# THE NEW FORD V-8 FOR 1936

**Why do we say The New Ford V-8 for 1936?**

Of course, the newest engine in the low-price car field is still the V-8 engine. Since Ford made it available to all car users (keeping it as economical as cars with fewer cylinders) the Ford V-8 has been the newest engine on the market, and remains the newest for 1936.

You may buy a car on minor "talking points"—some specially advertised lecture "with the car thrown in"—but after all, it is the engine you buy when you buy a car. Hence we put the engine first.

**Other new points about the car make a long list.**

Its lines are much more beautiful. The hood is longer and sweeps forward over the distinctive new radiator grille, giving the car a length and grace that are instantly impressive. The fenders are larger, with a wide flare. Horns are concealed behind circular grilles beneath the headlights. New steel wheels.

Ford upholstery—always of sterling quality and excellent taste—is rich and enduring. The appointments of the car have a new touch of refinement. There

is no question about the increased beauty of the Ford V-8 for 1936.

**In more practical matters, many improvements have been made—**

Steering is made easier by a new steering gear ratio. The cooling system circulates 5½ gallons of water through a new, larger radiator. Natural thermosiphon action is assisted by two centrifugal water pumps. New style hood louvers permit a rapid air-flow around the engine.

**Easier, quieter shifting of Ford gears**—The gear shift lever now travels a shorter distance.

**The two qualities you want in brakes**—Brakes that stop the car with ease and certainty. Ford Super-Safety Brakes of the long-tested, fool-proof, mechanical design.

**Safety**—as always—in the electrically welded genuine steel body. Safety Glass all around at no extra cost. Hundreds have written grateful letters because this glass has protected the safety of their families.

**A car you can drive without strain all day**, if you like, in city or country. Steady, holds the road, responds to the

driver's touch like a well-trained horse. You don't have to "push" or "fight" the Ford V-8—driver and car easily get on terms of good understanding with each other.

**An engine has much to do with the roominess of a car.** Very much indeed. A long engine uses up car space. The compact V-8 engine permits much of the ordinary engine space to be used by passengers.

It really is a great car in every way. This 1936 Ford V-8—the finest, safest, most dependable Ford car ever built. Now on display by Ford dealers.

### Eagle Feathers Now Adorn HHS Indians

#### Tribe Upsets Dopesters To Win In Last Quarter

Despite the fact that Haskell is in Class B football and Abilene is in Class A, the brave Indians' line held the larger Abilene team scoreless up until the last few minutes of the game and then Kimbrough made a 30 yard run on a fake punt, to make the first and only touchdown of the game. This made Haskell 6 to Abilene's nothing, as Haskell failed to kick goal.

The game started with Haskell kicking off to Abilene, who, despite their larger team, could make no gain through Haskell's hard playing line and line backers. The Indians outplayed Abilene from the start to the finish, making nine first downs to Abilene's six.

All players played excellent football and it was a wonderful game. There were only two substitutions during the entire game, which proves more than anything else that the players played a real game. Rogers substituted for Jenkins at half back and Kirkpatrick for Rose at guard.

There was a large crowd at the game and the Haskell bunch simply went wild when Jack Kimbrough made that touchdown during the last five minutes of the game. Everyone agrees that it was a real football game, and that Haskell has a real football team.

### Seniors Select '36 Class Rings

Senior hearts are thrilled. Haven't you heard? We have chosen a ring! When? Monday morning during the first three periods. Committees appointed by the class president made selections from two salesmen. Four rings were presented to the class, and the ring we decided upon was chosen almost unanimously.

Would you like to know about them? From old and bright gold we chose the bright. The ring has a large set of Mother-of-pearl, on which is placed an Indian head of gold. They are the most attractive rings that the seniors of Haskell High School have chosen for years.

A. F. Thurman, minister of the Church of Christ, and mayor of Haskell is our Warwhoop chief for this week. Mr. Thurman came to Haskell from Chillicothe in January 1933 where he had been minister of the church there for ten years.

A. F. THURMAN

He is a lover of good clean sports and a strong booster for all kinds of school athletics. He is one of the proprietors of the T and T Bakery and spends a portion of his time in this popular establishment, when he is not busy with civic or church affairs.

### Hurrah for Our Dandy Pep Squad

The pep squad was at the game one hundred per cent Friday night and we appreciate the good compliments paid us about the squad's good work and also about their suits. The squad intends to keep up their good work and fine attendance at the games.

### This Week's Birthdays

To students having birthdays this week we wish a happy birthday and many more of them.  
Armitta Bland, October 20th.  
Clovis Ketrin, October 21st.

MISS JESSE VICK

Miss Jessie Vick, one of the teachers in Haskell High School, was reared in Rule, Texas, where she attended grade and high school. She has done college work in Baylor Belton and in teachers colleges at Denton and Canyon, Texas, and at Kirksville, Missouri. Her Bachelor of Arts she received from Canyon.

Besides teaching in Haskell County she has taught in the schools of Throckmorton and Belton, Texas, and of Frederick, Oklahoma. She has taught in Haskell high for the past six years, during which time she has taught American History, English and Spanish. Now she teaches nothing but English to freshmen and juniors in Haskell High School. She is sponsor of the senior class, and co-sponsors with Mrs. Wimbish on the War Whoop and Gypsy Ramblers Club.

### H. H. S. Shows Up Well In Parade

This year the high school has one of the largest number of representative in the parade in quite a number of years.

Ruth Josselit is the first student in high school to ever be "Miss Haskell" and we feel a better one could not be found. If any places had been awarded Ruth would have won.

We were also proud of Winnie Darnell who took first place in cow girl riding. Others entering were Audrey Lee Guinn and Sarahlee Walling.

We suppose that the minute you saw the gold jackets you knew that it was the pep squad. And of course you recognized Jane Richey, our mascot.

R. C. Couch, George W. Fouts, Bill Reeves, Joe Maples, Bob Barnett and Harvey Simmons were doing their best in the band and their best was really good.

Of course, everyone knew what Lois Laird, Annie Ruth Bates, Mattie Pistole and Frances Homsley were representing with the blue overalls, white shirts and red bandana handkerchiefs. What else could they be except the Gypsy Ramblers' Club.

A number of high school students were riding on floats. Geraldine Norris, Louise Pierson and Geraldine Conners were on Conners' Floral float.

Kinzie Tucker represented the Texas Theatre.

You remember the old timers, Marvina Post and Martel Clifton, taking their first ride in a car (a 1906 Buick).

Ruby Sue Persons and Helen Gayle Roberts and Ruth Welsh were on the Haskell Free Press float.

Miss Willie Riley, our newest high school teacher, attended Abilene High School. For two summers she was enrolled in West Texas State Teachers College at Denton. She received her Bachelor of Arts degree in the University of Texas, and rounded out her studies by taking Spanish course in the University of New Mexico during the summer of 1934.

After college she taught History and Spanish in Westover High School. We are fortunate in having her added to the faculty to teach history to freshmen, and Spanish to juniors and seniors. She is also sponsor of the Freshman class.

Gladys Fouts, who was supposed to be at the show on a certain night last week was not there, we wonder why.

What do you know about it; Robbie Jo Burson has her a boy friend.

Ralph Johnson and Lorene Thomas have made a match that reminds us of Carl W. and Wilma W.

Claude Warren is very jealous of Jack Simmons because—Jack has a new pencil.

Tom and Loyd had to flip a coin Sunday night to decide which girl they would go with and of course Geraldine C. lost. Oh don't take it serious, Tom; she doesn't mind being the loser.

We wonder if Martha's friend enjoyed the trip to Weinert as much as Frank did.

If R. C. can't have one Sue then he'll take another. He was at the show last Saturday night, at Church last Sunday morning and at Stamford Sunday evening with Claudie Sue Mosely of Knox City.

### High School Girls In Fair Pageant

Several of our girls helped in presenting Haskell's Golden Jubilee Birthday Cake in a pageant given in front of our local grandstand Thursday night. The girls were arranged so as to display a three tier cake upon which there were fifty candles. They were dressed in white and held an electric light which was used instead of a candle to make it appear more beautiful. This concluded a very good pageant and all the lights were turned out and the cake lighted. It was very pretty and we wish to thank those who helped us in any way.

### Pep Squad Takes Part In Parade

All dressed in their snappy black and gold uniforms, the pep squad paraded the square Friday evening about six-thirty. The squad marched four abreast and sang songs and gave yells letting the town know they were for the Indians. They had no music by which to march but they didn't need any; they had too many songs to sing and yells to give to use music. On the corners the squad stopped and gave three or four short "peppy" yells so every body could hear them. We are proud of the good work the pep squad has been doing and want them to keep it up.

### Haskell's Golden Jubilee Fair

When we speak of Haskell's Golden Jubilee Fair we do not mean that the Fair is fifty years old, but we mean that the county is that old. Haskell County was established in 1885 when the country hereabouts

MISS WILLIE RILEY

She received her Bachelor of Arts degree in the University of Texas, and rounded out her studies by taking Spanish course in the University of New Mexico during the summer of 1934.

was wild and wooly. We mean by that, that the country was open and very sparsely settled.

Well exactly fifty years have passed since then and now the county is one for its citizens to be proud of. The Fair was originally intended to exploit the products raised in the county and to encourage the production of first class crops, and livestock. In this I think it has achieved wonderfully for there were some very high class livestock and poultry shown here this year, as well as a wonderful display of farm products and other miscellaneous.

One of the main things of the Fair was the Haskell-Abilene football game, here Friday night, made possible, and put on by, the Haskell Fair Association. There was a very large turnout for the game which proved to be one of the most spectacular games ever played on Haskell's football field and the citizens of Haskell wish to thank Abilene for their large turnout for the game.

Another striking feature of the Fair was "Old Settlers Day" which took place on Thursday. This day was a day of celebration and get together for a number of Haskell's

old timers. There was a free basket cue given for them, and all seemed to enjoy themselves immensely. Well the Fair is over and gone until next year, so now maybe we can all catch up on our lost sleep. So here's good-bye until another year. May we all be back again to enjoy another Fair such as the one we enjoyed this year.

of 1934 or 1936 corn-hog contracts or not. Each eligible person is entitled to only one vote regardless of the number of farms he may own or operate, no matter where located.

Each eligible person in Haskell County is urged by the county agent, B. W. Chesser and those directly in charge of the corn-hog association to come and cast his vote. Voting will not obligate one in any respect to sign a 1936 corn-hog contract, if the program does continue.

One hundred and two corn-hog checks were received in the County Agent's office last Tuesday, October 13, and Mrs. Elmore Smith, secretary to the County Agent said the total was \$2,580.75.

This is the first payment on the last year's program.

would be there but who were not seen. If they did go and did not see Mr. Daugherty at the clinic it is requested they let him know Dr. Carrel's opinion of their case.

There were 256 children registered at the clinic and several incidents to their coming were interesting. One lad of 9 was found hitch hiking to Wichita Falls from Henrietta. He could not catch a ride before hand so he started out early in the morning trying to get there before the clinic closed.

A rather unique financing plan has been arranged for the Hospital. The approximate average cost per child is \$100.00. Of course some cases require more and some less, nevertheless several men are paying this \$100.00 and sponsoring some worthy child through this clinic. A complete report is given the sponsors periodically.

This Masonic Hospital does not draw any lines for color, race, fraternal affiliations or religion. In fact less than two percent of the patients are from homes of Masons.

The organist in this scene was Mrs. H. R. Jones, who strangely enough, played the organ in that first church service in Haskell County.

Then the various modes of transportation through the ages was displayed. The horse and buggy, the bicycles, the first automobiles and then the local dealers displayed their 1936 model cars.

The 200 Boy Scouts which were encamped on the field in front of the grandstand then gave exhibitions of modern day scouting, Signaling, bugling, fire building, first

aid followed by some typical scout games. Scaling the wall and pony express races were the most popular.

The Golden Jubilee Birthday Cake in which 50 girls placed in three tired and holding 50 lights portrayed the event which Haskell County was celebrating.

This was followed by a flag salute "Taps" sung by the Boy Scouts and the finish.

All the 250 people who took part in the pageant are to be congratulated for their fine performances and their spirit of co-operation.

No doubt it was "Believe it or not, Ripley" that started that myth that all the members of the family could not be pleased by one car. Dodge for 1936 has given the "not" something to think about.

Dad said that the car he wanted MUST be Economical. Dodge answered that problem by giving him a car that makes 18 to 24 miles per gallon of gasoline.

Mother wanted safety. "Safety First counts first with me," she said. The new Dodge safety steel body has STEEL on all sides and GENUINE HYDRAULIC Brakes. Mother is enthused.

Daughter, of course, wanted a smart and beautiful car. The 1936 Dodge is hailed by noted automobile editors and fashion experts as "BEAUTY WINNER OF 1936."

Brother wanted a car full of pep and power. The famous Dodge RED RAM engine with its powerful capacity and able size gives an AMAZING RESPONSE in all speed ranges.

## HENRY-LESSON RADCLIFFE

### BELSHAZZAR'S FEAST International Sunday School October 27, 1935

**GOLDEN TEXT:** "Wine is a mocker, strong drink a brawler: And whosoever erreth thereby is not wise."—Proverbs 20:1.

(Lesson Text: Daniel 5:17-33)

Our lesson today is based on one of the dramatic incidents related in the first part of the Book of Daniel. Belshazzar, inaccurately described as the King of Babylon was being host at a great banquet given for his nobles. Probably drunk, certainly careless, the King commanded his servants to bring the sacred vessels of Jehorah which had been brought from Jerusalem to Babylon many years ago. Contemptuously and mockingly, he served wine to his guests. Heine, the German poet, pictures this scene:

Quickly the king spoke, while his proud glance burned,  
Quickly the servant went and returned.  
He bore on his head the vessels of gold  
Of Jehovah's temple the plunder bold.  
With daring hand, in his frenzy grim,  
The king seized a beaker and filled  
And drained to the dregs the sacred cup.

And foaming he cried, as he drank it up,  
"Jehovah, eternal scorn, I own  
To thee, I am monarch of Babylon."

In the midst of the wild revelry, however, the king had a strange vision. A hand appeared and wrote on the wall the words translated in our language, *mene, tekel, upharsin*. Troubled and awed, the king called for his wise men to interpret the magical formula but this they were unable to do. Then Daniel was mentioned to the King and his past performances recounted. Whereupon the king sent for him, promising great honors and wealth if he would interpret the message.

Before interpreting the meaning of the mystic words, Daniel reminded Belshazzar of his previous interpretation of the dream of Nebuchadnezzar and related how when that great king had been lifted up by his pride and arrogance, God had deprived him of his reason and caused him to wander about the fields like a wild beast until finally, when his reason returned, he realized how foolish he had been and that God ruled the earth.

Belshazzar had not profited by this experience of his predecessor but had grown in pride and de-

bauchery until finally he had used the vessels of the Lord's house to praise the false gods which he worshipped. Daniel's interpretation is given in verses 26-28. *Mene* is very similar to the Aramaic word for "numbered," *tekel* suggests in Aramaic the word "weighed" and *parsin* suggested "divided" and "Persian". Therefore, while Daniel scorned the king's gifts, he informed him that God had numbered his kingdom, weighed it in the balances and that it would be divided and given to the Medes and Persians.

There is some confusion in harmonizing the history as recounted in Daniel with the other historical records. For some time no reference was ever found of any Belshazzar in the various inscriptions unearthed around Babylon but in Cuneiform writings a reference to such person, who was described as the eldest son of the king, Nabonidus, known to be the last monarch of the Babylonian throne.

Inasmuch as Belshazzar was the Crown Prince and the commander of the military forces, it is thought that the title King given him in the Book of Daniel was more or less a natural error, although it is possible that after the army of Nabonidus had been defeated by Cyrus outside the walls of Babylon, Belshazzar may have ruled as king for a few days.

Another fact should be cleared up, namely, the reference to Belshazzar as the son of Nebuchadnezzar. As a matter of fact, there was no lineal relationship between them. Nebuchadnezzar died about 561 B. C. and left his powerful empire to his son, who, it is interesting to know, freed Jehoiakim, and who was murdered by an officer who took the throne. This king lived only four years and was succeeded by his son in turn, who was murdered by Nabonidus, a Babylonian noble who had conspired with other nobles and seated himself on the throne. Nabonidus was the last real king of Babylon and was captured by Cyrus about 546 B. C.

### Rochester

The weather has been ideal for gathering the fine crop growing in this part of Haskell County. The 4 gins are running night and day. Plenty on hand and some to spare. W. H. Neal of Sweetwater, spent Monday and Tuesday here with his cousin, Mrs. D. W. and also visited a few of the old timers that were here in the eighties. Edges, Carothers, Greers, Hicks and Fields are about the extent of the old timers who remain in this part of the county now. Will Neal as they all remember sold a section of land near Rochester to Mr. John Hicks in '89 now owned by Mr. Joe Hester of Haskell. He now owns considerably ranch land in Fisher County, near Sweetwater. His last visit here was in 1924. He said the little city of Rochester and surrounding County had improved so much he hardly knew it to be the same place.

Paul Fields and family of Abilene, visited relatives here last Friday and Saturday and transacted business.

Rev. Leroy Brownhow, of Gainsville, Texas, now a pupil in A. C. C. filled the pulpit here Sunday at the Church of Christ, former pastor Rev. Otis Gatewood, has accepted work with the Church of Christ at Roby. We bid him God Speed and his many friends here commend him highly to that church.

Mrs. John Taylor and Pat, her son, of Altus, Oklahoma, is spending a few days here with relatives.

Mrs. Sam T. Chapman of Haskell, is here this week visiting relatives and friends and attending the Eastern Star meeting Monday night. It is like home to see Mrs. Chapman's smiling face in Rochester. Really we still claim her.

Mr. and Mrs. J. R. Whiteside and son, Ted and wife, spent Sunday in Abilene with their cousin, L. Clemmer.

Mrs. Henry Smith, of Munday, visited relatives and friends here, Monday and attended Eastern Star lodge of which she is a member.

Brownsville, Texas—Poisonous gas, escaping from deep sea fissures, are credited with killing millions of fish, which have been washed upon beaches along the Gulf Coast. All denizens of the gulf waters were affected and surprisingly, thousands of gar, usually found in fresh water.

Women from the teen age to the change of life have found Cardui generally helpful for the relief of functional monthly pains due to lack of just the right strength from the food they eat. Mrs. Oris Haynes, of Essex, Mo., writes: "I used Cardui when I got my cramps and found it very pleasant. I have generally taken Cardui since the change of life. It was very easy to get and had no bad effect on me in a generally run-down condition. Cardui has made a great difference in my life and I am not so liable to get cramps." *...but, after all is said and done, it's the cigarette itself that counts*  
*... the question is, does it suit you?*

**Now, when it comes to a cigarette that will suit you . . . you want to think whether it's mild, you want to think about the taste**

That Chesterfields are milder and taste better is no accident . . .  
*The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.*

**Outstanding**  
.. for mildness  
.. for better taste

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.
