## Two Charged In Texas Theatre Burglary

Two youths, Walter Grothe, 17, and Tommy Wallace, 16, are being held on charges of burglary in connection with the burglarizing of the Texas Theatre in this city sometime Saturday night. Between \$50 and \$80 was taken from a cash box in a desk of the manager's office on the second floor of the theatre. The charges were filed by Sheriff Bob Cousins after the youths had made statements to County Attorney Royce Adkins and members of the sheriff's department Tuesday night. Both youths signed statements admitting the theft. With the exception of about \$5, all the money taken in the theft was recovered, after the youths had told officers where it was hidden under a grain storage tank near Clifton Grocery and Graham. In the statement signed by Grothe, the youth admitted the burglary of the Palace Theatre in Stamford on the night of Nov. 9 when about \$30 was taken. Grothe also implicated his companion, Wallace, in the Stamford theft. Wallace did not admit the latter charge in the statement he signed concerning the Texas Theatre burglary. Grothe told officers he had worked at the Palace in Stamford and had a key to the building at the time the robbery occurred there. He claimed that all the money taken in the Stamford job had been spent.

## Farm Group Studies Development of Castor Beans as Profitable Crop

Castor beans look like a good cash crop for Haskell County, in the opinion of a group of farmers and County Agent F. W. Martin, who recently went to Vernon and inspected the castor bean crop that is now growing in Wilbarger County. The group was shown the different fields by a representative of the Baker Castor Bean Corporation. Several fields were visited and observed, where the yields are running from 2,000 pounds per acre to 100 pounds per acre. The crop made best on the better sandy soils. One field in blue type soil was observed where the yield is expected to average 800 pounds to the acre. The beans are selling for about 12c per bush at the present time. They are field harvested with a combine type harvester. The beans are planted in May at the rate of 5 to 7 pounds to the acre. They are harvested after frost, chiefly. It is the hope of the group that

contributions to the General Federation of Women's Clubs campaign are being used to provide Korean orphans, refugees and other civilian war victims with CARE food, clothing, textiles and blankets. Delivery of the gifts will be made in time for the Christmas holiday. In this city, donations in any amount can be sent to Mrs. Royce Adkins, 604 N. 9th St. Ph. 5117.

**Growing Sentiment Against Increased Taxes Considered Significant Factor in Defeat of Four Amendments**

**BYRON C. UTECHT**  
AUSTIN, Tex.—The defeat of four of the five proposed constitutional amendments Nov. 13 proved that the people of Texas have become exceedingly wary and even alarmed over increased government costs, which always mean increased taxes, since all of the submitted amendments had for the main objective more money. In rejecting the amendment that would have qualified thousands of aliens to receive old age pensions the voters showed not only their respect for citizenship but helped out the old folks, who would have had to take reduced monthly checks under the terms of the amendment. Also, the results at the polls proved that people have awakened to the dangers of Socialism and want it stopped. There is no excuse for calling a special session of the legislature.

The finances of the Texas state government are in excellent condition, according to the Oct. 31 report of State Treasurer James, who itemizes 20 funds, nearly all having good balances, and with the total cash in all funds standing at \$172,000,000. So Texas is far from broke. The general revenue fund balance stood at about \$21,000,000, a remarkable showing when compared with the \$3,600,000 balance in March of 1950. When Mrs. Miriam Ferguson was governor there was a deficit of \$30,000,000 in the general revenue but no one got excited over it and no new taxes were passed at that time.

Members of the legislature are beginning to comment that maybe the state would be better off without a surplus in the general revenue fund for then there would be no grand rush to overspend and overtax.

More about the good shape of Texas finances. State Auditor Cavness in a survey shows that for the 1940-1941 fiscal period the state's cash on hand totalled \$48,177,000, and that ten years later for the 1950-51 fiscal period this total had reached \$194,571,000, an increase of \$146,393,000. Most of this money came from those industries taxed under the omnibus bill, about 21 of them, but there are about 30 others not subjected to any state levies.

The Cavness report further discloses that the permanent school fund stands at \$168,973,000, an increase of \$12,809,000 since 1950. The University of Texas permanent fund is now, according to the survey, \$120,634,000, an increase of \$16,808,000 since 1950. The teachers' retirement fund now has \$54,700,000, an increase of \$8,174,000 since 1950. Teachers' membership accumulation is placed at \$37,907,000, an increase of \$6,645,000 since 1950.

One of the most remarkable revelations is the fact that the United States government has a balance of \$241,000,000 in Texas money, deposited by the Texas Employment Commission and this large fund, which would help a lot in this state, Texas will never get. The big total was paid by Texas employers and employees. The legislature would be more justified in making an effort to get this money for Texas' usage since it belongs to this state. In Washington it is known as a "trust fund."

Most of the state departments, boards, bureaus and commissions increase and expand year after year. So it is refreshing to note that Cavness reports the state treasury in the 1940-41 period had 61 employees and only three have been added since then, in a period of 10 years.

With the last federal government tax increase of nearly \$6,000,000,000 the average man and woman in this country works 4 months of a year for govern-

\$2,000 to build in Texas. Some, of course, will cost considerably more. A \$2,000 barn can be properly insured for about \$5 a year. Other farm properties—residences, tool and machinery sheds, garages, etc.—can be protected at comparable cost. Yet most Texas farm properties are underinsured by at least 40%.

Farm mutual insurance companies carry on extensive fire prevention programs. Fewer losses mean lower insurance costs, since savings developed by these programs are passed on by the companies to their policyholders.

Kacir said the answer to the danger of under insurance is an immediate appraisal.

"Farmers should get an estimate of their property values from a competent source—their insurance representative, or the local bankers or real estate man—and increase their insurance accordingly. In today's era of high prices, adequate insurance is of utmost importance."

President Hoover originated the practice of having a private phone on his desk.

**Pre-Winter Check Of Car's Cooling System Advised**

Preparation of the cooling system for cold weather is an important part of automobile maintenance too often overlooked, advises E. L. Harrig, manager of the service department, Chevrolet Motor Division.

"Car owners usually see that oil is changed, lubrication performed, tires inspected and brakes and batteries checked," Harrig says, "but often neglect the cooling system until overheating develops."

Harrig points out that overheating does not develop suddenly. Causes of overheating build up over a period of time, during which the efficiency of the engine gradually is reduced. Iron rust particles in the water form 90 per cent of the material which clogs the cooling system, with water scale and grease also contributing. In hard water areas, water scale is a more formidable consideration.

"A small amount of rust—enough to fill the top quarter-inch of the water tubes—will cause serious restriction of flow," Harrig explains. "To prevent this formation, a suitable cooling system cleaner should be used."

"Washing soda and other alkalis, or kerosene and other organic solvents are not entirely successful. They cut grease and loosen rust, but do not dissolve the rust nor remove it from the radiator core, block or head. New cooling system cleaners have been developed which contain both a liquid and a powder. The liquid dissolves the grease which holds rust and scale together. The powder emulsifies the oil and grease, allowing it to be flushed out with loosened rust particles."

To prepare the car further for winter driving the battery should be checked, brakes adjusted, lights inspected and wheel alignment examined. Be sure the heater, defroster and windshield wiper are in good working order, Harrig says, and replace windshield or windows that are cracked, because of interference with vision. Smooth tires are a menace on slippery roads or streets. Continue lubrication and oil-change on regular schedule.

## OPS Issues New Ceiling Prices On Used Cars

A new dollars and cents ceiling price regulation for used passenger automobiles has been issued by the Office of Price Stabilization, Ellis H. Boyd, Ft. Worth district director, has announced.

The regulation sets dollars and cents ceilings for each body style, line or series, of each make of used passenger car, for the years 1940 through 1951. These ceilings are to be reduced at the rate of 2 per cent every calendar quarter beginning January 1, 1952.

The new order, Ceiling Price Regulation 94, is effective Nov. 20; however, the dollars and cents ceiling prices do not become effective until 30 days after Nov. 20. In the interim, current ceiling prices as established under supplementary Regulation 5 to the General Ceiling Price Regulation will remain in effect.

### New Exemptions

The OPS has exempted from price control admission charges for specified public and private school athletic and entertainment activities.

The exemption is limited to admissions to such activities as athletic events and school fairs when held in facilities owned or controlled by the schools. Privately promoted events, such as Bowl football games, remain subject to price ceilings with respect to sales of tickets by the private promoters.

## Social Security Representative To Be Here Nov. 29

Ralph T. Fisher, manager of the Abilene office of the Social Security Administration, will be in Haskell at the Chamber of Commerce at 11 a. m. on Thursday, Nov. 29. He can be contacted there for more information about the Amended Social Security Law. He also will assist anyone who needs help in filing a claim for retirement or death payments.

Fisher calls attention to the fact that practically every person having a trade or business of his own is now building protection under the Amended Social Security Act in case of retirement after the age of 65 or in the case of death. The first tax report to the government on this will be due soon. Each self-employed person not having a social security account number card needs to get one now. Application blanks for account numbers can be secured from the local postoffice.

### Dashing by Around

Well whatta you know! We got some fan letters and many telephone calls on our brain storm of a column last week.

We are beginning to see just what makes all the guys and dolls who work on a newspaper so satisfied to have one of the hardest and most thankless jobs in all the world.

That first "Fan Letter"—it came early Friday morning via very special delivery. A card with an orchid on it offering congratulations from one whose opinion we value highly and we quote—"I was turning through the paper looking at the grocery list while making out my grocery list and saw the heading on your column. It looked good and we read it all with relish. Keep Dashing, Diane." That paper orchid on that paper card, we'll have to confess gave us a greater thrill than the first real one we got from our handsome, best beau. Got so swelled up Pop said "you better go back and read your nursery book story about the garden toad and his too tight coat." We did—he swelled so much his hide split right down the middle! Moral???

Well Pop, even if we did cut our baby teeth to the tune of Brahms Lullaby, even if we are now in the painful process of cutting our musical wisdom teeth

### Progressive Study Club Assembles Materials for Girls In Germany

The club is sponsoring a program to raise one hundred dollars to be used in sending packages to Korea. Members voted with the Fire Boys and Christmas packages for children in our town. Mrs. Bob Herren was very interesting program. She was assisted by Mrs. son and Mrs. Currie. Exhibited a number of pictures, giving a glimpse into the life of a German child. An informal period followed which each member of the club was given an opportunity to demonstrate her talents with a stick of charcoal. Refreshments of punch and coffee were served group by the hostesses.

Attention Rev. M. D. Rexrode: You have "dared to be a Daniel" among us. We understand and appreciate your steadfastness in carrying out a wonderful "purpose true" for the people and program of our church; we appreciate your loyal family who share so much of your time with so many people, but we want our pastor alive and well, so can't you take things a little easier until you are restored to your usual good measure of health? There! now we have said it and gotten a load from our chest, but we know that as long as you can walk you'll always be "about the Father's business."

More power to you and all the other ministers of the local churches who do so much for Haskell.

Attention Coach Smith: We are proud of you and our hard playing team. We haven't won all the games this season, but you made a touchdown by not listening to

too much sideline coaching holding high the red flag of courage.

Thanks to Helber's Jew the "Free Wrapping Service" maintain at your store, easy to "Make a Sewing happy by sending him some when you take care of the ping and labeling of packages to the men in service."

No time for "Person week. The biggest thing beat are the Thanksgiving days and those atomic dealing six weeks tests that they come in the same. We gotta pass 'em or expect to hear from us as whole and happy and hearted and free or in bits. Nuff said. Maybe to Germany issued red porcelain coins during World War.

# Thank You

It is only appropriate in this month of Thanksgiving that we give special recognition to these two important words "THANK YOU". We try to make these words a part of every transaction at this bank. They sum up our appreciation to you for the opportunity of being of service; our gratitude for the privilege of living and working in this progressive community — all of which, of course, is made possible by the blessings that are ours in this country where Thanksgiving originated.

In observance of Thanksgiving this bank will be closed all day Thursday, November 22.

# H-D Club Achievement Day Shows Versatile Work of Club Women

Achievements were shown by Haskell County Home Demonstration club women Friday, Nov. 16 in the Haskell Methodist Church.

Forty entries in the Bake Show made it the main event of the day. The Bake Show was composed of products the women had given demonstrations on during the past two years. There were 12 blue, 12 red and 14 white ribbons awarded the baked products.

Educational exhibits and displays were also highlights of achievement. There were eleven of these exhibits and displays.

The Sagerton HD Club had a very good educational exhibit on How To Put a Collar on a Dress. This was taken from a demonstration they had this year.

Ceramics, Aluminum trays, and textile paintings were shown in the colorful display from the Blue Bonnet Club.

Textile painting was used as a craft for the Center Point Club this year, so this was the theme for their educational exhibit.

An attractive flower arrangement was used for the display of the Liberty Club.

4-H club girls gave demonstrations to HD clubs, this year on Putting in a Hem. The Veteran's Wives Club planned their educational exhibit from this. Since the chairman of the county 4-H leaders committee is from their club, they had lots of practice on this.

Matching plaids was the main topic of conversation among club women this year. The Fannie Smith Club made their educational exhibit on matching plaids. It surely made you see how much better you look when the plaids do match.

Handwork made an attractive display from the Lucky H. D. Club. You could really see they had been doing things.

The Willing Workers have been making pictures so they made their display on them. There were pictures from all their members, along with directions for making them so everyone would know how to make them.

Friendship Club had their handwork in a very colorful display.

"Shall I Buy or Bake Cookies?" made a most interesting educational exhibit from the Josselyn Club.

The O'Brien Club used china painting for their display. They based this on the craft they had at camp.

Judges for the Bake Show, educational exhibits and displays were Miss Fern Hodge, District Agent, Vernon; Miss Joy Riley, County Home Demonstration Agent, Wilbarger County; Miss Marva Thompson, Assistant County H. D. Agent, Wichita County.

A covered dish luncheon was served to 75 club women, the judges and Judge and Mrs. Turnbow. Mrs. Carolyn Everett sang during the lunch hour. She was accompanied by Mrs. Anita Medford. The climax of the day was a talk given by Mrs. Jesse B. Smith, a charter member of the first Home Demonstration Club in the county. She told the history of club work in Haskell County.

The Achievement day committee: Mrs. R. V. Hagie, Mrs. Ira Townsend, and Mrs. J. L. Grinstead; the bake show committee: Mrs. Clyde Bland, Mrs. Grady Newsom, Mrs. T. C. Bevel and Mrs. J. C. Halliburton, council chairman, worked very hard to make this day a success.

SALES AND SERVICE  
HASKELL, TEXAS

There are many things for which we should all be thankful — Freedom of Worship, Freedom of Speech, Free Enterprise and the right to live and think for ourselves.

It is only in a nation like ours that our boys and girls can have the advantages of our present school system and we as citizens can enjoy their school activities and competitive sports.

From the sport angle, we feel that a fine job has been done this season by Coach Smith and his associates and our band director Billy J. Dean Jr.—that our boys and girls are better men and women for having played this season, that they have learned something of fair play in sports which will mean fair dealings in future life, have learned how to be courageous in defeat as well as in victory. And last but not least, have been responsible for creating a spirit of fellowship and good will among many citizens of the community.

All in all, we feel that the season has been worth while to all who took part and want to extend congratulations to coaches, band director and players and say we are proud of you and thankful you have come our way.

### Texas Motor Vehicle Safety Law Will Apply In Many Instances Outside State

Texas motorists who become involved in traffic accidents in other states and motorists from other states who become involved in accidents in Texas are most likely to find that the long arm of the new Motor Vehicle Safety Responsibility Law has followed them right to the scene of their misfortune, Public Safety Director Homer Garrison, Jr., pointed out.

As explained by Director Garrison, here is how it will operate when the law becomes effective in Texas on January 1:

Assume that a Texas motorist is driving his automobile in another state having a similar security type of safety responsibility law and is involved in an accident that results in death or injury to a person or property damage to any one person in excess of \$100. He will be required, under the laws of that state, to furnish proof of his ability to meet damage claims either through insurance or by depositing sufficient security to cover the apparent damage caused.

Should the Texas motorist fail to do this, the authorities of the other state will suspend his priv-

ileges to own or operate a motor vehicle in that state and will send a certified copy of its suspension order to the Texas Department of Public Safety. If the circumstances in the other state would have resulted in suspension in Texas, his motoring privileges will also be suspended in Texas. They will remain suspended until he has satisfied the law of the other state to the same extent that he would be required to satisfy the Texas law.

In the same manner, the new Texas law applies to non-resident motorists who are involved in accidents in this state, resulting in death or injury to a person, or property damage to any one person in excess of \$100. Non-residents who fail to meet the requirements of the Texas law will have their privileges suspended in this state and also in their home state if the circumstances would have called for similar action there.

"When you understand that 10 per cent of the traffic accidents in most states are caused by out of state drivers," Director Garrison said, "you will appreciate the importance of this provision in our law. It means that a visiting motorist will no longer be able to skip out of the responsibility for his damages by crossing a state line. If he does, he will find the administrator of his own state's safety responsibility law waiting for him with a suspension order. I think this alone will do much to promote greater safety on our highways."

Since 34 other states have enacted safety responsibility laws similar to the one that soon will become effective in Texas, the area where motorists are not subject to these modern statutes has been considerably narrowed. While the safety responsibility law in a few of these states does not include this reciprocal provision, they are rapidly adding it. In addition, traffic accident experts predict that most of the 13 states that have failed to enact these statutes will do so within the next two years.

### Fall and Winter Brings Increase Of Common Colds

"At this time of year health officers and practicing physicians always expect an increase in the common cold," Dr. Geo. W. Cox, State Health Officer, reminds residents of Texas. "Although good personal hygiene, adequate sleep, suitable clothing, moderate exercise and good nutrition, may help the individual to develop resistance to infections, colds frequently develop in spite of all normal precautions. The seasonal rise in colds and other respiratory diseases during the fall and winter months certainly suggests that the shift to cooler weather is partly responsible for their prevalence."

"The unhappy victim of a cold should make every effort to prevent spreading the infection to others. He can help by covering coughs and sneezes with a disposable paper handkerchief, by staying out of crowds and avoiding close contact with others—especially invalids, young children and old people. Evidence indicates that colds are readily transmitted from person to person.

"For his own sake the patient should rest as much as possible in order to help his body to fight the cold. If there is any fever it is advisable to go to bed and stay there. There is some question as to the effectiveness of the large quantities of water and fruit juices generally recommended in the past, but they can do no harm and may help to some extent.

"If a cold persists for several days the patient should by all means consult his family physician, especially if there is an accompanying fever. Although, as is generally known, there is no specific cure for the common cold the doctor can prescribe medicines that will afford safe relief. Consulting the physician is strongly advised, also, because a number of communicable diseases have early symptoms similar to those of the cold and only a doctor can decide whether the patient has a simple cold or some more serious disease."

The weather during this season of the year—warm days and cold nights—is favorable for the development of swine flu. Swine producers are urged to be on the lookout for the disease.

## How to make old roads seem NEW

PICK a road that you know by heart. Not too good a road. One that has some bumps—some unbanked turns—a tough hill or two.

Then get in touch with us, and let us put you behind the wheel of a Buick, with Dynaflo Drive.\*

Now you're all set for a new experience. You'll find out this:

Those bumps seem to lose their bobble. You just take them with a smooth and level stride.

Those unbanked turns don't seem so sharp, and those hills seem almost to flatten out.

How come? Well, a lot of things are different when you travel in a Buick.

You're riding on big, soft coil springs that let every wheel dance beneath you, without passing on the jolts to you in the car.

You're driving a car that's plenty inches broader than it is high—a sure-footed road-hugger if there ever was one.

And you're riding behind a Fireball Engine—Buick's time-tested version of a high-compression valve-in-head—an engine that packs more power than most people ever need to use.

With this power—and with Dynaflo Drive\*—you don't have to "rush" a hill at the bottom to soar serenely over

the top. You just feed the power as you need it—climb with a sure, steady swoop without buck or bobble all the way up.

There's a lot more that we could tell you about a Buick. But such things as room, and comfort, the confident way it steers, and the way it shortens the miles are things you can best discover from personal experience.

So why not follow the routine already suggested? You supply the road—we'll supply the car—and let it speak for itself.

### PMA Committee Named to Direct '52 Farm Program

In the recent PMA community elections held in Haskell County, 1,877 producers cast ballots for their choice of community committee members and delegates to the county convention held in Haskell Friday, Nov. 16, according to Joe S. Harper, county PMA secretary.

This was a record turn-out of voters in a PMA election, Harper declared, and represented approximately one-third of the eligible voters in the county. He pointed out that with this number of farm producers participating, those elected to handle the farm programs for 1952 were truly a representative group. He added: "These committeemen stand ready to assist farmers at all times, and can be of the value intended only if they are called upon."

Elected delegates to the county convention were: Ford Wallace, J. A. Pinkerton, Carl E. Wheeler, Lee Norman, Clarence Burson, M. W. Phemister, J. M. Blackwell, John R. Watson, Sr.,

Hubert H. Sego, J. L. Stephens, Edward Neinst.

At the county convention, the following men were elected to serve on the PMA Committee for 1952: John W. Brock, chairman; George B. Pool vice chairman; Ray R. Overton, regular member.

### Q-B Club to Help During Rochester, S. Taylor Game

Members of the Quarterback Club made plans at their meeting Tuesday night to assist with arrangements for the Rochester-South Taylor bi-district football game here Thursday, and committeemen were named to handle various details of the game.

The club will furnish ticket sellers, takers and other workers who will assist managers and school officials of the two towns at Indian Field during the game. Others will help in placing the field and grounds in readiness for the contest.

Also final plans were discussed for the Texas-Oklahoma Colored Classic to be played on Indian Field Thursday night, Nov. 29th, between the Woodson Black Eagles of Abilene and Frederick Black Wildcats of Frederick, Okla.

Despite ending of the football season, the Q-B Club will continue weekly meetings for some time, it was decided. Next Tuesday's meeting will begin at 6:45 in order to avoid conflict with a school program. A film of the SMU-A&M game of 1950 will be shown at this meeting.

### Transient Charged In Burglary at Rochester

J. L. White, 54, a transient farm laborer, is being held in county jail here on a burglary charge in connection with the theft of clothing and other articles from the farm home of D. A. Pitman near Rochester late Saturday.

The complaint was filed by Constable Bo Loper of Rochester after he had recovered the clothing and a suitcase from White which had been taken from the Pitman home.

White admitted the theft in a statement signed before County Attorney Royce Adkins. Bond, set at \$1,000 to await Grand Jury action, had not been perfected Wednesday.

### Indians Turn In Best Game of Year Against Albany

The Haskell Indians final conference game of the season Friday night was marred with a 27-12 defeat by the Albany Lions, but the margin of victory was held below pre-game estimates by a courageous tribe of Indians who turned in by far their best game of the season and hold a 3-3 record of wins and losses in Dist 8-A play.

Tough breaks that have dogged the Indians since opening of the season continued through the final game. Keith Wheatley, injured Thursday in practice, cut the starting ranks of the Indians on the eve of their final tilt, while fullback Buddy Collins received injuries during the second quarter of Friday night's game which kept him out the remainder of play. Tommy Robison, Indian center, suffered a broken hand during the first period but played the entire

game despite his injury. Albany's first score came in the initial period when Vieriel, Leon guard, stole the ball from the Indian quarterback and paced 89 yards to pay. A Haskell fumble in the second set up the Lions next score on a 36 yard drive with Fred Schade carrying over, and Freddie Morrison converting.

Two touchdowns passes by Jimmy Allman to W. S. Scott and Claude Riley, with Morrison converting, wound up the Lions scoring.

In the third period, the Indians marched 89 yards for their first touchdown with Eldon Ammonett picking up the final 12, but try for extra point failed.

In the final period, the Indians marched from 55 yards out and two personal foul penalties against the Lions placed the ball on the one, from where Ammonett plunged over. Conversion try failed.
