## Renewal Blanks For 'A' Books To Be Distributed

The public is advised by the Haskell County Rationing Board that Renewal Application Blanks for "A" gasoline books will be distributed to filling stations throughout the county by June 22, where motorists can pick them up. After the forms are secured the following rules should be observed by the motorist:

1. The application should be plainly printed or typed.  
2. The applicant must completely fill in all the spaces enclosed within the heavy borders on both part A and part B. It is particularly important that he fill in his name and address in the lower left hand corner of part B. Then it should be mailed in to the War Price and Rationing Board, Haskell, Texas together with the following:  
Tire inspection Record, which must show that at least one tire inspection has been made and approved, also he must send in the back cover of his Basic "A" book. This should have the applicant's signature and address in spaces provided therefor. After the applications have been processed in the local rationing board office the new "A" books will be mailed out to the applicants.

## New Process for Rebuilding Tires Is Installed Here

The Ray Hickey rubber rejuvenator process is now available in Haskell to motorists of this section, following installation last week of equipment by W. C. Johnston, who will operate the process under the name of O. K. Rubber Welders at his service station one block east of the square on Depot street.

## ACCIDENT FATAL TO YOUNG NEGRO TRACTOR DRIVER

Negro Employed on Farm  
Near Rule Killed  
Sunday

An 18-year-old negro boy, Perry Lee Thompson, was killed instantly last Sunday afternoon when he was pinned underneath an overturned tractor he was driving on a farm north of Rule. Younger brother of the victim, who was riding on the tractor at the time of the accident suffered only slight bruises.

The accident happened late Sunday afternoon, presumably after Perry Lee had started to drive the tractor from the D. W. Hinds farm north of Rule to an adjoining field on the old Chaney farm, according to information given John A. Lee, Justice of the Peace at Rule who conducted an inquest. The tractor overturned while the negro youth was driving up a sandy incline, and the driver was pinned beneath the heavy machine.

## Haskell Officer Is Instructor Barksdale Field

Lieut Willie C. Cooper, son of Mr. and Mrs. J. F. Cooper of Haskell, and who received his bombardier wings and officer's commission at Victorville Army Flying School, Calif., last April, has been named Bombardier Navigator Instructor at Barksdale Field, La. The Haskell officer is one of the youngest bombardier instructors at Barksdale, one of the country's largest army flying fields.

## THREE-INCH RAIN IS RECEIVED HERE THURSDAY MORNING

Hard Downpour Floods  
Streets In Some Parts  
of City

A three-inch downpour which fell within an hour's time Thursday morning, flooded streets in some sections of the city and overflowed small streams in this immediate vicinity. The rain was heaviest received here in months. Precipitation was gauged at 3.05 inches at 10 o'clock Thursday morning by Mrs. F. T. Sanders, government weather observer, and brought the total for the year to 11.60 inches.

Good rains were reported in other sections of the county, but heaviest precipitation was in the vicinity of Haskell, according to available reports. In Rule, rainfall estimated at one inch was received. In Weirert precipitation was estimated at two inches, and at Monday only a light rain was reported. South of Haskell rainfall was also reported light.

## Joe E. Pace Is Appointed As Justice Peace

At the regular meeting of the Commissioners Court Monday, Joe E. Pace was appointed as Justice of the Peace, Precinct No. 1, to serve the unexpired term of former Justice Ernest Marion who resigned recently to accept a position with the State Department of Public Safety.

## Analysis of Tax System As Provided In New Bill

WASHINGTON.—Following is an analysis of the tax bill as agreed upon by Senate-House conferees and sent by Congress to President Roosevelt for his signature:

**Abatement**  
The measure provides 100 per cent abatement, or a dropping of charges for each taxpayer owing up to \$50 in taxes for the one year, 1942 to 1943, in which he had the smaller taxable income; a flat \$50 abatement for each person whose abatement year (1942 or 1943) tax bill is between \$50 and \$66.67; and an abatement of 75 per cent for all persons with an abatement year tax over \$66.67, with the remaining 25 per cent to be paid half on March 15, 1944, and half on March 15, 1945, in addition to current taxes (Personal income tax) due on March 15, and the subsequent payments due on June 15 and Dec. 15. However, the taxpayer may pay his estimated tax in advance, if he desires.

**Wages and Salary Earners**  
Employers are required to withhold 20 per cent (17 income and 3 victory) from pay envelopes and salary checks, after specified exemptions reflecting family status, effective July 1. Exemptions are \$24 yearly for single persons, \$1243 for married, plus \$312 for each dependent.

(No withholding on pay of members of armed forces, ministers of the gospel, farm workers, domestic servants, casual workers, foreign services or services by non-resident aliens.)  
**Persons With Income Other Than Wages and Salaries**  
Henceforth (except for special 1943 provisions, described later), such persons, including those receiving income from business, professions, rents and royalties, interest and dividends, and persons with wages and salaries above withholding level levels would be required to file an estimate by March 15 on the current taxable year's income and they would pay their taxes in four equal installments. The first falling due each March 15, and the subsequent payments due on June 15 and Dec. 15. However, the taxpayer may pay his estimated tax in advance, if he desires.

## Income Tax Deduction Table

The following chart shows deductions to be made from employees who are paid weekly. The plan is to become effective July 1.

Table Based on Weekly Earnings		Single	Married	Married	Married
At Least	Than	Person	No Dep.	1 Dep.	2 Deps.
\$0	\$10	\$1.00	\$2.00	\$2.00	\$2.00
10	15	1.10	2.20	2.20	2.20
15	20	1.20	2.40	2.40	2.40
20	25	1.30	2.60	2.60	2.60
25	30	1.40	2.80	2.80	2.80
30	40	1.60	3.20	3.20	3.20
40	50	1.80	3.60	3.60	3.60
50	60	2.00	4.00	4.00	4.00
60	70	2.20	4.40	4.40	4.40
70	80	2.40	4.80	4.80	4.80
80	90	2.60	5.20	5.20	5.20
90	100	2.80	5.60	5.60	5.60
100	110	3.00	6.00	6.00	6.00

Employers are expected to follow the above table. If deductions under this table should prove to be too large or too small, the employees will not suffer in the long run. They are tentative payments, subject to final adjustment next March 15.

## 4-H CLUB BOYS TO BE FETED AT SHEPPARD FIELD

Will Be Special Guests of  
Army Air Forces On  
June 19

Forty-nine 4-H Club Boys from District III, including three Haskell county boys, will be special guests of the U. S. Army Air Forces at Sheppard Field, Wichita Falls, Saturday June 19.

Accompanied by County Agent G. R. Schumann, 4-H Club boys from this county will be Jack Carothers of Rochester; Carl Opitz of Mattson and Ray Neal Simms of Paint Creek. These boys are being honored because as 4-H Club members during 1942, they each produced enough to feed one soldier, and all three reached that goal last year.

## Aid for Disabled Veterans Goal of American Legion

Outlining the responsibilities placed on The American Legion during the present war, George Neely commander of the local Press Rogers Post explained that the first objective of the Legion is to take care of disabled and sick comrades. "We now realize that our responsibility to our disabled comrades along the line of rehabilitation is greater than ever before in the history of The American Legion," Neely pointed out.

A series of rehabilitation school instructions are now being conducted at each district convention of The American Legion throughout the state, in order to enlighten Post officers and other members of The American Legion on the new veterans' regulations pertaining to World War II veterans and their dependents. The Department Rehabilitation Committee of The American Legion and the Veterans' State Service Office are supervising the rehabilitation school of instructions being conducted in different sections of the state. Mr. Neely stated.

The National Rehabilitation Committee of the American Legion is working with the Veterans' Administration on a new proposed rating schedule, which will be beneficial to the new group of veterans and their dependents. The aim of The American Legion is to see that the returning disabled comrades are properly rehabilitated so they may assume their normal sphere in life as nearly as possible, and to find their proper place in society, Neely concluded.

## Examinations for Teachers Will Be Held Here July 2-3

Mrs. Iva Palmer, County Superintendent, announced this week that State Examinations for Teachers Certificates would be given in her office Friday and Saturday, July 2 and 3.

Persons desiring to take the examinations must make application on or before June 20th, Mrs. Palmer explained.

Mrs. Lola Lemmon and little granddaughter, Anne Payne of Moody spent the week-end here with relatives and friends. Mrs. Lemmon, former employee of The Free Press, is a guard matron at the Blusbonnet Ordnance Plant near McGregor, Texas.

## Auto Use Stamps Placed On Sale At Postoffices

Collector of Internal Revenue W. A. Thomas announced today that auto use tax stamps in the denomination of \$5.00 were placed on sale Thursday, June 10.

The stamps will evidence payment of the tax for the fiscal year beginning July 1, 1943, and must be purchased on or before that date. The stamps will be serially numbered, will be gummed on the face, and will have provision on the back for entry of the make, model, serial number and State license number of the vehicle.

Mr. Thomas said that to guard against loss or theft, it has been suggested that when affixing the stamps, the vehicle owner should dampen the windshield rather than the adhesive side of the stamp. His method has been recommended to keep the stamp intact upon the windshield. As an additional precaution, it has been suggested that each motor vehicle owner should make a record of the serial number which appears on the use tax stamp in the event the stamp should become lost.

# Coast Guard Cutter Blasts an Undersea Killer

Crewmen aboard the United States coast guard cutter Spencer run to their battle stations (left) as a submarine is sighted attacking a convoy in the North Atlantic. Judging from the broad grins the men seem pleased to get a crack at the sub. Seconds later a depth bomb (right) is flying through the air from one of the Spencer's guns. The terrific concussion caused by the depth charge forces the submarine to the surface where the Spencer's guns are poised to deliver a final barrage which will send the undersea raider to its end.

**Lower Meat Prices**  
Effective June 21, meat prices at retail will be lowered from 3 cents to 7 cents apound by order of the OPA. New prices for cured and processed pork will go into effect on July 5. Reductions in price are smaller on cheaper cuts and larger on the more expensive. As in the case of the rollback of prices on butter, the lowering of meat prices will not directly affect the farm producer. Subsidies which began June 7 will be paid to anyone who slaughters 4,000 lbs. of meat or more per month.

**Ice Box Prices**  
Retail price ceilings on new ice boxes have been established by OPA by models and states. Present prices will be lowered in many cases. Three sets of retail ceilings have been provided: (1) sales by ice companies and their stores, prices ranging from 26.75 to 75.50 delivered; (2) mail order sales—18.95 to 59.95; (3) all other scales at retail—30.75 to \$88.75.

**Coffee By Mail**  
Coffee drinkers who order their blends by mail may now "pop" for the purchase by enclosing detached ration stamps with the order rather than the entire ration book, OPA has announced. Formerly, consumers were required to forward their war ration book to the retailer or wholesaler for removal of stamps.

**Inspection Requirements Changed**  
Tire inspections for commercial motor vehicles now may be made every 5,000 miles or every six months, whichever occurs first, ODT has announced. Previously commercial vehicles had to have air inspections every 5,000 miles or every 60 days, whichever occurred first.

**Data on Prisoners**  
American soldiers officially reported as prisoners of war in enemy countries to date total 17,083, the War Department has announced. Of these, 11,307 are held by Japan; 3,312 by Germany and 2,464 by Italy. However, these reports are incomplete. Information in the hands of the War Department indicates that the basic diet of an American soldier in German prison camps is largely potatoes, cabbage, fish and an indefinite amount of meat.

**To Substitute Tires**  
Farmers needing farm implement or front wheel tractor tires will be permitted to purchase suitable substitutes when they are unable to find a dealer with tires designed expressly for their purpose, the OPA has announced. Dealers may also sell passenger car owners tires and tubes of a slightly different size than is called for by the rationing certificate.

**Leather for Civilians**  
Manufacture of many civilian leather products, which was prohibited after June 1, can be continued through 1943 out of manufacturers' inventories, under a recent WPB amendment. Among products affected are dress gloves and mittens, brief cases, new upholstery, radio cases, pocketbooks, handbags, cigar and cigarette cases, key cases, tobacco pouches, watch straps and dog furnishings.

**Electricity to Farms**  
Rural electrification loans to 26 systems in 18 states have been made to a total of \$1,790,000 for immediate extension of service to more than 1,000 farms qualifying

under present WPB regulations permitting connections to farms producing livestock, dairy and poultry products. The following allocations have been made in Texas: South Plains Electric Cooperative, Inc., Lubbock, \$10,000; Deep East Texas Electric Cooperative Association, Stephenville, \$10,000; and Cap Rock Electric Cooperative, Inc., Sanon, \$10,000.

**Gas Coupons Changed**  
A new "TT" gasoline coupon, which replaces the present "T" coupon, will become valid for use on July 1. The old type of "T" coupon will become invalid on and after July 1, except in the northwestern shortage area where it will be used through July 25. OPA expects the change in design to help take up "slack" mileage and remove potential sources of black market gasoline.

**Materials for Underwear**  
Materials for knit underwear for men, women, and children will be made available by an action of WPB. Manufacturers have been assured of supplies of cotton yarn, thread, fabrics and other materials to meet essential civilian requirements.

**New Pipeline Approved**  
A 383-mile, 16-inch pipeline from Sundown, Texas to Drumright, Oklahoma, having an initial capacity of 54,000 barrels of crude oil daily, has been approved by the War Production Board upon the recommendation of the Petroleum Administrator for War. Construction is expected to begin early in October, 1943, and should be in operation sometime in March, 1944, the administrator added, providing that materials and workmen are available on schedule. The pipeline will serve to provide middle western refineries with additional supplies of West Texas crude oil, thus helping relieve the national oil shortage.

JUNE 20

SUNDAY is the one day in the year when Pop is to be given a handout instead of asked for one.

DAD'S not the complaining or the asking type — he's willing to spend a lifetime on the sidelines, watching your act in the limelight—paying the bills — applauding your climb — soothing your bumps (real or imagined) received in the "Hard School of Life" — in other words proving himself one all-around swell guy!

But—no matter how he fusses, he loves to be remembered — especially on that "Field Day for Dads"—"Father's Day"! (Imagine how you'd feel if he forgot your birthday—see what we mean.) So hop over today, and make that "remembering" take material form—a usable, wearable gift—something he's been wanting and needing, but just never gets around to buying for himself—

## Notes From the Red Cross Work Room

Please note the Red Cross room is open Monday, Wednesday and Saturday afternoons 1:30 to 5:30. Won't you plan to give JUST ONE afternoon each week? This is asking just 4 hours of your week for the comfort and convenience of some boy in service.

We are shipping 50 service kits this week, but we are asking your assistance in shipping 50 each month until the quota of 200 is complete. Haskell's quota is 200.

Rule's 100. Rochester's 60. Weinert 40 kits. We have yarn for a number of helmets and sweaters to be knitted.

The quilting chairman, Mrs. Leon Gilliam has turned in a fine report.

Two quilt tops pieced and quilted by East Side W.M.U. Linings furnished by Mesdames Emory Anderson and Lula Frost, thread by Mesdames Anderson and Curtis Rose 50c; Mrs. Lynn Toliver \$1.00; Mrs. W. A. Kimbrough, \$1.00. Laura Fields Circle, cotton for 2 quilts, Mrs. Jesse B. Smith, 1 roll cotton; Mrs. O. E. Patterson, two quilts, quilted in home of chairman.

Mrs. R. L. Dendy donated a lovely quilt. Mrs. Vick of Rule crocheted an afghan, wool lap robe made by Mesdames Richey, Gholson and Sam Chapman. Mrs. Gilliam sent in another crocheted afghan. We do not have names of ladies working on this one.

When we returned to the room after three weeks illness we found a lovely quilt top with no name. We shall appreciate you letting us know the donor.

We want to give honorable mention to Mrs. J. B. Edwards who has made 30 service kits. We believe this is a record for an individual. The following contributions for filling the service kits have been received since our last report:

\$5.00—Miss Nettie McCollum.  
\$1.00—Mrs. Mittie Weatherly.  
\$1.00—Chas. Grissom.  
\$1.00—J. M. Glass.  
\$1.00—Courtney Hunt.

### FIRST CHRISTIAN CHURCH

C. N. Williams, Minister

9:45 a. m.—Church School. 11 a. m.—Worship, Lord's Supper and Sermon. Subject of sermon "Real Comity."

8:30 p. m.—Cooperating with the Methodist and Presbyterian in Union Revival. "Worship with us."

### FIRST BAPTIST CHURCH

As you think of attending a place of worship Sunday, may we invite you to attend our Sunday school and preaching services. Your presence is always helpful and is appreciated.

"What They Are Doing in Heaven" will be the pastors theme for the morning service. We need to think more and more about Heaven. If we can learn a lot about Heaven and apply it to our lives on earth we will be helping the prayer: "Thy will be done on earth as it is in Heaven."

"The Salvation of the Dying Thief" will be the subject for Sunday night. His confession, prayer and surrender as well as the plan of Salvation and the power of Christ to save will be discussed.

Many are asking about the Baptist revival. It is set for the fourth Sunday in August. Splendid help has been secured and will be announced later. If we can secure the lumber or chairs the revival will be held on the church lawn. The church can furnish 250 chairs. How many can your home furnish? If a hundred homes could furnish two or three chairs each we could seat a large crowd and have a delightful place for the meeting. Let us hear from you.

### FIRST METHODIST CHURCH

Kenneth W. Copeland, Minister Emory Menefee, General Supt.

10:00 a. m. Sunday School convenes.

10:55—Dr. Francis A. Buddin, District Superintendent of the Dallas District of the Methodist Church, and Preacher for our Union Revival, will deliver the sermon. Tell your friends. Let us give him a good crowd and prayerful audience.

Special music by the choir.

5:00 p. m.—The Junior Department of the Methodist Youth Fellowship meets. All children are urged to attend.

7:00 p. m.—Hi-School Department of the Methodist Youth Fellowship meets for worship and fellowship hour.

8:30 p. m.—Service of the Union Revival at the First Presbyterian Church. The Public is cordially invited.

### It's A People's War

We are paying more in taxes than ever before... and likely will pay more. But we cannot rely on taxes to finance the war. It would not be fair to have a tax on the average single family income when many families have more than one income. We could borrow all the money from the banks, but for both economic and social reasons this is undesirable. The government would then sacrifice its greatest dam against inflation. This is a People's War and the people should finance it. The people WANT to finance it. Sale of War Bonds has mounted consistently since Pearl Harbor. They give their lives... You lead your money.

### What You Buy With WAR BONDS

Rural Electrification has made great strides during the past ten years, bringing to thousands of farm homes the conveniences of their city brothers. Today, however, copper wiring, fixtures—all the materials which are required for rural electrification—are "out" for the duration.

The farmers of the nation, however, can start now buying rural electrification and all the equipment which goes with it through purchase of War Bonds. Your War Bonds today will buy rural electrification tomorrow and give you back \$4 for every \$3 you invest.

Sea Crash Flips Soldier From Transport to Tanker

Mrs. John B. White of this city recently received a letter from her husband, Cpl. Jno. B. White, Technician fifth grade who is with U. S. Army forces in North Africa, in which he enclosed an account of an incredible incident in which the transport his unit was shipped on figured. The transport and a Navy tanker were involved in a night collision, and although the soldier was not permitted to reveal this incident to his wife in subsequent letters, he did tell that his transport ship was delayed for several weeks at a small island port being repaired.

Cpl. White sent the following account which occurred in the collision of the transport and tanker: Allied Headquarters in North Africa, April 4, 1943.—Artillery Sgt. Cecil H. Davis, 22, of Brinkman, Okla., already is a legend in this man's Army. The sergeant unwittingly joined the Navy in mid-ocean in one of the most incredible incidents of this war.

Months ago, Sergeant Davis set sail with his unit in an Army transport. A few days out, the sergeant caught a cold and was put in the sick bay.

That night, at 1 o'clock, a Navy tanker which was part of the convoy accidentally rammed the transport as both were zig-zagging in the pitch dark. The tanker nosed its way into the hospital area where Davis was sleeping soundly.

Two hours later, the sergeant came to with a splitting headache. He felt his head and there to his surprise was an unaccountable gash. Groggily and semi-conscious, he remembered that he swung his feet over the side of his bunk to go for help. A sailor found him and led him to the tanker's sick bay.

Amazed to see a soldier on the tanker, the Navy doctor dressed the sergeant's wounds and then asked: "You're a soldier, aren't you?" to make sure. "Of course," Sergeant Davis said, surprised at the question. "How long have you been on this ship?" the Navy doctor inquired. "Since we left the United States," the Sergeant replied.

All Dolled Up

Roosevelt, Stalin and Churchill get together on the work table of Miss Anna Spalla of Brooklyn, N. Y., a nurse, who turns out doll caricatures in her spare time. Her dolls are sold throughout the country.

It was only then that the Navy doctor said, very gently: "Do you realize that you are on a Navy tanker and that you are here by miracle and the grace of God?" It can only be surmised that the nose of the tanker as she rammed the hospital area of the transport picked up the sergeant, and the sergeant's bunk, and deposited it on the tanker's forecastle, where it was found later.

In the crash several soldiers were killed and more are missing. Only the sergeant returned from the dead, with a tale of a miracle in mid-ocean. At Young People's Encampment Margaret Breedlove and Frances English are at Lueders with the Methodist Intermediates for the annual camp. The young people attending are Ann Katherine Rike, Barry Williams, Anita Jo Pitman, and Joyce Crow.

Mr. and Mrs. B. M. Whiteaker returned from an extended visit with their children in Austin and Freeport. They were accompanied home by a grand-daughter, Carmen Whiteaker of Freeport who will spend the summer with them.

Mr. and Mrs. W. W. Kelley and daughter, Marie returned this week from an extended visit in El Paso and points in New Mexico. They also visited Juarez, Old Mexico, while in El Paso.

Macabre Epitaphs Teach Fliers Care

Two photographers recline in the "cemetery" at the army air force school of applied tactics at Orlando, Fla. Serving as warnings to students about to engage in real warfare the epitaphs on the crosses read as follows: "He showed a light at night." "His gas mask leaked." "He lit a match on board a convoy ship." This school gives the final polish to army fliers by putting them under actual combat conditions.

THESE HORSES HAVE JOINED THE CAVALRY!

The merry-go-round has gone to war!

Like the plants that made refrigerators, stoves, furniture, and many other familiar household items, a plant that made merry-go-rounds is now turning out vital equipment for our fighting forces.

It was the biggest job ever performed by American industry to change over from washing machines to guns, from automobiles to planes and tanks. A job that demanded more machinery, more equipment, more men — and more electric power!

That's part of the story why America clicks, of our amazing ability to get things done. Let's feel proud of our achievement... proud that we have more electric power here in America than all the rest of the world combined, and we are using it.

Yes, we have built up in this country more kilowatt-hour output than all the Axis dominated countries combined.

The electric power line is another line the Axis cannot hold.

Lines have been extended to new factories and military training camps ahead of schedule.

It was not an accident that America was power-full. Electric companies, under business management like the West Texas Utilities, had planned ahead. Knowing their business, schooled in emergencies, they saw to it that Uncle Sam had plenty of electric power — wherever and whenever needed!

It's on tap for all civilian needs too — no shortages, no rationing, no increase in cost.

It's an outstanding wartime example of what free men can do. Free enterprises works!

We're fighting this war to hold this freedom. Government bureaucracies should place full emphasis on winning the war and desist from their political endeavors to permanently change our system of government.

GEMS OF THOUGHT

In mortal experience, the fire of repentance first separates the dross from the gold and reformation brings the light, which dispels darkness.—Mary Baker Eddy.

A National Responsibility

The Lea-Bailey Bill now before Congress is a subject of debate because it involves the basic principle of Federal control versus local control, in this instance of the commercial airlines. During these days when a battle against bureaucracy is being waged to save representative government, expansion of Federal control is looked upon with skepticism. However, there are situations which require Federal jurisdiction, when states' rights are properly safeguarded.

Typical of the sentiment in favor of the bill is the comment of Representative Lyle H. Boren of Oklahoma: "In most fields of activity both states and nations have an appropriate role to play in their respective spheres. I, for one, believe that in recent years there has been a tendency dangerously to overlook the constructive role which can and should be played by the states respecting many of the great problems of our democracy. But our long history has demonstrated, sometimes after costly and ill-advised experimentation, that there are some fields in which the nation must carry out full responsibility."

The Lea-Bailey Bill apparently recognizes the principle of states' rights and leaves room for state activities in the development and control of aviation. Sound integrated regulation of the airlines appears essential to their progress and public safety, but it might be accomplished with due regard to existing property rights of others.

Working In Silence

No headlines herald the progress of the medical profession in its efforts to distribute adequate medical care to every section of the country. As usual it serves in silence.

The American Medical Journal points out that there are two objectives which the doctors seek: First, the best distribution of available resources of medical personnel and the health protection of

the largest number of people; second, the doing of this in such a way as to preserve the rights and advantages that inhere in local self government.

Moves are afoot to ease medical licensing restrictions between states. This has been a stumbling block in the way of physicians moving from state to state in accordance with the needs of areas critically short of doctors. Another important step was the recent formulation of plans whereby the United States Public Health Service could help meet the need for medical services in critical areas. The doctors are striving, irrespective of thinning ranks, to maintain one physician to 1,500 people. In some cases the average may be less, but even so Americans will still be the best cared for people in the world.

In Germany doctors are practically non-existent for civilians. Russia is no better. This fact should be noted carefully. Both the Russian and German medical systems were prepared for war under "planned" dictatorial economies, yet the rest of global war found them both wanting as compared to the progressive American medical system, built on the foundation of initiative, service and sacrifice of our independent medical profession.

After The War

It is too early yet to tell whether John L. Lewis will emerge with substantially what he went after.

If he loses this fight, it will be the first he has lost. Always before, when things looked blackest for him, he has managed to hound himself and his mine workers out with pecuniary benefits, whoever might claim the superficial honors.

Whether Lewis or President Roosevelt wins this strike, labor unionism already has lost. Hundreds of unions, millions of workers who are in no way involved, who respect against strikes, who would not think of hampering our soldiers and sailors and marines by holding up production, are victims of Lewis' attitude.

In Hawaii, where the Japanese started this war, American service men are reported to be amazed and infuriated that any man or any union should dare stab the United States in the back at a time like this.

Said Private First Class Ostrum of Goose Creek, Tex.: "I class this strike, or any strike, along with sabotage." Said Sergeant John S. Hanson of Seattle: "I feel no one should exercise the constitutional right to strike as long as there is an American soldier laying down his life on a battlefield."

Said Corporal Early Peterson of Manhattan, Kan., a veteran of the Battle of Midway: "Anyone who strikes in wartime should be put on a battlefield in place of some older man in the service. Strikes are what the enemy wants. Is that what the American people want also?"

Take it from any man who has faced bullets, shells, bombs and torpedoes for his country, this is how every soldier, sailor, marine and coast guardsman feels.

After World War I there was concern about the reaction of veterans in labor matters. It arose directly from bitterness over fat wages paid in war plants while men died for \$30 a month "and found."

After World War II millions of men are going to be demobilized who will have been embittered by the spectacle of John L. Lewis pulling a strike in the mines which supply fuel without which most war plants would have to shut down.

Their deep anger is certain to slop over against innocent, patriotic unions and workmen. This one incident may go far toward making the Veterans of World War II a powerful agency of unreasoning, illogical reaction in labor matters.

Anything John Lewis may have done in the past to advance the cause of workmen has been written off the books now. He has become organized labor's Number One liability for the post-war future.—(Abilene Reporter-News).

AMERICAN HEROES

BY LEFF

Hyman Epstein knew that after wounding a man the Japs around Sanananda were withholding their fire, using the injured soldier for bait until unarmed medical aides like himself came into range. Yet again and again he crept out under sniper fire to rescue wounded comrades until at last the Japs got him. "That kid was the best," his commander said of determined little Hyman Epstein. LOOKING AHEAD BY GEORGE S. BENSON President Harding College Searcy, Arkansas

Weekly Health Letter

By Dr. Geo. W. Cox, State Health Officer

Two Routes

Seven big Chinese coolies, each possessing 180 pounds of healthy brawn, youthful, intelligent and willing to do your bidding, ought to be worth \$1 a week apiece in a good year to an enterprising employer. But if the prospective employer by chance is a stranger in China he is likely to overpay them, any year. Not that there is anything wrong with the men; they simply can't produce anything marketable to meet the \$7 weekly payroll.

In the United States any one of these big fellows, unable to read or speak English, could earn much more than the other six combined if they stayed in China. Now what is the difference and how did it happen? The Chinese people had 20 centuries to learn how to live before America was discovered. Asia has everything North America has, in the raw: coal, iron, oil, fertile fields and six times as many people to buy things.

A Chinaman's Chance

"Did you ever hear the expression, 'a Chinaman's chance' meaning no chance at all? It is not a serious exaggeration. The average Chinese has one chance in five to live through infancy, and one chance in 6,000 to own an automobile if he grows up. There is no incentive; no private enterprise in China, no reward for working, saving, thinking, investing or inventing. A man with money to use or an idea to develop does not have protection for industrial developments. Result: no progress for thousands of years.

In less than 500 years America has developed the most productive and profitable large-scale farming ever known. With machinery, one man tends 100 to 500 acres, depending on the crop. In other countries it takes no less than five men (sometimes 100) to cultivate such a farm. All of them have to live off the land, so they have accordingly less to sell. Thus Americans are known as the best fed people on Earth. Private Enterprise does it; more production per man.

Also in Factories

The American industrial worker earns more than the average of his craft anywhere else in the world, for the same reason: he produces more. American workmen produce more because they are more skillful, and because they have 4.5 installed, mechanical horsepower apiece to help them. This calls for investment, of course. The average investment required to make a job for one man in American industry is \$8,000. Men are inspired to get skill because good jobs demand skill.

Opportunity to make money encourages people to invest their savings in what it takes to increase the yield per worker. Volume production is not "charity" on farms or in factories. It's good business. Management invests its stockholders' money in machinery and training for employees, to get (1) more output per worker and better paid workers, (2) production cost per

Mrs. H. C. Scott has so far recovered from the severe injuries she received in the cyclone recently, that she was able to leave Tuesday with her children on a visit to relatives in Dallas. Prof. J. W. Hamilton, late of Erath county, who has been elected principal of the Benjamin public school, was here Thursday en route to Aus in where he will attend the University of Texas summer school.

G. H. Cobb, prosperous stock farmer of the southwest part of the county, was transacting business in the city Thursday.

What to Write To Servicemen

The Office of War Information offers these pointers for home-folks writing to soldiers, sailors, and marines—based on suggestions gathered in a survey among servicemen at home and overseas, in cooperation with the Special Service Division of the Army Service Forces: TELL HIM:

- 1. How the family is doing everything possible to help in the war.
2. How anxious the family is for the boy's return.
3. How well and busy the family is. Give details.
4. How the family is getting along financially.
5. What's doing in the community: news about girls (single) he knows, doings of friends, who's marrying whom, exploits of the home team and other sports events, social doings, effects of the war on the home town. Reminisce a little about past events and places the boy used to visit. Enclose clippings from the home-town paper.
DON'T TELL HIM:
1. Your troubles. He has troubles of his own.
2. Your complaints. He can't do anything about them.
3. About things you are deprived of. He can't supply them.
4. Doleful predictions about the future. He's fighting for that future—now.
5. Unnecessary details about financial troubles. If there are things he should know about family finances, and he is in a position to do something about the situation, tell him. But don't stir it out.

Re-Payments To FSA Will Exceed Loans This Year

More money will be repaid to the Farm Security Administration this fiscal year than loaned, Ted Waason, Assistant Regional Director for Oklahoma and the eastern two-thirds of Texas, announced in Dallas this week. With collections still to come in for another month of this fiscal year and loans stopped, compilations already show over \$17,000,000 has been collected to date as against \$17,527,552 loaned farmers in these two states.

By June 30 the FSA in the nation as a whole will have collected \$130,000,000 on rehabilitation loans this year, a third more than the total amount of such loans made for the year. Mr. William S. Grimsley, FSA committee chairman in Haskell County said, "A magnificent record also is being made by the 23,000 former tenants now purchasing their farms with FSA loans. Already their repayments are fifty percent ahead of schedule," the committee said.

A breakdown by states shows 21,498 food production loans made in Texas, for a total of \$8,519,592. Collections already are \$7,378,884. In Oklahoma 13,744 loans were made, totaling \$6,237,497. Collections thus far are \$7,587,540.

Farm ownership loans for the year to 265 in Texas total \$1,588,889, with \$917,608 so far repaid. In Oklahoma, \$1,181,574 has been loaned to 232 farmers for buying their farms with collections thus far \$704,168. Repay-

It's A People's War

We are paying more in taxes than ever before... and likely will pay more. But we cannot rely on taxes to finance the war. It would not be fair to base a tax on the average single family income when many families have more than one income. We could borrow all the money from the banks, but for both economic and social reasons this is undesirable. The government would then sacrifice its greatest dam against inflation. This is a People's War and the people should finance it. The people WANT to finance it. Sale of War Bonds has mounted consistently since Pearl Harbor. They give their lives... You lend your money.

A Few ??'s To Ask the Printing Peddler

When The Peddler Selling Stationery and Printing Supplies Solicits Your Business There Are A Few Questions Which He Should Be Willing to Answer Your Satisfaction.

- Among Them Being:
Does he pay taxes in this community?
Does he donate space in his newspaper to your local community enterprises?
Does he pay wages to a force of employees located in this City, County, or State?
Does his paper devote its entire space toward the betterment and upbuilding of this community?
Does he grant you every favor that you would ordinarily ask of a local newspaper?
Does the quality of his merchandise stand inspection—is it on quality paper stock and the printed matter attractively arranged?
Will he submit proof of your work before finishing and mailing it to you C. O. D.?
Does his price include postage and insurance charges?
Can he supply your order on short notice?

If he can answer all the questions in the affirmative, he is entitled to your business.

Canada Training Powerful Norwegian Air Force

Norwegian trainers (above) in flight over Canada. (At right) Armed with rifle and bayonet this young Norwegian flyer guards the Headquarters of his command.

A POWERFUL Norwegian Air Force has been mustered and trained in Canada and awaits the day of revenge. In spite of the fact that Norway was one of the first countries to come under the German heel it has now built an air force equipped and trained in Canada more powerful than it possessed before the war.

WAACS Arrive at Lubbock Army Air Field

LUBBOCK ARMY AIR FIELD.—No fanfare—only a "hut-tew-three-four" in feminine tones heralded the arrival of the WAACS at this twin-engine advanced air field, where they are to replace men for combat duty.

Main reason all gave for donning Uncle Sam's khaki uniform was to help shorten the war by releasing men in the training commands and elsewhere in America for overseas duty.

Other groups of WAACS are expected at LAAF, 10 miles west of Texas Tech, in the next few weeks. Commanding the detachment is First Lt. Jamie Pauline Luttrell of Frankfort, Ky., who left an important position with the Kentucky Board of Education to join the WAAC.

Charles Clark Advances to Sergeant

Charles Clark, son of Mr. and Mrs. J. A. Clark was made Sergeant last week, having only been in basic training three months. He entered the service February 9, 1943 and left for Hoffman, North Carolina where he is now stationed.

Only Texan in the group is Aux. Cecil M. Lovelady, daughter of Mr. and Mrs. J. E. Lovelady of Route 4, Whitesboro. "I joined up to release a man for the fighting front," Aux. Lovelady said.

AMERICAN HEROES BY LEFF

Three Japs killed with one bullet was the score of Marine Pfc. Nicholas Sileo while defending a small village somewhere in the South Pacific. Sileo dropped the trio as they approached Indian file and then bagged two more before the swarming little men's rifle fire put him out of commission and he had to be hospitalized.

What You Buy With WAR BONDS

Many of the women of the Women's Auxiliary Army Corps are already overseas serving in various capacities to help win the war. The WAACS go through a strenuous training to fit them for the arduous duties they must perform.

A uniform for a WAAC, complete, costs approximately \$170.00. The quartermaster's department must provide thousands of them. Your purchase of War Bonds helps pay for these uniforms. Invest at least ten percent of your income in War Bonds every payday through a Payroll Savings plan at your office or factory.

### New Tax—

(Continued From Page 1)

with more than \$2,700 annual income if single and married persons with more than \$3,700 are required to estimate their liability above withholding level and pay quarterly.)

#### Farmers

A special rule applies. Farmers may file a declaration of the estimated tax at any time on or before Dec. 15 of the taxable year, and pay the estimated tax due.

#### Final Returns

These will be filed by all taxpayers, as at present, on or before the March 15 following the close of the taxable year. On this return adjustments will be made for differences between the estimated or withheld tax, and the correct tax reported by the taxpayer.

#### Special Rule for 1943

Since most taxpayers already have filed their 1942 returns on March 15 and June 15, 1943 will be treated as paymen's in respect of their 1943 tax liability. Taxpayers required to file declarations of their estimated tax will make their declaration for 1943 on September 15, and their payments made in March and June will be treated as payments of their estimated 1943 tax. A new declaration may be filed on December 15 if the taxpayer desires to amend his estimate.

A farmer may make his declaration of estimated tax for 1943 before December 15 and pay the estimated tax due. A 6 per cent interest penalty applies if any tax payer's estimate is more than 20 per cent (33 1-3 per cent in case of farmers) under actual income.

#### Members of Armed Services

The bill allows members of the armed services, beginning with 1943, an exemption on base service pay of \$1,500 in addition to regular exemption for civilians. Thus a single soldier's exemption would be \$2,000 (\$500 regular plus \$1,500 special exemption), and a married man \$2,700 (\$1,200 plus \$1,500). A complicated special provision is made for persons in the services, relating to abatement, the effect of which would be to cancel out the 1942 and 1943 obligations completely for all except high-ranking officers.

Income taxes owned by any person passing on while a member of the armed services in wartime would be canceled completely, his was designed primarily to prevent the tax burden falling upon soldiers' widows.

#### Windfalls

No persons may have abated any amount of taxes larger than

a hypothetical tax (at present rates) on the one year—1937, 1938, 1939 or 1940—in which he had the largest taxable income with \$20,000 added before that tax is computed. Thus a person might owe \$100,000 taxes on 1942 income, and a 75 per cent abatement would mean \$75,000 to him; but under the windfall provision, if the tax on his largest "base year" income plus \$20,000 (the \$20,000 added to the income tax computed at 1942 rates) is \$60,000 or any other amount less than \$75,000, his abatement will be the lesser amount instead of the \$75,000.

The withholding levy is not an additional tax but provides machinery for weekly, bi-weekly, semi-monthly or monthly deductions from earnings for current payment of taxes as now written in the statute books.

#### Pay Roll Deductions

Under the legislation each person could compute the amount to be withheld from his wage or salary by taking 20 per cent of the excess of his pay over family status withholding exemptions as follows:

**SINGLE PERSON**—\$12 weekly, \$25 bi-weekly, \$26 semi-monthly, \$52 monthly, \$156 quarterly, \$512 semi-annually, \$624 annually. Thus a single person making \$50 weekly would deduct \$12 from \$50 and compute 20 per cent of the remaining \$38, arriving at \$7.60 to be deducted from his pay each week.

**MARRIED PERSON**—\$24 weekly, \$48 bi-weekly, \$52 semi-monthly, \$104 monthly, \$312 quarterly, \$624 semi-annually, and \$1,248 annually. Thus a married person making \$50 weekly would deduct \$24 from \$50 and compute 20 per cent of the remaining \$26, arriving at \$5.20 to be deducted from his pay each week.

**DEPENDENTS** (other than wife) \$6 weekly, \$12 bi-weekly, \$13 semi-monthly, \$26 monthly, \$78 quarterly, \$156 semi-annually, and \$312 annually. Thus a married person with one child making \$50 weekly would deduct \$30 (\$24 plus \$6) from \$50 and compute 20 per cent of the remaining \$20, arriving at \$4 to be deducted from his pay weekly.

Henceforward, persons without income large enough to come under the income tax but affected by the Victory tax will have a 3 per cent deduction after July 1 on earnings above \$12 weekly, instead of 5 per cent as at present.

Employers will collect the 20 per cent withholding levy as they previously have handled the Victory tax. Special tables are provided in the bill whereby an employee's family status may quickly ascertain the amount to be deducted from a wage envelope or salary check.

### Canada's Mothers Do Big Job

EACH day the great war industries of Canada are enrolling more women to take the place of men called away from their machines for active duty in the armed services. Already nearly 250,000 Canadian women are working in war factories. Immense release of womanpower has been possible by the creation of day nurseries by Dominion and Provincial authorities.

Children are well cared for while mothers work at war machines. Organized group games are important in the program planned for the tiny tots sheltered daily at the nurseries. Trained attendants care for every need of these youngsters.

balanced meals at regular hours, eat periods and supervised recreation are among the childhood essentials supplied to these youngsters of Canadian women war workers. Knowing their children are well cared for, Canadian women can put their best efforts into their war jobs with a free mind.

Starting mainly as inspectors, Canadian women have invaded every field of operation, except those where sheer strength is the prime requisite. They are making intricate radio and electrical devices, shell fuses, parachutes, and uniforms; they operate lathes and milling machines; they work in

many sections of shell filling, explosive and chemical plants. In the vital aircraft production field their numbers have grown from a handful at the outbreak of the war to a total larger than the pre-war total of all employees. And while it is customary to

associate female workers in aircraft plants with the sewing of fabric in airplane wings and fuselages, it is less well known that they now tackle the make-up of electrical wiring, riveting, welding and fitting of sub-assembly work on metal planes.
