A Pretty Good Show

After church one Sunday morning, a mother commented, "The choir was awful this morning."

The father commented, "The sermon was too long."

Their seven-year-old daughter added, "But you've got to admit it was a pretty good show for 10 pennies."

Mal. 3:10 Bring the whole tithes in the storehouse, and see if I will not throw open the floodgates of heaven and pour out so much blessings that you will not have room for it.

Living Right Every Day

(NAPSA)-Living right may be easier than you think. All it takes is making the most of your time and adopting a "zero-compromise" attitude. For instance:

- Turn a daily car trip with the kids into quality time-pop in a CD you can sing along to or play a book-on-tape you can all enjoy.

- On busy workdays, it's just as easy to go for healthy meal choices and snacks, as it is unhealthy ones. For example, zero in on healthier grab-and-go food choices such as soup, carrot sticks, yogurt or cereal bars. You can also choose a soft drink with zero regrets. Diet Rite has seven delicious flavors, contains zero carbs, zero calories, zero sodium and zero caffeine; and is the first soft drink sweetened with Splenda(r) Brand Sweetener.

- Not exercising? There's zero-room for excuses if you take brisk walks during your lunch hour; opt for the stairs instead of the elevator; or join a mall-walkers club.

Upcoming Meetings

Second Monday of each month-County Commissioners meet at 10:00 a.m. in the County Courtroom; City Council meets at 7:00 p.m. at City Hall

Home Ideas

Home bakers can use Hershey's Special Dark Cocoa to add a rich, chocolate flavor to their favorite recipes. Crafted using Dutch processing techniques, the cocoa has a deep, dark color and smooth, sophisticated taste. The dark cocoa can be substituted for regular cocoa in cakes, cookies, pies, fudge, beverages and virtually any other dessert that calls for cocoa. For recipe ideas visit www.hersheykitchens.com.

A financial option allowing homeowners to pay only the inter-

est on their mortgage is quickly being embraced by many homebuyers and homeowners. Some lenders, such as Wells Fargo, offer this feature on fixed-rate or adjustable-rate mortgages for purchase or refinance on primary residences and second/vacation homes.

Most people use heat guns for paint removal but they can be used for such household jobs as window shrink covering, electrical shrink tubing, defrosting a freezer or frozen pipes, waxing skis and loosening rusted nuts and bolts.

YOUR EYES

Presented as a service by Dr. Toby J. Brown, O. D., Therapeutic Optometrist. Offices located at 317 SW 2nd in Tulia and 300 W. Bedford in Dimmitt.

Have you ever seen spots or floaters in your vision? You may not know this, but this is an extremely common occurrence with many people. I have seen many people in my office over the years that are concerned about this "black gnats" or "specks". While most of these cases have been of a benign nature, some, however, have been more serious.

Spots (often called floaters) are small, semi-transparent or cloudy specks or particles within the eye that become noticeable when they fall within the line of sight. They may also appear with flashes of light.

The inner part of your eye is made up of a clear, jelly-like fluid known as the vitreous. Occasionally, small flecks of protein and other matter become trapped during the formation of the eye before birth and remain in the vitreous body. Spots and floaters may also be caused by the deterioration of the eye fluid or its surrounding parts, or by certain injuries or eye diseases.

Spots are generally semi-clear specks of various shapes and sizes. They may also appear as threadlike strands or cobwebs within the eye. Since they are within the eye, they move as the eye moves and seem to dart away when you try to look at them directly. Most spots are normal and rarely cause blindness. But, spots can be indications of more serious problems, and if you see them you should have a comprehensive eye examination to determine the cause.

We at Brown Vision Center are here to serve you. Try us out when it is time for your next eye examination. We think you will be pleased.

We accept Medicare, BCBS, First Care, and Medicaid.

The Importance Of Daily Prayer

Praising and thanking God, and bringing our requests to Him on a daily basis, are important and necessary for us to have a fulfilling life. Prayer can strengthen us in times of trouble, and will bless us in times of joy. At times, we probably all have felt like the Philosopher, in the book of Ecclesiastes, who states that "life is useless". He was a good man, however, it still troubled him because he did not understand the ways of God. And although it really is not necessary to understand God's ways, it is important to have a loving and trusting relationship with Him.

Our Father in heaven has created us in His likeness and He has everything under His control. Life is good and useful. Prayer, in the morning and throughout the day, and before we go to sleep, will strengthen our confidence and help us to know that we are not alone. God is with us.

The Lord is pleased when good men pray...

Box 250, Silverton, Texas 79257, has applied to the Texas Commission on Environmental Quality (TCEQ) to renew wastewater disposal Permit No. WQ0010803001 to authorize the disposal of treated wastewater at a volume not to exceed a daily average flow of 90,000 gallons per day via evaporation and irrigation of 70 acres. The domestic wastewater treatment facility and disposal site are located 0.75 mile west of State Highway 207 and 1 mile south of State Highway 86 in Briscoe County, Texas. This application was submitted to the TCEQ on May 31, 2005. The permit application is available for viewing and copying at Silverton City Hall, 409 Broadway Street, Silverton, Texas.

PUBLIC COMMENT / PUBLIC MEETING. You may submit public comments or request a public meeting about this appli-

cation. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. The TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

Written public comments or requests for public meeting must be submitted to the Office of the Chief Clerk, MC 105, TCEQ, P. O. Box 13087, Austin, TX 78711-3087.

ADDITIONAL NOTICE. comments or who requested to be on the mailing list for this application. A contested case hearing will only be granted based on disputed issues of fact that are relevant and material to the Commission's decision on the application. Further, the Commission will only grant a hearing on issues that were raised during the public comment period and not withdrawn. **The TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.**

To the young man on the dirt bike who ran over my dog and killed him on Saturday, June 18. He had never done anything to you or anyone else. My family and I were picking up apricots and he was out there with us. He was a house dog and was not out of the yard or house unless someone was with him. You could just as easily have hit some of us--hurt us. You need to learn some responsibility about racing up and down alleys on your bike.

He was 10 years old and his name was Baxter if that matters to you.
