid development of major passenger airplane operations, multi-motored transport planes showed a remarkable increase over last year with a total of 115, compared with 63 in 1934. Military plane production showed a marked decrease, less than 50 per cent of last year's total being manufactured. There was, however, a marked increase in the two place open cockpit planes for sport and training purposes.

**Cat Lays Away Money; Hoards for Rainy Day**  
 San Francisco, Calif.—This is a tale of dark deeds and hidden treasure and of a cat who believes there is nothing like a bank account.  
 The cat is Gogo, the property of Mrs. Lillian Walker. He has a nice home and plenty of good food, but he knows that good times don't last forever. And he certainly doesn't want to become a common alley cat. So he decided to be on the safe side.  
 Recently, while cleaning house, Mrs. Walker happened to lift a rug, and there she saw 65 cents. How it got there was a mystery until, several days later, when she dropped a coin near Gogo, who quickly took it in his mouth and carried it to his secret lair.  
 Then he went down into the garden and brought his mistress a flower by way of peace making.

**Picts' Flint Shop Found in Orkney**  
 Sandwick, Orkney.—Another underground dwelling was discovered recently at the Skara Brae Picts' village in Sandwick, Orkney. One side of the hut is almost complete. Excavators reached the floor level through an accumulation of clear sand and the site of the central fireplace was disclosed. At one side a "treasure store" of flint implements was uncovered. Prof. V. Gordon Childe, who is directing the excavations, has named this hut the "flint knappers' workshop" for more than seven stone flints were found. Finely worked scrapers of dark flint and numerous flakes were strewn around the floor level.

**Trace Origin of Gypsies to Northwestern India**  
 The race of gypsies is now a very much mixed one, with elements of the blood of all of the countries in which they have resided; and gypsies from one part of the world may present characteristics and appearances quite different from those of another part.  
 The English word gypsy reflects the old belief of many countries that the gypsies were Egyptians. In other countries they were called Tartars. The old agreement of the traditions concerning them was that they had come to Europe out of the East.  
 Modern inquiry has revealed a good deal of their true history, however, and has established that the race is originally from northwestern India. Bands of the inhabitants of this region were driven away from their homes and set wandering by hordes of northern invaders which swept down upon them in the Ninth century.  
 These forerunners of the modern gypsy moved into Kabulistan and Persia, and ultimately filtered through Syria into Egypt and northern Africa and through Turkey into Europe. There are now fourteen or more distinct dialects of their language in European countries—indicating their widespread distribution.

**Dunmow Flitch Traced to Ancient Ceremony**  
 Father Ronald Knox wrote an amusing preface to the program for the Dunmow Flitch celebration, which is held annually at Ilford, England. "I have never been married," he wrote, "so I cannot tell what are the probabilities of your having deserved the flitch. I can only say that if you have deserved it, yours must be a tame sort of life, for which a whole sausage factory would not sufficiently compensate." Father Knox traces back the origin of the flitch to the ancient days of marriage by capture. "On the occasion of the wedding," he writes, "we must suppose a marriage treaty would be struck by the sacrifice of a pig. The ceremony was performed by the bridegroom, hence the custom that the bridegroom should cut the first slice of the wedding cake. Originally, no doubt, the wedding cake was an offering of meat shaped to represent a pig. The carcass of the pig became the property of the bride's father. If the wife did not prove satisfactory to her husband he would go to her father and demand to have his pig back. Originally, then, the Dunmow Flitch must have been awarded in view of unhappy, not of happy marriages."

These evening services are drawing capacity houses, so come early and get a good seat next Sunday evening. After the song service the sermon will follow, by the pastor.

**Drift With Wreck Four Hours Flashlight Signals Aid Rescue**

**FUNCTIONING perfectly after being submerged in the waters of Lake Michigan for more than two hours, a flashlight recently made possible the rescue of five young Chicago people who had been clinging to an overturned boat, from midnight until 4 A. M. had it not been for the beam of light which rescuers saw from a distance of several miles, the heroic efforts of two of the party, who swam two miles to the shore, would have been in vain.**  
 Those in the party of seven, which was enjoying a night sail when a sudden gust capsize their sloop, were Emma Shemaitis, swimming champion; Marion Herold, Freda Herold, Edna Wright, George Myers, Phelps Howland and Shirley De Iolo. When the boat overturned two miles off shore Miss Shemaitis and Myers swam to the Jackson Park Coast Guard Station for help. In the meantime, the capsized boat drifted several miles.  
 The coast guards returned at once to the spot where the accident had occurred but no trace of the boat could be seen. Suddenly distant flashes of light attracted their attention and the sloop was discovered.  
 Marion Herold, none the worse for her experience, later told the story of the rescue. "We went out on the lake about ten o'clock," she said, "and were having just a gorgeous time until we started a sharp turn two miles out. A sudden gust of wind caught us and over we went, boat and all. We were scared at first, but we made the best of it. We all know how to swim. George and Edna, of course, were experts, so they went off for shore.  
 "Then the boat started to drift. While we were drifting one of the girls noticed a light under the water. Though it seemed impossible that a light could be in under the water, Herold dived under the boat and found our four range focusing flashlight which had continued to stay lit after we capsized. He climbed on the bottom of the overturned boat and flashed the torch until help came.  
 "Yes, it was kind of a long wait for four hours in the dark hanging to the boat. We all think it was remarkable for the flashlight to work properly after being in the water two hours. And, what's more, it still lights."

## "Aunt Fanny", 103, Tells How To Pass Century Mark

Work Hard and Live Simply, Her Formula; Drinks Coffee Every Meal

Mrs. Frances Hurst

**NORFOLK, Va.**—Mentally alert and physically active, Mrs. Frances Hurst recently celebrated her 103rd birthday at her home at New Point, Mathews County.

To a multitude of descendants who gathered for the occasion, including five generations in one branch of the family, she announced that she intends to live for some time to come and gave advice for surpassing the century mark.

Mrs. Hurst's formula for a long life is a simple one. She has worked hard, eaten anything she wanted to eat and refused to worry. She drinks coffee at each meal, frequently taking two cups of it. In fact, she has drunk coffee all her life and she cannot find that it has harmed her. She goes to bed with the birds and gets up with the sun and often walks three or four miles a day. She has never worn glasses and her eyesight now, she says, is as keen as it was before the Civil War.

Born when Abraham Lincoln was but seventeen years old, Mrs. Hurst has seen the United States grow from an infant republic into a world power. She has seen the pack-horse replaced by the stage coach, the stage coach supplanted by the railway, and now the hum of airplanes over her window is a familiar sound.

The other day a neighbor, who had attained the ripe old age of 80, called upon her.

"Aunt Fanny," he said, "we are getting old, aren't we?"

"Lord, honey," she replied, "you're just a baby, and you talk about getting old."

## WORTH MORE THAN A WORLD OF MONEY

SINCE TAKING ORGATONE WAGO WOMAN IS NOW ABLE TO DO HER HOUSE WORK WITH EASE

"I had rather feel well and happy like I do now since taking Orgatone than to have all the money in the world," declared Mrs. Hugh Laseter of 1105 N. Thirteenth Street, Waco, Texas.

"Before I took Orgatone," continued Mrs. Laseter, "I had been suffering with stomach trouble for some eighteen months and was so bad off that often after eating I would have terrible pains shoot up and down me that would almost drive me distracted. I would have

to be very careful of everything I would eat and even then I would often suffer torture from the after effects. I was nervous and could not sleep well at night and although I tried everything I could hear of, nothing seemed to reach my case like it should. My mother, who lived at Wichita Falls, had tried Orgatone with such good results that she sent me a bottle and I started on the treatment.

"At the time I began taking the medicine I was in a miserable condition and felt very much run down and out of sorts, but it is entirely different now. I have just finished my fourth bottle and have actually gained so much that I hardly feel like the same person. The indigestion and all the other pains have left me and I can do my house work with as much ease as I ever could with the least trouble. I can eat

meats, pickles, all kinds of vegetables and anything else I want and never have a sign of indigestion. I'm not the least nervous any more, sleep like a child every night and am as well as I ever was. I can't

find words to express to you how much I owe to what Orgatone has done for me. It is nothing wonderful." Genuine Orgatone marketed at Oates Drug Store

"I WAS suffering from stomach trouble, in 1917," says Mr. C. K. Nelson, a railroad engineer living in Pulaski, Va. "I had a tightness in my chest, a shortness of breath. There seemed to be a heavy weight in the pit of my stomach, and quite a bit of nausea, yet I couldn't vomit. I tried different remedies, yet suffered on just the same. When in West Virginia on a work train, I was in such a condition that I just gave up and came home. I could not stand to work, in my condition. Some one told me about Black-Draught. I started taking it in small doses after meals. It helped me, and I went back to work."

## At Texas Theatre Monday Night.

Program at the Texas Theatre Monday night, sponsored by the Young Ladies Mission of the First Christian Church, proved quite a success. The regular picture shown was unusually good also. The picture was furnished by Jones and the radio broadcast by the Haskell Music Co. and the radio broadcast by the Haskell Music Co. and the radio broadcast by the Haskell Music Co.

## Chapel Program at High School Wednesday.

The Wednesday Chapel program at the High School last week was about evenly divided between Rev. M. L. Baker and Mrs. E. Gaston Foote. Rev. Baker began by telling a number of snappy jokes that always make a big hit with high school boys and girls. Then he delivered a fifteen minute lecture of a more serious and worth while type. Then Mrs. Foote followed with a humorous reading "My Husband Has A Cold," then concluded by advertising the Epworth League Play that will be produced at the High School on the evening of November 8th. On next Wednesday The Gypsy Ramblers will have charge of the program and promise a good one act Irish play.

## With The Methodists On Last Sunday.

Despite the very inclement weather of last Sunday there was a large congregation present at the 11 o'clock hour at the Methodist Church and the service was deeply spiritual and impressive. Especially was this true when at the beginning of the administering of the sacrament some fifty children from the Junior Church lead by their sponsor, Mrs. E. Gaston Foote, over flowed the chancel rail around the pulpit and were served first. At no time in the writers life do we remember of seeing so many children kneeling at one time in a sacramental service. The choir rendered one special anthem and Mr. R. D. Baughman sang as a vocal solo, "Crossing The Bar." At the evening hour a fifteen minute lighted cross service, illustrated with solos, duets and quartettes, precluded the regular sermon by the pastor, Rev. E. Gaston Foote.

## Comrade Class of Methodist S. S. Entertain in Home of Teacher.

On Tuesday evening of this week the Comrade Sunday School Class of the Methodist Church was entertained in the home of the teacher Mrs. F. T. Sanders with a "42" party. The house was decorated with Halloween motifs and lovely roses and other fall flowers. Class members present were: Misses Aline Mitchell, Mary Kimbrough, Grace Cearley, Ella D. Koonce, Louise Kaigler, Velma Hambleton and Mrs. R. J. Earnest.

## Joe Short In Winning Stage Play at T. C. U. Ft. Worth.

A clipping from a Ft. Worth paper has the following to say concerning the annual contest between the Freshmen and Sophomore stage plays. The Freshman play, "The Trysting Place," was awarded the loving cup in the seventh annual Freshman-Sophomore play contest held in the auditorium of T. C. U. at 8 o'clock last Friday night. This was the first time in several years that the cup has gone to the Freshmen. Miss Katherine Moore directed, "The Trysting Place," with the following actors: Misses Betty Berry, Mary Jane Ridgeway, Jacque Lansdale and Hal Thompson, Joe Short, Norman Welsh and Clayton McCutcheon.

## The Man in The Bowler Hat," the Sophomore production was directed by Miss Hazel Carter.

Joe Short had leading parts in all of the Haskell High School plays last year and is only one more addition to the many Haskell boys and girls who have been singled out for honors at the colleges and universities of their choosing.

Post, Garner Mays, Clyde Grissom, J. M. Glass and Preston Baldwin.

## Methodist W. M. S.

The Women's Missionary Society of the Methodist Church met in monthly business meeting last Monday afternoon at three o'clock with twenty members present. The opening song, "He Leadeth Me," precluded the devotional which was Philippians the fourth chapter and the fourth and thirteenth verses inclusive, read in union. The devotional topic, being, "Gratitude and Its Blessings." Good reports were given from all departments. ## TEACHERS HERE FOR 2-DAY TRI-COUNTY INSTITUTE

### Indians to Meet Strong Hamlin Team Here Friday OVER THREE HUNDRED TEACHERS HERE FOR TWO-DAY SESSION

#### ANSON LAST FRIDAY MAKE INDIANS FAVORITES FOR DISTRICT CHAMPIONSHIP

Pied Piper eleven of the High School will meet on the local grounds (Friday) in a game that is the turning point of the season toward the District Championship. With the squad game could be easily Haskell's in advance, but Kimbrough's triple-threat gain on the injured list was one of the hardest played.

As a strong team, having one of their opponents and present a real threat to their march to the District Championship. Coaches Henry and Richmond thirty good "reasons" in Haskell's favor, even though out of the game fans do not expect to see success everyone in Haskell attend the game and see District Champions in person.

will be played at Fair will start promptly at there.

#### INDIANS DEFEAT ANSON TIGERS 18 TO 6 FRIDAY

Witnessed by the largest crowd of the season, the husky Haskell Indians walked over the strong Tiger eleven from Anson on the local grounds last Friday to the merry tune of 18 to 6 in a game that proved a thriller from the start.

In the first five minutes of the game Haskell and Anson had both a real scrap. All the scoring for the game was done in the first two periods. The Indians started their scoring by a long pass from Pittman to Gilstrap, who sprinted 10 yards to the goal line after the catch. Immediately following this play, the Tigers scored in a sensational 70-yard run by their quarterback, Then Pittman, quarterback for the Indians, scored when he side-stepped and size-jumped through the Tiger line for 20 yards and a touchdown. In the second period Kimbrough got the ball on Anson's 4-yard line and plunged over for a touchdown.

Herman Pittman was the sensation for this game. The way "Pit" played Friday seemed like he had been saving up for the game. He carried the ball for numerous long gains and called the right plays at the right time like a college man. Herman is 148 pounds of greased lightning with brains like an Edison. Pittman, Kimbrough, Gilstrap, Leflar, and Sherman proved their skill in carrying the ball, and we have a line that can't be beat.

A summary of the game shows: Anson punted 8 times for an average of 27 yards, while Haskell punted 7 times for an average of 39 yards. Haskell made 13 first downs; Anson 6.

Haskell passed 9 times for 150 yards. Anson passed 7 times for 10 yards.

Haskell was penalized four times; Anson twice.

Officials of the game were: Medley, referee; Ligon, umpire; Brown, head linesman.

#### COTTON LOANS AVAILABLE FARM BUREAU MEMBERS

According to J. T. Bynum, manager of the local Farm Bureau, arrangements have been completed whereby members of the Farm Bureau Association can secure a loan of 16c per pound on their cotton, midding basis.

Bureau members who desire to avail themselves of this loan privilege should consult with Mr. Bynum, who can furnish all the necessary information. According to our understanding, a loan of 12c per pound will be made when the cotton is billed for shipment from Haskell. The balance of 4c per pound will be made after the cotton arrives at the designated storage point and is graded and classified by Farm Bureau agents. It must be kept in mind that the loan of 16c per pound is for midding grade, lower grades taking a proportionately lower loan rate.

Farmers who are not members of the Bureau may take advantage of the loan by signing contracts with the Association, we understand, which will allow them to borrow money on their cotton and hold it for a better market.

#### Poultry Trades Day to Be Held By Local Hatchery Nov. 15th

A poultry trades day will be held at the Haskell Hatchery, Nov. 15. The idea of the day according to W. P. Trice, owner of the hatchery, is to give people of Haskell and adjoining counties who have poultry to sell or trade or who want to buy an opportunity to get together.

At this time of the year people are in the market for good male birds to mate with their flocks. Yet in many instances they do not know where they can be found, so the purpose of the days is to get prospective buyers and sellers together.

Several display coops will be furnished at the Hatchery, yet those who have suitable display coops for their birds are requested to bring them along. Arrangements will be made for several hundred birds, so if you want to buy, sell or swap remember the date, Nov. 15.

Mr. and Mrs. F. G. Alexander have returned from Abilene where they have been at the bedside of their daughter Mrs. Bickley.
