Cotton Supply In U. S. Is Lowered

WASHINGTON.—The Bureau of Agricultural Economics, declared in a report yesterday on world cotton prospects that the apparent supply in the United States on May 1 was approximately 10,300,000 bales. This supply compares with 11,900,000 bales on May 21, 1933, and an average of 5,200,000 bales for the 19 years which ended in 1930. Domestic cotton textile mill activity was relatively high in May, but consumption was materially less than the unusually high level during May, 1933. With few exceptions sales of cotton textiles have been below production for many weeks.

LUBBOCK JAIL-BREAKER ONCE CONVICTED HERE

Ed Stanton Breaks Jail At Lubbock; Officers Spread Net Over Country

Ed (Perchmouth) Stanton, who was once arrested and charged with robbery in Haskell county, escaped from the Lubbock county jail Sunday morning in company with four other desperadoes, after overpowering Deputy Sheriff Bedford Carpenter as he and a group of jail trustees were entering the cell block to feed prisoners. The escaped prisoners kidnapped a bank vice-president and a justice of the peace. Stanton had operated throughout West Texas and New Mexico in a series of crimes for years. In 1930 he was arrested and charged with the looting of the Orient depot at Sagerton and Old Glory. He was tried here before Judge Bruce W. Bryant and sentenced to three years in the penitentiary. Stanton was prosecuted by Judge Clyde Grissom, then district attorney. He was later tried at Aspermont for the Old Glory job and given two years.

Stanton was captured in northeastern Lincoln county, New Mexico, July 17, 1933, in a gun fight with officers in which Stanton's companion, Glenn Hunsucker, and Deputy Sheriff Tom Jones of Lincoln county were killed. Will Stanton, Ed's brother, also was captured at the time.

Stanton Sentenced at Tulsa
Ed Stanton was returned to Texas as a few weeks afterward and was given a death sentence at Tulsa last Sept. 15 for the murder of Sheriff Moseley, who was killed Jan. 23, 1933. The trial court denied Stanton a new trial and the Texas Court of Criminal Appeals only recently affirmed his death sentence. On May 23 the Appeals Court denied him a motion for rehearing on the appeal. He was held in jail at Lubbock awaiting the setting of a definite date for his electrocution.

Stephens was held pending trans-quickly pinioned him and disarmed him.

CROP LOANS BEING RECEIVED FOR FALL

The Emergency Crop Loan Office, Dallas, Texas, is now prepared to receive applications for summer fallowing or the combined purpose of summer fallowing and the purchasing of seed for winter wheat, rye and other fall cash crops.

Special attention is called to the allowance per acre, based on the approximate cost of supplies required, but in no case, in excess of \$1.00 per acre for fallowing and \$1.00 per acre for seed.

The security shall be a first lien on all crops to be harvested on lands, the summer fallowing of which is financed pursuant to the provisions of these regulations. Those desiring to make application should get in touch with the County Agent.

The date to which all such applications may be received by the Regional Office is the close of business July 15, 1934.

SENATOR CLINT SMALL of Wellington

WELLINGTON MAN FOR GOVERNOR TO BE HERE FRIDAY

Sen. Clint Small Will Discuss Issues of Campaign Before Haskell Voters

Senator Clint Small, candidate for Governor from Wellington, Tex., will be in Haskell Friday evening June 29, and will speak on the courthouse lawn at 7:45 in the interests of his candidacy for the office of governor.

Sen. Small has just returned from a trip through the eastern counties of the state, and is said to have made voters.

Local supporters of Sen. Small state that the Haskell Municipal Band will play a concert Friday evening for the rally.

Voters are being urged to attend and hear the speaker, even though they may contemplate voting for another candidate.

PRESIDENT SAYS HE LIKES OUR DEMOCRACY

NEW HAVEN, Conn.—President Roosevelt likes living in a democracy. So he told Yale alumni at a luncheon here yesterday. "After all," the nation's Chief Executive said, "we are—whether we like it or not—living in a democracy I like it. We are going to continue to live in a democracy." The nation must remember, he urged, that members of Congress do represent every state and every congressional district of the country. "Every cross-section of American public opinion," he said, "is better displayed in the halls of Congress than it is in any aggregation of educated citizens having purely the local point of view." The said further, in part: "I want to tell you also very simply of my thought that while there has been a certain

HASKELL COUNTY HORSE AND COLT SHOW ATTRACTING

Will Be Held Here Friday At Fair Grounds; Large Number of Entries

The Haskell County Colt and Horse Show to be held in Haskell Friday June 29 at 10 o'clock is attracting a large number of people who raise horses and mules. Many people have signified their intention to show either colts, mules or horses. Several entries likely will come from neighboring counties as some entries have already been sent in from outside the county.

While no definite cash prize has been set the 50 cent entry on each animal is to be divided among the winners in each class on a 50, 25, 15 and 10 per cent basis. Many exhibitors know that the entry fees on some classes may run into a good sum and their cash prizes will be high on those classes.

Judging will start at 10 o'clock Friday morning of the 29th at the Haskell Fair Grounds. H. K. Henry, local teacher of vocational agriculture will be in charge of the show.

New Carrier on Star Route June 1

W. B. (Billie) Burt of this city has been awarded the contract as mail carrier on Star Route No. 2 from Haskell to Rule and Rochester, succeeding Ed Thornton, present carrier, on July 1. Mr. Thornton has held the position for the past eight years.

This is the only star route out of the Haskell postoffice, and in addition to serving Rule and Rochester, some 100 rural patrons are given mail delivery.

Mrs. John R. Popejoy of Lubbock is visiting her sister, Mrs. Arthur Roberts of this city.

CLOSE TO 2500 HERE TO WITNESS RUNNING OF FIRST DAY RACES

SPURIOUS MONEY GIVEN TO SERVICE STATION THURSDAY

Raised \$10 Bill Passed To Mrs. Y. L. Thomason By Woman; Arrest Made

Officers in Wichita Falls arrested a man and a woman Friday morning on charges of passing bogus currency at O'Brien and in Haskell. The woman was brought here and identification sought as the woman who passed a \$10 bill on Mrs. Y. L. Thomason Thursday night. Owing to the fact that Mrs. Thomason was unable to positively identify the woman in question, she was taken to Seymour by Department of Justice operatives to answer charges in Baylor county.

The raising of the bill from \$1 to \$10 was cleverly done. The picture was made to face in an opposite direction to that on a dollar denomination and all figures were etched in such a manner that it would pass inspection of most people, in a dim light especially, as in the case of Mrs. Thomason.

The wife of the local service station operator was suspicious of the actions of the woman at the time, and before the car which the accused was driving had left the station Mrs. Thomason had written down the license numbers, which were later broadcast when the bill was found to be worthless. Only a woman was in the car here, but at that place, O'Brien, officers stated that a man and a woman were in the car at that place.

A considerable amount of spurious money has been passed in this section during the past several months. Federal and county officers have centered their attention on suspects and a large number of arrests have been made.

LEAGUE LEADING MUNDAY CHAMPS COMING ON 4TH

Game Here Between Braves and Champs May Decide Winner of First Half

With the winning of the first half of the Wichita Valley league race probably at stake, the Munday Champs will invade Haskell on July 4th in an attempt to hold a firm grip on the top rung. At the same time, the Braves will endeavor to continue their winning ways and make Munday battle hard to emerge victorious.

One of the largest crowds of the season is expected to be present when the two clubs step on the diamond. Munday is expected to send a large delegation and Haskell will draw from various sections. The local baseball committee is now formulating plans for strengthening the local team in acknowledged weak spots and the team which will be placed on the field on the 4th will, in all probability, be the line-up which will thunder down the homestretch in the second half.

Child Welfare Survey Under Way In Haskell County

A child welfare survey, under the direction of the state relief department, is now being made throughout Haskell county for the purpose of ascertaining the health and general condition of children.

Mrs. J. E. Bernard is chairman of the survey committee and Miss Eloise Vick, Miss Louise Akins and Miss Irene Ham are assisting.

Box and Pie Supper at Ballew

A box and pie supper sponsored by the Jozelet H. D. Club will be held at Ballew school house Friday night July 20th. Candidates are invited to be present and make their campaign speeches.

Business Houses Close For Haskell Day Wednesday; Many Bets Placed

IS FOUR DAY AFFAIR

Six Races Scheduled Today And For Friday-Saturday; Upset In 4th Race

Before a crowd of approximately 2,500 horse race enthusiasts, the first day's races of the Haskell summer meet were run Wednesday afternoon at Rice Springs Park. The betting exceeded the expectations of race officials for the first day. Steve Knight is again serving as starter.

Upsets in the various races were not numerous. One of the most telling reversals of the odds occurred in the fourth race, when Gray Flora, with Darden up, scampered home an easy winner and paid \$79.20 to one better, Jack Raines of Stamford. The daily double feature, which is being used at Haskell for the first time, attracted many. Close to \$2,000 was wagered on the various races.

Six more races will be run this afternoon and on Friday and Saturday. Crowds are expected to grow larger each day.

Wednesday was designated as Haskell Day, and all business places closed their doors from 2:30 to 5 o'clock p. m. for the occasion. An atmosphere of gayness pervaded the throng and the majority of the bets placed were for small sums.

The complete results, with the amounts paid of the Wednesday's races are:

First Race
One-half mile, Haskell county horses. Purse \$60.
Shoover (J. Burks) \$3.00, \$3.00; Wonder Boy (Fulcher) \$3.20; Wanda S. (Bloss), no show tickets. Also ran—Buck, Little Tinney. Time: 50.35.

Skylark (J. Burks) \$4.00, \$2.50, \$2.50; Country Boy (W. Rickord), \$2.50, \$10.70; Ada, \$10.70. Also ran—Sabe, Hi Tone, May West, Peter Blue, Scratched, Tom Boy. Time 51.1-2.

Third Race
One-Half Mile, Open. Purse \$60.
Foreign Relations (Bloss), \$5.50, \$3.20, \$2.20; Tiger D'Or (Gruber), \$2.20; Ted (J. Burks) \$2.20. Also ran—Mahatma, Mike Duvall, Brazos River. Time: 51.1-5.

Fourth Race
One-Half Mile for 2-year olds. Purse \$120.
Gray Flora (Darden) \$79.20, \$7.90; Katherine K. (A. Maskrid) \$5.20; Sarieta (J. Gordon), no show bets. Also ran—Toy Gold, Running Wild, Time: 55.2-5.

Fifth Race
Five-Eighths Mile, Open. Purse \$80.00.
Aganalda (J. Burks), \$11.80, \$3.90; Pinilo Pete (W. Rickord), \$4.50; George Keith (Bloss), no show bets. Also ran—Escopay, Miss Reina, Time: 1:05 1-2.

Sixth Race
Three-fourth Mile, Open. Purse \$90.00.
Thorese Girl (Gordon) \$5.00, \$3.50, Sun Meddler (Vandiver) \$3.90; Verdant Son (Maddox), no show bets. Also ran—Gold Hills, Padgett. Time 1:16.

The four day racing meet is being held under the direct supervision of the Haskell Horse Race Association. J. L. Southern is president; John Rike, treasurer; Herman Henry, secretary, and W. H. Murchison, Hollis Atkinson and Eugene Tonn are stewards. W. H. Caldwell is the presiding judge, while W. H. Wiseman and Morris Hill are associate judges.

Immediately before the stores closed at 2:30 p. m. a delegation of Stamford boosters, with band, paraded downtown, for the purpose of advertising the Stamford Cowboy Reunion.

Club Members Favor Foundation Patterns. Is Said

"Our club is 100 percent on foundation patterns," said Mrs. Holt Eastland, first year wardrobe demonstrator of the Greater Home Demonstration Club, the county unit from the last year wardrobe demonstrator, Mrs. Eastland, said that with the thought of her individual needs and the amount of money she had to spend she began her wardrobe work.

In telling her story she said: "Before improvement in dress might have been termed a fad. It consisted of three movements: a wire stretched across to hang clothes on and the line was systematically littered with open, letting dust and moths in. I bought a latch with a set of 10 cents. The inside was a dull colored beaver board making it very dark. To remedy this I papered it with light paper that I had on hand and if bought with a set of approximately 15 cents. I removed the sagging wire and added a broom handle for my rod. Above this rod I placed a shelf for hats and half the width of the shelf. This made a nice roomy space for my hats where they could be kept in perfect shape. I respaced my shelves according to the garments to be placed on them. There was my husband's three year old son and myself to share this closet, so I had to be a shelf. The lower shelf was lowered so that our son could reach it and unbutton it a top was placed for him to hang his clothes on. My husband built him a small shoe rack for his shoes. This one improvement of adding the shelf and rod alone has repaid for my labor and worry because it teaches him just where to find his own clothes and to keep them hung up himself."

"My husband took my shoe racks from apple and some old broom handles. I took prior to the time of having my shoe racks and wonder just how I did without them."

"I painted the inside of the door and made it look fresh and new. The entire improvement of my closet was accomplished at a cost of 35 cents."

"Sewing is a greater pleasure

when I know that what I am making will fit and that is what a foundation pattern means to me. With the second year wardrobe demonstrator and myself working together we have our club 100 percent foundation patterns. By having all day meetings we have enjoyed pleasure and work and have finished our wardrobe work. The use of my foundation pattern has meant a money saving of about \$20.00 and I have better fitting clothes."

In conclusion Mrs. Eastland says that it is not necessary that one should have a large salary to be a well dressed lady at all times but she should:

1. Plan her wardrobe according to her individual needs.
2. Study her personality and select the material and design best suited to her type.
3. Keep her clothes clean and repaired for cleanliness is the life of a fabric.

A wise distribution of expenses for clothing should include 50 per cent for outer clothes, 50 per cent for underclothing, headwear, footwear, accessories and cosmetics.

Scouts to Gather at Camp Tonkawa for 2-Week Jubilee

Abilene, Texas, June 20—Swimming and life saving tests are to be featured at Camp Tonkawa this summer with all water activities taking place in a beautiful concrete pool.

The best swimming in West Texas will be afforded the scouts who gather for Camp Tonkawa which opens July 8 and continues for two weeks.

The American Red Cross will send two representatives to camp to supervise all swimming activities. These men will be Eagle Scouts Alton Witten of Coleman and Davis Scarborough of Abilene.

Water polo is a favorite sport at Camp Tonkawa. On special days exhibitions of diving and life saving rescue work will be given by the Scouts.

The advanced Junior and Senior Life Saving tests will be given by the Red Cross examiners. Last year at the Council Camp 8 passed the Beginners test, 16 passed Junior Life Saving and 12 passed the senior life saving tests.

Scouts are urged to register at once for Camp Tonkawa which is the adult supervised camp of the Chisholm Trail Council July 8-22.

No Snake Can Roll Like a Hoop

Many people still have the belief that there exists such a reptile as a hoop snake, and that this small creature can put his tail in his mouth and roll merrily down a hill.

But G. E. S. Tordt, manager of the Texas Reptile Institute, of Austin, states positively there is no snake which puts his tail in his mouth and rolls his way down the road. To prove his belief, he says that he has one of the folklore reptiles on exhibition at the Institute and the snake has no such peculiar habits.

Urge Buying Home Grown Produce

GALVESTON — To encourage Galveston housewives and grocery stores to use home-grown vegetables when in season, the Galveston County Truck Growers' Association has been conducting an educational campaign this spring. The aim is

also to develop premiums for the use of home-grown produce. It is a campaign of cooperation on the part of the producer, distributor and consumer. The aim is to see that each gets a fair deal, a living wage. No 1 vegetables at all times. A campaign has met with good port on every hand.

Track Room Language

Why actively has its distinctive and the race track is no exception. Here is a fairly complete list of many terms used on turf, and if you will paste these on your hat you will be all set to talk horse with the best of them.

WITCH—Heavy rope slip noose, usually used by assistant starters to horses by twisting around the

RACK CUSHION—Soft top soil racing strip for the purpose of shock on horses' bones. Varies in consistency and substance of cushion makes horses favor certain courses. At Belmont Park there are one hundred men employed before the spring meeting to all the cushion soil, discarding sand and rock.

WING PLATES—Horseshoes made very light—sometimes of aluminum—changed according to the weather and stable conditions. Morven a brilliant race this year at Saratoga running barefoot—no shoes. Trainer Sammy Smith out of the boys.

RIBBER—Nervous ailment caused by too close inbreeding. Affected animal stays awake all night standing and chewing at the bit of its crib or box stall. Worth a few dollars. Playfellow, the full brother of Man o' War was returned by court order to the seller as it was proved he was a cribber.

BLINDING—An unsexed male hound. Mr. W. S. Kilmer's hearted Exterminator was our notable gelding. Male horses often savage and unmanageable until gelded.

BARTER HORSE—Very fast racer which goes to the front for a start and then fades away into the track. Usually have a trace of blood.

BLEEDER—Horse which bleeds from nose or mouth due to exertion racing. When the price is long sometimes forget to bleed blood of course chokes them they stop.

CRLEHOCKED HORSE—Horse whose legs have pronounced angle at

Resume Airmail Link

The two Americas were once more united by airmail when the new route from Brownsville to Dallas was inaugurated. The first long and Harman plane to leave Brownsville is shown. Left is Charlie Stewart, assistant postmaster of Brownsville, who hands the mail to Lee Maudlin of Long and Harman. The bag contains airmail from Latin America. (Texas News Photos.)

SWAYBACK—Race horse with a deep hollow in its back where saddle is placed, which makes it look potbellied. Tenny was a famous swayback. Modern swaybacks are fast sprinters but cannot stay—Polydor is good example.

COMEBACK MONEY—Money bet in distant cities away from the track so as not to spoil the odds, but which is sent back to the track by wire and eventually lowers the odds on the horse played.

"BOOKMAKERS HORSE"—Horse which unintentionally fattens the bookie's bankroll. One which is always a short price, seldom wins, but is always in the money except when the crowd bets it back. Then it is left at the post. Judge Schilling and Hygro are good examples.

MAIDEN STEEPLECHASER—

No matter if a horse is Man o' War, himself on the fact it is a sudden jumper receiving allowances until it wins over the obstacles through the field.

SECOND CHOICE—The horse with the next to shortest closing odds. Occasionally, especially in races with large fields, there will be two or more second choices—all at the same odds.

CLUBHOUSE TURN—The first turn of a race track for horses starting in front of the stand. Usually opposite the clubhouse.

WEIGHT FOR AGE—Race where all horses carry Jockey Club scale weights according to age and sex. Same age and sex carry identical weight regardless of ability or form.

BOAT RACE—A so-called "fixed" race. Happens weekly in the disordered brains of magazine hack-writers who have never seen a race and always write about fixing the Kentucky Derby. Almost never occurs at state licensed mile tracks, or Jockey Club supervised courses.

DEAD HEAT—The name of the finish of a race in which two horses cross the finish line at the same time and cannot be separated by the judges. This condition seldom occurs.

CONDITION BOOK—A calendar of races to be run and the conditions of each, made up by the racing secretary and given to the trainers, enabling them to pick spots for their horses weeks in advance.

THE P. C.—A private code issued by information services telling secret news to subscribers.

MORNING LINE—Early line of prices made before scratches. Used by horsemen and big operators to gauge the probable prices of the day's runners.

DUTCH BOOK—A race odds book which has no house percentage, and a profit will be shown by betting every horse in the race according to the bookmaker's percentage table.

COOK—A bad jockey. One who is getting old, too heavy, timid, and bungling.

PINHEAD—A jockey, who rides blindly, using poor judgment in rating his horse and keeping out of jams.

A New York beggar was found to have two big automobiles. No wonder the fellow had to beg.

HITCH HIKERS

With the coming of summer a bumper crop of "thumbers" has appeared on the highways.

All automobile drivers are well acquainted with "thumbers," but for the benefit of those outside their ranks who may be uninitiated it might be explained that "thumbers" are hitch-hikers, a product of the automobile age. They are those individuals seeking to obtain free transportation by jerking their thumbs as motorists pass, and it has become quite an American custom.

The practice is not as harmless as it may sound, as many motorists have learned to their sorrow. It is true that the average hitch-hiker is a respectable, honest and worthy person, often a college student on his way back to college, but there are enough who have violated every principle of accommodation and courtesy, as to make it advisable for any drivers to refuse a lift to all thumbers no matter how worthy they appear.

Many automobile drivers sincerely regret passing up a hitch-hiker along the way, but every time they stop their car to take a stranger in they are running a risk.

An exchange puts it in this fashion:
"Motorists who pick up hitch-hikers are taking a chance. An Oklahoma sheriff reports that a hitch-hiker has confessed the murder of a naval officer who offered him a ride. Other killings in various sections have been committed by thumb jerkers. Robberies by these gentry are even more numerous. Moreover, motorists involved in accidents while transporting hitchhikers have had to pay enormous damages.

"Not every hitch-hiker is a potential killer, bandit or damage seeker, but the wise motorist will refuse to take chances with any of them."

MAKE REPAIRS NOW

Much could be done toward relieving the unemployment situation in this and every other community if all who are able to do so would have needed repairs made about their homes and other buildings now, instead of waiting until later.

Nearly every property owner could do some remodeling, renovating, painting and the like to his own advantage, at the same time giving temporary employment to those in need. This plan is being advocated by emergency committees all over the country as one of the most practical means of relieving the distressing situation which still exists.

The unemployed want work, not charity. The acceptance of outright charity lowers a man's self respect, but he can work at any honorable task and still hold his head up. That is the idea which dominates the present nation-wide movement to make more jobs.

It is always good business to make needed repairs promptly, and a property owner today may have work done at an actual saving to himself, besides having the satisfaction of doing a worthy act in behalf of his less fortunate neighbor.

TO SAVE NIAGRA FALLS

After several years of discussion a treaty has been signed by Canada and the United States looking to the preservation of Niagara Falls and a joint board recommending a \$7,500,000 program for this purpose, after an investigation of conditions.

The rate of erosion was found by the board to be not so great as was feared, being only slight on the American side and from three to four feet in the Horseshoe. Extensive protective works were recommended, however, in connection with which it is believed that considerable additional water may be diverted for power purposes without affecting the scenic beauty of the Falls.

Much anxiety has been felt concerning the possibility of a serious impairment of the grandeur of this great natural spectacle, therefore the action of the two governments in providing for its preservation will be approved by the people of both countries.

Fisher County Women Make Patterns

ROBY.—According to the reports of 12 wardrobe demonstrators made to Miss Velma Heald, Fisher county home demonstration agent, 114 individual patterns have been completed by home demonstration club members in the county this year. Many other patterns have been started which are not yet completed and so were not counted in the total. Miss Heald states that these

patterns save the expense of buying a special pattern for each garment made and because these are individual patterns they solve the problem of fitting dresses, slips, pajamas, coats and skirts.

Art—Do you think you can make a good portrait of my wife?
Artist—My friend, I can make it so lifelike you'll jump every time you see it."

Young Man—Is there any time at which children cease to be a source

That certain colored gentleman who showed those other men of dark hue and others of white persuasion how to roll those "bones" at a certain place.

Fritz Taylor, of automobile parts fame, is still the possessor of the mythical medal presented to local tellers of fish stories. We overheard part of his story which was relating to Jelly Smith. It seems that Fritz follows the usual line of "the biggest one got away" but embellishes the story in a very original manner. His fish swallowed a LARGE perch (which had grabbed the bait and hook) and then disdainfully spit the hook out of his Carlebad (Cavern mouth and proceeded on his way, in a hunt for something more than a bite.

RANDOM RANTS — There was an "iceman" in a hurry Wednesday morning as we were driving down town. We started to cross the pavement on the street running north from the Methodist church and saw a new car coming towards us, but we didn't realize how fast it was travelling. When first witnessed, the car was about one and one-half blocks away, but brother, before we could even get half-way across the pavement that car was upon us, hurtling forward as if racing with an ambulance. And did we have to hustle, to get out of its way? And the darn driver had nerve enough to HONK at US, in a warning to get out of his way. Imagine that, when we had a perfect right where we were. But we seldom argue that point with any driver who thinks more of seeing how fast his car can travel than of life. . . . Oh, well, if that is the way things are, we'll deliver a few magazines to the county jail also. . . . We know of one young Haskell woman who thought so little of her engagement ring that she let a man throw it out of a window. . . . It is said that if a person wishes to keep from blistering while riding a motorcycle, one should travel at night. . . . and we're told that the correct way to bestride said motorcycle is NOT to become spread-eagled, as one well-known Haskell miss demonstrated. . . . Willard (Tarzan) Warren makes some of the most emphatic statements of anyone in town and is too large for us to argue with. . . .

On July 4, one of the most important baseball games of the season will be played here. Munday, who is now tied for first place in the league standing, will battle the Haskell Braves in a game which may decide the winner of the first half of the pennant race. Both teams are pointing to the game, and although fire-crackers may be missing, there'll be plenty of "fire-works." By that date, the make-up of the Haskell team which will contest for honors in the second half of the race will be about complete and the fans are assured of a real baseball game.

Owing to the fact that the local club will receive the gate receipts, every fan in his city who cares anything whatsoever about baseball should attend and help place the local team upon a better financial basis. The burden of supporting the team has been placed on the shoulders of a few fans and only a very few of the players have been paid anything for playing. Those that have been paid, have received only a few dollars—bare expenses. In neighboring towns, the fans have rallied around their teams and thereby enabled the management to secure players which the local club could not afford to hire under present conditions. On the Haskell roster, we know of five ball players who are playing free here, but who have been offered good money to play in other towns. This they have refused to do as long as Haskell has a club. Whether it is our right or not, as fans we are quick to criticize and quick to praise—lauding a ball player to the skies one day and vehemently declaring that he is nothing but a bum on the following day, but the fact remains that Haskell has the makings of a GOOD baseball club and a little support on the part of us all will enable the five-man committee to secure the necessary players and likewise give Haskell a fine opportunity to cop the bunting, which isn't to be sneezed at. The players are ready to give you your money's worth in a clean sport, they'll play the best ball they are capable of. All they are asking is for the fans to give them a break by attending. They'll stand for our second-guessing and some of them will agree that the rest of us know more baseball than they do—and not even ask us to demonstrate, so why can't we pack that baseball stand on July 4th and let the boys know we're pulling for them, win or lose? The chances are that if we're out there yelling our heads off for them, they'll battle like wildcats to win. Let's help them get started right for the second half of the league race.

make things cooler (if not colder) we'll mention only true facts. . . . Firstly, we hereby announce that several of Haskell's citizens journeyed forth on a booster trip, through several neighboring cities. We didn't tag along, but were told various and sundry facts, some of which may bear reprinting. . . . Contrary to what some people may think, those young men who preferred that 73 mile drive from Hamlin via dirt roads instead of the 37 mile hard-surfaced route got that way through their ardent love of scenery and not because they became lost. . . . It is your time now! . . . We heard one gentleman (who seemed to have a fondness for fast driving) that he wouldn't have minded a nice bath by the fire department similar to that given to one of Haskell's leading and ACTIVE boosters. . . . From all accounts, faster cars must be built if booster trips are to be thoroughly enjoyed. Cars that won't become "over-hot" so to speak. . . . Good soda pop was enjoyed. . . . One Haskell soda sleet dressed up fit to kill in a new cream colored suit and looked very nice at the start of the trip, but reports state that by the time the trip was finished, the cream had departed, or had taken a back-seat. . . . Attempts to remove those signs placed on some of the cars haven't been any too successful. . . . Wonder why some of our ardent baseball fans who made the trip didn't swipe us a ball player or two?

"Oh, my gracious! It's time to go to the races," said little Nancy, as she jerked her thumb Rice Springs-ward to a passing motorist.

Chicago Watches Moral Tone of Fair

CHICAGO—Care is being taken to keep the amusement attractions of a Century of Progress exposition on a higher moral plane to prevent criticism which arose from publicity given last year to questionable attractions, according to fair authorities. At the same time, the Rev. Philip Yarrow, superintendent of the Illinois Vigilance Association, is of the opinion that the general atmosphere of the amusement section is much better, although the standards might be still higher if the fair wishes to be absolutely above reproach.

The Rev. Mr. Yarrow, however, credits the fair authorities with sincerity in their avowed intention of keeping the fair on a high plane as indicated by their use of a new and more exacting kind of contract this year for the concessions. This contract, according to the Rev. Mr. Yarrow, puts full power into the fair officials hands to close any attraction of which they do not approve.

The fair authorities maintain

"REMEMBER GIRLS

.. I must leave at 4 to cook supper . . ."

"Goodness, Evelyn," says Rose, "when will you ever make up your mind to get an Electric Range? We girls also have to have 6:30 supper, but it's no problem at all with automatic cooking. We just put the entire meal in the oven before going out, set the clock control, and supper is being cooked while we play. The same control automatically turns off the current when the cooking process should stop, and the insulated oven retains sufficient heat to keep the food tender and piping hot to serve when we want it.

Good Work Done In Wardrobe Work

"I am a firm believer in the old proverb, never to bid to learn," says Mrs. Jesse Smith, wardrobe demonstrator of the Midway Home Demonstration Club and first place winner in the county contest in Class I demonstrators. Mrs. Smith is getting a free trip to the annual Short Course held at College Station July 30 to August 3. At this time she will study the wardrobe work under the direction of the State Extension Staff and become a more efficient demonstrator for Class 2 next year.

In telling the story of her club work she has the following to say: **The Story of My Wardrobe Work.**

The long felt need of the rural women of Haskell county came to pass in 1928, when the Commissioners Court of Haskell county voted to appropriate a fund for a Home Demonstration Agent. Miss Matilda Gunn, the new Home Demonstration Agent, took charge of the work September 1, 1928, with her office in the courthouse with the farm agent Mr. Trice. The rural women of Haskell county were very anxious for the work, but of course there were a few who resented the agent because she was younger by saying, "I can't be before she was born" or "I'm old enough for her mother," but they were like me—they can't be one day and poured out the next from spoilage. I never canned a vegetable in my life before my Home Demonstration work that ever kept.

My work has taught me how to

plan family budgets, give my family an adequate diet the year round and cut my grocery bill down at least one third. I have built storage space for canned products out of scrap lumber on the place, purchased steam pressure cooker and sealer which more than paid for itself the first year.

Some one said to me, "Mrs. Smith you know how to sew before you ever joined a club." Yes, that is true, I made all my own clothes as well as sewing for others, but I did not give any special attention to harmonizing of color, or combining materials, but just so it was in style I thought that was all that was necessary, but my wardrobe work has taught me to buy wisely, and the best for the money, and plan ahead. I have learned to study myself and look for good points, poor ones and select colors that flatter, that brings sparkle to your eyes, that makes the skin appear clearer and select lines and trimming that are suitable.

My storage improvement was made at a cost of three cents for nails. I have provided adequate storage space, one of the goals to be accomplished as a Class I wardrobe demonstrator. An old wardrobe was used in this storage problem that was too short and too narrow to hang my dresses in. The same double doors were used in the front wardrobe and a 1x12 plank made the closet 4 1/2 feet long and by using a 1x8 plank and beaver board, made the closet 7 1/2 feet tall, and placing both ends of the wardrobe together, made it 2 1/2 feet wide, with a rod the length of the closet to hang dresses on and

a shelf up over slatting rod for hats and old umbrellas padded with cotton and covered with tissue paper made the hat stands, a shelf for hat articles, a shoe board next to the front for shoes. These matters were about the place. Some paper from a bath was used in papering the wall inside. The paper is cream with a little pink here and there, the ceiling paper is white moire, which makes a real light clothes closet. When doors are open you see everything at a glance. In having adequate storage space for clothes, saves time and worry as well as tailor bills. To have your clothes look their best they must be properly cared for by having plenty of storage space, and must be cleaned and pressed properly.

Peacock Downed In 4 to 1 Battle Sunday Afternoon

By taking advantage of every break, the Haskell Braves won from the Peacock club here Sunday afternoon by a score of 4 to 1, and thereby took undisputed position of fourth place in the Wichita Valley League standing.

Weaver, slabster for Peacock, struck out twelve Haskell batsmen, but was the victim of his own wildness and erratic play by his mates in the fourth inning. Archie Pittman, local twirler, hurled a steady game and was going strong at the finish, and was able to control the situation whenever the going became the least bit rough.

Peacock drew first blood in the second inning when, after Barlett had struck out and L. Hill had been thrown out at first by Thurman, Hodges drove the ball into deep center which Cook failed to touch. Then Weaver and Owens duplicated by shooting drives to the same field scoring Hodges.

Haskell forged into the lead in the fourth inning, even though only one hit was made. Thurman first up sent one down to the shortstop, who threw wild to first, giving the Haskell third baseman a life. Cliff was hit by Weaver. Murphey walked. The Peacock shortstop juggled Adkins grounder, scoring Thurman. Cook and Pittman fanned the ozone, but Henshaw smacked a hard hit ball to right, which sent both Cliff and Murphey scampering across the plate. The rally ended when Cox also whiffed.

The other Haskell marker was made in the eighth inning. Cliff was robbed of at least a double when Hallams took his drive with one hand while racing at full speed, but "Lil" Murphey contributed a bingle which allowed him to reach second. Adkins flew out to center. While trying to catch Murphey off second, Weaver heaved the ball to the centerfielder and the runner went to third, which he left for home soon after when shortstop Hodges let Cook's drive hurtle through his legs.

An unusual feature of the game was the fact that only two assists were made by Peacock fielders. Weaver whiffed twelve, first baseman McMeans put out three unassisted and seven flies were caught.

The box score:

Houston County Farmers Pay Enormous Feed Bill

CROCKETT—A feed tax of \$400,000 last year in Houston county, representing the amount sent out of the county by farmers for feed, was more than double the amount spent on all rural schools, white and colored, in the county, according to C. E. Bowles, county agent. The feed bill exceeded total state and county ad valorem taxes paid in the county in 1933 by \$231,000. Rented cotton acres in the agricultural adjustment program are expected to wipe out a large part of this feed tax this year, Mr. Bowles says.

CHURCHES

FIRST CHRISTIAN CHURCH

Wm. P. Hardegree, Pastor.

I want to reach the person that is saying it is too hot to go to church with this message, "The refreshment of Worship." My text is, "As the Heart panteth after the water breaks, so panteth my soul after thee, O God."

The Water Breaks, the ocean and the mountains have their appeal in these warm summer days. This is the great vacation age and the hills and valleys are filled with searching folks who desire peace, refreshment and rest. One of the things the new age has taught us is that it pays to yield to these human impulses and through their realization find recreation of body and soul.

But there is another—a greater—thirst which cannot be satisfied by water breaks or growing things. There is a peace which cannot be secured in motorboat or on a golf link. There is a cry of the soul which only the House of God can still. My soul thirsteth for God, for the living God.

This church has planned its summer program to satisfy the hunger for eternal things. The physical demands have not been forgotten. The building will be kept cool and well ventilated. The services will not be unduly long. The messages which are planned will be from the heart to the heart. Plan your Sundays so that you may spend at least an hour of each in the House of God. If you have guests bring them with you. You will enjoy the balance of the day in a happier spirit.

The Church is a place of refreshment and rest along the highway of life.

THE CHURCH OF CHRIST

Sunday—9:45 a. m.—Bible Study and Class Work.
11 A. M. Preaching and the Lord's Supper.
7:30 P. M. Young People's hour.
8:30 P. M.—Preaching and the Lord's Supper.

Monday 3 P. M.—Ladies Bible Study.
Wednesday 8:30 P. M. Prayer Meeting and Bible Study.

The sermon subject for the morning hour is to be "A Chance to Get In Business and Do Well." Every one should be deeply concerned. Now is the time. You should look into this matter, and do it NOW. Sermon subject for the evening hour is to be: "A Walk That Knows No Regrets." Would you not like to be walking in the way that is best of all? You may do so if you wish. The greatest power at all, and of all, will help you do so. There are no circumstances under which you cannot make it. God will help you. Christ will help you. Good people will help you. All heaven will help you. Come and walk with the Lord. Come NOW. You can not do anything that will mean more to you, your family, your friends, your enemies, all who may be in any way subjects of the gospel, subjects of the call "Come Unto Me."

PRESBYTERIAN CHURCH

The Methodist people are cordially invited to worship with us this Sunday, since Rev. Carter will be in Baird concluding a ten days meeting. You will be an inspiration to the Presbyterian congregation and our fellowship will be mutually strengthened.

The Lord's Supper will be administered at the 11 o'clock worship. Parents with unbaptized babies are invited to bring them at this time and dedicate them to the Lord. Announcement will be made at Sunday School relative to the plans for a picnic. Do not miss it. Sunday School 9:45 a. m. Morning Worship 11 a. m. Young People's Vespers, 7:30 p. m.
