Courtney Hunt's Record Proves Him A True Friend of the Common People

(Reprinted from the July 6th Issue of THE TEXAS CITIZEN)

The editor of this newspaper kept a close tab on the members of the 46th legislature, and it is without qualification that I state that Courtney Hunt was at all times a true friend to the common people, if they ever had one in Austin. It would be a great pity if his fine services were not fully appreciated, and he was denied the customary courtesy of a second term.

One of the most valuable things he did in the legislature was to stand like a solid rock, like the patriot that he is, and defend the people of Texas against the powerful influences of to spike down in our Constitution an amendment that would have practically relieved Wall Street and the special interests of paying a just tax on the billions of dollars of wealth they are stealing from Texas every year in our natural resources and overcharges for electric power. Mr. Hunt was always there, with his voice and his vote against these Wall Street thieves who are today robbing Texas of billions, and who sought to bar the State from collecting just taxes from them. Surely the people of Haskell, Baylor and Throckmorton Counties are not going to fail to reward such faithful services in their interests. Mr. Hunt is not a "professional politician" but just a plain, successful business man of West Texas. He operated dry goods and general stores in West Texas, Merkel and Haskell, for 37 years, in Haskell for 28 years. He has proven by his life and personal relationship with his neighbors that he is the true friend of West Texas and of the common people.

In annuncing for re-election for a second term, Mr. Hunt makes the following statement: In the 46th Legislature I voted and

worked for Bills 340, 908, and tried to get others out of Committee. I am one of the 56ers and glad of it, and

COURTNEY HUNT

wouldn't change my vote to be elected to any office. I helped defeat Bond assumption bills 396 and 140. I have been an enthusiastic worker in West Texas C. of C. on the Freight Equalization for Texas and helped get the \$30,000 appropriation for same. fought tax remission to counties, but did work for 1-2 tax remission to all counties, but because of Harris and other South Texas Counties getting remission, and working for it. I voted and worked for a substantial raise in TRUCK LOAD LIMIT, and favor it now. I also favor the state providing funds, or working out a plan with the National Government for long time home-owning.

I want the Legislature to hire an auditor and employ an efficiency expert for one year, or two if necessary to work out abolition and consolidation of state departments, for the purpose of systematizing and economiz-

I favor meeting our Social Security obligations to the aged, the teachers, the crippled and blind by an equitable natural resource tax.

Jane Bradford Spending Summer Vacation at

Camp Waldemar Hunt, Texas, July 22 - Jane Bradford has enrolled in Camp Waldemar deep in the Kerr county hills for a six weeks vacation that will end August 24. Tuesday evening Jane met new friends from eight different states and two foreign countries in a moonlight mixer in the camp's new playhouse. Friday evening the jumor girls, including the camp's "dolls" or smallest campers, learned to do the square dances in Cactus Lodge. The dances were called by Johnny Regan, Argentine cowboy who teaches riding and trick roping at the camp. The dolls also danced 'Way Down Yonder in the Papaw Patch," a play party game.

Thursday evening Jane climbed her tribal hill for the first time to hear the ideals of her clan reviweed and plans laid to keep the silver plaque within the group She is a Comanche. This tribe long-time rivals of the Tejas, wor

To the Voters of Haskell County:

With only a few days remaining before the first primary, there will likely be some of you whom I will be unable to see personally in behalf of my candidacy for Tax Assessor-Collector. For that reason I am taking this method of soliciting your consideration and support and to tell you that your vote will be appreciated more than I can express in

As most of you know, I have served as a deputy in the office for the past six years and am fully acquainted with the duties of Tax Assessor-Collector. Limited time and means has prevented me from making as thorough a canvas as I would have liked, so if I fail to see you personally it will be unintentional and I would appreciate your consideration.

Most of you know me and know that I have reached the age in life that would make it difficult for me to find employment if out of a job. I have a, family of four children, and frankly I am asking for the job as your Tax Assessor-Collector because it pays a good salary and because I believe that I am fully competent and qualified to give you an efficient administration.

I will deeply appreciate your consideration of my candidacy and your vote in the primary Saturday.

Elephant and Donkey

For nearly 70 years American political cartoons have been adorned with pictures of elephants and donkeys, as symbols of the two major political parties and have amused millions who never heard of their originator.

The Republican elephant and the Democratic donkey were the creation of Thomas Nast, the mosfamous cartoonist of his day, and first appeared in Harper's Weekly-the donkey in 1870 and the elephant in 1874, according to researchers. He also first used the tiger to represent Tammany, and his cartoons exerted a great influence on public opinion for many years,

Thomas Nast was born in Germany a century ago, on September 27, 1840, and came to America at the age of six. He early began the study of art and when only 15 was appointed to the staff Leslie's Illustrated Newspaper. He later drew for periodicals in London and Paris, but returned the United States shortly before the Civil War. His powerful caricatures during that war in advocacy of the Union cause led Lincoln to call him "our best recruiting sergeant."

Besides his newspaper and periodical illustrations. Nast produced several creditable paintings in color, and illustrated a numbers of books. He also engaged in the publishing business on his own account without marked success and was finally appointed United States consul-general at Guayaquil. Ecuador, in 1902, where he died of yellow fever the same year.

His name is now almost forgotten, but his famous elephant and donkey will appear on the pages of American newspapers and magazines so long as our present political parties survive.

Sticking To A Job

When a man continues in the employment of one company for half a century it speaks well for his efficiency and loyalty as well as for good treatment on the part of his employer. In few lines of work is this illustrated to a greater extent than in railroading.

This is brought to mind by a recent statement President J. L. Beven of the Illinois Central, who notes the fact that in the last five years no less than 183 gold passes have been issued to veterans in his company's service who have completed fifty years with the railroad.

Many of these veterans have risen from the lowest ranks to become important executives of the road. Mr. Beven himself began as a freight office messenger in 1900, when only 12 years old, and was promoted through positions of increasing responsibility until he was elevated to the presidency in 1938. He succeeded L. A. Downs, who also rose from the ranks, beginning as rodman with an engineering crew.

All this suggests the possibilities for success which lie before a young American who will make up his mind about what he wants to do, who is willing to begin at the bottom and stick to the

To All The People of Haskell County:

I wish again to express to you good people of Haskell county my sincere appreciation for your having selected me as your District Clerk. During my first term in office I have tried my very best to make you a good District Clerk and with the help of my deputy, I believe that we have rendered the kind of efficient service that you expect from the officers whom you select to carry on your county government.

I don't think there has ever been anyone elected to an office who has gotten more benefits and pleasure out of it than I have—a good bunch of folks to work with and a good bunch of folks to serve.

Even though I-do not have an opponent, I still value your continued friendship and confidence in me and think your vote is worth asking for. If you will do this for me on July 27th, I will certainly appreciate it.

167 Youths Being Given Vocational Instruction Here

One hundred and sixty - seven boys in four Haskell county schools are receiving training in vocational agriculture, according to L. A. Woods, state superintendent of schools.

Classroom work or organized instruction is made available for 60,324 persons in 200 Texas counties. The Texas Association of Future Farmers of America, ar organization of farm boys studying vocational agriculture in the public high schools, was ranked first in the nation last year because of high percentage-accom-plishment of objectives in supervised practice, cooperation, community service, leadership, earnings and savings, conduct of meetings, scholarships and recreation.

Training in vocational agriculture is offered in Haskell county at the following schools: Haskell 49 students; Paint Creek, 36 students; Rule, 44 students; Weinert 38 students.

RE-ELECT

Jeorge Mahon

For Congress

He has remained at his post of duty in Washington during our grave national emergency with a firm resolve to serve the Nation in every possible way regardless of political considerations.

Congress is still in session and he is working for a program of strong national defense and a foreign policy designed to keep our Nation out of war. He is the only Texan on the Appropriations Committe and he has a vital part in the national defense

He has served the 19th District faithfully and efficiently throughout his term in office, and has acquired a place of influence in the House of Representatives.

He has worked for and voted for legislation to promote the best interests of the District and the Nation. He has given prompt and diligent cooperation

on the many community and individual requests made by the people of the District.

Let's give George Mahon an overwhelming vote of confidence in Saturday's Primary. He will deeply appreciate it.

Your Vote for

W. E. BLAND

Commissioner, Prec. 4 Will Be Greatly Appreciated

During the past few weeks I have endeavored to see every voter in the precinct in behalf of my candidacy, and I appreciate the encouragement received during my campaign. If I have not seen you, please consider this as a personal solicitation for your vote and influence.

If you elect me to this important county office, I assure you that I will devote my time and energy to the interests of the precinct and county, giving you the service you have a right to expect from your Commissioner. I will make it a point to see that the Precinct and county receives 100 cents on the dollar for all tax money spent.

This Is the Kind of Service Collie Has Given

Without repeating the many social advantages which have been achieved since I first became Senator in 1933, which have through these years received my earnest and untiring support, the people may be interested to know that my attitude, ability, and experience, are such that offer promise for even broader and greater public service for them in the

"Co-opeation" is the key word to the achievement of results. As proof that I have co-operated with the Governor and have been helpful to him, not only in the Legislature, but also in his industrial program, there is here reproduced some of the letters from him.

W. Lee O'Daniel THE STATE OF TEXAS Governor AUSTIN May 30th

Senator Wilbourne B. Collie. Senate Chamber Austin, Texas.

Dear Senator Collie: I am sending you this little note to express my personal appreciation for the help you have rendered the old folks and others included in the Social Security Program by passing Senate Joint Resolution No. 12 to raise the money to finance

I sincerely hope that the Members in the House who voted for this resolution will be joined by a sufficient number of their colleagues who will see the reasonableness of voting to submit

this Resolution to the people for their final decision.

If our united effors fail, then RESPONSIBILITY FOR FAILURE WILL MOST CERTAINLY "NOT" REST ON US. Sincerely yours, W. Lee O'Daniel

THE STATE OF TEXAS Executive Department

February 10th, 1940

Governor of Texas

Austin, Texas

Senator Wilbourne Collie, Eastland, Texas.

Dear Senator: I have your letter of the 8th and I am indeed sorry that you have had a touch of the flu and hope that you are getting along all right. I will appreciate all the information you can get for me with reference to the cattle industry. In the meantime I have talked to Judge Montague and he came into the office at my invitation today and we discussed the matter fully, so he will get all the information he can through his Association, Any additional information you can

get will be appreciated. With best personal regard, I am, Very truly yours, W. LEE O'DANIEL

In connection with these letters, may I say that I worked night and day to get the social security program financed. I had supported a tax bill in the Committee, and in addition, supported Senate Resolution No. 12, which was then the only hope for paying the obligation. I have also been greatly pleased to respond to the service of the Governor in any capacity where

I could be helpful. It would of course be impossible to discuss all the thou-sands of roll calls and all the hundreds of bills that have been before the Senate during the time I have served, but I can state without fear of contradiction that no member of the Senete has missed fewer roll calls or been any more "on the job" than has Wilbourne Collie-and that is the kind of faithful service that I promise you, if you again elect me,

Wilbourne B. Collie
