### American Red Cross Needs Your Help

With the extreme heat and drought conditions, the American Red Cross has found itself busier than usual responding to a rash of wildfires across the Big Country.

As of August 21, most people are aware that the American Red Cross responds to large disasters such as tornadoes and hurricanes, and that the organization assists with food, clothing and shelter. But fewer people know that the Red Cross is also called on to assist emergency workers such as police and firefighters. Since the wildfires broke out in the Big Country, the American Red Cross has been working hard to provide plenty of bottled water, Gatorade and meals to countless firefighters. Now, the organization needs your help to keep their supplies stocked.

The American Red Cross is asking the community to make financial gifts to the local Disaster Relief Fund. Financial Contibutions allow the Red Cross to purchase materials in bulk, stretching the donated dollar even further. Additionally, financial contributions to the local disaster relief fund make it possible to help families displaced by house fires and other disasters, for the Red Cross. To make a gift to the local disaster relief please call 325-677-2622 or mail it to Big Country Region American Red Cross 1610 N. 2nd Abilene, TX 79601. For free

Thursday, September 7, 2006 Garry Jennings retires after

29 years with TxD.O.T. A sudden decision by Garry Jennings of Baird, to retire from the Texas Dept. of Transporation on July 31, caught everyone off Guard.

Jennings, who had been the construction manager for the Abilene Area office for the past five years, got an offer he couldn't refuse. He is now working as an inspector on a private airport in the panhandle.

Garry joined TxD.O.T. in May 1977 at the Callahan County maintenance section where he worked as a maintenance tech from May 1977 to Mar. 1989. On April 1, 1989, Jennings transferred to the Abilene area office as an inspector and lab tech. There he said he was very fortunante to train under and work with several well experienced maintenance and engineering personnel. Jennings graduated from Baird High School in 1976 and then attended Cisco Junior Coll from 1976 to 1977, just prior to joining TxDOT.

He and his wife, the former Karen Cauthen of Baird, have three childrenn: Daughters, Krissi Fortune of Baird and Karli Walls of Stephenville, and a son Garrett who is a sophomore at Baird High School.

Jennings is a member of First Baptist Church of Baird, the Baird Booster Club, and president of the Fort Chadbourne Black Powder Silhouette Club. He enjoys hunting and Black Powder silhouette competition. He is the son of Gerald and Betty Jennings of Baird.

Plans made for nuclear plants

AUSTIN -- Dallas-based TXU Corp. on Aug. 31 announced plans to build one to three new nuclear power plants in Texas.

TXU will file applications for the plants with the U.S. Nuclear Regulatory Commission for licenses that would allow the company to produce two to six gigawatts of power generation capacity at the sites.

The applications will be filed by 2008, and if approved, the power plants between 2015 and 2020, according to a company news release.

Part of the plan is to in-

crease capacity at the Comanche Peak nuclear power plant near Glen Rose.

Students' math scores

improve

Students improved their math scores but received lower reading scores this year on the Scholastic Aptitude Test, the Texas Education Agency announced in an Aug. 29 news release.

"The average math score of the 129,784 Texas students enrolled in public and private schools who took the SAT was 506 out of a possible 800. That compares to a score for Texans of 502 in 2005.

"While the Texas score showed improvement, it fell short of the national average math score of 518. Nationally, math scores dropped two points in 2006," the TEA said.

New biodiesel plant to

This month, Hawaiibased Pacific Biodiesel Inc. is bringing online

Willie Nelson's vision: a biodiesel fuel plant in Carl's Corner, the truckstop about 60 miles south of Dallas.

The plant will process locally produced cottonseed oil and used cooking oil to make the fuel, B20. The plant is designed to make 3 million gallons of B20 a year.

Nelson has long promoted biodiesel as a way to reduce the nation's dependency on fossil fuels and to create a new revenue stream for family

Drought relief loans to

Texas will get a share of a \$780 million pot the U.S. Department of Agriculture will divide up to give farmers drought relief. But Texas' share won't be much compared with the \$4 billion in crop and livestock losses this year in the Lone Star State.

Relief will come to qualified farmers and ranches in the form of low- interest loans capped at \$500,000.

mustard 1/2 teaspoon salt

1/4 teaspoon hot red pepper sauce

3 pounds bone-in chicken pieces (with or without skin) or 1 1/2 pounds boneless, skinless chicken breasts flattened to even thickness

Heat oven to 375F. Line 13x9x2 inch pan with heavy duty aluminum foil. Combined chili sauce, maple syrup, vinegar, oil, mustard, salt and hot red pepper sauce in small saucepan. Heat on medium heat until mixture comes to a boil. Reduce heat to low. Simmer 6 minutes, or until slightly thickened. Rinse chicken. Pat dry. Arrange in pan. (If using bonein pieces, arrange with underside up). Brush generously with sauce. Bake at 375F for 20 minutes for bone-in pieces and 15 minutes for boneless pieces. Remove from oven. Turn chicken with tongs. Brush generously with sauce. Return to oven. Bake 30 minutes for bone-in pieces of 15 minutes for boneless pieces,

Mort wondered why a sailing ship needs motors. I explained that motors are needed when the wind doesn't blow, or if it's from the wrong direction.

"On our route from Lisbon to Barcelona through the straits of Gibraltar, we faced headwinds for six straight days," I explained. "We wondered if we'd see the sails at all, but on day seven, were unfurled, providing a stirring silhouette against the sky."

There was a joke on board that'with'a ship load of folks so eager to see the sails, the captain might have ordered them up anyway, even if it meant going backwards.

ANNIVERSARIES ARE usually times for reflections, and at this 45th Labor Day Weekend in this saddle, we can honestly say that there are many things we've learned, a few things we've had to unlearn, and a great many more that we need to learn.

Right up near the top of the things we've learned is the virtue of tolerance; everybody doesn't think the same things we think or believe the same things we believe. Especially in the news business, one must accept the fact, and one of the things we stress over and over, is that everyone is due their say--within legal and good taste bounds. We've tried hard to practice that creed,

and know at the same time, that we've often fallen short.

At times we have even printed submitted verbal intolerance of ourselves. No more?

TOLERANCE: The disposition to be patient and fair toward those whose opinions or practices differ from one's own; freedom from bigotry...Random House American Dictionary.

TOLERANCE: A willingness to be tolerant and patient toward people whose opinions or ways differ from one's own. SYN.: forbearance--World Book Dictio-

Is tolerance an American exclusive? Not necessarily. In the Preamble of the Charter of the United Nations, drafted shortly after WW II, we read in part:

"We the people of the United Nations

"Determined to save succeeding generations from the scourge of war...

mental human rights, in the dignity and worth of the human person, in the equal right of men and women and of nations large and small...

"To practice tolerance and live together in peace with one another as good neighbors..."

"Corinne" (1807), Germaine de Stael: "To understand everything makes one tolerant."

Earlier? Consider Paul's comment in Ephesisans, 4-1: I therefore, the prisoner of the Lord, beseech you that ye walk worthy of the vocation to which ye are called, and 4-2: "With one another in me." -- H.V.O. love." Also in Colossians 3-13: "Forbearing one another and forgiving one another, if any man have a quarrel

e-cinc.com against any; even as Christ forgave you, so also do ye."

The supreme example of tolerance we know of course, was the life of Jesus Christ in teachings and deeds.

In a world whose people "To reaffirm faith in funda- often seem so intolerant toward others, it behooves all of us to consider where it starts anyway. We wouldn't have to look far to see that intolerance too often starts in each of us, in our homes, in our communities, in the work places, the schools, the public officials and certainly in Much further back: from the state and federal systems in more ways than we want to admit.

What's the prescription for the antidote?

Starting with the Golden Rule, certainly.

Or even this from the Yule songs: "Let there be peace on earth--and let it begin with

### Flooring for Sale from Old Gym

Baird Independent School District is in the process of refurbishing the old gymnasium. One of the main objectives is to replace the wooden floor because it is not level. The hardwood floor has been removed in sections of about 30 square

feet. These sections are for sale to the public for \$1 per square foot. Preceeds from the sales of flooring will help defray the cost of

updating the gym.

### Cisco Schools Facilities Partners Alliance To Host The First Annual Chesley Field Fall Football Classic Saturday

Chesley Field received an "extreme Makeover" for the 2006 football season. The stadium dedicated in 1937, is home to the Cisco Loboes and the Cisco Junior College Wranglers. The recently stadium features new field turf, new dressing facilities, new state of the art sound system and scoreboard, and the Kelly Kent Indoor Workout Facility. For years fans have seen exciting games at the facility located in Cisco, and on September 9 it will be the site of the first

annual Chesley Field Fall Football. A full day of West Texas high school football at its best is on top for the event.

Baird vs. Lubbock Christian 10:00 a.m.

DeLeon vs, Hico 2:30

Albany vs. Ranger 7:30

In addition to Lobo and Wrangler football, Chesley Field and the Cisco Schools Facilities Partners Alliance will host many other events, including CJC soccer, Best of the West Marching Contest and 2006 playoff games.

This is the 31st year the Club has sponsored this competition.. Entries always come in from the local communities and across the state.

The public is invited to come out and enjoy this program on Sept. 12, with a special invitation to all who entered the Contest.

This event will begin the Writers Club meetings for the fall season. Winners of the Contest will be invited to come back to the Oct. 3 meeting and read their manuscripts.

Candidates have their own take on TAKS

AUSTIN - Now that the kids are back in school, gubernatorial candidates are talking about what they would do to improve educa-

Candidates focused on the Texas Assessment of Knowledge and Skills, or TAKS.

Incumbent Republican Gov. Rick Perry seems to be saying TAKS matches the curriculum, things are fine the way they are, and stick with the program.

Democrat Chris Bell said TAKS should be a diagnostic tool to help schools get an idea of students' academic strengths and weaknesses, but not to be the keystone to public education in Texas.

Independent candidate Kinky Friedman has one of the bolder ideas, which would be to kill TAKS, the test students must pass to advance at intervals in the elementary and secondary grades, and finally, to gradu-

Now, did I say person? Well, that is just what Old Tom thought himself to be. He just loved to get behind the wheel of the old Ford and pretend that he was driving right through the middle of downtown Eastland. He would imagine looking for a good catfish restaurant where all the other catfish would be hanging out. He was never aware of the consequences, had he ever found one. You see, a good catfish restaurant would have served him up on a platter, if they could have found one that big. This of course, never crossed his mind because he

was always safe in the old Ford.

I could never imagine a better home for Old Tom than the Ford, because it offered him security from all the elements of nature, as well as from these ruthless fishermen. During the winter months he would roll up all the windows and keep snug and warm, when the North wind would blow. During summer he would keep the windows down for ventilation, since the air conditioning had long since played out. Some times though, he would have to roll the windows up in a hurry, and lock the doors, when some nosey scuba diver would come snooping around. This didn't happen too often, but he had to constantly be on his toes, so to speak, because he really didn't have any toes. You see, catfish have whiskers, but no toes, and

### Award from McMurry Univ.

Twin sisters Jane Dement and June Park received the 2006 McMurry University Cross and Flame Award during the two morning services Sunday, August 27th at the Clyde First United Methodist Church.

Established in 2000 by the McMurry Alumni Association the award is given to strengthen the relationship between McMurry University and the United Methodist Church by recognizing individuals for service to their churches and to the university.

June and Jane were nominated for this award by the First United Methodist Church McMurry Ambassador Emily Shoemaker.

The Cross and Flame Awardwas presented to the twins by McMurry University President Dr. John H. Russell who also gave the morning sermons to the large congregation.

Also present during the two morning ceremonies was Dr. Cyril Stone, a member of the McMurry Alumni Affairs and a retired New Mexico pastor. Dr. Stone is the father of Clyde First United Methodist Church Pastor Robert Stone. Dr. Stone, who was responsible for establishing the McMurry University Cross and Flame Award, was also the first recipient of the Cross and Flame Award. Born in Artesia, New Mexico, Dr. Stone is a 1946 graduate of McMurry Unviersity.

After the two morning services, June and Jane sponsored a hamburger and hot dog fundraiser in the church fellowship hall to raise funds for purchasing audio/visual equip-

Nominees for the award have made an impact by longevity of service in a Sunday School Class which helps recruit students to McMurry bringing students to campus for preview days, service as a McMurry Ambassador to the service in founding a ministry, or other activities. The award honors those who have served, but are not always the most rec-

Northwest Texas Conference award recipients, while Jolynn Galving, a 1975 graduate of McMurry College, was the New Mexico Conference award recipient.

June and Jane submitted this resume for consideration during the Cross and Flame Award Nomination process.

since they never shave, their whiskers grow to be quite long. Old Tom's were getting to be nearly a foot long, and some times they would get tangled in the steering wheel when he was

driving the old Ford. Now Tom had this girlfriend that lived in a hollow log over by La Mancha, and when she would come visiting he would be tickled pink. Ever see a pink catfish? Well, Old Tom was normally yellow, but when he turned pink he would glow like a neon sign. His girlfriend's name was Jerry and did he ever like her! Sometimes they would get over into the back seat of the old Ford, but we can't get into that because this is a "G" rated story.

As for now, I will have to continue this story another time because of newspaper space, but some other time I will tell you why Old Tom just had one

My sons, Joel Vinson Dememt and John Michael Dement and June's son, Elliott Hubert Park graduated from McMurry "College."

My husband, Ted Michael Dement attended McMurry and June's Busband, Ernie Park graduated in 1966 and was Little All-American in Fototball at McMurry.

Our cousin, James Alvis, was professor of Spanish at McMurry "College,". Two other cousins, Earlene and Todd Alvis both graduated from McMurry.

While Attending Haskell High School we were in the Adult Choir at Haskell United Methodist Church, and choral club for three years under the direction of our parents.

We graduated in 1966 with a Bachelor of Science in Education. While attending McMurry we had many opportunities to address choral interests including homecomings, Sing-Songs sponsored by TIP, and campus Function. Being a twin gave both of us many occassions to perform together in representing our beloved alma mater. We were both members of Gamma Sigma Social Club on campus. Also, one of the most cherished times in our lives was when we were McMurry Chanters, a proud repetition of our Father.

Throuth the years, we have been members of Clyde FUMC together, and continue today to bring praises, talents and time. We were taught from a very early age that from whatever type of song, we sang, cecular or Christian, do it all to the glory of God. In fact, before every performance, our parents made sure this was the last word congregation, establishment or of instruction. I (Jane) am a member of the Board of Trustees, and June and I both are members of the Adult Choir, (June is Vice-President). Methodist Church.

Today we are in our second year of Disciple Bible Study with our pastor. In addition to Choir, we do duet specials and also have served on the piano and organ together. We are also instrumental in establishing The Upper Room in our church in which an entire room was duplicated to represent Christ and The Last Supper. Serving the youth in our church has also always been a priority. We have been Co-Youth Minsters chaperoning them on numerous trips taught Sunday School and led music in Vacation Bible School. In Clyde Schools where we each taught for 31 years, we were instrumental in establishing and leading the S.O.S. (Students of The Shepherd) Christian organization for 10 years. This is still active today.

As long-standing members and program chairmen of Believers Sunday School Class, we help sponsor Fund-Raisers for the different necessities in our church. When called upon, we sing for funerals, weddings or any church function.

We have recorded a Christian album, with credits such as Twila Paris and Michael James Murphy, and have opened concerts for Michael and also for David Meece. Another group with which we have shared the stage is Roy Rogers' Backup vocal Band, The Sons of the Pioneers. Five years ago we also launched an annual Non-profit Christian gospel Concert called Harvest here in Clyde whereby numerous artists perform for charity. All proceeds go to that charity to help the needy.

One of the passions in our lives is caring for the elderly shut-ins or rest home residents. These people are very unique and their spirts live on in our churches and communties. Such a joy it is o be able to make them happy with a few songs and conversations. We try to do this as often as we can.

It is our hope and desire that many graduates from our community will be attracted to the warm, friendly environment of McMurry University. By such reputation the last three generatioof our family have been magnetized to this cam-

We attend McMurry Homecomings frequently and are very proud to be among the alumni representing an establishment which for us goes back to 1929.

### **Tom the One Eyed Catfish**

By J B Johnston

(Caution! The following story is intended to entertain children and senile adults over the age of 60. However, it may be read by anyone with an open mind, who still reads comic books and doesn't mind being laughed at by their friends)

Old Tom, the one eyed catfish lived in an old submerged Ford automobile on the bottom of Lake Leon. A better home one could not imagine. In fact, Old Tom had lived here for more years than he could remember. It had

been a sanctuary from many a ruthless fisherman that would have liked to have him for their next meal. He loved this old Ford, and would not let any other fish come near, less they scratch the paint, or mess up the upholstery. It was many a large mouth bass and old drum he had fought off to keep them out of his castle. He never liked bass anyway, because they were always running their big mouths. The drum had this annoying habit of keeping him
