HARVESTING OF COUNTY'S GRAIN CROP IN FULL SWING

Harvesting of a record-breaking grain crop in Haskell county which it is estimated will bring almost two million dollars to farmers of this county on the basis of the current market price for wheat and oats, was in full swing at mid-week, with combines and crews working night and day in grain fields throughout the county and trucks running behind schedule in bringing grain to Haskell and other shipping points in the county where the grain was loaded and sent to terminal markets.

Up to Thursday morning 36 carloads of wheat, and 20 of oats and barley had been shipped from Haskell over the Wichita Valley railway, Agent Henry Dobbins reported.

Fleets of trucks have likely transported an equal quantity, or more to the Fort Worth markets, as several buyers in the local market have found difficulty in securing labor to load railway cars, and too, have found it expedient to ship early-harvested grain, which has quite a bit of moisture content, by truck to avoid danger of heating.

Wheat acreage in the county is estimated at approximately 63,000 acres and the yield is averaging between 18 and 20 bushels per acre. In the area south of Rule, some 40-bushel yields have been reported, but the general yield over the county is much lower.

Yield of oats is reported running from 40 to 70 bushels per acre, for an average of 40 to 45 bushels, farmers estimate. The county has approximately 24,000 acres in oats and barley.

Much of the wheat coming on the local market this week has contained too much moisture, drawing a consequent penalty in price. Growers have been compelled to harvest much of the early wheat because of rust damage to the stalk, which they feared would not hold up much longer in the field.

On the local market, top price for wheat has been \$1.40, while oats brought 40 cents.

HARVEST SLOWS 7TH WAR LOAN DRIVE

Haskell county still has a long way to go in meeting the 7th War Loan goal, but the drive has made fairly satisfactory progress under existing conditions, County War Finance Chairman R. C. Couch said this week.

On the basis of the latest tabulations available, Mr. Couch said the county as a whole was nearing the \$200,000 mark, against the county quota of \$435,000.00.

Excellent response of buyers was noted at the beginning of the drive, but the rush of the grain harvest has slowed the campaign, Couch pointed out. However, he saw a glimmer of hope in the fact that the bumper grain crop being harvested would bring thousands of dollars of surplus money to the area which would be invested in War Bonds.

Considerable interest of War Bond buyers has been shown in connection with the Registered Hereford Bull to be given some Bond purchaser in the county when the Haskell county quota is reached. The registered animal has been donated by the Brown & Davis Ranch, leading Hereford breeders of this section, and a chance to win the animal is given with every \$25 War Bond purchase made in Haskell county.

Total War Bond sales tabulated this week show that Rochester leads in the county with sales of \$32,300, about 50 per cent of that city's quota of \$65,250.00.

Haskell and immediate territory reported sales of \$80,000 toward a quota of \$187,500.

O'Brien had total sales of \$12,000, or 40 per cent of a quota of \$30,000.

Rule had about 45 per cent of its quota, with sales of \$46,000 against a goal of \$104,400.

Weight bond sales totaled \$12,000, about 40 per cent of that community's quota of \$30,450.

Sagerton, with a quota of \$17,400, reported sales of \$1,686.75, representing approximately ten per cent of the community's quota.

Robt. Crocker, Triple A secretary of Haskell county, was informed Wednesday of the initial oat loan to be received by Texas and said that the rate is expected to be set in the near future.

The new 1945 loan will be on oats grading number three or better from 50 cents to 60 cents a bushel by counties.

The oats may be stored in approved warehouses if the producer is willing to pay storage costs of seven cents a bushel to April 30, 1946. All oat counties are also eligible for farm storage.

Deadline for putting the 1945 oats in a loan has been set for Dec. 31. These loans will mature April 30, 1946.

Although loans have been given on wheat, grain sorghums and cotton in the past, this is the first loan announced for oats. Crocker said that this would probably aid the market during the coming year.

Fire Destroys Servant House Saturday

A three-room servant house at the O. E. Patterson residence was destroyed by fire shortly before noon Saturday. Origin of the fire was not determined and flames had spread throughout the small structure before being noticed. Firemen responding to the alarm extinguished the blaze and saved a portion of the walls and roof of the small building, but the entire structure suffered major damage. The three-room house was occupied by colored people, and they lost all their household effects.

Anyone interested in securing fish for stocking purposes is urged either to leave their name and address at the Triple A Office in Haskell, or to notify the Game, Fish and Oyster Commission, Walton State Bldg., Austin, Texas, or the U. ALL-STARS AND WACS PLAY HERE FRIDAY

The Haskell Girls All-Star Softball team will play a matched game with the Abilene WAC softball team on Indian Field in this city tonight (Friday).

The game will begin promptly at 8 o'clock, and promises to be one of the best of the season.

The Abilene WACs have a number of wins to their credit this season, and although the local Girls All-Star team has only recently started playing matched games, they have developed a strong team that is expected to give the visitors plenty of opposition in tonight's game.

Haskell County 1944 AAA Program Is Valued at \$324,935.00

The local Triple A office has just completed tabulation of data for the 1944 Triple A program, and according to Bob Crocker, Triple A Secretary, results show that of the thirty-five soil and moisture conservation practices listed in the 1944 Texas State Handbook, Haskell county carried out nineteen practices. The value of these practices, computed at 1944 AAA payment rates, was \$324,935.00 which does not represent the true value of the conservation work to individual farms and ranches or to Haskell county. This can only be determined over a period of years by the benefit derived from having carried out the practices in 1944.

Participation of individual farmers and ranchers in carrying out soil building practices reached the peak under the 1944 program.

With 2,154 farm units in Haskell county, 1,647 or 76 per cent participated in last year's program. Cropland, 279,046 acres, in farm units carrying out approved soil building practices represented 85 per cent of all cropland in the county.

With the exception of one practice (green manure crops, an increased per cent of participation was experienced in all practices. The value of the various practices according to AAA payments ranged from a minimum of \$19.59 for eradication of prairie dogs to a maximum of \$123,232.00 for tanking. Tanking and terracing led the list with more tanks and terraces constructed in 1944 than had been built under all previous programs.

The following break-down, showing the number of farms participating in each practice, is given:

Extent to which each practice was carried out; and the acres involved, covers the nineteen practices participated in by Haskell county under the 1944 program.

Plans for the 1945 annual banquet of the Haskell Chamber of Commerce, postponed several times since the affair was first scheduled early in March, have been definitely abandoned for this year, C. of C. officials said this week.

PLANS ABANDONED FOR C. OF C. BANQUET

Decision not to hold the banquet at this late date was prompted by the fact that Hon. Robert S. Kerr, Governor of Oklahoma and who was to have been guest speaker at the banquet, will not be able to come to Haskell for the affair.

This information was contained in the following telegram received Tuesday by Mayor John A. Couch chairman of arrangements for the annual banquet:

"John A. Couch, Mayor of Haskell: Am going to hospital for operation in few days. Utterly impossible to be with you during June. Thanks for your kindness. Robert S. Kerr, Governor of Oklahoma."

Mayor Couch and other C. of C. officials expressed the belief that it would be unwise to make further plans for the affair at this late date, especially in view of the busy harvesting season now at hand.

James L. Shriver Wounded On Okinawa

James Lee Shriver, son of Mrs. A. R. Swann, Tulsa, Okla., was wounded in action March 27. He was a gunner on the U. S. destroyer Murray and was on Okinawa when his ship was hit by a bomb.

He said that he had an examination and that he had 32 pieces of shrapnel in both arms and one leg and right above the heart and that one lung was punctured. Said that he was feeling very well only that he was very nervous and the doctors had advised him to stay in that hospital since it was a nerve hospital.

J. L. was born and reared in Haskell and moved from this city to Tulsa in 1940. He finished Central High School in Tulsa and went into the Navy last August 14th, his 18th birthday. He went overseas in January.

President Osmena Predicts Japs Will Be Hard To Beat

WASHINGTON, D. C.—President Sergio Osmena of the Philippines, now in process of complete reconquering from the Japanese and from which General Douglas MacArthur's land forces under Admiral Chester Nimitz will swing into final action against the enemy, today issued a statement in behalf of the Mighty Seventh War Loan.

OSMENA

President Osmena's statement was released by Brigadier General Carlos P. Romulo, resident commissioner of the Philippines to the United States, at the Philippine offices here. President Osmena said: "Needless to say, we Filipinos are very pleased with the signal successes achieved by the United States and her allies during recent months. After a long and hard struggle, the Germans have been pushed to the brink of overwhelming defeat and the end of the war in Europe is now clearly in sight. "In the Pacific, our gains have

been no less impressive. Under the inspiring leadership of such men as General MacArthur and Admiral Nimitz, the Japanese have been dislodged from one position after another in their ill-gotten empire. In this connection, my people and I are extremely grateful that the Philippines are now being liberated from the tyrannical rule of the enemy.

"Happy as I am that my country will soon be able to live in peace again, much remains to be done before Japan is fully beaten. Aside from the additional campaigns which will be needed to obtain military victory in the Pacific, there is also the human factor to be considered in that other peoples of the Far East eagerly await to be freed from the enemy. We Filipinos know only too well from experience what it means to be under Japanese domination.

"One of the outstanding feats of the war has undoubtedly been the effective fashion in which the United States has overcome the formidable obstacles of distance in supplying the Pacific. Large quantities of supplies will be needed, however, to deliver the final crushing blows against a ruthless and fanatical enemy. All of us can make certain that these supplies are available for our armed forces by giving enthusiastic support to the Seventh War Loan Drive."

How women and girls may get wanted relief from functional periodic pain

Cardui, many women say, has brought relief from the cramp-like aches and nervous strains of functional periodic distress. Taken like a tonic, it stimulates appetite, and digestion, thus helps build resistance for the "time" to come. Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes. Try it!

A MEMORY

S-Sgt. Troy E. Ash Jr., wrote the following poem while sitting in a foxhole at the battlefield. He sent it home to his parents to see what they thought of it, so they are passing it on to others to read.

A MEMORY It was only just a while ago, I played around my daddy's knee, Not a dream of what was in store.

For the years ahead of me, I went to school some eleven years, To learn our trade in future life.

To build our country peaceful and fine, Just so we could stay out of worldly strife.

Then came the day when our peace did cease, And the boys laid down their peaceful tools.

To pick up guns and man-made weapons, To beat the one who wanted the world to rule.

We sailed the ocean so deep and blue, Not thinking of the things we love.

Only doing the job which had to be done, To make things free under the sky above.

We dream of the day to come,

When again we shall return home To be with the dearest ones we love, Who are so far away across the foam.

God speed the day of peace, And to our old life once again shall be,

To be around our dear ones at home, Where again I can play around daddy's knee.

Start 'Em Right---Keep 'Em Growing... RED CHAIN FEEDS

The Future of Your Herd Depends on the Class of Breeding Stock Used and Development of Your Calves.

RED CHAIN CALF MEAL

The variety of ingredients used in RED CHAIN CALF MEAL includes the most essential elements for good thrifty growth and development. Being a carefully balanced feed, rich in minerals and vitamins, RED CHAIN CALF MEAL is an excellent substitute for raw milk from the standpoint of calf feeding.

The prices obtained for milk very often make the use of the mother's milk an expensive feed for calves. That is why the millers of RED CHAIN FEEDS have developed a blended ration that is easy and economical to feed during the early stages of a calf's life.

FEEDING DIRECTIONS FOR RED CHAIN CALF MEAL

A young calf should be fed at least twice daily, preparing the milk as suggested below according to the age of the calf. In these directions we can only suggest the proportions of milk, calf meal, and water. The amount to give each calf depends upon its individual requirement and how readily it takes to dry feeding. Usually a calf can easily be taught to drink milk by holding one's finger down in the milk and letting the calf suck it until it gets a good taste of the milk.

A simple easy plan is to mix one pound (4 teacupfuls) of RED CHAIN Calf Meal with one gallon of warm water, or one cupful to a quart of water. From a feeding standpoint this mixture is practically equal to whole milk, and it can be fed to calves in the same quantity that one would ordinarily use in feeding whole milk. Be sure to make any changes in the calf's feeding program gradually as outlined in the following directions:

1st Week—For the first four days let the calf have mother's milk only. From the fifth to seventh day inclusive, feed it two parts whole or skimmed milk to one part RED CHAIN Calf Meal (liquid mixture) prepared as directed above.

2nd Week—Mix equal parts of whole or skimmed milk and RED CHAIN Calf Meal liquid mixture.

3rd Week—Feed one part whole or skimmed milk mixed with two parts RED CHAIN Calf Meal liquid mixture.

4th Week, etc.—During the fourth week, and as long as a liquid milk is necessary, feed RED CHAIN Calf Meal, prepared as above, without whole or skimmed milk. As soon as a calf will eat enough RED CHAIN Calf Starter in the dry form, one need no longer bother with the feeding of milk or calf meal liquid mixture.

OTHER USES FOR RED CHAIN CALF MEAL RED CHAIN CALF MEAL is an excellent substitute for orphaned lambs, colts, and pigs. Just mix Calf Meal with warm water as recommended for calves and feed this liquid in buckets or troughs as if it were whole milk.

RED CHAIN CALF STARTER For quick, economical development of calves it is highly important to teach them to eat as early as possible. RED CHAIN Calf Starter is very palatable and carefully balanced for this purpose. It is ideally adapted to supplement mother's milk or RED CHAIN Calf Meal. Hold a little RED CHAIN Calf Starter in your hand and let the calf suck your finger until it gets a good taste of the feed. Due to the palatability of this feed one can easily get a calf started on dry feed.

RED CHAIN CALF FEEDING DIRECTIONS FOR BEEF CALVES Start feeding RED CHAIN CALF DEVELOPING FEED when the calves are about five or six months old. Again, the change gradually and feed twice daily about two or three pounds at each feeding. On an average this amount of feed is correct; however, individual calves or calves of breeding stock may need more. For this reason the individual calf's growth and development should be checked from week to week.

DAIRY CALVES HEIFERS—Should be continued on RED CHAIN CALF DEVELOPING FEED until bred. After breeding, feed them over to RED CHAIN DRY-CO and follow carefully suggestions for feeding the dry and freshening cow.

BULLS—Keep feeding the young bulls that are saved for breeders on RED CHAIN CALF DEVELOPING FEED until they are well developed. In fact, RED CHAIN CALF DEVELOPING FEED makes an excellent conditioning feed even for mature bulls.

BEEF CALVES For high grade and registered beef calves we recommend the feeding of RED CHAIN CALF DEVELOPING FEED until the calves are eight to ten months of age. Add RED CHAIN ALCOMO to the rations if the calves are to be groomed for the show ring.

Morgenthau Cites Types of Issues Issued to Public

A grateful Nation has graded itself for the Mighty Seventh War Loan for 14 billions of dollars, half of which has been assigned as the individual sales quota. According to reports from state chairmen reaching Ted R. Gamble, national director of the War Finance Division of the Treasury in Washington, the Nation is ready for the huge task.

Mr. Gamble was enthusiastic about results. He said "We're prepared to do the best job in the 7th War Loan." Mr. Gamble said that "but only if there more money available than ever before in each state, but individual income will be higher in the period of the 7th War Loan than in any previous War Loan period."

Secretary of the Treasury Henry Morgenthau said seven billions of dollars has been assigned as the quota for individual investors and that the major emphasis throughout the drive will be placed on the quota for individuals.

The individual quota is the highest established in any of the previous drives, the secretary said. The E Bond quota alone is 4 billion. The 7th War Loan seeks nearly as much in the one drive as was asked in the first two drives of last year which were held up to this time. The two drives of this year, therefore, will seek nearly as much as was sought in the three drives of 1944.

The Secretary stated that there is every evidence that Federal expenditures are going to remain at a high level for some time to come, and that the Seventh War Loan program was designed to obtain maximum funds necessary to prosecute the War from non-bank investors.

The securities which will be sold under the direction of the State War Finance Committee, are as follows: Series E, F and G Savings Bonds, Series C Savings Notes, 2 1/2% Bonds, 2 1/4% Bonds, 1 1/2% Bonds, 1 1/4% Certificates of Indebtedness. The 1 1/2% Bonds will not be offered in the Drive to corporations.

The Drive for individuals will extend from May 14 to June 30. However, an intensification of activities in the sale of Series E bonds began April 9, when millions of persons on payroll save plans throughout the country were asked to enlarge their participation as a part of the Seventh War Loan. All Series E, F and G Savings Bonds and Series C Savings Notes processed through the Federal Reserve Banks between April 9 and July 7 will be credited to the Drive.

During the final phase of the Drive which will cover the period from June 18 through June 30, subscriptions will be received from all other non-bank investors for the 2 1/2% and 2 1/4% marketable bonds and the certificates of indebtedness.

These book reviews are now a regular monthly event and the next one was announced for the last Friday evening in June.

Will Show Talking Film on Frozen Foods

Invitations have been extended to approximately four hundred homemakers who are using frozen storage lockers in Haskell and to anyone else interested, to attend a talking picture, "Frozen Foods," at the Texas Theater on Tuesday June 5 at 3 o'clock. The picture, which is filmed in full color, shows detailed preparation of vegetables, fruits and chickens for freezing, and also proper packaging and cooking of frozen foods.

The film was written and produced under the technical direction of the General Electric Consumers Institute, pioneers of the frozen foods industry and recognized as one of the country's foremost authorities on the subject. It has been brought to West Texas by the West Texas Utilities Company as a public service in the interest of the national food preservation program.

The women of this area are in the middle of one of the nation's biggest jobs—to preserve every bit of 1945's food production. Freezing is regarded as one of the finest of all food preservation methods, because it preserves food values in practically their original natural state.

Meat is only one of the many foods that can be preserved in frozen lockers and home freezers. Many fruits and vegetables, including strawberries, peaches, pineapple, berries, peas, spinach, beans and corn are easier and quicker to prepare for freezing than for canning, and the resultant product is more like the original in appearance, flavor and nutritive content.

The picture, "Frozen Foods," runs forty minutes. Miss Eudora Hawkins and Miss Verna Westbrook of the Home Service Department of the West Texas Utilities Company will be present to answer questions, and anyone who is interested in the freezing preparation of foods is invited to attend without charge.

FISHERMAN'S FIND Petrified Head of Buffalo Found by County Official On Display In His Office

Attracting quite a bit of interest as a reminder of the not-too-distant past when herds of buffalo roamed the prairies of Haskell county is the petrified head of a buffalo bull being displayed in the office of County Treasurer Byron Wright, who found the head last week while on a fishing trip.

The head is easily recognizable as that of a bison, and is in almost a perfect state. In the opinion of old-time residents, it is an unusually large specimen, according to their memory of the animals killed in this section in the late 70's and early 80's, when settlers sometimes ran across stray buffalo.

The head is completely petrified into stone, and the thinnest fragments cannot be broken away without a sharp blow.

According to Mr. Wright, the

head was found in a sand bank on California Creek, which runs through the southeast corner of Haskell county. He advances the supposition that the large animal became mired in the mud of the stream and drowned during one of the periodic "rises" which flooded the area.

They celebrated at the depot the other day because old No. 6 came in on time.

They celebrated at the depot the other day because old No. 6 came in on time. Then they discovered the train was a day late and near.

He knows when his people so much as talk to one another about Him, and He notes it in His book of remembrance. When men are forgetting Him, He is remembering those who are true to Him.

How vitally important Christian fellowship is in a dark and troubled day. Do not miss the joy and strength which will come into your life as you join others in God's house to speak of Him and to think 'on His name.'

How much like those of our day who like to talk about the love of God. His mercy and His long-suffering, but who minimize or forget that He hates sin and demands holiness of life from His people.

How does one become a child of God? By accepting God's only way of cleansing from sin (Heb. 9:11-14, 22)—the shed blood of Christ. Believing in Him and making confession of Him before the world (Rom. 10:9, 10), we are saved and have the right to call ourselves the sons of God (John 1:12, 13).

That blessed liberty in Christ is for you who read these lines, if you will but turn to Christ now! Will you do it?

Marred Monuments

The most pathetic piece of statuary I ever saw was a 92-foot image of Ramezes II. flat in a jungle, shy an arm and a leg and all but lost. It weighs countless tons. Uprighting it baffled Egyptian engineers for centuries.

Monuments resemble reputations. They can be damaged beyond repair by commonplace things, soon forgotten. Storms too trivial to have a name can, in a few short hours, undermine huge foundations and leave stalwart landmarks buried in dirt.

M. G. Jenkins Dies Monday In Abilene

M. G. (Gray) Jenkins, pioneer West Texas newspaperman and resident of Tuscola, Taylor county, died at 4:45 a. m. Monday in Hendrick Memorial hospital, Abilene. He had been in ill health for several months and had been critically ill for the past three weeks. He was 56 years old.

A former resident of Haskell, Mr. Jenkins was associated with Z. E. Black in the publication of the Haskell Herald in 1908.

Funeral for Mr. Jenkins will be held Friday at Tuscola, and burial will be in the Tuscola cemetery.

In addition to his newspaper work, Mr. Jenkins, who was born in Cisco August 13, 1888, had been associated in the Jenkins-Hodge funeral establishment at Tuscola for 23 years.

Going to Buffalo Gap in 1909, he established the newspaper Live Oak, which he operated a number of years. He then went to Oval where he edited the Bald Eagle.

In 1921 he moved to Tuscola where he established the Jim Ned Valley Reporter, a newspaper which he edited until ill health forced him to suspend publication several months ago.

Mr. Jenkins was married to Elizabeth Lemmon of Haskell in 1911. Mrs. Jenkins died in 1926 but their five children survive.

He was married to Jennie McCormick of Tuscola April 24, 1932.

Survivors include his wife; two daughters, Mrs. W. C. Johnson of Lowell, Ariz., and Sarah Beth Jenkins of Haskell; three sons, Sgt. George Jenkins, held captive by the Japanese; Marshall Jr., seaman second class on duty in the Pacific; and Sgt. Theron Jenkins, stationed with the AAF at Fort Worth; three brothers, Bill of El Paso; Leslie of Cisco and Jim of Fort Worth; two sisters, Mrs. E. N. Strickland of Cisco and Mrs. C. E. Maule of San Antonio; and two grandchildren, Joe Ann and Billie Johnson.

In a recent letter to his family Cpl. James C. Bradley told how much he enjoyed reading the Haskell Free Press. The letter said in part:

"I always read the paper from cover to cover. I have even composed a short song about it—goes like this—"I like the rest, but what I like best, is the Haskell Free Press." Now if I can get Bob Hope to sing it, it will be Number One on the Hit Parade.

"I have spread my talent from Camp Wallace, through El Paso to the East Coast, down in the swamps of Georgia, to the hills of Virginia and to the sands of North Carolina, over the waves of the blue Atlantic, through the mud of France and into the battle zones of Germany—but I like to have lost it at the Rhine."

Cpl. Bradley is with a unit of the Field Artillery and was stationed at Fort Bragg, N. C., before going overseas. He is the son of Mr and Mrs. R. A. Bradley of Haskell.
