

GAINED 25 POUNDS BY TAKING SARGON

"Before I started taking Sargon I was down in weight to 140 pounds and had run down after years of taking Sargon. Since taking Sargon I have gained 25 pounds and am back to my normal weight which is 165 pounds.

"Up to a few years ago I had always been in fine health, then I commenced to be troubled with indigestion and constipation. It just looked like I couldn't digest anything. I put myself on such a light diet I became badly undernourished and lost weight rapidly. I lost my strength and energy so I was all I could do to stay on my job.

"Almost as soon as I began taking Sargon I started eating again and took on weight rapidly. I tell you it's fine to sit down at the table and eat a man's meal again. I am as full of strength and energy as I ever was and can do more work in one day now than I could in two before.

"The Sargon Pills toned up my liver and I no longer suffer from biliousness and constipation.

"After gaining 25 pounds I am feeling like my old self again and I think that is enough to convince everybody the Sargon treatment is wonderful."—Joe N. Canizard, 348 Washington Boulevard, Beaumont, Texas.

Sargon is now called "The Medicine With a Million Friends." Its marvelous record of achievement is probably without parallel in the history of the drug trade of this country.

RUPTURE EXPERT HERE

C. P. Redlich, Minneapolis, Minn., nationally famous Rupture Appliance Expert, will demonstrate without charge his unequalled method at the Cass Hotel, Abilene, Wednesday, August 28th, from 10 a. m. to 4 p. m.

Mr. C. P. Redlich says: "The Perfect Retention Shields" hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief and contract the opening in a remarkably short time.

The secret of their success is in their simplicity. An expertly adjusted device seals the opening without discomfort or detention from work. They are practically everlasting, sanitary, comfortable and actually hold ruptures which heretofore were considered uncontrollable.

IF YOU WANT TO HAVE IT DONE RIGHT—SEE REDLICH.

Dr. W. W. Seaver, for many years in charge of the Physical Education of the students of Yale College, has cured 75 per cent cures with this device.

Mr. Redlich is internationally known. He speaks English, German and French.

MRS. MINNIE FISHER CUNNINGHAM SPEAKS AT SHORT COURSE

COLLEGE STATION, Tex., Aug. 14—Prohibition, the tariff, the Sheppard-Towner act and the agricultural marketing act were outlined in brief before the homemaking section of the Farmers Short Course here by Mrs. Minnie Fisher Cunningham, of New Waverly, in discussion of "Some Laws Every Woman Should Know." Mrs. Cunningham cited legislation in the four fields mentioned as having a particular interest for women. Laws dealing with these subjects, she said, "are the most advertised, the most fundamental, and those having to do most intimately with women's interests."

Concerning prohibition enforcement, she suggested that in the triumph of national legislation against liquor, it is possible that strongholds gained in the fight to that end have fallen again into the hands of enemies of prohibition—local strongholds where vigilance has not been kept up. The tariff she characterized as the "most fundamental piece of legislation that Congress is ever called upon to pass" and she illustrated briefly the purpose and the workings of the tariff, decrying its operation in some instances to increase, as she said was the case, the cost of commodities made at home at the expense of the purchaser and enrichment of the manufacturer.

In trying to solve the problem of "poor, sick agriculture," the "trained and skilful help of the scientific student of economics" is needed more than the "rough doctoring of politicians," the speaker declared.

Mrs. Cunningham expressed much regret that the provisions of the maternity and infancy protection act, passed in 1922, expire this month. How it has functioned in an educational way in teaching the care of mother and child was discussed briefly.

R. W. Herrin, Sr. Says That If A Thing Is Worth Doing, It's Worth Doing Right

R. W. Herrin, Sr. who lives on his large ranch and farm a few miles north west of town was here Monday morning and made our office a very pleasant call. Mr. Herrin is one man who cares very little for publicity of any kind. He believes when a man succeeds in anything it is his duty and needs no lauding or applause. But we are going to mention a few things about Mr. Herrin's success for the help it might be to others. Mr. Herrin has always attended to his own affairs. And he is just as strict to let the affairs of others alone. If anything is worth doing he believes it's worth doing right, and he puts all his energy into what ever he undertakes.

He spoke of putting off the things until tomorrow that should be done today. He never does this in any form. He says he learned a lesson from another early in life regarding doing what ever came up when he was ready to do it, and never put it off because of dry or windy weather. He plants when spring comes regardless of the weather and he reaps if any one does.

He has been ill most of the spring but now he is able to look after his business affairs and he makes a business of what he has to do. A man who has made a success is an inspiration to others.

Abilene Man Had to Quit Work Orgatone Restored His Health

"A medicine that will get a man on his feet and put him in condition where he can go to work again in a few weeks' time is certainly well worth talking about and I'm willing for the whole world to know that this is what Orgatone has done for me," was the characteristic statement made by M. L. Denman, living at 508 Graham Street, Abilene, Texas.

"Up to about three years ago my health was always good. But my stomach got into such bad shape that my food would sour and I commenced to have bilious spells and indigestion. I finally got into such a condition where I had to quit work about four months ago owing to the fact that I was so weak it was almost impossible for me to get about. And for the past two months, that is up until the time I got started on Orgatone I had been living on bread and milk, my stomach was just in that terrible shape. I tried numbers of treatments and every kind of medicines I read or heard about, but kept getting worse all the time.

A MAN IN A MILLINERY SHOP

We have it direct from one of our Haskell milliners that she likes to show millinery when men customers are present. A husband, she says, is usually a real help in choosing the right hat for "friend with a millinery store."

We know at least one husband who does not take kindly to the idea. He says he feels very uncomfortable in a millinery store and besides, judgment under such circumstances always is ruled by a wild desire to get the selection over with as quickly as possible.

Beyond these facts, we confine to a very expansive ignorance of the general subject of millinery.

We do know, however, that Haskell has some extremely creditable millinery stores. We have been there. But we base our opinion on something even more convincing than our own inspection—we have heard Haskell ladies say that they like the millinery stores here.

DEVIL TURNED SAINT
Thirty years ago, when the Stand...

outstanding menace, John D. Rocke...
feller was probably the most hated...
man in America. That the methods...
employed by him in building up his...
great fortune were often ruthless...

But now at the age of 90, this...
same man finds himself beloved al...

en away more than five hundred...
and fifty million dollars for the...
benefit of mankind.
His benefactions touch the health...
and life of every person in the civi...

in a semi-savage state. Largely...
through his gifts in aid of scientific...
research yellow fever, which annu...
ally took its toll of thousands, has...
been practically banished from the...
earth. In 1927 only three cases were...
reported in both North and South...
America. Likewise hookworm, ty...
phoid fever, diphtheria, malaria,
small pox, leprosy and other disea...
ses have been wholly or partially...
conquered through the millions...
poured into the Rockefeller Insti...

Rockefeller Foundation.
Many other millions have been de...
voted to the cause of education,
thirty-one million dollars having...
been given to the University of...
Chicago alone, and gifts for all these...
purposes are being continued from...
year to year.
Thus, through a series of benefac...
tions without a parallel in the...
history of the world, John D. Rocke...
feller has been transferred in the...
public estimation from a devil of the...
past to a saint of the present.

THE PUBLIC FORGETS
To the business man who thinks...
that the public does not need to be...
constantly reminded of who he is...
and what he has to sell, the often...
told story of Pyle's Pearline will...
bear repeating.
In 1904, Pearline, a cleaning...
material, was used by a large percen...
tage of the housewives of the coun...
try, and the company spent \$500,000...
in advertising that year. Later the...
advertising was curtailed, and about...
1907 it was discontinued altogether...
as the company thought the produce...
was so well known that it did not...
require further advertising.
Sales fell off rapidly, but the own...
ers persisted in their non-advertising...
policy until 1918, when the whole...
concern, including good will, was...
sold for \$12,000. Pearline was dead.
Many other products whose names...
were household words a few years...
ago are not heard of today because...
they failed to keep up their advertis...

got them.
Business men must remember that...
new generations are coming along...
all the time, and these new buyers...
must be personally sold on a product...
or a store, as their fathers and moth...

time it is safe to stop advertising is...
when one is ready to go out of busi...
ness.

Another Record!

a Million

SIX CYLINDER CHEVROLETS

on the road in less than eight months!

Less than eight months have elapsed since the first Chevrolet Six was delivered into the hands of an owner—and already there are more than a million six-cylinder Chevrolets on the road! And the reasons for this overwhelming success are easy to understand.

Into a price field that had hitherto been occupied exclusively by four-cylinder cars—Chevrolet has introduced a six-cylinder car of amazing quality and value. Not only does it offer the smooth, quiet, velvety performance of a great six-cylinder valve-in-head motor—but, from every standpoint, it is a finer automobile than was ever before thought possible at such low prices! Its

beautiful new bodies—which are available in a variety of colors—represent one of Fisher's greatest style triumphs. And its safety and handling ease are so outstanding that it's a sheer delight to sit at the wheel and drive. Here's Real Opportunity for Haskell Women

Contest Offered for Best Jar of Canned Food in National Canning Contest

Just how good at Canning are Haskell women and girls?

This question suggested itself to-day from an announcement in Chicago of a National Canning Contest to find the best jar of canned fruit, vegetables or meat in the country. Twelve hundred and fifty dollars (\$1250) in cold cash awaits the woman or girl in the United States whose entry is selected as the best jar of canned food entered in the contest.

The contest, which is sponsored by the Sears-Roebuck Agricultural Foundation, seeks to acquaint housewives with the economy and healthfulness of home canned foods. For years the U. S. department of agriculture and home demonstration agents throughout the country have worked for increased production of native canned foods. It is to further this excellent idea and at the same time to help absorb the threatened surplus of farm products in many sections, that this canning project was conceived.

Two hundred and twenty-one cash prizes, totalling \$5,825, will be disbursed to the winners in the contest, which has three major divisions: fruit, vegetables and meat. The best entry in each division will be awarded \$250, and one of these will also receive the thousand dollar sweepstakes prize, thus bringing the total cash prize for the best jar of canned food in the contest to \$1,250. Second prize in each of the three divisions will be \$200, third prize \$100, and fourth prize, \$50. There will also be five prizes of \$25 each, ten prizes of \$10 each and fifty prizes of \$5 each. In addition, a thousand dollars in cash will be awarded to the home demonstration agent whose county sends in the greatest number of entries, \$500 to the agent whose county has the next largest number, and \$100 to the agent whose county has the next largest number, and \$100 to the agent whose county sends in the third largest number of entries. A number of lesser merchandise prizes are also offered.

Contest Closes October 15

According to the rules, the contest is open to every woman and girl in the United States. There are no restrictions as to the nature of the food sent, any fruit, vegetable or meat, whether home grown or purchased, is acceptable. Contestants may enter one, two or three divisions. Entries, regardless of when canned, must not be sent in prior to August 15 nor later than October 1, which is the closing date of the contest. No entries will be returned, but instead these will be sent, with the name and address of the contestant, to an orphanage, hospital, infirmary or other charitable institution to be selected by the Foundation.

Specimens of canned fruits and vegetables in the contest will be judged on the basis of clearness, color, pack, neatness, flavor and texture. Meat specimens will be judged in their relation to pack, neatness, texture and flavor. There will be three judges, to be selected by the Foundation from a list of outstanding authorities on home economics, domestic science, and canned food. Their decision will be made known just as soon as possible after Oct. 1.

Gives Hints on Canning

"Any method of canning may be used for this contest," announces Anne Williams, director of the contest. "The use of a steam pressure cooker, however, is highly recommended by canning experts and by the U. S. Department of Agriculture, especially in canning meats. Not only does this method of canning save time and fuel and assure absolutely, sterility and preservation, but food canned under pressure retains all its natural flavor and texture, which are vital points in any canning contest."

That the judging may be thoroughly impartial and the display of canned samples absolutely uniform, contestants are required to submit their entries in standard glass jars of the quart size. All contestants will be furnished with one Ball mason jar and carton for sending in a canned article, but those making entries in more than one division are expected to supply their own jars and shipping cartons. The sample jar and prize entry labels for use in submitting entries may be secured without cost by communicating with the head-

quarters of the National Canning Contest, 925 S. Homan Ave., Chicago, Illinois.

FEW OF US POSSESS PERFECT FIGURES

COLLEGE STATION, Tex., Aug. 14—"Few of us possess perfect figures but unfortunately have curves which are too deep or angles which are too sharp," declared Miss Mamie Grimes, textile and clothing specialist of the Experiment Station, A & M College of Texas, in addressing the homemaking division at the Farmers Short Course. "Happily for us lines come to our aid and by their careful use we may succeed in disguising our bad and emphasizing our good lines."

"Curves that are too deep may be straightened and angles that are too sharp may be rounded by good posture and wisely chosen exercises. In the meantime you may conceal your defects by carefully chosen clothes lines. Keeping the lines of the ideal figure in mind decide which type of lines makes you figure appear most nearly ideal. Then stick to this type regardless of fads. You may safely do this and not be out of date for fortunately fashions include all types."

"Each human presents an individual problem, therefore each figure should be carefully studied, frankly recognizing both good and bad points. Remember that the eye is drawn (even though unconsciously) in the direction taken by a line. Choose those lines which attract attention to the good points you wish noticed and away from your defects. Thoughtful remembrance of these two points will help you keep the last two of our ten commandments of dress—"Thou shalt see thyself as others see thee and endeavor to correct thy mistakes, and thou shalt persist in thy determination to make the very best of what God has given thee."

BANDS ENTERING STATE CONTEST

DALLAS, TEXAS, August 14—Many bands are already entering the State wide Band Contest to be held as one of the many features of the 1929 State Fair of Texas, Oct. 12 to 27, according to word from Earl Irons of Arlington, chairman of the Texas State Band Teachers Association contest committee, under whose auspices the statewide contest is being held.

This will be the first statewide band contest ever held in Texas. Prizes totalling more than \$10,000 are being offered the winners in the fifteen classes into which the bands have been divided for contest purposes.

Entry blanks with full information, the days upon which different classes will play, and various other details, have been mailed to every organized band in the state, and to every Chamber of Commerce, inviting them to send local bands to the contest.

Earl L. King, "America's Most Versatile Writer" has been selected to judge the contest. Mr. King is from Fort Dodge, Iowa, and is widely known in band and musical circles. The contest will be held in the auditorium each morning and will be free to the public. A massed band concert will be played each afternoon under the direction of Mr. King.

More than 500 outlaw horses, wild steers, roping calves and steers, and parade horses will be brought to the State Fair by W. T. Johnson, to use in the rodeo which he will produce in the new Livestock Coliseum. Mr. Johnson has recently been to the Cheyenne Frontier Day celebration and the Ski-Hi Stampede at Montevista, California, looking over wild horses with a view to buying more. He will take all of his stock from the State Fair to Madison Square Garden on Broadway, where they will be used in the 4th annual World Series Rodeo.

Mr. and Mrs. T. C. Conner living west of the city were shopping here Saturday. Mr. Conner is farming and has a fair crop for the dry conditions now prevailing.

Frank Lawellen of Roberts was here Friday.

On a Week End Camp At Leuders.

The following young folk from Haskell and chaperones are enjoying swimming and camp life in general at Leuders this week end. They prepared tents and lunch baskets and left for this favored resort Thursday morning and will remain until Saturday night. Misses Naomi Poteet, Henrietta Isbell, Vivian Bernard, Bessie Bee Kaigler and Loretta McElreath of Stamford and Clarence Whiteker, Tom Patterson, Chesley Cass, Bates Thornton, Marvin Branch; Mesdames J. E. Bernard, Jim Isbell, Elmer Irwin and Guy Mays.

The Lucile Reagan Circle of Baptist W. M. S.

Mrs. R. P. Glenn was hostess last Monday to the Lucile Reagan Circle of the Baptist Women's Missionary Society and a very interesting time was had. Before the beginning of the program Mrs. Glenn read a long letter from Miss Lucile Reagan who is a Missionary in Africa and for whom this circle is named. Mrs. John Lampkin, circle leader then taught the Bible lesson which is the outstanding love chapter of the Bible, the 13th Chapter of 1st Cor. This Circle will enjoy two meetings this week as they go Thursday in an all day meeting with Mrs. Leon Gilliam at which time the study book, "Things We Should Know" will be taught by Mrs. John Lampkin. On account of the meeting beginning at the Baptist church next Sunday, there will not be a meeting of the Lucile Reagan Circle until the 2nd of September, when they will meet with Mrs. D. Scott. Members present Monday were: Mesdames, John Lampkin, Leon Gilliam, D. Scott, M. L. Williams, R. E. Reaves, W. W. Johnson, R. W. Clanton and R. P. Glenn.

Pinkerton Re-Union Dinner

Mr. and Mrs. J. F. Pinkerton enjoyed having all of their children and husbands and wives and most of their grandchildren and great grandchildren with them last Sunday in a family re-union dinner. They were: Mr. and Mrs. John Baker and daughter, Ama Hortense Baker of Dallas; Rev. and Mrs. G. H. Morrison and sons, J. F. Morrison and family of Haskell; Mr. and Mrs. Thomas Morrison and children of Abilene; Mr. and Mrs. T. A. Pinkerton and daughter and family, Mr. and Mrs. W. W. Koonce and children all of Haskell. A big turkey dinner with all accessories was served at 12:30 and the afternoon was spent in reminescent conversation until the out of town guests, accompanied by Mrs. G. H. Morrison went to Abilene to spend a few days with Mr. and Mrs. Rex DeSpain and Mr. and Mrs. Thomas Morrison.

Birthday Honored

Mrs. O. J. Burson of Midway honored her little daughter, Lois on her 9th birthday, Monday August 5th with a delightfully planned party. Several of her little friends were invited in, and after the many pretty gifts were viewed several interesting games and contests were enjoyed.

Assisted by her daughter-in-law Mrs. Theo. Burson and Mrs. Ed Welch, Mrs. Burson served ice cream, iced lemonade and cake to the following little boys and girls:

Gilda Wood, and the little honoree Lois Burson, and Denville Burson, Vernay Burson, Garland Wood, Stewart Burson, Clarence D. Burson, Taylor Childress, C. G. Burson, Jr. Floyd Wright and Albert Burson.

After a late hour the little guest departed wishing the little honoree many more happy birthdays like his one.

Presbyterian Church
The meeting that closed in this church last week was the best that has been held for several years. Mr. and Mrs. Fraser won their way into the hearts of the people of the entire community as well as the members of this church. Their stay with us will long be remembered and we hope to see much good come from it that we cannot see at the present. There were thirteen additions to the Presbyterian Church, and one addition to the Baptist Church as a direct result of the meeting. Both services last Sunday were well attended in spite of the exceeding hot weather. It is evident that the meeting has been a great help to the membership of the church in many ways.

Next Sunday at the eleven o'clock hour the Pastor will begin a series of sermons on the distinctive doctrines of the Presbyterian Church. The subject next Sunday will be "The Sovereignty of God." Other subjects will be announced each week.

Sunday School begins each Sunday at 9:45 a. m. The Christian Endeavor meets at 7:15 p. m. The evening church services during the revival meeting at the Baptist Church will be given away for the meeting.

This church extends a cordial welcome to all to attend all services here.

C. W. Wogman and family of Elk City, Okla., are visiting Mrs. Wogman's parents Mr. and Mrs. T. A. Payne living two miles south of town. Mr. Wogman formerly lived in the Midway community before going to Okla., last fall, where he has many friends who welcome this family back for this visit. He states that he has a good crop and expects to make a good yield with good weather.

Mr. and Mrs. H. W. Hill were shopping in the city Friday. They have chickens and cows from which they make the effort to pay the home expense. They bring fresh eggs and cream to the city every week.

Mr. Martin a good farmer owns a sandy land farm and always grows lots of feed. He says his maize crop is good this year. Mr. Taylor is Road Supervisor from Knox City through to the Jones County Line on Highway 51 and is keeping his division in fine condition.

PATTERNS POINT FOR THE MARKET

COLLEGE STATION, Tex., Aug. 14—Fattening poultry for market is one phase of the farm business often overlooked and a phase that may be made profitable if gains of 12 per cent to 30 per cent in ten days time are registered, Clyde Ingram, poultry specialist of the Louisiana Extension Service, told the poultry group at the Farmers Short Course, A & M College of Texas. "A pound of grain usually results from consumption of three and one half pounds of concentrated feed," he said.

The process of fattening poultry is simple, requires little equipment and the feed is easily procured and used. During fattening the water in the muscles is replaced largely by oil, the flesh is emarbled with delicious fat, the tendons lose their stringiness and the birds become very plump and exceptionally well filled in breast and back, the speaker went on to say.

Chickens may be fattened either in a crate or in the genera pen, Mr. Ingram said, but experience has shown that birds gain much faster and more economically in crates. The battery crate used in commercial plants is too expensive for the farmer producer but a home made stationary one is easily made. Scrap lumber and old wire will do to make the crates in units 10 feet long, 18 inches wide and 24 inches high, divided into four compartments. It is well to have the floor of the crate 30 inches above the ground and made of ordinary plaster lath running lengthwise. The front should be slatted vertically allowing 2 1/2 inches between them in order that birds may reach through to eat from the V-shaped trough which hangs at the floor line on the front of the crate. The crate should be sheltered, shaded and well ventilated.

The following ration has proved good under Louisiana conditions: 100 pounds finely ground corn, 100 pounds finely ground oats with hulls sifted out, 50 pounds shorts, 30 pounds meat scrap and five pounds bran. Enough sour milk should be added to make a mixture of such

consistency that it will pour from a feeding bucket. Three pounds of sour milk for each pound of dry feed will usually do this.

STATE FAIR CIRCUS HAS MANY ANIMALS

DALLAS, TEXAS, August 14—The largest "traveling zoo" in the world will be seen at the 1929 State Fair of Texas, when the Hagenbeck-Wallace Circus plays a 32 performance engagement as the grand stand attraction. The Hagenbeck-Wallace Circus has the largest number of trained and performing wild animals and the largest managerie in the circus world.

The Hagenbeck-Wallace Circus was formed in order to educate the circus public the merits of wild animal acts in a show, and also to give the Hagenbeck wild animal farm in Germany an outlet for their trained animals. Most all of the performing animals seen in circuses today come from the Carl Hagenbeck Tierpark near Hamburg Germany.

In addition to their performing lions, tigers, hyenas, leopards, panthers and zebras, the Hagenbeck circus will bring to the State Fair the largest number of performing elephants ever banded together in the history of the circus.

Commercial exhibitors at the State Fair of Texas, anticipating a "Billion Dollar crop" in Texas, and better business conditions arising therefore are seeking greater space at the 43rd annual state exposition, October 12 to 27.

Work will soon be started on the hangar of the Southwest Air Exposition which will be one of the features of the 1929 State Fair of Texas, Oct. 12 to 27. The hangar will be 500 feet long, and 110 feet wide. The exposition will show every known make of airplane, as well as have exhibits of airplane accessories.

Work on the new Livestock Coliseum at the State Fair of Texas is rapidly nearing completion. The State Fair Rodeo will be held in

the coliseum during the first ten days of the State Fair, October 12 to 20, and combined horse show and style revue will be held in the building during the last five days of the fair.

The second annual Southwest Dairy Show will be held around week of the State Fair of Texas, Oct. 20 to 27, under the leadership of Frank Briggs, president of the Southwest Dairy Show Assn.

WEAK SPELLS

"I was so weak," says Mrs. Josephine Cockcroft, of Baldock, S. C., "that I was not able to do anything."

"At certain times, I suffered dreadfully with pains in my back and sides. My head would hurt — felt like it would split open. Spells of weakness would last for weeks."

"I read of Cardui. I sent for a bottle and began taking it. My case was stubborn, and at times I almost lost hope, but I could see a little improvement. At last I began to feel much better. Then I improved rapidly. For the last year I have been in better health than I ever have been before."

"I give the credit to Cardui, for after I had given it a thorough trial, I got well."

JOHN 9:31 EXPLAINED

"Now we know that God heareth not sinners; but if any man be a worshipper of God, and doeth His will, him He heareth."

These words were spoken by a man who had been blind from birth and had just been healed by the power of Christ. The haters of Jesus tried to persuade the healed man that Christ did not heal him, for He was a sinner. The new convert proved to the critics that Christ was not a sinner, because God would not give a sinner healing power in answer to prayer.

This scripture does not teach that God will not save a sinner in answer to prayer. If it did it would contradict the general teaching of the whole Bible. Of course a sinner can pray for just one thing and that is the forgiveness of his own sin.

In Ps 40:1-5, we find David was saved in answer to prayer. The sinner is commanded to pray in Ps. 55:1. In Luke 12:14, a sinner prayed and was saved. Acts 3:21, tells us that God will save any sinner that calls upon Him. Several great facts are stated in Rom. 10:13, 14. It is necessary for the sinner to hear the Gospel preached. He must believe that Christ is able and willing to save. With enough faith in Christ to lead the sinner to pray, he is promised the forgiveness of his sin. Read Acts 11:18, 14, Acts 16:31.

FOURTEENTH YEAR

COUNTY WIDE ROAD PROGRAM DISCUSSED AT MEETING MONDAY

County-Wide Bond Issue Probable If Federal and State Aid is Found Available

One of the most important meetings held in Haskell in several months was called at the City Hall Monday morning by acting Chairman, Menefee with practically the entire county represented.

The opinion of the majority present that Haskell is nearer to realizing the system of connected highways than at any time in the history of the county. Resolutions that have existed in communities as to what should be constructed, where and the type of material to be used in a fair way to be to the satisfaction of all concerned.

At the beginning of the meeting the delegates expressed themselves in favor of a wide program, but were of opinion that precinct or road would come nearer meeting approval of their community. The proper state and Federal aid secured on the different roads in a county wide issue would be the most economical and beneficial number of people. They were appointed to investigate the different problems of road Federal aid, as well as the cooperation of Throck and Stonecreek counties in road connecting highway on the east and west.

It appears after a thorough study that a County wide bond effort probably will be to create two road districts composed of building highways through the county.

ATTENDANCE AT BOY SCOUT CAMP LARGEST IN HISTORY

Over two hundred and fifty Boy Scouts attended the Chisholm Trail Council summer camp held at Leaders which was the largest attendance in the history of the Chisholm Trail Council.

Visitors and inspectors from other Councils pronounced Camp Tonkawa one of the best disciplined and programed they had ever seen and they highly praised the camp directors. There were no serious accidents nor sickness at the camp.

A record was made in Scout advancement and the camp was a very busy place. Over four hundred merit badges were passed; many Scouts passed their Tenderfoot tests; a good number advanced from Tenderfoot to Second Class, several scouts reached the rank of First Class. Scout advancement did not stop at first class. Scouts appeared for Star and life badges, nine boys reached the highest rank in Scouting, that of Eagle Scout, and several appeared for Eagle Palms which is an award in advance of Eagle.

Under the leadership of Eagle Scout Davis Scarborough, the Camp Tonkawa American Red Cross examiner, one scout passed the Senior American Red Cross Life Saving tests, and 40 passed the Junior American Red Cross Life Saving tests.

The 1929 Camp Tonkawa record is one of the best of any in Texas this year.

L. Schwarz & Co. Quit Business Sale Starts Friday

L. Schwarz & Co. one of the city's leading dry goods stores this week advertise the beginning of their "Quit Business Sale," which starts Friday morning, August 16th. They state that they have leased the building and fixtures to a chain-store organization, and that the present stock of merchandise will be sold at greatly reduced prices during this sale. In order to give the new firm immediate possession.

The sale is under the supervision of "Cyclone" Johnson Sale System, of Wichita Falls, and a number of attractive prices are quoted in their circulars. Merchandise throughout the store has been displayed and tagged for the occasion, and thrifty buyers who attend the event are assured plenty of bargains.

Declaring that the promotion end of the dairy business is over in the South and that the job in hand is to learn to produce dairy products economically, J. H. McClain of the United States Bureau of Dairy Industry pointed out at the general morning session at the Farmers Short Course at A & M College of Texas, that volume of production should be the guiding principle in dairying as well as banking or merchandising.

Studies made in Tennessee show that cows producing 2000 pounds of milk yearly did so at a feed cost of 35 cents a pound butfat, whereas butterfat cost only 21 cents a pound for feed with cows producing 6000 pounds of milk yearly. That is what is meant by volume of production in the dairy business.

"The markets for dairy products which are applicable to the rank and file of farmers," Mr. McClain said, "are fixed by the law of supply and demand. The hope of profits to farmers who patronize 'most dairy markets' is that they produce milk for about 18 or 20 cents a gallon and still make a profit. To do this a man can't quit farming and go into the dairy business, but he must farm for his cows. That means raising enough feed and pasture to furnish the bulk of the feed required. In the main a farmer patronizing creameries, condensaries and cheese factories cannot purchase any considerable part of his feed except grain, and make a profit.

"Success in handling cows in the must rest on the production of an adequate supply of hay and pasture and on materially increasing the production of the average cow. A pure bred bull is the key to the dairy business and a good cow on a good farm.

Johnson & Boggs Buy Pinkerton Tin Shop Bldg.

Mrs Johnson and H. C. Boggs have purchased the Pinkerton Tin Shop building and expect to remodel and put in a large line of second hand furniture in addition to the Tin Shop which will move to the rear.

M. O. Field and family returned Wednesday from an extended trip over southeastern Texas and the State of Louisiana. Mr. Field says the condition of the cotton crop is very poor. Only in a few instances did he find a fair cotton crop.

Between Temple and Austin he stated the crop looked like it would make an ordinary yield. The pickers were in the fields, the gins were in operation and some baled cotton was being stored in the cotton yards. But south of Austin and in many other sections of Texas and Louisiana the boll weevil had knocked the squares off the cotton and the leaf worm had eaten off the leaves. The stalks were bare of foliage and forms and no possible chance for any kind of a cotton crop to be made.

But he stated that corn, fruit, melons, tomatoes and other crops were good in most places. Mr. Field says those who are dependent on cotton are in bad financial condition and he does not see how they will get by.

A large choir platform and seats will be erected on the Church lawn Friday, which will be sufficient to take care of all the people who attend. A large attendance is expected from the rural churches surrounding Haskell.

Rev. C. E. Lancaster of Coleman, Texas, is coming to lead in the revival. Rev. Lancaster is one of the best known pastors of Central Texas. He is a real preacher and a lover of people. You will enjoy his friendship and great Gospel messages.

Mr. and Mrs. Joe Trussell of Brownwood, Texas, will have charge of the music. Mrs. Trussell is an accomplished pianist. You will admire her for her modesty and ability. Mr. Trussell is unsurpassed as a Gospel singer. He is a wonderful choir leader and as a soloist he is among the best.

These three helpers are human, they are not cold and distant, but they are real friends. They love to work and play. Let's enjoy a great revival with them and have a good time together.

As Usual The Biggest Fish Always Gets Away

J. H. Tompkins, Tom Baker, Guy Mays, R. F. Pitman, Felix Frierson, V. C. Bailey and H. L. Wood spent Wednesday night on Paint Creek fishing. They had fine luck catching 60 or 70 pounds of fish. It was R. F. Pitman who let the big one get away this time.

The funeral of Mrs. Malda Donette Batey was held at the grave Monday afternoon at 5:30 o'clock by Rev. G. Robert Forester, pastor of the First Christian Church of this city after which her remains were laid to rest in Haskell's beautiful burial park. Mrs. Batey passed away at the home of her son A. W. Batey living 12 miles north west of the city Sunday afternoon. She was here 8 days when the end came. She was a widow and is survived by a number of grown children. She was said to be by those who knew her best to be a noble Christian woman with many friends and loved ones who will mourn her going. She was born Feb. 20, 1858. She was past her 71st birthday and had lived a long and happy life.

Funeral Services For E. L. Parish Held Sunday

Mr. E. L. Parish died at the family residence in Haskell Saturday night, August the 10th, 1929 after an illness of four weeks. Heart trouble seemed to be the cause and until this attack, Mr. Parish had been apparently strong and well physically and was always well read and alert on all public matters, and took a real interest in subjects pertaining to church and state. Mr. E. L. Parish was born February the 9th, 1848 in Walker County, Texas and was married in the same county in 1872 to Miss Alice Edna Mooring. Three years later both Mr. and Mrs. Parish joined the Methodist church and have been faithful members of this church ever since. To this union were born eight children, five of whom are living: Miss Hallie Parish and Elam Parish, W. S. Parish, L. C. Parish and Fred Parish, all of Haskell. Mr. Parish moved with his family to Haskell in 1907 where they have since made their home. Funeral services were conducted at Willow Cemetery Sunday afternoon at 7 o'clock, jointly by Rev. E. Gaston Foote, pastor of the Methodist Church and Rev. G. R. Forester, pastor of the Christian church. Just as the sun was sinking at the close of another day, comforting words from the great text book of life were being quoted to the bereaved loved ones, regarding the husband and father who had so recently passed over the great divide, surrounded by loving and sympathizing friends. The pall bearers were: Judge Bruce W. Bryant, Dr. O. M. Guest, Messrs. S. A. Roberts, J. U. Fields, C. M. Conner and M. B. Watson.

LIONS CLUB HOLDS REGULAR MEETING LAST THURSDAY

The regular meeting of the Lions Club was held last Thursday, and a very constructive business session was enjoyed by those present. Attendance was not as large as usual, due to the fact that a number of the members were out of town, but the regular routine of business was put through and reports made on several matters before the Club. During the luncheon a ballot was taken to learn the sentiment of the Lions in regards to a good roads program, the vote showing that members of the Club were overwhelmingly in favor of a county-wide program of good roads.

President Henry Alexander presided during the business session, and announced that beginning with the next meeting he would appoint some member of the club as presiding officer for the occasion, naming Mayor T. C. Cahill for the next meeting.

LEAVE FOR ST. LOUIS AND CHICAGO MARKETS

Mr. and Mrs. Henry Alexander left Monday for St. Louis and Chicago, where they will buy a full stock of merchandise for the F. G. Alexander & Sons Store in this city. They will make the trip in their car and expect to be away ten days or two weeks.

For the first time in ten years, Mr. and Mrs. B. M. Perdue, living two miles north west of the city, had all their children and grand children in their home for the entire day Sunday. Dinner was served at noon to their seven children and their husbands and wives and 35 grand children. This was a day long to be remembered by the Perdue family. The names of the children and their families are: Jim B. Perdue, wife and children, Miss Audrey and Jim Boyce, of Melrose, New Mexico; Mrs. O. A. Smith and son from Ft. Worth; B. O. Walker and family; T. P. Perdue and family; King Perdue and family; Mack Perdue and family; Hilton Perdue and wife, all of whom live in and near Haskell. They are looking forward to another happy meeting.

REVIVAL MEETING AT BAPTIST CHURCH TO START NEXT SUNDAY

Services To Continue For Two Weeks Under Leadership of Rev. C. E. Lancaster

Plans are being made for the opening of the Baptist revival meeting which will begin Sunday morning at the Church and will extend over a period of two weeks. Rev. H. R. Whaley, pastor of the local church states that they are expecting to have one of the greatest revivals in the history of the local church. A large choir platform and seats will be erected on the Church lawn Friday, which will be sufficient to take care of all the people who attend. A large attendance is expected from the rural churches surrounding Haskell.

Rev. C. E. Lancaster of Coleman, Texas, is coming to lead in the revival. Rev. Lancaster is one of the best known pastors of Central Texas. He is a real preacher and a lover of people. You will enjoy his friendship and great Gospel messages.

Mr. and Mrs. Joe Trussell of Brownwood, Texas, will have charge of the music. Mrs. Trussell is an accomplished pianist. You will admire her for her modesty and ability. Mr. Trussell is unsurpassed as a Gospel singer. He is a wonderful choir leader and as a soloist he is among the best.

These three helpers are human, they are not cold and distant, but they are real friends. They love to work and play. Let's enjoy a great revival with them and have a good time together.
