FORTY-EIGHTH YEAR

3.2 BEER ELECTION TO DRAW VOTERS FRIDAY

Business Houses Will Close Here Monday

HOLIDAY IS TO OBSERVE ARMISTICE

Day Is Selected Instead of Saturday for Benefit of Public and Merchants

NO PROGRAM ARRANGED

Many Veterans Expected To Celebrate With Posts Located Elsewhere

An agreement was signed by the business firms in this city today, calling for the closing of all houses on Monday, in observance of Armistice Day. Legionnaires, wishing to cooperate with the public and business men, urged that Monday be selected instead of Saturday.

Markets and bakeries will remain open until 9 a. m. Every ex-service man is urgently requested by legion officials to be present Sunday afternoon at the Legion Hall, for the discussion of an important matter affecting them. The meeting is to be held at 3:30.

Closing of the business houses, was decided upon by members of the American Legion Wednesday, and they circulated the petition with the understanding that in case any merchant decided to not close, no firm would be held obligated to close.

Several legionnaires contemplated observance of the day, even though the stores in Haskell should not be closed, and while no program has been arranged by the members of the legion in this county, it is expected that many will attend celebrations held elsewhere.

Several Haskell county war veterans served in the thickest of the fighting in France, and Armistice Day has brought, again, the grim horrors of trench warfare, and although the civilian population has been able to forget much concerning the war, those men who took part cannot but remember vividly the ghastly spectacle, and feel that they are entitled to celebrate the day, in some manner fitting, that probably saved their own lives.

BARGAIN OFFER ON FREE PRESS ATTRACTS MANY

Hundreds Take Advantage of \$1 Rate; Will Stop All Delinquents

Although a large number of subscribers to the Haskell Free Press have taken advantage of the bargain offer of \$1 per year being offered, a great many still remain listed as delinquent on the books, and according to the management will be stricken from the list soon unless otherwise arranged for.

During the past two years, when money was not any too plentiful in this section, subscribers to the Free Press were not pressed for a payment, but "carried" until times should improve. This was done because so many of the readers asked that it be done in their case.

Owing to the fact that money has come to practically everyone, and to some extent, in this trade area, and also owing to the fact that the sum asked is such a small one individually, the management believes those delinquent should make some effort to pay.

Plans are now being laid to make the Free Press a bigger and better paper during the coming year, which will usher in another election, and it is imperative that a paid-up list be arranged for the benefit of all concerned.

As previously stated, all persons

Murrell's Accuser

Here is Blanche Ralls, beautiful 31-year-old red-head snapped in the Federal court at San Antonio shortly after postponement of the hearing for Lieut. John H. Murrell of Fort Sam Houston, who is charged with attacking her within the confines of the military reservation. Murrell, an All-American football star at West Point, claims he is innocent.

SCOUT OFFICIALS TO HOLD MEETING FOR ADULTS HERE

Ministers, Business Men, and Civic Workers Urged To Attend; On Nov. 13

In connection with the 10-year program for the growth of the Boy Scout organization, a meeting has been called for Monday night, Nov. 13 by scout executives for the purpose of organizing an adult training school in this city. The meeting will be held in the Baptist church, at 7 o'clock.

Ed Shumway, secretary of the Chisholm Trail council, will be present, and probably also Dr. R. A. Maddox, president of the council, and Harry Ninde, chairman.

All scout committees, ministers and special committees of civic organizations in this city are urged to attend and take part in the meeting, at which plans for holding the training schools will be laid.

At meetings held recently in Winters and Albany, adult training schools were organized and the work of training boys is rapidly assuming great proportion. Over 26 business men joined at Winters and at least 30 at Albany.

Mr. Shumway considers the Boy Scout organizations one of the most important mediums for the training

Retail Merchants To Close at 6 P. M. Except on Saturday

At a meeting held by retail merchants in this city, it was agreed among those present to observe certain closing and opening hours during the day.

The stores will open at 8 a. m. and close at 6:30 p. m. on all days except Saturday, when they will open at 8 a. m. and close at 9 p. m.

Miss Johnnie Reed, demonstration agent, will return during the latter part of the week from College Station where she has been attending a short course dealing with her branch of work.

delinquency will be given an opportunity to pay in the next few days, or arrange to have the paper kept coming, or be stricken from the list.

PROCESSING TAX ON COTTON IS EXPLAINED

HASKELL WOMAN DIES IN KANSAS CITY NOV. 9

Mrs. Ralph Simpson, 20, daughter of B. F. Pate of this city, died in a Kansas City hospital early Thursday morning following an operation performed Wednesday.

Mrs. Simpson was formerly Miss Mary Alma Pate, and had resided in Haskell all her life until about three years ago. She married Mr. Simpson about two years ago and they had made their home in Denver, Colo., until moving to Kansas City recently, where Mr. Simpson is employed by the Greyhound bus lines. Funeral arrangements had not been announced late Thursday evening, but the remains will likely be returned to Haskell for burial.

Manager of Local Theatre Leases the Show at Albany, Tex.

Server Leon, manager of the Texas Theatre in this city, assumed charge of the cinema house in Albany last week, on a lease proposition.

Mr. Leon will not assume active management, but share part of his time there, leaving most of the work to someone else.

The Albany Theatre has been securing good pictures and Mr. Leon expects to continue giving that city new and good pictures.

Under his management, the Texas Theatre here has given the people extra good pictures, at very popular prices, and has built the show up to such standard that he has received the commendation of state theatre men.

Tent Show Will Play in This City Week of Nov. 20

Glen D. Brunk, special representative of Brunk's Comedians was in Haskell today making arrangements for the coming of the Big tent show to exhibit here for one week starting Monday night November 20th. According to Mr. Brunk this is the 17th annual tour of this well known show.

A New Telephone Directory is Being Distributed Now

The new telephone directories printed for the Haskell Telephone Company by the Haskell Free Press are now being distributed to patrons of the company.

Many new names have been added as users of telephones.

Parker B. Ramsey, of Fort Worth Gives Reasons Why Tax Is Worthwhile

I find merchants are exhausted from trying to explain why goods have advanced to customers, particularly farmers who bear down on the facts that the goods offered are made of cheap cotton of last year. It is appalling how little merchants know about the "New Deal", and if the farmers growing cotton know more about it they would be stronger for it than they are.

Merchants in using the tax for an excuse for higher prices are not getting over with it for the customer knows it would not exceed 10 per cent for tax on a pair of overalls.

In a few words, I will try to explain this situation as I see it from both sides. In the first place it is not fair for anybody to use prices on cotton of last year in figuring values this year. If a man held his cotton last year, would he take last year's price if it was worth more now.

Mr. Cotton Farmer, I want you to listen to a few things the NRA has done for you and how it affects you. You don't understand why your

MULLINO EXPLAINS WHY HE VOTED 'NO' ON BEER ELECTION

Cites Ruling By Attorney General As Proof That Election Illegal

"In order that the article appearing in the Haskell Free Press of last week under the heading "Petition Presented on Monday Morning" may be correctly interpreted and clearly understood, I wish to make the following explanation. A petition with 58 qualified voter's names signed thereon was presented to the Commissioner's Court Monday, asking that a special election be held on Nov. 10th within the city limits of Haskell for the purpose of determining whether beer should be sold legally. Three of the Commissioners voted in the affirmative, and my vote was in the negative, my opinion being based on a former ruling of the Attorney General.

"This ruling of the Attorney General came in response to a wire which the County Attorney sent him with regard to the legality of a local option election which Justice Precinct 5 had petitioned the Commissioner's Court to order. Fol-

NAME OF FAIR ASSOCIATION IS CHANGED

Will Be Known Henceforth As Central West Texas Fair Association

OFFICERS RE-APPOINTED

All Premiums of Last Fair Have Been Paid Except For Few Minor Ones

At a banquet held Thursday night November 2nd for directors of the Haskell Fair Association and their wives, and heads of departments, it was voted to change the Fair Association name. Until last summer the name of the Association had been Haskell County Fair Association. Immediately following the 1932 Fair the property was foreclosed on by the two banks of Haskell. A new association was organized under the name of Haskell Fair Association. The new association, however, desired more territory and larger exhibits for the Fair and decided to change the name. Several names were suggested but the majority were in favor of the name, "Central West Texas Fair."

The General Agricultural Exhibit will not have a part in the 1934 Fair. The money that has been used in this Department for premiums will be put on Individual Farm Exhibits. People who have shown in the general agricultural exhibit in the past are asked by the Association to raise a larger variety and enter in the Individual Farm Exhibit.

No time was lost after changing the name of the Association. All the old officers of the Haskell Fair Association were elected officers of the new Association and committed. (Continued on Page Eight)

Representatives of Two Brewing Firms In Haskell Monday

Clyde Williams and Kelly Farrer, special representatives of brewing firms, were in Haskell Monday on business and selecting, they stated, tentative sites for warehouses in event beer was voted in Friday.

Both Williams and Farrer said that Haskell would make a central location for the distribution of beer, whereas, at present, their trucks are having to travel over two hundred miles in covering the present territory.

A. C. Boggs Jr. left Tuesday for Grandfield, Oklahoma, where he will join his brother in the produce business.

HERE IS ANOTHER FINE "BELIEVE IT OR NOT" MR. RIPLEY!

Newspaper offices are visited by many types of people seeking free publicity under the guise of "news", and it is safe to say that about nine-tenths of them are given the "air" but that other "tenth" walked into the office Wednesday and mentioned a something that shows the subject to be of real news value.

And Mr. Ripley, of "Believe It or Not" fame may copy without paying one cent. Here goes the news item:

A. C. Pierson, cashier of the Haskell National Bank, of Haskell, states that said bank and the Farmers and Merchants State Bank, also of Haskell, will remain open Armistice Day, a legal HOLIDAY, and transact business as usual.

Mr. Pierson also intimated that the banks would be open for new accounts with the usual courteous service.

BUSINESS MEN TO CONSIDER COST OF A COTTON CENSUS

County Losing Thousands of Dollars by Farmers Ginning Cotton Elsewhere

At a meeting of the Haskell Business Club Tuesday noon, Judge Conner and R. H. Maxwell were selected as a committee to figure out the cost of conducting a census for the purpose of determining the amount of cotton being ginned in other counties by Haskell county farmers.

According to those in charge of the census work, this county suffered in the government's estimate of the amount of cotton grown in this county and thereby lost many thousands in dollars to farmers living here.

Many Haskell county farmers live near the county borderline and have their cotton ginned in other towns, closer to their farms than Haskell, and these bales are not included in Haskell county's total amount, but go to the neighboring county. Although having their cotton ginned elsewhere.

WEATHER MAN IS IN CHANGEABLE MOOD RECENTLY

Cold Snap Is Followed By Frost Here Wednesday - Then Warm Days

The weather man has endeavored, it has seemed, to be trying to furnish the citizens of Haskell with all sorts of weather during the past few days. Snow and ice are yet to come.

A recent rain cooled things off after a protracted period of hot weather that had made dry goods merchants want to tear their hair, and this was followed by a dip in the mercury that caused practically everyone to hunt for extra cover. Dad was also made to realize that heating bills would soon become common.

Jack Frost was found among those present Wednesday morning, and thanks to the rains, no great damage has been done to feedstuff, by the frost, so a few farmers report.

The weather again became warm Wednesday afternoon.

If you want to see an ego hitting on all six just ask one of those self men to tell you how he did it.

OUTCOME OF THE VOTING IS IN DOUBT

Few Predictions Are Made By Either Side As To Final Result

"NO JOINTS ALLOWED"

Is Warning Given By Officials If Beer Is Legalized Here

The duly qualified voters in the city of Haskell will march to the polls Friday and cast their votes as to whether this city will have legalized 3.2 beer or not. In the recent state election, three precincts voted against beer and one for.

The outcome of Friday's voting has many puzzled. Predictions are few and far between from both sides, and although the beer question has many persons interested, very little ballyhoo is being used in an endeavor to persuade voters to vote either way.

The way was paved for the holding of the election last week when three county commissioners voted to let the people ballot, after a petition, signed by 58 names of qualified voters had been presented to the court.

At the present beer is being sold, legally, in only three places in the county, 3.2 beer was sold within the city limits of Haskell up to a short time ago, when county officials warned those selling that the sale was illegal and all offenders prosecuted. In some places, the brew was being sold under a "club" plan, but a ruling by the attorney general, asked for by B. C. Chapman, county attorney, placed such clubs outside the legalized permits, and all such places were immediately "closed", so far as the sale of beer was concerned.

While some sentiment has been swung towards the legalizing of beer in Haskell, it is impossible to tell to what extent, and if the trend has been strong enough, so beer advocates think, to insure a victory for the 3.2 percent beverage. Practically all of those now expressing their intention to vote for beer Friday, after having the fact that "they'll drink it anyway, and the county might as well keep down the drinking of "home-brew" and whiskey.

Those voters not in favor of allowing beer to be sold in Haskell are standing firmly upon the policy previously used in the state election, and still believe that the sale within the city limits will have a tendency to lower moral standards and cause many young people to become drinkers.

The county officials have already given notice to those persons contemplating selling beer that if beer is legalized, no "joints" will be tolerated and no place allowed to sell where perfect order is not maintained.

VOTERS MUST HAVE TAX RECEIPT TO VOTE IN CITY BEER ELECTION

No person without a poll tax receipt will be allowed to vote in the election Friday which is to be held in the City Hall. Voters must have lived in the city of Haskell for at least six months prior to the election.

Any person wishing to vote against beer MUST scratch out the paragraph "for" beer, and those wishing to vote FOR beer MUST likewise scratch out the paragraph "against" beer.

S. A. Hughes, presiding judge; A. D. English, judge; Al Cousins, judge; J. G. Mulkey, judge; Mrs. Ethel Irby, clerk; will be in charge of the election.

Opposites are said to hold an attraction for each other, which may explain why most of the hard cash gets into soft hands.

DAREDEVIL WIRE-WALKER BILLED TO THRILL CROWD HERE SATURDAY

Visitors in Haskell next Saturday will probably be treated to stunts they are not in the habit of seeing every day in the week, if Bunny Dryden of Rising Star, the lad who made blaze World's Fair sightseers contract "ericks" in their necks from watching him perform, has his way.

Sponsored by various Haskell business men, Dryden will thrill Saturday visitors with wire-walking from the top of the courthouse to the Odd Fellows Hall building. He carried a man on his shoulders at Monday, but no one has volunteered at present here for the ride. The wire-walker will perform at 10 a. m., 2 p. m. and 6 p. m.

Dryden, only 22 years of age, crashed practically every day from page in Chicago during September when he disobeyed fair officials and

walked an inch and one-half cable from the east tower of the World's Fair sky ride to the west side. With at least 50,000 people looking on, he mounted the cable 600 feet from the ground and fought a strong wind every inch of the way. After Dryden staged his reckless escapade, all cars on the sky ride were stopped and the officials used loud speakers and exhorted the stunt man to abandon the dangerous trip, but that 600 feet to the ground caused him to keep going. He consumed over three hours making the entire trip.

A huge throng, and the Fair police were awaiting him at the ground level. It took over one-half hour for the police to separate him from hero-worshippers, but when they did, they took his fair pass away and banished him from the

grounds. He was denied admittance to perform at "Hollywood" where he acted as stunt man. Without a job, after thrilling thousands, "Bunny" was not without friends, however, and an injunction was immediately filed against fair officials to restrain them in their determined attempt to keep Dryden from resuming his stunts at the "Hollywood."

So, all persons visiting in Haskell Saturday afternoon may expect to be thrilled, and chilled when this former World's Fair daredevil starts in on his wire-walking stunt. If you have a weak heart, it wouldn't be a bad idea if you made your plans to be away from Haskell during the time of the sensational stunt by "Bunny" Dryden.

Naturally, the stunt will be free to you and yours.

COUNTY BRIEFS

ROSE

Haskell County Is Represented In The West Texas College

Canyon, Nov. 4—Haskell County is one of sixty-nine counties in the State of Texas which have had students enrolled in the West Texas State Teachers College during the first split semester of this year. It is expected that there will be more new students from Haskell County when the second split semester begins on November 20. The college is the only one in Texas which has arranged so that students can pay their fees in four parts of \$16.50 each, and can take nine weeks' work and have it complete and receive credit thereon. This "New Deal" has enabled hundreds of college students to study this year who could not attend school under the plans in vogue

Health 'New Deal' Needed, So Says State Health Man

Austi, Texas—In speaking of New Deals, Dr. John W. Brown, State Health Officer, suggested that every one should declare a New Deal for their health. Many persons overdid the annual vacation and instead of relaxing and giving the body a chance to recuperate tried to see how much they could do in the time allotted to them. As a result many such persons are now complaining about their tired condition. Vacations spent in such a fashion would seem to need a repeat dose at this time of the year. In making this statement there is no idea of suggesting that one quit work and do the whole thing over. The point is to give the body a new deal. With the crisp autumn days it would be to everyone's advantage to make the most of them. Instead of staying in an over-heated room, step out into the open each day for a walk. It may be that a few less bridge games will be played or fewer movies seen, but your body will not miss them. On the contrary it will be benefited by the fresh air and exercise. It may be advisable to give the stomach a new deal. Not that any starvation diet is being advocated, only that if one has been habitually over-eating or under-eating, then to give the body its eight hours of sleep each night of which it has likely been so consistently deprived for a long time. The beauty of this new deal is that it will not cost any money and at the same time make up for the vitality building opportunity lost during the summer. Such a program is quite worth while. TRY ONE.

Mrs. J. A. Ellis was hostess to the Helen Bagby Circle Monday Nov. 6. The meeting opened by singing a

hymn. Prayer and devotional by Mrs. Taylor; reading, the 61st chapter of Isaiah; prayer by Mrs. John Couch and song "Higher Ground" with Mrs. Ellis at the piano. Mrs. Reynolds taught a very impressive Bible lesson from the 11th chapter of John. "Jesus said unto her, I am the Resurrection and the life he that believeth in me though he were dead, yet shall he live.

"And whosoever liveth and believeth in me shall never die (John 11:25-26).

We are very grateful to all the ladies for their liberal donations to the Buckner Orphans Home box sent last week valued at \$62.70 and money \$15.70, also the gracious pounding for our pastor and family at the church last Monday night. Who can stay our ladies are not working? We are helping our pastor build a "big church in a little town"

Our president and Mr. Whatley are attending the convention at Fort Worth this week and we will meet at the church next Monday. Mrs. Ellis dismissed eight members with prayer. We were sorry so many were absent.

Juniors Entertained

Friday night, October 27, Fred Sanders, Jr., entertained the Juniors class with a party in his home. Games of many types were played and things were kept moving rapidly all during the evening. The refreshments consisted of sandwiches, lettuce-tomato salad, candy and coffee. The following attended the party:

Odel Williamson, Alberta Orr, Virginia Williams, Dorothy Segoe, Dorothy Herren, Carrie Belle Brooks, Ava Grindstaff, Geraldine Hunt, Mary Ben Chapman, Elizabeth Middleton, Lois Laird, Loree O'Neal, Alice Maud Latham and John E. Fouts, Howard Whatley, Carl Maples Jr., Winston Watson, Crockett English, Covell Adkins, Woodrow Dishough, Woodrow Roberts, Alvin Bruton, Lyndall Anderson, Hugh Shelley, Garvin Foote, and the host, Fred Sanders, Jr., Mr. and Mrs. Sanders, and sponsor, Miss Davis.

Freshmen Class Entertained

Miss Lou Ella and Ruth Woodson, as joint hostesses, entertained the Freshman class of Haskell High school with a "Haunted House" party last Friday night.

As soon as everyone arrived they were guided into a "Haunted Chamber" where, in an open box, there were dead cats. Then, in the midst of excitement, a closet door was opened and in it was a real skeleton? Shivers ran up and down our spines. In a dark, ghostly room, with a dim light flashing off and on, the hostess told a mystery story of a beautiful princess who met her fate, grieving for her lost lover. After being led to the door of the room which had not been opened since the death of the beautiful princess, everyone wrote an imaginary ending to the story telling what happened to the heir. Each ending was read aloud and voted on by the guests. The ending—"He died of heart failure", won the prize and was written by R. C. Henshaw. After a few games our fortunes were told in an unusual and interesting way.

Delicious refreshments of fruit salad, jack-o-lantern apples, spooky sandwiches, cookies, punch and candy favors with cat heads, were served to the following: Mary Frances Allen, Helen Mabel Baldwin, Annie Barnett, Ruth Barnett, Margaret Breedlove, Geraldine Conner, Mary Eleanor Diggs, Beverly Gilbert, Elsie Gholson, Velma Johnson, Lillie Maude Martin, Janice Tate, Lottie Mae Thompson, Ovida Smallwood, Catherine Wair, James Roy Akins, Albert Barnett, Conner Christian, Duffer Crawford, Vernon Colburn, R. C. Henshaw, Leon Highnote, H. J. Hamilton, John Kimbrough, Frank Kirkpatrick, Leo Lowery, Thomas Martin, T. J. Watson, our sponsor, Mrs. Wimbish and the hostesses, Lou Ella and Ruth Woodson.

OTHER NATIONS EXHIBIT INTEREST IN RECOVERY ACT

Foreigners Believe U.S. Plan Can Be Utilized To World's Advantage

Washington.—The governments of the world are manifesting deep interest in the American National Recovery Act. As a result of favorable reports said to have been submitted by their official and private observers, several foreign governments are preparing similar measures for early adoption. That of British South Africa submitted September 15 is almost identical, with the public-works feature included and release of a portion of frozen bank deposits. The preamble of a bill introduced in Chile October 9 praises President Roosevelt and refers to his program as "the salvation of American affairs." It provides

shorter working hours but no increased wages. France and Germany are reported as seeing eye to eye on the NRA. It was announced October 11 that Germany is considering seriously a proposal to increase employment by a "sliding scale based on monthly turnover of business firms" with other features of NRA, including public works. British statesmen, writers, and industrialists have kept close tabs on NRA. At first only the Manchester Guardian spoke hopefully for it. Now London Times features cables from Washington daily under the heading "The American Campaign." Many Britons, including at least three members of Parliament, have attended code hearings. One of them, Edward Doran, a national conservative of London, was quoted by the Associated Press as saying, "Mr. Roosevelt is to my mind the foremost statesman in the world. What he is doing is a patriotic example to every nation", and added: "When Parliament reassembles, although against all precedent, I am going to suggest that the Prince of Wales be sent to chat with President

Roosevelt on the relations of the two countries." Sir Montagu Norman, governor of the Bank of England, has been in the United States twice since NRA became law. On September 21 he told the bank's board that solution of Britain's currency problems depends largely upon results obtained from the American recovery program. He described "the United States now days" as "almost a new country, so great and confident are the changes." Japan is said to be considering a plan like NRA, as are Egypt, Holland, Canada, and various others. Foreign Minister Puig, of Mexico, expressed to President Roosevelt October 18 his enthusiastic admiration for the national recovery program. Dr. George Warren, professor of agricultural economics at Cornell, upon returning from various European countries, told the President he had encountered universal interest, in the main, entirely sympathetic. Officials of the League of Nations were quoted as having described the results of NRA as "distinctly encouraging" and as having "already achieved a substantial degree of success."

Are You Interested In Helping Orphan Children?

The Woman's Auxiliary of the Presbyterian church is making up a box for the Home and School for Orphans at Itasca, Texas. The children's ages are from eight to eighteen. Anything that you have out grown, or grown tired of, but is still in good condition will be as valuable at the home. Other things that they are in need of are sheets (both single and double), quilts, rugs, good books, good pictures and cook aprons.

Anyone who has something and we especially urge all members of the Presbyterian church to look through their wardrobes, and will give it to these orphan children please bring or telephone the Presbyterian manse on or before Monday November 13th.

Haskell Voters! Don't Be Misled!

Not only will the sale of 3.2 beer within the city limits of Haskell lessen drunkenness by keeping down the sale of bootleg whiskey and the making of home-brew, but it will bring to Haskell and Haskell county additional business that will NOT harm anyone.

THESE ARE FACTS!

Tuesday, two representatives of two brewing firms were in Haskell selecting tentative sites for wholesale houses in case beer was legalized within this city. Not only will these two warehouses be built, but others are expected also. At least two men will be employed at each warehouse and the Haskell payroll will be increased by at least \$150.00 per week from these four men alone. That is not all. Several trucks will operate from these warehouses, traveling to all sections and will cause additional travel from other cities to Haskell, which will increase sales of all filling stations, cafes, etc.

Haskell, in case 3.2 percent beer is legalized, will become the center for many counties.

3.2 percent Beer is not intoxicating, but it does hurt the bootleggers. No one makes "home brew" (with alcohol percentage ranging from 10 to 20 percent) if they can get this 3.2 beer.

HELP BRING ADDITIONAL PROSPERITY TO HASKELL BY VOTING FOR BEER ON FRIDAY

LET'S FACE FACTS AND RUN OUT THE BOOTLEGGERS!

Viola Humphrey Circle Meeting.

The Viola Humphrey Circle met Wednesday afternoon in the home of Mrs. Joe Maples with six ladies present. The meeting opened with the song, "Take the Name of Jesus With You", followed by the devotional given by Mrs. Cass who read from Matthew the 25th chapter, 1-3 verses. Mrs. Crawford offered a special prayer to let us so live that we may be ready for Jesus. Mrs. Quattlebaum conducted the business meeting and we were dismissed by Mrs. Cass. Our next meeting will be the third Monday afternoon at the home of Mrs. Stovall at two

o'clock. Everyone is invited to come and be with us.

Reporter.

T. E. L. Class of Baptist Church.

The T. E. L. Class of the Baptist Church met with Mrs. George Herin Nov. 7 for their monthly social. Mrs. Lambkin lead the devotional, after which all together sang "Count Your Blessings", and "Keep Me Singing As I Go." Reading 100th Psalm. Mrs. Whiteker read some beautiful poems she had composed "On My Kitchen Window Sill," "Contentment," "Beauties of New Mexico," and "We Thank Thee, Lord, for the T. E. L. Class." They were all beautiful.

The President then called for reports from different committees. Mrs. Walling sent in her resignation as Group Captain.

After the business was disposed of, we had some very interesting games. Mrs. Paxton got the most words out of the words, "Thanksgiving Turkey."

Refreshments of chicken salad, apple pie and tea were served to Mesdames Akins, K. D. Simmons, Lambkin, Kinney, Ida Crawford, Cousins, R. C. and John Couch, Reynolds, Whiteker, Jim Bailey, Sam Roberts, Paxton, Gannaway, and the hostess.

PROCESS TAX—

(Continued from First Page) merchant asks you \$1.75 or \$2 for a good overall today with cotton about 9 1/2 cents when you paid \$9 or 98 cents last year for the same overall and got 6 cents for your cotton. Here is where you are getting

the best of the deal.

The average family uses about five pairs per year and six pairs of pants. If you pay \$2 for an overall it would be \$10 per year and \$1.50 for pants would be \$9, or a total of \$19 for work clothes. Last year you paid \$1 for an overall which would be \$5 per year and 90 cents for pants which would be \$5.40 or a total of \$10.40 for work clothes; a difference of \$8.60. Do you appreciate the \$17 per bale you are receiving this year over last year? Then pay the advance price without complaining.

What Amount Means.

Now, according to a recent survey, the farmer is receiving in plow-up money an average amount equal to the amount spent for producing his cotton crop this year. You can see that by paying the additional \$8.60 per year on work clothing that you have invested this amount in a deal that has given you higher prices on your cotton crop this year and establishing a higher market in the future.

Then, too, had the NRA not been started, instead of 9 1/2 cents being paid for cotton, you would probably receive about 3 1/2 cents (if you could have sold it at all), 4 cents would have been the peak. This leaves you 5 1/2 cents per pound better off today or \$27.50 per bale in addition to the money you will receive for plowing up part of your hungry, and it is a cinch you would have gone hungry this year with a field full of cotton.

When you were warned to reduce your acreage this year because there was not a chance for a high price with enough cotton on hand to run three or four years, what did you do? You raised the largest cotton crop in history with the exception of one year. The administration had on one side the army of unemployed to feed, on the other a million cotton farmers that would be hungry with a field full of cotton. Realizing the only chance for a market for farm products was to get idle men on pay rolls, but there were not jobs for everybody so hours were cut to force more employment and wages were raised so wage-earners would have money to buy necessities. This is relieving the labor situation.

This is your market. Broke workmen cannot buy farm products or cotton goods. Then in order to eliminate actual want to cotton farmers, the plowing up or destroying of cotton began. This saved the cotton farmer. The tax on cotton goods is made to pay for the acreage plowed up. The laborer in Chicago and the farmer in Minnesota pays this money when he buys a pair of overalls. The cotton farmer everywhere who do not raise cotton can pay the price of cotton goods without complaining then why should a cotton farmer, who is getting the benefit, complain? Comparing the price on a pair of overalls with the same weight in cotton at the price you get for cotton is not fair because you don't take into consideration the cost of manufacturing the cloth and the garment.

Mill Conditions.

Textile mills have operated at a loss for years. They worked long hours and paid small wages. Why? Because you demanded cheaper garments or cheaper prices. Merchants sold overalls as leaders with no profits, forcing manufacturers to make them without profit, therefore, neither were able to pay living wages to their employees.

You, Mr. Cotton Farmer, tell your merchant he is too high on overalls, your merchant tells a manufacturer he is too high and the manufacturer tells the cotton mills they are too high. In cutting the prices down they will cut wages and the price of cotton, which will ruin the buying power of workers and the earning power of the cotton farmer, bringing us back to the place where we started. Remember, workers use cotton goods. When you have his wages

cut he cannot buy. He is your market. If you don't let a cotton mill make a profit, how can you expect him to pay you a good price for your cotton?

The "New Deal" has a code for cotton mills that will insure a living wage to workers. This raises the price of piece goods. The manufacturer pays a liberal wage under the New Deal. This also raised the cost, and in paying you for the acres you plowed up the tax on cotton was added, which altogether, makes the price of today seem high to you, but remember with people working at a good wage they will use your products, and people not working cannot use your products.

The best times we have ever had was when everything was high. A dollar bought more last year than it ever did before, but what good did that do if you did not have the dollar?

Mr. Farmer, you have had a rotten deal for four years. Everybody knows that, but you have got your break this year. It's up to you to put this thing over. Pay the price when you buy. Let everybody make a little money and they will let you make money. You are entitled to see a modern home and an automobile the same as anybody and the NRA is going to see that you get them.

WHY NOT STAY ON THE FARM

W. P. McGuire, editor of the Southside Virginia News, Petersburg, Virginia, has a proposal that deserves wide attention. It is simple and it is important, and the crux of it is: Why not keep farm boys on farms?

In pursuing his proposal, he asks 27 questions concerning the trend of young men away from the farm and suggests possible ways of reversing its direction.

It is certainly obvious that boys who have been reared on farms and have been intimately associated with the craft of agriculture since infancy, are best equipped to make the farmers of tomorrow. And it is equally true that these boys have been marching to the cities in armies for years, impelled by the hope of making their fortune in a life of which they know little or nothing.

In the years following the war, this away-from-the-farm drift added hundreds of thousands of boys to the urban population, and when the depression came, it was an important factor in causing the worst unemployment situation in our history. Most of the boys had never learned any trade especially well—they took any old job they could find, and it was usually of a sort requiring little skill and no training or aptitude. They were the first to be let out when production slowed, and they are likely to be the last taken back.

We have appropriated millions for agricultural relief and created great federal organizations to administer it. Certainly it would be worthwhile, as Editor McGuire says, to go to the root of the farm problem and give part of the money and effort in evolving a plan to enable young men to stay on the farm and become self-supporting citizens. Doing this would prevent overpopulation of urban centers, tend to mitigate employment problems and, as Mr. McGuire says, fits in perfectly with the Administration's aim to provide a solid economic foundation for our country.

BIG MEN ARE SHY

It would sound cynical, but it is a fact that the really capable men of the country are becoming extremely shy of politics and political jobs. Whenever a man who has made a success in life is proposed as a candidate for either election or appointment, he is immediately pounced upon by the demagogues and hounded without mercy.

The situation was sized up some time ago by Will Rogers, who with his keen insight said of presidential appointments:

"Big men won't take them, for they won't take a chance on a Senate insult. If he has ever earned more than a Senator, he is in league with big business. If he ever drove a Standard Oil truck or was a bookkeeper in a Morgan bank he is in league with monopolies. If he is rich he is in league with the devil, but if he has never done anything and has been a financial failure at that, he will pass the Senate as a brother."

While these are the words of a humorist, they are literally true.

The woman who thinks that all men are alike ought to marry the one who claims to know all about women.

The bachelor may envy the married man because he has someone to sew on shirt buttons, but the single man at least has a shirt.

An optometrist says that exercising the eyes may eliminate the need of wearing glasses. And maybe it will land you in a police court as a masquerader.

Haskell county residents don't have to go to the mountains for

pretty scenery. A Sunday afternoon drive through some of our rural sections will convince you.

In handling the barber code, the NRA wants to know "What's a fair price for a haircut?" It doesn't matter to the customer; he gets trimmed anyway.

The best thing about fame it not that posterity will honor your name, but that the paying teller will.

Those who are opposed to capital punishment say that electrocution does not lessen crime. Maybe not, but has shortened many a criminal career.

Anyone having lived in Haskell for years probably doesn't realize how friendly the people in this little city really are. Being a newcomer to Haskell, and having talked with other parties just recently moved here, we're in a position to know.

Haskell doesn't have any market cornered on friendly people, but we don't believe anyone will find a town anywhere having a friendlier of 3000 souls. (Everyone knows we are over the NRA 2,500 limit, so it doesn't matter if we claim 3,000).

If you'll look for them, you'll find people all over the world friendly, but you've got to be that way yourself to retain their friendship—and it is better to give than receive.

We note that Haskell has a "smiling" citizenship also—people who are not afraid to let you know they can smile, or speak. If there is anything we detest it is the person who refuses to speak in return after you have spoken to him, even if you haven't been "introduced".

Of course there are a few grouches in Haskell, but they are far in the minority. THEY are not the leaders. Those few will give you a grunt, and a fishy, loose handclasp, and act if they were scared to death you will mull a dime out of them. If they don't want to buy anything from anyone, about all they have to do is to say no like a man. Shucks, you can give a Fuller Brush man a smile, at the same time you are closing the door in his face.

The only time it isn't advisable to smile is when someone, larger than yourself, is in a vile mood and doesn't relish being laughed AT.

INK SPOTS—George Goetz lives in Haskell, and George Goetz hibernates in Pryor, Oklahoma. Sorta like going, going, gone with that name.

How many other people do you know that has the name of "Server" except Server Leon? Our "boss" will leave Wednesday, Nov. 15 on his annual deer hunt. If you have any business to transact with him better do it on Monday, because he'll be "in conference" Tuesday getting his "gear" in shape. Haskell has a new "attorney." Ask Judge Conner. Haskell's morticians are not of the long-face type. They leave that to persons not in the business. Hill Oates thinks we cling devotedly to our pipe and smoke it continually. Just ask our boss about that.

The reason some people voted for beer is because they had forgotten how awful it is when you get it second-hand.

We believe we've heard just about every radio star sing "The Last Roundup" except Cab Calloway.

Sally Rand, the fan dancer, is through giving fan dances she says. She was fined and given a jail sentence for giving the dance, and the people drove hundreds of miles, and made it financially possible for her to appear, were not even molested.

"The Worst Woman in Parris" was in picture in Wichita Falls over the weekend, and we understand several legionnaires attended to see if it really was Marie that had been selected!

DR. W. M. THAXTON MOVES TO ROSWELL

Dr. and Mrs. W. M. Thaxton left the first of the week for Roswell, New Mexico, where Dr. Thaxton will practice his profession in the future. Dr. Thaxton came to Haskell about a year ago and opened his office over Oates Drug Store. He had gained a wide reputation as a physician and surgeon and it was with regret, the people of Haskell learned of his intention of moving away.

New Book by Mrs. Roosevelt Covers Budgeting of Time

In her new book, "It's Up To The Women," which went on sale November 2, Mrs. Franklin D. Roosevelt points out that the budgeting of one's time, as well as one's income, is more than ever necessary under the present re-employment program with its shortened hours for all workers. Budgeting of time, Mrs. Roosevelt holds, not only insures a more efficient performance of one's work, but also gives added time for leisure in which to pursue personal pleasure, to participate in civic work, or to take care of any activity not strictly included in the usual program of one's days.

The book by our "first lady" has proved to be a most readable volume, with the same charm and interest in human affairs which is characteristic of Mrs. Roosevelt, whose breadth of contact in social and economic fields has not been exceeded by that of any other mistress of the White House.

Especially to young married couples does Mrs. Roosevelt direct much of the excellent advice contained in her book. On them, she feels, the burden of the economic disaster has fallen especially, since in addition to the usual adjustments of marriage, these young people have had to curtail their expenditures to meet the exigencies of reduced incomes.

Tribute to the changing order she pays in her chapter devoted to the mother whose children are grown and who are ready to make homes

economics department of the Cornell University. "Spend what you can, but spend it wisely and do not mortgage your future" is what she has to say about spending. "This is not time for hoarding of money simply because we are afraid the country is going to the dogs" she adds. If it does, our money will do us no good, so we might as well spend what we can wisely."

About the National Recovery Act, she has this to say: "Under the NRA, the slogan should be 'Deal with fair people and make sure that they are fair with their employees and their stockholders.'"

Women would do well to read Mrs. Roosevelt's book, for she will make them realize anew the important part which the woman of the home has played during the economic depression and the part which she is destined to play in assisting her husband and her family over the slow and toilsome road to financial recovery. She believes that the woman of 1933 will be just as much a pioneer and a heroine, if she preserves her faith and continues her job of encouragement and comfort, as the pilgrim mothers or the

The ladies will admit they probably secured the best, and will not be averse to demonstrating it. We'll not let ourselves be brought into the argument.

All we want to find out is why more women don't insist on their menfolk being insured, or having their property insured. It only costs a trifle each year. GOOD brains dictate that everyone should carry some type of insurance, and we wonder sometimes if Mother Eve and her daughters didn't get the best of the argument because so many men put this important matter off. Principals in Valley Political Slaying

JUDGE ED COUCH

CLAUD KELLEY

CUELLAR YBARRA BECK HILL

A political feud of long standing in the lower Rio Grande valley is reaching the newspaper headlines again when two Mexicans, Julian Ybarra and Mateo Cuellar confessed to the killing of Claude Kelley, son-in-law of Ed Couch, prominent county judge of Hidalgo county. Pleas of guilty on the part of the Mexicans were declined Tuesday and their trials on murder charges in connection with the slaying were set for November 20. The Mexicans thought they were killing Couch, in whose bed Kelley was sleeping that night.

Gilstrap Gives Figures On All Haskell Cotton

The cotton in the Haskell community this season is approximately 2% extra white; 26% white middling and better; 10% white below middling, and 62% spotted and yellow tinged, according to a statement issued by Mr. Gilstrap, manager of the Harrison & Gilstrap Gin, which is cooperating with the U. S. Department of Agriculture this season furnishing samples for estimates of the grade and staple of the current cotton crop. The classification of samples sent in from each individual bale is returned as soon as classified for the use of patrons of this gin.

The grade of the cotton for this community as compiled from the class sheets of all cotton ginned at the Harrison & Gilstrap Gin shows the grade to be as follows: 18% extra white; 26.2% white middling and better; 10.4% white below middling, and 61.6% spotted.

Red Lands and Plains
The grades for all cotton ginned to date on this soil type throughout the State are: Extra white, 9.9%; white middling and better, 27.3%; white below middling 3.7%; spotted and yellow tinged 9.1%.
The complete State report for all grades to date is: Extra white 9.9%; white middling and better 53.9%; white below middling 9.3%; spotted and yellow tinge 26.9%.

The staple length of cotton ginned to date in the Haskell community is: Under 7.8 inch, 5.6%; 7.8 and 29-32 inch 58.3%; 15-16 and 31-32 inch 32.5%; 1 1-32 inch 3.6%.

The staple length for all cotton ginned to date in the state as a whole is: Under 7.8 inch 4.3%; 7.8 and 29-32 inch 36%; 15-16 and 31-32 inch 44.4%; 1 inch and 1 1-32 inch 13%; 1 1-16 inches and over 2.3%.

In explaining this classing service Mr. Gilstrap stated that the United States Department of Agriculture is classing samples from every bale of cotton ginned at selected gins throughout the cotton belt this season. The classification of the individual bales are given the ginners for them to furnish their patrons so that they may know the grade and staple of their cotton. This service is given the ginner in exchange for service rendered by sending the Department a sample from each bale of cotton ginned.

The classification from the samples thus classed are tabulated and used by the Department of Agriculture to issue its regular grade and staple estimates reports on the grade and staple of the cotton crop as ginned. The gins selected for

this work are those which gin the kind of cotton generally grown in the territories where the gins are located. The grade and staple of the cotton ginned at this gin will be summarized and reported to the community from time to time. This will enable the community to know the kind of cotton grown as compared with that of the general sections of the State, and the State as a whole, and will enable the farmers to plan their production so as best to meet the market demand.

In the above cotton ginned at Harrison & Gilstrap Gin to date there was two per cent untenderable in grade and 4.6 per cent untenderable in staple and less than one per cent untenderable in grade and staple.

The preparation or kind of ginning done on this gin was shown by the Department's classification to be 91% average ginning and better and 9% ginned slightly rough. The rough ginning was caused by a large percentage of the cotton being

pulled while the cotton and burrs were still green and by a few rains during the season.

STRONG DRAMA FILMED OF YOUNG AMERICA AS IT MARCHES TO HELL

Ripped from the front pages of America's newspaper, "Wild Boys of the Road", a First National picture, comes to the Texas Theatre next Thursday and Friday as a vivid depiction of what a half a million of America's boys and girls in their teens are going through in this country.

Five hundred thousand of these "wild boys" it was recently reported to a Congressional investigating committee—boys and girls mixed, were riding on freight trains, living under bridges, in bobo jungles, in "sewer pipe cities", in swamps, victims of diseases, without law, panhandling, begging, bombing, fighting, with no one seemingly caring in the least what became of them.

This is the smashing and heart-rending drama of our times told in "Wild Boys of the Road". It is a story that will live for long in the memories of those who view it, for it is the story of young America that has strayed from protective firesides.

The leading feminine role in the story is played by Dorothy Coonan who came out of the choruses of "12th Street" and "Gold Diggers of 1933". Other roles are all taken by youths under twenty. Frankie Darro, Edwin Phillips, Ann Hovey, Sterling Holloway.

INDIANS DOWNS HAMLIN 12-6

Waving their tomahawks, living up to their cognomen, the Haskell Indians ripped their way to victory over the Hamlin high school football team in a conference tilt Monday afternoon by a score of 12 to 6. The game was played on the Hamlin grounds.

The game was postponed from Friday of last week until Monday on account of the muddy condition of the Hamlin field.

The score in no way indicates the terrific battle the Indians waged in emerging as victors. Both touchdowns came in the last half after Hamlin had crossed in the first half and appeared as if they would sweep the Indians off their feet.

The Hamlin players made a touch down after the first few minutes on four plays in which the kickoff in pass, a terrific onslaught over the Hamlin end and another pass made the score possible. Throughout the balance of the half, the Indians played as if they had given up here and a Hamlin victory appeared as if "something" happened and that something suited Hamlin players hip and thigh.

Smarting under the fact that another game was going against them, and with the defeats to Snyder and Rotan still fresh in their minds, the Indians came charging onto the field in the last stage of the game and proceeded from the very first to demonstrate that an aroused football team was in action, which did not please Hamlin in the least.

Functioning as a unit, the Indians battled, and were not satisfied with a yard or two but ripped off long gains in their belated bid.

English at quarterback and Ken...

brought, at fullback, did the ball carrying when the two touchdowns were made. Failure on the part of Haskell to kick for the extra point both times indicated a weakness and a part of football which hasn't been given the necessary "touch". Atkins at half-back, gave an extra good account of himself at that position and running interference, and with additional practice will be able to take care of that branch like a veteran. Captain Bynum, at center, showed up well throughout the game and was instrumental in all of Haskell's gains, although battered into a "woozy" mood during the earlier stages of the combat.

Although not in the starting line-up on account of illness, Dugan Starr was rushed into the game later and gave a demonstration of game fighting. His work was outstanding, as in the case of all the other players in the second half.

Even though on the long end of the score, (which generally has an effect on most fans in determining whether a game is good or not) Haskell standbys state that it was one of the greatest high school football games they have witnessed in years, and freely predict that the Indians have now reached the turn and will make teams in the games to come, realize that fighters from Haskell will be charging onto the gridiron in every game to do battle.

Next Friday is an open date for the Indians, but on the following Friday they go to Stamford for the "game of games". Traditional rivals, these two teams always fight hard against each other with any other team in this section. Present dope, on the basis of what each team did against Hamlin, favors Haskell, but a little overconfidence in the wrong place on the part of the Indians will mean a victory for Stamford.

MULLINS—

(Continued from First Page) Following is the opinion and ruling of our Attorney General.

"This department has already ruled that where a county votes dry in a county wide election no election may subsequently be held in any political subdivision of the county.

"The only election which the Commissioners' Court is authorized to order held is a county wide local option election and such an election may not now be ordered held for a period of six months after August 20th election."

"In the state wide election which was held in August, Haskell voted dry. This subsequent election which was petitioned for would, as I interpret the Attorney General's ruling, be an illegal election. Therefore, my vote was negative, and my opinion of the question was based entirely on my interpretation of the Attorney General's ruling.

"I wish to make clear that it is not my aim to cast reflection on any person connected with this question. I merely wanted my position understood.

G. F. MULLINO"

COTTON CENSUS—

on ginned in the bordering county. Haskell county farmers don't must take this county's acreage figures. One farmer stated that he net at least \$200 by such classification.

It is estimated that this county, if given credit for the total number of bales grown here, would have re-

ceived from \$60,000 to \$70,000 more than it actually did.

Knox County was given a rating close to 150 lbs per acre for a five-year period by the government, while Haskell county was given only 126 lbs, although this county grows as much cotton as Knox.

In order to determine the exact amount of bales grown in this county, and ginned elsewhere, the books of various gins in other counties will have to be examined and verified, and a report made to the government of the farmers having such cotton ginned.

BOY SCOUTS—

(Continued from First Page) of boys in existence today, and believes that the 10 year program will do untold good for everyone taking part.

"We plan to enroll every 12-year old boy we can in scouting," he said Tuesday, while here making preparations for holding the meeting Nov. 13. "This is the main objective of the 10-year program of growth of the Boy Scouts of America. More troops are needed, and every man or woman who has an interest in the welfare of the boys of today, whether their own, or their neighbors, should 'Do Their Part' in helping advance this great cause."

G. E. McGee Dies In Car Accident Fri., November 3

One of the most tragic deaths that has occurred in Rochester for many years was that of Mr. G. E. McGee last Friday night, when he was hit by a truck and killed.

Mr. McGee came to town with Mr. J. C. Tibbets, and got out of the car near the Reeves gin and in going around the car stepped in the way of a Knox City truck that was passing, the truck knocking him down and crushing his skull. Death resulted instantly. The body was taken to the undertaking establishment of Mansel & Smith and prepared for burial and held for coming of his children who live in Oklahoma.

Mr. McGee was born April 21st, 1876, and was past 57 years old. He was married to his wife December 26th, 1893. To this union was born six children, four of whom are living and were present at the funeral, as follows: Mrs. E. N. Alderman, of Maud, Okla., Mrs. Mary Helen Clark of Tulsa, Okla., Mrs. Lynn Price, of Tulsa, Okla., and Mr. Edward McGee, of Rochester.

Deceased moved with his family to Rochester twenty-four years ago from McMinnvale, Tenn. He had been a member of the Presbyterian church for about twenty years. Mr. McGee was a splendid citizen and commanded the respect of all who knew him.

Funeral services were held at the Presbyterian church Sunday at 11 a. m. conducted by Rev. C. A. Tucker, pastor of the Presbyterian church at Haskell. Burial was directed by E. Hob Smith, funeral director, and the remains were laid to rest in the Rochester cemetery.

Pall bearers were Vestus Alvis, Jessie Bragg, A. M. Reeves, P. A. Mansell, W. H. Carothers, A. S.

Lambert and Mr. M. L. Flower girls were Mrs. Vestus Alvis, Mrs. M. W. Michael, Mrs. A. S. Lambert, Mrs. G. Carothers and Misses Ruth Thomas and Tebe Garrett.

Deceased leaves his wife and the children mentioned above to mourn his unfortunate death, who have the deepest sympathy of everyone in their great sorrow. Rochester Reporter.

FIRST ROBINSON-FRANCIS FILM IS ROMANTIC TRIUMPH

In "I Loved A Woman," which begins Tuesday and Wednesday at the Texas First National studios have produced as fine a piece of entertainment as has been seen on the screen in many a day. But the picture is more than that. Its epochal sweep, dynamic force, inspired performances of Edward G. Robinson, the man of thunder, and the divine Kay Francis, and amazing romance places it among the truly great pictures of the decade.

The picture covers one of the most momentous periods in the development of the nation, from the nineties down to the present, a period fraught with revolutionary changes in political, social and economic conditions.

While the story of the passionate clandestine love between the two principals, Edward G. Robinson and Kay Francis, is a startling drama in itself, this love is made the motivating force in one of the most titanic struggles for commercial supremacy in American history.

Overcome Pains this better way

WOMEN who get into a weak, run-down condition can hardly expect to be free from troublesome "small symptoms."

Where the trouble is due to weakness, Cardul helps women to get stronger and thus makes it easier for nature to take its orderly course. Painful, nagging symptoms disappear as nourishment of the body is improved.

Instead of depending on temporary pain pills during the time of suffering, take Cardul to build up your resistance to womanly ailments.

The bachelor may envy the married man because he has someone to sew on shirt buttons, but the single man at least has a shirt.
