Election Called on Proposed Merger of Six Schools

AFFAIR WILL BE HELD AT GYM FRIDAY NIGHT

FORMATION OF RURAL HIGH SCHOOL DISTRICT FOR SAGERTON PROPOSED

5 Common School Districts Would Be Consolidated With Sagerton

Qualified voters in six school districts in the southwest part of the county will ballot Saturday, March 30, on a proposal to consolidate Vernon, Center Point, Flat Top, Tanner Paint and Bunker Hill rural schools with the Sagerton school district to form the Sagerton Rural High School District. Voters in the Sagerton independent school district will also ballot on the proposition.

The election was ordered at a special meeting of the County School Board held March 7, upon petitions from taxpayers in each of the six districts involved. If the proposed merger is favored, Sagerton would likely be the site of the rural high school plant, with the enlarged district having a scholastic population of approximately 400. At the present time 191 students are enrolled in Sagerton school, an accredited high school.

Considerable interest has already developed over the proposed merger and heavy voting is in prospect. Opponents of the proposition to merge the six schools contend that the proposal must be given a majority in each of the six districts involved, while those in favor of consolidating the schools are of the opinion that a majority of the total vote would authorize the merger.

Voting will be at polling places in each district with the following presiding judges appointed: Vernon—J. L. Tidwell and H. J. Mueller.

Center Point—Leslie Lewis and T. M. Patterson.
Flat Top—C. K. Holt and Gus Mueller.

Tanner Paint—Lowell Fulbright and A. E. Fouts.
Bunker Hill—Fred Knipling, Alfred Rinn.
Sagerton—R. T. Lambert, Claud Smith.

An election will also be held on the same date on a proposal to consolidate the Ward rural school with Paint Creek Rural High School, with voting scheduled in both districts. Ward is now contracted to the Paint Creek school.

Approximately \$702,705 Can Be Earned By Farmers-Ranchmen In County Under Triple A Program

An estimated \$702,705.63 will be offered to Haskell county farmers and ranchmen by the AAA in 1940 in compliance with the program and for putting into effect soil-building and range-improvement practices.

Only full cooperation with the AAA will result in the payments reaching this figure, since the amount is estimated on the basis of all farmers and ranchmen in the county earning all payments available, including maximum soil-building and range-building allowances. V. F. Bunkley, chairman of the county Agricultural Conservation Association Committee, explained.

The chairman listed the amounts available as follows: Cotton parity payments, computed at the rate of 1.55 cents per pound of cotton average yield, \$251,272.24.

CANDIDATES MEET TO FIX SCHEDULE SPEAKING DATES

Candidates Also Draft Plans Concerning Political Advertising

At a meeting held in the district court room here Saturday morning, attended by a large majority of the candidates for office in Haskell county, a schedule of speaking dates for the current political campaign was arranged that will include every town and the larger communities in the county. After discussion, the group also adopted a resolution governing advertising and attendance at community gatherings. Because it would be impossible for all candidates to attend every box supper, picnic supper, and similar community events usually scheduled during the spring and summer months, the candidates agreed not to attend any of these events in fairness to all concerned.

Political advertising will be confined to established county newspapers and recognized school newspapers, candidates agreed, it being the consensus of opinion that the heavy financial expense involved would not permit use of annuals, school curtains, programs etc.

"A program of industrial development centers around the manufacture of raw materials into finished products"
LOCATED in all sections of Texas, 141 refineries manufacture into finished petroleum products 80 per cent of the State's crude oil production. In contrast, Texas processes only 3 per cent of its cotton production and none of its wool or mohair. Petroleum refining now constitutes 41 per cent of the value of all Texas manufactures. Of the 225,000 Texans regularly employed by the oil business of the State, 28,000 skilled workmen and 5,000 office employees (a \$50,000,000 annual payroll) are employed in this one division of our oil industry. Leadership in 1940
IT'S FORD
ACROSS THE BOARD
Leadership in all 7 BASIC ESSENTIALS OF A GREAT LOW-PRICED CAR
In the major things, the big things, the real things that make you want a car—all 7 of them—Ford takes commanding leadership. Here is where Ford excels:
1 GOING POWER: The kind of power that only the V-8 engine can provide—the instant response, lightning acceleration, marvelous economy and swift, smooth, faithful performance. 6,000,000 Ford V-Eights—more than all other Eights combined—say this is the power plant for you!
2 STOPPING POWER: The big hydraulic brakes of the Ford V-8 are far and away the biggest in the low-priced field—a safety factor you've got to have in the new car you buy.
3 POWER TO HOLD THE ROAD: No car in any price field excels Ford in roadability—in keeping "all four feet on the ground" under all driving conditions. This means safety plus comfort.
4 SMOOTHNESS: Not only in amazing power does the Ford V-8 engine excel, but in the smoothness that gives velvet quiet. Everyone knows no car of fewer cylinders can match an Eight in smoothness.
5 STAMINA: In staying power there is no car that can take the rough with the smooth like Ford. There are more Fords on the highway than any other make of car. This sturdy Ford is made to take it!
6 STYLE: Ford set the current modern trend in beauty of lines. And Ford's unequalled paint job makes its beauty permanent.
7 COMPLETE ECONOMY: The combination of low price, low cost of operation, high trade-in value and more extras at no extra cost, makes the Ford the great economy buy for 1940.

was it, someone who knows? Ah-choo! What on earth is that "sneezy" smell? Those who take Texas History (or vice-versa) will recognize it as snuff-Blank and Blankety-Blank (not mentioning any names) were really in the snuff "business" one day last week and we didn't need any blood hounds to discover who they were.

All around Hi School we don't find anything 'noo, specially.

Sue Quattlebaum still gets chills, shivers and thrills every time she sees or even thinks of a certain young man whose initials are Gilbert Wheeler.

I also hear Gilbert's skinned shins (wow, that's a tongue-twister) are coming along nicely after he attacked that regiment of water faucets with them.

We must all remember to refer to Mr. McCollum as an "unconquered hero" (so far) until he takes the final (or fatal) step.

Edwin Jeter can write some of the "yummyest" notes to Helen Coleman. Man alive! They are masterpieces of something or other.

We now refer to Curtis Jordan as "Smiffy Jordan. Why? Just ask a member of the Texas History class. (What again? They must be turning to an information booth).

Have you heard the latest "Did you hear the one about—"? Here's a couple or two.

Q. Did you hear the one about the electricity?

Ans.—I can't tell you. It's shocking.

Did you know that several of the H. H. S. girls have "chawming" Southern draws when they try to talk "that" way?

Here's another good one: Listen, wise guy, if you don't keep your immensum shut I'll pin your auriculars back.

How's this for a sensation idea? Let's find some way to make the men teachers grow mustaches for about two weeks. It would all be in fun, and who knows. Maybe they'll find they look better with mustaches. How about it, kids?

Well—the other columnists have evidently decided to turn this week's paper into a "Walter Winchell Special," so I won't try to be different.

Joe Thomson, just why was it so important that I leave the article about your adventures at Midway completely out of last week's Warwhoop.

And all of my "problem children" are getting to be very much like their name. Neil, Bobbie, Mary Elizabeth, Francis, J. E. Sister and two whose names I can't mention, what if I should "squeal" sometime and tell another member of this little organization what goes on during our conversations? It looks like the Seniors started something when they had the Western party, doesn't it? Barbara Lee thinks it was a good idea.

A new kind of beer retailing is bringing wholesome recreation to millions of Americans!

America's new kind of beer retailer wants to sell good beer, of course... but he is also keenly aware of his social responsibility to the community. He makes sure that his place is clean and inviting—and scrupulously free of anti-social influences of any kind.

The Brewing Industry wants all of beer's retailers to be of this type. We do not want any other kind. And we are taking

action to eliminate any abuses in beer retailing that may occur.

We have instituted a new plan... now in effect in a few states and being extended as rapidly as possible... to protect your right to drink good beer in decent surroundings. Mrs. C. D. Grissom Hostess For Missionary Society Meeting Monday

Mrs. C. D. Grissom was hostess to the W. M. S. of the First Christian Church Monday, March 11th. For the business period Mrs. Hunt used as a devotional topic "The Freedom of the Gospel", Mal. 2: John 1:12, John 8:32-37.

Mrs. D. P. Ratliff leader for the presentation period had arranged a very interesting program. Mrs. Bertha McNeil gave in a most impressive manner the devotional "Kindled Fires: To Maintain The Spirit's Freedom", Isa. 61:1, 42:7, Gal. 5:13. In the study "The World's Need For Freedom" we were made to see in a most forceful way the lack of freedom suffered by much of the world today with respect to such fundamental rights as education, health, civil, political and religious privilege and were made to feel our responsibilities as churches and individual christians in guaranteeing to people everywhere these rights. In developing the theme "The World's Need For Freedom" the following topics were discussed.

Freedom in Education — "They Learn To Read" — Mrs. Lynn Pace Jr.

Freedom in Health — "Without Benefit of Doctor" — Mrs. J. M. Glass.

Freedom for all People — "Whither the Refugees" — Mrs. Virgil Meadows.

Freedom from War — "A World Without War" — Miss May Fields.

During the fellowship period the hostess served delicious sandwiches, cake, olives, and chocolate to twelve members.

Eva Jo Rathiff and Lon McMillin Are Wed

District Judge and Mrs. Dennis P. Rathiff are announcing the marriage of their eldest daughter, Eva Jo to Lon McMillin. The wedding took place Thursday evening March 7 at Goose Creek. J. G. Goodpaster, minister of the First Christian Church at Goose Creek officiated for the ceremony.

For her wedding dress, the bride wore a gray alpaca with shell pink trim. Black and white accessories completed her costume. She wore a corsage of Talisman roses.

Mrs. McMillin was a popular Freshman in TSCW this school year. She was one of the Counsellors on the Student Government Council for this year and was one of nine girls nominated for Charn Princess, a place to be filled this week. Her scholastic record in TSCW has been a continuation of her high school work in Haskell from which school she graduated last year as an honor student.

Mr. McMillin is the son of Mr. and Mrs. John McMillin of Haskell and is also a graduate of the Haskell Public Schools. He is employed in Goose Creek where the young couple will make their home at 400 West Wright Street.

Magazine Club Has Regular Weekly Meeting

On March 11th the Magazine Club met in the club house. In the regular weekly program, the president presided over a very interesting business session after which a very inspiring program on Dutch and Flemish art was enjoyed. Mrs. Kimbrough being absent, Mrs. Fields directed the program. Having visited the art galleries of the Hague, the directors introductory remarks were very interesting.

Mrs. Malt Graham told of "Rubeus, the Prince of Flemish Painters."

"Rembrandt, the King of Shadows" was Mrs. R. J. Reynolds' subject.

The history of Paul Potter's Bull was given most interestingly by Mrs. Virgil Reynolds. This painting is not called beautiful nor artistic, but is life size. It is called a magnificent work of art.

Miss Jean Comer appeared in Dutch costume and delighted the club by singing "The Little Dutch Mill."

On last week's program, Mrs. French Robertson gave a most interesting talk telling of the "Transfiguration" by Raphael. The reporter failed to mention this in last week's write up.

The club year being almost at a close the different clubs have begun boosting some one of their members for different state offices. Clubs of Fort Worth, Plainview and Houston each have nominated a favorite for the office of "President of the Texas Federation of Women's Clubs." Sterling City has presented a candidate for the office of "Treasurer of the Texas Federation of Women's Clubs."

We meet on next Friday in what promises to be an outstanding program the subject being "Quilts and Samplers."

Helen Bagby Circle Meets With Mrs. Ellis Monday

Monday evening March 11th the Central Circle of the Baptist W. M. U. met in the home of Mrs. John Ellis in a Bible study with thirteen ladies present. Meeting was opened by singing "Jesus Paid It All" with Mrs. Ellis at the piano. Mrs. Yantis gave the opening prayer and Mrs. Cates conducted a brief business session. Mrs. Reynolds then gave us such a beautiful and impressive Bible lesson on the first seven chapters of Genesis with all taking part in the discussion which proved a very interesting lesson indeed. After the lesson we had a discussion on our new Bible study. This book is a guide to daily Bible study in which we must read and study well one chapter each day, and this was divided in two sections with two group captains. Mrs. Ellis as Hannah and Miss Crawford as Ruth with ten ladies in each group. We know this study will prove a great blessing to us and we will have a lesson each month and hope all ladies will become much interested in this Bible Study.

We were dismissed with prayer by Mrs. Crawford and the following ladies were present: Mesdames Reynolds, Cates, Crawford, Yantis, Paxton, Merchant, Lambkin, Bailey, Simmons, Taylor, DeBard, Miss Ida Crawford and the hostess.

GEMS OF THOUGHT

It isn't the man who knows the most, but the man that knows the best, that's wisest.—Anon.

Mother of Monarchs

When in 1764 Letitia Romolino, a rather obscure Corsican girl, married Carlos Bonaparte, an assessor at the age of 14, there was little in the occurrence to indicate the far-reaching influence that was to follow their union.

It was not particularly strange that 13 children were to be born to them, but it was remarkable that of the 13, four were destined to become emperors or kings and two to become queens.

The most famous of course, was Napoleon Bonaparte, who became emperor of France, and whose name fills more pages of history than that of any other mortal who ever lived. He was the second child.

Joseph, the eldest, became king of Spain; Jerome was king of Westphalia, and Louis was

king of Holland. One of the daughters, Maria, became queen of Naples, and Elisa became queen of Toscana.

Two other children held lesser rank, Lucien becoming prince of Canino and Marie Pauline becoming duchess of Guastalla.

Thus Letitia Romolino has become known to the world as "the mother of monarchs." It might be imagined therefore, that hers was a happy life—but not so. She was often poverty-stricken, and lived to see all her royal children shorn of their power. When she died at the age of 86 the great Napoleon had been dead 15 years; all her other children had lost their royal prerogatives, and while several survived her they had ceased to be factors in public affairs.

But in spite of all that, Letitia Romolino gave to the world a progeny whose activities did more to change the course of events than that of any other mother who ever lived.

True Americanism

In these days, when such a large number of our people seem to have lost their self-reliance, and are looking to the government for everything it would be well to consider the words of Henry W. Grady, the great Southern editor, who once wrote:

"Exalt the citizen. As the state is the unit of government, he is the unit of the state. Teach him that his home is his castle, and his sovereignty rests beneath its hat. Make him self-respecting, self-reliant and responsible.

"Let him lean on the state for nothing that his own arms can do and on the government for nothing that his state can do. Let him cultivate independence to the point of sacrifice, and learn that humble things bought with its price.

"Let him neither surrender his individuality to government nor merge it with the mob.

"Let him stand upright and fearless—a freeman born of freemen, sturdy in his own strength, dowering his family in the sweat of his brow, loving to his state, loyal to his republic, earnest in his allegiance wherever it rests, but building his altar in the midst of his household goods and shrining in his own heart the uttermost temple of its liberty."

O. D. Van Buskirk, district manager of the Industrial Transportation company informs us that they have leased a building in Rule and will open one of their chain stores in that city at an early date.

The building formerly occupied by the Merchant's Cafe is being remodelled this week and will be occupied by Fouts & Mitchell, who will open a stock of notions and variety goods as soon as the building is ready.

SPRING FEVER

What is that element which causes a person's grades to suddenly drop very low and causes him to sleep during study hall and classes when he should be busy getting his lessons or listening to the instructor? It is nothing but spring fever!

Everyone at school this week seems to have spring fever. Laziness just does not seem to be the right word for most of the students because they do get out their books and try to study but their mind slowly travels from their books until it is among the clouds. Now who can expect a person to study when spring is in the air and the malady of spring fever hits school.

Haskell County History

20 Years Ago—March 13, 1920. Fire was discovered at the Farmers Gin last Friday afternoon. The flames caused considerable damage to the plant before firemen were able to extinguish the blaze. A movement has been launched by the Chamber of Commerce to pave the public square and prospects for the movement to become a reality are very flattering.

The ancient order of "sole leather pilgrims" are coming into their own in Haskell—the thing they have pleaded, begged, threatened and asked for during the past 20 years have been given them—sidewalks from the square to the depot were completed this week.

Again, A GAIN in Gasoline Quality

These two products of Humble's policy of continuous improvement will show you that there is a difference in gasolines. With a tankful of either, you will notice the superior performance of your car: improvements in Humble give you new heights of performance; Esso Extra is without an equal among motor fuels.

Humble

TODAY'S automobile engines must have a gasoline of high quality to give you the performance you expect. To fill that need, Humble has made improvements in this great gasoline which reach new heights of performance. Try it—see for yourself how improved quality results in improved performance.

Esso EXTRA

ESSO has always been a peerless motor fuel. Now it is so much improved, we call it Esso Extra—it gives you extra performance with every gallon. We're enthusiastic about Esso Extra. When you try it, you will be, too. Fill up with this unequalled motor fuel today!

To Buyers in the Lower-Price Field

Humble offers you another product of its policy of continuous improvement in Thriftane, a leaded gasoline of specified quality at thrifty price.

HUMBLE technical men are constantly experimenting, in the laboratory and on the road, with improved products for your car. This constant research results in continuous improvement of the gasolines, motor oils and other products you get under the Humble sign. The process of improvement is so continuous that specific improvements frequently are made without public announcement. It is only when marked improvements are made, like the improvement in quality of these fine gasolines, that your special attention is called to them.

It all adds up to this: we promise you that you will find Humble products second to none, that you can depend on continuous improvement to keep the quality of Humble products up with, or a little ahead of, the performance built into your car.

have fun with your kite but fly it SAFELY

Lest You Regret— REMEMBER: 1. Keep away from electric wires. 2. Do not use wire or metal on any part of the kite. 3. Do not use string with wire in it. 4. Keep string dry. 5. Do not climb poles if kite becomes entangled in wires.

Impress upon your child this list of precautions, and see that he understands and observes them. While we don't want to spoil anyone's fun, if he doesn't have plenty of open space where his kite can be flown safely, then he should give up kite flying.

Serious and even fatal accidents have resulted from kites in contact with light and power lines. We want to help keep your child—all children—from harm.
