TEXAS MINING.

Explorations recently made report rich veins of silver in the Chinati mountains in Presidio county, and also at some places in El Paso county.

These ores also occur in a spur of the Organ mountains, about one mile north of Franklin. El Paso county.

At the mouth of the Chinati mountains, about one mile from Fort Quitman, on the borders of the mountains, argentiferous galena is said to be abundant along a ravine.

The silver, lead and copper mines of New Mexico, and those of Chihuahua in old Mexico, yield millions of dollars annually.

The gold and silver mines of Nevada and Colorado have given the most profitable results at depths of more than 1000 feet.

A BALD MISREPRESENTATION.

Whether Shaw & Blaylock edit the Christian Advocate or not, they control it, and from what Treasurer Lublock says, we believe the attacks of "Car Toot," and the said Journal, are the emanations of malice superinduced towards the officers of the government on account of financial misunderstandings.

So far as the ADVOCATE is concerned, the above statements of the Ledger and the Democrat are utterly without foundation in fact. Messrs. Shaw & Blaylock are publishers of the ADVOCATE, but they have no control over its editorial management.

FACTS FOR TAX-PAYERS.

The following is the number of arrests made by the police during the month ending October 1st, 1880: CITY CASES—4 cases removing sand from within the city limits; 10 cases drunk and down; 3 cases vagrancy; 2 cases keeping a disorderly house; 17 cases disorderly conduct; 35 cases assaulting and striking; 5 cases violating pigeon ordinance; 1 case violating harbor regulations; 19 cases abusing and insulting; 14 cases drunk and disorderly; 1 case fast and reckless driving; 14 cases fighting; 1 case intruding on premises; 1 case carrying concealed weapons—total, 117.

In Congo land a chief recently died. The water of a stream was turned, and a large pit dug in its bed. The bottom of the pit was covered with living women—his late wives. The dead chief, in a sitting position, was placed in their midst. One, the second wife, had the privilege of being killed. The earth was then shoveled in and the women buried alive. Between forty and fifty men were killed and their blood poured over the grave, after which the stream was turned back on its course.

A COLOR BLIND PRESS.

The attention of medical men has been called of late to the probability that many railroad and steamboat collisions have been the result of color blindness on the part of engineers and pilots. They are unable to distinguish certain colors, and hence they have mistaken the warning signal, and have driven their trains and guided their boats to destruction.

Whether the ADVOCATE is concerned, the above statements of the Ledger and the Democrat are utterly without foundation in fact. Messrs. Shaw & Blaylock are publishers of the ADVOCATE, but they have no control over its editorial management.

THE SECULAR PRESS.

The publication in this paper a few weeks ago of an article duly credited to the Journal has created quite a furore in journalistic circles, and some of the country papers, crediting us with the authorship, are fearfully exercised over what they conceive to be a lapse into politics.

GALVESTON WEEKLY JOURNAL.

We have just perused a recent number of the WEEKLY JOURNAL, published by Shaw & Blaylock, Galveston, Texas, and congratulate the reading community on the appearance in the Journal of a paper that is not afraid to speak out in favor of the people's interest.

THE CHRISTIAN MINISTRY.

The ever present influence of the Holy Spirit is the principal ground of ministerial efficiency. While conversing with the apostles concerning his departure, the Savior said: "I will pray the Father, and he shall give you another Comforter that he may abide with you forever. Even the spirit of truth, whom the world can not receive, because it seeth him not, neither knoweth him; but ye know him, for he dwelleth with you, and shall be in you."

TEXAS METHODISM.

Northwest Texas Conference. T. M. Price, Eolian, Stephens Co., Sept. 28: I closed a meeting last Wednesday night on Battle creek, in this county, resulting in eight conversions and fourteen accessions to the church; ten infants baptized; church greatly revived.

EAST TEXAS CONFERENCE.

Geo. A. LeClere, Stone Point, Van Zandt county, Sept. 28: Prairieville circuit—Our camp-meeting at Edge-water was one of great power; we held the meeting seven days and the result was more than sixty professions; thirty-one accessions to our church and sixteen to the Presbyterian church, and several baptisms; the church was greatly revived. I have just closed a meeting at Creswell, near Grand Saline. Began the meeting under very unfavorable circumstances, but the interest soon increased and more than twenty professed faith in Christ and twenty-two joined our church.

TEXAS CONFERENCE.

J. Galveston, Oct. 4: Bolivar, Peninsula, is on the main land east of Galveston Island, but embraced in Galveston county. It extends some thirty miles along the gulf and varies in width from one and a half to two and a half miles. There is a population represented by sixty-one heads of families, with some sixty-two children between eight and fourteen years of age; and thirty-one from fourteen years to twenty-one. Besides this there is a considerable floating population consisting of men and boys employed on the farms. There has been an occasional sermon preached on the peninsula since its settlement, but they have never had any regular appointments. On the fourth of September Bro. P. E. Nicholson, of Clear Creek mission, and R. Hingman, a local preacher, commenced a meeting, of which a partial report has been made. The final results are as follows: twelve conversions, and a church organized with twenty-four members; six adults and thirty-nine children baptized. This people, many of whom have been living for a generation almost within the sound of the church bells of the city, are anxious to have preaching. We doubt not, the ensuing conference will provide for them. They have taken steps to build a church, and will have it ready for the preacher who may be sent next year. There will be a camp-meeting on the peninsula, the 11th of November, at Parr's Grove—not Pass grove as was announced by mistake. Parr's grove is about twelve miles from Galveston and seven miles from the point.

RELIGIOUS SUMMARY.

Martin Luther's copy of the Vulgate has been discovered at a little village in Bohemia. The annual meeting of the American Missionary Association will be held October 12 to 14 at Norwich, Conn. The Spanish church of Santiago in the city of New York, was organized in 1806, and now numbers 370 members. In Great Britain there are 371 Baptist ministers without pastorates, 117 of whom have seen over thirty years of service. Two Chinese students have entered Lane Seminary, Cincinnati, Ohio, to fit themselves to preach to their own people. Mr. Moody will commence a meeting in San Francisco October 1. He expects to remain there during the winter. Copies of the New Testament in Japanese have been placed in the schools of Yokohama by order of the authorities. The Jewish calendar of Grand Rabbi Servi for the present year, puts the Jewish population of the world 9,210,000. Sixty-five years ago Christian work was begun in Turkey. There are now in that country 225 Protestant churches and 282 schools. Three hundred ministers spent their summer in the White mountains. How and where their flock spent their time is not stated. Last year twelve persons in the United States and Europe gave an aggregate of \$1,000,000 to the cause of foreign missions. The colored Baptists of Texas, Arkansas and northern Louisiana propose to build for their people a college at Marshall, Texas. Rev. Dr. Chapin, by his large earnings and good investments, has become one of the wealthiest clergymen in New York City. Brown University, between the years 1789 and 1889, has sent out 2,623 graduates, one fourth of whom were or are ministers of the gospel. The venerable Rev. Peter Akers celebrated his ninetieth birthday Sept. 1st, and preached Sept. 5, in Jacksonville, Illinois. Plymouth Church, Brooklyn—Henry Ward Beecher's church—is said to have the largest membership of any Congregational Church in the United States. It has on its roll 2,549 names. At a recent conference, presided over by the Archbishop of Canterbury, it was resolved to give continual support to Pere Hyacinthe's movement, and to issue an appeal to aid his work, both in Paris and throughout France. The invitation of Bishop Littlejohn, of the Protestant Episcopal diocese of Long Island, to preach before the University of Cambridge, is the first time the honor has been conferred on an American divine. In China it is rare that a man can be found who cannot read and write. They have 2,000,000 men of great learning, and 2,000 colleges, yet their women are degraded because it is believed they have no souls. There is a blind mule from Hartford who can select his clothing from out of the garments of his 130 associates. He can also tell severally the garments of each, even after washing, and this all is done by acute smell. Some fish smell their food miles away. The fine dusts of Sahara are borne a hundred miles, and the laundry-mails on the Mediterranean have learned to remove their bleaching linen when the south wind blows.

BUSINESS.

Circulate the Advocate.

We submit the following propositions to agents, and subscribers, believing this an opportune time to push the ADVOCATE and get it into 30,000 families. The extraordinary crop this season, the railroad extensions and improved mail facilities in every section of the State, the general prosperity that characterizes the country, give us faith in the ability of the people to avail themselves at this time of offers which will benefit them, the church and the ADVOCATE.

First—To subscribers whose terms expire prior to November 1, and to all new subscribers sent us prior to November 1, we will send the ADVOCATE from the time of expiration of old subscription, or from date of receipt of their names until January 1, 1882, for \$2.25.

Second—To all those subscriptions expire during November and December, and to new subscribers sent during those months, we will send this ADVOCATE until January, 1882, for \$2.10.

Third—To subscribers whose terms expire after January 1, 1881, we will continue the ADVOCATE one year from date of expiration of time for \$1.50, if this amount is paid to us or any of our agents prior to the meeting of their ensuing annual conference.

Fourth—Any subscriber whose time expires prior to January 1, 1881, or new subscribers who desire to advantage by the \$1.50 proposition, can do so as follows: To any subscriber whose time expires in September and October, or to any new subscriber in September or October, we will send the ADVOCATE to January 1, 1881, for \$1.75.

Fifth—To any subscriber whose time expires in November and December, or to any one then becoming a subscriber, we will send the ADVOCATE to January, 1881, for \$3.00.

Sixth—To any one sending us, either directly or to the annual conference, the sum of \$5, we will send the ADVOCATE four years.

All subscribers sent under the new propositions will count on the premium proportionately.

These propositions in no way change the regular subscription price of the paper. Subscribers may still be sent at \$2. Many may desire to become subscribers to the paper without taking advantage of the special propositions.

CHURCH NOTICES.

NORTH TEXAS CONFERENCE. The presiding elders will please send me the names of delegates to meet at the annual conference; also names of candidates for ordination. The brethren who intend to bring their wives to conference must let me know immediately. The conference of the Methodist Episcopal church meets here at the same time, and we will be pressed for homes. Our arrangements will be completed by the 1st of November, and we must be fully informed by that time or will not be responsible thereafter. The class of the second year must meet promptly Monday evening, November 15, 1880, at the College, at 7 o'clock.—H. A. BOURLANGE.

To the members of the Northwest Texas Annual Conference, to be held in Waco, Texas, November 10, 1880:

Dear Brethren—Will the presiding elders forward to me a list of their lay delegates, applicants for admission on trial and all local preachers coming up for ordination? Any who expect to bring their wives or daughters will please notify me by postal by the 25th of this month. Persons desiring to attend the session, and not members, are invited to notify me of that fact and I will try to secure for them board as cheap as can be had in respectable hotels and boarding houses.—J. D. SHAW.

To the Preachers of the Paris District, North Texas Conference:

Dear Brethren: I wish to call your attention to the fact that the annual conference at Sherman last fall adopted a resolution obligating themselves to pay the expenses of Bro. Langston at the Southwestern University, Bro. Langston pledging himself to the foreign missionary work. The amount necessary to meet the demand of the conference is three dollars from each pastoral charge. Those who have not paid the above amount for the purpose aforesaid will please collect from their people or otherwise provide the same and remit to Dr. Mood at Georgetown, or to the undersigned at their earliest convenience; payment at conference will answer.—L. B. ELLIS.

COMANCHE, Comanche Co., Sept. 29.—I hear that one of the candidates for district judge is a religious man, and prays. I am going to vote for him irrespective of party, and I hear several others who are like-minded saying they have already indicated a number to vote for said candidate, and they intend to continue their influence in the same direction.—H. B. HENRY.

JEDDO, Bastrop Co., Sept. 28.—This immediate section of country is improving, religiously. Not within the bounds of our circuit, but we have preaching monthly, both by Baptist and Methodist. We have just organized a very interesting Sunday-school; forty-four names enrolled. Parents say they will come with their children—do not send them to the right of the school. No raised and land donated to erect a good building for religious purposes.—A. B. WARD.
