## Trustee Elections To Be Held on Saturday

More Trustees To Be  
Elected In Each District  
In The County

Trustee elections will be held Saturday, April 3, in the 28 school districts, and all urban and rural high school districts in the county. More trustees will be elected for their respective districts for a two-year term. The Board of Trustees will be elected for the county. Members of the county Board of Trustees will be elected for a three-year term. The county members of the county Board of Trustees who terms expire this year are J. E. Mansell, J. J. P. Trimmer, Fred L. J. A. Couch, trustee of the county-at-large.

The Haskell Independent District voters will elect three trustees, each for a two-year term. Listed are the names of Arbekle and A. M. W. for re-election, and W. G. for the third year on the local board.

For the Paint Creek school district list the names of J. A. Mansker and Royton. Ballot for the Mattie high school district lists Turnbow and Rhoda Sor-

Weinert school district appear the names of V. R. E. M. Owens and W. B. for trustees of the district. The names of E. L. Hester and Hester are listed.

Those elected Saturday will file their oaths of office with the County Superintendent of Public Instruction in the office.

## ELECTION WILL BE HELD TUES., APRIL 6

### Aldermen To Be Named Two-Year Term On City Council

All voters will ballot Tuesday the annual City Election. Two members of the City Council will be elected to serve for a two-year term. The election will be held at the City Hall with Joe A. Jones acting judge, assisted by Willie Quattlebaum and J. Hambleton as clerks.

Those elected Tuesday will file their oaths of office with the County Superintendent of Public Instruction in the office.

### Three HHS Students Who Enlisted Together In Reunion

Three former students in Haskell high school who enlisted in the Army Air Forces together on the day following their graduation—June 1, 1941—were together again for the first time last Friday. The trio, Sgt. James Sloan, who is stationed in Newfoundland; Sgt. Curtis Parrish who is stationed in Altus, Okla., all were at home on furloughs last week at giving them an opportunity to discuss their experiences since entering the service nearly two years ago.

## 4 to 10 Is Designated As Spring Health and Clean- Up Week Throughout the State

Proclamation Gov. Coke R. has designated April 4 to 10 as the annual Spring Health and Clean-up Week in Texas. The Governor respectfully requests the support of municipalities, public health departments, fire departments, civi-ense units, schools, clubs, organizations, the press, the citizens individually in the observance of clean-up week in scope and spirit. The proclamation reads: "The loss of food, supplies, facilities, property and the resources of this state from destruction by fire is of great importance to the support of our men engaged in the war effort. It is indeed a timely and important time when we should be cleaning up our state."

## 56 REGISTRANTS ARE CLASSIFIED BY LOCAL BOARD

Six Placed In 1-A; Thirty-Six Designated for Examination

Fifty-six Haskell county registrants have been classified or re-classified by Local Board No. 1 during the past week. ## Yanks Stop General Rommel's Drive

General Rommel's drive at Kasserine Pass in Tunisia was temporarily stopped when American forces snagg a successful counter attack at that point. Armored forces smashed ahead through Italian and German positions, capturing many prisoners and crushing heavily armed enemy posts. Here the driver of a wrecked Italian car is being removed by American soldiers, after the attack.

## Man Is Severely Injured In Fall Down Stairways

Claud Foster, farmer living several miles west of Haskell suffered serious injuries Saturday night when he fell a considerable distance down the stairway of a two-story building on the west side of the square occupied as an apartment and rooming house.

Foster, accompanied by two other men, had gone to the upstairs apartment house to secure a room for the night, and a few moments later Foster started downstairs, lost his footing and fell.

In falling the farmer suffered several bruises on the face and head, and his right ear was severed completely. He was removed to the Haskell county hospital immediately for treatment of his injuries, which are not expected to prove serious, and the injured man was able to leave the hospital the first of the week.

## Haskell Gets June Meeting of District Masons

Haskell has been selected as site for the June meeting of the 91st District Masonic Association, to be held on the third Tuesday in June, it was announced following the quarterly meeting of the association held in Knox City last week.

The Haskell and Rule Masonic lodges will be joint hosts for the June meeting, and officers for the new year will be elected at that time.

## Ration Dates, Deadlines

**POINT RATIONING**  
March 29—Point rationing of meats, butter, fats, cheese and canned fish begun. Red "A" stamps (16 points) in War Ration Book No. 2 good during first week. Institutions and industrial users also begin surrendering red stamps for meats-fats purchases.  
March 29-April 10—Institutional and industrial users register with local war price and ration boards to receive allotments of products rationed under meats-fats program.  
March 31—Expiration date for 'A', 'E' and 'C' blue stamps used in buying processed foods. 'D', 'E' and 'F' blue stamps now valid and good through April 30.  
April 25-May 1—Allowable inventories of wholesalers and retailers based on sales of red stamp products, in points, during this week.

## SHOES

June 15—Expiration date of Stamp No. 27 in War Ration Book No. 1, good for purchase of one pair of shoes.

## Poultry Losses Reported Heavy In The County

During recent weeks, Haskell county farmers have suffered severe losses of poultry through the spread of Fowl Cholera and Typhoid among poultry flocks according to reports coming to the office of County Agent Schumann and Home Demonstration Agent, Miss Cathryn Sands.

Poultry losses are likely to increase unless stringent measures are adopted to bring the losses under control, and suggestions on how to control Fowl Cholera and Typhoid are contained in letters sent by the Extension Service to all Haskell county Community and Neighborhood Agricultural Victory Leaders. These suggestions include strict sanitation measures in poultry yards and houses, and vaccination of flocks with Fowl Cholera-Typhoid vaccine.

One of the principal causes of spread of the disease is the manner in which dead and diseased chickens have been scattered along roads and highways in the county. This scatters the disease from farm to farm because ravens, rats, dogs and cats eat the dead chickens and carry the disease to flocks that are not infected.

Numerous complaints of this careless practice in disposing of dead, diseased chickens have been made in the past few days, and farmers and poultry owners can help to prevent spread of the disease if they will bury or burn dead fowls instead of throwing them on the roads and highways.

**Singing Will Be Held at Roberts Sunday Night**  
The First Sunday night singing will be with the Roberts Church next Sunday night. All singers are invited. Plenty of books will be available.

## Haskell County Assigned Quota of \$263,000 In War Loan Drive

### County's Quota In Red Cross War Fund Drive Oversubscribed

#### Campaign Over the Top With Some Communities Yet To Report

Haskell county's quota in the 1943 War Fund Drive of the Red Cross had been oversubscribed at the beginning of the final week in the campaign, according to a tabulation of subscriptions reported from the various towns and communities in the county by J. Belton Duncan, treasurer of the county Red Cross chapter.

With a quota of \$4,400 to be raised, a total of \$4,466.01 had been subscribed up to Wednesday morning, Duncan reported. In a few communities the drive had not been completed, he explained.

The total of \$4,466.01 does not include the amounts raised in Rule with an original quota of \$495.00, and Tanner Point, quota \$64.00. Neither community had reported amounts raised up to Wednesday, but in Rule the quota is unofficially reported to have been generously oversubscribed. Final reports from all communities is expected to increase total subscriptions in the county to near the \$5,000 mark.

Total subscriptions reported to Wednesday from each community in the county were listed by the chapter treasurer as follows:  
Precinct 1, Haskell—\$1,205.60.  
Precinct 2, Haskell—\$490.25.  
Precinct 3, Haskell—\$193.35.  
Precinct 4, Haskell—\$260.50.  
Rochester—\$463.00.  
O'Brien—\$311.83.  
Jud—\$69.00.  
Cliff—\$55.73.  
Weinert—\$448.40.  
Cottonwood—\$93.95.  
Jim Hogg—\$105.00.  
Paint Creek—\$290.68.  
Cobb—\$79.00.  
McConnell—\$42.00.  
Sagerton—\$207.00.  
Bunker Hill—\$45.50.  
Joe Bailey—\$101.00.

## Baptist Workers Conference Held Here March 30th

The Workers Conference of the Haskell Baptist Association met in the First Baptist Church of this city on Tuesday morning at 10:30 o'clock. Following the opening song and prayer the pastor of the Mattson church, who is a student in Simmons University brought the morning devotional.

Rev. W. H. Albertson of Munday, talked on the subject of personal, state and national sin, discussing in a logical and impressive way the effect of sin on peoples of Bible times, as well as in our world today. Convincing scriptures were read in connection.

Rev. Miles B. Hayes, pastor of the First Baptist Church of Stamford brought the morning sermon, his theme being, "What's Wrong with Christianity?" Two scriptures were read from Matthew and used as a basis of thought for the splendid message. A song was sung and prayer offered, which included thanks for the noon meal. Everyone repaired to the church annex where a wholesome and satisfying meal was served to approximately one hundred-fifty people.

Rev. C. A. Powell of Rule, who presided as Moderator during the entire day, opened the business session at 1:30 and matters of interest to the on going of the work were discussed. The W. M. U. program under the direction of Mrs. Speck, association president, followed. Good reports were given by local W. M. U. presidents, showing that the work moves on despite handicaps of the times. Following are the societies having reports: Haskell, Mrs. R. J. Reynolds; Knox City, Mrs. May; Goree, Mrs. Callon; O'Brien, Mrs. Johnson; Rule, Mrs. Roy Foster; Rochester, Mrs. Vestus Alvis; East Side Baptist, Mrs. Emory Anderson; Weinert, Mrs. Johnson. Bro. Hathaway who has long been an honorary member of the Munday society and leader of their Sunbeam Band, brought a partial report from that society.

Rev. S. E. Stevenson, pastor of the Goree church brought the closing message, the topic: "The Mission of Baptists." Our part in the on-going of Kingdom work was most ably presented, as to opportunity, our privileges and our duty.

## FOUR BURGLARY CHARGES FILED AGAINST SOLDIER

### R. L. Stewart Arrested By Ft. Worth Officers Thursday

R. L. Stewart, 19-year-old Haskell soldier stationed at Camp Bowie, Texas, was arrested by Fort Worth officers last Thursday night in that city in connection with the burglarizing of the Wheatley Shoe Store here Monday night of last week. Some of the merchandise taken from the Haskell store was recovered in Stewart's possession following his arrest, officers reported.

Deputy Sheriff Jim Isbell went to Fort Worth Friday and returned the soldier to Haskell. After questioning Stewart, Deputy Sheriff Isbell said the young man admitted breaking into the Wheatley Store and also implicated himself in three other recent burglaries here. These included, the officer said, entry of the Phelps Ice Company building on the same night the Wheatley Store was entered and burglary of the Texaco wholesale warehouse and the Haskell Mill & Elevator Company earlier this year. As the result of the young soldier's admissions, Deputy Sheriff Isbell recovered a small radio taken when the Texaco warehouse was burglarized, the officer said.

Four burglary complaints were filed against young Stewart, signed by members of the sheriff's department, and bond on each complaint was set at \$1,000 by Justice of the Peace Ernest Marion to await action of the Grand Jury.

Military police from Camp Berkeley, Abilene, nearest military post to this city, came to Haskell Wednesday and took custody of Stewart to return him to Army authorities, Deputy Sheriff Isbell reported.

## Total of 2,819 Cars and Trucks Registered Here

A total of 2,819 automobiles and trucks had been registered in Haskell county up to April 1, final date for registration for the current year, according to Tax Assessor-Collector J. B. Gipsom. This figure compares favorably with the total on the same date last year, when 2,983 vehicles had been registered, the assessor-collector said.

Automobile and truck owners may still register their vehicles without penalty provided they have not been operated this year, and it is believed that late registrations will increase the total for this year to approximately the number registered in 1942.

## Glenn Hills Is New Barber With Cook Bros. Shop

Glenn Hills of Rochester, an experienced barber, has accepted a position in the Cook Bros. Barber Shop in this city. The shop is now under the management of Floyd Cook, in the absence of Roy Cook, partner in the business who is now working in a defense plant in South Texas.

## Rev. Whatley to Preach at Gauntt Sunday

Rev. H. R. Whatley, pastor of the First Baptist Church of this city will conduct preaching services at Gauntt Sunday afternoon at 2:30 as supply minister in the place of Rev. Kenneth W. Copeland, Methodist minister who has been conducting regular services at Gauntt, but will not be able to fill his appointment Sunday.

Mrs. Dennis P. Wilson left Friday for San Diego, Calif., to join her husband, who is a Seaman (second class), in the U. S. Navy.

## R. C. Couch Is Named As Chairman of County War Finance Committee

Haskell county has been assigned a quota of \$263,000 in War Savings Bonds to be sold during the month of April in the Second War Loan Drive. R. C. Couch, chairman of the county War Finance Committee was advised this week by the War Finance Committee of the 11th Federal Reserve District.

This quota is the largest to be assigned Haskell county as its share in financing the war, and in order to attain the goal a county-wide organization will be set up covering all towns and communities in the county, Mr. Couch explained.

The Second War Loan Drive will be officially started on April 12, but all sales of War Bonds during April will be credited to the month's quota, the county chairman pointed out.

During the coming week, Mr. Couch has planned several meetings with workers and community committeemen to perfect organization for the War Loan Drive.

## YOUNG FARMER IS WOUNDED BY REVOLVER SHOT

### Tells Officers Wound Was Inflicted by Unknown Assailant

Circumstances surrounding the wounding of Alvin Cox, employed on a farm about 12 miles west of Haskell whose left wrist was shattered by a revolver bullet purportedly fired by an unidentified assailant into Wednesday night were being investigated by members of the sheriff's department Thursday.

The young farm laborer, suffering from loss of blood from the wound in his wrist, drove alone in a truck from the farm where he is working to the Haskell county hospital shortly before midnight Wednesday to secure attention of physicians, and asked that officers be summoned.

Cox told officers that he was alone at the farm home of his employer when he heard a noise in the yard around 10:30 Wednesday night. Taking a pistol, he went to investigate, and when he started to step from the house he came face to face with a man pointing a gun at him. Cox related that he raised his arm to strike at the stranger, and that his assailant fired one shot and ran. The bullet struck Cox in his left wrist and ranged through the palm of his hand. The wounded man wrapped a towel around his left hand and drove to the hospital, he related.

He could give officers only a vague description of his assailant, and could not advance a motive for anyone to attack him, he told officers. Injury caused by the bullet may result in the loss of Cox's left hand at the wrist, hospital attendants indicated.

## Emergency Call Is Made for Red Cross Surgical Dressings

The American Red Cross has received an emergency call from the War Department for millions of surgical dressings for use of our armed forces on the war fronts, and this call has been relayed to county chapters, according to Mrs. C. L. Lewis, in charge of the local Red Cross surgical dressing room in the City Hall.

The Haskell chapter has been asked to furnish the largest quota of surgical dressings in its history, and these must be made up and shipped at the earliest time possible, Mrs. Lewis explained. To meet this emergency the services of additional workers in the surgical dressing room will be needed, and women and girls who will assist in the work are urged to report to the monitor or instructor in charge of the room, which is located on the second floor of the City Hall.

Velma Hambleton of Honon, Home Demonstration Agent of Medina county, is here for a week's visit in the home of her parents, Mr. and Mrs. E. J. Hambleton.

## Meet the Seniors

**RAYMOND RHOADS**  
A very prominent member of the "Tall Boys Club" is Raymond Rhoads. Raymond has attended Haskell High School for four years. Living out from town a considerable distance, he has not participated in the sports of the school, but enters the schools interests in every way he can. His hobby is hunting and fishing. Raymond states that due to the present day situation his future is undecided. Raymond is the son of Mr. and Mrs. T. A. Rhoads.

**DOROTHY ROGERS**  
Another senior who has attended all four years in Haskell High School is Dorothy Rogers. She has been a member of the Spanish Club two years, was a member of the Homemaking Club three years and is a member of the Physical Fitness Club. Dorothy's hobby is the collection of photographs. Immediately after her graduation she will enter school where she will train to be a stenographer. Mr. and Mrs. Floyd Rogers are her parents.

## Sergeant Sloan Tells of Active Service

Active duty on submarine patrol off the coast of Newfoundland was described by Sergeant James Sloan, in assembly last week. James has been in the island for eleven months and has had some actual experience in sinking enemy subs. He is an aerial engineer

and is responsible for seeing that the plane is ready to go. On the patrol trip he serves also as a gunner.

James told about the people of Newfoundland—their ways of living, their homes, towns and languages. He also gave a brief discussion of his experiences in the Army. After he finished his talk, the students were permitted to ask questions, and gained much interesting information.

James was a former student of H. H. S., having graduated with the class of '41. He entered the Army the day following his graduation, and has accomplished a great deal in service. He is the first former student to appear before our student body who has seen actual service, and his willingness to tell his experiences was well appreciated by the students. While home on leave he visited school several times, and talked to interested groups whenever he was asked to. He spoke admirably of the new high school buildings, and made the remark in assembly, "I've seen a lot of places in these months I've been away, but I guess Haskell will always be the best place in the world to me". The best wishes of Haskell High go with him on his return.

## T. O. Q's Debate Interesting Question

In their last meeting the T. O. Q's met to debate upon the subject "Should Haskell High School Have Assembly More Than Once A Week?" Debating for the negative side were Loyd Tankersley, Jane Richey, Mildred Chapman, and Jerry Gannaway. On the affirmative side were Doris Holmes, Elaine Pennington, Joan Wood and "Pee Wee" Morris. After the debate, the students who did not take part in it decided which side brought out the best points. The affirmative received the majority of the votes, and the meeting was closed.

## Librarian Giving Efficient Service

Additional measures have been taken lately to keep the library on an efficient basis. New cards have been made for the books, and delinquent records are being cleared up. Two new librarians have been added to the force, with the result that the library is now open most of every day. Notices of overdue books will be posted regularly and all students are urged to keep our few books in circulation. Also the more useful magazines will be checked out like books, in order to give them wider use.

The new librarians are Mary Frances Perdue and Genetha Wheatley. Others who have been serving since the library opened are Frances Barton, Jean Blake and Shirley White. Margaret Parks has also served, in the absence of Shirley White. Most of these girls work without any reward, and they are giving a very worthy service to the school. It is suggested that the rest of the students can show their appreciation of this service by observing the library regulations as carefully as possible, and by checking out only what they actually need or want to read.

## Sailor Writes To High School

Addressed to "Haskell High School," a post card from Bill Allen Starr arrived this week. It has the postmark of March 23, and reads as follows:

"Dearest Faculty and Student Body:  
"Hope you aren't surprised to hear from me, because I think of all of you every day and hope each and everyone is having a good time (and naturally studying hard). Sure wish I could get that chance again, so stay in there and get all you can. I really would like to have a picture of the football team this year to go in my picture book, and I want to get a letter from all of you, please. I'm really lonesome for some news.  
Your friend,  
BILL A. STARR"

Bill's present address is Div. 7A, USS Texas, Care Fleet Postmaster, New York, N. Y. Probably he had not received the letters recently written to him by the T. O. Q's. But even when he gets

## Child Care Reduces Absenteeism at Aircraft Plant

Mrs. Ethelmae Woodbury (left) is a carefree mother as she performs her drilling job at the Grumman aviation plant, Freeport, Long Island, because she knows her children are being cared for during working hours at the plant's child care center. This plan has cut absenteeism to the bone. Two views of kiddies who are under protection during their parents' eight hour absences at the plant are also shown.

them he'll be hoping for later ones. We shouldn't let him down. Even if he can't answer each one personally he'll be glad to receive them.

## GR's Acknowledge Assistance

"Jessica's Journey", the Gypsy Rambler play, goes into dress rehearsal as we go to press. The cast is indebted to Mr. Henry King and Mr. Pearsey for their efforts to improve the stage lighting effects. Mr. Arbuckle personally, and Jones, Cox & Co. have also helped by providing the necessary furniture for the stage. Mrs. Duncan has helped Miss Couch in directing the play, and has worked to make the tickets and programs and to arrange entertainment for the intermissions between acts.

Proceeds of the play will be applied to the indebtedness on the piano, which the Gypsy Rambler Club purchased for the school some time ago.

## Homemakers Plant Rose Garden

A rose garden has been set out on the east side of the Homemaking Cottage. The girls dug up the bed some time ago and found no good soil there, but only rocky clay mixed with cement. So they removed it all and the Ag boys brought good soil to fill in. A half dozen red radiance roses were then set out and later the girls will outline the bed with rocks. While digging the bed they also loosened the dirt around the other shrubs about the cottage.

## Cottage Chat

The rain was certainly inspiring to all victory gardeners. They can literally see their English peas, onions, carrots, etc., growing. I'll bet a lot of people who hadn't planned to have a garden are inspired to do so now. Right now is the time to plant beets, lettuce, carrots, radishes, cabbage, squash, cucumbers and tomatoes (in seed bed). More than half of the homemaking girls have gardens well underway. We are all anxious for our gardens to get dry enough to plant more seed.

After studying the meat rationing, we homemaking girls decided to learn to use some of the organs such as liver, sweetbreads, kidney, etc. We went into the laboratory last week to prepare creamed sweetbreads, and most of the girls had never seen them. In fact one of the girls lit the oven to bake "sweet breads" out of the sweetbreads! The girls did not relish the finished product very much. They decided that it was another one of those things the war might teach us to like.

The Chamber of Commerce finally got a call for the utility bags and stupe wringers the homemaking girls made some time ago. The call came from Avenger Field Sweetwater. It is a coincidence that the call came from a field in our homemaking teachers home town.

So long until next week. We trust that you will do a lot of gardening this week. After a month of rationing we are sure you will feel the need of having some home grown and home canned foods.

## Let's Make It Two Jeeps!

Work, save, fight. Keep the torch of freedom bright. Buy War Bonds.

Last Friday the stamp sales amounted to \$868.95. With that added amount our dream of buying enough bonds and stamps to purchase a jeep on or before Minute Man Day has been realized. Last week we already had \$443.60 toward the necessary \$900 to purchase one jeep. High schools everywhere have been challenged to supply the amount for a jeep in the period from March 1 to April 19; one jeep if the school is a small one, and more, in proportion to the size of the larger schools. Now we have an excess of \$392.55 over the price of one jeep. So let's not stop at that. Let's make it two jeeps by Minute Man Day. We must buy more bonds and stamps, for the more we buy the sooner the Axis and the Japs can be licked.

Cecil Gholson led the list of bond-buyers by purchasing a \$1,000 one and Janet Turner, Jackie Thornton and Aliene Coffield bought \$25 bonds.

## Club Members Receive 'T' Shirts

Members of the Physical Fitters Clubs received T-shirts and caps last Friday afternoon. The shirts are white with a red V upon the front, and have in black letters across the front "High School Victory Corps". The caps are grey and they also have a red V on them. Seventy-five students purchased these caps and shirts, and had been eagerly awaiting their arrival.

## Library Donates Magazines to U. S. O.

Several dozen back number of the Reader's Digest were recently taken out of the library and given to the U. S. O. These are magazines that have been used in English classes the past two years to supplement the library. Thirty copies are received by the school each month, and during the time when we had no library at all they provided the only extra reading for juniors and seniors. Several copies of each issue since the fall of 1941 have been kept back for the continued use of the students.

## "Shindig"

What's this we hear about Sam Hugh leaving Arlington? Could it be that engagement epidemic that's going around? What have you got to say about it, Cora?

Why is it that every time we see Ruby Grace, she has a letter in her hand from Mineral Wells? If he is cute, I'd like to have his address.

It seems that we have "Dizzy Dean the Second" right here in ole H. H. S. "Dusty" Kings unusual talent for throwing just any ole thing, has at last been uncovered!

If you see a blinding flash round the corner with it's nose in the air don't get excited. It's just one of those new jackets wearing a football boy!

Bill is going around looking blue and singing—"I wanta go back to California; I wanta go back to my home, sweet home, etc." Come on Bill, try to forget California and get "hep" to the H. H. S. jive!

Have you noticed that Royce and Gordon are watching the sophomore lockers—or is it two sophomore girls? I wonder??

When a girl thinks her heart is broken, you can rest assured that it is only her imagination sprained. Why is Bruce going around

## Plenty of Canning Supplies

Plenty of metal closures and rubber jar rings will be available for American housewives who will be doing an increased amount of canning this year. The War Production Board has removed all quota restrictions on the manufacture of certain types of metal lids used to seal the jars. Prohibition of the use of zinc is continued.

Ignorance causes more blisters than bliss.

## Deferment Appeals Locally

All appeals involving occupational deferment are being handled by the Service Board of Appeals in the area of the worker's employment. Formerly these appeals were handled in the area in which the worker was registered.

There was a time when gad around and catch up work too. Now I scarcely have time to gad-around.

## A Few ??'s To Ask the Printing Peddler

When The Peddler Selling Stationery and Printing Supplies Solicits Your Business There Are A Few Questions Which He Should Be Willing to Answer to Your Satisfaction.

Among Them Being:

- Does he pay taxes in this community?
- Does he donate space in his newspaper to your local community enterprises?
- Does he pay wages to a force of employees located in this City, County, or State?
- Does his paper devote its entire space toward the betterment and upbuilding of this community?
- Does he grant you every favor that you would ordinarily ask of a local newspaper?
- Does the quality of his merchandise stand inspection—is it on quality paper stock and the printed matter attractively arranged?
- Will he submit proof of your work before finishing and mailing it to you C. O. D.?
- Does his price include postage and insurance charges?
- Can he supply your order on short notice?

If he can answer all the questions in the affirmative, he is entitled to your business.

Magazine Club Has Regular Meeting March 19th

On March 19th, the Magazine Club met in regular session. After a short business session over which Mrs. Hill Oates, president, presided a most interesting program on the countries of Honduras, El Salvador and Guatemala, was directed by Mrs. E. M. Frierson.

The hostess, Mrs. W. A. Lyles, had the club room decorated most beautifully and appropriately. Indian blankets were draped about the room.

A fruit and vegetable stand decorated in the gorgeous colors of the Central America, occupied a prominent place in the decorations. On this stand was displayed all kinds of "bargains" from strings of red pepper to beautiful hand-woven baskets. The president's table was very attractive being centered with a huge cluster of green banana "hands" intermingled with oranges.

The ladies who took part on the program, also the hostess, were gowned in appropriate costumes. Mrs. Rike who told of the "Indian Tribes of Guatemala" was dressed in Indian costume. We learned many things of interest about these people, whose occupation of that country dates back many centuries. On A Banana Plantation was given by Mrs. Bradford. We learned that the year 1876 marked the first appearance in the U. S. of this strange new fruit. These "samples" were sold for 25c each.

Mrs. R. J. Reynolds' subject was Economic Gifts of America to the World. Mrs. Reynolds told of the origin of most of our best liked fruits and vegetables. Most, if not all of them, can be found in some parts of the Americas.

We were happy to have as visitors Mesdames Wilson and Ellis of Rule and Mrs. O. B. Ratliff of Spur.

Members present other than those mentioned were: Mmes. Hill Oates, Vaughter, Chapman, Wilson, Fields, Atchison, Lewis, Mary Oates, Hassen, Holden, Davis, Williams, Huckabee, Thornton, John Rike, R. C. Couch, Ballard, Sanders, Julia Ann McGregor, Chas. McGregor and R. H. Darnell.

At the conclusion of the program the hostess served a delicious refreshment plate of chocolate cake, tea and date loaf candy. Reporter

### HOW TO MAKE YOUR MEAT GO FURTHER

Meat Cut	First Meal	Second Meal	Third Meal

Nutrition authorities say that Mrs. American Housewife's job of feeding her family is one of the most important in the war effort. For nourishing food is going a long way toward building strength and morale on the home front.

At the same time, women are being called upon to conserve food as a wartime necessity. This means they must use every ingenuity to eliminate waste and get the most out of the food they buy.

How to make their meat go further seems to be a subject of special interest, since building meals around this food is an American tradition. So home economics experts have come to the rescue with all sorts of ideas and recipes designed to extend the meat purchase as far as possible.

Here are a few of many practical ideas along this line.

**BEEF BRISKET**  
First meal. Brisket cooked with beans is a delicious dish for the first serving. The beans are soaked over night and brown sugar, onion and seasonings added, then placed in a covered kettle with brisket on top. Brisket and beans should be covered with water and cooked in a moderate oven for about three hours.

Second meal. Broiled toastwiches suggested for the second meal, are prepared by slicing left-over brisket and making into sandwiches. The sandwiches are dipped in beaten egg and milk and broiled until brown.

Third meal. The left-over meat from the brisket may be ground and combined with boiled rice and seasonings to make a stuffing for green peppers. These are baked in a hot oven until done—about 45 minutes.

**BLADE END OF PORK LOIN**  
First meal. Blade end of the pork loin is excellent for a roast. The end cut is lower in price than the center cut. Roasting is easy when a few simple rules are followed. The roast should not be covered and no water added. A low temperature saves both meat and fuel. A bread dressing, shaped in balls and placed around the roast half an hour before it is done, will extend the servings. This roast requires 30 minutes per pound.

Second meal. The cold slices of roast pork are delicious heated in barbecue sauce.

Third meal. The trimmings from the roast make a surprising supper dish when combined with cream sauce and served between layers and over the top of biscuits as Pork Short Cake.

**LAMB SHOULDER**  
First meal. A stuffed lamb shoulder is a thrifty roast. The bones may be used to season vegetables or to make soup stock. A tasty stuffing is made for it by combining whole kernel corn, cracker crumbs, seasonings and minced green peppers. The roast is placed on a rack in an open pan and about 40 minutes per pound allowed in a slow oven.

Second meal. For the next night's main dish, combine cubes of cold roast with left-over vegetables and enough gravy to hold together. Place mounds of the mixture on squares of pastry and fold over to make a triangle. Pinch the edges together. Brown in a hot oven. These are called Pasties.

Third meal. The remaining lamb "bits" may be ground and mixed with cooked oatmeal, an egg and seasonings to make Scotch Pancakes for supper or for breakfast.

Sagerton Girl Is Student Teacher At Texas University

Austin, Texas—Eighteen University of Texas co-eds have a combination job this spring—they're both teachers and students.

Majoring in home economics, all of the class members plan to teach after graduation next June. In order to receive a permanent teaching certificate in Texas each girl must have six weeks' "practice teaching" to her credit.

University student teachers are assigned to classes in Austin high schools, where most of them are undertaking projects in teaching wartime conservation of civilian goods. The University home economics department has placed much of its emphasis this year on conservation, so the student teachers are simply passing along this instruction to high school pupils.

Among those doing student teaching in home economics this semester is Martha Schmalenbeck of Sagerton.

W. S. C. S. Meets In Home of Mrs. Pitman Monday

On Monday March 29th the W. S. C. S. met in the home of the president, Mrs. H. Pitman, with Mrs. Medley co-hostess.

The meeting was opened with a prayer by Mrs. Irby after which the president held a short business session.

Mrs. Odell continued the lesson from the book, Shall A Man Rob God, the subject of the lesson being Solid Foundation. Honest Acknowledgement will be taught in the home of Mrs. A. J. Jossette with Mrs. Wallace Cox as co-hostess.

At the conclusion of the program the hostesses assisted by the Pitman sisters served sandwiches, cakes and tea to the following members: Mesdames Crow, Helms, Irby, Wyche, B. Cox, Harrison, Norris, Cahill, Kimbrough, Breedlove, Tate, Odell, W. Cox, Thornton, C. Smith, Williams, Sanders, Copeland, Fields, Darnell.

A good crowd is hoped for and expected on next Monday afternoon. Remember the time is 4 o'clock. Reporter

### GEMS OF THOUGHT

Every failure is a step to success; every detection of what is false directs us toward what is true; every trial exhausts some tempting form of error. —William Whewell

### "Are You Content?"

"If you are content with the present situation and with the present results in industry, in agriculture, and in our civilian life," said Secretary of War Stimson, "then I suggest that you go to one of our Army camps and see our boys in uniform working. I suggest you read the detailed dispatches from Tunisia and the Southwest Pacific about the fighting efforts of our soldiers. I suggest that you compare your comforts in life with theirs, and then ask yourself again—Are you content?"

Few persons in civilian life can say they have yet made any all-out war effort. Too many are still more interested in planning personal and "social gains," first.

### Industrial Reconversion

The flexibility of American industry has already been demonstrated in the rapid and efficient changeover from peacetime to wartime production.

Now, many industries which converted almost overnight to produce tanks and artillery have been reconverted to make weapons more urgently needed because of the change from defensive to offensive military operations.

Commenting on this change which is due to the greater need for aircraft parts, ship components, etc., WPB Executive Vice Chairman Charles E. Wilson said recently in a report to a Congressional Committee: "A number of ordnance plants have already been shifted from ordnance production to make aircraft and aircraft parts. Among these are several plants which were set up to make guns and are now making aircraft landing gears. A company that was tooling up to make tank parts is now making aircraft engine cylinders. Ammunition manufacturers are now making aircraft instruments and accessories."

"A whole division of WPB is concerned with working out cases in which existing plants of this sort can be substituted for projected new plants. This division is in constant touch with both the procurement agencies and the Smaller War Plants Corporation. We have had good cooperation on both sides in using existing plants as far as possible instead of tooling up new ones and expect that this cooperation will be intensified," Mr. Wilson said.

### Thoughts On Rationing

(Abilene Reporter-News)

Some random thoughts on meat-and-fat rationing:

Tens of thousands of healthy vegetarians never eat any meat at all.

As against the weekly ration of two pounds of meat in the U. S., the rate in England is one pound in Germany 12 ounces, in Belgium 5 ounces and in Italy 4 ounces. In the case of fats, as against the 10 ounces in the U. S., the ration in England is 8 ounces, in Germany 7 1-4, in Belgium 3 1-2, in Italy 3 3-4.

Many a Confederate soldier in the War Between the States went for days on end, and fought gallantly always on a handful of parched corn.

The Men of Bataan carried on for weeks on an occasional hunk of canned salmon, a cup of rice and a bit of monkey or mule meat, washed down by water from turbid streams and stagnant pools.

The marines and doughboys on Guadalcanal missed many a meal.

People die by hundreds in the streets of Athens—from starvation.

In this country people who have to take their meals downtown because they haven't time or transportation to go home to lunch may have to take priority over persons who could eat at home, but are too lazy to cook or too determined to make things easy on their personal ration cards.

In Washington and ex-congressman is disturbed by the amount of food people leave on their plates in restaurants. In Wisconsin they have organized a clean-plate club, if no leftovers allowed. In our Aunt Fanny's home, if you left anything on your plate, you'd eat it at the next meal or go hungry. She got that way in 1863-65.

We Americans aren't heavy eaters as peoples go. We are heavy wasters of food. The average European family even in normal times could live on what the average American family throws into the garbage pail.

We've got to cut the waste, may even have to take up a notch or two in our belts. That will be good for our health—and it won't do our immortal souls a speck of harm.

### The Way To Prevent Fire

Many of the safety requirements of the modern fire ordinance applicable to places of public assembly which was drawn up by the National Board of Fire Underwriters subsequent to the Boston night club fire tragedy, could be carried out easily and promptly. Many fire deaths occur in such places because proprietors are unaware of the deadly danger of hazards created by temporary decorations, overcrowding, thoughtless changes in seating arrangements, inadequately marked exits and other dangers contingent upon confusion and crowds. The ordinance represents a scientific approach to these problems. It is written in language that the layman can understand. Many fires could be prevented by giving a copy of it to every person whose business involves large gatherings of people.

For example, it states that: "The aggregate clear width of doorways serving as required exits shall be not less than at the rate of 22 inches for every 100 persons to be accommodated. No exit doorway shall have a clear width of less than 34 inches, corresponding to a nominal 36-inch door, except that existing exit doorways having a clear width of at least 24 inches may be accepted." Much more information is given on the subject of exits, including type of doors, marking and lighting and stairways.

Combustible decorations receive detailed attention. They are the starting point of many fires and under the ordinance, "shall be rendered flame-proof."

Those responsible for lives in places of public assembly should urge adoption and enforcement of a modern fire ordinance of this nature.

### Lop-Sided Growth

Everybody old enough to vote has witnessed Earth's years of highest scientific achievement. Even now, unnatural needs of war are speeding up this already dominant trend in human progress. Engineering feats keep the nation agog. Those who stand on the sidelines of scientific activity marvel at today's wonders and speculate on those of tomorrow. A now familiar quotation is: "It takes some time to do hard things; the impossible takes a little longer."

Government is the only field in which the human race currently is making a failure. If we are to believe most of what we read, humanity's drive toward good government is in reverse. The world is more despot-ridden now than it was at the dawn of history, and the day seems far away when peoples shall manage their mutual affairs with intelligence and kindness. Our progress has been lop-sided.

No Ordinary Year  
But the year 1943 is no ordinary time, no more than was 1776. The United States is the only sizable stronghold of human freedom left, not shell-shocked with war or pock-marked by dictatorship. Even here, with the nation's enormous strength massed in self defense, people of small capacity sometimes show symptoms of power intoxication, but not all the signs are discouraging. A new and wholesome interest in national affairs has spread across the country in the last three months, and it is most heartening.

There have been isolated years of great governmental achievement in the past; high peaks of history. These have not been occasions when tyrants followed in the wake of famine, compelling hungry people to swap freedom for bread. They have not been campaigns when brute force was subduing one and then another inoffensive nation. They have not been times when power was being centralized. This year could be another big year.

Years of Progress  
Great days of governmental achievement have been times when power was twisted from the fists of a few and put in the hands of many, where it belonged. The occasions have been cited so often in high school orations that there is no reason to catalog them here, but this is worth remembering: The United States became a world power in record time because it was free. Mundane authority has always been in the right place; in the people.

It has been charged by some that the recent great concentration of power in the New Deal's bureaucratic organization has led to the abuse of authority. If true, it is a blessing in disguise, for nothing could ever demonstrate the evils of over-centralized power so plainly and so quickly as the abuse of authority. It is the nature of men, when they acquire great power, to abuse it. Trying to remedy the

cattlemen of Stonewall county, had business here yesterday.

We understand that representatives of two Stamford lumber firms were here this week spotting locations for lumber yards here in the event the Rock Island railroad is extended to this section.

T. A. Redd, a stockman of Stonewall, was here Thursday and closed a trade with John E. Robertson for the latter's ranch in Stonewall county, which consisted of four sections of school land held under purchase and six sections under lease. Consideration in the deal was reported at \$7,500.

Mr. and Mrs. Virgil Norman of the Marcy neighborhood were in town Wednesday closing up a land deal.

Messrs. W. T. Andrews and T. J. Wright, leading lawyers of Throckmorton, had business in our city this week.

### On The Home Front . . . . .

The nation's farmers have suddenly become an important factor in the government's drive to stamp out a black market in meat which has been draining the supply from the armed services, lend-lease and legitimate civilian consumption.

The black market operator not only has been selling meat above ceiling prices and wasting vital by-products but he has also become a menace to the nation's health, selling meat which has not been properly chilled and which has not been inspected.

In order to stamp out the black market operator, the government has taken several steps which will protect the legitimate slaughterer.

Three orders have been issued by the Food Distribution Administration in connection with the national meat management program. They are:

1. All livestock slaughterers who sell meat, including farmers and local butchers, to operate under a slaughter permit system, and, as an aid to enforcement, to stamp their permit number at least once on each wholesale cut.

2. All livestock dealers to obtain permits to buy and sell livestock and to keep complete records of their operations (Farmers are not required to obtain dealer permits but they are asked to keep records of their purchases and sales).

3. All slaughterers operating under federal inspection to set aside for war uses designed percentages of their production.

The permit orders become ef-

evils of bureaucracy is useless, like perfuming a skunk. The only remedy for a nuisance is disposal. The more indignation the better at puppet rule anywhere.

It is clearly time for government to start decentralizing again. Nations are like men: Relieved of the necessity of thinking and working, they unmistakably drift back toward the primitive. Even the ability of people to govern themselves can be destroyed, simply by doing it for them. Nothing better could happen to America than to watch the stagnant bureaucratic power in Washington quietly drawn off and permitted to flow back to the state, county and township whence it came.

Why has the age in which we live developed unevenly? Why have the achievements of engineering been superb, the failures of government so abject? These are fair questions which can be answered nationally.

#### Rule of Procedure

There is wisdom greater than any man possesses. There are fixed laws that limit human discretion and determine sound judgment. Men can succeed only as they discover these laws and harmonize their own deeds with them. Men of science have succeeded because with test tube and micrometer, they have studied God's laws and followed along. Men of government have not.

Representative Hutton Summers of Texas, head of the Judiciary Committee of the House of Representatives, in an informal talk recently declared, "It can be proved as before a jury that it's God's will for government to emanate from those who are governed." I believe it, and suggest no evidence here except that a jurist of Mr. Sumner's stature says it can be proved.

An alarm-clock is a horrid thing sometimes, but it serves a useful purpose. Such are the stupid mandates from an assembly of miscellaneous misfits. Americans hate being bossed for no useful purpose, and now their sweet dreams of peace beneath the sheltering wings of an alphabetical brain-trust have been disturbed. They are waking up to do something about it. Congress has sensed a change in public temper, and has named a committee to investigate the use by bureaus of unauthorized authority, and their wasted man-power. Congress is to be commended. The people have representatives.

fective April 1. The set-aside order has been in effect since March 5.

Extension of point rationing on March 29 to cover meats, cheese, butter, fats and oils has raised several problems for the farmer, especially if he slaughters any animals or selling off the farm.

A "farm slaughterer" is defined as a resident farm operator who in 1941 delivered meat having a total live weight of not more than 10,000 pounds. If he is engaged in selling meat in 1943, he must—

1. Secure a slaughter permit from his county USDA War Board (not the OPA War Price and Rationing Board) by March 31. To qualify for a permit he must be operating under federal, state county, or city inspection, or must certify that he has adequate sanitary and other facilities for slaughtering.

2. Furnish with his application the information called for as to the amount of meat he slaughtered in 1941. If he is unable to do so he may either (a) accept a quota for 1943 of 300 pounds of meat to be sold or (b) sell the meat from three animals, including not more than one head of cattle.

Each farm slaughterer is required to collect extra ration points, according to the official schedule of point values for each ration period, and he must make complete reports on all meat sold or transferred by him. Price ceilings apply to all meats sold, and beef, veal, lamb and mutton must be graded according to U. S. Department of Agriculture standards.

Regional OPA and Food Distribution Administration officials urge all farmers who are engaged in slaughtering and selling of meat to check immediately with their county USDA War Boards and OPA War Price and Rationing Boards for further information on restrictions aimed at preventing black market operations, obtaining adequate supplies of meat for direct war needs, and aimed at securing the necessary control over the supply of meat so that it can be fairly distributed through consumer rationing.

Farmers who have been meeting increasing difficulties in securing tractor tires received encouraging news from the Office of Price Administration this past week. Tire dealers or persons selling or servicing farm equipment who need rear-wheel tractor tires to serve their customers will be able to get stocks for this purpose, the OPA announced. The amendment to the regulations provides that applicants may be al-

### Weekly Health Letter

By Dr. Geo. W. Cox, State

Austin, Texas—Governor Coke R. Stevenson has named April 4 to 10 Health and Clean-Up Week by official proclamation, and expressing his appreciation for this act, Dr. Geo. W. Cox, State Health Officer, declared today, "The old adage that 'cleanliness is next to godliness' from the practical standpoint is well worth emphasizing."

Cities and towns in Texas will observe this week by conducting clean-up programs of far-reaching range. Scheduled to be included in their activities are cleaning, draining, graveling streets and alleys, cleaning parks and playgrounds and clearing off vacant lots.

"Destruction of mosquito breeding places and fire hazards, and the proper disposal of garbage and trash will be encouraged," Dr.

lotted enough of these large casings to bring the inventory of each establishment to not more than six. Tubes for these tires are to be allotted on the same basis. Application is to be made on OPA Form 60 to the OPA state director or district manager having jurisdiction over the area in which the establishment seeking the allotment is located.

A developing black market in white seed potatoes, which were being sold for human consumption at fancy prices, has been nipped by government action. Their sale is now prohibited except for planting, and a fixed price carries them 75 cents a bushel above table stock prices.

High protein feeds, needed to secure production of high protein foods, such as milk, eggs, and meats, are so much in demand that supplies of high-protein concentrates must be fairly distributed, with no waste whatever, if they are to meet minimum feed requirements this year. There are sufficient amounts of these feeds available, providing that farmers feed distributors, and feed manufacturers cooperate in adopting conservation measures.

Cox said, "as well as a spring house-cleaning and homes. Good and ordinary sanitary demand the prompt removal of all waste matter in yards and homes in order the premises clean. To prevent the spread of diseases, and no doubt material will be collected and aid in our war effort."

Dr. Cox urged that cooperate in making Clean-Up Week a success since its worthwhile is to lessen need by fire and help maintain highest possible health in this State.

# Water Rates Reduced For Victory Gardens

The production of food is one of the most important contributions to the war effort at the present time. The Government is urging every family to plant a Victory Garden in their back yard.

To assist in this effort the City Council has authorized the following rates which will be in effect from the last meeting reading on March 20:

Special Minimum Rate For 20,000 Gals. . . . . \$3.00

All water used in excess of 20,000 gallons minimum will be billed at 10c per thousand.

If you wish to take advantage of this special rate be sure and notify the City Water Department at once.

Valuable information on how to grow a Victory Garden can be secured from the Home Demonstration Agent regarding seeding, cultivation and spacing of vegetables. In regard to the use of water for the best results—do not sprinkle your garden too often. When you irrigate wet thoroughly and then cultivate it carefully. It takes less water and grows more vegetables.

Geo. B. Fields and F. L. Peavy were elected as Aldermen in the City Election held this week. Hold-over city officials are R. C. Couch, Mayor, M. H. Post, Secretary, W. M. Reid, John E. Fouts and Len B. Hammer, Aldermen.

At a recent meeting of business men of Weimert, a Commercial Club was organized with the following officers: A. R. Couch, president; E. Meyer, vice-president; and H. N. Therwanger, secretary-treasurer.

Three young men of Haskell have been arrested by county officials and charged in complaints with arson. The complaints are in connection with the recent fire in which the old skating rink building north of the square was destroyed.

Lee Pierson, one of Haskell county's old timers who has been spending several months in California, arrived here this week and states that he expects to remain until Fall.

E. L. Jeannes and family of McKinney, who have been visiting their daughter and sister, Mrs. Chas. M. Conner of this city, returned home Sunday morning. R. C. Montgomery and R. E. Sherrill were in Graham last week in behalf of Haskell's effort to secure the location of the Texas Technological College in this city.

A well-known Stonewall county man was convicted and given a 5-year prison term for selling

whiskey, by a jury in District Court at Anson Monday. The State was represented by District Attorney Tom Davis of Haskell.

Thomas, the 13-year-old son of Mr. and Mrs. Mike B. Watson was seriously injured about the head Tuesday afternoon when attacked by a vicious bulldog while the boy was herding some cattle near the stock pens. The dog was killed and its head sent to Austin, where examination revealed the dog did not have rabies.

A State Veterinarian this week directed that sixteen head of livestock in the Rochester section be killed, as the animals had been found affected with glanders.

### 30 Years Ago—April 5, 1913

It is reported that mining interests of Chicago are considering a proposition to build a smelting plant near Lueders, in Jones county, where ore deposits containing copper in paying quantities has been discovered.

Master T. J. Lemmon, Jr., left this week for California, where he goes to join his older brother, Raleigh, who is employed in that state.

Charley Crane had a small fire at his home Thursday evening, but it was soon extinguished with slight damage.

Ira Ellis left last week for Richmond, Texas, where he will be with I. P. Carr in the dry goods. Mrs. Ellis, who is visiting in Hamlin, will join her husband at Richmond in a few days.

Mr. and Mrs. George E. Courtney and family have moved to Stamford. Mr. Courtney established and operated the Haskell Broom Factory here for several years.

W. W. Johnson, sheriff of Gonzales county, spent several days here last week visiting his brother-in-law, Watt Fitzgerald.

J. B. Lamkin is now with W. A. Carlisle blacksmith shop. Mr. Lamkin is an expert smith and mechanic.

R. W. Herren and son shipped five cars of fat cattle to the Ft. Worth market, this week from their ranch west of town.

L. C. Kinney was called Wednesday to Austin on business in connection with his soft coal briquetting company.

H. W. Owens of Ashland, Ala., came in a few days ago and has accepted a position as pianist at Dick's Theatre.

C. D. Grissom returned Tuesday from Odessa, where he went last week on a business mission.

Miss Ruby Fitzgerald returned Thursday to Burk Burnett, after a visit here with her parents.

They're landing in the most advantageous spot from which they may start an attack on a village. Below: Now, with a blast of machine gun and rifle fire, the troops advance toward the "village" they're to occupy. They watch for snipers' fire and booby traps. Having reached the outskirts of the village (upper left), each man chooses his own route of approach as the unit advances from house to house.

Laugh, and the class laughs with you.  
 Flunk and you're not alone!  
 By Billy Decker

**Overheard**

Janice: Let me alone, I'm mad.  
 Sue: What are you mad about?  
 Janice: Because Mr. Scott isn't going to speak to me but one more time.

**Miss Couch: Every time two people kiss, they shorten their lives three minutes.**

Albert Lee: I'm living on borrowed time.

**Billy: It's a fake!**

Lonnie: What's a fake?  
 Billy: The book "Frankenstein" is supposed to be hair raising, but it's not. My uncle read it three times and he is still bald headed!

**Wanda: Florene what is the best way to get a wart off your hands?**

Florene: Shoot him or marry him.  
 P. S. You couldn't be referring to Virgil Cobb, could you?  
 Now to turn from the fantastic to the sublime—poetry. This week we have two very inspiring poems.

Since 45 days before Pearl Harbor the Humble Oil and Refining Company has been producing more Toluene (basic ingredient of the deadly T.N.T.) than was formerly available from all other combined manufacturing sources in the entire United States. Furthermore, the production of this toluene by this Lone Star industry is over double the amount produced in World War I from coal tar. As in the last war Texas crude is in the forefront of vital material for war!

**EVERY COTTON GROWER NEEDS CERESAN THIS YEAR!**  
 Every cotton grower now needs CERESAN to help keep disease losses low and yields high—to avoid serious waste of seed, fertilizer and labor. CERESAN treatment of cottonseed generally reduces seed rotting, scab and certain other seed-borne diseases; commonly gives stronger stands; usually increases yields, often 10 to 25%. Inexpensive. Easily-applied. Treat your own seed, or buy seed marked with the CERESAN Certificate Tag. See your dealer!

**TREAT OTHER SEEDS, TOO!**  
 Use Ceresan for all seed crops. For protection of many types of vegetable, tomato, beet, potato.

**When a Feller Needs Another Hand**

Butch is in a predicament . . . one that isn't covered by military training. While he certainly could use another hand, we're betting that Butch will find a way to handle the situation.

In fact, most every businessman, farmer, stockman . . . every producer in West Texas today . . . knows just how he feels. They, too, need another hand.

Your Electric Servant has the same problem. Right now, we're being called on to balance good service and low rates against fast-climbing operating costs and shortages of material.

We're doing it, too. Filling every wartime order ahead of schedule in addition to your normal peacetime needs. And besides that, we're balancing a big plate of taxes.

Don't get us wrong. We know the necessity of heavy wartime taxes. We're proud that ours was a sizable portion of the \$620,000,000 in taxes paid last year by America's business-managed electric companies. That was 23c out of every dollar paid for electric service. The total of \$620 million dollars was enough to outfit 1,687,762 soldiers like Butch.

We're proud, too, that there has been no rationing of electricity . . . and no increase in cost to you!

How is it possible to do this . . . pay heavy taxes, overcome shortages of material and manpower?

Well, the credit goes to sound, well-balanced business management. And because our trained and experienced organization of men and women are working together as a team.

But while America's electric companies, under business management, are doing all this, government and municipal (publicly operated) power systems are not paying a penny in taxes to help win the war.

Shouldn't every one do his full share?

**W. M. S. Meets**

The W. M. S. of the Rochester First Baptist Church met Monday afternoon, March 22, in the home of Mrs. Hob Smith for the business and social meeting of the month. In a short business meeting, the president, Mrs. Vestus Alvis presided. The local chairmen all made their quarterly report to be sent to the association. The Society plans to have a mission study book Monday, April 19. A nice box was packed for Buckner Orphan's Home to be sent immediately. Also the clothes for the 12-year-old boy we were asked to dress were put in the box.

After the business meeting the hostess, Mrs. Smith and co-hostess, Mrs. H. R. Barnett served refreshments of lemonade and cookies to the following ladies: Mmes. Henry Qualls, Floyd Hutchens, Scott Hutchens, J. M. Hicks, Bob Speck, G. Hicks and Vestus Alvis.

**Girl Scouts Enjoy Picnic and Hike**

The Girl Scouts accompanied by their leader enjoyed an all day picnic last Saturday. After riding part of the way and hiking part of the way because of the cold weather, the troop arrived at their destination. A large fire was built for warmth and a hunter's trench fire was built for cooking the noon meal. With all hands helping at the K. P. duties, a good meal was soon ready and enjoyed by all. After cleaning up camp the patrols laid trails for the other patrol to follow, using signs or markers. The troop is looking forward to an overnight camp soon.

**Former Rochester Girl Joins WAAC**
