PLAN PERMANENT ORGANIZATION FOR COUNTY PIONEERS

Residents of Section Prior to 1900 Will Meet Here To Perfect Plans

Perfecting of a permanent Old Settlers Organization is planned during the Fair, with the annual Old Settlers Reunion to be held Wednesday, Oct. 21, John S. Rike, chairman of this division, announced this week.

All old settlers, those residing in this section prior to 1900, are being urged to attend a meeting at the City Hall Wednesday morning at 10 o'clock, at which time plans for the organization will be perfected. All pioneers will be required to register, and will be given passes for all four days of the Fair. A fee of \$1.00 will be charged to take care of the expenses of organizing.

Letters have been mailed to pioneers throughout West Texas, and arrangements are being made for a large number. Leaders in the move for the permanent organization include F. G. Alexander, M. S. Shook, R. E. Sherrill, W. E. Sherrill, Joe Lee Ferguson, M. A. Clifton, Tom Ballard, Burl Cox, Al Cousins, R. V. Robertson, Virgil Hudson, Albert English and others.

Weekly Trades Day Wednesday Draws Big Crowd

Haskell's first weekly Trades Day, held Wednesday, attracted a crowd which exceeded the most sanguine expectations of sponsors, and merchants in all lines of business reported an increased patronage during the day.

Believing that the perfect weather which has prevailed during the past ten days would keep farmers busy in their fields, a small attendance was expected, a number of business men stated. Instead, the large crowd attending the occasion throughout the streets continued from a period of thirteen weeks, sponsors state, with the next one to be held Wednesday, Oct. 21, opening day of the Fair.

Crossing Lanes Are Being Marked For Pedestrians

City Marshal Sebo Britton and several helpers started work Wednesday on marking street crossing lanes at intersections on each corner of the square, in preparing to handle the large crowds expected for the Fair next week. During days when the streets are crowded, officers will be stationed at the intersections to enforce safe crossing rules, both for pedestrians and motorists, in order to prevent any possible accident.

Rule Girl Named Vice-President of Literary Society

Miss Esther Rogers of Rule, student at North Texas State Teachers College, has been installed as vice-president of the Mary Arden Literary Society. This society is one of the outstanding organizations on the Teachers College campus, and is a member of the Texas Federated Women's Clubs. Miss Rogers is a senior at the college.

Little Don Edward Crump spent last week with his grandmother, Mrs. Lola Keel while Mr. and Mrs. Crump visited the Centennial in Dallas.

Elementary School At Munday Will Be Dedicated Tonight

The Munday Independent School District will observe the completion of a new elementary school building with appropriate exercises on the evening of Thursday, October 15. The new building will be open for inspection at seven o'clock Thursday evening and the program will open in the auditorium at eight o'clock. J. W. O'Banion, director of supervision in the State Department of Education and formerly superintendent of the Munday schools, will deliver the dedicatory address.

Board of Trustees of the Munday school district have extended an invitation to the public to attend the dedication program and view what is reputed to be one of the most modern and commodious elementary school buildings in this section.

J. E. ELLIS IS SERIOUSLY ILL. J. E. Ellis suffered a stroke of paralysis Wednesday evening about 8 o'clock and is reported in a serious condition today. Ed Ellis and Miss Minnie Ellis, son and daughter, of Fort Stockton, were notified last night and arrived this morning to be at his bedside.

JURY IN BRUGGEMAN CASE FAILS TO AGREE

Jury hearing testimony in the case of the State vs. Lewis Bruggeman, charged with assault with intent to murder, were unable to arrive at a verdict after some 20 hours deliberation, and were discharged by District Judge Dennis P. Ratliff Tuesday afternoon at 5 o'clock.

Both Bruggeman and Kretschmer are members of prominent families residing in the Irby community.

Defense was conducted by Davis & Davis of Haskell, and L. D. Ratliff, Sr., assisted state attorneys in prosecution. Jury in this case was composed of Walter Mooney, P. C. Mansker, J. J. Beason, S. S. Hook, Ed Honea, M. L. Raynes, Joe Holcomb, G. R. Flanagan, M. O. Fields, T. E. Flenken, H. Hisey and W. P. Curd. Re-trial of the case will likely be set for the January term of District Court, officials said.

Preparations are being made this week for the opening of a cotton brokerage office in this city by L. E. Widlake of Altus, Okla., who has been engaged in the cotton business in that city for the past 16 years.

Mr. Widlake has leased a suite of three offices upstairs over the Haskell National Bank. The Haskell office will have facilities for serving a wide section of West Texas. Mr. Widlake states, and will attract a large number of buyers to Haskell during the cotton season, he believes.

County's Quota For CCC Camps Increased by Ten

Haskell county has been allowed an increased quota of CCC enrollees, according to information received by the Haskell county relief office this week. Ten more applicants can be accepted by the Haskell office, Mrs. Kate Perdue stated, and this number must be ready for final enrollment by Oct. 25th.

Youths desiring to enroll under these provisions should report to the Haskell office immediately, as only ten can be accepted.

Indians Defeat Rule 19-0 To Maintain Grid Lead

Haskell Indians tenaciously up-held their perfect record in District 9-B football last Friday night and defeated the Rule Bobcats, 19-0 after the visitors had seriously threatened early in the game when they blocked a punt on Haskell's 5-yard line but were held on downs.

First tally was made in the second quarter, when Josselot, speedy right halfback twisted through the Rule line for a sensational 81-yard run. Effort to convert for extra point failed. In the third quarter, Barnett, fullback in a play off right tackle, sprinted 87 yards to the pay line, but again kick for extra point failed. Third marker came when Lon McMillin, left halfback, passed 15 yards to Barnett, who carried the ball over from Rule's 15-yard line. Josselot went through the line for extra point.

Summary: First downs: Rule 8, Haskell 4. Yards gained from scrimmage: Rule 133, Haskell 79. Passes attempted: Rule 8, all incomplete,

5-YEAR SUSPENDED SENTENCE GIVEN IN CULBERTH TRIAL

Guilty Verdict Returned By Jury, With Suspension Recommended

Mrs. Mary Culberth of O'Brien was given a five-year suspended sentence in District Court Friday morning, after the jury hearing evidence in the murder case pending against her returned a verdict of guilty, and recommended the sentence be suspended. The 32-year-old woman, resident of O'Brien for a number of years, was charged by Grand Jury indictment with murdering her infant son on or about Sept. 1st of this year. Trial of the case was begun Thursday morning, with Johnny Banks and Walter Murchison appointed by the court as counsel for the accused woman.

A statement given to county officers by the woman shortly after the alleged crime was committed, was introduced by the State, supported by testimony of physicians and several other witnesses. Defense was based principally upon temporary insanity, with defense attorneys placing several Haskell and Knox City physicians on the stand.

Verdict of the jury was accepted through her attorneys, and after being sentenced, Mrs. Culberth was released and allowed to return to her home.

What Shall We Call Them?

There are many high school students whose middle names you've probably never heard. Some students are very proud of their middle name and would like to be called by that name, but to the greater part of the number it is the bone of their existence. Only by much persuasion were we able to get them to tell us their names. Here are a few of the names and also what the initials stand for that some students go by:

Kenzie Pearlline Tucker.
 Woodrow Benjamin Harrison.
 Frederick Fay (Buster) Gholson.
 Winnie Mae Darnell.
 Thomas Joseph Watson.
 Annie Hugh Barnett.
 Charleston Tinkerstock Field.
 Marjorie Myra Ratliff.
 Joe Goodby Maples.
 George Vardeman Wimbish.
 Paul Berlowitz Crawford.
 Robert Franklin Harrison.

Freshman Gossip

Geraldine Akins really wants to talk during study hall, but it's against the law, Gerry, don't you remember?

Say, Jean C, are you putting something in your shampoo that makes your hair turn red, or is it just the sun?

Emma Pearl Graham surely finds something interesting in the back of the room during the third study hall. All right, who is he, Emma?

A mistake was made in last week's paper. Howard Kohout also has red hair, so Eulamae Watson and Buddie Crandell are not the only ones.

I thought the boy was supposed to be bolder than the girl. What about it, W. L. and E. J. R.?

Five freshmen girls are really bragging because they haven't gotten a detention slip—yet!

Freshmen are surely inquisitive. Every day some one comes up to the reporter and says: "Did you put anything in the paper about me this week? You did? Oh, what was it?"

Mostly Freshmen Gypsy Ramblers are selling programs at the football game Friday. They are trying to make more money selling them than the sophomores, juniors and seniors. (Can't you take the hint and buy from them next Friday?)

Bonnie Dell Hisey and Mary Louise Holland are going to have a birthday party soon. We are wishing you both many more happy birthdays.

News of Former Students

Anabel Stanton, a spring graduate of Haskell High, is studying music this term in the Sherwood School of Music, Chicago. She has been complimented upon her fine musical foundation, her technique and the clearness of her playing.

Anabel formerly studied with Mrs. George Morrison of this city, the Kizer Studios in Wichita Falls, Miss Craig Leslie of Athlone and Mrs. Nadene Wheeler, formerly of this city. Friends of Anabel extend their best wishes for her continued success.

Miss Louise McAnulty, a member of the class of '35, has recently entered Randolph College, Cisco.

It Really Happened

On Wednesday in an English IV class there ensued a lengthy discussion upon the question of whether all history is biography. Near the close of the discussion Miss Davis asked J. J. what would we have left if we were to take all men and what they did out of history?

To this he promptly replied: "The women and what they did."

What! No Chaperons?

Miss Margaret Chapman of Havana, Cuba, who recently enrolled in Texas State College for Women (CIA), was both amused and surprised when Miss Chaney Miller, senior journalism student, pointed out that girls at the college are permitted to have dates without chaperons. "In Cuba," she says, "your mother or brother must chaperon you at night."

Plunging Blackboard Causes Consternation

Had you passed the door of Room Four Wednesday and heard terrified screams from several girls, then laughter from everyone, you probably would have been curious to know the cause. On inquiring you would have received a story something like this:

Two scared freshmen boys were sent to get a blackboard from a room in which a senior English class was conducted. They were carrying it out the door when suddenly both boys let the blackboard go. Had not one end of it hit the floor sooner than the other and changed its course, the top of the board would have hit Miss Davis. This caused the terrified screams and the laughter was caused by the startled expression on the faces of the boys.

Punts and Passes

It is possible, but not probable that some of us don't know the difference, the advantage or object and rules governing punts and passes.

The difference between a punt and a pass is that the punt is the kicking of the ball from the foot and the pass is the throwing of the ball to another player. We have two kinds of passes—forward and lateral—in which their name explains them. Now, the lateral pass can be made at any time, anywhere on the field or any number of times. Whereas only one forward pass can be thrown on one down. The forward passer must be five or more yards behind the line of scrimmage when throwing the ball and the pass must extend across the line of scrimmage. The line of scrimmage, of course, is a line across the field through the point where the ball was put in play. Most passes are diagrammed as yard gainers or scoring plays.

Notes From the Kaigler Studio

This year Mrs. Kaigler has added the study of conduct to our speech course. The first course is public conduct, which teaches poises, charm and kindness to others. Many points of etiquette will be considered, such as when it is proper for the man to enter first in the theater, concert hall, or cafe, and when the lady enters first; who speaks first; when and where introductions are proper, what presents are approved for a man to give to a lady; the proper place for gum chewing; the only place where a woman should use make-up kit or make her toilet; when a man takes a lady's arm, when a woman takes a man's arm; such terms as "my boy friend" or "my girl friend"; who walks near the curb when a man is walking with a lady or when walking with two ladies.

At the conclusion of this public conduct class, a chapel program will be given, dramatizing proper conduct.

An examination will be given on this before Christmas. Then after the first of the year, the second course is "Etiquette in the Home," which includes conduct in the living room and dining room. This also will be dramatized in a chapel program.

Bits and Flashes

If the Indians want to see how real Indians act, they should have been with the Gypsy Ramblers on their hike Tuesday afternoon. It seems as though Dorothy Josseli has an awfully hard time trying to keep Verna from trifling. It has been said that the pep squad mascot are "as cute as pie," (and we agree). C. T. seems to be rather cold natured, anyway, he was seen sitting on the stove in Room Six last Monday. More than one person seems to be glad that C. T. has returned to "Ole Haskell Hill" again. Have you heard of the "standing committee"? Well, they are only known to function on chemistry experiment days. Rumors say that Margaret B. is having trouble with Rule. Thomas Lee's art lies in erasing in typing, but not typing. Ask Mr. Brooks. Friday Miss Vick personally dedicated a front seat to Paul R. in hopes of keeping him awake. Let us warn Verna H. about leaving notes in the bus, or maybe it was her friend. We wonder why Sunny C. blushes when asked about that bandaged eye. A serious thought before we go: six weeks is just ahead.

Gypsy Ramblers Go On Hike

Although the sun wasn't shining and the wind was somewhat chilly, the Gypsy Ramblers had "one more" good time last Tuesday afternoon. Accompanied by their sponsor, Mrs. Wimbish, and a guest, Mrs. Perry Mason, the Ramblers went on a hike to a wooded spot about a mile and a half south of town. After exploring around a bit, they built a bon-fire and began spreading the lunch. Several Ramblers wandered away so far that supper had to be waited on them. After everyone was finished the new members were made to pick up the papers and scraps.

Gridiron Gab

Now that we have Rule off our hands, and boy what a job we had doing it, we take on the Monday Moguls next Friday night. The Indians are expecting a tough game.

Here is the low-down on Monday: They were defeated by Anson 12 to 6, and held Hamlin to a 6-6 tie. That is a pretty good record for them and they are expecting to better it next Friday night. A number of them were over for our last game and among them was their captain, Plummer Edwards.

We found Rule more than a handful, and were our boys surprised? That kid, Jimmie Kemil, can really tote that mail, and, boy do they grow them tough over there? Did you notice the size of No. 13 (Kelly)? He was the one who blocked the punt early in the game giving Rule their only real scoring chance.

Speaking of growing them big, look at Haskell. Take Milton Whiting—he weighs a cool 230 pounds, suit and all. He is the largest man on the squad. We also have Robert Thompson who hits 190 pounds. That is big enough in anybody's company.

Jack Simmons is about the scrappiest man on the team. He played lots of the game and did a good job of it. His policy is: when a fellow hits you hard, you hit him just a little harder. That No. 13 on Jack's suit doesn't seem to bother him at all.

Wow! Did the Indians have a hard practice last Monday afternoon? They pushed the bucking board for nearly an hour. The boys have their minds set to never be outplayed again. Mason is really giving the line a working over. A few of the boys are limping around but will probably be there next Friday night.

Let's don't forget to give the rest of the boys some credit. Jenkins, Hayes and Henshaw played a good game at end. Scott, McMillen, Thompson, Fred Barnett, D. Crawford and Jimmie Crawford played well in the line. Rogers is a real quarterback. He called a good game. Zelden Thompson did his part.

Columbus Day Reserved

Columbus Day has been observed but few people think of the significance of such a day. Four hundred and forty-four years have passed since Columbus landed on the beach of the West Indian Islands. Think of the native Indians that greeted him when he landed and then of the great nations that are here today. Think of the comparison between the greeting such an adventurer would receive today and the one Columbus received. Columbus had an imaginative discovery and therefore caused the discovery of America. There are quite a number of cities that are named in his honor and one large South American Republic that is named after this bold adventurer.

Messrs. Henry Post, Tommy Davis, Bill and Ben Clifton visited Mrs. Wimbish's class last Friday.

Strange Dreams

It seems that many of the seniors' minds keep working after they have gone to sleep. As a result of this overtax on the brain they dream some queer things. For instance, Jerry Conner dreamed that she got married or was fixing to. It was a large church wedding with beautiful flowers and perfect arrangement of everything. She wore a white satin wedding gown with a veil and train. Soft music was playing and a peaceful quiet had settled down the aisle to meet the groom, (who, by the way, lives in Haskell). Just at this moment she decided that she didn't want to be married at all. She threw down her bouquet and stamped her feet and declared that she would not marry. Gerry, we hope that this doesn't happen when the real time comes.

Campus Spotlight

The spotlight has been flashing around and you couldn't guess what it found. It found ten of the Haskell high school football players at the eleven o'clock show Saturday night. You should have seen those boys slip out after the show.

It seems that Dorothy Mae Carr is getting pretty good with the male section of HHS. Several have been inquiring about where she lives. Especially Claude Jenkins. (We'll give you a little tip; she lives across the street from Marvina Post).

Another dark spot in the spotlight's path is Mont Frieson. Have you noticed the girl he brings over every Friday night to the football game? She comes from Rule and is she a—a—ah—oh, forget it. It's a pity that Jack Simmons isn't larger and older than he is. All the girls seem to be going crazy over him. We wonder what it is; him or the girls' imagination?

Haskell Indians Defeat Rule 19-0

Last Friday night before a large crowd the Haskell Indians won the third straight game. The Indians were out-played the entire game but managed to make three touchdowns.

The first touchdown came on a quick opening in the line where Josseli stepped through the end and outran the secondary for eighty yards and a touchdown. Barnett decided he could make a run like that and in no time at all he was on his way to a touchdown, running nearly ninety yards.

Keep a Good Laxative always in your home

Among the necessities of home is a good, reliable laxative. Don't be without one! Do your best to prevent constipation. Don't neglect it when you feel any of its disagreeable symptoms coming on. We have used Theodore's Black-Draught for 21 years and have found it a very useful medicine that every family ought to have in their home. It takes Black-Draught for biliousness, constipation and other ills where a good laxative or purgative is needed. I have always found Black-Draught gives good results.

The cold germ is a constant threat to your health during winter because leading doctors tell us that fifty per cent of all disabling diseases start with a "common cold." And the invisible but dangerous cold germ finds one of his best opportunities in homes where occupants are most liable to sudden changes of temperature. Therefore, it is a wise precaution to avoid the possibility of sudden changes of temperature in your home this coming winter by providing a constant circulation of pure warm air throughout the house.

SARAH ANN'S COOKING CLASS

Cream puffs and eclairs are not hard to make, in fact they are most simple if the right proportion and right directions are followed. The only difference in the cream puffs and the eclairs is the shape in which they are baked and in the filling and frosting that are used. Cream puffs are round, filled with whipped cream or a custard and then dusted with confectioners sugar. Eclairs are oblong, they may be filled with chocolate cream custard or whipped cream. The tops are covered with a frosting, usually chocolate.

Recipe for Cream Puffs and Eclairs

1-2 cup butter.
1 cup boiling water.
1-8 teaspoon salt.
1 cup flour.
4 eggs.
Melt butter in boiling water. When again boiling, add flour and salt. Stir rapidly until mixture cleaves from the side of the pan. Remove from fire, cool, add one of the eggs and beat until smooth. Beat vigorously for a few moments longer. In similar manner add the remaining eggs one at a time, beating well after each egg is added. After all the eggs have been added beat the mixture well for three minutes. Longer beating will improve the mixture. Shape on greased baking sheet. Bake in oven 450 degrees for twenty minutes, decrease heat to 350 degrees and bake for 30 minutes.

Custard Filling

1-2 cup sugar.
1-2 teaspoons flour.
1-2 tablespoons cornstarch.
2 eggs slightly beaten.
1-4 teaspoon salt.
2 cups milk.
Mix sugar with flour, cornstarch, salt and enough milk to make a smooth batter. Add to the remaining milk which has been scalded. Cook until mixture thickens, stirring constantly. Place over hot water and continue cooking for 10 minutes longer, stirring occasionally. Add eggs and beat until they thicken slightly. Remove from the fire and add flavoring.

The tops of well risen puffs are always uneven and seamed. A cut may be made along one of the cracks and a small portion of the top removed. The custard or cream may then be put in the puffs and the tops replaced. Dust with confectioners sugar.

Eclairs

The dough for an eclair is shaped into a long strip and then baked as a cream puff. Fill the center with custard given above or whipped cream. Cover with chocolate frosting.

Chocolate Frosting

Two squares of chocolate.
One tablespoon hot water.
One egg well beaten.
1-2 cup confectioners sugar.
1-4 cup butter.
Melt the chocolate over hot water in a double boiler. Add water, sugar and egg, beat well. Let it stand over hot water several minutes. Cool to luke warm. Add butter a tablespoon at a time stirring until smooth, spread on eclairs.

New Club Year Ushered In With Lovely Breakfast For Magazine Club Members

The Magazine Club ushered in another club year with a lovely breakfast Friday morning at 9:00 o'clock in the club room. Members and guests were presented to the new president, Mrs. T. R. Odell, and the other new officers and members of the social committee.

Three long tables were arranged in the club room with very unique place cards painted by Mrs. Perry Mason. These bore sketches of Sam Houston's home with the menu inside. Each table was beautifully appointed with bowls of yellow dahlias and gladiolas with tall white tapers on either side carrying out the club colors, yellow and white. The lighted candles gave a soft glow over the room.

After the invocation by Mrs. F. T. Sanders, a delightful breakfast was served. Mrs. Odell then made a beautiful introductory talk praising the work the Magazine Club has done in the past and what it has meant to the community. She asked the wholehearted co-operation of all members during the coming year that this may be the most successful year the club has ever known.

Each member then introduced her guest and Mrs. Odell introduced the club's guests, Mrs. Lee Powell and Mrs. Jno. W. Pace. Mrs. Powell, accompanied by Mrs. Pace at the piano, played two violin numbers.

Mrs. Pace and Mrs. O. E. Patterson at the two pianos gave "The Peer Gynt Suite."

Mrs. J. U. Fields, principal speaker at the breakfast, told of the "Restoration of Colonial Williamsburg in Virginia." As an introduction to her talk Mrs. Fields told of the work being done to restore and preserve Sam Houston's home in Huntsville. Each person was presented with two pecans sent from the famous pecan tree at Sam Houston's home. Mrs. Fields then told of her visit to the historic city of Williamsburg. Millions of dollars have been spent on restoring this city and making it as nearly like it was before the American Revolution as possible. She showed a number of interesting pictures to illustrate how this has been done.

Back In 1925

Eleven years ago citizens of Haskell were elated over the success of the first Haskell County Fair, forerunner of the Central West Texas Fair which holds forth in its twelfth annual exposition next week.

As a supporter of the infant organization back in 1925, we are still 100 per cent for the Fair, and believe it a worthwhile medium in the development of agricultural interests of this part of the state, livestock and section.

We'll see you at the Fair . . . and if you have insurance problems we'll take "time out" to discuss them with you!

Helen Bagby Circle

Mrs. H. R. Whatley was hostess to the Helen Bagby Circle Monday afternoon, Oct. 5th, with eight ladies present.

Mrs. Taylor was leader of the Royal Service program on "The Blessed Grace of Giving." Mrs. J. B. Bailey gave the devotional on "Two Debtors" (Luke 7:40-50) followed with prayer, and a song "The Ninety and Nine."

Mrs. Ellis then told us about "Money and the Kingdom" and Mrs. Cates "The Blessedness of Tithing." A prayer was then offered by Mrs. Glenn. Mrs. Taylor told about the "Blessedness of Giving," followed by a poem on "Pay the Tithes" and "Give a Gift" by Mrs. Whatley.

Mrs. Simmons then told us about "Some Financial Plans." Mrs. Ellis discussed this Grace for the young also.

As we lead our young people to tithe and give, we are building up a great denomination of good stewards who shall, with their tithes and offerings dedicated to the service of the Master, hasten the time when His Kingdom shall come through all the earth.

"If you would walk the Heavenly way, Of partnership with God each day, Then His commands you must obey And pay the Tithes."

"If special blessings you implore, All shaken down and running o'er Pay your Tithes and then add more —Give a Gift."

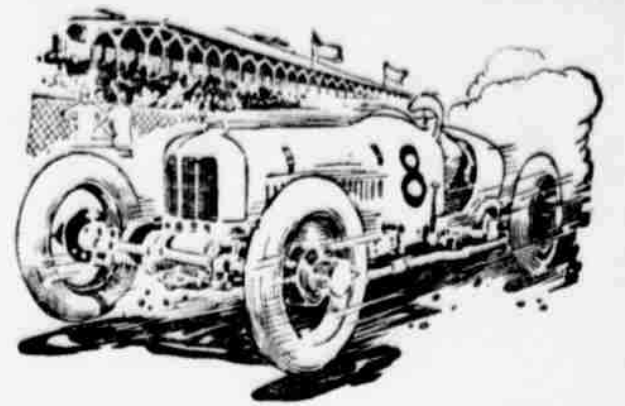

We were dismissed with prayer by Mrs. Oates. We will meet at the church next Monday afternoon with a Bible lesson taught by Rev. Whatley, and we urge all the ladies to come.—Reporter.

Mrs. J. B. Nellums and son, Bill, and daughter, Mrs. Mahlon Boggs, of Munday were in Chillicothe last Friday to attend the funeral of John Archibald, a nephew to the former.

JOHN DEERE TRACTORS

Most Economical Tractor Made

The John Deere Tractor will burn distillate and similar low grade fuels successfully.

This is not just talk, but a fact, backed by the John Deere Plow Co., a firm that has sold good implements for 99 years.

Without fear of contradiction, we know that John Deere Tractors are operating at a COST FAR LESS than any other make in Haskell county.

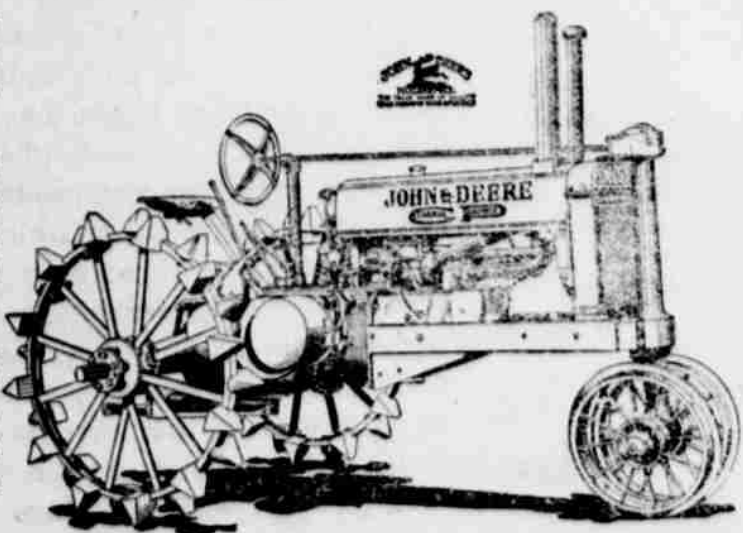

Simplicity of Design—Two-cylinder design, low speed motor, makes it possible to burn slow-burning fuels successfully—less parts to wear out and replace. Come in and see us and we will show you many features that are not found on other makes. Ask any John Deere user about the cost of operating his tractor.

You may be assured that we will try hard to trade with you, and give you a liberal allowance for trade-ins.

Mr. Pat Weaver, who has had 6 years experience in the tractor business, will have charge of sales.

DAINGEROUS HOURS

During certain hours of the day, for the next three months, wise automobile drivers will be exceptionally cautious in picking their way through traffic. For, according to statistics, death lurks closer to the motorist and pedestrian between 5 and 8 p. m. during October, November and December, than at any other time of year. During that period, the early dusk increases the risk of accidents as thousands of workers crowd the center line, cut in and out, and speed—just to get home a minute or two earlier. If each driver will reflect that his family would sooner have him come home a few minutes late each day than risk his own neck or that of another, perhaps the danger period mentioned would lose some of its deadly significance.

"PUBLIC ENEMY, NO. 1"

If J. Edgar Hoover, director of the Federal Bureau of Investigation, does only one thing, the emphasizing and branding of politics as "Public Enemy No. 1" in regards to crime, he will perform a splendid public service.

Everybody is familiar with instances where pull of politics, or family connection, has covered up crime. Everybody knows that, as Mr. Hoover says, "too many times the local officer finds the handcuffs on himself, instead of on the criminal, because of political influence."

NOT ALWAYS GOOFY

The World War veteran who used his bonus money to build a seagoing barrel, and who set out to cross Lake Erie from Buffalo to Cleveland to find out if the "craft" would do for a trip across the Atlantic, seems to have at least one of the qualities that go to make a great man. Bad weather got the better of him on his trial trip and coast guards had to tow him ashore. Stepping on the dock, he announced: "I'm not giving up. The world thinks I'm goofy. I think the world is goofy. Now it's a contest to find out who's right." This inventive gentleman may persuade the seagoing world that barrels are destined to replace more orthodox craft, but he does have the right spirit. He is blood brother under the skin to a long list of great men, from the Wright brothers to that first inquisitive caveman who decided to try cooking his meat instead of eating it raw. The least we can do is give him a bow.

NEWS AFTER THE ELECTION

The people of this country who are wondering what the newspapers will print after the election is over and the spotlight turns from political news are not familiar with the fact that the great problem of the average editor is what not to print. Always there is much more "news" than any newspaper can present to its readers. The business of the editor is to select and pass on. His judgment may be wonderful, or it may be rotten. Nevertheless, what his readers see depends upon his judgment as to what to eliminate.

THE FOOTBALL CURE

They have a rather unusual cure for crime in Honolulu, and it seems to be working out very well. It's football, and whenever a lad gets in trouble there, his first sentence—if he's physically fit—is to play on the police's "barefoot league." Last year 36 boys served such sentences and, at season end, won public acclaim for their sportsmanship. Since then, according to the Honolulu police chief, none has been in trouble. Maybe the grid game teaches delinquent lads something about the value of taking hard jolts and coming up smiling. Or perhaps the applause of good people warms them, and makes them hunger for more. After all, a criminal usually is one who couldn't take it in the battle of life, and who feels inferior to respectable men. Whatever it is, football seems a useful ounce of prevention, and might be used more widely in this way.

OUR 12TH ANNUAL FAIR

On the eve of celebrating the 12th annual exhibition of the Central West Texas Fair and Old Settlers Reunion it is well to pause and reflect as to the meaning of a fair.

CURRENT COMMENT

MORE PATCHES (Semi Weekly Farm News)

Once again the voters of Texas are called on to vote on further amendments to the State Constitution adopted in 1876, replacing the carpetbag Constitution of 1869. Just why the present document, three score years of age and largely statutory in content, should continue to serve as the fundamental law of Texas none can say with any assurance. It was made suitable for a thinly populated state just emerging from reconstruction and is quite unsuited to a state of over six million population, rich through commerce, agriculture and industries. The Constitution of Texas is now among the backward class of State Constitutions and is so verbose and ambiguous that it is a constant source of litigation.

Our Legislatures, instead of providing for the calling of a convention to revise and modernize our ancient "fundamental" law, have preferred to add amendment to amendment, some seventy in all, to the outworn document, until it is like the cloak of a Chinese beggar—a thing of shreds and patches, so numerous that the original fabric is hardly discernible. It is a pity that six more amendments, commented on in this and next issue of The Semi-Weekly Farm News, containing some of nine different proposals, are to confront the voters at the coming election. The average voter will not vote at all on the proposals, or will shut his eyes and mark them by chance when confronted with the maze of wordy changes submitted to him. Few will have read the proposed amendments in advance or given thought to them.

It is to be hoped that some future Legislature may grow ashamed of submitting other amendments and will call a constitutional convention to modernize the present outworn document.

Twenty Years Ago—1916

Sergeant Jas. H. Campbell, who has had charge of the U. S. Recruiting Office here for the past week, returned to Fort Worth Wednesday, four recruits accompanying him. They were Odos Pricer, Jack Renels, Will Fry and J. D. Ellis. The first three men enlisted in the Texas National Guard, while Ellis will serve in the Coast Artillery of the regular army.

In a race to be first under the auction with a bale of seed cotton at the newsmen Gin Saturday, between Sam Newsom and Charlie Bledsoe, two well known farmers of this section, Bledsoe's wagon was upset and badly wrecked. Mr. Bledsoe was thrown from the wagon, but escaped injury. The team broke loose from the wagon and ran about the gin yard, but were soon stopped by other parties nearby.

Trustees of the Myers school have awarded the contract for a new building to take the place of the old schoolhouse. The new structure will be 28x48 feet, partitioned into two rooms. Contract for the building went to Frazier and Collier of this city.

While Calvin Pitman, a mule, living south of town was watering a team of mules at one of the public watering places on the square, the team became frightened and ran away. The young man had taken off the bridle from one of the mules, when the animal made a break and ran. The young man seized the mule by the ear and throat, he held on and finally choked the mule down and stopped the team, after they had ran almost around the square.

E. T. Grubbs, farmer living south of town, was exhibiting several young "possums" on the streets Saturday that he had caught with steel traps in his hen house a few nights ago. E. J. Davis and Virgil Williams have both killed opossums recently that were taking hens off the roost.

Thirty Years Ago—1906

Haskell parties made up a trainload of cattle and shipped them from this place to Fort Worth last week, over the Wichita Valley railroad. The shippers and number of cars shipped were: G. R. Couch, 1 car; J. S. Boone, 3 cars; F. M. Morton, 2 cars; S. B. Pierson, 2 cars; M. S. Pierson, 1 car; W. T. Hudson, 1 car; S. S. Cummings, 1 car; A. D. English, 1 car.

Several Stonewall county stockmen are here this week arranging for shipments over the road. Owing to the fact that there are several cases of diphtheria in town the School Trustees and Board of Health thought it best to suspend the Haskell schools, and they were accordingly dismissed Tuesday to await further developments.

The Wright House is about com-

pleted and gives Haskell one of the handsomest hotel buildings in West Texas. Under the management of Mrs. Theo Wright it will be the glad home of the Knights of the Grip and travelers seeking rest and comfort.

The big stone hotel at Rule has been completed and Messrs. Foster & Jones, the owners, received it from the contractors Monday. They have leased the building and it will be opened to the public soon.

Work on the electric light plant here is progressing rapidly and the wires are being strung up ready for connection as soon as the plant is placed in operation. Dirt was broken Monday on the foundation for the new Masonic building.

President Morgan Jones and other officials of the Wichita Valley and Fort Worth and Denver roads passed through Haskell yesterday in a special train on a tour of inspection. They took a brief look around Haskell and were well pleased with business conditions and improvements going on.

A charter had been drawn by Judge H. G. McConnell for the "Brazos River Bridge Company" with Geo. S. Link, J. W. Kelley, L. L. Jones, W. F. George and Chas. Welch as incorporators, with a capital stock of \$10,000. The purpose of the incorporators is to build a toll bridge on the Double Mountain Fork of the Brazos River west of the town of Rule. This is a commendable enterprise and will be of great benefit to the business interests of Rule as well as to the people living across the river in Stonewall county.

Rain, rain, rain. Things are pretty wet in this part of the world. A shower last week and a rain on Tuesday that lasted from before daylight until ten o'clock at night is the record.

Mr. Lee Pierson and Misses Mollie Whitman and Laura Hale attended the protracted meeting at Throckmorton this week. Messrs. Sanders, Scott and Rike went down to the Vernon school house Saturday night and organized a Bryan and Sewall club.

SPOKEN WORDS
International Sunday School Lesson for October 18, 1936

GOLDEN TEXT: "The word of God is living and active and sharper than any two-edged sword." Hebrews 4:12.

(Lesson Text: Acts 17:1-5; Thessalonians 2:1-12.)

Last week we considered Paul's activity in Philippi. Departing from the city they proceeded through two other nearby towns on the Egnatian Road, which ran from east to west across Macedonia, and came to the City of Thessalonica, about a hundred miles to the west. The modern name is Saloniki, which older readers will remember figured in the war news twenty years ago as the base for Allied troops. The older name was in honor of the half-sister of Alexander the Great who was given the city by her husband, who rebuilt it.

Here Paul went to the synagogue first and for three Sabbaths sought to convince the Jews that Old Testament prophecy had been fulfilled in Jesus of Nazareth. Some believed and threw their efforts behind the apostles. A number of Gentiles were also attracted to the new faith, including some of the leading women. The

main part of the new church was composed of converts from heathenism. The success of Paul's efforts made the orthodox Jews jealous and they stirred up an uproar.

It is interesting to notice that when these malcontents desired to create a disturbance they secured their adherents from the idle fellows of the market place. Inactivity has always assisted in the fermentation of trouble. "Believe me when I tell you that the thrift of time will repay you in after life with a usury of profit beyond your most sanguine dreams," said Gladstone; "and that the waste of it will make you dwindle alike in intellectual and moral stature, beyond your darkest reckoning."

The infuriated crowd was unable to locate Paul or Silas but took Jason, who was evidently Paul's host, and some others before the rulers of the city. They accused them of supporting another king than the Roman Emperor Claudius. A similar charge was brought against Jesus when he was brought before Pilate. Notice that at Philippi, which was a Roman colony, the charge was the teaching of unlawful customs, but at Thessalonica that different accusation had to be made, because the inhabitants were not Roman citizens.

Another charge lodged against

the apostles was that they were turning the world upside down. This is a rather strong tribute to the fidelity with which Paul and his companions expounded their faith. If the world is wrongside up it should be righted, as the great Talmage declared. The Christian should not hesitate to agitate for reform and human betterment for it should be realized that the hard and cruel world into which Christ came has been miraculously improved during the centuries by the ameliorating influences of his teaching.

Following disturbances Paul and Silas went to Berea, about fifty miles to the westward. Again the apostles went to the Jewish synagogue and because these Jews were of a different disposition, they listened to the word as expounded by the visiting scholars and compared their claims and tested them by examination of the scriptures. No Christian should object to having his religion tested; Jesus asked no one to renounce honest judgments, for truth inevitably will convince the honest thinker.

The Bible is the religious guide furnished to mankind. A careful study of it will repay the honest seeker. Sir Harry Lauder has this to say about reading the scriptures: "I do not know if the younger generation are paying as much attention to the Bible as their fathers did before them. If they are not, the loss is theirs. All the great men I have met during the course of my thirty years world wanderings have told me they loved the Bible, not simply for its moral precepts; not solely as the spiritual foundation on which they had tried to build their lives and guide their actions, but because it is the greatest book that exists, containing within its pages all the romance, all the poetry, all the literature, all the hopes and fears of mankind, now and hereafter."

"True faith is not blind credulity," says Lange. "It does not

dispense with reason, evidence and argument. It is a Christian virtue to prove all things with sincerity and earnestness, to investigate, to institute a thorough search. And the authority of a teacher and pastor should never prevail to such an extent that the hearer is expected to dispense with personal search and with personal convictions of his own conscience as soon as the former has spoken."

The success of the Pauline ministry at Berea was soon known at Thessalonica and the hostile Jews followed them, making the same charges of sedition and treason. As a result it was thought

Young eyes are doubly sensitive to eye strain

Because children know little about cause and effect, they readily accept conditions which an adult would quickly recognize as undesirable. That's why extra care must be taken to see that children have enough light, and that it doesn't glare in their eyes from the light source or the printed page. Does your child read by an IES (Illuminating Engineering Society) lamp? These desk and floor lamps have been scientifically worked out to give adequate light without glare. And they cost no more than any good lamps. Make sure that your child has the right chance in life, that she does well in her studies, that her health is not affected in a hundred and one different ways by eye-strain, that reading and study seem an agreeable task to her, and not an unavoidable drudgery. Fair—
(Continued From Page One)
Any of the four still have a good chance of winning the title in the Haskell and following meet, racing officials say.

Six Races Daily
Tentative program for the auto races was announced by Mr. Tomm today as follows:

Event 1—Time Trials.
Event 2—5 mile race (8 laps).
Event 3—5 mile race (8 laps).
Event 4—5 mile race (8 laps).
Event 5—10 mile race (16 laps).
Event 6—12 mile consolation race for non-winners (20 laps).
Time trials will start promptly at 1:30 each day, and the events will remain the same for both

days. Event 5 on the second day will be the Championship race sponsored by the Southwestern Racing Association, and winner of this event will be awarded a silver loving cup as a trophy, with the Fair Association presenting a loving cup to the driver lowering the local track record.

Thirty Horses In Training
On the two afternoons following the auto races, owners of Haskell county horses will have their day. Already about thirty head of horses are in training at the track and a full list of entries is expected for the two days meet with five races each day. Feature event of the meet will be the races for two-year-olds. There will be two of these races each day, and the two leading horses in the two

aces the first day to contest for the Haskell county championship on the second day.

The horse races are being offered at popular prices of 30c and 15c and the Fair is proud of being able this year to offer a race program with only Haskell county horses taking part, particularly since in 1933 when horse racing was first attempted it was only by an effort that a single Haskell county race was filled.

Topping the offering Wednesday will be the parade which will feature two batteries of the 131st Field Artillery from Wichita Falls. Not only will these two batteries take part in the parade but afterwards the motorized equipment will be on display at the race track and will open the meet with a salute of 19 guns.

In addition to these special attractions Tidwell's shows will return to the Midway with an even larger show than heretofore carried by them. Tidwell will have with him again Capt. Simeon's 100-foot fire dive, a free act that attracted such a great amount of attention last year. Capt. Simeon will make his flaming fire dive each night of the fair.

Through the co-operation of the various home demonstration clubs, 4-H clubs, Future Farmers of America and various individuals and communities the fair feels assured of a varied and diversified display of livestock and agricultural produce.

Wednesday Children's Day
Attention is called to the fact that Wednesday will be Children's Day at the fair. At this time they will be admitted free to the fair grounds up until the night shows begin, and all schools in the county have been extended an invitation to attend and to close for the day.

Order of Parade
The parade will be held at 1 o'clock Wednesday, formed by the following divisions in the order named:
County, city, fair and other officials.
Sponsors from neighboring towns.
Haskell Municipal Band.
Horse-drawn vehicles.
Pioneers.
Motor vehicles.
Artillery.
Horses and Riders.
Decorated Floats.
Clowns.
Bicycles.
School Buses.
Immediately following the parade, judging of sponsors will be held before the grandstand, and a beautiful saddle will be awarded the winner.

Editor E. B. Harris of Rule was in Haskell Monday on business.

Mr. and Mrs. Don Bradley and son of Jayton visited friends here Sunday.

Homecoming—

In the former victories. Other pastors, former members and friends are invited and expected to be present.

The afternoon program will be a love feast and the songs of the Haskell church founders. This should be the high point of the day in spiritual fervor and witnessing.

At 7:30 the Rev. E. B. Bowen of Stamford is to preach. A special attraction at this service is the men's choir.

Friends will greet each other and talk it over again during the noon hour while eating the abundant basket dinner provided by the Haskell people.

A special invitation for decisions and additions to the church will be extended. The best way to celebrate the victories of the past is to gain another.

The general arrangements committee is composed of Mrs. Dave Persons, F. L. Dagherty, Andrew Josslett, Mrs. Kenneth Thornton, Miss Eva Dell Squires, Mrs. Burwell Cox, John Rike and Mrs. F. T. Sanders.

The Methodist Missionary Society

On Monday, Oct. 12, the members of the M. M. S. met and enjoyed a very interesting program. Mrs. Persons, president, presided over a short business session, after which Mrs. Wallace Cox directed the program, the subject being "Contributions of the Negro."

Mrs. Huckabee gave a most spiritual devotional, using for the Scripture reading, verses from 1st Cor. At the conclusion of the scripture reading, all joined with the leader in reciting the poem, beginning "In Christ There Is No East or West."

Mrs. Cox, in her very capable way, told of the "Contributions of

Homecoming—
(Continued From Page One)
The afternoon program will be a love feast and the songs of the Haskell church founders. This should be the high point of the day in spiritual fervor and witnessing.

At 7:30 the Rev. E. B. Bowen of Stamford is to preach. A special attraction at this service is the men's choir.

Friends will greet each other and talk it over again during the noon hour while eating the abundant basket dinner provided by the Haskell people.

A special invitation for decisions and additions to the church will be extended. The best way to celebrate the victories of the past is to gain another.

The general arrangements committee is composed of Mrs. Dave Persons, F. L. Dagherty, Andrew Josslett, Mrs. Kenneth Thornton, Miss Eva Dell Squires, Mrs. Burwell Cox, John Rike and Mrs. F. T. Sanders.
