We, The Freshmen

Wonder who broke Mr. Sullivan's heart. Or has he always had that "Al right, you'd better not start anything," look?

Are proud to have Carl Lane back.

Are for the Seniors! Try to stare Mr. Mason down and can't do it. Then we sit and wonder why we can't, and then we think—"Wonder what it'd be like to see him smile."

Think we have the best sponsors of all the classes. In case you've forgotten they are: Mrs. Wimbish and Mr. Mason.

Get peeved at the sophomores like the juniors, and idolize the seniors. Reasons: Some of those "Sappy Sophs" think they're smart because they are just a little bigger than we are. The Juniors act as though we're just as big as they are, and the seniors think we're cute.

Students Place In Literary Events

The Interscholastic League Meet met at Haskell April 2, 1937. The results were:

High School Senior Girl's Declaration—Bertha Adcock, first place.

High School Senior Boy's Declaration—John Guest, first place.

High School Junior Girl's Declaration—Eva Jo Ratliff, third place.

High School Junior Boy's Declaration—Buddy Crandell, second place.

Spelling—Addie Lee Hayes and Ruth Woodson, first place.

Girl's Extempore Speech—Arnelia Beth Hammer, first place.

Girl's Debate Team—Margaret Breedlove and Ruby Sue Persons, first place.

Boy's Debate Team—Duffer and Paul Crawford, first place.

Jim Bob Webb was sick and unable to compete. All of these winners will attend the meeting that will be held in Breckenridge sometime this month, except the spellers and their papers will be sent directly to Austin.

Velma Williams spent last week end in Peacock.

Betty Jane Stanton has been "swelled up" with the mumps the past week.

H. H. S. Students Present Program At Munday School

A group of students from Haskell High School presented a chapel program to the Munday student March 31. Since Munday had given a very entertaining chapel program to Haskell High School a few weeks ago, it was time for us to return it. So we did.

When we arrived everybody saw somebody they knew (especially Frances Merle and Gladys Catherine). After we were behind the curtain we heard the noise made by students coming into the gymnasium "our knees did get shaky." But after their superintendent, Mr. Bass quitted them down, we began our program.

The Choral Club sang "Old Folks at Home," "Twilight" and "Bells of St. Mary's." Then we sang the "One Rose" with Dorothy Dee Welsh whistling as we hummed, and the same with "Pennies From Heaven."

The Dramatic Club from Mrs. Kaigler's studio gave the one act play, "He Had To Get Married," starring Annie Mae Leese, the secretary, Archie Lee Jones as Jerry, Jean Conner, the clinging vine and Mary Eleanor Diggs as the cave woman.

We hope they enjoyed our program as we enjoyed theirs and we hope to exchange assembly programs again in the future.

Gypsy Ramblers Sell Lunch Friday

The Gypsy Ramblers sold food in the basement of the Christian Church, April 2 during the Interscholastic League Literary Meet. The Senior Ramblers were the supervisors and the Junior and Sub-Junior Ramblers did as they were told.

All seemed to enjoy this, because doing something to help our club is a pleasure to all Gypsy Ramblers. The members of the club furnished the food and they made about \$35 profit.

Club members wish to thank everyone who bought food from us, and all who helped to make the day a prosperous one for the Gypsy Ramblers.

Jack Landess has the "awful disease" of chicken pox.

Freshmen Enter Many Activities

There were many freshmen boys and girls who entered the different activities of our school. We are very proud of everyone of these students and hope they will still be as active in their future years.

We also have students who are taking music, who are members of clubs and who have made the honor roll during the year.

The football players were: Eulis Hays, J. C. Scott, Sam Henshaw, Fred Barnett and Zeldon Thomson. There are other freshmen who have reported for spring practice.

The students who played basketball were: Girls, Margaret McClintock, Frances Carruth, Elnora DuRo's, Ruthie Mae Scheets, Velma Williams, and Mary Louise Holland. Boys: Paul Kuenstler, Buster Gholson, Jack Landess, Wayne Laird, Orion McLain Jr., Bill Wiseman and Zeldon Thomson.

We have only two boys who played tennis but they did well. They were Harrison Head and Jack Landess. The girls who played were: Margaret McClintock, Eulamae Watson, Jean Conner, and Bonnie Dell Hisey.

There were not very many girls who played volleyball but we especially are proud of them because they helped to win the county championship and will attend the district meet in Breckenridge, April 10. The players were: Margaret McClintock and Betty Jane Stanton.

There are several girls who were voted into the Gypsy Rambler Club. The freshmen members are: Wanda Dulaney, Geraldine Akins, Eulamae Watson, Jean Conner, Bonnie Dell Hisey, Mary Louise Holland, Doris Parks, Flossie Hester, Betty Jane Stanton, and Ethel Reba Couch.

A few of the freshmen girls are members of the home economics club. They are: Flossie Hester, Doris Parks, Eulamae Watson, Jean Conner, Leatrice Wheeler, Margaret McClintock, and Ethel Reba Couch.

Buster Gholson, Paul Kuenstler, Wayne Laird, Leatrice Wheeler, Floyd and Flossie Hester are the students who are taking music.

Last comes the honor roll and six freshmen have made it this year. They are: Jean Conner, Leatrice Wheeler, Margaret McClintock, Mary Louise Holland, Eulamae Watson and Annie Strickland. We are very proud of these students and hope that more freshmen will make the honor roll in the future.

Students Exhibit Their Hobbies

The High School Parent-Teachers Association sponsored a hobby exhibit Thursday which was held in the basement of the Methodist Church. Miss Vick urged everyone to bring their collections by announcing it several times in school.

There were many interesting things and the students came all during the day to see them. Zug Phelps, Edwin Cass, Charles Smith, Archie Lee Jones and Buster Gholson exhibited different types of airplanes that they had made. Bill Key had a collection of hundreds of marbles. Collections of stamps, and of Flapper Fannies were brought by Wynona Francis Post, and Geraldine Conner had a book showing the different kinds of orchids.

There were drawings of girls and characters in the funny page by Frances Merle Edwards, Marvinna Post, Wynona Post and Joe Larned; and a few paintings by Martha Jane Holt and T. R. Odell.

Wilma Kuenstler had a collection of souvenirs and Mary Eleanor Diggs had one of vases, Eula Mae Watson had poems; Jean Conner, pictures of Shirley Temple and Doyle Martin, a movie star book. Christian Love had a collection of bottles of different sizes.

One of the most interesting exhibits was the collection of insects by Claude Jenkins Jr. He had between thirty and forty insects that he had caught and put in very small bottles in wood alcohol. Two other attractions were a coat knitted by Frances Foutz, and a blouse embroidered by La Verne Hisey.

Attracting the most attention was a totem pole about eight feet tall that was carved from an old telephone pole by Joe A. Larned, a junior student and member of Bob Scout Troop 36.

This interesting and novel exhibit was visited by a number of citizens in addition to the students. It was enjoyed by all.

Carl Lane has started back to school here. We are glad to have him back.

We Wonder

If Bernard caught the mumps from Mary Louise?

If Ethel Reba has a secret lover? Why Floyd Hester turned his car over last Tuesday night?

Who putrid it is?

If J. C. really like D. P.?

Who the Stamford boy is that E. P. G. like so well?

If G. A. and B. C. are still "that way?"

Why Buster G. and Paul K don't like any of the Freshmen girls?

Why all the Freshmen girls like Ernestine Pace? Could it be her personality?

Why Louise Hill became so popular all at once?

If Mary L. enjoyed the mumps? If Eulamae will take the chicken pox from Jack?

Seniors Enjoy Weiner Roast

After all the good times the seniors had at school Thursday they weren't pleased, so they ended the day with a Weiner Roast at Roadside Park, about four miles south of town. They met at Mr. and Mrs. Wimbish's home and left there about 6:00 o'clock.

They entertained themselves by playing games while some members of the class gathered wood.

Mr. and Mrs. Wimbish and Mr. Bowers accompanied them and from reports they also enjoyed it very much.

The menu consisted of weiners, buns, pickles, marshmallows and pop.

TEXANS

The Humble Company lists approximately 13,000 Texas men and women on its payrolls. If you could gather all these folks and their families into one place, they would make a city with over 50,000 people. Happily, they don't all live together; they are scattered through the length and breadth of Texas so that the work they do, the money they earn, contributes to the building up of a hundred or more Texas communities. Through them, as through many other activities, the Humble Company, a Texas institution, plays its part in the sound development of our common state.

What Easy Work These New GAS Kitchens Make!

Trade Your Obsolete Range for a sparkling AUTOMATIC

You don't have to be rich to help yourself to a kitchen like those you see in the attractive magazine pictures. You can buy a fine automatic Gas Range, for instance, at a moderate price and on very low terms, and these Ranges can do much of the cooking with you out of the kitchen. Won't you come in and see these new Ranges in action? Here are some of the improvements that will save you time, effort and money:

- New-type rust-proof burners have a simmer unit in the center—more beads of heat to handle vegetables, fruits and stews.
- New-type broiler that moves on ball-bearings, with a smokeless, rustless grill. Sausage, asparagus, potatoes and other small foods can cook on the grill without falling through.
- Thermostat control in insulated oven.
- Automatic lighting.
- Chrome-and-Porcelain throughout, good looking and cleanable.
- Reminder-bell that bongs when cooking time is up.
- And on top of everything else, gas cooks for much less cost than any other method, of course.
- Trade-in Allowance... Rock-bottom down-payment... Small monthly terms.

Gas Ovens Are Insulated But They Use Fresh Air For Baking

This circulating air is what puts a good brittle crust on biscuits, a rich browned finish to meats, and a velvety texture in cakes. No steamy baking, no left-over odors. The enamel-lined walls are packed thick with rock-wool to save gas, and to hold the heat inside a long time so the kitchen is much cooler.

THE SIN OF ADAM AND EVE International Sunday School Lesson for April 11, 1937

GOLDEN TEXT: “The soul that sinneth, it shall die.”—Ezekiel 18:4.

Last week we studied the beginning of things, the creation of the world and of man. The lesson for this week explains the beginning of sin, or what sin is and what sin does.

It will be helpful in considering this lesson to remember that our Bible was written by an Oriental people and that God was teaching his children in the infancy of the race by means of simple, pictorial language.

The story of Eden tells of how sin began. It pictures a glorious paradise, or Eden (which means delight), inhabited by the first man and woman, Adam and Eve, enjoying happiness in a close intimacy with their Creator God.

Profound spiritual truths are in this story—the choice of good or evil, the fact of sin and its consequences, the existence and the pricking of conscience, and the individual's relationship to his Creator.

The Warwhoop Believe It or Not

Leatrice W. has been having a caller from Weinert. We wonder why she has been so silent. Anita C. has been putting rouge on her face lately. Watch out, Edwin Jeter likes all the girls.

Mary Louise has been all well up about something lately. Bonnie Dell says there's “only one” that will do. He's a cute little sophomore.

Mickie Lee T.—“I Love You Truly.” Frances F.—“When I'm With You.” Geneva T.—“Sweetheart, Let's Grow Old Together.”

Strength During MIDDLE LIFE Strength is extra-important for women going through the change of life. Then the body needs the very best nourishment to fortify it against the changes that are taking place.

Warren McAllister doesn't come over anymore for Melba, but for Kinzie. Lynn Pace is learning how to dance.

Frances H. has cut her beautiful hair off. Florene Cook refused to go with a boy from Stamford.

Magazine Club Enjoys Book Review Given By Mr. David L. Stitt

The members of the Magazine Club were very fortunate in having Mr. David Stitt as their guest speaker Friday April 2. Mr. Stitt gave a review of "The Return to Religion" by Henry C. Link. Mr. Link is a brilliant psychologist and he tells how he was led away from religion during the course of his college education and how he returned to religion through the practice of his profession.

Most of the advice given in the book was quite stimulating. For instance, Mr. Link told us we should use our feet more and our heads less; and he put more emphasis on personality than on character. He said it was not so much what we are as how we express our nature. He advised us to have more altruism and less introversion; and warned us against striving toward a fixed goal to the extent of putting a side all interfering activities. Some of the chapter headings were "A Return to the Church", "Fools of Reason" and "The Vice of Education".

Mrs. C. L. Lewis, the hostess, had arranged the club room unusually attractive. Mr. Stitt was very graciously introduced by the director, Mrs. F. T. Sanders.

The library chairman reported that some splendid new books had arrived. She urged those who read these books to remember that they are borrowed books and to treat them as carefully as possible.

MOVES SHOE SHOP

The shoe shop conducted by "Speedy" Thomas on the south side of the square has been moved to the building first door north of the Farmers and Merchants State Bank, recently vacated by the C. P. Woodson Radio and Battery Shop.

The change to a larger building was made necessary by the increase in business during the past few months, Mr. Thomas stated.

Several Hundred Acres of Pasture Being Contoured

"I believe that contouring my pasture will double or triple my carrying capacity," so said Mr. Virgil Meadors last Friday while contour lines were being run on his pasture five miles east of Haskell. These lines were run by county agent B. W. Chesser and R. H. Smith, N. Y. A. supervisor. Mr. Meadors one of the leading ranchers of Haskell county, plans to contour several hundred acres of pasture this year. As soon as Mr. Smith and the N. Y. A. boys catch up with running terrace lines they plan to go back and help Mr. Meadors finish his work.

Pasture contouring is a relative new thing, but is growing in popularity at a rapid rate. The lines are laid off by a Boston-Brady farm level on the water level. The contours are built about ten inches high, six feet wide and are from three to fifteen feet apart. The idea is to hold all the rainfall on the ground until it has time to penetrate into the soil. Experiments show that this extra moisture saved in this way increases the carrying capacity of pastures up to three hundred per cent.

BISHOP H. A. BOAZ TO BE SPEAKER FOR METHODIST RALLY

Prominent Church Leader to Assist Congregation in Debt-Raising Effort

A letter was received this week by the Rev. R. N. Hucklebee from Bishop H. A. Boaz of Fort Worth, accepting the invitation of Haskell Methodists to speak at a great church rally to be held here Sunday April 18th.

Bishop Boaz is well and favorably known in Haskell. He held a revival here two years ago. He understands our problems and speaks our language. He was reared in West Texas and has spent most of his life in the section from Fort Worth and Dallas west.

However, Bishop Boaz has been highly honored by the Methodists of the nation. He was president of S. M. U. and head of the Church Extension Board. In this latter office he learned much of the burden and depressed atmosphere of heavy church debts. He will bring valuable assistance to the debt-raising movement of the local church.

The Thursday night Bible Class of the Baptist Church has not met for the past three weeks, as the teacher conducted a Sunday School and B. T. U. Training School at Benjamin last week and is helping Pastor W. D. Green at Knox City in a B. T. U. Training School this week.

Patrons of Smitty's Auto Supply, on the east side of the square, are complimenting Chas. E. Smith, proprietor, on the attractive remodelled interior of the store, completed recently. New shelving has been installed and other fixtures rearranged to afford more convenience for patrons and a better display for enlarged stock. A fresh coat of paint has also been given the interior.

SIT-DOWN STRIKES DANGEROUS

That the sit-down strike has introduced a new and dangerous weapon into labor warfare cannot be disputed. In view of the epidemic of such strikes that has followed the original it appears that public opinion in the United States must soon crystallize and express itself.

The seizure of other people's property by disaffected laborers is a serious matter. If permitted to continue it will not be long before every dissident group will undertake similar mass seizures and property rights will vanish. That the American people contemplate this eventuality, or that they will permit it to happen, is not to be contended.

As a general rule, The Haskell Free Press is inclined to support organized labor's efforts to improve the conditions of the working people of the United States. It is even willing to make allowances for the exuberant action of men and women, fighting their economic battles against adverse odds, but, even after doing so, we cannot give a blanket endorsement to the tactics that have been evolved in the sit-down strike.

It is plain to see that if legitimate unions are accorded the right to seize property of others, the illegitimate labor organizations of the racketeer type, will also use the same weapon. There is no way for the owner of property to determine whether a sit-down strike is directed by workers, or by criminals, gangsters and racketeers, who desire to take advantage of the unlawful possession of property.

Sooner or later there will arise a demand for governmental power to effectively deal with sit-down strikes, as well as other labor troubles. The President of the United States is on record in favor of governmental powers to compel the mutual observance of labor contracts by employes and employer alike. This would do away with the necessity of resorts to force and put the government in the business of an arbiter of disputes between capital and labor, with the idea that the interests of the general public come first and should be first served.

HERE ARE SOME OPINIONS

Every man is entitled to his own opinion. While we may not agree with what we read, the views expressed are often interesting. With this in mind, we call your attention to some recent observations by Sir Arthur Willert, British journalist, who is visiting in the United States.

He doesn't think that any European country wants war. Germany is bluffing, Italy recuperating from the Ethiopian adventure and Russia not prepared to fight. Mussolini, says he, has slipped, although he is a "first-class driver trying to steer a second-class vehicle." Hitler is a "second-class driver in a very good vehicle." France is making remarkable progress under the Blum program of democracy in practice as well as theory and all democratic countries are regaining prestige.

NATIONAL COLLAPSE IN 35 YEARS?

J. N. Darling, cartoonist-president of the new General Wild Life Federation takes his work seriously and if he is right the rest of us might as well do the same.

Mr. Darling affirms that unless destruction of the soil ceases, within the next thirty-five years we will have a nation of empty stomachs and civilization itself might collapse. He finds that by 1960 at the present trend of destruction of soil, we will have just three acres of tillable soil per person to live on, which is the lowest possible minimum. After that, says he, "We head down to the level of the Chinese."

Mr. Darling's pessimistic view was bolstered by figures from the U. S. Soil Conservation Service, whose Mr. Earnest G. Holt affirmed that unless the present rate of soil destruction was checked, the nation, based as it is on agriculture, would cease to endure. Already 100,000,000 acres of once good crop land have been ruined by erosion and the process is continuing at the rate of 200,000 acres a year. In addition, 100,000,000 acres have lost the greater part of the productive top soil and thousands of farmers have become subsoil farmers which "means something very close to bankrupt farming on bankrupt land."

HAVE WE ENOUGH IN PRISONS?

Major law violations in the United States total around 1,300,000 annually, according to an estimate made by Thorsten Sellin of the University of Pennsylvania.

This is, to us, an amazing mass of crime. It means roughly an average major law violation for every one hundred citizens of the republic, which is not a record to be proud of.

Minor violations, according to the same authority, number 15,000,000 without taking into account liquor or motor vehicle violations. This is one for every eighth person in the country, which is entirely too much crime.

The prison population of the nation, according to Sanford Bates, former director of the Federal Bureau of Prisons, is around a quarter of a million, including those in jail and juvenile institutions.

Assuming that the number of crimes committed annually is about correct and the prison population is near the correct figure the conclusion is plain that not enough criminals get to prison. May be, this has something to do with the great number of crimes committed.

STOP, LOOK, LISTEN

When an automobile driver comes to a railroad crossing, the responsibility for getting across the tracks safely is entirely his. The railroad can erect warning signals and instruct engineers to exercise all possible caution; but, in the very nature of things, it is up to the motorist to see that the way is clear before he proceeds. Somehow this obvious fact doesn't seem to be registering on the minds of American motorists as well as it ought. For the Safety Section of the Association of American Railroads reveals that more people were killed in grade crossing accidents last year than in any year since 1931. Part of this increase—which brought 1,786 grade crossing casualties—is probably due to the fact, that, with recovery, there were more motorists on the roads last year than for half a dozen years. But most of it must be due to plain, unadorned carelessness.

MARITAL MONTH

April this year brings us to the 20th anniversary of America's declaration of war on imperial Germany. A great many things could be said about that anniversary; but at the moment what occurs to us is chiefly the odd sinister fate that seems to hang over the month of April in American history. The American Revolution began on April 19, 1775, with the battle of Lexington. The war with Mexico got under way on April 24, 1846. The first shot in the Civil War was fired on April 12, 1861; Lee surrendered and Lincoln was shot almost exactly four years later in April of 1865. The war with Spain began on April 21, 1898. And we got into the World War on April 6, 1917. What kind of jinx is it that makes this month of April so momentous in America's tale of wars?

FIVE COUNTY FIRMS CONTRIBUTE TO THE UNEMPLOYMENT ACT

Unemployment Benefit Accounts Set Up for 30 Workers in County

Contributions under the Texas Unemployment Compensation Act are being paid by 5 employers in Haskell County, Chairman-Director Orville S. Carpenter announced today.

Contributions from these employers will set up unemployment benefit accounts for 30 workers in Haskell County.

The Commission's activities in Haskell County are under the direction of District Fieldman Dan Regan who has headquarters in the Abilene Chamber of Commerce. All employers who have problems arising under the Texas Unemployment Compensation Act are requested to call on Regan for assistance, Carpenter declared.

The Texas Unemployment Compensation Commission established by an Act of the Texas Legislature, which was signed by Governor James V. Allred on October 27, 1936. In five months of operation the Commission has collected approximately \$7,000,000 from 11,707 Texas employers. All money collected from employers will be used to establish benefit accounts for more than 800,000 workers, while all operating expenses of the Texas Commission are paid by the Federal Social Security Board, Carpenter pointed out.

Liberators of Two Americas Paid Tribute At International Exposition

The above view of the Pan-American Exposition grounds in Dallas show the avenues dedicated in recognition to Bolivar, San Martin, Marti, Hidalgo and Juarez—"George Washingtons" of their lands.

Broad avenues through the Pan American Exposition at Dallas

were dedicated in name Thursday to honor liberators and revered statesmen of Mexico and Central and South America; for Simor Bolivar, for Sam Martin, for Jose Marti and Benito Juarez; a stately plaza named in honor of Miguel Hidalgo.

Avenida de Simon Bolivar, named for the liberator whose statue stands in parks of most cities of South America, extends around the Hall of Horticulture and village of model homes in the Exposition, passing in front of the replica of Texas' own shrine of independence, the Alamo. Avenida de Sam Martin, named for the patriot who led an army across the Andes through tortuous: Uspallata Pass to defeat the Spanish at Chacabuco and free his people of Yapeyu, now part of Argentina, extends around the Cotton Bowl stadium, where athletes of San Martin's country and a dozen others will compete in Pan American Games this summer.

Fervid post-patriot, Joe Marti, who roused his Cuban countrymen to revolt for liberty, is honored in naming of the avenue leading from the Hall of the State of Texas at the \$25,000,000 Pan American fair park to the stadium approach.

Across a lagoon from wide steps at the entrance of the Hall of Fine Arts, Plaza de Miguel Hidalgo is named for the Mexican priest and revolutionist, degraded by the Inquisition and shot for the cause of Mexico's independence.

Name of Benito Juarez, who was a small Indian boy when in 1811 Hidalgo's mantle fell to Morlos, but who rose to lead the Mexicans to victory over a French attempt to establish an empire under Maximilian, is given to the arterial drive through the agrarian way of the international fair.

Simor Bolivar, the Liberator, was born in Caracas of a noble and landed family. In 1810, in his fiery young manhood of 23, Bolivar joined the Venezuelan uprising against Spain, issuing rousing appeals to his people between

mez and was killed in fighting at Boca de Dos Rios, mouth of two rivers.

Short, as Marti's career and triumphs were short, is the avenue named for him at the Exposition.

A plaza adjoining the Pan American Palace, and between the entrances of the athletics stadium and the Hall of Fine Arts is identified as the Plaza de Miguel Hidalgo.

Mexico's War for Independence dated from September 16, 1810, on which date Miguel Hidalgo y Costilla issued his grito de Dolores. Then 59 years old, Hidalgo was a native of Guanajuato. He had been educated in the College of San Lorenzo in Valladolid, now Morelia. One of the many creole intellectuals who reacted in the way of the French Revolution, Hidalgo already had run afoul of the government, as parish priest of Dolores, for his leadership in improving the conditions of the natives. He had tried to teach them to set out olive groves, to market silks and had started a porcelain factory. The Inquisition haled him for heresy.

The capture of Ferdinand VII in the Napoleonic invasion stirred Mexico, as other Latin American countries, to separatist revolutions among native-born. At Queretaro Hidalgo and a group of creoles set revolt plans under way and when the plan was discovered prematurely, Hidalgo issued the Cry of Dolores. Natives enlisted to his cause. The banner of Our Lady of Guadalupe was appropriated as their standard. Religious and superstitious elements were instilled in the descendants of men who had met defeat before the conquistadores. Freedom and free land was the cry.

Only land-owning creoles were wary of the popular character of the revolt.

Organized as was the army of Hidalgo, victories came at San Miguel, Coloya, at Valladolid and a triumphant massacre of the Spanish at Guanajuato. Confidently, against the judgement of Hidalgo, his forces marched on Mexico City.

Measured success and unmeasured defeat came to the separatists at Monte de los Cruces and Aculco. Then came crushing failure on meeting the royalists at Celderon Bridge, January 17, 1811. Fleeing toward the United States, Hidalgo, by treachery, was captured, degraded by the Inquisition and shot. From his social reform schemes—freeing of slaves, lifting of tribute tax and return of land to the Indians, had come nothing.

An Indian boy, 8 years old at the time of execution of Hidalgo, was Benito Juarez. He studied law of his and other lands. In politics by the time he was grown, Juarez became governor of Oaxaca. In 1853 he was imprisoned for opposing Santa Anna.

Exile in the United States only gave Juarez time to plan and he went back into Mexico in the revolution of Ayutla. This elevated him to the ministry of justice and he issued the Ley Juarez, which with the Ley Lerdo challenged privileges of church and army.

Conservatives soon rose against the constitution of 1857. Juarez, succeeding to the presidency, resisted the conservatives, though he was forced to flee with his government to Guanajuato, to Guadalajara and finally to Vera Cruz. He was ultimately successful in his three year War of Reform, ending in 1861.

Foreign interventions then brought difficulties, from France, Spain, and England, with at tempt by the French to establish an Empire in Mexico under Maximilian.

Maintaining gallant resistance against the French, Juarez moved his capital to El Paso del North, which since has been renamed Ciudad Juarez. The Mexican people stood by him. The French empire fell. Juarez was re-elected President in 1867 and in 1871, but rifts in the ranks of the liberals handicapped the program and political maneuverings dulled the glories he had gained.

Names of the Washingtons of the neighbor nations to the south identify the key avenues through the Pan American Exposition at Dallas, where June 12 through October a "Cavalcade of the Americas" will dramatize the common theme of liberation throughout the north and south continents, and the entire international fair is built around President Roosevelt's Good Neighbor policy.

Green Foods Checks Feather Picking

Feather picking is a vicious habit held over from chick days. It can sometimes be checked by providing birds with bulk such as good green dried alfalfa. A box of soil about four feet square in each pen may break up the habit. The soil should be changed every week.

Uncle Jim Says

"When nature takes 500 years to make an inch of topsoil, it's a shame folks don't realize how fast good land goes when erosion starts."

Approximately 50 million acres of farm land in the United States are already so badly eroded as to be essentially unfit for cultivated crops; another 50 million acres are in a condition almost as bad.

There are now in cultivation some 100 million acres seriously impaired by erosion and misuse, and other 100 million acres on which erosion and poor management have begun to take toll.

Part of this condition has been due to the plowing up of grasslands which should have been left in sod. Most has been due to the farmers' inability, in the face of distressingly low prices for their products, to take proper care of their land.

A recent report from the National Resources Committee to the President pointed out that "... in another century this great American granary may have become inadequate to support our population if erosion is permitted to continue at the present rate."

More than a score of years ago the Texas Extension Service be-

gan its campaign to save soil and conserve moisture by terracing. More than 12 million acres have been terraced and contoured in Texas since that time; and in 1936, under the stimulus of the Agricultural Conservation Program, more than two million acres were terraced or contoured under the supervision and leadership of county agricultural agents in this State.

\$100 DEPOSIT IN PENNIES

Lebanon, Tenn.—It was a weary teller who had to check William Sellers' recent deposit of \$100. Sellers brought the money to the bank in a three-gallon pail, filled to the brim with pennies—10,000 of them. He announced he had 8,000 more at home which he would probably deposit before long.

TRAFFIC SIGNAL WILL BE PLACED AT INTERSECTION

Traffic at Northwest Corner Square To Be Regulated By Device

Regular meeting of the City Council Monday night was one of the busiest sessions of the year, with a number of important transactions recorded.

Members of the Council voted to purchase and install an auto- matic traffic light at the north- west corner of the square, at the intersection of the city's two main highways. The signal, order Tues- day morning, will be a Simplex 4- way traffic control, automatic in operation, with self-contained mo- tor control.

City Marshal Britton was in- structed to enforce the anti-park- ing regulation applying to a sec- tion reserved for mail cars at the postoffice, report of the City Li- brarian was accepted, and a pub- lic hearing on the City's budget for the ensuing fiscal year was ordered for April 19th.

A salary increase of \$15 per month for the Mayor, \$10 for the City Water Superintendent and \$20 for the City Secretary was voted, effective immediately.

Replacing of the tile sewer line with cast iron pipe across city property south of the square in the vicinity of two city wells will be started soon, Water Supt. Gil strap announced.

Approximately \$1,000 in bills against the city were approved for payment at the session.

Electricity Will Be Provided The South Ward School

The South Ward school build- ing, erected in 1906 and the old- est school building in the city, will be wired for electricity be- fore beginning of the next school term, following action of the School Board Monday night in giving their approval to the im- provement.

The two-story building, with eight class rooms, was erected in the spring and summer of 1906, before electricity was available in Haskell. The building has been in use each year, and the lack of lighting equipment was of little concern except on extremely dark days, which were infrequent.

Decision to modernize the light- facilities of the building was made in order that in addition to elec- tric lights, the convenience of a radio could be enjoyed and other facilities made available.

Fair—

A. association in Dallas recently. Dates of the summer race meet were approved by the Association, Mr. Tonn reported, although Abilene had made application for a similar meet. Haskell was favored due to the fact that the Central West Texas Fair Association was instrumental last year in reviving automobile races in this section.

Mr. Tonn has contacted a num- ber of race drivers in recent weeks, and from present indica- tions, the Summer Race Meet will attract some of the fastest drivers in the nation, and will be among the major July 4th attractions in West Texas.

Annual Meeting of WTCGA Members at Abilene April 13

Annual meeting of the members of the West Texas Cotton Grow- ers Association will be held April 13 at 1 o'clock, in Abilene. The session will be held in the county courtroom of the Taylor county courthouse.

All members are being urged to attend the meeting, at which time directors for the ensuing year will be elected, a report of the activi- ties from April 1936, to April 1937, of the WTCGA will be given, and such other business as may come before the meeting will be trans- acted.

J. L. Wilkinson, Coleman, is president of the association, and will preside at the meeting. B. Walters of Rule is director for this district.
