FORTY-NINTH YEAR

CROWDS POUR INTO HASKELL FOR CENTRAL WEST TEXAS FAIR

Hard-Fought Football Game Due Friday Night In Haskell-Snyder Clash

LARGEST CROWD OF SEASON IS EXPECTED

Coaches Richey and Mason Putting Charges Through Paces This Week

SNYDER IS TOUGH

Backfield of Foe Is Among Best in State; To Feature Left-Handed Passer

The tomahawks of the Haskell Indians will swing in all directions Friday night at Rice Springs Park when they tangle with the highly rated Snyder Tigers in what is expected to be the most thrilling football game here of the season.

Coaches Bill Richey and Perry Mason of Haskell, their charges and the entire fandom realize that the game will be hard-fought and a toss-up so far as the winner is concerned.

Haskell starters: Left end, Pippen; left tackle, Roberts; left guard, Hamilton; center, McMillan; right guard, Reeves; right tackle, Maples; right end, Starr; left half, English; right half, Sherman; quarterback, Adkins; fullback, Jack Kimbrough.

Officials: Jack Christian, referee; George Golightly, umpire; Carl Pee, headlinesman.

Coach W. W. Hill of the Tigers, had only five lettermen to return this season, with four of those backfield men, but victories over Rotan and Hamlin has demonstrated that Snyder's mentor has welded together another fighting eleven, and a potential conference winner. Snyder won in a walk over Rotan last Friday.

The Indians will face some of the toughest competition they have encountered this season when they square off against Wolcott, triple-threat backfield star; Huestis, passer and punter; and throws with his left mitt; Boren, one of the best blockers and heads-up football players in District 13; Moffitt, dangerous tackle; and Weise, tackler, who is fast on his feet and therefore takes part in almost every play.

Snyder uses the Notre Dame system of play entirely.

The Haskell players, so far as first string men are concerned, are in top condition, and eager for the fray. Recent casualties, John Kimbrough and Covell Adkins have recovered.

Held in connection with the Central West Texas Fair, the star sport attraction this week is expected to draw in the neighborhood of 2500 or 3000 people.

Among the out of town people who attended the funeral of Elsie Thurman which was held here last Thursday afternoon were: Mr. and Mrs. B. L. Stephens, Vernon; Mrs. Wright, Dallas; H. K. Davis and mother, Wichita Falls; T. C. Davis, Rule; Lee Duckworth, Jack McFarland, B. F. Stephens, Frank Tabor, Carl McGee, Fred Dunn, Ed Shaver of Knox City; Mr. and Mrs. E. L. Craig, Miss Anna Lee Williams, Mrs. Alene Guy, Charlene Tabor, Mr. and Mrs. Earl McGee, Mr. and Mrs. Jack McFarland, Mr. and Mrs. Gene Kennedy, Mrs. L. B. Craig, Miss Patty Lee Craig, Bud Craig, Mr. and Mrs. W. L. Ledbetter; Mr. and Mrs. Prentiss Wickliffe of Chillicothe.

The West Texas Chamber of Commerce will establish a convention headquarters in Lubbock around April 1 in charge of Assistant Manager Maury Hopkins, who will work in close cooperation with officials and executives of the Lubbock Chamber of Commerce on the various arrangement details and plans for the meeting. The general committee in charge of the affair will consist of Chas. E. Coombes, president, and D. A. Bandeen, general manager of the WTCC, C. E. Mead, manager, and A. B. Davis, manager of the Lubbock Chamber of Commerce, and Clifford B. Jones, district No. 3 director in the West Texas chamber. The convention city is located in district No. 3.

BURGE IS FOUND GUILTY BY JURY

Haskell Farm Youth Given 5-Year Suspended Sentence For Helweg Murder

Jack Burge, 17-year old Haskell county farm youth, was found guilty of murdering Bill Helweg, 27, on August 1, by the jury here last week in district court, and his sentence set at five years. A recommendation was made for a suspended sentence.

State's attorneys H. F. Grindstaff, district attorney; B. C. Chapman, county attorney; Tom Davis and Foster Davis, claimed that Burge killed Helweg while both men were attending a dance in the home of Gus Wahlen, farmer, living southwest of Haskell.

Judge L. D. Ratliff, Dennis Ratliff and William P. Ratliff, defended Burge.

Three-Day Week to Hunt Ducks

AUSTIN, Tex.—The Texas Game, Fish and Oyster Commission Monday fixed a shooting season of three days a week from Oct. 20 to Dec. 30 for ducks and other migratory water fowl. The shooting days will be Fridays, Saturdays and Sundays.

The season conformed with federal regulations. Authority for the commission to prescribe the season was granted by an act passed at the recent special session of the legislature.

Bag limits set were: Ducks, 12 of all kinds but not more than an aggregate of five of either eider, canvasback, red head, greater scaup, lesser scaup, ringneck, blue wing teal, green wing teal, cinnamon teal, shoveller and gadwall; geese and brant, four; coot 25; Wilson and jack snipe 20. Possession was limited to two days' quota of any variety. Hunting hours will be from sunrise to sunset.

Common School Fund Enriched

AUSTIN, Texas.—The state common school fund received the record total of \$8,469,212 as its one-fourth "cut" of Texas' gasoline tax income for the fiscal year which ended August 31, or nearly \$1,000,000 more than in every previous year, Comptroller George H. Shepard announced today. Schools receive one cent of the four-cent gas tax.

Proportionate boosts went to the Board of County and District Road Bond Indebtedness, which also receives one cent of the tax, and the highway fund, which gets the remaining two.

Working his first full fiscal year with an adequate field force under the state's strong new "anti-booster" law, the comptroller has filed 90 felony and 71 misdemeanor charges during the year, he reported.

Income of State Is \$2,000,000,000

Texas produces one-half of the Nation's crude oil, one-third of the Nation's cotton, three-fourths of the Nation's sulphur, more than thirty other minerals at a commercial profit, a substantial part of the Nation's grain, live stock, poultry, fruit and vegetables.

Texas' annual income in 1933 was more than \$2,000,000,000, of which raw materials alone contributed the sum of \$1,142,000,000. This income was distributed as follows:

Farming and livestock, \$564,000,000. Manufacturing (value added by manufacture), \$460,000,000. Petroleum production, \$200,000,000. Natural gas and natural gas-gasoline, \$95,000,000. Poultry and poultry products, \$72,000,000. Fruits and vegetables, \$50,000,000. Mines and quarries, \$49,000,000. Sulphur, \$45,000,000. Lumber products, \$45,000,000. Dairy products, \$40,000,000. Wool and mohair, \$18,000,000. Commercial fisheries, \$3,000,000. Wild animal pelts, \$1,600,000.

All others, including distribution, transportation, banking, utility services, professional services, small miscellaneous products, \$500,000,000.

Mitchell School Pupils Visit The Free Press Office

Mr. and Mrs. J. O. Nickell, teachers of the Mitchell school, accompanied by Mr. and Mrs. Jess Brothel, Mr. and Mrs. Carl Carver and Mrs. M. A. Draper were here yesterday attending the Fair. They had with them 22 pupils of the Mitchell school and in addition to visiting the Fair they were showing the students through several of the industrial plants of the county, including the Rule Oil Mill, the Haskell Free Press and others.

Unusual Sized Egg Brought to Haskell By O'Brien Farmer

An unusual sized egg, measuring 8 inches by six and one-half inches, was brought into the Free Press office Wednesday morning by L. C. Vance, farmer living near O'Brien.

According to Mr. Vance, the hen laying the egg was a Rhode Island Red, which weighs only six and one-half pounds and is two years old.

Young Texan Thrills State Fair Throngs

The State Fair of Texas does not have to go out of the state to get one of its greatest attractions, and the picture of Manuel King, 10-year-old Rio Grande Valley boy handling full grown lions proves it. Manuel, the only boy lion trainer in the world, is the son of "Snake" King, famous Valley rancher. He goes in for animals in general and snakes in particular. Manuel stages two big animal shows daily at the State Fair in Dallas this year, and they're free to all those who attend the Fair.

STATE HEALTH AID HERE ON SATURDAY

Meets With Local Registrars and Urges That All Births Be Recorded Promptly

Miss Olga Buresh of Austin, representing the State Health Department, bureau of vital statistics, was in the city over the week end and presided over a meeting of the registrars of Haskell county, held last Saturday morning at the courthouse.

The law requires that the birth of every baby born in Texas shall be reported to the local registrar of the precinct in which the child is born. Haskell county is divided into precincts conforming to the Justice of the Peace precincts and in many cases the Justice of the Peace acts as the local registrar. The following parties have been named as registrars:

D. T. Dotson, Haskell, for Precinct No. 1 and 3; E. L. Ridling, Weinert, precinct No. 2; Bennett Hess, Sagerton, precinct No. 4; E. H. Smith, precinct No. 5; R. L. Vick, precinct No. 6; W. B. West, O'Brien, precinct No. 7.

All physicians are required by law to report the birth of a child to the local registrar within five days, and Miss Buresh's visit to Haskell was for the purpose of assisting the local registrar in thoroughly familiarizing themselves with the law.

Miss Buresh explained that a birth certificate may be needed by the child in later years for the following reasons: To prove right to property inherited; to prove citizenship; to prove school age; prove age under child labor laws; prove age of consent; legal age for marriage; right to vote; hold public office; nationality; secure passports; and hundreds of other questions that might arise in future years that would be embarrassing to the child.

EXHIBITS ON A PAR WITH ANY IN STATE

NO CHARGE WILL BE MADE FOR CHILDREN DURING ENTIRE FAIR

All children under 12 years of age will be admitted free to the grounds of the Central West Texas Fair for the remainder of the week, so officials said Wednesday night.

Children were admitted free Wednesday, which was "Haskell Day" in accordance with past custom, but the officials believed that the youngsters should have the opportunity of "coming and going" as they pleased.

ROCHESTER WOMAN IS SUICIDE VICTIM

Mrs. Lynn Harrow Found Dead in Cellar By Her Husband and Child

Mrs. Lynn Harrow, 42-year old wife of a Rochester farmer and mother of two children, took her own life late Thursday night, Oct. 11, by discharging a double-barrel shotgun with a string tied to her foot. Striking the center of the forehead, the entire top of her head was blown away by the discharge.

The body was found in a cellar near the home when her husband and 11-year old daughter returned to the house after an absence of a few moments. In a nearby field, they did not hear the report of the gun.

A verdict of suicide was returned at an inquest conducted by Justice of the Peace J. W. Reed and Constable Bill Davis of Rochester. Father and daughter said the woman had been morose and brooding.

Merkel Stopped In 7 to 0 Score

Stopped from any decisive penetration into Merkel territory Friday night October 12 for the first three quarters, the Haskell Indians launched a successful air battle in the fourth quarter and defeated the Badgers 7 to 0 before one of the largest crowds of the season.

From the opening kickoff, players, coaches and fans knew that an old-fashioned football battle was in prospect, and time after time the wizard toe of Captain Boaz, of the Badgers, punted the ball deep into Haskell territory, living up to advance notices of the Merkel star.

Dust from the playing field, which had received practically no rain since put into condition, bothered the players of both teams. The shower Saturday night is expected to mitigate the trouble to some extent by packing the ground, leaving it in better shape for this coming Friday night when the Snyder Tigers invade the Haskell wigwam.

Boaz was an outstanding star for Merkel, but was able supported during the first three quarters by practically all of his team-mates.

Jack and John Kimbrough came through at critical moments for the Indians. Jack made his punting better toward the latter stages of the game, while John, although slightly injured at the beginning of the fray, came back strong and made several plunges through the center of the line which figured in Haskell's lone touchdown.

Dugan Starr, hefty end for the Indians, gave a brilliant demonstration of end-play throughout the game. Charging Badgers were stopped, and stopped cold, by Starr often.

A fighting brand of football was in evidence throughout the entire list of Haskell players, but no more so than the Merkel lads put up. Haskell made 8 first downs, Merkel 5. The lineups: Merkel—Joyner, right end; Carson, right tackle; Sublett, right guard; Toombs, center; Tipton, left guard; McAninch, left tackle; Patton, left end; Boaz, quarter; Adcock, left half; Richards, right half; Higgins, fullback.

Haskell—Starr, right end; Maples, right tackle; Reeves, right guard; McMillan, center; Hamilton, left guard; Roberts, left tackle; Pippen, left end; Adkins, quarter; Sherman, left half; John Kimbrough, right half; Jack Kimbrough, fullback. George Golightly, referee; Carl Pee, head linesman; Guy Craghton, umpire, all of Hardin-Simmons.

Despite Drought Exhibits Are Among Best Placed On Display Here

PARADE IS COLORFUL

Thousands Stand In Line to View Pageant; Tidwell's Carnival Attracting

With exhibits displayed in all departments that many experienced exhibitors consider the equal of any fair in Texas, the Central West Texas Fair opened here Monday to crowds which exceeded the expectations of the officials.

Interested throngs visited the main fair grounds Tuesday afternoon and night, to see the exhibits and the entertainment offered by Tidwell's Carnival, which is better than ever, but the town of Haskell was literally covered with people Wednesday on "Haskell County Day" when at least 5000 people saw the mile-long parade through the downtown section, and at least 1500 people witnessed the horse races which were held later in the afternoon.

Exhibits in all departments were brought to Haskell from every section adjacent to this city, and many of the awards went to out-of-the-county people.

Exclamations of pleased surprise were heard from the visitors at practically every exhibit booth, from curious to proud-looking Herefords.

Any attempt to describe the various exhibits, as many exhibitors thought they should be, would be impossible without the writer having at least a week of preparation, on account of the fact that every department's exhibits actually exceeded anything exhibited here in the past.

Throughout the auditorium the displays were considered excellent by the judges, who were put "on the spot" many times in making their decisions as to the winners because practically every entry had high scoring merit.

Moving along without an apparent hitch, the annual "Haskell Day" parade was staged at one o'clock P. M. Wednesday under the direction of Roy Sanders and assistants. Katherine Rike, riding a beautiful horse, led the parade. Following her and other women riders, were floats, bicycle riders (both boys and girls), "stunters", gaily decorated automobiles, football players, pep squad girls, junior rodeo stars and other colorful entries, to make the parade one of the best ever staged here, in the opinion of many visitors.

Junior cowboy rodeos under the direction of Rex Felker, are being staged nightly as an attraction each night of the week with the exception of Friday, on the lighted grounds at Fair Park.

In the poultry department, entries and quality of birds compared favorably with future fairs, and attracted many visitors.

Dimmitt Hughes, well known Haskell ranchman who was elected president of the fair association this year, and who is director of the livestock division, states that the dairy and beef classes on exhibit this year compare favorably with any to be seen in larger cities, while R. H. Maxwell, county agent, claims that, while the Fair this year is one of the best ever held here, he expects many more out of the county exhibits next year.

Pie Supper at Roberts

There will be a pie supper at Roberts Friday night October 26th for the benefit of the singing class to get some new song books. Everybody is invited to come and bring a pie. This class sings the first and third Sunday nights each month and everyone invited to come and help out with the singing.

Thomas Jefferson was 33 years old when he drafted the Declaration of Independence.

The WOMAN'S Page

The Methodist Missionary Society.

On Monday October 14th the women of the Methodist Missionary Society met for the last lesson of the Mission Study book. The meeting was opened by all singing "Close to Thee."

Mrs. Wallace Cox, superintendent of Mission Study, had charge of the program, with Mrs. O. E. Patterson giving the Devotional. As the Scripture lesson Mrs. Patterson chose to read a lesson from the Epistle of St. James. After this reading all joined in a concerted prayer using the hymn "Father in Heaven, Who Lovest All." Mrs. Cox brought a most interesting lesson. The 11th chapter told of the "Bible Women" in these Eastern countries. These are native women, who have been trained or taught by Missionaries, and are often very illiterate, but are faithful Christian workers. They are used more as "contact" people, but even they are so scarce that many of the people hear but one program in 3 years. The native Christian worker in Japan is of a higher class than in either China or India. Kindergartens are very popular in these countries and are recognized by the Missionaries, as one of the best

methods of reaching the masses. Chapter 12 was a resume of the preceding chapter, and stressed the value of friendship, and a closer fellowship between the people of the East and the West.

This book "Eastern Women Today and Tomorrow" has been one of the most interesting that has been studied by this Society and on all sides was heard words of appreciation of our Supt. of Mission Study, Mrs. Wallace Cox. Mrs. Patterson presided over a short business session.

The Missionary Society is sponsoring the collecting and sending of a box of supplies, preferably, canned articles. This box is to be turned over to P. E. Slover, the same to be given by him to some needy Methodist minister.

Mrs. A. J. Josselot, as Supt. of Supplies, requests every member of the church contribute to this box. Either bring your donations to Mrs. Josselot, or leave at the parsonage. This work does not belong exclusively to the women of the Missionary Society, but is one in which the whole church will, we are sure, be glad to join.

Next Monday is visiting day. We meet at the church at 3 p. m. and from there go, in groups, to visit our sick and shut-ins as well as new members of the church.

Plans were made for the all day meeting on Oct 28th. We will have more to say about this in our next report. There being no business, we were adjourned by the repeating of the Lord's Prayer in unison.

Viola Humphries Circle.

The Viola Humphries Circle met in the home of Mrs. Stovall Monday at 3 o'clock. The house was called to order by the leader, Mrs. Chas. Quattlebaum. The meeting was opened with a song "Take the Name of Jesus With You." A devotional on "Keeping Fit for the Sake of Others" was given. "Break Thou the Bread of Life" was sung, and then a prayer offered by Mrs. Alvins. A bible lesson from the book of Romans was enjoyed by six ladies. The local W. M. U. president, Mrs. I. N. Simmons, was a welcome visitor in the circle. A short business session was held and then the meeting was dismissed with prayer by Mrs. Stovall.

Junior G. A.'s

The Junior G.A.'s met at the church on Tuesday Sept. 16. After a business meeting we finished our Scrap Book which is to be sent to the Mexican Missions at Bastrop, Texas. Those members present were: Genie Conner, Eula Mae Watson, Velma Frank and Loretta Curvey, Maxine Perdue, Doris Hammer, Madgie Reese, Sue Quattlebaum, Betty Jane Stanton, Geraldine Akins, and our leader, Mrs. Viars Felser.

Magazine Club Begins Current Year's Work.

The Magazine Club began the work for a new year Friday, Oct. 12 with a very interesting program. The hostess, Mrs. Hollis Atkinson, had the room beautifully decorated with lavender flowers and with United States flags in honor of Columbus Day.

The club was called to order by the president, and the secretary read the minutes of the last meeting of last year and of the meeting called in July. After the roll call the following new members were introduced: Mrs. Foster Davis, Mrs. I. A. Castle, Mrs. S. Hassen, Mrs. J. R. Coody and Mrs. Kenneth Thornton. A response for the new members was made by Mrs. Foster Davis.

The president then turned the meeting over to the director, Mrs. W. G. Forgy. Mrs. Forgy introduced the new president, Mrs. W. H. Atkinson. She greeted the club with an excellent address, urging the women to give their best to the club and to cooperate in every way to put the club on a higher plane. Mrs. Atkinson suggested that we adopt the slogan, "This United Club" for the coming year.

The following program was directed by Mrs. Forgy: Song, "America"—Club. Columbus Day—Mrs. F. T. Sanders.

American's Creed—By members. Violin, selected — Mrs. Foster Davis.

Playlet—"The Three Visitors." The "Three Visitors" were Knowledge, represented by Mrs. Wallace Cox; Cooperation, represented by Mrs. C. V. Payne; and the Spirit of Enthusiasm, represented by Mrs. Jno. Rike. They endeavored to impress the officers of the club with the importance of knowledge, cooperation, and enthusiasm for the success of any study club.

The president then asked the members and visitors to remain for a social hour. Refreshments of red, white and blue ice cream and angel food cake were served with tiny American flags as favors.

Rule Couple Marry.

At 9:45 Wednesday a. m., Nov. 17, Mr. Glen C. Leggitt and Miss Rita Louise Ellis were united in marriage by Rev. Orion W. Carter, at the Methodist parsonage in Haskell. The bride's dress was a lovely blue crepe. The young couple will make their home in Matador, Tex. Those present at the wedding were Elta V. Bristow, Albert Ellis, Edwin Lott, Olga Allison, Hollis Pitman, Oleta Leggitt, Ila Ellis, Opal Leggitt, Mrs. B. F. Lindley, Duane Ellis and Mrs. Orion W. Carter.

Love Shower for Mrs. T. C. Hardin.

On Saturday night Oct. 13th a love shower was given in the home of Mr. and Mrs. Walter Rogers honoring Mr. Roger's grandmother T. C. Hardin's eighty-third birthday. The program opened with a congregational song, "Higher Grounds," Prayer by Walter Rogers. A reading by Mrs. Paul Josselot. Two different quartets were arranged by Mr. and Mrs. Eugene Lancaster. Mr. and Mrs. Jess Josselot, Mrs. Luther Toliver, Mrs. Walter Rogers, Mrs. Jess Josselot and Mrs. W. E. Scheets. A reading by Herman Josselot. Miscellaneous games were played which everyone enjoyed very much. A beautiful orchid basket of lovely gifts were presented to the honoree by Mrs. Walter Rogers.

Mrs. Paul Josselot assisted Mrs. Walter Rogers in serving a variety of fresh fruit to the following:

Mr. and Mrs. Eugene Lancaster and son, Mr. and Mrs. C. A. Thomas, Mr. and Mrs. Luther Toliver, Mr. and Mrs. William Scheets, Mr. and Mrs. Jess Josselot, Mr. and Mrs. Paul Josselot and son Herman, Mrs. Felix Josselot and daughter Almada, Mrs. B. T. Cliff, Mrs. J. E. Sadler, Mrs. P. W. Rogers, Mrs. L. P. Stephens, Mr. Walter Rogers, Leonard Drinnen, Eugene Rogers, the honoree and the hostess.

CLOTHES

By a "Young Modern" DENTON, Texas. — Are you a clothes hound? If so you are perfectly aware that with winter "just round the corner," the fashion eye is focused primarily upon those "top garments" that are such deciding factors in your wardrobe.

As a whole, there are two distinct trends recognizable in costume types. The unadorned tailored type with distinguished cut and detail interest is always popular for the fall slender girl with the deep expressive eyes and quiet personality. The luxurious type, reminiscent of the 1900's in employing furs, feathers and the more exotic materials, appeals to the shorter girls, giving them better chance to appear more on the type of their sophisticated friends.

Young moderns at Texas State Teachers College for Women (CIA) corroborate the wrap-around skirt with novelty wooden buttons fastening it at the top. Tapering sleeves, cut in one, with backs that are topped with a cowl-draped yoke are ideal for "dress-up" frocks. Yokes are a clever means to several ends in that they offer opportunities for smart color effects, supply design interest and serve to add width to the shoulders.

Fall suits have a fashion-rightedness about them that is at once smart and practical. The two-third length jacket as shown in Paris confirms the authenticity of young moderns who suggest mole for the collar and cuffs, dyed to match a brown jacquard-patterned woolen that is unmistakably "new." Then they choose brightly lacquered buttons to fasten the jacket snugly around the neck.

Dress up for every occasion. In the fall and early winter discard that carefree personality and be the "young sophisticate" that is fitting to your individual type.

LONDON CROOKS FIND GETTING ARMS EASY

LONDON. — Any London crook can get as many revolvers and machine-guns as he wants—provided he knows where to go.

Special Scotland Yard officers are working night and day to break up a powerful gang, which has been running guns into London for years.

Most of the firearms are of American manufacture, and are said to be smuggled in by seamen. Large quantities also come from France and Belgium.

Helen Bagby Circle.

The members of the Central Circle met Monday afternoon in the home of Mrs. L. F. Taylor for a Bible study. The meeting opened by singing "Where He Leads I Will Follow" and Mrs. Taylor gave the devotional on "Why Go Away From Christ" taken from the last part of the 6th chapter of John. We then had a short business session in which plans were made to send a box to Buckner's Orphan's Home the first week in November. We had special prayer led by Mrs. Ellis for our Bible teacher Mrs. Reynolds who was carried to the Temple Sanitarium Monday, Mrs. Glenn taught our Bible lesson from the 17th chapter of John and many interesting thoughts were brought out in the discussion of this lesson and we are sorry to report so many of our members were absent this week.

Seven members were dismissed with prayer by Mrs. Lamkin. We will meet at the church next Monday evening and please let all the ladies of the Baptist church have their package or donation ready next week as we will gather up next week and if you will phone Mrs. Taylor or Mrs. Ellis they will call for your package. We are hoping to send a great box in November for the Orphan children and ask all to please help us.

PROOF O' THE PUDDING

Maple Nut Pudding
Mix 1 cup brown sugar with 2 cups boiling water. Remove from heat and stir in 3 rounding table-spoons Minute Tapioca and cook in double boiler until thick. Remove from heat and add 1 cup English walnuts. Serve with plain or whipped cream. Will serve about six people. (I often make this over direct heat by stirring constantly and save time.)

Corn Starch Pudding
Heat in double boiler 2 cups milk, 1/2 cup sugar, pinch of salt. Add 2 table-spoons corn starch to 1/2 cup milk (making 2 1/2 in all), then add the well-beaten yolks of 2 eggs. Add last mixture to first and stir until it thickens. Remove from heat and add the well-beaten whites of 2 eggs and 1 teaspoon vanilla. When serving sprinkle with nutmeg and place 1 spoonful tart jelly (currant is good) in center and serve with cream. This makes six generous helpings.

Grape-Nuts Pudding
Soak 1 cup Grape Nuts in 1 cup

milk for one hour. Add 2 eggs (whites beaten separately), 1 cup raisins, 3/4 cup sugar, pinch of salt, 1 cup milk (making 2 in all) 1 tea-spoon nutmeg or cinnamon. Put in with Grape-Nuts and bake in slow oven one hour. Serve with cream. Will serve six people.

Nature Is Help To Medical Men

AUSTIN, Texas.—Nature has revealed priceless secrets to students of medical science, stated Dr. John W. Brown, State Health Officer. The Schick test is the key to one of these secrets. It determines whether children are susceptible or immune to diphtheria. The medicine used consists of a highly diluted form of diphtheria toxin, several drops of which are carefully introduced between the outer layers of the skin, on the inner surface of the forearm.

This susceptibility test is entirely harmless. Fifty times the amount used for a child would be necessary to injure a small animal such as a mouse or guinea pig. The red area is Nature's danger signal. Such a child, if exposed to diphtheria, Seventy-five to 90 per cent of

children under 12 are naturally susceptible to diphtheria. This information has been gained through Schick tests carried out on thousands of children in this country during the past decade or more. Young children should therefore receive immunizing treatments against the disease, without a preliminary Schick test. Such a test should however, be carried out six months after preventive treatments, to make certain that immunity has been established. In older children and adults a preliminary Schick test is advisable, since immunity may already be present.

During 1933, 632 children died of diphtheria in Texas. Nature has revealed the secret of susceptibility through the Schick test. With the knowledge of susceptibility, diphtheria could be reduced to the vanishing point if parents would have their family physician protect their children.

Junior Sunday School Entertainment.

The Center Point Junior Sunday School teacher, Mrs. B. M. Gregory, entertained her class at her home Sunday. Games were played until late in the evening when cakes and punch was served. Everyone reported a very nice time.

WE STILL MAINTAIN

That the cost of a Jones, Cox & Co funeral is not one cent higher than any other service of like kind in Haskell county or adjacent territory. Because, with our years of experience and with the careful method of buying that we maintain, we know that the costs are kept down to the minimum. This in turn reflects back to the family we are serving in low prices... giving them a satisfactory service at a low figure. And all the necessary details are attended to by responsible assistants.

NOW IS THE TIME TO PAINT YOUR HOME

The fall season is an ideal time to paint, with everything in favor of the home owner. Here are just four good reasons for painting now.

- 1 Surfaces are well dried out, and the weather is more dependable.
- 2 Skilled painters are now in season to obtain now than during the spring rush.
- 3 You protect against winter's cold, which means more heat bills, more coal, and more—altogether a costly expense.
- 4 Many of these painters are now at home, and you can get them at a special price.

Volume 1 By Haskell High School Students No. 2

EDITORIAL

This second presentation of this column of The Indian Warwhoop brings us to a definite decision that we have all possible cooperation from both the Student Body and the Faculty. As in the case of so many other accomplishments, all have been drawn together with a fervent zeal to succeed. Consider the case of our ability to make our own rules by which to be governed here at school. At the beginning of the year our principal expressed the idea that it was the Student Body themselves who formed these rules. For instance, if we should crowd in halls, talk too extensively, or have other unnecessary misconduct, that automatically forms a rule against these things.

Thus it was our privilege to delay the policy of Detention until we started it by your own conduct. This we succeeded in doing for one whole month. Now imagine the Editor-in-Chief of The Indian Warwhoop being among those to grace the proverbial Room 6 with her senior dignity the very first day!

A CORRECTION

In last week's issue of The Warwhoop credit was given Miss Vick for suggesting the name of our column. Miss Vick asks us to state that the honor should go to Miss Alma Sprowl, who suggested it to her. At present a Haskell teacher, Miss Sprowl is a former Haskell High student, and knows that old spirit. We appreciate her interest.

SOME OLD STUDENTS RETURN

When school began this fall, two of our former students—Alvin Sherman and John Darnell—returned to our midst after a year's absence. Alvin is back from a year's service in C. C. C. and a recent death-grip with spinal meningitis; while John has returned to school after several months of serving the public—commercially speaking. Also, more recently, Edwin Parsons has returned

from several months' service in C. C. C. and has again entered our ranks. We are glad to have these boys enrolled again, and hope that they will find it well worth their while to continue their interrupted studies. Oftentimes when a student drops out of school and misses as much as a year (for whatever cause it may be) his interest is diverted elsewhere and he never returns to finish high school. It is a generally accepted fact, however, that the person who has finished high school has a better chance in the world of business, and a greater appreciation of things cultural. For this reason we think these boys are to be congratulated for determining to come back.

MR. HENRY RESIGNS AGRICULTURE WORK

After serving six years on the high school faculty as teacher of vocational agriculture, Mr. H. K. Henry has resigned to accept a position in a C. C. C. camp at Flagstaff, Ariz. Having been a reserve officer for several years, he was able to secure this position, and we hope that he will be well pleased in his new field of service. Haskell High is proud of the record that he and his boys have made.

HASKELL MUNICIPAL BAND

The Haskell Municipal Band met Sunday afternoon on the east side of the court house for a short concert. After the concert we met at the City Hall and practiced marching. Some of our members have never marched in a two or three mile parade and needed the practice. Wednesday at one o'clock we will play for the Central West Texas Fair parade and for the races each day. We have some new pep music for the Friday night football game when the Indians play the Snyder Tigers.

Monday night we met for regular practice and business meeting when the following officers were elected: President—R. H. Moser. Vice President—Felix Frierson. Secretary—Treasure—Gayle Roberts. Finance Committee—Gayle Roberts, chairman; Howard Whatley, Carl Arbuckle.

INDIANS VS. BADGERS

During the past week the Haskell Indians have been putting forth a great deal of that stored away energy. Coaches Richey and Mason have worked very hard trying to bring out the defects and put the team in good condition to meet the Merkel Badgers.

The Indians met the Badgers on the Indian field Oct. 12 at 5 p. m. On the toss Haskell lost and Merkel chose to kick, and how that man Boaz can kick; right over the back line on a fly and right into the tin can pile behind the post.

Somebody ask us how many pounds Coach lost while Jack Kimbrough returned the first kick off. There is no doubt about it that Haskell had imaginary wolves back of them and Badgers over, around, on, and under them during the first half. When the second half started you could see how badly those boys wanted to win, (they had to) Beyond a shadow of a doubt it was the ceaseless and seemingly unquenchable driving power and ability to go four full quarters that won a ball game for Haskell Friday night.

Did you ever see so many hard, low tackles, huh? Did you ever hear so much leather popping, huh? Did you ever see such a pass defense, huh? Did you ever see such punts, huh? Did you ever see ends go down as sweetly, huh? Did you ever, ever, see any blocking, huh? (I saw some once but I had to go 100 miles.) Did you ever see such a game, huh? Did you even come to the game, huh? Answer any ten (10) and please be as brief as possible. Side Line Spectator.

THE LITTLE INDIANS

The future braves of Haskell High School came in contact with the Rochester Steers on the Rochester gridiron last Saturday afternoon at 3 o'clock. The future braves fought hard, but of course not expecting to win with the men on the opposing team outweighing them about 10 pounds to the man. Crawford punted, Cassie played quarterback, and Smith tackle. When the final whistle blew the score was 25 to 0 in Rochester's favor. Now don't get it in your mind that our boys didn't fight because they really did. It took five of our tots to tackle one of their steers.

ON GRIDIRON and BLEACHERS

The Merkel game is over now, and we must look to that Snyder tilt.

If you really have The Spirit, you will have it throughout the year—regardless of how the game comes or goes.

Pep Squad, it should be very immaterial whether or not the gallery

is pleased with our pep. Our main object is to get behind that team of Indians and back them to victory. If we help them win, the main duty of the pep squad as a whole will be carried out—and the fans will take care of themselves.

The whole Student Body appreciates a man like Reverend Carter, who provided admission fee for eight students who could not have attended the game otherwise. We do not know who those students were, but we are sure they enjoyed the game immensely.

The Pep Squad wishes to extend its heartiest thanks to Mr. Cecil Mason for the gay gold and black megaphones that he presented to us last Friday through the courtesy of the Magnolia Company. We will guarantee Mr. Mason that we will use these megaphones to the best advantage.

We also wish to thank Alberta Orr for her assistance in leading the Pep Squad Friday night in the absence of Lorene.

After that exhibition of pep Friday night, can you doubt that Haskell High School has a football team AND a Pep Squad? And why shouldn't we have? Of course we can't play football, but we can yell—and how we do yell! We yell when our boys are winning but we yell a little louder when they're losing.

For our game with Snyder this coming Friday night we are planning a peppy field stunt and also a number of new yells. So look and listen for us Friday night. Pep Squad Reporter.

A PEEP INTO THE FRESHMAN CLASS

We are sorry to say that Frances Wheeler, one of the freshman girls, had to stay out of school on account of illness.

There is a certain little blonde headed girl of the freshman class that gets her words "carrots" and "chiarots" mixed. The other day in history class she said, "There was a race of people in ancient history, called barbarians, who rode in carrots drawn by horses."

In ancient history those old kings would have as many wives as they could support. In these days it takes all the money a man has to support himself, much less a wife.

IT HAPPENED IN HOME EC.

The second year Home Economic girls have made some improvements in their department since school started. New curtains have been made for both the foods and clothing laboratories, and light green paint has been applied to containers in the food laboratory. Also. (Continued on Page 5)

FIRST CHRISTIAN CHURCH

Wm. P. Hardegree, Minister

Haskell Doctor's Say:

If folks would obey the moral laws and heed the teachings of the Christian religion, they would have finer complexion, better digestion, steadier nerves, happier old age and longer life.

Evidently Godliness is profitable for this life as well as for that which is to come, and going to church is great gain.

Haskell churches remind the community that Divine Worship is both a public concern and a personal responsibility.

Your soul needs food, air, and exercise as much as your body. Why starve your soul? Go to church Sunday.

Eldorado Man Eats Lunch Sitting On Huge Rattlesnake

ELDORADO, TEX.—A softer seat than duck's down can no one find, but Garland Lewter doesn't like the idea of parking one's self on a rattlesnake, according to the Eldorado Success, local newspaper.

Garland discovered this fact after unconsciously sitting on a large rattlesnake while he peacefully ate his lunch recently. He discovered the snake only after finishing his lunch. The incident took place at a sheep camp where several men were skinning government-bought sheep. Sam Roberts, along with several other men who were employed at the sheep camp, corroborates the story. Neither Garland nor the snake were seriously hurt.

One of the party reports that although the snake was unharmed, Garland had a three-day spell of running fits, and another reports that it would have been too bad for the snake had Garland decided to bite it.

Increase Shown For Employment In State Shown

AUSTIN, Texas.—A moderate improvement over both August of the current year and September, 1933, was recorded in employment and payrolls in Texas during September, according to the University of Texas Bureau of Business Research. Reports for the week ending September 15 gave a total of \$6,248 employees, a gain of 1.9 per cent over August and 8.3 per cent over the corresponding week last year. Payrolls for these establishments aggregated \$1,028,000, a gain of 4.4 per cent over August and 13 per cent over the corresponding week in September, 1933.

GOOD YEAR

Reeves Burton Motor Company

The Warwhoop—

(Continued from Page Three) due to the increased number in classes, it has been necessary to rearrange the furniture in order to put in another table, all agree that this rearrangement is an improvement. Many envious eyes, cast by the ex-Home Economics students, can be seen as they pass the laboratory. We know that they appreciate this new attractiveness.

The Good Luck Pals have not had a meeting this week, although we are planning an invitation party for the Freshmen Thursday Oct. 18. The committees of club-men have been planning the programs for the coming year.

In the study of meat for the second year Home Ec. class, what rancher's daughter asked "What is veal?" Imagine the class's surprise at her not knowing. Also a dashing blond with blue eyes asked the difference between mutton and lamb. Of course nobody laughed at all when she was told.

We can now prove that the first year girls are learning to sew, for one, Muri Lancaster, succeeded in sewing a cup towel to her dress. It must be hard for Muri, for she firmly declared she had rather cut her dress than take out that basting.

No, Marjorie, you don't have to wear your thimble all the time, at least not while you fold up a hem. Virginia Pittman, after working a little while on a machine, in vain, raised up and said "Mrs. Young, I can't get the running gear started."

SENIOR ACTIVITIES

A toast—a toast to the teachers who originated this column of school news, and welcome to those readers who will follow with interest each week's edition. We hope that through this column it will be possible to acquire a closer contact and understanding between our school activities and our many parents, patrons, and well-wishers.

For Senior news this week we have plenty. Flowers, mottoes, colors, and—rings. Yes, all plural. We selected sweet peas as our class flower; and to the countless others who have done their part to make it possible for us to advance this far in school we say "An orchid to you." Our motto, "Climb, though the rocks be rugged" seems sufficient, but we have another in our heart: "Love, honor, and obey the decrees of our school, town, state and home, which are our priceless heritages." Our class colors are pink and silver, while our ambition is to paint a picture of daring colors to forever hang on the invisible walls of our school's honor. Then rings—scores of them, dozens of them; but after a mad scramble of rings, committees, salesmen, and excited Seniors, a majority chose one special ring—just wait and see it. Senior Reporter.

GYPSY RAMBLER CLUB

A meeting of the Gypsy Ramblers was held Tuesday afternoon, and a day was set as the regular meeting day—the first Tuesday of each month. We are, however, subject to a call meeting at any time. Our officers for the year are: President, Louise McNulty; vice-president, Hortense Walling; secretary, Alberta Orr; treasurer, Ava Grindstaff; and reporter, Mary Eleanor Diggs. Projects for the year were discussed.

A GLIMPSE AT THE JUNIORS The Juniors had a class meeting Monday Oct. 15. Our president, Jack Kimbrough, was absent and the vice-president, Tom Clifton, took charge. Because some members of the Junior Class have not attended meetings, Miss Davis conscripted them and as a result about forty-five members were present.

The purpose of this meeting was to discuss buying class pins, which we plan to have soon.

MISFITS ON THE FARM

Everyone knows that farmers have not had a bed of roses for several years, and many of them are still sorely pressed, in spite of numerous pieces of legislation designed to make their lot easier.

Still, regardless of the general farm situation there may be found in almost every community a few farmers who have made progress or at least held their own, even during the depression. These, needless to say, are farmers who really know farming and plan their operations in an intelligent manner. The business man who does not apply sound business principles to the conduct of his business is bound to fail, and neither is the farmer likely to succeed unless he applies sound farming principles to his operations.

Some people seem to have the idea that anyone can become a successful farmer in a few months and when work slackens in the industrial centers there is always a "back to the farm" movement that turns thousands to a vocation for which they may not be at all fitted and about which they know nothing. It is among this class of farmers that the greatest number of failures occur. The farmer needs training and experience in the management of agricultural affairs just as those in every other walk of life must have training and experience before being entrusted with important activities. And with the farmer, knowing how to raise a crop is not enough. The farmer who is successful studies his markets so that he may know just what crops are liable to yield him the greatest return. Farming takes just as much thought and intelligent planning as any other business and the farm is no place for a man unsuited to that vocation. The misfit will fail on the farm just as he will in any other calling for which he has no particular talent, training or experience.

HAPPY MARRIAGES

Psychologists, sociologists and other ologists are continually checking up the well known human race with respect to all its varied activities nowadays, so it was inevitable that they should make a study of happy marriages, if any, to determine how come.

After long and patient research, several of these experts have disclosed their findings, which purport to show that persons who marry relatively late are more likely to live happily ever afterward than those who marry at an early age.

To give a few examples from the statistics compiled by these indefatigable researchers, the following conclusions are quoted:

A girl who marries after she is 25 is three times as likely to find wedded bliss as one who rushes into matrimony before she is 20.

Males who marry after the age of 25 have 2.2 times the chance for married happiness as those who marry at an earlier age, according to one expert, while another places the ration at 2.5. In either case note the decimal point.

Where both parties to a marriage are over 25, the chances for making a go of it are still greater. How far above the age of 25 this rule holds good is not stated.

Now tell all this to two youngsters between 16 and 20 who are that way about each other, and see what happens.

PRINTING THE NEWS

When to print a disagreeable story and when to leave it out of the paper is one of the most troublesome problems of the small town editor. In the case of a person who is unfaithful to a public trust, or one who is guilty of a serious crime, it is not difficult to decide because the public interest as well as the public's right to have the news demands that it be printed.

There are some cases, however, where the offense is entirely of a personal nature and in which publishing the story would bring sorrow and embarrassment to innocent persons without any beneficial purpose. In these cases the making of a proper decision is not always easy. If the story is printed, relatives and friends of the person concerned feel that it was unnecessary, and if it is suppressed the scandal mongers will be disappointed and insinuate that the editor was "bought off." These same scandal mongers, however, would howl the loudest if their own shady actions were held up to the public gaze.

It's out of the question to please everybody in printing a newspaper and the sensible editor does not make any attempt to do so. He must let his own judgment and conscience guide his decisions as to what should or should not be printed. If he errs on the side of kindness any sympathy for the unfortunate his error will be forgiven by the more enlightened and broad-minded readers of his newspaper, and the others will probably give him the devil anyway.

Unique Vicks Vapo-Rol Is Now Aiding Millions In Preventing Many Colds

Vicks Vapo-Rol, the unique aid in preventing colds, is now helping millions of adults and children to enjoy greater freedom from colds. Vicks Vapo-Rol is especially designed for nose and throat, where most colds start. Vicks Vapo-Rol should be used as a nasal spray or nasal irritation—just a few drops up each nostril. It usually helps to prevent colds—and to throw off colds in the early stages. Vicks Vapo-Rol has led to a discovery—how to stuffy head colds (colds)—Vicks Vapo-Rol penetrates deep into the nasal passages—stimulates nervous system—clears away mucus—relieves congestion—prevents colds.

-CURRENT COMMENT-

CIRCULARS—A PEST TO HOUSEWIVES

From the Commerce Journal: A Commerce housewife complains that she finds nearly two dozen circulars behind her screen door, on her porch, or scattered impartially about her otherwise neat lawn this morning.

Our good friends, for many of whom the Journal prints these dodgers, too often fail to realize the resentment housewives feel for this type of advertising.

The superiority of newspaper advertising should be self-evident. People pay for their newspapers, and value them accordingly. Naturally, they don't throw them away without looking at them, as they do the circulars when they find four to twenty of them, many just wasteful duplications, stuffed behind their doors or strewn across their yards.

The newspaper carriers are reliable, and even if they were not, complaints would come in so fast if they failed in their distribution, that they would not dare stuff the papers under bridges.

In other words, circulars stand less than a fifty-fifty chance of being delivered and even if they are, it is doubtful if a fourth of them are read.

Then, circulars cause resentment among the housewives whereas newspaper advertisements are eagerly consulted by thrifty home-makers.

You simply can't get around the fact that the newspaper, if it has a good circulation, is unsurpassed as the cheapest method per person reached of all advertising mediums.

If you have something to sell, if the time is right, if your media reaches the people you wish to sell, if your copy is clear, and your prices are right—use a newspaper. Your message is gladly carried into every home. You have no carriers to pay or check up. You are identified as a dignified advertiser of honest goods, and best of all—you won't be the victim of the maledictions called down on your head by justly indignant housewives.

LARGE PORCH CAN PROVIDE EXTRA ROOM

In this day and age of automobiles and out-door recreation of various sorts, the large open porch is virtually passe. What to do with it? Convert it into an additional room, sun parlor, or remove it altogether.

Years ago, before the advent of the automobile made it easy and pleasant to spend a great deal of time on the highways or at points of interests, people were far more inclined to stay at home. A big shady porch, on which one could sit on warm summer afternoons and evenings and take advantage of cooling breezes, was a valuable and appreciated feature of houses.

Today, the size and type of porch to be built usually is determined by different considerations. It is more likely to be a small porch, serving as an architectural adornment to break an area of wall, and just large enough to shelter the entrance way.

Owners of old homes with large unused porches and with other features common to houses built years ago can easily have alterations made that will make their homes attractive in appearance and thoroughly modern. There is hardly any limit to the changes which may readily be made with a house of wood construction. It may be that all an old house needs to be beautiful and modernize its appearance is a new roof, a coat of paint and a few modifications of its lines and a few architectural features. Large open porches can be converted into additional rooms, or glassed in to serve as sun rooms.

Food Literally

Cooks in Its Own Juices When Cooked Electrically

... So You Can Imagine How Nutritious It Is and How Good It Tastes

The Modern Electric Way of Cooking Also Means More Ease and Comfort!

You can easily see why people are buying electric ranges! They like good food and they like this easy way of cooking. Any mother wants an electric range when it enables her to give her family the benefit and pleasure of eating good nourishing food the entire year, with a big saving of her own precious time and energy. There is also an actual saving of food when it is cooked electrically... because there is so little shrinkage... and the best of it is not poured down the sink with excess water. Yes, indeed, cooking makes a world of difference in food!

Do you know that your increased use of Electric Service is billed on a surprisingly low rate schedule... and adds only a small amount to your total bill?

COUPLE IN OREGON MARRIED 75 YEARS

Lebanon, Oregon. — Mr. and Mrs. John G. Reed celebrated their 75th wedding anniversary at their home here today.

Both are physically active and mentally alert. They keep abreast of the times by constant reading of newspapers, magazines and books. They do virtually all of their own work. Reed, who is 90, splits his own wood, milks his own cow, tends his own garden, raising both vegetables and attractive flowers. Mrs. Reed cooks the family meals, makes the beds, and keeps the house neat and clean.

Their minds are definitely in this generation.

The couple were married at the home of the bride's father, Nathan W. Bond, near where they still live, Sept. 21, 1859, the year that Oregon became a state.

Both are members of pioneer Oregon families. Reed crossed the plains in the Reed-Morgan party in 1852, when 14. Mrs. Reed, then Anna Bond, came to Oregon by covered wagon in the Bond-Smith party in 1853. She was ten then.

TEXAS HIS... THE MAKING

No. 3—The Alamo, Cradle of Texas Liberty

—Think—Talk—Write—Texas Centennial in 1936

This is the Alamo, "Cradle of Texas Liberty," pictured as it stands today. Here Travis, surrounded by Santa Anna's men, wrote: "The garrison will be put to the sword if the fort is taken... I shall never surrender or retreat... Victory or death!" Here 182 brave Texans, besieged by 10,000 Mexican troops, in one of the most heroic struggles ever recorded in the pages of history, March 6, 1836, was this day for Texas, and the men who fell here only urged Texas on to victory and independence. The Alamo building was erected in 1744 (although an inscription on the wall bears the date 1754). Today, this shrine stands in the heart of San Antonio, facing beautiful Alamo Plaza. It was not a mission, but an overflow meeting place for Mission San Jose de Aguayo. Alamo means "Poplar tree," in Spanish, of the same, translated into English, would be "Poplar Church." "No More Dynamite for Me!"

And that's What YOU would Say, After Making the "Liquid Test" Described Here

DAVID H. WADSWORTH
Cold Springs, Kentucky, discovered the value of a liquid laxative about three years ago, and would never use violence again in relieving a constipated condition.

If, by making one little change, you could relieve a condition of sluggishness within 24 hours, and feel about 100% better—would you do it?

David Wadsworth did. You can do the same. All that is necessary is to get your bowels in the right condition. But you can't do that by doing them violence.

Doctors and hospitals use liquid laxatives. They've seen the damage sometimes done by highly concentrated drugs in the form of pills or tablets! They know that a properly made liquid laxative containing osama (a natural laxative) does not do this harm. And they use a liquid laxative to relieve the bowels, because the dose can be easily regulated.

To Relieve Bowels

Constipated or sluggish bowels can never be corrected with violent purges. They can be safely relieved with Dr. Caldwell's Syrup Pepsin without forming the laxative habit.

Dr. Caldwell's Syrup Pepsin is an approved liquid laxative made from the herbs, pure pepsin, osama and osama. It is most agreeable to take. The comfortable bowel movement from Syrup Pepsin is a joyful relief.

from the violent action of strong mineral drugs!

If you are a victim of "sluggish bowels"; an occasional sufferer from constipation, here's the secret of prompt and safe relief until nature restores your regularity. Use a liquid laxative.

Start tonight with Syrup Pepsin. If necessary to repeat the dose use less each day, until the bowels are moving regularly and thoroughly without any help at all.

If there is an occasional return of the trouble, Syrup Pepsin will comfort and relieve you again, as easily as it did the first time you ever took it.

Ask any druggist for a bottle of Dr. Caldwell's Syrup Pepsin, and make the "Liquid Test."

Centennial Needs Statewide Support

DALLAS, Tex.—In urging statewide support and participation in the Texas Centennial commemoration in 1936, advocates are stressing the diversified interests and attractions of the State, where it is proposed that impressive celebrations shall be held not only in San Antonio, Houston, Galveston, Brenham, Nacogdoches, Huntsville, Gonzales, Galveston and Dallas, but also in other cities whose early history is closely allied with that of the State. In Chicago, in 1933, a one-city exposition drew an aggregate of 22,665,839 paid admissions; in Texas, with a Statewide observance proposed and centering upon a number of interesting celebrations to be held at numerous points of historic import, the throng of visitors to be

attracted to the State cannot be estimated by random guess. Just what this influx will mean to Texas as a whole may be estimated by the fact that known statistics which decided the continuation of the Century of Progress during 1934, showed that the 1933 exposition had been the direct influence of an astonishing increase in all kinds of business in Chicago. Earnings of merchandising, hotels, buses, theaters, restaurants, railroads, taxicabs and service stations were increased to satisfactory totals. Chicago Association of Commerce figures for five months—June to October, inclusive—in 1933, show that seventy-two leading hotels had an increase of 133 per cent in room and food sales; an income of \$24,500,000 and cared for 60,000 guests daily. These same hotels reported an income of only \$10,000,000 during the same months of 1932. During the same months, in 1933, department store trade registered an average in-

crease of 19 per cent, compared with the corresponding period in 1932. In the same five months of 1932, sales had shown an average decrease of 24.9 per cent, as compared with similar months of 1931, the preceding year.

Breakfast Nook

Near Kitchen Will Save Untold Steps

Kitchens have come a long way since the dingy old coal stove era. The up-to-date kitchen is a joy to the feminine heart as well as a rest to the feminine feet. One way to add charm and save steps is to build a breakfast nook at one end of the room or in any available corner. The expense is slight and the result a bright little nook for breakfast, luncheon, or even dinner.

Federal Bureau Makes New Rule On Death Rates

AUSTIN, Texas.—A new ruling by the Federal Bureau of Census has just been put into effect in Texas and will be of interest to every community in the State, according to Dr. W. A. Davis, Registrar, State Department of Health.

This new ruling is to the effect

that the death of any person shall be credited to that person's legal residence. In the past the place where one died was charged with the death. New death rates for all towns and counties will show the true conditions.

The towns in Texas that have a reputation as health centers have been unfairly credited with more deaths than have occurred among their citizens. Now, whenever a health-seeker dies away from home, the place of his residence will be charged with the death.

The same holds true in the compiling of records for counties. In the past many towns had a death rate three or four times as high as the county. This was due to a variety of causes—principally, patients from the rural areas coming to town for medical attention and hospitalization and dying while there and giving their addresses as the town without specifying that their home is outside the city limits. The State Department of Health requests every one to give exact information for all birth and death records.

Three Hinges Lessen Strain

When putting up doors, remember that three butt hinges placed an even distance apart, instead of two, decrease the strain on both hinges and screws. This prevents sagging and often prevents lock trouble, which is caused in many cases by a slight drooping of the lock edge of the door.

Curtains Cover Plumbing

Waterproof curtains to match the window and shower curtains in the bathroom, if draped around the bottom of hanging lavatories, add a decorative touch and prevent ugly plumbing and sewage pipes, scouring powder, brushes, etc.
