### Rule Couple Are Most Seriously Injured; In Stamford Sanitarium

Ten persons were badly shaken or injured, two believed critically, in an automobile collision this morning about 8:30 o'clock on the southeast outskirts of Haskell. Both cars involved were almost demolished.

Mr. and Mrs. J. H. Pierce of Old Glory, both suffering from severe shock and possible internal injuries in addition to wounds about the face and body, were immediately taken to a Stamford hospital by J. D. Montgomery after being brought to Haskell by Hugh Hawes, farmer who passed the scene shortly after the mishap.

Others in the car with Mr. and Mrs. Pierce were Howard Tribbey, Mr. and Mrs. E. H. Bristow and Miss Anna Lou Webb, all residents of Old Glory. With Pierce driving, the party was returning from a visit to the Centennial, having left Dallas last night about 11 o'clock. Tribbey escaped unhurt, while Mr. and Mrs. Bristow and Miss Webb received minor bruises and were badly shaken up.

Second car involved in the collision was that of Willie Zahn, gin owner of this city. Accompanied by Mrs. Zahn and their two children, he was en route east.

The two automobiles, both travelling about twenty-five miles an hour, collided head-on at an abrupt turn in the dirt road near the old D. Koonce homestead, on the inside bank of the turn. Zahn, thrown against the windshield of his car, received a deep gash on his nose, a bruised jaw and an injury to his right leg.

## Youth Warned Against Hunting In the City Limits

City Marshal Sebo Britton issued a warning this week against the practice of youths hunting within the city limits, either with rifles, air guns or sling shots, all of which is prohibited by city ordinances carrying stiff penalties.

Within the past few days the officer has received five complaints, he says, from Haskell residents who have narrowly escaped injury at the hands of youthful hunters. One woman told the officer that the bullet from a 22 rifle, fired by a small boy, barely missed striking her in the head.

Questioned, the youth said he was shooting at a sparrow.

The dangerous practice must be discontinued, Marshal Britton warns, stating that a fine of from \$5.00 to \$25 may be assessed against anyone hunting within the city limits. Possession of a prohibited weapon, which includes rifles, air guns and sling shots, he added was considered "hunting" under terms of the ordinance.

### INDIANS WHET TOMAHAWKS FOR GAME AT ANSON

Will Determine Chance of Locals For Championship of District

The crucial game of the current football season will be played at Anson tomorrow, Haskell fans agree, when the Indians meet the Tigers in a conference game which will decide the standing of the locals in the conference race in District 9B.

With Haskell racing Stamford for the first place honors, Friday's game is expected to be the deciding one, as the Anson griders are rated "tops" in the district, losing to Stamford on breaks according to fans who witnessed the defeat of Anson 12-0 at the hands of Stamford recently.

"A win over Anson Friday will improve the Indians' morale to a threatening extent," was the expression of a H. H. S. letterman this week, "and would undoubtedly give the boys a figurative lead over the undefeated Bulldogs."

Neither Haskell nor Stamford has been scored on during the present season. Haskell lagging behind only because of the scoreless tie with Albany.

Haskell schools will be dismissed at noon Friday in order that students may attend the game at Anson. Supt. Breedlove has announced.

The game will start at 3 o'clock. Admission of 35 cents will be charged for adults, while school students will be admitted for 15 cents, officials stated.

Plans for conducting the annual Red Cross Roll Call will be completed next week, County Chairman J. M. Crawford announced today. The county will be organized into districts, and chairmen appointed for each town in the county to head the drive for raising the county's quota of \$850.

This quota will be divided among each town and community in the county, and workers to be named for each district will be expected to make a thorough canvass for memberships in their respective territories. A large part of the money remains for use in Haskell county, officials stated.

John A. Couch is County Roll Call chairman.

## Hunters Depart for South Texas As Season Opens

Haskell county will be well represented in the ranks of deer hunters who have flocked to South and West Texas this week for the opening of the hunting season.

One of the largest parties from Haskell left Saturday, composed of nine hunters who had secured a lease near Harper, in Gillespie county. In the party were C. G. Burson, Dr. L. F. Taylor, Sam A. Roberts, Frank Reynolds, C. O. Scott, R. B. Guess and Al Cousins, who were to be joined Monday by Rev. H. R. Whitley and J. W. Gholson.

Cal Wilfong, Wayne Perry, and several other persons will spend several days in the Van Horn section. They left Saturday.

In another group who also left Saturday were Buford Cox, Chas. Redwine, Charlie Reese and Paul Zahn, who will also hunt in Gillespie county. Reese wrote to friends here today that he bagged an 8-point buck Monday, but other members of the party were unsuccessful on their first day's hunt.

## Former Rochester Resident Faces Forgery Charges

Harris of Carson county was in Haskell Wednesday to take charge of Paul Speck, arrested by Haskell county officers several days ago, who is wanted by the Panhandle officer charged with a forgery allegedly committed in that county some time ago. The accused man, former resident of Rochester, has been in custody of local officers for several days.

## SUBSCRIPTION PLAN WINS APPROVAL OF READERS, WORKERS

Much favorable comment has been expressed to publishers of the Free Press regarding this year's subscription campaign since our announcement last week, by prominent business men of Haskell, public officials and others, and Home Demonstration club members have expressed elation over the prospect of substantial commissions to be paid them at the end of the week as their earnings for participating in the Free Press subscription campaign.

The Free Press IS NOT sponsoring a contest. This newspaper selected the services of Haskell County's Home Demonstration Club Members in promoting the usual Fall subscription drive instead of hiring several solicitors or securing the services of an outside promoter whose services had been offered—for a consideration of 25 per cent of receipts from our subscribers in Haskell county.

We preferred to give Haskell county's deserving Club Women a larger percentage of our subscription receipts, and keep the money at home rather than send a larger percentage out of the county to some foreign circulation company.

Each Home Demonstration Club member shares in every dollar collected for subscription to the Free Press, and likewise each Club has a chance in winning the capital awards and extra bonuses offered. For every dollar collected, clubs or club members receive approximately 50 per cent. ALL THIS MONEY IS KEPT IN HASKELL COUNTY.

The Plan In Brief For every dollar collected by any member of a Home Demonstration Club, the Club will retain 33 1/3 per cent.

The Club securing largest number of subscriptions, new or renewal, will be given \$25 cash award, second \$15, third \$10. The individual in EACH club in (Continued On Page Eight)

## COACHES ARRANGE SEASON SCHEDULE FOR BASKET BALL

Seven High Schools of County Will Participate In Season's Play

Coaches of high school teams of Haskell county met in Haskell Tuesday night November 10th to arrange the basketball schedule for this season. It was decided to play a round-robin schedule instead of the customary county tournament.

Games were matched for Senior boys, Senior Girls and Junior boys to be played on the same date on the schedule, consisting of two boys' and one girls game with the exception of Sagerton, which has a Girls Volley Ball team instead of basketball.

Seven high schools in the county will participate in the schedule: Haskell, Rule, Weinert, Sagerton, O'Brien, Rochester and Mattson. Coaches expressed the opinion that the success of the basketball teams would depend largely upon the support of the public, and that if the teams are given loyal support Haskell county basketball will be on top at the end of the season.

Tentative Agreements The officials adopted the following tentative agreements in regard to defraying expense of the games, officials, etc.:

Cotton ginned in Haskell county from the 1936 crop totaled 14,171 bales on November 1, according to the report of W. P. Trice, special agent for the department of commerce, bureau of the census.

This was a decrease of 7,434 bales from the number of bales ginned to the same date last year, when 21,605 bales were reported. ## COUNCIL ADOPTS STATUTE TO LIMIT DOUBLE-PARKING

Ordinance Applies to Zone Around Square; In Effect Immediately

Regular meeting of the City Council was held Monday night, with all city officials and Aldermen present except one—Alderman J. W. Gholson—who is out of town on a hunting trip.

Included among official business transacted during the meeting was passage of an ordinance limiting double parking around the public square to a 30-minute period. Complete text of the ordinance, which is expected to eliminate traffic congestion on busy days, appears on another page in this issue.

City Attorney Walter Murchison was instructed to rearrange and prepare the City Ordinance book in a more convenient form, in order that City Statutes may be more readily ascertained.

Accounts totaling several hundred dollars were approved for payment by the city officials, largest single item being premium payment on insurance policy covering members of the Haskell Fire Department.

A considerable portion of the business session was devoted to discussion of ways and means for collecting delinquent taxes due the city. Notices are to be mailed to all delinquent taxpayers within a few days urging at least partial payment of arrears, and following this notice, legal means of collection will likely be resorted to. Approximately \$50,000 in delinquent taxes is due the City, Secretary R. A. Coburn stated.

City officials present for the meeting included Mayor F. G. Alexander, Secretary Coburn, City Marshal Britton, and Aldermen Ben Bagwell, Anton Thies, John S. Rike and John V. Davis.

"Sure! Largest Crowd I've Seen Here For Years"

"Bear down on it, boy, it was the biggest crowd!"

"But Ralph, that's what we said last—"

"I don't give a darn, we had more people here today than we've ever had—and get this, if you don't want to mention it, bud, O. K., but these merchants—"

"Alright, Ralph, O. K., anyway it looks like a good thing, but you know we are not allowed to say much concerning—"

"But think of the people it's pulling to Haskell, YOU CAN PUNT THAT 'CANT YOU'!"

We give up—there was a mob here for the Weekly Trades Day Wednesday—and indications are that you'll read the same thing next week.

## LIGHT DOCKET IN ASPERMONT DIST COURT THIS WEEK

Three Weeks Term To End Next Week; Grand Jury Finds One True Bill

Very few cases have been tried during the current term of District Court at Aspermont, according to District Judge Dennis P. Ratliff Wednesday during a one-day recess of court.

The three-weeks term was opened November 9th, and Grand Jury impaneled. They were in session two days, and returned one felony indictment, for removing mortgaged property from the county. Grand Jurors were to convene again today, Judge Ratliff stated. No criminal cases have been tried during the term.

Investigate Cotton Theft Grand Jurors and Stonewall county officers are investigating the theft of 10 bales of cotton from the public yard in Aspermont on Saturday night, November 7th, Judge Ratliff added. Officers believe that one or two trucks were driven to the yard and the cotton loaded during the early part of the night, enabling the thieves to be several hundred miles away before the theft was discovered.

## Club Member Has Large Sale For Canned Products

Sales grossing almost \$100 annually of canned chicken, prepared under rigid requirements of the Home Industries Specialist at College Station, is the accomplishment of Miss Nora Walters, member of the Blue Bonnet Home Demonstration Club in this county, during the past four years time.

## HIGHWAY PATROLMEN HERE ON WEDNESDAY

Capt. John Draper and Sergeant George Schauer of the Wichita Falls division of the State Highway Patrol were visitors in Haskell Wednesday. Capt. Draper, former Haskellite, was renewing old acquaintances while it was Sergeant Schauer's first visit to Haskell.

Drive New Cars From Detroit Chick Henshaw of Cox-Henshaw Motor Company, local Plymouth dealers, accompanied by Bill Zahn, M. C. Josselott, R. C. and Cohn Henshaw, returned last Saturday from Detroit, Mich., bringing back four new Plymouths for Haskell purchasers. The trip to Detroit, a distance of 1,400 miles, was made in two days, they reported. The party also visited Windsor, Canada. That country is "wet" in more ways than one, several members of the group stated.

## Crew of 150 Men Will Be Employed on Work Until First of The Year

Approximately 150 men will be employed in the Soil Conservation Service drouth relief project with headquarters at Haskell, according to an announcement made here today by J. M. Bird, project manager, who arrived here Saturday along with other members of the project staff.

Officials have already been set up on the third floor of the Court House and preliminary surveys preparatory to beginning field work in the Miller Creek watershed are now under way.

The project is being carried on by the Soil Conservation Service, a bureau of the Department of Agriculture, under a special allocation of drouth relief funds made available for use in areas where drouth damage was suffered during 1936.

The program of soil and water conservation which will be instituted on the land of farmers in the Miller Creek watershed, who desire to cooperate in the program, will include all phases of the complete erosion control program of the Service, as now being applied in the 13 project and 31 soil conservation camps which have been operating in Texas during the past year.

In explaining the program for the Miller Creek watershed, Mr. Bird stated:

"It is our plan to concentrate the soil and water conservation work so far as possible on the upper reaches of the Miller Creek watershed. As time permits we will work as much of the land along Miller Creek as possible. In order to make a good demonstration of approved soil and water conservation measures and practices it will be necessary at the outset to confine our work to a concentrated area."

The program, Mr. Bird explains, will be a cooperative one between landowners and the Soil Conservation Service. Farmers in the (Continued On Page Eight)

### Casual Observations

The girl who smiles when every thing goes wrong is usually the one with pretty teeth.  
 Everyone looks forward to chapel day because they know at least one class can be cut.  
 Drive slow and fare well; drive fast and farewells!  
 The person who wants his name in the paper always talks loudly on the subject with which he wishes to be connected when a "snoper" is near.  
 Bribery is often used by students in an attempt to keep valuable information from being printed.  
 The hardest subjects for seniors the first half are: Spanish, government, English, solid geometry and chemistry.  
 Girls who have cars are never without a date.  
 The Indians fought hard Friday night and if they will keep up the good work, we can win over Anson Friday, and Stamford next Friday. Mr. Wimbish dedicated the Hamlin game to good blocking, the Anson game to Mr. Mason, and the Stamford game to Mr. Richey. They knocked the Pied Pipers for a roll, now watch them do the same thing to the Tigers and Bulldogs!  
 Knock! Knock!  
 Who's there?  
 3 in 1  
 3 in 1 who?  
 That's "oil" for this issue folks.

### Perhaps You Didn't Know That—

In early times when men whistled for their dogs they snapped their fingers to keep away the evil spirits.  
 You put your hand in front of your mouth when you yawn because you think it is polite. The real reason once was to keep your soul from jumping out and the devil from jumping in.  
 Corner stone laying was done as a sacrifice to some god for using his ground.  
 Christening ships was to assure a safe voyage from the sea dragons.  
 Women first pierced their ears as a protection against blindness; the ear ring was worn to keep the hole from closing up.—The Jacket Journal Weekly.

### A Short Short Story

The second row in Solid Geometry was held breathless Tuesday. The only sound penetrating the room was the voice of Mr. Richey explaining a problem, but Mr. Richey was not holding the attention of the students. All eyes were turned upon J. J. Twice J. J. slapped at his neck but missed. Believing the pest to be a fly he gave a big whollop and the pest left.  
 Note: The joke was on J. J. and not the class for the fly was T. J. and a straw.

### Senior Snapshots

Evelyn Adcock, a transfer from Post, was welcomed by all the student body as well as the Senior Class because of her brilliant record as a declaimer. Although Evelyn is new here she has made many friends and is one of our outstanding students. She has the real school spirit and is entering in debate this year.  
 James Roy Akins, one of the most popular and outstanding seniors is president of the senior class, captain of the football team and editor in chief of the War Whoop. It is very unusual for any one student to hold so many important positions but this shows James Roy's many talents. Since entering high school he has been a member of the F. F. A., the Red Spot Band and a proxy member of the Gypsy Rambler Club.  
 Delman Bailey, an example of a perfect gentleman, has not for many years been a student in the Haskell Public Schools but while he has been here he made many friends.  
 He is a member of the F. F. A. and is reported for the local chapter of that organization. Delman is a valuable asset to the school as well as the senior class.

### Gridiron Gab

Beat Anson is the talk in the Indian camp at present and what I mean they are really talking it up. The Indians know what they are up against when they play Anson. Those Tigers play plenty of football and I don't mean maybe.

Anson showed that they had plenty of power by playing Stamford to a 12 to 0 score. Although they were beaten, they played as good a game as Stamford but just couldn't get the breaks. The Tigers have a fine backfield performer in Castles. Those who saw the Stamford-Anson game know that the Indians will see plenty of him.

The game last Friday was dedicated to good blocking and I think the boys blocked better than they ever did before. Our game with Anson is dedicated to Mr. Mason and the Stamford game to Coach Richey. The boys are determined to win both of these games. One good reason is that Coach Richey has resigned as head football coach and the boys want to show coach that they will fight it out for him and Haskell Hi.

The Freshmen boys surely did shine last Friday night. That Zeldon Thomason can really hit that line. Sam Henshaw played a real game and smeared every play that came around his position. Other freshmen who did well were Eulis Hays, Fred Barnett and J. C. Scott.

One thing that helps a football team win games is support. Our game with Anson is scheduled at Anson, which will make it hard on our boys. Let's all who can turn out and go to Anson and give the Haskell Indians plenty of support.

I imagine lots of people wonder just how the standings are in District 9B. Here are the standings:  
 Team..... W..... L..... T..... Pct.  
 Stamford..... 6..... 0..... 0..... 1.000  
 Haskell..... 4..... 0..... 1..... .500  
 Anson..... 3..... 1..... 1..... .700  
 Albany..... 2..... 1..... 2..... .600  
 Hamlin..... 1..... 3..... 1..... .300  
 Rule..... 1..... 4..... 1..... .250  
 Aspermont..... 1..... 4..... 0..... .200  
 Munday..... 0..... 5..... 0..... .000

### Nervous, Weak Woman Soon All Right

"I had regular shaking spells from nervousness," writes Mrs. Cora Sanders, of Paragould, Ark. "I was all run-down and cramped at my time until I would have to go to bed. After my first bottle of Cardui, I was better. I kept taking Cardui and soon I was all right. The shaking quit and I did not cramp. I felt worlds better. I gave Cardui to my daughter who was in about the same condition and she was soon all right."  
 Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

### Haskell Indians Rout Hamlin 39-0

The Haskell Indians showed that old power and drive here last Friday night and defeated the Hamlin Pled Pipers by a large score. From the start to the finish the Indians had things going their way. They showed that they are still strong contenders in the district race.  
 The first touchdown was made

early in the game by Lon McMillin on an end run. From then on the Indians scored in every quarter. In the second quarter there were two touchdowns made, Albert Barnett making one on a long end run and Zeldon Thomason making the other on a short plunge.  
 Then Haskell turned to passing. Rogers shot a pass to Barnett who ran through the secondary to score standing up. The other two touchdowns were made by Rogers and Thomason.  
 In this game there was no individual star, each man played a fine game. The whole backfield showed up well. The line did some fine blocking which was better than usual. Stars in the line were: Henshaw, Akins and Lloyd McMillin.

### Cracks From Dumb-Bells

Phae Riley in a shoe store—Of course, I want them comfortable, but at the same time good looking and attractive.  
 Clerk—Yes, madam, I understand—large inside and small outside.  
 J. C. Scott—I wonder if you'll love me when my hair has turned to grey.  
 Dot Welsh—Why not? I have loved you every time you've changed color so far.  
 Audra Lee—What's etiquette, Murl?  
 Murl—Oh, that's the noise you mustn't swallow your tea with when there's company.  
 Albert B.—Would you put yourself out for me?  
 Marjorie—Certainly.  
 Albert—Then close the door as you pass out.  
 Wayne L.—I heard your sister's fellow gave you a kick yesterday.  
 Garland W.—Yes, but I got even with him. I put quinine in sister's face powder and every time he kissed her he made such a face that now she won't speak to him.

### Future Homemakers Attend District Club Meeting

The Lillian Peck Chapter of the Future Homemakers of Texas was well represented with twenty six members and their sponsor, Mrs. Meyer, at the district club meeting at Aspermont Saturday. Entertainment for the day was provided for all in the following program:

 Program render by Aspermont Club.  
 Roll call of the clubs.  
 Luncheon in Home Economics Laboratory.  
 Theatre Party—"Little Women".  
 Tea in Home Economics Dining Room.  
 Business meeting.  
 At the business meeting Hamlin was granted the request for the meeting in the Spring. The Stamford Chapter of the club was most highly represented with Haskell second.  
 Jean Conner sang "Empty Saddles" for an individual club number from Haskell. The members from the Haskell club enjoyed the day at Aspermont and are planning to attend the meeting next spring. Many helpful suggestions were received and may be applied in future meetings.

## THE OLIVER ROW-CROP "70"

Bud can drive it. Sister can too!

Just a light touch on the steering wheel turns the new Row Crop "70" completely around. It's the easiest tractor to operate you ever saw. Every control's right at your finger tips—and you have steering and gear shifting like an automobile.

This is Oliver's new 6-cylinder Tractor that has caused so much talk. There are two "70's"—one designed solely for regular gasoline—and the other to get the utmost fuel economy out of kerosene or distillate.

With either one you'll get unusually great power with light weight—and great speed. Under ordinary soil conditions, you can plow with two 14-inch bases at over 4 miles an hour! That gets the work done quicker and gives more spare time for other things.

The Row Crop "70" comes from the tractor factory of the founders of the tractor industry. You'll want to see this latest, modern tractor at once—with its complete line of mounted listing, busting, planting and cultivating equipment.

 We went by Weibert and  
 the Weibert Homemaking  
 and their teacher, Mrs. Foote.  
 the time we reached Asper-  
 we were well acquainted  
 all the girls on the bus.

While we were waiting to re-

 places; some of whose  
 were familiar. When we  
 through registering, the As-  
 Homemaking girls show-  
 great hospitality by show-

 We received some good  
 for our new school building.  
 thirty o'clock we assemb-  
 the auditorium. A very in-  
 program contributed to  
 enjoyment until twelve o'clock  
 we were served plate lun-  
 from the Homemaking de-  
 After lunch we all left  
 the theatre. It was a very  
 sight to see about three  
 girls all the way from  
 school house to the theatre. It  
 also amusing to see so many  
 wiping their eyes and pow-  
 their noses when they  
 out of the theatre. "Little  
 was showing which was  
 sad, but everyone seemed to

### MUSTANG'S CORRAL

The Mattson Mustangs went to  
 Friday, Nov. 13. There they  
 the Goresse Tigers who  
 not been defeated this year.  
 the end of the first quarter it  
 like Friday 13 would be a  
 day for the Mustangs and  
 unlucky one for the Tigers,  
 the Mustangs luck just  
 didn't hold out. At the end of  
 first half Goresse was leading.  
 from the time the whistle  
 to begin the third quarter  
 all the end of the game the  
 Mustangs gradually let down  
 defense. At the end of the  
 Goresse was leading by a  
 score.

The Mattson girls were suppos-  
 to have played the Rochester  
 but they forfeited this game  
 so we are happy to report  
 we won our third game with-  
 even going on the court. We  
 our other games will not  
 out this way for we had ra-  
 play than to just have the  
 given to us.  
 our next games will be at  
 Aspermont, and we will play Weibert  
 and girls. We will also play  
 the Creek girls and Rule boys  
 Rule next Tuesday night.  
 to come on folks and stay be-  
 us. Maybe our luck will  
 change and we will win the next  
 games we play.

### CLASS MEETING CALLED

On Friday, November 13, 1936  
 the Sophomores, Juniors and  
 Seniors had a class meeting.  
 The purpose of the meeting was  
 to decide upon some sort of enter-  
 tainment for these three classes  
 and just what each guest should  
 bring and where the entertain-  
 ment would be. By a popular vote  
 of the students in these three  
 grades, it was decided that they  
 should have a party in the home  
 of Miss Lou Etta Stanford Novem-  
 ber 21st.  
 This is the first entertainment  
 to be given for the classes since  
 the Mattson school district has  
 been organized and everyone is

### GALLEY 2 "WE WONDER"

let that bumped into that car in  
 Haskell Saturday.  
 Why Miss Perrin didn't sit by  
 the bus driver Saturday.  
 Why people were going around  
 punching Agnes S. Monday. (Just  
 because Rip won a stick of candy  
 by punching that name on a  
 punch board isn't any sign the  
 name will always be lucky.)  
 Why Bud M. tried to choke El-  
 mer C. Monday. (Better be care-  
 ful Elmer C. and not be caught  
 riding around with N. K. any  
 more.)

If Elmer C. is just naturally  
 conceited or is it just the girls  
 that speak to him.  
 If Ruth really doesn't want a  
 boy friend or just doesn't have  
 one to know.  
 If Elmer C. really wanted to  
 know who was in that '32 Ford  
 Sunday night or just wanted to  
 play a trick on the occupants.  
 Why Nellie K. was in such a  
 hurry to get home Saturday night.  
 Why Alice happened to be look-  
 ing out of the window Saturday  
 night when we passed a certain  
 car. (Something tells us she knew  
 the car.)  
 Why Lou Etta is so blue this  
 week. Is it because J. F. isn't in  
 school.  
 If we have just a bunch of cru-  
 saders on the boys' basketball  
 team. (I think we had better put  
 them in a museum so their mus-  
 tache won't be harmed.)

### NIGHT MARES AND HOSS LAFFS

La Verne—If you try to kiss me,  
 I shall scream.  
 Bud M.—Not with all those  
 people about surely.  
 La Verne—Let's find a quieter  
 spot then.  
 Miss Lawson—I am going to  
 give you a piece of my mind.  
 John M.—I wouldn't if I were  
 you. You can't spare any.  
 Miss Crume—What are you late  
 for?  
 John A.—Why-er—class I sup-  
 pose.

Gwendolyn—My greatest sin is  
 vanity. Only this morning I look-  
 ed into the mirror and thought,  
 How beautiful I am!  
 St. Peter—Go right in. To be  
 mistaken is not a sin.  
 Brantley M.—Don't that girl  
 look like Helen Black?  
 Rip—Yes, but she looks worse  
 in brown.  
 Elmer C.—Have you "Lamb's  
 Tales"?  
 Lou Etta—This is a library, not  
 a meat market.  
 Bob—What time shall I come  
 over to the house?  
 Alice—Oh, I don't know. Come  
 after dinner.  
 Bob—Well, that's what I was  
 coming after.

Leon M.—My brother thinks a  
 basketball coach has four wheels.  
 Henry D.—Ha! Ha! And how  
 many has the bally thing.  
 Miss Perrin (At the almond  
 counter)—What attends to the  
 nuts?  
 Wise Guy—Be patient; I'll wait  
 on you in a minute.  
 Clyde C. (Who had received a  
 bruised hand in the basket ball  
 game and had just received treat-  
 ment from the doctor)—Say Doc,  
 can I play the piano after this gets  
 well?  
 Doctor—Sure can, son.  
 Clyde—Doctor you are a genius.  
 I couldn't even play a chord be-  
 fore I got it hurt.

### The Methodist Missionary Society

On Monday, November 16th the women of the M. M. S. met in the auditorium of the church for an all day service, the occasion being for the observance of the annual "Week of Prayer." This day of prayer is observed in all Southern Methodist churches the world over. Mrs. K. Thornton as director, had arranged a most inspiring and interesting program. With Mrs. Patterson at the organ, the call to worship was made by all joining in singing of "Love Divine." Mrs. Irby offered a prayer "God Will Take Care of You" was next sung. Following the singing the director made a few introductory remarks. In the prayer which followed, a plea for the restoration to health was made in the behalf of our beloved Life Member, Mrs. B. Cox, who is seriously ill in her home.

Mrs. E. Martin next gave a most interesting talk, the topic being "Hearing God's Voice." The work of our own Bishop Lambrecht was cited as an example of the wonderful things which may be accomplished, when one recognizes and heeds God's voice. Mrs. Martin concluded her talk by asking in prayer, for greater spirituality. Mrs. Graham read the poem beginning "Seek Not Afar For Beauty." The following ladies took part in the scripture reading: Mesdames Breedlove, Wilson, Howard Wilson, Huckabee and Persons. Song, "My Faith Looks Up To Thee." While the organ was softly played all bowed in silent prayer.

Mrs. R. C. Montgomery was next on the program with a well prepared talk entitled "Workers With God." The idea of rural missionaries is not new, the line reaching back to John the Baptist. In more recent years some of our greatest rural reformers have been guided by churchmen. Bishop Gruntvig is linked to the wonderful rural reforms, which for years have made Denmark an example for the rest of the world. In her talk, Mrs. Montgomery touched on the beauties of nature. This address was concluded by the quoting of the Psalm, beginning "Be still and know that I am God." The director called for the song "Sweet Hour of Prayer," after which Mrs. F. T. Sanders offered the prayer which dismissed the morning session.

As Mrs. Huckabee had so graciously offered the rooms of the parsonage for our use, we went in a body across the lawn, and there found a group who had everything in readiness for the delicious luncheon of sandwiches, pies and coffee. The tables at which the members sat, were each covered with snowy linen and centered with a vase of beautiful roses cut by our hostess, from her own garden. Our pastor, Rev. Huckabee, returned thanks. During this noon-time hour, on every hand was heard expressions of appreciations for Rev. and Mrs. Huckabee.

The afternoon session was opened by all enjoying a singing of old hymns. Among these were "Oh For a Thousand Tongues to Tell," "Beautiful Garden of Prayer," "Near The Cross," "Jesus Lover of My Soul." This program of song was concluded by the singing of that grand Missionary hymn "Jesus Calls Us". Mrs. Breedlove offered a prayer. With Mrs. Patterson at the organ, Mrs. Montgomery recited a beautiful musical poem beginning "Oh, Lord of Heaven and Earth and Sea." The director next presented Mrs. Hugh Smith, who told most interestingly of "The Hiroshima Girls School" in Japan. We are all interested in this school, it being our "Foreign Special" in other words, the offering received today all over Southern Methodism, goes to the support of this school. Sentence prayers followed, concluded by a poem prayer read by the director.

With Mrs. Patterson softly playing "Lord I Give My Life and kneeling placed their offering. Before adjourning all joined in singing "Blessed Be The Tied Tied Bands". Mrs. Irby prayed the prayer of dismissal. The following ladies enjoyed this wonderful day: Reporter.

## More Farmall Tractors Are Owned and Operated by Haskell County Farmers Than All Other Makes Combined!

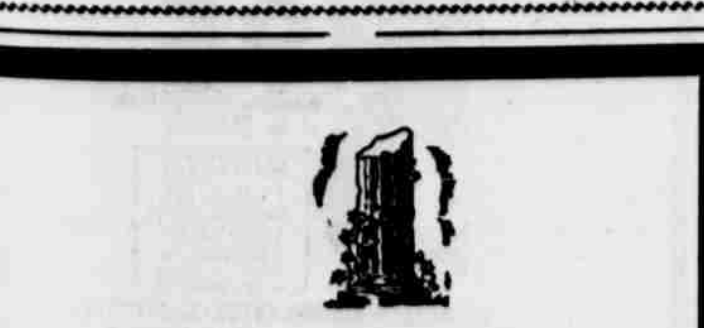

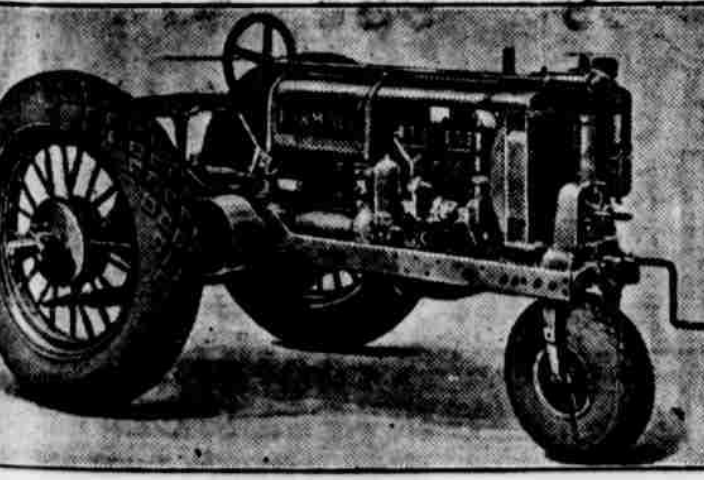

# FARMALL Tractors

## Are Consistent Money-Makers On Haskell County Farms!

Ask any farmer about the Farmall. They will tell you it is the most modern, economical and profitable way to farm. MODERN . . . because International Harvester engineers are always on the job improving and investigating new improvements for farm equipment. ECONOMICAL . . . because operating cost is small, upkeep practically nothing, repair parts and service always available to save you valuable time. PROFITABLE . . . because you get your work done quicker, and because there is no expense when not in use, work is done more efficiently. The Farmall also has a high resale value. DON'T EXPERIMENT when you buy a Tractor, but choose the leader of them all—the FARMALL.

## LINCOLN'S GETTYSBURG ADDRESS

"That government for the people by the people and of the people shall not perish from the earth"—the stirring message of Abraham Lincoln in his Gettysburg address on November 19, 1863 is an accepted principle today in American government. In the midst of internal strife the Great Emancipator faced his audience at Gettysburg and enunciated the principles of government 73 years ago today as his righteous ideals. Lincoln's foresight has been well proven as a sound principle of government—and the same applies to insurance—the foundation comes first. We represent firmly-founded companies.

EMPLOYEES SHOULD CONTRIBUTE

Misrepresentation of the social security payroll taxes, resorted to at the last minute of the recent campaign, have, at least, had the effect of hastening an effort on the part of labor officials to shift the entire burden of the old age pension system to the backs of employers.

This might have been expected. In assailing the President for a tax, set up in a law that was passed by a non-partisan vote, the London campaign managers opened the way for the shift by creating the impression that that part of the tax paid by employees was unfair.

While we have no great objection to putting the tax elsewhere, we do think that employees should make some contribution to the fund that will pay them old age benefits. To do so will certainly give them a feeling that the annuity has been earned as of right. This is worth something.

COUGHLIN'S WISE DECISION

The Rev. Charles E. Coughlin has wisely decided to retire from the radio and to leave political affairs alone. That his decision comes after a plain demonstration that he has lost the major part of whatever influence he may have had does not detract from the wisdom of his decision.

The radio priest exhibited a reckless and in-temperate attitude in his discussion of social, economic and political questions. He paraded an in-defensible rudeness in reference to the President, using language unmatched by the partisan political speaker of recent campaigns.

Certainly the Catholic church was not benefited by his participation in politics. Nor is any church apt to profit from such activity on the part of its ministers, whether they be priests, preachers or rabbis.

In this country it is fundamental that church and state be separate. This will not long continue unless the division is scrupulously observed by those who serve the church. Religious leaders can preach their doctrines in this country as they please and safely leave political skirmishing to laymen.

LISTEN TO JACOB MAGED

Do you remember Jacob Maged? The chances are that you do not and so we will tell you that he is the New Jersey tailor who was sent to jail for undercutting NRA prices by charging 35 cents for pressing a suit when he should have taxed the customer 40 cents.

What do you think Mr. Maged wants now? Well, he has telegraphed the President, asking for a new NRA "for the protection of the little man."

UNUSUAL ELECTION RESULTS

Overlooked, perhaps, in the general shuffle two Ohio elections deserve passing notice.

From Jackson comes the news that township voters approved a bond issue of \$14,000 to pay off a judgement obtained by Betty McGhee whose baby feet were badly burned five years ago when she tottled into a heap of smouldering ashes left in the garden of her home by highway workers.

From Springfield comes the news that the public schools of that city were closed when voters defeated a 3-mill special levy, which school board members said was necessary to keep 12,000 pupils in school. It seems that the board has no operating fund and owes thousands of dollars, most of them to teachers.

These are unusual results of elections. The township deserves a vote of thanks generally and the city of 70,000 a Bronx cheer, regardless of what caused the trouble in its school finances.

MR. ROOSEVELT APPROVED

The approval of President Roosevelt's New Deal at the polls this month was so overwhelming as to leave no doubt as to the attitude of a majority of the American people.

Practically the old issue presented to the people of this country was whether they wanted the President for another four years. Governor Landon opposed the reciprocal trade treaty program, the social security set-up, promised to repeal the new tax on corporation surpluses and advocated a new method of making benefits available to farmers. President Roosevelt based his entire appeal to the electorate upon his record and did not commit himself as to the future except to pledge a continuation of the fight which he had initiated.

On this basis he won an unprecedented approval, equivalent to a demand from the people of the nation that he continue to develop the New Deal along its present outlines and to enact the necessary legislation to sustain it.

The verdict, being conclusive, should be accepted by all Americans. Those who oppose the New Deal have a right to retain their conviction but, in accordance with the American doctrine of good sportsmanship, they should not attempt to place arbitrary obstructions in the path of a President attempting the realization of the program approved by the nation.

FIRST AMERICANS.

Scientists have long pondered the origin of man on the American continents and even average Americans, once in a while, find the mystery interesting.

Dr. Alex Hrdlicka, expert anthropologist, is convinced that the first settlers on these hemispheres came from northeastern Asia, crossing the Bering Sea many years ago in successive waves. The American Indian thus appears to have been a development of Asiatic ancestry.

Later on, the Europeans came along and took the country from the Indian. Many Americans think they have done something remarkable when they trace their ancestry to the early white settlers of the United States. Luckily, however, most Americans today are not as much concerned with ancestry as they are with present-day citizens.

A GREAT MAN PASSES ON

The death of Senator James Couzens, of Michigan, removes from the American scene a citizen of the highest type, a man of the people regardless of his own great wealth.

One does not have to agree with everything that the Senator espoused to admire the bigness of his heart, the independence of his public life and the courage with which he faced his duty.

Few men in public life have had a higher

sense of stewardship, few men of great wealth have felt a closer kinship with those less fortunate and few men of his type have been able to look wealthy and powerful interests in the eye and tell them where to head in when they were pressing for advantage.

In many ways the people of Michigan will miss a friend and the people of the United States an unusual servant of the public welfare.

A DOCTOR ON SPINACH.

Every once in a while we run across an item of news that merits emphasis in these columns in order that the unwary, who may have overlooked it in the ordinary news columns, will receive the full benefit of the revelation.

Dr. Walter C. Alvarez, of the Mayo Clinic at Rochester, Minn., recently stressed the fact that the same diet did not necessarily mean well for every patient. He has found, for example, that milk is not good for everybody and asserts "it is bad stuff for many people and actually poisonous to others."

The crowning revelation, however, pertains to spinach, which the doctor avers is not "the marvelous food we have long thought it to be." Worse, "it isn't digestible unless it is heavily creamed" and the body "cannot digest spinach sufficiently to benefit from the calcium and iron content of the vegetable."

Boys and girls having spinach rammed down their throats might pass this clipping along to the heads of the house!

CURRENT COMMENT

HEARST CONVINCED

Frederick (Okla.) Leader
"If Andrew Jackson's policies were essentially Democratic, why is it not reasonable to concede that Mr. Roosevelt's policies may be equally so—dictatorial in manner and method, but democratic in essence?"

This comment was made after the November 3 election by the man who started the "Moscow" story on the President during the campaign—none other than William Randolph Hearst. "Perhaps I was more nearly right then than later," Hearst continued, referring to his support of Roosevelt in 1932.

This is taken to be the most dramatic gesture of peace made since the election. Hearst is a dirty fighter and an implacable foe when it serves his purpose. Just now the government that he maligns looks mighty big and powerful.

Joseph Schechter, defendant in famous NRA case: "I wonder if it would be possible to congratulate President Roosevelt through the newspapers and tell him that sixteen votes in our family were cast in his favor?"

Jacob Maged, tailor, jailed for violating the NRA: "I trust that a new NRA will once more become a law for the protection of the little man."

Joseph R. Sizoo, Presbyterian preacher: Protestants should have in Washington some representative, who, when occasion requires, would speak the voice of Protestant Christians."

Harold W. Dodds, president, Princeton University: "No public problem is one of history or of economics or of politics alone. Rather, does it involve all three."

Mrs. James Roosevelt, Sr., mother of the President: "Franklin has always been a very good boy. I think very well of him."

Haskell County History

As Revealed by the Files of the Free Press 20, 30 and 40 years ago.

Twenty Years Ago—1916

Flurries of sleet and snow were in evidence here the first of the week, marking the coldest weather in November that this city has experienced in years.

R. T. Adams of the Whitman community sold to one of our local dealers this week 58 turkeys weighing 704 pounds at 20c per pound, which brought him the net sum of \$140.80 for the lot.

A. C. Barton of the Rose community sold a bale of cotton on the local market last Friday, the bale and seed bringing him the sum of \$152.60. As we go to press, Jas. P. Owens informs us that he had just sold a bale of cotton and the seed for \$155.80. This is probably the highest price ever paid on the local market for one bale of cotton and the seed.

Mrs. T. C. Cahill, J. U. Fields and Fred Sanders are at Sherman this week attending a meeting of the Federated Clubs.

R. A. Bradley of the Pinkerton community was in the city the first of the week and while here told us he believed his four children are the champion cotton pickers of this section, having picked twenty bales of cotton during the past five weeks with the exception of about \$125 he has paid out for picking. The children's ages range from 7 to 12 years. The 7 year old girl recently picked 226 pounds in one day. Mr. Bradley has out 29 bales, and thinks he will probably get 12 more.

Mrs. R. L. McAnulty of Stamford visited her parents, Mr. and Mrs. A. P. Kinnison Saturday, and Miss Bess Munn returned home with her to spend a few days.

Apparatus and material for a laboratory for Chemistry and General Science have been ordered and will be installed in the Haskell High School within the next few weeks. This much needed equipment will enable the school to secure affiliation with two or three more subjects in science.

Thirty Years Ago—1906

Mr. Wm. Oglesby returned this week from a business trip to the plains country, where we understand that he, together with F. N. Todd of this place, and H. N. Atkins of Houston, purchased three leagues of land in Lamb county.

The official bonds of Sheriff and Tax Collector M. E. Parks have been approved by the comptroller and he is now in full charge of the office. Sheriff Park has appointed D. M. Winn as office deputy and W. D. Falkner as deputy for outside work.

Rev. and Mrs. J. H. Chambliss returned Wednesday from Brownwood, where they attended the Northwest Texas conference of the M. E. Church. Rev. Chambliss was returned to the Haskell Church by the conference, where he has

already served three years and done excellent work.

Mr. Hugh Smith is building a residence in the north part of town.

The freezing cold weather and sleet the first of the week put an end to everything green. It was the first weather we have had cold enough to kill any but the tenderest vegetation.

Messrs. C. Boardner and J. V. Jones of Stonewall county shipped four cars of cattle from Haskell Thursday to Fort Worth.

The wheel of a loaded wagon ran over Mr. W. T. Lackey, who resides a few miles south of town, last Saturday, bruising and hurting his hips. Dr. Gilbert was called to attend him and reports him doing well and not permanently crippled.

Forty Years Ago—1896

Mr. A. H. Tandy left Friday morning for a visit to his ranch in the Indian Territory.

Messrs. Fred Halsell, Jean Mayfield, Tom Lanier and Charley Boardner, all of Stonewall county, were visitors in Haskell this week.

Messrs. Byron Glasscock and W. F. Rupe went on a turkey hunt Tuesday night and killed thirteen of the birds.

The Mesquite and Idella public schools had a spelling match Friday evening, but we failed to learn which one won the championship.

Judge Baldwin had appointed Messrs. W. W. Hentz and J. B. Jones and Miss Sallie Ramsey as the board of school examiners for the ensuing term.

The fame of Haskell merchants is extending. Mr. Harry Daugherty, of Guthrie, treasurer of King county, and his wife were here this week trading.

Two criminal cases have been transferred from Stonewall county to the district court of this county and will probably come up for trial at this term. One of them is for jail breaking and the other for theft of cattle.

On Saturday of last week ten 4-mule teams passed through this place en route to New Mexico to work in a silver mine. The parties in charge were from Bosque county and were in the employ of parties in Bosque and McLennan counties who own the mines.

The Two Rivers reports an old time frontier dance over in Scurry county last week. The dance began about dark and continued with ever-increasing revelry until daybreak the next morning. The Two Rivers editor was a full participant.

Dr. Gilbert tells us there is a new ten pound boy at Mr. Park Caudle's, dating from Monday night.

The race for district attorney in this district between C. H. Steele and A. M. Craig, resulted in a majority of 24 for Steele.

Sunday School HENRY-LESSON RADCLIFFE

Golden Text: "I can do all things in him that strengtheneth me." Philippians 4:13.

Lesson Text: Acts 28:16—24, 30-31; Romans 5:6—11).

Our lesson this week again includes many stirring and important with the final verses of the Book of Acts, leaving Paul a prisoner in Rome but preaching boldly and vigorously to all with whom he came in contact.

Our last lesson told how Paul was sent to Caesarea by the Roman officer Lysias to remove him from dangers of a Jewish plot. A few days later the Jews came before Felix, the Roman Governor, and accused Paul of being "a pestilent fellow, and a mover of sedition." Paul was kept in prison two years by Felix, hopeful of a bribe, but who nevertheless, frequently conversed with his prisoner. During these two years

1-MINUTE SAFETY TALKS By Don Herold

SPOTTED FEVER

Automobile accident prevention improved greatly in spots in the United States in 1935, although the country as a whole was almost as bad as it was the year before.

Deaths from automobile accidents for the whole country in 1935 totaled 36,100, according to The Travelers Insurance Company—one per cent more than in 1934. But five per cent more cars were registered, so the national record was slightly improved—not much.

In certain localities, however, the toll was reduced BY AT LEAST ONE-HALF.

Exceptional records were made by Providence, R. I., Evanson, Ill., Lynn, Mass., Syracuse, N. Y., Allentown, Pa., Greensboro, N. C., Hoboken, N. J., Lansing, Mich., and Pittsfield, Mass.

This spotted improvement is something about which to be glad. If accidents can be markedly decreased in

spots, they can be equally decreased nationally . . . eventually. If they can be decreased in spots, it proves they CAN BE decreased.

As soon as the public accepts the fact that automobile accidents are a disease that can be stamped out like smallpox and are not merely calamity that has to be TAKEN, then the battle will be half won.

Get behind the safety movement in your town. Make—or keep—your town one of the spots. Ten deaths subtracted here and there will soon add up to several thousand on a national basis.

And you, yourself, can be a safety "spot" all by yourself. You may not be able to improve on your 1935 record, but you may be able to improve on your 1936 record. Most of us have our accident and death or injury AHEAD OF US—and THAT is the accident prevention in which we are most interested, after all

many think Luke wrote his gospel and much of Acts.

Festus succeeded Felix as Governor, and while he was a much better man than his predecessor he was still not above playing politics to carry favor with the Jewish leaders of Jerusalem. Festus suggested that Paul go to Jerusalem and stand trial there but rather than face the dangers of death at the hands of the Jewish mob, Paul, exercising his right as a Roman citizen, demanded a trial before the Roman Emperor.

While waiting for an opportunity to be sent to Rome, Paul was called before Festus and his royal visitors, Herod Agrippa the Second and his sister-wife Bernice. On this occasion Paul delivered what is considered his most famous apology, reciting his life, and his conversion and making an appeal to those who heard him. The officials decided he had done nothing worthy of punishment and could have been set free if he had not appealed to Caesar.

In Acts, Chapter 27, we have a very interesting account of an early sea voyage described with some detail and shedding interesting light upon the methods of travel over water twenty centuries ago. This chapter should be read. The ship was wrecked, although due to the courage and sagacity of Paul the lives of all aboard were saved. Paul and his fellow voyagers remained at Malta for some time until navigation opened in the early spring and then they proceeded to Italy, stopping at Syracuse and passing other famous cities.

Paul was landed at the Port of Puteoli, about one hundred and forty miles from Rome, all of which except thirty-five miles was over the famous Appian Way.

At two places along the highway Paul was met by delegations of Christians from Rome, which encouraged him greatly. At Rome, Paul was always in the presence of and probably chained to a soldier-guard. Yet, even under these circumstances his house became a center for missionary activity, during which many of the very soldiers who guarded him were converted.

A few days after his arrival in Rome Paul called together the chief Jews of the city and spoke to them about his life work. The printed text of our lesson this week relates this event. As usual some believed and some did not.

For two years, during which time he is supposed to have written various epistles, Paul remained in Rome, preaching and teaching "the things concerning the Lord Jesus Christ."

## Freshman Facts and Fancies

Crandle, Roy Frierson, Orville Cox find it very pleasant to give candy to girls between classes.

Master Ghosh and Paul Gholson were seen Saturday, Saturday around with Mary Lou from Stamford. (They aren't the only boys in the school 1936 Chevrolet, either.)

Reba surely has found somebody, or why should she be curling her hair all of a sudden? We wonder.

Coburn hasn't been affected by high school. She's still a baby, all right.

Mae Sheets seemed to have an easier time in selecting a suit for her than any in the Economics IA class.

Whaley just can't keep talking. How many detention slips have you gotten, Virginia?

There are only six girls in the English IC class, while there are fifteen boys.

Martha Highnote got an honorable mention from Faye Cotton week.

Mary Louise and Bonnie Dell help as if they hadn't seen each other in a month.

Only one freshman had a letter at the last meeting of the school P. T. A. (and the pom-poms had ten!)

## How Can We Observe National Book Week?

Well, really, we just can't. It is intended of course to be a week in which schools shall add to their libraries, buying new books and placing old favorites. But with a library of even a single volume, and without the means of circulating one, as a student body has little opportunity to use this week as National Book Week. However, it seems appropriate at this time to thank the Reading Club Library for the loan of their books. If it were not for this library the high school students would be completely ignorant of any kind of literary reading. Therefore, we, the student body of H. H. S. wish to thank the Magazine Club which makes this public library possible and will in turn try to follow the lead of the library at all times, and in this way not abuse this privilege so kindly given to us. We also want to thank the librarian, Mrs. Irby, who always waits so graciously, and helps us in any way she can by offering suggestions as to what books we would enjoy most.

Nuts to those boys who let their dates get in and out of the car anyway they can. A peck of green persimmons to "detention" for keeping students in school an extra forty-five minutes.—Dirt to all seniors who lose their senior dignity.—Phooey to those seniors who haven't paid for their senior rings yet.

## Receive Picture of Lillian Peek

The Lillian Peek Chapter of the Future Homemakers of Texas have received a large tinted picture of Miss Peek, state director of Homemaking Education. It is to be framed and hung in the home economics department.

In the early part of 1935 the Lillian Peek club was organized. Since the club joined the state plan this year the Haskell Chapter adopted the previous name.

Miss Peek organized the first Home Economics Department in Haskell. She stated, in a letter to the club, "There is no place in Texas where I had rather have my picture hung. It was there that I started my professional career and Haskell has always been very near and dear to my heart."

## Midway Home Demonstration Club Meets

The Midway Home Demonstration club met for an annual Achievement day program in the home of Mrs. J. S. Hayes Tuesday afternoon. An incomplete report showed that over one thousand quarts of food had been canned, in spite of unfavorable circumstances.

Each one present was asked to answer roll call with "What I enjoyed most in H. D. Club work during the past year." Some of the things mentioned were: association with neighbors, study of foods, mattress making, refinishing of furniture, study of Texas History, parliamentary law, etc.

Mrs. C. C. Childress in making a report as chairman of the program committee said, "Our objectives in planning the year's programs have been to teach facts, skills, principles, to create favorable attitudes, to obtain action, to prepare adequate leadership, to place responsibility upon people themselves. According to Seaman A. Knapp 'what one sees and hears, he may doubt, but what he does, he cannot doubt.' I plan to arrange better, although different type programs next year."

Mrs. Reynolds Wilson made a talk on "Results of Careful Planning in pantry and garden work." During this talk Mrs. Wilson said, "I plan my garden during January as I have more spare time. Different seed catalogs are studied, and orders placed. I try to have a spring, summer, fall and winter garden, but to me the fall garden is the most interesting. What I appreciate more in my pantry is not the large number of containers but varieties. One should plan the pantry around the idea of being able to prepare balanced meals from it and the garden the year round."

## Committees appointed by the chairman were:

Reporter — Mrs. Hansford Harris.  
Parliamentarian — Mrs. C. C. Childress.  
Membership — Mrs. Alf Laird, Mrs. L. N. Lusk, Mrs. C. O. Scott, Fair — Mrs. Date Anderson, Mrs. Edd Stodghill, Miss Blanch Frierson.

We expect to keep an accurate record of our work. It is the aim of each club member to make history, that we may be justly proud of.

Before leaving each of the guests were asked to view Mrs. Hayes' pantry which contained a large number of both canned and dried fruits and vegetables. Besides these Mrs. Hayes will have a supply of poultry, dairy, pork and garden products.

When you drive the 1937 Ford with the 85-horsepower V-8 engine, you are master of a power plant that gives everything you can possibly demand in speed and acceleration. Today, improved carburetion enables it to deliver its thrilling performance with unusually low gasoline consumption.

The new 60-horsepower V-type 8-cylinder engine delivers V-8 smoothness and quietness—even at speeds up to 70 miles an hour—with gasoline mileage so high that it creates an entirely new standard of economy in modern motor car operation.
