FORMER HASKELL GIRL DIES IN EL PASO SANATORIUM

The following article concerning the recent death of Miss Minnie Parrish in El Paso is handed us by P. G. Alexander. The deceased will be remembered by many Haskell citizens, as she lived here when a child and attended the Haskell Schools, moving with her parents to New Mexico some fifteen or sixteen years ago. The following article concerning her death is reprinted from an El Paso newspaper:

"Funeral services for Miss Minnie Parrish, a former Red Cross nurse who saw service overseas, were held at Park-Hagedorn chapel at 4 p. m. Thursday.

"Miss Parrish, according to her friends, did heroic work in the Balkans immediately after the war. She was ready to sail for the battlefields when the armistice was signed.

"Her outfit was taken over for relief work in the Balkans and she spent two years there. She was at Montenegro during two winters, suffering extremely with the cold.

"She worked night and day during an epidemic and friends insist that the privations she suffered were responsible for breakdown with tuberculosis about a year after she returned to the United States.

"After returning to America she lived in San Francisco for a time and came to El Paso almost four years ago.

"She did private nursing until she was forced to go to Hendricks-Lewis sanatorium about a year ago, where she died.

"Miss Parrish is survived by her father, J. A. Parrish, Portales, N. M.; four sisters, Mabel Parrish, Los Angeles; Annie Sue Parrish, Portales; Mrs. Fred Williamson, Kemp, Texas; and Mrs. Mary Parrish, Portales; four brothers, Fred Parrish, Austin, Tex.; Jesse Parrish, Carlsbad, Geo. Parrish, Portales and Albert Parrish, Portales.

Browning Arms Co. Claims Wrongful Use of Name in Suits Against Two Mail Order Firms Selling Guns

The Browning Arms Company of Ogdon, Utah, inventors of numerous automatic and repeating firearms, both sporting and military, including the Browning machine guns, has filed suit in the United States district court in Salt Lake against Montgomery Ward and company and Sears Roebuck and company, alleging wrongful use of the name "Browning" in advertising and selling automatic and repeating shotguns.

It is claimed that both Montgomery Ward and company and Sears Roebuck and company are now advertising and selling guns not manufactured by Browning Arms company, but are representing to the buying public that the guns are a product of the Browning company.

Want Profit Returned
It is asserted by the Browning Arms company that such procedure is capitalizing on the reputation and standing of the name "Browning" in the firearms business, and particularly that built up by the production and distribution of its automatic shotguns, and the Browning company seeks to have such methods discontinued and asks for the profit on the sale of such shotguns as have been sold since the introduction by Sears Roebuck and company and by Montgomery Ward and company of the alleged deceptive sales methods.

Roebuck and company circulate catalogs of general merchandise in which, among other things, firearms are advertised, including Browning automatic shotguns, which are illustrated and designated, "The Genuine Browning Automatic Shotgun." It is alleged that Montgomery Ward and company also lists and illustrates a repeating shotgun which it calls the "Western Field" and that in the advertisements of the "Western Field Repeating Shotgun" Montgomery Ward and company prints conspicuously the word "Browning," as "Western Field Browning," and that the defendant also advertises an automatic shotgun which it designates "New Western Field Browning Design," the word "design" being printed in type so small as to be a most invisible.

Deception Charged
The complaint states that "the so-called Western Field guns are not made or authorized by the Browning Arms company and that the use of the name 'Browning' is calculated to and does represent to the public that such a gun comes from the plaintiff and is intended to be and is so understood by the persons to whom the Montgomery Ward and company catalogs are addressed."

The complaint against Sears Roebuck and company is similar, except it is stated that Sears Roebuck and company is advertising and selling a gun called the "Ranger" repeating shotgun with this description, "A Genuine Browning Model" and "Browning design."

Forty distinct types of firearms have been invented by the Brownings, eight of which were used in the World war.

North Ward P. T. A.

The North Ward P. T. A. met in regular session, Thursday, Oct. 23. The attendance was by far the best we have had. Miss Sherrill and Mrs. Reynolds had charge of the program. We want to say here and now, it was a good one.

The stage was artistically decorated with bundles of feed and pumpkins, together with Jack-o-lanterns, Black cats, witches and bats.

Quite a number of the third and fourth grade children took part in the program. Some gave readings, a group sang and others appeared as ghosts, witches and Jack-o-lanterns.

Altogether it was a snappy program and thoroughly in keeping with the Halloween season.

A short business session followed at which time delegates were elected to the State meeting at San Angelo next month.

Cold weather is motor-punishing weather... Now, more than ever, you need the extra protection of this DE-WAXED, EASY-STARTING OIL

In cold weather motors usually are hard to start, but Conoco Germ-Processed oil actually makes starting easier!

There are two good reasons for this.

First, Germ-Processed oil is thoroughly de-waxed and does not congeal at low temperatures. Second, Germ-Processed oil does not drain away during periods of motor idleness.

The initial "burning over" process is made easier by the protective lubricating film which is on duty before you touch the starter. The usual 40% to 60% of motor wear occurring during the starting period is greatly reduced. Conoco Germ-Processed Motor Oil gives you

easy starting—and quick starting, even at zero temperatures.

Change now to this new oil. Use it all winter for motor safety and economy. You always will find Germ-Processed Motor Oil at stations bearing the Conoco Red Triangle.

The Croon Sets A New Style In Singing

LILLIAN DAWSON
The woman on the left is Lillian Dawson, famous radio crooner. The man on the right is a caricature of her singing into a microphone.

Many Singers Now Know This Trick, Declares Lillian Dawson

New York City.—That broadcasting has done more than any other agency to give the natural, untrained singer an opportunity is the opinion of Lillian Dawson, famous radio crooner.

"Crooning which has become so popular cannot be done according to rule and rote of the singing teachers," declares Miss Dawson. "In fact, it is contrary to all accepted rules of the great masters but nevertheless a new sweet tone is being evolved and a complete revolution in singing technique is very possible."

"The commercially successful singers are nearly all crooners, that is, singers who can tabloid their voices into the microphone. The exact opposite means are used in the control of volume of tone."

"The most popular crooners cannot be heard a foot away from the microphone. They sing with a peculiar softness akin to a whisper which the other waves seem to pick up and transport with greater clarity than any other sound. They must also have songs of great sweetness and melody such as 'A Big Bouquet For You,' probably the crooningest song ever written."

Miss Dawson comes of a family of singers and is the first untrained voice in her theatrical family to make good.

CAN YOU GUESS TRUE IDENTITY OF STRANGLER?

How good a guesser are you? Do you think you can identify the Masked Strangler in "Temple Tower" before the end of the picture? Local film fans who pride themselves on being "picture wise" will have an opportunity to exercise their wits at the Texas Theatre beginning next Friday and Saturday when this thrilling, baffling melodramatic novelty commences its local showings and will also be able to test their ingenuity against that of the Fox Movietone studio workers.

On completing the film, Director Donald Gallaher decided to try out its mystery features. The picture was run in one of the studio projection rooms before a mixed assemblage of employees, laboratory men, stenographers, extras, assistant directors, electricians and the like. The only requirement was that none of them should have had anything to do with the picture, or know anything about the story. On entering, each was handed a bit of paper and a pencil with instructions to write down the name of the actor playing the dual role of The Strangler and of a "straight" character, as soon as he or she was convinced as to the mystery man's identity and then to turn in the slip.

Of the 82 members of this audience, only four, or approximately 5 per cent, guessed right and not until the showing was nearly over did the second guessers reach their conclusion. Those who made their predictions early were all wrong, so well is the player's identity concealed by his terrifying costume and his menacing appearance.

"Temple Tower" is another and more exciting narrative about that redoubtable adventurer, "Bullfrog Drummond," played by Kenneth MacKenna, who was acclaimed for his performance in "Men Without Women" and other Fox Movietone pictures. Marceline Day, well known screen player, enacts the role of the heroine in this all talking production directed by Donald Gallaher from Llewellyn Hughes' scenario of H. C. McNeill's famous novel of the same name. The notable supporting cast includes Henry B. Walthall, Cyril Chadwick, Peter Gawthorne, Ivan Linow, Frank Lanning and Yorke Sherwood.

One of the above mentioned players is "The Strangler." Which One?

In the recent election of High School Queen, the Senior girls secured more votes than the boy and the entertainment is merely the result.

The B. Y. P. U. Attendance Is Growing

Dr. Ammons is leading the B. Y. P. U. organization of the church in a great work. He is studying the work and is putting his very best into it. Of course that kind of effort means growth. The Senior Union has become so large that it has become necessary to organize another union. These two unions are starting off with about twenty-two in each union, and of course that will mean from fifty to sixty in attendance in a short while. There were 123 attending the different unions Sunday evening.

The Sunday School Back To Normal

For several Sundays the Sunday School attendance has been below normal on account of so much rain. It fell to the low mark of 251 on one occasion. Last Sunday was a beautiful day and the attendance came back to 354. Three hundred and fifty seems to be the dividing line. Anytime we have less than that number, everyone seems to have a let-down feeling, but when we go above that number it brings a degree of satisfaction. Let's make it 400 Sunday.

11:30 a. m. Preaching Service, subject: "KING JESUS."

In order to appreciate this subject it will be necessary for you to read Matt. 21:1-11. This wonderful passage records the triumphal entry of Christ into the Holy City. As we study this passage with our open Bibles, we trust that all will pray that Christ will be triumphant in our own hearts; that our hearts will be made instruments of his praise; that we will so live that the pathway of Christ will be filled with Christian virtues; and that we will enter with Him into the new Jerusalem with palms in our hands, joy in our hearts and praise upon our lips.

7:30 p. m. Preaching service, subject: "SOME STARTLING FACTS ABOUT SIN."

We may have some things to say about sin for several Sunday nights. We will be glad for both the saved and unsaved to get every message. Remember that the purpose of these services is to help.

The Electric Man Shows You a Delightful New Breakfast Method

"Through the use of electric toasters, waffle irons, percolators, egg boilers, electric grills and many other small appliances, the task of cooking breakfast has been made thoroughly enjoyable.

"And now, with the new *Home Comfort* rate, the low cost of operation adds another advantage to the electrically-prepared breakfast.

"You see, this new schedule of rates makes all service over the first 45 kilowatt-hours, for a five-room house, cost only 4c per kilowatt-hour—3c where service is also used for heating or cooking.

"Just think of the possibilities of this new rate. All the service you want to use, and yet your bill will always be quite moderate, compared with other necessities of the home.

"Next week I'm going to tell you about the advantages of this new schedule in connection with your lighting problems, and I'm sure you'll get some ideas from my suggestions."

And Remember—You Can Make Your Own Average Rate

Initial rate 12¢
2nd rate 7¢

MIKE LANDAU

**America Becoming a
Family Nation, Mike
Landau, Famous Musi-
cian Declares**

New York City.—Night clubs are family affairs these days, or rather, nights. In the nineties, only the four hundred and bachelors frequented the luxe restaurants. Now, ma and pa and the whole family celebrate their birthdays and wedding anniversaries and do all their entertaining at the better class restaurants. So says Mike Landau, orchestra leader who knows his Broadway.

"This, of course, has taken away a great deal of the hilarity and instead of getting wild, as daily papers would lead us to believe, we are actually becoming very conservative," says Mr. Landau. "There is a certain freedom and openness which is refreshing to one who saw the goings-on of Maxim's and Churchill's, at their height.

"The lack of formality has taken the starch out of our manners but the freedom of informality has made things much more charming. "The daily press to the contrary, we are really becoming more and more of a family nation. We are getting to take all of our enjoyments en famille. Father no longer has all the good times to himself. The motor car, the dance craze, and golf links have done the most to bring this about.

"The requests for music differ, too, from those of the old days. Risque songs are hardly ever asked for any more. Good dance music with a catchy lyric is the most popular. The Hawaiian fox trot song, 'Why Have You Forgotten Walkiki' with its mid-Pacific lilt gets the most requests right now. It is a number the whole family likes to strum, to hum and to dance to."

Mike Landau was musical director for Maxim's, Churchill's and many other famous former night life resorts. He is now directing the music at Will Oakland's Tee-height.

THRIFT T SERVICE

All flat work ironed, balance of bundle just damp enough to iron. Price per pound **6c**

On the above service we iron flat work such as sheets, counterpanes, pillow cases, towels, rags and handkerchiefs, and the rest of the bundle to consist of underwear, dresses, shirts and all wearing apparel.

This service is a try out service and we want you to send all of your laundry and to illustrate we want just about as much flat work as we get linen and if you do not send us your whole bundle or about equal each of wearing clothes and flat work, it will be necessary for us to charge you separate, that is eight cents for flat and four cents for the rest. But if we can get about an even amount we can do it for six cents per pound.
