NUMBER 47

Due to a lot of good news we were unable to run this column last week so we were caught short on at least two tidbits of information we had put in this column and forgot to reset as stories.

Columns, our contemporaries have informed us on numerous occasions, as well as a lot of our readers, should be light and happy with nothing of importance therein.

The last we have abided with to the fullest, but we have, on occasion, dealt with things a few unthinking people consider "not our business."

Real news to our old-time way of thinking is something not commonly known, and that can or will affect the safety or well-being of the citizenry, despite the well-being of the papers publishers, advertisers, or politicians.

A newspaper doing the least of what a newspaper has always stood for, does the best financially. People, anymore, want that, though, and we hate to see the next generation of newsmen arrive.

It is "smart" anymore to be deaf, dumb, and blind, to the obvious destruction of what we have always termed "Americanism," but that terminology has long been destroyed, in reference to what it was first devised to represent.

Although we couldn't agree ple, we must conceed that the majority is usually right and to determine the outcome of things.

That, could really start a discussion and argument, but the

However, in less extreme circumstances, the law relies on timely action by the trial judge to minimize the possibility of prejudice. For example:

In a manslaughter case, the victim's aunt began weeping at the sight of his bloody clothing. The judge had the woman escorted from the courtroom to regain control of herself. He also cautioned the jury not to let the incident affect its judgment. These steps, an appellate court ruled later, were enough to protect the defendant's rights without having to start the procedings all over again.

After all, perfect composure is too much to expect from people who are reliving dire and dreadful events. Besides, at a second trial emotions might flare just as irresistibly as at the first.

So, within reasonable limits, the law relies on the jury to

WANTED BY THE FBI

ALSON THOMAS WAHRLICH

Wahrlich, one of the FBI's "Ten Most Wanted Fugitives," 'is wanted for unlawful interstate flight to avoid prosecution for the crime of kidnaping. He allegedly abducted a 6-year-old Arizona girl in Tucson, Arizona, on April 16, 1964, and brutally beat, choked, and sexually molested her before leaving her abandoned in the same city. A Federal warrant was issued at Tucson on April 28, 1964, charging Wahrlich with unlawful interstate flight to avoid prosecution for this offense. A white American, Wahrlich was born in Rensselaer County, New

A white American, Wahrlich was born in Rensselaer County, New York, on February 4, 1986. He is 5' 2'' tall, weighs 135 to 140 pounds, wears glasses, has blue eyes, brown hair, a medium build and a medium complexion. He has a scar on his left shoulder, a vaccina-tion scar on his left arm, a scar of each side of his abdomen, and a tattoo of a heart and the name "Cindy" on his left arm. Wahrlich has worked as a truck driver, ranch worker, dishwasher, house trailer repairman, hospital orderly, insurance salesman, and ice cream truck vendor. He is very interested in guns and strongly prefers traveling by personally owned car. Wahrlich reportedly has mental blackouts, has been previously imprisoned for aggravated assault, child molesting, and a crime against nature. He reportedly is armed with a pistol and is said to carry a surgical scalpel in his trouser's pocket. Consider him armed and extremely dangerous. Should you receive any information concerning the whereabouts of Alson Thomas Wahrlich, you are requested to immediately notify the Alson Thomas Wahrlich, you are requested to immediately notify the nearest office of the FBI, the telephone number of which may be located on the first page of local telephone directories.

Not a nice thing to think about but you could be doing just that if you don't have a regular savings program. Paychecks have a way of disappearing into thin air. And your best intentions to save often get postponed until the "next time around."

But there is an easy and sure way to save called the Payroll Savings Plan. And it works automatically.

You just ask your employer to set aside a small amount from your check each payday to be put toward the purchase of a U.S. Savings Bond.

For example, just \$4.33 a week adds

up to the \$18.75 you need to buy a \$25 Bond every month. More than likely you'll forget you even set it aside (a pretty painless way to feather your nest).

This way, those few dollars you never see now will be keeping Junior in tuition and textbooks later. What's more, they'll be working for Uncle Sam to keep the world strong and free for his generation.

So why don't you point your willpower in the right direction! Join the Payroll Savings Plan, and see how you, too, can be a reformed fritterer.
