**MASS MEETING OF BUSINESS MEN IS CALLED TO** 

**DISCUSS FEASIBILITY OF WEEKLY TRADES DAYS** 

With its golden tower breaking through a lazy cloud bank, HASKELL COUNTY the \$350,000 Federal Building at the Texas Centennial Exposition in Dallas presents one of the most inspiring pic-tures at the World's Fair. A PLACED IN DROUTH permanent structure of simple architecture, dedicated to the progress of American Government, the building is a focal point for visitors to the Ex-

Merchants Urged to Meet At Rita Theatre Friday Afternoon at 2:30

IN ADVERTISING

IN COUNTY SERVICE

CIVIC COOPERATION.

A meeting of the business men of Haskell has been called by Ralph Duncan, Secretary of the Chamber of Commerce, for Friday afternoon at 2:30 o'clock at the Rita Theatre for the purpose of discussing the advisability of reviving Trades Days here.

Two new plans have been pro-posed, and both plans operate on i weekly basis instead of the usual monthly plan which has been in effect here in the past.

The meeting Friday is intended for the purpose of deciding if a Trades Day should be held here and not for the purpose of promoting one, Mr. Duncan pointed Therefore, every business man in the city should attend the meeting and express his honest opinion regarding the matter, as it will be useless to attempt to promote a successful "Trades Day" unless the merchants will cooperate 100 per cent in the undertak-

ing. The new plan that has offered the Trades Day committee will be less expensive to the merchants if a sufficient number of firms are interested than the old plan, and at the same time will be on a weekly basis instead of one day each month.

# Thieves Loot **Oil Warehouses** on Sunday Night

Haskell Woman **Injured** In Car Wreck Near Bowie

> Mrs. B. W. Bigham of this city was painfully bruised and receiv-ed several cuts about the face when her automobile overturned near Bowie early Sunday night.

Mrs. Bigham, accompanied by a daughter, Mrs. H. H. Hallmark of Wichita Falls, was returning to that city from Wolfe City, where they had visited another

daughter and sister. The machine driven by Mrs. Bigham overturned after striking a stretch of loose

dirt along the highway, and plunged off the roadway into a shallow bar pit. Mrs. Hallmark, traveling in another car, carried her mother to Bowie where a physician attended the injured woman.

Last reports state that Mrs. Bigham will be able to return home within a few days.

# **Rev. Huckabee to** Hold Services on **Courthouse** Lawn

Rev. R. N. Huckabee, pastor of the Methodist Church, will lead a preaching service on the east side of the courthouse lawn Thursday afternoon at 5 o'clock. The subject is to be, "My People are Destroyed for Lack of Knowledge." This is a discussion of a matter that should be of vital concern to every house of counter concern to every lover of country and home. All are invited.

Those who can sing can render valuable service by being there five minutes before the time announced.

PERKINS-TIMBERLAKE COMPANY

Throughout the length and breadth of our country, boys and girls from every walk of life will hear the bells that will call them back to another busy school term. There are no finer boys and girls in this tremendous number than the ones who will go back to school in our own community. We've made great preparations in the way of back-to-school wearables . . . our Fall purchases were greater than ever in good warm clothing, shoes\_\_in fact everything the boys and girls will need . . . at prices that will mean real lessons in economy to Dad and Mother.

# GOOD NEWS WITH AN "IF"

The newspapers are so filled with news of war, preparations for warfare and the clashing ambitions of dictators that we are glad to be able, once in a while, to chronicle the views of anybody who thinks that, maybe after all, there will be peace.

So we seize upon the remarks of Sir Keith Murdock, visiting Australian newspaper publisher. who says the armament race need not necessarily lead to war, which would involve all nations in disaster, economic as well as military. However, he hedges a bit when he urges America to join with Britain in "giving a lead to weaker nations econo-mically" which is the "way of peace" because he "there is not much time left in which to achieve it."

### SIX BOMBS MISS A SHIP

The bombing of the U.S.S. Kane, a destroyer in Spanish waters, by an airplane has caused some commotion in the press and the exchange of a few notes between this government and the Spanish factions now engaged in their bloody struggle.

What intrigues us, however, is the fact that the airplane dropped six bombs at a destroyer that was making no effort at defense and lay unsuspecting beneath it. Probably one bomb, if it had landed would have seriously crippled the destroyer but none hit the target, each of them falling some distance away and exploding harmlessly.

Maybe the Spanish aviators are poor marksmen from the air, or, maybe it's more touble to hit a ship with a bomb than many cl us have been told

# INAUGURAL IN JANUARY

Plans for the inaugural ceremonies are already being made at Washington were extensive parations are necessary to prepare the east front of the capitol building for the occasion.

The Norris amendment to the Constitution changed the date of the inauguration ceremonies from March to January 20th. Thus the winner of the election in November will begin to serve his term in just a few days more than two months from the time of the voting.

The Congress elected in November will also meet in January, on the 5th, instead of waiting, as was the case before the Norris amendment, until the following December, or more than a year after its selection. The amendment corrected an apparent defect in our system of government and the amazing thought is that it was not passed sooner.

### TWO FACTS MAKE A PROBLEM

Two facts stand out in the present stage of American industrial affairs. The first is that a remarkable recovery is holding up and going strong: the second is that employment is not keeping up with productive activity.

These facts, undisputed as they are, present the American people with a real problem that will last them for some years.

Take for example the report of the Federal Reserve Board for July on production and unemployment. Taking 1924 to 1926 as normal, or 100. the figures show that industrial production in July

# CURRENT COMMENT TEXAS' NATURAL RESOURCES

Perpetuation of the Texas natural resources exhibit is the goal of the Texas natural resources ommittee headed by John N. Spellman. The exhibits are now housed in the Transportation and Petroleum buildings at the Texas Centennial exposition. Object of the committee at present is to to T. E. Ballard, and a Ford car induce the state authorities to give them perman- belonging to L. N. Hamilton col- E ent quarters, in the new state of Texas hall if possible

eight months term. There will be

doing more work for less pay than in the years 1924-26. Obviously, this means less purchasing power for laborers and less sales of manufactured products, which is the cycle that leads to more unemployment

# A KILLING COMBINATION

The automobile has undoubtedly revolutionized social life in the United States. Its effects are feit in every hamlet of the land where good roads and cheap cars and trucks have speeded up the econo-mic processes. Even the morals of youth, we are told, have been affected by cutoms that developed with the automobile

There are benefits that must be attributed to the transportation provided by motor vehicles when one considers the social, economic and cultural fields of human activity. They are too apparent to be denied.

The motor car, however, has given us an unusual problem, which, it means, demands greater thought if we are to save the lives of some of the thousands who are failed every year in accidents along the highways. What the solution may prove to be remains uncertain. Highways are being improved, sutomabiles are more powerful and the American's but for speed greater than ever. Together, the three make a stilling combination without presedent in the nation in far as we have been able to discover.

# THE INDIVIDUAL FACES LIFE

The individual, grouping to express personality through life, is prone to grapple with far-reaching problems of national and international scope and to seek some magic formula to bring manking the blessings that most of us feel are possible but not actually at hand.

Human beings, blessed with a good earth, have made a mess of many things. However, viewed from any distant peak of the past, the present records unmistakable gains, and the natural belief is that the future, compared to the era in which we live, will show similar advances.

Men and women, caught in vast sweeps of tremendous power that rule their economic, national and social existence, sometimes tremble over the forces that confront them, forgetting that these oppressors are man-made. The human beings that loosed them on a world have the power to curb them if they will but use the intelligence and the self-control that has gone into the makings of the 'race and its habitat.

The reader of this article has a very definite role to play in all the drama that makes up human life. The part may be small, insofar as history is concerned, but large in effectiveness upon other human beings. Every man and woman must attempt the mastery of his or her own nature and the perfect translation of his or her personality through living in the midst of other people and facing difficulties that are inherent in the imperfection of human beings.

Having your clothes charged won't give you a magnetic personality.

The main difference between a lunch and a luncheon is the size of the bill.

journey to the Gentiles in Asta Minor, to the great joy of the believers. The party had a trium-phant passage and it was apparent that the sympathy of these outlying churches was with Paul in his battle for spiritual freedom. Arriving at Jerusalem, Paul and his party had a preliminary conference with leaders of the home church, as we gather from

Paul's Epistle to the Galatians. Some of the Jerusalem Christians,

-"Cumulative" effects of advertising come out from one advertisement paving the way for another. This is negligible, to say the least. Cumulative effect, on the contrary, comes from salvaging as customers half-finished prospects.

-Each advertiser is in much the same plight. If he quits successful, he loses money. If he quits unsuccessful, he tosses away an equity in public recognition far more valuable than the money: So many thousand partly manufactured customers. The second group are spending as little money as they can and still keep their names before the public. They believe themselves wise spenders because they spend so very cautiously-or perhaps reluctantly is a better word-the balt truth is that these reluctant spenders are, as a class, the real over-spenders in advertising.

60 percent increased over a year same companies each paid over \$1,000,000 as an income tax alone.' When this fund of \$1,000,000,000 sent to Texas is analyzed, compared and contrasted it presents Governor Allred, were surprised an unusual picture to the people of this state. For instance, the Rooseing. "It saved Texas," they all velt-Garner Administration gave sought as a campaign war chest. as, among all classes, groups and Again it meant \$167 per capita,

venue here, announced that in-

come taxes this year were nearly

that sum going to every man, wo-man and child in Texas. Another side of the picture, the

Washington Government gave to Texas 16 times the amount of total annual expenditures of the State Government, for in round numbers State Government costs \$100.000. 000, a year.

"Well, the least that the people of Texas can do to show their ap-preciation," Miller said, "is to cast every ballot for Roosevelt in November and give the campaign chest a little fraction of the amount so graciously sent here that it may be used to carry all doubtful states and so that the helping hand may continue to help.'

Roosevelt is the Centennial President just as much as Allred is the Centennial Governor, other leaders said, and they recalled that when President Roosevelt visited Texas this summer 1,000,000 people turned out to see him when he went to Dallas, Fort Worth, and saw the Alamo in San Antonio, and San Jacinto battlefield near Houston.

"We in Texas should make the November election another San Jacinto battle," Attorney General McCraw said. "This time with ballots, and help out other states by contributing to financial needs. Roosevelt did the same for us.' McCraw said Landon, Republican presidential nominee was not enitled to a single Texas vote.

Here is the "box score" on the official set-up the Roosevelt Administration made for Texas, all ome runs, hits and no errors: **Reconstruction Finance Corpora**ion, \$69,383,174. Farm Credit Administration, \$187,208,160. Commodity Credit Corporation, 43,481,421. Administration

Resettlement \$3,765,464. **Home Owners Loan Corporation** \$103,068,735.

**Public Works** Administration

# E COLD GERM ·· IS WAITING FOR YOUR **DEFENSE TO BE LOWERED/**

Don't give a "common cold" an even break! The fact that this is good advice is emphasized by the report of leading doctors who point out that fifty per cent of all disabling diseases start with a "common cold."

It is well known that sudden chilling of the body after overheating will often cause sneezing, watery secretions or nasal obstruction. Of this, there can be no doubt from the experience of generations of people everywhere. Any sudden change in bodily temperature during winter months such as going from a warm room into a cold one disturbs the heat regulating apparatus of the body and lowers your defense against the insidious attack of the cold germ.

If you heat only one or two rooms . . . if you "huddle" in these warm rooms while the rest of the house remains cold, sudden indoor temperature changes are unavoidable. It's good health insurance as well as good advice to provide adequate heat and a proper circulation of pure warm air in every room of your bome during the coming winter months.

LONE STAR GAS SYSTEM

Soon the cold germ will marshal bis forces for his health wrecking winter attack.

If you should catch cold, consult your family doctor before it bas an opportunity to undermine your
