

Landowners to Ballot on Proposed Soil Conservation District Saturday, May 25

Would Authorize Soil Erosion Control In 832,000 Acre Area

Farmers and landowners of Haskell and four adjoining counties controlling 832,000 acres of land will vote Saturday on the issue of establishing the California Creek Soil Conservation District under the new state law enabling landowners to wage war against soil erosion.

The proposed district embraces the south half of Haskell county and parts of Jones, Fisher, Shackelford and Throckmorton counties lying in the California Creek watershed.

Polling places will be set up at the following five places in Haskell county:

Haskell, at the City Hall with C. G. Burson, Rice Alvis and George Moeller supervising the balloting.

Rule, at the City Hall, in charge of R. H. Smith, Elgin Carothers, and Aubrey Fouts.

Sagerton, at the Sagerton school building, in charge of W. J. Pilley, Adolph Helm and B. Kupatt.

Plainview school house, in charge of Jim Adams, H. M. West, and J. C. Coleman.

Paint Creek School, in charge of J. P. Trimmer, Howard Montgomery and Marvin Medford.

A majority of 67 per cent is necessary if the district is to obtain final approval of the State Soil Conservation Board. Hearings and educational meetings have been held throughout the proposed district to acquaint farmers and landowners with the benefits of erosion control and the program is expected to meet with widespread approval in the balloting Saturday.

The soil conservation program is a farmers' program, agricultural leaders point out. It is controlled by farmers from the state board to the district supervisors who are in charge of districts after they are created and begin operation.

A recent ruling by Attorney General Mann that the soil districts do not have power to levy taxes or create debts has dissipated the opinion held by a few landowners who feared that creation of the district might result in increased indebtedness. Forming of the proposed soil district will set in motion a coordinated program to control erosion throughout the California creek watershed.

Eligible to vote in the balloting Saturday are all persons holding title to land lying within the proposed soil conservation district, who live within the district, and otherwise qualified voters under the general election laws of the state.

FINAL RITES FOR J. L. MAYFIELD HELD AT WEINERT

Prominent Resident Died In Local Hospital Thursday

John L. Mayfield, prominent stockman-farmer of the Weinert section and resident of Haskell county for more than 35 years, died in the Haskell county hospital Thursday night May 16 at 9:40 o'clock from bullet wounds in the chest suffered Thursday around noon. Members of the family found Mr. Mayfield, wounded by two bullets from a small caliber rifle, when they investigated shots heard in another room of the house while the family with the exception of Mr. Mayfield, was seated at the dinner table.

Rushed to the hospital here, slight hope was held by physicians for Mayfield's recovery, and he died without advancing any explanation of the accident. A verdict of death from self-inflicted gunshot wounds was returned following an inquest conducted by Justice of the Peace B. T. Clift and County Attorney Walter Murchison.

Born November 4, 1890 in Denton county, Texas, he was the son of Mr. and Mrs. A. Mayfield. As a youth he accompanied his parents to Haskell county, the Mayfield family being among the early settlers in the agricultural development of the Weinert section. John Lee Mayfield was married to Miss Laura Furrh of Weinert January 26, 1913, and had resided since that time in that section, rearing a family of five children.

Funeral service for Mr. Mayfield was held at the Weinert Baptist Church Sunday afternoon at 3 o'clock, conducted by Rev. I. J. Duff of Weinert. Amended Ordinance Adopted at Meeting of Council Thursday

An ordinance amending the minimum "commercial service rates" which may be charged for electric service in Haskell was adopted at the regular meeting of the City Council Thursday night of last week. Purpose of the amendment was to revise a section of the City's rate ordinance enacted April 26 which, in effect was an increase in the minimum monthly charge for commercial electric service from \$1.50 to \$2.00.

The amended ordinance "pegs" the minimum Commercial Service Rate on the following schedule: Minimum Monthly Bill \$1.20, which minimum allows consumer first 15 kilowatt hours used per month.

Next 35 kilowatt hours, .08 per kilowatt hour used per month.

Next 50 kilowatt hours, .06 per kilowatt hour used per month.

Next 2000 kilowatt hours, .03 per kilowatt hour used per month.

All over the above, .015 per kilowatt hour used per month.

Utility companies are not required to adopt the minimum monthly charge, but the ordinance prohibits a reduction below this schedule of rates. The "commercial service rates" schedule as adopted in the amended ordinance is applicable to combined lighting, heating or small power service where consumer demand does not exceed a connected load of ten horse power motor or motors.

All other provisions of the original minimum rate schedule adopted April 26 remain in effect, the amended statute provides. The revised ordinance was passed on its third reading and becomes effective after publication this week.

Refund on 1934 Tax On Cotton Sale Explained

During recent months several items have appeared in daily newspapers concerning amounts of money held by the Internal Revenue Department for a refund to producers who paid tax exemptions on the sale of their cotton under the Bankhead Act of 1934.

In order to ascertain how local producers could proceed in securing any refunds to which they might be entitled, Sanders & Crawford, Haskell ginners recently made inquiry to the Internal Revenue Department and this week J. M. Crawford, member of the local gin firm, stated that they had received information and the required form on which application may be made for refunds.

Mr. Crawford quoted the following excerpt from a letter received from the Department so that local cotton producers may determine whether or not they are eligible for the refund:

"Please be advised that amounts of money paid for tax exemption certificates do not represent tax paid to a Collector of Internal Revenue; therefore there is no authority in law under which favorable consideration may be given to a claim filed for a refund of amounts paid by producers for tax exemption certificates."

"If however, tax was paid in money to a collector of Internal Revenue, claim for such amount may be made on 'G. T. Form 111'."

Mahon Asks More Money For Farm Tenant Purchase

Declaring that a more comprehensive farm home-ownership program is needed immediately, Congressman George Mahon in Washington last week urged the Congress to pass legislation at this session which would more adequately deal with the problem of farm tenancy. He spoke in support of two approaches to the problem. The first was a plan which would authorize the RFC to make loans up to \$50,000,000 to continue the Farm Tenant Purchase program which has been in operation since 1937. The House approved the plan as a part of the Agricultural Appropriation bill.

Mahon said that he felt a better approach to the problem would be through the so-called Farm Tenant Mortgage Insurance bill which passed the Senate last year and which has been approved by the House Committee on Agriculture. Under this plan loans would be insured by the Government for farm home purchases to the extent of a total of \$350,000,000 at 3 percent interest rate. Large appropriations by Congress would not be necessary as the money would be loaned by private capital, the Government supervising and guaranteeing the loans as is now the case in loans made by the Federal Housing Administration.

Mahon stated, "I have been cooperating with Marvin Jones, Chairman of the House Agriculture Committee, since the introduction of the bill last year, and I shall continue to work for the improvement and passage of the measure."

Mr. and Mrs. Felix Frierson and children Stella Mae and Mont returned home this week end from a visit with relatives in Corpus Christi.

Jury Unable to Reach Agreement In Damage Suit

Jurors who heard evidence in the civil case of French M. Robertson et al vs. the West Texas Utilities Company in 39th district court last week, were dismissed late Friday afternoon when they reported to Judge Dennis P. Ratliff that they were unable to arrive at a verdict after more than 16 hours deliberation. As a result of the mistrial, the case will come up for hearing again during the September term of court.

The suit was for damages in excess of \$25,000 for personal and property loss, based on a traffic accident near Moran in October last year in which a daughter of Mr. and Mrs. Robertson was fatally hurt. Involved in the accident was the automobile occupied by Mr. and Mrs. Robertson and their two children and a car driven by a salesman employed by the West Texas Utilities Company. Trial of the case was started Monday and occupied the first three days of the week, going into the hands of the jury Thursday at noon.

At the last meeting of the City Council, aldermen authorized placing in effect a summer water rate schedule to be charged by the City Water Works during the summer months. This action follows similar reductions which have been granted annually to consumers served by the municipal plant.

A reduction in the charge for each 1,000 gallons of water used became effective after 29,000 gallons have been used, under the following schedule: Minimum charge for first 3,000 gallons, \$1.50; next 7,000 gallons, 15c per thousand; next 10,000 gallons, 12c per thousand. Over this amount, a sliding rate from 11c to 8c per thousand applies as water consumption rises.

An unlimited supply of water is available from the city wells, according to water superintendent Rogers Gilstrap, sufficient to care for maximum demands of all consumers during the summer months.

Precipitation of Two and One-Half Inches Is Received Here

Coming in time to be of untold benefit to row crops and small grain to some extent, the heaviest downpour in more than a year brought almost two and one-quarter inches of rainfall to this immediate section Tuesday night, filling surface tanks and creeks to overflowing in a wide area of the county, while lighter rainfall in some sections was ample to provide stock water and needed moisture for crops and gardens.

In Haskell, precipitation during Tuesday night was gauged at 2.14 inches, according to Mrs. F. T. Sanders in charge of the government reporting station. Heaviest downpour was between 8 and 9 o'clock Tuesday night, following light showers and a flurry of hail during the afternoon. Intermittent rainfall Wednesday and Wednesday night brought sufficient moisture to raise the total for the week to more than two and one-half inches. Precipitation for the year now stands at 7.11 inches, slightly under the annual average.

Heaviest rainfall was in the southeast and east parts of the county, where precipitation was reported from two to three inches. In the Weinert section, less than an inch was received, although beneficial moisture was reported. In the Rule and Rochester sections good rains were reported.

Similar rains were reported from a wide area of the state.

FSA Offers Ray of Hope To Debt-Burdened Farmers

A ray of hope for small farmers who are staggering under debts greater than their ability to pay was sent out when R. E. Skipworth Farm Security Administration supervisor, announced that the Haskell County farm debt adjustment committee would meet on Thursday morning May 23 at the Farm Security Administration office in Haskell.

Members of the county farm debt adjustment committee will be present at this meeting to help debt-burdened farmers work out agreements with their creditors.

Mr. Skipworth said that the committee has found creditors willing in most instances to grant extensions of time, re-amortizations, and even scale-downs in principal and interest to hard-pressed farmers when an orderly repayment schedule has been worked out. In many cases the Farm Security Administration has made loans to farmers in helping them to farm more profitably and pay their debts.

He invited any farmer to attend the meeting whose debt structure is greater than he can bear. Members of the debt adjustment committee are: Lewis C. Phillips, Joe A. Jones, William P. Ratliff.

Patches

Well, chillun, here we go for the last go-round. True to predictions, there are several tears here and there and a little too much sentimentality. But alas! It is just once in a lifetime that one

writes the last 'Patches' of his career. Some day I hope to write articles for a larger newspaper—to be a famous journalist. If I receive as much pleasure when and if this desire is fulfilled as I have while writing this column for the Warwhoop my future shall be that of happiness.

With the close of this term there will be about 55 faces, so long familiar around H. H. S. that will never brighten (or darken) the doors of this school as students again. Hence, it is with a saddened heart that I take this opportunity to write a farewell note. Even as I prepare this copy there is a tendency to linger over the task longer, for it is with regret that I write it. It has been such fun to provide harmless humor for the public, and it's going to seem kinda queer to not have such thoughts as these on Monday mornings.

"Now who's done wat this week?" "Oh, I forgot my fountain pen; maybe Jean has hers." "I wonder if Margaret has any theme paper." "Gosh, what have the kids been doing?" "I can't think of anything to write." And so forth.

So as you look back through your files of the Warwhoop, I hope that as you thumb your way through the pages, you'll think of my column as one whose every move was a sincere effort to please and entertain you.

Needless to say I am proud of my position on the staff; it was an honor. Also I am indeed grateful to those Seniors and underclassmen who have taken my jokes in such a sporting manner. May next year's columnist enjoy this same cooperation.

To my successor, I send my best wishes for a year of exciting and interesting incidents which will enable her or him to make a great improvement over my "Patches." For the Gypsy Ramblers, may I thank the faculty and student body of our school, and the business men of Haskell for the patronage they have given to our organization. This has helped us to prosper as a unit, very much during the past year, and we appreciate it immensely.

Speaking for the Pep Squad I wish also to thank the group which I have already mentioned, for their cooperation we received from them. A group of girls in uniforms cannot cheer our Indians to victory for it is essential that the whole town is behind them.

Last, but not at all least, I speak for the Senior class. Words cannot express our appreciation for the kindness and consideration which we received from the public. During the Senior play as well as every activity which we have participated in, we have been successful through the cooperation of others. In the simplest of words—we thank you!

And now I must say farewell to my "invisible audience" and to you, dear Haskell High. Our joyous days with you have been reverently transformed into — just memories.

Goodbye! Good luck! And God bless you! —Judy

Brainless Babblin's

Those stains you see, as you read this last statement of a truly great journalist, are tear stains. My eyes are having a cloud-burst in honor of this being my very last column. So to keep things strictly screwy for the whole year this column is going to be true to type.

English II Students Presents Program

The English II students (some of Mrs. Wimbish's "dear" children) presented a chapel program last Friday, a very entertaining and somewhat realistic play called "Not Quite Such A Goose." The student body enjoyed the program very much and we wish we could have had many more like it.

The characters were:
 Mrs. Bell—Mamie Jean Menefee.
 Sylvia Bell—Billie Jack Speer.
 Albert Bell—Billy Clifton.
 Hazel Henderson—Dale Bartlett.
 Phillip—Dan Oates.

The play was under the supervision of Mrs. Wimbish. We'd like for her and the cast to know we enjoyed and appreciated it very much.

THE FORD WAY OF DOING BUSINESS

The Ford Motor Company was founded by a working-man for working-men. Its present officers began as employees of the Company. It was the first company to pay a minimum wage, beginning in 1914, at the then astounding figure of \$5 a day. That was double the prevailing wage of the time. The Ford minimum is now \$6 a day for all employees engaged in production work. And from that, the wages rise to \$10.80 a day, with the average wage \$7.25, exclusive of salaried employees.

The Ford Motor Company was the first large company to establish the 8-hour day—also in 1914. And the 40-hour week was inaugurated by the Ford Motor Company in 1926, years before any such laws existed.

The Ford Motor Company employs men without regard to race, creed or color. It is common knowledge that working conditions in the Ford shops are the best that science and constant care can make them. A square deal, a just wage and stabilized employment for a large proportion of our employees—and as fully stabilized for all as conditions will permit—enable our men to retain their personal independence.

In consequence of these policies the Ford Motor Company has one of the finest bodies of employees in the world. The larger proportion are mature men of long service with the Company—sober, decent family men. Hundreds of them have been with the Company for more than 25 years—thousands for more than 15 years. Their health record, home ownership and citizenship records are good.

All this is reflected in Ford products, whether cars, trucks or tractors. The work is honestly done. Materials are the best that can be made or procured. Less profit to the Company and more value to the customer is known throughout the motoring world as "Ford's way of doing business."

Ford Motor Company was the first to make a motor car within the means of the average family—quitting the manufacture of what was then the largest selling model in the world to do so. Its chosen field in all the 30 years since that time has been the average American family—for which it has consistently provided car facilities which formerly only the wealthy could buy.

It is the policy of the Ford Motor Company to share the benefits of advanced methods and management with workers and public alike. Increased wages and employment over a period of many years have resulted in

A 300 per cent increase in the built-in value of the Ford car and a 75 per cent reduction in its price.

Henry Ford and Edsel Ford keep daily personal touch with all phases of Ford manufacture. In a conference with his staff, Henry Ford often says: "Go ahead—I'll sit here and represent the public."

CHURCHES

FIRST METHODIST CHURCH

"Our Lord As Our Example" will be the pastor's subject at the morning hour. In what respect was what He did and said an example for us to follow? Was His baptism by John for our example? If so, why did He wait till He was thirty years of age, and should we defer our baptism till we are thirty years of age. In other words, just why and how was our Lord baptized? These and other questions will be answered under the general theme, "What Methodists Believe and Practice, and Does The Bible Support These Beliefs and Practices." If they have the Bible for their beliefs and practices, shouldn't they preach it? On the other hand, if they do not have Bible for those beliefs and practices, shouldn't they abandon them. All Methodists are urged to bring their children—for many of them have heard, from time to time that we have no Bible for many of our practices. The public is cordially invited, and we are assured that this message will simply be a defense of our own beliefs and practices and in no sense of the word an attack upon the beliefs and practices of any other religious groups.

Farmer On Rail Board

Election of a cotton farmer to the board of
directors of a great railroad would seem to be a
most unusual procedure but it happened a few
days ago, and in the light of the facts it appears to
have been a logical and wise action.

The farmer in question is Oscar Johnston of
Mississippi, whose choice as director of the Illinois
Central is in keeping with a policy, adopted two
years ago, whereby directors of the railroad are
selected from men of exceptional ability who are
engaged in business along the lines of its system.

Mr. Johnston is president of a company which
operates 50,000 acres of farming land, devoted
mostly to cotton, in the Mississippi delta. But he
is also a lawyer, a banker, a legislator, and in recent
years has held several important government
posts.

Among the Federal positions held by him
since 1933 are those of director of finance of the
AAA, vice-president of the Commodity Credit
Corporation, manager of the government cotton
pool and assistant to the Secretary of the Treasury.
He recently severed his government connections, but
still serves two departments in an advisory capacity.
He is now deputy chairman of the board of
directors of the Federal Reserve Bank of St. Louis.

One of Mr. Johnston's chief interests at present
is the National Cotton Council, of which he
is the founder and president. The object of this
organization is to increase the consumption of American
cotton at home and abroad. His wide experience
and proved ability will make him a valuable
addition to the Illinois Central's board.

The Trojan Horse

War dispatches lately have contained numer-
ous references to "the Trojan horse" in connection
with the planting of spies and disguised troops in
countries marked for invasion by Germany. Groups
of Nazis or Nazi sympathizers have thus been
organized in virtually all parts of the world.

The original Trojan horse was a huge wooden
one, hollow inside, and capable of holding several
soldiers. Its story is told of the ancient and perhaps
legendary war between the Greeks and the people
of Troy, about 1200 years before Christ.

After the Greeks had besieged Troy for about
ten years in an effort to obtain the release of
Helen, wife of Menelaus, who had been abducted
by Paris, son of the Trojan king, the city was finally
overcome by means of a clever stratagem.

Pretending to abandon the siege, the Greeks
left the wooden horse outside the walls and with-
drew. The Trojans brought the horse inside as a
trophy of war. That night when the city was asleep
the Greeks came out of the horse and opened the
gates allowing the Greek army to enter. Before
the Trojans could organize resistance, the city
was looted and burned.

Whether mythical or real, the Trojan horse
has been for centuries the symbol of deception and
treachery, and its story is told in classic epics,
notably the Iliad of Homer. It contains a warning
for nations of today, as many of them are now
beginning to realize.

Heights and Depths

This old earth of ours appears to have a pretty
rough surface, but although the distance from the
lowest ocean depth to the summit of the highest
mountain is approximately 64,500 feet or little
more than 12 miles, this is not relatively great when
it is considered that the earth's diameter is nearly
8,000 miles.

Mount Everest of the Himalayas in Indo-China
is the highest mountain, rising to 29,141 feet. The
greatest ocean depth so far discovered is 35,400 feet
near the island of Mindanao, one of the Philippine
group.

In the Western hemisphere, the highest elevation
is Mount Aconcagua, 22,834 feet, in South
America between Argentina and Chile. Mount McKinley
in Alaska is North America's highest, 20,300 feet.

The Dead Sea, in Palestine, is 1,290 feet below
sea level; the Libyan Desert in Africa, 440; Death
Valley, California, 280, and the Caspian Sea in
Russia 86 feet below.

Many areas in various parts of the world which
are now submerged were once dry land. Some of
these valleys off the coast of California have been
charted in recent years by the U. S. Coast and
Geodetic Survey. Others have been discovered off
the Atlantic coast, between Chesapeake Bay and
Cape Cod.

Such changes are still taking place. Only last
year the British Admiralty reported that Thompson
and Lindsay Islands in the South Pacific had
vanished after being on the charts since 1825.

20 Years Ago—May 22, 1920

It is definitely reported that
Dr. J. C. Davis of Sagerton will
move to Rule, where he will make
his future home. It is understood
that he will continue in the prac-
tice of medicine.

A caravan of motor trucks on a
demonstration tour from Wichita
Falls to several towns in this sec-
tion, arrived here Wednesday and
spent the night here. A free show
was staged, which attracted a large
crowd.

The home of Jess Pinkerton in
the Open Section was struck by
lightning Friday night and the
building set on fire. Members of
the family escaped unhurt, but
their home and most of the fur-
nishings burned.

Christian Bros., proprietors of
the Haskell Mill & Grain Co., who
are erecting a flour mill near the

WV station, have the building al-
most completed and will soon be
ready to install the machinery as
it is received.

Miss Fay Goodwin of west of
town returned this week from a
visit to her sister, Mrs. D. H.
Clark of Kim, Colo.

Mr. and Mrs. T. M. Poteet of
Curry Chapel were in the city
Monday to meet their son Ernest,
who arrived on the morning train
from Big Spring. Ernest has been
superintendent of the Big Spring
schools for the past two years.

Prof. Poteet was formerly prin-
cipal of Haskell High School.

Mr. and Mrs. J. R. Hansford of
Sipe Springs have moved to this
city, Mr. Hansford having bought
the Roy Gamble home here.

D. M. Guinn of Sagerton was in
the city Tuesday and reports farm-
ing above par in his section and
the oil interest also warming up

with prospects of a test being
drilled right away.

30 Years Ago—May 21, 1910

Mr. T. W. Smith of Amarillo
is here to take charge of the
Adams express office in this city.
F. H. Ellison and wife of Man-
chester, Ohio, connected with the
Rock Island Land Co., were in the
city last week.

The fire boys have received
their new fire fighting clothes.
With the splendid record the boys
have made in the past, these
waterproof suits will place them
in the expert class of fire fighters.

The laying of steel from the
depot to the square for the street
car line was suspended this week
on account of the rain.

Miss Boyd Roebuck, who has
been teaching in the public schools
left a few days ago to visit at
Ballinger. She will go from there
to Honey Grove to attend the
wedding of her friend, Miss Flo-
rence Baldwin to J. U. Fields of
this city.

L. L. Morrison of Kansas City
has gotten out a booklet carrying
a description of Haskell, containing
many photographs of public build-
ings and private residences in
this fast growing city.

The rain has kept on falling
this week. There is the largest
crop of grain forage and cotton in
the ground ever planted in this
section before and prospects for a
bumper yield are indeed flattering.

Farmers around O'Brien have
decided to burn lamps in their
fields at night to try and destroy
the boll worms. Some have al-
ready begun to burn them and
soon the fields will be dotted with

SERVICE GARAGE

Grandma Paid as Much
for LIGHT Alone

as Mother Pays to Operate
ALL her Modern-Day Electric Servants!

They save time and labor--
cost no more than Grandma paid
for Light alone!

To MOTHERS OF TOMORROW: You may plan on com-
forts and conveniences unknown to your Grand-
mother. At present low rates, you need set aside only
about 1/2% of the household budget for Electric
Service! This indeed is a small amount to pay for so
much!

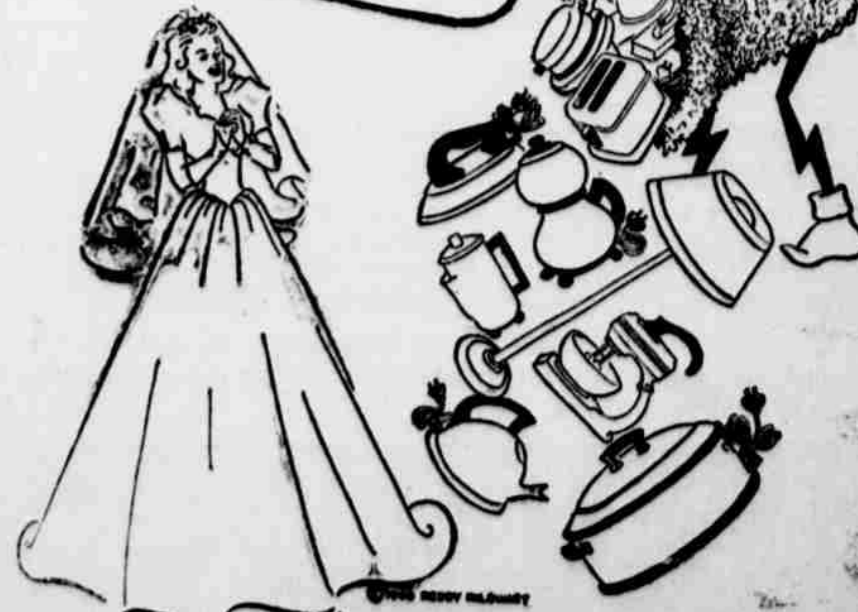

GRANDMA was
mighty proud of her elec-
tric lights. She had a single
"drop" bulb in each room,
in most cases of 25-watt
size. Compared to light as
we know it today, Grand-
ma's, however, was very
poor.

But it was very good
compared to the coal oil
lamps her mother had
used. And it certainly represented Progress and
was cheaper even though electric rates were
around 20c per kilowatt-hour.

When we compare Electric Service just one
generation ago with present-day service, we
realize the great change that has taken place.
Whereas Grandmother used electricity for light
alone, the modern mother has light plus refrig-
eration, radio, food-mixer, iron, floor sweeper,
and numerous other time and labor-saving
appliances.

Rates are down about two-thirds so that today
the cost of Electric Service for ALL usage in the
average home is no more than Grandma used to
pay for light alone. And the more you use, the
lower the rate—the smallest item in the average
household budget!
