other shades of color according to the county agent. These worms are noted each year, yet they seem to be in greater numbers this year than usual. Specimens of the worms were sent to the Entomologist of the A. and M. College for identification and the report came back that the worms are not sufficiently numerous to cause any extensive damage, so little in the way of suggestions or control methods could be given on the insect.

**County H. D. Agent To Resume Work On July First**

Miss Matilda Gunn, County Health Demonstration Agent, who underwent an operation at Austin last week, has notified this office that she will be able to resume her work here on July First. Miss Gunn was removed from the hospital last Sunday to her home in Austin. Her many friends in this county will be glad to learn that she is recovering so rapidly.

STUDEBAKER INTRODUCES NEW DICTATOR EIGHT

NEW DICTATOR STRAIGHT EIGHT REGAN SEDAN

The new Studebaker Dictator Eight was introduced in Haskell the past week, a carload of this late Studebaker model having been received by Ed S. Hughes Co., Studebaker-Erskine dealers in this section. The new Dictator Eight continues Studebaker's program of making available the smoothness and flexibility of eight cylinder performance in the price range of six cylinder cars, said Gene Tonn, local Studebaker-Erskine manager. The introduction of the new Dictator Eight as a companion car to the President Eight and the Commander Eight, reflects Studebaker's

full recognition of the trend of the fine car field toward the eight. In 1923 only 10 per cent of the makes of passenger car power plants were eights. Today eight cylinder engines represent 41 per cent of the overwhelming majority are straight eights. Mounted on a long wheelbase of 115 inches, the new Dictator Eight models are exceptionally roomy and comfortable. Body lines are longer and lower attained through the long wheelbase and the use of double drop frame construction. The low lines are further emphasized by smaller wheels with larger balloon

tires, and by deeply crowned fenders, which hang low over the wheels. The complete range of models available on the new Dictator Eight chassis include club sedan for five, five passenger four door sedan with folding luggage grid and six wire wheels, spares being mounted in front fender wells. Two coupes are offered for two and four passengers, the former with leather upholstery, the latter in Mohair with a comfortable leather covered rumble seat in the rear deck. Motor is the quiet L-head type, developing 70 horse power from bore and stroke of 3-1/4 by 3-3/4 inches. Taxable horsepower rating is 30. Piston displacement is 221 cubic inches.

The flag should never be raised or lowered by any mechanical appliance. Do not raise the flag while it is furled. Unfurl, then hoist quickly to the top of the staff. Lower it slowly and with dignity.

Where used as a banner, the union should fly to the north in streets running east and west, and to the east in streets running north and south.

Where the national flag is displayed with state or other flags, it should be given the place of honor on the right. Display the flag upon a staff whenever possible.

Place no objects on or over the flag. Various articles are sometimes placed on a speaker's table covered with the flag. This practice should be avoided.

Always let the flag hang straight. Do not festoon over doors or arches or tie in a bow knot. Use red, white and blue hunting for decorative purposes.

When flags are used in unveiling a statue or monument they should not be allowed to fall to the ground, but should be carried aloft, forming a feature of the ceremony.

Take every precaution to prevent the flag from becoming soiled. It should not be allowed to touch the ground or floor, nor to brush against

objects that are not thoroughly clean.

Before being placed at half-mast the flag must be raised to the top of the staff. Before lowering it must likewise be hoisted to the top.

Flags of friendly nations should not be displayed one above the other. They should be placed on staffs or halcyards of equal size and on the same level.

Methodist Church Enjoys Big Barbecue

The Men's Bible Classes of the Methodist Church invited the whole church to a barbecue on last Thursday afternoon at The English Park. The men provided the meat and accessories and the ladies of the church brought pies, cakes, salads and so forth. There was also an abundance of ice water and cold "pop." And to enjoy this big "feed" were between five and six hundred members of the church and Sunday School. It was truly a great get-together affair and many out of door games were enjoyed by the children while the main diversion was a baseball game between the fats and the leans.

C. A. Thomas a stock and poultry farmer of the Powell community was in the city Saturday on business.

AMERICANS WILL PAY RESPECTS TO OLD GLORY

On June 14 the nation will pause to render homage to Old Glory. For 137 years it has been our national standard and has been beloved by loyal Americans at home and all over the globe. Poets have sung of the flag, orators have eulogized it, and it has been the inspiration of thousands who have sought liberty under its folds.

Our flag is the result of a process of evolution from those earlier standards under which the colonists fought for liberty under George Washington. Some months before the flag as we now know it was adopted it was provided by the Grand Union flag composed of 13 stripes and bearing the crosses of St. George and St. Andrew.

The Grand Union flag was superseded by Old Glory on June 14, 1777, when the continental congress resolved that the flag of the 13 United States be 13 stripes, alternate red and white, that the union be 11 stars, white in a blue field, representing a new constellation. There have been many historical

events in the flag's history. Betsy Ross is credited with making the first flag when a committee, headed by George Washington, visited her little shop on Arch street, Philadelphia, in the spring of 1776, and requested her to make a flag from the design furnished by the committee. About a year later it was formally adopted by congress.

Probably the first display of the new flag was at Portsmouth, N. H., where Paul Jones was preparing to sail abroad on the "Ranger." The young ladies of that port made a flag, wrought out of their own and their mothers' gowns, which was hung to the breeze in Portsmouth harbor on July 4, 1777.

The flag was first displayed before the enemy at Fort Mifflin near Rome, N. Y., on Aug. 3, 1777, when a replica of the stars and stripes was hurriedly made by the fort's defenders and flaunted before the foe.

Then came the flag's first encounter at sea. Capt. Thomas Thompson in command of the American ship "Raleigh," while en route to France, displayed the new flag and fired on a British vessel

he was pursuing on Sept. 4 of that same year. The stars and stripes first floated over a fortress of the old world, when Lieut. Presley N. O'Bannon, of the U. S. marines, raised Old Glory over the Tripolitan fortress at Derne, on the north coast of Africa, April 27, 1803.

"By the dawn's early light" on Sept. 14, 1814, Francis Scott Key saw the Star-Spangled Banner still waving triumphantly over Fort Mifflin, and composed the famous song which is now the national anthem.

There have been changes in the number of stripes, and the arrangement of the stars, but today the flag is virtually the same as that adopted by congress 132 years ago.

Not only on flag day, but on July 4, Labor day and other occasions, when our national emblem is flown to the breeze, great care should be taken that the flag is displayed according to what custom has prescribed as good usage.

Rules for Use of Flag For this reason the United States marine corps offers the following rules, which are usually accepted by the best authorities.

When flags are used in unveiling a statue or monument they should not be allowed to fall to the ground, but should be carried aloft, forming a feature of the ceremony.

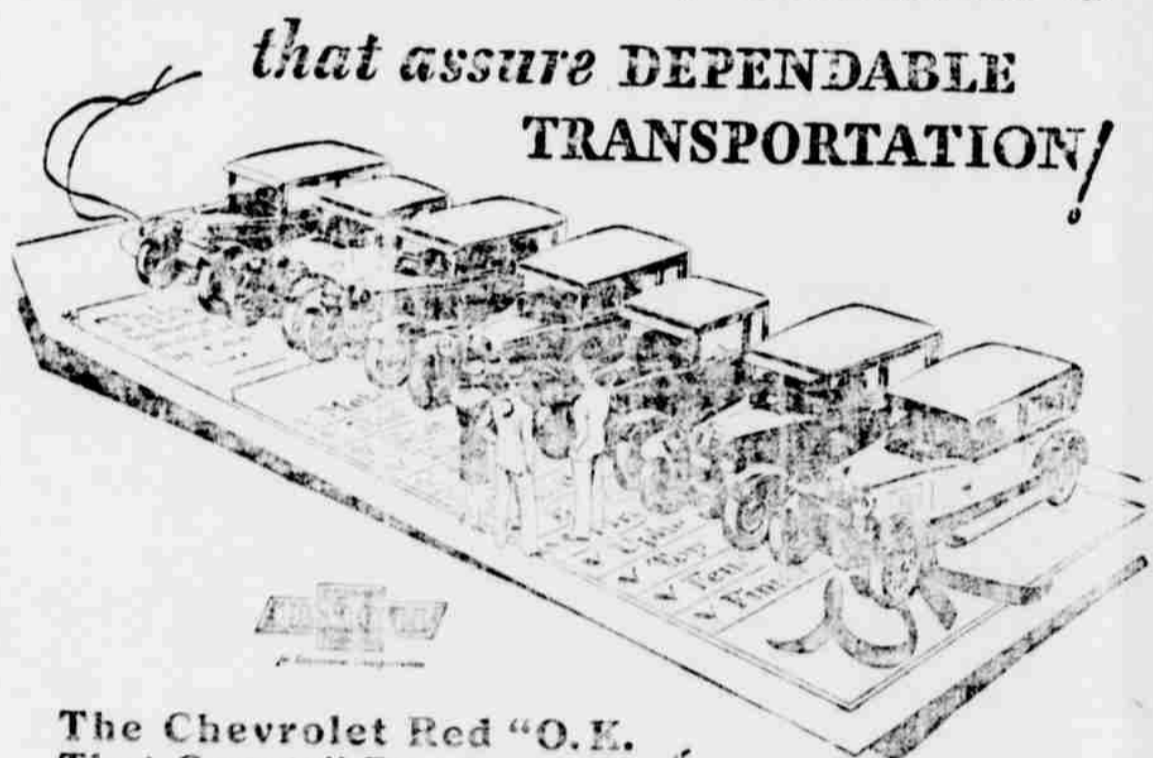

Take every precaution to prevent the flag from becoming soiled. It should not be allowed to touch the ground or floor, nor to brush against

objects that are not thoroughly clean.

Before being placed at half-mast the flag must be raised to the top of the staff. Before lowering it must likewise be hoisted to the top.

Flags of friendly nations should not be displayed one above the other. They should be placed on staffs or halcyards of equal size and on the same level.

Badly Run-Down

"Six years ago, I was very much run-down," says Mrs. O. J. M. Knight of Lovett, Ga. "I did not sleep well, and was weak and restless. I dragged around the house with not enough strength to do my daily tasks. I worried a lot, and this disturbed state of mind reacted on my health. I had often read of Cardui, so I thought I would try it. I soon began to improve after I had taken Cardui for a while. "It was astonishing how much I picked up, I slept better; my appetite improved, and that awful dragging-down feeling left me. ## FARMING CONDITIONS GOOD IN O'BRIEN SECTION

According to the business men and farmers of O'Brien and her trade territory, the farming conditions at this time is above par. Bountiful rains have fallen and there is a good stand of all seeds being planted this week. And the feed and cotton which is up to a stand is growing nicely. The warm sunshine and the moist earth is working wonders and the farmers are elated. The fruit crop is also very good in that section. H. R. Ricks who lives a few miles west of O'Brien was in the city Monday morning with the back of his car filled with fine ripe peaches which he was selling for a nice price. O'Brien had another good rain last Thursday night, and no hail or wind damage was reported.

E. M. Simpson of Merkel who is visiting his uncle and aunt Mr. and Mrs. W. L. Cox of Howard was in the city with Uncle Billie Saturday. He said it has been quite a while since he had been in Haskell.

# WICHITA WOMAN WAS DISCOURAGED BY MANY FAILURES

## Farmer's Wife Had Suffered For Thirty Years, Is Grateful To Orgatone

"If there was no other way for my wife to get Orgatone, she would actually walk twenty miles rather than be without it," said F. M. Nott, who lives at 2406 Holiday St., Wichita Falls, Texas. "My wife suffered for thirty years," continued Mr. Nott, "and during that time I spent thousands of dollars with specialists, hospitals, and medicines trying to find something that would overcome her troubles, but she never got any relief until she commenced to take Orgatone. Her stomach was in a awful condition, and every time she ate anything she would suffer for hours afterwards. Sometimes she would have cramping spells, and then she would often suffer on account of gas forming from sour undigested food, she would have awful headaches, too, and would frequently get so dizzy that she would either have to sit down or lie down to keep from falling. Her appetite was so poor that she hardly ate enough to keep her going and got so thin and weak that she was hardly able to get around at all. She also suffered a great deal from nervousness, and never got a good night's sleep. She finally got in such a worn out run down condition that she just had to give up trying to do her work. In fact, we were completely discouraged over her condition, and gave up all hope of her ever getting better."

"I told my wife that I didn't think it was of any use for us to spend any more money for doctors and specialists, but she said, 'No, we mustn't give up, for as long as there is life there is hope.' Well I noticed Orgatone being advertised then and I thought I would see if that would do her any good, and before she finished her first bottle I could see that she was mending right along. Her appetite is as good now as it ever was, and she can eat just anything she wants without suffering agonies afterwards. She has taken only a few bottles of Orgatone so far, and her health is far better now than it has been in over thirty years. Her stomach troubles have disappeared and her nerves are in such fine condition that she drops off to sleep as soon as she goes to bed every night, and she hardly ever wakes up until she is called in the mornings. She hasn't had a headache or one of those dizzy spells since she finished her first bottle of Orgatone, and is so well and strong in every way that she now does all her house work. I don't believe there is a medicine in the world that equals Orgatone, and I just can't find words to express our gratitude for the good it has done her and we will praise this wonderful medicine as long as we live."

Genuine Orgatone may be obtained in Haskell from the Oates Drug Store. Adv.

# How to Have Foot Comfort

An Exposition of the newest, scientific, most advanced methods of relieving and correcting Foot Troubles will be held at our store

**FRIDAY, JUNE 21**

How they give Comfort will be explained by an Expert from Chicago

ON the above date we shall have at our store an Expert from the staff of the world's most noted Orthopedic authority, Wm. M. Scholl, M.D., at which time the newest, most advanced scientific methods of correcting foot ailments will be shown and explained.

No matter how painful, difficult or long-standing your foot trouble may be, you will be shown how instantly modern science now brings you foot comfort. This Expert will Pedo-Graph your stockinged feet and show you exactly the nature and extent of your foot trouble. He will then prove to you how the specific Dr. Scholl Foot Comfort Appliance or Remedy made for your particular ailment, relieves you of pain and removes the cause. All this without any charge or obligation to you! Don't miss this opportunity.

**CALLUSES?**  
Dr. Scholl's Zinc-pads for Calluses instantly relieve the pain of hard growths on the soles. Remove shoe pressure. Positively safe, sure, soothing, healing. 25c box.

**CORNS?**  
Dr. Scholl's Zinc-pads for Corns give instant relief. They remove the cause—friction and pressure of shoes. Thus excoriated, sore, raw, blistered, scalded. 25c box.

**PAIN, CHAMPS HERE?**  
Dr. Scholl's Mechanical Arch Support removes the cause of callouses, tenderness and cramps at the ball of the foot. Gives immediate comfort. Worn in any shoe. \$5.00 up.

**SORE, BURNING FEET?**  
Dr. Scholl's Foot-lotion is a slightly cooling, soothing, healing emollient for sore, swollen, hot, tender, smarting or aching feet. Gives instant relief. 25c per jar.

**BUNIONS?**  
Dr. Scholl's Bunion Remover relieves pain by removing pressure from the sore, tender spot. Reduces the swelling, hides the bunion, and preserves shape of shoe. 75c each.

**CROOKED TOES?**  
Dr. Scholl's Toe-Flax straightens the crooked toe without discomfort by exerting an even outward pressure to the great toe. Builds up the crippled structure. The shoe.

**TIRED, ACHING FEET?**  
Dr. Scholl's Arch Supports relieve and correct tired, aching feet, weak or fallen arches, cramped toes, milliners, teacher, painted heels, etc. Light, comfortable, adjustable. Worn in any shoe. \$3.50 to \$12.00 per pair.

**TO PHYSICIANS**  
You are invited to refer or bring your foot troubled patients to our store during this demonstration. The newest scientific method of Wm. M. Scholl, M.D., will be fully explained.

# Times and Tires Have Changed!

Remember when we used to brag to our neighbors when we got 5000 miles out of a tire?

Those were the days of uncertainty—the days when we didn't know what might happen to us before we got back from the drive.

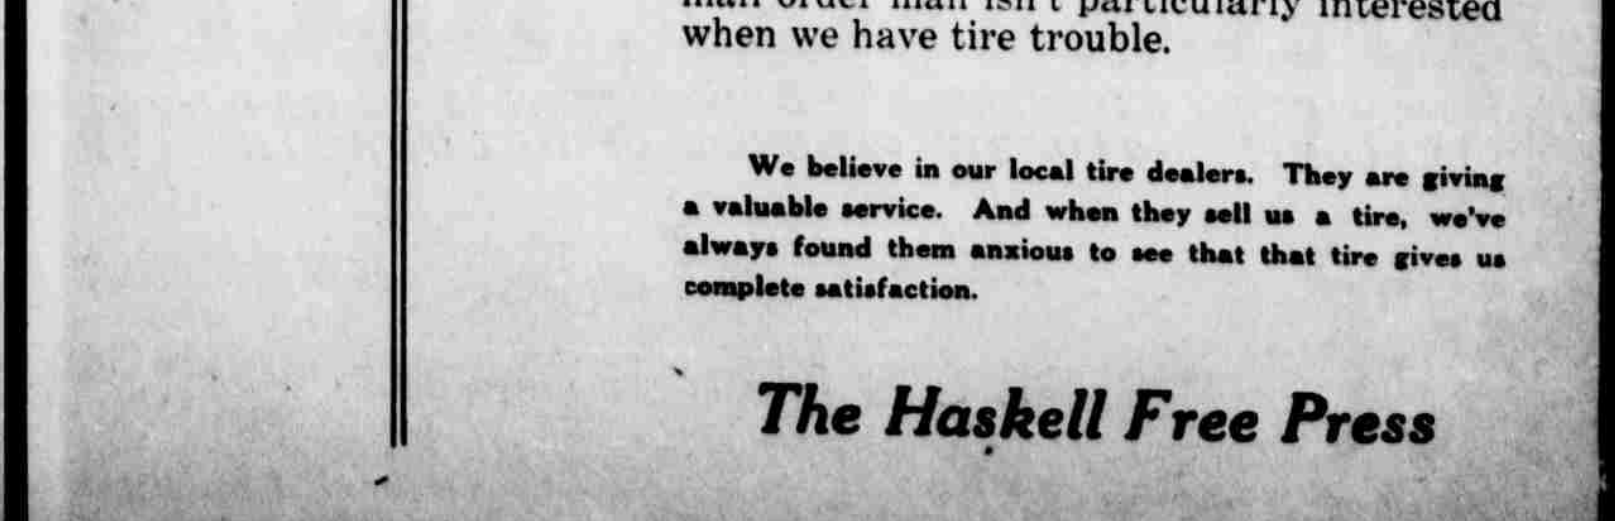

But it's different now. Automobile tires have doubled and trebled their days of service.

And even when we suffer a puncture or blow-out the service man is handy to render first aid. Rarely do we pump a tire up by hand any more. The pressure tank of the service man is at our disposal, free for the asking.

Here in Haskell we have dependable tire dealers. They sell dependable tires. And with every tire they sell, they give a personal-interest service that often is worth fully as much as the tire itself.

Mail order tires may be all right—we've never tried any and don't know. But we do know that there is no free-air tank at the postoffice, and our local postmaster or the mail order man isn't particularly interested when we have tire trouble.

We believe in our local tire dealers. They are giving a valuable service. And when they sell us a tire, we've always found them anxious to see that that tire gives us complete satisfaction.

PROFITABLE BUSINESS

From Littlefield on the South Plains comes this story: "Evidencing that dairy and poultry raising is a profitable business on the South Plains, the chamber of commerce of Littlefield has secured figures from local firms handling those products which show that \$1,929.65 was paid out to farmers of this section alone for poultry, eggs and cream during the month of May.

"Pure-bred stock of all kinds is being shipped into this section as well as pure-bred chickens."

It is not a fact that poultry and pure-bred livestock will pay the farmer in Haskell county if it will pay the farmer on the South Plains. They have tried it, and know it pays. We have their experience for an example and can profit by this without the cost of a trial. Every farmer should have enough cows and laying hens to almost pay the living expenses of the family. This can be done with the effort put forth. Many of our farmers have realized it and are now making a good profit from the cow and the hen, and many others will follow. Let's begin now to make plans for more cows and hens for next year.

POPULAR FILM PLAYERS  
PLAY IN "INTERFERENCE"

Four popular screen players have equally important parts in Paramount's screen version of "Interference" which comes to the Texas Theatre Monday and Tuesday. They are Gabe Brook, Evelyn Brent, William Powell and Doris Kenyon.

"Interference" when presented on the stage was acclaimed a sensational "hit" both in London, where it ran for two years, and in New York, where it held the boards for nine months. Roland Pertwee and Harold Dearden collaborated in writing the stage play, which was adapted to the screen by Hope Loring and Louise Long.

All of the four players mentioned are favorably known to film fans for their capable performances in the past. William Powell, the suave villain, steps on a mine in this picture. While pursuing the part of a rogue, Powell's part takes the path of the dramatic. Evelyn Brent portrays the role of a famous English surgeon, and being British herself, fills her role in a convincing manner. Evelyn Brent is a re-venging young lady who tries to recapture the love of Powell. Gabe Kenyon is harassed throughout the picture until he is finally rescued for her. The method he employs to gain this end introduces some of the fine drama. L. Arthur Ross has directed the film.

Mr. and Mrs. S. A. Hughes of the city had as their guests last week E. E. Smith and daughter, Miss Lula Lee of Temple, Ala. Mr. and Mrs. J. W. Carlin and wife, Mrs. Edwards, all of Haskell.

Weinert Baptists  
Building Church

Dirt was broken for the foundation and basement of the new Baptist church building at Weinert last Thursday when a large force of men met and began work. The old building has been torn down and all the material possible will be used in the new building. The members of this congregation have been planning this structure for quite a while and they are to be congratulated on the work being actually begun which means that within a short while a new stucco building, plenty large to accommodate the church and Sunday school in all services will be completed. Oscar Reid is reported to have charge of the work.

USE PRESSURE COOKERS IN CANNING NONACID FOODS

Research and practical experience have demonstrated, says Dr. A. F. Woods, director of Scientific Work, United States Department of Agriculture, that nonacid food products like asparagus, beans, corn, peas, spinach, meats, and fish, can not be canned safely by processing in boiling water, but must be sterilized under pressure with approved time and temperature.

Pressure cookers are now standard equipment and are readily available at small cost. The department does not recommend any particular make, although attention is called to the importance of having the pressure kettle equipped with thermometer and pressure gauge for proper control.

"There is now no excuse," says Doctor Woods, "for continuing to take risks in vying in canning nonacid foods without adequate pressure cooking. All recommendations by the Department of Agriculture will hereafter make this clear and emphatic."

O'BRIEN FARMER A SUCCESSFUL DIVERSIFIER

Lon B. Hester, living near O'Brien is a farmer by inheritance and practice, but he does not follow in the old ruts of the one crop farmer, but is a diversifier. He has a number of good farms in the O'Brien territory which he has acquired through good farming and careful management. During his years of farming he has become a successful cotton breeder. This he did not learn from books, but from actual experience and study of the cotton plant. He takes the different varieties of cotton and poliozizes them in order to get the results he wants. He has just about solved the problem of an ideal cotton which he will plant on the market in a few years which will be second to none according to merit. This cotton will have a strong tap root, uniform boll size, burr, opens wide, but does not fall out badly, easy to pick and is equal in turn out to Half and Half with a much better staple. The above points he has already obtained. What he is now working out is to make this cotton mature a little quicker and just a little earlier. He will succeed in this within the next two years. Last year from seven acres of land he made eight bales of cotton weighing more than 500 pounds of this variety. He also has the best garden in that section, growing most of the vegetables suited to the climate of West Texas and especially cabbage. He is supplying the neighboring towns with all the fresh cabbage they need and the quality is unsurpassed. Mr. Hester was reared in Haskell county and has grown up with the advancement of this great section of the State.

Pennington Bland

To the surprise of their many friends Mr. Curtis Pennington and Miss Oleta Bland drove to Anson last Saturday afternoon, June the 8th, and were happily married by Rev. G. W. Thomas, pastor of the First Baptist Church of Anson at his residence in that city at 3 o'clock. The bride is the charming daughter of Mr. and Mrs. H. D. Band of this city and is well and favorably known with a large circle of friends. The groom is the son of Mr. and Mrs. Pennington living south east of the city. The couple will make their home in this section where the groom is engaged in farming.

FARMER KEEPS BOOKS ON COWS AND CHICKENS

J. O. Jackson and family of the Pinkerton community were in the city Friday. Mr. Jackson owns a number of good farms which he has rented out to good tenant farmers. He only works a small amount of ground, tends his garden and chickens and markets the produce from his diversified efforts. Mr. Jackson is among the pioneer poultrymen of the county. He has kept books carefully on all his projects to know if there is profit in them. He says there is profit in milk cows and laying hens when properly cared for and the products marketed in the best possible condition which brings a better price and gives to the producer better returns. Mr. Jackson has some young birds of the Australorps breed of chickens which he is trying out. The stock and eggs of this new breed bring a fine price on the market and Mr. Jackson is looking forward to a good business with them.

Baird Weaver

Mr. Myron Baird and Miss Clara Weaver were married last Thursday night at Munday. The bride is the daughter of Mr. and Mrs. Roy Weaver of this city who is well and favorably known here. What We're Doing for M-O-T-H-E-R-S

WE are devoting a large measure of our time and efforts to the Mothers of this great empire of West Texas, always endeavoring to find ways and means of making their lives more pleasant and the duties which they find necessary to perform much easier.

—When we brought electricity into their homes, these Mothers were immediately relieved of oil lamps . . . one task less! It was made possible for them to enjoy the use of the Electric Refrigerator—the Electric Range and the Iron . . . all labor-savers for Mothers.

—There are numerous other electrical servants, all of which are skilled helpers on every household task; those tasks when done in the OLD way were genuine hardships; now they can be done easily and quickly, leaving much time for pleasure and recreation.

—Better lighting for homes . . . comfort appliances such as the heater and fan . . . floor lamps, bridge and table lamps and convenience outlets, too, are great conveniences . . . and there are personal appliances that keep Mothers well groomed. . . All of these we offer to the Mothers of West Texas, those who we are proud indeed to serve.

E. O. Cooper of De Queen, Ark., is visiting D. J. Burson and family. Mr. Burson and Mr. Cooper were neighbors in Arkansas for many years.

C. C. Maples and family of Wichita Falls spent the week end with Mrs. Maples' parents, Mr. and Mrs. R. D. C. Stephens and other relatives in the city.

Miss Ruth Robertson has remained for the summer term of school at C. I. A. where she will receive her B. A. Degree in August. Miss Robertson has been elected to the Haskell School faculty for next year.

D. J. Burson a good farmer of Midway who was in the city Saturday says that his crop is doing fine. Cotton planted early in the week was almost up to a stand Saturday and will be up to a fine stand by Monday. He says his feed is growing nicely. He is elated over the proposition.

Mr. and Mrs. M. G. Rueffer of the Cottonwood community were Haskell shoppers early Saturday morning. Mr. Rueffer stated that crop prospects at this time of the year were extra good.

J. F. Weaver of the Pleasant Valley community who makes an occasional trip to the city was here Saturday. He says they have plenty of moisture out his way and crop prospects are fine.

H. E. Bland, one of the old timers of Sayles says that things for the farmer are looking very bright in his section. He says that there is a bountiful season in the ground for all crops and that cotton and feed that is up is growing nicely.

Bill McDonald, a pioneer shoe shop man of this city is now with the Electric Shoe & Top Shop and has arranged to be there for an indefinite time so he will be anxious for his friends to know that he is located there and invites them to call and see him.

J. W. Proster, who taught school in this county a number of years ago, was in the city Friday of last week on business. He is now located at Woodson where he has lived for the past several years. He is getting along nicely.

M. O. Field and family returned last Thursday from a visit with relatives in Johnson County and other points where they report having a good time. While they were at the home of a brother of Mr. Field, Mrs. Field canned all the dewberries and blackberries she could bring back in the car. They report lots of berries in that section and no market for them.

J. H. Laughlin, carrier on Route One out of Sagerton made this office a pleasant call Thursday of last week. Henry has been on this job for almost twenty years and has endeared himself by good service to his patrons on the route and has become a fixture in their minds. The good service which he renders has won for him the high esteem among them in which he is held. We appreciate his call to our office very much.

Miss Elise Roberts is at the Tonkawa Hotel with her parents, Mr. and Mrs. George Roberts, after spending the school year at T. C. U. Ft. Worth.

Dr. and Mrs. J. C. Guest of Ft. Worth were last week end guests of his mother, Mrs. J. J. Guest and little daughter, Miss Contene Guest.

FAMILY REUNION HELD AT KINNARD HOME

It was the great pleasure of Judge and Mrs. Jas. P. Kinnard of this city to have as their guest all of their children last Sunday, June the 9th in a family reunion. This is the first time in 15 years according to Judge Kinnard that the members of his family have all been at home at the same time. Judge and Mrs. Kinnard only have four children and they feel that they have been blessed with good fortune in rearing all of them to be grown, educating them and they all have the ability to fill gainful occupations which does much honor to the efforts of their parents in fitting them for life's battles.

Farley Kinnard the son who recently came from Long Beach California to visit his parents has been the guest for several days and while he was here the girls all came home for the one day to be together in the old home. Miss Jimmie came from Dallas, Miss Elma lives with her parents and Mrs. Alvy R. Couch with her children and husband came from Weinert.

Without this was the greatest joy that has come to Judge and Mrs. Kinnard in a number of years in having all their children under their roof once more and will be one day of happy remembrance to the entire family.

Miss Jimmie left Sunday night to take her place in the business life of Dallas where she has a fine position. Farley left Tuesday morning by way of Abilene where he will take the T. P. Train for California where he has an honored place with the Shell Oil Company. Mrs. Couch and her family have gone back to their home in Weinert and Miss Elma resumes her work in the city and doubtless the going away of the children brings sadness to the hearts of the parents, but there is happiness in the thought that all are well and strong and able to earn. May Judge and Mrs. Kinnard live to enjoy many days like this with their children.

Pie Supper Friday Night The young people of the Christian Endeavor society are having a pie supper on the lawn of the Presbyterian church Friday night of this week at eight o'clock. A jolly time and lots of good eats is promised all who come. Every one is invited, come and bring your friend. Pies will be sold by the young people.

Miss Elise Roberts is at the Tonkawa Hotel with her parents, Mr. and Mrs. George Roberts, after spending the school year at T. C. U. Ft. Worth.

Dr. and Mrs. J. C. Guest of Ft. Worth were last week end guests of his mother, Mrs. J. J. Guest and little daughter, Miss Contene Guest.
