ODD ACCIDENTS

Stories of freak accidents followed the recent Southern tornado. W. T. Porter lay gravely ill in his Alabama home. The storm wrecked four of the fine rooms, the one in which he lay escaped undamaged. In the same state high winds knocked the home of Robert Elmore off its foundation but didn't break an egg in a bucket containing ten dozen. Over in Georgia, W. P. Sleigh, his wife, and baby crouched against a wall in their home as the storm struck. The wall beside which they knelt was the only one left standing.

Two old cronies William Maurer and Alexander Mahoney, 81 and 91, respectively, were walking about Soldier's Home in Washington in the early morning hours. They bumped together and Maurer fractured a hip, subsequently dying from pneumonia. A coroner's verdict read accidental death.

A South Carolina night watchman in a lumber yard hid his whiskey bottle under a pile of boards when he reported for work. After dark he pulled out the bottle and took a long drink. But he got the wrong bottle, one containing poisonous soldering fluid, and died a few hours later.

A small boy stood looking longingly into a candy show case in a California grocery store. A large dog leaped playfully on the small chap knocking him through the glass into the middle of the case. Not a scratch was received from the splintered glass.

Ike Furrh of Weimert, was in Haskell Saturday on business.

ATTRACTIVE BEDROOM IS RESULT OF LITTLE EFFORT

"Some of the improvements made on my bedroom include a new mattress, four new three yard length sheets, a rocking chair, and a refinished dresser," states Laverne Hester of the New Mid 4-H Club.

"The room had never had any base boards; so they were added. The closet was painted ivory and improved with rod and shelves. The new arrangement of the furniture and picture improved the room quite a lot. The pictures were much too high, but now they are hung at eye level."

Mr. and Mrs. W. A. Duncan were in Children and last week a part of where Mr. Duncan went to see Mrs. Duncan visit her sister.

My but we are having some real summer weather now. We are needing rain in some parts of the community.

Mr. I. D. McGregor and children, of Knox City, spent Saturday night and Sunday with his sister, Mrs. Rose Bischofshausen. Mr. and Mrs. P. D. Boddie spent Sunday with Mrs. Boddie's sister Mrs. Bill Fought of the Lake Creek Community.

Mrs. Jno. McGregor of Haskell, has been visiting her sister Mrs. J. D. Address for the past week. Mr. and Mrs. J. C. Coleman spent Sunday with Mr. Coleman's mother and father of the Plainview community.

Beno Address and Jack Bouldin visited with relatives near Old Glory Sunday evening. Mrs. Beno Address and children spent Sunday with her sister Mrs. Lester Davis of the Post Community. Grandmother Capers who has been visiting with her granddaughters Mrs. Keddel and Mrs. Fought of near Weirnet for the past five weeks has returned home. We are glad to have grandmother back in our community again.

We are sorry to report that there was but a few out for Sunday school Sunday. We trust that each and everyone in the community will see and realize the great need of a Sunday school and will awake to the fact that God needs them everyone in his work and that without their help and cooperation we can't and won't have the Sunday school and church work at this place as we have had in bygone days, so come on friends and help us in our prayer. Remember that next Sunday is our regular preaching day. Quite a few of this community attended the shower given in the home of Mr. and Mrs. Eck Templeton of Haskell Saturday night honoring Mr. and Mrs. Woody Davis. Mrs. Davis was formally Miss Alta Fay Lackey. After a social hour and a musical entertainment the guests were invited into the living room where Mr. and Mrs. Davis were surprised to find a beautiful box decorated in pink and white, containing many useful gifts. After admiring the gifts the guests were invited into the dining room and served cake and punch. At a late hour the guests departed wishing for the young couple much happiness as they journey down life's pathway.

SARAH ANN'S COOKING CLASS

In the stores and markets are baskets and baskets of luscious ripe tomatoes. While they are plentiful the housekeeper should use them frequently in her menus. Vitamins A, B and C are better supplied in the tomato and in such a state that their value is unchanged when cooked. Tomato juice ranks as a substitute for orange juice.

Tomato Juice Cocktail
Season the required amount of tomato juice with salt, pepper, cayenne and onion juice. Pour into a refrigerator tray and freeze, stirring every half hour. Before serving beat thoroughly with a fork or egg beater. Serve in cocktail glasses, garnished with a sprig of parsley.

Mixed Grill
Wash 6 tomatoes and cut in halves. Sprinkle with salt and pepper, spread with prepared mustard and cover with buttered crumbs. Chill until ready to grill. Wash and remove stems from 1-2 pound mushrooms and place caps in refrigerator until ready to saute in 2 tablespoons fat, 15 minutes before serving. Arrange 1 pound link sausages in a baking pan and place in a moderate oven for 1-2 hour or until brown. Ten minutes before serving arrange 12 strips of bacon on half the broiler rack and place tomato halves on the other half and broil until bacon is brown and tomatoes tender. Serve sausage, bacon, tomatoes and sauted mushroom caps on a large platter. Serve 6 generously.

Eggplant With Tomato
1 medium eggplant.
4 tomatoes.
2 to 4 tablespoons cooking fat.
1-2 cup bread crumbs.
2 teaspoons salt.
1-4 teaspoon pepper.
Peel the eggplant and the tomatoes. Cut in half inch slices and dip in the crumbs, mixed with the seasoning. Brown on both sides in cooking fat. Place a layer of brown eggplant on the bottom of a baking dish, cover with one of tomatoes. Continue adding alternate layers until the dish is nearly full. Top with buttered crumbs. Bake in an oven 350 degrees for 20 minutes.

Tomato Slaw
1 small cabbage.
3 firm tomatoes.
2 tablespoons flour.
2 teaspoons sugar.
1 teaspoon mustard.
3 tablespoons vinegar.
1-4 teaspoon salt.
Cayenne.
2 egg yolks.
3-4 cup milk.
2 tablespoons butter.
Shred cabbage, cut tomato in cubes and put in refrigerator to chill. Combine flour, sugar, mustard, salt and cayenne and add to slightly beaten egg yolks. Add milk and butter. Cook over hot water about 3 minutes, then add vinegar slowly. Cook, stirring thick. Chill. When ready to serve combine cabbage, tomatoes and dressing.

Fried Green Tomatoes
Slice green tomatoes 1-3-inch thick. Dip in seasoned corn meal and saute in hot fat until brown on both sides.

Tomato Filled With Egg Salad
Select round medium sized tomatoes; peel then hollow deeply. Season inside with salt and pepper and turn upside down to drain. Hardcook the same number of eggs, chill and chop coarsely, adding to each egg 1 tablespoon of chopped ham, chicken or tongue, and 1 tablespoon of diced celery. Moisten well with a stiff mayonnaise or boiled dressing and stuff the tomato, heaping up well in the center. Garnish each tomato with a sprig of water cress inserted in the salad. Arrange in the salad container and chill well.

Variety Salad
Arrange crisp lettuce around edge of rather large platter and fill in the center with heart leaves on one side lay overlapping slices of tomatoes and on the other side slices of cucumber. Garnish center with curled celery and watercress. Serve with French dressing to which crumbled Roquefort cheese has been added.

Creamed Tomatoes and Cheese
3 large tomatoes.
3 tablespoons flour
1 1-2 cups milk.
1 teaspoon salt.
Pepper.
6 tablespoons grated cheese.
3 hard boiled eggs.
6 slices buttered toast.
Parsley.

Wash, stem and cut the tomatoes in halves crosswise. Dip in seasoned flour, then saute in the hot fat until golden brown on both sides. Arrange on the toast in the center of a platter. Add the flour to the fat left in the skillet, stir until smooth, then add the milk gradually and the salt, pepper and grated cheese. Cook gently, stirring until smooth. Add the eggs which have been sliced and when hot, pour over the toast and tomatoes. Garnish with parsley.

Mr. and Mrs. Leon Pearsey spent the past week-end in San Angelo with their parents Mr. and Mrs. W. E. McElroy. They were accompanied home by their daughters, Jean and Eriean who had been visiting the past two weeks.

Mrs. Marvin McLaughlin and children of Rails, have been visiting her parents, Mr. and Mrs. C. W. Bledsoe and other relatives here this week.

FORMER MUNDAYITE ON FACULTY CLARK COLLEGE IN MASS.

Dr. Joe Davis has received a clipping from last Sunday's daily newspaper published in Worcester, Mass., announcing the appointment of his son, Dr. Kingsley Davis, as a member of the faculty of Clark University there. The paper carried a picture of Dr. Davis together with two other faculty members appointed at the same time.—Munday Times.

ESCAPED CONVICT IS APPREHENDED IN MONAHAN

James Reese, negro, was arrested in Monahan Tuesday morning. Sheriff Irby Dyer and Deputy Ray Keenan making the arrest. Reese is wanted in Pawnee, Oklahoma, for burglary and jail break, and police notices were sent to officers here indicating he had been in the pen five different times.

When arrested here under the name of Earl Strong, Reese readily admitted his identity and waived extradition to Oklahoma. Mr. Dyer said Oklahoma officers were expected to come for the negro some time this week. Besides Earl Strong Reese had used the alias of Terrapin. He is being held in jail in Pecos pending arrival of Oklahoma authorities.—Monahan News.

BIG ONIONS GROW IN BELLEVUE

During the fall months of last year the News proclaimed the Bellevue territory as the champion onion growing section of the United States and so far as we know, the claim was never questioned. This week we are making an-

other claim, that of the best onion producing counties in the state. We base this claim upon two simple onions brought in this week by Mrs. America Wetzel, which weighed 1 pound each. The onions are perfectly formed and sound as can be found anywhere. If there are larger and better onions grown anywhere in this section of the country the News would like to know about it.—Bellevue News.

PTOMAIN POISON FATAL TO WOMAN

Mrs. Edwin Johnson, about 40, of the King High community, died yesterday evening about six o'clock while she was being carried to the Memorial Hospital in Quannah as a result of ptomaine poison, and also acute indigestion. She had been ill but a few hours. Mrs. Johnson was visiting at the home of a sister in Odell when she took sick. She was rushed to Chillicothe where medical attention was given, but her condition was so serious the doctor ordered that she be carried to the hospital. She passed away when the ambulance had reached the Hill Top service station between here and Quannah.

According to close acquaintances Mrs. Johnson had eaten some fish and drank sweet milk, and this is believed to have caused the poisoning. She had been in a weakened condition, however, since undergoing an operation some time ago.—Chillicothe Valley News.

COMPLAINT IS FILED IN MURDER CASE

A complaint here a few days ago charging a negro with the murder of the Mexican whose dead body was found in a field in the Gordon community one day last week.

The negro has not been arrested but officers are sure they will have him in jail within a short time. If officers have procured any new evidence in this case the past few days, they have not disclosed its nature.—Lynn County News.

MEN SERIOUSLY INJURED WHEN CAR OVERTURNS

Jim Bartley and W. C. Melton were seriously injured late last Friday afternoon when their car overturned several times on the highway a few miles north of Roby. Bartley was unconscious from the time of the accident until Thursday morning. He is in an Abilene hospital and is expected to recover. Melton suffered injuries to a hip and an arm that had been injured by burns last year.

They were driving a Model T Ford pick up, Melton driving. It is thought a blowout of a rear tire caused the car to turn over. They were taken to Roby by a passing motorist and given first aid treatment and then brought to their home here.—Rotan Advance.

VALLEY MOTOR HITS MAN

Friday morning of last week the Wichita Valley Motor car hit a man down near Abilene. At first it was thought the man was killed, but it was found he was badly hurt and he was taken to Abilene where he was placed in a hospital.—Stamford Leader.

COWBOY SNARES EAGLE WITH ROPE

Roping an eagle is not strictly in the line of duty for a cowboy, but it was rather profitable for Bruce Horner, who after displaying his catch on the streets of Clarendon Monday, sold the bird to a man for a pet.

Horner, a cowboy of the Che-nault Ranch, said he caught the young eagle after he had knocked from the nest in a large cottonwood tree, ran after it on foot, then jumped on his horse and gave chase. He finally roped it some distance from the tree. The eagle was about four weeks old, Horner estimated, with a wing spread of around four feet. Daily rations consisted of a jack-rabbit with small "snacks" between meals.—Clarendon News.

W. A. REEDER HAS NARROW ESCAPE SATURDAY

W. A. Reeder of Plainview, who was working on a combine south of Rule, had a narrow escape from death Saturday morning when he was on top of a combine and the oil can he was using came in contact with the high line that goes through the field. 16,000 volts of electricity from the high line knocked him away from the line, breaking the circuit, which saved his life. He was burned severely on the hands and feet. He was rushed to the Stamford sanitarium for treatment, and is slowly recovering from the burns and shock.—Rule Review.

Miss Sue Kinney, who is attending Sul Ross College in Al-pulse, and Miss Annie Kate Ferguson, teacher in the College, spent Sunday in Haskell with relatives. They returned to Alpine Monday.

Family Group Enjoys Father's Day Outing

Children and friends of Mr. and Mrs. J. O. Stark who reside several miles southeast of Haskell, arranged a surprise basket dinner and outing honoring Mr. and Mrs. Stark on the occasion of Father's Day last Sunday.

After all had attended services at the Howard Church Sunday morning, instead of returning to their homes the honor guests were invited to accompany their children to a picnic site which had been chosen on a nearby stream.

Arriving at the scene of the picnic, a bountiful basket dinner was spread which was heartily enjoyed by all, and various presents were tendered the honor guests, after which the grown-ups enjoyed games of "42" and "84" under the shade of trees, while the youngsters went wading and swimming.

The entire day was spent in a family reunion, with numerous friends and neighbors present.

Those enjoying the occasion in addition to Mr. and Mrs. Stark, were: Mr. and Mrs. Earl Roberts, Edwin Roberts, Mrs. Ruth Landess, Miss Elma Landess, Jack Landess, Mr. and Mrs. R. T. Landess, Mr. and Mrs. W. B. Stark, William Stark, Martie Bell, Virginia and Patsy Nell Stark, Mr. and Mrs. H. Hisey, J. H. Hisey, Ruby and Bonnie Dell Hisey, Doyle Hisey, Mr. and Mrs. Floyd Gilliland, Mr. and Mrs. Bill O'phant, Mr. and Mrs. Clay Matlock.

INSECTS, PESTS COST U. S. \$2,000,000,000

Two billion dollars just about covers the damage done by insect pests in this country each year, according to Lee A. Strong, Chief of the Bureau of Entomology and Plant Quarantine, United States Department of Agriculture. This sum is estimated from the known amount—about \$900,000,000—of the damage done annually by 84 of the more important insect pests. For example, the boll weevil exacts an average yearly toll of \$164,000,000, and the corn ear worm, which attacks cotton and tomatoes as well as corn, a total of \$104,000,000.

The world has more than 700,000 kinds of insects that have been named and described, and new ones turn up every now and then. In North America there are 50,000 kinds of insects—4,500 being consistently destructive year after year.

No one region is specially subject to insect infestation, nor is one region likely to be the heaviest sufferer in successive years. Sometimes insect pests are worst in the Cotton Belt; at other times in the Grain Belt. Naturally, they are the most costly in regions where crop values are high.

INSTALLATION OF REV. DAVID STITT

Next Sunday at 8 P. M. the Rev. David Stitt, the new pastor of the Presbyterian church of Haskell is to be installed.

Dr. Currie of Austin, Dr. Har-die of Fort Worth, Rev. Mr. Guthrie of Graham, and Judge Stitt of Fort Worth, father of Rev. David Stitt, are to take charge of the service.

This will be a memorable occasion in the history of the Presbyterian church of Haskell. It has been twelve years since a pastor was installed here. All who know these men will expect something unusual. The public is invited and we would like for the people of Haskell to see this service and know more of our church work. The entire floor space will be filled with chairs.

The other regular services, Sunday school at 9:45; preaching at 11 A. M. and Endeavor at 7 P. M. as usual.

CARD OF THANKS

We wish to express our appreciation for the lovely kindness shown us during the recent illness and death of our dear father and grandfather. We are indeed grateful for the beautiful floral offerings. May God's richest blessings abide with each of you as our prayer.—Joseph Families.

CARD OF THANKS

We wish to express our sincere thanks to our many friends and neighbors for their kindness shown us in our bereavement in the loss of our darling son, William Howard Whitworth. We especially wish to thank Dr. Ferguson for his faithful, untiring service, and also deeply appreciate the beautiful floral offerings. We pray God's richest blessings for each and everyone of you.—Mr. and Mrs. D. E. Whitworth, Mr. and Mrs. R. L. Gaines, Mr. and Mrs. Jim Gaines, Mr. and Mrs. George Gaines, Mr. and Mrs. Tom Gaines, Mr. and Mrs. John Gaines, Till Gaines, Miss Florence Gaines.

Visitor From Bryan

Austin Stuart of Bryan, Texas, a former resident of Haskell, spent Saturday in the city "just looking the old home town over", as he expressed it.

Mr. Stuart attended the Haskell schools as a boy. He has resided in Bryan since 1912, when his parents removed there from Haskell.

This was his first trip back to this section, and he commented upon the growth of Haskell and its appearance.

Woman's Missionary Society

The Woman's Missionary Society met in regular session at the church on Monday, June 22. After a brief business meeting directed by the president, Mrs. D. H. Persons, Mrs. Burwell Cox gave a most inspirational devotional using as her theme "The Good Neighbor."

Mrs. Matt Graham directed a program on Hymns. Mrs. O. E. Patterson discussed in an interesting manner a number of the writers of our most familiar and beloved hymns. Then Mrs. Kenneth Thornton told us how a song becomes a hymn. Mrs. C. B. Breedlove dismissed the society with a prayer.

Next Monday the Missionary Society will meet with Mrs. T. C. Cahill at 5:30 o'clock. The meeting is to be in the form of a Silver Tea, and all of the women of the church are urged to be present.

Improves Bedroom

"Many improvements have been made in my bedroom as a cooper-ation in the Hutto Home Demonstration Club," states Miss Alice Correl.

Miss Correl removed the finish from her bed with lye and re-painted it. She added four new slats, a new spring cover made from cottonsacks, and a mattress cover. In order to complete the improvements on the bed she made a tufted bed spread of un-bleached domestic, and a cotton comfort.

Knowing Binder Troubles Save Time and Money

Understanding the different parts of the binder attachment and knowing how to overcome troubles likely to occur, save time, money and patience of farmers, says the U. S. Bureau of Agricultural Engineering. This knowledge will help farmers to get better work out of their machines and will cut losses of time in the busy season. Common causes of tying trou-

bles are poorly adjusted twine tensions, and twine disks which may be either too loose or too tight. Clogged or badly worn knoter bills may cause trouble, or a bill spring too loose or too tight, and a bent or worn needle.

Before starting the binder, says the bureau, it is a good plan to make sure that the binding attachment is properly mounted with all parts clean and free of rust, that the needle is properly threaded with good twine, and that the band knife is sharp and working right. Then if tying troubles develop, locate the failing band and examine it carefully. The condition of the band is often a clue to the difficulty.

Because all knoter parts are closely related, any adjustment of one should be made gradually and carefully so as not to disturb the others. A quarter of a turn at a time on spring and stud bolts is usually enough. When common troubles exist it is best to proceed systematically to eliminate one cause at a time.

A new binder attachment that fails to tie the first bundles may be a little stiff or may be stuck with paint. Application of kerosene at place stuck with paint will loosen it. Paint on knoter bills should be scraped off so that the twine will slide smoothly. Keep

working the attachment, stiffness will soon disappear. All makes of binder attachments contain practically the same parts and operate on the same principles. Consult explained in Farmer's Bulletin 1754; hints on locating parts and instructions for repairs contained in it.

The bulletin is published by U. S. Department of Agriculture, Washington, D. C., and a supply is available to you free.

Supper Club

Tuesday night Mr. and Mrs. Carl Powers were hostesses to members of the Club for a picnic and swim at the swim the picnic spread and enjoyed by Mrs. Bob Herrin Jr., Mr. Robert Sego, Mr. and Mrs. lace Ruff, Mr. and Mrs. Pearsey. Guests were Mr. Doyle White and Mr. and Mrs. Henry Gilchrist of Stamford.

FARM LIFE IMPROVING

It would be desirable if the progress into town could be arrested in Texas and, at the same time, the conveniences and advantages of city life received by those outside. This is what is now within the reach of thousands of farm homes, and those who live in such places have no earthly motive for leaving a pleasant spacious home and transferring to a narrow, crowded city area.

The automobile and good roads have placed a resident ten miles from town closer to Main Street than the outlying citizens of that same town were fifteen years ago, in point of time. Daily deliveries bring mail, and, if conditions warrant, it won't be long before two deliveries daily will bring the rural dweller even with the city lodger. The telephone, the radio, the individual ice manufacturer, the approaching electrification of our country—all these things make available modern comforts on the farm along any improved highway.

One of the greatest discomforts of rural life has been its comparative isolation, where the farmer's family lived apart, without near neighbors or desirable companionship. Farm homes congregating along a much-travelled highway are no longer isolated and solitary. Already, the difference between "town" and "country" has disappeared. The farmer's children attend school in town, form a part of the younger social set, and the family rides five or ten miles to church and Sunday School.

THE BONUS DISTRIBUTED

With more than twenty-eight million \$50-bonds distributed to more than two and a half million veterans of the World War, and something like ten million additional bonds to be distributed to a half million veterans who have not yet received their adjusted service certificates, the bonus question may be considered settled for the national government is concerned.

To the veteran who received part of the vast sum of \$2,237,000,000 last week the question has arisen as to how to use the bonds and money received. That most of the bonds will be cashed is generally assumed and thus the question relates to the spending of cash money.

Each individual in Haskell County who has received his bonus is entitled to use it as he thinks it best. Each veteran understands his own circumstances and knows what he wants to do with his cash and his advice to all veterans is to save or spend it as he sees fit.

That the vast sum thus scattered through the nation will have important bearing upon business is certain but that it means a new epoch in commercial affairs is nonsense. We advise all tradesmen to go after them as to demonstrate to the possessors that what you have to sell is not only worth what but a reasonable and wise expenditure.

MERCHANTS AND TRADE

If all the articles that have been written about trading at home were stretched, end to end, they would reach around the universe and back home again.

The idea that it pays citizens to patronize home industry is such simple truth that some "mart" people believe there is a catch in it, and they prefer to be "wise" and send off for something that the "foolish" home buyers miss.

The Free Press has heretofore urged its readers to buy everything possible in their home town, because a town or city has a money balance just as vital to progress as any individual budget. The more trading done in Haskell the more profits there will be and the more prosperity.

However, let's keep the argument on a sound basis, and to do this we must consider the merchant's obligation. He is not entitled to the trade of local citizens unless he is really a merchant and not a mere storekeeper content to pluck random profits of desultory trade. Local merchants to merit local patronage must be modern in their methods, up-to-date in their appraisals and efficient in business. They cannot and should not expect a community to support incompetency through misguided home spirit.

Having said so much about our merchants let us point out that Haskell, like other places, has efficient merchants. We have reliable and honest business houses. Readers are urged to be discriminating in their patronage and to support merchants who are public spirited, of known honesty and of apparent efficiency in business. In so doing you will not lose anything.

AFTER THE BUILD-UP

William Allen White, the sage of Emporia, aptly summed up the London situation when he remarked after the Cleveland convention that "it took Lincoln six years to grow to the proportions that Alf Landon had assumed in six months. Of course, Mr. White referred to the meteoric build-up that brought about the Kansas nomination. The combined forces of the modern newspaper, radio and telephone made a familiar character out of a man who, nationally, was comparatively unknown half a year ago. But now comes the test. The build-up days are over for Governor Landon. Henceforth, he must emerge as the individual, presenting his own case, standing on his own feet. It's going to be interesting to see how closely "Alf" of the posters stacks up with "Alf" as he really is.

ANY DAY WILL DO FOR A START

It is hard to realize that the long days of Summer are at hand, and that from this month on the hours of daylight begin to recede, until in six months we come again to the year's shortest day. There are so many plans in our hearts for our own development, for the growth of our business, and the improvement of Haskell that we are sometimes prone to think that time flies too fast. We should remember that the only way to accomplish anything is by making a start.

Today, long or short, is the day to begin. Let every reader of this article, if so moved, spend the rest of 1936 in trying to make effective the happy dreams that sprang up when it began. Such time will be well spent.

CURRENT COMMENT

TO OPEN A GREAT HIGHWAY

(Abilene Daily Reporter)

At Nuevo Laredo on July 1 the republic of Mexico will formally dedicate the newly completed Laredo-Mexico, D. F., highway to international traffic. Prominent officials of the two republics will attend and take part in the ceremonies, including President Cardenas and possibly American Cabinetmen Hull, Roper and Wallace. The chief of the U. S. bureau of public roads, Thomas H. MacDonald will be present. Texas highway commissioners and others prominent in state affairs will make the journey to Nuevo Laredo to participate.

For more than 750 mile this new stretch of road runs through a region of great beauty and picturesqueness. Except for a few bridges yet to be built and one of two mountain slides still to be curbed, the road is finished. The going is still rough, it will be a year perhaps before all the kinks are ironed out and the way made smooth for the average not-looking-for-trouble motorist.

This stretch of highway is destined to carry the greatest flood of international automobile traffic in a few years, of any similar road in the world. In time it will serve as a link between North and South America, and the ambitious motorist will find it possible to travel from the Arctic Circle to the southernmost tip of Patagonia.

It is of superlative importance to Texas, since the Lone Star state lies directly in the path of this international tourist travel.

It is well that Texas officialdom join hands with Mexican officials in dedicating the road to international good will and service.

VIEWS AND REVIEWS

Robert Cecil, British Diplomat: "I believe profoundly that the great mass of people are much in advance of their rulers and of what is called the governing classes."

Ida B. Wise Smith, president, W. C. T. U.: "We must challenge those political leaders and organized groups who wiped prohibition from our statute books."

Edward Benes, President, Czechoslovakia: "Worry and alarm are exaggerated in many countries."

John J. Pershing, General, U. S. A., Retired: "Courageous leadership is the one thing that can guarantee the success of a democracy."

James B. Conant, president, Harvard University: "Honesty, integrity, courage, unselfishness—these are the qualities we most admire in any individual."

George W. Norris, U. S. Senator, from Nebraska: "The efforts of President Roosevelt have been to put some humanity on the statute books."

Merrell E. Fenske, petroleum expert: "The best war will be won by the country with the best gasoline."

Richard Strauss, composer: "Cherries do not bloom in winter, nor do musical ideas come readily when Nature is bleak and cold."

Franklin D. Roosevelt, President: "The net result of economic and financial control in the hands of the few has meant the ownership of labor as a commodity."

Owen Scott, journalist: "The fact is that there are some powers which many employers prefer not to have any Government exercise."

Haskell County History

As Revealed by the Film of the Free Press 24, 25 and 26 years ago.

Twenty Years Ago—1916
Chas. Theodore, the aviator who will fly here during the five days celebration, will arrive Sunday, he has notified officials.

At a meeting of the City Council it was decided to let the people vote on the ordinance prohibiting keeping of dogs within the city limits, and the issue will be voted upon when the regular election is held in April of next year.

Willie Lockett, a negro about thirty years of age, was shot five times Tuesday night and killed. Two of the shots took effect in his neck and three in his chest. A Haskell man, for whom the negro had worked up until a few months ago, surrendered to officers and quickly made \$1,000 bond which was set at his examining trial.

Hon. J. H. (Cyclone) Davis congressman at large, and Hon. Tom Hickey, candidate for the United States Senate will speak in Haskell July 7th in the interest of their campaigns.

The Molly Bailey Circus will exhibit in Haskell on Saturday, July 1st. They have been showing in this city each year for a long time and always are accorded a large audience.

Miss Pansy Neely of Throckmorton spent the week in the F. G. Alexander home.

Miss Ruth Stephens is visiting in Mineral Wells.

A. Tom, Ben Yates and J. R. Johnson are attending a meeting of the Farmers Union in Weatherford.

Mrs. M. S. Pearson and children of Abilene are visiting their daughter and sister, Mrs. Waldrup at the Sayles community.

Leon Gilliam, assistant cashier at the Farmers State Bank, is back on the job after a two week vacation spent on his farm near town.

Thirty Years Ago—1904

Last year in July a dining party from Haskell while on the Clear Fork of the Brazos wrote some notes which they placed in tightly corked bottles and threw into the river. Mr. Wm. Flanagan had recruited a letter carrier Bramana, Texas, June 11, 1904, from Clinton Kinoy of that place, selling of finding the bottle 14 miles from the mouth of the Brazos—a distance of 190 miles "as the crow flies" from Haskell. The fishing party which sent the massive charged bottle on its long meandering journey down the Brazos was composed of Mrs. T. J. Lamm and two daughters, Messrs. Kate and Cora, and little son, Eugene and T. J., and Misses Sibyl Collins, Geneva, McWhorter, and Messrs. Al Cousins, Henry Whitaker and Warren Fitzgerald.

Cards are out announcing the approaching wedding of Mr. R. V. Robertson and Miss Frankie Plants of Seymour, which will take place Wednesday June 27. The prospective groom is a son of our fellow citizen, S. L. Robertson.

Several binders are being run night and day harvesting the oat and wheat crop in the Rainsland section north of Haskell, and threshers cannot fulfill all their contracts at this time.

Messrs. J. N. Ellis, Booth Englin and Walter Marsh have purchased the lot adjoining the Alexander store and will erect a concrete building which will house a meat market.

Dr. Williamson during the threatening weather Sunday night had a call to go about ten miles southwest from town. He left in a buggy from Simmons stable with

Jack Simmons as driver, but being quite dark, they headed straight into a sand pit in the west part of town. As the horses went down, one falling on top of the other, Dr. Williamson and Mr. Simmons jumped from the buggy, and neither was hurt, nor was the buggy broken. The pit is several feet deep, with steep banks, and the two men were forced to use shovels to dig the banks in order to get the horses out.

Dr. A. G. Neathery and his brother, Steve Neathery, have broken dirt for the foundation of a 30x40 foot brick building on the east side of the square. We understand the building will be completed by July 20, and will be occupied by Messrs. McNeill & Smith of Belton with a stock of hardware and implements.

Mrs. John Ellis returned last week from Mrs. Terry, where they visited Mrs. Ellis' father, Rev. D. James.

NO BATTLE PROVIDED FOR THE BABY RATTLESNAKES

Strange as it may seem, the baby rattlesnake has no rattle. Biologists of the United States Department of Agriculture say the young rattles has a button on the end of its tail at birth. Within a few days it sheds its skin; in 2 months it sheds its skin again, and then the first ring of the rattle appears. Shortly after these snakes are born the last 7 or 8 vertebrae fuse into a solid bone, the "shaker", around which the rings of the rattle form.

When a rattler sheds, all the skin comes off entirely, wrong side out—all except the part that covers the cap on the tail, which cannot come off because of the shape. This part of the skin, however, is dislodged and moves backward to become an additional ring on the rattle. The rattling noise is made by these rings of dry skin jiggling around when the snake vibrates his shaker. The biologists say a snake seldom has more than 10 rings because the vibration at the tips is so great that the terminal rings wear out or are broken off.

Biologists do not believe a lot of the notions about snakes. They say a rattler's years are not the same as the number of rings he has accumulated on his shaker. Normally one ring is added every time the skin is shed, and this is

O'BRIEN 4-H CLUB GIRL IS WINNER IN BEDROOM CONTEST

Bonnie Jo Vannoy Awarded Trip To Short Course At A. & M.

Miss Bonnie Jo Vannoy, member of the O'Brien 4-H Club, will receive a trip to the forthcoming Short Course at College Station, as a result of winning first place in the Bedroom Contest sponsored by Home Demonstration and 4-H Clubs of the county. Miss Vannoy's bedroom, improved at a cost of \$18.60, was recently judged and given first award in the county. The room will be scored again by a district judge to determine the state winner.

Bonnie Jo improved her entire room, starting with the walls and ceilings which were sheetrocked and the cracks roughly filled with plaster.

The furniture consisted of a bed with three coats of enamel and no rollers, a chifferobe, a quilt box, and rocking chair.

The walls were papered with light colored paper with a floral design and the wood work painted ivory. The floor was paneled down and crack filler used to fill the cracks. The filler was then varnished and waxed. The bed was painted ivory and new rollers and slats added. A spring and mattress cover and pad was made from old feed sacks. A cretonne wool comfort was made and quilted in four inch squares. The washing unit was made from an old victrola and desk from an old book shelf that had fallen down.

The total expense was \$18.60 most of this being spent on bedding which consisted of an all white candle wick bed spread, four three yard length sheets, and a wool comfort.

The next meeting will be an all day meeting, the second Wednesday in July at the home of Mrs. Sam T. Chapman.

Mr. and Mrs. J. D. Cozart of Bryson, Mrs. E. R. Marchman of Graham, Mr. and Mrs. Bill Cozart of Long Beach, California, and Mrs. W. A. Acree of Munday, visited with Mrs. B. Baker and daughter Betty Monday. Betty accompanied Mrs. Acree to Munday for a few days visit.

Scouts To Compete In Essay Contest On "Texas Rangers"

Mailing of autographed pictures of handsome Fred MacMurray, Paramount star, to Haskell Boy Scouts who have entered essays in "The Texas Rangers" was started today by the Texas Centennial Exposition.

To the Boy Scout who writes the best 500 word essay on "The Texas Rangers," King Vidor, famous movie director and native Texan, will award an all-expense tour to the Texas Centennial Exposition. The winning scout also will be given \$25 in cash to spend as he desires. A supplemental prize of an autographed, de luxe volume of "The Texas Rangers," by Prof. Walter Prescott Webb of the University of Texas, will be presented by the New York publishing house of Houghton & Mifflin.

Mr. Vidor is now completing a Paramount picture based on Prof. Webb's book. The star of the picture is MacMurray, who is supported by Jean Parker, Jack Oakie and Lloyd Nolan. A world preview of the production will be held in Dallas in August.

Rules for the Boy Scout essay contest have been sent to Scoutmasters in Haskell for explanation to the scout troops. The contest will close July 4. All essays should be mailed to Texas Ranger Contest Editor, Texas Centennial Exposition, Dallas, Texas.

3,000,000th Ford V-8 Driven to Southwest Exposition

The Centennial at Dallas, Texas, made a great "to-do" when the 3,000,000th Ford V-8, off the assembly line in less than a year after the 2,000,000th left last year for the Exposition at San Diego, California, arrived at the Exposition gates. In the upper photograph, taken in front of the Ford Exposition building are shown Rex Ryan, of the Ford Motor Company, a group of the Exposition's Rangerettes, the 3,000,000th V-8 after its trip from Dearborn, Michigan, Sheriff Smeot Schmid, of Dallas County, the city manager of Dallas, Hal Moseley, Nathan Adams, chairman of the Centennial; Fred F. Florence, president of the Centennial; Mayor George Seargent, of Dallas, and smiling James Rooney, who drove the V-8 from Dearborn, collecting "3,000,000" license tags from the states he crossed. The good-looking young ladies at the right of the car are Rangerettes, too.

In the lower photograph, taken after the Ford had entered the Centennial grounds, are shown Messrs. Ryan, Florence and Adams with Jimmy Rooney holding the scroll, making the car an "Ambassador of Goodwill."

Plans Complete for Scout Camp July 12 to 26th

The great Chisholm Trail Council Boy Scout Camp will be held at Camp Tonkawa, July 12th to 26th and the Council officials are working on one of the best programs ever contemplated by the Camping Department of the Council.

Excellent swimming will be one of the features of the program and all swimming, Junior and Senior American Red Cross Life-saving tests will be held in the new concrete swimming pool at the CC Camp. The Scouts having been given permission to use this fine pool. American Red Cross Examiners will have charge of all life-saving tests and the very exciting and interesting game of water polo will be embodied in the program.

The making of Indian war bonnets will be an added feature of the camp activities, each war bonnet to be patterned from the original bonnet made by the Sioux Indians.

A new type of archery is to be introduced and for the first time—instruction will be given in the making of flat bows similar to the ones formerly used by the American Indians.

Several Courts of Honor will be held and the entire program will be under adult supervision and leadership. There will be a graduate nurses on duty at all times and instruction will be given in Second First Class First Aid.

The Camping Committee will grade the Scouts as the preliminary move to recommending Chisholm Trail Scouts to attend the great National Jamboree which will be held in Washington D. C. during June, 1937.

Permission has been granted the Chisholm Trail Council Scouts to use any and all of the buildings at the CC Camp, including the first aid building, Administration, Mess Hall, Barracks, shower baths and so forth. However a great many of the activities will be held in the original Camp Tonkawa site.

Scouts are urged to register immediately and in order to get the benefit of the entire program, register for the two weeks period. One of the main features of the Council Camp is the association that Scouts have with Scouts of other cities. Lasting friendships are created among Scouts of different communities and cities. They learn to play the game with Scouts that they have never met before and learning to play the game is learning to give and take, is really one of the best principles of citizenship and character training.

President E. S. Cummings of the Chisholm Trail Council announces that during the Camp period, Scholarship Applications for Hardin-Simmons University, McMurry College, and Abilene Christian College will be decided upon by the Executive Board of the Council. No Scout that has previously received one of the Scholarships is eligible for a second scholarship and only Scouts that are active are eligible and these Scouts must be from communities that are supporting the Chisholm Trail Council financially. This ruling was made by the Executive Board of the Chisholm Trail Council several years ago.

Executive Shumway will serve as Camp Director and will be assisted by a number of experienced Scoutmasters and Eagle Scouts. Professional cooks will prepare the meals and enable the Council to live up to its reputation as serving excellent meals at Camp Tonkawa.

Camp Tonkawa is one of the prettiest spots in West Texas. It has plenty of shade, many large trees and the Regional Office considers the Camp site one of the best in Texas. Camp Tonkawa, where to. Tan is At and the Nights are Cool.

Group of Farmers Help Neighbor in Cultivating Crop

Swinging eighty-five hoes in unison, exactly that many friends and neighbors of Mr. and Mrs. J. B. Miller of the Pinkerton community, within the space of a few hours Wednesday morning "chopped out" 165 acres of feed and cotton on the Miller farm, in a true West Texas gesture of neighborliness.

Mr. Miller and members of his family have been unable to devote much time to cultivation of their crops in recent weeks due to illness in the family, with one son, Zern in the Stamford Hospital convalescing from an appendicitis operation. Another son, Bryce, has been ill for six months with Bright's Disease.

Realizing the misfortune of their neighbors, farmers of the com-

FHA Loans County Home Owners Total of \$16,114 To Date

Federal Housing Administration had insured 34 modernization notes, valued at \$16,114 in Haskell county through April 30, 1936, it was announced today by H. P. Drought, State director of the National Emergency Council for Texas. For the entire state, \$3,529, modernization notes valued at \$11,108,322.16 had been insured. The agency had accepted 2 mortgages, valued at \$5,000, for insurance in this county as of March 31, 1936, Drought reported. For the state, Federal Housing Administration had accepted for insurance 2,353 mortgages amounting to \$8,591,815.

It was estimated that through the Federal Housing Administration some 30,000 Texas property owners have been enabled to obtain loans required to repair, improve or modernize their property while more than 2,000 families have been enabled to finance the building or purchase of homes.

Community early this week mapped plans for Wednesday's cooperative gathering, and shortly after day-break the army of men were on hand to make short work of what had seemed an unsurmountable task for Mr. and Mrs. Miller.

Needless to add, the cooperative spirit shown by the group was and will always be appreciated by the unfortunate family, and we have been asked to extend their thanks to each of those who came to their help in saving their crop. Lastly—although there were eighty-five present and working, not a candidate was in the bunch.

W. C. Allen of Alpine, former Haskell county sheriff, was in the city several days this week on business.

STEEL MAKERS say—"Ford buys the best steel." Other suppliers of materials and parts will tell you—"Nobody checks up as closely on quality and price as Ford."

This means a great deal to you as a motorist. It is our way of safeguarding the interests of every purchaser and it leads to this—"The mechanical depreciation on a Ford is less than most cars, especially after the first year."

This is one sign of the extra value in the Ford V-8. Accuracy in manufacturing is another. (The Ford is made to unusually close precision limits.) And there is a long list of fine-car features that are exclusive with Ford in the popular field.

Have you a V-8 engine in your car? You pay \$1645 for it in any other car but Ford.

Does your car have Center-Poise? Ford gives you this modern feature for front-seat ride for back-seat passengers.

Does your car have foot-pressed Safety Mechanical Brakes? The Ford gives you this proved design, 20 square inches of braking surface.

Does your car have a genuine steel structure? Does it have Safety Seats? Ford is the only low-price car that gives you this extra protection at extra cost.

You get these fine-car features on Ford V-8 because of Ford's modern methods and low-profit policy.
