Huge Radish Grows

PENN YAN, N. Y.—A giant radish, measuring four inches in diameter, and 13 inches in circumference, was dug up recently in a garden here. The radish, believed to have been one of the largest ever grown, was raised by Charles Sprague.

Dancer at East Texas Rose Festival

This graceful young lady above is Miss Greta Connolly, Tyler society girl, who will pay a unique tribute to the East Texas rose when she gives her "Rose Dance" at the East Texas Rose Festival in Tyler, October 11 and 12. She will dance at the coronation of the Rose Queen the night of October 11.

GINNING TOTALS OF SECTION VARY

Figures Compiled by Government Up To September 15 for 1934 and 1935

The Department of Commerce, through the bureau of the census, has announced a preliminary report on cotton ginned prior to September 15, by counties in Texas, for the crops of 1934 and 1935. Quantities are in running bales, counting round as half bales, and linters are not included. Totals as released for counties in this section of the state are as follows, with amount ginned in 1934 given first: Archer, 184, 292; Baylor, 454, 766; Clay, 1,525, 2,110; Coke, 1,154, 508; Cottle, 306, 254; Fisher, 4,949, 1,480; Foard, 342, 268; Hardeman, 143, 493; Haskell, 4,128, 1,372; Jack, 468, 488; Jones, 8,997, 3,432; Knox, 3,086, 2,050; Nolan, 2,652, 851; Parker, 660, 764; Runnels, 10,694, 3,615; Scurry, 3,151, 257; Shackelford, 849, 1; Stonewall, 1,239, 223; Taylor, 10,173, 2,761; Wichita, 1,511, 2,188; Wilbarger, 1,026, 1,900; Young, 1,420, 931.

New Telephone Directory Soon

A new telephone directory will be issued soon by the Haskell Telephone Company for Haskell and Weintert according to announcement made this week by Roy Killingsworth, local manager. The new directory is expected to be off the press and ready for distribution by the first of November. Customers who contemplate installing a telephone soon should notify the office at once so that their name may be listed in the new book.

There is one telephone for every seven persons, and seven miles of telephone wires for every 10 persons in the United States.

Football Squads In Conference Considered "Fair" By Coaches

With the curtain being raised Friday on District 10 football, a check of the various teams show that the prospects of the various squads, for publication, range from "fair" downward to "not-so-good."

Inquiries were sent to every coach in the conference by the Free Press, and only two coaches failed to reply—even though a self-addressed and stamped envelope was enclosed. Therefore, no advance "dope" has been secured on Stamford and Roby, and each reader will simply have to decide the prospects of those two teams.

Only the barest information was secured from Coach Pittman of Anson, who may think well of his team, but isn't bragging, although no coach in the conference has boasted. Only three lettermen returned to the Anson team when Pittman issued his call, and even though twenty-eight eligibles were on hand for the

REFERENDUM WILL BE HELD FRIDAY ON CORN-HOG IDEA

Farmers In County Asked to Express Views on Whether 1935 Control Needed

IS NATION-WIDE

Farmers throughout Haskell county will vote their opinions Friday night as to whether they desire corn-hog control in 1935, at the request of the government. Both contract and non-contract signers will ballot.

The referendum is nation-wide. Through twenty-three community setups in Haskell county, the vote of the farmers on the corn-hog proposition will be handled, and according to R. H. Maxwell, county agent, no obligation is incurred by a non-contract signer when he votes, as they are placed in a separate class from that of the contract signers of 1934.

Local Christian Church Will Be Hosts To Visitors From Over Thirty Towns

Representatives from over thirty towns will be in attendance during the 12th annual district convention of the Christian church which will be held here Thursday, October 11. Paul J. Merrill, Henrietta minister, will preside.

The following cities will send representatives: Albany, Archer City, Benjamin, Breckenridge, Burk Burnett, Caddo, Crowell, Electra, Gilliland, Goree, Graham, Henrietta, Iowa Park, Jacksboro, Knox City, Moran, Newcastle, Olney, Quanah, Rule, Stamford, Seymour, Throckmorton, Truscott, Vashit, Vernon, Vivian, Wichita Falls, Woodson, Foard City, Harrold, Munday, Orth, and Vera.

The general theme of the convention is "Christ in the Life of Today." The morning session will open at 9:30 continuing with afternoon session, dinner program, and closing with an evening service.

Only Thirteen of Each 1000 Texans Are Sent to Jail

WASHINGTON.—Only thirteen of each 1000 residents of Texas are sent to jail in city and county penal institutions during the course of an average year.

The estimate was made today by the bureau of the census as tabulations were made public of the bureau's decennial census of prisoners sentenced to serve time in municipal and county jails throughout the country. The survey is made once every ten years. Results announced today cover the six-month period from January 1 to June 30, 1933.

The figures revealed that eighteen other states recorded a greater percentage of their population in jail.

After an illness of only a short time, D. L. (Buster) Cox, 22, of the Howard community, died in a Stamford hospital Monday morning at 12:30 o'clock. Funeral services were held Monday afternoon, with interment being made in the Howard community. Survivors are his widow; two-year old daughter; his mother, Mrs. A. L. Cox; four brothers, Orville, U. V., Fred and A. L. Jr., and two sisters, Lelia Evelyn and Mary Jo. Rev. H. G. Hammer officiated over the funeral services which were held in the Howard Baptist church, while arrangements were in charge of J. H. Kinney, of the Kinney Funeral Home. Buster Cox was a candidate for commissioner from Precinct No. 3 at the July primary. He was born in Haskell county on November 29, 1911, and joined the Baptist church at the age of 17. Pallbearers were Coleman Hamner, Robert Fitzgerald, Louis Nanner, Leslie Medford, Mike Watson and P. D. Boddy. Flowers were handled by Mrs. H. G. Hammer, Mrs. Anderson Landess, Mrs. H. Hisey, Marie Hamner, Beryl Montgomery, Ruby Hisey, Nevada Hammer, Ruth Landess, Betty Howard, Ruby Denamore and Dela Medford.

"Cash and Carry" But The Cash Is Three Years Late

Diogenes' search is over! An honest man, though three years in the making, was discovered Saturday by Henry Atkinson, of the "M" System grocery. During the afternoon rush, the local groceryman was standing towards the rear of the store, helping a careful shopper select a list of groceries, and therefore paid scant attention to a young man, neatly dressed, who appeared anxious to talk with someone. Forcing his way forward, the young stranger inquired of Atkinson if he was one of the managers—which fact was substantiated by the groceryman's nod. "Well, sir, about three years ago I stole something in this store, and although I cannot remember what it was, I want to pay you for it, and I believe a dollar would cover whatever it was," the surprised foodstuff dealer was informed. The dollar was accepted.

Aggie Officer

J. C. McHaney, who has been appointed cadet colonel of the Texas A. and M. College cadets for 1934-35, the highest rank awarded to a student of the College Station school. McHaney's home is in San Antonio.

PERRY MASON IS NEW TEACHER HERE

To Teach History and Serve As Assistant Football Coach of Indians

Perry Mason, formerly of Abilene Christian College, has been selected as a teacher of history and assistant football coach in the Haskell high school. Mason holds an A. B. degree, and majored in history. The new assistant coach has had eight years of football experience, having played four years with the Hillsboro high school, two years in Hillsboro junior college and two years at A. C. C.

Roby Game Should Prove Local Test

One of the most formidable foes the Haskell Indians will face this season in District 10 will be played Friday afternoon when the local aggregation tangles with Roby high school. It will mark the first conference game of the season. Coach Richey, and his assistant Perry Mason, have been hard at work through the week drilling the Haskell lads for the fray. Haskell's starting line-up is in doubt, but it is expected that the following men will draw the various assignments: Starr, right end; Mapples, right tackle; Reeves, right guard; E. McMillian, center; Hamilton, left guard; Moser, left tackle; Phippen, left end; English, quarterback; Sherman, left half; John Kimbrough, right half; Jack Kimbrough, fullback. Adkins, who started at right half in the game with Rule, will not be available for duty against Roby, having sustained a slight injury to his back in practice. With a wealth of material available, Richey does not care to take any chances by playing Adkins.

Returns From Hospital

Miss Lena Belle Kemp, who recently underwent a tonsilomy, to a Knox City hospital, returned to her home here Thursday.

The Ferris wheel was named after its inventor, George W. G. Ferris, an American engineer and steel bridge builder, who was born in Galesburg, Ill., in 1859.

Sweeping Changes In Constitution To Be Voted On In November Ballot

AUSTIN.—General election day will not pass in Texas this year without the usual perfunctory vote. Not that any fear is felt by Democrats that its state ticket will be defeated, but because the state's million or more voters will ballot the same day on the proposed state new deal.

Eight sweeping changes in the state constitution will get approval or be rejected November 6. They are: A limit on taxation; different tax rate for real estate; combination of counties; salary fixing powers for county governments; taxation of the University of Texas' vast land areas; four year terms for municipal officers, and right of cities to change their charters annually.

The tax limit amendment pegs at \$1125 per person the total amount of revenue the state may collect annually from taxes, licenses, permits and fees. Based on 6,000,000 population, that is approximately what

ANNUAL AFFAIR TO BE HELD THROUGH ENTIRE WEEK HERE

Parade To Feature Various Stunts on "Haskell Day" Wednesday, Oct. 17

HORSE RACES DUE

Bangtails Again Booked for Feature Event—Tidwell Shows To Be Present

"Too many cooks may spoil the broth" according to an old adage, but officials of the Central West Texas Fair, which will be staged here from October 15 to 20, hold a different belief on account of the fact, so they state, that each chairman of the various committees is striving to make the 1934 fair the best in history, despite the drought now existing.

The fair is to open Monday Oct. 15 and "Haskell Day" will be observed the following Wednesday.

Tidwell Shows Booked. The Tidwell Shows will again exhibit here, with new riding devices, like many of which drew the playgoers at the Century of Progress, and new shows.

In addition, sporting attractions such as junior rodeos, ball games and unlabeled "stunts" will be on the program throughout the week and staged in front of the grandstand at night under the new floodlights.

Horse Races Feature. According to race officials, horse racing, with pari-mutuel betting and the daily double, will again be in vogue on the local track. Entries are now being received from horse owners over a widely scattered area and the horses entered indicate that good races will be a feature.

Races are scheduled to start Wednesday, October 17. The Haskell track, which is considered by race followers one of the best in West Texas, is in good condition.

Gala Parade Arranged. Under the direction of Roy A. Sanders, new features have been added to the parade which will precede the day's activities on "Haskell Day" Wednesday October 17. The usual prizes will be awarded to winning entrants.

Individual and community "stunts" will be welcomed by Sanders for the parade, and the only requirement set forth is that all entries must be listed by Tuesday evening. Failure to observe the rule will nullify the opportunity to win one of the awards.

Plan Exhibits. As in all departments, special stress is placed upon exhibits for the fair by those in charge of the various divisions. Farmers, cattle-raisers and townspeople are being urged to exhibit items for which prizes are offered and, so officials state, the 1934 celebration bids fair to equal anything held here in the past.

Funeral Services Mrs. H. F. Harwell Held Here Sunday

Funeral services for Mrs. H. F. Harwell, 66, who died Saturday, September 29, were held from the First Baptist church here Sunday September 30, with the Reverends H. R. Whitley and I. N. Alvis officiating. Interment was made in Willow Cemetery.

Mrs. Harwell was a pioneer of Haskell county, coming here twenty-seven years ago. She was married December 14, 1897, to Mr. Harwell, who survives her. Other survivors are her four daughters, Mrs. Terrell Jeter, Haskell; Miss Willie Harwell, Haskell; Mrs. Clyde Gentry, Perrell, Oklahoma; Mrs. O. R. Wilkerson, Dallas; a son, H. F. Harwell, Jr., Haskell; two sisters, Mrs. A. C. Snyder, Brownwood, Mrs. L. L. Snyder, Roscoe; three brothers, W. J. Gann, Abilene; J. T. Gann, Sylvester, Texas; C. M. Gann, New Mexico.

Pallbearers were W. J. Jeter, F. C. Pilley, W. J. Pilley, H. D. Bland, C. J. Hanns, M. Y. Benton. Flowers were handled by Mrs. M. Y. Benton, Mrs. R. E. McLennon, Mrs. J. F. Jeter, Mrs. H. D. Bland, Mrs. B. M. Gregory and Mrs. E. J. Jeter. Arrangements were under the direction of J. H. Kinney, of the Kinney Funeral Home.

The WOMAN'S Page

Harmony Club In First Meeting of the Year.

The first meeting the Harmony Club for the year, was held in the lovely home of Mrs. T. C. Cahill, on Wednesday at noon, this occasion being designated each year as the Presidents' Luncheon.

When all guests had arrived they were ushered into the spacious kitchen, where a plate lunch, consisting of creamed chicken, salad, vegetables, pickles and coffee were served cafeteria style. There each repaired to one of the tables which had been laid with linen and silver. The dining table, where the president and those taking part on the program were seated, was centered with a silver basket of white roses, while on each of the smaller tables was a bud vase containing a single red rosebud. Thus the club flower and colors were used as the principal decorations throughout the house. The color note was also noticeable in the delicious sherbet and angel food cake, which was served following the main course.

The president, Mrs. Tommie B. Hawkins, brought the Club a splendid message, among other good thoughts, stressing the fact that music is not a luxury, but a necessity, in our lives. She also sounded an optimistic note concerning the club work for the coming year. Mrs. J. M. Martin outlined and explained the study course for the year. Mrs. M. H. Post gave a piano number and Mrs. Bert Welsh talked of the choral work of the club.

Words of welcome were extended by the president to several new members. Following a short business session the club adjourned. Those enjoying the occasion were: Mesdames D. Scott, Emmett Starr, W. V. Falke, Dobson, O. E. Patterson, H. M. Post, R. L. Harrison, Farris Morrison, Hill Oates, Carl Powers, J. M. Martin, Bert Welsh, Kenneth Thornton, C. L. Lewis, O. W. Carter, Tommie B. Hawkins, P. M. Squires, George Harrison, G. H. Morrison, John Ellis, Carl Arbuckle, B. M. Whiteker, Dr. Robinson, Mrs. Frank Ragsdale, of San Antonio, Miss Elma Kinnard and the hostess.

North Ward P. T. A.

Program for October 11, 1934. Hostess—Mrs. Cahill. Director—Mrs. Wair. Lord's Prayer in unison. Song—Fifth Grade. The Home Start—Mrs. Mack Martin.

Young Womens Circle of Baptist Church Organized

The young women of the Baptist church met at the home of Mrs. W. P. Trice recently and organized a Young Women's Circle of the Women's Missionary Society.

The following officers were elected: Mrs. W. P. Trice, leader; Mrs. Falker, assistant leader; Mrs. Pippin, secretary; treasurer and reporter. The leader, Mrs. W. P. Trice, appointed the following: Mission Study chairman, Mrs. Travers; Evangelist, Benevolence chairman, Mrs. Roy Killingsworth; Personal Service, Mrs. Carl Powers; Stewardship, Mrs. Walter Rogers; Educational chairman, Mrs. Barton Welsh; Social chairman, Mrs. John Pierre Payne.

Mrs. J. A. Gilstrap, a very devoted christian worker, has volunteered to teach the Bible Study. The young women of the church are invited, and those that have children bring them to Sunbeam to the Baptist church each Monday afternoon at 3 o'clock.

Punch was passed by the hostess, Mrs. W. P. Trice, to the following members: Mesdames Bill Richey, E. R. Starr, Press Perry, W. T. Rogers, Roy Killingsworth, Barton Welsh, J. E. Robinson, John McMillan, Vick Kuenstler, J. T. Adams, Bill Gidney, Travers Everett, M. A. Howard, John Clifton, J. P. Payne, Carl Powers and Ora Pippin.

Philthea Class.

Mrs. Elizabeth Martin and Mrs. Jim Isbell were joint hostesses to the Philthea Class of the Methodist church school in the home of Mrs. Martin on Thursday evening. The meeting was called to order by the president, Mrs. Isbell. After dispensing with other business, teacher and officers for the ensuing year were elected. Mr. E. T. Sanders was unanimously re-elected teacher. Mr. Sanders has been teacher of the Philthea class for eighteen months and has proven very efficient in every way. He is a wonderful Bible student and historian. This class does a great deal of Social Service work and is always awake to the needs of others.

After an enjoyable hour spent in conversation and games, a delightful refreshment plate was served to the following members and guests: Messrs. and Mesdames Dave Persons, Tom Stewart, C. B. Breedlove, Claude Warren, Andrew Josselet, Fred Sanders, C. L. Lewis, Jess Finley, Bob Harrison, Jim Isbell, Mesdames O. E. Patterson, Ethel Irby, Ollie Freeman, Claude Wheatley, J. E. Bernard, Elizabeth Martin, Irene Ballard, Marie Wombie, Miss Alberta Cousins, Rev. and Mrs. Carter and son Weldon.

Mrs. C. M. Kaigler Presents Juniors in First Program.

On next Monday night October 8th at 8:15 in the Haskell High School auditorium, Mrs. C. M. Kaigler will present her juniors in the first monthly recital of the year. There will be no charges and the public is invited to be present. These children will read, sing, dance and interpret two one-act plays that will surprise and interest the audience. The children's ages range from three to twelve years.

The readers will be Stella May Brinson, Erwin Frierson, Billy Joe, and Martha Lou Ivy, Charles Billy, and Robert Wayne Cooper, Doris May Humphries, Charlene Ann McGregor, Flora Love and Thomas Morrison, Billy and Giles Kemp, John Wayne Keone, Hassel Hunter, Josephine Parrish, Dale and Dean Bartlett, Geraldine Ivy, Edwin and Jane Gearty, Stanley and Terry Smith, and Anita Jo Pittman.

Children having parts in the one-act play are: James Breedlove, Dauglas Ray Taylor, Charles Tucker, Edwin and Jane Gearty, Charlene Ann McGregor, Dean Bartlett, and Anita Jo Pittman. Musical numbers from the Morrison Studio, and the following dance numbers from Miss Louise Kaigler's class: Margaret Sadler of Weimer, Josephine Parrish, Elsie Keone and Beverly Gilbert and Janice Tate.

Ruth Bible Class.

The Ruth Bible Class met in the home of Mrs. Vick Kuenstler, on Sept. 27th in a social meeting. The meeting was opened by singing "Near the Cross." Prayer by Mrs. Frank Kennedy. Subject of the devotional was "Unselfish Service." 1st Timothy, by Mrs. R. P. Glenn. After the social hour Mrs. Kuenstler served delicious refreshments to Mesdames Walter Rogers, W. C. Humphrey, J. E. Robinson, Floyd Sell, D. A. Jones, Hope Haynes, W. R. Gay, W. H. Pittman, V. A. Brown, Artist Howard, Denzil H. Roberts, M. T. Elliott, Frank Kennedy, Trav Everett, Vick Kuenstler, John McMillan, R. P. Glenn, J. A. Gilstrap and hostess, Mrs. Kuenstler.

Luncheon for Peppy Partners

Miss Louise McNulty and Miss Maydell Barnett were joint hostesses at a luncheon for "The Peppy Partners" last Friday afternoon at the home of Maydell Barnett. The club assembled at 5:30 and were entertained until 6:30. The theme of the evening's entertainment being furnished by our hostesses, Miss Barnett and Miss McNulty in a vivid portrayal of the advancement of dance routines dating from the dawn of 1934.

A patriotic feeling toward our team and a fantastic spirit toward our evening football game necessitated our calling our meeting short to some extent, and for this reason officers were not elected.

The purposes of this club are many, but the paramount purpose is to "pep" and "rally" all our football games for this year.

Those who have formed the club for this purpose and who were present at the luncheon are as follows: Alberta Orr, Annie Barnett, Lorene Wright, Louise Roberts, Naomi Barnett, Maurine Moser, Marjorie Wright, and our hostesses, Maydell Barnett and Louise McNulty. We were also delighted to have as our guest, Miss Christine Tucker.

Birthday Party.

A surprise birthday party honoring Miss Maurine Norton was given Friday night Sept. 28th by her mother in the home of Mr. and Mrs. W. C. Norton.

After a number of games refreshments of ice cream and cake were served by Josselet home demonstration club members. Approximately fifty guests were present.

High Officers of Presbyterian Order

Here are the three high officials who head the Women's Auxiliary of the Southern Presbyterian Church, Texas Synod, who were elected at the annual meeting of the Synodical at Westminister encampment, Kerrville, Texas. From left is Mrs. L. L. Mahan, Houston, vice-president; Mrs. T. M. Cunningham, Fort Worth, president; Miss Lila Brown, Cuero, secretary. (Texas News Photos.)

Methodist Missionary Society.

On October 1st the Women's Missionary Society met in one of the most enjoyable meetings of the year. Promptly at 3 o'clock, the president, Mrs. O. E. Patterson, called the meeting to order. With Mrs. J. C. Montgomery at the piano, all joined in singing "A Charge to Keep I Have". After the song the president led in a responsive reading.

As a devotional Mrs. Patterson read an article entitled "The Mystery of Prayer." Mrs. Sowell offered a prayer. Most of the officers were present and gave good reports. Mrs. Lewis, chairman of the Rummage Sale committee, reported that the sale held on last Saturday exceeded all expectations. At the urgent request of a great number of people the sale will be continued on next Saturday at the same place. Every Methodist family in the community is urged to gather up all articles, not needed in the home, and bring them to the Alexander building on the south side of the square. You will be not only helping your church, but aiding many worthy people—perhaps helping some intelligent boy or girl to continue in school. After the business session, Mrs. Rike, teacher for the Montgomery, took charge. With Mrs. Montgomery at the piano, "I Love Thy Kingdom, Lord" was sung. Mrs. Rike told of the Oriental Woman and Her Religion. We learned that the women of the Orient have three religions, Hindu, Mohammedans and Confucianism. The Hindu's or women of India, are more devout in their religion, than the women in either China or Japan and are very independent in interpreting their own religion. In India, child marriage and Purdah, or the wearing of the veil, are the greatest hinderances to Christianity. In China there is a trend against organized churches and Christianity takes more the form of Social Service work. The women of Japan are leaning toward Communism and have recently sent a delegation to Russia to study the effect of Communism on the women of that country. Ignorance prevails among the rural women of the Orient, as only one in 600 succeed in obtaining a grade school education. In China there is a proverb that reads "A clean village and an educated woman, the Alpha and Omega of rural progress."

This lesson was intensely interesting and was taught as only Mrs. Rike can teach. There was a large crowd present, the Mary Alexander Circle meeting with us. When we see and listen to these young women, we have no fear of lack of leadership in the future. The women's affairs of the church will be in capable hands. We meet again on next Monday afternoon at 3 p. m. All are urged to be present.

Helen Bagby Circle.

The Helen Bagby Circle met Monday afternoon in the home of Mrs. J. M. Diggs in a Royal Service program.

Opening song, "Somebody Else Needs a Blessing."

Prayer by Mrs. Norton. Mrs. Whatley led the devotional by reading the 15th chapter of Luke.

Prayer by Mrs. Paxton. In the absence of our leader, Mrs. Taylor, Mrs. K. D. Simmons presided during a short business session.

Our Mission Study chairman, Mrs. Whatley, conducted our Royal Service program. Mrs. Cates, Mrs. Pierson, Mrs. Whatley and Mrs. Paxton all gave interesting parts on the program.

The hostess served refreshments of cake and punch to twelve members. We were dismissed by sentence prayers for our work and special prayer for our leader for her daughter who is in a hospital for a serious operation.

Contract Bridge Club.

Mrs. Roy A. Sanders was hostess to members of the Contract Bridge Club Tuesday afternoon at her home. The usual games of Contract bridge were played, after which Mrs. Virgil Reynolds was presented with high score prize for the afternoon. Mrs. Sanders served a delicious salad plate with an iced drink to Mesdames Bert Welsh, Virgil Reynolds, B. C. Chapman, Clay Smith, French Robertson, W. G. Forgy, Barton Welsh and Foster Davis.

T. E. L. Class Hold Business Meeting.

Members of the T. E. L. Class of the Baptist Sunday School held their regular monthly business and social meeting in the home of Mrs. K. D. Simmons on Tuesday afternoon. 211 joined in the opening song, "So Sweet To Trust In Jesus" which was followed by the devotional reading from the first chapter of 2 Sam.

The theme of the discussion, as taken from the scripture reading was "Where dwellest thou as a christian. The thought was stressed that each should so live that if the question is asked by Christ, we might readily say, "Come and see."

Good yearly reports were given by each officer and the group captains present. Each new officer seemed enthusiastic over the coming year's work and plans were discussed whereby we might enlist others in the work.

Mrs. Conner conducted a clever alphabetical Bible contest, after which an attractive plate of sandwiches, ice tea and potato chips were served the following: Mesdames O. E. Oates, Watson, J. E. Walling, Al Cousins, John Lankin, Aiken, J. A. Castle, Cate, J. A. Bailey, R. J. Paxton, Everett, George Herren, C. M. Conner, R. E. Dehard, B. M. Whiteker, Miss Ida Crawford and the hostess. Bowls and vases of lovely zinnias and other fall flowers proved an incentive to the enjoyment of the afternoon.

Honored With Birthday Party.

Lorene Wright, Howard Wright, Velma Frierson and Cleo Burson were entertained on their birthday Saturday night Sept. 29, at the home of Mr. and Mrs. C. G. Burson.

A large bonfire furnished light for outdoor games, and marshmallows and weiners were roasted. Several games were then enjoyed in the living room, after which the honor guests were present with a lovely birthday cake by Mr. and Mrs. J. L. Wright. The guests were then served with ice cream and cake.

Those enjoying this delightful occasion were Lucille Akins, Mollie Hester, Alice Frierson, Willie Belle Frierson, Maxine Quattlebaum, Marjorie Wright, Leta Burson, Robbie Joe Burson, Lorene Wright, Velma Frierson, Cleo Burson, Jessie Tucker, Calvin Frierson, C. G. Burson, Jr., Orval Lee Gannaway, Bernice Tucker, Buford Gholson, Clovis Norman, Mont Frierson, Gerald Parsons, Howard Wright, Fred Abbott and Mr. and Mrs. C. C. Childress, Mrs. Felix Frierson, Mr. and Mrs. J. L. Wright and Mr. and Mrs. C. G. Burson.

Mr. and Mrs. Carl Mapes had as their guest Sunday their children, Mr. and Mrs. Fred Owen and Mr. and Mrs. Lewis Christie of Wichita Falls and Mrs. Avis Mapes and daughter of Munday.

Milam Diggs, Jr. left Sunday for Lubbock where he entered Texas Tech as a freshman.

Sophomore Class Organizes and Elects Officers.

The Sophomore Class of Haskell High School held a meeting Tuesday for the purpose of electing officers. The elected officers were: President, Janice Tate; vice-president, Winnie Darnell; secretary, Ruth Woodson; treasurer, Corene Laird, and reporter, Albert Barnett. The following students were appointed on the social committee: Catherine Wair, T. J. Watson, Helen Mabel Baldwin, and Elsie Gholson. These officers, with the help of the class will work hard this year to have a better class spirit and many enjoyable socials. Our sponsor is Mrs. Young.

Cottonwood H. D. Club.

The Cottonwood H. D. Club met Wednesday afternoon in the home of Mrs. J. L. Wright with nine members present. We had an interesting program on chicken canning. Refreshments of cake and cocoa were served by Mrs. Wright to Mrs. J. O. Merchant, L. D. Holcomb, S. E. Biedson, D. P. Nicholson, Gus Crum, C. H. Overman.

The club will meet with Mrs. L. D. Holcomb Wednesday, Oct. 10th. Everybody is invited to be present, with something for the Fair.

The munition industry's slogan seems to be "Let's you and him fight."

Half Moon H. D. Club.

The Half Moon Club met at Mrs. J. M. Davis Thursday Sept. 27. An all day meeting was observed. They cannot chicken and make tamales. Members present were Mesdames, F. L. Mullins, Y. Goodwin, William Veck, Dan and Misses Willie John Field, Beryl Viney, Mary Belle Edwards. One visitor was present, Mrs. C. Gordon. The next meeting will be at Mrs. Earl Daniels on Oct. 11.

Rev. C. A. Tucker, Mrs. H. Wilson and Mrs. Hanes of Stamford attended an all day meeting of Ladies Auxiliary representing District 1 and 2 at Roscoe Tuesday this week. They were accompanied by Sweetwater by Mrs. Ketter Thornton, who visited her mother for the day.

Helps Babies Rest Ends Colic Pains Aids Digestion

When your baby tosses about, cries in pain and cannot sleep, why not get a dose of McGee's Baby Elixir. It cures colic, indigestion, acid, ends gas cramps, soothes colic pains and then helps them sleep cheerfully again. They sleep better, McGee's Baby Elixir is made of the purest medicinal extracts and is sweet. It cannot harm. You will find that it is a simple, safe, and reliable relief promptly. Two sizes: 35c, 60c, 1.00.

To help you AVOID COLDS VICKS VA-TRO-NOL*

Quick!—At that first nasal irritation, snuffle or sneeze—just a few drops of Va-tro-nol. It stimulates the functions provided by Nature—in the nose—to prevent colds and to throw off colds in their early stages.

Where irritation has led to a clogged-up nose (a stuffy head cold or nasal catarrh) Va-tro-nol penetrates deep into the nasal passages—reduces swollen membranes—clears away clogging mucus—brings comforting relief.

Va-tro-nol is powerful, yet absolutely safe—for both children and adults. It has been clinically tested by physicians—and proved in everyday home use by millions.

*** Note—for your protection:** The remarkable success of Vicks drops—for nose and throat—has brought scores of imitations. The trade-mark Va-tro-nol is your protection in getting this exclusive Vicks formula. Always ask for Vicks Va-tro-nol.

FREE—a combination trial package of Va-tro-nol—its companion product, Vicks VapoRub (modern external treatment for colds)—and other medication used in Vicks Plan for Better Control of Colds—with directions for following the Plan. Get yours today at your druggist's. Or write Vicks, 2501 Milton St., Greensboro, N. C., enclosing 3c stamp.

Now in two generous sizes 30c-50c

Furs May Be Flat or Fluffy—But They Are Always Very Flattering

Fashion is a fickle lady, availing herself constantly of the feminine privilege of changing her mind—and therein, of course, lies much of her charm. Last year nothing would suit her except for us to wear coats with wide T-square shoulders that gave the most demure a mannish, military air. This year she has turned feminine again—and most of us are delighted with the change. The new coats show their new influence in their slender lines and natural, rounded shoulder effects. Sleeves are frequently of the raglan type, armholes are decidedly deeper, all helping to produce a slim, graceful silhouette.

When it comes to describing the new coat types they can be briefly listed as The Bell, the Box and the Belted. The "Bell" silhouette is slim in outline, slightly nipped in at the waist to give a slim fitted effect. Loose full sleeves, fitting tightly at the wrists, frequently emphasize this bell silhouette.

Then there is the belted type, also slender in line, with dashing belts continuing slender waists. Coats have all been beltless for so many seasons that this belted treatment offers a refreshing change.

The "Box" silhouette is really that tried and true friend the swag coat, which is often seen in collection of tweed sport coats, swag fur coats or in the new groups of Fall suits. With three such flattering silhouettes from which to choose, it becomes an easy task to find a becoming coat among the new styles.

Diversity of Fur Collars

When it comes to furs, equally pleasing variety prevails. In the first place there are so many beautiful furs from which to choose. For those who want truly luxurious fashions there are regal collars of Silver Fox, most flattering of furs. Dyed blue Fox and Kit Fox are also frequently used. Other flattering long-haired furs are Badger and Lynx, which contrast so effectively with dark coats. Persian Lamb is again an important fur, adding its note of elegance to the black coats which are so important in every collection. Squirrel, frequently dyed in the lovely sable shade, is popular—so are Beaver, Fitch, Kolinsky and Mink—to say nothing of the many less expensive furs such as Lapin, which are dyed to simulate these luxurious pelts.

Whether your preference runs to flat furs or to long-haired ones, the new coats will meet your requirements.

here, too, one may choose among many becoming types. One of the favorites is the fur collar that is ruffled or pleated, standing out at the sides in a queenly manner so as to suggest a high ruff. Then there are effective shawl collars, ascot scarf types, and intricate arrangements of fox furs that suggest fur capes. Many collars are of the convertible type, so that they may be worn high or low or fastened in various smart effects to suit your mood and the weather.

The smartness of the flat furs leads to many interesting treatments. Sometimes they are used to create yokes or bands across the shoulders, sometimes they create collars that extend into luxurious fur panels reaching from shoulder to hem. All these flat furs give a sleek molded-to-the-figure look that is as slenderizing as it is smart. Such furs as Beaver, Caracul, dyed Lapin, Nutria are most effective when used in this manner.

Sleeves Are Wrist Conscious
The dropped armholes lead inevitably to fuller sleeves, frequently with interest centered at wrists. This treatment is endorsed by two leading couturiers, Mainbocher and Vionnet, who sponsor many beautiful coats that are "wrist conscious." Sometimes the sleeves taper to a slim wrist, giving plenty of elbow room—sometimes the fullness is shirred into a cuff of fur or fabric or gathered slightly towards the wrist. Just another evidence of the softer, more feminine mood of these new fashions.

Black a Leading Color
"I like any color as long as it's black" is the attitude many women take in selecting a Winter coat—and certainly no color is more practical or slenderizing for Winter wear. This year it continues to be the leading color, effectively combined with matching or contrasting furs. Next to it in importance is brown, always appropriate for Fall or Winter wear. Those who demand something different need not be disappointed, however, for the 1934-35 color card includes many beautiful shades of wine and rust, as well as deep greens. For the woman who looks her best in blue, there are a number of coats developed in dark tones of this lovely color.

Won Contest in Sleep
BRADFORD, N. H.—Although sound asleep when judges and doctors examined him, seven-months old James Wright won over 300 other contestants in a baby contest here.

SMASHES SOFA-SITTING RECORD. Augustus Cheeks and Mary Kot, who passed their 76th continuous hour of parlor-sitting at the Kot home, 1234567890 Restful Avenue. "I attribute it all to the fact that Augustus has told me all about the fine insurance policies Emory Menefee handles," said Mary. "He has persuaded pa to see Emory, and Augustus has policies, so I fell for him, cumb as he is."

Lovers of Poultry Urged to Exhibit Birds During Fair

By this time everybody probably knows that the Central West Texas Fair begins in Haskell on October 15, but perhaps not everyone knows that the poultry department is one of the chief attractions each year, and that this year, we want to make it bigger and better than in any previous year.

This can be done by the lovers of poultry in Haskell and surrounding counties bringing their birds to the fair. You do not need to be a poultry fancier to enter your birds. Go out and look your flock over and pick out a few of your best specimens and bring them along.

Remember when you boost the poultry business, you are boosting a big business. It is a business that practically every one is interested in. Around almost every home you will find chickens. The average egg yield each year in the United States is above six hundred million dollars. It only cost three hundred and fifty million dollars to build the Panama canal. Enough eggs are sold each year in our country to build two such projects.

You may think you will not have a chance to win. It will make little difference whether we get the ribbons or not, the thing we want to do is to boost the fair. We have many coops and can secure more if necessary, so let's see that there are birds in every coop. Bring your regular poultry, bantams, turkeys, rabbits and anything else around the place the people would enjoy seeing.

There are no requirements about preparing the fowls for the show, but it would add a lot to the beauty of the show if we will take a little time and prepare the looks of our specimens. This can be done by washing the feet and heads using plenty of soap. You should be careful not to get the soap on the feathers. It would be fine and add a lot to the show if you would wash your white birds. You do not have much to do and this is wonderful pastime. It is a very little trouble and any one can do it. Take a tub of lukewarm water and plenty of ivory soap and wash your birds thoroughly. Rinse the specimens through two or three waters. If you leave any soap in the feathers it will cause them to curl. If you will wash your white birds and do a good job of it, there will be no regrets for you will improve them more than you can imagine and you will win at the show.

Again we ask you to join us in making this department the best and largest of any year in our history.

Phi Delta Theta is the largest national college fraternity.

'Do's and Don'ts' In Baking Cakes

DENTON, Texas.—There are certain do's and don'ts, the observance of which makes for greater success in cake making. Cream the fat and sugar well together. The real problem in cake making is to get the ingredients finely divided and thoroughly combined.

Sift the baking powder, salt, and flour very thoroughly. More thoroughly incorporated baking powder means more even textured cake. If the beaten egg white is to be folded in last, be sure that it is well mixed through the batter. When left in lumps, it destroys the even texture of the cake.

When adding raisins, nuts, or dried fruit have them dry on the surface and well dredged with flour to prevent bunching and sinking to the bottom.

Melted chocolate is best added directly to the fat and sugar—it helps in the creaming process and is more evenly distributed through the batter.

Breakfast: Corn flakes, sliced bananas with top milk, poached eggs on toast, coffee, milk.

Luncheon: Spaghetti with tomato sauce, Waldorf salad, brown bread sandwiches, cocoa, sand tarts.

Dinner: Stuffed beef heart, glazed sweet potatoes, cold slaw, tapioca cream, plain cake.

Breakfast: Sliced oranges scrambled eggs and bacon toast, coffee, milk.

Luncheon: Lima beans in casserole, plain muffins, grapefruit and celery salad, milk.

Dinner: Broiled halibut, French fried potatoes, creamed peas, yeast rolls, tomato salad, fruit ice, chocolate cake.

Plain Cake
1 1/2 cup butter, 1 cup sugar, 2 eggs, 1/2 teaspoon vanilla, 1 3/4 cups pastry flour, 2 1/2 teaspoons baking powder, 1/4 teaspoon salt, 2 3/4 cups milk. Cream the fat and sugar thoroughly. Stir in the beaten egg yolks. Add alternately the milk and the flour previously sifted with baking powder and salt. Fold in thoroughly the stiffly beaten egg whites. Pour into well greased tins and bake in a hot oven (375 degrees F.).

Chocolate Cake
2 ounces bitter chocolate, 1 1/2 cup butter, 1 cup sugar, 1 1/2 teaspoon salt, 3/4 cups milk, 2 eggs, 1 1/3 cups flour, 2 teaspoons baking powder, 1/2 teaspoon vanilla. Cream together the butter, sugar, and melted chocolate. Stir in the beaten egg yolks. Add the milk alternately with the flour, salt, and baking powder sifted together. Fold in thoroughly the stiffly beaten egg whites. Bake in two layers or in a moderately hot oven. (375 degrees).

Sand Tarts
1 cup butter, 3 tablespoons powdered sugar (rounding), 1 cup of ground nuts, 1 teaspoon vanilla, 2 cups flour. Mix into a stiff dough using the cake method. Shape into crescent and bake on an ungreased sheet for 40 minutes in a 300 degree oven. Do not brown, just dry the tarts out. Sift powdered sugar over them.

News has been received here of the arrival of a baby girl on Sunday Sept. 23 in the home of Mr. and Mrs. Dewitt Yost of Fort Worth. Mrs. Yost will be remembered here as Miss Thelma Pearl Chitwood.

Indians Eke Out Win Over Bobcats

Surprising the Haskell Indians with their ability to take advantage of situations when they were presented, the Rule Bobcats held the local high school squad to a score of 19 to 0 here Friday night at Rice Springs Park. Pre-game dope led many fans to think the score would be higher.

Numerous fumbles cost Haskell scores. The Rule team put up a stubborn defense throughout the game.

A European manufacturer is making paper from the refuse ends of asparagus.

Hallow'en Party.

Monday night, October 1, the Presbyterian girls were hostesses for the inter-denominational social held monthly among the girls of Haskell. The Hallow'en scheme was carried out throughout the party. After a brief introductory talk, Betty Ann Hancock introduced the following members on the program:

Mary Lena Tubbs, a group of popular pieces.

Mrs. Guy Mays, a reading entitled "Smiles."

Ollie Frazier, solo, "I'll String Along With You," "All I Do Is Dream of You."

Anna Bell Stanton, piano number, "St. Louis Blues," "The Waltz You Saved For Me."

There was much laughter during the mock trial in which Doris Cassie was tried for murdering Lily Faye Stoker. Mrs. Cretia Brooks as judge had a time keeping order in the courtroom. Mrs. T. R. Odell acted as prosecuting attorney and Betty Ann Hancock defended the murderess. With several reliable witnesses for both sides, Mrs. Guy Mays, Eva Squyres, Ruby Mae Grindstaff, Polly Frierson, Mary Alma Sprowls, and many others, the able lawyers had quite a task in convincing the intelligent group of jurors whether the murderess was guilty or innocent.

The verdict rendered by the jury pleased all however, when Miss Cassie was required to give several readings and sing "Shine On Harvest Moon."

Then the girls went through a very spooky barn, where ghosts and witches dwelt and came back to enjoy a piece of pumpkin nut pie topped with whipped cream, and hot coffee. The following members reported a jolly time.

Lily Faye Stoker, Doris Cassie, Frances Walling, Wilda Phippen, Odell Williamson, Ollie Frazier, Ola Frazier, Esther Johnson, Gladys Fouts, Helen Ballard, Anna Belle Stanton, Winnie Darnell, Norma Anderson, Ruby Mae Grindstaff, Ouida Holmeslev, Eudora Bradley, Alberta Orr, Elsie Bradley, Grace Cearley, Mrs. Cretia Brooks, Mrs. Elizabeth Whately, Mrs. Guy Mays, Ola Belle Kennedy, Allene Wood, Mrs. L. Z. Whately, Janie Lyle Martin, Muriel Orr, Frances Fouts, Elsie Gholson, Hazel Wilson, Mary Sue Hester, Mollie Hester, Velma Frierson, Luia Ketron, Faye Cooper, Louise Turner, Kate Darnell, Mattie Muriel Felker, Carrie Williams, Mary Pearsey, Pauline Frierson, Mrs. T. R. Odell, Maxine Quattlebaum, Betty Jo Clanton, Ethel Lou Clanton, Mary Lena Tubbs, Jessie Vick, Mrs. Orion W. Carter, Mary Alma Sprowls, Dr. Josephine Morrison, Dixie Orr, Alice Frierson, Eva Dell Squyres, Betty Ann Hancock.

To Members of Knox-Haskell County Burial Association:
I take this method of thanking each member of this organization who made possible the assistance rendered me through my dear mother's membership at the time of her death.
The help this Association gives can not be fully realized until it is needed.
In less than twenty-four hours after I had turned the policy in, the check was delivered to me. This promptness was appreciated.
Sincerely,
Mrs. Lee Norman.

Jay Trial—

(Continued from First Page)
previously been convicted of a felony. Tatum was represented by former county attorney French M. Robertson, appointed by the court. Jury in the trial of L. L. King, charged with possession of liquor for the purpose of sale, returned a verdict of guilty, carrying a 1-year penitentiary sentence. King, a resident of Haskell, entered a plea of guilty and was not represented by counsel.

Fourth criminal case disposed of Monday, that of the State vs. Paul Blair, charged with possession of a still and manufacture of intoxicating liquor, resulted in a verdict of not guilty. Blair, a resident of Vernon, was arrested in a raid made by Constable Bill Davis of Rochester, on a farm near that city in May of this year, at which time Davis testified he confiscated a still and several barrels of mash, arresting the defendant and three others at the time. Evidence introduced at the trial disclosed that the still equipment later disappeared from where it had been stored by the Rochester officers. Several witnesses from Vernon, including Sheriff Linton of Wilbarger county, were placed on the stand by defense attorney F. M. Robertson.

Amendments—

(Continued from First Page)
reduced to contain less than 900 square miles unless both the new and remaining counties have a population of 50,000 or more. In border counties the 900 square miles may be varied if it is impractical. It will be possible to make city and county boundaries coincide under the amendment on counties. The provision on small counties with not less than 50,000 population permits this.

Abolition of fees for district and county officers has with it an accompanying amendment which gives county commissioners' courts powers to fix fees of county-wide or precinct officers and to combine offices within the county. The three foregoing amendments are all part of a plan to reduce the cost of local government.

Western counties will continue to receive taxes on the vast tracts of University of Texas lands under another of the proposed amendments. A former amendment made them taxable. The new one provides that the taxes shall be paid by direct state appropriation. The university land once was tax exempt. Counties and school districts complained that the large areas of the tax free land not only prevented ample provision for schools and other facilities but blocked issuance of bonds for such purposes.

Municipalities are especially interested in two proposals that will be voted upon. One makes it possible to have three or four year city terms of office, instead of two years; the other permits charter cities to amend their charters annually instead of biennially.

Mr. and Mrs. T. J. Arbuckle and daughter Sara Beth and Mr. and Mrs. R. L. Lemmon and daughter Marcia spent Sunday in Tuscola in the home of Mr. and Mrs. M. J. Jenkins and family. They were accompanied home by T. J. Lemmon.

John Ruskin went to the British museum and looked at the penguin exhibit whenever he felt downhearted; this exhibit always made him laugh.

CCC Juniors To Be Chosen Soon

AUSTIN, Texas. — Plans for selecting 2938 junior members of the Civilian Conservation Corps in Texas between October 1 and 13 were being completed today as Neal E. Givens, enrollment supervisor for the Texas Relief Commission, issued instructions to the county administrators over the state who will actually pick the candidates.

Of the nearly 3,000 selected, it is expected that about half of them will go to camps outside the state in Oklahoma, New Mexico or Colorado. The remainder likely will be absorbed by camps in Texas.

As in past enrollments, unmarried men between the ages of 18 and 27 who are American citizens and who have dependents to whom they are willing to make a substantial financial contribution are eligible. They are to be taken from relief rolls or from families on relief rolls.

No two boys from the same family are eligible.

Men with criminal records are not eligible and neither are those with any history of mental derangement. A person previously discharged for any reason is not eligible to reenter a camp.

Each man will receive \$30 per month, between \$22 and \$25 of which must be allotted to his dependents. Although the applicant agrees to enroll in the government service for six months, if unusual circumstances arise, he may be released from his contract and discharged.

Administrators were urged particularly to select men able to perform ordinary labor without injury to themselves. Strict observance of the minimum age limit also was advised.

Corn-Hog—

(Continued from First Page)
somewhat larger for corn and materially less for hogs than under the program this year, adjustment of fields say:

1. Do you favor an adjustment program dealing with corn and hogs in 1935?

2. Do you favor a one-contract-per-farm adjustment program dealing with grains and livestock to become effective in 1936?

Note on Question 1: This question relates to the principle of production adjustment and does not involve an expression of opinion concerning any specific program. In any program dealing with corn and hogs in 1935, benefit payments would not be the same as they were in 1934. 1935 benefits would probably be somewhat larger for corn and materially less for hogs than were paid under the 1934 contract. A 1935 program would probably follow the general plan of the 1934 program and would include benefit payments on both commodities. Contracted acres could be used for any hay, pasture, forage, fallow or woodlot purpose without restriction. Basic crops would not be produced upon contracted acres. The percentage of adjustment from the 1932-33 base production would not be greater than that required in the 1934 program and may be less.

Note on Question 2: It has been frequently suggested that a program be developed which will bring all grains under one contract. Such a program would involve the six grain crops named as "basic" in the Agricultural Adjustment Act, that is, wheat, barley, rye, corn, grain sorghums and flax. It would represent a shift from several single-crop contracts to a broad program of developing better systems of farming through less intensive use of land, conservation of soil resources, and use of the land for production of those crops for which it is best adapted. A one-contract-per-farm program could provide the desired degree of control over the combined acreage of the several crops involved and yet be flexible enough to permit as much freedom of action on the part of cooperating farmers as is consistent with the objective of maintaining the proper balance between production and effective demand. A one-contract-per-farm program would be financed by processing taxes on grains and livestock and might or might not include the direct control of livestock. There is not time to develop this kind of a program for presentation to producers this fall, but it has been suggested that such a program be developed for 1936 and after.

Conference—

(Continued from First Page)
and team that lost eight regular players as Rotan did, cannot be expected to furnish the toughest opposition at the start of the season.

Coach Shelby Jones has 13 lettermen back this year, but the cream of the crop was lost. Twenty-eight boys came out for practice, with a few men looking good.

As Jones sees it, Rotan will use the P. P. P. system this year—a punt, a pass and a prayer.

Snyder
Coach W. W. Hill answers that Snyder's prospects are "not so good" but he'll have a hard time making Haskell believe it, because it isn't often that Snyder fails to place a fighting collection on the gridiron.

Only five lettermen are back for Snyder's football team, with four out of the five in the backfield. The "five" is a lineup.

At last thirty men answered Hill's call as the "three" left and approximately sixteen answered Snyder's.

Snyder's football representatives will average around 150 pounds.

No soft spot was picked by Snyder for the first game. Lamesa was tackled and held to a 7-6 score, which doesn't bode any good for other District 10 teams.

Roscoe

Coach D. E. Hill, of Roscoe, may think his team's prospects look bad, but it wasn't in evidence Friday when the highly-touted Colorado was dumped.

Eight lettermen (two regulars) out of twenty-one reported to Hill for practice. Five of those are sophomores. Thirty-one men were suited up and out of the collection, three are seniors and the remainder are sophomores and freshmen. The juniors are conspicuous by their absence.

Roscoe's first eleven may average around 150 pounds, but the entire squad will only tip the beam at an average of about 125 pounds.

Hamlin

Coach Roy Morris had his work cut out for him at the start of the season, with only five lettermen returning in the persons of J. C. Turner and Kyle Watts, backs; Jack Holt, Wynell Cox and W. L. Boyd, linemen, but several of his new charges are showing up well.

Incidentally just to complicate matters, three of Hamlin's lettermen left school to find work—and thereby made more work for Morris.

New men will have to bear the brunt of Hamlin's football toll this season, but to date, Rochester is beaten 41 to 0 Friday, which may or may not prove that the new men are fast coming into action.

Stamford

Stamford walloped Rotan 19 to 6 Friday, which indicates to football fans throughout the district that the Jones county entry will have to be reckoned with.

Similar views were expressed emphatically at the Haskell-Rule game Friday night by a Stamford player, who openly declared that "Jack Kimbrough had better not pull that stuff on Stamford because he'll get smeared in a hurry." The Stamford player was informed by a Haskell fan that an opportunity would arrive in due course of time.

Past games between Haskell and Stamford have been bitterly fought, and the 1934 season will not be an exception it is thought. Both teams, whether in the ruck or on top of the conference standing, have risen to supreme heights when facing each other.

Roby

Haskell's opponent Friday. The team that plastered a greater defeat on Colorado than Roscoe accomplished. The team that is hoped to be among the best in the conference. And the team that will furnish Haskell a true test.

Haskell

Prospects "not so good" if many games are played similar to the one here Friday night against Rule, although 14 lettermen are back. Around 30 reported for duty. Haskell will average around 150 pounds.

Haskell, with Bill Richey coaching, has such a wealth of material for a play when actually Adkins was the man at work. Of a necessity substitutions have been frequent in the two games played in order that Richey could get a line of every man's play under fire.

The Indians will go places if more team-play can be developed.

Mr. and Mrs. T. P. Blauvelt of Olympia, Washington, are here visiting the latter's sister, Mr. and Mrs. N. I. McCollum and family.

CHURCHES

FIRST PRESBYTERIAN CHURCH

A special program will be given at the opening of Sunday School at 9:45 Sunday morning. The smaller children will present some of the work that they have been doing in their departments. Others will tell how new Sunday Schools have been started and helped by the department of S. S. Extension, and show how we can have a share in frontier work among twelve million children and sixteen million adults in the South who are out of Sunday School. The offering will be sent to the department of S. S. Extension.

This Sunday is designated by the Presbyterian Church as Rally Day, but the S. S. of the district through its organization with the Sunday school of the area in a month's program of rallying. The climax of this united effort is to be the first Sunday of November. All church members should rally to the support of this effort at once, rather than allow much valuable time and effort to be spent in getting them to do their duty.

The subject for the 11 o'clock service will be "The Teaching Ministry of the Church." Following the sermon the Lord's Supper will be administered to all Christians present.

A cordial welcome awaits you at all of our services.

"The Teaching Church."
C. A. Tucker, Pastor.

FIRST CHRISTIAN CHURCH

Wm. P. Harbridge, Minister

9:45. Preparations are complete for the New Year that begins in our church school this Sunday, and many new teachers have been added to take care of extra classes. So all pupils are urged to be present and on time that the work might begin with this first Sunday. If you are not attending any church school we invite you to the First Christian. Dennis P. Ratliff, supt.

11:00. Morning Worship, Sermon and Communion. Sermon subject: "Leaving the First Love." Text: Rev. 2:4. "But I have this against thee, that you did not leave thy first love."

6:30 Junior and Intermediate Endeavor. Mr. Billie Cooper, president.

7:30 Evening Worship and Sermon. Sermon subject: "Salvation unto Righteousness." Scripture lesson: Roman 10:1-15.

THE CHURCH OF CHRIST

A. F. Thurman, Minister

9:45 a. m. Bible Study and Class Work.

11 a. m. Sermon on "Unity."

6:45 p. m. Young People's Meeting.

7:30 p. m. Sermon on "Persecution."

Monday 3 p. m. Ladies Bible Study.

Wednesday 7:30 p. m. Prayer Meeting.

"Come! We are always glad to have you with us. Come."

FIRST METHODIST CHURCH

Orion W. Carter, pastor.

Each Sunday with one exception for the past two months has found just a few more in attendance at the Sunday School than the preceding Sunday. You will find a hearty reception waiting you Sunday morning at 9:45.

The Morning Worship will be at 11 a. m. The pastor will preach on the subject "The Faith of Yesterday."

The evening services will begin with the young people in the Epworth Leagues at 6:30. The Evening

Worship will be from 7:30 to 8:30. A good Sing Song will precede the sermon. Pastor's subject: "Twenty Three Miles to the Galilee"

ST. PAUL'S LUTHERAN CHURCH

A. H. Muehlrad, pastor
Sagerton, Texas

Sunday services:
Sunday School and Bible Class will have their Annual Mission Rally Program, beginning 9:30 A. M.
Morning Services in the German language, 10:30 A. M.
Afternoon services in German at 1:30 P. M.
Night services at Sagerton in the

English language 8:00 P. M.

Since this is our annual Mission Rally Day all sermons shall deal especially with that subject.
Rev. R. C. Adkins of Wichita Falls shall deliver the sermons at all three services. The offering at these services shall be used for missions in Texas, India and New Guinea.

W. B. Alexander Is Appointed Seymour Postmaster Oct. 1

(Baylor County Banner)
W. B. Alexander received the good news yesterday of his appointment as postmaster at Seymour, and he will enter on his duties next Monday, Oct. 1.

The naming of a new postmaster here has been hanging fire for some time. The term of Lee W. Harris expired in April, and since that time W. L. Goodwin has been serving as acting postmaster.

The appointment of Mr. Alexander meets with the warm approval of a large portion of the community's citizenship. He has been a popular citizen ever since coming here from Haskell, and has proved himself a man willing to devote more than his share of time in helping to promote community welfare. He has served as Chamber of Commerce president and in many other positions of trust.

For several years Mr. Alexander was in the dry goods business, but of late has been devoting all of his time to the writing of insurance. It is confidently expected that he will make the same good success with his new occupation as with his previous activities.

Miss Bessie Whitmire has returned to her home after spending part of the summer traveling through southern and southwestern states. The greater part of her time was spent in New Orleans, although she visited with her sister, Mrs. W. B. Smith, in Fort Worth; her brother, R. E. Whitmire, in El Paso; and also visited at the Carlsbad Caverns.

Mr. and Mrs. S. D. Roberts were in Waco last Saturday to attend the Hotel Greeters of America Association.

THE LINDBERGH KIDNAPING

Just as the public was becoming resigned to the belief that the kidnaping and death of the Lindbergh baby probably would go into criminal annals as an unsolved mystery along with the kidnaping of Charlie Ross many years ago, announcement was made of the arrest of Bruno Richard Hauptmann, a German alien, as a suspect and the recovery of \$13,750 of the \$50,000 which 'Jafsie' Condon tossed over a cemetery wall in a fruitless attempt to buy back the Lindbergh child from his abductors.

Federal operatives and New Jersey police are confident that they have finally solved the Lindbergh case and it is sincerely hoped that the two and a half year old mystery is nearing definite and final solution. It is said that Hauptmann once worked as a carpenter in the lumberyard from which the lumber was stolen to make the ladder used by the kidnaper in reaching the second story nursery of the Lindbergh home, and that a physician treated Hauptmann for a sprained ankle about that time. These are considered important links in the chain of circumstantial evidence against the suspect since it was a theory at the time of the kidnaping that the broken ladder indicated that the kidnaper might have fallen in descending the ladder, killing the child in the fall.

If the arrest of Hauptmann clears up the Lindbergh kidnaping mystery it will add another brilliant chapter to the relentless campaign Federal and State authorities have waged against the "snatch" racket since the Lindbergh abduction. Out of the twelve major kidnapings since Charles Augustus Lindbergh, Jr., was spirited out of his crib on that blustery March night in 1932, only one remains unsolved. Only the abductors of six-year-old June Robles remain at liberty, and they too are almost certain to fall into the hands of the law. The history of the "snatch" racket during the last two and a half years shows that the kidnaper has only one chance in ten of escaping detection for more than a year, and solution of the Lindbergh case would furnish convincing proof that the kidnaper cannot hope to long elude the dragnet of the Department of Justice which is relentless in its search once it takes up the trail of a criminal.

THE BRIGHT BOY

We hear a great deal about the necessity for special attention to dull children and none will question the giving of every advantage to these unfortunates, but there are a lot of bright boys who need some thought and practical assistance too.

Education of the masses to a certain common level is to be desired, but unless the boy who shows exceptional talent can be given special opportunities to develop his latent powers, not only he, but the world at large will be the loser. Thousands of boys of mediocre ability go through college with little benefit to themselves or society, while other thousands richly endowed mentally are denied the privilege of higher education because of lack of means.

It is a real tragedy that any boy with exceptional talent for creative work, scientific research or leadership should lack the opportunity to make the most of his talents for it is upon such boys and their proper training that the progress of the world depends. The same is true of especially talented girls.

When civilization is a little more advanced, no doubt means will be provided to give exceptionally bright boys and girls every opportunity to develop their talents so that the world may benefit, but right now we give our attention to the mentally retarded boys and girls, while the bright ones are neglected.

BEWARE OF CARBON MONOXIDE

Deadly carbon monoxide soon will begin to exact its annual toll of life and with cool mornings already here, motorists should be on their guard against this poisonous gas. When the mornings are cool the motorist is tempted to warm up the motor inside the garage, forgetting the fact that the exhaust from an automobile is filled with this deadly gas. Other persons will go to bed with flueless gas stoves burning and windows closed—another very dangerous practice.

One reason why carbon monoxide is so treacherous is because it is colorless, odorless and tasteless, and unlike other poisonous gases it gives no warning of its presence. Early symptoms of monoxide poisoning are nausea and severe headache. When breathed, carbon monoxide forms a chemical compound with the hemoglobin of the blood, thus preventing the blood from carrying the oxygen necessary to life. Suffocation follows quickly. So deadly is carbon monoxide that exposure to a concentration of one per cent will cause death in a few minutes.

12 Cent COTTON LOANS

We are prepared to advance immediate cash on 12c Cotton Loans, according to Government specifications.

We can also transfer your 10c loans of last year to the new 12c contracts.

Sanders & Crawford

Alongside the famous "bonthead" plays of the past—when Merkle failed to touch second, and thereby lost the Giants a pennant; and when Snodgrass dropped a fly ball at a critical time—will go Terry's sneering reply to a newspaper man's question.

Where's Brooklyn?

It was early spring when Mr. Memphis Bill Terry, manager of the 1933 champion Giants, was asked his opinion of Stengel's team "Brooklyn?" jeered Mr. Terry, "oh, Brooklyn! Are they still in the National League?"

Saturday, those same Brooklyn bushers, with one Van Mungo chunking, smeared the haughty Giants 5 to 1, while the Dizzy Cardinals were winning from Cincinnati, 6 to 1, and the proud head of Bill Terry, who, during this season, could find no time to help youngsters learn to play the game like old Babe Ruth, was humbled—and, incidentally about \$2,500 at least—was automatically taken from each Giant player's pocket. On Sunday the Giants were again beaten. Poetic justice?

Who Will Win?

St. Louis, against Detroit! The Dean Brothers against Schoolboy Rowe. Former players of the Texas league. Color de luxe.

Before the first game, you'll hear nothing but comments on the Dean boys, Rowe, Cochrane and possibly something about the other pitchers, but there are other players on both teams that should come through.

Remember Pepper Martin? We do! We picked the Athletics to win—and that dang Pepper Martin swiped everything in sight. He played over his head, it is true, but it all counted—and the other fellow counted money which once belonged to us.

As for other players, keep your eyes on Greenberg, Goslin (who was again traded into a world series), Gehring, Fox, Crowder of the Tigers, and Medwick, Martin, Manager Frisch, Carlton of St. Louis.

St. Louis????

The Cardinals, we believe, will defeat Detroit in the series, but here's our reply to all you fellows with lose change: Don't pester us with bets—not over fifty cents anyway. We won't get a slice of the World Series change and who ever heard of a reporter making any money.

We picked the Giants over Washington last year—in print, because we believed the Terry crew was inspired. They were—and how well Washington found it out. This year, we believe it is the Cardinals that are waving the wand of magic just a mite more than the scrapping Detroit Tigers.

We believe Detroit would take the Giants, but not the Cardinals.

Claude Says Detroit

We know that Claude, the shine boy (?) says the Dean boys are overrated and that Detroit will win. And other Detroit well-wishers will point with pride to the feats the American Leaguers have accomplished this season, but our story is different!

When we read that Dizzy Dean has said "we'll take those bums," why we feel pretty safe, because our friend Jerome has scored almost 100 per cent in the predictions he has made anent his own ability and that of brother Paul. St. Louis will win, we say, and we'll stick to that until we hear the last out made, and have to hear the singsong voice of the radio announcer declare the Tigers are the new champions.

But we don't expect to hear any such announcement!

Texas Baptists To Raise \$4,639,087 General Expenses

Texas Baptists will undertake to raise \$4,639,087.40 for local church expenses, missions of all types, Baptist schools, hospitals and orphanage during the next convention year. This is approximately \$30,000 more than the 3,153 Baptist churches in the state raised last year. A campaign known as the Every Member Canvass movement has been launched to secure pledges covering the above mentioned budget. The plan of the Every Member Canvass in Texas is to first present the campaign educationally.

The entire month of September is devoted to organization setups and associational and district rallies. The first two weeks in October are to be given to the arranging of campaign workers. The latter part of October and the first ten days in November is the time for education, information and inspiration. The exact time to actually secure individual pledges from the 576,945 Baptists in the state is November 11th to December 9th.

Snake Becomes Fifty

AVON, Conn. — George Plude gave up collecting turtles to try his hand at snakes. The first one he caught, a 45-inch blacksnake, presented him with between 40 and 50 young its first night in captivity. George went back to collecting turtles.

Roosevelt After Food Profiteers.—Headline. Hope he gets that fellow who outfumbles us on the coffee check.

It is estimated that fires in the United States cost annually about 15,000 lives.

-CURRENT COMMENT-

THE PRESIDENT'S MESSAGE

The Nation-wide radio address of President Roosevelt was doubtless heard by many millions of citizens, eager to learn what the President had in mind in respect to future policies. Naturally, in a half-hour speech, he could not give much in detail but he gave rather definitely the general trend of the changing direction of the new deal, the full significance of which can best be obtained by the reading of his complete address.

He assumed that NRA is now in a second stage of development and that those activities which prove their worth will be recommended to Congress as a permanent part of governmental machinery. Business codes are to be revised and the question raised as to the wisdom of extending code requirements to small employers in the smaller communities.

In labor matters he proposes to confer with groups of the representatives of labor and ownership in the industries so as to secure if possible the "continuous peaceful operation of our essential enterprises." He hit at "reactionary lawyers" who raise the cry of unconstitutionality, quoting former Chief Justice White to the effect that the Constitution is not a barrier to progress but a broad highway through which true progress may be enjoyed. He ended by defining liberty not as the regimentation of the many by the privileged few but as a greater freedom and security for the average man.

Unquestionably the President's address is remarkable for its lucidity and for its compact style that enabled him to discuss so many matters in so short a time. His remarks were for the most part explanatory of past performances and future intentions. He seemed to avoid explanations of any consequence in reply to the six criticisms from the National Chamber of Commerce, thereby disappointing many who had hoped that he would express his views in respect to gold standardization, or the possibility of further inflation. Nor did he venture to comment on international problems of reciprocal agreements in trade relations. Too much, of course, should not be expected in a short address.

In general, the President has certainly strengthened his hold on public opinion, showing that he plans to go forward, not backward, avoiding the extreme of radicalism. His chief present interests are definitely in the re-organization of NRA and in labor disputes. If these can be satisfactorily adjusted, the rest will be comparatively simple.—Dallas Morning News.

POKER QUARTET AGES ARE NOW 340 YEARS

GREEN BAY, Wis.—Four cronies recently added up their ages and laid claim to the title of the "oldest poker playing quartet in the state." Their combined ages were 340 years, or an average of 85 years each.

The group has been meeting for nearly half a century. At first their

activities were confined to athletics but as the years crept upon them they moderated their exercise until at last card playing was the sole diversion.

The aged foursome is composed of August Straubel, 93, Carl Manthey, 83, Leo Findeisen, 82, and Fred Gehr, 82.

There are 800 different languages spoken in the world.

Politicians sow applause in the hope of harvesting plums.

Scientist returns to U. S. with 21 cases of snakes.—News item. Wonder if he will be able to straighten the poor men out?

An American was found wandering, lost and dazed, in a Colombian jungle. After this, maybe he won't ask directions of traffic cops.

Science is said to have discovered a metal that is claimed to be even rarer than radium. Silver has become rare enough with us.

Hitler says that Nazi policies have met with "unheard of" success. He's to modest; someone may have heard of it.

A news item tells of an Arkansas boy who is paying his way through college with fish worms. If he pays to much he'll probably get a re-bait.

Those clever psychologists have discovered that people who do wrong have something wrong with them.

We wish that clothing manufacturers would sew buttons on so they would stick like the size and price tags.

We read that a Georgia man lost his speech when he made his first airplane flight. He probably wishes now he had sent his wife up first.

An Ohio man, stricken with a strange talking sickness, babbles incessantly. Now a lot of men are

Think . . . Talk . . . Write TEXAS CENTENNIAL in 1936

"Think . . . Talk . . . Write Texas Centennial in 1936," because it's the hundredth anniversary of a State's march of freedom. The world is watching Texas with wonder at its stupendous undertaking.

The world does not doubt that Texans will make a great success of such endeavor. Texans have never failed.

"Remember the Alamo, Remember Goliad"; remember San Jacinto, remember the great wilderness that was Texas at one time . . . early Texans undertook to make a Nation from a wilderness and they succeeded!

In as short a time as one hundred years the prophecy of Thomas Jefferson, "The Province of Texas will be the richest State in our Union without exception," has become a reality!

Let us dedicate ourselves to the task of carrying it forward. Let us observe, let us challenge the best thought of future generations.

Texas Centennial Commission

Monthly Pains Relieved

Women who take CARDUI have found that severe monthly pains have been relieved and that by continued use of it for a reasonable length of time their strength has been renewed and their general health improved.

EYE STRAIN And It's Results

The eyes are not a supernatural part of the body at all. They are controlled by simple muscle action, the same as all other parts of your anatomy.

If you cannot read or do close work for eight or ten hours, and feel as rested physically every way as you did at the start, your eyes are out of focus and are functioning under a strain.

Most cases of hay fever are due to eye strain and can be relieved by properly fitted glasses. They are caused by sympathetic reflexes from the sore, irritated inductive muscles of the eye.

The following symptoms noticeable among school children are due directly to eye strain—these children are nervous, irritable, often bothered with styes, under weight, light eaters, often complain of eyes, head or stomach hurting, make low grades in their school work and some fail.

Therefore if your child brings home low grades from school or fails in his school work, don't blame the teacher or the child but go out somewhere and give yourself a good kicking.

BAPTIST LEADER FOR CENTENNIAL

Dr. L. R. Scarborough Thinks Celebration Will Touch All Sections of State

SEMINARY HILL, Tex.—A general readjustment, readaptation and recovery of all the interests of Texas as envisioned by Dr. L. R. Scarborough, President of the Southwestern Baptist Theological Seminary here as the anticipated direct result of the proposed observance of Texas' Centennial by San Antonio, Houston, Galveston, Brenham, Nacogdoches, Huntsville, Dallas and kindred cities, if such celebrations are staged upon a scale commensurate with their recognized importance.

Regarding the significance of the Centennial, Dr. Scarborough said: "My judgment is that it will revive interest in Texas on the part of its own citizens in the history, the resources, all the business, social, religious and industrial interests of our State, and it will advertise Texas far and wide and will call attention of the world to our great State. I think the broadest imagination could not bound the great benefits of the significance of this celebration."

"I think this Centennial will touch every nook and corner of the State and send a thrill of joy and enthusiasm out every way. I think everything in our State will be revalued and that the Centennial will help to effect not only a re-valuation but a readjustment and readaptation and recovery to all our interests. If it is put over on a big scale, in a generous broad-minded way and upon the lines of the right spirit, it will be one of the greatest things in the history of the State.

"Texas has the resources that need to be advertised and leadership need to be brought into our State and I think this Centennial will help along these and many other lines."

Killed For a Door Knob

UNIONTOWN, O.—A bulge in a big blacksnake puzzled Edward McClintock and Bert Long, so they killed the reptile. They found a white doorknob.

Bert Davis of Paso Robles, California was here over the week end visiting his parents, Mr. and Mrs. R. H. Davis and other relatives. Mr. Davis is the representative of the Goodyear Tire and Rubber Co. and is local distributor for the territory between Los Angeles and San Francisco. He was on his return home from a trip to the factory.

OTHER NEWSPAPERS

Slow Down—School Ahead

Under the above heading the Knox County Herald warns motorists that these signs along the highway should be heeded by the motoring public since thousands of children have again entered school and the danger signs should be rigidly observed.

No amount of mental anguish or remuneration can replace the life of a child or compensate for the permanent injury. Such accidents are almost invariably avoidable if the motorist exercises care, and those who refuse to observe these slow-down signs should be dealt with in a way that would cause them to have more regard for the safety of others. 99 per cent of the speeders aren't really going anywhere in a rush, but drive fast from force of habit, and in some instances there aren't a sufficient number of brain cells working.

There are instances where accidents seem unavoidable, but the percentage is very small. Most accidents can be avoided only by a little thoughtfulness on the part of the motorist. (Monday Times).

Gin Report

Thursday, September 27, at two o'clock the four gins of Knox City reported a total of 1798 bales, of which 1700 were from the present crop. The ginners reported 1225 to 1235.

Friday reported 286 bales. Local ginners estimate the present crop will bring in yet from 500 to 750 bales. (Knox County Herald).

A Great Exposition

The 1934 Tri-State Fair just closed at Amarillo was one of the greatest events in the history of the exposition and considering the difficulties of drought and financial stress was a most noteworthy achievement.

Already standing at the head of regional fairs in the Southwest, there is every reason to believe that under the splendid leadership furnished by Amarillo and this immediate territory, the Tri-State fair is destined to become one of the great fairs of the nation, and the greatest asset this section of the Southwest has within its borders.

May it continue to grow and prosper by the united support of all our people. (Clarendon News).

A Mystery Explained

There is one thing that often gets a country newspaper in "bad" with its readers—why some people's pictures appear in the paper while others do not.

To produce a picture of anyone a paper must be furnished with a cut. The cut is made from an original

photograph, but it has to be sent to an engraver (the closest one to Paducah is Fort Worth) where the picture is transferred to metal. These cuts are expensive and, in small places, must be paid for by the customer.

The Post has a number of cuts of people here who have furnished us with their cuts. We would be glad to have the cut of anyone who will furnish it to us. It will be placed away in a cabinet and given perfect care.—Paducah Post.

Anent A Marriage

Editor Chas. Bisbee of The Benjamin Post, up to now a bachelor, seems to have been visibly impressed by the marriage of The Banner's junior editor. In fact, The Post came out last week with an article on the front page, with scare head, telling of the wedding of the Seymour youth. The Benjamin editor pretends to wonder how the trick was turned, but we have an idea the gentleman may be slightly lacking in nerve, despite his bold editorial utterances. Just wait a little while, Charlie, and if the rash Seymour editor gets by with his stunt, go thou and do likewise.—Baylor County Banner.

When A Shoe Fits

We all harp like heck about the other man when he tummyaches about what a cut throat competitor is doing to him. We say "stand up and take it like a man." If he has the cheaper price or the best goods, you just take what you can get and be happy over it. But you let that situation strike some of us and then there is a merry war from the Ganges or somewhere else, right straight.—Stamford Leader.

Election Predictions

A few people called in this week to correct us on the statement about Precinct 4 in Haskell county which has coaxed the palate of tamfordites for some time. We took a stab on that one after reading the scathing editorials in Stamford weeklings urging people in that section of Haskell county to vote beer out and not learning the outcome. Just "took that chance" and let the story "ride" to learn our error too late. Stamford papers please note: our faith in you is superb, but for once we entertained a little too much of it. We know that you voted dry, but we had not anticipated so many votes in the other direction.—Albany News.

Why Not Go Sunday?

Now that summer is over many of you readers will have no further excuse for not attending Sunday School and Church. Affiliate with the Church of your choice — and then attend regularly.—Throckmorton Tribune.

Kissing Dangerous?

Scientists tell us that kissing is dangerous. The scientist who made the statement did not explain the opinion sufficiently. We do not believe it is dangerous for a happily married couple, but to a confirmed bachelor we imagine that it would really be just as the scientist claims.—Honey Grove Signal-Citizen.

Whooping Cough Is Dangerous Disease

AUSTIN, Texas.—"There is no other communicable disease as dangerous as whooping cough to the very young, and there is no other disease causing an equal amount of suffering of which parents show such an unaccountable disregard not only for the safety of their own little ones, but also for the lives of the neighbor's children," said Dr. John W. Brown, State Health Officer. "There is no natural immunity against this disease during the first six months of life as there is against measles. It is at this age whooping cough strikes its hardest blow and over 50 per cent of the deaths occurring in children are under one year of age. The disease is usually transmitted by direct contact with the secretions of the mouth or nose, and only a very short exposure is required to contract the infection. Handkerchiefs, drinking cups and toys also may transmit the infection."

"The infection is communicable from the appearance of the first symptoms and is most contagious at this early period when the nature of the affection can only be suspected. The incubation period is commonly seven days. A slight fever, running of the nose and a cough make their appearance so gradually and insidiously that a diagnosis is practically impossible unless a history of exposure is obtained. When the 'whoop' appears there is no mistaking the disease. If there is whooping cough in your community keep other children away from your little children and keep your children at home. Call your physician early. Isolation of all cases for at least two weeks from the development of the characteristic cough should be rigidly enforced."

Trotter Driver Is 81

Presque Isle, Me.—One of Maine's finest trotting horse drivers is John N. Willard, who will be 81 next birthday. Willard lives near the north gate of the county fair grounds. He's been a horse trainer for more than 45 years.

The menu was invented in Regensburg, Germany, in 1489, when the head cook at a state dinner wrote out for Duke Henry of Brunswick a list of all the dishes in the order of service, to enable the duke to save his appetite for his favorite dishes

Bitter Rivals To Clash in Football Game Wichita 8th

Two bitter rivals in the Texas Conference will meet in the conference opener at Wichita Falls high school stadium Saturday night at 8 o'clock when the Hardin-Simmons University Cowboys of Abilene clash with the St. Edwards Tiggers of Austin. The game is being arranged on neutral ground through the efforts of the Wichita Falls chamber of commerce.

Both teams will be set to throw everything into the battle. The St. Edwards Tiggers are conference champions and will be anxious to start another season successfully. The Cowboys, still smarting under a 13-0 defeat of last year, the worst they suffered in the conference race, will put all they have into the fight to vindicate themselves before a North Texas crowd.

Officials in charge at Wichita Falls are preparing to take care of at least 8,000 people. A special train or a motor caravan will run from Abilene, carrying several hundred students from Hardin-Simmons, the famous Cowley band, the Cowboys, and other Abilene fans. To add to the color of the game, the two teams will represent contrasting systems of football, the Cowboys playing the Warner system with its many deceptive plays, while the Tiggers will employ the famous Notre Dame strategy which can be coached only by former Notre Dame men. Les Criffitt, a Warner pupil, tutors the Cowboys while John L. "One Play" O'Brien, former Notre Dame star, presides under Knute Rockne.

It is planned to make an inter-collegiate game at Wichita Falls an annual affair. Chamber of commerce officials there say it will depend on the crowd Saturday night. Negotiations have already opened for a game between Hardin-Simmons and S. M. U. next fall.

Thirteen Texans—

(Continued on Page Eight) percentage of jail sentences, in proportion to population, than did Texas, over the period surveyed. The total number of persons jailed in the Lone Star State, during this period, however, was exceeded by the total in only four other States—New York, Ohio, Virginia and California.

The total in Texas was 13,643, of which 12,772 were men and 871 women. New York led with 37,824 persons sentenced, Ohio was second with 15,417, Virginia came third with 14,365, and California was fourth, just above Texas, with 13,721.

The average number jailed per 1000 of population in Texas over the six-month period was 6.5, as compared to an average for the country of but 6.1. Many other states, however, were far above Texas in this respect. The average in Louisiana was 7.1, in Oklahoma 8.1, in Arizona 6.9, in Delaware 10.6, in Maryland 12.2, in Virginia 17.1, in the District of Columbia 22.9, in Tennessee 11.8. These figures of course would be doubled to show the average number of persons jailed during a year.

The women of sixteen other states landed in the jug more frequently than in Texas. The average in the Lone Star State showed that 432 of each 100,000 were jailed over the half-year surveyed.

Leading the nation were the women of the nation's capital; in the District of Columbia 1663 of each 100,000 were sentenced during the six-month period. In Maryland the average per 100,000 was 148.5; in Georgia 137.8; in Louisiana 124.6; in Virginia 116.6.

The nicest women apparently live in Rhode Island, where the ratio per 100,000 was only 23, while the Utah women were next nicest, with a ratio of only 55.

Leading offense for which these persons were incarcerated was disorderly conduct and drunkenness. These two charges, in the survey, were combined as one charge. Next were larceny, including automobile theft; third was violation of liquor laws, and fourth was violation of traffic laws. Following in order were arrests and sentences for vagrancy, assault, burglary, neglect or non-support of children, gambling and carrying deadly weapons.

Jellied Rice and Carrot Salad

One cup cooked rice; one cup of grated carrot; one half cup of grated pineapple; one package of lemon gelatine; hot water according to directions on package.

When liquid jelly is cool, and beginning to set, add the rice, grated carrot, and pineapple. Salt lightly. Let set in a mold or individual molds. Serve on lettuce with mayonnaise or cooked dressing. This makes eight small molds.

Huge Geranium Grown

BANGOR, Me.—Mrs. Alice G. Finnegan has a geranium plant that measures six feet in height and has had 35 to 40 blooms this year. The stalk is more than an inch and a half in circumference.

To keep clothes from freezing when hung out in cold weather, add a little salt to the last rinsing water.

Local Water Plant Reaches 25-Year Mark Usefulness

The Haskell water plant reached its quarter century mark of usefulness recently. It was established in 1909 under Mayor Matthews and his board of aldermen, composed of Judge Hamilton, H. S. Wilson, John Odell, Riley Stephens and Ed Chambers. This board, along with their mayor, rendered the city a service that is expected to live for many years.

Changes and improvements have been made during past years. The list of subscribers jumped from the first one, Judge Hamilton, to the approximately five hundred today; water collections from thirteen dollars and sixty-five cents to near a thousand dollars, and the need of one well to that of four wells.

The city, by making the plant one of the most modern in the state, has been able to change the rate from 3,000 gallons for \$1.50, and twenty-five cents for every additional thousand, to 7,000 gallons for the same price and fifteen cents for every additional thousand.

The plant valuation jumped from \$35,000 to \$100,000.

A New Peach Flower Salad

Eight peach halves (large); two packages (six ounces) cream cheese; two tablespoons mayonnaise; eight short green pepper strips. Place each peach half, rounded side up, on crisp lettuce. Thoroughly blend cream cheese and mayonnaise. Outline each peach half with cheese and mayonnaise mixture, forced through a pastry tube. Garnish each with a tiny green pepper strip to represent the stem of a flower. Serve with peach juice mayonnaise. Serves eight.

Peach Juice Mayonnaise
This is excellent for fruit salads; one third cup mayonnaise; one third cup cream, whipped; one sixteenth of a teaspoon salt; one tablespoon peach juice; one teaspoon lemon juice.

Fold mayonnaise into whipped cream. Add salt and fruit juices. Makes one cup mayonnaise.
Jelly Nut Mayonnaise
A good dressing for peach and other fruit salads. One cup mayonnaise; one half cup sour cream, two tablespoons currant jelly; two tablespoons lemon juice; two tablespoons pecans, finely chopped.

To mayonnaise add remaining ingredients in order given. Makes about one and one half cups mayonnaise.

Peach and Cheese Salad
Two packages (six ounces) of cream cheese; three tablespoons nut meats, finely chopped; one and one-quarter cups mayonnaise; eight large peach halves.

Thoroughly blend cream cheese, nuts and one quarter cup of the mayonnaise. Roll into eight balls. Slice each peach half in six slices lengthwise. Arrange slices on crisp lettuce, radiating the sections from the center like petals of a flower. Place a cheese ball in the center of each salad on top of heaping spoonful of mayonnaise. Serves eight.

Relief Commission Does Not Arrange Local Wage Scale

AUSTIN, Texas.—Criticism directed at the Texas Relief Commission for allegedly establishing wage scales in various counties at a higher figure than the prevailing scale in those counties were answered today by State Administrator Adam R. Johnson, who declared the Relief Commission has nothing at all to do with fixing local wage scales.

"Wages have been established by County Wage committees," Johnson said, "under the original direction of the Federal Emergency Relief Administration and these scales are the ones we observe on Relief commission work projects."

FERA regulations held that wages will be at the prevailing rate for the occupation and the locality in which the work is done, and in no case will the pay be less than 30 cents per hour.

"The state administration," Johnson continued, "can intervene and modify wage scales only in instances where evidence is presented that such rates are not in effect the prevailing rates."

The state director said that before taking any steps toward inter-

"Brief Biographies" David Crockett

—of undying "Be Sure You're Right, Then Go Ahead Fame," and for his unforgettable battles for Texas. His slogan right in line with the insurance we sell. Every policy is of the RIGHT kind, and arranged for your protection.

F. L. Daugherty The Insurance Man

vention he would require written proof that the wages as determined by the county committees are not in accord with local conditions, and where such evidence is submitted, Johnson said he would refer it to the county committees with a request that they consider a revision of their scale of wages.

Johnson asserted it is the duty and function of the county wage committee to ascertain what the prevailing rates actually are and that this involves actual investigation of rates actually being paid by employers. He added that FERA had been adamant in requirements that the minimum wage be not lower than 30 cents per hour despite objections raised from many sources in numerous states.

"Of course these rates have absolutely no bearing on rates to be paid by private employers and are effective only on approved work relief projects of the Relief Commission utilizing budgetary labor," Mr. Johnson said.

County administrators were instructed to observe these regulations closely and were reminded that if any changes in wage scales appear to be desirable, the course of action is through the county wage committee.

Knee-Action Chevy Averages 22.4 Miles Per Gallon In Test

An average of 22.4 miles per gallon over a 3,000 mile non-stop run is the record claimed by Ted Ellis, a veteran long distance driver, who piloted a Chevrolet knee-action sedan over a several hundred mile course between Coalinga and Sequoia National Park, in California. The total oil consumption is reported as 2 1/2 gallons.

The route included desert and mountain tracks, deep rutted roads, and a wide range of altitude and temperature between San Joaquin Valley and Sequoia. Each circuit included a speed spurt of four miles on a track laid out in the desert near Coak ca. Ellis was at the wheel for 98 hours, being relieved only for short periods from time to time.

Seasick Fish Big Worry of Rangers

YOSEMITE NATIONAL PARK, Calif.—Preventing a million fish from getting seasick on dry land is the problem with which Ranger Bill Reymann must cope periodically. Reymann's job is to supervise planting of young fry in Yosemite's lakes and streams.

The swaying motion of the conveyances causes the fish to become violently ill, polluting the water. The polluted water results in heavy mortality.

To minimize this danger, Reymann places the fish on a 36 to 40 hour fast, prior to moving time. If, in spite of the fast, they still become ill, the water must be immediately changed.

Temperature, too, has much to do with successful movement of the fish. They die if the temperature
