Canned Chickens Double Market Price of Culls

"My canned chicken brings me 75c per hen while the ordinary market price per hen is 20c," says Miss Nora Walters, home industries demonstrator of Blue Bonnet Home Demonstration Club, Haskell county. "When I first asked my grocery man to keep my chicken in stock he said he didn't think there would be a market for it but he would give it a trial. He told me yesterday he was out of chicken and had calls for more. 'We have tried a can and it sure is fine,' he said. 'A customer said 'Your chicken is the best I ever ate, why don't you bring some more to the store?' Another lady said 'It is so nice for a quick lunch these hot days.' 'I am paying for my automatic sealer with the canned chicken and I find that the number one can sells a little better than the number two. I have sold to date 18 cans and have only started. This product is standardized with A & M College Extension Service and has the approval of Miss Zetha McInnis, Home Industries Specialist," stated Miss Walters.

COMMUNITY CONFIDENCE

"He who has lost confidence can lose nothing more.—Boete. To believe in one's self—to believe in one's neighbors—how essential to good business! The chronic knacker knows of everything except the door of opportunity. Seeing no good in himself, he vents his spleen upon his neighbors, and becomes a thorn in the side of the community. Pushing and pulling together, with the right viewpoint, in the militant cause of a community's fortunes and prosperity, finally flows again in a golden stream. Give my community confidence, and it plays a deep in the march of events. Give my community more believers and I'll show you a citizenship working miracles. Community confidence is the keystone to civic and material achievement." —Clayton Rand

STERLING ASKS COMMISSIONERS NOT FIX RATES

Governor R. S. Sterling has requested that county commissioners courts defer fixing their tax rates based on their highway bonded indebtedness until after a special session of the legislature proposed for September. The governor had promised to convene the legislature for the purpose of allotting a portion of the gasoline tax fund to pay interest and create a sinking fund for county bonds issued for construction of highways now a part of the state system. Governor Sterling telegraphed Otis Miller of Anson, county judge of Jones county, president of the County Judges' association in part as follows: "I am requesting the county commissioners courts throughout the state to defer the fixing of their tax rate and levies insofar as highway bonds are concerned until after the special session of the legislature has had an opportunity to pass the tax relief measure which I shall submit to it at the session early in September. . . . I am giving this message to the press in order that all county judges may get the request through the daily papers."

Marion Davies, Clark Gable in Romance

"Polly of the Circus" will head the program at the Texas Theatre August 24 and 25 with Marion Davies enacting the role of a trapeze artist and Clark Gable that of a modern young minister. This unusual romantic drama is based on Margaret Mayo's stage success of some years ago and was directed by Alfred Santell of "Daddy Long Legs" and "Sob Sister" fame. As the circus performer who marries a minister, only to find that she stands in the way of his happiness, Miss Davies is said to have a role which gives her even greater dramatic opportunities than that of her last vehicle, "Five and Ten." The story also has its amusing moments, for the hoydenish circus serialist discovers that ministers are not quite the forbidding persons she had thought them to be, while the small-town parson gets a new slant on life under the "big top."

Miss Margaret Waldrop of Abilene is visiting with friends and relatives here this week. Mr. and Mrs. Ben Warren and Mrs. Henry Warren of Houston visited several days this week with their brother, Mr. and Mrs. Claude Warren and family, returning home Wednesday. There have been 11 additions to the church during the present meeting and is said from an interest standpoint was one of the most successful ever held here by the local church. One of the features of the meeting was the story hour for the children which was held at 9 o'clock each morning. Victor Harrison gave a series of experiences from his own life in continued story form which was enjoyed by the children each morning. The young people's services were held at 7:15 each evening, in charge of Mr. Harrison, who gave them a series of stories from his own life, which ranged from the ridiculous to the sublime. Rev. Robert M. Wilson of Cleburne, who did the preaching, delivered some wonderful sermons and made many warm friends here during the meeting.

GOOD RAINS OVER MOST OF COUNTY

More than an inch of rainfall has been recorded during the past week over most of Haskell county, according to reports received here, and practically the entire county was covered by the numerous showers which have fallen, though the precipitation seems to have been lighter in the northeast part of the county than in any other section. Crop prospects were never brighter than at the present time, though some farmers are uneasy and afraid that if the showers continue, the boll worm will do considerable damage to the cotton.

JUDGE R. E. LEE DIES AUGUST 12

The funeral services of Judge R. E. Lee, age 67, were held at the First Methodist Church in this city last Sunday afternoon at 3 o'clock conducted by Rev. A. W. Gordon, pastor. Judge Lee died in the Stamford sanitarium last Friday afternoon after an illness of several weeks. Interment was in Willow cemetery. Active pall bearers were O. E. Patterson, F. G. Alexander, W. M. Luper, Elmer Watson, L. D. Ratliff and N. I. McCollum. Robert Edward Lee was born March 13th, 1865, near Winchester, Tennessee. His ancestor, General Henry Lee, founded the first white settlement west of the Alleghenies on the Wautauga River in 1767. This settlement was known as Fort Lee. In 1809 with his parents he moved to Texas, settling near Sherman, in Grayson county. Five years later the family moved to Wise county. Mr. Lee's boyhood was spent on the frontier without a chance for such public schools as we know today. But despite this handicap he acquired a practical education and familiarized himself with the principal branches of learning. In 1829 he married Miss Tennessee Allred. This union remained unbroken until his death at 5:00 p. m. last Thursday in the Stamford sanitarium. He was the father of three children: Henry C. Lee, Robert Lee, and Harry Lee, all of whom survive him. He served as County Judge of Haskell county from 1922 to 1924. Mr. Lee was a close student of politics and took an active interest in the affairs of his county. He came to Haskell county in 1902, settling in the Post community. He excelled as a farmer and became known far and wide as one of the most successful cotton growers in Haskell county. Mr. Lee was a Christian gentleman of the old school. He was kind and considerate towards all men, and his conduct caused him to win the regard of those who knew him best. In his going a good citizen has taken his departure, a kindly husband, and a loving father. We shall see and know him no more on this mortal shore of time, but we have an assurance that beyond the tumult of the years in the blessed land of Fair Tomorrows we shall again enjoy the privilege of his friendship and association.

Preparation Key To Success In Fall Gardening

College Station. — Pointing out that fall gardens should furnish fresh vegetables from the middle of September to Christmas anywhere in Texas, J. F. Rosborough, horticulturist in the Extension Service at Texas A. and M. College emphasizes the importance of thorough preparation as the biggest single factor in success. "Most fall gardens that fail do so because they were plowed and disced only once, leaving big clods," he says. "The ground should be plowed shallow, disced several times, and allowed to settle. Weeds should not be plowed under but cut and raked away. Fertilization is more important in fall gardening than in the main spring garden. Better than well-rotted manure at this time is a mixture of 50 pounds of nitrate of soda and 100 pounds of high grade acid phosphate to one tenth acre, or a 6-8-4 fertilizer at the same rate. This holds for all parts of Texas except the Blacklands and the heavy soils of West Texas. Since germination of seed is poorer in the fall, one-fourth more seed should be planted than in the spring. "Slower maturing vegetables suitable for planting from August 10th to September 1st are cucumbers, cream peas, pinto beans, Irish potatoes and winter squash. If not planted during that period these vegetables should not be planted at all. For September plantings are suggested cabbage, radish, cauliflower, carrots, beans, onion sets, beets and Swiss Chard." Those interested in fall gardening will find by inquiry at least one demonstration garden near at hand from which they may get pointers, or information and help may be had from county farm and home demonstration agents. The Extension Service has available C-56 "Fall Gardens," obtainable from these agents or direct from the Extension Service at College Station.

Fishing is Good In Clear Fork River.

SUN ECLIPSE AUG. 31

An eclipse of the sun, total over a portion of the New England states and partial throughout the rest of the country, will occur on the afternoon of August 31, affording millions of people the opportunity to witness the most striking celestial phenomenon.

The extent of the eclipse will vary from total in portions of the East to only 10 to 30 per cent on the Pacific coast. In the middle West, and in the Southeastern states from 50 to 75 per cent of the sun's face will be obscured as the moon passes across it.

The earth is the only planet in our solar system with a moon large enough to make a total eclipse of the sun possible. Mercury and Venus have no moons at all; Mars has two, but they are only about five to 10 miles in diameter, so would only show as small black spots when crossing the sun's face. The larger planets have several moons, but none are large enough to eclipse more than a slight fraction of the sun.

An endless source of wonder to the layman is the ability of astronomers to predict the occurrence of eclipses with unerring accuracy years and even centuries in advance. It is known, for example, that a total eclipse of the sun will be visible along the southern border of the United States from California to Florida on August 12, 2045—or 113 years hence. The eclipse which will occur this month was predicted and described in great detail in a work published in Vienna nearly 80 years ago.

But if we can not understand how these wonderful spectacles of the skies are predicted, we may witness them as occasion offers and marvel at the mind of man which has discovered so many of nature's secrets.

Sterling's Plan and Ferguson's Plan and How They Affect Haskell County

Highways and taxes are two subjects of extreme interest to the people of Haskell County. They want the State to relieve them of their road bonds and at the same time they want their program of hard surface roads completed. Governor Sterling is committed to such a program. He proposes to continue giving the schools 1/4 of the gasoline tax, assume all county road bonds issued for building state highways and use the balance for building and maintaining highways. Thus the people of Haskell County would have their county tax rate slashed drastically, and at the same time their highway construction program would go forward unhampered. They would get their taxes cut and a system of connected highways built at the same time.

The Ferguson program on highways and taxes is radically different. He would stop all highway construction; he would divert 1-3 of the gasoline tax to the general fund; he has no program for lifting the highway bonds from the counties; his platform is a serious threat to the future development of Haskell County.

If the Sterling plan is analyzed it is difficult to understand how any citizen of Haskell County can fail to endorse it. It is not guess-work; it offers specific and immediate tax relief. Notice this: The tax rate in Haskell County for county purposes in 1931 was \$1.55, of which \$.80, or more than 50 per cent goes to pay off highway bonds. Under the Sterling Plan our tax rate in Haskell County would be cut \$.80, and our road building program would continue.

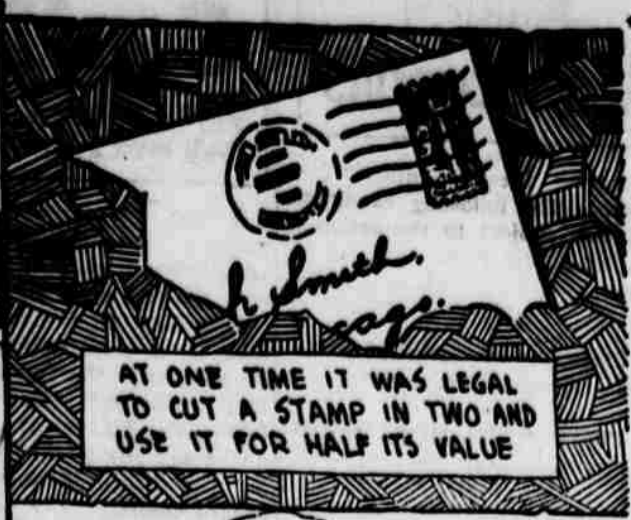

A vote for Sterling is a vote for a cut of \$.80 in the tax rate of Haskell County, and a continued road building program. A vote for Ferguson is a vote to continue to pay our highway bond tax and to halt our road program in Haskell County. The issue is clearly before the people of Haskell County. What shall the verdict be on August 27th?

Benefits are Widely Spread With Widespread Power

The power line which carries electricity over the countryside is bringing the benefits of industrial development to small communities as well as large cities.

When an equal power supply is commanded by both, the production efficiency of small, decentralized establishments matches that of the large metropolitan factory. Moreover, with its freedom from the high costs imposed by congestion, the small community factory can even surpass the large city factory in economical manufacture.

This is the opportunity which the widespread distribution of electric power has opened . . . an opportunity which the West Texas Utilities Company has made available to 125 progressive West Texas cities and towns served from its 2,500 mile transmission line system.

FARM WOMEN CAMP IN SEYMOUR

Our fifth tri-county annual encampment met at the City Park in Seymour August 4 and 5. After an hour or so of talking with old friends and meeting new ones the camp was called to order by Chairman Maud Jones of Baylor county. Mrs. Earnest Bosse of Haskell county read the minutes of our 1931 encampment. Mrs. Harrison of Seymour then took charge, with Mrs. Mart Russel as secretary. As it was supper time, we were all dismissed. After eating, dishes put away, whistle blew and we were all in camp again. Open song, "The Eyes of Texas Are Upon You." After singing many songs, a talk was given on H. D. Club work by a Seymour lady.

We were also entertained by some side show stunts by a young man who had followed a show and was visiting his aunt, a club lady of Seymour. He did the wire walking and did many things while walking the wire. We were also entertained with some guitar music and singing. At 9 o'clock all were dismissed for the free swim. This was enjoyed by several women. After the swim we were called to camp again and each club was called on to put on a stunt program. Post, Cottonwood, Jossilet, and Rose Clubs were not long in deciding what to do. With Mrs. Floyd Maxwell of Cottonwood Club as teacher we staged a Friday afternoon program in a Kindergarten School. The best stunt lay between Haskell and Monday. Everybody joined in playing games and at a late hour all were dismissed for the night.

After a hearty breakfast, several went for another swim before camp was to be called to order. Mrs. Molliette, T. P. A. President of Seymour, spoke on Health. Mrs. Molliette is a very clever and interesting speaker.

Mrs. Henry Smith of the New Mid Club in Haskell county gave a report of the A. & M. Short Course which she attended in July.

The Recreational Program Committee took charge and many interesting games were played until the noon hour.

After lunch we were all called to camp for a business meeting. Each club from the three counties and also some individual reports were given of their home work. It was very surprising at how many containers of food that has been put up in these three counties. Several of the individual reports showed some of the ladies had put up over five and six hundred containers for themselves and found time to help their neighbors.

The encampment meets with Haskell next year with Mrs. Jesse Jossilet, chairman and Mrs. Henry Smith, secretary.

After adjournment we all partook of a farewell watermelon feast, after which we all bid one another goodbye, with all agreeing that it would be good to get back home. To see the welcoming eyes there, knowing we would be treated just like company for a while, so after all its nice to know the entire family gets pleasure from "Mother's Camp."

ARISTOPHANES *Stands Bewildered*

Aristophanes remarked of women, 2300 years ago, "They dip their wool into hot water, according to the ancient plan, all of them without exception, and never make the slightest innovation. They sit and cook as of old. They carry upon their heads as of old." Could you summon Aristophanes into our today—he would stand appalled at the speed of women's present innovations.

Just about everything you are accustomed to becomes out-moded, discarded, in an incredibly brief time. Ways of cooking, serving, traveling; of keeping clean, healthy, beautiful, young—these are the modern tasks, "as of old." But science in alliance with factories and kitchens keeps new ways coming along so fast that poor

old Aristophanes and those soft-sandaled women would be breathless with keeping up. Yet you are used to swift change . . . used to comforts that a short while ago were luxuries . . . that a little way from now will seem Grecian-quaint themselves. From advertisements in your newspaper you reap news of these ways to live healthfully, richly, advantageously—young!

Sit and cook as of old? Carry upon your head as of old? No, you carry IN your head knowledge of the best that is buyable. Advertisements give you easy, happy surveys of new ways. Glance over all the advertisements you can, every chance you have.

WHY WE ARE FOR STERLING

It has never been the policy of this paper to engage in partisan politics, or to open its columns to personal attacks upon any candidate for office. It does, however, hold to the view that it is not only its privilege, but also its duty to make a close study and careful analysis of measures, and to give expression to its conclusions. The candidate himself is unimportant except in so far as the public measures he advocates may effect the welfare of the people whose suffrage he is seeking. Nor is it the purpose of this article to appeal to the prejudices, but rather to the intelligence, and, if you please, the self-interest of the Haskell County voter.

The electorate of Texas will on August 27th determine an issue at the ballot box which we consider of vital importance to the tax payers of Haskell county. As is well known, our people in December 1929, voted a bond issue of \$985,000.00, \$100,000.00 of which was for the purpose of retiring an equal amount of bonds of Road District No. 1, and \$885,000.00 for the construction of approximately 100 miles of hard surfaced highways in Haskell county. 31 miles of which, No. 30, was completed and opened to traffic last October; 14 miles, No. 18, will be completed early in September; grading and drainage has been completed on an additional 25 miles, No. 51; the surfacing of 15 miles of which, Rule to Knox county line, is now under contract, and work will probably begin by Sept. 15th. Right-of-way for the remaining 30 miles, No. 120 from the eastern to western boundary lines, is now being contracted by the Commissioners' Court, with the assurance from the Highway Commission that 10 miles of construction, from Haskell to Rule, will be contracted as soon as title to right of way can be secured.

The announced policy of the Highway Commission is that hereafter no county funds will be required in the construction of state highways, and Haskell county has the assurance of the commission that her highway program will be completed in full accord with that policy.

Now, let us see how this will benefit the local tax payer. Haskell county has \$240,000.00 in unsold highway bonds, which will be canceled. She has \$205,000.00 unexpended proceeds from sale of highway bonds which will be used in the retirement of bonds now outstanding, thus making a saving of \$445,000.00 of principal alone, to say nothing of the tremendous saving of interest.

Governor Sterling has announced that an extra session of the Legislature will be called to convene early next month, at which he will submit a proposal for the enactment of a law authorizing the appropriation of one cent per gallon of the gasoline tax to the payment of principal and interest of highway bonds now outstanding against the several counties of the state, and the Governor has requested that no tax levy be made for 1932 for highway bonds until after the September meeting of the Legislature, since if his proposal becomes a law no tax levy for such purpose will be necessary.

When it is considered that the 1931 tax levy in Haskell county was \$1.55 on the \$100.00 valuation, and that 80 cents of that levy was for highway bonds, it will readily be seen that, under the plans of the Governor and the Highway Commission, the Haskell county tax rate for 1932 will be reduced by more than one-half, and we will see the completion of Haskell county's highway program without having to go into our pockets to help pay the bill.

The above is the administration plan, and in our judgment it would afford greater relief from the tax burden in Haskell county than any other that could possibly be devised, and its fulfillment would in no wise sacrifice our ambition for a completed system of paved highways in Haskell county.

Now let us contrast the administration plan with that of Mr. Ferguson. He states that if his wife is elected Governor the present Highway Commission will be dismissed; that the gasoline tax will be divided into three equal parts: one part going to the general revenue fund of the state, one part to the public schools, and one part to the highway department.

As to the present Highway Commission, we hold no brief for the defense of the individual members thereof. We assume they are all high-class gentlemen, and we know of a certainty that the state highway department is being administered by them honestly and efficiently. In support of this statement we refer to the report of State Auditor Moore Lynn.

The diversion of one-third of the gasoline tax to the general revenue fund of the state could not possibly benefit the small property owner. The amendment proposed by Governor Sterling more than a year ago providing for the exemption from state ad valorem tax of all homesteads having a taxable value of not exceeding \$3,000.00 will be voted on at the general election in November, and will almost certainly become a law. Thus a new source of revenue for the general fund of the state could not reduce the taxes of the small property owner, but would materially lessen the state taxes of the rail roads, utilities, banks and large property owners.

The public schools now receive one-fourth of the gasoline tax, and one-half of the cigarette tax, the one half going to the state general fund. Certainly this would seem an equitable division of the special taxes, and altogether fair to the public schools and the general fund of the state without further encroachment upon the revenue derived from the gasoline tax, which was primarily designed for the construction and maintenance of a system of state highways in Texas.

The Federal Bureau of Public Roads has allotted the sum of \$15,000,000.00 for the year 1933 for the construction of federal and state highways in Texas, \$7,000,000 of which is the regular annual allotment, and must be matched by a like amount of state funds. The other \$8,000,000.00 is the Texas portion of a recent federal emergency appropriation for the relief of unemployment. This last amount does not have to be matched by state funds. Thus Texas has the opportunity of constructing \$22,000,000.00 worth of highways in 1933 by expending \$7,000,000.00 of state funds. Every community in the state would be benefitted by this vast expenditure. It would be unfortunate, indeed, in the present economic and unemployment conditions, if this allotment of \$15,000,000.00 should be withdrawn from Texas, as was done in the latter part of Mrs. Ferguson's, or rather her husband's, administration as Governor by proxy.

Haskell County History

20 YEARS AGO TODAY

On last Thursday August 8th, Mr. Frank Gerik who lives near Weinert, and Mr. J. O. Stark, who lives nine miles south of town, each brought a bale of cotton to the gin. Owing to the fact that the gins were not in condition to gin the cotton it was not ready for the market until the 10th instant. Local merchants made up a premium and by agreement one-third went to Mr. Stark, Mr. Gerik, who brought in the first bale, was about three hours ahead of Mr. Stark. Last year the first bale of cotton arrived on the 10th.

The Democratic county convention elected the following to the state convention: H. G. McConnell, S. W. Scott, Ex-Governor Campbell, Scott Key, E. F. Lamun were chosen as alternates. The following delegates were elected to the different district conventions: Sixteenth Congressional District, W. P. Whitman; Second Supreme Judicial District, H. R. Jones; Senatorial District, Bruce W. Bryant; Representative District, J. E. Poole.

30 YEARS AGO TODAY

On the 13th day of August, 1902, the Commissioners Court of Haskell county on a petition of 227 resident citizens and qualified voters, ordered a local option election in embracing all of Commissioners Precincts No. 1, 3, and 4, to determine whether or not the sale of intoxicating liquors shall be prohibited. The election to be held on Sept. 8. The following were appointed presiding officers: R. E. Sherrill at the courthouse; T. E. Ballard at the residence of B. R. Livengood; R. C. Chisum at Willow Point school; T. A. Maves at Mesquite school house; J. C. Bohannon at Wild Horse school house, and P. G. Marks at Clifton school house. This being all the voting boxes in the three precincts.

Rev. I. N. Alvis is out at Marcy this week assisting the local preacher, Rev. Mansell in conducting a protracted meeting and we learn that the meeting has reached such a degree of interest that Bro. Alvis does not feel like leaving it and has arranged with Bro. Norris to occupy his pulpit here tomorrow.

40 YEARS AGO TODAY

The Methodist camp meeting has been announced to begin Friday before the third Sunday in August, at the Lake Creek camp ground.

T. J. Lemmon, Sr. left last Friday for Chicago in charge of three cars of cows and one car of calves. The cattle were shipped by M. H. Gosssett of Haskell.

Birthday Dinner.

Tuesday of this week, the 16th of August, the children, grand-children and great grand-children of J. F. Pinkerton and wife, gathered at Mr. and Mrs. J. F. Morrison's to celebrate the 79th birthday of J. F. Pinkerton. This was also the birthday of Bessie Belle Morrison, who was 8 years old, and John Wayne Koonce, who was 4 years.

The three-decked birthday cake was made by Mrs. Koonce, which was beautiful when the candles were all lighted. It looked like a big three-decked ship in a pool with lights all on.

Mr. and Mrs. J. E. Parks from Altus, Okla., were a little late getting to dinner, but they brought a large and beautiful angel food cake for the same celebration. Mr. Parks is a nephew of Mr. Pinkerton.

Mrs. Chas. Conner and daughters, Geraldine and Jean and Miss Ida Neinast returned Monday night from Denton where they spent several days.

Albert English, Jr. of this city is spending the month of August in California visiting with relatives.

Mrs. John Wilkes of Wichita Falls spent the past week end with her parents, Judge and Mrs. H. R. Jones.

Mrs. H. R. Jones returned this week from Wichita Falls where she spent several days visiting her daughters.

First Steno—Did you observe Fire Prevention Week?
Second ditto—Yes, I got into the office earlier; the boss was getting sore.

Wise Guy (boarding street car)—Well, Noah, is the ark full?
Conductor—Nope, we need one more male, come on in.

TO THE VOTERS OF HASKELL COUNTY

Should you not have any special preference in the two candidates for Railroad Commissioner (4-year term) and could support Col. Ernest O. Thompson, (THE INCUMBENT), Amarillo, Texas, for this position, I would consider it a special favor.

Col. Thompson is thoroughly qualified, and the type of man Texas needs for this position. He stands first for "RIGHT." He stands for the interests of the people instead of the special interests. He is a West Texas man. I have known him all his life and I heartily recommend him to my friends and voters of Haskell County, and would like to see Haskell County go overwhelmingly for him on the 27th.

Respectfully,
COURTNEY HUNT
