FARMERS URGED TO USE TRENCH SILO FOR FEED

Is Best Method For Saving Bumper Crop Now In Prospect

With a bumper feed crop in sight for Haskell County, farmers are urged to begin thinking of some way of saving a part of this feed crop for lean years, stated G. R. Schumann, County Agent, this week. It is not every year that Haskell county produces a feed crop such as is being produced this year, and if Haskell County farmers will store a part of this year's feed crop in trench silos, a reserve supply of feed will be on hand when drouth years appear.

There are many advantages to a trench silo, stated Mr. Schumann. Besides being an excellent feed for dairy cows, horses, beef cattle, and sheep, silage has another advantage in that a farmer takes the same amount of feed and the same kind of feed out of a silo as he puts into a silo. Feed stored in the bundle, deteriorates, dries-up, and livestock will only eat a small percent of the bundle feed—this is not true with a trench silo. Livestock will eat all of the silage. Silage also makes an excellent green feed when green feed is not available during the winter months.

A trench silo can be built very cheaply on all farms, and it does not cost a great deal to put the feed into the silo. It is not necessary that the feed be cut up to be put into the trench silo—bundle feed can be stored in the trench silo just as easily as cut-up feed.

Farmers who may be interested in trench silos are urged to see the County Agent for further information and assistance in planning a trench silo.

Auto Accident Fatal to Baylor County Farmer

A headon auto collision eight miles east of Seymour shortly after noon Monday cost the life of W. A. Cockrell, 71, prominent farmer of the Westover community in Baylor county, and a former resident of Haskell county. Cockrell was instantly killed when the car he was driving and a truck driven by E. N. New of Gilliland collided. Both cars were demolished, but New was uninjured.

A fainting spell on the part of Mr. Cockrell was believed to have been the cause of the accident. Relatives stated that he had occasionally suffered from fainting spells during the past year, and he was on the wrong side of the road, with his car apparently out of control, when the crash occurred. He was known for his careful driving, lending further credence to this explanation.

A native of Arkansas, Mr. Cockrell came to Haskell county some thirty-five years ago. He later moved to Baylor county.

Funeral services were held at Westover Tuesday afternoon. He is survived by his widow, six daughters, and several brothers and sisters.

Two-Weeks Revival Meeting at Center Point Starts Soon

A two weeks revival meeting will be held at the Center Point schoolhouse southwest of Haskell, beginning Sunday, August 14th. Rev. Clarence Weinscott of Rule will be in charge of the preaching service, and a good song leader will direct the song service. Church leaders of the community believe that an excellent meeting is in prospect, and extend a cordial welcome to everyone to attend. The meeting will close Sunday night, August 28th.

Local Pastor Will Conduct Meeting in Rule

W. Russell Costney, minister of the First Christian Church in this city, will conduct a week's revival meeting at the Rule Church of Christ, beginning Sunday August 7th. Services will be held each evening during the week of August 7-14.

WILL CANVAS VOTE TOTALS SATURDAY OF FIRST PRIMARY

County Convention Is Also Scheduled Saturday Afternoon

The County Executive Committee will meet Saturday to canvass returns and make official report of results in the first primary, County Chairman H. Weisner announced this week.

Mr. Weisner commended election officials of the various voting boxes for their painstaking services in conducting the first primary, and complimented them also for their promptness and accuracy in reporting unofficial results of the election.

Following the session of the executive committee, the County Convention will be held in the courthouse Saturday afternoon, at which time all precinct chairmen and delegates are expected to be present.

Firemen Elect New Member At Meeting Monday

Vacancy in one company of the local volunteer fire department was filled Monday night, when members held their regular meeting at the city hall. Raul English, Clover Farm Store employe, was selected from the list of applicants for the vacancy. Membership in the department is limited to twenty-four members, divided into two companies, and a paid fireman employed by the city. English will be officially inducted into the department at the next meeting.

After the regular business session, with Chief Jesse L. Collier presiding, firemen discussed a proposition to stage several wrestling matches in their open air arena in connection with the amateur fights being held twice each month. An offer from a wrestling promoter was referred to the committee in charge of the amateur bouts for consideration. For the past several years, the volunteer department has endeavored to sponsor enterprises in raising funds heretofore provided through donations from local business firms, and have been singularly successful in their efforts.

Farmers May Make Wheat Insurance Applications Now

Wheat farmers who wish to insure their 1933 wheat crop under the Federal Crop Insurance Program can now do so by calling at the County Agent's office and executing an application for a wheat insurance policy.

Beginning next Monday, August 1, Mr. W. S. Grimsley, County Wheat Insurance Supervisor, will be located at the County Agent's office for the purpose of taking applications for wheat insurance. Mr. Grimsley will be at the County agent's office on Monday, Wednesday and Saturday of each week for the purpose of meeting with Haskell County farmers and taking their applications. All wheat farmers are urged to avail themselves to this opportunity of securing an insurance policy on their wheat crop which covers all risks at a nominal charge.

Farmers wishing to make a wheat insurance application are urged and requested to bring the number of acres seeded to wheat each year for the years of 1930 through 1937 and the number of bushels of wheat produced each of those years, when they come to make their insurance application.

August 31, 1933 is the last day at which farmers can make an application for wheat insurance.

Local Pastor Will Conduct Meeting in Rule

W. Russell Costney, minister of the First Christian Church in this city, will conduct a week's revival meeting at the Rule Church of Christ, beginning Sunday August 7th. Services will be held each evening during the week of August 7-14.

In Run-Off For Lieut.-Governor

P. Pierce Brooks, left, of Dallas County, and Coke R. Stevenson, right, of Kimble County, led the field of six candidates for the office of Lieutenant-Governor in Saturday's balloting.

Voters will choose one of these candidates as right-hand man for W. Lee O'Daniel in the second primary, to be held Saturday, August 27th.

FIVE CANDIDATES FOR STATE POSTS GIVEN MAJORITIES

Sacred Harp Singers Will Meet Sunday

The regular fifth Sunday meeting of the Central West Texas Sacred Harp Singing Convention will be held next Sunday, August 31, in the First Methodist Church in Knox City.

M. E. Bowen, president of the organization of singers, states that one of the best programs of the year is in prospect for the Knox City gathering, and invites all singers and music lovers to attend. At the noon hour a bountiful lunch will be spread for all in attendance.

T. L. Grace of Haskell is vice president of the organization.

Rites at Denton Sunday for Former Haskell Resident

J. S. Wankan, 80, of Dexter, Cooke county, died Saturday in a Denton hospital from injuries sustained in an automobile accident which occurred Wednesday of last week. The victim and his son, Joe Wankan and the latter's wife were traveling in the Wankan car when it collided with a large truck. The elder Wankan was fatally injured, and his son sustained serious injuries but is expected to recover, hospital attendants announced Monday.

The victim will be recalled by oldtimers as a former Haskell resident and businessman. He was a son-in-law of the late G. J. Miller of this city.

Funeral rites were held Sunday afternoon at Denton. All of his children were present for the services, together with the following nieces and nephews from Haskell, Mr. and Mrs. Leon Fearsey, Mrs. Carl Arbuckle, Misses Joyce Nell and Velma Hambleton.

Dr. and Mrs. B. F. Ammons of Goose Creek spent a short time here this week visiting relatives.

What Picture Shown In The Last Ten Years Would You Like To See Again?

Announcement was made this week by the Texas Theatre that leading motion picture producers of Hollywood are re-issuing one hundred and seventy-five of the outstanding feature pictures of the past decade. All of these productions will be reproduced in their entirety, with new prints and advertising.

Because it will be impossible to use all of the re-issues, the theatre management requests readers of the Free Press and theatre goers of the county to help them in selecting fifty-two of the reproduced features to be played at the Texas and Rita Theatres as they are available. Doubtless each reader can recall a picture they wanted to see but did not have the opportunity, or an outstanding production they would enjoy seeing a second time. In order to determine the productions most desired by their patrons, the theatre requests your help by filling out the following ballot and mailing or leaving it at the Free Press office or Texas Theatre.

LIONS ADOPT NEW DUES, ATTENDANCE PLAN AT MEETING

Absentee Members Will Be Required To Visit Neighbor Clubs

Members of the Lions Club approved a revised schedule of monthly membership dues at their regular meeting Tuesday at noon, held in the Coffee Shop of the Tonkawa Hotel. Under the new plan adopted, dues will be \$2.75 monthly, and this sum will include all charges heretofore added for the luncheon served at each meeting. The new plan is expected to prove more satisfactory to members.

A new attendance rule was also adopted, providing that when any member was absent from three successive meetings without legal excuse, he would be required to attend one meeting of an out of town Lions Club and make a report of his visit to the local Club.

No program had been arranged for the meeting, and only routine business was discussed.

Dallas Man Is Named Manager Leon Theatres

R. J. (Dick) Potter of Dallas has recently accepted a position with H. S. Leon of this city as general manager of the Texas and Rita theatres in Haskell and the Leon chain of showhouses in four neighboring towns. Mr. Potter assumed his duties last week and will occupy offices in the Texas Theatre building here. In addition to his managerial position, he will also be in charge of buying and booking pictures for the six theatres owned and operated by Mr. Leon.

Mr. Potter states that he has already contracted for the principal releases on major film productions for the remainder of the 1933 and the first quarter of 1934 with the leading production companies. This assures the presentation here of the feature film attractions as rapidly as completed, he stated. Feature films will be shown in theatres owned by Mr. Leon in this section in advance of their presentation in many larger cities, he added, due to the exceptional reputation of the Leon theatre chain.

In addition to the Texas and Rita in this city, Mr. Leon owns and operates the Palace in Graham, The Aztec in Albany, The Plaza in Baird, and The Rialto, in Crowell. Bookings for the entire group will be arranged by Mr. Potter, and the new manager stated that theatre patrons in these cities could rest assured that only the best releases would be contracted for showing in their theatres.

Gospel Meeting at Church of Christ Is Well Attended

The annual meeting conducted by the local congregation of churches of Christ is enjoying splendid attendance. Neither enthusiasm in the election nor the bountiful rains prevented a great increase in attendance. From night to night since the rain held up the attendance has increased, with the largest yet on Wednesday night.

Mr. McClung, the evangelist of Fort Worth, held a splendid attention while he pictured the horrors of hell and the glories of heaven. He urged that every individual must go to one of these two places and that death was all that kept the sinner out of hell. In all his sermons he impresses his audience with his own simple faith and full assurance in the all-sufficiency of God's word.

Services will continue through Lord's day. If you have not yet heard Mr. McClung church leaders take this opportunity to urge you to do so.

TWO NEW TESTS FOR SOUTH PART COUNTY DUE AT EARLY DATE

LATE JULY RAINS BOOST TOTAL PAST 30-YEAR AVERAGE

Moisture Will Assure Bumper Feed and Cotton Crop, Farmers Believe

Rainfall amounting to 2.03 inches recorded here Sunday and Monday boosted the year's total to a record mark of 23.78 inches—almost ten inches in excess of the annual average at this season of the year over a thirty year period.

Local records kept for the past thirty years indicate an average annual rainfall of 23.03 inches for this section. Average for the first seven months of the year—January through July—is placed at 13.88 inches.

Although this year's total is indicated as abnormal at no time have the rains been excessive enough to inflict crop damage, with the most serious threat presented during the past week when continued rainfall and cloudy weather caused some farmers to fear that it would cause leafworm infestation. Only a few instances have been reported, mainly in the Rochester section and in territory between Haskell and Rule, where several farmers contemplate precautionary measures in fields where leafworms have appeared.

Over the county as a whole, farmers have welcomed the additional moisture, and report both cotton and feed crops indicating a bumper yield. Ideal moisture condition has resulted in heavy fruiting of cotton and assured maturing of feed and sorghums, they report. Practically all feed crops will mature from moisture already received, and cotton will need only occasional rainfall during the next fifteen days to produce an excellent yield, in the opinion of most farmers.

Officers, Directors of Local Co-Op Gin Are Named

At a recent meeting of stockholders of the Haskell Cooperative Gin, officers and directors for the ensuing year were elected and plans considered for improving the plant in preparation for the coming ginning season.

With Roy Weaver as president and A. D. Adams vice-president, directors named were W. F. Wells, N. F. Foster, G. W. Turnbow, W. C. Norton, G. L. Walker, Ira Short and J. W. Wheeler.

The directors employed J. A. Bynum as manager of the gin plant, and A. C. Chamberlain secretary of the organization.

Complete repairs and all necessary new machinery will be added to place the modern plant in readiness for the season, officers announced following the meeting. The gin, one of the most modern in this section, enjoyed an excellent patronage last season, the annual report revealed, and a heavier run is in prospect for the coming season.

Officers and directors also issued a statement advising all farmers who shipped cotton to the old Texas Farm Bureau between the years 1923 and 1932 to be present at the gin office Saturday, July 30th at 2 p. m., when checks would be delivered covering partial payment of the one per cent reserve deducted when cotton was shipped.

R. R. (Rip) Davenport of Munday was a business visitor in Haskell Thursday. Mr. Davenport is district representative for the Southwestern Life Insurance Company.

Mrs. Tom Parks and daughters, Inez and Margaret, Miss Fannie Roberts and Ben Roberts returned from Littlefield Wednesday. They have been visiting in the home of a sister, Mr. and Mrs. Joe Speck.

Surface Pipe Set, Drilling To Start This Week On ITIO Test

Following a six-weeks period of inactivity, prospects for oil development in this section were brightened this week by the announcement of two new tests south of Haskell and the spudding in of the ITIO No. 1 T. P. Jones prospect 4,000 feet test northwest of Rule.

Verdict was also expected within the next week on a south out-post to the Pardue pool, the J. W. McMillin No. 2 A. E. Pardue, which is approaching the King sand horizon found in the discovery well. Operators were coring ahead Wednesday night at 2,025 feet to pick up markers. The well is located in the south half of the M. Collum Survey No. 4, 880 feet south of the discovery well. The well is projected to the Adams Branch horizon, in which heavy production has been found in a north offset to the discovery.

Machinery is due to be moved in this week for a well to be drilled on the R. L. Livengood farm, north of the Pardue pool, on a block of 188 acres lying in the Mary Criswell Survey and Block 1 of the H. & T. C. Survey. Operating agreement between the Texas & Pacific Coal and Oil Co. and F. A. Lain, who assembled the leases, has been filed in the office of County Clerk Jason Smith. The deal involved a cash consideration of \$10,000, Lain retaining one-half interest in all oil produced. Contract calls for drilling to the Palo Pinto lime.

Second wildcat contracted for the south part of the county is scheduled by Culberson Brothers of Big Spring on a block lying in the L. Dyches Survey No. 46, two miles east of the Pardue production. The block embraces a large portion of the Hughes Ranch.

Drilling will be under way this week-end on the ITIO test near Rule. Operators have spudded to 80 feet and cemented ten-inch surface pipe, in preparation for drilling to 4,000 feet for testing the Adams Branch and Palo Pinto limes. The wildcat is contracted by Taubert & McKee of Fort Worth. Location is in the Corryell county school land survey in a center of a 1,500 block assembled several months ago by the Oklahoma corporation after extensive surface exploration by seismograph.

In the southeast corner of the county the Fain-McGaha oil corporation and Kendrick No. 1 T. G. Hendrick, abandoned at 2,060 feet, will be plugged back to 2,600 feet where six-inch casing will be cemented to test an upper showing of oil which indicated commercial production at 2,896 feet. The well is located in Indianiana railway survey No. 104, on Hendrick's ranch properties.

Large Deal Reported Largest deal yet reported in connection with the discovery of commercial production in the Pardue pool was recorded this week, when J. W. McMillen et al assigned oil and gas leases on seven tracts containing approximately 500 acres in the vicinity of the pool to the Southern Associated Oil Company of Shreveport, La., for an indicated consideration of \$100,000. Tracts conveyed are in the original block assembled by Forest development corporation of Abilene, and transferred to McMillen on a "farm-out" agreement for drilling the original discovery well.

County Democratic Chairmen Retained By Vote Saturday

County Chairman H. Weisner and all precinct chairmen of the Democratic Executive Committee for Haskell county were re-elected last Saturday's balloting. Only in Precinct 3 was there a contest for the place of precinct chairman, with the names of Arthur Merchand and H. G. Hamner listed on the ballot. Merchand was re-elected with a total of 177 votes against 142 for Hamner.

Mr. and Mrs. H. S. Spurren and sons, Park and Philip of El Paso are visiting her mother, Mrs. J. M. Woodson and other relatives. Miss Ruth Woodson accompanied them home after a visit of four months in El Paso.

Casa Manana Will Open In Ft. Worth Friday July 29th

FORT WORTH, Texas, July 29. Full speed ahead for all plans connected with the pretentious opening of MCA's extravagant 1938 edition of Fort Worth's world famous Casa Manana has been ordered by those in charge of arrangements, and no pains will be spared to make the forthcoming production surpass all others in previous years. Wayne King and his Orchestra, easily the most famous dance band in United States, Morton Downey, famed stage, screen and radio star, eight acts of scintillating entertainment, plus a multitude of gorgeous Texas girls and a raft of other worthwhile features, will be presented on the gala opening bill, starting July 29, and the same high standard of big time entertainment will be observed in subsequent programs, all of which are divided and designed to offer five hours of real enjoyment for the one price.

Arrival Thursday of Paul Osgood, internationally famous stage producer, who will supervise the dance routines and stage presentations, speeded up preliminary arrangements, which were launched by Lauretta Jefferson, noted ballet mistress, who has been in charge of this phase of the program in previous Casa Manana shows, and who had everything in readiness for Osgood to take over immediately on his arrival. Osgood is regarded as one of the outstanding revue and presentation directors on the North American continent, and his engagement is additional proof that MCA intends to live up to its promise of a grander, bigger, better and finer Casa Manana than ever before. Osgood and Miss Jefferson this week will complete the selection of all girls in the show, and full time rehearsals in the City Auditorium are now in progress. Spectacular costumes, all designed to please the eye as well as enhance the figure of the wearer, are now being completed in New York, and will be rushed here in ample time for final fittings and dress rehearsals. Osgood viewed some of the proposed arrangements prior to boarding a plane in New York and stated that he was satisfied they would top anything ever seen in Texas. "They would have to be excellent to form a background for such lovely girls as I have seen here, and I am quite in accord with what New York now knows as a fact, and that is that Texas has the most beautiful girls in the world," he commented.

Artisans are completing the work of redecorating the giant Casa Manana stage, and bringing all features of this tremendous outdoor theatre to a point of perfection so that nothing will delay the formal opening on July 29. Tom Daly, in charge of the concessions, and who will also stage a melange of mirth and melody in the Pioneer Palace every night, promises that intending patrons will not lack for anything. "This is going to be a whale of a show, from every angle, and we'll all be ready for Mr. and Mrs. Texas when July 29 rolls around," declared Daly, who personally is supervising the completion of his plans for his department.

In addition to the Wayne King orchestra, and the supporting entertainment, MCA announced that another noted band, under the direction of a famous leader, will alternate with the King organization. "There'll be plenty of music for

Casa Manana Star

Presenting one of the principal reasons why Casa Manana, Fort Worth's world famous open air cafe-theatre, opening its third annual season on Friday night, July 29 will prove enjoyable to attending patrons. Petite Edna Sedgwick, world's fastest tap and toe dancer, who has one of the feature spots on the opening program.

Texas Sheep Show Awards Are Made At San Angelo

George Williams of Eldorado and J. W. Owens of Ozona Tuesday captured first place in the two initial Rambouillet ram classes at the Texas Sheep Show and Sale at San Angelo.

Williams was first in the aged ram class with a 287-pound animal and Owens topped the ranks of the yearling rams. The champion ram will be decided between the two by W. H. Dameron of ranch experiment station, Sonora, judge of Rambouillets.

Delaines and ewes and pens of five Rambouillets were judged this afternoon.

L. F. Hodges of Sterling City had both second and third places winners in the aged ram class; Victor Pierce of Ozona was fourth; W. S. Jensen of Collingston, Utah, was fifth; Williams was sixth and D. T. Jones & Son of San Angelo was seventh.

T. L. Drisdale of June, Texas, was second and third in the young ram class; Hiram Price of Millersview was fourth and sixth and Owens was fifth.

Animals to be sold in the auction tomorrow and Thursday today numbered 536, including 478 Rambouillets and 60 Delaines.

On about two-thirds of the earth's surface snow never falls.

The quicker death is the gallows. It is a fraction of a second quicker than the electric chair.

Operation of the electric sign over the New York Times building costs \$10,000 per month.

Brooklyn's first night baseball game played recently drew a crowd of 38,748 people the largest crowd ever to watch a night game of a major league.

those who wish to dine, dance or just sit and listen, and we are going to go the absolute limit in securing attractions that will not only live up to the traditions established by Casa Manana but will set new high standards in the entertainment world here," declared Lew Wasserman, MCA representative from New York, who is in charge of all arrangements for the 1938 production. Hogan Hancock, MCA Texas representative, who has labored long for the production, Bill Green, crack publicity man from Chicago, together with an augmented group of local advertising and publicity experts, are working morning, noon and night perfecting all arrangements, not only for the opening, but for the duration of the show. Special nights probably will be during the time between now and the formal opening. Most of the railroads are planning special rates to and from Fort Worth from all points of the Southwest during the engagement of Casa Manana, and there will be many delegations from most of the principal cities in this territory, anxious to see for themselves what MCA proclaims the finest Casa Manana production of them all.

120,000 SPIES ROAM NATION, WRITERS CHARGE

THE tombstones of millions of men of war are the heritage of the modern spy.

When war rages, if he is successful, men die because of the information he has sold their enemy. If he is unsuccessful men die because he failed to provide ranking army officers with the plans and information they so desperately needed.

Never in the history of the world has espionage reached the height it enjoys today.

There are 120,000 foreign spies working in America as you read this.

In the August issue of Cosmopolitan Magazine, for the first time, are the real facts of the underground attack being made upon the United States.

A retired Marine Corps officer, U. S. Navy Lieutenant, Donald E. J. S. Farnsworth, Keyhoe, and John Jay Daly, formerly with the military intelligence division, have completed an investigation of spies covering several months.

On a night in 1937, Federal agents discovered and raided a secret Japanese radio station high in the Wasatch Mountains, a short distance from Salt Lake City, and three Japanese operators were apprehended at the well hidden base.

But not one arrest was made! In Berlin three heads would have rolled.

In Russia a firing squad would have prepared for three quick volleys. In Japan itself, and in a dozen other countries, death or long prison terms would have resulted.

"The amazing leniency of our laws together with our recent 'hush-hush' policy of espionage, explains the vast armies of foreign-controlled agents which have overrun the United States and its territories," say the writers of "Web Over Washington" in August Cosmopolitan.

"There are more than 120,000 spies in the United States alone according to a high Washington authority and this figure includes agents of several nations, which are bitterly hostile to each other," the authors charge.

"At the center of these webs are such varied groups as agents of the OGPU and the Cheka, Nazi storm-troopers with Gestapo connections, spies linked with the Kimitsu Kyoku, 'observers' of an unofficial system extending to Rome, and agents of other nations. Under the master strategists are thousands of organizers, propagandists, informers, 'message

boxes' and potential saboteurs," they write.

"To fight this horde America has only a skeleton force," Keyhoe and Daly maintain. "Foreign spies and their sub-agents are outnumbered by counter-espionage by at least twenty to one."

"Known foreign agents are allowed to work in the United States undisturbed principally because our counter-espionage allotments would not finance a third rate WPA project."

"There is a second reason, our peace-time rule," the writers say. "Watch known spies and learn their contacts. With skeleton organizations, our intelligence men would rather spot agents than arrest them—and have to search for inevitable replacements. A number are under surveillance—certain files at the War, Navy and Justice departments would dismay spies of various countries. But our few agents cannot keep track of the ever-increasing thousands."

In their sensational article the writers of "Web Over Washington" point out:

"Washington is popular with spies—it is notoriously prodigal with information for which they would risk their lives abroad. For a small sum, copies of Committee hearings may be had, giving valuable data on our army, navy, air services and defense plans."

The problem is simple when diplomatic immunity is used as a cloak. Some time ago, an intelligence officer observed a furtive meeting between a traitor-suspect and two attaches of an Asiatic power. He followed, and a wild automobile chase developed. But by the time he caught up with the other machine, the traitor had escaped and the attaches were entering the grounds of their Embassy. By international agreement, all Embassy grounds are "foreign soil" and immune from search. So the officer was helpless, though positive that precious navy documents were within a few yards of him.

Violation of privileges is far from the rule, but when an Embassy does overstep, it has every advantage. Sealed Embassy pouches, though suspected of containing stolen secrets, are inviolate.

But the greatest peril from these spy armies is that of sabotage, huge scale destruction of factories, transportation and communication in the event of war.

It is time to destroy these webs—before it is too late!

\$655,000,000 worth of approved projects would be left over after the present appropriation was exhausted.

Politicians speculated that the next Congress would receive demands for more funds to take care of the communities which would not get all they wanted under the present program.

Such a development would revive the dispute that raged in the last session between advocates of economy and continued Government spending. It doubtless would call forth arguments on the one hand that more outlays for public works would mean ruinous debt, and on the other that a sudden stoppage of public construction should be avoided lest it bring on another depression.

The National Resources Committee, whose function is to study the long-term economic problems of the nation and to advise the President in regard to them, may take an interest in the situation if it develops.

Scores of addition applications are awaiting PWA action, and more are pouring in every day. Some well-informed persons expressed the opinion that, if the applications continued at the present rate until Sept. 30, the final day for filing them, approximately

To the Voters of Haskell County:

I wish to thank my friends for their support during the past six years, and to extend congratulations to my opponent on his splendid victory.

Byron G. Wright
County Treasurer

Largest Food Store Planned At State Fair

Texas food industries have combined to show the largest food store ever assembled in Texas or the Southwest, as a feature of the Golden Jubilee celebration of the State Fair of Texas, it was announced Saturday by Otto Herold, president of the fair. Mr. Herold announced the appointment of Granville W. Moore, prominent in bakery and food circles of Texas for many years, as chairman of the executive committee which will have charge of this display.

The food show will be held in the building to the right of the Esplanade, which has been designed by George Dahl, local architect, who has gained wide recognition in retail merchandising design. The plans call for one huge store, which will display the products instead of the products being exhibited in separate booths. There will be no way to tell how much space one manufacturer has purchased, and the plan will enable the small manufacturer to display his wares as proudly as the largest of the exhibitors.

The educational features to be provided for the retail grocer and his staff will include modern displays and effective selling methods, including the serving of customers. An auditorium within the building will house a daily program of salesmanship, showmanship on foods, visual education, menu contests, cooking schools, domestic science classes from all high schools of the state, demonstrations and special meetings of retail grocers with the sales staff of the exhibitors.

A statewide executive committee has been named by Chairman Moore, and includes members from Dallas, San Antonio, Houston, Denison, Sherman, Tyler, Fort Worth, Austin, Amarillo, Cuero, San Angelo, Sugarland, Corpus Christi, Waco, Abilene and Harlingen. As soon as all appointments have been accepted Mr. Moore will announce personnel of the committee which will include leaders in every phase of the food industry in Texas.

The problem is simple when diplomatic immunity is used as a cloak. Some time ago, an intelligence officer observed a furtive meeting between a traitor-suspect and two attaches of an Asiatic power. He followed, and a wild automobile chase developed. But by the time he caught up with the other machine, the traitor had escaped and the attaches were entering the grounds of their Embassy. By international agreement, all Embassy grounds are "foreign soil" and immune from search. So the officer was helpless, though positive that precious navy documents were within a few yards of him.

Violation of privileges is far from the rule, but when an Embassy does overstep, it has every advantage. Sealed Embassy pouches, though suspected of containing stolen secrets, are inviolate.

But the greatest peril from these spy armies is that of sabotage, huge scale destruction of factories, transportation and communication in the event of war.

It is time to destroy these webs—before it is too late!

\$655,000,000 worth of approved projects would be left over after the present appropriation was exhausted.

Politicians speculated that the next Congress would receive demands for more funds to take care of the communities which would not get all they wanted under the present program.

Such a development would revive the dispute that raged in the last session between advocates of economy and continued Government spending. It doubtless would call forth arguments on the one hand that more outlays for public works would mean ruinous debt, and on the other that a sudden stoppage of public construction should be avoided lest it bring on another depression.

The National Resources Committee, whose function is to study the long-term economic problems of the nation and to advise the President in regard to them, may take an interest in the situation if it develops.

Scores of addition applications are awaiting PWA action, and more are pouring in every day. Some well-informed persons expressed the opinion that, if the applications continued at the present rate until Sept. 30, the final day for filing them, approximately

count number, which is used to workers covered by the old - age insurance program, is also used for unemployment insurance.

The specific gravity of the Great Salt Lake is so great that a swimmer sinks in it, therefore, drown in this lake.

To the Voters of Haskell County:

I want to take this means of telling the people of Haskell county for generous support given my candidacy for a second term as Justice of the Peace Precinct No. 1.

I appreciate the expression of confidence more than anything I know and it is also a pleasure to know you have afforded me the opportunity to continue my campaign for the office in the second primary

I wish to ask each and every one of you for your influence and support during this second campaign and your vote at the next election. It was impossible for me to see each voter for the primary is held, so please consider this as a sincere personal solicitation for your help.

"We pledge ourselves faithfully to observe the provisions of this Code of Practice . . . convinced that Beer is the Nation's Bulwark of Moderation."

Wide-spread Praise follows adoption of Code of Practice by members of Brewers Foundation

THE PUBLIC'S response to the adoption of a Code of Practice by the members of the Brewers Foundation was prompt and favorable.

Newspapers, social service groups and thousands of individuals expressed great satisfaction with the brewers' determination to conduct their business in accord with the desires and conscience of the American public.

The Code pledges the brewers publicly to "support the duly constituted authorities in the elimination of anti-social conditions wherever they may surround the sale of beer to the consumer."

How far we can go, and how soon, depends very much on ourselves. . . but partly also on you.

Public opinion once aroused, can operate to bring about honest enforcement of existing laws. Restriction of your patronage only to legal, respectable retail outlets can and will operate to raise retailing standards.

Public preference for the products of Foundation members, identified by the symbol reproduced below, will bear witness of your approval both to members and to cooperating retailers, and will encourage them to renewed efforts.

UNITED BREWERS INDUSTRIAL FOUNDATION 21 East 40th Street, New York, N. Y.

Correspondence is invited from groups and individuals everywhere who are interested in the brewing industry and its social responsibilities.

Look for this symbol in members' own advertising.

Humble men and women are scattered through the length and breadth of Texas, for in its various activities of producing, refining and marketing Texas oil the Humble Company furnishes jobs for some 14,000 Texans.

These folks are not strangers in the communities to which their varied jobs carry them; they're homefolks. They take their part in the community's life. They're interested in the schools, churches, the civic organizations. They're your neighbors—live next door, across the street, in the next block.

The Humble Company is proud of these men and women who count them as its greatest asset, hopes that through them, their neighbors, you look on Humble as a neighbor, too—a neighbor warmly interested in the upbuilding of a common community. For the Humble Company is Texan, too, and very proud of it.

boys because they are willing to be told and realize their responsibilities while driving," he said. "Boys resent being told of their unsafe driving practices."

The newest and biggest telescope is so powerful that individual could—if the earth were flat—read a sign in New York from San Francisco.

Report Shows State Bank Deposits Grow

Continued increase in deposits in State banks and an exceedingly liquid condition were reported by Zeta Gossett, Banking Commissioner, in a statement of conditions June 30.

Total deposits amounted to \$167,233,376, an increase of \$2,406,606 over the call at the end of June, 1937. Individual deposits declined \$835,474 to \$132,410,914 and trust deposits \$93,567 to \$336,592, but deposits of State and other public funds rose \$1,360,517 to \$8,570,258 and time certificates of deposits jumped \$2,321,589 to \$15,933,887.

Loans and discounts aggregated \$79,274,110, an increase of \$5,808,336 over a year ago. Loans and discounts on personal or collateral security rose \$6,305,722 to \$69,657,339, while those secured by real estate declined \$365,828 to \$7,189,765.

The surplus accounts of all banks aggregated \$6,396,998, an increase of \$852,816 over a year ago.

The total of bonds and securities plus cash on hand exceeded \$114,000,000, against a total deposit liability of \$167,000,000, which, Gossett said, reflects an exceedingly liquid condition.

Miss Marjorie Whiteaker of Big Spring, spent the week-end with her parents, Mr. and Mrs. B. M. Whiteaker, and had as her guests, Miss Laura Belle Underwood, of Big Spring and Miss Catherine Cannon of Abilene.

Texas To Show "White Banners"

Jackie Cooper as the son and Fay Bainter as the Mother, in "White Banners."

The Texas Theatre will have as its feature attraction on Wednesday and Thursday, August 3-4, "White Banners," based on the best selling novel by Lloyd C. Douglas, who also authored these popular successes, "Magnificent Obsession" and "Green Light."

"White Banners" is a picture with universal appeal. Laid in the 1920's it tells the story of a typical small-town family, discouraged by depression. How they weather this and get a new start in life is a thrilling story that will go straight to the hearts of America.

Fay Bainter, noted stage actress, whose recent work in "Jezebel" was so highly acclaimed, has the central feminine role. Claude Rains has the principal male lead, and Kay Johnson, Bonita Granville, Jackie Cooper round out the cast of principals, with James Stephenson, Henry O'Neill, John Ridgely and J. Farrell McDonald in supporting roles. Edmund Goulding directed.

Millions Found Needed To Bring U. S. Maps To Date

Existing maps of the western United States require \$11,000,000 in field work to bring them up to date, Dr. William Bowie, formerly chief of the Division of Geodesy, U. S. Coast and Geodetic Survey, told the American Society of Civil Engineers at its sixty-eighth annual convention in Salt Lake City.

The United States is the most inadequately mapped of all the so-called progressive countries in the world, Dr. Bowie said. He pointed out that while 48 per cent of our country is topographically mapped, actually not more than 15 per cent of its area is adequately mapped—because most of our maps are old and all are on too small a scale to meet present needs.

As an indication of the great need for adequate maps, Dr. Bowie listed the following public works which would find them of great aid: Highway location, construction and maintenance, control and prevention of floods in rivers and streams, irrigation projects; hydro-electric power development; water supply projects for cities, towns and villages; sewage disposal systems; pipelines for carrying oil and gas; aqueducts; electric power lines; telegraph and telephone lines; engineering developments planned in national parks, state parks and forest areas.

"Vast amounts of money are spent annually on the public works enumerated above," said Dr. Bowie "and yet they are carried on in most instances without a knowledge of the physical facts of the earth's surface, that can be shown on a modern topographic map. The waste involved is enormous and it is inexcusable."

Ralph Bernard of Abilene spent the week end with his parents Mr. and Mrs. J. E. Bernard.

Cotton Stalks Seen As Money Crop For South

CHAPEL HILL, N. C.—A new plan to take the backbone out of the cotton field—and put back more money into the cotton farmer's jeans—is being worked out here by Dr. Frank K. Cameron, a University of Carolina chemist.

When the Rust brothers tried the same thing with a mechanical cotton picker, they made a national sensation.

Instead of using a picker, Dr. Cameron would cut down the cotton plant and harvest it stalk and all. And instead of selling the cotton staple in the usual way, he would utilize the whole plant. From it he would extract cellulose for the rayon and plastic industries.

With this system, he figures, the farmer might make \$10 to \$15 an acre, net, against \$10 or less under the old.

Dr. Cameron says his method of growing and utilizing cotton will never supplant the conventional system entirely. But if he put to wide use it would eliminate over-production of lint cotton, raise cotton prices and put the cotton business on a more profitable basis.

His calculations are based on current prices. If cellulose prices dropped and lint prices soared, that would be another story.

Dr. Cameron has been at his experiments for eight years. At first he and associates financed the experiments largely from their own funds. Recently their work attracted enough attention for the Cotton Research Foundation of Memphis to arrange a fellowship.

Under the Cameron system, backaches would cease long before the harvest started.

Instead of planting the cotton widely spaced, then thinning and cultivating it laboriously, the cotton farmer would plant it in close rows, with more plants in the rows, crowding the plant to force early maturity.

Then, with a machine like one already built, he would cut the cotton plant, bale it in 150-pound bales, and haul it to a cellulose processing plant. There the cotton seed oil would be extracted by a new chemical process, the proteins extracted by alkalis and from the residue of stalks, bolls and lint cellulose recovered for manufacturing things like rayon, high-grade paper, auto door handles, viscose sponges, soda straws, book bindings, jewelry and ornamental braid.

The cotton harvesting machine unlike the cotton picker, was fairly easy to construct. A large implement concern with generations of experience in building grain harvesters, soon built a cotton harvester for Dr. Cameron. He quotes the company (John Deere) as estimating the per acre harvesting cost at 20 cents in large scale operations. The harvester would sell for about \$1,500. It might be owned cooperatively.

Dr. Cameron's own work has been in the research laboratory developing practical processing methods and checking up on uses for products derived from the whole cotton plant.

Now he feels that things are far enough along for some industrial firm to build an experimental plant.

"We can produce as much pulp per acre as the growers of wood cellulose," he says.

University of Texas Has Rare Exhibit of Wesley Literature

AUSTIN — Founding of the Methodist Church 200 years ago has been commemorated by The University of Texas in an exhibit of Wesley literature in its rare book collection. A surprisingly large number of first editions of the four Wesleys—Samuel the elder, born in 1662, and his three sons, Samuel the younger, John and Charles—are found in the collection.

Displayed are two editions of Samuel the elder's long heroic poem, "Life of Christ," and also two editions of Samuel the younger's collected "Poems."

John, born in 1703, and Charles, born in 1707, were both Oxford graduates, as were their father and elder brother. They were closely associated through life. John was an Oxford fellow and tutor; as preacher at St. Mary's his power is comparable with that of Cardinal Newman a century later. He had several deep and strong emotional-religious experiences; that of the day and night of May 24, 1738, was outstanding and has come by common consent, to be called his "Conversion," and was followed by the widespread founding of the "societies" of the "People called Methodists." He preached an astonishingly large number of sermons, yet found time to do an astonishingly large amount of writing. Charles was prominently the hymns writer. The books of John and Charles are grouped together; they make almost all of this exhibit.

The material displayed belongs to the Wesley Bible Choir, Methodist religious education center at the University, and has been placed indefinitely on deposit in the University rare book vaults.

Although no information is available at the University as to how this collection compares with other Wesley collections, particularly those in England, it is distinguished by the presence of almost a score of first editions, dat-

ing from 1740 to 1745. The earliest first edition is the second volume of "Hymns and Sacred Poems" by the Rev. Mr. John and Charles Wesley, in which on page 67 appears the first printing of the famous church song, "Jesus Lover of My Soul."

One of the first editions is a little pamphlet presenting John Wesley's "Thoughts on Marriage and Single Life," published in 1743.

A number of pamphlets were published by John Wesley in refutation of criticisms leveled at his teachings: "An Answer to the Rev. Mr. Church's Remarks on the Rev. John Wesley's Journal" published in 1745, was such a controversial publication.

Rail Movement of Wheat Sets Record

Railroad movement of the winter wheat crop is setting new records, the Association of American Railroads reported from Washington.

"The movement of winter wheat from Kansas, Oklahoma and Texas as now has passed the peak," the association said. Large shipments are moving from northern Missouri, Nebraska, Iowa, Illinois, Indiana and Ohio.

The association said winter wheat receipts at Kansas City in the week ended July 8 totaled 9,714 cars. The previous record, established last year, was 9,009 cars. Over the July 4 holiday, 3,605 cars of grain were received at Kansas City, the highest number for any corresponding period in record.

The following week 8,943 carloads of grain were received and 8,803 were unloaded—the highest number to be unloaded there in any similar period.

In the week ended July 8, more than 32,000,000 bushels of winter wheat were received at Kansas City, Wichita, Salina and Hutchinson, Kans., Enid, Okla., and Fort Worth, Tex.

During that week 2,581 cars of

wheat were received at Fort Worth, 2,070 at Wichita, 1,500 at Salina and 1,643 at Enid.

"Character" Girls Are Preferred Niagara Falls.—Niagara University men look for character in a girl before anything else. In a questionnaire, 48 per cent of the collegians listed "character" as the most desired quality in a girl. Honor, sportsmanship, manners and cooking ability were among 45 other qualities selected by the students.

To The Citizens of Haskell County:

I wish to express my appreciation to the people of Haskell County for the vote of confidence given me in Saturday's election. I also want to thank all my friends for any assistance given me during this campaign. I appreciate the clean campaign conducted by my opponents and their friends—we are all friends, and I hope that we may all cooperate together, which will help me to make Haskell county a good sheriff.

Mr. Giles Kemp, our present sheriff, has advised me that he will not be in the run-off during August. He has also given me his assurance of his help and cooperation in helping me make Haskell County a good sheriff.—For this word of encouragement I wish to thank you, Giles.

Olen Dotson

To My Good Friends and Voters of Haskell County:

I want to express my sincere appreciation for your loyal support in the primary on last Saturday. I am deeply appreciative for the nice majority given me by my home county, and I hold no ill will toward any one who for personal reasons did not support me. I pledge each of you I will represent our State, and my district to the best of my ability and without discrimination or partiality to any one or any section.

I earnestly solicit the cooperation of every voter in the district, and I pledge my cooperation to our State Administration, and I will do everything in my power to make it a constructive and successful administration. Believe me sincerely appreciative and your friend.

SOCIETY

"Where I Keep My Cakes" Subject of Marcy Club Meeting

"Where I Keep My Cakes" was the roll call of the Marcy H. D. club members when it met in the home of Mrs. Ivan Moore Tuesday July 19th.

The pressure cooker is the best place I have found for keeping my cakes moist and fresh says Mrs. Dalton Hindsley.

Mrs. Odell Cox gave a very interesting report from short course. Mrs. Horace Pointer was elected council delegate.

The two new members added to the Marcy list were Mmes. Edd

Flourney and Bobby Steel. One visitor was present, Mrs. Gerald Harris.

The club adjourned when Mrs. Earl Blair gave a ten minute recreation period.

The following members were present: Mmes. Ivan Moore, Dalton Hindsley, Earl Blair, Ila Costephens, Helen Cox, Chalmas Harris, Edgar Wheeler and Sallie Fields.

The next meeting will be in the home of Mrs. P. P. Martin Tuesday July 26 at which time Miss Vaughan will give a demonstration on baking an angel food cake.

Reporter

Miss Maree Rhoads and Mr. Tom Chatwell Are Wed

A wedding that came as a surprise to their many friends was that of Miss Maree Rhoads and Mr. Tom Chatwell. The single ring ceremony was performed Saturday morning at eleven o'clock in the home of the Rev. O. S. Melver of this city. The bride was dressed in a navy sheer with navy accessories. Attendants of the couple were Miss Addie Lee Hayes and Tom Sifton of Rule.

Mrs. Chatwell is the attractive daughter of Mr. and Mrs. T. A. Rhoads and graduated from Haskell High School with the class of '37. The groom is the son of Mr. and Mrs. E. I. Chatwell of Wellert.

After a short wedding trip to Pampa, Texas, the young couple will be at home in Haskell.

Sunshine Club Meets In Home of Mrs. Ike Simpson

The Sunshine Club met in the home of Mrs. Ike Simpson July 20. Two quilts were completed for Miss Sue Guffey. Iced pop was served to members: Mesdames A. M. Allen, J. W. Brock, Pete Edge, J. E. Epley, T. A. Holcomb, Abb Hutchens, Harry Henderson, Floyd Kelley, Carrol Masterson, Gene Scoggins, Presley Sherley, Lillie Webb, Misses Evelyn Holcomb, Virginia Hutchens, Laverne Simpson.

We will meet in the home of Mrs. Harry Henderson July 27. Bring blocks for Mrs. Ivy, Ozella and Mrs. Kelley.

Mrs. J. T. Jackson Hostess To Rainbow Sewing Club

Mrs. J. T. Jackson was hostess to the Rainbow Sewing Club on Tuesday afternoon July 19th in the home of Mrs. Jesse Josselot.

After the business session 15 minutes was given for recreation. A birthday shower was given to Mrs. J. T. Jackson.

The Rainbow Sewing Club will meet in the home of Mrs. Taylor Alvis August 2nd.

An ice course was served to the following ladies: Mesdames Tom Stewart, Walter Rogers, Richard

Massey, Harold Kirkpatrick, W. E. Adkins, Lester Fore, G. C. Irvin, Jesse Josselot, Doyle Andrews. Visitors Mrs. Griffin, Mrs. Tom Goodman, Mrs. W. R. Cargle, Roseburg, Texas, Miss Clara Lee McGee, Temple, Texas and the hostess.

Rainbow Sewing Club Entertains Sunshine Sewing Club Thursday

The Rainbow Sewing Club entertained the Sunshine Sewing Club Thursday afternoon in the city park at 7:30 July 21st with a watermelon feast. Various games were played and enjoyed very much.

Those present were: Mesdames Jim Tyler, Virgle Brown, D. A. Jones, Jack Johnson, Walter Thomas, Jesse Barton, Richard Massey, Walter Rogers, G. C. Irvin, Jesse Josselot, W. E. Adkins, T. J. Jackson.

Visitors: Mrs. Tobe Griffin, Mrs. Tom Goodwin, Miss Wheeler, Mrs. W. R. Cargle, Roseburg, Texas and Miss Clara Lee McGee, Temple, Texas.

House Guests Are Honored With Several Parties This Week

House guests of Mrs. Jack Bradford and Miss Madge Leon have been honored with several parties this week. Wednesday night Mrs. Server Leon entertained with a buffet supper and theatre party. Guests were: Misses Louise Pierson, Gene Williams of Munday; Mildred Hill and Tommy Joe Milstead of Rule; Messrs. T. J. Watson, Hugh Lowe, Jack Simmons, Gene Rogers and Lynn Pace Jr.

Mrs. Jack Bradford entertained with a slumber party for her guests Misses Tommy Joe Milstead and Mildred Hill of Rule Wednesday night. Those enjoying the affair were: Misses Gene Williams of Munday, Madge Leon, Louise Pierson and the honorees.

Tuesday afternoon Mrs. Server Leon honored her daughters house guest, Miss Jean Williams of Munday, with an afternoon party. Guests enjoying games were: Misses Christene Lowe, Mary Louise Holland, Francis Merle Edwards, Laverne Bynum, Madge Leon and the honoree.

New Mid Club Will Hold Meeting August 3

The New Mid Home Demonstration Club will meet with Mrs. Floyd Hutchens Wednesday August 3rd, at which time our county agent, Miss Vaughan, is to give a demonstration on "Baking Cookies and Muffins".

Reporter.

Mrs. Kate Morris Honored With Eighty-Four Party

Honoring Mrs. Kate Morris of Spur, Mrs. Sam Chapman entertained with an eighty-four party Tuesday night. Roses and lantanas made the entertaining rooms more attractive. An ice course was served to: Mmes. T. J. Arbuckle, R. L. Lemmon, R. C. Montgomery, Ada Rike, W. A. Kimbrough, F. L. Daugherty, J. R. Cooper, R. E. Sherrill, J. W. Martin, Elizabeth Marvin, Ollie Freeman, John Ellis, Alvy Couch, Paul Frierson and the honoree.

Mrs. French Robertson Entertains Members of Bridge Party

In her home decorated with zinnias and lantanas, Mrs. French Robertson entertained members of her bridge club and guests Tuesday. At the conclusion of the games, Mrs. Hill Oates and Mrs. Bert Welsh were winners of high prizes. A salad course was served to: Mmes. Ben Charlie Chapman, T. W. Williams, Clay Smith, Bert Welsh, Walter Murchison, Ralph Duncan, E. G. Post of Albany, A. S. Bradford, Ernest Kimbrough, Theron Cahill, A. E. McMillin, Hill Oates and Carrie Williams. Mrs. Clay Smith will be hostess next Tuesday.

Mr. and Mrs. W. T. Sarrels of Rule visited in Haskell Wednesday.

Miss Ruth Volke of Sealy, Texas is visiting her sister Mrs. G. R. Shumann.

Miss Madge Leon has as her house guest this week Miss Jean Williams of Munday.

Mrs. Gordon Phillips left Wednesday afternoon for Olney, where she will visit for a week.

Mr. and Mrs. John E. Robertson and children have returned from a visit in Portales, New Mexico.

Mrs. Charles E. Smith and children who have been visiting relatives in Waco have returned home.

Dr. and Mrs. Gordon Phillips, were in Ft. Worth this past week end visiting a patient, and in Waco visiting Dr. Phillips parents, Mr. and Mrs. T. B. Phillips.

J. M. Mullins is in the Stamford Sanitarium where he underwent a sinus operation Tuesday.

Mr. and Mrs. J. S. Allen of McCamey were visitors in Haskell the first of the week.

Mrs. Richard Sherrill and son left for Dallas Monday for a visit with relatives and friends.

Miss Lena Belle Kemp and Mr. Ralls English are visiting Mr. and Mrs. Eugene English in Plainview.

Mrs. John E. Robertson and Barton Welsh of Houston returned to their home Monday after a visit with relatives.

Miss Marjorie Whitaker of Big Spring spent the week end with her parents, Mr. and Mrs. B. M. Whitaker.

Miss Madalin Hunt is visiting relatives in Fort Worth and Dallas. She was accompanied by Miss Josephine Parrish.

Misses Tommy Joe Milstead and Mildred Hill of Rule are visiting Mrs. Jack Bradford and Miss Madge Leon.

Mrs. Gordon Phillips has returned to her home after a visit with relatives in Waco and Fort Worth.

Mr. and Mrs. Matt Graham and daughter, Caroline and Mrs. Charles Frost and children spent Sunday in Eastland.

Mrs. R. O. Pearson has returned to her home from Sweetwater where she underwent a major operation in the hospital there.

Little Miss Elsa Lou Mickle, daughter of Mr. and Mrs. Jack Mickle has been ill for several days but is reported improving.

Mrs. R. J. Paxton and daughter, Miss Hattie Lucille left Tuesday for Hawley to visit in the home of Mr. and Mrs. Virgil Lewis for a few days.

Mr. and Mrs. William Kimbrough and daughter have returned to their home in Sierra Blanca after a visit with his mother, Mrs. W. A. Kimbrough.

Family Reunion In Oliphant Home Sunday

Mr. and Mrs. B. F. Oliphant had the pleasure of having all their children present for a Family Reunion at their home in this city Sunday, July 24th. All of their children reside here with the exception of Mrs. Bennie Ammons of Pampa and Mrs. Maggie Northcutt of Refugio, Texas. Thirty-five immediate members of the family were present for the occasion.

Editor Walter Gorman of Knox County Herald was in Haskell Tuesday. Miss Lucy P. Pool from Canyon, where she is the summer session of State Teachers College.

To The Voters of Haskell County

It was not possible for me to make a house-to-house campaign to solicit your vote, but I want to take this opportunity to thank those who helped in my election as County Superintendent. I promise all of you the same that I have given the last four years.

Sincerely,

Matt Graham

To The Voters of Precinct No. 2

I wish to take this means of expressing to the voters of Precinct No. 2 my sincere thanks for the splendid support that I received in my race for Commissioner which gave me a substantial lead over my nearest opponent in the First Primary.

With kindest thanks and asking for your further and continued support in the run-off primary, I am,

Sincerely,

I. A. LEONARD

CLOVER FARM STORES

Brief News Items From Weinert

Those visiting in the home of Mr. and Mrs. R. L. Newberry the past week, were: three of Mrs. Newberry's brothers, Mr. G. T. Kelley and wife of Kansas City, Mo.; Mr. and Mrs. J. R. Kelley and family of Anson; Mr. and Mrs. Jack Kelley and family of Eunice, New Mexico.

Also a brother-in-law and nephew, Mr. Otto Minnix and son, of Meadows, Texas.

Mrs. M. A. Bumpas and two daughters of Knox City were visiting in the Newberry home Sunday afternoon.

Mr. and Mrs. Homer Stephens are the proud parents of a little son, (Malcolm Odessa) who was born Tuesday, July 26.

Miss LaVerne Burges was a business visitor in Stamford Monday.

Mrs. Sylvia Maxwell spent Sunday visiting friends.

Mrs. Pitzer Baker of Munday was transacting business in Weinert Tuesday.

The Boy Scouts were marooned at their camp at Menard last week, with high water and had to be rescued. Some of them contracted

colds and all were muddy and tired. All came in except J. F. Cadenhead, who remained for a longer stay. Dr. Cadenhead went to see him Sunday.

Mr. Irvin Bailey has bought the Fred Derr house and will move it to his lots, the old Robertson plot, now known as the Leonard Sadler lots.

The good rains which fell Saturday and Sunday did the cotton untold good, and the farmers are rejoicing.

Mr. J. C. Davis is still circulating among his Weinert friends and was in town Tuesday.

Mr. and Mrs. Richard Weinert and Mrs. H. Weinert have returned from a very pleasant visit to points in South Texas. To say that the main attraction was any one feature would not be correct, as there were so much to see, in San Antonio, New Braunfels, Austin, and Seguin and San Marcos—and a four-days visit in the home of ex-senator F. C. Weinert was really a treat.

"It rained a hard steady down pour on them from Santa Anna to Fredericksburg, on the trip

down and from San Marcos to Ft. Worth on the return trip.

Mr. Ed Slaughter, who is with the Willard Battery Company, with headquarters in Abilene, visited in Weinert Friday.

Messrs Tom Davis and John Oats of Haskell were in Weinert Thursday of last week.

Mrs. J. W. Medley had as her guests Friday Mesdames Rogers and Harden, (grandmother) Harden of Haskell, also her nephew, wife and baby, Mr. and Mrs. Bronce Edwards of Oklahoma.

Mrs. Aubrey Smith and children of Munday were in Weinert Monday.

Mr. and Mrs. Raymond Simms and children of Snyder were guests of Mr. and Mrs. G. C. Newson Monday. Mr. and Mrs. Simms and Mr. Newson went on to Wichita Falls where they transacted business.

The Methodist revival has almost been rained out. There being no service Sunday morning, but a few faithful ones were out to the evening services. There is a very fine spirit shown among the members who are entertaining the preachers and singers. Rev. Lougino of Munday is doing the preaching, and Mr. Bronce Edwards and wife of Oklahoma have charge of the singing and playing of the piano.

Just a Few Locals from Weinert

Mr. George J. Kempen, of the State Highway Department at Abilene visited his uncle, H. Weinert and Mrs. Weinert Sunday.

Mrs. Henry Monke and daughter Miss Alpha Mary, attended the rodeo in Seymour last week.

Mr. Ed Hester, Misses Inez Medley and Jeanette Weinert of Childress, visited in Munday Friday.

Mr. and Mrs. Ben Bridges of Center Point spent the week-end with Mr. and Mrs. G. C. Newson.

Mr. and Mrs. Dud Boone of the Boone ranch and Miss Wanda Daken, daughter of Mrs. Boone, were in Seymour last week to see the Rodeo.

Mr. and Mrs. John Oates of Haskell were guests in the home of Mr. and Mrs. H. Weinert Sunday night.

Miss Dorene Rich, daughter of Mr. and Mrs. H. R. Rich, who has been a guest of her aunt, Mrs. Ella Miller of Spur, has returned home. While there, she visited in Lubbock, Floydada and other points in West Texas.

Mr. Henry Monke who has a job in Colorado, Texas, visited home folks Saturday and Sunday.

Mr. and Mrs. Ralph Duncan left Thursday morning for Bell county where they will visit for several days before continuing to Galveston, where they will spend a two weeks vacation. They were accompanied by Mrs. W. M. Silvers, who will visit with a son in Bell county for several weeks.

Mrs. Carl Northcutt has returned to her home in Refugio, Texas, after spending several days here with her parents, Mr. and Mrs. E. F. Oliphant.

When Women Need Cardui

If you seem to have lost some of your strength, or for your favorite activities, or for your household . . . and care less about your meals . . . and suffer severe discomfort at certain times . . . try Cardui!

Thousands and thousands of women say it has helped them.

By increasing the appetite, improving digestion, Cardui helps you to get more nourishment. As strength returns, unnecessary functional aches, pains and nervousness just seem to go away.

Better Maps of U. S. Urged

BETTER MAPS—14

Men who man transits and steel tape learned recently that map making work is far in arrears—that the United States "is the most poorly mapped of all the so-called progressive countries of the world."

Addressing the sixty-eighth annual convention of the American Society of Civil Engineers, in Salt Lake City, Dr. William Bowie, formerly chief of the division of Geodetic Survey, United States Coast and Geodetic Survey, of Washington, D.C., declared:

"It is safe to say not more than 15 per cent of our area is adequately mapped. The United States is the most poorly mapped of the so-called progressive countries of the world today."

Dr. Bowie, an international authority on mapping, maintained that lack of good maps hinders development of transportation, communication, flood control, power transmission—all branches of public works.

Map Makers' Field Day

"I feel strongly that we can no longer delay the initiation and completion of a national mapping plan," he told the engineers.

It was a field day for map makers. W. S. Higginson, engineer of the United States Geological Survey, Salt Lake City and Col. Joseph Hyde Pratt of Washington, D.C., engineer-consultant for the United States Geological Survey, explained the technique of aerial mapping by photography.

Thomas C. Adams, assistant professor of engineering at the University of Utah and an authority on development of Colorado River reclamation and power projects, explained problems of the work, a point of friction between the upper basin States—Colorado, New Mexico, Wyoming and Utah—and the lower States—Arizona, Nevada and California.

May Accomplish Object

"Assuming good faith by all parties," Adams said, "the Colorado River compact may well accomplish its objects and be beneficial to everyone."

A paper prepared by two Utah highway planning survey officials told of a highway mapping and planning survey now being conducted in 43 States which is designed to improve all roads.

"We point again," the paper said, "to the long needed correlation between vehicle design and highway design, the lack of which in the past has been largely responsible for the rapid obsolescence of our highways."

Marcy H-D Club News

"In measuring always look from outside of measuring cup to determine accurate measure," said Miss Vaughan to the women at Marcy H-D Club in the home of Mrs. P. P. Martin, Tuesday, July 26.

"Always add salt to egg whites before beating. The eggs should be 2 or 3 days old. Fresh eggs have a watery consistency," farther stated Miss Vaughan as she demonstrated baking an Angelfood cake.

The ice cream and cake supper given by the Marcy Club ladies Saturday night, July 23 in the home of Miss Odell Cox was enjoyed by all present.

Ice cream and cake were served to Mmes Eda Flourney, Bobbie Steel, Iva Moore, Daiton Hindley, Earl Blair, Helen Cox, Chalmers, Harris, Edgar Wheeler, Sallie Fields, Lee Sandles, Horace Painter, P. P. Martin.

New member, Mrs. Pat Martin. Three visitors, Mrs. Sue Clute, Marvin Hester and Miss Vaughan. —Reporter.

Mesdames Roy Weaver, Bon Adkins, and Marion Baird of Los Angeles, Calif. spent Wednesday and Thursday visiting with Mmes. O. W. Maloy and Stanley Furrh in Abilene and Mr. Cecil Weaver in Albany.

Don't Bargain With Beauty . . .

The difference you save in cut price beauty work means so little compared to your health and comfort that you can not afford to take a chance.

You take no chance when you patronize our clean and up-to-date Beauty Shop. We have the best equipped shop in this part of the country including water softener, radio, all royal chrome furniture and air conditioning for your comfort.

No need to dress up, come as you are for we want you to feel at home. No traffic worries and no steps to climb.

We have given almost two hundred permanents and have burned no one nor their hair.

Permanents From \$2.00 up.

Charmode Beauty Shop Phone 188

Mrs. C. P. Woodson, Owner

Bunker Hill

Mr. and Mrs. E. I. Chatwell of Weinert spent Monday with Mr. and Mrs. W. W. Newton.

Mr. and Mrs. Fred Knipping and daughter, Melba, spent Sunday with Mr. and Mrs. Arthur Williams of O'Brien.

Miss Geneva Wendeborn spent Wednesday with Miss Mildred Green.

Mr. and Mrs. Elmer Boedeker are the proud parents of a baby girl.

Mrs. Mannie Schonerstedt of Flat Top is spending this week with her daughter, Mrs. Elmer Boedeker.

Mr. and Mrs. E. J. Boedeker, Melvin and Edgar Boedeker left Saturday to attend a family reunion at Cameron.

Mr. and Mrs. Melvin Morgan and daughter Wancie of Sagerton visited Mr. and Mrs. W. W. Newton Saturday evening.

Miss Eileen Newton of near Sagerton spent Monday afternoon with Miss Mildred Green.

Mrs. Bertha Schroeder of Sagerton spent Sunday with Mr. and Mrs. Oscar Hoppe.

Miss Geneva Wendeborn visited at Sagerton Monday.

Mr. and Mrs. T. J. Arbuckle and daughter, Sarah Beth spent Sunday in Spur. They were accompanied home by Mrs. Kate Morris for a visit with relatives and friends.

To The People of Haskell County:

I appreciate your vote and influence in supporting me in the first primary more than I can express in words, and will gratefully appreciate your continued support in the run-off primary.

MIKE

Here's a bit of money-saving arithmetic — the fact that Piggly Wiggly adds extra value to every sale by maintaining rigid quality in all merchandise, despite consistent low prices at all times in every department. Shop with CONFIDENCE at Piggly Wiggly.

The dividing line between news and advertising is the line which separates information for public interest from information which is disseminated for profit.

How The U. S. Grew

To those who have never taken the trouble to look into the matter it may be surprising to know that the area of the United States, has been increased from 892,135 square miles in 1790 to 3,738,393 square miles at present.

The 13 original states—New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina and Georgia—had a gross area of 892,135 square miles, of which 24,155 was water.

The first accession to this territory was through the Louisiana Purchase from France in 1803, which added 827,987 square miles, nearly doubling the nation's area. Other additions of large extent were those of Florida, Texas, Oregon, the Mexican cession, Alaska and the Philippines.

Smaller additions resulted from the Gladsden Purchase, and the acquisition of Hawaii, Porto Rico, Guam, American Samoa, Panama Canal Zone and the Danish West Indies.

The purchase of the Danish West Indies, now known as the Virgin Islands, in 1917, marked the last extension of United States territory. These islands are only 133 square miles in area, and lie a short distance east and southeast of Puerto Rico having a population of about 35,000. They were purchased from Denmark for \$25,000,000, and have strategic value as a base for naval operations.

What Is Good Is What Works

Placidly indifferent to the zealots who howl that we must take either Communism or Fascism day after tomorrow, and like it, the people of Sweden go about the creation of their own design for living.

That it is a good one is attested by the celebration in Stockholm of the 80th birthday of King Gustav V. More than a million of his subjects contributed to a gift of a million-dollar check which was presented to the king. He immediately passed it on to a fund for fighting infantile paralysis and rheumatic disease.

Half a million jammed the streets of the capital to cheer the king. They shouted for "Mr. G." the incognito under which the king used to play tennis, and by which title he is popularly known.

The king himself paid the highest honor to his position, when in a speech he referred to himself as "the premier citizen of a free country." It was a true description of his status, far more accurate than "king." No more noble political title has yet been conceived by the mind of man.

Even to his Socialist ministers, King Gustaf is known as "a good fellow," and the left-wing papers in noting the anniversary were united in proclaiming that even to radicals, a good monarchy is better than a bad republic. For they know that Sweden has approached more nearly than any other country to a condition where they are few who

are very rich, and few who are very poor, and where all are free.

But the Swedish celebration does point strongly to the fact that actuality is what counts in government. If it works, if it makes people reasonably happy and secure, if it keeps them free, the name by which a government system is called means nothing.

A glance around the world shows that it is possible to have oppression and suppression under governments called "people's governments." It is possible to have tyranny and brute force under a system of elections that is in name republican. The substance is the thing, not the label.

To any who might reproach them with having an outdated monarchy as a form of government, the Swedes are in position to return a lulling laugh. They are realistic. They care more for life than labels.

Dealing With Peddlars Is Risky Business

Beware! Don't trade with the door-to-door salesmen. That is the caption of a page cooperative advertisement appearing in an exchange and sponsored by the merchants of the town in which the newspaper is published.

And it is good advice for the residents of Haskell as well. The door-to-door peddler is more numerous in the summer than at any other time of the year and housewife finds it extremely annoying to be head over heels in housework and find only one of these itinerant salesman at the door when she answers the doorbell. And these fellows are a persistent lot, insisting that they be allowed to show you all their so-called bargains and ignoring the fact that they are encroaching upon the housewife's time that she needs to spend on chores about the house.

Some housewives will buy an inexpensive trinket or two merely to get rid of the pest, but a great many more are taken in by the glib sales talk that the articles offered are sold for only a fraction of the price you would have to pay in a store. And they generally are as cheap in quality as they are in price, but the buyer from these door-to-door peddlars have no recourse when the merchandise does not turn out as represented. They are simply "stuck," because the salesman is gone and even if they are able to ascertain the name of the manufacturer they can expect no redress from that source.

The safest and most satisfactory way is to do your buying only from reputable local merchants. If merchandise bought from them proves unsatisfactory they are easily accessible for making adjustments and they are generally most willing to replace the merchandise or refund your money for they expect to be in business day after day at the same location and they know that satisfied customers are the greatest asset of any business.

Furthermore, the local merchant is a tax payer, helps support your schools, your churches and is a contributor to every civic improvement project which indirectly benefits you. In view of this, he deserves your business and we'll guarantee you'll be able to buy first class merchandise just as cheaply from him as from the door-to-door peddler, and your dealings from him will be a whole lot more satisfactory.

"Beware of the peddler" is good advice for the residents of Haskell or any other city.

We read of a merchant who divorced his wife because her red hair turned black. But what a treasure she would have been if she could have made the red ink on his ledger turn black.

In Evansville, Ind., a stranger handed Max Lowe, a funeral director, a \$100 bill, explaining: "Your grandfather buried my wife more than forty years ago and the bill was never paid."

A shirt tale: Malay states have a quota restriction on imports of cotton piece-goods from Japan. To get around the law, Japanese merchants shipped shirts with tails several yards long, so purchasers could get piece-goods by cutting off the extra length of tail. Now, officials must decide what length a shirt tail may be under the law.

Behind The Scenes in American Business

By John Craddock

(Editor's Note: This information contained in this weekly summary of happenings in the world of business and industry has been obtained from sources we consider reliable but is not guaranteed. Opinions and forecasts are based upon careful analysis but are subject to change without notice.)
NEW YORK, July 25 — BUSINESS—Not let up appeared last week in the slow but persistent march toward recovery which was signaled a month ago by a dramatic upswing in prices of corporate stocks and commodities. Shoe retailers, along with other dealers in consumer goods, reported a distinct improvement in sales. With shoe prices generally lower than last year, shoe merchants are making every effort to duplicate this year the 1937 sales volume of nearly three pairs for each person in the U. S. From Detroit came word that July sales of new automobiles may be better than the June total of 188,000 cars. Meanwhile, it is reported that used car dealers are meeting with success in reducing the number of second hand cars on the market. News from both the steel and electric power industries is encouraging. Steel mills are operating at 36 per cent of capacity, the highest rate thus far in 1938, and power production last week was the highest since January 29.

WASHINGTON — The U. S. Treasury, it was disclosed last week, will ask Congress to remove federal, state and municipal bonds from the tax exempt class, to extend the income tax to federal employees and to permit states to tax federal bonds. An income of federal employees within their borders. Most businessmen consider this a worthy aim.

Taxation of government bonds should help businessmen to raise capital. Suppose a retired businessman has \$10,000,000 to invest. If he puts it in government bonds at 3 per cent his annual return would be \$300,000 upon which no tax would be levied under present laws. In order to give him this much net return, private business would have to offer him at least 10 per cent on his money, or \$1,000,000 a year. Because after he'd finished paying the approximate \$675,000 federal and state income tax on the \$1,000,000, his actual income would be whittled to \$325,000. Obviously men of wealth at present are not anxious to risk their money in private business when in many instances they can get the same net return by investing in relatively safe government bonds.

THINGS TO WATCH FOR — Combination comb and brush, so that the hair can be combed and brushed in one motion. Rubber flower pot, when the earth cakes around the plant, it can be broken up by merely squeezing the pot. Paper bag within the cloth bag of a vacuum cleaner; dirt collects directly in the paper bag, which is removed bodily and discarded without exposing contents. Photographic paper that can be developed into a picture merely by exposing it to steam.

RETAIL SURVEY — Businessmen large and small read with interest this week a survey published by Standard Statistics, Inc., which discusses the current status of federal and state legislation as it affects multiple retail outlets. Particular interest centers around the conclusion of the survey that time is running against the proponents of punitive taxation calculated to run the chain stores out of existence.

"Farmers have no sympathy with those who would cripple the chains," the survey says, "because they are important customers of large rural chain organizations and are against anything that would tend to raise prices in these outlets. More important, the farmer knows that the chains perform highly useful functions in taking surplus of farm products off the market. Consumers and organized labor are also opposed to anything that tends to raise retail prices."

MEN'S CLOTHING — Clothing merchants, looking for higher wool prices, are losing no time now stocking up on men's suits, overcoats and winter underwear, making due allowance of course for the possibility of a somewhat lower sales volume this fall and winter than last year. In the last month alone raw wool tops have risen from 75 cents to 82 1/2 cent. Supplying Mr. John Doe with his new fall suit is a complicated business. Companies that make the cloth started designing patterns a year ago. The cloth was woven in their mills last fall, sold to manufacturers mostly located in eastern seaboard cities. They in turn began cutting and sewing the suits last winter. Right now salesmen for these manufacturers are on the road in all parts of the country selling 10 suits here, a hundred suits there, depending on the needs of retail merchants.

HEADLINES IN NEW YORK—General Electric Co. sales in first half are \$131,000,000, off 23 per cent from a year ago. . . Willys-Overland reduces prices up to \$26 on 1938 models. . . Libbey-Owens-

Ford Glass Co. re-employs 1,400 workers. President John D. Biggers sees improved fall prospects for glass industry. . . Argentine to sell \$25,000,000 bond issue in U. S. . . Industrial stocks in Japan dropped 21 per cent in value in last two months. . . British Parliament for first time in years seriously consider resumption of payment on war debt to U. S. . . \$2,984,565 net income of National Biscuit Co. for 2nd quarter is slight gain over first quarter. . . FHA forecasts biggest residential building year since 1929. . . Refiners' gasoline stocks cut as heavy demand continues. . .

Laying Hens Should Be Segregated Now

"Now is the time to rid the chicken yard of birds that are not paying their rent," says Robert Penquite, poultry specialist at Oklahoma A. & M. College. Chickens that are producing eggs should be separated from chickens that have ceased production. "From June 15 to September 15 is the most desirable time of the year to cull birds for egg production," Penquite asserts.

Culling is the process of picking out by external appearance undesirable and unprofitable birds. It should be a continuous process by disposing of some every few weeks. With the young stock this constitutes removal of unthrifty birds. With laying hens, the outstandingly poor individual should be removed and sold.

The first requirement for successful culling is a normal flock one that has been properly fed, housed, and managed. The most expert judge of poultry will be unable to determine the relative value of various hens unless they have been fed for egg production. "An poultryman can form a fair estimate of the past performance of the hens," the specialist says, "provided he is acquainted with the principles of culling."

About June 15 the poorest producers in the flock cease to lay. All that is necessary where a sys-

tem of this kind is used is to remove the birds that are laying, which eliminates any sacrifice of eggs. By Sept. 15 only the higher producing birds in a flock will be left.

Many hens are culled out each year because they have not received proper feed and necessary quantity for profitable egg production.

100 Eggs for One Hen
"In the last ten years in Oklahoma," Penquite stated, "it required about 100 eggs to pay for feed cost of one hen." In order to make any money for the owner, it is necessary for a hen to produce 150 eggs in one year.

In order to maintain a flock average of 150 eggs a year, it is necessary for a hen to produce necessary to remove the culls (non-producers) whenever the flock production drops below 50 per cent. Where the flock is laying at least 50 per cent it usually does not pay to cull, unless a higher average is desired.

Accurate culling requires that each hen be examined, and should start with the eggs and never cease as long as chickens inhabit the farm. The crippled, wobbly, or weak chick should be destroyed soon after hatching. Scrawny, unpromising individuals should be eaten or sold and only the fittest allowed to survive.

"The necessary thing to know in using the culling process," Penquite says, "is to be able to pick out the laying from the nonlaying in the flock."

Christy Mathewson once went through a regulation nine inning game for the New York Giants with only 68 pitches.

\$25 Reward!

Will be paid by the manufacturer for any Corn, GREAT CHRISTOPHER Corn Remedy cannot remove. Also removes Warts and Callouses. 35c at Oates Drug Store.

To the Citizens of Haskell County:

I want to take this opportunity of thanking the people who voted and used their influence in my behalf for the office of County Superintendent. Words cannot express my gratitude towards you. Although defeated in my first race I feel as if the 2029 votes that I received shows that I have many friends in Haskell County.

When I look back and think about my campaign, and realize that I am defeated I think of that old adage: "If at first you don't succeed try, try again."

I also wish to take this opportunity of saying that I hold no ill will against the people who did not see fit to support me. I do not think that you are not friends of mine just because you voted for my opponent. I sincerely hope we will all co-operate and make the schools of Haskell County the very best possible.

Sincerely your friend,
Thos. B. Roberson

To the People of Haskell County:—

I do not know how to adequately express to the people of Haskell County the depth of my gratitude for the confidence imposed in me, and my greatest desire is to justify their confidence by making a good County Judge. I thank you.

J. C. Davis, Jr.

Haskell County History

[As Revealed by the Files of the Free Press 25, 30 and 40 years ago.]

20 Years Ago—July 27, 1918

Rev. S. B. Hoyt, pastor of the Presbyterian church in this city for the past 18 months, has tendered his resignation to accept a call to Phoebus, Virginia.

The Commissioners' Court is making a test of the well in the courthouse yard with the view of installing a motor pump to provide their own water system for the building and surrounding area.

The Local Board has examined a number of the 1918 class of registrants and forty-five have been placed in Class One for full military service.

Clarence Lee of the Gillespie community left last week for the training camp after a visit with relatives.

Jess Sarain, son of Mr. and Mrs. W. J. Sarain of this city, who is in the navy, has notified his parents that he has been promoted to Chief Petty Officer.

W. I. McCarty made a trip to Weimert Tuesday, to deliver a truck load of ice cream and soda water to the Weimert Meat Market.

J. W. Martin, Sagerton business man, was a visitor in Haskell this week.

Albert Frazer, young farmer living near Rule, had the misfortune of sustaining a fractured leg while running a planter on his father's farm.

B. M. Whitaker left Wednesday for Weatherford, where he will attend a good roads meeting.

Oscar Allison of Camp Bowie is pending a short furlough with home folks this week. He will return to camp this week.

40 Years Ago—July 30, 1898

The great reunion of the Texas Cowboys' association, which opened Wednesday, was a grand success. Between 3,000 and 10,000 people were in attendance. For two or three days before the opening day a steady stream of wagons, hacks and buggies poured into Haskell. In the business session preceding the opening of the Reunion, the following officers were re-elected: Harry T. Daugherty of King county, president; B. F. Reynolds of Throckmorton county, vice-president; J. R. Power of Baylor county, treasurer; and J. H. Glasgow of Baylor county, secretary.

Horse racing was the main feature of interest each afternoon during the Reunion. In a "broncho busting" contest on the second day first prize was awarded to Frank Rhode, second to Frank Owen and third to Dave Matthews.

The cutting, tying and roping contests were held on the third day. S. L. Graves, better known as Picnic Sam of the 8 Ranch in King county cut out 8 yearlings

from the herd to win first prize. He rode "Hub", a horse about 20 years old. Bailly Brown of Kent county won second prize, and S. S. Cummings of Haskell third. H. C. Coffey of the X Ranch rode a quick cutter and did good work but fell a little short of winning.

In the tying and roping contest Will Gardner of Tom Green county won first prize, J. Q. Ward of Stonewall second, and Berry Parsley of Stonewall third.

Saturday morning, last day of the reunion, Prof. Raymond made his thrilling leap from a pole 62 1/2 feet high located in front of the grandstand, diving into a small, shallow tank of water. A mile bicycle race, also held Saturday, was won by W. M. Thompson of Abilene. Olin Lassater of Seymour was second, and T. G. Easley of Waco third.

Cloth Used 1,000 Years Ago Found

Wickliffe, Ky.—Col. Fain W. King, archaeologist, has made an unusual find of scientific interest.

It is a closely woven textile material which had been in the ground probably 1,000 years.

The find was made at the King Mounds, situated high above the meetings of the Ohio and Mississippi rivers near Wickliffe. There are nine mounds, four of which have been excavated under the supervision of Colonel King and his wife, Blanche Busey King, ethnologist.

Recently Colonel King, while working in one of the mounds, made a discovery he had been seeking for several years.

Sitting through the earth that is so carefully handled bit by bit he found a piece of cloth used by the ancients perhaps a thousand years ago.

Early man had left samples of his weaving in a number of caves in this country but this was the first piece of cloth that had been found in a burial mound.

A milk farm near New York City recently installed a \$2,500-600 milk bottling plant, the world's largest. All equipment is of stainless steel and is kept immaculate. The plant will bottle and cap 32,000 quart bottles an hour.

Doctors are more subject to heart disease than any other class of people.

from the herd to win first prize. He rode "Hub", a horse about 20 years old. Bailly Brown of Kent county won second prize, and S. S. Cummings of Haskell third. H. C. Coffey of the X Ranch rode a quick cutter and did good work but fell a little short of winning.

In the tying and roping contest Will Gardner of Tom Green county won first prize, J. Q. Ward of Stonewall second, and Berry Parsley of Stonewall third.

Saturday morning, last day of the reunion, Prof. Raymond made his thrilling leap from a pole 62 1/2 feet high located in front of the grandstand, diving into a small, shallow tank of water. A mile bicycle race, also held Saturday, was won by W. M. Thompson of Abilene. Olin Lassater of Seymour was second, and T. G. Easley of Waco third.

Plan Campaign To Advertise Scenic Texas

An advertising campaign designed to whet the interest of Texans in the scenic, recreational and travel opportunities in Texas will be released to Texas Newspapers within a few days. Datus E. Propper, executive vice-president of The Texas Good Roads Association, has announced. Final details were worked out by Mr. Propper in a conference with Lowry Martin, President of the Association.

The campaign will consist of a series of advertisements presented by The Texas Good Roads Association showing the wonders and beauties of Texas. The advertisements have been prepared in mat form and will be released through the office of the Texas Press Association, which endorsed the movement at its recent annual convention. The material will include one full page, attractively designed layout and a page of 15 smaller mats.

The movement has the approval of the Texas Highway Commission, the Texas Traffic Safety Association, Chambers of Commerce and other civic organizations.

"Texas has been slow to stimulate tourist traffic," Mr. Martin said. "Many Texans are wholly unaware of the wonderful things scattered through this broad state of ours. The purpose of this effort is to give Texans a better appreciation of their state and to arouse in them an interest to visit spots of rare scenic, recreational and historical value. Texas has everything for the tourist, and we believe, most of them would 'See Texas First' if properly encouraged to do so. A brief tour to any part of Texas will convince any motorist that there are splendid opportunities in his own back yard for a zestful, thrill packed vacation or travel tour. Let's 'See Texas First' Then when we visit the other states we will be better able to sell Texas to tourists in other areas. Let's get acquainted with the Big Bend, the wonderful Texas Panhandle country, the giant forests and oil fields in East Texas, the beauties of the Texas coast and the magic Rio Grande Valley. Then more effectively we can sell Texas to the world and bring in a golden flow of new tourist dollars."

CARD OF THANKS

We wish to thank each and everyone for your kind deeds and consoling words during the loss of our loved one, Mrs. A. P. Crawford.

Especially do we want to thank each one for the beautiful floral offerings.

May God's richest blessings rest on everyone of you.—A. P. Crawford, Leuders, Texas; Tom Jenkins and family, Haskell, Texas; Mrs. R. T. Terrell and family, Stamford, Texas; Jim Jenkins and family, Abilene, Texas; B. W. Jenkins and family, Tyler, Texas; Sam Jenkins Meadow, Texas.

Present Time Is Critical One In Insect Situation

This is a critical time in the cotton insect situation in Texas, according to F. L. Thomas, chief of the division of entomology of the Texas Experiment Station at College Station.

The hot, dry weather in the lower coastal area caused a decided reduction in both the flea hopper and boll weevil infestations, while the scattered showers in Central, East, and North Texas have been favorable for boll weevils and injury by cotton bollworms.

According to workers in the Bureau of Entomology and Plant Quarantine, the rather high infestation of flea hoppers and boll weevils in Calhoun and Jackson Counties, respectively, were lowered approximately 50 per cent during last week. Based on this information and records in Brazos, Burleson and Milam Counties, and observations in the black land area, it appears that flea hopper damage in the southern half of the State is about over for this season. The average infestation of flea hoppers in Kaufman County was 22 per 100 buds, about the same as last week, but the maximum figures fell off from 63 last week to 38 this week.

Boll weevil damage continues to increase in South-Central Texas, but at a slower rate than a week ago. It is a little heavier on the uplands in Brazos, Burleson, and Milam Counties than on the bottom lands in these counties. About three-fourths of all fields examined need to be dusted with calcium arsenate.

Showers which have occurred in some areas are favorable for boll weevils, cotton bollworms, and leafworms. Much of the cotton in the lowlands is succulent, tender and attractive to bollworm moths, now laying eggs in Central Texas. K. P. Ewing of Calhoun County reports that bollworms are widespread and doing considerable damage in many fields. Timely and heavy applications of calcium arsenate are necessary for controlling this pest.

Leafworms have become widely scattered. They have been reported in the vicinity of Presidio in West Texas, Crosby and Dickens Counties in Northwest, and Dallas and Kaufman Counties in North Texas. They are also reported at Tullulah, La., by the Bureau of Entomology and Plant Quarantine.

Add Pinch of Salt To Drink of Water To Prevent Cramps

AUSTIN.—If your work is such that it causes excessive perspiration, add a pinch of ordinary table salt to each drink of water you take to help prevent heat cramps. This is advised by Dr. Geo. W. Cox, State Health Officer, to prevent a possible increase in the number of heat victims as the Texas thermometer hits 95 degrees and above.

Laborers, mechanics, farmers and white collar workers whose work causes them to sweat profusely, are in danger of having their body salt content become deficient with resulting heat cramps or heat fag. Salt is a prominent constituent of sweat; the body may lose as high as 40 to 50 grams of salt during hot days.

In industry, a method of preventing heat cramps is to take a tablet of pure salt or a mixture of salt and dextrose with each drink of water. Workmen whose duties require muscular exertion should be especially careful to add more than the usual amount of salt to what they eat and drink.

Salt deficiency may be prevented by taking salt in various ways. Where prepared tablets are not available, table salt may be added to each drink of water. Milk is a source of salt and will help to make up for the deficiency caused by sweating. Alcoholic drinks should be avoided.

Heat cramp is characterized by pains (cramps) in the abdominal region, headache, and in severe cases, by nausea and vomiting. The body temperature remains about normal, likewise the pulse rate. Body salt losses occur without the knowledge of the individual until there is a deficiency; then the abnormal muscles begin to cramp.

The Brooklyn night baseball field is lighted by seven towers on which are mounted 615 flood lights—enough candle power to light 447 miles of highway or 9,000 city blocks.

Thirty-five years ago the Ford Motor Company had but ten employees.

Pastor for 1,000 Weddings Proposes 10 Commandments

Pittsburgh, Pa. — Dr. Bernard C. Clausen, who married 1,000 couples a pastor of the First Baptist church here, has drawn up "Ten Commandments" for Marriage as follows:

1. Simplify your life. Get along with as little money as possible. Spend less than you earn.
2. Set aside time for quiet together. Do not let life tire you. Manage your hours.
3. Never let a lie last an hour between you.
4. Quickly forgive.
5. Share all joys and disappointments. Do not protect each other from bad news.
6. Cultivate complete candor and frankness.
7. Know everything you can about life together. Read books, consult the experts. Ignorance is not innocence.
8. Audit the books together. Marriage is a financial partnership and allows no fiscal secret.
9. Never think of marriage as tentative. It is your career. Make it a lifetime project.
10. Base it on religious fellowship. Mixed marriages fail only because they lack unity of religious life.

National income of all kinds in the United States last year was \$70,000,000,000 the highest since 1929. According to the United States Bureau of Commerce this represents a recovery of three-fourths of the decline from 1929 to 1932.

Corn is grown in every state of the Union.

'38 Duck Season Will Be Longer

The biological survey at Washington, D. C. announced this week it would increase by 15 days the hunting season this fall on ducks and other migratory fowls.

The season will start that much earlier on ducks, geese, jacksnipe and coot. This will allow a 45-day season instead of the 30 days permitted the last three years, the report said.

The earlier and longer hunting was authorized in an order approved by the president and Secretary Wallace and based upon a bureau investigation and water-fowl conditions.

The order prescribed the following seasons for ducks, geese, jacksnipe and coot:

Intermediate zone, including Oklahoma, Oct. 15 to Nov. 28.

Southern zone, including Arizona, New Mexico and Texas, Nov. 15 to Dec. 29.

The order also increased the number of ducks allowed in the hunter's possession daily to two bags of ten birds each.

The bureau also announced that hunters would be able to shoot a few canvasback, Ruddy, redhead and buffhead ducks which have been fully protected the past two years. It said that three of one of these species, or three in the aggregate of the species, could

be shot in one day, and twice the amount would be permitted in the hunter's possession.

Brazil, South America, produces over two-thirds of all of the coffee.

Thomas Jefferson and John Adams both died the same day, July 4, 1826, and during their last 14 years exchanged more than 200 letters.

Paper covers for books were first used in the 16th century.

Parramore Sellars returned home from Houston Saturday. Accompanying him were Mr. and Mrs. Paul B. Hunter of that city. After a brief visit in Haskell, Mr. and Mrs. Hunter with their two children, who have been visiting in the home of Bessie Mae Sellars, and Mrs. J. Sides, mother of Mrs. Hunter, left for a two-weeks vacation to Colorado.

Weaver Baptist Church
Our revival at the East Ward is doing fine. We are having larger crowds for each service, and we invite everyone to come and worship with us. You will like the comfortable, old-style arbor. Open air services are held each day at 10 a. m. and 8 p. m. You will like our evangelist, Rev. W. T. Priddy from Whiteface, Texas. He preaches the old time gospel. Come and bring some one with you. —OSCAR C. BYRD—Pastor.

New Mid
Mr. and Mrs. Tommie Posey and daughter Rosa Lea of Gladewater spent the past week end with his sister Mrs. H. W. Hutchens and family of New Mid community.

Mrs. F. M. Hutchens and daughters Floy Mae and Florence spent Thursday night with her brother R. L. Hester and family of Knox City.

Mr. and Mrs. J. T. Hester's children surprised their parents when they gathered Saturday afternoon late to spend a picnic supper in honor of their mother's birthday which was enjoyed very much.

W. E. Brock has returned to Knox City to be at the bedside of a sister Mrs. John Fortenberry, who has been seriously ill for three weeks. We are sorry to know her condition is unchanged.

Mrs. Burl Cox accompanied by her daughter Mrs. Leo Southern and two sons are making an extensive trip in Washington, Philadelphia, New York and other places of interest.

Mrs. Server Leon will leave Monday to take her daughter Madge, and Miss Elizabeth Huckabee to Colorado, Texas for a two weeks vacation on the Jones ranch. Mrs. Leon will return on Thursday.

NOTICE TO COTTON FARMERS
To The Membership of The Texas Cotton Cooperative Association, formerly The Texas Farm Bureau. The Texas Cotton Cooperative Association is making a partial payment on the one per cent reserve deducted from cotton shipped by its members between 1923 and 1932.

These checks will be distributed by B. Walters, Director, and Edgar Ellis, Classifier, representatives of the West Texas Cotton Grow-

To The Voters of Precinct Haskell County, Texas:

The campaign I have just gone through has been a revelation to me. I have learned first hand the people of this precinct are thinking. I love not only the people but the body much better than I ever did before. I have words to express my deep appreciation for the splendid vote I received. I am sure I could call the voters by name, I am sure the people and I want them to know

I am in the race to the finish and I will see everyone of your again to solicit your influence. If I miss any of you, it will just can't find you or get confused and solicited you and unintentionally I am elected your Justice of the Peace. I am best to make you a fair, efficient and office will help me and I certainly want to render my very best service in return.

To the People of Precinct No. 2:
At this time I wish to express to you my most sincere appreciation for the vote you gave me on last Saturday. My gratitude for the support given me is none the less sincere by reason of the fact that the result of the election put me in second place. Towards those of you who saw fit to support either of my opponents I have no ill feelings of any kind.
T. M. (TOM) MAPES

THE ELECTION IS NOW OVER!
Whether your choice was winner or loser does not matter now. Whether the people's choice pleases or disappoints you, is to be seen.
WE HAVE BEEN ELECTED
By MORE THAN TEN THOUSAND, FIVE HUNDRED PEOPLE to protect them. We have never failed those who have kept their insurance paid. Those with paid protection, who have lost a member of their family, will tell you that we were with them in a very short time, to help save them from embarrassment, and the burden of debt, that bereavement brings.
IF YOU HAVE NOT VOTED FOR US
To protect you, CALL YOUR FAMILY IN CONFERENCE, talk it over, and call on us or write us before you are forced to face bereavement. If you are in good health, you, too, can have the consolation so many others enjoy, and feel the comfort and safety our policies give.
