Wife of Knox County's First Sheriff Succumbs

Mrs. Amanda Isbell, about 75, widow of the late Tom Isbell, first sheriff of Knox county, died at the family home at Goree shortly after midnight Sunday morning. She had been bedridden for the past three years.

Funeral services were held from the residence Sunday afternoon. The Rev. J. A. Tucker, pastor of the Haskell Presbyterian church, officiated. Burial was in Willow cemetery.

She had been a resident of the county for a half century. Surviving are two daughters, Miss Maude and Miss Fannie Isbell, who is active first vice president of the First National bank in Munday.

HASKELL DEBATING TEAMS WIN OVER MUNDAY DEBATERS

The boys and girls debating teams of the Haskell High School met the debating teams of the Munday High School last Wednesday in a practice debate. Both of the Haskell teams won. The girls team was composed of Ruby Mae Grindstaff and Anna Maud Taylor; and the boys, Joe Brooks and Woodrow Adcock.

The following question was debated: "Resolved that Lobbying as practiced in this country is detrimental to the best interest of the people." The girls represented the negative side in their debate and the boys were on the affirmative side.

The first of the Interscholastic League debates for Haskell county will be held this afternoon when the Haskell girls meet the Rochester girls team.

The second of the round robin debates will be held at Rule next Tuesday night, both boys and girls debating. The side of the question to be given the debating team is not disclosed until time for the debate.

Other Haskell debaters are: Frank Welsh, Roy Baldwin and Ines Tins.

Anna Maud Taylor Is Chosen "Miss Haskell for 1932"

Miss Anna Maud Taylor won first place in the Beauty Contest staged at the Texas Theatre last Friday evening and was declared "Miss Haskell for 1932."

The contest was sponsored by the business firms of Haskell and Miss Taylor represented Courtney Hunt & Company.

Miss Vivian Bernard won second place, representing Harrow's Haskell Bakery. Miss Elsie Payne Davis representing the Good Eats Bakery won third place.

Byron Wright is Candidate for County Treasurer

Byron Wright, resident of Haskell county for the past 41 years, and well known farmer residing on Weibert Route 1, announces his candidacy this week for the office of County Treasurer, subject to the action of the Democratic Primary in July.

In presenting his candidacy to the voters of Haskell county, Mr. Wright has the following to say: "Through the medium of the Haskell Free Press I wish to announce my candidacy for County Treasurer. Almost every political announcement contains a short howl or so for economy in local government. No definite move follows the howl. You can relieve the tax burden only by reducing expenses in every way possible; combine and abolish a few offices and chop the official pay check. If you can dispense with the office I seek, do so and I will feel amply repaid for my feeble efforts."

"Following you will find a small plea in favor of reduction of the official compensation. It would not amount to so much, but every little bit helps.

"Farms, ranches and property of every description representing investments of thousands of dollars are returning little more than taxes, while public offices from president to constable without one dime invested are returning snug profits and are virtually tax free. While taxing everything in sight, why not tax the official income?"

"Every candidate offering for county office should, in my opinion, willingly agree to contribute an agreed amount of their earnings to county funds. This would operate as a partial relief to a vanishing county fund, and as a relief of a different nature to the over-paid county official. A public office that pays anything pays more than farming or most any line of endeavor.

"Figure the returns from any of the various county offices comparable with the returns from cotton, maize or any commodity—pretty nice crop, drought and storm proof. You must cut expenses or find some additional source of revenue, as the tax-paying goat—the individual farm and home-owner—are taxed dry.

"In this distressing period I believe every aspirant to office will consider this suggestion practical and equitable. Place the future welfare of your county above personal gain.

"If elected to office I will be glad to accept any agreed reduction in compensation, and promise to give my time and energy in making you an efficient public servant. And if given 4 years (a supposed Democratic custom) at the county feed trough I promise to step out of the political picture and stay out.

"I have stumbled along for 50 years (41 in Haskell county) without having tasted political pie and imagine a slice, however thin, would go well with beans and corn pone.

"Will try to glad hand and sweet smile every voter possible before this contest ends.

"Awaiting the decision of a long-suffering public, and assuring you of my lasting gratitude for your support, I am,

Respectfully submitted,
Byron Wright.

P. S.—Just struck my first political snag. The boss of the "Free" Press taxed me ten bucks for this short plea; I thought he was trying to sell me the plant, including fixtures.

DEPUTY INTERNAL REVENUE COLLECTOR HERE MARCH 12

For the convenience of those who are required by law to file Federal Income Tax Returns, a Deputy Collector of Internal Revenue will be at the Haskell National Bank on Saturday, March 12 to assist taxpayers in preparing their returns. No charge will be made for this service. The matter of filing your Income tax return should be given immediate attention, in order to avoid penalty and interest.

Form To Be Used
Form 1040A should be used if the income is derived chiefly from salaries and wages and does not exceed \$5,000.

Form 1040 should be used for net incomes of more than \$5,000, or net incomes regardless of amount if derived from a profession or business, including farming, or from rents or sale of property.

Your return for the calendar year 1931 shall be filed not later than March 15, 1932, with the Collector of Internal Revenue for the district in which you reside or have your principal place of business.

A penalty of not more than \$10,000 or imprisonment for not more than one year, or both, and in addition, 25 per cent of the amount of the tax, is imposed by the statute for willful failure to make return on time.

Grade Cards for High School Pupils Mailed March 1st

Grade cards for the fourth period of the Haskell High School were mailed on Tuesday March 1st. If for any reason the parents of pupils in the High School have not received them, Principal Geo. V. Wimlish asks that they telephone 388 or call at the office in the high school building.

It is the desire of the faculty that all cards be received by parents and signed and returned as soon as possible.

FEED AND COAL BUSINESS HERE CHANGES HANDS

The feed, coal and seed business which has been conducted here by Porter, White & Trice during the past two years was purchased the first of the week by George Smith and Raymond Thomason and will continue to operate under the firm name of the Haskell Feed Store.

Mr. Smith has been connected with the old firm almost ever since the business opened here. Mr. Thomason, represents the Purina Mills in this section and makes his home in Vernon.

The new firm will continue to carry a complete line of the well known Purina Feeds in addition to seeds, coal and other feeds. They also expect to maintain a good market for poultry.

Miss Ermine Daugherty and mother attended the style show of Grissom's Store at Abilene, Thursday.

F. G. Alexander Enters Race For County Judge

In our announcement column this week will be found the name of F. G. Alexander as a candidate for the office of County Judge of Haskell County subject to the action of the Democratic Primary in July.

Mr. Alexander has been a resident of Haskell County for 48 years and has been one of the leaders in the development of this great country. He understands the needs of the county and is thoroughly qualified to fill the position he seeks. In making his announcement Mr. Alexander issued the following statement:

"To the Voters of Haskell County: I have never sought an office before and I have always believed that the office should seek the man. It is a fact that a host of my friends have solicited me to make the race. It is also a fact that I am asking for this office because I need it, and I believe at this time it needs the kind of administration I would give.

"I have lived in Haskell County since 1884. Was here when it was organized in 1885. I have seen it changed from an unfenced free grass country to one of almost solid farms. I have seen wagon trails replaced with paved highways. I have seen the county's debt increased from nothing until now it is more than a million dollars.

"The County's affairs have now reached a place where the finances must be watched very closely and the most rigid economy used in the administration of its affairs. To meet this situation, I hereby promise if elected to recommend that salaries of all county officers be reduced beginning with that of the County Judge. I shall also insist that all other expenditures that are not vital to the County's interest shall be stopped.

"I also will insist that all property values shall be equalized and placed on a basis sufficient only to raise enough money to meet all fixed expenditures and pay its running expenses economically administered.

"In other words my platform consists of the following planks: "1st. A policy of rigid economy. "2nd. More Economy. "3rd. Still More Economy.

"I will endeavor to see all voters between now and the primary election. Should I fail to see you, I request that you hunt up some old settler, one who has known me for 30 or 40 years and inquire of him whether I will do to trust with this office.

"I will probably have more to say in these columns later.
Sincerely yours,
F. G. Alexander"

2-Year-Old Son Mr. and Mrs. Pinkerton Dies Suddenly

Funeral services for Troy Ray Pinkerton, 2-year old son of Mr. and Mrs. Coleman Pinkerton, were held at the family residence in this city Tuesday morning at 10 o'clock, conducted by Rev. Fred Koss pastor of the Stamford Church.

Death occurred suddenly Monday morning Feb. 29th, after the child had been slightly ill for several days, though his condition was not thought serious. Surviving relatives are the parents, Mr. and Mrs. Coleman Pinkerton, a brother, Coleman Jr., and two sisters, Mary Lee and Floy Mae Pinkerton.

Funeral arrangements were in charge of J. H. Kinney of the Kinney Funeral Home.

The "Progressive Farmers Club" Is Organized Here

At a meeting of former students of Vocational Agriculture of Haskell High School Saturday afternoon February 27 an organization of all former students now farming was formed. The club is to be called the Progressive Farmer club of Haskell. It has as its object the furthering of better farming in Haskell county. Some fourteen members were present when the club was organized, but twenty or thirty others are expected to join soon.

Meetings are to be held at the Haskell City Hall each Saturday afternoon for the next three months at 1:30 o'clock. Topics of interest to the group are to be discussed at these meetings.

Bill Woodson was elected president; Calvin Frierson, vice president; Robert Darnell secretary-treasurer, and a board of directors composed of Austin Coburn, Fred Akins, Rice Alvis, Carl Drusedow and Bruton.

Breeds of poultry are to be discussed at the next meeting. H. R. Whatley will discuss Wyandottes, John P. Payne White Leghorns and Reds and W. P. Trice the general discussion on all breeds.

SLIGHT DAMAGE BY FIRE TO SMALL BARN SATURDAY

Slight damage from fire was sustained on a small barn at the home of Bill Gann in the north part of town Saturday morning, and firemen were called to the scene twice within the space of an hour as a result of the blaze. Answering the first alarm, firemen found the flames had been practically extinguished before their arrival, with no damage caused. Shortly afterwards however, the roof of the barn caught fire, and firemen were again called to extinguish the blaze. Whatever damage was caused is covered by insurance, Mr. Gann states.

Sunday Will Be Rally Day at Baptist Church

Sunday has been designated as Rally Day at the Baptist Church and everybody is extended a cordial invitation to attend the services. The occasion being the beginning of the sixth year for Rev. H. R. Whatley as pastor of the local church.

A suitable program has been arranged by a committee with the view of making Sunday one of the biggest days in the history of the Baptist church in Haskell.

All members are especially urged to be present and take part in the Sunday morning services.

Jud School News Items of Interest

Annie Lee Holcomb from Oklahoma and Mary Clytus Harrow from Rule entered school here last week.

Mrs. J. O. Yarbrough and Miss Scroggins were visitors of the primary room last Friday.

Lawrence Ivey and Zelma Swiney visited the principal's room.

13,471 BALES OF COTTON GINNED HERE FOR SEASON

There were 13,471 bales of cotton ginned in Haskell during the 1931 crop, counting round bales as half bales according to the report of the seven local gins.

The last government report, gave the county a production of 38,064 prior to January 16th, as compared with 29,159 on the same date last year.

Most of the gins have closed down for the season, but there will probably be 10 or 12 more bales ginned here according to a local gin man.

Free Voting to Those of Age In 1931 and 1932

Many young people over this section are entitled to poll tax exemptions and free voting privileges this year who possibly do not know that they are or are not certain as to the ages entitled to this exemption.

Anyone who became 21 years of age anytime during the year of 1931 or who will become 21 before the election this year is entitled to a free vote, providing of course, they are not otherwise disfranchised by law. Some possibly will become of voting age after the first primary and before the second primary or the general election and in these cases the free voting privileges are extended in the latter elections. This makes it possible for a citizen to be 22 years of age and still receive the free voting privileges extended to those who become of age.

Price Error Causes Mix-Up at the Texas Theatre Last Friday

Considerable confusion was caused last Friday night at the Texas Theatre, by the Free Press making an error in the Theatre advertisement regarding the Beauty Show. In the line which said "No advance in Price, 15 and 25 cents" should have read 15 and 35 cents. The error was overlooked by the Free Press in proof-reading.

The Free Press assumes the blame for the confusion, and the management of the Theatre did not know there had been a mixup in the advertised price until after the show opened and patrons called his attention to the matter.

We regret the error very much and trust that the patrons of the show will understand that it was not the fault of the Theatre management.

BAND CONCERT TO BE GIVEN HERE NEXT SUNDAY

The Haskell Municipal Band will give the first of their Spring concerts next Sunday afternoon at 4 o'clock on the west side of the square.

Director Meacham states that members of the Band have held a number of rehearsals during the winter months, and will be able to present several new numbers. The public is cordially invited to attend the concert.

Sheriff and Mrs. W. T. Sarrels made a business trip to Austin Sunday, returning Tuesday night.

ENTIRE FLEET IS GUIDED BY RADIO

New Device Puts Control in One Man's Hands

London.—Entire fleets of ships and airplanes, manned and controlled entirely by radio, are foreseen in the near future by Charles Keeling...

Keeling claims that he has perfected a wireless invention that will revolutionize remote radio control. He declares that by his device radio signals cannot be jammed...

Secrets Guarded

"I am guarding the technical secrets very closely," he said when asked about the invention...

"My method is entirely new. On one wave length, high or low, I can transmit eight distinct signals. This means that by various combinations I can control 4,000 operations from a single wireless transmitter."

"Two men in one airplane could fly a dozen or so craft carrying hundreds of tons of freight or mail. With the new robot pilot, which the air ministry still has on its secret list, these machines could be landed safely without a single hand touching their controls."

Control of Boats

"Cargo boats could be controlled either from the shore or, if in a group, from one master ship. They would require no crew, every operation of the boat would be mechanical and would be controlled by wireless."

Keeling said that the most valuable commercial aspect of his invention was that it made possible a system of transmitting typewritten messages by wireless which would not only be extremely fast but absolutely secret.

"A girl sitting in London," he continued, "could type out a message on the keyboard of an ordinary typewriter which would be simultaneously recorded in typewriter script at all the receiving stations tuned to that particular transmitter."

Moving Lights Used to Aid Imperfect Vision

Philadelphia.—Four weeks of "eye exercise" straightened the cross-eyes of a twenty-two-month-old baby at the clinic of the Pennsylvania State College of Optometry.

The exercise was mostly the engaging occupation of gazing at little colored lights and figures that moved, but considerable ingenuity was exercised by the clinic attendants in getting the child's attention.

This patient is the youngest ever treated by the clinic, according to Dr. Edwin Forbes Tait, chief of the clinic and a member of the college faculty. One of the oldest and most difficult cases was a man of forty-eight years of age.

The clinic of the College of Optometry is one of the few in the East equipped to specialize in the treatment of cross-eyes, which the optometrist knows as "squint." From 10 to 20 per cent of their cases are of cross-eyes, though approximately 2 per cent of all eye-defect cases are encountered in the average clinic.

Paris Claims Credit for First Periscope

Paris.—The submarine periscope was not invented by Sir Howard Grubb, Englishman, as generally believed, but by a Frenchman, according to a statement made before the French Academy of Sciences.

M. Jean Rey, French inventor, claimed that he himself conceived the first periscope and that it was used aboard the French submarine Gymnaste in 1801. At that time, he asserted, England had no underwater craft and the British government disapproved of them.

M. Rey attributed the perfection of the marine periscope to another Frenchman, Jules Carpentier, who constructed his model in 1807. He concluded by saying that other nations have since copied the principle of the Carpentier periscope.

Is Whale a Fish? No! Captors Escape Fine

Portland, Ore.—A whale is not a fish. So ruled Circuit Judge Lusk over the varnished and embalmed body of Egbert which hung in the courtyard. He reversed a municipal court which ordered Ed and Joe Lessard to pay a \$200 fine.

The whale swam 120 miles up the Columbia river three months ago and amused thousands by cavorting inside the city limits. The Lessards, father and son, put an end to the show with well directed harpoons.

"The statute prohibiting the killing of fish other than by rod and line has nothing to do with whales," said Judge Lusk. "It is little short of absurdity to ask the court to construe this statute to cover whales. Case dismissed."

From The Graham Leader.

C. W. Johnson, Jr. left Friday night for Washington, D. C. where he was called by the Department of Justice for an interview relative to his appointment for the Northern District of Texas.

Mr. Johnson was endorsed by R. B. Creager, National Republican Committeeman, for the post of federal attorney for this district, and his friends here and throughout the district are confident that he will receive the appointment, which must be confirmed by the senate.

"SAFE IN HELL" MIKES BALK AT WORD 'MAIL'

During the filming of "Safe in Hell," the First National melodrama starring Mackaill and coming to the Texas Theatre, Sunday-Midnight, next, one of the players, was directed to shout the word "mail." The innocent little morsel of English grammar sounded like anything but itself. Someone suggested a Cockney pronunciation, but the final version which registered perfectly was uttered like "may-ull" with a strong undercurrent of the "ull" and with the syllable sufficiently split to assure understanding. Don Cook plays the romantic lead in "Safe in Hell." William Wellman directed.

Rochester

We are enjoying these fine spring days after two weeks of rainy weather. Everybody is busy trying to see who can beat making an early garden. We feel the need of a garden more than ever before. Most farmers have their land broke ready for planting. We find the soil holds the moisture better in the early plowed ground. Mr. Bill Hicks of Houston and Miss Roselliot Flournoy of Rochester were quietly married at the M. E. parsonage February 27th by Rev. Pike. They left Sunday for a short honeymoon with the groom's father, B. M. Hicks of Lubbock, Texas. They returned Wednesday by way of Rochester and a lovely shower was given by their aunt, Mrs. James A. Greer and other relatives and friends. The bride was lovely in a blue evening costume with accessories to match. Their many friends here wish them much happiness in their new home. Hubert Bell of Oplin spent the week end with his father, Allen Bell. Miss Maxine Bragg is visiting her sister, at Munday this week. Paul Fields of Abilene stopped by Thursday to tell his mother, Mrs. Sallie Fields "howdy". The announcements are out for the wedding of Miss Omalee Mansell and Mr. Carney Does in the near future. J. L. Teal, cashier of the First State Bank attended a meeting of the Seventh District of Bankers at Fort Worth Monday. J. M. Fields and wife made a business trip to Lamesa Saturday. Mrs. Mattie Evans returned last week from a visit to her sons at Weatherford. Mrs. W. W. Flournoy is here visiting relatives and friends. She is from Kerrville. Boyd Kelly, a student of McMurry College of Abilene spent Sunday with home folks.

WALTER HUSTON STARRING IN "A HOUSE DIVIDED"

Many difficulties beset the early theatrical career of Walter Huston who is now recognized as one of the most accomplished and versatile actors of stage or screen. Huston was born in Toronto, Canada, and in early manhood studied engineering. At the age of 18, however, he was attracted to the theatre, and after a short time with a local stock company "rode the brake beams" to New York, where for three years he struggled vainly to succeed on the stage. Later, after several years at his engineering profession, he went on the vaudeville stage, remaining in "two-a-day" for 12 years. Beginning his legitimate theatrical career in the title role of "Mr. Pitt," he literally became a star over night, and appeared successively in such plays as "Congo," "The Barker," "Elmer the Great" and "Desire Under the Elms." His motion pictures are "Gentlemen of the Press," "The Virginian," "The Bad Man," "Abraham Lincoln," "The Ruling Voice" and "The Star Witness." Huston is playing at the Texas Theatre, Monday and Tuesday in "A House Divided."

CURRY CHAPEL

The farmers are back to work after so much rain. There has been quite a bit of sickness the past week. Among the sick were Mr. Ed Kreger's family, B. F. Collins, Jr. Glad to report them all improving. Bro. Curry filled his regular appointment here Saturday night and Sunday. There will be singing here Saturday night. Everybody come. Miss Nina Kreger and Miss Julia Marion spent Saturday night and Sunday with Mr. and Mrs. Jesse Kreger of the Joazelet community. B. F. Collins Jr. visited friends in Weiner, Saturday. Mr. and Mrs. Charlie Collins are spending the week with his sister in Abilene who has undergone an operation. Reports are that she is resting well. Mr. and Mrs. V. Phemister spent Sunday with Mr. and Mrs. Jack Terrell of the Sayles community. Misses Cleo and Ruby Collins had friends visiting them from Weiner Friday night. We were glad to have the number of young folks from Ballew with us in the Sunday night services. Mr. and Mrs. C. W. Marion visited their son, Mr. Jim Marion near Weiner, Sunday. Mr. and Mrs. Frank Spencer and children visited friends in Haskell Sunday evening. Everybody is invited to come to Sunday School here Sunday morning at 10 o'clock. Mr. and Mrs. Frank Spencer made a business trip to Mineral Wells Monday.

SAGERTON

We again have the beautiful sunshine after so much cloudy rainy weather. There has never before been so much good moisture for early gardens and farming. The wheat around here looks fine. Mr. and Mrs. Scott Crabtree's home was destroyed by fire Saturday night Feb. 20. The origin of the fire is unknown. The loss is partially covered by insurance. Mr. Hubert Dipple and G. A. Lambert served on the jury at Haskell, while county court was in session. Dr. D. M. Speer is here visiting around with his old friends. Miss Viola Neal from South Texas came in Monday for a visit with her parents here, Mr. and Mrs. Roy Neal and family. Miss Florise Massia is visiting relatives and friends at Colorado, Tex. Last Saturday night there was quite a crowd who went out on the mountain, wolf hunting. They reported a good time. G. A. Lambert with son Reuben went to Stamford last Saturday. Misses Houston and Mancoell, two of our teachers, entertained the high school pupils with a jolly old

ITALIANS ABROAD AID NATIVE LAND

Send Home Millions of Dollars a Year.

Rome.—Like the Jews, in that they are scattered all over the world, but differing from them in that they have a homeland, nearly 10,000,000 Italians, one-fourth of the peninsula's total population, live in foreign lands.

These 10,000,000 Italians represent an integral and important part of the Italian economic structure, for it is well known that practically every emigrant sends a portion of his savings home to his family in Italy. This has helped in some measure to counterbalance Italy's unfavorable trade deficit.

Complete figures are not available, but the Bank of Naples handles more than \$20,000,000 annually as agents for emigrants who are forwarding money home. The amounts naturally vary with trade conditions, so consequently the value of emigrant remittances in the past two years has fallen off.

Huge Savings. It is highly significant that the National Savings bank receives more than \$10,000,000 yearly for deposits from Italians living abroad. These postal savings constitute a considerable part of the total savings deposits of Italy. This means that many Italians resident abroad prefer to deposit their savings in Italian rather than in the banks of the country where they are working.

The distribution of Italians living abroad is equally interesting. The Americas, North and South, claim nearly 8,000,000 of the 10,000,000. The United States comes first with over 2,000,000. Argentine comes second with nearly 2,000,000, while Brazil has practically a corresponding number. These figures refer only to Italians of the first generation born in Italy and who have temporarily settled in other countries.

Canada and Uruguay have nearly 200,000 apiece, and there is a big lapse in the list until Chile is reached with the next greatest number. Peru is estimated to have nearly 8,000 and Venezuela 7,000. European Italians.

In Europe it is estimated there are more than 1,500,000 Italians living outside the borders of Italy, of which the major part, or nearly 1,000,000, live in France. A considerable proportion of these are manual laborers who went to France during the country's shortage of labor although a certain percentage are political exiles from their homeland. Switzerland has the second largest number, 100,000 and Great Britain third with 80,000. Germany and Austria each have about 30,000 apiece.

Corporations Turning to Air Transportation

Chicago.—Need for air travel by executives and business men is increasing. Sixty per cent of 784 corporations capitalized at \$100,000 or more have executives and representatives using airplanes regularly, shows a compilation of United Air Lines.

Executives of 784 corporations in cities on its transcontinental, Middle West, intermountain and Pacific coast routes reported:

Four hundred and seventy-seven now have executives and representatives traveling by air and 301 have not and an average of four men in each firm use planes on company business.

Of 784 reporting firms, 378 reported need for air travel is increasing.

Trio Kill 67 Rattlers in One Hour's Time

Great Falls, Mont.—Three young men recently killed 67 rattlesnakes within an hour in the hills four miles north of Vaughan near here.

Many of the snakes were from five to six feet in length and some of them were ten years old. The snake hunters said there were probably 500 of the reptiles in a small area. Most of them were found in rabbit holes.

It was believed that the snakes were preparing to "hole-up" for the winter when they were found by the men.

Turkeys Reported to Be Increasing in Size

Salem, Ore.—Train Oregon turkeys to be halter led. That's the suggestion of Edward Shearer, poultry raiser. "If Oregon turkeys continue to grow," he said, "it will soon be necessary to have them halter-broke and lead them around their stalls like cattle. Many of the Oregon toms are 50 pounds or more. To handle them is not a job for a weakling."

Arkansan Is Sure Wife Is Not Going to Vote

Bentonville, Ark.—Ralph Miner of Pan Ridge is determined that his wife is not going to vote. Called as a witness in a trial here, Miner, in answering a question as to whether his wife had a poll tax receipt, told Judge W. A. Dickson: "Nope, nor will she ever have one. I'll see to that. Women haven't got any business voting."

Society

South Ward P. T. A.

The sun's mellow rays looked down upon 57 guests and 235 school children Feb. 26, 2:30 p. m. in an impressive Washington Bicentennial tree planting.

Song—Arbor Day, directed by Miss Velma Hambleton. Devotional—Bro. Charles Tucker, minister of the Presbyterian Church. Reference in Isaiah.

Thirteen Colonies—Mary L. Crandall, Beatrice Barton, Martha J. Harris, Helen Crawford, Eva Jo Ratliff, Bobbie N. Cass, Juanita Graham, Dorothy Josselt, Amelia B. Hamm, Joyce N. Hambleton, Billy D. Murphy, Mary Beth Menefee and Mildred Mays.

George Washington—Wayborn York, Jack Davis, Earl Smallwood, W. E. Green and Irwin Thompson. This Tree We Plant—Laby Ballard and Junior Jenkins. Tree Setting.

Claud Jr., Crandall, Jimmy and Duffer Crawford.

Dedication in part follows: "We dedicate this tree to the birds of the air. May their nests be unmolested. We dedicate this tree to the old man who is hoary with age and ripe with experience. To the children of Haskell county. May true love be planted under its boughs.

"To the mother this tree is dedicated and when we say mother, we think of a woman, with a babe in one arm, leading one by the hand, and two toddling behind. May she, with her priceless treasure, find a cool and refreshing spot in which to rest. May all who are present this evening say as Jackson 'Let us pass over the river, and rest in the shade of a tree.' 'Only God can make a tree.'"

The teachers were clad in colonial costumes, and program participants in national colors. Each child marched by the tree in single file and lifted in a portion of the fertile soil, while Joe Maples, trumpeter, played the national anthem.

H. Persons, French Robertson, Herman Bettis of Brownwood, Grady Roberts of Chillicothe, J. M. Diggs, Mrs. Elmer McPherson of Vernon and Lola Welsh Bledsoe, W. A. Duncan and Sam A. Roberts.

Harmony Club.

Miss Mary Emma Whiteker served as hostess for the Harmony Club, Feb. 17 and Mrs. B. M. Whiteker directed the following program on "Statesmen Who Were Musicians."

Charles G. Davis as a Man and Composer—Mrs. Geo. Herren. Benjamin Franklin As a Song Writer—Mrs. Bob Harrison. Nicholas Longworth As a Musician—Mrs. D. Scott.

Vocal Duet—Misses Marjorie Whiteker and Bertha Carman. On February 24, Mrs. R. J. Reynolds conducted a very interesting Parliamentary Drill.

Library News Notes.

During the month of February there were 307 books loaned to girls, 256 to boys, 444 to adults, making a total of 1007 for the month. For the same month last year there were 677 books loaned. The books: Robin Hood, Lantern In Her Hand, and Black Daniel were bought. Life of Thomas Jackson, Tom Sawyer, Under Drake's Plugs and Boy Allies in the Baltic were donated by Ralph Bernard.

Graustark was donated by Joe Thomas.

The library board wishes to express thanks and appreciation for the gift of these books and for the magazines which have been brought to the library.

Much public and personal good can be acquired from the library as from any other public utility. The hope of a community is in its intelligence; and the library is one of the factors open to all, for its development.

Eveready Union Organized.

The Young People's Organizations of the Methodist Churches of Stamford, Haskell, Rule, Avoca and Sagerton met at Stamford, St. John's church, last Sunday. Under the direction of Mrs. T. R. Odell of Throckmorton they were organized into a Union, known as the Eveready Union. This union shall hold a meeting once a month. The next to be at Avoca the last Friday night of this month. The program of last Sunday's meeting is as follows:

Song Service. Scripture Reading—Albert Ellis of Rule.

Devotional—Woodrow Adeock of Haskell. The Value of Union Work—Rev. Strother of Avoca.

The Young People's Part in the Worship Program of the Church—Dr. Fletcher of Stamford. Special Music—Stamford. The house was then opened for business. The following officers for the Union were elected.

President—Woodrow Adeock, Haskell. Vice President—Albert Ellis, Rule. Secretary—Mary Louise Kinard, Stamford.

Treasurer—Nora Neil, Sagerton. Publicity Superintendent—Ruth Phillips, Avoca.

T. E. L. Social.

The T. E. L. Class of the Baptist church met at the home of Mrs. Norton on Tuesday afternoon. After a short business meeting there were some songs and a number of contests. Also roll call answered by telling your favorite Bible character.

Mrs. Vaughn Bailey sang "How Long Must We Wait." Dainty refreshments of salad, crackers, stuffed olives and cocoa were served to the following members:

Mrs. Paxton, Mrs. Sam Roberts, Mrs. Frazier, Mrs. Ed Fouts, Mrs. Davis, Mrs. Mays, Mrs. Frank Kennedy, Mrs. B. M. Whiteker, Mrs. Geo. Herren, Mrs. H. C. Cate, Mrs. Lampkin, Mrs. K. D. Simmons, Mrs. C. H. P'Pool, Mrs. Haynes, Mrs. Grindstaff, Mrs. Vaughn Bailey, Mrs. J. H. Kinney, Miss Ida Crawford and hostess, Mrs. Norton.

The Magazine Club.

The George Washington Bicentennial was celebrated by the Magazine Club in a special program and open house meeting on February 26. The Dramatic Club of Rochester was the guest of the club and gave a one act play on Washington. Judge and Mrs. John Lee Smith of Throckmorton were special guests of the club as Judge Smith was speaker for the occasion. His talk on Washington brought out many interesting observations concerning his life and character.

Misses June Roussau sang and Miss Mary Ellen Cannon read appropriate numbers. Mrs. John W. Pace gave three piano selections suitable for the occasion.

After the program delightful refreshments of coffee and cherry pie were served to guests and members. Mrs. J. U. Fields and Mrs. T. G. Cahill presided at the table. Both were dressed in the colonial mode.

Mrs. J. U. Fields directed the second lesson on Michael Angelo at a meeting of the Magazine Club in her home on Feb. 19th.

The roll call gave the appreciation of Michael Angelo by the club members. Mrs. R. V. Reynolds had as her subject the David and Mrs. R. E. Sherrill discussed the Moses. A most interesting description of the Tomb of de Medecis was given by Mrs. F. T. Sanders.

Mrs. Fields led in the discussion of the questions on the lesson. At the close of the meeting Mrs. Fields served fruits and candies to those present.

Surprised Honoree on Her Fourth Birthday.

On Saturday evening, several of Miss Mollie Hester's friends called around 7:30 o'clock, which was very unexpected to her. Immediately the hostess placed vases and baskets, filled with peach and plum blossoms, in the reception and living rooms. Card tables were then arranged in the two rooms, as "42" was the diversion planned for the evening.

This was Mollie's fourth birthday and she only has one every four years, so you can easily figure out how old or young she is. She received many nice gifts.

A dainty refreshment plate, using sweet peas as plate favors, was served to: Frances English and Charlie Gauntt, Pauline Frierson and Vernon Stoker, Margaret Richey and Wilson Bean, Lucile Akins and Buford Gholson, Ollie Hester and Felix Frierson, Jr., Beulah Cass and Leo Roberts, Mollie Hester and Geo. Kinney and the hostess, Mary Sue Hester.

League Council Meeting.

On last Wednesday evening the members of the League Council met in a business session at the home of Aletha Fae Davis. The plans for the young people's program were made. The play "Hail to Youth" will be presented by the Leaguers on Young People's Day, Sunday March 13. Programs were planned for each of the Sundays in March and financial plans were discussed.

Gypsy Curtain Arrives.

The Gypsy Ramblers have their curtain for the stage here and will be installed this weekend. It is a great occasion to the Gypsies for we are all wearing smiles and have worked hard and it will give great pleasure to see the old down and the new one up. We are giving a peppy program to present the curtain Wednesday, March 9, and we invite all who to come. Come bring your own and see what the Gypsy Ramblers have done for the Haskell School.

Fouts & Mitchell's BANKRUPT STOCK

MUST BE SOLD DURING THE NEXT TWO WEEKS

The stock of Dry Goods, Notions and Variety Goods has been purchased from the Bankrupt Courts at a fraction of the original cost and I have been appointed as manager to dispose of it as soon as possible. In order to do this we realize that the public must be offered values that have never been equalled in Haskell before. Therefore we have cut and slashed the prices on high grade merchandise that will bring out the hoarded dollars that have been hidden away—waiting for just such an opportunity to do their work.

COME EXPECTING REAL BARGAINS AND YOU WILL NOT BE DISAPPOINTED. (Signed) JNO. E. FOUTS.

PRINTING THE NEWS

When to print a disagreeable story and when to leave it out is one of the most troublesome problems of a small-town editor.

In the case of a person who is unfaithful to a public trust, or who is guilty of a serious crime, it is not difficult to decide, because the public's right to have the news, demands that it be printed.

There are some cases, however, in which the offense is entirely of a personal nature, and in which publishing the story would bring sorrow and embarrassment to innocent persons without serving any beneficial purpose. In these the making of a proper decision is often not easy. If the story is printed, relatives and friends of the person concerned will feel that it is unnecessary; if it is suppressed, the scandal-mongers will be disappointed, and many will insinuate that the editor was "bought off."

These same scandal-mongers would howl the loudest, however if their own shady actions were held up to the public gaze.

So it is hard to please everybody, and no editor of sense tries to please everybody. He must let his own judgment and his own conscience be his guide.

If he errs on the side of kindness and sympathy for the unfortunate, his error will be forgotten by the more enlightened readers of his newspaper.

The Southwestern Exposition and Fat Stock Show in Port Worth opens Saturday, March 5 and will continue through Sunday the thirteenth. For the past thirty-five years this worthy institution has continued to show a steady growth both in number of exhibitors and size of attendance and this year's show in the words of the famous showman, will be "Bigger and better than ever." Already 4,940 animals have been listed and entered which represents an increase of 301 animals over last year and establishes an all time record for the show. With favorable weather, the attendance figures are also expected to show corresponding increase this year.

During its thirty-five years of existence the Fat Stock Show has exerted a powerful influence for good over the Southwestern cattle country and probably has been the prime cause in making the city of Port Worth the great livestock marketing center that it is today. When the first little exposition of the "Texas Fat Stock Show," as it was called then, was held back in 1897, the death knell of the picturesque old Texas longhorn was sounded. Although few of the cattlemen of that day recognized it, a more efficient beef producer was introduced there, which was to consign the longhorn to the limbo of the past.—The Texas Weekly.

The recent passage of a state income tax law in Illinois may prove to be much more than a mere shift of taxes from one group to another. The Illinois income tax will be strictly a lieu tax. Whatever money it produces will go to the public school funds, and direct taxes must be reduced by an equal amount; it is estimated that this new law will save Illinois farmers \$7,500,000 on property tax in a low income year like 1931, and proportionately more as incomes increase. Such a saving is important, and the growing recognition that income is the fairest measure of ability to pay taxes may forecast further progress toward a more equitable distribution of the burden of governmental costs.

A new radio tube demonstrated in Pittsburgh is said to be powerful enough to operate a railroad train. Should it ever be used for that purpose, however, one can imagine commuters whose trains are late blaming the fact on static, or perhaps exulting over the distance their "tube" brought them last night.

President Hoover's campaign against hoarding, preceded by action to restore credit, has already added \$60,000,000 to circulation. This shows that dollars hoarded in bank safe deposit boxes will come out of hiding when the safety of bank deposits is stressed.

Since Torrington, Wyo., has reported it will levy no taxes for city purposes in 1932, one wonders whether it has a planning commission, sufficient traffic police and other officials to serve the population which this announcement well might attract.

The new Capitol of North Dakota, rising eighteen stories, will be the highest structure in the State, and the people no doubt expect the statesmanship developed there will match the building.

Teaching children how to save has become a complicated task, because for well-to-do parents this now means teaching them how to spend wisely.

Snap Shots

The Philippines closed the year 1931 with a balance in the treasury as further evidence that they're capable of managing their own affairs.

The impression seems to be growing that the Speaker of the House is going to garner quite a few votes in the Democratic convention.

Many times a man's success is attributed to "pull" when in fact it's due to push—supplied by his wife.

Some people are more able to make money than friends.

The fellow who always takes the contrary side in an argument is seldom pointed out as one of the town's most popular citizens.

The fellow who doesn't have confidence in himself can hardly expect his friends to have faith in him.

NEWS FROM OVER WEST TEXAS

Buffalo Herd Moved From Colbert Ranch to Arizona.

From The Stamford American.

Modern ranch-raised buffaloes are shy about venturing out over the plains where their forebearers roamed freely a few decades ago. Rudolph Colbert, who returned last week from Douglas, Arizona, where he delivered a herd of bison from the Colbert river ranch, can testify to that fact.

Mr. Colbert rounded up the herd of 12 buffalo and started to drive them to a loading spur on the Texas & Pacific railway, 15 miles from the ranch. The herd moved along fairly well until they reached the highway which had to be crossed before reaching the railroad. There they balked and no amount of coaxing or driving could get them across the pavement. The herd had to be driven back to the ranch. They were then hauled one at a time on a truck to the railroad switch. It took ten days to get the 12 buffaloes on the car.

Two of the animals died on the car and Mr. Colbert finally reached Douglas with only ten and delivered them to F. O. Mackey, a hotel owner. Mackey proposes to start a buffalo herd to furnish meat for his hotel guests.

The herd of buffalo on the Colbert ranch was started by R. V. Colbert and his son, Rudolph Colbert, about 15 years ago, the first stock being shipped here from Colorado. When the river ranch was sold last year, the buffaloes were not included in the sale.

Seymour Gets Key Rate Cut.

From The Baylor County Banner, Seymour.

Seymour has been granted a 15 per cent credit for good fire record, this to take effect on March 1. The credits and debits are arrived at by the state Fire Commission and are based on a three year period. Last year the credit for Seymour was 6 per cent, and the 15 per cent this year will mean simply an additional 9 per cent rate reduction.

The 15 per cent is the maximum reduction, and it indicates a low per centage of loss in this town. The record speaks all the more eloquently by reason of the depression that has been on, which is supposed to increase the normal fire losses.

Discovery of Ancient Skeletons Indicates Indian Burial Grounds.

From The Wellington Leader.

Six complete skeletons were discovered recently by H. B. Fowler when the Denver Northern right-of-way was being constructed through the Dave Thomas farm, 12 miles northwest of Wellington.

The size and appearance of the skeletons indicated that the persons varied from the ages of 1 to 70 years and the place seemed to have been an old burial ground, according to Mr. Fowler. The graves varied from a depth of 18 inches to three and one-half feet and in several instances arrowheads and shells were found to accompany the body.

The bones, when placed together, show some of the skeletons to be well over six feet tall and the nature of the face indicates that they were probably Indians," Mr. Fowler said. "The presence of arrow heads and trinkets also point toward the fact that the graves

are a part of an old Indian burial ground." The skull presented by Mr. Fowler measured exactly nineteen and one-half inches in circumference, as compared with the ordinary skull measure which varies from twenty-one to twenty-four inches. No indications of a high forehead, common to the North American Indian, was indicated by the skull, but all of the teeth were intact and in good condition, despite the fact that the skull was greatly impaired by

weather erosions.

Mr. Fowler says that he will probably place the collection in some museum, pending upon the nature of the requests of such parties.

Perry Bros. Open Comanche Store.

From The Comanche Chief.

Work was begun this week on remodeling the Neely building on the west side of the square to be occupied by Perry Brothers Variety Store.

Perry Brothers operate fifty-five stores in Texas and are a Texas institution, with headquarters at Lufkin.

J. B. Perry of the firm was in Comanche last week closing the details of the lease and according to his statement, the building will be occupied early in March, as soon as work of changing the building and installing fixtures can be completed.

Worms Destroy Four Acres of Oats Near Munday.

From The Munday Times.

A warning that worms have begun to make their appearance in grain fields was given here Tuesday by Dan Weaver, residing a mile and a half north of town, who reported that four acres of oats had been eaten to the ground by the pests within the space of three or four days.

Mr. Weaver brought in some of the worms collected in his field for examination by the county farm agent.

The oats, he reported, had grown about an inch high when he noticed a few days ago that something seemed to be wrong. He attributed it

to weather conditions until by a closer examination of the discovered the worms and that the oats had been cut to ground level.

To Break Dirt at Once For Post-Office Bldg.

From The Market Mail.

Dirt will probably be broken day for the building to be housed the post-office in the under the new lease. O. S. Dallas contractor, arrived Tuesday and is ready to start work. He stated to a representative of The Mail that construction will require about three weeks. It is his policy to use all local work he said.

The structure, to be of brick, occupy space 25x70 feet, having been secured sometime from Mrs. E. L. Ash across alley from the Farmers State

Who Gets the Most for the Money He Spends?

The fellow who buys haphazard—or the one who puts his everyday purchasing on a business basis?

The latter, of course. He is the one who reads the advertisements and discovers just where he can buy what he wants.

He is the one who realizes the great value of advertising when it comes to the important business of spending his hard-earned money.

The well-informed shopper always has the advantage when it comes to the stretching of dollars. And you can't be up-to-date on the shopping news until you make a practice of reading the advertisements.

The advertisements show you how to save money—and steps—and time. Watch them carefully.

Anything that increases your purchasing power is working hard for you.

The Haskell Free Press

Haskell County History

As Revealed by the Files of the Free Press 20, 30 and 40 years ago.

Mr. and Mrs. W. H. Parsons have a new daughter at their home. J. G. Owens a former Haskell citizen was here this week. Last Saturday E. W. King and Miss Lee Armstrong both of the western part of the county were married by Judge Hamilton. R. E. Carruth came in Friday to make his final arrangements toward establishing his nursery here. He will do some planting this spring and complete the final removal of his Comanche stock this fall. Secretary Drummond of the League of Nations has resigned. The Japanese delegate probably wouldn't protest if the whole outfit should quit.

BILIOUSNESS CLEARED UP

Biliousness may show itself by a coated tongue, bad breath, headache, spots before the eyes, dizziness, poor appetite, "dopiness," but prompt relief may be expected from taking Theford's Black-Draught. "When I got bilious, I had a bad taste in my mouth, and then severe headaches that put me to bed," writes Mrs. Anna Copeland, Anderson, S. C. "I found Black-Draught relieved this. I felt better after taking it. Black-Draught certainly is a good medicine." It would not have been used so long, or by so many, if it wasn't really good. WHEN THE PAPER DOESN'T COME—My father says The Free Press ain't put up just right. He finds a lot of fault, he does, perusin' it all night. He says there ain't a single thing in it worthwhile to read, and that it doesn't print the kind of stuff the people need. He tosses it aside and says it's strictly on the bum—But you ought to hear him holler when the paper doesn't come.

He reads about the weddin's and sports like all get out. He reads the social doin's with a most derisive shout. He says they make the paper for the women folks alone. He'll read about the parties and he'll fume and fret and groan; He says of information it doesn't have a crum—But you ought to hear him holler when the paper doesn't come.

He's always first to grab it and he reads it plumb clean through. He doesn't miss an item or a want ad—this is true. He says they don't know what we want, the dum newspaper guys. I'm going to take a day sometime and put them wise; Sometimes it seems as though they must be blind and deaf and dumb; But you ought to hear him holler when the paper doesn't come. —Anonymous.

Alvy Couch, cashier of the Weintert State Bank was in the city Monday. H. C. Hoard and wife of Sweetwater were visiting Mr. and Mrs. McNeill here Sunday. Miss Anna Rose, who has been visiting Mr. and Mrs. O. B. Norman of this city has returned to her home in Springdale, Ark.

Thirty Years Ago—1902—Capt. Donohoo was in town the other day and speaking of the dry weather he said that it was not bothering him at all. That he had been here too long and seen too

many worse prospects turn out all right to be fretting about the present dry spell. The Handkerchief Bazaar and Baby Show given by the H. M. Ladies on last Saturday was a very gratifying success. They had handkerchiefs of all kinds and qualities from five cents to several dollars in price. An alarm of fire about nine o'clock Thursday morning brought most of our able-bodied male population out in double quick time. But fortunately the danger was suppressed before any damage was done. It appears that some boys had two burning turpentine balls, tossing about the street by wire attached to them. When T. C. Dodson passed along and caught up one of the balls and gave it a sling, thinking to throw it straight up and it went sideways and lodged on a roof on the west side. They say that Mr. Dodson made record-breaking time up an awning post and onto the roof and threw the blazing ball off before the roof took fire. Judge P. D. Sanders is holding district court in Fisher county this week. The term will last two or three weeks. Dr. Gilbert reports the arrival of a new girl at the home of J. O. Bridges on the 26th ult.

Rural Subscribers Offered FREE Classified Ad Service in The Haskell Free Press for Two Issues

Here's something Absolutely Free to the rural subscribers of the Free Press.

Do you have something you wish to sell, trade, buy, barter or exchange? If so, a Classified Ad in the Free Press will find you a buyer, or someone who wants to deal with you.

For the first two issues in March, that is, in the issues of MARCH 3rd AND 10th —ONLY, the Free Press throws its columns "wide open" to its rural subscribers. You may advertise what you wish, with Classified ads, in these two issues Absolutely Free.

There are no "strings" to this offer. All one needs to do in order to be eligible to the Free Ad Service is to live in Haskell trade territory and make your living farming or raising livestock or poultry.

Ads of over 50 words in length will be rejected. Ads of 20 to 40 words are ideal.

If you wish your ad run in both the 3rd and the 10th issues, please say "run twice."

Advertisers are not limited to a single ad. Each person may run three or four separate ads if desired, and run them in both issues.

The purpose of this Free Ad Campaign is to acquaint farm readers with the value of advertising. Try an Ad—sell something, trade that radio for a milch cow, swap that old incubator or brooder for a brood sow, or tell the world you've got baby chicks or home cured meats for sale. Maybe you are overstocked on pigs and would like to trade them for seed corn. Or you might like to swap turkey eggs for stovewood or a used middle buster.

Look around the place and find something you wish to dispose of—then write the copy and mail or bring to the Free Press not later than Monday of each week.

EXTRA Values Count

1931 was a difficult year. But for Firestone it was a year of great accomplishments—a year of unprecedented advancement in Tire Construction and Tire Service.

Since car owners bought fewer tires as a whole in 1931 than in 1930, it is significant that they bought more Firestone Tires last year than the year before—Extra Values Count!

Gum-Dipping, the Firestone patented process, transforms the cotton cords into a strong, tough, sinewy unit—adds 58 per cent longer flexing life to every cord, giving 25 to 40 per cent longer tire life.

Two Extra Cord Plies Under the Tread, the patented Firestone construction that gives 26 per cent greater protection against punctures and blowouts, and 53 per cent stronger bond between tread and cord body.

Firestone scientifically designed tread is quiet, gives more comfort—more non-skid protection and longer non-skid wear.

Take advantage of the added economy and satisfaction that Firestone Tires will give you—replace your worn tires with new Firestone Gum-Dipped Balloons—the Safest Tires in the World.
