HASKELL COUNTY HISTORY

Brief Notes Taken from Old Copies of The Free Press

20 Years Ago—Oct. 2, 1920

The Lake Creek School will begin the 1930-31 term on Oct. 27, with Mrs. Iva Palmer as principal and Mrs. William Woodson of Haskell and Miss Ruth Rice of Knox City as assistants. Thursday Oct. 16 has been designated as Wichita Falls Day at the Haskell County Fair, and Manager Turner E. Campe has been informed that a large delegation is coming from that city. Cotton ginnings in Haskell

county had reached a total of 2,268 bales on Sept. 16, compared to 597 bales ginned to the same date last year.

Jack Chamberlain, local salesman for the West Texas Utilities Company here for several years, has been transferred to Vernon.

Mrs. J. U. Fields and Mrs. F. T. Sanders attended a Missionary Society meeting in Tuxedo last week, where Mrs. Fields spoke on her recent trip to Europe.

Miss Galen Robertson, who is

teaching in Seymour, visited during the weekend with her parents, Mr. and Mrs. R. V. Robertson. Misses Marguerite McCollum and Eunice Huckabee have returned from a visit in Dallas.

Mr. and Mrs. T. H. Grayson and son, Robert of Emerson, Iowa, have returned home after a visit here in the home of Mr. and Mrs. R. L. Harrison and Mrs. Mary Blakeley.

District Court is in session here this week, with a number of criminal cases pending on the docket. There are seven cases for violation of the liquor laws, and five for burglary, set for hearing this week.

Mrs. John Oates is visiting friends and relatives in Dallas.

40 Years Ago—Oct. 1, 1910

The Haskell High School Athletic Association was organized Monday with the following officers: Earl Atchison, president; Maggie Moore, vice president; Allie Irby, treasurer; and Lee Killingsworth, secretary.

F. J. Lemmon, Haskell night-watchman, reports that on Monday morning about 2 o'clock he saw the most brilliant meteor he has ever seen, which streaked across the sky from west to east under the North Star. He said it was as large as the sun and lit up the night and made it as bright as day.

Whit Williams is breaking his land for next year's crop. He expects to have all his land turned under by Christmas.

Robert Reynolds has returned from New Mexico and is now with the John E. Robertson store at Weinert. Mrs. Reynolds spent several days this week with her

parents, Mr. and Mrs. W. T. Hudson. Mr. Steenson of Fort Worth, who is buying mules and shipping them, will be here again on First Monday to purchase additional animals.

Mrs. Zuma Jenkins of this city has purchased the \$10,000 residence of Cicero Smith at Mineral Wells, and she and her daughter, Erdith, plan to move to their new home around Oct. 15.

S. W. Scott shipped nine cars of cattle this week to the Fort Worth market.

Mr. and Mrs. A. W. McGregor have returned from Waco where they spent the summer.

Otto Mondrosky sold a bale of middling cotton to Haskell merchants Tuesday for 13 1-2 cents. This is the best price reported in this section during the current season.

Vernon Cobb was in from the Cobb ranch this week and spent several days with his parents, Mr. and Mrs. G. H. Cobb.

Hardy Grissom made a business trip to Goree Wednesday and he said there were thousands of acres of open cotton in this vicinity. He went in an automobile and said he saw signs on some farms fences stating that they wanted 50 hands on some farms.

50 Years Ago—Sept. 29, 1900

A. C. Foster states in an advertisement this week that he has more than 100,000 acres of land listed for sale in Haskell county in tracts from 80 acres up to from \$2.00 to \$5.00 per acre.

Porter Williamson and Charley Martin have opened up a restaurant in connection with their confectionery and fruit business.

L. B. Rogers, agent of the Illinois Central Railroad at Jackson, Miss., was here this week looking after some land interests he has in the county.

Several Cooke county farmers who had started to Stamford with loads of wheat this week, were caught here by the heavy rain Thursday and stored their grain here until the roads are more passable.

W. D. Dickenson made another sale of sheep this week, selling 1900 head to a Mr. Smith from the Devils River country at prices ranging from \$2.10 to \$2.75 per head.

Several Cooke county men have been here this week with the view of buying land and they left the impression that they would return soon with their families.

Aside from breaking a few tank dams and beating out some loose cotton and spattering dirt on the low cotton, the big rain last week did little damage here.

While S. S. Cummings and Jud Jones were out six or seven miles north of town Thursday working with cattle, Jud's horse fell, pinning him and breaking Jud's left leg above the ankle. Mr. Cummings came to town as quick-

ly as possible and Dr. Lindsey went out and set the broken limb, while Jesse and John went in a hack and brought the injured man home.

J. W. Johnson & Son bought 58 head of stock cattle from R. M. Grantham his week, at an unreported price.

Dr. F. M. Oldham crossed the flood waters and managed to make the landing in Haskell Tuesday, where he has since been busy repairing food grinds of various citizens.

Stove Seen As Worst Hazard For Children

The home's worst fire hazard for children is the stove, according to a 2-year survey of children's fire deaths by the U. S. Office of Education.

Of some 800 cases reported in newspapers of children dying in fires during this period, 265, or more than half, the known causes of the fires were stoves that exploded or stove fires that were quickened with kerosene or gasoline.

Warning against allowing children near stoves or other direct flame, the National Board of Fire Underwriters cautions parents not to leave children at home alone. In 250 of the fire deaths studied there was no adult in the house or nearby. In another 400 cases parents or other adults were in the house but the children were not under careful supervision.

Thirty-one children died as a result of playing with matches and another 204 from various other causes. In 300 cases the cause of the fire was unknown.

Indicative of the need for constant supervision of small children was the fact that more than half the children who died in these fires were under 5 years of age. Every year more than 2,000 children 6 years and under are killed by fire, the National Board suggests these rules for children's safety:

1. Place matches out of reach of young children.
2. See that they have constant supervision. If you call in a baby sitter, give her a telephone number where you can be reached during the evening. Be sure she knows how to call the house immediately, in case of fire.
3. If possible, keep children out of the kitchen.
4. Have a metal screen in front of the fireplace to protect children against sparks, and to keep them from crawling too near the open fire.
5. Don't dress children in flimsy cottons or net fabrics unless they have been flameproofed.

Nine Haskell County Farm Families To Be Honored at State Fair of Texas

Nine Haskell county farm families will be among the 300 FHA families honored by a special day at the State Fair of Texas.

House Speaker Sam Rayburn will be the chief speaker on Achievement Day at the State Fair of Texas, October 17, 1950. Rayburn's address will be a salute to more than three hundred farm families who will receive certificates of achievement for having paid their tenant purchase loans thirty or more years before due. These farmers less than 10 years ago borrowed 100 per cent of the money to buy and improve their farms and have paid for them in full with income from the farm.

Among other dignitaries who will be present for the ceremonies at Fair Park Auditorium on the State Fair grounds will be Dillard B. Lasseter, National Administrator of the FHA who will introduce the speaker.

Dallas office of the FHA has been informed that farm families are coming from all parts of Texas for the ceremonies which starts at 1 p. m.

Of the six thousand tenant purchase loans made in Texas since the program began in 1937, two thousand loans have been paid in full. 100 such loans have been

made in Haskell and Stonewall counties, and 50 of them have been paid in full.

The ceremonies include a radio interview of successful farm families. Among them will be Merrill J. Stewart, Lamar county, and FO borrower who was recently selected as the champion soil conservation farmer of Texas. Another will be Harold J. Dozier, Navarro county, and a third, Douglas D. Duty of Falls county, Radio farm program directors, Layne Beaty of WBAF, Fort Worth, and Murray Cox, WFAA, Dallas, will conduct the interview in an effort to develop better farming methods followed.

The interview with Stewart will feature his fifteen sources of farm income. Dozier has a varied type of program and the interview will be slanted to the home side of living. In the interview with Duty particular attention will be paid to cotton production and insect control, in which he has been unusually successful.

The nine farmers to be honored from Haskell and Stonewall counties are Mr. and Mrs. Beno A. Erdman, Mr. and Mrs. Paul A. Melton, Mr. and Mrs. John L. Grindstaff, Mr. and Mrs. Walter L. Nanny, Mr. and Mrs. Charlie C. Childress, Mr. and Mrs. Arthur J. Moody, Mr. and Mrs. Corbet Lytle, Mr. and Mrs. Eugene Assey, Mr. and Mrs. W. Clifton Green.

Weinert Bulldogs Lose To Knox City, 23-18

The Weinert Bulldogs, 1949 champions in District 4 six man football, were defeated 23-18 Friday night by Knox City High School on the Knox City gridiron. Narrow win of the victors, who lost to the Bulldogs last year, was made possible by points after touchdown, both teams having marked up an equal number of goal crossings in alternate order. A large crowd of fans and supporters witnessed the non-conference contest.

The scoring started early in the first quarter when the Bulldogs drove 55 yards on successive downs to hit pay dirt and forge ahead 8-0. Attempt to convert for extra point failed.

Knox City came back in the second frame to score, and added 2 points with perfect kick after touchdown, and retained their 8-6 lead at the half with the Bulldogs in possession of the ball and in scoring position when the whistle blew.

In the third quarter Knox City pushed over their second TD and completed a pass for extra point to run up a 15-6 score. The Bulldogs rallied for a determined march downfield which paid off but were unable to convert for extra point, narrowing the scoring gap to 15-12.

In the fourth period Knox City ran across another TD, with successful punt conversion for two points, pushing their score to 23 points. A determined Bulldog squad powered downfield in the final minutes of the game to score their third touchdown, but were unable to add extra point.

The Bulldogs meet the Goree High School tonight (Oct. 5) in a non-conference game, and next week meet Vera at Weinert Thursday night, Oct. 12 in another non-conference affair.

The Bulldogs open conference play Thursday Oct. 19 at Mattson. Remainder of the season schedule will find them playing McCaulley at Weinert Oct. 26 in a non-conference tilt; Paint Creek there on Nov. 2; and O'Brien at Weinert Nov. 9.

Your Pay Check Will Be Smaller This Week!

Withholding taxes will cut roughly one-fifth deeper into wage and salary payments after Saturday, promising more than 25,000,000 American workers a jolt next time pay day comes around.

Paychecks given out in October, regardless of the earnings period they cover, will catch the first impact of the new \$2.7 billion a year individual income tax hike. The higher taxes are aimed at: (1) Helping the government meet rocketing defense costs, now scheduled to hit a \$30 billion annual rate by next June, and (2) restraining inflation by cutting down consumer buying power. The \$2,700,000,000 extra federal tax take will reduce ability to buy—or to save, and invest—but it won't flatten it.

Mrs. Wayne Harris and infant daughter, Kathryn Diane, are here visiting in the home of Wayne's parents, Mr. and Mrs. J. B. Harris. They expect to join Wayne who is employed in Snyder, as soon as living quarters can be secured.

HASKELL VISITORS
Mr. and Mrs. Joe Allison of Vernon spent last Sunday with Mr. Allison's sister, Mrs. Grover Larned and Mr. Larned.

HASKELL VISITORS
Mr. and Mrs. T. C. Griffin and baby son, Scotty, of Seymour visited here over the week-end with relatives and friends.

Turkey producers should keep in mind the type of birds, as to finish, the consumers will be demanding when the marketing season gets underway.

Farms Should Be Checked For Fire Hazards Now

The week of October 8-14 is "Fire Prevention Week." Texas farm families can well afford to take time out during this week to check the farmstead for fire hazards. W. L. Ulich, extension agricultural engineer of Texas A. & M. College, says that regular checking of farm buildings for fire hazards will prevent many fires.

Each year in the United States, he says some 3,500 residents of rural communities lose their lives in fires. The farm fire loss amounts to about \$100,000,000 annually. Many farm buildings are underinsured or carry no insurance at all and with some building materials at all-time peak prices and others impossible to get, you just can't afford to have a fire, he says.

Since most farm buildings are

of wood construction and built with little thought for fire safety, care must be exercised at all times in the use of the buildings. Hay, grain, fuels and most other materials stored on farms burn rapidly and usually no fire fighting equipment is available for putting out fires while they are little. The wise thing to do then, says Ulich, is to remove the possible causes of fires on the farm.

He says that records kept by the National Fire Protection Association shows that most farm fires are caused by defective chimneys and heating apparatus; combustible roofs; lightning; spontaneous ignition; misuse of electricity; careless smoking and handling of matches and the improper use and storage of gasoline and other farm fuels.

A thorough check of the farmstead will reveal these hazards if they exist on your farm, and the needed repairs or removal of the hazards should follow their location, says Ulich. Delay could cost most any farmer, in a few minutes, all of the work he has done for years in getting on his farm good buildings and equipment.

Ulich points out that every farm should at least have available such fire fighting equipment as fire extinguishers, water pails and if water under pressure is not available, barrels filled with water and located at strategic points will help. Garden hose and a pressure water system provide valuable protection. Ladders should be available for reaching roofs or other high places. Cisterns or stock tanks located near the farmstead furnish good water supplies for the pumper trucks if a fire department is available. Family drills help to keep each member of the family informed on how to operate the equipment and how to get it into operation in the shortest possible time, says Ulich.

He suggests that this might be a good week for your community improvement group to look into the possibilities of organizing a rural fire department in your community. Don't, he says let the week pass without doing something on your farm to prevent fires.

Fund Raising Drive Launched For Warm Springs Foundation for Crippled Children

Fund raising efforts were launched September 25 for the Gonzales Warm Springs Foundation for Crippled Children, Texas chartered non-profit treatment center for boys and girls afflicted with polio and other neuro-muscular ailments. Mrs. J. Howard

Hodge of Midland is co-chairman of the Foundation Committee with Governor Allan Shivers. Volunteer committee chairman in counties throughout the State will localize the drive.

Ultimate goal of the rapidly advancing institution is a million-dollar expansion program to meet the critical need for more bed space and advanced equipment to serve adequately the Nation's largest state which has been scourged by a polio rampage in recent years. For the past two years, the Gonzales Foundation has operated at capacity of 115 beds.

The treatment center, formed in 1937, and fully approved by the American College of Surgeons and American Hospital Association, is expected to become the Nation's first accredited hospital specializing in physical medicine specialists in Texas, and has advanced important developments in the field. One of the leading exponents of hydrotherapy, he has brought and developed many underwater treatment innovations to the Texas Foundation and is assisting in formulating plans for a large scientifically designed building to embody all forms of physical therapy treatment.

Other plans for improvement include a modern clinic and much needed reception and recreation center and dining unit. Facilities for the ever-growing "out patient" department also will be enlarged upon, and parent-training programs for post-hospitalization treatment will be conducted.

Though the Foundation hospital was not founded for polio patients alone, a majority of the patients at the present time are polio victims. Proper treatment of a polio victim in the post-acute stage is vitally important in physical and psychological effects of the disease on the patient. At Gonzales Warm Springs Foundation, patients receive 24-hour-a-day treatment from vigilant and highly skilled doctors and technicians.

Modern "Betsy Rosses" all over Texas and the nation are busy making United Nations flags. They are to be flown alongside the Stars and Stripes on United Nations Day, Oct. 24.

Formal opening at McMurry College of the Radford Memorial Student Life Center is scheduled during the dedication program October 10 and 11. Result of a \$600,000 gift by Mrs. J. M. Radford of Abilene, the building, with its 110-foot tower, is already a part of the Abilene skyline. A 1,300-capacity auditorium will be used for both religious services and entertainments. A smaller auditorium, game rooms, and meeting rooms are provided for social events. President Harold G. Cooke expects persons from West Texas and New Mexico in Abilene for the program.

Camp Fire Girls To Observe Fire Prevention Week

Building a camp fire and extinguishing it properly, along with knowing how to do both are important steps in being a good camper.

Camp Fire Girls are celebrated for their ability to start a roaring blaze in practically no time at all without resorting to paper, canned heat and other civilized gadgets, but then understand that knowing how to extinguish a flame is equally important.

During Fire prevention week, October 8-15, Camp Fire Girls are paying particular attention to fires; those that shouldn't start at all and those that, have been built for a purpose, should be carefully doused when a campsite is left.

Fire Prevention is closely connected with safety, the theme of Camp Fire Girls 1950 Membership March. Although the girls have given primary thought to safety on wheels, in the home and as pedestrians, this week fire prevention will be in the spotlight.

ATTEND FUNERAL OF RELATIVE IN BARTLETT

Mrs. Sue Eastland and Doyle Eastland attended the funeral of Mrs. Eastland's brother, Walter G. Holt in Bartlett Monday, Oct. 2.

"Feed the Land and Fatten the crops" should be the slogan of every Texas farmer. The practice of planting inoculated and fertilized legumes is the best method for doing the job. Now is the time to plant winter legumes.

Crop Yields Up Where Land Given Proper Care

"Feed the land and fatten the crops" is a good slogan for Texas farmers to adopt, because plants must have plenty of the right kind of food in order to grow well and produce big yields, says E. A. Miller, agronomist for Texas A. & M. College Extension Service.

Good crops cannot be grown without sufficient plant food, even when the best seed and cultivation methods are used. Miller points out that plants also need plenty of water and suitable soil conditions to grow in.

He states that feeding the land by plowing under a well-inoculated and fertilized legume is the best way to provide these important items. Legumes supply plant food, especially the high-priced and badly needed nitrogen, which they get from the air by means of bacteria in the nodules on the roots.

Organic matter or humus, supplied by the legumes when they are plowed under, improves the condition of the soil and thus makes it more suitable for plants to grow in. And the more organic matter there is in the soil, the more water there will be for the plants because the vegetation that decays in the soil acts like a sponge and increases the water holding capacity of the land.

Miller reports that increased cotton yields of over 100 pounds of lint per acre were obtained when cotton followed hairy vetch on the East Texas Experiment Substations at Nacogdoches and Tyler. And corn yields were more than doubled at these substations. On the more drouthy soils at College Station, vetch increased cotton yields 59 pounds per acre.

At the Temple substation in the blackland area, cotton following phosphated and inoculated hubam sweetclover produced a five-year average of 315 pounds of lint per acre—and the hubam was harvested for seed before being turned under. On similar land where no legumes were planted, the 5-year average was 165 pounds of cotton per acre.

The sweetclovers hubam, Madrid and annual yellow blossom, increase the yield of crops that follow them. Hubam and annual yellow blossom are especially beneficial because they also reduce losses from cotton root rot. To farmers who are troubled by cotton dying on the blackland, Miller recommends the planting of these two sweetclovers in the rotation, for a seed crop, for grazing and to be plowed under green.

Befriendly—make friends—join the Camp Fire Girls in their annual Membership March.

CENTRAL WEST TEXAS

With the warmth of a friendly greeting we welcome you to the Fair. Especially do we take pride in you livestock raisers, farmers and farm women, who have made possible the many shows to be staged this year. We know many of you well, as our patrons and personal friends. The progressive spirit you have shown is the spirit that has advanced Haskell County to the forefront in West Texas.

In step with this progress, we are now, more than ever, able to serve you with Butane Gas and a complete line of appliances—once a luxury, now a necessity of the modern improved ranch or farm.

WATER ACREAGE ALLOTMENT FIXED ON 1951 CROP

The cotton supplies and the crop this year led the government to lift restriction on production next year and on larger crop.

Announcement was made in Washington Tuesday.

Department of Agriculture announced that farmers will be allowed to grow all the cotton they want. Rigid acreage allotment and marketing quotas in the 1951 crop.

The secretary's action came on the heels of a sharp advance in cotton prices this summer and an increase in demands from both domestic and export markets. Some of the increase grew from the defense program.

Brannan said at least 16 million bales of upland cotton should be grown next year—an increase of about 6 per cent over this year's small crop of about 9,882,000 bales.

Lifting of restrictions also applies to long staple cotton, a specialty type grown largely in irrigated areas of the Southwest.

The cotton situation has changed drastically during the past 12 months. A year ago, the country was confronted with heavy surplus—a fact that led the government to impose controls on this year's crop.

But production fell considerably below the goal of the control program and market demands were greater than officials had expected. As a consequence, surplus stocks controlled by the government and valued at more than \$1 billion have been snapped up by merchants, mills and exporters.

Brannan said he did not fear the possibility that removal of controls might lead to overproduction again. He said it was in

Larger Social Security Checks Due This Month

Each of the 2600 social security beneficiaries in this area will receive a substantially larger insurance check during the week of Oct. 1, according to Ralph T. Fisher, manager of the Abilene office of the Social Security Administration. Throughout the country, the September checks for old-age and survivors insurance went into the mails on their usual schedule, the second day of the month, but the three million beneficiaries who receive them will find that the amounts have been increased as authorized by the recent amendments to the Social Security Act.

The amendments, signed into law by the President on August 29, provided that larger payments should begin for the month of September. "I have received word," said Fisher, "that the checks were all ready to go into the post offices in the last mail on October 2, at the Treasury distributing offices. This should mean that most beneficiaries received their new larger payments on Tuesday, Oct. 3, or a day or two later if they have normally been getting their checks on the 4th, 5th or 6th."

The increased September payments will be made automatically to all those who received August checks and are still eligible. Fisher said that new claims filed since early August are in process. Increases range from 100 per cent for those who were receiving the lowest amounts under the old law, to about 60 per cent for those whose payments were in the higher brackets. The August payments in this 16-county area, paid under terms of the old law, amounted to about \$43,000. The new monthly payments to be received next week will total approximately \$82,000, the local manager estimates.

Each new monthly benefit is based upon a table of increases set forth in the law. The table shows exactly what each new payment is to be, depending upon the previous benefit rate.

"Acting under the directive of Congress to make the first full month's payment after passage of the law show the new increases, area offices of the Bureau of Old Age and Survivors Insurance have worked all out to make the necessary changes quickly in the payee records of the 3,000,000 beneficiaries. Cooperation of the Treasury Disbursing Offices, who actually write the checks, brought 'em job to completion in record time," Fisher said.

Larger Social Security Checks Due This Month

Each of the 2600 social security beneficiaries in this area will receive a substantially larger insurance check during the week of Oct. 1, according to Ralph T. Fisher, manager of the Abilene office of the Social Security Administration. Throughout the country, the September checks for old-age and survivors insurance went into the mails on their usual schedule, the second day of the month, but the three million beneficiaries who receive them will find that the amounts have been increased as authorized by the recent amendments to the Social Security Act.

The amendments, signed into law by the President on August 29, provided that larger payments should begin for the month of September. "I have received word," said Fisher, "that the checks were all ready to go into the post offices in the last mail on October 2, at the Treasury distributing offices. This should mean that most beneficiaries received their new larger payments on Tuesday, Oct. 3, or a day or two later if they have normally been getting their checks on the 4th, 5th or 6th."

The increased September payments will be made automatically to all those who received August checks and are still eligible. Fisher said that new claims filed since early August are in process. Increases range from 100 per cent for those who were receiving the lowest amounts under the old law, to about 60 per cent for those whose payments were in the higher brackets. The August payments in this 16-county area, paid under terms of the old law, amounted to about \$43,000. The new monthly payments to be received next week will total approximately \$82,000, the local manager estimates.

Each new monthly benefit is based upon a table of increases set forth in the law. The table shows exactly what each new payment is to be, depending upon the previous benefit rate.

"Acting under the directive of Congress to make the first full month's payment after passage of the law show the new increases, area offices of the Bureau of Old Age and Survivors Insurance have worked all out to make the necessary changes quickly in the payee records of the 3,000,000 beneficiaries. Cooperation of the Treasury Disbursing Offices, who actually write the checks, brought 'em job to completion in record time," Fisher said.

TOWN SUIT FOR FALL

A town suit of cotton corduroy is a must in the wardrobe of both school girl and career girl this fall. A new cotton corduroy, sheer and soft like chambray cloth, is used by Stephanie Kores of California for this all-purpose corduroy suit. Its style details include a wrist-length jacket with belted back and slim, flattering skirt, according to National Cotton Council fashionists.

Be Sure and Attend— THE CENTRAL WEST TEXAS FAIR HASKELL—OCT. 10, 11, 12, 13 and 14

You will enjoy every minute of the time you spend at the Fair — because this year's exposition is bigger and better than ever before—exhibits in all departments are the largest in many years, and entertainment attractions for every member of the family have been planned to make your visit an enjoyable one.

Holds Everything... on any hill!

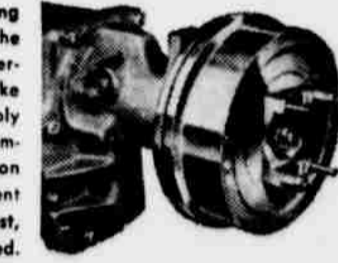

No matter how steep the grade... you can park your Chrysler and it won't roll. With Chrysler's new "Easi-Lock" Parking Brake you have three times ordinary braking power. Yet only one-third the effort is required to pull it on with your finger tips. Nothing you've ever used equals its ease and sureness. No straining—yet once it's on, nothing can budge your car. It's just one more new advantage that puts Chrysler still further ahead in safety! Just one more good example of the built-in value all the way through that we believe will make you a Chrysler buyer for life. Come in today for the demonstration that will prove you can't beat Chrysler for extra money's worth through and through.

New Easi-Lock Parking Brake

...with 3 times ordinary braking power!

Amazing Chrysler engineering development. Only 1/3 the hand pull required. New internal expanding parking brake is self-energized to multiply effective braking power. Completely enclosed. Mounted on propeller shaft—independent of wheel brakes—the safest, surest brake you've ever used.

- | | | | |
|--|---|--|---|
| <p>See it—drive it... there's built-in value all the way through!</p> | <p>Chrysler Driving Advantages:
Fluid Drive... automatic gear shifting with sensitive over control. High Compression Efficient Engine... extra power of all speeds. Superfinished parts for longer life. Chemically treated cylinder walls for greater wear! Waterproof Ignition System... prevents stalling in flood or storm. Full Flow Oil Filter keeps oil clean longer.</p> | <p>Chrysler Comfort Advantages:
Chair Height Seats... no crouching on the floor... Functional Design... room for your back, legs, shoulders. Easy to enter and leave. Constant-Speed Steering... eliminates road shock, wheel lift. Rubber Body Mountings... Absorbing Power... eliminates vibration, help give softest, smoothest ride in history.</p> | <p>Chrysler Safety Advantages:
"Easi-Lock" Hand Brake... holds car parked on any hill. Safety Rim Wheels... won't throw tires after blowouts at normal speeds. Constant Speed Windshield Wipers... electrically operated—won't slow down when you stop on gas. Self Guard Hydraulic Brakes... exclusive balanced brake power, smoother stops, less pedal pressure.</p> |

"Pep Squad Mothers" Organize to Promote Haskell High School Pep Squad

The mothers of the Haskell Pep Squad girls met September 29 for the purpose of organizing a club which will promote the activities of the girls' organization and provide means for its betterment.

Officers of Fidelis Class Installed Sunday Morning

The beautiful home of Mr. and Mrs. Olen Dotson was the setting for installation of officers of the Fidelis Sunday School Class of the First Baptist Church at a morning coffee Sunday, Oct. 1.

President's Evening Dinner Marks Opening of Harmony Club Programs

The current fall season for the Haskell Harmony Club was opened with the customary President's evening dinner and musical Thursday, Sept. 28, at the Home-making cottage with W. J. Dean and Miss Nelda Vaughter as guest artists.

East Side Baptist Sunday School Class Meets for Social

On Thursday afternoon members of the Ladies Sunday School class met at the East Side Baptist Church for their class social. Visitors included members of the Young Married Ladies Class and others.

Advertisement for Maurice Original clothing featuring a woman in a coat and the text 'There's Charm in Chinchilla'.

Corsages of dahlias were presented each guest by the hostesses. Incoming officers introduced were Mrs. R. C. Couch, Sr., president, succeeding Mrs. Marvin Waggoner, retiring president; Mrs. Norman Nanny, class teacher; and Mrs. J. F. Cadenhead, assistant teacher.

Mrs. Dean's clarinet selections consisted of several numbers. Nelda Vaughter accompanied Mr. Dean and presented two piano numbers, Consolation by Hans Listz; Witch Dance by Edward McDowell.

Others present for the opening program were Mrs. W. J. Dean and Mrs. Mittie Weatherby as guests; Mmes. R. L. Harrison, Mart Clifton, B. M. Whiteker, Leonard Florence, Cecil Gregory, Raymond Liles, J. F. Cadenhead, W. I. Coggins, A. C. Foster, O. W. Tool-gy, L. H. Cooper, Tommye Hav-y, Rev. and Mrs. T. S. McMullen of Vernon, Texas.

Refreshments were served to Mmes. Sallie Ammons, Emry Anderson, Beno Address, Albert Anderson, Leslie Cox, L. B. Denny, Earl Daniels, Frankie Gay, Fred Howard, Elsie McGee, Frank Patterson, Floyd Rogers, C. L. Lewis, Jesse Seets, Clovis Norton, Audue Stocks, J. A. Yancy, Lillian Banks, Ramond Melton, Jack Daniels, Bill Marr, Willie Farrel, Vena Corley, J. A. Wright, Lela Baggett, W. T. Priddy, Doris Roberts, Bill Shelton, Eva Nicholson, Lou Venia Keiso, Arthur Shelley, Joyce and Nelda Rose, the hostesses, Mmes. Chester Hodgin, T. L. Oliphant, John Lamkin, Claude Gordon, Cliff Nicholson, and Harry Howard.

Officers of Dorcas Class Installed Thursday Night

The Dorcas Bible class of the First Baptist Church met Thursday night, Sept. 28 at 8 p. m. in the home of Mrs. Faye Thompson. Ruby Alvis opened the meeting with a word of welcome for the new members and also introduced Faye Woodson, who installed the officers for 1950-51.

Haskell Visitors Are Dinner Guests In Munday Home

Mr. and Mrs. J. L. Blachard of Munday were host and hostess for a dinner honoring several guests from Haskell on Monday, Sept. 24. Guests included Mr. and Mrs. E. G. Graham and son, Rev. and Mrs. C. U. McMullen and family, Rev. and Mrs. T. S. McMullen of Vernon, Texas.

Spanish Club of HHS Holds First Meeting Friday

Los Indios, Spanish Club of Haskell High School, held its first meeting Sept. 29, during the regular class period. The program, El Diecisis de septiembre, was under the direction of Dolores Burnett. The 16th of September is Independence Day in Mexico.

Officers Installed were:

- President, Candle of Faith, Trudie Gresham. First Vice President, Candle of Membership, Nerva Oates. Second Vice President, Candle of Fellowship, Allene Wheatley. Third Vice President, Candle of Service, Annie Pearl Lusk. Secretary, Candle of Records, Eula Mae Herren. Devotional Leader, Candle of Worship, Ruby Alvis. Social Chairman, Candle of Cheer, Pauline Derr. Pianist and Choirster, Candles of Praise, Betty Jo Clanton and Annie Pearl Lusk. Reporter, Candle of Publicity, Elyse Eastland. Group Captains, Candles of Success, Edna Burnett and Freddie Ballard.

Junior High P-TA To Begin Year's Work Oct. 12

First meeting of the year for the Junior High Parent-Teachers Association is to be at 3 o'clock Thursday afternoon, Oct. 12, at the high school auditorium. Mrs. Buck Calloway, president, has announced.

Mrs. Shelley Royall Named President of Elementary P-TA

With approximately 100 members present, a business meeting of the Elementary Parent-Teachers Association was held Thursday afternoon in the High School auditorium. The vice president, Mrs. Brown, presided for the meeting, and Mrs. Wix Currie led in prayer. Principal business was the election of a president of the organization, with Mrs. Shelley Royall being elected to the office.

Miss Pat Harrison Directs Traditional Student Ceremony at NTSC

DENTON, Texas.—Pat Harrison of Haskell directed the traditional Big Little Sister Adoption Ceremony held recently at North Texas State College. Sponsored by the NTSC Women's Forum, of which Miss Harrison is president, the annual candlelight ceremony is held in the NTSC main auditorium. During registration upperclassmen select a freshman girl whom they wish for their "little sister." Each "big sister" offers counseling service and encouragement during the "little sister's" freshman year. Miss Harrison, daughter of Mr. and Mrs. Claud Harrison of Haskell, is a senior student majoring in secondary education at NTSC. She is a member of the Future Teachers of America and Phi Sigma Alpha, social sorority.

Children Will Honor Mr. and Mrs. D. R. Brown on Golden Wedding Anniversary With Open House

The children of Mr. and Mrs. D. R. Brown, prominent and highly-respected residents of Rochester for the past 40 years, will be hosts at an open house honoring their father and mother on their Golden Wedding Anniversary, to be held Sunday, Oct. 8, from 2:30 to 6 p. m. in the D. R. Brown home north of Rochester.

Liberty H-D Club Meets In Home of Mrs. Kendrick

The Liberty Home Demonstration club met Friday, in the home of Mrs W. J. Kendrick for an all day program. The club president, Mrs. J. F. Ragsdale presided. Roll call was answered by eight members, and reports of committees were given. Closing business was the elections of officers for 1951. They are: President, Mrs. J. F. Ragsdale; vice president, Mrs. J. B. Marr; secretary-treasurer, Mrs. Gerald Lytle; Council delegate, Mrs. H. Russell.

Rainbow Sewing Club Meets With Mrs. Johnson

The Rainbow Sewing Club met Tuesday afternoon at 2 o'clock in the home of Mrs. W. E. Johnson. The meeting was called to order by the retiring president, and a program of singing was in charge of Mrs. Flossie Rogers. New officers were installed, with Mrs. Patterson in charge of the installation services. Then the new officers took charge. The president appointed Mrs. Ethel Edwards as Needlecraft reporter; and a committee to visit the sick was named, composed of Mrs. Della Corzine, Stella Josselot and Velma Tooley. The Needlecraft report was given with Mrs. Patterson winning first place for having accomplished the most. Gifts were presented to the retiring president, secretary, and reporter. A gift also was presented to Mrs. Chapman, who was ill. Closing the program was a recreation period directed by Mrs. Patterson. Members were happy to have a visitor, Mrs. Lorena Fouts. A refreshment plate of homemade ice cream and cake was served to a guest, Mrs. Fouts, and the following club members: Mesdames Winnie Copeland, Annie Pearl Lusk, Travis Smith,

All friends of Mr. and Mrs. Brown are cordially invited to attend the open house during the afternoon.

They were married Oct. 11, 1900 at the little community of Indian Mountain in Comanche County, Texas. Mrs. Brown was the former Miss Nellie Underwood, member of a pioneer Comanche county family, while Mr. Brown had lived in neighboring Eastland county since early boyhood.

Children of the couple are J. D. Brown of Abilene, G. C. Brown and Mrs. I. F. Lee of Levelland, Mrs. J. C. Maupin of Austin, Mrs. H. C. Corley of Knox City, Mrs. J. C. Chamberlain of Baytown, and Mrs. R. C. Anderson of Lamesa.

Sallie Patterson, Eva Chapman, Della Corzine, Stella Josselot, Velma Tooley, Ethel Edwards, Flossie Rogers, Helen Johnson and little Cheryl Johnson, and the hostess, Mrs. Johnson.

The next meeting will be in the home of Mrs. Ruby Alvis.

Crippled Texas Girls Back Move For Cure To Mystery Muscle Disease

In the little South Texas town of Liberty, two crippled girls, who have been handicapped since childhood, are field marshals in a crusade which they hope some day may result in finding a cure for the mysterious muscular malady with which they and many others are crippled.

The crusade is against a mystery disease nicknamed "P. M. D." Spelled out, it's progressive muscular dystrophy. It's progressive because the condition grows worse. It's muscular because P.M. D. attacks the muscles. The muscles don't get nourishment; hence dystrophy.

There is no known cure. No one knows how many people are crippled by P.M.D.

As a result of efforts of the two victims at Liberty, physicians and others have become interested to the extent that this year the Muscular Dystrophy Research Foundation, Inc., was formed. Chartered by the State of Texas, the foundation is funded by a 12-man National Committee. Headquarters of the foundation are at Liberty, Texas.

The crusade began its painfully slow growth. The goals became clear: A national organization similar to the National Foundation for Polio-myelitis; money for scientists who will study the problem; awakened interest within the medical profession; erasure of public ignorance.

"And an accurate census of incidence of P.M.D. is vital," say the crippled sisters. "We want to know the name, age, and details of every case. We must have that information."

"We hope and pray a cure will be discovered soon. We know the odds are against this happening in time for us to benefit from it. But, if we can help to pave the way for the thousands of young children yet to develop the disease, or if we can give hope to the thousands in wheelchairs or still struggling to remain on their feet, we will be happy."

A Haskell victim of P.M.D. is David Wayne Cox, 7, son of Mr. and Mrs. O. W. Cox. Mrs. Cox has reported the case

Top headliners for Ice Cycles of 1951, which holds its world premiere Oct. 7-22 at Dallas Ice Arena during the State Fair of Texas, include beautiful Margaret Field and Jamie Lawrence. The 1951 show now is in rehearsal in London where the 1950 exhibition is completing a record three-month engagement.

Predatory Animal Control Remains Big Problem Throughout Texas

Predatory animals control is a big problem in Texas and its size is indicated by the annual report on the animal control operations of the U.S. Fish and Wildlife Service. The report reveals that 30,000 of the U. S. Fish and Wildlife during the control year 1949-50 by their hunters.

During the past year, predatory animal control work was carried on in 106 counties in the state by an average of 130 hunters. In addition to his work, a few ranch-

ers employed their own hunters, and game associations and county governments paid bounties for trapping the animals.

Of the 30,395 animals taken last year, 27,176 were coyotes. An important part of this catch included a total of 1,105 coyote pups which were taken from dens, mostly in the Lubbock area. A new record was set in taking a total of 2,829 bobcats in Texas last year. Since very few bobcats are caught accidentally while trapping coyotes, the number taken was primarily the result of a special effort toward bobcat control with steel traps.

Widespread control action in wolf country resulted in a total of 356 red wolves being taken last year, an increase of 50 per cent over the number taken in 1948-49. Although no specific full time projects are directed toward mountain lion control, 18 of these animals were caught by the hunters in addition to their other predatory control activities.

R. E. Callender, wildlife conservation specialists of the Texas A. & M. College, reports that county agricultural agents estimate the damage from loss of livestock and

Don Mitchell of Rule In Tackle Slot of McMurry Indians

ABILENE — Don Mitchell, tackle from Rule, will probably play a lot of football for the McMurry College Indians in their first home game of the season against Mississippi Southern College at 8 p. m. Saturday, Oct. 7.

Mississippi Southern has one of the most colorful "small college" teams in the nation. The hardy Southerners annually take on a pair of Southeastern Conference schools. Last year they scheduled Kentucky and Alabama. This year they carded Tennessee and Alabama.

McMurry will be seeking revenge for a 55-32 defeat handed the Indians in Hattiesburg last Wright of Mississippi, 32 legislators before Governor Fielding tors, and 10,000 other fans.

ATTEND FOOTBALL GAME

Mr. and Mrs. A. L. George and Mr. and Mrs. T. A. Hartsfield of Lubbock were visitors in the home of Mr and Mrs. J. L. Hartsfield Friday afternoon and attended the Haskell-Rotan football game.

Cotton farmers should plan now for the 1951 crop. Acreages will be up, good planting seed are likely to be scarce, early stalk destruction and the planting of winter legumes should be practiced and fertilizers needed for the 1951 crop should be bought now and stored on the farm.

poultry by predators to be more than \$1,000,000 annually.

Examples of the damage caused by predators are given in reports from federal field assistants and government hunters. Field assistant Darwin Ivy of Marfa reports that from June 10 to June 22, a female coyote is known to have killed a total of 12 sheep on the Frank Newman ranch, located 15 miles southeast of Marfa in Presidio county.

In May, Hunter Jim Shely was sent to the Briscoe Ranch in the northern part of Uvalde county, to catch a coyote which was killing lambs and kids. About 70 lambs and kids were reported killed by one coyote on the Briscoe and Joe Roberts ranches. Shely took the coyote in a few days.

An incident is reported by Hunter Teodoro Perez in which a coyote had been destroying watermelons. In one night, this coyote bit into six watermelons which were just pinking. Since these melons averaged 30 pounds each and were worth 5c a pound, this was a loss of \$9 in a single night.

According to J.E. Moore, assistant leader for the Texas Predatory Animal control district, Texas A. & M. College, predatory animal control work conducted on a cooperative basis, a portion of the cost being paid from federal funds appropriated for this purpose and a portion being paid by the local cooperator, which consists of an individual or a group of individuals, or counties. Hunters are employed on a monthly salary basis. Moore suggests that stockmen who need this service write C. R. Landon, Box 1941, San Antonio, Texas.

Haskell, Texas

SIX for supper and what to serve? Easy on the budget is Macaroni Meal-In-One. To 3 qts. actively boiling water, add 1 tsp. salt. Gradually add 6 oz. elbow macaroni. Cook until tender (about 12 mins.). Drain and rinse. While macaroni is cooking, melt 3 tbsps. butter or margarine in top of double boiler. Stir in 3 tbsps. enriched flour. Gradually add 1 1/2 cups milk, stirring until thickened. Add 1/2 tsp. dry mustard, 1 tsp. Worcestershire Sauce, 1/4 tsp. salt, 1 cup grated cheese. Stir until cheese is melted. Add macaroni and blend well. Pour half of macaroni mixture into bottom of well-greased 2 qt. casserole. Cover with 2 1/2 cups cooked drained green beans (1 No. 2 can). Top with remaining macaroni. Arrange 8 strips bacon over top. Cover and bake in moderate oven (350° F.) 15 mins. Remove cover and bake 15 mins. more.

No matter how clean your home, there's bound to be some dust in the air. An air filter, easily installed, on your forced warm air gas furnace screens out dust, keeps it from going through the house.

Emergency plumbing: A handful of soda and a half glass of vinegar poured down a stopped-up drain usually clears it.

A new control for automatic gas water heaters is marked Warm, Lukewarm, Hot and Very Hot to guide the householder to correct temperature hot water.

The equivalent of a 2 1/2-ton truck is lifted every year when women hang laundry on the line. An automatic gas dryer, controlled to any drying temperature, eliminates such laundry drudgery.

Quicker than a knife, and safer too, are kitchen shears for cutting up chicken, ham, salad trimmings and such.

Ft. Worth Minister Is Guest Speaker At Lions Club

The Rev. Winston R. Bryant of Ft. Worth was guest speaker at the Lions Club meeting Tuesday in the club room of the Texas Cafe. His message, based on the gospel of Luke, was enjoyed and appreciated by the entire group. Rev. Bryant who is conducting a revival at the First Presbyterian Church was introduced by the church pastor, Dr. R. K. McCall.

Five other guests of the club were introduced, I. S. Grindstaff, Frank Mindenhall, and W. A. Griffon, laboratory technician at the Haskell County Hospital; L. F. Oneal, formerly of Gainsville, and J. J. Pace of Fort Worth.

Club secretary, Horace Oneal reported a new member of the club, Kenneth Bass, local representative of the State Welfare department. The secretary also gave a report on the recent Zone Meeting held in Seymour, where a 100 per cent attendance mark was set with representatives from all clubs present.

Theron G. Cahill, Lions Club president, announced that no meeting would be held Tuesday, Oct. 10, in view of the fact that the date marks the opening of the annual Central West Texas Fair.

Next regular meeting of the club will be Tuesday, Oct. 17, in the Texas Cafe.

Fair Decorations Being Placed In Business Section

Members of the Haskell Volunteer Fire Department are to complete the work of decorating the business section tonight for the Central West Texas Fair.

Work of getting the decorations in place was started Wednesday night at the suggestion of Fair officials, in order that they might be in place over the week-end and in readiness for opening of the Fair Tuesday.

The decorations will remain in place until the close of the Fair Saturday night, Oct. 14th.

Booster Trip—

(Continued from page 1)

tending the invitation stressed the many exhibits and entertainment features planned for the five-day Fair.

Nearing Seymour, the Haskell delegation was met by a group of Seymour citizens headed by Chamber of Commerce Manager O. McDaniel along with Sheriff Lott Keifer and Highway Patrolman W. H. Berry. Gathering on the courthouse square in downtown Seymour, the HHS band gave a brief concert, then were welcomed by Judge Joe A. Wheat, who praised Haskell as "a good town, and we wish you well in the success of your 1935 Fair."

Many Seymour people always attend the Haskell exposition and will be back this year, the trippers were told.

After a brief stop in Megargel, where an invitation to the Fair was extended to a small group, the trippers headed into Olney for lunch and an hour's stay.

In Olney the HHS Band marched through a downtown street, and the delegation was welcomed by Fire Chief Elmer Straley, Chamber of Commerce Manager Worth Coffey, and Olney business men Floyd Taff, Hal Hayes, A. A. Odell and Sam Furr. Mr. Coffey in behalf of Olney, thanked the Haskell delegation for the warm welcome given their Rodeo Caravan trippers last summer, and said that Olney people would attend the Fair in numbers. Spokesmen for the Haskell group gave a resume of events and attractions to be staged and invited attendance of Olney residents.

After lunch in Olney, the trippers made a short stop in Elbert, where a small group gathered to hear the CWT Fair invitation.

Then on to Throckmorton, for the final stop of the day, the trippers were greeted by a sizeable crowd. Following a band concert, Dotson outlined the CWT Fair program to the gathering, and invited all of Throckmorton to attend and take part in the Fair. Throckmorton livestock raisers are annual exhibitors in the Haskell show, the speaker recalled.

Second Day's Trip
Wednesday's schedule for the trippers carried them to the area

south and west of Haskell to twelve towns and cities in the area.

An unscheduled stop at Stamford, resulting from the cancellation of a part of Thursday's itinerary, found only a small crowd on hand to greet the Haskell delegation. Olen Dotson, as CWT Fair spokesman, invited Stamford people to attend this year's show.

In Anson, the next stop, the trippers were joined by the Butane Boys String Band from Abilene, square dance musicians who were to accompany them on the remainder of the trip. The caravan was welcomed to Anson by James Hestand, C. of C. manager of that city. A Haskell square dance team gave a dance exhibition, and an invitation was given Anson people to come to Haskell during the five-days Fair next week.

At Hamlin a fair crowd met the Haskell group, and in the square dance entertainment, the Haskell dancers were joined by Hamlin couples.

At Roby, the trippers stopped only briefly in extending Fisher county people an invitation to the Fair.

Arriving in Rotan for a noon stop, a large and enthusiastic group greeted the trippers. A spokesman for the Rotan delegation, pointing out that the two towns "have much in common," laughingly added "with one exception, you poured it on us in football," in referring to last week's Haskell-Rotan game. After an entertainment program, trip chairmen invited all Rotan to come over for the Fair.

Rounding out the afternoon schedule were stops at Jayton, Swenson, and Aspermont before the delegation headed back to visit Rule, Rochester, O'Brien, Knox City and Benjamin to complete the day's itinerary.

Three Room House Damaged By Fire Tuesday Morning

A small three room frame residence on North Ave. A, occupied by Mrs. Berta Lee Watson, colored, was badly damaged by fire Tuesday morning around 10 o'clock.

Ceiling and roof of the small structure was practically destroyed, along with most of the household goods and furniture before fighting equipment arrived and extinguished the blaze.

No one was at home at the time, and the fire is believed to have started from a defective flue in the kitchen of the residence.

Haskell National Bank to Observe Holiday Oct. 12

The Haskell National Bank will be closed Thursday, Oct. 12 for a legal holiday, in observance of Columbus Day.

Merchants and all other bank patrons are reminded to arrange their business transactions with the legal holiday in mind, in order that any inconvenience may be avoided.

Exhibitors Urged To Display Relics And Curio Collections At CWT Fair

One of the outstanding and most interesting departments of the Central West Texas Fair is the hobby and curio division, where unique and unusual articles are displayed, many with a valuable historical background. Exhibits in this booth have always attracted major interest of all Fair visitors, and for this year's Fair it is planned to enlarge the department in number and variety of articles exhibited.

Mrs. J. C. Halliburton, Jr., is superintendent of the Hobby and Curio department, with Mrs. Bill Fouts and Mrs. T. C. Bevils as assistants.

Mrs. Halliburton urges everyone having curios, relics or any article eligible for this division to place them on display this year. Every possible precaution will be taken to insure the safety of articles exhibited.

A partial list of articles eligible for entry in this department includes any collection of hobbies, antique household articles with history, antique jewelry, old books, letters, or newspapers, antique cooking utensils, button or vase collections, stamp or coin collections, airplane models, etc., an almost endless list of hobbies and

collections.

Mrs. Halliburton urges exhibitors to bring their entries to the exhibit building on the Fair grounds Monday, Oct. 9th, and all entries must be in place by 5 p. m. on that date. Exhibits will remain in place until 9 p. m. Saturday, Oct. 14.

Pinkerton Baptist Church Observes Youth Night

Sunday night, Oct. 1, was Youth Night at the Pinkerton Baptist Church. Some six or seven of the young people of the church joined in the round table discussion of "The Power of God for the Sons of Men," and were praised by the large congregation for their understanding and effective presentation of the subject.

The I. O. O. F. quartet of Haskell appeared as a feature of the program and as guests of the Young People, helped wonderfully with a program of gospel songs, presented in a most impressive manner. Members of the quartet are Ray Lusk, Hubert Bledsoe, Tom Watson and Thurmond Bynum. George Turner accompanied at the piano. Also the Turner children gave a special trio, "Kneel at the Cross." The entire congregation was grateful to these singers for their assistance.

Appearing on the Youth program of discussion were Jean Bowen, Bobby Stone, Pat Webster, Charlene Glover, Joan Bryan, Jackson Williams and Travis Burson. Patsy Ingram sang as a solo, "He Brought Me Out."

The public is invited to watch the announcement of another Youth program at Pinkerton and join with those who will enjoy the young people in such service.

PRETTY PROTECTION

Weather protection and fashion appeal are combined in this trim new fall coat of cotton corduroy. The cotton corduroy is Zelan treated to ward off the elements with a water-repellent finish. The coat is designed with a five-piece detachable belt and dolman sleeves, and there is a matching beret. The outfit was designed by Lawrence of London, the National Cotton Council reports.

Camp Fire Girls To Have Floats In Parade and Booth at CWT Fair

ROCHESTER NEWS

Mr. and Mrs. Worth Buckner and Kenneth spent the week end in Abilene with her sister and family, Mrs. Ira Roberts.

Everett Berryhill and family were visitors in O'Donnell last week end.

Mrs. Leslie Trimmer and children of Abilene spent Sunday here with her parents, Mr. and Mrs. A. Hall, and Mrs. I. E. Alvis and family.

Mrs. Ruth Wright of Knox City was a guest here Sunday of her mother, Mrs. Josie Davis and Fred and Ann.

Mrs. Earl Sweetman of Dallas visited relatives here Sunday.

Mrs. Edward Blair of Odessa spent the week-end in Rochester.

Mrs. Howard McDonald and children of Electra visited relatives here Sunday.

Mrs. Almeda Blair visited relatives here Sunday.

Mr. and Mrs. Chas. Banner visited relatives in Knox City Sunday and attended church services there.

FORMER RESIDENT HERE FOR VISIT

John Peter of East Chicago, Ind., a former resident of Haskell county, was here last week for a visit in the home of his daughter, Mrs. Emil Dukatnik and family of the Paint Creek community. Before returning to Indiana he plans to visit other children and relatives at Levelland, Groesbeck and Fort Worth.

The Camp Fire Girls are making many plans for the Central West Texas Fair, according to Miss Kathleen Crawford of this city, Area Camp Fire Executive.

In the parade opening the Fair there will be a float entered by the Jolly Blue Birds and this will be something to see, she declares.

Also the Tanda Camp Fire group will be in a class all its own with their float, into which they are putting much work and thought and you may expect a winner from them.

The newly-organized group at Sagerton, under the guardianship of Mrs. D. W. Counts have become inspired, according to the Stamford office, and they are getting their new uniforms and otherwise preparing for the Fair.

The Aowakkiyo group of Colored Camp Fire Girls will also enter a float.

In the main exhibition building on the Fair grounds there will be a Camp Fire Girls booth, representing "Safety on Wheels" and the Camp Fire slogan for the year "Camp Fire for a happy life—Safety for a long one."

This booth will represent hours of work with Camp Fire girls throughout the area cooperating in the project, and should be a special point of interest for all visiting the Fair.

The Tanda Camp Fire Girls will operate a booth on the courthouse lawn, where they will sell sandwiches, cold drinks and candy, to round out the activities planned for Fair Week by the Haskell groups. Other towns in the county also may be represented, Miss Crawford said.

Local Artist Paints Mural For Burton Chevrolet Company

W. E. Brady, local artist, has recently completed a mural for the Burton Chevrolet Company of this city, which has attracted attention and much favorable comment from the public.

The mural is divided into three panels, the first showing a 1912 model Chevrolet, which sold in that year for \$2,300. The second or main panel, shows a Chevrolet truck climbing a steep hill, while in the distance is a winding river, mountains and scenery enhance the

background. In the foreground a filling station nestles on a spot at the base of a mountain, which is circled by a ribbon of highway. The third and last panel depicts a 1950 Belle Aire Chevrolet coupe. For the background, the artist chose a scene of jagged mountains and canyons. All three panels are set off with borders of a rope design which brings out the beauty of the paintings.

In addition to this mural, Brady is the artist who painted the beau-

tiful baptism scene of Christ being baptized by John the Baptist, in the local Assembly of God church.

Brady is a student of the Commercial Art Institute, Inc. and is taking the "Famous Artist Course," the instructors being the twelve most famous artists in the commercial art field.

Brady plans to have several of his paintings on exhibition in the art department at the Central West Texas Fair next week.

Buffel grass, South African bluestem, Coastal Bermuda and the perennial crab grasses are a few of the new introduced grasses which may be of economic importance in Texas in the future.

Bill Hames Shows To Bring Largest Array Of Midway Attractions Ever Assembled Here

By far the largest and most varied array of entertainment attractions ever assembled here will be featured on the midway at the Central West Texas Fair grounds next week. Fair officials have announced.

Booked for the entire five-day exposition are the huge Bill Hames Shows, the largest carnival and show group touring Texas this year. The Bill Hames organization showed last week at the West Texas Fair in Abilene, and heretofore has played only the largest fairs in the southwest. Securing of the mammoth shows here was made possible by the expansion and enlargement of the Central West Texas Fair on a regional scope this year, association officials pointed out.

Setting up of the stupendous array of entertainment features, show tents and riding devices will begin Monday when the show rolls into Haskell on 10 long steel flat cars, 15 brand new semi-truck trailers and 40 red wagons. The complete midway will be in readiness for opening of the Fair Tuesday at noon for an uninterrupted 5-day run closing at midnight Saturday.

Thrilling riding devices, some of them being operated here for the first time will include the Cooper, Flying Scooter, Spitfire, Cruiser, Merrygoround, two large Ferris Wheels, Little Dipper, the

Octopus, Tilt-Awhirl, and Caterpillar, Dodgem, Boat Ride, Kiddie Car Ride Swings, Pretzel Ride, Roller Plane, Live Pony Ride, and Pony and Cart Ride.

Other midway attractions will include Dark Town Minstrel, Hawaiian Theatre, Circus Side Show, World's Largest Snakes, including three huge Pythons, Tobacco Row, Glass House, Fun House, Motor-drome, Wild Animal Show, and an array of other shows and attractions.

Highlighting the entertainment features will be a thrilling free act on the midway each night.

U of T Offers Cups To Outstanding High School Bands

The University of Texas will award gold cups to five outstanding high school bands attending its 15th Annual Band Day Oct. 15.

The young musicians will be the University's guests at a Southwest Conference football game between the Longhorns and the University of Arkansas Razorbacks, after a morning of activities including a march up Congress Avenue, Austin's main street.

While on parade the bands will be judged on marching, musicianship and appearance.

Five gold cups will be awarded during Memorial Stadium half-time activities to the first and second outstanding bands in two divisions—those with 56 or more members and those with 55 or less—and to the band coming the farthest distance for the occasion.

More than 75 bands are expected for the special day. Associate Longhorn Band Director M. H. Crockett, Jr. said. Last year an all-time high attendance record was set when 78 bands attended.

All uniformed high school bands in Texas are invited for Band Day. Crockett emphasized.

It's smart to be safe. Follow the lead of Camp Fire Girls and help make Haskell the safety center of America.

Girls and Women Safest From Fire Danger

Girls and women are safer from fire at home today than they have ever been, as a result of improved modern equipment.

Insurance statistics show that the death rate from burns and scalds had fallen to less than half of what it was 15 years ago.

Attributing the decreased number of deaths from fire in the home to great advances in home lighting, cooking and heating facilities, and to wide safety education, the National Board of Fire Underwriters reminded housewives that home fires still take a huge toll every year.

haven't been cleaned this year, this would be a good time to have it done, so they will be in good condition for the first cold days.

4. When buying new electrical appliances, be sure they bear the markings of the Underwriters' Laboratories Inc. to show they've been tested for fire safety.

5. Always have a metal screen in front of the fireplace. A check of fire deaths in one state last year showed that the worst cause of fatal fires was unprotected fireplaces.

6. Never use gasoline for dry-cleaning at home. If you must dry clean at home, use cleaning fluids that have been U. L. tested.

7. Keep portable heaters in good condition, and place them so they won't be tipped over easily by children.

8. Don't allow smoking in bed. Matches and careless smoking re-

From Sagerton

Home Demonstration Club met in the home of Knippling Tuesday afternoon. It was decided to hold a National Day, which will be on Oct. 24, and to sell boxes of cards to raise some money for the club.

The demonstrator showed how to make a punch cake and punch to Mrs. M. Y. Benton, Mrs. F. A. Stegemoeller, Mrs. Herbert Lehmann, Herman Nierdeck, Delbert LeFevre, Glyn Quade, Chas. Clark, Ewell Kittley, John Clark, Pete Kittley, county demonstrator, Miss Thelma Wirges and the hostesses. The next meeting will be in the home of Mrs. Will Stegemoeller Oct. 10.

Mrs. Pete Lusk spent several days of last week with her aunt, Mrs. Shaw, who is ill in Abilene.

The Stitch and Chatter Club met in the home of Mrs. Edgar Jennings Wednesday afternoon, Sept. 27. Refreshments were served to Mrs. M. Y. Benton, John Clark, E. N. Sheid, G. A. Leach, Anna Hankins, Ben Hess and the hostesses. The next meeting will be in the home of Mrs. G. A. Leach on Oct. 11 and the ladies will quilt.

A community meeting of the Haskell County Farm Bureau was held Thursday evening, Sept. 28 in the school auditorium. In charge of the meeting were Mr. Martin, county agent; Mrs. Tonn, song director, and Mr. Herren, all of Haskell. Also present were B. Kupatt, director for this community and W. F. Wilfong of Haskell, Veterans agriculture teacher at Sagerton.

Rural telephones were discussed and the hiring of children under 16 years of age for farm labor was discussed.

The Sagerton Methodist Youth Fellowship held its weekly meeting Tuesday night at the church. After the business meeting it was decided to have a party in the home of Mrs. G. W. LeFevre.

teacher of the young people, Tuesday night, Oct. 3.

New literature was ordered by Mrs. LeFevre and when it arrives, the young people will take part in their programs. Those present were Lois Thames, Dan LeFevre, Glenda Clark, Clotie Swope, Herbert Kainer, Jerry Lee Kainer and Margie Lehmann, a visitor, and Mrs. LeFevre.

Several people of this community attended the Fair in Abilene last week.

Mr. and Mrs. August Balzer made a business trip to Wichita Falls one day last week.

The Pioneer Club met in the home of Mrs. J. W. Martin at Haskell Thursday, Sept. 28, for a covered dish luncheon. The occasion was Mrs. Martin's birthday. The day was enjoyed by the Mmes. Ben Hess, John Clark, R. N. Sheid, Anna Hankins and R. O. Gibson Sr., all of Sagerton, and Miss Fannie Kay and Mrs. Martin of Haskell. Mrs. Chas. Conner of Haskell was a guest.

Mr. and Mrs. F. A. Stegemoeller, Mr. and Mrs. Alfred Hertel and Mrs. F. W. Stegemoeller spent Sunday visiting in the home of Mr. and Mrs. Will Neinast and family of Littlefield. Mrs. F. W. Stegemoeller stayed for a longer visit with the Neinasts.

The Walter League of the Zion Lutheran Church met in the home of Rev. and Mrs. H. E. Driessner and family Sunday evening for a social. Games of volleyball and other games were played and refreshments of cake, sandwiches and punch were served.

Mr. and Mrs. Fred Barr and family of Spur visited old friends here Sunday. The Barrs once lived here.

Mrs. C. E. Stegemoeller underwent surgery last week at the Stamford Hospital and is convalescing.

The Rev. Bruan of Winters delivered the message at the St. Paul's Lutheran Church Sunday evening. At a meeting after the services the congregation decided to have a workday Thursday, Oct. 12, to clean off around the parsonage and work on the inside of the building. The ladies will also have their Missionary Society meeting.

A farewell party was given by the Luther League Monday night, Sept. 25 in the church basement, in honor of Walter Brethauer and J. D. Kupatt, who left Monday for the U. S. Air Corps. The two

Designed for Betty Coed's winter festivities, this versatile velvetone date dress will be an eye-catcher on the campus this season. Created by Judy 'N' Jill from luxurious cotton velvetone, the two-piece frock is lined with braid binding and buttons with a shy Peter Pan collar.

NOTICE

TO ALL OWNING OR CLAIMING ANY PROPERTY ABUTTING UPON THE HEREINAFTER MENTIONED PORTIONS OF CERTAIN ALLEYS IN THE CITY OF HASKELL, TEXAS, AND TO ALL OWNING OR CLAIMING ANY INTEREST IN ANY SUCH PROPERTY:

The Governing Body, the City Council, of the City of Haskell, Texas, has ordered that certain portions of certain alleys in the City of Haskell, Texas, be improved by raising, grading and filling same and installing concrete curbs where adequate curbs are not now installed on proper grade and line, and by paving with a triple penetration asphalt surface on an eight (8) inch compacted caliche base course, together with incidentals and appurtenances, all in accordance with the Plans and Specifications and Contract Documents titled "CONTRACT DOCUMENTS FOR ALLEY IMPROVEMENTS CITY OF HASKELL, TEXAS, 1950," which said Plans and Specifications and Contract Documents are on file with the City of Haskell, Texas; and contract has been made and entered into with Strain & Brown, Inc., a corporation with its principal office and place of business in San Angelo, Texas, for the making and construction of such improvements.

Estimates of the cost of such improvements for each portion of said alleys have been prepared and approved.

The portions of said alleys so to be improved, together with the estimated cost of the improvements for each such portion of said alleys and the amount or amounts per front foot proposed to be assessed against the abutting property and owners thereof, on each such portion of said alleys, are as follows:

ON ALLEY BETWEEN AVENUE E AND AVENUE F, from the South property line of the east-west alley in Block No. 26, Original Townsite, North to the South curb line of North Second Street, SAVE AND EXCEPT its intersections with South First Street and North First Street, and SAVE AND EXCEPT its intersection with the east-west alley in Block No. 24, Original Townsite, known and designated as Unit No. A-1; the estimated

cost of the improvements is \$4091.01; the estimated amount per front foot to be assessed against abutting property and the owners thereof for the improvements is \$2.3329.

ON ALLEY BETWEEN AVENUE C AND AVENUE D, from the south property line of the east-west alley in Block No. 12, Original Townsite, North to the south curb line of North Second Street, SAVE AND EXCEPT its intersections with South First Street and North First Street, and SAVE AND EXCEPT its intersection with the east-west alley in Block No. 10, Original Townsite, known and designated as Unit No. A-2; the estimated cost of the improvements is \$4091.01; the estimated amount per front foot to be assessed against abutting property and the owners thereof for the improvements is \$2.3329.

ON ALLEY BETWEEN NORTH FIRST STREET AND NORTH SECOND STREET, from the east property line of Avenue F to the West curb line of Avenue C, SAVE AND EXCEPT its intersections with Avenue E and Avenue D, known and designated as Unit No. A-3; the estimated cost of the improvements is \$4,977.60; the estimated amount per front foot to be assessed against abutting property and the owners thereof for the improvements is \$2.3329.

ON THE ALLEY BETWEEN SOUTH FIRST STREET AND SOUTH SECOND STREET, from the east property line of the North-south alley in Block No. 26, Original Townsite, to the west property line of the North-south alley in Block No. 12, Original Townsite, SAVE AND EXCEPT its intersections with Avenue D and Avenue E, known and designated as Unit No. A-4; the estimated cost of the improvements is \$3,403.74; the estimated amount per front foot to be assessed against abutting property and the owners thereof for the improvements is \$2.3329.

A hearing will be given and held by and before the Governing Body of the City of Haskell, Texas, on the 13th day of October, A. D., 1950, at 2:30 o'clock, p. m.,

in the Council Room of the City Hall in the City of Haskell, Texas, to all owning or claiming any property abutting upon said portions of said alleys and to all owning or claiming any interests in any such property. At said time and place, all owning or claiming any such abutting property, or any interest therein, shall be and appear and will be fully heard concerning said improvements, the cost thereof, the amounts to be assessed, the benefits to the respective parcels of abutting property by means of the improvements on the portions of said alleys upon which the property abuts, and concerning the regularity, validity and sufficiency of the contract for and all proceedings relating to such improvements and proposed assessments therefor, and concerning any matter as to which they are entitled to hearing under the law in force in the City and under the proceedings of the City with reference to said matters. Following such hearing, assessments will be levied against abutting property and the owners thereof, and such assessments, when levied, shall be a personal liability of the owner of such property, and a first and prior lien upon the property as provided by the law in force in the City and under which the proceedings are taken, being the Act passed at the First Called Session of the Fortieth Legislature of the State of Texas, known as Chapter 106 of the Acts of said Session and now shown as Article 1105b of Vernon's Texas Civil Statutes.

The improvements on each said portion of said alleys constitute an entirely separate and distinct unit of improvement, all to the same extent as if entirely separate and distinct proceedings had been taken with reference to the improvements and assessments therefor in connection with improvements on each such portion of said alleys and the assessments against the property abutting upon any unit shall be and are in, as on, the 13th day of October, A. D., 1950, at 2:30 o'clock, p. m.,

noted with the improvements in other units.

Of all said matters and things, all owning or claiming any such property or any interest therein, as well as all others in anywise interested or affected, will take notice.

DONE by order of the City Council of the City of Haskell, Texas, this 26th day of September, A. D., 1950.

(SEAL) T. J. Arbuckle, City Secretary, City of Haskell, Texas. 39-41c

Better Buy Buick!

PERHAPS you've noticed that there seem to be a lot of these brawny beauties running around on America's highways—and it isn't just that boldly gleaming forefront that reads this impression.

Isn't just the fact that folks who own a Buick get such a bang out of it that they do a lot of driving.

Back of all this is another fact. It's a fact that contains a broad hint to anyone who'd like to know what's what in motorcar buys. 1950 Buicks are breaking all past popularity records, as registered in sales.

So we suggest that you do some personal investigating.

Find out, for example, how masterful you feel, with Fireball power purring away the miles, at a polite touch of your toe on the gas treadle.

Find out how the jolts and jars seem to disappear, when you have big soft coil springs on all four wheels, and fat low-pressure tires on wide Safety-Ride rims.

Then there's Dynaflo Drive* which Buick owners vote the biggest automotive hit that has come along in years.

With all this, there's room, and comfort, and road-hugging left combined with a light and willing response to your hand on the wheel—and prices that start down with the sixes.

Seems like almost everyone wants to own one of these Buicks—and most people can. How about you? Isn't it a smart idea to see your Buick dealer now and get your name on his list?

Only BUICK has Dynaflo—
and with it goes! HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models) • NEW-PATTERN STYLING, with MULTI-GUARD fenders, taper-through fenders • TRAFFIC-HANDY SIZE, forward, taper-through fenders and parking and gearing, short over-all length for easier parking and gearing, short turning radius • EXTRA-WIDE SEATS cradled between the rails • SOFT BUICK RIDE, from all-coil springing, Safety-Ride axles • LOW-PRESSURE TIRES, ride-steadying torque-tube rim, low-pressure tires, ride-steadying torque-tube

Don't miss this big, thrilling show!

The grandest, largest display of Modern Gas Ranges, featuring 36 different brands, can be seen in Big Room of Natural Gas Building, State Fair of Texas—Now!

In times like these
Double Check
your selection of a cooking appliance

Is THERE a range that will make your kitchen cool in summer? Be wary of "claims." You know it takes heat to cook. There is no cooler-to-cook-with range than a new gas range—why would 96 of 100 women who have gas service cook with gas, if there were? Moreover, new gas ranges cost less than any other automatic range. There is no expensive installation cost. No special, costly utensils are necessary. Meal-for-meal, a gas range cooks for less than one-fourth the cost of any other automatic range. Check and double check. See for yourself why 96 out of 100 women cook with gas; why a new gas range is your best range buy!

On display and sale everywhere

Farmers Advised To Plan Now For 1951 Cotton Crop

The present world situation and weather conditions over much of the cotton producing areas of the nation can have a strong bearing on the 1951 cotton crop in the United States. World conditions have materially increased the demand for cotton and weather conditions are very unfavorable at this time so far as the production of high quality planting seed for 1951 are concerned.

According to Fred C. Elliott, extension cotton work specialist of Texas A. & M. College, the seed situation is so bad that steps must be taken immediately to prevent an actual shortage of the better adapted varieties of planting seed for next year. He says too much moisture at harvest time materially affects the keeping qualities of cotton seed. When seed that is high in moisture and free fatty acids is stored, heating occurs and this causes seed losses as well as poor germination. He says there is practically nothing that can be done to take care of the free fatty acid problem but that good storage facilities and the proper handling of the stored seed will help some and will hold the damage that can be caused by too much moisture to a minimum.

Elliott says that all reports indicate that the demands for cotton will remain high. No announcement has yet been made regarding the probable acreage of the 1951 cotton crop but indications are that it will be much larger than the 1950 acreage.

With these facts in mind, Elliott recommends to farmers who have a good supply of the better adapted varieties of cotton, that they store this seed for 1951 planting purposes. Good gin-run seed of the adopted variety should be saved in each area to take care of the maximum acreage that might be planted in the gin community in 1951.

There are other items the cotton producer should be considering at this time, says Elliott. All cotton stalks should be cut and plowed under just as soon as the harvest

GLAMOROUS CORDUROY

This glamorous cotton corduroy suit-dress was modeled recently in a showing of outstanding fall and winter corduroy fashions by Crompton-Richmond. The distinctive styling of this chic two-piece corduroy designed by Jean Patou features huge sleeves that give it almost a cape-like effect. The wide, wide collar buttons with two giant buttons at the edge of the sleeves.

is completed. Area wide stalk destruction programs are the most effective. Next year's infestation of boll weevils, pink bollworms and possibly other cotton insects can be reduced by early stalk destruction programs.

The land on which cotton will be planted in 1951 should be seeded to a fertilizer and if needed, inoculated winter legume. This crop will protect the land against erosion and usually will boost next year's yield. The losses caused by root rot are materially lessened when cotton follows a winter legume crop.

Elliott urges farmers to purchase now the fertilizers needed to produce their 1951 crop. He says supplies next spring may not be adequate to take care of demands, chiefly because of transportation problems. He further suggests that you contact your local county agricultural agent for information on seed storage, proper handling of seed in storage, winter legumes for your area and on most any other question dealing with cotton production.

Put pep in the pocket-book by putting profitable want ads on the job.

Retail Sales State Show Gain During August

Texas Retail sales for August 1950 climbed 22 per cent from a year earlier, the University of Texas Bureau of Business Research reported.

Preliminary tabulations placed August sales at an estimated \$76 million, or 4 per cent below the all time peak reached in July 1950.

August sales of durable goods stores fell 10 per cent from the previous month, while nondurable goods stores registered a 5 per cent gain. From the same month a year ago, durable sales were up 32 per cent to outdistance the 11 per cent increase for nondurable goods stores.

Household appliance stores presented a 23 per cent reduction in August sales from the previous month. Sales of motor vehicle dealers were off 16 per cent; farm implement dealers 12 per cent; and hardware stores 7 per cent.

Counter to over-all monthly decline for durable stores, jewelry sales jumped 21 per cent from July. Lumber and building material dealers and furniture stores

turned in smaller increases of 6 and 3 per cent respectively.

Without exception all durable goods stores recorded higher sales in August 1950 than in the same month a year ago. Sales of lumber and building material dealers jumped 63 per cent; jewelry stores 35 per cent; farm implements dealers 32 per cent; furniture and household and appliance stores 29 per cent; and motor vehicle dealers 25 per cent.

Women's specialty shops, with a 19 per cent gain tallied the biggest July-to-August advance among nondurable goods stores. Florists and office, store, and school supply dealers showed increases of 13 per cent and shoe stores reported a 15 per cent upturn in their August sales. Smaller gains ranged from 2 to 12 per cent.

On the other hand, August sales of filling stations decreased 12 per cent from July; men's and boys' clothing stores, 7 per cent; country general stores, 3 per cent; grocery stores without meats, 1 per cent; and combination grocery stores reported a fractional decline.

Increases over August 1949 sales for nondurable goods stores varied from a 3 per cent gain for women's specialty shops to a 20 per cent climb for shoe stores.

News that is vital to you can be found in the want ads.

Defoliation of cotton either naturally or with chemicals is a must if the crop is being harvested with machinery. The speed of hand picking is increased when the cotton plants are opened of mature bolls.

Defoliation Speeds Cotton Harvesting; Helps Quality

Defoliation of cotton either naturally or with chemicals, is a must if the crop is being harvested with machinery. And even if the cotton is being picked by hand, the speed of picking is increased and a higher percentage of the crop is harvested when the plants are defoliated.

The specific chemical defoliant to use and the method of applying it will depend on the growth of the cotton plants and the weather conditions, according to F. C. Elliott, cotton work specialist for the Texas A. M. College Extension Service.

When dust defoliant is used, plenty of moisture in the air and a heavy dew on the plants are necessary for satisfactory results. For best results the dew should remain on the leaves for at least three hours after the dust has been applied. Elliott says that the dust may be applied ahead of dew.

Dusting by airplane usually gives better results than applying the defoliant with ground dusting machinery, especially when the cotton plants are large.

In an experiment recently completed at the Weslaco station of the Texas Agricultural Experiment Station, research specialists found that defoliant can be applied effectively with a ground sprayer machine in wind velocities too high for the application of dusts.

Fenders were used in front of the tractor wheels to prevent damage to the cotton plants, and the spray machine did an excellent job of covering the leaves with defoliant in a ten mile per hour wind.

Elliott advises applying the chemical defoliant after the youngest bolls are 25 days old, but at least two weeks before the first frost is expected. When the cotton is being grown under irrigation on light, sandy soils, the defoliant is applied about 15 to 18 days after the final irrigation. On the heavier soils, 21 to 30 days after the final irrigation is best.

If calcium cyanamide dust is being used for defoliating cotton, Elliott recommends that it be applied only when adequate dews are present or expected. Apply at the rate of 30 to 40 pounds per acre.

The spray defoliant are prepared by mixing the chemical powders with water at the rate of one pound of powder per gallon of water. Sprays can be used effectively in the absence of dews and when there is very little moisture in the air.

Ammonium thiocyanate may be used for defoliating fully mature spray per acre. cotton at the rate of ten gallons of water. When potassium cyanate spray is used, Elliott recommends that it be applied at the rate of seven to ten pounds per acre in seven to ten gallons of water.

Six to seven gallons per acre of a pound-per-gallon solution of sodium chlorate with sodium pentaborate solution is recommended for defoliating with this chemical spray.

Defoliation with sodium monochloroacetate requires five to nine pounds per acre in five to nine gallons of water.

Elliott recommends that cotton growers who use the chemical su-

SACKS TO SCHOOL!

Here's a coed who's already educated in the ways of both fashion and thrift. She made this charming campus outfit from three cotton feed bags. Using the plaid cotton fabric from the feed bags for the skirt, she dyed a plain white bag in a solid shade to match. With her smile and her fashion know-how, this pretty freshman is destined to be a campus queen.

ply representatives in regard to the recommended applications per acre. An over-dosage of some of the defoliant will freeze the leaves on the cotton plants, and an under-dose also gives poor defoliation.

He also warns farmers to take necessary precautions when applying the chemicals to prevent the rusting of machinery, damage to other nearby crops, and injury to the operator's eyes, skin, and lungs.

New Pump Stations To Raise Capacity Of Ozark System

Plans to construct five new pump stations along the Ozark Line System have been announced by Shell Pipe Line Corporation, operator of the line which is owned by Shell and the Texas Company. The new stations will increase the capacity of the system approximately 68,000 barrels daily. T. E. Swigart, president of Shell Pipe Line said it is hoped the stations will be in operation by the spring of 1951.

Together with Basin Pipeline System, which crosses Haskell county, the Ozark System provides a 1,000 mile artery linking oil fields in West Texas and New Mexico to Mid-West refineries. The Basin System runs from Jal, N. M., to Cushing, Okla., and the Ozark from Cushing to Wood River, Ill., where it is joined by an extension to Patoka, Ill., wholly owned by Texas Pipe Line. Completed in 1949, with one of the pumping stations located northeast of Haskell, the lines are already delivering more crude oil than they were designed to carry, but are still unable to handle growing transportation demands.

Rupert L. Adams, who is connected with the Haskell station operated by Shell, pointed out that behind the need for increased capacities in the system is the development of new reef oil fields in Scurry, Borden and Kent counties, and the enlargement of

Mid-Western refineries.

The Ozark system at present has a year-round average daily capacity of about 207,000 barrels. When the announced project is completed, it will be able to carry an average 275,000 barrels daily.

Key Sponsors Cooperation Responsible For Added Special Features At Fair

An additional feature of the 1950 Central West Texas Fair, in which everyone attending the exposition will share, will be the attractive attendance awards to be given this year for the first time on a large scale, according to Ralph Duncan, secretary of the fair association.

This added feature has been made possible by the cooperation of a group of "Key Sponsors," which includes practically every business concern and individual in this city, who have underwritten and are supporting this phase of the enlarged Fair to be staged next week.

Handling this section of activities will be the Special Events Committee, composed of Austin Coburn, Courtney Hunt, C. E. Phelps, Bill Wilson and Olen Dotson, all of whom have accepted this assignment in addition to their many other duties in connection with the Fair.

List of Key Sponsors making the special events possible include the following:

Ern Lowe, Dr. T. W. Williams, Oates Drug Store, Scotch Coggins, John Fouts, Haskell Clinic, Burton Chevrolet, Haskell Implement Co., Jones Cox & Co., Sturdivants, O'Neals Food store, John Ivy.

Cecil Gregory (Piggly-Wiggly), Fair Store, J. W. Gholson Grocery, Payne Drug, Reid's Drug Store, Allen & Lusk Shoe Shop, Pittman Motor Co., Bynum Office Supply, Fred Gilliam, Cotfields Ladies Shop, Floyd Rich (White Auto), Club Cafe, Cook Barber Shop.

Promising New Grasses For Texas Pastures

Buffel grass, South African bluestem, Coastal Bermuda, and crab grasses are some new grasses which may be of economic importance in Texas in the future, says Dr. R. C. Potts, associate professor of agronomy in charge of forage crop investigations for the Texas Agricultural Experiment Station.

Coastal Bermuda is the most promising of the new grasses, and it is rapidly gaining in importance in Texas. This grass is similar to common Bermuda, but the joints of the stems and rhizomes are longer and its leaves have a light green color and are longer than the leaves of common. Potts points out that, although this grass produces seed heads, the heads do not produce viable seed; therefore it must be spread through sprigs or rhizomes.

Buffel grass grows wild through out the whole continent of Africa, in Sicily, and eastward to north-west India. Since it was first in-

duced at the Angleton Stations in 1917, it has been planted at several other Texas Experiment Stations. Several introductions have been received, but Potts says that none of them looks alike.

The type of Buffel grass which looks best to the forage specialists grows about three feet high, is light green in color and the stems are a little smaller than a lead pencil. According to Potts, reports from Australia and Africa indicate that Buffel grass is relished by livestock and that it is resistant to drought. He says that this species will probably find a place in Texas as agriculture, but it needs further testing.

South African bluestem, also known as Thatch grass or Dek-grass, is a native of Africa and South America. It was introduced into the United States in 1905 from Pretoria, South Africa. However, testing of this species did not start in Texas until 1941. African bluestem grows to a height of about five feet, the stems and leaves are blue in color, and the plant is ready at the base. When the plant matures, it is stemmy and not desirable for grazing. African bluestem is adapted to Central Texas and south. It will grow on a wide variety of soils and is quite drought resistant.

Several kinds of perennial crab grasses from South Africa show promise for use in Texas. Florida farmers and ranchers have found one of these grasses known as Pangola grass to be extremely well adapted to their conditions. The Houston Chamber of Commerce and the Farm and Ranch club of that city recently sponsored a trip to Florida to get first hand information on Pangola grass and those making the trip were very much enthused about it. Pangola will be tested throughout East Texas and the Gulf Coast Prairie.

In addition to the introduced species, Potts points out that many of the native grasses which are already well adapted to Texas conditions are being domesticated and tested for forage yield. Texas winter grass, or spear grass, appears to be one of the most promising native grasses. It gives excellent growth when fertilized and cultivated. Other native grasses that are in the process of being domesticated are little bluestem, big bluestem, switch grass, side-ot grama, blue grama, buffalo grass and Indian grass.

NOTICE TO ALL OWNING OR CLAIMING ANY PROPERTY ABUTTING UPON THE HEREINAFTER MENTIONED PORTIONS OF NORTH 8TH STREET AND AVENUE B IN THE CITY OF HASKELL, TEXAS, AND TO ALL OWNING OR CLAIMING ANY INTEREST IN ANY SUCH PROPERTY:

The Governing Body, the City Council, of the City of Haskell, Texas, has ordered that certain portions of North 8th Street and Avenue B in the City of Haskell, Texas, be improved by raising, grading and filling same and installing concrete curbs and gutters where adequate curbs and gutters are not now installed on proper grade and line, and by paving with a triple penetration asphalt surface on a six (6) inch compacted caliche base course, together with incidentals and appurtenances, all in accordance with the Plans and Specifications and Contract Documents titled "SPECIFICATIONS FOR STREET IMPROVEMENTS CITY OF HASKELL, TEXAS," which said Plans and Specifications and Contract Documents are on file with the City of Haskell, Texas; and contract has been made and entered into with Strain & Brown, Inc., a corporation with its principal office and place of business in San Angelo, Texas, for the making and construction of such improvements.

Estimates of the cost of such improvements for each portion of said street and avenue have been prepared and approved.

The portions of said street and avenue so to be improved, together with the estimated cost of the improvements for each such portion of said street and avenue and the amount or amounts per front foot proposed to be assessed against the abutting property and owners thereof, on each such portion of said street and avenue are as follows:

ON NORTH 8TH STREET, from the West property line of Avenue H to the West property line of Avenue J, known and designated as Unit No. 66; the estimated cost of the improvements is \$5,800.00; the estimated amount per front foot to be assessed against abutting property and the owners thereof is \$3.8817.

A hearing will be given and held by and before the Governing Body of the City of Haskell, Texas, on the 13th day of October, A. D., 1950, at 2:30 o'clock, p. m.

thereof for improvements exclusive of curb and gutter is \$2,123.33; total estimated amount per front foot to be assessed against abutting property and the owners thereof is \$3.4733.

ON NORTH 8th STREET, from the west property line of Avenue J to the East property line of Avenue L, known and designated as Unit No. 67; the estimated cost of the improvements is \$5,815.00; the estimated amount per front foot to be assessed against abutting property and the owners thereof for curb and gutter is \$1.35; the estimated amount per front foot to be assessed against abutting property and the owners thereof for improvement exclusive of curb and gutter is \$2,123.33; total estimated amount per front foot to be assessed against abutting property and the owners thereof is \$3.4733.

ON AVENUE B, from the North property line of North 1st Street to the North property line of North 4th Street, known and designated as Unit No. 68; the estimated cost of the improvements is \$9,894.00; the estimated amount per front foot to be assessed against abutting property and the owners thereof for curb and gutter is \$1.35; the estimated amount per front foot to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$2,531.77; total estimated amount per front foot to be assessed against abutting property and the owners thereof is \$3.8817.

ON AVENUE B, from the North property line of North 4th Street to the North property line of North 8th Street, known and designated as Unit No. 69; the estimated cost of the improvements is \$11,830.00; the estimated amount per front foot to be assessed against abutting property and the owners thereof for curb and gutter is \$1.35; the estimated amount per front foot to be assessed against abutting property and the owners thereof for improvements exclusive of curb and gutter is \$2,531.77; total estimated amount per front foot to be assessed against abutting property and the owners thereof is \$3.8817.

A hearing will be given and held by and before the Governing Body of the City of Haskell, Texas, on the 13th day of October, A. D., 1950, at 2:30 o'clock, p. m.

in the Council Room of the City Hall in the City of Haskell, Texas, to all owning or claiming any property abutting upon said portions of street and avenue and to all owning or claiming any interests in any such property. At said time and place, all owning or claiming any such abutting property, or any interest therein, shall be and appear and will be fully heard concerning said improvements, the cost thereof, the amounts to be assessed therefor, the benefits to the respective parcels of abutting property by means of the improvements on the portions of said street and avenue upon which the property abuts, and concerning the regularity, validity and sufficiency of the contract for and all proceedings relating to such improvements and proposed assessments therefor, and concerning any matter as to which they are entitled to hearing under the law in force in the City and under the proceedings of the City with reference to said matters. Following such hearing, assessments will be levied against abutting property and the owners thereof, and such assessments, when levied, shall be a personal liability of the owner of such property, and a first and prior lien upon the property provided by the law in force in the City and under which the proceedings are taken, being the Act passed at the First Called Session of the Fortieth Legislature of the State of Texas, known as Chapter 106 of the Acts of said Session and now shown as Article 1105f of Vernon's Texas Civil Statutes.

The improvements on each said portion of said street and avenue constitute an entirely separate and distinct unit of improvement.

all to the same extent as if they were entirely separate and distinct units of improvement. Reference to the improvements and assessments therefor in connection with improvements on any such portion of said street and avenue and the assessments against the property abutting on any unit shall be and be deemed to be affected by any circumstance relating to or connected with the improvements on other units.

Of all said matters and of all owning or claiming any property or any interest therein as well as all others in any interested or affected, will notice.

DONE by order of the Council of the City of Haskell, Texas, this 28th day of September, A. D., 1950.

(SEAL) T. J. Arbo, Council of the City of Haskell, Texas.

The control of predatory animals is a big problem in Texas. Hunters working for the U. S. Fish and Wildlife Service last year took more than 30,000 predatory animals. Coyotes made up a majority of the take.

No other truck is DUTY-PROVED like Chevrolet

Duty-Proved TO DELIVER MORE HORSEPOWER AT THE CLUTCH

Certified ratings prove Chevrolet Loadmaster engines deliver more net horsepower than those of the principal standard equipped conventional trucks in their weight class, 13,000 to 16,000 lbs. Gross Vehicle Weight.

Duty-Proved FIRST FOR ALL-AROUND SAVINGS

Chevrolet's valve-in-head engine, ruggedly dependable power train, and correct load-support units assure lowest cost per ton mile and genuine economy in upkeep.

Duty-Proved TO DELIVER TOP PAYLOADS

Built for the load and powered for the pull, Chevrolet trucks are advance-designed to carry maximum payloads on every haul... make the trip in a minimum of road-time.

CHEVROLET

Chevrolet advance-design trucks are the best buy... and truck operators know it. For the last eight consecutive truck production years, Chevrolet trucks have led the field in sales... are far ahead this year—as the latest registration figures clearly show. Come in and let us give you the facts.

First in demand First in value First in sales

Chevrolet Advance-Design Truck Features! TWO GREAT VALVE-IN-HEAD ENGINES • THE POWER-JET CARBURETOR • DIAPHRAGM SPRING CLUTCH • SYNCHRO-MESH TRANSMISSION • HYPOID REAR AXLES • DOUBLE-ARTICULATED BRAKES • WIDE-BASE WHEELS • ADVANCE-DESIGN STYLING • BALL-TYPE STEERING • UNIT-DESIGN BODIES
