

HASKELL MERCHANTS WILL HOLD "CHRISTMAS PARTY" TUESDAY EVENING

CONTINUED DROUGHT ENDED BY SOAKING RAINS THIS WEEK

More Than One Inch of Moisture Falls Tuesday and Wednesday

Welcomed by farmers and stockmen as the most beneficial rain since early Spring, a slow, soaking downpour which began falling at noon Tuesday and continued throughout Tuesday night and Wednesday brought an end to a severe autumn drought. Precipitation of .87 of an inch was recorded at 8 o'clock Wednesday morning, and by mid-afternoon total rainfall had passed the one-inch mark, boosting the year's total to almost 15 inches.

During the first ten months of the year, a total of 13.80 inches of rain had fallen here, lightest rainfall during any similar period since 1917, local weather records indicate.

This week's moisture, falling in an ideal manner, will revive winter ranges and crops farmers believe, and will be sufficient to revive winter wheat and oats which had begun to suffer from the continued drought. The rainfall has been general over a wide area of West Texas, according to reports.

FARMERS RECEIVE ADDITIONAL SOIL CHECKS THIS WEEK

Approximately \$18,000 Received This Week Raises Total To \$49,624

Additional soil conservation checks for Haskell county farmers were received this week at the office of County Agent G. R. Schumann, bringing total payments to date to \$49,624 made for compliance in the 1939 AAA program.

First checks were received last week, when 185 checks amounting to \$31,884.00 were distributed. A batch of 141 checks came in this week, amounting to approximately \$18,000 to swell total payments almost to the \$50,000 mark.

It is estimated that a total of \$465,938.00 in soil conservation checks will be disbursed to Haskell county farmers during the next few weeks for co-operation in the government's farm program. Recipients of the soil payments will be notified to call at the county agent's office as the checks are received.

AGED RESIDENT OF HASKELL SUCCEUMBS TO HEART ILLMENT

J. P. Wheatley, 80, Died Wednesday Morning at His Home Here

After an illness of five weeks with a heart ailment, J. P. Wheatley, 80-year-old native Texan and resident of Haskell county for one-third of a century, died at 1:45 o'clock Wednesday morning at his home in East Haskell. Although the aged man had been confined to his bed for some time, his condition became serious only a few weeks ago.

Mr. Wheatley brought his family to Haskell county in 1907 from Somervell county, after he had acquired a farm in the Roberts community northwest of Haskell in the period when this section was first being developed as a farming country. One of the leading farmers in the county, Mr. Wheatley continued that vocation throughout his active life.

James Preston Wheatley was born Nov. 23, 1859 in Tarrant county, the son of Mr. and Mrs. Daniel B. Wheatley. He was married to Miss Martha Jane Litchfield at Glen Rose, Texas October 10, 1877 and they made their home in Somervell county until coming to this section in 1907. Deceased was converted and joined the Baptist Church in early manhood.

C. of C. Offices Now Located In Oates Building

Chamber of Commerce office headquarters were moved Monday of this week to the Oates building on the northeast corner of the square, first door north of Oates Drug Store, where carpenters and painters were kept busy during the previous week preparing the new quarters for occupancy.

The new office site is conveniently located in the principal downtown business district and provides with every requirement of the organization, according to Ralph E. Duncan, secretary-manager.

Former offices of the organization in the postoffice building, occupied for almost four years, were vacated to permit enlarging floor space needed by the postoffice, Duncan said. Around February 1st, 1940, the space formerly occupied by C. of C. offices will be included in the local postoffice in an expansion program, he pointed out.

December 15th Is Deadline For Re-Seeding of Wheat

J. E. Thomson, Secretary of Haskell County Agricultural Committee, this week announced that the final date for reseeded wheat under the crop insurance program will be December 15 in Haskell County.

If a farmer has seeded his wheat and it has died or does not have a good stand, it will be necessary that the wheat be reseeded, if the season is favorable, by December 15. However, this does not mean if a farmer has not sown his wheat it will have to be sown by December 15. This applies only to reseeded wheat which has died, due to drought or has failed to germinate and seed has ruined.

The Insurance Corporation states in the insurance contract that "Normal Farming Operations" must be carried out, and the reseeded wheat which has been determined as "Normal Farming Operations."

Miss Helen Thomas of Hardin-Simmons University, spent the early Thanksgiving holidays with her parents, Mr. and Mrs. C. A. Thomas and family.

Mr. and Mrs. C. A. Thomas had as guest in their home last Thursday and Friday, the former's uncle, Mr. Jesse Floyd of Roanoke, Texas.

FIRST TAX SALES OF REAL ESTATE WILL BE DEC. 5

Property Will Be Sold To Satisfy Judgments for Delinquent Taxes

Final step in collection of several thousand dollars taxes delinquent to the State and taxing units in the county will be on the sale at auction December 5th of a number of city lots and tracts to satisfy tax judgments taken at the last term of district court by the various taxing units.

It has been nearly fifteen years since any property in Haskell county has been sold for taxes. During this period the towns, Independent School District and the County have each accumulated a voluminous delinquent tax record. Some of the property now being advertised for sale for taxes has contributed nothing to the support of the various taxing units in from five to twenty or more years. In many instances owners of the property have moved away and their present places of residence are unknown, or owners have died and the names of heirs are unknown.

FINAL PLANS MADE FOR SANTA CLAUS PARADE DEC. 6TH

INDIAN-BULLDOG GRUDGE GAME WILL END 1939 SEASON

Locals Squad Will Be Minus Services of Four Regulars

The Haskell Indians, ranks thinned by injuries and minus the services of four first-string regulars, will end their 1939 conference schedule Thanksgiving Day at Stamford.

With all title hopes behind them but a tradition to uphold, the Indians-Bulldog annual grudge game is expected to see the full strength of the undefeated Stamford aggregation pitted against the lighter squad of Haskell Indians in which inexperienced reserves will be called upon to play major roles. The entire squad of Bulldog regulars will be available in the Stamford line-up, Haskell fans learned this week. A win for the Bulldogs will cinch the 11-A title.

Definitely out of the line-up for the Indians because of injuries are Thompson, Holcomb and Otis Henshaw, backs, and Joe Thompson end. All are regulars on the 1939 squad.

Starting line-up for the Indians will probably be Kuenstler and Gay in the end slots; Patterson and Odell, tackles; Gholson and Reeves, guards; Buford, center; Cousins, Jordan, Hunter and Hancock, backs.

Records of the two teams for the past six years follows: 1933-Haskell 27, Stamford 0; 1934-Haskell 29, Stamford 6; 1935-Haskell 28, Stamford 6; 1936-Haskell 0, Stamford 6; 1937-Haskell 0, Stamford 27; 1938-Haskell 27, Stamford 6.

Close-Out Sale of Lively's Store Is Now Under Way

In a store-wide selling event inaugurated last week, Lively's Department Store will close out their entire stock of merchandise and discontinue the store in Haskell, management of the establishment announced this week.

Liquidation of the large stock of merchandise must be completed at an early date, according to E. L. Gillia, local manager, and to move all items in the store drastic price reductions have been made. In many instances, merchandise is offered below replacement cost, affording substantial savings to the people of this vicinity on a large number of staple items.

The liquidation sale will continue through this week and next Mr. Gillia said. "The entire stock must be cleared out during the next two weeks regardless of cost or profit, and we intend to price every item in the store at a level to attract buyers," the store manager added.

NEW MARKET FOR WHOLE MILK NOW OPERATING HERE

Wilson & Company, Inc., of Abilene through their local representative, Clifton Produce Company of this city are now offering milk producers in this territory a daily market for their whole milk in addition to other produce. The milk is being picked up at the farm houses and concentrated at the Clifton Produce Company, where it is moved by trucks into Abilene to be made into cheese.

A recent survey of this territory by representatives of Wilson & Co. showed sufficient milk production for the operation of several milk routes into Haskell. These routes will operate daily and will afford a daily market for milk producers in this trade territory.

The sale of whole milk for cheese making purposes by Texas milk producers has been growing for several years, and indications are that in all probability this method of selling will show still further advances in the future.

Interested parties will find an advertisement in this edition giving all necessary information. Mr. and Mrs. Tom French and children of Dallas are spending the Thanksgiving holidays with her parents, Dr. and Mrs. L. F. Taylor.

Escaped Convict From Local Jail Is Re-Arrested

C. B. Bland, one of two convicts who escaped from the county jail here early on the morning of October 28, was taken into custody by officers at Pawnee, Okla., this week. Bland and a companion-convict, Floyd Tidwell broke jail three days after they had been convicted in 39th district court on felony charges. They were brought here from state prison to stand trial. Tidwell was rearrested by Sheriff Olen Dotson several hours after the escape.

Following his arrest in the Oklahoma town, Bland refused to waive extradition to Texas, local officers were notified. Wednesday District Attorney Ben Charlie Chapman and Sheriff Dotson said that extradition had already been instituted against the escaped felon.

Boys Accompany Dads On Hunt—Also Get Game!

Lloyd Kennedy, 11, and Curtis Matthews, 10, were overjoyed last week when they were granted permission to accompany their fathers, James W. Kennedy and O. M. Matthews, on a several days deer hunt in Medina county, west of San Antonio.

And as it turned out, their "dads" were mighty proud to have had the youngsters along for several reasons—the principal one being that a nice four-point buck killed by the two boys were the only game bagged on the trip!

Both Mr. Kennedy and Mr. Matthews reported that although deer were plentiful on the Sutton ranch where they hunted this year, neither hunter was able to get anything like a decent shot. As for the two boys—well, they are full-fledged deer hunters now and are already looking forward to next year's season!

Mattson Mustangs Win Championship Title Of District

The game was played at Mattson, where a muddy field slowed down the scoring pace of the Mustangs.

Mens is brutes. Them lack consideration, them lie, them procrastinate. I have absolutely no use for they. Furthermore, them interfere with a woman's career. I shall be independent; no mans will be able to tell me to get off—or get on, for that matters. To be a bachelor girl is my ambition; my styles shall not be cramped by any mans. Slightly Sappy

Patches

Last week I decided to find out what the boys liked and disliked concerning the "feminine creatures in H. H. S. Since it would be impossible to interview every one of them, I have asked the class president to represent their respective groups in answering the questions. And here it is—direct from "the four leaders. Their numbers are as follows:

1. Freshman President — Jesse Fagan.
2. Sophomore President — Dan Oates.
3. Junior President—Jack Morris.
4. Senior President—Paul Kuentler.

A. Which do you prefer—blondes, brunettes or redheads?
1. Brunettes.
2. Blondes have them all beat.
3. That hasn't a thing to do with it.
4. Love 'em all (but don't get serious with any).

B. Do you like girl's hair fixed "pageboy"?
1. No.
2. Yes.
3. It all depends.
4. Yes.

C. What is your opinion of girls wearing anklets on a date?
1. What difference does it make?
2. Let them do what they want to. They will anyway.
3. It's their privilege.
4. O. K. by me.

D. Do you think girls should wear rouge and lipstick to school?
1. Clowns do.
2. My opinion holds. They'll do

what they want to.
3. It depends on her complexion.
4. Lipstick, but no rouge.
E. Which had you rather be seen out in public with—a pretty girl, or one who is lots of fun and popular?
1. A pretty girl who is lots of fun.
2. It takes all three qualities.
3. A pretty blonde with a personality.
4. She just has to be pretty, lots of fun and popular too. Then I'd be nearly satisfied.
F. Should boys give their girl friends simple or expensive Christmas gifts?
1. Neither.
2. Simple.
3. Any kind serves the purpose.
4. Simple gifts.

That is all for the time being, and I can assure you that the boys are very eager and willing to express their opinion. Next week for my column I shall interview the girls who have the highest offices in the various classes. Ah—Sweet Revenge!

Slayeroo Dilly

Well, hello! I've been on an extended vacation. Vacation means playing and I do mean plumb.

Dan Oates seems to be quite taken up with the younger Morris. However, she hasn't quite taken up from the correspondence she does.

One of our senior girls who has been doing the rounds lately says that all who haven't learned to dance are wacky. Really, it doesn't require much brain work—you just let rhythm take its course.

And we will be glad when Margaret and Betty Jane put on their jitterbug rags and go to town for us. Yeah, they're going to, in a program soon.

Of course Eulis still goes to Sagerton. We can't blame you, kid.

And Gerry's nails are always manicured since last Wednesday. She or they, must stand up to inspection. Of course, she has a ring—and the class rings haven't arrived, either.

They still burn wood at the Last Frontier.

Stanford has been discovered again by some Haskellites—and vice versa.

Flossie is seen steadily with the friend from Rochester.

Mary Elizabeth Womble and Roy Frierson make a nice contrast.

Buna Faye gets surprising letters from Munday and sends hers (the one she writes) to Rochester. Well, until I see you again—

Food Sales Here Return \$30,810 In Hidden Taxes

Families in Haskell pay an estimated \$30,810 in hidden taxes annually through their purchases of food, a National Consumer Tax Commission survey showed today.

"Nearly eight per cent of the total food bill represents shifted taxes buried in the price of every purchase," the report stated.

"These unseen levies, for example take 11 per cent of butter costs, 6 1-2 per cent of bread costs, 10 1-2 per cent of sliced bacon and 14 1-2 per cent of the cost of coffee."

The report was made public through Mrs. Kenneth C. Frazier of Dallas, Chairman of the Board, who leads NCTC study groups in about 810 Texas communities in the educational crusade against "unnecessary consumer-consumer-penalizing taxes." The report added:

"Chief offenders, and those that fall most heavily on lower income families, are hidden taxes. These are levied originally against the producer, manufacturer, shipper and distributor. Unable to absorb the load, each must pass on a share of its taxes and the consumer ultimately pays them, usually without knowing it."

The commission, in whose non-partisan crusade groups in approximately 5,100 communities have launched tax study programs said the hidden tax figure does not include the many other hidden and direct taxes families here have to pay.

The food tax estimate was computed from NCTC averages based on last available U. S. Bureau of the Census figures which placed 1935 food sales in Haskell at \$395,000. Government estimates of total sales in the country last year approximate the total in the 1935 study, the NCTC said.

AAA Moved To End 'Chiseling' Under 1940 Farm Program

Moving to stop chiseling by a few producers through multiple farm operations, the AAA will make no parity payments under the 1940 program to a producer offsetting performance on one farm by overplanting allotment commodities on other farms in which he has an interest.

In addition, E. N. Holmgren, state AAA administrator, announced the producer must plant within the total of the acreage allotments of corn, cotton, rice, tobacco and wheat established for his farm in order to qualify for price adjustment payments.

Under the 1939 program, Holmgren explained, a producer could qualify for payment by adhering to the allotment for one commodity even though he overplanted the acreage allotment of another commodity on the same farm or overplanted the same crop or other commodities on another farm. The new provisions make it possible for the county or state ACA committee to withhold all or part of the payment in such cases under

the 1940 program. (With the exception of these two requirements, the 1940 cotton price adjustment payment provisions are the same, Holmgren said.)

Rates of price adjustment payments will be announced later, after the 1939 season average prices are determined, since the rate for any crop cannot exceed the amount by which the 1939 average farm price is less than 75 percent of the parity price, Holmgren said.

The new provisions will make the administration of the program more effective, the administrator pointed out than had been possible under previous regulations.

Who's Who In The Senior Class

BRADLEY BUFORD

One of our most intelligent seniors is Bradley Buford. His average is, for the most part, A and very seldom is it below B. He has been coming out for football for two years and this year he is the center of the regular team. Naturally he will letter this year.

Bradley has attended Haskell High School for four years and we appreciate him. His sense of humor will always cheer you up if you're "down in the dumps".

We all hope, Bradley, that you will be a success later in life, and that you will be the star center on the football team of the college that you attend.

MARGIE BUSBY

Here is another of our colorful seniors. We all like to see her blond head come bouncing in no matter where we are. She is another student who has, so to speak, "jumped the gun" and taken her high school work in three years. But the fact that she is finishing in three years has only enriched the senior class of '40 with a good student.

She is a member of the Gypsy Ramblers in good standing. Also, she plays the piano extra well and is an alto singer in a trio of girls. We are all pulling for you, Margie, no matter what you do. If you ever need help in anything, may I refer you to the Senior class of '40.

HE'S TOPS at grading coffee

C. J. LAFAYE, Coffee Broker

... of New Orleans has "been in the coffee game" since boyhood. He has sold hundreds of millions of pounds of coffee. He knows coffee through and through.

...HE SAYS... "I've been hantling green coffees for over twenty years and I can honestly say that I've never seen Admiration say anything but the best grade... the top of the crop."

MR. LAFAYE IS RIGHT

Admiration is famous among all coffee men for accepting only the "top of the crop."

Are you getting the "TOP OF THE CROP" in the coffee you are drinking?

If not, switch to ADMIRATION today. You'll find the TOP OF THE CROP in every pound. A blend of choice, full-bodied coffees that has pleased so many tasters for the past twenty-one years that it is the undisputed leader among finer coffees in the Southwest. It costs you no more to use than an inferior coffee. ADMIRATION is so rich that many use far less!

Methodist Missionary Society Presents Thanksgiving Program

On Monday November 27 a Thanksgiving program was presented in the auditorium of the Methodist Church with women from the Baptist, Christian and Presbyterian Churches as well as those of our own church as invited guests.

Our president, Mrs. Mays had indeed prepared a great surprise for us. Unknown to anyone, an invitation had been given to Mrs. Nat Rollins of Abilene, who is the past president of the Northwest Texas Missionary Conference, to be the guest speaker.

Prefatory to the address Mrs. O. E. Patterson entertained the audience with a program of organ music.

Mrs. Mays in a few well chosen words welcomed the guests, after which Miss Jean Conner, one of Haskell's most promising vocalists gave "Count Your Blessings" as a solo.

Mrs. Clifford Williams, a gifted reader gave two beautiful numbers. Mrs. Rollins chose as her subject "Thanksgiving". Scripture used was the 103rd Psalm. We were made to realize that we are the most fortunate people on earth and should never cease to give thanks. Thanksgiving was officially proclaimed by President Washington for Nov. 26, 1789 and for a long, long time was considered mostly a New England holiday, but at the present time is celebrated by all sections. "America's glorious past must be preserved in her future." We want to make our country worthy to be loved. There can be no civilization where there are no homes are some of the thoughts which were brought out by the speaker.

The meeting was dismissed with a prayer by the speaker. The president invited all to the dining room, where the "surprise" was continued. A group of the young ladies circle, assisted the president in serving delicious pecan pie topped with whipped cream, olives, mints and coffee to some 100 ladies.

We were delighted by the presence of Mrs. E. E. Traweck of Abilene. Mrs. Traweck is district secretary of woman's work of the Abilene district. Also present was our own district secretary Mrs. J. H. Rutherford of Stamford. These ladies joined Mrs. Rollins in voicing their appreciation of the courtesies shown and made the entire membership of the Methodist Missionary Society happy, by telling of their admiration for our president, Mrs. Mays.

We meet on next Monday for the "Harvest Day" program with Mesdames Cahill and Lewis as directors. Be present at 3 p. m. sharp.

Clay Smith joined a group of men from Abilene on a deer hunt this week end.

Mrs. John Turner of Grant, Okla., and Mr. and Mrs. W. H. Young and children of Pottsboro were week end guests of their sister, Mrs. J. J. Haygood and Mr. Haygood.

REFERENDUM ON COTTON MARKET-ING SCHEDULED

Producers Will Ballot Dec. 9th To Determine 1940 Marketing Quota

All persons who produced cotton in 1939, are eligible to vote in the 1940 cotton marketing quota referendum December 9, George Slaughter, chairman of the state Agricultural Conservation Association committee, announced at a state committee meeting this week Slaughter pointed to the instructions for holding marketing quota referendums which set out that landlords, tenants and sharecroppers are all eligible to vote if they produced cotton in 1939.

"They are not only eligible to vote but are urged to vote," Slaughter declared. "The important thing is to get as many of the eligible voters as possible to the polls, so the results will be really representative of the cotton farmers' wishes."

"Any cotton farmer who fails to vote on cotton marketing quotas is not as interested in his own business as he should be. The outcome of the referendum means a lot to individual farmers as well as farmers as a whole, and each vote will have its effect on the result."

For cotton marketing quotas to be in effect in 1940, he pointed out, two-thirds of all farmers voting must favor them.

Since marketing quotas are not applicable to cotton with a staple length of 1 1/2 inches or more, farmers raising such long staple cotton will not be eligible to vote, the chairman said. Each farmer, whether landlord, tenant, sharecropper, partnership, corporation, association or firm will be entitled to one vote only.

The county ACA committee will of the referendum in the county, and the voting will be carried out just like any regular election. The committee will choose three local farmers to serve as election officers in each community and see that a ballot box is provided at the voting place.

Voting will be by secret ballot. Slaughter said, with each farmer marking his ballot privately and casting it in the customary manner used in secret voting.

Although urging all cotton farmers to vote in their home communities, votes will be accepted at the polls in any community, county or state, Slaughter said. Eligibility of all voters will be checked in their home counties.

CONVICTS ESCAPE ASPERMONT JAIL EARLY SATURDAY

Officers Seeking Felons Over Wide Area of West Texas

Two convicts, Joe Ely and John Bratcher, who were brought from the state prison to Aspermont last week to face trial on burglary charges in Stonewall county, escaped from the county jail at Aspermont about 1 a. m. Friday after sawing bars of their cell to gain freedom.

The two felons were tried in 39th district court at Aspermont Wednesday on two burglary indictments each. Both entered pleas of guilty and received two-year terms on each indictment.

Sheriff Brooks Ellison was notified of the jail break immediately after the convicts gained their freedom, another inmate of the jail sounding the alarm. The sheriff notified officers of adjoining counties and launched a hunt for the men.

Sheriff Ellison believed the two convicts were headed for Oklahoma and possible hideouts there. The officer expressed the belief that the escape was pre-arranged and that Bratcher had the aid of an outside confederate.

Bratcher was served a 15-year sentence from Haskell county for burglary and Ely was doing five years for burglary. Bratcher's conviction at Aspermont Wednesday was his fifth on a felony indictment, officers said. Ely and Bratcher were convicted last week for the 1938 burglary of a residence at Peacock and of the 1937 burglary of the Lloyd Flowers store at Old Glory.

Crippled Children's Clinic To Be Held In Wichita Falls December 7

The Wichita County Crippled Children's Committee is sponsoring free clinic for the examination of crippled and deformed children to be held in Wichita Falls, on Thursday, December 7. Surgeons on the medical staff of the Crippled Children's Division and Wichita Falls physicians will conduct the clinic.

Supervisors and nurses from the Crippled Children's Division will be on hand to discuss plans of hospitalization for children whose families are not able to provide such care as is needed.

The following counties are included in the area to be served by this clinic: King, Cottle, Wilbarger, Childress, Knox, Hardeman, Garza, Stonewall, Throckmorton, Haskell, Young, Jack Archer, Clay and Montague.

The clinic will be held at the First Methodist Church, corner of 14th and Travis Streets. Registration will begin at eight o'clock in the morning and the clinic will continue until every child has been examined by members of the Medical Staff. No treatment of children will be given at the church during the day, but parents will be told what may be expected from treatment of children if hospitalization is recommended. All parents of children under twenty-one years of age are invited to bring them to the clinic for examination. Where children have already been hospitalized, it will be possible for them to receive a check-up of their condition during the day.

The work of the State Crippled Children's Division is limited to cases of orthopedic and plastic surgery, and hospitalization is provided for mentally normal children under twenty-one years of age, whose parents are not able to provide the needed care. The Crippled Children's Division is a division of the State Department of Education, Austin, Texas. Hon. J. A. Woods, State Superintendent, in J. J. Brown, director of the Division; and B. E. McGlamery of Eastland, is Supervisor for most of the territory to be served by this clinic.

January 1st Will Be Deadline For AAA Applications

No extension of the January 1, 1940 deadline for accepting applications for payment under the 1938 Agricultural Conservation Program can be made, E. N. Holmgreen, state AAA administrator, has announced.

This deadline applies to original and supplemental applications and to adjustment applications. Holmgreen said, with three exceptions being allowed.

(1) An adjustment application resulting in a decreased payment may be submitted at any time.

(2) An adjustment application may be filed by any person shown on the original application within 30 days after the check or checks issued under the original application are delivered. This will be allowed even though the date of the filing of such adjustment applications is more than 30 days after the closing date of January 1, 1940.

(3) An adjustment application may be filed at any time prior to July 1, 1940, by any interested person not shown on the original application.

Recently set by the state Agricultural Conservation Association committee were the March 1, 1940 deadline for making application for 1939 cotton price adjustment payments and the July 1, 1940 deadline for signing applications for 1939 agricultural conservation payments.

Tax Sales—

(Continued From Page One)

Recently the City of Haskell caused to be filed some 300 suits on such properties and about 225 judgments were taken in the last term of the District Court. Unless taxes and costs are paid, such properties will be offered for sale to satisfy the judgments from time to time on the first Tuesday of the following months. The first of these sales will be held Tuesday being advertised to sell on December 5. Between 50 and 60 sales are advertised on that date.

In all tax judgments the District Court finds the present reasonable fair value of the property involved and, if sold to an individual, the property cannot be sold for less than the amount of the judgments against it or the adjusted fair value, whichever is the less amount. If no bid is received for at least the amount of the judgment or the reasonable value (whichever is less), the property is struck off to the taxing units. Properties struck off to taxing units are held for private sale at agreed prices if publicly sold after the expiration of the redemption period.

All real property sold for taxes is subject to redemption by the owner at any time within two years by paying to the purchaser the purchase price plus an additional twenty-five per cent during the first year or fifty per cent during the second year. Prior to original sale, all properties are advertised for three weeks.

Mr. and Mrs. Virgil Reynolds and Mrs. W. A. Kimbrough went to Austin Wednesday where they will spend Thanksgiving with Hon. and Mrs. Bruce W. Bryant. Thursday afternoon they will go to College Station and attend the Texas U.-A. & M. football game.

Weinert Bulldogs Blast Title Hopes of Lueders Pirates

It was the Bulldogs seventh straight win of the season.

The volatile Bulldogs launched their scoring extravaganza in the first quarter. W. T. Johnson 174-pound sensation, scored twice on spectacular runs, one a 56-yard jaunt. Foy McKennon, 135-pound will-o-the-wisp, counted another pair of touchdowns, while Earp, end, contributed the fifth on a pass from Quarterback Herman Josselet.

Winkels, fullback, scored the Lueders touchdown in the second quarter.

Weinert led in first downs, 10 to 6. The Bulldogs completed three of five passes, attempted while Lueders pegged two of 10 tries. Earp and D. Sanders starred in the Weinert line. Winkels sparked the Lueders offense.

Kimbrough Brothers, Who Made Haskell Football-Conscious, Will Hold Reunion At H-SU-Yellow Jacket Game In Abilene

A reunion for the Kimbrough brothers, of football fame, will feature the Hardin-Simmons University homecoming at Abilene, when the H-SU Cowboys entertain the Howard Payne Yellow Jackets today (Friday).

Coch Kimbrough of the Cowboys, is the "big brother" in a family of six sons of the late Dr. W. A. Kimbrough, prominent Haskell physician.

Schedule conflicts during his coaching career have prevented the Hardin-Simmons mentor, now coaching for his fifth season at his alma mater, from seeing Jarrin' John, All American fullback of the powerhouse Texas A. and M. eleven, and the leading scorer in the Southwest Conference, or Jack, Aggie end, in action.

So John and Jack, their own season to be completed Thursday with the traditional game with Dana Bible's Texas Longhorns, will go to Abilene to see "big brother Frank's" proteges perform in the annual classic clash with Howard Payne. The meeting is the twenty-ninth for the rivals since 1907.

Bill Kimbrough, letter man and halfback for the Aggies in the earlier '30s, now a county agent at Jayton, will join them there.

Dr. Ernest Kimbrough, now practicing at Haskell, where their father was a widely known country doctor, and Wallace, a Texas A. and M. student, will round out the sextette.

Ernest played football at Haskell, but did not follow the game in college. Wallace, handicapped by an attack of infantile paralysis in boyhood, played in one high school game.

In that game, final one of his senior year, schoolmates planned it so that Wallace participated in a few plays to keep intact the Kimbrough tradition, as successfully the six brothers have played for Haskell High School.

At Hardin-Simmons, Frank Kimbrough was star back in the mid-twenties, graduating in 1926.

Mrs. W. A. Kimbrough, of Haskell, mother of the six brothers, will be with them for Friday's homecoming clash.

When John and Jack, now juniors, graduated from high school, they debated whether to play college ball under big brother Frank, at Hardin-Simmons. "You'd better not come out for my team," big brother told them in shoeing them off to A. and M. "I don't want to be embarrassed by your ability."

"UNLOADED" GUN KILLS

AUSTIN, Texas—With the hunting season in full swing in Texas, the Executive Secretary of the Texas Game, Fish and Oyster Commission has issued an appeal to every sportsman to treat every gun as if it were loaded, and has set out a series of rules, which if observed, would do much to lessen the tragedies of accidents in fields and woods.

"It is the 'unloaded' gun which does the most damage," the game chief pointed out, "and if the following rules are observed there will be more sportsmen to take the fields another day."

Carry only empty guns, taken down or with the actions open, in your automobile, camp or home.

Always be sure the barrel and action are clear of obstructions.

Always carry your gun so that you can control the direction of the muzzle, even if you stumble.

Never point a gun at anything you do not want to shoot.

Be sure of your target before you pull the trigger.

Never leave a loaded gun unattended.

Never climb a tree or fence with a loaded gun.

Never shoot at a flat, hard surface, or at the surface of water.

Always remember alcohol and gunpowder should not be mixed.

"Two-Faced" Fish

No wonder J. G. Kane of Port Arthur was able to catch a certain sand trout recently—it had two mouths. Mr. Kane caught the fish in the lower jaw and brought the ten-inch finny tribe member to the office of the Port Arthur News, just in case there was any doubt about his story.

Sportsmen Cooperating

Texas sportsmen are becoming more sportsmanlike, in the opinion of the Executive Secretary of the Game Department, who has received numerous reports from many of his game wardens since the dove season opened detailing fewer violations this year than at any time in the history of the department.

There was a time when the dove hunter, if a covey of quail got up in front of him wasn't the slightest bit reluctant about firing into the birds. However, law enforcement and the educating of sportsmen to the needs of proper observance of game laws has brought about the change, the game department head believes.

Few wardens have found it necessary this fall to file cases against sportsmen for hunting quail out of season, the Executive Secretary said until December 1, when the quail season opened.

Pressing On Anti-Pollution

Prolusion of Texas streams, which destroys as many fish as sportsmen take has been fought by the State Game Department for years and its campaign apparently is bearing fruit. More and more oil companies are taking steps to properly dispose of their salt water. For example, a company recently completed a huge pit near Mexia which holds 1,000,000 barrels of water. The largest holding pit in the State is located near Luling. It will hold 8,000,000 barrels. The Department's recently filed suit against fifty-nine companies for alleged pollution of the Neches-Angelina River system is being watched with much interest by sportsmen who know the damage wrought by the pollution of streams.

Officials of a Norwegian tanker, The Leisten, recently paid a fine of \$535 for pollution of water at Port Arthur.

Fish Parasites Not Harmful

Thousands of Texans, knowing the early fall and winter months are better for fishing than the summertime, are haunting their favorite lakes and streams and to these, in answer to many inquiries the Game Department's chief aquatic biologist has been sending word that no parasites which live in fishes found in Texas waters are harmful to human being if the fish are well cooked. Even the dreaded tapeworm is killed by cooking, but the biologist is stressing the fact that all fish should be WELL COOKED.

Locals Defeated By Rule In First F. F. A. Cage Games

In the opening basketball game of the season the Rule F. F. A. team defeated the Haskell F. F. A. team 12 to 10 here Thursday afternoon. This was the first game that both teams have played this year.

During the last quarter the scores were tied but in the last few minutes of play, Rule forged ahead with a crisp shot by Miller.

The outstanding players for the Haskell Chapter were Carl Johnston, Carl Lane and Edwin Lusk. Both team played a very good game of basketball.

A full schedule of games has been arranged.

Thanksgiving

Doubt fills the hearts of millions of men and women this week. In hundreds of thousands of homes bewildered Americans on this Thanksgiving are asking themselves: Why? Why Thanksgiving? As human beings we would be callous to give thanks merely because we have been spared Europe's sufferings. That would not be Thanksgiving but smugness and complacency.

Should we give thanks then because our November skies are happily empty? Because our children play tag and football instead of digging air-raid shelters? Because our menfolk are safe with us on this day of days, secure at their own firesides? Because we have plenty on our tables?

Perhaps. All these things cannot fail to make us thankful. But the spirit of Thanksgiving, the consecration of the holiday itself, is also, and perhaps primarily, one of obligation. Thanksgiving calls upon us to share. It teaches us on this day that no one should go hungry. There are many things we cannot share at this moment with our fellow human beings across the ocean. We cannot share the material things we have in abundance of our security, our peaceful churches, or our serene and happy homes. These are, unfortunately, beyond our power to give.

But we in America must realize that, perhaps alone of all the peoples on the earth, we have something at this moment which an unhappy world will be desperately in need of sharing in the years to come when the guns are silent. And in giving thanks for the plenitude of these spiritual values which we possess, we must resolve anew to treasure and cherish them against that time.

We love peace. We love democracy. We believe the little man has a right to speak and be heard. Our sense of justice is as yet and forever, we hope unclouded by passions. As a people we are generous. We hate the sight of suffering. We are strangely imbued with the belief that every man deserves well at the hands of every other man—a belief which seems to be sadly out of date in much of the world.

We know that there is much of injustice in the Old World, a great deal of which stems back through confused years which have been seed-beds of hate and aggression. We know now to our sorrow that these hatreds and aggressions cannot be resolved save by the sword. Yet we like to feel that it could have been otherwise and we dare to hope it can be otherwise again.

But we must do more than hope. The time will come when the calm counsels of America will be desperately needed to bring not only a just peace but a merciful peace so that the world may again and for all time turn its back on war. And so, at this time, Thanksgiving, it is not enough that we give thanks to the benevolent Pro-

vidence that has spared us. In our hearts we pray that we may be permitted to hold fast to all those fruits of two thousand years of civilized endeavor: Peace, Democracy, Justice for all men and all nations. These things blossomed once in the western world. They will flower again, but only if we cherish the seeds, ready to cast them, when the time comes, on scarred and hungry soil.

In Fairness to Franklin D.

In December of 1938, President Franklin D. Roosevelt announced his intentions of setting up at Hyde Park, for the first time in this country, what might be called a source material collection relating to that period in American history from 1910 down to the present. The collection was to be housed in a building built by private subscription. The property was to go finally to the Federal Government. The President also wished that the family house at Hyde Park and the greater part of the estate should be taken over by the United States after his death.

The New York Times, in comment, "Aside from partisanship, the only intelligible reason for objection is the notion that everything should be piled up in Washington."

Representative Burdick of North Dakota, took part in the discussion in Congress, and in a fine way called attention to some facts about President Roosevelt and the Democratic Party that the country generally is trying to forget. Representative Burdick is a Republican. Here's some of the things he said: "I for one, feel that 50 years from now the place that Franklin D. Roosevelt will occupy in the United States history will be quite different from today's sentiment upon my side of the House. I, as one Republican, am willing to confess openly, that considering the condition of affairs when President Roosevelt came into power in this country, he, more than any other man in the United States, is responsible for our having a representative form of government. If he has made mistakes, history will take care of that, but history cannot take away from him the position he occupies in being the source of inspiration for the American people to continue this form of government. I am for this Government. I want to make this government better. When history is written 50 years from now, I think it will contain nothing of which even the Republicans need be ashamed."

The Sensible Way

Championing the cause of cotton and cottonseed products, the National Cotton Council has set up a new section on trade barriers and penalties.

The new principal activity of this new section will be to increase the use of cottonseed oil, with major emphasis being placed upon efforts to free margarine from its present unjust burden of taxes and restrictions.

Margarine manufacture in 1938 consumed 170,000,000 pounds of cottonseed oil. Reliable estimates indicate that use of cottonseed oil in margarine would rise as much as 33 1-3 per cent if state restrictions were lifted. If federal taxes were removed, it is estimated that margarine sales would triple.

The Cotton Council is going about this battle against trade barriers in the only sensible way. While successfully combatting 29 legislative attempts to further restrict margarine sales during the past year, it has laid a groundwork of economic research on the subject of margarine. Now it has established a new department headed by a widely known authority on the margarine problem.

An educational campaign is about to be launched, telling of the true virtues of this wholesome, nutritious food product. The story will be brought home to the consumer.

The injustice of the present scheme of prohibitive restrictions and trade barriers will be shown to the people and their law makers.

It will be a long campaign and a hard one. But only through such a program as the Council outlines can we hope to broaden and to hold this valuable market for American cottonseed. It is too valuable to risk through slipshod methods and hurried schemes.

High-Stepping Majorettes Prance for NTSTC Exes

DENTON, Texas—Returning lettermen and other exes who came back to the campus of the North Texas State Teachers College in Denton Nov. 18 for the biggest campus football event of the year—the annual grudge battle between Jack Sisco's Eagles and Bob Berry's Lions of Commerce—were given an eyeful of the above "high steppers" between halves.

One of the major campus improvements of the year—in NTSTC band circles—the five colorful "queens of prance" are an innovation at the Teachers College. Bob Marquis director of the Eagle band has selected Flora Mae Tatum of Gladewater (upper center), a brunette, as the first girl drum major in the history of the college. Her four "majorette" assistants include a red head, Kay Walker of Bowie; two brunettes, Gloria Mitchell of Lancaster and Lois Fikes of Gladewater, and one blonde, Theresa Corcoran of Denison.

Thanksgiving

On this day of all days—most significant because it marks an observance which in reality dates back to the founding of our united Nation—every true American finds ample reason to be thankful.

We can be thankful for Peace, for security of our homes and livelihood, at a time when all other nations of the world are at war or face the threat of war. As a peaceful united people, we should cherish on this memorable day the heritage of those pioneers who founded a New Country.

This institution, a pioneer establishment in the development of West Texas, on this Thanksgiving Day renews the pledge of its founders—to serve in every capacity the needs of Haskell and Haskell County.

SNAP-SHOTS

Bernice wants to get "hitched" so she won't have to go to school. I wonder what Elsie H. and Eulice talk about all the time. Did R. S. really apologize to Jewel N. because he went with Helen O. Saturday night? Lois, where do your letters come from? W. T., was Gloria really flirting with you, or was it vice versa? Mr. Perrin believes that the pep squad needs to be inoculated to obtain pep. I wonder if the walnuts were good that Lois and Gloria ate in the study hall. What's this we hear about Mildred Taylor and Clarence? Lois writes notes in every study hall. David thinks three girls are a "literary genius." (How about it Aletha, Elizabeth and Maurine?) Wonder why Peggy wanted to keep Saturday night a secret. Don't look so innocent W. T. we saw you winking and passing notes Monday. Wonder if Louise M. likes red heads? Joyce, do you really like a certain football player? (Wonder if E. W. knows). Does David really hate "red heads"? More than 45 percent of the 500,000 farms in Texas have no hogs to keep the family in food, according to the 1935 farm census.
