Approximately 40 members of the Haskell Service Club, local business men's organization, attended the weekly noon-day luncheon Tuesday March 6, which was made into a special occasion in honor of F. G. Alexander, 79, pioneer ranchman and business man, who recently celebrated his 50th anniversary as a resident of Haskell county. He first set foot on soil in this county in 1884.

While no elaborate program was given, various musical numbers by Mrs. Calvin Whatley, and readings suitable to the occasion were given by 12-year old Paul Crawford. R. E. Sherrill, 75, another pioneer citizen, who has written a book of Haskell county and its citizens, was the principal speaker. Mr. Alexander responded with a short talk, and though his voice is usually firm, it faltered several times as he attempted to express his feeling over (Continued on Page Five)

Haskell Girls Cop Basketball Title

Battling desperately all the way, the Haskell high school girls' basketball team emerged winner in the county tournament here Friday night by defeating Weinert 17 to 14 in the finals. Weinert had previously defeated the local team twice this season.

By winning, the Haskell girls broke a "drought" of four years, it having been that length of time since the county-seat town had won. The team will be entertained in a suitable manner later, by Mrs. Geo. Wimbish, their coach.

Girls making the Haskell first-string team were Pearl Lee and Faye Strickland, forwards; Rose Cousins and Christine Tucker, centers; Edith Moody and Dorothy Lewellen, guards. Main substitutes were Helen Higgins, guard; Marjory Wright, center; Juanita Medley, guard. Sue Couch and Anna Belle Stanton were on the traveling squad. The team will remain intact for next year, with the exception of Pearl Lee and Dorothy Lewellen.

Man's Life Is Saved By State, Then Gets Chair

MICHIGAN CITY, Ind.—The state of Indiana worked desperately for 2 hours to save the life of Harley Edwards, 39, convicted murderer, and then put him to death in the electric chair early Friday.

Edwards attempted to commit suicide Thursday when he learned that Gov. Paul McNutt had denied a plea for commutation. He broke his glasses, gashed his wrists with the broken lens and was near death when found.

Two blood transfusions and hospital care allowed the despairing man to recover enough so that he was conscious when he was brought to the death chamber. One shock sufficed to snuff out the feeble spark.

Edwards, a former war veteran, was convicted of the murder of his estranged wife in Mitchell, Ind., last year.

White, dean of the college, stated, "I am pleased to write you this letter of commendation on your scholastic attainment."

Miss Siddens, a freshman at the college is majoring in speech.

ROOSEVELT FACES TANGLED PROBLEM DURING YEAR '34

First Anniversary In Chair Finds Dispute Over Budget—NRA Main Points

VETERANS AN ISSUE
Reciprocal Trade Agreement and Philippine Matters Come To Front Also

WASHINGTON.—Bitter dispute over the budget, crisis in the NRA and reorganization of emergency employment relief challenged President Roosevelt on the first anniversary of the gray, cold Saturday of his inauguration.

On the achievement side the administration can list:
1. Large progress in enactment of its legislative program by congress.
2. Allocation of \$3,300,000,000 of public works money.
3. Increased employment, improved business, re-opened banks, restoration of confidence in comparison with one year ago.

But administrative leaders, themselves, concede that recovery is far from here. The immediate business as the second Roosevelt year begins is to bolster NRA against weaknesses and abuses emphasized this week at open forum protest meetings.

As the meetings ended, Hugh S. Johnson, administrator, outlined the NRA problems as:
1. Insurance that price increases (Continued on Page Five)

CHANGE IS MADE IN AGRICULTURAL PROGRAM AT FAIR

General Exhibits Discarded and Individual Ones Chosen By Directors

"While the date for the holding of the 1934 Central West Texas Fair on October 15 to 20 inclusive is many months in the future, exhibitors should be reminded of some of the changes in premiums and departments which have also been made," said H. K. Henry, local vocational agricultural teacher, Wednesday. "The general agricultural exhibit has been discarded and individual exhibits substituted."

According to Henry, many successful fairs have been held in Haskell, with the 1933 one of the most successful, and the success was responsible for the action of the fair directors in making the county fair larger.

Premiums on the individual exhibits are \$10 each for the first ten individual farm exhibits and five \$5 prizes for the next five best. The score card on this exhibit will be much the same as it has been in the past, with perhaps more substitutions. No individual will be allowed to enter more than one exhibit, Henry also stated. Other changes will be announced later.

He has seen service with Waco, Galveston, Fort Worth and other clubs in class "A" baseball.

On March 5th the Methodist Missionary Society met in the home of Mrs. Hugh Smith. This was one of the most important meetings of the year. Mrs. Fields had prepared with her usual thoroughness a most interesting lesson—and the Missionary Society President, Mrs. Patterson, held a very important business session.

The District Conference of the Methodist Church convenes in this city on next Tuesday and Wednesday. Bishop Boaz will preside over the conference. Christian Endeavor.

The Christian Endeavor had a very interesting and effective program Sunday evening, after which a meeting was called by the President. It was called for the purpose of electing new members for the year. The majority of the members readily nominated and elected Calvin Frierson as President. Calvin had no competition whatsoever, which proves that he was a successful President during the past year. He then called for the election of a vice-president. Within a short time Ethel Frierson was run in ahead of two other nominees. If the president should have any troubles, he has someone who is capable to assist him. With only two opponents, Mary Pearson came in away ahead as Secretary and Treasurer. No doubt some of the members figured there was very little responsibility for the reporter, but as the consequences are Ira Hester is to fill this position. One position which has been neglected in some respects, is a song leader. With much consideration, Pete Frierson was appointed to this. If you think the Society does not believe in good

people, you should see the Pastor's wife, Velma Pearson and Ora Frierson. These girls are capable of giving you the best of music which will with the help of Pete make the evening service very enjoyable. As the old saying goes: "Last but not least," the Endeavor took pleasure in getting Mr. and Mrs. Tibbs as sponsors. They have worked very hard, with the Society and over the situation through the year.

Presbyterian Young People.

The young people of the Presbyterian Church are planning to hold their annual Sunday March 11, when they will conduct the service at the seven o'clock hour. The following program will be presented:

Why Doctors Favor a Liquid Laxative

A doctor will tell you that the careless use of strong laxatives may do more harm than good.

Harsh laxatives often drain the system, weaken the bowel muscles, and even affect the liver and kidneys.

Fortunately, the public is fast returning to laxatives in liquid form. The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you needn't take a "double dose" a day or two later.

Dr. Caldwell's Syrup Pepsin gently helps the average person's bowels back to regularity. Why not try it? Some pill or tablet may be more convenient to carry. But there is little "convenience" in any cathartic which is taken so frequently, you must carry it with you, wherever you go!

Its very taste tells you Dr. Caldwell's Syrup Pepsin is wholesome. A delightful taste, and delightful action. Safe for expectant mothers, and children. All druggists, ready for use, in big bottles. Member N. R. A.

T. R. Odell Gives Views In Campaign for Representative

the viciousness of the present law under which they operate. The borrower is always alarmed to learn that he is as heavily in debt to the Building and Loan Association after paying installments for several years as when the loan was made.

My views are well known on almost every public issue, but I desire to call the attention of the voters to some of the outstanding matters I am interested in:

the viciousness of the present law under which they operate. The borrower is always alarmed to learn that he is as heavily in debt to the Building and Loan Association after paying installments for several years as when the loan was made.

Fourth. I favor a law making it a felony to sell watered or faked stock in any Corporation, Joint Stock Company or enterprise of any character.

Fifth. The Liquor Laws of Texas are so vital that I feel that the people themselves should give a clear cut expression to their desires before the Legislature should pass any laws on the subject.

Sixth. I believe the present Educational State Institutions should be maintained, except where work is duplicated, but that no additional institutions should be established.

Seventh. The common school system must be maintained and improved, but the source of the revenue should come from the State as a whole and not local taxation.

Eighth. I favor a substantial reduction in the registration fee for family cars and trucks.

If the voters of this district see fit to honor me with the office of State Representative from this district, I shall study the various problems of the State and do all I can to help restore our State to a normal condition.

For your encouragement, we will say that the petition was presented to one hundred and eighteen persons and one hundred and fourteen signed it.

Crop Loans—

under the Farm Credit Administration.

Each applicant must obtain clearance through or furnish a certificate of cooperation with the Agricultural Adjustment Administration. The production control associations will make available lists of those who have signed acreage control contracts. Farmers who are on this list, if otherwise eligible to borrow, will be able to obtain loans.

County councils of the production control associations will certify to representatives of the Farm Credit Administration the names of any farmers who, while not signing acreage control contracts, are cooperating by not increasing their production contrary to the acreage control program.

Where county councils have not been set up, Farm Credit Administration representatives will be instructed to make no loans to farmers who are planning to increase production.

For the time being, according to Governor Myers, the various regional emergency crop loan offices will handle the applications for loans from the \$40,000,000 fund, and these offices will be under the immediate direction of the Emergency Crop Loan division, which is placed under the supervision of the Production Credit Commissioner, S. M. Garwood, and the Governor.

the manner in which he was being honored.

"This is one time in my life that I wish I had a command of the English language in order that I might express my appreciation, but it is impossible for me to do so," he said, with tears in his eyes.

Mr. Sherrill gave a brief sketch of Mr. Alexander's life as both rancher and business man, and lauded the pioneer citizen's honesty and integrity. Every club member was made to realize the hardships, and the happiness, which Mr. Alexander had lived through.

Hound Dog Candidate

Here is J. Edd Glenn, who styles himself the "Hound Dog" candidate for governor of Texas in the coming elections. Mr. Glenn is a real farmer and lives near Kopperl, little city in Bosque county, Texas.

Mr. Alexander came to Haskell by way of Albany, 42 miles south east of here. Only a dim trail marked the way, and for several years that city was the trading point of all ranchers in this section. Mail was infrequent, being secured only when some family had occasion to drive in for supplies.

Eight of the pioneer's children are still living. Twenty grandchildren have been born, but only one will carry on the name of Alexander.

ing as coach, with Rev. Wm. P. Hardegree assisting him. In extemporaneous speaking, Tom Clifton, Woodrow Dishong, Pearl Lee and Mattie Pistole will represent the local school. Mrs. Geo. V. Wimbish is coach.

Under the direction of Miss Donna Davis, the contestants from Haskell in essay writing and spelling will enter the tournaments in a well prepared condition. Kathleen Crawford, Louise Roberts and Fred Sanders will enter the essay contests, while Molly Hester, Ava Grindstaff, Alberta Orr and Woodrow Dishong will compete in spelling.

Haskell girls will make another attempt to win top honors in volleyball, a sport title they have captured three times out of the last four. Rural and independent teams will be entered, and the winners will be sent to Breckenridge, where they will compete for the district title some time in April. George Wimbish is coaching.

New courts have been prepared for tennis, through the courtesy of the Haskell Service Club. Both boys and girls teams will be entered. The grounds were in fine shape after the recent rain.

Bill Richey, high school coach, has a galaxy of track stars, and also has his hands full in coaching all of them. Both junior and senior highs will be represented. In the senior division are John Kimbrough, Lewis Hamilton, Jack Larned, Bill Reeves, Covell Adkins, Albert Barnett, Thomas Kaiger, Kirby Jones, Cecil Reeves, Jack Bradley, Hugh Shelley, Ralph Bernard, S. A. Moser, Walter Terry, Artie Pippen, Lee Stodghill and Leo Lowery, while Duffer Crawford, Leon Highnote, James Roy Akins, J. C. Allen and Woodrow Perrin will mingle with the juniors. Although J. D. Tidwell is in junior high school, he is too old for competition in that class, but will be able to compete in Class "B" events.

Rule and Haskell will be the only two schools entered in Class "A."

In declamation, both boys and girls are entered from junior and senior highs. Lillian Kaiger, Geraldine Hunt, Helen Higgins and Leita Burson will represent the girls in senior high, while Helen Ballard and Mary Lena Tubbs uphold the banner for the junior division. George William Fouts and Burch Wilfong are the boys' champions from senior high and Lindie Anderson and Duffer Crawford for the juniors.

Insurance Head

CHARLES F. O'DONNELL

DALLAS, March 6.—At a special meeting of the board of directors held at the Company's offices this morning, Charles F. O'Donnell was elected president of the Southwestern Life Insurance Company. He succeeds the late T. W. Vardell, who was president from March, 1911, until his death one week ago.

Mr. O'Donnell first became connected with the Company in 1917 as a member of its legal staff. He was elected a director in March, 1926, later serving as general counsel. On January 1, 1933, he took active charge of the Southwestern Life's investments as chairman of the Company's finance committee, and since then has devoted practically all of his time to the Company's affairs. He announced today his retirement from the firm of McBride, O'Donnell and Hamilton, and will assume his new position immediately.

been accomplished to date, with other work contemplated.

R. E. Sherrill spoke to those present relative to the marking of historic spots in this county and among other interesting things, stated that he had marked the old Marcy Trail, which was used to a great extent during the gold rush of '49 to California, and the McKenzie Trail. He reported that the local post of the American Legion is

assuming charge of this work throughout the county.

The Hiwayside Park, located this side of Stamford where the Sager-ton and Haskell roads divide, has been beautified by both the state highway department and the women of the county. Cactus has been planted and placed into the shape of a large star. Native shrubbery has been extensively used. The grounds of all churches, schools and the Magazine Club have been beautified recently, as has the entrance to the Jones, Cox & Co. funeral parlor also.

During the first week of April a seed and plant exchange will be observed. Mrs. K. V. Reynolds is in charge of this work.

The next county meeting will be held at the Magazine Club on Saturday April 7th.

PLAY POSTPONED

The play which was to have been given at the Gauntt school house last Saturday night March 2nd, has been postponed until Saturday night March 9th.

RUBBER DOLLARS

HOW OFTEN have you and friend wife wondered how 'the Joneses' seemed to do so much on their income? From remarks dropped by Jones, you're almost certain you earn as much as he. You're dead certain you and your wife are not extravagant or wasteful. Yet the Joneses do little things you can't afford—and have little things for which you can't spare the money. How come?

The truth is that the Joneses have a secret. They have discovered a way of putting rubber into dollars. Through the knowledge of this secret they have learned that a dollar can be stretched beyond its ordinary buying limits.

What is this secret? They read the advertisements?

In the advertisements in this newspaper, reliable merchants and manufacturers offer you their finest values. Before going to the stores to buy, shop here FIRST. Compare products until you've found just what you want. Compare prices until you've pleased your purse. You'll save endless hours of weary walking. And you'll buy with the comforting assurance that every dollar has done its duty!

3. Elimination of chiseling through compliance.
4. Insurance of the statutory rights of labor.
5. Maximum contributions by NRA to the solution of the purchasing power and unemployment problem.

Johnson explains that NRA is not charged alone with re-employing the jobless millions. But he is not satisfied with NRA employment and is pledged to propose next week at a general conference of code authorities that the work week be further reduced and hourly wages increased. Mr. Roosevelt will open next week's conference with a review of objectives and a plan to carry on.

Veteran Benefits Issue

The budget dispute stirring Capitol Hill revolves around veterans and federal employes. Mr. Roosevelt sought to quell veterans' uproar with a compromise which added \$21,000,000 annually to the treasury burden by restoring a few benefits. That was not enough. The senate raised the ante to at least \$118,253,000. Acceptance by the house of this legislation would draw a presidential veto.

Mr. Roosevelt decided Feb. 28 to meet the emergency unemployment relief situation by expenditure of \$950,000,000 on distressed rural families, stranded populations in single industry towns and jobs in large urban centers. This program was devised to meet the crisis of CWA abandonment May 1.

The first year ends with Mr. Roosevelt's request for reciprocal trade agreement authority and suggestions for Philippine independence before congress. All major legislative proposals except a possible message on war debts now have been submitted.

Thus this session of congress enters the home stretch, having received from the White House about all the urgent recommendations likely to be submitted this year.

WHEN THE BOSS IS AWAY

Many of us get the idea that if we should go on an extended vacation, or otherwise drop out of the daily routine, our business affairs would go to pieces, but that depends upon how well those affairs are organized beforehand.

It is related of Andrew Carnegie that after one of his department heads had been in charge for a year he sent him to Europe for six months. If the department didn't run better while he was away, the department head was fired on his return. Carnegie's theory was that a man who could not organize a department so that it would function in his absence was not fit to be the head of it.

There is a great deal of practical value in this theory, particularly in the case of large enterprises. Where the subordinates feel that they must consult the chief concerning every minor detail they fail to develop the ability to make decisions or assume responsibilities. The chief at the same time keeps himself enmeshed in a mass of petty routine which prevents his giving adequate attention to larger problems.

The president of a famous hotel was recently complimented by a guest upon the excellent manner in which the place was being conducted. It developed that the president had just returned after a vacation of six months. He informed the guest that he had been away, and added:

"Everyone seems to feel that the house has been run better without me, and that even the weather was better than in previous years."

ROOSEVELT OPPOSES WAGE CUT

Threat of further slash in rail wages does not seem to fit in very happily with various moves of the government for recovery, and President Roosevelt has made it plain that he is opposed to the idea.

In his letter to leaders of both sides the President reminded them that last June's agreement was reached because of the desire of contracting parties not to embarrass the policies of the administration during the active economic emergency. Despite the unquestioned progress toward recovery, the emergency still exists, says the President.

There will be general hope that the President's opposition to the wage slash will be heeded. Due to the increased cost of living, wages should be higher, not lower.

CRIME CONTROL DOESN'T END WITH ARREST

Few Americans are apt to quarrel with Attorney General Cummings' plea that broad powers be given the federal government to move against gangsters, kidnapers, racketeers and other criminals, states a writer in the editorial columns of the Wichita Falls Record-News.

The offensive against organized crime, somehow or other, has taken on new life in recent months. A nation that looked on its crime record with more or less complacency for a long time seems at last to be determined to do something about it.

The program suggested by Mr. Cummings probably will meet a sympathetic reception.

But it is worth remembering that such a program, in itself, isn't nearly enough.

We need to broaden our powers to catch criminals, surely; but we need also—and we need it very badly—to do something effective about the problem of handling them after we have caught them.

The best crime detection service in the world can be no stronger, in the last analysis, than the criminal court into which it feeds its product.

And it would take a very great optimist to say that our criminal courts today are anywhere nearly as effective as they ought to be.

The American criminal court is cursed by many things; by archaic rules of procedure, which give the criminal all the breaks; by politically-minded judges, who periodically must run for re-election; by a jury system which too frequently keeps off the panel any man who is aware even moderately of what is going on in the world about him; by a vast horde of unscrupulous attorneys who will stop at nothing to get their clients off, and whose only question, when a case is offered them, is, "How much is there in it?"

If we had the best federal and municipal police systems on earth, we still would come up again this criminal court barrier.

We still would find smart lawyers interposing delay after delay between arrest and trial, until the case against the criminal collapsed of its own weight. We still would find judges granting continuance after continuance to defendants who "had an in."

We still would find the machinery of paroles and suspended sentences being perverted by politicians against the public good. We still would find juries being fixed, witnesses being tampered with, and legal technicalities being used to block the course of justice.

Before we can make real headway in our war on crime, we must overhaul our criminal court system—and the overhauling must be pretty drastic.

The rapid growth of traffic has necessitated the widening of many of our principal highways, but the well known "straight and narrow" still seems able to handle its travelers without congestion.

Usually it isn't hard to tell the fellow you can't tell much.

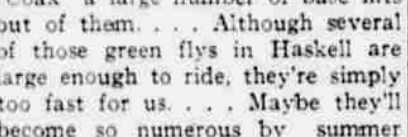

No x-ray will be needed to see through some of the political bunk that will be released the coming summer.

There may be nothing "new under the sun," but the honoring of mothers-in-law in Amarillo will come very, very close to being so. And why not honor those women? Many of them made wonderful mothers and would also make wonderful mothers-in-law if given half a chance. Too many of us have listened to the alleged "jokes" which portray someone's mother in an unfavorable light. Personally, we couldn't have picked one better than the one we have.

INK-SPOTS — Speaking of Will Rogers, did you know that young Warren can twirl a mean rope himself? How he did place that piece of twine around a negro boy's foot Saturday. . . "Blondy" is such a common name and so many girls are called by that monicker, that one girl with light-colored hair gazed around in four directions the other day in front of the Postoffice when she heard someone utter the name. It happened that she wasn't being paged, but it didn't keep her from looking. . . We have to exert wonderful control over our voice to keep from answering "huhh" when someone says "Bill". . . There's one young lady in the "cote-house" who can mimic a mad, indignant, crying baby! Especially when the "quartette" (even though only two members are present) try for harmony. . . J. K. Griffin looked mighty cute having his "picture" taken Sunday. . . Believe it or Not, Rufe Highnote, Haskell blacksmith, strikes a musical note on that anvil. . . We suggest that Server Leon place a light at the top of the stairway leading to his theatre office, because, for one reason, we become entangled too easily in all those curtains. . . Solemnly speaking, Bill Holden will soon celebrate his 14th anniversary as a mortician—undertaker to you. . . Luther Cummings, who draws, paints, or whatever you call it, those designs for the Texas Theatre knows his business. . . Sassy Note: The Tonkawa Cafe has replaced the wire door handle with a chic looking brass affair. . . We'll swipe that picture, yet! . . . In case you become vexed over any ambiguous statement in this column don't do it—we mean the other fellow. . . Isn't a vocabulary a wonderful thing? Practically all of the 1934 model automobiles have new devices for their front wheels which will make them ride easier, but no two of them bear the same name. . . Buford Cox is sporting two new baseball bats, with the name of "Cox" lettered upon them. When the season starts, we hope he can "Coax" a large number of base hits out of them. . . Although several of those green flies in Haskell are large enough to ride, they're simply too fast for us. . . Maybe they'll become so numerous by summer that they'll be tamed down. . . We hear less talking and "smart" cracks in the Texas Theatre while the picture is being shown than in any house we've ever been in with the exception of a few to be found in cities where order is maintained. . . The kind lady, (who is employed in a local store) who stated we might look nice in an undertaking parlor surely couldn't mean she hoped we would go into competition with Bill Holden or J. H. Kinney! Wonder what she did mean? . . . We wish those fellows who can't seem to find time or inclination to smile once in a while could desist on the green persimmon eating. . . Don't forget, as Chas. Conner would say, that it is time to plant shrubbery. . . And by the way, dear 'Orace, Haskell dry goods stores are featuring new spring merchandise as cheaply in price as you can find anywhere. And stylish! My, My! We have to have rush orders on our advertising services to keep up with our stores! And don't forget, either, we would appreciate your trading with Free Press advertisers. You needn't be backward in telling them that you saw it in this newspaper either. They like to hear you say so. Anyway, that's what they tell us when we're talking to them about advertising.

speeder has killed some man, woman or child. There'll be nothing criminal about it that you can see—neither can the party killed be brought back to life. It will simply be called an "accident," but it won't be one. That day is fast approaching, and the only "if" about the matter is this: "If" all speeding on main streets is stopped! Not a day passes that you can't see scores of automobiles traveling from 30 to 50 mile per hour on the few paved streets we have. The drivers are simply not thinking. Practically all of us are guilty of the practice. Cars whirl past the school houses at a rapid rate! Cars dash madly down the street north of the Methodist church! A lot of the drivers are in a hurry to get down town to sweep stores out—or in a hurry to get to some place where they'll kill time after they get there! A general warning should be given to all fast drivers in Haskell—newspaper men, bankers, merchants, men, women and children, and a time limit set for all to cease such mad driving. And then, if the practice is still kept up, every business one of us should have fines slapped on us that will make us THINK! We might not stop fast driving, however, but the City of Haskell would have a treasury groaning with money and find itself out of the "red" in financial affairs.

Materials: Straw hats are very strong, especially body hats such as Sticks, Peanits, Perle Petalines, Perle Hems, Shiny Jig-Saws, Dull Matbas and, in the higher-priced groups, Ballbuntis and Bakus. In sewed hats single Petaline is the best item. Some fancy Petal-Petaline Braid hats, however, are considered good. In some small shapes, off-face styles and turbans. Fabrics are good—such as Crepe and different weaves of straw cloth. As always, a few felts in certain individual styles are good.

Colors: Navy has taken the lead, with Black and Brown following closely behind. Other colors are listed as selling well, in proportion to their importance: Grey, Beige, Bernese Blue, White, Red, and a very little Green. White should develop stronger as we get farther into the season.

Color in Bedroom Determined By the Room Size—Light

"The color one uses in a bedroom should be determined by the size of the room and the lighting," according to Miss Johnnie Reed, home demonstration agent during a discussion of bedrooms to the 4-H club girls of Rose club held in the school house at 10 A. M. March 6, 1934.

Further discussion of color showed that dull blues and greens are known as cool colors and in general make a small room seem larger. Yellow, rose, cream and red are warm colors and have a tendency to make the room smaller.

Pillow cases are to be made by the girls and dimensions for these were given. The following members were present: Florine Stodghill, Capola Larned, Bessie Patterson, Ruby Mae Scheets, Frances Larned, Nellie Mae Hilliard, Bessie Bee Adams, Opal Rose, Miss Churchwell, the sponsor, and Miss Reed, the home demonstration agent.

Since January 1, this bank has been a member of the Federal Deposit Insurance Corporation. This means that we have been—and are now—actively participating in the temporary plan for the guaranty of bank deposits as authorized by Congress in the Banking Act of 1933.

It means specifically that any and all deposits in this bank up to \$2500 are guaranteed in full against loss.

ITEMS TO REMEMBER

(By H. K. HENRY)

Nearly every flock of chickens of any size in the vicinity of Haskell has been visited by Fowl Typhoid this winter. The disease resembles Cholera very much as to color of droppings but if the bird is cut open after death or is killed for a post-mortem examination a person may be sure of the disease. The liver of the sick bird is many times larger than the ordinary chicken liver. Other symptoms are loss of appetite and loss of weight.

Hens lay eggs very much like their pullets will lay as a general rule. Egg size and shape are transmitted to the offspring to a great extent. Eggs cannot be set in a hatchery if it signs the Government Code unless they weigh 23 oz. to the dozen.

Mules sometimes are fertile and some have produced several colts. This has however, happened only once or twice in Texas.

Cod Liver Oil is now being fed to many different kinds of Livestock. Chickens for instance, fed cod liver oil grow faster and are stronger than those with sunlight and no cod liver oil.

A good cow producing 8,000 lbs. of 4% milk a year will produce enough skim milk for one growing calf, one growing hog, 30 hens, and 320 pounds of butter-fat to sell.

Skim milk equals whole milk as a feed for growing calves.

Cows should be fed according to the amount of milk they give in addition to the amount required for body maintenance.

"DINNER AT EIGHT" HAS AMAZING CAST 14 STARS

The picture which you have heard talked about for months as the most remarkable achievement yet attempted by Hollywood producers will have its first showing at the Texas Theatre Sunday night at 9 o'clock, and Monday, following its triumphant long run at the Astor Theatre in New York City and its special engagements in principal cities throughout the country.

It is "Dinner at Eight" the photoplay version of the George S. Kaufman-Edna Ferber stage success which ran on Broadway for more than a year and was subsequently purchased by the Metro-Goldwyn-Mayer film studios at a price which ran well into five figures. At the time of its purchase of the play rights, Metro executives intimated that the camera version of "Dinner at Eight" would be something in the nature of the extraordinary with a cast which would dwarf any comparison.

One glance at the amazing lineup of stars in this picture indicates that the earlier predictions were no idle boasts. Here we have, believe it or not, in one talkie, Marie Dressler, John Barrymore, Wallace Beery,

There Is a Two-Sided Coat Story To Be Considered For Next Spring

Jean Harlow, Lionel Barrymore, Lee Tracy, Edmund Lowe, Billie Burke, Madge Evans, Jean Hersholt, Karen Morley, Louise Closser Hale, Phillips Holmes and May Robson, together with eleven supporting players.

"FUGITIVE LOVERS" IS ABSORBING MELODRAMA

Melodrama is rampant at the Texas Theatre in "Fugitive Lovers" the new Metro-Goldwyn-Mayer picture, will be the attraction Thursday and Friday, March 15-16.

A new theme for Hollywood, the action in this exciting picture takes place almost entirely aboard a great Greyhound bus as it rips along westward from New York City.

Robert Montgomery, in the role of Porter, is an escaped convict who leads a prison break just as the bus is passing the penitentiary. While the firing causes the driver to halt the bus Porter manages to climb onto the luggage rack and hide under the tarpaulin. There he helps himself to clothing from an unlocked bag and enters the bus as a passenger at the next stop.

WILLIAM STUDIES FOR "BEDSIDE" ROLE BY WORKING IN HOSPITAL

Warren William spent four days at two of the largest clinics in Los Angeles recently in order to learn hospital technique before starting work in his latest First National picture, "Bedside," which comes to the Texas Theatre Tuesday and Wednesday, March 13-14.

The picture, being a story of the amazing adventures of a handsome and magnetic youth masquerading as a surgeon, it was not necessary for him to get more than a smattering of the methods of hospital physicians. It was imperative, however, that he familiarize himself with the ways of a hospital, its system and modus operandi.

NERVOUS AND WEAK

Mrs. Gertrude Hill of 203 Wilderman St., Fort Worth, Texas, says: "I was nervous and irritable, had headaches, periodic pains, poor appetite and restless nights. One bottle of Dr. Pierce's Favorite Prescription was all I found necessary as after its use I felt so well and strong I knew I was in normal condition again."

Write Dr. Pierce's Clinic, Buffalo, N. Y. New size, tablets 50 cts., liquid \$1.00. Large size, tabs. or liquid, \$1.25. "Do Do Our Part."

wear silhouette. That is the blown forward feeling that is evidenced in the smartest sports coats. The silhouette is belted, trim and trig above the waist, with fullness concentrated in the front of the skirt. This gives an utterly new, and decidedly charming look. It is young, easy to wear, and refreshing after the straight, extremely slim lines that our eyes have been looking at for several seasons. It is just as smart done in monotone tweeds as it is in plaids and checks. These coats usually have shoulders padded to give a slightly squarish appearance, but the shoulders are never extreme and the collars always very simple and in perfect taste.

Smart Lengths

Sports coats go to various lengths to achieve their chic. One of the most popular lengths is the three-quarter. It is youthful and graceful, and a bit more popular than the more mature seven-eighths length. Three-quarter coats are usually boxy or swagger in silhouette. The full length coat is developed in reefer, balmacaan and classic polo models, the latter both belted and unbelted.

In his youth, George Washington is said to have thrown a silver dollar all the way across the Rappahannock. The first instance in history of a pegged dollar.

Pure Milk Nature's Most Perfect Food

AUSTIN, March 7.—Pure milk is Nature's most nearly perfect food according to the Texas State Department of Health and persons should be sure that the milk which provides the milk they use is in a healthy condition.

It is estimated that 2 per cent of all milk cattle have become type to tuberculosis. Tubercularizing of cattle will definitely prove whether the cow has tuberculosis. If a person owns their own cow, she should be tested, and if milk is being purchased the purchaser should make sure that the price in the dairy be patronized are free of this disease. These tests should be made each year and if milk is to be purchased, they should be tested before the completion of the sale.

About twenty-five per cent of all tuberculosis in children is of the bovine type—fatal bovine tuberculosis after the first year of age. It generally attacks the lymph glands and bones. When it attacks the lungs, it usually leaves the child crippled for life.

The C. W. A. has created a fund to pay for the destruction of such tubercular cows. Of course the disease must be certified by an accredited veterinarian. The State Live Stock Sanitary Commission and the State Department of Health are very anxious to control this disease. The former to improve the dairy herds and the Health Department to protect the public health. Every one can help by demanding that the cows which they purchase must be tubercular tested.

800 Lbs. "Sweets" Sent to Fair Co-Eds On Valentine's Day

Denton, Texas, Feb. 21.—It might have been St. Valentine's Day to the nation, but it was "Sweet's Day" for the fair co-ed at Texas State College for Women (C. I. A.). One couldn't exactly call the day Saint Valentine's when the fairy godfather in the person of the college mail man dropped more than eight hundred pounds of choice chocolates into the arms of waiting maidens.

Rug-Mat Training School Is Held

Interesting color blending and improved workmanship were the points of interest stressed by the Haskell County demonstration agent during a rug-mat training school held at the Midway club house on Monday, March 5. Rug and mat making is a profitable home industry that can be easily carried on with other household duties, according to Mrs. W. W. Johnson and Mrs. Jno. Baugh in reporting the rug work they had done. The average cost for making a hooked rug is estimated to be 12 cents per foot and the average selling price is \$1.00 per square foot, leaving 88 cents for profit. Mrs. R. P. Current Spelling List Is Now Ready For Distribution

Advice from the International League headquarters in Austin states that 200,000 copies of the current spelling list have been printed and are now ready for distribution, according to Mr. Ellis Olin, recently elected director of spelling for the League in this county. The price of the spelling booklets of sixteen pages has been reduced to one cent per copy in quantities of one hundred or more. It would be well for schools needing less than one hundred copies to club their orders so as to get the benefit of the cent-per-copy rate.

Spring Cleaning Is Now In Order

AUSTIN, Feb. 27.—The warm days of spring will soon be here and the Texas State Department of Health urges everyone to see that their property is cleaned of the winter's accumulation of trash. It is only through individual responsibility and effort that one can have a clean and neat appearing city.

In planning your spring cleaning start with the house itself in the attic and work down, not forgetting the basement. Attics and basements are the greatest collectors of refuse and therefore of dust and dirt that the house possesses, and their neglect often constitutes a serious fire hazard. Do not forget to screen against flies and mosquitoes. The better the job of cleaning, and with a garbage pail kept tightly covered, the fewer flies there will be because flies love dirt and filth and breed in garbage and other filth.

Under the C. W. A. sanitary project pit privies and septic tanks may be installed at no cost for labor, also private water supplies may be installed. This will be a great improvement in rural sections and towns that do not have a city water supply or sewer system.

We are prone to judge people in no small measure by the kind of yard keepers we think they are. Many times you have heard some one say, "No, I don't know the people next door but they cannot amount to much because their yard is cluttered with tin cans and papers and their garbage can is always open." Do not let your neighbors be able to pass judgment on you on such grounds.

ROBITUARY

On February 21 the death angel visited the home of Mr. and Mrs. East Dumas and took their little baby that God had lent them only a few short months.

Put away the little dresses, mothball that your darling wore. Patsy Sue will need them on earth never. She is with the happy angels on the team to bright and fair, beckoning father and mother to meet her there. The hour is approaching when the message will come to us.

"Ave and go from the home in which thou hast dwelt and from thy family, and from it arise and take thy last journey." We know there is a stormy river called death. God bids us to cross it, promising to be with us and after death what wonder world will open upon our astonished sight? What scenes of glory will be open to our view, no traveler has ever returned to tell, but we know enough of the heavenly land to make us welcome our summons thither with joy and gladness. The journey of death may be dark but we may go forth on it fearlessly, knowing that God is with us as we walk through the gloomy valley, and therefore we shall be departing from all we have known and loved here. But we shall be going to our Father's home where Jesus is—the Royal City which has foundations whose builder and maker is God. This shall our last removal be to dwell forever with Him whom we love, in the midst of His people, in the presence of God, Christian.
