PLANS COMPLETED FOR ANNUAL MEETING OF H. D. CLUBS

Encampment To Be Held At Rice Springs Park July 29-30

Members of Haskell county's Home Demonstration Club will gather here Thursday and Friday July 29 and 30 for annual encampment, to be held at Rice Springs Park several miles south of the square.

Plans for the encampment discussed Saturday at a meeting of the Recreation Committee of the County Council in the office of the Vaughan, county home demonstration agent. Approximately two hundred and fifty members are expected to attend.

The program is tentatively arranged for a general assembly at 8 o'clock Thursday evening July 29, to be followed by a "get-acquainted" session during the next hour. Following a picnic supper, stunts by various clubs will be staged in the amphitheatre stage in the afternoon, to continue for four or longer. At 11 o'clock the Rice Springs Swimming Pool will be turned over to the group for their diversion, and swimming will be enjoyed for a brief period.

Encampment delegates will present their reports at 8 o'clock Friday morning, and at 9:30 a general meeting will be conducted for the morning with a reading by Mrs. Denson of the Bonneton Club, story-telling by Mrs. Date Anderson of the New Cook Club, a minute talk by some well-known speaker, sing-song and a luncheon until the lunch hour at 12 o'clock.

The Haskell county 4-H Club members will be the guests of the City 4-H clubs at an all county picnic to be held in Knox on Tuesday, July 27th.

Attention to the nine clubs in all county was extended last through Miss Nina Astin demonstration agent of Knox.

Membership in the Haskell county clubs totals approximately 160 girls, according to Miss Vaughan, home demonstration agent.

Program of stunts, music, and entertainment will be arranged for the occasion, and definite plans for the picnic will be announced in this week, it was announced. Picnic lunch will be spread on the lawn.

Home demonstration agents of all Haskell counties will attend the gathering.

son Will Hold Two Day Festival Friday, Saturday

Friday and Saturday, July 16 and 17, Anson will hold its two-day festival. On the opening day the Anson Lions Club will entertain the pioneers of the county at the Anson Club building. Late that afternoon there will be a street parade with floats, conveyances, floats, drawn by oxen, ponies, and other modes of conveyance, and by the Anson Municipal Band.

Friday night there will be a dance of the old-time Mollie circus, highlights of which will be the Pony Express, stunts, and other features.

Saturday there will be bicycling, pony races, stunts and a show on the courthouse square. That night a Queen of the County will be crowned.

There will also be one side of the street dance and a street dance given. This year attracted a crowd of thousands.

Miss Meyer left Sunday morning where she will enter the contest. She was en route to Dallas by Miss Minnie Ann Meyer.

Miss Meyer, also by her sister, Miss Minnie Ann Meyer, will be in Haskell for several weeks.

TEACHERS FOR 37-38 SCHOOL TERM ELECTED

Twenty-Four Members Will Compose Faculty of Three Schools

Members of the faculty of Haskell Public Schools for the 1937-38 school year were elected at the last meeting of the board of trustees of the district.

All teachers who had made application for re-election were employed for the coming term, and three new teachers were added to the faculty.

Teaching staff of the High School will be: George V. Wimbish, principal; Mrs. Wimbish, R. H. Campbell, Miss Jessie Vick, Miss Willie Riley, Mrs. Myrtle Meyers, Perry Mason, athletic coach, Pierce Scott, assistant coach and Pyeatt McCollum, Campbell, Scott and McCollum are new members of the faculty. Mr. Campbell, who comes to Haskell from Coleman, will teach vocational agriculture. Mr. Scott and Mr. McCollum both are from Abilene graduates of A. C. C. Scott, assistant coach, was a member of the ACC football squad for four years as halfback.

North Ward Faculty With Miss Madalin Hunt as principal, the following teachers will be employed in the North Ward:

L. L. Garrison, assistant principal, history and health; Miss May Fields, arithmetic and penmanship; Mrs. O. W. Maloy, reading and geography; Miss Mattie Letha Phippen, English and spelling; Miss Anna Maud Taylor, fourth grade; Mrs. Ada Rike, third grade; Mrs. Cretia Brooks, second grade; Mrs. M. D. Crow, first grade; Miss Ruby Fitzgerald, first grade.

South Ward Teachers in the South Ward will be Mrs. Irene Ballard, principal, first grade; Mrs. W. M. Murphy second grade; Miss Clara Welsh, third grade; Miss Clara Welsh, geography, spelling, and reading in fourth, fifth, and sixth grades; Miss Patsy Lou Koonce, arithmetic, history, physical education; Miss Velma Hambleton, English, Music and penmanship.

Farmers, Ranchmen Improving Pastures By Contour-Listing

Pasture improvement work has engaged the attention of North Texas farmers and ranchmen and is proving of great value, according to the reports of county agricultural agents in that territory under whose supervision the work is being done.

One hundred acres of pasture land has been contour-listed by Lynn Pace, Haskell county farmer and stockman. Pace said that after recent rains the 100 acres held the rainfall, whereas before the land was treated the water had been running off. The lister furrows on this grass land were 42 inches apart.

A good example of the value of contour furrowing in increasing the grazing capacity of pasture land can be seen on the land leased by V. M. Gladish of Dallas county, according to Joseph M. Hatton, county agricultural agent.

Several years ago it was decided to put this land into cultivation but the plans were changed after a narrow strip had been plowed through the pasture. At this time the plowed strip is much heavier sided than other land in the pasture and Gladish estimates that it affords two or three times as much grazing as any other equal area in the pasture.

Fifteen Moore county farmers carried pasture furrowing demonstrations in 1936 and each one was pleased with the results and plans to do more this year. R. A. Weiss did an unusually good job on his 120 acre pasture, reports A. P. Bralley, county agricultural agent.

Weiss cut some old lister points from 14 to 9 inches in width; by using these without the moldboards of his three row lister from which he had removed the center lister, he was able to make good furrows at intervals of 7 feet for retaining extra rainfall.

To Training School Rev. David L. Stitt left Monday morning for Fort Worth, from where he will go with a group of six members of the Texas Synodical Young Peoples Council to a leadership training school at Montreat, North Carolina. They will return to Haskell about July 25th.

"Gone With The Wind" Seen in Casa Manana

Lovely Harriet Hctor (center) appears as Scarlett O'Hara in the magnificent "Gone With The Wind" scene in Billy Rose's Casa Manana

Revue of 1937 at the Fort Worth Frontier Fiesta. Miss Hctor is the world's greatest ballerina. With her in the picture are Marie Kelly (left) as

Careen O'Hara and Gena Rose Timmons as Suellen O'Hara. As the "Gone With The Wind" scene ends, the beautiful Southern mansion bursts into flames.

LOCAL FIREMEN TO SPONSOR AMATEUR BOXING MEET HERE

Affair Will Be Staged At Rita Theatre Thursday July 22

Sponsored by the Haskell Volunteer Fire Department, an amateur boxing tournament, similar to the "Golden Glove" tournaments now being held in the larger cities of the state, will be held at the Rita Theatre on Thursday, night July 22nd.

Appropriate trophies will be awarded winners in each of the various events to be staged, and City Marshal Sebo Britton will have supervision of the different matches.

A number of entries from several surrounding towns are assured, promoters of the affair announced Tuesday. A similar tournament is to be held in Abilene July 19 and 20, and several entrants from that city will take part in the Haskell meet.

The matches are open only to amateur boxers over 16 years of age, and professional fighters will be barred. Fighters will be bracketed according to weights in nine divisions from paperweight to heavyweight fighters.

Program Tonight By Singers From Boll Orphanage

A program consisting of sacred songs, duets, quartets, and massed singing will be presented at the Church of Christ in this city tonight by a group of twenty children from the Boll Orphan Home in Quinlan, Texas.

The program will begin at 8:30 o'clock, and the public is cordially invited to attend.

Woman Fined for Abusive Language In Fuss With Mate

A fine of \$1.00 and costs was assessed by Justice of the Peace Bruce Cliff Friday against a Haskell woman who entered a plea of guilty to a complaint charging her with the use of abusive language.

The complaint was filed by Constable J. H. Ivey, following his investigation of an altercation which allegedly occurred between the woman and her husband at their small residence south of town several days ago.

Misses Minnie Ann Meyer, Rowena Fleming, Ruth Josslet and Martha Head were visitors in Abilene the latter part of last week.

Mrs. R. P. Barnard, supervisor of the WPA sewing room at Rochester, was a visitor in our city Saturday.

NYA Instruction Project Will Be Open To Youths

H. A. Ziegler, Assistant District Supervisor for the National Youth Administration in District 7 was in Haskell on Friday last week.

Ziegler stated that the principal reason for his tour of the district at this time is in connection with the NYA farm instruction project which is to be operated over a period of six weeks during July and August. Any youth who is eligible for employment on a NYA work project and who earnestly desires to know more about farming by learning the best way to do things that are to be done on a farm, is eligible for assignment to this project which will operate for boys at Texas A. and M. College at College Station and North Texas Agricultural College at Arlington. The girls will go to John Tarleton College at Stephenville.

This is a very worthwhile opportunity for those young people who are really interested and will make the most of the privilege, Ziegler said. In making selections, he will interview and make selections from among those who have expressed a desire to attend. Youths will work part of the day on this project sponsored by the above colleges whereby they will receive practical experience in doing things that are done on a farm. They will attend special agricultural classes during their spare time, with members of the regular faculty of each college as instructors. They will earn enough to pay for lodging, board and medical care and have about \$5 a month left for personal spending.

Local officials are cooperating with NYA representatives in the matter of transportation of youths from their county to the colleges.

When questioned in regard to local NYA work projects, Ziegler stated that the program will continue pretty much as in the past and that he hopes to receive the same cooperation from officials and other citizens who have shown interest in the welfare of the youth of their community, as he has in the past. The fiscal year closed June 30, but applications for projects to operate during the year starting July 1 are now in Austin and he has been advised by J. C. Kellam, State director of NYA that these applications will be passed on and be ready to start the new program around July 15. Ziegler further stated that projects now operating in Haskell County will go into the new program without interruption.

58 Notaries Qualified In This County

Fifty-eight notaries have qualified in Haskell county for the next two years, according to records in the County Clerk's office. Appointments are made by the Governor, and all who qualify must post bonds and be certified by the County Clerk to the secretary of state.

Qualified notaries in the various towns of the county are listed below:

Haskell: Virgil A. Brown, R. L. Burton, A. R. Couch, T. C. Cahill, Theron G. Cahill, Buford Cox, A. C. Chamberlain, F. L. Daugherty, Tom Davis, J. C. Davis, Jr., Ed F. Fouts, Eleanor Foote, H. F. Grindstaff, J. A. Jones, R. A. Lane, J. E. Leflar, Emory Menechison, J. D. Montgomery, W. H. Murchison, V. W. Meadors, T. R. Odell, Mary Pearsey, Alonzo Pate, O. E. Patterson, T. A. Pinkerton, Lynn Pace, J. B. Post, M. B. Post, O. B. Ratliff, L. D. Ratliff, W. P. Ratliff, M. R. Smith, K. H. Thornton, W. F. Turner, Vada Thomas, A. M. Turner, E. R. Wilson, Hettie Williams, John A. Willoughby.

Rule: Chester L. Baker, Andrew A. Bradford, P. H. Campbell, S. M. Davis, Arthur C. Foster, L. W. Jones, Jas. E. Lindsey, Estelle Lee, W. H. McCandless, Morris Neal, W. R. Terry.

Rochester: A. M. Burdine, James A. Greer, Pete Huntsman, Mark B. Wadzeck.

O'Brien: B. C. Cooner, E. C. Westerman.

Weinert: Earnest Griffith, R. N. Mathison.

Return From Vacation Mr. and Mrs. Guy Collins and children returned Monday from a vacation spent in Santa Fe, N. M. Mrs. Collins and the children spent several weeks in Santa Fe, and were joined last week by Mr. Collins.

Mrs. A. M. Williamson and daughter Odell were business visitors in Stamford Friday of last week.

T. M. George, sales representative for Stafford Lowden Company of Fort Worth was transacting business in Haskell Friday.

"DUD" YANCEY KILLED IN TRAIN WRECK NEAR AUSTIN MONDAY NIGHT

FARMERS GROUP STUDY TERMS OF NEW LEGISLATION

Regular Meeting of County Association Held On Saturday

Between fifty and sixty members and interested farmers were in attendance at the regular monthly meeting of the County Agriculture Association Saturday afternoon in the district courtroom.

The group heard several speakers discuss the provisions of new farm legislation now pending before Congress, and took part in a round table discussion regarding the new measure, and likewise discussed other matters of interest to farmers.

County Agent B. W. Chesser announced to the group that aerial maps recently made of Haskell county had been received, and would be used in checking compliance in the 1937 agriculture conservation program. Work of determining compliance with this year's program will be started sometime this month, Mr. Chesser stated.

Mr. Chesser also led an interesting discussion on the status of the new farm bill that has been introduced in Congress.

Jess L. Bell of Rule, president of the Haskell County Association, Miss Nora Walters of Rule, Mrs. Date Anderson of Midway and Jesse B. Smith of Haskell made short talks concerning the proposed bill, and stressed closer organization of farmers.

173 Counties In State Complete 1937 Worksheets

The state AAA office at College Station has received 188,370 worksheets under the Agricultural Conservation Program from 213 counties, according to George Slaughter, chairman of the Texas Agricultural Conservation Committee. Of the 213 counties 173, with 153,005 worksheets in 1937 as compared with 153,105 in 1936, are complete.

Heavy participation in the range conservation feature of the program was indicated as Slaughter announced that application covering 18,306 ranches, totaling 62,744,827 acres, had been received.

Range inspectors, who are checking the grazing capacity of these ranches, are expected to complete their work during July.

The work sheets from 20 of the 173 complete counties have been analyzed and the quotas for these counties have been determined. Tabulations on five additional counties have been carried through and figures from these counties are ready for analysis by the statistical unit, Slaughter said.

Compliance under the 1937 program is already under way in South Texas, according to Slaughter, and 12 instructional meetings are scheduled on this phase of the program. Eight re-check engineers are supervising the compliance work in the field and will visit all counties in which farms are affected by the Agricultural Conservation Program.

Stamps-Echols Singers To Give Abilene Program

The Stamps-Echols singing school, now being conducted in Abilene, announce that a program of singing will be given at the South Side Baptist Church in Abilene Sunday afternoon July 18.

Among those who will take part on the program will be: Frank Stamps of Greensboro, N. C.; The Rogers Quartet of Blue Mountain, Ark.; The Merkel Quartet, Friends of Four Quartet; Marie Clark, accordionist; Lawrence Ivey, pianist; and several others.

The public is invited to attend the program.

Mr. and Mrs. Grady Murchison of El Paso, visited in the home of Mr. and Mrs. Walter Murchison the past week-end. The two couples left Monday for Dallas and from there they go to Bastrop to visit with their mother, Mrs. W. H. Murchison.

Haskell Youth and Two Men Killed When Freight Cars Leave Track

Alvie (Dud) Yancey of this city was fatally injured and Clarence Lewellen, also of Haskell, was slightly injured in a train wreck Monday afternoon near Austin which also cost the lives of two other persons.

Yancey, 23, died in an Austin hospital Monday night about 9 o'clock. Others killed in the wreck were Paul Jaeger, 52, of Houston, and William Joseph Kennedy, 33, of Galveston.

Lewellen was only slightly injured, relatives here were notified. He was released from an Austin hospital after being given emergency treatment, and was to return to Haskell immediately, relatives said.

Yancey and Lewellen had left Dallas Sunday, relatives here said and were going to the Rio Grande valley. They were aboard a Missouri Pacific freight. Yancey had been employed in Dallas for the past three months.

In an account of the wreck carried by daily newspapers Tuesday, it was reported that nine freight cars in the train's mid-section catapulted 70 feet from a bridge trestle. Five other men riding the train were injured.

Mrs. Blanche Yancey of this city, mother of the train wreck victim, was advised Tuesday that her son's body would be shipped to Haskell for burial, probably arriving Wednesday morning.

Another son, George Yancey, and the youth's father, John Yancey Sr., of Dallas, went to Austin Monday night to identify and claim the body.

Funeral services have been tentatively arranged for Wednesday afternoon. Burial will be in Willow cemetery.

Yancey, born and reared in Haskell, is survived by his parents, Mr. and Mrs. John Yancey, Sr., and two brothers, John Jr., of Hobbs, N. M., and George Yancey, Dallas.

SMALL HOUSE IN NORTHEAST PART TOWN IS BURNED

Few Articles of Furniture Saved From Residence of O. B. Collins

A four-room house occupied by O. B. Collins and family located in the extreme northeast part of town was destroyed by fire Friday morning about 8 o'clock.

Fire department apparatus called to the scene was unable to be of use, as no water mains serve that part of the city.

The fire was believed to have started in the bedroom of the house, Mrs. Collins stating that she had extinguished a burning mattress earlier in the morning that had probably ignited from a cigarette. Mr. Collins was working in a nearby field, and Mrs. Collins had gone to the home of a neighbor shortly before the fire was discovered.

First persons to reach the scene were able to remove a few articles of furniture from the burning building.

The property was owned by J. U. Fields of this city.

Here From Odessa "Lefty" Hambricht, pitcher for the Haskell Braves during the 1935 baseball season, returned to Haskell Saturday and will likely become a member of the 1937 team. Hambricht has been pitching for the Odessa team in the West Texas league during the past few months.

AUTO TRAILER TREND STIRS OUR PROPHETS

There is an eternal open season for prophecy in the United States. If the government builds a dam, earnest men rush to the magazines and write glowing predictions of universal flood control, power production, and soil conservation; if an inventor brings out a new farm machine, other men immediately forego a revolution in American agriculture and talk of tree, tin, or 15 million farmhands who will have to come up on some city breadline. This being so, it is not surprising that the automobile trailer should have set our prophets to work in a fine frenzy of excitement. Just because moments have passed to discover that it can be a lot of fun to tow a trailer along with them they are assuming we are told that within 20 years the population will be living permanently in trailers, that American labor will acquire a new fluidity of movement which will make regional depressions unknown, and that cities will go broke for lack of enough residences to tax. In other words we have run up against something new, and our prophets are having a field day trying to tell us how it will turn out.

Certain it is that this trailer proposition does have some marvelous potentialities. A house that he can carry around with him as a small carries the shell on its back is a new thing for man to acquire. Take that fact, add to it the fact that these mobile houses are usually becoming cheaper, more comfortable and more numerous, and sit in the third fact that the nation with a trailer has a whole continent full of good roads beckoning to him, and you have an almost impenetrable mixture. What will come out of it all is something for the prophets to play with at the moment, all that can be said is that the trailer is at least in the good old American tradition. It is the sort of thing that Americans would invent. The only surprising thing is that they didn't invent it earlier.

The American has never been a man to stay put. From the very earliest days, he was always ready to move on and try his luck beyond the next hill. He refused to put down roots and anchor himself to the soil. If Maine didn't suit him he would try Ohio; if he didn't like Ohio, he would go on to Missouri; from Missouri he was perfectly willing to try the Dakotas, or Oregon, or Texas, or California, or any other place in the republic. The trailer fits this tradition perfectly, an ideal device for an eternally restless people. To a machine-made age that was beginning to settle into fixed strata, it restores the fluidity of an earlier era. What it eventually may do to us may be something for the seventh son of a seventh son to figure out; it is, at any rate, a 100 per cent American development.

BUSINESS REVIVAL GIVES COLLEGE MEN A BREAK

College students graduated this year are finding more jobs awaiting them than at any time since 1931, according to Robert F. Moore, secretary of appointments at Columbia University, New York. Mr. Moore reports that large industrial and business organization are faced by an "alarming gap in their personnel as the result of depression economics."

Fresh evidence that business is rapidly returning to normal activity under the stimulus of the New Deal is to be found in the fact that organizations which laid off large numbers of employees are seeking to rebuild from the bottom and are taking on young college men to fill ever increasing vacancies.

Mr. Moore reported that whereas the top salary a young graduate could expect last year was \$100 a month compensation this year has risen to \$125 for the better positions. "Jobs that formerly paid practically nothing," he added, "now offer up to \$85 a month."

"With business gaining apace, many companies are confronted with the fact that for five years they have failed to train men to fill in the better jobs. Now the man at the top is in need of assistant. They are seeking the college field of young men who can be trained quickly to meet the pressure of renewed business activity."

CITIZENS WAR ON CRIME

New York City has learned to have many other municipalities, that supreme indifference of the public to organized crime is in itself a real barrier to law enforcement. So a group of New York's prominent citizens, headed by Harry F. Guggenheim, former ambassador to Cuba have voluntarily organized a sort of civic crime committee. These business men will assist authorities in crime detection and prevention and law enforcement. They seek particularly the co-operation of the little fellow who is harassed and intimidated by the big-time racketeers. There is an experiment which will do much to arouse public opinion to the true nature of the "crime problem." If properly handled, with the wide enlistment of the public's interest, it represents the kind of modern citizenship every city might well foster.

PROMISE YOURSELF

Certainly we do not wish to bore our readers with diatribes against the killing of so many American citizens on the highways of the land but it is a serious matter when nearly three thousand citizens die the last every month in automobile accidents.

The number of those injured is appalling. The economic loss alone justifies a campaign to reduce the accidents and save life and limbs.

There is much that the average man or woman can do in this drive for safety. No one has to wait on his neighbor. You can make up your mind today that, hereafter, you will drive more carefully. Others can do the same. The cumulative effect will be tremendous even if there is no organization, no publicity and no boasting.

We hope that at least one reader of this article will decide immediately to take the pledge of the safe driver. If you are the one you needn't bother about advertising it to the world. Just remember your promise to yourself when you drive your automobile.

Who remembers the time when people thought it was important to ascertain the phases of the moon before undertaking important tasks?

The man who has just come home from his vacation is usually surprised to discover how many of his friends did not know where he had gone.

Finger-Waved Hereford Cops the Blue Ribbon

A yearling Hereford which secured in the recent fat stock show at Montgomery, Ala., after it had been finger-waved by a "beautician" is pictured above. In the picture are Allen E. Grubb, cattle breeder, A. E. Thrash, who gave the wave, Allen E. Grubb, Jr., and John Hill.

Do You Remember

... these happenings of 10 and 15 years ago?

(Taken From The Files of The Haskell Free Press)

July 14, 1927

Jesse Lee Sanderson, helper in the John Herron Tin Shop, while soldering a pipe dipped a wet ladle into a pot of molten metal which caused the metal to splash into his face, completely destroying his eyesight, it was feared. He was taken to the Stamford Sanitarium for treatment.

Two local theatres, the Haskell and the Texas, have been taken over by a new company recently organized in Abilene, according to word received here.

The City Council of Rule has granted a franchise to a gas company from Woodson to construct a gas system in that city.

Haskell county has the distinction of having two sheriffs as there have not been any new developments in the controversy between the Commissioners Court and Sheriff Turnbow. Wayne Perry, who was appointed by the court to succeed Turnbow, filed his official bond, which was approved last week. Turnbow still occupies the Sheriff's office and Mr. Perry is awaiting the outcome as an interested bystander. It is understood that the Commissioners Court is through with the case insofar as any action that they may have to take is concerned, and the next step to remove Turnbow will be made in District Court.

July 14, 1922

Drillers on the Glenn well in the eastern part of the county are underestimating this week preparatory to shutting off water which has been giving trouble at 1894 feet. Several favorable oil and gas showings have been encountered in the test.

At a meeting of the Commissioners' Court this week the county tax rate for 1922 was set at 55 cents, three cents lower than for 1921 when the rate was 58 cents.

Tuesday July 11th was the hottest day of the season to date. The mercury soared to 103 degrees, according to the government thermometer kept by Judge Sanders. Arrangements have been made for Rochester to secure electricity and electric power from the American Public Service Corporation by tapping the high tension line running from Haskell to Munday. The connection will be made at Weinert.

Miss Gladys Taylor of this city and Mr. Tom M. French of Fort Scott, Kans., were married in Memphis, Tenn., on July 4th.

J. E. Grissom, J. V. Hudson, R. J. Reynolds and their families left Wednesday for the Yellowstone Park, where they will spend about six weeks.

H. M. Smith and family left Sunday for the Ozark Mountains, where they will spend several weeks.

NEW MONEY MINTED
Philadelphia, Pa.—Already this year 44,000,000 silver coins and 151,000,000 minor coins, including pennies and nickels, have been minted, according to Dr. Edwin H. Dressel, superintendent of the U. S. Mint. He said the demand for new coinage indicates general business improvement.

Last year the mint produced 102,000,000 silver coins and 303,000,000 minor coins, together with 74,600,000 foreign coins for a new record.

EMPLOYERS SHARE ESTATE
Chicago.—Under the terms of the will of the late Richard Crane Jr., 5,097 employees of the Crane Company in this country, England, Canada, France and Belgium, will receive their proportionate share of 88,202 shares of stock of the Crane Company. The transaction involves around \$3,000,000 worth of stock.

Running Water System Blessing to Farm; Electrically Driven Pump Helps Provide It

The rapid spread of electric lines into rural districts, especially in the last year, writes Terry Landseer of the Semi-Weekly Farm News, has made it possible for any additional thousands of country people to have electricity on the farm and in their homes, and at prices lower than ever before attainable by them. Of the many uses of electricity, hardly any seems more important than that of providing running water. Electrically driven pumps run cheaply and silently, and scarcely ever require repairs.

Water may be pumped directly into the pipes each time water is used, or it may be pumped at long intervals and stored. By the former method there is no storage, except a few gallons in a pressure tank. As water is drawn from the pipes the pressure in the tank is lowered, and this trips a switch which causes the motor to start and continue running as long as water is being drawn, and long enough afterward to restore the proper pressure. This is easily the cheapest method, since no large storage tank is required; but the water flow is limited by the capacity of the pump, and may be further limited by scarcity of water at the source.

If the pump is getting its water from a spring or spring-fed well with a capacity of ten gallons a minute, then ten gallons a minute is all one is going to get. An attempt to get more will result in air entering the pipes, possibly enough to muddy the water at its source. If the pump is taking its water from a well of reasonable depth, the reserve on hand in the well will be sufficient to supply the pump with water. After each pumping more water will flow in to the well.

Automatic Control
If the water is being pumped into a tank of fair size, there will always be enough on hand for a bath, dishwashing, or other brief use. An automatic control also can be installed in the tank, which will switch on the current and start the motor as often as needed. Such a control will be actuated by the falling water level, rather than by water pressure. Even a small spring will be sufficient to supply enough water to keep a large tank full if an automatic control is installed on the pump, and the capacity of the pump is not greater than the supply of water.

Running water can be used in the home in so many ways. Vegetables, for instance, need considerable water to get them clean. If water must be brought into the kitchen in buckets, there is the constant temptation to skimp on the water, with the result that greens, potatoes, berries, etc., may not really be cleaned. No woman should be asked to bring water into the kitchen in buckets if there is any reasonable way to provide with running water.

Another thing in the kitchen that requires lots of water is milk vessels. One rinsing and and casual washing will make a milk vessel look clean, and for that reason many are inclined to stop at that; but scientists tell us that numerous washings are necessary to get all the milk out of the crevices, if, indeed cold water can do it at all. If there is an abundance of water, especially hot water, it is easy to wash milk vessels until they are clean. Even the tiniest bit of milk, left in the crevices to sour, will raise millions of germs, which will escape into the next milk put into the vessels.

Dishwashing a Pleasure
And what a convenience plenty of running water is to those who wash dishes! It is no joy to wash dishes in a pan of water, but when there is plenty of running water, both hot and cold, dishwashing need not be a bore. By contrast it can even become a pleasure. Certain it is, there is enough difference in the quality of the work to justify the housewife in feeling a pride in glistening-clean dishes in the cabinet.

It is the bath that requires the most water; yet there need be no

up when summer comes. Some shrubs, such as the crape myrtle, will bloom all summer if watered, but it will quit blooming as soon as the ground around it gets a little dry.

Keep Chickens Supplied
It is no trouble at all to keep the chickens well supplied with water if there is a hydrant in the back yard. Indeed, the watering can be made automatic by use of a float valve, though an occasional cleaning of the trough will be necessary. Water is the chief ingredient in eggs, and when the water supply is scanty, the egg output is lowered. Unclean water is worse than not enough water for the flock, but the two are likely to be found at the same time. When water can be had at the turn of a faucet, there is no temptation to let the watering troughs or fountains stay dirty.

Where there is a motor-driven pump, there may easily be enough water for irrigating the vegetable garden. A few fortunate persons find enough water to irrigate a truck patch in sections where others are not doing so. A fresher supply of vegetables for home use, or a much greater supply for the market is the result. Water at the right time is simply the making of the vegetable crop, also of most other crops.

And what could be more welcome to the housewife than an abundance of water on which to get clothes snowy white. The water used in washing, if it will be the rubbing required if a washing machine is used, less will be the time and effort required.

Gholson Hostess Club

Miss Gholson entertained Supper Club of which she is hostess Saturday night. The supper was served at Oates Drug Store, after which the girls went to the Texas Theatre. Present were Misses Geraldine Conner, Mary Eleanor Diggs, Mable Baldwin, Elizabeth Cabree, Mrs. Buford Gholson, Miss Sue Hood of Eastland and the hostess.

Mrs. John Rike, Hostess For Club

Mrs. John Rike was hostess for members of club last Friday night. After a game of Contract Bridge, Mr. and Mrs. Roy Killingsworth were presented with high prize. Mrs. Rike served a superb plate consisting of fried cheese sandwiches, punch, and olives to Mr. and Mrs. Matt Graham, Mr. and Mrs. Duncan, Mr. and Mrs. Billie, Mr. and Mrs. Roy Killingsworth, Mr. and Mrs. Ben Bagwell, Mr. Rike.

Geraldine Conner Hostess Dinner Party Thursday

Geraldine Conner entertained with a dinner party Thursday evening at her home. A profusion of daisies were used through the entertain suite carrying a yellow and white color scheme. The dinner was served in courses to the guests from four-course bride tables by Miss Eula Faye Watson and Conner. Guests for the occasion were Misses Jerry Jordan of well, Rowena Flemming of Gerry Norris, Ruby Sue, Helen Mable Baldwin, Virginia Wair, Elizabeth Hucka, Minnie Ann Meyer, Mary Roy Diggs, Francis Fouts, An-Simmons, Louise Pierson and Garland Bynum.

Returns to Houston Home After Visit

Mrs. Jno. E. Robertson and daughter, Miss Hazel returned to their home in Houston after several days visit in the homes of Mr. and Mrs. Barton Welsh, Mr. and Mrs. French Robertson and Mr. and Mrs. R. J. Reynolds. They were accompanied home by little Miss Emily Robertson who will visit for several weeks.

B. T. U. Will Meet With Sweet Home Church

The following program has been arranged for the meeting of the South Zone, Haskell Association B. T. U., to be held in the Sweet Home Church Thursday July 15th at 8:15 p. m.

8:15 p. m., Song and Devotional—Sweet Home Church.
8:30 p. m., Business and awarding of banner.

Theme: Winning 100,000 Souls For Christ This Summer.

8:45, What Will Bring About a Revival. II Chron. 7:14—Rule Church.

8:55, The Lord's Answer To A True Labors First Question. Matt. 21:23—Haskell Church.

9:05, Some Things We Can Do To Help Win The Lost. I. Pray. 2. Plan. 3. Work—Rochester Church.

9:15—Adjourn.

Be sure and attend this meeting. We had a good attendance at the last meeting. Keep the good work going. Every church in this association is invited. Come and bring a good representative from your church, you will hear something worth while. We are counting on you to help put this meeting over in a big way. Remember the time, 8:15, Thursday July 15, at the Sweet Home Church.

The Midway Home Demonstration Club

The Midway Home Demonstration Club met in a regular meeting Tuesday afternoon at 3:00 o'clock in the home of Mrs. C. V. Oates.

Members answered roll call with, "Name one article about the house that may be the cause of an accident."

Mrs. Virgil Bailey told members what to do in case of oil

stove fire. "Remove oil tank and pour water in reservoir and fire will go out almost immediately."

Mrs. C. V. Oates, chairman, appointed Mrs. Virgil Bailey as recreational chairman and Mrs. Hansford Harris as council representative to replace Mrs. Jesse B. Smith, who resigned.

Mrs. Bailey directed some contests using names of car which were very interesting.

Members present were: Mesdames C. O. Scott, C. C. Childress, Ed Stodghill, Virgil Bailey, Date Anderson, V. K. Norman, Otho Nanny, C. V. Oates, Hansford Harris, and Miss Mildred Scott.

The Mattson Home Demonstration Club

In making lunches and sandwiches try to make them as nourishing as possible and get all the vitamins in. Mrs. E. C. Watson said in giving the demonstration to the Mattson home demonstration club in the home of Mrs. E. C. Watson Thursday June 24.

A round table discussion was conducted by Mrs. Pat Freeland on "A new use I have found for yeast breads." The stunt for the ladies encampment was planned and will be sponsored by Miss Gladys Crume.

Those attending the meeting were: Mesdames, Vern Derr, Hub Merchant, J. O. Merchant, Pat Freeland, Otis Matthews, Jess Matthews, Author Blair, L. A. Stratton, L. D. Holcomb, Pat Weaver, S. E. Bledsoe, E. C. Watson, Visitors, Mrs. Holcomb.

Mattson H. D. Club Studies Curtains at Meeting July 8th

Glass curtains of scrim, dotted swiss, muslin, lawn or dimity are attractive said Miss Vaughan in her demonstration to the Mattson Home Demonstration Club in the home of Mrs. E. C. Watson Thursday July 8th.

Miss Vaughan said when you plan for new draperies work out a color scheme that will harmonize with your room. A good general rule is that when figured walls we use a plain material either of one color or combination of plain colors, when plain walls, figured material may be used. Consideration in regard to windows (1) Let the light come in without producing a glare. (2) To secure a comfortable degree of privacy. For these two reasons glass curtains are desirable in every home. Curtain draperies should appear the same from the outside throughout the house. Variation may be made on the inside but pleasing furnishings should be planned in each room so that going from one room to the other will be agreeable and not distracting. Curtains such as net marquisette scrim looks best with a gathered heading of about 2 inches at the top and a casing beneath it wide enough to allow the rod to pass through. If they are to be left loose at the bottom they should be finished with a 2 1/2 or 3 inch hem, but if they are fastened by a rod they should be made alike at both ends, just long enough to cover the glass. Cretonne, chintz, English case-ment cloth, printed linen, tapestry, and velvet are some of the materials which are used for heavy curtains. A valance or overhanging will make a low room appear lower and add width by its horizontal lines. Cold north rooms require warm colors while sunny

Vallee Brings Band to Exposition

Rudy Vallee and his famed Connecticut Yankees will open at the Pan American Exposition in Dallas, Saturday afternoon, July 10. Vallee and his orchestra will be a feature at the Pan American Casino. The orchestra will play for the Casino dances and between the

two-nightly Casino revues which feature such top notch acts as Georges and Jalna, Stan Kavanagh, juggler, and Sarah Minevitch's Harmonica Rascals. And, of course, there is that Chester Hale precision chorus of 50 dancing girls.

rooms need cool crisp colors.

Theoretical gauze makes simple, but durable curtains. The luxury among beautiful things is not dependent upon money, but upon good taste, careful intelligent selection, arrangement and good standards of housekeeping. No matter how many lovely colors and textures one gathers together to make furnishings for a room, if the furniture and furnishings are not kept clean and in order the room loses its charm. Window shades are a necessary evil, but may be kept rolled up their full length except when in use. These should always show a light tone on the room and one color on all windows from the streets.

Mrs. Pat Weaver was appointed assistant secretary. Miss Vaughan gave the council report, as Mrs. Floyd McGuire had a cold. Mrs. J. L. Mayfield was elected delegate to A. & M. Short Course.

Those enjoying the meeting were Mesdames: Frank Nicholson, J. L. Mayfield, J. O. Merchant, Hub Merchant, Clyde Mayfield, S. E. Bledsoe, Pat Freeland, Otis Matthews, Pat Weaver, E. C. Watson, Floyd McGuire, Charlie King, Jim Stanford, Grandmother Weaver, John Hinkle, Curtis Thornton. Reporter

Shower Monday For Newlyweds

Mrs. Clyde Gordon, Mrs. Ed Stodghill, and daughter Ruby and Miss Joy Cobb were the hostesses for a wedding shower honoring Mr. and Mrs. Denton Atchison. The shower was given in the Rose Baptist Church Monday night.

After several interesting outdoor games there was a contest to see which married couple was the best looking. The prize was given to Mr. and Mrs. Denton Atchison.

Those present and sending gifts were: Mr. and Mrs. W. J. Kendrick, Mr. and Mrs. Buck Kendrick, Mr. and Mrs. R. T. Landess, Mr. and Mrs. Otho Nanny, Mr. and Mrs. J. L. Scheets and Ruby, Mr. and Mrs. N. G. Larned, and family, Mr. and Mrs. Aubrey Bob McDowell, Mr. and Mrs. Will Atchison and family, Mr. and Mrs. Collins and family, Mr. and Mrs. Mrs. Jim Rose and family, Mr. and Mrs. Oran Webb and family, Mr. and Mrs. Monroe Hallmark and family, Mr. and Mrs. Claude Gordon and family, Mr. and Mrs. M. C. Alcorn and family, Mr. and Mrs. J. A. Newby and Wilburn, Mr. and Mrs. Clifford Rose and family, Mr. and Mrs. Jim Henshaw and family, Grandmother Henshaw, Mr. and Mrs. Elbert Mapes and family, Mr. and Mrs.

Henry Russell and family, Mr. and Mrs. Tommie Goodwin, Mr. and Mrs. H. G. Scott and family, Mr. and Mrs. Elmer C. Watson and family, Mr. and Mrs. George Pland and family, Mr. and Mrs. Truitt Cobb and family, Mr. and Mrs. Clyde Gordon and Lynn, Mr. and Mrs. Ed Stodghill and family, Brantley Massie, Ben Mapes, Roy Medford, Bud and J. B. Nanny, Alton Kedell, Jack Davis, Windell Jordan, Earl Campbell, Junior Harwell, Elvis Harris, Miss Thelma Lee, Josephine Walton, Earnestine Pace, and Leona Lee, Mr. and Mrs. Anderson Landess and Miss Thelma Landess.

Baptist W. M. S. The W. M. S. met at the church Monday afternoon in a missionary program and business meeting with sixteen women present. Opening song, "Holy Spirit, Faithful Guide." Prayer by Mrs. Whatley. Mrs. Glenn led the devotional. Topic: "A Great Year in Antioch," reading Act 9:10-19 and Act 11:19-26. The topic of the missionary program was "The Negro" and was discussed as follows: "His Contentment" — Mrs. Jim Fouts. "His Culture and His Sorrows" — Mrs. Ed Fouts. "His Characteristics and His Contribution to the South" — Mrs. Whatley. "Home Missions and the Negro, and Our Task as Neighbors" — Mrs. Whiteker. A business meeting followed. All circles are asked to meet at the church next Monday July 19 to study a book on Stewardship.

Surprise Birthday Dinner Sunday July 11th relatives and friends gathered at the home of Mr. and Mrs. Raymond Mercer with a surprise birthday dinner for Mr. Raymond Mercer.

The birthday dinner was served to the following: Mr. and Mrs. W. Atchison, Mr. and Mrs. Clarence Atchison, Mr. and Mrs. Hallie Chapman and daughters Mildred and Frances, Jimmie Lue Free, Mr. and Mrs. Speck Sorenson and daughter, Ruby Lee, Mr. and Mrs. Rody Sorenson and daughter, Doris and son Billy, Mrs. Raymond Pace daughter Wynona and son Clyde Gendon, Mr. and Mrs. Albert Arend and daughter, Fern and son, Taylor, Mr. and Mrs. Lawrence Mapes and son Jimmie, Mr. and Mrs. Roy Mercer, Leon Stewart, Hubert Sorenson, Willard Mercer, Hulien Atchison, Mr. and Mrs. Cecil Bowers, Rising Star,

Atchison-Rose

Wednesday afternoon June 29, Mr. Denton Atchison and Miss Grace Rose were united in marriage in the city of Haskell with Rev. Jones performing the ceremony. Bob Couch and Ruby Stodghill were the only witnesses.

The bride wore a navy net dress over taffeta with navy and white accessories.

Mr. Atchison is the son of Mr. and Mrs. Will Atchison of Roberts. Mrs. Atchison is the daughter of Mr. and Mrs. C. C. Rose of the Rose community.

Mr. and Mrs. Atchison have a host of friends to wish them much happiness and success. They will make their home in California.

Weaver

Health of this community is good at this writing.

Mr. and Mrs. Beno Andress and family spent Sunday with the latter's parents, Mr. and Mrs. John Lacey of Old Glory.

Mr. and Mrs. Jess Patton of near Haskell attended church here Sunday.

Mr. and Mrs. J. D. Andress of Haskell

spent Saturday night in the home of Mr. Beno Andress.

Mrs. E. B. McDonald and daughter LaVerne are visited relatives in Coleman county.

A revival meeting will begin at this place Saturday night July 17. Bro. Charlie Sargent of near Weir-ner and the pastor, Bro. O. C. Bird, will conduct the services. Everyone is invited to attend.

Irbly

The health of this community is good at present.

Mr. and Mrs. H. P. Moeller of Buckholts, Mr. Henry Moeller of Cameron and Mr. Raulaf Zelisko of

Buckholts spent the week-end

with relatives and friends.

Steve Kubena of Seymour and Bert Cavery of Munday were in our midst Saturday evening. Lloyd Key of Tyler spent Saturday evening in the home of Mr. George Moeller.

Ernest Pleser spent Sunday in the home of Mr. and Mrs. H. Y. Drusedow of Mattson.

OCTOGENARIANS WED

Edmonton, Alaska.—Mrs. Maria Porter, 83-year old widow, and John Zeigler, 80-year-old bachelor slipped away and were secretly married. The bridegroom declared, "I've steered clear of marriage for 80 years, so I figured I might as well take a chance."

FOUR SQUARE GOSPEL CHURCH OF WEINERT

We wish to invite everyone to the Thursday night service at 8:30 p. m., July 15, 1937 to hear Rev. and Mrs. Jose Ubarri our missionaries from Porto Rico.

Don't fail to hear this spirit filled couple and see their pictures. Sunday morning, 9:45, Sunday School for all ages.

Morning worship, 11:00 a. m. Miss Ruby Musgrove of Los Angeles, California will speak. 8:00 p. m.—Sister Lee preaching.

GILLIAM CHURCH OF THE FOUR SQUARE GOSPEL

A revival is being held at the Foursquare Church at Gilliam. Rev. Earnest Spinks formerly of Gilliam community is preaching every night. Come and hear these soul-stirring messages.

The morning service starts at 10 a. m. Everyone is especially enjoying these Bible studies. Come and bring your Bible.

Everybody welcome.

J. E. Thompson, Pastor.

Missionaries To Speak

On the coming Friday night July 16th, Missionaries who have just returned home from the field in Porto Rico will speak at the Gilliam Foursquare Church. These talks will be very interesting.

Church Services at Ballew School House Sunday

Bro. J. M. Denton primitive Baptist preacher of Anson, will preach at the Ballew school house Sunday, July 18th at the 11 o'clock hour. Everyone is requested to bring a basket lunch and we will have dinner on the ground and singing in the afternoon. The public in general is invited to join us. Bro. Denton is an able speaker and we are sure you will enjoy the day.

Construction Speeded on Grand Coulee Dam

Work is being speeded on the Grand Coulee dam on the Columbia river in the state of Washington, which will eventually cost more than \$113,000,000. The giant concrete mixer at left and the second on the opposite side of the river deliver concrete to cars which operate on a trestle. The rising blocks of concrete may be seen below the trestle on both sides.

Tractor Does Many Jobs on Farms; Hauling, Cultivating, Provides Power

(By Henry Field in The Semi-Weekly Farm News.)

The up-to-date farmer can find some job for an all-purpose tractor any day in the week. When it is not busy pulling a cultivator to slay weeds in a hurry it can get a job throwing up terraces on stubble lands preparatory to the fall and winter plowing. We can finally get a terrace built by means of a turning plow and two average mules, but this method requires hours and hours of time and many miles of walking behind those mules. A tractor can pull a whole gang of plows and you can ride while you work and get the terrace up in much less time.

It is never good business to buy any pieces of equipment for it to do to make it pay you to own it. If you only have ten acres of oats to handle there is no sense in buying a combine. Think how long it would take ten acres of oats to pay for even an old second-hand combine. It is the same with owning a tractor. If you are not going to put it to work you have no good reason for buying it.

How many ways can you use a tractor on your farm? How many days in the year can you keep it busy and can you make it replace all your work animals? When you get these questions answered honestly you can decide intelligently whether it would be good business to own a tractor.

If you can make your tractor do the heavy hauling or all the hauling not done in your family car or light truck you will not need any draft animals for that purpose. If you can also make it do the field work you can just about displace your work animals with it. If you have to run after cattle much it will be a little difficult to get that off any kind of tractor and you will have to keep at least one cow pony.

As for doing all kinds of field work it has been demonstrated that tractors can get over almost any kind of land and pull various kinds of implements. If land is so rough you cannot get a tractor over it it ought not to be cultivated at all. That is if the land is too steep or cut up by gullies. Level new ground may have so many stumps you could not get much comfort riding a tractor over it, but so far as I ever heard there is no comfortable way to plow new ground. You either have to worry along with a one-horse plow and wait until the stumps rot out or you have to pull or dynamite the stumps.

Falling Stumps

Tractor power is just the thing to use in pulling stumps so why not use all your spare time cleaning out stumps and then go ahead and use the tractor to make a crop on the improved land. If the land has been in cultivation several years the chances are you can run a heavy tractor over the stumps and break them off or you can pull them out without much trouble.

If you have any terraces that are like high, narrow ridges they ought to be worked over and made broad and smooth. The tractor is not only good for this job, but after it is done the field will be in a condition for tractor work right over the terraces. When rebuilding terraces make sure they are on the right grades. If ditches are found above them this shows that the terrace has too much fall and so the grade should be changed. Have the lines run over and make new terraces rather than try to repair old terraces that were never right.

Practically all tractors are bought for field work but they can be used for many operations about the farm. The tractor engine will supply power for pumping water to an elevated tank. Many farmers who thought they never could afford to have running water in the house and barn find that it is easy enough to keep the tank full when all that is needed is a few hours' work pumping ever so often. If you have no

Flea Hopper Is Major Cotton Pest

Meetings of farmers are being held in various Texas counties this month to consider ways and means of stopping what is said to be the worst infestation of flea hoppers in years. The cotton flea hopper has become in recent years one of the major pests on cotton in Texas ranking with the cotton boll weevil and at times actually doing more damage than the boll weevil. In Dallas county, for example, the 1935 cotton crop was cut more than 50 per cent by the flea hopper, which literally strips the cotton stalk. So the farmers are out to stop the hoppers' depredations. And apparently the best way of doing that is through the use of a mineral which Texas produces in enormous quantities: sulphur.

Research of State and Federal agricultural authorities has developed the fact that finely ground sulphur dust is one of the cheapest, safest and most effective insecticides for controlling the flea hopper. Sulphur ground so that at least 93 to 95 per cent passes a 325-mesh screen is of the proper degree of fineness. It may be obtained commercially in the conditioned and unconditioned forms. Conditioned sulphur contains from 1-2 to 8 per cent of a light fluffy material or conditioning agent to improve its physical qualities for dusting purposes. Unconditioned sulphur and pure sublimed sulphur give satisfactory results when properly applied, but a good application may be somewhat difficult to obtain unless the dusting equipment is new or in first-class operating condition. At any rate coarsely ground or lump sulphur should never be used to control the flea hopper. Dusting should be started when it becomes evident that the cotton plants are not putting on squares as ordinarily would be expected. From 12 to 20 pounds per acre should be used for each application, the determining factors being the size of the cotton, and severity of the infestation, and the lateness of the season.

The bulletin of the Texas Agricultural Experiment Station on cotton flea hopper control has this to say about the cost of sulphur dusting: "Suitable conditioned sulphurs have been selling for 3 to 3 1/2 cents per pound retail making the cost of an application about 75 cents per acre. The average cost of controlling flea hoppers during the past several years has varied from \$2.00 to \$4.00 per acre for the season. This expenditure has produced an increase in yield over untreated areas of 102 to 361 pounds of seed cotton per acre and provide a net gain of \$2.08 to \$10.44 per acre as a result of controlling the cotton flea hopper."

That gain is worth going after. And farmers in areas where cotton is suffering from flea hopper depredations should be told how the Texas mineral can be used to save Texas cotton.

Mr. and Mrs. J. U. Fields Have Out-of-Town Guests

Mr. and Mrs. J. U. Fields had as their guests last week, Mrs. Joe E. Sheaded of Puduah. Mrs. Sheaded will leave for New York in a few days from where she will sail for Beyrouth, Syria, on the 17th of July. Mr. and Mrs. J. M. Porter and son, Maurice, of Galveston were guests also in the Fields home the past week.

Visiting in Dallas

Mrs. H. Hisey and son Doyle, and two daughters Misses Mary and Bonnie Dell, accompanied by Miss Frances Merle Edwards, left Monday morning for Dallas, where they will attend the Pan-American Exposition. Mrs. Hisey and children will also visit points in Louisiana before returning to Haskell, and Miss Edwards will spend several weeks with relatives and friends in Dallas.

Mr. and Mrs. Harry Bradley of Alpine are spending several days with relatives and friends here this week.

Misses Maude and Fannie Isbell of Munday were in Haskell for a short time today. They were en route to San Angelo to visit relatives.

Mrs. R. J. Paxton returned home Saturday from a two weeks visit with relatives at Dallas, Houston, Goose Creek and Austin.

Miss Gayle Roberts returned home Saturday from Denton where she has been a student in Texas State College for Women (CIA) during the first summer term.

Mrs. M. W. Johnson and daughter Mary Lou, who have been living in Stamford joined Mr. Johnson here the first of the week and will make their home in the Baldwin apartments in north Haskell. Mr. Johnson has been connected with the Haskell Motor Company for several months.

Mrs. Carl Powers and sons and Miss Frances Fouts spent the week-end in Dallas with relatives and friends, and attended the Pan-American Exposition. They returned to Haskell Tuesday.

James A. Greer, editor of the Rochester Reporter, was a business visitor in Haskell Monday.

Mr. and Mrs. Leslie Gibson and son of Iraan, are visiting friends and relatives here this week.

NOTICE OF ESTRAY SALE

Notice is hereby given that on the 2nd day of August A. D. 1937, I will sell at public auction, to the highest bidder for cash at the court house door in the town of Haskell, Texas, in said County of Haskell, within the hours prescribed by law, the following estray animal, viz. 1 cream colored jersey steer two years old, Brand, if any, cross behind left shoulder.

The same was estrayed by me before B. T. Clift a justice of the peace in and for Precinct No. 1, Haskell County, Texas, on the 5th day of May A. D. 1937.

G. C. Carrothers, Taker up. 2tc
