SUPERVISOR OF WPA PROJECT HERE FACES AUTO DEATH CHARGES

J. E. Magee Billed Following Accident Fatal To Truscott Men

J. E. Magee, former Hardeman county judge, who for the past nine months has been supervisor for the Works Progress Administration assigned to the Haskell county hospital project, was indicted Monday by a Knox county Grand Jury on two counts following the death of two Truscott men Saturday night on highway 16, east of Truscott.

Magee was indicted for failure to stop and render aid and for murder in connection with the two fatalities. The Truscott men, Ray Young, 35, and Floyd Anthony, 26, were killed when an automobile struck them. The accident occurred about 9:30 Saturday night while Young and Anthony were walking along the highway near Truscott. The car which struck the two men failed to stop, officers reported after investigating the accident.

Magee, arrested several miles from the scene of the accident by Sheriff Amos Lilly of Foard county, was released Sunday on \$2,500 bond arranged by his son, Fred Magee, of Vernon.

Magee, supervising instruction of the hospital building at Haskell was quoted by Sheriff Cartwright as saying he thought his car had struck a post.

Officials were quoted as saying both headlights on Magee's car were smashed. Following the accident he appeared at the home of Midge Adeock, who resides on highway 16 asking aid after his car had left road and gone into the ditch.

The bodies were discovered by Adeock after Magee left. Young was dead and Anthony died en route to a hospital.

Arrested by Sheriff Lilly of Foard county, Magee was turned over to the custody of Deputy Sheriff Orville Capehart of Knox county.

Magee was admitted later to the Knox City hospital for treatment of knife wounds on the throat, inflicted while Capehart was returning Magee in an automobile to the Knox county jail.

Sheriff Louis Cartwright of Knox county said that Capehart disarmed Magee and took the knife from him in a brief struggle. The wounds were not serious, it was said at a Quannah hospital Sunday where he was taken following his release.

Cartwright said there was no indication Magee had been driving at an excessive speed, and said he had made no written statement regarding the accident.

Magee, a WPA official at the present time, served two terms as county judge of Hardeman county from 1929 to 1934. A resident of Quannah for approximately 25 years, Magee is also a former county commissioner.

PERSONS-SPALDING ROOFING COMPANY ESTABLISHED HERE

New Firm Will Offer Complete Bonded Roofing Service

Announcement was made this week of the establishment of the Spalding-Persons Roofing Company in Haskell. Associated in the new firm are Dave H. Persons, manager of Brazelton Lumber Company here for the past eleven years, and Les E. Spalding, prominent building and roofing contractor of Breckenridge.

The new concern will specialize in bonded roofing service for every type of building. Mr. Persons said, including built-up roofs, Barber Asphalt Genasco roofs, Flintcoke roofs and Johns-Manville Asbestos shingles. The concern offers a complete service on new or repair jobs, Mr. Persons added.

Weinert Couple Escape Injury In Car Accident

Mr. and Mrs. H. T. Sullivan of Weinert narrowly escaped serious injuries last Thursday when their automobile overturned on the highway near Rule. The mishap occurred when a tire "blew out" causing the machine to go out of control and overturn. Both doors of the machine were jammed fast, and Mr. and Mrs. Sullivan were compelled to crawl through a window of the car. They sustained only slight scratches and bruises.

S. S. Worker

F. L. Daugherty, an active church leader and worker in the First Methodist Church for the past 30 years was honored Sunday with a surprise program arranged by the Good-fellows Sunday School Class in appreciation of his services, Sunday morning.

BLIND READING COURSE OFFERED BY LIONS CLUB

Free Instruction in Learning Braille System Is Made Available Here

A free course of instruction in reading Braille will be offered any person desiring the instruction, members of the Lions Club decided at their meeting Tuesday of this week. The club will arrange to teach anyone free of charge, if the person who is to take the lesson will make application, it was announced. Complete information concerning the course will be furnished by any member of the Lions Club.

The local Club also voted to help defray expenses of the Glade-water, Texas, high school band to the annual convention of Lions International to be held this year in Pittsburgh, Pa. The 80-piece band will be the official band of Texas Lions Clubs.

Plans were also discussed concerning a representative attendance from this city at the zone meeting of Lions Clubs to be held July 11 in Sweetwater.

Entertainment program during the luncheon and meeting was provided by Miss Louise Kaigler, pianist, and Betty Oates, 7-year-old daughter of Mr. and Mrs. Hill Oates, who captivated her audience with songs and tap dances.

Attendance of members showed a slight increase over previous meetings. Guests were L. R. Smith, new manager of Brazelton Lumber Co., Mrs. Hill Oates, Miss Louise Kaigler and Miss Betty Oates.

Golf Course In Readiness For Summer's Play

Grounds of the Haskell Golf Club have been placed in excellent playing condition for the summer, and local golfers are beginning preparations to take an active part in the Tri-County Golf Tournament to be held in Munday July 9th.

Oliver Hix, caretaker on the local course, stated this week that all undergrowth and weeds had been cleared from the grounds, and that work of placing oil on all greens would be finished this week.

Golfers of Haskell and surrounding towns are invited to use the local course, which is located west of town, adjacent to Highway 120. If sufficient interest can be developed, an inter-city tournament is planned sometime next month, following the tri-county meet at Munday.

Olin Patterson of Stamford has been in charge of the local office of the Gas Company this week during the absence of R. O. Pearson, who is enjoying his annual vacation.

Mr. and Mrs. Barton Welsh and son, Sam Clayton of Texas City, arrived in Haskell Monday for a three weeks visit with relatives and friends.

FARM PROGRAM IS DISCUSSION THEME AT C OF C MEETING

Monthly Breakfast for Members Held Tuesday at Tonkawa Hotel

In buoyant spirits following the year's most timely rains, 51 Haskell businessmen and guests attended the regular monthly membership breakfast of the Haskell Chamber of Commerce Tuesday morning in the Tonkawa Coffee Shop.

Theme of the program was "The Relationship of Farming to Business and Industry", arranged by County Agent G. R. Schumann, chairman of the agriculture committee of the Chamber of Commerce.

Sam A. Roberts, president, presided for the breakfast and meeting, and Ralph Duncan C of C manager, introduced guests and visitors.

In a brief talk County Agent Schumann outlined the program to be presented, and paid particular stress to phases affecting business interests.

Speakers on the program included Marvin P. Bryant, district representative of the Federal Crop Loan Administration, R. E. Skipworth, rural supervisor for the Farm Security Administration in this district, J. M. Bird, Soil Conservation supervisor of the California Creek Watershed project, and J. E. Thomson, secretary of the Haskell county Agricultural Conservation Association.

Importance of agriculture as an industry, in its effect on local commerce, was illustrated by Mr. Thomson, who quoted figures relating to farm income for 1938. During that period, he said, Haskell county farmers received an approximate total of \$2,763,000 for cotton, wheat, and benefits in the AAA program. Farm income from other sources, including sale of feed, dairy and poultry products, etc., boosted the annual total income to an estimated \$5,125,000, the speaker pointed out, in emphasizing the important of agriculture to this section.

Guests attending the meeting included Porter H. Campbell, ruler chamber of commerce manager, and E. B. Harris, editor of the Rule Review, Jess Bell of Rochester, O., B. Welsh of Texas City, J. M. Bird of Stamford, Miss Annie Mae Hudson and Jack Christian of the local FSA office, and Miss Mildred Vaughan, County HD Agent.

Next membership meeting will be held early in July, in the form of a picnic and out-door luncheon in Rice Springs Park.

Plans for NYA Local Projects Are Completed

The District Office of the National Youth Administration has completed plans for the employment of youths during the next fiscal year in Haskell County. Three project applications have been forwarded to Mr. J. C. Kellam, State Director, for his approval. The projects are drawn to furnish clerical assistance to the various public offices of Haskell County, to furnish employment to youths in soil conservation work under the supervision of the County Agricultural Agent, and to landscape and beautify the school grounds of the various public schools throughout the county.

These projects will offer youths an opportunity to learn while they earn, and the work experience so gained should prove very useful to them in the future.

Final Rites For Miss Bynum Held At Rule on Monday

Funeral services were held at the First Methodist Church in Rule Monday for Miss Zuma Bynum, 53, a pioneer of that city who died of cancer, some time after a several months illness. The services were conducted by Rev. Clarence Bounds, pastor of the church, and Rev. Luther Kirk, pastor of the Methodist church of Rochester.

Interment was made in the Rule cemetery with Gauntt Funeral Home of Rule in charge of arrangements. Deceased had been a member of the Methodist Church for the past 44 years. Immediate survivors include three brothers: O. E. Bynum of Rule, Q. C. Bynum of Los Angeles, Calif., and J. S. Bynum of Waxahachie, all of whom were present for the funeral.

Mr. and Mrs. Elzie Whatley and son of Pampa are visiting their parents, Mr. and Mrs. I. V. Marrs and the Rev. and Mrs. H. R. Whatley.

FSA WILL RECEIVE APPLICATIONS FOR TENANT LAND LOANS

Evangelist

President T. H. Johnson of the Manhattan Bible College, Manhattan, Kans., will begin a two weeks Revival Meeting at the First Christian Church in this city Sunday morning. An able and inspiring evangelist and widely recognized Bible teacher, Mr. Johnson will be remembered for his successful leadership of an evangelistic campaign for the Haskell church last year.

L. A. Sadler Dies Suddenly at Home In Abilene Monday

L. A. Sadler of Abilene, son of Mrs. J. E. Sadler of this city, and brother of Mrs. W. A. Holt, also of Haskell, died unexpectedly of a heart attack at his home in Abilene at 3:30 Monday morning. Mr. Sadler, 57, was assistant deputy supervisor of the oil and gas division of the state railroad commission.

Mr. Sadler had been a resident of Abilene 18 years, moving to that city from Anson in 1921. For 13 years he was associated with the Citizens National Bank, Abilene, as head teller and assistant cashier. He was elected Abilene city commissioner in April, 1937, resigning in January of this year to accept a place with the Texas Railroad Commission.

Before going to Abilene, Mr. Sadler resided in Stamford and Anson, and served for several years as tax assessor-collector of Jones county.

Funeral service for Mr. Sadler was held Tuesday afternoon at the First Baptist Church, Abilene, with Dr. Millard A. Jenkins, pastor, officiating. He was assisted by the Rev. C. A. Long, pastor of St. Paul Methodist Church, Burial was in the Stamford cemetery with the Abilene Masonic lodge directing.

Survivors include his wife, mother, Mrs. J. E. Sadler of Haskell; a sister, Mrs. W. A. Holt of Haskell, and three brothers, Leonard of Big Spring, Harley of Sweetwater, and Fennie of Dexter, N. M. Mr. Sadler's father died in 1930 and another brother preceded him in death.

News Item "Swamps" Clerk's Office With Typist Applicants

Office of County Clerk Roy Ratliff has been "swamped" with applicants for positions as typists following publication of a news item last week concerning the filing of a voluminous instrument for recording, he said this week.

Although the instrument was the largest ever filed in Haskell county, the recording assignment was handled in routine manner by deputies in the office, Misses Janie Lyle Martin and Lucille Akins.

"Juneteenth" Celebration An Enthusiastic Success - But Unprofitable, Sponsors Say

Colored residents of Haskell staged an enthusiastic and peaceable observation of Emancipation Day in two days of celebrating Sunday and Monday. Only events to mar the occasion was the sudden departure of the colored baseball club's treasurer for another city, and a brief dispute between two colored visitors who decided to settle their differences when they met at a dance here Monday night.

Principal entertainment features arranged for the Juneteenth celebration were ball games between the Seymour Black Panthers and Haskell Black Braves on Sunday and Monday, and a dance at the "Yellow Dog". The Seymour ball players lost

Loans for Farm Purchases to Be Considered on Basis of Fair Appraisal

In accordance with provisions of the Bankhead-Jones Farm Tenant Act, the Farm Security Administration will receive applications from farm tenants, farm laborers and sharecroppers for a limited number of loans in Haskell County for the purchase of farms, it was announced this week by R. E. Skipworth County Rural Supervisor. However, it was pointed out by Mr. Skipworth that unless satisfactory farms can be obtained at reasonable agricultural prices, no loans will be made in this county during this fiscal year, but the funds will be made available to other counties where land can be purchased at a reasonable price that meets the requirements of the Tenant Purchase program.

Applications will be received at the County Rural Supervisors' office which is located in the Court House at Haskell, beginning July 20, 1939 and ending July 20, 1939.

It is suggested that all farm tenants, farm laborers, and sharecroppers who are interested in submitting an application for consideration under the above farm tenant act, secure an application blank and fill it out and submit it to the county rural supervisor not later than July 20.

No assurance can be given at this time of any loans being made under the provision of the Bankhead-Jones Farm Tenant Act for the reason that the appropriation for this program has not been made.

AAA Will Boost Payment to Low-Income Farmers

The AAA expects to use more than \$5,000,000 in Texas this year to increase payments to small farmers who, according to the regular schedule of grants would not earn more than \$200 by taking part in the Agricultural Conservation Program.

The ACP feature of the AAA program provides for conservation payments to reward soil and water conservation accomplished through confinement of soil-depleting crops to acreage allotments and adoption of soil-building and range conservation practices. When total payments to a farm or ranch are less than \$200, the checks are increased on a graduating scale. For example, a payment of \$50 calculated under regular terms of the program would be hiked by \$13, Ratliff, Joe A. Jones, Lynn Pace, \$14 added to it.

"This is another reason why our program has been called 'a small farmer's program'," Donald Cochran of Caviness, Lamar county farmer and member of the Texas Agricultural Conservation Committee, observed. "In doing the provision for increase of small payments, Congress intended to make the program as profitable as could be for the many families trying to make a go of it on small plots of land."

Names of Several Firms Omitted In 'Trades Day' List

In listing names of merchants who are cooperating in Haskell's weekly Trades Day events, through an oversight several cooperating firms were omitted.

The list should have included Wheatley's Shoe Shop, Payne Drug Company, Collier's Grocery, McGraw's Cafe and Woodson Battery and Radio Shop. These firms are cooperating fully in the weekly events.

CHRISTIAN CHURCH SUMMER MEETING WILL BEGIN SUNDAY

President Manhattan Bible College Will Conduct Services

Annual summer revival meeting of the First Christian Church will begin next Sunday, June 25 and continue through Sunday night, July 9th, church leaders announced this week.

President T. H. Johnson of the Manhattan Bible College, Manhattan, Kans., will conduct the two-weeks evangelistic campaign, and will be assisted in the services by the local pastor, Rev. W. Russell Courtney.

Evangelist Johnson will be remembered as leader of the annual revival meeting of the local church held last year. His knowledge and presentation of gospel messages was a large factor in the success of last year's campaign. Local church leaders said in announcing his acceptance of an invitation to again lead the summer revival for the Haskell church.

The meeting will be held outdoors, weather permitting, and preparations were started Thursday to install a platform for the pulpit and choir together with ample seating accommodations on the south lawn of the church.

Debt Relief Given Farmers; County Is In High District

Burden of excessive debt was lightened for 148 Texas farm families during May by county debt adjustment committees, it was announced today from Dallas by Guion Gregg, of the Farm Security Administration.

Mr. Gregg said that of the 12 FSA administrative districts in the state, a 24-county area in North-west Texas, including Haskell county, had the greatest adjustment. M. B. Oates, Wichita Falls, is district FSA supervisor.

Debt relief was given by county committees which act as mediator between debt-distressed farmer and their creditors in working out agreements for extensions of time and reduction in interest and principal. Most of these families whose debts were adjusted were in danger of losing their land or farming equipment.

"Creditors are not unwilling to grant these concessions," Mr. Gregg said, "when they realize that by so doing they will be ahead in the long run. When an orderly repayment schedule that a farmer can meet has been worked out, the FSA will assist him with its loan and advisory service to farm profitably."

The committee, which is composed of local men, meets regularly. It has no money to lend, but its decisions are free and confidential. Meeting notices will appear from time to time in the Free Press.

Grand Jury At Throckmorton Votes 7 Bills

Grand Jury for the current term of District Court in Throckmorton county returned seven indictments after being in session two days, court officials said Wednesday. Six of the indictments alleged driving an automobile while intoxicated, and a seventh alleged misdemeanor or theft. All of the cases developed from Grand Jury indictments have been set for trial during the coming week. Trial of two jury civil cases and one non-jury civil case is also scheduled for the week.

A Throckmorton county farmer, charged with assault with intent to murder, entered a plea of guilty to aggravated assault and was assessed a fine of \$25 and costs during court proceedings Wednesday.

The three-weeks term of court will end July 1st.

Downpours Sunday, Monday Bring More Than Three Inches of Moisture

This section's most timely rainfall in years came Sunday and Monday, when a total of more than three inches of needed moisture was received over a wide area, to blast fears of a summer "drouth" which had already been heralded by wilted fringes in fields of cotton and feed.

Heavy showers general over the county Sunday afternoon provided slightly more than one-half inch rainfall, and were followed Monday afternoon and night by torrential rains which flooded surface banks and streams. Precipitation during Monday night was gauged at 2.82 inches in Haskell, and was considerably heavier in the east and northeast parts of the county, where estimates of the fall ranged from four to five inches. Farmers rejoiced over the fact that usual high winds and hail was absent during the downpours, seasonably expected as a major hazard to young crops.

This immediate section, embracing practically the entire county, apparently was in a "favored" spot for general rains. In other areas of West Texas floods caused damage at Snyder and Crowley, while "twisters" devastated areas west of Lubbock and in New Mexico. Other points near the line of Oklahoma reported only light showers where beneficial rains are needed to break a drouth of several months duration.

Monday night's downpour locally was accompanied by only slight property damage, a check Tuesday revealed. Local employees of the West Texas Utilities Company were kept at work during the night repairing several interruptions in service, and work was halted Tuesday on the surfacing project underway on Highway 120 east of Haskell.

Mail service on the recently-established rural route to the southeast part of the county also suffered, with swollen streams at the intersection of Paint and California Creeks east of town making the route impassable.

Son-In-Law of Haskell Couple Fatally Burned

An apartment house fire in Providence, R. I., Sunday resulted in the death of Eddie Healey, son-in-law of Mr. and Mrs. B. T. Clift of this city died from burns and injuries suffered when he leaped from the fourth floor apartment of the burning building. Two other occupants of the building lost their lives in the fire, and twenty-five persons were injured.

Mr. Healey, 44, former well-known stage star, had operated a restaurant in Providence for the past several years. He and Miss Clift were married a number of years ago.

Mrs. Healey was visiting in New York when her husband was killed. Funeral for Mr. Healey was held in Providence Thursday, Haskell relatives were advised.

L. R. SMITH IS NEW MANAGER OF BRAZELTON FIRM

Former Humble, Tex., Lumber Dealer Succeeds D. H. Persons

Effective July 1, L. R. Smith, formerly of Humble, Texas, will succeed D. H. Persons as local manager of L. Brazelton Lumber Company. Mr. Smith arrived in Haskell this week. He has had a number of years experience in the lumber business in south and east Texas.

Mr. Persons, manager of the local firm for the past eleven and one-half years, is resigning his position to enter private business, and will be associated with Les E. Spalding of Breckenridge in the new firm of Spalding-Persons Roofing Company of Haskell.

Mr. and Mrs. Jas W. Kennedy and children returned Sunday night from a two-weeks vacation spent in California. They visited in Los Angeles and Fresno before going to the World's Fair at San Francisco.

G. L. English, editor of the Stamford Leader was a visitor in Haskell Monday.

2,500 Boys and Girls Expected At Short Course

Between five and six thousand farm people will visit the Texas A. and M. campus during the Short Course period of July 5-14. H. H. Williamson, director of the Texas Extension Service, estimates.

Accommodations have been provided for 2,500 boys and girls during the 4-11 Club Short Course of July 5-7. He said, around 200 boys are expected to "camp out" and another 800 will be housed under the stadium, while the girls and the remainder of the boys will have dormitory rooms.

Registration of farm and ranch men and women at the July 12-14 Farmers Short Course is expected to reach 2,500. In addition, a number of special groups will meet at the same time. These include the Institute for Cooperatives, the Texas Agricultural Workers, Texas Agricultural Writers, and Texas Horse, Jack, and Mule Breeder's Association.

County agricultural and home demonstration agents will gather July 10-11 for their annual session between the two Short Courses as will workers of the Texas Agricultural Experiment Station. D. L. Weddington, in charge of arrangements for accommodations, said rooms and meals would be available in excess of the expected attendance. "No one who wants to attend the Short Course need stay away," he pointed out.

Texas Farmers Favor Expansion of FSA's Land Purchase Work

A survey of Texas farmers' opinion shows 95 per cent of land owners and 96 per cent of tenants favor expansion of the Farm Security Administration's activities in helping good tenant farmers to buy land. The survey was made at a series of 14 meetings recently completed, in counties extending from Wilcox in the Rio Grande Valley to Fannin County on the Oklahoma border, and from Hall County in the West to Anderson County in the East. The meetings were sponsored by a committee of the Texas Agricultural Workers Association, according to announcement of the survey results as made by C. M. Evans, member of the committee and FSA's regional director.

Evans said the meetings were held to study the results that have brought about a heavy decrease in the number of farms in Texas and the resultant displacement of many thousands of tenants who formerly made a living upon the farm but are now in most cases drifting about the highways in search of temporary labor.

Eighty-six per cent of the farmers said that there had been considerable displacement of tenants from farms in their sections. Answering questions as to how a more profitable working relation could be established between landlords and tenants, in order to prevent tenants from being set adrift, both tenants and landlords agreed that written leasing agreements would

bring tenants greater security and lead to higher returns for both the tenant and the owner. Eighty-seven per cent of the tenants favored legislation that would require a minimum time for notice before a tenant is forced to quit the farm and 45 per cent of the landlords

avored such legislation. Both landlords and tenants agreed that tenants ought to receive compensation for improvements which they make. The large majority said the tenant should be permitted to remove equipment that he has placed upon the farm

such as fences, outbuildings, etc., and, in the case of substantial permanent improvements made with the owner's consent, the tenant upon leaving should be compensated for the unused value.

Evans said that FSA has developed a written lease which provides for most of the things recommended at these meetings and that copies of this lease may be obtained free at any FSA county office.

FSA's farm purchase activities which 95 per cent of farmers said should be expanded are being carried on this year in 55 Texas counties and 27 Oklahoma counties. A federal appropriation authorized by the Bankhead-Jones Act made \$25,000,000 available for the fiscal year which ends June 30. The Senate has approved double that amount for the new fiscal year and this recommendation is now being considered in conference, the House having originally voted \$25,000,000, the same as for the past year.

FSA's farm ownership program is now entering its third year. The average loan has been around six thousand dollars, seventy-eight percent going for the original purchase price of the land, and about twenty-two percent for improvements. The average farm bought was 154 acres.

Two hundred and forty-six years ago today—June 23, 1693—historians record the signing of Penn's Treaty with the Indians, terms of which guaranteed peace between the Quaker colonies and Indian Tribes of the territory now embraced in the State of Pennsylvania. The agreement was the first treaty in the New World, and was the basic foundation for developing the resources of the colonial venture.

The insurance policies we write embody the same principles of Penn's Treaty—they guarantee protection of your property against loss or damage by fire, storm, or other hazards. Let us explain an all-coverage policy for your home or office.

"I thought I knew all about automobiles!"

A LOT of folks have had their eyes opened wide by a ride in a 1939 Ford V-8. They just didn't realize how much more value and how many improvements we've put in this car the last few years.
Today's advanced Ford is a product of progressive engineering, fine materials and honest construction. It is backed by an experience of building far more cars than anybody else in the world.
One ride in today's Ford — with its smooth 8-cylinder engine, stabilized chassis, hydraulic brakes — will prove it's the modern car in the low-price field.

Mrs. L. F. Taylor Hostess For Helen Bagby Circle

The Helen Bagby Circle of the First Baptist Church met in the home of Mrs. Taylor Monday evening at 4 o'clock for a Bible lesson with our efficient teacher, Mrs. Gilstrap. We sang "Sweet Hour of Prayer" as our first song with Miss Ida Crawford at the piano. Mrs. Taylor gave the devotion from the 34th Psalm which was followed with prayer by Mrs. Paxton. Mrs. Taylor then conducted a short business session in which Mrs. K. D. Simmons gave a good report on our last meeting and Mrs. Sides on Personal Service. Then Mrs. Gilstrap in her sweet and impressive way taught our Bible lesson from John, the fourth chapter, Jesus talking with the Samaritan woman saying, "Whosoever drinketh of the water that I shall give him shall never thirst; but the water that I shall give him shall be in him a well of water springing up into everlasting life. And he that receiveth, receiveth wages, and gathereth fruit unto life eternal; that both he that soweth and he that reapeth may rejoice together. And many more believed because of his own word. This lesson was very interesting and each one present received a blessing from it. We closed with sentence prayers for our revival meeting that will begin the first Sunday in August and we will meet in each home for cottage prayer meetings during the month of July. Miss Ann Taylor served refreshments of punch and cakes to sixteen ladies. We were glad to have one new member, Mrs. Laird and three visitors.

Ladies present were: Mesdames Gilstrap, Paxton, Merchant, Sides, Cates, Yantis, Stewart, Lamkin, Simmons, Crawford, Laird, James, Bailey and Mother Bailey. Miss Ida Crawford and the hostess, with three visitors, Mrs. Lillian Lewis (nee Paxton), Misses Vick and Hattie Paxton and Ann Taylor.

Methodist Missionary Society Meets In Home Of Mrs. A. H. Wair

On Monday afternoon the members of the Methodist Missionary Society met in the pleasant home of Mrs. A. H. Wair and resumed the study of the mission book, "The Church Takes Root In India." Mrs. Irby told of the very great work being performed in India by one of the great Hindu leaders. We have forgotten the name, but his influence is second only to Ghandi. He is a great poet and dramatist and has dramatized the book of Amos for the benefit of his people. The native dialect at that time consisted of 900 letters. He condensed these into 90.

Mrs. Martin told of "The Church And Its Environment."

The size of India is eight times that of the State of Texas and has 3-4 the population of the English empire. A contrast was drawn showing the difference in the lives of the native Hindu and the converted christian.

The lesson was concluded with a prayer by Mrs. Wairs.

We meet on next Monday afternoon in the basement of the church. Mrs. Hugh Smith, C. S. R. superintendent will direct a program on "Widening Our National Outlook." Be present at 4 p. m.

Mrs. Wair, assisted by her charming daughter Sue, served sandwiches and tea to the following ladies: Mesdames E. Martin, Lewis, Thornton, Kimbrough, Darnell, Smith, Hellums, Mays, Irby, Cahill, Fields, Haynes, Rike.

Vacation training school will begin Monday at 8:30. Any child within public school age will be permitted. No tuition will be charged. The course will consist of interesting Bible drills and Bible plays and singing. It will not be tedious, but full of pleasure. The first public demonstration will be Wednesday night. This training will prove to be very valuable to the child, and we ask the cooperation of the parents in helping us make it a success.

The ladies are invited to hear a special sermon to the women next Wednesday at 2:30. All other services at usual hours.

Miss Kinzie Tucker of Clovis, N. M. is visiting her father, J. J. Tucker and other relatives and friends in Haskell.

Joe Thomas of Corpus Christi is visiting relatives and friends in Haskell.

Science double checks as tests are constantly being applied to milk to protect its purity and safeguard quality for the home.

American Milk World Leader

Science double checks as tests are constantly being applied to milk to protect its purity and safeguard quality for the home.

DISTRIBUTION of milk in this country has grown to a point where it far outstrips any other country in the world in volume and sanitary protection of its product.

When 30 million bottles of fresh milk are placed on the doorsteps of American homes every day this stupendous but unobtrusive daily service to consumers is so efficiently carried out as to be almost unbelievable to foreign milk experts.

Daily distribution of milk by trained organizations is a distinctive American development, says the Milk Industry Foundation, as few consumers in foreign lands have a dependable protected supply of milk delivered daily at their doorsteps.

In most other countries milk distribution is generally antiquated, although traditional, but or miss affair. Dog carts, mules, hand tanks and other primitive means are used to make deliveries. As a rule milk is dipped from open containers in vessels supplied by the housewife.

The modern equipment of the American milk distributor is in direct contrast to most foreign methods. Here the distributor is trained in the handling and processing of a perishable food and also serves as a guardian of the community health.

Pasteurizing, bottle-washing, bottling, capping, refrigerating, testing, safeguarding butterfat content, inspecting farms and the myriad details of delivery equipment, all of which protect the milk, are almost unknown to foreign milkmen.

KNOW YOUR BIBLE?

Guess The Name of The Book Which Says That:

1. A certain king was a "head of gold".
2. The same king ate "grass as oxen".
3. Another king was weighed in the balances.
4. A certain prince was seen praying toward Jerusalem.
5. Another prince was seen riding on the clouds of heaven.
6. The kingdom of heaven is a rolling stone.
7. There will be a general resurrection of the dead.

One book in the Bible contains all these facts, and only one. The name of the book will be given next week.

GEMS OF THOUGHT

A perfect faith would lift us absolutely above fear.

—George MacDonald

Purging The Payroll

General Lehman of New York has stated in a bill which he has introduced in the House of Representatives that state and federal employees should be subjected to a physical examination as a condition of their employment.

It is suggested that a similar bill be introduced in the Texas Legislature. It is believed that such a bill would be of great benefit to the state and federal employees.

Changes in our governmental policies may be effected by the passage of bills in the House. But specific provisions should be made to create the basis of the privilege granted by the Constitution and the Bill of Rights by persons who would destroy our democratic institutions.

The Embarrassing Few

In any large group there are bound to be a certain number of persons who do not know how to behave and who by their every action display their bad manners and lack of breeding.

It was, of course, too much to hope that this would hold true in Canada and the United States—where together have a population of nearly 150,000,000—when King George and Queen Elizabeth came visiting.

While there were a few unbecoming incidents during the trip across Canada, they amounted to little compared to the antics of a small group of Washington congressmen who were determined to embarrass the President and used the Capitol as their playground.

They first seized upon the detention in Detroit of Sean Russell, Irish Republican Army leader, and threatened to organize a boycott of the congressional recess for their objection. Finally Russell's release was arranged, but not until a bit of unpleasant publicity had resulted.

They then organized a group of Irish descent dispatched a telegram to King George—who at the moment was a guest in this same congressman's government in the White House—reminding him of the rather sizeable British war debt. Following that a suggested royal banquet menu was released by this representative to the press. Calculated to be funny but causing only embarrassment, the menu made

various references to Revolutionary War engagements. Regardless of a person's nationality or political beliefs, such manners as these can be labeled nothing short of rude. The king and queen had been invited here by the head of the United States government and while they were his guests, they were entitled to the same politeness as an invited guest in your home.

Whether their majesties were conscious of these embarrassing actions will never be known. They, of course, are too well bred themselves to even hint that they were aware of what was going on. If they are, however, it is hoped that they will judge Americans by the millions of well-behaved citizens instead of the handful of bad actors. The king and queen have left in America a good impression. Americans hope that they carry home with them pleasant memories of this nation.

The Use of Perfumes

Perfumes are said to have been first used by early barbarians to kill the offensive odor of burning flesh offered as a sacrifice on their altars. This was not so much because the odors were themselves insidious, but in order that the gods might not be offended by an unpleasant smell. The use of such incense logically followed in the course of time.

According to an authority on the subject of perfumes, cited by Florence Knipfing, ladies of ancient Greece used different scents for different parts of their bodies. Later the Greeks called that a common-sense use of one distinctive perfume exclusively.

It is said that a perfume was introduced into the world by a Greek girl named Cleopatra. She was a beautiful woman and her perfume was so good that it was used by the Romans. It was also used by the Egyptians.

Lincoln's Grammar

An intimate memento of Abraham Lincoln and his youthful sweetheart, Ann Rutledge, was recently received by the Library of Congress, where it will be preserved with other relics of our first married president. It is the Kirkham's Grammar which Lincoln and Ann studied in New Salem, Ill., 100 years ago.

Textbook were scarce in those days and Lincoln obtained the grammar second-hand from the former owner, walking a dozen miles to secure it. This was in 1831, when he was clerking in a New Salem store and boarding with Ann's parents. When he had mastered its contents he gave the book to Ann, writing on the title page, "Ann M. Rutledge is now learning grammar."

It is said that Abraham and Ann became engaged on July 4, 1833, shortly before Lincoln's election to the state legislature. Ann was stricken with malarial fever and died August 3, 1835, and intimate friends of Lincoln declared he never recovered from his grief for the only woman he ever truly loved.

The book was preserved by the Rutledge family finally coming into the possession of William Rutledge of Milton, Mont., a nephew of Ann. From him it was borrowed by Miss Jane Hamand for the public library of Decatur, Ill. Not long ago, with Mr. Rutledge's consent, she presented it to the Congressional Library. There it may now be seen in the case which also contains Lincoln's Bible in which he inscribed his family records with his own hand.

Let's Quit Rowing In Circles

Health Officer Advises Typhoid Preventive Step

If you have not been vaccinated against typhoid fever within the last two to three years, go to your family physician and have him give you three "shots" that will protect you against that disease.

This advice comes from the Texas State Health Department, and is addressed particularly to those persons planning vacations away from home or those who regularly go on camping, fishing or such trips.

Typhoid is contracted by way of the mouth. Each case comes directly or indirectly from some previous case. You eat or drink the germs that cause the disease, in food, water or milk contaminated by the discharges from the persons who have had it at some time.

Modern medical and public health practices have greatly reduced the occurrence of typhoid, but it is still a menace to those unprotected against the disease. Protection of public water supplies from pollution, pasteurization of milk, inspection and supervision of food supplies, improvement in household sanitation and hygienic habits, better sewage disposal and careful investigation of typhoid outbreaks to determine the source of the disease are measures which have contributed to the diminution of the incidence of typhoid in Texas. But there are still sources of infection to which individuals are exposed that cannot be reached by public measures, and for which vaccination affords additional protection.

Persons who are apparently well, but who have had the disease at some time, may continue to discharge the typhoid germs. Such persons are known as "carriers" and if they are not careful in their personal habits they are liable to contaminate any food they touch. Flies carry germs from contaminated sources to food, and are another source of typhoid infection.

Health departments, state, city and county are waging constant warfare against typhoid all the year. Special efforts are made during the vacation period through the sanitary supervision of summer camps, parks, and public eating places to reduce any possible danger of vacation typhoid from such sources. But vaccination and sanitation are the only means to personal safety against the disease. So see your physician today for a vaccination and summer unmarred by typhoid.

Haskell County History

20 Years Ago—June 19, 1919
Mr. F. G. You has returned from the Confederated States of America, and is enthusiastic in his praise of that city, which has through wide open to the westward.

Lavender Ogden came in this week to visit his father, Wm. Ogden. He said he heard of the steam that week and came to see about it.

Linnell Naudin has opened up a better shop in the new brick building on the north side.

Chief Andrew T. Long of the U. S. Navy spent several days here this week during his tour to C. D. Long Camp Long was on the China Station during the Bremer abduction and later was Captain of President Roosevelt's yacht, on which the President's family spent a great deal of time cruising.

Charles Hill of Meritt was in Haskell this week on his way to M. Hunt in his dry goods store.

Since the rain the grass has made wonderful growth and in many places is as high as corn and other feed crops.

The large fitting machine was started Tuesday evening digging the ditch for the water and sewage system. The water tower is complete and the reservoir is being riveted together, and rains are being led from the square to the city wells south of town.

Maryin Hancock, who has been travelling since February for a St. Louis firm, visited his parents here this week.

The North Side Market has moved into the new building on the north side of the square.

Bonds have been voted for another school building, which will give our town three large, commodious buildings. When the new structure is completed, Haskell will have the best facilities of any town in West Texas.

40 Years Ago—June 24, 1899
Virgil Hudson returned Wednesday from a trip to Eastland. Jim Fields went to Abilene on Wednesday on business, getting back yesterday evening.

for the survey from Anson to this place and were well satisfied with the "lay" of the land. While here they took the location and bearings of the depot grounds with reference to the curbing on the southeast so as to be able to make a straight run to the grounds.

Messrs. Dave Garren and J. P. Armstrong have returned from New Mexico, where they carried their stock horses. Mr. Garren says that after reaching the syndicate pasture on the plains and on westward there had not been rain enough to start the grass. They went only 15 or 20 miles into New Mexico and found that part mostly occupied by Mexicans with small herds of coarse woolled, hairy sheep and only occasionally a cattle and horse ranch with an appearance of thrift about it.

Mr. Washington informs us that he will have the mud holes on the highway and Rocky creek on the Seymour road bridged by the middle of next week to that the mud will be all right for freighting.

Mr. Bob Ferguson of Hill county, who has had quite a large number of horses in this county for several years on free grass, was seen during the past week gathering them up, and will hunt for grass in New Mexico for them.

The floods caused by the heavy rains had swept away the fences near the Brazos between this place and Benjamin, and the bridge over the Wichita at Guthrie in King county. The bridge at Seymour stood the strain, only the approach on this side being damaged.

A Paper That Serves Your Interests — Better!

He's an old timer. He remembers the Panic of '93. When Dewey was victorious at Manila Bay, he was in the crowds that whooped it up with some high-wide-and-handsome celebrating. Teddy was waving the big stick while he, and men like him, were leading heated discussions around cracker barrels up and down the country. Yes, and he can remember when it took days to make a trip that modern autos and paved roads have shaved down to mere hours. You'll find lots of old-timers around town. They recall some of the difficulties of shopping, too. When buying a "gold brick" seemed to be an inseparable part of a good many transactions. He recognizes Advertising for what it is—a vital force in shaping and improving buying habits—in enabling you and your family (and every other family in Haskell) to enjoy more of life's comforts. Today, merchants pride themselves on their integrity . . . on their selections . . . on their ability to serve. Study the ads in this issue. They'll help you to buy more wisely. Nation's "Cosmopolitan Girl" Chosen By Famed Judges

A SEVEN-MONTHS' search for America's most Cosmopolitan girl has been completed by a distinguished group of judges. Isabel Caldwell McDougal, eighteen years old, a slim figure of loveliness out of the deep South, from Greenwood, Mississippi, has been chosen "Miss Cosmopolitan."

ISABEL McDOUGAL

Isabel rides horseback, drives a car and swims. But more than anything else, she likes to dance. The rhythm of her movements, the grace of her body, the tremendous vitality and zest for life she possesses, all have their roots in her love of music. She plays the clarinet, the piano and the saxophone, and was a member of the school band. This year, Isabel is a freshman at the Mississippi State College for Women.

her nature, which explains why she is equally popular with girls as with boys. Speaking of boys, Isabel has a raft of them, but she's particularly fond of one young chap, an athlete she met a couple of years ago down South during spring training. He's a Northerner, hailing from Brooklyn, New York. Isabel laughs lightly when the question of marriage is raised. "There's lots of time," she evades.

A new type of instructive-entertainment, sportsmen's shows which have attracted tens of thousands of spectators in Eastern cities is invading Texas. Elaborate preparations are being made for the first of these, the Southwest Sportsman's Show, which will be staged at Amarillo for one week beginning June 26 and which is expected to attract 30,000 persons.

The show, being staged by sportsmen of the Panhandle, will present the greatest galaxy of outdoor sports talent and the most extensive collection of exhibits of outdoor life of the Southwest ever attempted. The Texas game department is co-operating in this educational event by providing displays of game animals and by showing its library of color motion pictures of Texas game birds, animals and fish.

Champions in archery, rifle and pistol shooting, casting, will show their wares daily during the show. A complete aquarium is being built and will be stocked with every game fish known to Texas. Two continuous motion picture shows in air-conditioned theaters will compose part of the entertainment. A lake is being built for the casting exhibitions. Champion dogs, including pointers, setters and retrievers will be displayed. The show offers far more activities than that of any other staged in the United States.

A large buck which ranges in Comal County must depend upon shrubs and small trees for all its sustenance. The deer, it is reported, by Game Warden W. F. Sumbler, has an antler growing downward and it is long enough that the buck cannot get its mouth within ten inches of the ground to graze on the short grasses. However, he isn't so bad off because 75 per cent of deer food is obtained from trees and shrubs.

While blue catfish often take anglers' plugs, it is a bit unusual for yellow cats to be attracted by the lures. However a number of yellow cats have been hooked by casters recently on the huge Buchanan Lake in central Texas.

State Game Warden Delbert Conner, whose district is Jefferson, Orange and Chambers counties, was recently voted the most outstanding member of the year of the Gulf Coast Rod and Reel Club of Beaumont.

Are you a baseball addict, a football fan, a follower of skeet or a bug on stamps? If so you are not numbered among the leaders in the pursuit of hobbies. However, if you are a hunter or fisherman you are in the class leading them all.

A recent survey conducted by Ross Federal investigators in Indianapolis and Boston, two fairly representative cities showed that 15.1 per cent of the men queried as their favorite hobby were followers of Ike Walton or tramped the fields and woods with the old blunderbuss on their arm.

Golf was the second leading hobby, polling 13.9. When it is considered there were fifty fa-

A&M Specialist Advises Inspection of Established Soil Conservation Areas

Any group of farmers who contemplate organizing under the soil conservation district act recently passed by the Texas Legislature should appoint a committee to visit and observe similar districts in other states.

This is the observation made by C. (Dutch) Hohn, soil and water conservation specialist of the Texas A. and M. College Extension Service, who has just returned from a tour of soil conservation districts in Louisiana, Arkansas, and Oklahoma.

Included in the party that made the tour were the members of the recently selected state soil conservation board. V. C. Marshall, chairman, of Heidenheimer; Horace Fawcett, Del Rio; W. G. Kennedy, Muleshoe; J. P. Martin, Martinsville and Walter Cardwell, Luling; Paul Walsler, state coordinator of the Soil Conservation Service with headquarters at Texas A. and M. and Geo. E. Adams, assistant state agent of the Texas Extension Service.

favorite hobbies listed by the nearly 2,000 men queried in the poll the percentage of hunters and fishermen appears amazing.

The poll is consistent with one taken a few years ago by the Southern Newspaper Publishers Association in which more than 3,000,000 readers of southern newspapers were queried. It was found that hunting and fishing led all the others.

Gambel's quail are getting the wanderlust, it is reported by Dr. Lee W. Fisher, game department manager of region 7. That species of quail has as its natural habitat the range along the Rio Grande. Several coveys have been seen in the deep valleys of the Beech and Diablo Mountains.

The group visited with supervisors and observed the work being done in districts at Minden, Louisiana; Conway and Russellville, Arkansas; and Broken Arrow and Konawa, Oklahoma. A meeting was held with the Oklahoma state board.

Hohn, in a letter to Texas county agents, warned that the Texas law was an enabling act rather than a set-up designed to secure federal aid for direct conservation work. He urged that agents bring this fact to the attention of farmers.

"Many of our Texas people apparently have the idea that all they have to do to receive machinery, materials, and labor from federal sources is to organize a district," he pointed out. On the contrary nothing in the Texas act can be so interpreted. We found that some people in other states had the same idea, and that they were disappointed."

He added that technical aid would be available to districts to the extent permitted by the present set-up of state and federal agencies.

"The real value of the soil conservation district act is that it makes available to farmers and ranchmen a procedure whereby they can band together for cooperative action on a united basis, and whereby they can utilize to the best advantage such help as is offered," the specialist stated.

"That is why I advise that committees be sent to existing districts in other states to observe what has been learned by experience there. A district that profits by the experience of others is the district that is going to get the most out of the enabling clauses of the act."

H. O. L. C. Saves Home Owners of Texas Huge Sum

Over forty-four thousand Texas home owners with H. O. L. C. loans have saved at least \$12,209,000 in interest payments during the last six years, said J. C. Anderson, Jr., State Manager of the H. O. L. C., on the occasion of the sixth birthday of the organization, celebrated this month. This amount represents the difference between the interest paid at the H. O. L. C. 5 per cent rate and the higher interest being paid when the loans were refinanced. This \$12,209,000 has been put into circulation in towns and cities all over the State, said Mr. Anderson, and has had the effect of an increased income for these home owners.

Mr. Anderson stated that a remarkable payment record had been established by Texas home owners. In six years, \$23,668,376 has been repaid—22.4 percent of the principal of H. O. L. C. loans in Texas. Of the original loans, 2,113 have already been paid in full, though most of them had 15 years to run. At present, 32,352 home owners in Texas have either paid out their loans or else are maintaining their loans in good shape and are well on the road to completely owning their homes.

Mr. Anderson pointed out that all kinds of people have been aided by H. O. L. C.'s refinancing of home loans—laboring men, professional men, mothers with families to support—all of them—people who were severely hit by the depression, but who have since gotten on their feet and are gladly repaying their debt to the Home Owners' Loan Corporation.

In calling attention to the way the entire State has benefitted from the H. O. L. C., Mr. Anderson said that over \$1,970,000 had been loaned for the purpose of repairing homes, and that the H. O. L. C. itself had paid \$2,056,161 to persons in the building trades in its program of reconditioning and improving for sale the houses it has acquired. This, besides providing a vast amount of work, has resulted in greatly improved neighborhood values.

CHAMPION TIRES

FIRESTONE WINS 20th Consecutive Victory In Indianapolis 500-Mile Race

A merciless sun beat down upon the speedway as Wilbur Shaw drove to victory on Firestone Champion Tires. The blistering brick of the main stretch and the granite-hard surface of the turns and the back stretch put tire safety to the test supreme! Record after record was shattered. Speeds reached as high as 160 miles an hour on the straightaways, as 33 of the fastest drivers in the world waged a breath-taking battle for gold and glory.

Never before in all the history of the motor car have tires been put to such a torturous test. And never before has any tire so firmly established itself as a Champion in construction and performance, as well as in name. Here is dramatic proof of the extra strength which the revolutionary new Safety-Lock cord body provides in Firestone Champion Tires—of the extra protection against blowouts assured by the new and advanced Firestone patented Gum-Dipping process—of the extra mileage resulting from the tougher, wear-resisting rubber compounds in the sensational new Gear-Grip tread.

WILBUR SHAW, the 1939 winner

On May 30th, Wilbur Shaw drove to his second victory in the 500-mile Indianapolis Race on Firestone Champion Tires at an average speed of 115.03 miles an hour. Champion race drivers, whose lives and chances of victory depend on tire safety, know tire construction. That is why they select and buy Firestone Tires for their racing cars.

GET OUR LOW PRICES ON FIRESTONE TIRES BEFORE YOU BUY

No longer can there be any question of which tire is safest. One tire—and only one—provides these exclusive safety construction features. One tire—and only one—has been on the winning cars at Indianapolis for 20 consecutive years. Motor car manufacturers enthusiastically adopted the Firestone Champion Tire for their 1939 models. Order your new car equipped with this amazing tire. Or drive in and let us equip your present car with a set of new Firestone Champion Tires, the one tire—and only one that is safety-proved on the speedway for your protection on the highway.

For Firestone Tires made in the Firestone Plant and Exhibition Building at New York World's Fair. Also visit the Firestone Exhibit at the Golden Gate International Exposition at San Francisco.

We Introduce THRIFTANE

a new, leaded quality GASOLINE in the lower-price range

... and by so doing, we step right out in front. Now, Humble Service Stations and Humble dealers give buyers in the lower-price range LEADED QUALITY at thrifty price. . . . We felt that the time had come when the majority of automobile engines, old as well as new, required a leaded quality gasoline; and so we put our lowest price gasoline in step with the times. . . . But when you buy gasoline, remember that the presence of lead is not the only criterion of quality; the basic motor fuel to which the lead is added must also meet specifications for other desirable qualities. . . . The new Humble Thriftane meets guaranteed quality specifications. . . . So, whatever the car you drive, whatever the price you pay, you will find, at Humble Service Stations and dealers a leaded gasoline for your car, for your pocketbook: Thriftane—it's good; Humble Motor Fuel—it's better; Esso—it's best. . . . Annual Meeting of The First Church of Christ, Scientist, Held In Boston

Thousands of Christian Scientists, meeting in Boston last week, challenged a troubled world to change its perspective from a material to a spiritual basis in its search for release from pressing economic and political problems.

The occasion for the great influx of the followers of Mary Baker Eddy was the annual meeting of The Mother Church, The First Church of Christ, Scientist, in Boston, Massachusetts.

Church Progress Reported. Various reports heard cited specific reports of spiritual enlightenment today.

North America where 25 new branch organizations were launched. Africa and Australia, it was stated, have formed one new organization each.

Summarizing these distinct evidences of a continued reaching out for Truth, the Directors stated: "We are in a position to know, and are glad to report, that at no time in the history of the Christian Science movement has the healing work been carried on with greater success or along broader lines than it is today."

Announcement of the new offices constituted the main business of the meeting. George Shaw Cook, C. S. B., of Brookline, Mass., was named President for the ensuing year to succeed Ralph H. Knapp of Needham, Edward L. Ripley of Brookline and Ezra W. Palmer of Marshfield were re-elected Treasurer and Clerk, respectively.

Checker Players Invited to Paris Tournament. Haskell county players have been issued an invitation to take part in the All-Southwest Checker Tournament to be held in Paris, Texas, July 10-12.

SS Class Members Honor Teacher In Surprise Program

In recognition of his unselfish service to all phases of church work for almost a third of a century in Haskell, members of the Goodfellows Sunday School class of the First Methodist Church paid tribute in a "surprise" program last Sunday to their teacher, F. L. Daugherty.

Mr. Daugherty, prominent businessman, has been an active leader in local Methodism for the past 30 years. For five years he served as Superintendent of the Sunday School department of the church, and for more than 29 years has been a teacher in that department in addition to a similar period as Church Steward.

Arrangements for the observance were made by John S. Rike and Marvin P. Bryan. A gift from the class was presented Mr. Daugherty Saturday evening at his home, followed by the surprise program at the Sunday School hour in the church.

A Happy Surprise

It has been a happy surprise to many Haskell housewives who learned by experience that our prices are uniformly lower day in and day out on quality foods. That is because we operate on a low margin of profit and do not feature "special" prices or "leaders" which necessitate a higher mark-up on other items.
