VOLUME 86

NUMBER 37

All Around
The Town

BY MARY ANN SARCHET

Pete and Hazel Hoyt have returned to Silverton to spend some time at her family home. Pete recently received a 40-year card for volunteer service as an Adult Scouter. He says that his interest in Scouting has helped keep him thinking young.

A two-vehicle accident at Lockney on September 3 involved three of Lee and Ada Clay's grandsons. The van being driven by their other grandfather, Don Maddin of Hale Center, was broad-sided by a pickup which ran a stop sign, according to *The Floyd County Hesperian*. They were transported to W. J. Mangold Memorial Hospital by Lockney EMS, where they were treated and released. The other driver was taken to Mangold Hospital and airlifted to a Lubbock hospital.

Mr. Maddin and Daniel Clay, 9, were wearing seat belts. Kaleb, 13, and Josh, 12, were asleep in the back of the van and were not wearing seat belts. Randy and Kelly Clay of Seminole are parents of the boys.

John and Maebelle Francis and Janice Hill recently were in Clarendon to entertain the Senior Citizens.

Sybil and Neil King, Virgil and Eudean Crow and Lina Whittington have been enjoying a vacation in Springdale, Arkansas and Branson, Missouri.

Winston Hamilton says his wife, Jo, is spending a few days with her daughter, Becky, in Lubbock before returning home after a rather lengthy stay in the hospital.

Juan Munigua is no longer our United Parcel Service deliveryman, and the schedule and territory of the new driver will be somewhat different.

In order to be sure that your parcels go out that day, you need to have them at the News Office before 11:00 a.m. They are being picked up about noon, and any that come in after 11:00 a.m. may miss that day's pickup.

We Are OWL BOOSTERS!

Immunization Clinic Is September 27

Silverton's next immunization clinic is coming September 27, and will be held at the School Nurse's office from 9:00 a.m. until 12:00 noon. You may call 823-2476 for an appointment.

Appointments are not necessary, but are advised.

School to Have Open House, Meal Tuesday

Silverton ISD's open house, sponsored by Silverton PTA, will be held Tuesday, September 20, at 7:00 p.m. in the school cafeteria. Chili, beans and homemade cinnamon rolls will be furnished and served by the school.

PTA and Silverton School invite everyone to come out and have supper and visit our top-ranked school system. We are all very proud of our school, faculty and administration and its recent accomplishments, and would like to have everyone interested in the education of our children in attendance. It is not necessary that you have children in school; everyone is welcome.

There will be a table set up at the door to take PTA dues. For \$2.50 per member, you will be joining the ranks

of the largest child advocacy group in the nation, as well as supporting the local PTA in its programs and projects in our school. PTA invites everyone to join. Even if you cannot attend meetings, your show of support is considered extremely important to PTA's efforts.

For PTA by Beverly Minyard

School Calendar Has a Change

One of the teacher in-service days has been changed on the school calendar.

Instead of February 10 being an in-service day, the students will attend classes that day.

The teachers will have in-service on Monday, February 13, instead.

If you will be making advance appointments, please note this change on your calendar.

Tutorials Began At School Last Week

After-school tutorial sessions began on Wednesday, September 7, from 3:05 until 3:30 for any student who is failing and needs extra help.

These sessions are mandatory, according to Texas Education Agency guidelines, and Silverton ISD must comply.

Three-week progress reports were mailed on Wednesday to advise parents of those students who must attend. Parents also need to arrange to pick their children up at 3:30 p.m.

Senior Citizens To Have Luncheon Friday

Silverton Senior Citizens will have their monthly luncheon and business meeting at the Center Friday.

Members of the Rock Creek Church of Christ will host the luncheon.

Dwight Ramsey (right) presents Tom Justice with a Certificate of Completion of Fire Fighting II from the Texas A&M School held this summer. Justice's schooling was sponsored by the Briscoe County Farm Bureau.

Summer-Season Weather is Hot and Dry

Weather across the Texas South Plains during the summer-season months of June, July and August 1994 turned out to be much drier than normal with above-normal temperatures.

Temperatures averaged 2.0 degrees above normal and ranged from 3.5 degrees above normal at Lubbock to 0.9 degree above normal at Lamesa. Silverton's temperatures averaged 77.9, just about two degrees less than the South Plains average.

Maximum temperatures averaged 2.8 degrees above normal and ranged from 4.7 degrees above normal at Levelland to 1.2 degrees below normal at Matador. The highest temperature reported during the season was 118 at Paducah on June 27. Many all-time high temperature records were set in late June, including 114 in Lubbock.

Silverton's maximum temperatures averaged 92.1 degrees, which was 2.1 degrees below the South Plains average.

Minimum temperatures averaged 1.2 degrees above normal and ranged from 2.7 degrees above normal at Lubbock to 0.4 degree below normal at Jayton. The lowest temperature of the season was 52 at Tulia on August 17.

Silverton's minimum temperatures averaged 63.7, a little below the South Plains average.

Precipitation averaged 3.61 inches below normal and ranged from 0.98 inch above normal at Dimmitt to 6.44 inches below normal at Post. Although precipitation was near normal for July, average area rainfall was well below normal in both June and August, resulting in the below-normal seasonal totals.

Silverton's precipitation during the summer months measured 3.55 inches, which was about half an inch below the South Plains average and was 5.26 inches below the normal for this area.

A Voice From the Country

Earl Cantwell
Gems & Allegorys

Inasmuch as the scriptures have decreed that man should earn his bread by the sweat of his brow, and man has declared a certain day during which man may celebrate his labors by resting (?), I have sought out some adages, anecdotes, aphorisms, and axioms which prove that man has been considering the above biblical edict.

A willing heart lightens work . . . If a task is first begun, never leave it till it's done . . . Be the labor great or small, do it well or not at all . . . To work at the things you love, or for those you love, is to turn work into play and duty into privilege . . . Each morning sees some task begun, each evening sees its close; something attempted, something done, has earned a night's repose . . . The great thing about work is to keep on top

of it, and not constantly be chasing after it . . . Do your work and you shall reinforce yourself . . . Work! Thank God for the swing of it, for the clamoring hammering of it. Oh, what is so fierce as the flame of it, and what is so huge as the aim of it, thundering on through drouth and doubt, calling the plan of the Master out . . . Be very sure there are no rules for success that work unless you do . . . The efficiency expert is smart enough to tell you how to run your business, and too smart to start his own . . . Blessed are those who go round and round for them shall become big wheels . . . It is easier to do a job right than to explain why you did it . . . Few things come to him who wishes; all things come to him who works . . . All men are good manufacturers—either making good or making trouble . . . We do less than we ought, unless we do all that we can . . . The smartest person is not the one who is quickest to see through a thing, but it is the one who is quickest to see a thing through: Work as if you were to live a hundred years, pray as if you were to die tomorrow . . . Too many churches are full of willing workers; some are willing to work and the rest are willing for them to work . . . You can do anything you ought to . . . Work and study as though all depended upon you, but pray and trust as though all depended upon God . . . A Christian worker should be like a good watch: open face, busy hands, pure gold, well regulated, full of good works. (Matt. 5:16) . . . When your work speaks for itself, don't interrupt it . . . Some folks are so busy learning the tricks of the trade that they never learn the trade . . . It is not the number of hours a man puts in; it is what a man puts in the hours that counts . . . The difference between a mule and a man is that the

State Fire Marshall Issues Warning to Property Owners

The Texas Commission on Fire Protection has warned consumers who want to have fire alarm devices or systems installed in their homes or businesses to be wary of unlicensed individuals and companies.

"Fire alarm systems can have a great impact on life safety," said State Fire Marshal G. Mike Davis. "It is imperative that consumers work with licensed fire alarm firms and technicians when they install new systems."

Davis said that due to the potential danger to lives and property, the state issues licenses only to firms and mule turns his back to his work, and the man faces up to his . . . There are four kinds of church workers: jaw-bone, wish-bone, back-bone, knee-bone . . . Work wrought out in activities which bless others produces joy in the heart of the one who does it . . . Now I get me up to work, I pray the Lord I may not shirk. If I should die before tonight, I pray the Lord my work's alright . . . For every man shall give an account thereof in the Judgement Day.

individuals who have demonstrated the technical knowledge required to install the alarms properly. Companies engaged in planning, selling or installing fire alarms in commercial and residential buildings (including apartment buildings and hotels) and in one- and two-family dwellings must be certified by the commission. Companies who install combination burglar and fire alarm systems also must be certified.

The State Fire Marshal's Office has been notified that unlicensed companies and individuals may be selling and installing fire alarms in several areas in Texas. Alvin C. Ramirez, program director of the commission's licensing investigations unit, confirmed that the agency is currently investigating the reports.

To be sure that a fire alarm installer or company is licensed by the Texas Commission on Fire Protection, ask to see a copy of the company's Certificate of Registration. The State Fire Marshal's Office also maintains records of licenses issued to these companies.

Booster Club Pat on the Back

Silverton Booster Club is giving a pat on the back and recognition for a job well done to Freshman Owls, Trey Wyatt, Jackie Cherry, Leland Wood, Will Hester and Jared Francis.

Keep up the good work, boys!

Back The Owls!

Owls Continuing to Wage War on Area's Better Teams

Silverton's Owls will be continuing their campaign against some of the better teams in the area when they travel to McLean to try Coach Jerry Miller's Tigers Friday night. The Tigers are fresh off a victory over Follett, while the Owls fell to the Chillicothe Eagles last week. Even though the Owls are young and inexperienced, their game schedule holds no mercy for them this season, and every week will provide another tough test for them.

Fans and players alike gulped when one of the older, more experienced Owls went out with a shoulder injury Friday night. Zeb Holt watched much of the game from the sideline after the injury. Several other players also watched from the sideline, either out of the action because of injuries or for missing workouts during their two days out of school early in that week. The team also will have to survive grades next week, and September 23 is the dreaded cut-off date for those who don't pass and can't play. The good news is that the players on other teams also have to prove themselves, grade-wise.

Most of the game, the Owls had one junior, one sophomore and four freshmen making up their team on the field. There is a very good class of freshman athletes and they are paying their dues against some of the region's better players.

The Owls kicked off to Chillicothe to open Friday night's game, and after the Eagles had made a first down on the Silverton two, recovered a fumble. The Owls were held deep in their own territory without much room in which to work and when they punted, it was returned for a touchdown. The Owls blocked Chillicothe's PAT attempt, and allowed the Eagles only a 6-0 advantage.

When the Eagles kicked off, they aimed an onside kick at Jon Ivory, and he quickly controlled the ball for the Owls, who were unable to move the ball in spite of runs by Holt and Arnold Garza. When the Owls punted, the Eagles returned the ball to the endzone for another touchdown. Since their kick was unsuccessful following their first touchdown, the Eagles attempted to pass for PAT, and this, too, failed, leaving the score at 12-0.

Chillicothe kicked off and Garza

Jeremiah Brooks was pictured rushing for yardage for the Owls in their game at Chillicothe Friday night. In the background are Owls Will Hester and Leland Wood.

Briscoe County News Photo

brought it out to the Silverton 25. Holt ran for 11 yards and paid the price underneath the team-tackling Eagles. Jeremiah Brooks passed to Jackie Cherry for a first down on the Chillicothe five, but the defense toughened, and the Owls were unable to punch it into the endzone and the ball went back to the Eagles on the 12.

The Owls came up with some nice defensive plays on Chillicothe's next series, the Eagles being set for a loss on their second down play due to the efforts of Brooks and Will Hester. A halfback pass gained a first down on the 30, after which the Eagles went all the way for another touchdown. With 1:41 still remaining on the first-quarter clock, the Owls blocked another PAT kick and the score remained at 18-0.

Chillicothe had to kick off several times because the ball kept going out of bounds and on the third try the Eagles aimed a short kick at Leland Wood,

who controlled the ball at midfield. The Owls struggled through another offensive series and saw the ball go back to the Eagles as the second quarter began.

This time the Eagles saw tough defense by Brooks and other Owls, and threw a couple of incomplete passes before picking up a first down on the Silverton 15. A fourth-down play saw Chillicothe score again. There was no PAT, and with 7:51 remaining before halftime, the Eagles moved into a 24-0 lead.

The Owl offense was just about completely shut down on the next series, and the Bad Birds punted to the Chillicothe 30. This time the Eagles picked up one first down and that was all the Owls allowed. The ball went back to the visitors on their 28. The Owls sent Garza on a couple of runs, but were unable to pick up yardage and the ball went back to the Eagles. The first half ended without further scoring.

The Eagles opened the second half by kicking off to the Owls, and runs by Garza picked up a few yards. Brooks passed complete to Cherry, but a fourth-down pass was batted down by the Eagles and the ball went over to Chillicothe at midfield.

The Owls almost intercepted a pass on first down, but the Eagles passed complete for a first down on the Silverton 20 two plays later and made another first down on the one. The Owls mounted a goal-line stand that kept the Eagles out of the endzone until third down when they passed complete for another touchdown. They kicked the PAT, and with 5:43 remaining to be played in the third quarter, the Eagles moved ahead 30-0.

Silverton's offensive effort was completely shut down, and the Owls punted short. On Chillicothe's possession, Garza intercepted an Eagle pass on the 27 and the Owls were back in business again. Brooks passed complete to Trey Wyatt for seven yards but narrowly missed a first down and the ball went over to the Eagles near midfield.

Chillicothe scored four plays later, kicked the PAT, and held a 38-0 lead. The Eagles kicked off again, and Garza brought it out to the 30, then ran for a first down on the Eagle 30. After this

THURSDAY, SEPTEMBER 15, 1994

the Owls received a penalty, threw an incomplete pass, and lost a fumble near midfield. The third quarter ended with the Owls still hitting hard and popping the pads.

The Eagles were unable to score on this possession, and the Owls got the ball back. They didn't keep it very long, losing a fumble on their five. It was a chipshot from there, and the Eagles scored with 5:50 still on the game clock. They kicked the PAT, and ended the game early 46-0.

Garza was the leading rusher, getting 58 yards on 15 carries. Brooks was the leading tackler, with quite a few solo tackles to his credit.

The Owls continue to need your support. They are working hard to gain the experience they will need to succeed in future games. In the meantime, they need you to help pack the stands to make a little noise for them. It's a pretty nice drive to McLean; be there!

Junior High Owls Open With McLean Cubs

Silverton's Junior High Owls will open their season with the McLean Tiger Cubs here at 6:00 p.m. today (Thursday). These sixteen boys are ready to play.

Eighth Graders who will provide the leadership and experience on the team are Jay Arnold, Donny Burson, Junior Castillo, David Donahoo, Lorn Estes, David Gamble, Jared Holt, Jeremy Holt and Matt Martin.

They are joined by eager Seventh Graders Charlie Bomar, Paul Donahoo, Nathan Francis, Ryan Minyard, Daniel Reagan, Jordan Sarchet and Paul Segura.

The Junior High Pep Rally takes place in the gym at 12:15 p.m. on Thursdays. Try to be there to support the Junior Owls and be sure to follow them to the game.

The Booster Club will have lots of good things to eat in the concession stand, so why not plan to have supper at the game? You are sure to have a good time while cheering for the varsity Owls of tomorrow.

Football Concession Stand Workers

Following is a list of those who have been assigned to work in the concession stand at the football games. If you cannot work at the time you have been assigned, please find a replacement for yourself.

Mrs. Jeffrey Grimland

Formal Service Unites Couple In Marriage

Amy Michelle Payne and Jeffrey Lynn Grimland were joined in matrimony Saturday evening, August 20, at the Church of Christ in Turkey. Elgin Conner of Lampasas performed the ceremony.

The bride is the daughter of Jana Payne and Lyn Payne, both of Quitaque, and is the granddaughter of G. P. and Betty Driskill of Turkey and Ernestine Payne of Quitaque.

The groom is the son of Terry and Sally Grimland of Silverton and is the grandson of Grace Hutsell of Beach, North Dakota, Riddell Hutsell of Los Angeles, California and Doris Yates of Silverton.

HOPE YOU HAD A HAPPY 65th!

The bride was given in marriage by her parents, and she wore a lovely white satin wedding gown by Sweetheart. The gown had both a Sabrina neckline and a lower sweetheart neckline with a layer of net connecting the two. The bodice was adorned with Venetian lace appliques trimmed with pearls and iridescent sequins. Strings of pearls hung over the keyhole back which was edged with appliques, pearls and sequins. The puffed sleeves were accented with net, lace and pearls. Extending from the puffs were long fitted net sleeves decorated with lace, pearls and iridescent sequins. A candy box bow sat at the back waist, and a wide row of Schiffler lace edged the hem of the full satin skirt. The bride wore a garland of white ribbons, roses and leaves. A curly pouf sat at the back of the garland, and lily of the valley, satin ribbons and pearls fell from the pouf over the fingertip scalloped veil. The bride's bouquet was a spray of white flowers, baby's breath and ribbon.

Lori Conner of Lampasas was maid of honor, and wore a royal blue gown with fitted bodice and full skirt. Her gown was accented with a band of white lace that ran across the shoulders and into a V in back. She carried a bouquet of white and royal blue flowers and ribbon.

Jess Brannon of Silverton was best man.

Jason Payne of Quitaque, brother of the bride, and Justin Vaughan of Dallas, cousin of the groom, were

Friendship Quilters

by Nina Martin

Labor Day weekend was so exciting for me. Polly Cagle and I spent Sunday night with Kit and Lloyd Scott at Panhandle. I had entered some of my new quilts and some old family quilts in the Carson County Quilt Show.

I was thrilled to come home with eleven ribbons and lots of prizes. My whitework quilt that the girls helped quilt won Best of Show.

Last Thursday was a real quilting day. There was a hint of fall in the air and it had rained the night before. Bobbye Bean, Nelda Jasper, Joy Stodghill, Ruby McWaters, Laverne Stephens, Virginia Hardin, Ann Norris worked on Bobbye's Irish Chain and we finished my Christmas Patch quilt.

Sybil and Neil King left Tuesday for a trip to Brandon, Missouri. Wanda and Fred Strange went to Branson for Fred's Army reunion.

Remember, if you have old quilts, there is an aura of love and history around them. It may fade, but never disappears. The young people need to be told these things.

candlelighters and ushers.

Julie Ross of Canyon registered guests.

RECEPTION

A reception was held in the church fellowship hall immediately following the ceremony. Members of the houseparty were Julie Cruz and Brandi Gaddis of Quitaque and Mandy Adams of Canyon.

Following their return from a honeymoon in Ruidoso, New Mexico, the couple is residing in Levelland.

The bride is a soon-to-be graduate of Valley High School, and is both a college and high school student at Texas Tech through Independent Study.

The groom is a 1992 graduate of Silverton High School and is attending South Plains College in Levelland. He is currently employed at Worley Welding Works, Inc.

Luncheon Enjoyed In Otis Home Sunday

Bronc and Amy Otis and boys were hosts for a luncheon Sunday celebrating Grandparents Day and the birthday of Amy's grandmother, Winnie Smith.

Those enjoying the day were Glenn and Winnie Smith, Donnie and Sandy Perkins, Ann West, Brad, Jeannine and J. T. West, Becky, Danny and Ami Beth Dunn, Lynn, Connie and Kristi Smith, Jeff, Sonya and Derrick Smith, Minnie Otis, Silverton; Patti, Magan and Matthew Whittington, Quitaque; Mark Standlee, Floydada.

The afternoon was spent visiting and watching the Dallas Cowboys.

Happy Birthday To . . .

- September 15—Kaylee Self, Cody Craig Patton

**Discipline or Guidance:
 The Choice Is Yours**

Society has encouraged today's parents to be disciplinarians to their children, rather than guides. One definition of discipline is punishment intended to correct or train, according to *The American Heritage Dictionary*. Instead of associating discipline with punishment, we should think of it as

providing guidance to our children so that they are able to function in today's society. Isn't it much easier and more pleasant to learn from following a good example, rather than being punished for doing something that you didn't know was wrong? The purpose of punishment is to teach children how to behave, not simply to penalize them for misbehaving.

Some guidelines to assist parents in

providing guidance for their children are: be a good example, be consistent when enforcing limits, that physical punishment teaches children that hitting is okay, and that verbal abuse teaches a child that he is lazy, stupid, etc. The most effective teaching tool is to reward the child for good behavior when it occurs. It will have much more of an impact than punishing the misbehavior.

Silverton 4-H News

Silverton 4-H members met on Thursday, September 8, 1994, at the show barn. Fifteen members filled out enrollment forms for the new year. Two new members, Lori Griffin and Stormy Brannon, joined the club. Food and Nutrition Project Senior leader is Janinne Brooks, Junior Leader is Tammy Brannon, and Intermediate leader is Bena Hester. Have a great year!

John Deere Unveils Four All-New Tractors

Drawing on input from extensive customer and competitive owner research and more than 70 years of experience in designing and manufacturing tractors, John Deere has developed four all-new 8000 Series Tractor models, ranging from 160 to 225 PTO horsepower. The company says the tractors establish new standards in control, visibility, maneuverability, power, and ease of service in this size class.

The John Deere 8000 Series Tractors include the 160-horsepower 8100, 180-horsepower 8200, and 200-horsepower 8300, which replace the 4560, 4760 and 4960 models in the product line. The largest model, the 225-horsepower 8400, provides the most PTO horsepower and hitch lift capacity of any row-crop tractor in the industry.

The tractors feature a John Deere-designed-and-manufactured powertrain. They use proven electronic technology to provide fingertip control of the transmission, SCVs, PTA, and hitch; precise engine performance; self-diagnostic capabilities; and complete compatibility with options like row guidance and electrohydraulic depth control. The chassis design is so innovative and unique that it is patented. It gives these tractors the

W. D. Rowell and Dave Wederski were showing the new 8000 Series Tractor to David Tipton and Rance Young Tuesday during the Briscoe Implement Open House.

Briscoe County News Photo

shortest turning radius (17 feet) in narrow rows of any competitive MFWD tractor in this size class.

One of the most distinctive features of the tractors is the CommandARM

that places the controls for the transmission, throttle, SCVs, hitch, and PTO in the armrest of the seat for convenient fingertip operation.

The secondary tractor controls and the vehicle monitor are located on the right-hand console, within easy view and reach of the operator. The monitor can display diagnostic codes directly to the operator—a first in John Deere tractors. The codes are explained in the operator's manual.

The 8000 Series CommandView cab provides unobstructed visibility to the front tires, over the hood, to the sides, and to the rear hitch with 62 square feet of glass area. The cab has 65 percent more interior volume than the 60 Series SoundGard4 Body. The fully adjustable air suspension, swivel seat and automotive-style ventilation

system enhance operator comfort.

The model 8100, 8200 and 8300 are powered by a six-cylinder 7.6-liter John Deere diesel. The 8400 features a new six-cylinder 8.1-liter Deere diesel. Both engines have a 40 percent PTA torque rise and feature air-to-air intercooling for increased performance. Both meet 1996 emissions standards.

The engines feature an electronic governor, an exclusive in this tractor class, that provides precise, consistent engine performance. The tractors develop as much as a 10 percent PTO power bulge within the constant power range for additional horsepower (above rated power) to pull through tough spots. The electronic governor also provides a Field Cruise® feature that works like the cruise control on an automobile for maintaining a consistent ground speed in light-load operations.

All four models use the same 16-speed forward x 4-speed reverse full-power shift transmission manufactured by John Deere in Waterloo, Iowa. The electronically-controlled transmission provides eight gears in the working range, evenly spaced at one-half mile-per-hour (13 percent) increments to easily match ground speed to the field operation for optimum productivity and fuel efficiency.

The effect of this summer's drought is now evident across the High Plains as yield potential, especially in dryland cotton, continues to plummet.

Lubbock-based Plains Cotton Growers reports that a unique situation faces many producers in 1994 because of drought and the rapid accumulation of heat units during the summer months. This combination has teamed to accelerate maturity of the dryland crop and bring about an earlier-than-normal harvest window for producers.

In order to expedite the process of getting the 1994 dryland crop out of the field, PCG and various agencies, along with representatives from the Federal Crop Insurance Corporation and area crop insurance companies, have coordinated efforts to clarify options open to producers who have crop insurance.

Producers have several options open to them under current crop insurance procedures that will allow the early termination and harvest of the 1994 crop. The following is a brief rundown of the guidelines:

First: Boll Count Method of Appraising yield.

Option A--Contact crop insurance agent to request a boll count method of appraising yield. The boll count method estimates yield by counting both green and open bolls.

Option B--To increase the accuracy of the boll count method, producers can choose to wait until most of the bolls are open or, once the crop is mature, apply a harvest aid to the entire field or just to representative strips within the field. Producers are encouraged to check with their insurance agent to determine the size and number of strips required by their policy. Waiting for the bolls to open or use of harvest aids should increase the accuracy of the boll count method.

Second: Test Strip Method of Appraising

If the producer is unsatisfied with the yield estimate from the boll count method, he can choose to harvest, gin and class bales from representative strips through the field. This data can then be submitted to increase the accuracy of the yield estimate applied to the field and also provide an estimate of quality loss.

Destruction of portions of the field not included in the test strips should be postponed until the entire field has been released by the appraiser. If the field is released by the appraiser and the producer decides to destroy the crop, the producer should then contact the county ASCS office to file an application for disaster credit.

Third: Harvest Entire Field

Many producers may prefer to harvest the entire field to determine precisely the yield and quality of the crop for insurance purposes.

Individuals who decide to harvest their entire acreage under option three are reminded that even though they have harvested everything they need to have the field released by their insurance carrier before beginning any tillage operations.

"Producers need to recognize when making decisions about this year's crop that by bringing the crop in early they create a win-win situation for themselves," says Extension Cotton Specialist Kater Hake. "Early termination of the 1994 crop will provide a two-fold benefit. Producers will be assured of harvesting the highest quality lint possible and also

have the opportunity to catch and store September and October rainfall for next year."

Hake adds that recommendations for harvest aid applications are now being put together to give producers the most cost effective treatment alternatives under different conditions.

A copy of these guidelines will be available from County Extension Offices as well as PCG.

Preparations are well underway for the start of PCG's 1994 High Plains Boll Weevil Diapause Control Program, according to Lubbock-based Plains Cotton Growers.

PCG officials announced a few days

ago that Kubin Air, Inc. of Bovina was awarded the 1994 aerial spraying contract with a bid of \$5.16 per gallon of chemical applied.

Kubin Air, Inc. will provide seven turbine-powered aircraft for the program, each equipped with a satellite-based guidance system from Satloc, Inc. of Casa Grande, Arizona. Satloc's satellite-based global positioning system was specified as a requirement for the 1994 contract to provide parallel tracking and record-keeping for program operations.

"The 1994 program will kick off September 27," said Roger Haldenby, PCG Boll Weevil Program Coordinator. "Weevil pressure has been high again this year following yet another mild winter; however, the dry, hot summer conditions have helped some."

Trap catches show weevil numbers are currently below levels seen in 1993. This is good news for the 1994 program but not much comfort for some producers who have seen more boll weevil activity in the past two years than they remember seeing before.

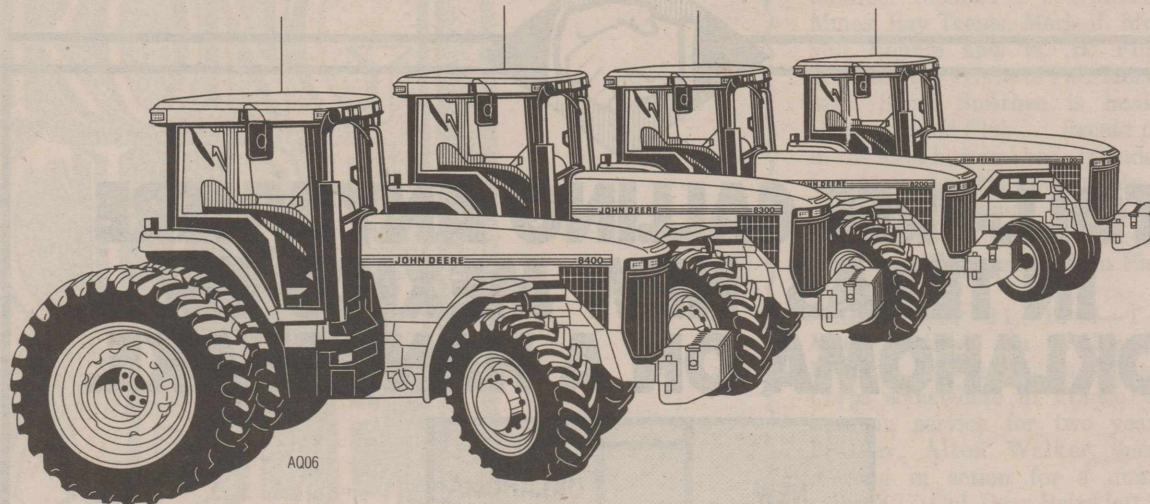

"Weather records were shattered in July '94 with temperatures soaring to as much as 119°F," adds Haldenby. "Boll weevil numbers in 1993 similarly broke records across our area bringing home to us the desperate need for a cold winter to aid us in the fight against this terrible pest."

Wayne Huffaker, Chairman of PCG's Boll Weevil Steering Committee, commented, "PCG is pulling out all the stops again this year in the battle against the boll weevil. 1993 was the largest, best effort in the program's history. We will do what it takes again this year and pray for a cold winter. The South Plains cannot afford to lose this battle."

JOHN DEERE

Introducing the all-new John Deere 8000 Series Tractors

- Four all-new models: 160-hp 8100, 180-hp 8200, 200-hp 8300, and 225-hp 8400.
- Revolutionary new CommandARM (armrest module) puts all major tractor functions in the palm of your hand.
- Unprecedented visibility with 62 square feet of curved, tinted glass.
- Tightest narrow-row MFWD turn radius for high-horsepower tractors.
- All-new, ultra-efficient 16-speed Power Shift transmission.
- New high-torque 8.1 L and 7.6 L engines with exclusive electronic engine control.
- Over 15,000-pound optional hitch-lift capacity on two largest models; over 14,000-pound hitch-lift capacity available on two smaller models.
- Exclusive TouchSet™ hydraulic-control panel lets you set rate and flow from your seat.
- Exclusive John Deere Field Cruise™ engine control ensures uniform seeding, chemical incorporation, and seedbed making.

21ST CENTURY TECHNOLOGY TODAY

—OBITUARIES—

D. A. (BILL) WILLIAMSON

Graveside services for David Alexander (Bill) Williamson will be conducted at 10:30 a.m. today (Thursday, September 15) in the Silverton Cemetery. Arrangements are being made by Myers-Long Funeral Directors.

Mr. Williamson died Sunday, September 11, at the University Medical Center in Lubbock. He had been receiving treatment in the burns unit since accidentally catching his shirt on fire at his home here. He underwent surgery a few days before his death.

Mr. Williamson was born July 7, 1910, in Montague County, Texas. He first moved to Silverton in the early 1930s, and he married Emma Irene Rhea here in 1934. Mrs. Williamson preceded him in death in 1992.

Mr. Williamson worked for Greyhound Buslines in Dallas for a

number of years before moving back to Silverton with his family in 1952. He also managed a local grain elevator and cotton gin and was engaged in farming before his retirement.

Survivors include two sons, Bill Jack Williamson of Olton and Jerry Wayne Williamson of Boone, North Carolina; four grandchildren, Mark Layne Williamson, Susan K. Williamson, Carol Lynn Wilkinson and Jackie Lee Williamson; one great-grandchild, Kristen Williamson, and a nephew, W. T. Fitzgerald.

In lieu of flowers, the family suggests that donations be made to the Silverton Volunteer Ambulance Service, P. O. Box 66, Silverton, Texas 79257.

BERTHA SELF

Funeral services for Bertha Self, 94, of Tulia were conducted at 10:30 a.m. Friday at Wallace Funeral Home Chapel with Nelson Howell, minister of

the Tulia Church of Christ, officiating.

Burial was in Rose Hill Cemetery. Mrs. Self died Wednesday, September 7, at Swisher Memorial Hospital. She had resided at the Tulia Care Center for a number of years.

She was born October 28, 1899 in Wise County, and was one of the ten children of Steve and Mary Cantwell, who first came to Briscoe County in 1918. She married Raymond Self November 27, 1919 in Briscoe County. He died September 21, 1967. She was a member of the Church of Christ and was a homemaker.

Survivors include a son, Steven of Canyon; a daughter, Fama Coats of Belen, New Mexico; a brother, Earl Cantwell, of Silverton; two sisters, Versie Woodward of Farmer's Branch and Verdine McLean of Lampasas; 11 grandchildren; 19 great-grandchildren, and five great-great-grandchildren.

Pallbearers were Charles McClure, Carl McClure, Frank Self, Gary Bennett, Mike McClure, Fred Arnold and Elton Cantwell.

Silverton Public Library News

New books are being added to the shelves of the Silverton Public Library, which is located in the basement of the Briscoe County Courthouse. It is open Tuesday mornings from 8:30 until 11:30, and Tuesday and Friday afternoons from 2:00 until 5:00.

New books include:

"The Amazing Armadillo" — Geography of a Folk Critter — by Larry L. Smith and Robin W. Doughty. Perhaps no creature has so fired the imagination of a populace as the armadillo — that most ungainly, awkward, and timid little animal. Its detractors call it a varmint or a vermin and wish it good speed from the Lone Star State. Its supporters claim the armadillo is truly Texas: tough, pioneering, adaptable, and generously sharing its habitation with others.

"Meridan," by Phillippe Gregory. Meridan knew she didn't belong in the dirty vagabond life of a gypsy. She dreamed of riding a great horse across wheat-rich fields and graceful gardens of one of England's ancient estates. This is the third book in the "Wideacre" trilogy.

"Max," — a novel by Howard Fast is the story of the tycoons who created and built the motion picture industry — not in Hollywood, but in New York City at the turn of the century.

Visit your public library soon!

New books given to the Silverton Public Library include:

"Stagecoach, Station 48, Buffalo Station," by Nate Yeager. This is the story of an honest man put away for a crime he didn't commit. To clear his name and put his brother's memory to rest, he must bring back one of the West's most notorious killers — alive. No easy job when the hunter has become the hunted.

"Stagecoach, Station 49, Gila Bend," by Hank Mitchum. When they headed for Gila Bend, they headed for trouble. Among the characters is Rado Kane, the infamous gunfighter hired to end a feud between two families in Gila Bend. Pitted against the ruthless Jack Sanders, Rado knows the price of peace will be blood — and lots of it.

A new book by Rosamundi Pilcher, "The End of Summer." Sitting on a California beach at summer's end, Jane Marsh thought back to her childhood at the estate called Elvis in a remote corner of Scotland. She remembered not only the heather-covered hills and lonesome loch, but her grandmother, and of course, Sinclair. Now an urgent visit from her grandmother's lawyer would become the catalyst for her return to Scotland.

Library hours are Thursday morning from 8:30 to 11:30, and Tuesday and Friday afternoons from 2:00 until 5:00.

Coming And Goings

Dora Bell Perkins is a patient at High Plains Baptist Hospital in Amarillo. Becky Dunn spent Monday with her grandmother and reports that she is improving.

Joe Gallington was transferred from the Lockney hospital to High Plains Baptist Hospital in Amarillo Tuesday. The doctor says he had another heart attack last Saturday.

TOLL-FREE CALLING ANYWHERE IN TEXAS, NEW MEXICO OR OKLAHOMA ON A HANDSHAKE.

Toll-free calling!

With Digital Cellular, you can call anywhere in Texas, New Mexico or Oklahoma from Digital Cellular's home service area without paying any long distance charges! You pay only the regular air time rates! So whether you're on a tractor near

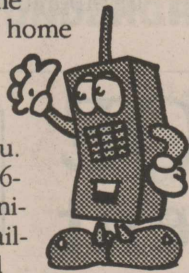

Tahoka or in a car close to Cone, Digital Cellular puts you on the line in all three states for just pennies a minute! (Toll-free calling is available to all callers, including non-Digital Cellular customers.

No Long-term Contracts. No Hassles. No Problem.

If the only thing holding you back from experiencing the convenience of cellular phone service is the fact that you have to sign a long-term contract, then Digital Cellular is for you! Just tell us what type of service you want, and we'll get you started! No long-term contract is required. Take advantage of Digital Cellular's many features and services just as long as you want. And what a range of services. Take a look!

OPTION2.

If you use your cellular phone regularly then Option2 could be just the thing for you! With Option2, after you have talked just 120 minutes from your home system in a given month, every home minute for the entire month, from the first minute to the last, is charged to you at only 25¢! That's big savings to you. You also get free services, like 6-Second Billing (one-minute minimum on completed calls), Detailed Billing, Call Forwarding and Call Waiting, 3-Way Calling and many, many others! Plus, Option2 customers get Voice Mail free! Also free to Option1 customers are 6-Second Billing, Call Forwarding and Call Waiting, and 3-Way Calling!

EXTENDED COVERAGE.

We've extended our call delivery area to include most of the South Plains and part of West Texas. You can receive calls throughout the entire Digital Cellular Coverage Area, without having to activate or pay for any special roaming services. No more roaming charges, roaming access numbers or additional daytime tolls when receiving calls while traveling in the extended coverage area!

**GOD'S LOVE HAS PAINTED THE
 BRILLIANT COLORS OF AUTUMN**

The heat of summer's on the wane
 And cooler breezes fill the air.
 Though sunny days will still remain,
 We soon will see the branches bare.
 But first, the beauty to behold,
 Of this, the climax of the year;
 With leaves that turn to red and gold
 Before they fade and disappear.
 For whether maple, elm or oak,
 Or other kinds, they turn to brown;
 And soon, the pungent smell of smoke
 Will prove they all came drifting down.
 The lessons of our chosen creed
 Are there to help us understand
 The love that God displays, indeed,
 When autumn's beauty paints the land.

CARDS OF THANKS

Thanks to everyone for the prayers, calls, cards, letters and food while I was in the hospital and since I have been home.

Special thanks to the ambulance crew; they are the finest.
May God bless you,
Fern Holt

We are deeply grieved by the passing of our loved one, but the many manifestations shown by our relatives, friends and neighbors is a source of comfort.

We appreciated your thoughtfulness, caring and words of encouragement when the prognosis was not good.

Words are inadequate in expressing our appreciation to those that we relied upon so often and were so helpful and assisted us through the years in our time of need. You made a difference and we owe each a sense of gratitude.

We were overwhelmed by the outpouring of love, the beautiful memorial service, floral offering, memorials, monetary gifts and other expressions of sympathy.

Our special thanks to those who prepared food and those who served the delicious noon meal.

We accept the above as a token of love and friendship and may the Lord prevail upon the good people of this community.

We shall always be grateful.
Our love and sincere thanks,
Scotty Harris
Shelly Harris
Mary John Harris

I would like to thank the Briscoe County Farm Bureau for sending me to the A&M Fire School.

The support of local volunteer fire departments by Farm Bureau is appreciated very much by all of us.
Tom Justice

STONEY—PERSERVERENCE has finally enabled me to announce victory over you—6-3, 6-2, 7-5. My limited skills and "age" have caused my sons to forget who taught each of you the game. I can accept all future defeats with grace, Love, Mother. 37-1tp

Our thanks to the Volunteer Fire Department for putting out our grass fire south of town on September 1 or 2.
Buck and Virginia and
Gene and Gayle Hardin

LEGAL NOTICES

NOTICE TO ALL PERSONS HAVING CLAIMS AGAINST THE ESTATE OF OLIVER WARE, DECEASED

Notice is hereby given that original Letters Testamentary for the Estate of Oliver Ware, Deceased, were issued on the 6th day of September, 1994, in Cause No. 1327, pending in the County Court of Briscoe County, Texas, to:
