

Two More Candidates Enter Political Field

Eleven Candidates are Now Listed for Various Offices

Political interest continued to grow this week, with two additional candidates entering the field to bring the list in the Free Press announcement column to a total of 16 aspirants for office. The rumors persisted of prospective candidates expected to be their decisions known to voters within the next few weeks.

Voters will ballot this year on seven county offices, and a number of precinct offices in addition to legislative and state offices, with final votes to be cast in the general election in November.

Paint Creek Home Ec. Bldg. Burns Thurs. Morning

In the second disastrous fire to strike the Paint Creek rural high school within a year, the district suffered an estimated loss of \$3,700 last week when the frame building used as a study hall for the Home Economics class was destroyed by fire Thursday morning about 8 o'clock.

The fire was first discovered in the ceiling and roof of the building, and evidently originated from a defective flu or electrical wiring. School officials and nearby residents were able to remove some of the equipment from the building before it was destroyed. A truck and firemen from the Haskell fire department made a run to Paint Creek but did not arrive in time to check the flames.

Loss on the building and contents was partially covered by insurance.

WEEK-END RUSH FOR PAYMENT OF POLL TAX LIKELY

Total of 2,700 Receipts Issued Up To Noon Thursday, Tax Collector Reports

Haskell county residents who expect to have a voice in the elections and primaries to be held in April, July, August and November in which offices ranging from the smallest precinct and city post to President will be filled, were reminded this week by County Tax Assessor-Collector R. Eligible voters—those who pay their 1943 poll tax or are qualified because of being over-age or "unders" will have their first chance to vote in the school trustee and city elections to be held in April, next in the first Democratic Primary in July, then in the "run-off" primary in August, with final ballot to be cast in the National election in November.

Have You Given to the Infantile Paralysis Fund?

(A personal message from Courtney Hunt, County Chairman of the Campaign Against Infantile Paralysis.)

Last week we tried to appeal to the charitable minded Christian people for funds to combat Infantile Paralysis. We took the position that Christian people would rather contribute to this very worthy cause, rather than have the funds raised from Dan-shon Parties, Shows, Carnivals, etc. We are sorry to state that we are disappointed in the response. We feel that the people have not been properly aroused to the importance of keeping the Research work going on, and administering to those who have been stricken. If the Churches

4th War Loan Drive Off To Slow Start In County

Approximately One-Fourth of County's Quota Raised To Date

Approximately one-fourth of Haskell county's quota in the 4th War Loan drive and Thursday's report indicated that the campaign was getting under way slowly and that super efforts would be required to meet the quota during the current campaign.

"We cannot afford to slack up on the home front while our men from Haskell county are fighting and dying on foreign soil," Mr. Couch declared in making an urgent appeal to volunteer workers to give their time and efforts to contacting every person and placing the responsibility of individual War Bond purchases squarely before them. Haskell county people have more surplus money on hand now than at any time in history, Mr. Couch pointed out in quoting recent bank reports, and he expressed the belief that no sacrifice would be required of anyone if every person in the county would purchase their fair share of War Bonds in the 4th War Loan Drive.

Community committees in most parts of the county have already started an intensive campaign which is bearing successful results, Mr. Couch reported, and he urged that each committee get its community campaign under way at the earliest possible time.

One of the best reports indicating an early start in the campaign came from Weinert, with total purchases of \$6,374.25 reported up to Wednesday night.

Contributing to the county's total to date were out-of-town purchases in the following amounts: Wichita Valley Railway \$10,000; Hon. A. H. King of Throckmorton, \$750; Perkins-Timberlake Co. \$5,000; and Southwestern Associated Telephone Co. \$3,000.

Mr. Couch especially urged committees appointed for the various sections of the city of Haskell to complete their canvas for Bond purchases as early as possible. The city proper has been assigned a quota of \$150,000, and the town must be worked with a "fine comb method," Mr. Couch declared if this sum is raised. "Let's get started and get this job finished," the chairman urged. "We should raise our amount and then some, but we have no time to lose," he continued.

With Dennis P. Ratliff as city chairman, committees for the various sections of town include the following members:

John Crawford, T. C. Cahill, Jno. Tubbs, T. R. Odell, A. M. Turner, Fred Sanders.

Jno. E. Fouts, W. H. Cox, Tom Holland, Red Collins, C. R. Cook, Bill Richey.

Henry King, Alonzo Pate, H. Y. Atkeison, V. W. Meadors.

A. H. Wair, O. E. Patterson, Jno. Couch, O. E. Oates.

J. W. Gholson, Bob Herren, Jno. F. Payne, Geo. Nealey, Chesley Phelps.

Courtney Hunt, C. E. Smith, Euck Kendrick, Roy Oliphant, Robt. Fitzgerald.

Courthouse—Judge Ivy, Olin Dotson, Willie Lane.

Postoffice—J. M. Diggs.

Schools—Supt. Bredlove.

Hospital—Stella Trice.

Highway Dept.—Mr. Risley.

Reid's Upstairs—Cora Pierson.

Wichita Valley Ry. Helps County Meet Bond Quota

It was announced today by H. Dobbins, Agent for The Wichita Valley Railway Company, that the Fort Worth and Denver Railway will allocate \$10,000 of a large purchase of Series "C" Savings Notes in furtherance of Haskell County Fourth War Loan Drive.

Mr. Dobbins said that the total purchases of the Burlington Lines in Texas will be one million dollars in the Fourth War Loan effort. He pointed out that this does not include, but is in addition to, the approximately quarter million dollar annual purchase of War Bonds by the employees of this railroad through the salary deduction plan.

Hard Showers Bring One-Half Inch of Rain

Following several days of Spring-like temperatures, a hard downpour of rain accompanied by an electrical disturbance unusual at this time of winter brought .52 inch of moisture to this section Wednesday night. The rain was reported general over a large area in this section.

The flurry of rain fell within an hour's time, and provided a noticeable amount of run-off water in some parts of the county, although not enough to alleviate the scarcity of stock water in tanks and streams.

Fools and Foolishness

There is a book written by H. C. McKown of the above title that, among other things, gives the following facts:
 According to old-time evaluation, the airplane was "a physical impossibility."
 The bathtub was "a useless variety and undemocratic luxury."
 Coffee was "a barbarian beverage."
 The telegraph was "an impractical idea."
 Jazz caused "drunkenness, insanity, paralysis, and premature old age."
 Standard time was "impractical, silly, and Godless."
 Canada was "only a few acres of snow."
 Iron plows "poisoned the ground."
 Relations were "fit only for pigs to eat."
 The phonograph was "a great hindrance to musical education."
 Advocates of women and slights were "on sexed females."
 Rayon was a "transient fad."
 Typing would "cause the female constitution to break down."
 Never laugh at a new idea.
 Busy men have too much on their hands to be handling people with gloves.

Freshman Folly

Wonder why Joan was so happy after mid-term?
 Catherine, since Curly can't guess it, wonder whose ring that really is?
 Rex has an art gallery in his pocketbook. And now his latest heart throb, Kathryn Harrell has been added to the collection.
 Wonder why Sue Sellers goes around with a frown on her pretty little face. Come on Sue giggle, Floyd really likes you a lot.
 Whose FFA pin does Dorothy Toliver have? The old reporter is sunk and if anybody can find out, a nice compliment and job will be given to her or she.
 Wonder why Gerry envies Wanda. It couldn't be because Wanda goes with some cute soldiers could it Gerry?
 The freshman Homemaking girls are really glad their cooking days are over (for a short time anyway). It seems scybean muffins are the favorite of the Freshman boys. Can't get fat on beans can you, boys?
 The girls now have a slogan: "Beans, Peas, Okra, Squash. Can

we cook them, No by gosh!

Seems like most of our freshman boys are a member of the Future Farmers and are learning how to farm. Floyd Tankersly wants the boys to buy a John Deere tractor. How about it boys, why not an Allis-Chalmers?

The More the Merrier

JUNIOR JUNK:
 Hi there, Jerks, are you all ready for me to "give you the buzz!!!" Then hold on to your hats 'cause it'll take your breath away!!
 Our latest "dating duet", Dusty and Ruby, are still raving about that Saturday nite jam session at Old Glory! They're not by themselves, tho—Inkie, Red, and Bobbie Joe also thought it was swell!
 Say, did you notice Lucile Covey's black eye!! Good night Ohella! There wasn't any use in "socking" her, was there!!!

There's a new girl in our midst!!! A cute, little vivacious blonde, named Joyce Holloway from Rochester. She is the new addition to the Junior Class and we're very proud to have her.

JOKE FOR THE WEEK—
 The funniest thing I've seen all week was in Geometry when Deen B. went "tripping" down the aisle to sharpen her pencil, and FELL(?) over someone's foot!! If you're not careful, Deen, someone will think you are CLUMSY!!

Don't forget, February 10 is the big event!!!
 I see Mary Eva's back to school after a light case of the flu. Glad to have you back, Mary!

WHAT WOULD WE DO WITHOUT???
 Wallace Cox's dimples.
 Betty Maud's merry laugh.
 Jason Smith's curly hair and long eyelashes.
 Jimmie Free's disposition.
 Wilburn Rhodes' southern accent.
 Tommy Foster's wise-cracks.
 Doris Mae's blond hair.
 Jackie Thornton's good humor.

(Mrs. Odell's Government class):
 Mrs. Odell—Jackie, name one way of relieving the unemployment situation.
 Jack A.—Take all the men and put them on one island and then take all the women and put them

on another island.
 Mrs. Odell — But how would that help?
 Jack—They would all be busy building boats!!
 —J.J.—
 Bye now, I simply must get back to my books. See you next week with more "low-down" on those Junior morons.

SOPHOMORE SOUP—
 Why does W. J. seem to be so happy here lately? Could it be because Lora Jean Skruggs is going to start to school here after mid-term? How about it, W. J.??
 —S.S.—
 Is it possible that the two D. Ho's in the Soph class go out for senior rings (and on their left hands at that).
 —S.S.—
 We wonder if Vodie's motorcycle tires are getting lead. Huh! Claudia.
 —S.S.—
 We don't hear from Bonnie Faye and Mary Faye any more. Are they like Charles Crandell? (have a secret love).
 —S.S.—
 Well boys, it comes to a pretty pass when girls ask for money. Gene, didn't you have enough for Mary Francis, too?
 —S.S.—
 All right! All right! So Friday was the annual deadline.
 —S.S.—
 Doesn't Dean Bolden like girls any more, Frieda???

Why don't the Soph girls (that always keep their notebooks up) refuse to loan the boys their unless they ask them for a date? The boys might raise a howl or else start keeping up their notebooks.
 —S.S.—
 We wonder when Curley will make up his mind. Now the question is—"will it be Dena or Bonnie Faye?"
 —S.S.—
 You never hear Sis say much about the boys. We guess she's saving her heart for Donald.
 —S.S.—
 Wonder why Pee Wee's face turned red on the bus Tuesday morning. Is Gene's lap comfortable?
 —S.S.—
 Maxine seems to be a very popular member of the T.O.Q. Jr's. Especially with the boys.
 —S.S.—
 Joan, we're sorry Bobby D. can't take a hint. Maybe he'll catch on soon.

T.O.Q. Jr's Meet—
 Wednesday, January 19, the T.O.Q. Jr's met. The meeting was called to order by our president, Rice Alvis. The program was turned over to Claudia Fraley, program chairman.
 Bonnie Edwards, Magie Culberth, Henry Harris, and Jake Whitaker, our leaders and co-leaders, sang "God Bless America." A map contest was directed by Joan Wood. Then Mrs. Odell reviewed the class with a contest.
 The meeting was adjourned.
 We enjoyed the co-operation much better this time, girls. Keep it up!

SENIOR SLANG—
 He! He! We Seniors are really in the groove! And why not—in the last half of their LAST year—Let's go, Seniors!!
 —S.S.—
 I think some of our girls better acquire some more knowledge from our geography studies. It seems as though Mary Jo didn't learn all the Florida tactics. No???

Miss Riley really has a time now, since she has moved us to new typewriters. How about it, Miss Riley???

Speaking of Mid-term tests, we know that Lonnie, Hartsell, and Pat did fine, because they really studied—at least Lonnie learned that the English class had studied about Chaucer and Shakespeare.
 —S.S.—
 From all hearings Marigene Sellers spent the week-end in Abilene. Did you have a good time, "Mary Belle?"

Haskell Participates in Tournament
 Haskell lost both games in the tournament at Paint Creek. Friday night Haskell lost to Sunset and lost to Paint Creek Saturday. Cheer up boys, it's not so bad. We're still backing you.

"Dope 'n Stuff"
 Nell, Jess, and Sue were really bolwin' and gain' at the dance in Stamford Saturday night—from the looks of things they had a reason to—How's about it, Nell???

—"DAS"—
 Will someone please tell us why Bobbie Joe Adkins goes around singing: "I'll Be Around". Is it because—well—there's STILL a senior that he can't forget???

—"DAS"—
 It appears to me that the "Round-Up" has become very popular with Haskell people. So Royce, when you and Jimmie, Cora Faye and Buck go again to cut a rug—just let us know 'cause we like it too.
 —"DAS"—
 Too, we have just sighted some jitterbugs from H.H.S. and believe me they can really do all the good. So to you Dick, Doris, Carolyn, and Charles, we hope to

Well, Chillun, after this week, we'll be saying good-bye to "ye old" Guess Who for a while. Yep! we're going to let your minds rest. Last week you were supposed to guess these right: Senior, Royce Adkins, Junior, Ruby Grace McKelvain, Sophomore, Jake Whitaker, Freshman, Nelle King. See how you come out this week.
 She's a Senior and VERY pretty, with hazel eyes and a complexion like a Georgia peach. Her hair is dark brown with a lovely curl. She has a marvelous voice and puts it to good use. She's a favorite with all the athletes and also everyone else.

Guess Who??
 This popular Junior is one of our star athletes, in basketball and football. His hair (I'll not say what color his hair is) is the envy of his fellow-classesmates. He is an annual favorite and quite a man's man. Whoozit???

Who is the vivacious little Sophomore with a smile for everybody? She has dark hair and brown eyes. She also has a monopoly on a certain Senior's

Maybe you won't be glad to see him home after all!

ONE DAY, your man will come home. Home—after having done his duty and played his part in the bitterest, cruelest fight of all time.
 And you?
 Will you be able to welcome him back with nothing but sheer joy and thankfulness in your heart?
 Or will the sight of him remind you, for the rest of your life, that even

though' your job was unutterably easier than his, you still didn't do it—you didn't quite measure up?
 That would be a miserable thing to have happen to you. It would be a miserable feeling to carry through the years.
 So don't take any chances. Don't just buy your share of War Bonds. Do that—and then do more. And do it today.

KEEP ON BACKING THE ATTACK!

For safekeeping—leave your War Bonds and other valuables in one of our Safety Deposit Boxes. The rental is very reasonable. Inquire about this service.

Electricity is Cheap!

THERE'S plenty of waiting in line during these wartime days. But, there is no waiting for electric power. Yes, the demand for electricity is the greatest ever. But *business managed* companies have been able to produce all the electric energy needed for war production and still have ample supply for your domestic needs *without rationing!*
 The simple, startling fact about electricity without rationing is that *while the cost of living has been climbing up, the cost of electric service has been dropping down.*
 Today, the average American family gets about twice as much electricity for its money as it did 15 years ago. Perhaps you haven't noticed the reduction in your own rates because you have been adding appliances and using more and more electricity. But the saving is there, as you may use twice as much for the same money.
 In view of wartime costs of production and taxes, electricity has become just about the *biggest bargain* on the market. The reason is that your electric company—under careful *business management*—has devoted all its energy and experience toward keeping the service good and the price down.

"The Place for Everything"

This farm boy stopped bullets intended for you...

JOE MARTINEZ, Colorado farm boy, his battalion bogged down under withering fire from Jap positions on Attu, arose alone and advanced into a hail of bullets to clear out trench after trench so his battalion could advance. He died with his rifle at his shoulder, pumping lead into the enemy, while his mates were able to move up behind him and successfully take the pass. For this, Joe Martinez has been posthumously awarded the Nation's highest military honor. Let every man who was once a farm boy himself buy an extra War Bond in Joe's honor... for Joe took the bullets aimed at the heart of America!

Weekly Health Letter
By Dr. Geo. W. Cox, State Health Officer
AUSTIN, Texas.—Several recent deaths in the State, resulting from asphyxiation by gas fumes, has brought a warning from Dr. Geo. W. Cox, State Health Officer, upon the importance of proper ventilation.
It is never safe, the doctor stated, to sleep in a tightly closed room with a gas fire burning. Even if there are no gas leaks, the air soon becomes vitiated and harmful fumes will be inhaled into the lungs.
"When occupying a room in which gas is burning, be sure always to have at least one window open, to admit fresh air," Dr. Cox said. "If the weather is too cold to permit leaving an open window in the room occupied, then play safe by opening a door into an adjoining room which is properly ventilated."
Dr. Cox said that he was prompted to issue this warning by the fact that thousands of new residents in the state have formerly lived where wood and coal are burned, and they do not know the actual danger of burning gas, and failing to provide proper ventilation.
"Occupying a room heated by an open gas flame, and keeping the room tightly closed may prove disastrous the first time tried," Dr. Cox said. "It's better to take no chances. Always be sure your room has plenty of fresh air."

The 4th WAR LOAN is your opportunity to do something about it!

It's Time to Take the Offensive. Your government has the men it needs to do the job in the front lines—great men all! But it doesn't have the money it needs, by a long way. That's your job! And the immediate task is the Fourth War Loan—Your chance to take the offensive not only in support of the men who are fighting and dying for you and your loved ones, but also in support of your own future!
What are you going to do about a wornout tractor, about repairing fences and buildings, about replacing depreciated machinery and equipment? Will you be ready with money in the bank when these things are needed?
You will if you take the offensive now! Put every extra dollar into U. S. War Bonds—the best form of financial reserve ever offered you. Think! You are asked to make a sound and prudent investment—not a sacrifice!

You Never Get Less Than You Lend! And you get 1/4 more than you invest. When held 10 years, War Bonds yield 2.9% interest compounded semi-annually. You get back \$4 for every \$3.

Cash When You Need It. If an emergency comes along, your War Bonds are like money in the bank. Uncle Sam will redeem them in cash—at full purchase price—any time after you've held them 60 days. Don't cash them unless you have to. And don't hold back a single dollar unnecessarily from the purchase of War Bonds. YOUR HELP IS NEEDED.

"Take her down!" With these words, Commander Gilmore signed his own death warrant. Rather than risk losing his boat and crew, from enemy fire, the wounded Commander ordered his submarine to submerge—with himself outside.

How much is "duty"?

WHEN A SOLDIER charges up a newly established beachhead heedless of the shells and machine-gun bullets ripping around him . . . that's duty.

When a sailor stands at an anti-aircraft gun fiercely firing at an enemy plane, disregarding the bombs and lead falling from the skies . . . that's duty.

A soldier or a sailor has duty clearly defined for him.

But how much is "duty" for a civilian?

There is no clear definition. But there is one job which every man and woman of us must consider duty if he would like to see the war shortened and our fighting men back with us.

That's—Buying War Bonds. Not just a few. As many as you possibly can afford!

For your own sake . . . for the sake of your fighting men . . . for the sake of your country . . . boost your buying through Payroll Savings!

Sterling Edwards Asks Re-Election to Constable Post

Seeking re-election as Constable of Precinct No. 1, a position that The Free Press has no hesitancy in stating that he has filled in an efficient manner during his tenure in office, Sterling Edwards this week authorizes the announcement of his candidacy for re-election to that office.

In announcing his candidacy for re-election, Mr. Edwards stated that he wished to express again his appreciation to the people of Haskell and Precinct 1 for their confidence and whole-hearted cooperation extended him in the past, with the promise that their continued cooperation would be appreciated and that if re-elected he would endeavor to benefit by the experience gained in office in giving the people a more efficient administration than in the past, insofar as the experience gained would enable

him to do so. In asking re-election to the post with which he has been honored by the voters of Precinct 1, Constable Edwards declared that he felt the people expected and were entitled to a fair and impartial administration of law enforcement at the hands of their duly elected officials, and that he had endeavored and would continue to devote his time and efforts to an efficient discharge of these duties in the future.

Because war-time conditions may prevent him from making an intensive campaign, Mr. Edwards urges his friends and supporters to give his candidacy full consideration before casting their vote in the coming primary.

Steve Sloan In Race for Public Weigher Prec. 2

The Free Press is authorized this week to announce the candidacy of Steve Sloan, well-known resident of the Weinert section for the office of Public Weigher of Precinct 2, which embraces the Weinert trade territory, subject to the action of the Democratic primary.

Mr. Sloan, a resident of Haskell county for 43 years, is a veteran of World War 1, having served overseas with the 5th Division, and has a son serving in the U.S. armed forces in the present war.

For the past twenty-five years Mr. Sloan has been a resident of the Weinert section, where he has been engaged principally in farming during most of that time. In recent years he has been driver of a school bus for the Weinert schools.

Mr. Sloan has never before asked for a public office, and in deciding to seek the office of Public Weigher for the Weinert precinct, he did so only after careful consideration and with one promise to make the voters of that precinct if elected—to give them courteous service and accommodations to which they were entitled in all dealings with their Public Weigher.

In furthering his candidacy, Mr. Sloan will endeavor to see as many voters in the precinct as conditions will permit, but in the event that he does not contact you personally, he respectfully asks your consideration before casting your vote for the office he seeks.

Gone are the days when a fellow could kiss a girl and taste nothing but the girl.

Mart Clifton Makes Statement To The Voters

In connection with the recent announcement of his candidacy for the office of Sheriff of Haskell county, Mart Clifton this week issues the following brief statement to the people of Haskell county:

"In making my announcement for the office of Sheriff I do not believe that I need an introduction to the people of Haskell county, as I was born and reared in this county and have never lived anywhere else. Am married, with a family of five children, with three boys in the armed services.

"As you know, during the years of 1935-36-37 and part of 1938 I served as your first Deputy Sheriff, and at that time I stayed on the job, tried to be fair and impartial and enforce the law, and I believe the experience gained during those years will qualify me for the office I seek at this time.

"In asking for your support of my candidacy for Sheriff, all that I can promise you if elected as your Sheriff, is that I will serve you best I can.

"Because of prevailing war-time conditions and the shortage of gasoline and rubber it will be impossible for me to make a house-to-house canvas or personal call to meet all the voters, so to those I may be unable to see, please take this as a personal solicitation for your vote and influence.

Respectfully yours,
—MART CLIFTON.

GEMS OF THOUGHT

Prudence is a quality incompatible with vice, and can never be effectively enlisted in its cause.—Burke.

Battle of Price Tags

A couple of years ago, low-price drygoods retailers were selling essential articles of clothing at minimum prices based on volume sales, low manufacturing costs and efficient merchandising. They operated on a very narrow profit margin. Their methods typified mass distribution at its most efficient peak.

As creeping inflation spread and manufacturing costs rose, these retailers could not re-stock goods at former prices. Finally the time came when it was a question of either revise price tags, or cease to sell a lengthening list of necessities. Then along came the OPA with a decree (Maximum Price Regulation 630) making it illegal for stores which had been selling women's, girls', and children's underwear garments in 1942 at pre-inflation prices, to raise prices of those items to meet rising manufacturing costs. However, stores which did not handle this type of goods in 1942, and consequently had no price tag precedent, were free to sell women's garments at higher prices. Inflation was to be written off via the retail price tag.

No one knows why women's garments in particular should receive the special attention of OPA, nor has anyone seen fit to attempt to excuse the injustice of the decree, except, on the ground that it was to control inflation. And that is no answer, as inflation is an accomplished fact long before the retail merchant is compelled to change his price tags. Denying its existence behind a screen of price tag fiction deprives a merchant of goods to sell, does not help consumers. They can't wear price tags.

Now the OPA has amended its women's apparel decree, giving temporary partial relief to retailers. But fallacy of attempting to control inflation after it has reached the retail merchant, remains unchanged. The battle of price tags continues while inflation of production costs goes merrily on.

Why We Are Winning

Up to now the full story of the development and production of 100 octane aviation gasoline has been a military secret. But at last some breath-taking statistics are being released. Following are a few of them:

1. One thousand 4-engine bombers use 1,800-gallons of 100 octane gasoline on a 6-hour mission.
2. In January, 1942, only 22 refineries were producing 100 octane gasoline or components of 100 octane. There are now more than 100.
3. United States and Caribbean refineries are supplying today 80 per cent of the 100 octane gasoline used by the United Nations.
4. To train one pilot requires consumption of 12,500 gallons of aviation gasoline.
5. One thousand 4-engine bombers, flying to an objective 1,000 miles away, and using 100 octane gasoline, can carry 5,000,000 more pounds of bombs than could be carried if ordinary pre-war gasoline was used.
6. 100 octane gasoline was specifically developed for combat use.
7. 100 octane gasoline was a laboratory curiosity as recently as 1933, at which time its cost would have been \$16 a gallon. The first 100 octane sale, made to the Army in 1934, was at \$2 a gallon. Today 100 octane gasoline is being bought by the government at less than 15 cents a gallon. These are a few of the achievements of a single industry in wartime America. The cold figures describe better than glowing phrases the value of unrestricted individual initiative the kind that built the oil industry and now brings victory within our grasp.

The Inquisitive Marine

Some months ago, a Marine Corps combat correspondent decided to find out for himself whether the medical care in the military services is as superb as it is cracked up to be. There was just one way to find out and that was by joining the ranks of the sick and wounded at an advanced base.

With the consent of the commanding medical officer, but unknown to anyone else, this marine, while at the front in the South Pacific, presented serious illness. Two days later he was in a hospital on the edge of Henderson Field, Guadalcanal. A tag on his shirt marked him as a severe case of peptic ulcer. He received no special treatment. He was handled exactly as other evacuees were handled in the plane ambulances out of the combat area.

He was loaded onto a transport plane with seventeen other sufferers and within a few hours was installed in a fully equipped base hospital with a staff of 400, each physician selected for preeminence in his field. After revealing his identity, this inquisitive marine received permission to stay a while and observe. In his own words, he says "a number of delicate surgical operations, a wide variety of fracture treatments. Life-sized X-rays were taken, teeth extracted, dental plates made. A group of specialists prescribed and fitted glasses. Physical therapy experts restored the use of injured nerves and muscles." He also saw intensive treatment given to serious burns and skin infections, as well as skin and bone grafts. When he was through, he realized that centuries of medical learning and research have been concentrated in one vast, amazingly efficient effort to prevent the loss of American lives unnecessarily in this war through lack of medical attention.

The inquisitive marine returned from his self-appointed mission well satisfied.

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for January 30

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JESUS USES HIS POWER TO HELP

LESSON TEXT—Mark 4:35-41; 5:35-43. GOLDEN TEXT—Why are ye so fearful? How is it that ye have no faith?—Mark 4:40.

Help—that is what man needs, and nothing but the power of Christ will suffice to meet his fears and sorrows. Christ appears in Mark as not only the matchless Teacher of the parables we have just studied, but the mighty Worker.

This is the Gospel in which Christ is presented as the Servant of Jehovah, who came to use His infinite grace and power for our deliverance. Two great fears gnaw at the vitals of man's existence. Life is full of awful dangers, and death is so dreadfully final and sorrowful. He is afraid to live, and afraid to die—apart from his faith in Jesus Christ. We find the answer to both these fears as we here see—

Jesus' Power Overcomes I. Fear of Life's Dangers (Mark 4:35-41).

The long day of teaching had ended (v. 35), and the disciples carried out His request that they go to the other side of the lake to rest. Just "as he was" they departed, and before long the tired Jesus was asleep. We know how He felt, and what is even more blessed, He knows how we feel when we are tired.

As He slept, a sudden storm (common on the Lake of Galilee) brought deathly fear to the hearts of His disciples. For the moment they saw only the angry waves, the smallness of their boat, and the hopelessness of their situation.

Had they forgotten Jesus? With Him in the boat, they had no reason to fear. They called on Him, and in His majestic and authoritative "Peace be still" the wind and waves recognized their Master's voice.

Should we not learn that in this day of fears and alarms, we may (if we are Christians) count on His presence and His power. If we look at the overwhelming waves of circumstances and think how frail we are, surely our hearts shall fail us for fear. But if Christ is with us, we are in no danger.

Now they were struck with awe at His power. "Sometimes the deliverances wrought by our Lord so reveal His presence and power that His followers are more deeply moved than they were by the perils which threatened. Whether mastering the storm, or standing unseen in our midst today, He appears to the eye of faith, clothed in divine energy and power" (Erdman).

II. Fear of Death's Deep Sorrow (5:35-43).

Trouble is a visitor in every home, it does not matter how securely that home may be founded upon wealth or social position. Frequently, death chooses a shining mark in taking a dearly beloved child. Children strike their roots deep into our hearts and when they are torn from us our whole beings are rent and convulsed. Such was the great storm of sorrow which had come upon the home of Jairus, leading him to make the brave step of faith and hope which brought him to Jesus.

Then as Jesus turned to go with Jairus a woman touched Him. He stopped to seek her out and commended her for her faith. The seeming delay must have greatly troubled Jairus, particularly when the servants came and informed him that he need no longer trouble the Master since his daughter was dead. Not infrequently we have similar experiences, where it seems that while God has promised to help us, He has been turned aside and has forgotten us. The psalmist in Psalm 42:3 cries out, "My tears have been my meat day and night, while they continually say unto me, Where is thy God?"

Our Lord was not troubled at all by the message of the servants of Jairus, but He showed His thoughtful consideration of the father by reassuring him with the words, "Fear not, only believe."

Everywhere fear blocks the way of human peace and progress. Divine wisdom offers a remedy for it all—only believe. We excuse our lack of faith by the conditions which confront us, but none of us face conditions worse than those which confronted Jairus. His daughter was dead and he was told to believe! He obeyed and his faith was rewarded. When He said, "The child is not dead, but asleep," our Lord did not mean that actual death had not taken place, but He meant that in the sight of God death is like a sleep. In the eyes of Christ spiritual death was undoubtedly far more terrible than physical death. A man may be physically alive and yet being spiritually dead be worse off than a man who, though physically dead, is spiritually alive.

After putting forth the mourning scorners, the Lord performed a miracle by simply speaking to the child and saying, "Little girl, arise." Here then is the Lord who can overcome every fear, in both life and death. Is He not the one we need as our Saviour?

Miss Willie Chambliss, daughter of Rev. J. H. Chambliss, arranged home several days ago from Clinton, Mo., where she has been teaching.

Messrs. Willie Buchanan, Clay Park, Raymond Alexander, Charlie Whitaker and L. D. Morgan attended an opera at Stamford Saturday evening.

Miss Lizzie F. Mason, who resided in Haskell a number of years ago, is here on a visit to friends and is looking after some property interests which she still has in Haskell. Miss Mason is a sister of Messrs. George and Armistead Mason who were engaged in business here prior to 1894. We learn that George Mason is now in British Honduras, where he has a government concession to get out and export mahogany timber.

Byron Wright, who has been in the employ of the Texas Central railroad for some time at Dublin, came home this week.

Capt. Wm. Aglesby places his name before the voters of Haskell county this week as a candidate for County Judge.

We understand that the First National Bank of Munday was organized last week with the following officers: W. A. Baker, president; F. G. Alexander, vice-president; R. C. Montgomery, cashier, and W. G. Sherrord, assistant cashier.

PORK FROM FARM SLAUGHTERERS

Twelve red stamps in book form, which are numbered "B" and lettered from "A" through "M," may be used for buying pork and other rationed meats from farm slaughterers. These stamps will not be used by consumers in general until February 27. They will have same expiration dates for purchases from farmers as in city markets. The stamps are worth 10 points each, making a total value of 120 points. This does not give the individual who buys from a farm slaughterer a larger meat ration than anyone else. It merely allows him to buy a fairly large amount at one time. In addition, brown stamps in book three may be used ahead of their regular validity dates when used in buying from farmers.

PRICE DOWN ON SOME PEAS

Retail prices of whole dry peas should be about one and one-half cents a pound less, and of split dry peas about two cents a pound less, under a recent OPA regulation, effective January 26.

Erwin Sarp of Ft. Worth is here visiting his sister, Mrs. Jack Lusk.
