LOCALS DEFEAT ANSON IN GOOD GAME SUNDAY

Haskell's amateur ball team will repaid the large crowd of fans who witnessed the defeat of the Anson team at Fair Park Sunday afternoon, the locals playing an errorless game in which they "poured it on" the visitors to the tune of 12 to 3.

The locals have a game scheduled with the fast Hawley team here Saturday afternoon, and on Sunday take on the Sagerton team, both games to be played at Fair Park. Fans are assured good games on both dates, as the local team has been much improved of late, and a large attendance is expected at both Saturday and Sunday's games.

CANNERY IS IDLE ONLY ONE HOUR DURING THE WEEK

The Community Cannery has been idle only one hour since six o'clock Monday morning, according to Herman Henry, who has the plant in charge. It has been in continuous use night and day. A good many of the patrons failed to register the number of cans filled, but the records show 3900 cans for the week, bringing the total to 8000 cans since the plant was opened five weeks ago. It is believed that the number of cans filled but which were not registered would bring the grand total well above the 10,000 mark.

South Highway Discussed at Graham Meeting.

From the Graham Leader—
About 60 delegates, representing Graham, Mineral Wells, Graford, and Palo Pinto attended the highway meeting held at Gordon Mountain Thursday afternoon. J. J. Galaher, president of the local Chamber of Commerce, presided during a discussion of plans for promoting a highway south from Graham. Two suggested routes were discussed, one by way of Graford and

the other by way of Palo Pinto. Advantages of each route were discussed and it was decided to have delegations from each community appear before the state highway commission to ask for both designations, thus leaving the final decision on the route to the commission. It was stated by several of those present that State Highway Engineer Gibb Gilchrist had intimated that designation of a highway from Graham to Palo Pinto would be granted upon request. Secretary Ed C. Burris of the Graham Chamber of Commerce was authorized to apply for a hearing for the delegations at the next regular session of the highway commission.

One Grower Sold \$1,000 Worth Peaches in One Day.

From the DeLeon Free Press—
De Leon orchardists are jubilant over the receipts from peaches realized thus far this season. The

crop has been very fine and the price for the most part good. Most of the first class Elbertas have sold for a dollar a bushel and more and some extra quality sold as high as \$1.25 a bushel. Some others have sold as low as 80c for Elbertas and other varieties, particularly the early kinds have brought in some instances as low as 65 cents.

The late cold thinned the crop down considerably and as a result the quality has been the finest in many years.

Albert Piper, local grower, whose orchard is seven miles southeast of De Leon, is reported to have sold one thousand bushels of peaches at \$1.00 a bushel in one day. Piper is one of the largest growers in this section.

Oil Mill Feeding 400 Two and Three Year Old Steers.

From the Rotan Advance—
The Rotan Cotton Oil Co. is putting 400 two and three-year old steers on feed this week, at the oil mill pens.

This is one of the progressive policies adopted by this company, looking to a revival of business and aid to unemployment.

The mill is at present furnishing employment for 10 men, and Manager L. E. Newton informs us that the mill will possibly start operation within a short time and give employment to perhaps 40 men.

The mill owners, in this and in other matters, are showing a wholesome faith in the future and are doing their utmost to give men jobs.

ITALIANS ABROAD AID NATIVE LAND

Send Home Millions of Dollars a Year.

Rome.—Like the Jews, in that they are scattered all over the world, but differing from them in that they have a homeland, nearly 10,000,000 Italians, one-fourth of the peninsula's total population, live in foreign lands.

These 10,000,000 Italians represent an integral and important part of the Italian economic structure, for it is well known that practically every emigrant sends a portion of his savings home to his family in Italy. This has helped in some measure to counterbalance Italy's unfavorable trade deficit.

Complete figures are not available, but the Bank of Naples handles more than \$20,000,000 annually as agents for emigrants who are forwarding money home. The amounts naturally vary with trade conditions, so consequently the value of emigrant remittances in the past two years has fallen off.

Huge Savings.—It is highly significant that the National Savings bank receives more than \$100,000,000 yearly for deposits from Italians living abroad. These postal savings constitute a considerable part of the total savings deposits of Italy. This means that many Italians resident abroad prefer to deposit their savings in Italian rather than in the banks of the country where they are working.

The distribution of Italians living abroad is equally interesting. The Americas, North and South, claim nearly 3,000,000 of the 10,000,000. The United States comes first with over 3,000,000. Argentina comes second with nearly 2,000,000, while Brazil has practically a corresponding number. These figures refer only to Italians of the first generation born in Italy and who have temporarily settled in other countries.

Canada and Uruguay have nearly 200,000 apiece, and there is a big lapse in the list until Chile is reached with the next greatest number. Peru is estimated to have nearly 2,000 and Venezuela 7,000.

European Italians.—In Europe it is estimated there are more than 1,500,000 Italians living outside the borders of Italy, of which the major part, or nearly 1,000,000, live in France. A considerable proportion of these are manual laborers who went to France during the country's shortage of labor although a certain percentage are political exiles from their homeland. Switzerland has the second largest number, 190,000 and Great Britain third with 30,000. Germany and Austria each have about 20,000 apiece.

Corporations Turning to Air Transportation

Chicago.—Need for air travel by executives and business men is increasing. Sixty per cent of 784 corporations capitalized at \$100,000 or more have executives and representatives using airplanes regularly, shows a compilation of United Air Lines.

Executives of 784 corporations in cities on its transcontinental, Middle West, Intermountain and Pacific coast routes reported:

Four hundred and seventy-seven now have executives and representatives traveling by air and 301 have set and an average of four men in each firm use planes on company business.

Of 784 reporting firms, 578 reported need for air travel is increasing.

Trio Kill 67 Rabbits in One Hour's Time

Great Falls, Mont.—Three young men recently killed 67 rattlesnakes within an hour in the hills four miles north of Vaughn near here. Many of the snakes were from five to six feet in length and some of them were ten years old. The snake hunters said there were probably 600 of the reptiles in a small area. Most of them were found in rabbit holes.

It was believed that the snakes were preparing to "hedge" for the winter when they were found by the men.

Turkeys Reported to Be Increasing in Size

Salmon, Ore.—Travis Oregon turkeys to be better fed. There's the suggestion of Edward Hoover, poultry raiser. "If Oregon turkeys continue to grow," he said, "it will soon be necessary to have them better fed and lead them around their state like cattle. Many of the Oregon turkeys are 35 pounds or more. To handle them is not a job for a scabber."

Arkness Is Sure Wife Is Not Going to Vote

Bentonville, Ark.—Hugh Arkness of Pine Bluff is determined that his wife is not going to vote. Called as a witness in a trial here, Arkness, in answering a question as to whether his wife had a poll tax receipt, told Judge W. A. Dickson: "Nope, nor will she ever have one. I'll see to that. Women haven't got any business voting."

Rochester

Everybody well and happy. A fine rain last week, so nice and cool since, and too, it gave the garden stuff a new bunch of life. So I've an idea we'll have plenty to keep us from getting too hungry until frost. Most people are canning plenty to last through the winter, so I can see no need to worry over starving or going hungry.

Mr. John Michael and his mother returned Sunday from their brother and uncle's funeral at Lone Oak. They have the sympathy of their friends here in their sadness.

Mr. and Mrs. Andy Norris of Haskell visited her parents last Sunday. Mr. and Mrs. Ed Watkins.

TEXAS RAILROADS PAY SUBSTANTIAL PART OF STATE'S TAX BURDEN

● Taxes is one of the large fixed charges connected with the operation of Texas railroads. From the standpoint of the welfare of state, counties and communities, railroad taxes are of much importance. This annual obligation must be met from the earning capacity of the rail carriers.

In 1931 the railroads of Texas paid a total of \$8,348,166.47 in federal, state, county, municipal and miscellaneous taxes. The distribution of this amount to the various tax funds is shown below:

	Amount Paid	Per Cent of Total Tax Paid
U. S. Government	\$ 61,276.13	.74
State	1,964,435.47	23.54
County	1,146,689.97	13.81
Roads	1,686,764.75	20.47
Improvement Districts	175,896.97	2.12
Schools	1,437,152.74	17.31
Cities	1,792,984.61	21.50
Miscellaneous	25,214.50	.42
Total	\$8,348,166.47	100.00

It can thus be seen that railroad taxes represent an important and indispensable factor in the economic life of our state. They help in a large measure to pay the expense of our state, county and municipal government, build and maintain highways, pay the cost of drainage and other improvements, and support our schools and educational institutions.

It is the desire of Texas railroads to extend this helpfulness to Texas counties and communities in carrying this heavy burden. However, their ability to meet these obligations as they become due depends upon their ability to earn sufficient revenue with which to pay this and other heavy expenses connected with their operation.

● RAILROADS HAVE ALWAYS SHOULDERED THEIR SHARE OF RESPONSIBILITIES TO THE NATION, THE STATE, AND THE CITIES AND COMMUNITIES THEY SERVE, AND WILL CONTINUE TO DO SO TO THE EXTENT OF THEIR ABILITY.

BILIOUSNESS CLEARED UP

BILIOUSNESS may show itself by a coated tongue, bad breath, headache, spots before the eyes, dizziness, poor appetite, "dopiness," but prompt relief may be expected from taking Theodor's Black-Draught. "When I got bilious, I had a bad taste in my mouth, and then severe headaches that put me to bed," writes Mrs. Anna Copeland, Anderson, S. C. "I found Black-Draught relieved this. I felt better after taking it. Black-Draught certainly is a good medicine." It would not have been used so long, or by so many, if it wasn't really good. YOU SHOULD PROFIT by Electric Refrigeration Savings!

ONCE you've investigated the many advantages, you'll agree it would be difficult to find a household without more convenience, more economical and more necessary to the modern home than an electric refrigerator. For, every family enjoying the daily gifts of 1933, you will find modern electric refrigeration "in use with the stars."

With a modern electric refrigerator in your home, you will benefit by substantial savings every month of the year! Food-stuff will be preserved up to a minimum, and the average family bill lowered by approximately 10 per cent, according to statistics... And healthful food can be preserved ready for an instant's notice, you can be able to enjoy the "freshness" and low heat in larger quantities of frozen goods. Another important thing can be realized through purchasing large food-stuff goods, at a great saving over per ounce, and preserving the surplus in the spacious compartments of your electric refrigerator.

Consider all these pleasant advantages... Remember the important guarantee and the high standard of electric refrigeration... and you'll see why you should profit by electric refrigeration savings!

How Much Is

A DOLLAR

Dave Harum said, "When you get hold of ten dollars get it into you or onto you as soon as you can, for there ain't no pocket in a shroud and you're a long time dead."

If you had nothing but money you would be poor indeed. It is the things for which you can exchange the money you earn that set the standards of your living comforts and conveniences.

You know this. But do you know that it is you who largely determines the value of your dollars?

Many things contribute to the distance a dol-

lar will go, but the greatest agent in "value received" is Advertising.

The advertisements in this paper tell you about the best grades of merchandise. They tell you where they can be had and for how much.

They tell you of the new things that manufacturers are producing to make your dollars of real worth to you in greater comforts, better living, more enjoyment.

Read the advertisements. Take time to save time. Read to save walking. Search the ads to save searching the stores. And to make the dollar go farther!

TIME TO CLEAN HOUSE

The new Federal tax bill is in effect and the public is beginning to pay on every hand to maintain a wartime cost of government in sorely depressed peace times.

Various states are in the same position as the Federal government.

Within the last five years, according to a list recently issued, 122 cities in the United States, along with 104 counties and improvement districts, have defaulted on principal or interest of their bonded debts. Since that list was issued, Chicago has announced default on \$900,000 of bonds and interest, along with statement that there is a delinquency of \$99,000,000 in 1930 taxes for Chicago and Cook county.

The public begin to realize that public indebtedness which they pay by taxing themselves, is due largely to burdens which they themselves demanded or encouraged.

Cities have been loaded down with innumerable "services to the public." A study of these innovations has been made for Detroit by William Anderson and his findings are equally applicable to practically every larger city of the country as well as to the Federal government.

Detroit was chartered in 1824, and from then to 1861 established 17 city activities which were fundamental functions of government for all the people.

From 1862 to 1880 it added 14 other functions, largely indispensable.

From 1881 to 1900 it added 34 functions, many of which began to branch away from governmental functions into special services for special classes.

From 1900 on more than 100 functions have been added, covering every conceivable activity from operating industries in competition with private citizens and taxpayers, to furnishing social services of all descriptions.

Most of the activities were worthy in purpose, but a pyramiding of governmental luxuries does not answer the question as to what happens when extravagant tax expenditures and a multiplicity of public servants and bureaucratic activities become impossible for property and income to bear.

Many families are now doing without luxuries which they enjoyed during the abnormal prosperity of a few years ago. They are eating simpler food, buying plainer clothes, and using their automobiles longer. Government must do the same thing. Public officials should realize that they no longer have the same tax resources to draw on any more than the private citizen has the same income he had a few years ago.

Taxation budgets have been balanced by increased taxation, rather than by increased economies and reduced governmental overhead. This process must be reversed and budgets balanced by bringing government expenses and taxation within the ability of the people and industry to pay, without hardship, out of normal peace time income, otherwise there is danger of revolt on the part of the tax-payers.

HELP TO MAKE HOME TOWN BEST TOWN ON EARTH

Fair competition is the life of trade.

Home business institutions that are helping to pay for the maintenance and improvements of a city, are entitled to the trade of the citizens of the home city.

Outside business concerns do nothing toward the building of the home city and local merchants should not be forced to compete with them.

Buying away from home should be stamped out forever. Every dollar and every activity should be united to make business of the home city better. Now is the time to get busy and make local business better.

Every citizen should take an active and positive stand on all things that go to make local business better. All should take a mental inventory and find out how they stand in ability and honesty of purpose and willingness to make the home city bigger and better.

No man is a success who only enriches himself. The man is a success whose success enriches the community. There is only one city in the world in which to live and prosper and that is the city in which you live.

A good way to boost the home city is to buy from the local business concerns who advertise in local papers. Local advertisers are the people who lead in the things that keep a city moving forward in the march of progress.—Press, Guttenberg, Iowa.

YOUR NEWSPAPER

The following was taken from a circular sent to retail merchants by a large wholesale house. The value of your local newspaper to the success of your business cannot be overestimated. It's worth all the support and cooperation you can give it. For the newspaper is a mirror reflecting the life of the community in which you and your store have an important part. Your advertisement is the reflection of your store in this mirror. Everybody sees it there. If it is not there, the mirror is dark where your store should be. You are there but you cannot be seen. Your store is open for business as usual, but "Out of sight; out of mind!" To keep in step with the progress of your community; to get your share of business, you must advertise regularly. Take your newspaper publisher into your confidence; he can give you invaluable assistance. Establish an advertising budget. Plan a regular schedule for your advertisements. It's a policy that is followed by the most successful stores; it's an idea that will be profitable for you.—Stillwater, Minnesota, Gazette.

AUCTION SALE

From the Wichita Falls Daily Times: The mail brings a pink hand-bill headed 'Public Sale'. Read on: Closing-out sale of grand old party. As our special lease with Uncle Sam will expire on March 4, 1933, and our title to the political jackpot will be transferred to the sons of the wild jackasses, we have decided to hold an auction sale on the White House lawn in Washington on Nov. 8, 1932, and sell to the highest bidder all our political machinery and our entire stock of supplies now on hand, to-wit:

One political machine, 1912 model, badly in need of repair. Can be recognized by its whistle. One moss-grown platform with all its farm planks broken. One large ever-bearing Mellon vine with several small branches badly frost-bitten. A one-billion dollar crime wave made to order. Old enough to wear. Sired by Volstead and damned by everybody. Fourteen million moonshine stills, all operating at full capacity. Seven hundred rum-running vessels, just learning to swim but know all the dives. Eleven million dinner pails, all empty. Twenty-one thousand miles of bread lines without a vacant space. One seat on the board of trade good for any amount of wheat.

Important Notice! Should the present prosperity continue we reserve the right to sell under the Hoover Memorandum plan. Free lunch at noon. Doughnuts with extra large holes will be served by the farm board. Farmers must take the pauper's oath to secure one. The board of temperance, prohibition, public morals, society of reform, will serve roast crow to the Wickersham committee. The army, navy, coast guard and all available stool pigeons will be in formation to assure Dolly Gann of her rightful place at table. If the chief executive arrives in time to assist at the sale, it is respectfully requested that all present who still own hats stand uncovered while the band plays, "Gold Help the King."

Terms: See your bank before the sale. Positively no foreign bonds accepted although they are o. k'd by the state department. (Signed) The G. O. P. Owners. "Our Own" Pat Hurley, auctioneer; Ogden Mills clerk.

"16 NIGHTS IN A BAR ROOM"

You may be "Wet" or you may be "Dry"—but what do you know about the old saloon?

Here's a smashing, all-talking drama based upon the famous stage play. See it! Refresh your memory. It's a terrific, human drama that will hold you in a vise-like grip—and send you away with something to think about. It's a brand new picture—and every inch of it is filled with heart-holding entertainment.

Probably the most dynamic, thought-compelling play that has ever been presented to the American public, it will be shown at the Texas Theatre Friday, Saturday and Sunday. Here it is as a brand new all-talking sensation that will sweep America from the Atlantic to the Pacific—and give millions something to think about! It's nothing like any play or picture ever made. You'll be swept away with its terrific drama.

Mrs. A. M. Williamson and two young sons have been visiting relatives at Alford the past week.

Misses Vivian Bernard and Naomi Poteet returned from Wichita Falls the first of this week after spending the week in the home of Miss Maurine Staley.

Mr. and Mrs. R. E. Duncan of Stamford spent the past week end here visiting the latter's parents, Mr. and Mrs. W. E. Welsh.

FIRST CHRISTIAN CHURCH

(Sunday July 30th)

Bible School 9:45 A. M. Preaching and Lord's Supper at 11 A. M.

We are pleased to announce that Pat Henry Jr., a young preacher from T. C. U. will preach to us next Sunday morning at 11 o'clock. Those who have heard this young man know that he is a good preacher, and he will have something worthwhile to say to us. The public is cordially invited to attend all services of the Christian Church.

The Alabama scientists who made sugar out of peanut shells might try their hands at making statesmen out of peanut politicians.

A music critic says that only two per cent of the people can really sing. A rather liberal estimate, we should say.

A meteorologist predicts that we'll have a scarcity of rain this fall. If true, what will the political mud-slingers do?

European nations are again looking to Uncle Sam to either scale down the war debts due him or cancel them entirely. It's beginning to look as if we were the ones who lost the war after all.

Did You Ever Stop to Think?

THAT the right kind of advertising will put new life into any business.

The service of advertising is dependable; it serves both buyer and seller and serves them well.

Advertising is valuable to the buyer because it tells where and what to buy at money-saving prices, and at the same time assures quality.

Discriminating buyers who have been taught the value of quality merchandise always find it profitable to read the advertisements before they buy.

The advertising of quality builds business for the seller, because everyone knows that only quality can stand the light of advertising and everyone wants the best for their money.

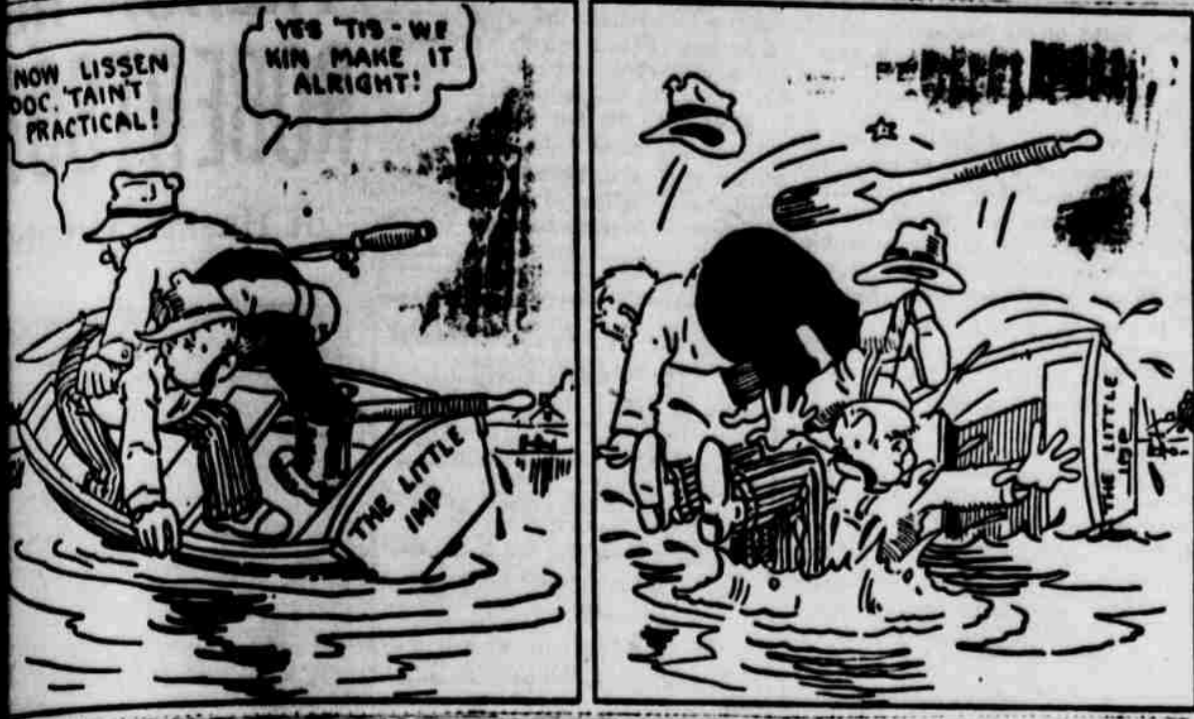

Advertising creates desire, which in turn creates the demand that is so necessary to open the door to better business.

Well advertised products are distinctive. People are always talking about them. They are in demand everywhere.

Read the advertisements before you buy. It's better to be safe than sorry!

Anson Pastor is Called to San Angelo.

From the Anson Enterprise—

Rev. J. Ralph Grant, who has been pastor of the Anson Baptist church for the past 16 months, announced in his pulpit Sunday that he had accepted a call to the Parks Heights Baptist church in San Angelo, and will leave next week to take up his new work.

Anson was Mr. Grant's first full time work after leaving Simmons, he receiving his degree after moving here. He has done an unusual work as pastor, perhaps more than one hundred additions to the church being made by conversion and letter. His call to San Angelo is in recognition of his worth, and is considered a distinct promotion, of which his friends here think he is entirely worthy.

Haskell County..... History

20 YEARS AGO TODAY

The county precinct candidates stood up their campaign in this city Thursday night. A large crowd was present to hear their pleas for voting favors. Good fellowship prevailed and everybody went away well pleased.

W. D. Koonce left Wednesday for few weeks visit to East Texas, for which he will go to South America. Mr. Koonce has been an honorable citizen for a number of years and his friends hope he will meet with success in his travels.

B. M. Hicks and H. O. Alvis of Rochester spent Thursday and Friday night in this city. Mr. Hicks recently returned with his family from California, where he has been living for several years.

30 YEARS AGO TODAY

News came by phone yesterday that the judicial convention for the 10th district in session at Roby had nominated Judge H. R. Jones of this city for District Judge and Allen C. Higgins of Snyder, Scurry county, for District Attorney.

E. W. Lowe got in Friday from Louisiana, returning via Austin. He says it was water, water, water all the way home from Louisiana.

Many of the streams were overflowing and doing considerable damage to crops in the south central and eastern parts of the state.

The recent heavy rains smashed a brilliant scheme conceived by W. H. Parsons, proprietor of the Haskell Bathrooms. The long drouth and bad prospects had made many of his customers very blue, so much so that the water was let a deep indigo color after they had bathed and Mr. Parsons' scheme was to order a carload of bottles and bottle it and sell it for laundry bluing. It was a great scheme, if the rains had not changed everything.

40 YEARS AGO TODAY

There will be a grand barbecue and reunion of ex-Confederate veterans at Rayner on the 4th of August.

The horse race has been arranged between Tom Pitter and Joe Citters of Val Verde for a purse of \$500.00. The race is to be run on August 13th.

J. D. Shelby of Abilene, one of the proprietors of the Abilene Transfer Line, was in Haskell last Saturday. He says that he has the fastest, safest and best hack line in the state. It leaves Abilene at 4:30 p. m. just after the evening passenger

train comes in, returning from Anson at 10:30 a. m., thereby making connection with the east bound passenger train. They stop 20 minutes for supper and breakfast at the halfway house.

The hack conveying J. C. Baldwin and wife and Miss Girtie McIntire from Abilene to Haskell last Friday night was driven against the new wire fence that had been built across the road. Mr. Shelby of Abilene was driving and it being dark and there being no brush thrown across the road to warn travelers the horses went abreast against the fence. One horse jumped over and fell. Mr. Shelby told the passengers to jump out which they did. Mrs. Baldwin fell against the wire and was slightly cut. The horses were soon gotten under control and no serious damage was done except one horse was badly cut.

Mr. and Mrs. Elbert Owens carried their baby to a specialist in Dallas last week to have a pea removed from its lungs but the physician failed to find the pea and they returned home with the baby Monday and it seems to be better.

ON TEXAS FARMS

By W. H. Darrow, Extension Service

A grocery bill not exceeding \$2.50 per month for the last three months is the way Mrs. J. A. Hamilton of Nueces county describes the benefit of her work as a 4-H pantry demonstrator which has resulted in 727 cans of food of 30 different varieties.

Vegetables for a family of 11, and \$30 in cash used for supplying her sister with needed medical attention have been made from a garden by Hazel Clements, 4-H club girl in Bowie county.

A woman may dress appropriately for small cost, eight wardrobe demonstrators in Mason county home demonstration clubs have proven. One year's clothing ranged in cost from \$2.60 to \$40.97, with an average of \$17.89. All demonstrators made budgets, kept records, used foundation patterns in making their own clothes and improved their clothes closets.

Clyde Carruth, Gray county dairy herd demonstrator, doesn't see how he could run his dairy without a silo. Last year he dug a trench silo and filled it with 85 tons of sorghum and hegari. He averted a drop of 25% to 50% in production last winter by feeding ensilage while wet weather kept his 15 cows off wheat pasture 2 1/2 months.

Six months extra grazing more than repaid N. P. Pace of Denton county for the labor and investment in clearing and planting a piece of bottom land to a clover and grass mixture last winter. He has asked further help from the county agent in improving more pastures with the view of turning his 400-acre farm into a profitable stock farm.

Tyler—Using sapling poles for ceiling, Myrtle Maynard, 4-H club girl of Smith county, has managed to transform an unceiled room with three windows but no glass in them, a rough floor, no rugs and scanty furniture, into a pleasant comfortable bed room by the expenditure of some hard work and \$6.10 in money. The landlord furnished glass, her brother helped her to cut saplings with which they ceiled the room overhead, after which they covered the walls and ceiling with builder's paper. A clothes cabinet, a dressing table, a stool, a small table and a bookcase were made from scrap lumber. The bed, writing table and two chairs were refinished. Myrtle made two braided rugs for the floor which she thoroughly scrubbed, and last of all she hung yellow curtains which she had made out of dyed tomato sheets.

TAXES IN TEXAS

Tax the farmer, tax his fowl.
Tax the dog and tax his howl.
Tax the hen and tax her egg.
Let the bicom' mudsill beg.
Tax his pig and tax his squeal.
Tax his boots, run down at heel.
Tax his plow and tax his clothes.
Tax his rags that wipe his nose.
Tax his house and tax his bed.
Tax the bald spot on his head.
Tax the ox, and tax the ass.
Tax his "Henry," tax his gas.
Tax the road that he must pass
And make him travel o'er the grass.
Tax his cow, and tax his calf.
Tax him if he dares to laugh.
He is but a common man.
So tax the cuss just all you can.
Tax the laborer, but be discreet.
Tax him for walking on the street.
Tax his bread, tax his meat.
Tax the shoes clear off the feet.
Tax the payroll, tax the sale.
Tax all his hard-earned paper kale.
Tax his pipe and tax his smoke.
Teach him government is no joke.
Tax the coffin, tax the shroud.
Tax the souls beyond the clouds.
Tax all business, tax the shop.
Tax the incomes, tax the stocks;
Tax the living, tax the dead.
Tax the unborn, before they're fed.
Tax the water, tax the air,
Tax the sunlight, if you dare.
Tax them all, and tax them well.
And do your best to make life hell.
