## TOUGH FOOTBALL SCHEDULE PLANNED

### Haskell Indians to Face Hard Battles Latter Part of Season

Only one date, October 18, is now open on the Haskell Indian football schedule for 1935, according to Coach Bill Richey, and efforts are now being made to bring a good team here for the benefit of Central West Texas Fair visitors.

Conference 13-B was split into two sections at the close of last season, and is now called Region 2, district 6. Additional teams brought into the fold of both the eastern and western sections. Rule, Munday and Rochester are new members of the eastern section.

Winners of respective sections will play a game at the close of the season to determine the full conference champion.

Rule will open the local season here Sept. 13 and Stamford at Stamford will wind up the schedule unless the Indians should win the eastern championship.

## Haskell-Rule Highway Through

The completion of the highway work from Haskell to Rule on 120 is expected either tonight or Friday, according to county officials, and work will then be commenced on highway 16 south of Rule to connect with 18 between Sagerton and Stamford.

An asphalt top, with a rock base, is being placed on the roads. Work has again been resumed on the grade and drainage structures on 120 east from Haskell, after a short delay. Contract for work on a seven-mile stretch on this road was awarded several months ago.

The finishing of 120 from Haskell to Rule gives Haskell all-weather roads north, northwest, west and south.

The three-room farm home of Quitman Gentry, located near the city limits southwest of Haskell, was destroyed by fire of undetermined origin late Thursday night.

Mr. and Mrs. Gentry were away from home at the time, and neighbors aroused by the flames were unable to save only a small portion of household effects. Haskell fire department, called to the scene, was unable to be of assistance. Loss is partially covered by insurance.

Mrs. Barton Welsh returned from Houston Wednesday after a three-week visit with her parents, Mr. and Mrs. J. E. Robertson.

## COTTON CONTROL PROGRAM RAISES FARMERS INCOME

Extension Service Reports Show Income Is Half Again As Large

### Are Official Figures

**COLLEGE STATION.**—The cotton income of Texas farmers in 1934, one of the poorest crop years in history, was almost half again larger than in 1932 before the adjustment program started, according to complete official state and county three-year cotton figures just received by Texas A. and M. College Extension Service from the Agricultural Adjustment Administration.

Farm value of Texas cotton last year, not including benefit payments, was more than 32 million dollars larger than in 1932. Benefit payments designed to bring cotton prices more nearly into line with industrial prices in normal years acted as farmers' crop insurance last year by adding \$34,132,325.09 to the cotton income. This does not include about nine million dollars' worth of unsold Bankhead certificates in farmers' hands.

Total farm value of Texas cotton was \$158,343,000 for 1932; \$297,964,166.67 for 1933-34; and \$224,779,307.61 for 1934-35, exclusive of unsold Bankhead certificates. The farm value of line and seed for 1933 and 1934, exclusive of benefit payments, was \$235,508,000 and \$190,646,982.52 respectively, compared with \$158,343,000 in 1932.

Averaging the increased income to farmers since the beginning of the adjustment program, Texas has received an average of slightly over 100 million dollars more per year for its cotton under the new order than was received in 1932. The increase was almost equally divided between increased market price, due partly to the adjustment program, and the benefit payments derived entirely from processing taxes.

The farm value of lint and seed given in this report is based upon yield and price figure furnished by the United States Department of Agriculture. Benefit payments include those made to April 30, 1935.

## BRAVES TO BATTLE FAST HAMLIN TEAM

### Local Lads go Through Hard Workouts this Week; Gaut Hambricht May Return

Revamped, rejuvenated and literally spoiling for a battle, the Haskell Braves will tangle with the Hamlin Pied Pipers here Sunday afternoon and will make a desperate attempt to knock the present league leaders off the perch.

Hamlin's record for the second half is perfect. The team has not lost a game, which is a contrast to the showing made by the Braves, who have won only one game, but the local lads have been put through their respective paces this week by Manager O. W. (Mack) Maloy and are in the best condition since the close of the first half.

Gaut (Lefty) Hambricht, ace one-armed heaver, who pitched the Braves into the first half pennant may be able to arrange his affairs in Kansas to be back here Sunday to pitch against the highly-touted Pied Pipers. Gaut would like to hurl the encounter Sunday and be ready for the playoff.

An attempt will be made to secure another hurler of known ability by the Haskell club later.

The Braves have always played bang-up baseball against the Hamlin club, which boasts of many 300 hitters, and the boys are getting set to give baseball fans in this section their best Sunday afternoon—to show that the winning of the first half was no fluke and to down any stories that they cannot play good baseball.

## H. F. Grindstaff Slightly Injured In Auto Accident

H. F. Grindstaff, prosecuting attorney for the 30th Judicial District, suffered a badly lacerated knee and a cut across the forehead, when his car went into a ditch on a sharp turn, on the detour road between Haskell and Rule last Saturday morning.

In the car with Judge Grindstaff were his niece, Miss Ava Grindstaff of this city; Miss Jo Bullock of Alperment and Miss Polly Ann Walker of Tahoka, niece of Miss Bullock's. All the occupants of the car were badly shaken and bruised when the car hit the embankment. The car did not turn over.

Judge Grindstaff and Miss Bullock were carried to a Stamford manitarium for treatment. Miss Bul-

## Prize Rural Writer

Mrs. Mary Elizabeth Mahnkey of Oasis, Mo., a tiny village of 27 inhabitants, has just been awarded first prize as the best country newspaper correspondent in the country. The prize is awarded annually by The Country Home, a national farm magazine. She was considered the best of 1581 contestants for the award.

## FARMERS OF 21 COUNTIES RECEIVE OVER \$4,000,000

### Haskell County Farmers Given Large Share of AAA Appropriation

Farmers of 21 counties in this section of West Texas received \$4,303,643.74 in cash payments from the United States treasury in 11 months ended May 31 this year as benefits under provisions of the agricultural adjustment act, principally for participation in the cotton control program.

Cotton payments for the eleven months represented \$3,713,747.25 of the total paid while wheat contract signers received \$44,407.26 and corn-hog contract signers \$263,978.06.

These payments represented an average of more than \$13 per capita of all population, as listed in the 1930 federal census.

Runnels county's benefits reached the highest figure of any of the counties—\$399,715.12. Haskell was second with \$390,548.25; Dawson third \$359,691.23; Jones fourth, \$338,940.07. Other counties received the following totals: Callahan \$94,373.56; Coke \$64,543.25; Coleman \$285,554.46; Dickens \$211,854.04; Eastland \$44,877.63; Fisher \$233,829.20; Howard \$172,761.55; Knox \$247,794.26; Martin \$147,883.54; Midland \$81,620.97; Mitchell \$219,801.86; Nolan \$128,939.44; Scurry \$222,088.37; Stephens \$17,488.49; Taylor \$296,734.47; and Throckmorton \$43,541.74.

The \$316,896.49 distributed in the 21 counties to wheat and corn-hog contract signers was distributed as follows: wheat, Callahan \$7,330.55; Coleman \$6,992.57; Dickens \$6,779.84; Jones \$4,181.43; Knox \$3,595.96; Mitchell \$139.38; Nolan \$2,255.15; Runnels \$2,733.93; Shackelford \$4,097.76; Stephens \$3,114.78; Taylor \$6,019.21; Throckmorton \$5,797.87.

Corn-hog benefits: Callahan \$15,853.24; Coke \$2,791.82; Coleman \$20,234.09; Dawson \$36,455.83; Dickens \$12,998.81; Eastland \$20,701.11; Fisher \$9,733.21; Haskell \$17,791.19; Howard \$2,436.15; Jones \$19,582.75; Knox \$14,916.93; Martin \$5,356.64; Midland \$13,130.13; Mitchell \$601.12; Nolan \$7,085.97; Runnels \$15,415.02; Scurry \$10,233.45; Shackelford \$4,089.90; Stephens \$9,044.43; Taylor \$22,833.13; Throckmorton \$4,206.36.

Payments to farmers of other West Texas counties included the following: Baylor \$99,140.49; Brown \$130,477.19; Concho \$203,677.32; Crosby \$358,278.54; Dallam \$266,315.86; Deaf Smith \$393,949.28; Floyd \$315,400.18; Garza \$107,295.90; Hale \$373,102.64; Hall \$394,773.19; Lamb \$665,677; Lubbock \$547,610.57; Lynn \$481,485.35; McCulloch \$187,900.61; Motley \$169,272.91; Dickens \$211,854.04; Potter \$94,964.16.

Nueces county led the state, receiving \$1,027,336.43. Ellis was second, \$708,622.78; Navarro third with \$707,371.62; Williamson fourth, \$687,111.72; Collin fifth \$640,690.63.

## MRS. L. A. HILLIARD DIES IN THE ROSE COMMUNITY

Mrs. L. A. Hilliard, 83, died at the home of a son, M. E. Hilliard in the Rose community this afternoon at 2 o'clock. The deceased had been a resident of Haskell county for more than 30 years. Funeral arrangements which will be in charge of J. H. Kinney of the Kinney Funeral Home have not been completed this afternoon.

lock remained in the manitarium until Monday, where 18 stitches were required to close the wound on her forehead. Judge Grindstaff was released soon after first aid treatment was given.

## DATES FOR HOLDING OF HASKELL JUBILEE IN FALL OCT. 16-19

RAINFALL IN JULY IN HASKELL SO FAR IS 1.53 INCHES; 22.54 FOR YEAR

Showers during the past few days in Haskell brought the rainfall for July to 1.53, and 22.54 for the year, according to the gauge maintained by H. S. Post. A downpour amounting to .60 inches fell Saturday, 70 Monday and 23 inches has fallen at intervals since.

No rain was especially needed for the cotton, but farmers welcomed the moisture for all types of feed crops.

## 20 Farm Club Women of Haskell At Short Course

Twenty women and girls from Haskell county will attend the annual A. & M. Short Course July 28 to August 2. These women will be allowed to take certain courses that they are especially interested in. Intensive training will be given in the following courses: Making Purses and Moccasins; Making Soil and Potting Plants; Making Mattresses; Natural Dyes and How to Use Them; Recreation and Poultry Culling. Each woman attending will be responsible for bringing back the information that she gets to the club members of the county.

There will be many other exhibits and demonstrations, which all of the people will be permitted to visit and take notes on. Special courses are arranged for the men, boys and girls, besides the ones for the women.

The Haskell county group will leave July 28, at 6 a. m., in the Weinert school bus. The following will attend: Mrs. J. A. Landas, Mrs. H. H. Hisey, Howard; Mrs. V. A. Vannoy, Mrs. J. P. West, Lavern West, O'Brien; Mrs. Bill Schwartz, Mrs. J. B. Edwards, Josslet; Mrs. Geo. Ballard, Mrs. C. H. White, New Mid; Mrs. Ben Bruton, Cottonwood; Mrs. J. R. Rice, Bunker Hill; Mrs. Jack Spears, Rose; Miss Maud Newberry, Hutto; Miss Nora Walters, Blue Bonnet; Mrs. Ino. Baugh, New Cook; Mrs. Jesse B. Smith, Mrs. Virgil Bailey, Midway; Miss Ruby Stodghill, Rose 4-H Club; Bonnie Dell Hisey, Howard 4-H Club; and one girl from the Josslet community.

## New Variety Store to Open Here Soon

Newest addition to Haskell's growing list of business enterprises will be a "Ben Franklin 5-10-25c Store" which will open around August 15th in the Alexander building on the south side of the square.

Owners of the venture will be Mr. and Mrs. Hollis Atkinson and Mrs. Carrie Williams, all of Haskell. Active management of the store will be in charge of Mrs. Williams and Mrs. Atkinson.

Carpenters have been at work for the past week remodeling the interior of the building and constructing an entirely new store front. Fixtures for the store are expected to arrive within the next few days.

"Affiliation with the nation-wide Ben Franklin organization of home-owned stores, of which there are approximately 4,000 in the United States, will enable the Haskell store to benefit from the immense buying power of the group," Mr. Atkinson explained. This will be reflected in a very low range of prices on first-quality merchandise, he added.

Orders have already been placed for a large stock of merchandise, the owners state. Announcement of the formal opening date of the store will be made shortly.

## Miss Madge Leon Wins Top Honors at Camp Waldemar

KERRVILLE, July 24.—Miss Madge Leon, daughter of Mr. and Mrs. H. S. Leon, Haskell, won all-star honors at Camp Waldemar for the first term, which closed July 20. She was awarded a Waldemar "W" and left star for earning the maximum number of points toward all-star. Because of her dancing ability, particularly in ballet, she was awarded a silver medal in dancing by Mrs. Bertha Lacey, Corpus Christi, the head of the department of dancing. Miss Leon has appeared on a number of programs at Camp Waldemar and she had the most prominent part in the sea shell ballet in the Fourth of July pageant.

Miss Leon rode in the English division in the grand parade which opened the horse show, one of Waldemar's big attractions on closing day.

More than 60 campers were mounted on Waldemar's paint ponies. Miss Leon has returned to her home in Haskell.

## Plans Now Being Mapped Indicate Celebration Will Eclipse Previous Fairs

### Pioneers Honored

The Central West Texas Fair will be held from October 16 to 19, so fair officials decided in a meeting last week.

Plans now being laid indicate that the celebration will truly eclipse anything held in this section for years.

Although broadened last year to interest more than just Haskell county people the 1935 fair will be augmented in interest for many, so officials believe, on account of the Golden Jubilee celebration in this county. Haskell county was actually recognized as a county in 1835.

Under the direction of Roy A. Sanders, parade chairman, recognition of a fitting nature will be paid to all old settlers whether they actually reside in this county or elsewhere. Pioneers of Central West Texas will be invited to Haskell to participate in the jubilee affair which will commemorate this section's early citizens.

Neighboring towns will be asked to send girl sponsors to the Golden Jubilee celebration, and each representative will be assigned a part in the colorful pageant. Sponsors have not been given a part in Haskell's fair for several years, but the custom will be revived and placed under the direction of Dr. T. W. Williams.

A multiplicity of entertainment will be arranged for fair visitors, plans of fair officials indicate.

Night football games, possibly a street dance, soft baseball tournament, a modified rodeo and horse races with pari-mutual betting are only a few of the "stunts" contemplated. A full four-day celebration is in prospect.

As usual, exhibits of livestock, poultry and all types of farm produce will be the main attraction around which the fair proper will be built. With crop prospects much better than in years, it is hoped that exhibits will be sent here from counties as far away as 200 miles. Several displays were here in 1934 from distant sections.

Exhibit premiums will be raised on practically all featured displays. The fall racing program has been outlined and purses placed at figures estimated to draw good horses, and the racing committee, composed of Walter Murchison, Hill Oates, O. W. Maloy and Eugene Tonn, have arranged plans for a four-day meet, five races daily.

Rice Springs Park, where Haskell's races are held, and the entire fair grounds, which have been arranged to take in more space, are being placed in shape.

## M. D. Smith Held on Liquor Charge; Bond Set \$1,500

Charged with transporting intoxicating liquor for purposes of sale, M. D. (Pie) Smith, 24, Haskell, was placed under \$1,500 bond here Monday morning by Justice R. H. Davis. Smith was returned to jail, and the case will await the action of the September grand jury.

According to Sheriff Giles Kemp, he had received information that Smith would transport whiskey last Friday from Throckmorton county, and accompanied by Chief Deputy Mart Clifton. Kemp waited on the road until the accused man drove into Haskell county. Fifty-four half-gallon fruit jars of "old-fashioned corn" were found in the car, Kemp testified.

## County Agents of District 2 Hold Meeting in City

County agents, their assistants and several committeemen from the east end of district two met in Haskell Monday to receive instruction in cotton compliance and to report progress of the regular county program. O. G. Tomlinson, district agent, and W. B. Chesser, Haskell agent, were in charge of the meeting.

Representatives were present from the counties of Clay, Archer, Young, Stephens, Shackelford, Jones, Swisher, Scurry, Throckmorton, Stone-wall, Kent, Baylor, Knox, King and Haskell.

Mr. and Mrs. W. B. Riley and son R. T. of Miami, Ariz., are visiting relatives here.

day. More than 60 campers were mounted on Waldemar's paint ponies. Miss Leon has returned to her home in Haskell.

**Morning Bridge Party in Courtney Hunt Home**  
 Mrs. Courtney Hunt and daughter Miss Madeline entertained with a most delightful bridge party Tuesday morning at their home. Daisies and zennias combined with greenery and potted plants, were used throughout the entertaining rooms, which added to the attractiveness, where ten tables were arranged for games of contract. After the games Mrs. Earnest Yeatts was presented with high score prize and Mrs. Ralph Duncan second high. The refreshment plate consisted of chicken salad, potato chips, smacks, ice-cream cookies, pickled peach, with iced tea. Guests were: Mesdames Earnest Yeatts, Ralph Duncan, Hollis Atkinson, Tom Davis, Virgil Reynolds, French Robertson, Theron Cahill, W. G. Forgy, Jno. P. Payne, Wallace Cox, Hill Oates, Clay Smith, John Rike, Foster Davis, Lynn Pace, Raleigh Lemmon, M. P. Wilson, Rule: Marvin Post, C. V. Payne, Bert Welsh, J. D. Montgomery, Virgil Meadors, A. H. Wair, Ben Bagwell, Dennis Ratliff, P. M. Baldwin, B. C. Chapman, Roy Sanders, C. E. Baker, Jno. Oates, Guy Mays, Server Leon, Jno. V. Davis, Misses Frankie Brooks, Mary Couch,

Louise Mullino, Laura Dean, of Anaheim, California, Kathleen Mullino, Mary Kimbrough, and Mildred Shook.  
**Frazier-Exley.**  
 The wedding of Miss Ollie Frazier and Mr. Joe Kelley, Jr., was solemnized in the home of Rev. C. C. Dooley of Rule, Texas, Saturday evening, July 20th at seven o'clock. Only a few friends and relatives witnessed the ceremony.  
 Miss Frazier is the daughter of Mr. and Mrs. J. A. Frazier of this city. She was a graduate of the 1933 class of the Haskell High School.  
 Mr. Kelley is the son of Mr. and Mrs. Joe Kelley, Sr., of Rule. He graduated with the 1932 class of the Rule High School.  
 The young couple will make their home in Rule.  
**Sew and Sew Club Meets With Mrs. Holt Eastland.**  
 Mrs. Holt Eastland entertained the Sew and Sew Club last Tuesday in her home. About the middle of the afternoon the special delivery boy brought a package for Mrs. Bob Herren. She signed for the package, thinking it from an aunt, and open-

ing it found to her surprise a box of lovely gifts. After which a refreshment plate of ice cream and cake was served to the following members: Mesdames Carl Arbuckle, Bill Woodson Hudson Pittman, Bob Herren, Wallace Ruff, Rogers Gilstrap, Travis Everett, Jesse Collier, Ernest Wright and the hostess, Mrs. Eastland. Reporter.  
**Weinert 4-H Club Girls.**  
 The last meeting of the Weinert 4-H Club girls met in the home of Berta Mae and Helen Thomas July 23 with eight members and the sponsor present. The president, Miss Eloise Toliver, had charge of the business. Berta Mae Thomas was elected as a delegate for the A. and M. Short Course. Mildred Norton was elected reporter and Muri Lancaster was elected assistant reporter. The hostess then served cake and punch to Alma Josselot, Eloise Toliver, Muri and Louise Lancaster, Mildred Norton, Helen and Berta Mae Thomas and Connie Jo Norton and Mrs. Lancaster.  
 The girls club will act as hostess to the women in the home of Mrs. J. L. Toliver August 13. Reporter.

**Summer Vegetables**  
 Swiss chard combines the best qualities of spinach and celery. It is a clean vegetable and easily prepared. The midrib makes a delicious cold salad when cooked and chilled. The leaves are cooked in a minimum of water like spinach. Here are a few recipes for chard.  
**Braised Chard**  
 Clean and cook the midribs in boiling water for 3 minutes. Drain. Melt 6 tablespoons of butter in a baking dish. Add chard. Turn it on both sides to brown. Season with salt and pepper. Cover. Bake slowly until tender. Remove cover. Sprinkle with grated cheese. Replace in oven long enough to melt and slightly brown the cheese. A very fine summer luncheon dish.  
**Swiss Chard au Naturel**  
 Cook leaves in just enough water to prevent burning. Drain. Shake over fire to dry. Season with salt, pepper and butter. Chop if desired. Serve hot.  
 Squash is another garden favorite which is appearing now on many tables. It is very good steamed.  
**Steamed Summer Squash**  
 Peel and cut 1 medium size squash in large cubes. Wash well. Put in colander over kettle of boiling water. Cover. Steam until tender, about 20 minutes. Lift out. Season highly with salt, pepper and butter. If the butter is melted and browned slightly, before pouring it over the squash, it adds considerably to the flavor.  
**Stuffed Squashes**  
 Cut squashes lengthwise. Remove seed pods. Drop squashes in boiling water. Cook 5 minutes. Lay on paper to dry. Brown 1 onion, minced, in 5 tablespoonsful butter. Add 1 1/2 teaspoonful salt, 1/2 teaspoonful pepper, 1/2 cup bread crumbs. Beat in one egg. Blend well. Fill the squashes. Put in baking pan, close together. Pour about 1/2 inch of water in the pan. Bake about 30 minutes in a moderate oven.  
**Fried Squash, Southern Style**  
 Slice the squash very thin. Place in salt water. Then wipe dry. Sprinkle with salt and pepper. Dip in flour. Then dip in one egg, which has been beaten. Then dip in cracker crumbs. Repeat this process several times. Fry in deep fat. Drain on paper. Serve hot.

from a visit with relatives in the Rose community.  
 Most of the farmers have their crops about cleaned out.  
 A revival meeting will start here, conducted by Rev. H. G. Hammer, on July 31, which will be Wednesday night of next week. We invite everybody to attend and hope to have a good meeting.  
 People are busy hoeing, plowing, cutting feed and the women folks hard at work canning fruits and vegetables.  
**Rochester**  
 A nice rain fell here Saturday and Sunday. Looks as though a big one will come before it's over. If it does, we won't need any more for this year's crops. This part of Haskell county never had better prospects than right now.  
 Mr. and Mrs. Ted Whiteside and his brother, J. R., and family left Monday for Wichita, Kans., where they are spending a few days vacation.  
 Mrs. Herman Bray and daughter Miss Marian and Hermanell of Lubbock are the house guests of Mr. and Mrs. Worth Buckner this week. Mrs. Bray is Mrs. Buckner's sister. Mr. and Mrs. Bob Whiteside visited their son Herman and family at Hamlin Sunday, who is quite sick.  
 Rev. L. E. Frazier and family of Monahans visited their daughter and family last week. Mr. and Mrs. Bob Speck.  
 The Methodist ladies were successful with their bakery sale Saturday. The Baptist revival will begin next Sunday July 28th. The local pastor, J. Lowell Ponder, will conduct the meeting. Everybody is invited.  
 Mrs. J. A. Martindale returned a few days ago from Oakland, Calif., where she spent a few months with her son, Dr. Lee Martindale and family and her daughter, Mrs. M. H. Frederick son and Mr. Frederick. She reports a wonderful vacation, but still glad to know her home is in the Lone Star State.  
 A miscellaneous shower was given in honor of Mrs. Orville Hamilton, nee Miss Violet Atchison in the lovely home of Mrs. A. M. Reeves last Friday.  
 Emma Sue Loe of Spur is visiting her grandparents this week, Mr. and Mrs. W. P. Murphy.

**Auto Output Rises**  
 NEW YORK.—1,537,906 automobiles were produced in the first half of 1935 in the United States and Canada, excluding the output of the Ford company. This is 20 per cent more than the 1,280,609 for the first half of last year, and 48 per cent better than the five year average.  
**Salvage Sunken Gold**  
 LONDON.—Using a suction process, the salvage ship Artiglio has recovered gold bars and sovereigns valued at more than \$200,000 from the liner Egypt, which was wrecked in 1930.

**Howard 4-H Club.**  
 The Howard 4-H Club met in the home of Thelma Landess this week. Miss Ruby Hisey took the place of the sponsor who is away visiting. A demonstration was given on how to hem cup towels.  
 During the evening Miss Ruby Hisey gave the reading, "A Trip to Town" and Miss Joyce Nanny sang "The Old Spinning Wheel" accompanied by Miss Thelma Landess on the piano. Ice cream and cake was served.  
 The next meeting will be with Miss Joyce Nanny on August 24th.  
**Cousins-Baugh.**  
 Tuesday, July 23rd, Miss Aurylene Cousins, daughter of Mr. and Mrs. Al Cousins of this city and Mr. Wayland Baugh of Rule were united in marriage at the Methodist parsonage in Anson with Rev. B. F. Hardy, pastor, performing the ceremony. Mrs. Baugh was graduated from the Haskell high school with the 1933 class. Mr. and Mrs. Baugh will make their home in the New Cook community.  
**Billy Kemp Feted on 12th Birthday.**  
 Mrs. Giles Kemp was hostess to a number of boys honoring her son, Billy, on his 12th birthday July 17. After a number of games were enjoyed on the lawn, sunshine wafers and ice cream cones were served to James and Dawe Breedlove, Bob Pete McIver, Ben and Billy Clifton, Sam Hugh Smith, James Reynolds, Douglas Smith, David Patterson, Tommy Davis, Jack Allen, Billie Cooper, J. E. Reeves, Jack Morris, Stanley Smith, Roy Reynolds, Dan Oates, and the honoree, Billy Kemp.  
**Contract Bridge Club.**  
 Mrs. Bert Welsh was hostess to members of the Contract Bridge Club Tuesday afternoon. At the conclusion of the series of games refreshments were served. Mrs. Virgil Reynolds was given the prize for highest score. Those present were Mesdames Ralph Duncan, Clay Smith, B. C. Chapman, J. L. Odell, Jr., Raymond Leggett, W. H. Atkinson, Roy A. Sanders, W. **Kitchen Kinks**  
**To Clean Vases**  
 To clean glass water bottles or vases put some crushed egg shells and water in them. I let them stand a while and shake vigorously and then rinse well.  
**Cheesecloth for the Kettle**  
 To keep a crust from forming in the teakettle, I clean it well, then keep about one-half yard cheesecloth tied in a loose knot in the kettle. The crust forms in the cloth and is discarded and replaced as necessary.  
**To Clean Zinc Table Tops**  
 I cleanse my zinc covered tables and cabinet tops by rubbing them with a cloth on which a little gasoline is poured as needed. I find this more effective and less effort than scouring.  
**Howard**  
 The crops are very pretty in this community but a good rain would be appreciated.  
 The Baptist meeting begun last Friday night with Rev. H. J. Hammer doing the preaching.  
 Several ladies from this community attended the Club Encampment at Haskell last week, and many are planning now to attend the meeting in Knox county next year.  
 Miss Oleta Wells is visiting in Lipan, Texas.  
 Mr. and Mrs. J. A. Landess and family spent the week end in Seymour.  
 Mr. and Mrs. W. F. Wells and family have been visiting relatives and friends in Sweetwater.  
 George Kinney of Haskell visited in this community, Sunday evening.  
 Mrs. H. Hisey and children attended church at Lindsey Chapel Sunday.  
 Mrs. H. Hisey, Mrs. J. A. Landess and Miss Bonnie Dell Hisey will leave Sunday for College Station where they will attend the summer short course.  
**Curry Chapel**  
 This community received a good shower of rain Saturday afternoon which will help feed and cotton.  
 We held Sunday School Sunday morning but no preaching. Bro. Jones of Haskell preached a good sermon for us Sunday night. Services scheduled for Saturday night were postponed because of the rain.  
 Mr. and Mrs. Elmer Gossett of Abilene spent the week end with Mr. and Mrs. L. W. Hill.  
 Mrs. Raymond Liles has returned from school in Canyon.  
 Bobbie Crawford of Haskell spent last Sunday with Mrs. Baty.  
 Miss Ruby Williams has returned

## HENRY-LESSON RADCLIFFE

### THE PROPERTY OF JUSTICE

International Sunday School Lesson for July 25, 1935.

Golden Text: "Let justice roll down as waters, and righteousness as a mighty stream."—Amos 5:24.

(Lesson Text: Amos 7:1-17)

We suggest that every reader of this column turn to the Book of Amos and read it carefully. It is very short and there are so many utterances of this ancient prophet which apply with full effectiveness to the political, social and religious life of today. Spoken in regard to customs and practices of another day, these courageous denunciations of iniquity and injustice can be very readily applied to our own twentieth century life.

One of the four grand divisions of the Bible is that of the prophetic writings, consisting of the four major and twelve minor prophets. This classification applies to the length rather than the importance of the message contained in the books. Amos is the most ancient of these prophetic writings. It emphasizes four points, namely, first, the evil life of Israel at the time; second, the righteousness and indignation of Jehovah; third, the certainty of judgment and punishment without repentance; and, fourth, that Assyria would be the agency of this chastisement.

Amos has been very properly termed an "inspired farmer." He was a herdsman, in charge of sheep, and a dresser of sycamore trees, which produced an inferior fig. He was a product of simple living and honest thinking, and he became a champion of these two desirable characteristics. While his written message which has been left to us is very brief, Amos ranks as one of the four great prophets of the Hebrew people.

Amos was under no doubt of his divine mission. As he said "Jehovah took me," and he willingly abandoned his life and followed the impulses of the divine law which likewise has driven other men to accomplish great tasks. As Jesus said on one occasion, if his disciples did not testify, "the very stones would cry out." So Paul realized his compulsion, "Woe is unto me if I preach not." Subsequently, Luther proclaimed his conviction that "I can do no other."

Great prophets were all of these men for the word prophetic originally carried the significance of one who proclaimed the truths of God rather than foretold events. Amos was a pioneer reformer, denouncing the fashionable abuses of his day, but preaching an unpopular and unpleasant doctrine to those who were blissfully at peace and content with their unreal and unfit lives.

Although Amos was a resident of Judah, his mission was to preach to Israel, for with time had come the division of the kingdoms. Uzziah, a very able ruler, governed the lower kingdom, while the second Jeroboam ruled in the North. Both of these reigns were apparently successful, Jeroboam having been successful in military campaigns, in the upbuilding of trade and bringing outward prosperity and security to his country. However, there were evils underneath and Amos criticized the false ideas of worship and the prevalence of social injustice which existed.

The people were forgetful of Jehovah's requirements of righteousness, they were contented with an outward conformity to the forms and ceremonies of worship, and had allowed their religious practices to be contaminated by following the immoral and wicked habits of pagans. Socially, it was a day of wealth and splendor but Amos realized the vice and corruption which lay beneath the surface, he saw the dangers which accompany indulgence and ease, and recognized the fundamental wickedness which allowed the oppression of the poor and needy to go unchecked.

While the people had gathered for

a great festival at the sanctuary of Bethel, Amos delivered one of his messages of doom, predicting the punishment of various nations, including Israel, for transgressions. Amaziah, the priest, rebuked the prophet for speaking blasphemy and sedition, which, by the way, were the same charges made against Jesus centuries later. The priest suggested that Amos abandon his mission and take the easier course of condemning Israel in Judah, which Amos repudiated by proclaiming the divine compulsion under which he acted.

The Book of Amos is well worth reading today. Some of the expressions have passed into the general literature of the world, for example: "They have sold the righteous for silver and the needy for a pair of shoes." "Shall two walk together, except they have agreed?" "Let justice roll down as waters, and righteousness as a mighty stream." "Make the ephah small and the shekel great." Although twenty-six centuries have passed since the day of this outspoken preacher of righteousness, human nature hasn't changed so very much, therefore, the modern world can well apply to itself the message of divine revelation which Amos brought to ancient Israel.

## 20 YEARS AGO TODAY

The Star Route to Vontress that has formerly been made three times a week by the carrier, Charlie Wilson, is now a daily affair.

There was a regular meeting of the City Council Tuesday of this week. The mayor and all the aldermen were present, namely, Mayor T. C. Cahill, Aldermen K. D. Simmons, N. McNeill, John L. Robertson, J. J. Guest and city secretary Leon Gilliam.

The following named gentlemen compose a fishing party that is spending the week among the denizens of the deep: Messrs. John Oates, Frank Baldwin of Houston, Buford Long, R. R. English and Ernest Sutherland.

## 30 YEARS AGO TODAY

Pursuant to call delegates from Haskell, Stonewall, Jones, Knox and Baylor counties met in Haskell last Saturday to district Farmers Union composed of the above named counties. An adjourned meeting will be held August 17 and 18.

The Free Press has about two

hundred and fifty subscribers scattered over Texas outside of Haskell county.

The 3.06 inches of rainfall here since the 21st inst. means a fine crop of summer grass with lots of summer feed.

J. W. Allen and sons Crawford and A. M., and their wives have gone on a visit to relatives and friends in Montague county.

## 40 YEARS AGO TODAY

J. S. Rike accompanied his daughter Miss Lillie to Graham where she will visit with her sister, Mrs. Morrison for a few days.

P. G. Alexander while out fishing the other day climbed a bee tree for the purpose of shaking the bees out. He says bees are easy to shake out of a tree but not so easy to shake out of your clothes.

Dr. Simmons brought a stalk of corn in the office the other day which was grown on his place one mile north of town. It was 12 feet high without the tassel which is just peeping out. It measured 6 1/2 inches in circumference at the first joint.

# Farmers Aroused Over Process Tax; May Fight Tariff

Declaring that the AAA processing tax is the farmer's tariff and that agriculture is entitled to protection the same as other industry, President H. G. Lucas, Brownwood, of the Texas Agricultural Association, announced Tuesday through the Dallas office plans of the association to attack the tariffs of industry in court.

At the same time E. L. Corbin, secretary, announced a meeting of the association for Aug. 1 at the La-Salle Hotel, Bryan, at the same time the farmers' short course is in progress at Texas A. & M. College.

"The manufacturing industry has destroyed the processing tax, which is the farmer's tariff," Mr. Lucas said in a statement released here. "Now the farmers propose to destroy the tariff. If the processing tax is redistribution of wealth, then the tariff is also and we intend to lay the fight on such redistribution. The farmers are plenty mad about the attitude of industry toward them because the processing tax has been one of the main things that kept agriculture going the last two years," Mr. Corbin added.

**Plan War Chest**  
Mr. Corbin said the Texas Agricultural Association, organized in Dallas on Dec. 3, 1933, by fifty independent farmer organizations, now has 1,989 community organizations in 228 counties, with a total membership of 225,000.

"The processing tax is the first opportunity the farmer ever had to enjoy equality with other groups on the finished products of his own raw materials and now through court action he is losing that benefit."

**Manufacturers Not Hurt**  
"The processing tax has not hurt the manufacturer. For generations farmers have paid the tariffs uncompromisingly and their farm supplies and these tariffs carried relatively high percentages when compared to processing taxes, but the latter have been passed to the consumer with increases."

"A cotton work shirt weighing less than a pound carries a processing tax of a little more than 3c. Before the processing tax the retail price of the shirt was 73c; now it is a little over 90c or an increase of more than 17c. Before the processing tax the farm price of cotton in the shirt was slightly above 8c, now it is a little more than 11c, or an increase of a little more than 2c which, plus the processing tax, totals about 5 3/4 cents, and yet the retail price increase is more than 17c. The shirt carries a 45 per cent ad valorem tariff which amounts to more than 41c."

"Such being the case, isn't it about time the farmers set about destroying the high tariff which they have paid, when manufacturers have destroyed the processing tax which they have passed on to the consumer?"

**Cites Tariff Cost**  
Mr. Corbin cited overalls as an example of the relation between the tariff and processing tax. "Before the processing tax the retail price of overalls was \$1.09 for a pair weighing 2.06 pounds," Mr. Corbin said. "Now the retail price is \$1.59, an increase of 50c. The processing tax is 8c and the increase in farm price of cotton per pair is 5c, or a total increase of 13c per pair as against an increase of 50c in the price charged by the manufacturer, and all the while a 37 1/2 per cent tariff totaling 60c a pair is charged."

"Farmers have willingly paid the high tariff that business might thrive, and yet the manufacturers object to an 8c processing tax that agriculture might exist."

Moses Austin was a Spanish subject before he ever had his 'dream' of colonizing Texas. He swore allegiance to the flag of Spain when he removed from Virginia to Missouri to go in the lead mine business. What later became the Louisiana Purchase was at that time under Spanish control due to a treaty existing between Spain and France. Spain later ceded the territory back to France and the latter nation sold it to the United States.

Texas sold a portion of five states—Oklahoma, Kansas, Wyoming, Colorado and New Mexico, covering 100,000 square miles of land to the United States government for \$10,000,000.

Col. James W. Pannin, a Georgian, was a graduate of the United States Military Academy and resigned his commission in the United States Army to lead a life of adventure.

# Farmers Are Glad They Heeded Advice of Indian Observer

NEW SALEM, N. D.—Now that droughts and dust storms have emphasized the problem of vanishing soil in many sections of the prairie states, New Salem farmers are glad that they heeded the advice of a Sioux Indian and left the buffalo grass, a natural binder of loose soil, in place.

It was 52 years ago that this Indian confronted John Christiansen as he plowed his land, with the terse comment, "Ugh! Wrong side up!" Years later, after pondering this advice at length, Mr. Christiansen with the aid of Dr. J. H. Sheppard, now president of the North Dakota Agricultural College, was instrumental in founding the New Salem Dairy Circuit. This circuit, started in 1909, is a community enterprise engaged in breeding purebred dairy cows. The 17 first members purchased a carload of Holsteins, taking two each.

At a recent celebration of the circuit's silver jubilee, a tablet set in a boulder on the spot where the Indian's good advice was given, was unveiled. The dairy farmers remembered with gratitude that through his observation they were led to keep their soil "right side up" and to conserve their land for pasture instead of plowing it to be carried away by wind or floods.

# State PWA Head Explains Its Plan To Cities League

AUSTIN, Tex.—Julian Montgomery of Fort Worth, State PWA engineer, explained the functions of the Public Works Administration and the newly created Works Progress Administration with reference to municipal projects in a talk before the League of Texas Municipalities at its convention Thursday.

When projects cost more than \$25,000 they are handled by the Public Works Administration; \$25,000 or less they are handled by the Works Progress Administration, where no loan is involved, Montgomery said. He said only the PWA can make loans.

Applications for loans and grants must go to the PWA office at Fort Worth. The new PWA grant provision, he added, is 45 per cent of the total cost of any project, in comparison with the old plan of 30 per cent.

Montgomery said it is possible to combine the PWA and WPA on projects as far as work is concerned, as long as there is no duplication. He explained that the WPA expects to furnish relief labor, the cities and towns furnish material and skilled workmen.

# July 31 Deadline Following Loans

July 31 is the deadline for applications for summer following loans from the emergency crop and feed loan fund of 1935, according to an announcement today from the Farm Credit Administration. Applications for crop loans from the emergency fund were cut off June 30.

Norman Monaghan, Director of the Emergency Crop and Feed Loan Section, said summer following loans are being made to farmers who will seed the land fallowed to winter or spring grain in areas where this is customary. Loans may be made only to farmers who have no other source of credit. As in the past, applicants may apply for loans at the local county crop and feed loan committees. Director Monaghan said "Summer following loans are limited to the actual cash requirements for fallowing and seeding to winter or spring grain," he added, "and not more may be loaned than \$3 per acre, \$1 per acre being the maximum for fallowing, and \$2 per acre for seeding to winter or spring grain, payable as needed."

"Under the law we cannot lend more than \$500 to any one farmer," he continued. "If the farmer has already obtained a loan from this year's crop loan fund, the amount of the loan already made, plus any new advance must not exceed \$500."

While July 31 has been set as the final date for summer following loans from the emergency fund, no cut-off date for applications for the purpose of producing forage crops or purchasing feed for livestock has been announced.

Director Monaghan also said that the emergency crop and feed loan offices are now assisting many of their borrowers to harvest grain crops by releasing a part of the grain sale proceeds to pay harvesting expenses. Farmers who borrow from the emergency crop and feed loan fund give a first lien on their crops. If a borrower needs funds to pay the cash cost of harvesting and threshing, he will be permitted to retain out of the proceeds of the sale of his grain the necessary amount to pay such expenses. Such harvesting and threshing expenses may not exceed definite per bushel limits set by the manager of the regional emergency crop and feed loan office.

Harvesting and threshing expenses may include such items as the threshing bill, purchase of twine and sacks, oil and fuel for tractors, feed for work-stock, and actual hired labor; but not labor performed by

# MAKING QUILTS HOBBY OF FARM CLUB WOMAN

Quilts of unusual beauty and quality are made by Mrs. Tom Pinkerton, cooper in the Midway Home Demonstration Club. Mrs. Pinkerton has made a quilt by the flower garden design, with no two blocks alike in pastel colors. She has made more than 40 quilts in the last four years and many of them are quite dainty and attractive in pattern and design.

# '36 Auto Plates Will Advertise Centennial Year

AUSTIN, Tex.—Texas passenger automobile number plates next year will carry a Centennial reminder and, of course, a change in color. The plates will be of a cream color, with blue numerals and lettering, effecting a contrast easily read. The truck plates will have those colors reversed, with a blue background and figures and letters of cream.

This year's plates bear the maroon and white of the "Fighting Aggies," while those of last year displayed the orange and white of the Longhorns of Texas University. The 1936 colors have no significance.

While next year's plates will be the same size as those of 1935, there will be a change in design. The word "Centennial" will appear at the bottom of the plate using the space now occupied at the top of the plate by the word "Texas," there being a mere transposition of the used space.

Instead of the star which now divides the numerals, the letters "Tex" will appear in the middle of the plate in horizontal formation. The year will be carried by 19 at end preceding the figures, and 36 at the opposite end, both appearing horizontally.

Specifications have been completed and will be sent to the State prison system this week. They call for 1,125,000 pairs of passenger car plates, the same as for the current year. The Legislature decreed that the prison system shall make the plates at a price to be fixed by the Board of Control.

The price for this year's plates was 9 1/4 cents per pair and the next year's cost is expected to be approximately the same. The total cost to the Highway Department for all classes of motor vehicle plates this year was approximately \$9,000,000. The Control Board sees to it that the price paid out of highway funds is compensatory to the prison system, but yields no appreciable profit.

Under the new policy fixed by the Legislature, the motor vehicle license year expires March 31 and the 1936 plates do not have to be attached to vehicles until April 1 of that year. This is the permanent law. The paying date was changed to avoid an accumulation of taxes at the first of the year. This spreads it over a longer period.

# Cold Fruit Pies For Summer Days

The abundance of fresh fruits during the summer months simplify desserts in most households, but there are pie devotees who still think in terms of pastry. For such, cold fruit pies were invented.

If the mixed pastry dough is kept in the refrigerator, such a pie is easily produced on short notice. Or several pie shells may be baked at one time and kept for a few days.

One of the most delicious of these fruitless pies is a combination of two parts red raspberries to one part red currants. Crush fruit slightly and sweeten to taste. Fill a previously baked shell and cover top with whipped cream.

Red ripe strawberries, crushed and sweetened, topped with whipped cream, make a delectable change from short cake.

Another pie shell may be filled with well-ripened figs, peeled carefully and crushed. A little lemon juice may be added with the sugar if figs seem very sweet. With the fluffy cream top, this is the perfect dish for those who appreciate ripe figs.

Free stone peaches, fully ripe, lend themselves well to the cold cream topped pie, also. Peeled, sliced apples dotted with butter, sugared and baked in oven until soft make a good cold filling for pie or tart shells. Cover top with grated cheese.

When Sam Houston first took charge of the Texas forces as their Commander-in-Chief he sent orders to Col. Wm. B. Travis to dynamite the Alamo, which he termed a "death-trap" and told Col. Travis to retreat. Both these orders were disobeyed.

The Texas Declaration of Independence was signed by men from ten American States and six foreign countries, as follows: Virginia, 11; Tennessee, 9; North Carolina, 9; Kentucky, 5; South Carolina, 4; Georgia, 4; Pennsylvania, 2; New York, 2; Massachusetts, 1; New Jersey, 1; Mexico, 3; Ireland, 1; Scotland, 1; England, 1; Canada, 1; and three are unknown.

Mexico offered in 1884 to recognize the Independence of Texas provided it would not seek annexation to the United States of America. A few months following this offer of recognition, the Republic of Texas was admitted as a state into the United States.

## FIRST METHODIST CHURCH

Orion W. Carter, Pastor.

Wednesday night closed the third quarter of the year's work. It found the church in the best shape it has been at any Quarterly Conference this year. Twenty-eight people have joined the church in the last three months. The local budget has been better taken care of than usual. A large sum of money has been raised on the Annex.

Next Sunday is the only Sunday until the second Sunday in September when there will not be a revival in progress at one of the local churches. Therefore, let us make much of the services both morning and evening.

All services under a fan, short and interesting.

## Four-Square Revival Meeting Starts at Roberts July 29th

An old-fashioned revival meeting, under auspices of the Four-Square Church, will be held at the Roberts schoolhouse beginning Monday night, July 29th. Evangelists Earl J. Smith and Warren Johnson of Los Angeles, Calif., will do the preaching, with services being held each evening. Good music and singing, and old-time gospel preaching for the "salvation of the soul and healing of the body" is promised at each service. A cordial invitation to all. Come.—(Contributed.)

# Constitutional Amendments

The following brief summary of the proposed Constitutional Amendments to be voted upon by the people of Texas on August 24th, is being published by the Free Press for the information of the public. Our interest is strictly that of striving to acquaint our readers with the contents, rather than the merits of each of them.

## Proposed Amendment No. 1—Old Age Pensions

The first proposition to be found on the ballot in the August 24th Special Election on Constitutional Amendments is the so-called Old-Age Pension Amendment. This year, for the first time, the amendments will be numbered, according to Secretary of State Gerald C. Mann.

The Old Age Pension Amendment proposes to give the Legislature the authority to pay these pensions to persons over the age of 65, who are not habitual drunkards nor habitual criminals, nor inmates of any State supported institution. Those who are eligible must have lived in Texas at least 5 years, during the time immediately preceding application and in the State continuously for one year.

All other restrictions and limitations would have to be set up by the Legislature.

The Amendment authorizes the Legislature to accept money from the Federal government for the same purpose. It is presumed that Federal funds would match State funds. The maximum amount to be paid by the State would be \$15 per person per month. It is presumed that the Federal government would match State funds. The total pension per month per person in this case it is presumed would be \$30. The amounts might be smaller, however; but not larger.

It is estimated that the cost of this pension to the State would run between forty and fifty million dollars annually. No provision is made for the income. It would be up to the Legislature to determine where the money would come from. The Legislature would have to enact such laws as it deemed proper to utilize the right granted by the amendment. The Legislature might do this at once, or some time later—or for that matter not at all. The amendment is permissive and not mandatory, though few doubt that some form of old age pensions would be enacted if the amendment is adopted in August.

## Proposed Amendment No. 2—Temporary Commitment of Insane

Proposition No. 2 on the August 24th special election ballot has to do with the temporary commitment of insane persons, preliminary to a trial by jury.

Under the present Constitution

whereby everyone is guaranteed a jury trial, it is impossible to commit a mentally ill person to an institution without the necessity of a jury trial. It has been pointed out that this is often very inconvenient and embarrassing.

The proposal, according to Secretary of State Gerald C. Mann, if passed, would authorize the Legislature to pass such laws as would permit mentally ill persons to be confined by County Courts in institutions, presumably, or under the care of physicians or experts for a period of ninety days prior to a jury trial. It is presumed that the ninety day period of confinement would be for the purpose of observing such person.

The provisions would apply only to persons not charged with a criminal offense.

The Amendment specifically sets out that the right of trial by jury shall remain inviolate, but that in the particular case of insane persons a confinement period of ninety days for observation may be prescribed without the necessity of a jury trial. At the end of that time a jury trial would be had.

## Proposed Amendment No. 3—Repeal of Liquor Prohibition

Probably chief interest in the August 24th election on the seven proposed Constitutional Amendments will center on Proposition No. 3 on the ballot—the repeal of Prohibition, according to Secretary of State Gerald C. Mann.

The Constitution, at present, prohibits the sale, manufacture and transportation of alcoholic liquors (except 32 beer). This prohibition would be stricken out by adoption of the Repeal Amendment.

The proposed amendment specifically prohibits the return of the open saloon—and it would be up to the Legislature to define the term "open saloon."

No machinery is set up for the sale of liquor. The Legislature would have the authority to determine just who and just how liquor is to be sold. This could be done by State monopoly or through private channels. The Legislature would have the authority to pass laws regulating local option elections.

If the amendment is adopted all counties, cities and precincts that were dry in 1919 when statewide prohibition was adopted would be dry now—at least until local option elections were held to determine otherwise.

It is well to remember, Secretary Mann points out, that there will be an election next year in November to determine whether the State shall sell liquor through a State monopoly system. If the repeal amendment is adopted in August the State MAY

establish a state control and monopoly system. If the repeal amendment is defeated in August, it will in effect be submitted again in November, 1936, in the State Monopoly Amendment which says the State SHALL have a liquor monopoly. To retain the present dry status both the August 24th Amendment and the November, 1936 Amendment must be defeated. Passage of either will repeal the present prohibition section of the Constitution.

## Proposed Amendment No. 4—Submission of Amendments at Special Sessions of Legislature

At present the Legislature can submit proposed changes in the Constitution only at regular sessions—held every 2 years.

Proposal No. 4 on the ballot for the August 24th election would revise the Constitution to permit the submission of amendments at special sessions. It is pointed out that in emergency cases, particularly on relief matters, that it might be necessary for Texas voters to vote on an emergency measure at a time, when the regular session of the Legislature is quite far distant in the future.

The original purpose of the provision which makes submission possible only at regular sessions was to make the fundamental law hard to amend and change. Two schools of thought are at variance here. The one believing that the Constitution should be easy to change—particularly in emergency cases, and the other that every safeguard should be placed around it to make it difficult to change.

If the proposed amendment is adopted the legislature in any special session can submit proposed amendments to the voters—provided such amendments are submitted by the Governor for the Legislature's consideration. If the amendment is rejected the present system will obtain; that is, constitutional amendments can be submitted to the people only at the regular sessions of the legislature.

The 44th Legislature submitted thirteen amendments to the voters—seven in August of this year and six in November of 1936. These were all submitted during the regular session. Under the proposed change the 44th might yet submit additional amendments for the voters' consideration.

## Proposed Amendment No. 5—Suspended Sentence or Probation Amendment

Proposition Number 5 on the ballot of the August 24th special election reads: "For (and Against) the Amendment to the State Constitution authorizing the Courts to place defendants on probation."

Proponents claim that if this

amendment is passed, many who are now sent to the penitentiary for first offenses will be permitted to enjoy suspended sentences under restrictions of the court.

The only restriction under the present suspended sentence law is the fact that the defendant must not be convicted of a felony—that is, a crime punishable by confinement in the penitentiary. The judge or court has no control nor can it set up or impose any other restrictions.

It is the understanding of those who have studied the amendment that if passed it would permit the Legislature to pass laws giving the courts the right to suspend sentences and place defendants on such probation as the court might deem proper. It other words the court could suspend sentences subject to certain limitations. If those restrictions or limitations were not observed the Court would have the authority to have the defendant committed to the penitentiary without further ado. Many courts now refuse to grant suspended sentences for the reason that the defendant after the same is granted. It is pointed out that this would prevent many first offenders from having to go to the penitentiary and reclaim many of them for society.

If a suspended sentence is given under the present law the only limitation is that the defendant must not be convicted of a felony. The court has no control over him nor can it impose other conditions.

## Proposed Amendment No. 6—Abolishing Fee System for Paying Officials

Two years ago a Senate investigating committee discovered a number of flagrant abuses of the fee system as practiced in Texas for recompensing certain public officials. The fee system was established and written into the Texas Constitution at a time when it was impossible to pay salaries and the theory was that an official was entitled to "all he could make." Since the Senate committee discovered and revealed the malpractices existing under the system there has been a demand for a Constitutional change on this score, according to Secretary of State Gerald C. Mann.

Proposed Amendment No. 6 on the ballot provides that the fee system as a method of paying certain precinct, county and district officials shall be abolished in counties having 20,000 or more population according to the last Federal census. The Legislature will, if the amendment is adopted, set the salaries for officials now receiving fees in such counties. In counties of under 20,000 population the Commissioners Courts may put their county and precinct officials on a salary basis if they so desire. The Amendment does not specifically state who shall set the salaries of such officials in this case.

If this amendment is adopted all district officers must be compensated on a salary basis.

The amendment provides that fees shall continue to be collected as at present but they will go to the county instead of the officer. The evident purpose of this amendment is to place as many public officials on straight salaries as possible and thus abolish, insofar as is possible the payment of officials through the present fee system.

## Proposed Amendment No. 7—Free Text Books for Private and Parochial Schools

The Texas Constitution at the present time provides that the State is without authority to furnish free text books to other than public schools. Proposed Amendment No. 7 on the ballot for the August 24th election would permit the State to supply free textbooks to all schools, private and parochial. Such textbooks, it is presumed, to be the same as used in the public schools.

Advocates of this Amendment state that this would entail no additional expense because the State now purchases more books than are necessary. However, this point is merely one of the claims made and has not been substantiated by the Secretary of State. Advocates point out that they pay taxes to support public schools but that if they choose to send their children to private or parochial schools the least the State can do is to supply the textbooks free.

Probably the most important and less publicized provision of this Amendment is the fact that it proposes to rewrite Section 5 of Article Seven of the Constitution so as to permit the apportionment of school funds on some other basis than scholastic population.

For many years there has been considerable agitation in certain quarters to abolish the "school census" or scholastic population of apportioning school funds and substitute in lieu thereof the "average attendance" basis or some other basis. The Legislature would determine just how this was to be done, if this Amendment is adopted.

If adopted this proposed Amendment No. 7 would mean, in effect: (1) that the State would furnish free textbooks to pupils in all the schools of Texas; and (2) that a new basis for apportioning school funds other than the scholastic census basis, could be set up.

### MONEY MADNESS

Few human quirks are more peculiar than the irrational lust to hoard money which occasionally sweeps over a person. A New Jersey steamboat man named Charles Benson can testify to this. Every week for the last 20 years, it seems, Benson dutifully turned his pay envelope over to his wife, and thereafter saw it no more. Money for household expenses was doled out, but the bulk of his pay was put away somewhere for safe keeping. After 20 years of this, Benson finally went to court and got a receiver appointed to administer and conserve the family finances. Armed with a court order, the receiver came and searched the house—and found that in the 20 years Mrs. Benson had managed to hoard no less than \$18,600, all of which was secreted in an old trunk. The money has been safely banked, now. The Bensons undeniably have a tidy little nest egg laid away for their old age. Yet there is something almost frightening about the intensity of purpose which can lead a person to add dollar to dollar, over two decades, to an extent like that.

### MISDIRECTED SENTIMENTALITY

The maudlin sort of sympathy that is ready to produce copious tears whenever a hardened yegg snuffles and says that he is sorry, popped into public view in Detroit the other day. The local sheriff invited the mothers and children of Detroit to come to the jail and listen to a sermon by one of his prisoners. This prisoner, he said, had seen the error of his ways and repented, and was reading the Bible daily; he could give a very uplifting little talk on the advisability of shunning the ways of crime. All of this might have been all right, if it hadn't turned out that the repentant sinner was William Lee Ferris, a confessed pander and slayer, who is awaiting trial on charges of having slain the nephew of Charles Evans Hughes. Somehow, the stunt didn't appeal to Detroit. Women's clubs and public officials rose in wrath, the sermon was canceled, and the sheriff left town. And the sheriff's idea remains as a sample of brainless sentimentality at its worst.

### A LOSS TO UNCLE SAM

Few men have left public life with a brighter record for integrity and efficiency than Melvin Purvis, one of the Department of Justice's ace manhunters. Any man who can say that he bore a major share of the load in ridding the country of men like John Dillinger and Pretty Boy Floyd—which is what Purvis can say, if he ever feels like bragging—has a pretty good claim on the gratitude of his fellow citizens. Purvis returns to private life, presumably to the practice of law. The whole country will wish him the best of luck—and will wish, also, that some way could have been found to retain a little bit longer the services of so accomplished a sleuth in Uncle Sam's investigation bureau.

### MILLIONS OF TREES

The government's project for a great "shelter belt" of trees across the western plains attracted a good deal of attention when it was first announced. Since then little has been heard of it. It develops, however, that the work has been going forward steadily and that a good deal has been accomplished. This spring, for instance, some 200,000,000 trees were planted in 50 counties along the thousand miles of the projected route. The season's planting exceeds the area planted in the plains region in the entire preceding decade. Just how much this shelter belt will actually do to check drought and wind erosion remains to be seen. At the very least, however, we seem to be acquiring a huge new stand of trees. Solely from the standpoint of increasing our forest acreage, the project would seem to be worthwhile.

### TO PAY FOR ACCIDENTS

Insurance commissioners of America, convening in Seattle, are told by Insurance Superintendent R. L. Foster of Ontario that every motorist in America should be required to indemnify possible victims before being granted a driver's license. Every motorist, says the Canadian authority, should be absolutely financially responsible to innocent victims of his negligence. Traffic hazards are so great, he adds, that some such step as this is necessary for public protection. One's first reaction to the idea is that it would be a swell thing for the insurance companies. Nevertheless, it has much to recommend it. The least the innocent bystander has a right to expect is that, if his car or his person is injured through no fault of his own, the man who caused the accident will be able to pay for it.

## -CURRENT COMMENT-

### HOW IT WORKS

(Pittsburgh Press)

By a vote of two to one—two Republicans to one Democrat—the U. S. Circuit Court of Appeals at Boston has held the AAA's processing and flour taxes unconstitutional.

Constitutional lawyers may applaud this decision as letter-perfect. But the 32 million Americans who make up the nation's farm population will feel more like Mr. Bumble who said: "If the law supposes, that, sir, the law is an ass." For, of all the attempts made by the government since the war, to help farmers back to prosperity, triple A alone has succeeded in putting jingling dollars into their jeans.

In 1920 the Republican platform announced that "the farmer is the backbone of the nation," and promised him aid. The result was the Capper-Volstead Act, strengthening farm co-operatives.

In 1924 the Republicans pledged legislation "to place agricultural interests on a basis of economic equality with other industry to assure its prosperity and success." Their Congress talked export bounty and debenture nostrums and passed the McNary-Haugen bill. President Coolidge vetoed that bill twice.

In 1928 they promised "measures which will place agricultural interests on a basis of economic equality." Followed the Hoover agricultural act. Under this the Federal Farm Board bought up surplus wheat and cotton. It earned a paper loss of 300 million dollars which taxpayers will have to liquidate. We still have one billion bales of Farm Board cotton on hand.

The Roosevelt administration set out in 1933 to give farmers pre-war parity in buying power by means of the AAA, a sort of domestic tariff plan. Taxes were levied on processors of eight basic commodities, and these were paid back to the farmers in benefits, provided they reduced surplus acreages. It worked.

In its two years of operation Triple A has paid nearly 800 million dollars in benefits to some three million farmers. In 1932 farm income was less than four and one-half billion dollars; in 1933 it was five billions; in 1934, six billions; this year it is running 10 per cent above last year's. Pre-war farm price parity has not been reached, but it is up to 87 per cent, compared with 55 per cent in March, 1933. This new farmer wealth has been achieved without tapping the U. S. Treasury or materially raising prices to the consumers. Processing taxes have added two or three cents to the price of work shirts, a cent or less to the cost of a loaf of bread, about two and one-fourth cents to a pound of bacon.

The Boston decision, if upheld, would be a much more drastic blow to the hopes of millions than the Supreme court's Schechter decision. NRA was failing. Triple A is a going concern. After a decade and a half of promises the farmers now have something real and tangible. Take that away and the hinterlands will be heard from.

We do not subscribe to the AAA formula as an ideal, any more than we do to the tariff, from which it derives its theory. Nor do we essay to defend its "constitution-

### HOW MUCH FOR ADVERTISING

If in doubt as to how much money you should spend for advertising, the following budget compiled from Harvard University statistics, various business surveys, trade journals and associations, may be helpful.

Most of them indicate what percentage of gross sales is allotted to advertising, average for each group. Some of this kind are:

- Auto tires and accessories, 1.1 per cent.
- Beauty shops, 5 per cent.
- Building supply, 3 per cent.
- Department stores, 4.1 per cent.
- Drug stores, 1 per cent.
- Dry goods stores, 3 per cent.
- Furniture, 3.96 to 10 per cent.
- Grocery stores, 2 per cent.
- Hardware, 1.35 per cent.
- Jewelers, 3.9 per cent.
- Meat markets, 0.9 per cent.
- Men's apparel, 3.83 per cent.
- Restaurants, 1.8 per cent.
- Shoe stores, 3.6 per cent.
- Specialty shops, 3.85 to 4.2.

If you've something that is worth having, and are willing to part with it on reasonable terms, there's one sure way in this community to do it—through advertising in the Free Press.

Advertising cannot do the job alone—you must have something worth advertising and be ready to trade on live-and-let-live terms. Then, if you use liberal space in The Free Press, with a well worded, well illustrated advertisement, such a combination will bring home the bacon.

In order to better serve its advertisers, The Free Press provides Meyer Both illustrations—the highest type and most versatile line of advertising illustrations available to any newspaper, large or small. These are exclusive to the Free Press in this field.

Trained advertising people help you lay out and word your message, to make it attractive and appealing. Thus dressed up it goes into 1825 homes to tell its story to 9,125 people. No wonder it gets results.

The same policy prevails in the Free Press' commercial printing. Well assorted stocks of papers and inks are always available. Modern machinery insures the job will be done well and economically. Care is taken to insure effective typography and accurate handling in every detail. And you get the job on time, done to your approval, and at a minimum cost.

The whole service of The Free Press is planned for effectiveness. It is constantly under study for improvement. It has that adequateness and satisfaction about it that only long experience and ample capacity can give.

Patronize your home paper, both advertising and commercial printing, and you will find the results most agreeable.

No, it isn't extravagant to use this much white space in a newspaper advertisement. After all, the desired end in advertising is reader attention. The liberal use of white space is one very effective method of attracting the eye to the message you wish to put across. Free Press advertising is not only attractive but interesting.

### Drys Must Arouse Or Lose Election, Bishop Boaz Says

WACO, Texas.—"If the pros do not become interested in this campaign, the election on Aug. 24 may go by default as the Dallas News already has said," Bishop H. A. Boaz of Fort Worth, president of the Texas League Against Whiskey, told a district rally of dry forces Thursday afternoon at the First Baptist church.

The Rev. L. W. Seymour of Waco, district chairman for McLennan, Falls, Milam and Limestone counties, presided, and organization plans were outlined by the State organizer, the Rev. Jeff Davis.

"There is no doubt as to the result of the election if we can get our people aroused and awakened over the situation," Bishop Boaz said. "Interest of the wets is selfish; ours is altruistic. I want to see all aroused who believe in a sober State."

Dr. George W. Truett of Dallas, president of the Baptist World Alliance, was the chief speaker at night. Dr. J. T. Harrington, president of the Baylor board of trustees, presided.

"My concern ever is for the highest welfare of the people, because I believe that license of the liquor traffic, whether high or low, is fundamentally wrong in principle. I must in conscience lift up my voice on the great issue that challenges our Texas people," Dr. Truett said. "If this occasion were a personal, partisan, political occasion, I would not be on this platform. I am as much interested in the highest welfare of the men and women of one political party as another."

### Haskell Pitcher Making Good in Pro Baseball Circles

Dot Pittman, of Haskell, who pitched baseball in this section for several years, has been a member of the Alexandria (La.) Aces, professional baseball team in the Evangeline League. That Pittman is making good with a "bang" can be seen from the write-up of a double header which he pitched and won recently.

Pittman has won 15 games and only lost five this season with Alexandria, which is in the Detroit Tiger chain. Jack Zeller, Tiger scout, was in the stands for the purpose of seeing Pittman hurl.

"Dot Pittman, built along the lines of another great hurler who got his start here and boasting his same loose, country pitching style on the mound, pulled an iron man performance at Bringhamfield yesterday afternoon as the Alexandria Aces whipped the Abbeville Athletics twice, 21 to 7 and 5 to 3."

"Dot, (and honest-to-goodness, that's his name) might pass for an exact duplication of Country Warneke who burned up the Cotton States League before advancing by deliberate stages to Reading of the International League and Chicago of Cubs of the National loop."

"Big, robust, long-armed, willing, good-natured, calm in the box, Dot makes Louie in almost every particular. If anything, he is slightly heavier and much better today than Warneke was the first year he and his motorcycle broke in at Laurel, Miss."

"Heading the parade with four bingles, Pittman and his teammates cracked down on the unlucky Abbeville with a gang of twelve runs in the seventh round of the first battle and finally breasted the tape, 21 to 7."

### FCA Loans Texas Farmers \$4,860,000 First Half of Year

WASHINGTON.—Production credit association loaned Texas farmers \$4,860,000 during the first half of this year, the farm credit administration announced Thursday. Over \$97,000,000 was loaned in all States compared with \$52,700,000 for the first half of last year.

The FCA pointed out that the cooperative associations served almost twice as many farmers this year as last, making loans to 153,800 farmers up to June 30 compared with 88,300 over the same period last year.

Loans outstanding on June 30 totaled \$109,900,000 compared with \$61,000,000 at the end of December 1934, and \$49,800,000 at June 30, 1934.

Crop production financing has passed its crest in all except the Pacific States, and the FCA said a normal decline might be expected in most districts until the fall livestock financing season opens.

The New Orleans FCA district, embracing Mississippi, Alabama and Louisiana loaned \$9,300,000 during the half year ending June 30. This compares with \$4,800,000 loaned to the Houston district which embraces only Texas. The St. Louis district covering Illinois, Arkansas and Missouri loaned \$7,150,000 and the Wichita district which includes Kansas, Oklahoma, Colorado and New Mexico loaned \$8,700,000.

at any time thereafter, of, in and to the following described property, to-wit:

### NOTICE OF SHERIFF'S SALE—REAL ESTATE

The State of Texas, County of Haskell.

Notice is hereby given that by virtue of a certain Order of Sale issued out of the Honorable District Court of Haskell County, on the 12th day of July 1935, by Roy Ratliff, Clerk of said District Court, for the sum of Three Hundred Ninety-Five and 45-100 Dollars and interest and costs of suit, under a judgment, in favor of R. B. Spencer & Co., a partnership in a cer-

tain cause in said Court, No. 4684 and styled R. B. Spencer and Co. vs. L. A. Hilliard, et al placed in my hands for service, I, Giles Kemp, as Sheriff of Haskell County, Texas, did on the 16th day of July 1935, levy on certain Real Estate, situated in Haskell County, Texas, described as follows, to-wit:

All of the undivided interest of the defendant E. B. Hilliard in and to the following described tract of land, situated in Haskell county, Texas, to-wit:

Being the West 200 acres, more or less of land of subdivision No. 1, of the north two thirds (2/3) of Joel Low Survey of a 4002 acre tract of land heretofore deeded to W. N. Hilliard by H. M. Rike, R. C. Montgomery and Lillie Montgomery on August 2, 1911, said deed of record in Haskell County, deed records, Vol. 52, page 601, to which deed and the record thereof reference is hereby made for a further description.

And levied upon as the property of E. B. Hilliard and that on the first Tuesday in September 1935, the same being the 3rd day of said month, at the Court House door, of Haskell County, in the City of Haskell, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Order of Sale I

will sell said above described Real Estate at public vendue, for cash, to the highest bidder, at the property of said E. B. Hilliard.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Haskell Free Press, a newspaper published in Haskell County, Texas.

Witness my hand, this 16th day of July 1935.

GILES KEMP, Sheriff  
Haskell County, Texas.  
By Hettie Williams, Deputy.

### HELEN OF TROY

A dame of such beauty, we're told, that the Clark Gables of her day vied for her favors — even though she possessed a perfectly good husband. We read of the war her beauty caused, but very little about the fuss she surely must have had with her husband. He probably lost the argument, anyway, so it wouldn't be interesting.

Oh, yes, we handle perfectly safe insurance policies.

### Funeral Services For T. G. Reese Held On Sunday

Funeral rites for T. G. Reese, 77, who died unexpectedly late Friday evening were held from the First Baptist church Sunday afternoon at 2:30. Service was conducted by Rev. O. Strickland, Baptist minister of Munday.

Mr. Reese, retired farmer and resident of Haskell for the past nine years, was stricken with apoplexy while playing dominoes in the yard of a neighbor's home. Death occurred shortly after a physician had been summoned.

Born January 18, 1858, in Rhome, Ga., Mr. Reese was married to Miss Lucy Lewis, November 10, 1881, in Marion county, Ala. Ten years later the couple moved to Texas, residing near Hamilton until moving to Haskell nine years ago.

Survivors are his wife, and six children, W. E. Reese, Ralls; E. R. Reese, Hereford; C. E. Reese, Haskell; Mrs. Mamie Whitaker and Mrs. Dessie Todd, Trenton; Mrs. Lillian Thompson, Portales, N. M. Twenty-five grandchildren and seven great grandchildren also survive.

Burial was in Willow cemetery under direction of J. H. Kinney of the Kinney Funeral Home.

Active pallbearers were Wilton Kennedy, Frank Reynolds, Bill Barnett, Ray Lusk, Claude Jenkins, M. C. Wilfong. Honorary pallbearers: M. A. Clifton, J. S. Barnett, Jim Cameron, John Solomon, Martin Arend, C. V. Burt, Paul Zahn, Geo. Sego, O. L. Moore, Mr. Phillips.

Ladies assisting with the flowers were Mrs. Thurman Bynum, Mrs. Taylor Sego, Mrs. M. C. Wilfong, Miss Nannie Sego, Miss Zora Tidwell, Miss Margaret Tidwell.

### Readers Comment

Editor Free Press:

The writer enjoys the reproduction of news items that appeared in the Free Press of twenty, thirty and forty years ago. I can remember things that happened twenty years ago and in a few months I will enter the thirty year class and hope to be in the forty year class before "shuffling off this mortal coil."

These items suggest early auto history and happenings in Haskell county which of course are typical of all communities. The first car the writer owned was bought from an agent in Haskell county, but was carried in stock in Graham, Texas, and was delivered from that point. It was a two cylinder machine without top, doors, (shutters), or windshield. By pushing the throttle to the floor board one could easily make thirty miles an hour. The cylinders were placed horizontally, and we heard much talk of carburetors, spark plugs, radiators, and manifolds. It was cranked and ran on dry cell batteries. It had carbide lights which were replaced by Prestone a little later. When anything went wrong, which happened frequently, it was just too bad. Marvin's at Haskell and a Swede at Stamford who ran a blacksmith shop, were the sources of repairs and frequently when the cars came back from those shops they ran nearly as well as they did when they were sent down. The number plates came in rotation as they were recorded in the County Clerk's office in Haskell. My number was "23", painted on a piece of tin and stuck on the rear end of the car. When the car was traded four years afterward the number was "23."

Mr. J. L. Jones first car was a five passenger Maxwell, No. 21; Judge A. C. Foster's car was a Cadillac No. 33; Cal Nance, who ran the livery stable in Rule had a five passenger Maxwell. It stayed on the road with the hood up most of the time. His number was in the early twenties. Dr. Robertson of Haskell had a two-cylinder Maxwell, the number I do not recall. Dr. Weaver purchased an open job Overland. Dr. J. C. Davis, then of Sagerton, now of Rule, had an open job also.

A Hummobile that cranked and ran on a magneto as ignition. It was a four cylinder job. What time the doctor was not retrieving it from barb wire fences and mesquite saplings he was practicing medicine. His was the first car in Sagerton.

This is early car history as I recall it. How the auto has changed since that time! Verily we can exclaim as we behold the streamlined fast running jobs: "What hath man wrought!"

### YOUR HEALTH

By John W. Brown, M. D.  
State Health Officer

### Future of AAA Not Disturbed

AUSTIN, Texas.—A number of cases of typhoid fever, sometimes called Rabbit Fever, have been reported to the State Department of Health, according to Dr. John W. Brown, State Health Officer. The disease is usually transmitted during the hunting season by the handling of infected rabbits when there is a break in the skin. The cases now being reported are probably due to the bite of the wood tick.

The disease is known to be caused by a minute germ which infects a small percentage of rabbits, and in addition, a variety of other animals. The germ is spread among animals by blood sucking flies, or ticks which draw blood from an infected rabbit and later carry infection to other animals. A rabbit that is slow and fails to get off to a good start is apt to be infected.

The disease usually starts with symptoms that resemble prairie or influenza. It has often been mistaken for typhoid fever. In many cases, an ulcer develops at the site of the infection. Whatever form it takes, means a long, serious illness. The family doctor should be set for without delay whenever symptoms develop that suggest rabbit fever. To assist in the diagnosis of the disease, blood tests for the presence of the infection will be made by the State Laboratories, at the request of the city or county physician, for any case in the counties.

The best means of prevention is to avoid direct contact through handling of wild rabbits, by protecting the hands with gloves, also, while in the woods to protect oneself from tick bites.

### Student Aid at Texas University Now Authorized

AUSTIN, Texas.—With the receipt of a telegram from L. R. Alderman, director of the educational division of the National Youth Administration, giving notification that the student aid program has been definitely authorized for 1935-36, the University of Texas is in a position to receive applications for part-time student jobs for next long session, according to V. I. Moore, dean of student life. Details of administration of the student aid fund have not yet been received by University authorities, but it is stated that jobs will be available on the basis of 12 per cent of the total enrollment as of October 15, 1934. A total of 6,346 full-time students were enrolled in the University on that date, affording 761 jobs for main University students next year.

Last year there were 651 student workers employed with Federal funds in the main University and 60 workers in the School of Medicine at Galveston. This quota was based on the 1933-34 enrollment. It is expected that approximately the same number of students will be employed in the Medical Branch as last year.

Applications will be received after Saturday July 20. An order has been sent to the University Press for the printing of 5,000 application blanks. Last year 2,400 applications were made. Dean Moore estimated that one job would be found for each four or five applicants. Appointments will be made after September 1.

### Albany Man Is Suicide Victim

Charles M. Castles, assistant cashier at the First National bank of Albany, was found dead in his room in a home in Albany shortly before noon Tuesday, an empty bottle bearing a poison label beside the bed.

Verdict of poisoning, self-administered, was returned by the coroner, Justice of the Peace W. W. Fox.

He left a note which shed no light on the cause for his action; and Cashier Joe A. Clarke said Castles' books were in order at the bank.

For several days, the assistant cashier had left the bank about 10:30 gone by a neighboring drug store where he purchased a poison, which he said was to be used as a disinfectant, and other medicines, and stopped at the shop of O. D. Williams. He asked Mr. Williams to take him to his residence, which the latter did. He was alone in the residence at time of his death.

### HOW MUCH FOR ADVERTISING

If in doubt as to how much money you should spend for advertising, the following budget compiled from Harvard University statistics, various business surveys, trade journals and associations, may be helpful.

Most of them indicate what percentage of gross sales is allotted to advertising, average for each group. Some of this kind are:

Auto tires and accessories, 1.1 per cent.  
Beauty shops, 5 per cent.  
Building supply, 3 per cent.  
Department stores, 4.1 per cent.  
Drug stores, 1 per cent.  
Dry goods stores, 3 per cent.  
Furniture, 3.96 to 10 per cent.  
Grocery stores, 2 per cent.  
Hardware, 1.35 per cent.  
Jewelers, 3.9 per cent.  
Meat markets, 0.9 per cent.  
Men's apparel, 3.83 per cent.  
Restaurants, 1.8 per cent.  
Shoe stores, 3.6 per cent.  
Specialty shops, 3.85 to 4.2.

Some of the larger universities have co-ed rifle teams. Part of the domestic science course, we presume.
