Kenneth Sams Elected To State Council

Kenneth Sams, local school superintendent has been elected to the State Legislative Council of the University Interscholastic League. Mr. Sams was elected over four other candidates. He will represent Region 1-A which covers the Panhandle, South Plains, Big Country, and Trans-Pecos areas. There are some 53 class A high schools in this region and eight districts.

The duty of the Legislative Council is to determine policies to guide the State Executive Committee in making the rules governing the organization and control of contests; to adopt material changes in contest rules; to refer such material changes in contest rules to the member schools when, in its judgement, this is advisable.

Mr. Sams' term will expire on August 31, 1978.

Proclamation

For Nat'l Business Women's Week

WHEREAS, working women constitute 26 million of the Nation's working force, and are constantly striving to serve their communities, their states and their nation in civic and cultural programs, and

WHEREAS, major goals of business and professional women are to help create better conditions for business women through the study of social, educational, economic and political problems; to help them be of greater service to their community; to further friendship with women throughout the world, and

WHEREAS, all of us are proud of their leadership in these many fields of endeavor; Now, therefore, I, J. Belton Duncan, Mayor of the City of Haskell, by the authority vested in me, do hereby proclaim October 19 through October 25 as NATIONAL BUSINESS WOMEN'S WEEK, sponsored by the National Federation of Business and Professional Women's Clubs, Inc., and urge all citizens in Haskell, all civic and fraternal groups, all educational associations, all news media and other community organizations, to join in this salute to working women by encouraging and promoting the celebration of the achievements of all business and professional women as they contribute daily to our economic and cultural purposes.

Questions On New School Fees Answered

AUSTIN—A seven-point letter designed to answer questions raised by the recent Attorney General's Opinion eliminating many fees traditionally charged public school students were mailed to school administrators across the state Friday (October 10) by Dr. M. L. Brochette, Commissioner of Education.

The opinion issued on October 1 by Attorney General John L. Hill covered three key areas: tuition for driver education, charges for school supplies and instruction and lab fees, and fees for extra curricular activities.

Hill's ruling confines itself to the specific questions asked, Brochette's letter to the school superintendents point out. It also states that all areas addressed in the Opinion that are not permitted by law are prohibited.

"The following statements are submitted in response to the many questions from local school districts," Brochette says in his letter to some 1,100 district superintendents. "We hope the following will help you in implementing the Opinion."

(1) The effective date is the date of the ruling, October 1, 1975. The Attorney General's Opinion did not cover fees collected prior to the date of October 1, 1975.

(2) The ruling does not speak to students furnishing traditional supplies such as pencils, paper, etc.

(3) Fees charged to buy such materials as workbooks, etc., are covered under the ruling. Fees for typing, labs, etc., are also covered by the ruling.

(4) Materials necessary for the student to acquire basic skills in vocational education courses must be furnished by the school district. However, the school district may allow a student, at his option, to furnish costlier or different vocational materials for approved projects undertaken for credit in such courses without incurring any obligation to pay for such materials, so long as the materials and the projects created from them remain the property of the student.

(5) A school district may charge tuition for driver training if taught in the student's fourth quarter (summer school). This is one of the areas in which tuition may be charged as indicated in Texas Education Code 16.864.

(6) A school district may charge non-participating students admission to extra curricular activities where attendance is voluntary.

(7) A rental fee may not be charged for band uniforms. The opinion does not address the question of students furnishing their own uniforms and/or equipment.

Haskell Co. Library Needs 4,000 Books

On August 26th the Commissioners' Court of Haskell County voted unanimously for the Haskell County Library to apply for membership to the Texas Library System. To qualify for membership the library must maintain a certain annual budget and have at least 10,000 volumes. Our county library has met the budget requirement but it is still short of the 10,000 volumes needed for membership since it currently has only 6,000 volumes.

The libraries in our neighboring towns of Stamford and Munday are now system members. With the excellent physical plant which the Haskell County Library has and the dedicated and qualified services of Librarian, Elsie McGee, the Haskell County Library should become a Systems member.

A public appeal is now being requested by the Haskell County Library Board for books to be donated to the library. Any quality, non-pulp type book is acceptable to be counted toward the 10,000 books needed. Please take your books directly to the Haskell County Library. The cooperation of all interested individuals in the county is needed in order to qualify for the 10,000 volume requirement. One may consider giving books to the County Library as memorial gifts. Such a gift would be a lasting and useful tribute.

The advantages of System Membership has been outlined by Dr. Dorman H. Winfrey, Director of the Texas State Library, which reads in part:

As a community or area library in a Major Resource System, you would have access to the library resources of this state through the Texas State Library Communication Network. The network provides interlibrary loan services for the System member libraries and utilizes the resources of public libraries, academic libraries, and special libraries to fill the informational needs of your patrons. You can submit requests for books or requests for information on a specific subject through this network.

Also of value to system members are special services and programs which will begin operating out of the systems headquarters library which will be designed to reach all

system member libraries. Such programs might include consultant services and many visits, workshops, collection development for both print and non-print materials, a film circuit, a books-by-mail program, centralized acquisition and processing of library materials, and expanded cooperative promotional activities. These are just a few possibilities for cooperative efforts among member libraries to increase the effectiveness and impact of library service through coordination to minimize needless duplication of effort. The systems concept is designed to increase the possible impact of funds, staff, and materials, while building upon firm library growth and development at the local level.

In addition, priority is being given to system member libraries in terms of dispensing state and federal money in the form of grants. State funds are being requested to implement the Library Systems Act. The federal money authorized under the Library Services and Construction Act is allocated to interlibrary loan and network activities, library building programs, systems projects, and special projects geared toward disadvantaged groups, but all these grants have as a basic requirement system membership.

In addition to the advantages of Library System membership discussed above, there are certain things that the Abilene Library does for system members in our area. The Abilene Public Library subscribes to three review magazines for each system library that wants them. It also gives them free direct reference service. It offers an annual planning meeting for system librarians, and starting this year, the Abilene Library will pay for transportation to and from the meeting.

Homecoming Anniversary Set For Oct. 19

Students of the old Stamford College (1907-1918) and members of the congregation of St. John's United Methodist Church in Stamford, Texas, are combining forces on Sunday, October 19, 1975 to celebrate the college's homecoming and the church's 75th Anniversary.

Registration will begin at 10:00 a.m.; former pastors and students will be recognized at 10:30 a.m., and the morning worship service, with the Reverend Bourdon Smith speaking, will begin at 11:00 a.m.

A meal will be catered and served in the fellowship hall at noon and those present will be able to view the many pictures, annuals of the college and the other interesting exhibits that will be on display.

Close ties have always existed between Stamford College and the congregation of St. John's United Methodist Church.

The church, which was organized in 1900, built their present structure to accommodate the students of Stamford College. When the college burned in 1918 however, it was moved to Abilene, Texas, and became what is presently known as McMurry College. The historical committee of the church has worked long and hard to write the history of these two organizations, compiling a very informative and interesting collection of pictures and memorabilia. Copies of this history will be on sale for \$3.50 each.

Kindergarten Classes Tour Fire Station

The kindergarten classes of Mrs. Sloan and Mrs. Jarred visited the Haskell Fire Station, Friday climaxing a fire safety study.

The classes saw firemen protective clothing, some of the equipment they use on the fire trucks and a film showing the firefighters in action.

Following the informative visit to the station, the children were treated to a ride back to school on the fire truck.

The classes wish to express their appreciation to Mr. Lusk and Mr. Barnett for their kindness and interest.

Couch Named Vice Chairman To R-PEP

SEYMOUR (Special)—New chairman of the Rolling Plains Economic Program (R-PEP) is Herman A. Propst of Anson, elected here last week during annual meeting of the R-PEP membership.

Propst has been vice chairman of the economic development program two years, but he is also widely known for his work in the area and in Washington, D. C., as president of the Rolling Plains Cotton Growers Inc.

Other R-PEP officers elected during the Oct. 7 meeting in the Baylor County Extension Building: Vice Chairmen R. C. Couch of Haskell, and Secy. William Benson, Advisor Norman W. Brints and Coordinator Edwin T. Garnett, all of Vernon.

Couch is a farmer-businessman. The other three are employees of the Texas Agricultural Extension Service: Benson, area resource development specialist; Brints, area economist; Garnett, supervisor of Extension agricultural agents in the 21 counties of District 3.

Propst succeeds Bob Hillery of Wichita Falls as head of R-PEP, the massive program begun in 1967 to increase agricultural yields and net income in the 28 counties of the Rolling Plains.

Educational programs in R-PEP are conducted year-round by several task forces. Propst also heads, for example, the Cotton Task Force. Other new task force chairmen: Gary Mathis of Stamford, for Beef; Mrs. Bryon Phillips of Vernon, for Family Living; Darryl Schoonmaker of Stamford, for Grain Sorghum; L. D. Woodward of Graham, for Outdoor Recreation; Winston Wilson of Quanah, for Small Grain; Tommy Isbell of Paducah, for Special Crops, and Floyd Borchardt of Crowell, for Swine.

Girl Scout Fund Drive Starts Oct. 20

The annual Fund Drive for the West Texas Girl Scout Council will begin Monday, October 20th.

The Council has troops in 16 counties and a membership of 4,500 girls, 1st grade through high school senior, 600 men and women and approximately 220 troops.

Mrs. Kenneth Lane and Mrs. Wallace Cox, Jr., Fund Drive Co-Chairmen, solicit everyone's support to reach Haskell's \$1600 goal.

Merchants Celebrate 50th Anniversary

Mr. and Mrs. Ray D. Merchant were honored with a reception on Sunday, Oct. 12, 1975 on their 50th wedding anniversary.

Hosts for the occasion were the couples children Mr. and Mrs. John R. Merchant of Laurel, Miss. and Mr. and Mrs. H. Cleo Merchant of Haskell and their families.

The reception was held at Haskell National Bank's Community Room from three until five in the afternoon.

The serving table was a gold cloth covered with dainty white lace and trimmed with ribbons with the honoree's names printed in gold. Serving appointments were gold and white.

A two tiered white wedding cake served as the centerpiece. It was topped with hearts, bells and the figure 50 in gold.

Mrs. Faye Bledsoe served at the punch bowl, with Mrs. Joanne Carroll serving cake, Mints and nuts were also served.

Mr. and Mrs. John R. Merchant greeted their guests at the door and directed them to the registration table, presided over by Mrs. Pam Bevel.

The table was covered with a white linen cloth edged with lace. A gold 50 plaque and a small bouquet of yellow roses and a gold guest book was on the table.

The receiving line consisted of Mr. and Mrs. Ray Merchant and Mr. and Mrs. Cleo Merchant.

Mrs. Ray Merchant was radiant and beautiful in a long, blue crepe dress with a draped bodice. She wore a white and gold corsage, a gift from her two sons, and a cameo pin, a gift from her husband. Mr. Merchant's boutonniere matched the flowers in Mrs. Merchant's corsage.

The couple had received many nice gifts and these were on display with Mrs. Wayne Merchant presiding.

Mrs. Glen Wood, Stamford, Texas, Mrs. Olen Derratt, Houston, Texas, Mrs. Ron Taylor and Mrs. Gary Merchant, both of Hobbs, New Mexico, all granddaughters of the couple served as tea girls. Mrs. Jerry Zahn and Mrs. Alan Merchant also assisted.

Out of town guests were registered from Littlefield, Lasbuddy, Lubbock, Portales, N.M., Haggerman, N.M., Wichita Falls, Lewisville and Mineral Wells.

Saturday night, on the eve of their 50th anniversary, Mr. and Mrs. Ray Merchant entertained at their new home on Ave. E with an informal buffet supper.

Some twenty-five out of town relatives and friends were present.

Following dinner, the couple opened their many gifts. At this time they presented their gifts to each other.

Cattle Feeders Set Convention

AMARILLO, TX.—"Decisions for Cattle Feeders" is the theme of the Texas Cattle Feeders Association Convention, October 17-19 at the Sheraton-Fort Worth Hotel," says Glenn W. Daniels, president. "Texas Cattle Feeders will be meeting with our Association which should make this the best of conventions." The program will feature Ross Daniels, Electronic Chairman, Texas Utilization "Decisions that People," Bill Clay, Texas Representative, will be the morning session on "Political Decisions Facing Texans." Other speakers will include Ross Daniels, well-known from Yazoo City, Texas, referred to as "The Will Rogers" of Texas. Tuesday's activities will include a breakfast. The convention on Tuesday will focus on one issue which is all-important to consumers. Ellen Daniels, president of the Consumer Congress, will discuss "It's Time to Listen to Consumers." Schott, manager of Merck Chemicals, will discuss

WASHINGTON

"As It Looks from Here"

OMAR BURLESON
Congressman—17th District

WASHINGTON, D. C.—THIRTY-THREE STATES HAVE LAWS PROHIBITING STRIKES by public employees. Under certain circumstances some classes of employees are permitted to strike in eleven States. The other six have no laws on the subject.

REGARDLESS OF LAW, STRIKES BY PUBLIC EMPLOYEES HAVE DRAMATICALLY increased across the Country. Vital services have been seriously impeded by militant demands by unionized police, firemen, teachers, transportation employees and sanitation workers. They have the power to paralyze a city and the trend is spreading to smaller communities.

IN SAN FRANCISCO, THE POLICE FORCE DEMANDED A 13% ACROSS THE BOARD pay increase. The Board of Supervisors countered with an offer of 6.5%. The Mayor overruled the Supervisors and "compromised" with granting the 13% increase. A month earlier the Mayor had said that yielding to such demands would bring financial disaster and that public employee strikers should be fired. After firemen in San Francisco joined the police, the Mayor folded.

KANSAS CITY HAS NOT ONLY GONE THROUGH THE SAME THING BUT EVIDENCE strongly suggests that firemen and police set numerous fires that had to be coped with by National Guardsmen. NEW YORK CITY IS THE

HORRIBLE EXAMPLE OF ABOUT EVERYTHING. THAT city is bankrupt. It stands on the verge of defaulting on its huge and unmanageable debt. It has 51 employees for 1,000 inhabitants—they control the city. Even the liberal New York Times has said that "this is not only the road to municipal bankruptcy; it is the road to anarchy. It is the death knell for democracy."

THE CITY NOW WANTS THE FEDERAL GOVERNMENT TO BAIL IT OUT. If the Federal Government should do any such thing, it will have to do the same for every financially troubled community in the Nation. There is not that sort of money even in Washington—and if there was, it would all come from money the Government had to borrow.

THE TAXPAYERS OF THIS NATION SHOULD NOT BE MADE TO PAY FOR the irresponsibility of New York or any other city's politicians and its equally irresponsible unions and pressure groups. It is a bottomless pit that simply can't be filled. Even with many of the big city Mayors who drew high salaries, it seems that power of appointments to keep control is more important. A case of \$13 thousand a year bus driver in New York who retired on a \$15 thousand annual pension becomes a little absurd. Their pension bill alone by 1980 is expected to cost \$1,700,000,000 a year. The city continues to maintain a tuition free university system and a lot of "frees." The city's budget has increased three fold in the last ten years.

THIS SORT OF TREND IS NOT LIKELY TO BE REVERSED UNTIL CITY officials have the support of solid citizens who demand that they resist the unreasonable demands now being imposed upon them.

THERE IS NOW IN THE COMMITTEES OF THE CONGRESS LEGISLATION TO extend Revenue Sharing to State and local governments over the next five years. During the last five years \$30 billion was provided for this purpose and in the present legislation it is upped by \$10 billion to \$40 billion.

UNDER THE PRESENT FORMULA, FEDERAL REVENUES ARE GRANTED TO THE States and their political subdivisions on what is accepted as reasonably fair. There are demands that the new legislation give the bulk of this \$40 billion to State and local governments which need it most. This simply means that those entities of local government which act responsibly will be penalized for it. Anyone who commits himself to being for a continuation of Revenue Sharing would be advised to wait until they see what may happen in the change of the method of distribution of funds.

New Hours For Caverns

Two Carlsbad area parks have begun fall and winter visitor hours, which will be in effect until next Memorial Day.

At Carlsbad Caverns National Park, the visitor center opens at 8 a.m. and trips into the main cavern are offered continuously from 8 a.m. to 3:15 p.m. daily.

Although Big Room trips which enter the cavern by elevator are being offered until 3:15 p.m. daily, visitors desiring to make the complete three-mile walk-in trip must be at the cavern's natural entrance no later than 2 p.m. in order to have time to complete the trip.

The Living Desert State Park at Carlsbad also is observing the fall-winter schedule with current hours of 9 a.m. to 4:10 p.m. The park is open seven days a week.

The park offers visitors an opportunity to see one of the most complete cacti and desert plant exhibits in the world and to view a large collection of animals and reptiles native to the desert and mountain southwest.

Carlsbad Caverns National Park also is offering primitive lantern tours of New Cave in the Slaughter Canyon area this winter. They will be held at 9:30 a.m. and 1:30 p.m. on

Saturdays and Sundays only until spring. For New Cave Trip reservations visitors should telephone (505) 785-2233.

Initial reports on a new acid delinting process for cotton are all positive. Called the "dilute sulfuric acid delinting process", the new method of removing lint from cottonseed promises several things. Most significant for the farmer is the prospect of lower delinting costs and higher quality planting seed. Cotton Incorporated of Raleigh, North Carolina, is developer of the process they say will revolutionize delinting. Currently wet-acid processes are threatened by Environmental Protection Agency action because of the large amount of sulphuric acid used in the delinting. According to first reports, the new process will consume only about 20 pounds of sulphuric acid per ton of cottonseed delinted. Backers of the operation say the quality of the seed will be improved, with no deterioration of the seed coat and with water uptake levels during germination equivalent to gin run seed.

Farm-facts

A Weekly Report Of Agri-Business News

Compiled From Sources
Of The Texas Department of Agriculture
John C. White, Commissioner

Three Per Cent Isn't Much . . . Five Are Above . . . Two Thirds Less Than Last Year . . .

"Farm Prices Continued To Rise", one news story reported recently; another noted that because of the farm price rise, consumers would soon be paying more for food.

But when you really dig into the situation as it relates now to food production, you find that farmers are still way below the rest of the economy in relation to income. And you find, too, that food production increases of this year are keeping consumer food prices at levels well below those of the past two years.

The Texas Crop and Livestock Reporting Service notes that parity is now at 76; this means that for all practical purposes agriculture is only about three-fourths as well off financially as the rest of the economy.

Indeed, some farm prices — notably hogs and mohair — have shown some dramatic increases in recent weeks. But when you put all those price advances together, you find that farm prices still have a long way to go before reaching plateaus of profits that farmers have been hoping for, but have not yet found.

OF ALL THE COMMODITIES sold by agricultural producers, only five are currently above parity. They include sweetpotatoes, oats, hogs, wool, and mohair. All of the other commodities are well below parity. Of those above parity, only hogs really have a big impact on the farm income situation.

Wheat, which continues to get a lot of attention, because of some modest price increases in the past few months, still is not at parity. The average wheat price in Texas is now around \$4 per bushel. This of course is a lot higher than the \$1.25 per bushel of a few years ago, but it still is not at parity, or equality with the rest of the economy. Parity for wheat is \$4.67 per bushel.

Grain sorghum, cotton, and all classes of livestock (except for hogs) continue to be below parity.

Grain sorghum average price is \$4.62 while parity is \$5.21. Cotton average price is up to 38.7 cents per pound. Parity is 79.34 cents per pound. Incidentally, a year ago cotton was selling for 53 cents per pound.

Beef cattle continue around \$16 per hundredweight under parity; calves are \$40 under parity; lambs are \$16 below parity.

But for the good news, mohair is 20 cents per pound above parity; wool is almost double parity; and oats are 20 cents per bushel above parity; hogs are \$8 above parity; sweetpotatoes are about \$2 higher than parity.

ANOTHER INTERESTING ASPECT of the food production picture situation is that our nation's farmers are producing record crops. This is helping to slow down the trend in higher food costs. During the past two years, food costs have risen about 14 per cent. But this year, they are expected to rise only around 3.5 to 4.5 per cent, compared to the increase of a year ago. This amounts to less than a one per cent increase in the Consumer Price Index, of which food accounts for just under 20 per cent.

So any way you look at it, food continues to be one of the best bargains in our economy, made possible by the production efficiencies of our agricultural producers.

If all other segments of our economy had been as efficient as agriculture this year in increasing production of goods, our entire economy would be in a much better position than it now is.

California Creek and Wichita-Brazos
Soil and Water Conservation Districts

W. L. Ballard of Rochester, Zone 2 Director, Wichita-Brazos Soil and Water Conservation District, was re-elected to his position for another five years on October 7. A Community Convention was held at which time Ballard was re-elected without one dissenting vote. A program given by J. C. Yeary, District Conservationist and Jim Hudson, Soil Conservationist featured slides on activities concerning the use of 2, 4, 5-T and brush control.

Ballard has served the Wichita-Brazos SWCD as Director for Zone 2, predominantly all of Precinct 1 of Haskell County, for ten years, succeeding Herman Gammill. Affectionately known to all as "Knott", Ballard has farmed in the Rochester area most all of his adult life. Ballard farms 578 acres in four tracts—88 acres owned and 490 acres leased—approximately 140 acres irrigated and the balance dryland.

The Wichita-Brazos SWCD comprises about 47 percent of Haskell County. Two of the five zones are situated in Haskell County. Zones 1 is under the directorship of Marvin W. Phemister of Weinert. It comprises most of

The Soil Conservation Service at Haskell furnishes technical assistance to all landowners and operators in Zone 1 and Zone 2, as well as the rest of Haskell County which is situated in the California Creek SWCD.

W. H. Patterson of Rochester has recently become a cooperator with the Wichita-Brazos SWCD as has Donald Griffiths of Weinert. Conservation planning is underway with these two new co-operators.

If you have a conservation problem and need assistance, contact your SWCD Director or your SCS Technician.

"Texas Immunization Month"

Governor Dolph Briscoe proclaimed the month of October as "Texas Immunization Month" during ceremonies in Austin. Surveys indicate that approximately 25 percent of the nearly 1.5 million school age children are not protected from polio, measles, mumps, diphtheria, whooping cough and other childhood diseases.

"We want all parents in Texas to enjoy their children's growing years without fear of these crippling, sometimes fatal, diseases," Mrs. Briscoe added. "As honorary chairperson of Texas Immunization Action Month, I hope every parent will join with me in making sure our children are properly and currently pro-

Children. Protect Them From Harm" both public and private health providers have joined with volunteers to increase immunity levels for all Texans, with emphasis on preschool age children who are most susceptible.

Mrs. Dolph Briscoe, honorary chairperson of the health project, commented, "I remember the days before many of today's vaccines were available. The Governor and I, like many other parents, feared for our children's health safety, because there was nothing to protect them from polio and many of the other so-called childhood diseases.

Word received this week that Mr. J. R. Josselet is gaining strength and weight in the M. D. Anderson Hospital in Houston. He is to receive treatment as soon as he regains enough weight and strength. His address is Old South Trailer Court, 8803 South Main, Houston, Texas 77025. Or you can send mail to Room 401 East, M. D. Anderson Hospital, Houston.

Texas Farm Bureau News

WACO—The president of the Texas Farm Bureau has urged President Ford to call off his moratorium on grain sales to Russia.

Carroll Chaloupka of Dalhart said the ban on grain sales is a serious blow to agriculture. Extension of the moratorium until mid-October was announced by the President following a meeting with George Meany, head of the AFL-CIO.

"Farmers resent being used as pawns in a political chess game," the grain and livestock farmer said. "When agricultural markets are involved, we feel you should consult farmers, not the AFL-CIO. Labor union leaders do not feed this nation—farmers and ranchers do."

Chaloupka said farmers had responded with bumper crops to the government's request for all-out agricultural production to help fight inflation and earn dollars abroad. He reminded the President that farmers had been promised access to world markets.

"Now with government stepping in to interfere with normal sales, we feel that we have been short-changed," Chaloupka said. "This action could have results not anticipated in your negotiations with labor union leaders. Instead of resulting in more domestic supplies of grain and lower consumer prices, the opposite may be true."

In his letter, Chaloupka said Texas wheat farmers are getting ready to plant their 1976 wheat crop.

"If they feel they cannot count on normal export sales, they may cut back on their acreage, or not plant wheat at all," Chaloupka said. He added that even the most patriotic farmer must make a profit to stay in business.

"We know you understand the problems of agriculture as well as the contributions of farmers and ranchers—as you have so eloquently stated so many times," Chaloupka said.

"We urge you to call off your moratorium, then go to the American people and explain the economics of agriculture. They need to know who puts food on their table."

Reminder From Comptroller

AUSTIN—Comptroller Bob Bullock has reminded the 230,000 retail businesses in Texas that October 31 is the deadline for filing their quarterly sales tax returns.

"It's only a few days away and any return filed after that time means nothing but problems for us and for the taxpayer," Bullock said, noting that tardy reports can carry financial penalties.

Reports due October 31 cover the July-August-September quarter. Forms for the reports were sent to all sales tax permit holders by Bullock's office in September.

"Late reports are usually nothing more than oversights but that doesn't keep them from being a problem anyhow," said Bullock.

Any retail merchant with questions should contact the nearest field office of the Comptroller's Department, Bullock said.

Girl Scout News

A successful Family Weekend at Girl Scout Camp Boothe Oaks, south of Sweetwater, ended with the presentation of a miniature camping chair trophy to the Service Unit with the most Scouts present. Snyder Service Unit won with 18 representatives including the Alvin Wimmers, Bill Overhulser, Larry Anderson families and Vestal Maner, Carrie and Angela Lieb.

A backpacking demonstration was given by Elizabeth Smith and Bob McKinney both of Abilene. Plans were initiated for a backpacking course to be held next spring.

Sandy Sibilsky, Camp Director, announced that the fourth annual Family Weekend has been tentatively scheduled for October 1-3, 1976.

Junior Hi Football

The Haskell Warriors and Junior Varsity journeyed to Paducah last Thursday night for two games. The Haskell 7th graders won by a score of 14 to 0 to bring their record to 2 wins and 1 loss. The 8th graders continued their winning ways defeating Paducah by the score of 24 to 14; this brings the record to 4 wins and 1 tie. These were the first points surrendered by the 8th graders.

The Junior Varsity lost the first game of the season; the Paducah Jayvees won 38 to 6. The Jr. Varsity record now stands at 3 wins, 1 tie, 1 loss.

All three of the Haskell teams will be in action again; this Thursday night as they host the Knox City teams, starting at 5:00 p.m. at Indian Stadium with the 7th grade game.

Mr. Ray was born August 28, 1901. He is a retired law officer and contractor.

Mrs. Ray was born June 16, 1904. She worked at an Airplane Factory in Wichita, Kansas.

Mr. and Mrs. Ray were both raised around Haskell County. The couple met in Stamford and were married October 12, 1925.

They have nine grand children and three great grandchildren.

There were many out of town guests at the reception, and 163 guests were registered.

BANK MOVES TO NEW HOME

The new Farmers National Bank opened September 15, 1975. The building was designed by Charles Neal, son of Mr. and Mrs. Morris Neal.

The old bank was built in 1917. In those days there were two banks in Rule, and in 1933 the two merged to form the bank that we all knew as the Farmers National Bank. The bank became a National Bank in 1946.

The new bank, unlike the old one, has two private offices and a directors room.

Mental Retardation

Editor—This is the second in a series of articles about Mental Retardation prepared by Mrs. Eugene Cochran and the Public Education Committee of the Texas Association for Retarded Citizens.

HASKELL-KNOX COUNTIES and their citizens are becoming more aware of the needs of the retarded as public awareness programs are becoming more numerous. Throughout Texas, programs for the retarded persons are developing that have long-range goals and objectives, although there are still many communities that are behind in the development of programs.

One of the primary reasons for improving and expanding community services is to reduce the number of children in State institutions. Institutionalization could be avoided when it is not necessary because it separates the child from the parents and home-life activities that are necessary social adjustments that must be made eventually, if the retarded person is to be rehabilitated back into the community. Further consider the high cost to the taxpayer of lifelong institutionalization. If adequate educational and vocational training opportu-

ities and properly supervised job placements were provided for the mentally retarded persons in their home, communities, they, their families, Texas and the nation could profit from their remaining at home.

There are a number of services which the Associations for Retarded Citizens recommend be available and accessible in each community. Among these are: 1. Diagnostic and Evaluation Services, 2. Parent Counselling and an Association for Retarded Citizens group, 3. Day Care Services, 4. Early Childhood Education and Pre-School Services, 5. Special Education Classes in the Public Schools, 6. Vocational Services and Training Programs (including preparatory training and supervised work opportunities), 7. Half-Way Houses, 8. Community Residence Centers, 9. Recreation Programs, 10. Religious Education. Haskell-Knox areas are most fortunate to have a variety of these services

offered locally. Many of these services will be discussed in detail in a later article of this series. We will mention briefly what some of these services consist of, currently.

Diagnostic and Evaluation Services are vital early in the life of a child with a problem that makes parents aware of learning problems or problems of slower development that should be expected of the child at a given period of time in his life. EARLY diagnostic and evaluation services of the HIGHEST quality are essential for the child to begin receiving the services he needs, whether or not that child falls within the area of learning difficulties.

Public school Special Education Departments are continually upgrading their programs in an attempt to meet the needs of the trainable and educable mentally retarded persons. Senate Bill 230 is enabling the schools to expand their services, much as we are doing in Haskell-Knox Counties through the HASKELL-KNOX CONSORTIUM, P.O. Box 2548, O'Brien, Tx. 79539, Ph: 658-3851, John McGaughey, director. Mrs. Nancy Toliver, Haskell, serves as Diagnostician for this "co-op" that serves the following communities: Benjamin, Knox City, O'Brien, Rochester, Rule, Goree, Monday, Weinert, Haskell, and Paint Creek. An article will be devoted to all the services available through the Consortium and Plan A soon.

Day Care Centers are often necessary for the severely retarded citizens (both children and adults) who do not qualify for educational programs currently provided. The Center should care for the retarded persons on a part-time basis, giving the family an opportunity to participate in other activities. These activities could include working, shopping, dental and medical appointments, social functions, etc. This service is highly recommended by professional authorities in the field of mental retardation.

Retarded citizens can become useful, productive adults if given an opportunity. Certainly there is a great need for a Sheltered Workshop for the more severely handicapped individual who needs supervision and sheltered conditions in which to work. Haskell provides this opportunity (Haskell Training Center)

through the cooperation of the Outreach Program of Abilene State School and the Haskell city and county governments. The assistance of local, private employers is also indispensable.

An Association for Retarded Citizens can be another service offered to parents, professionals, interested citizens, and the handicapped individuals themselves. The furtherance of the welfare and living conditions of the handicapped is the main purpose for such organizations. Members receive excellent materials for public educating and are advised of current trends, opportunities, programs, services, legislatively pertinent information, research progresses and many other timely topics of interest to the general public. Monthly meetings with planned programs relating to every known phase of mental retardation should be presented to parents, city and county officials, law enforcement personnel, ministers, public school employees, civic group representatives and other interested individuals. As we in the community become more informed about mental retardation and the retarded persons, the more aware we will become of the need for adequate facilities and services. The public's response in the Haskell-Knox County areas is growing in an encouraging manner.

order to provide an adequate diet.

2. Develop an understanding of how food affects daily living and how nutritional needs vary throughout life.
3. Acquire an understanding of the relationship between science, food preparation and nutrition.
4. Develop desirable food habits.
5. Produce and preserve food for the family when desirable.
6. Learn to work and share with others.

4-H News

4-H Foods and Nutrition Projects will be starting soon in the County according to Barbara Elliott, County Extension Agent.

Foods Project Meeting will be conducted by 4-H Adult Leaders and Junior Leaders from late October through February 1976.

The Haskell County Food Show will be held in February and the winner in each food group will compete in the District Food Show on March 13, 1975.

Girls and Boys who were 9 years old by January 1, 1975 who are interested in a 4-H Foods Project are encouraged to enroll by calling the County Extension Office at 864-2546.

The purpose of the 4-H Foods and Nutrition Project is to teach:

1. Develop skills in planning, buying, preparation and service of a variety of foods in
