Farm Home of Chas. Redwine Burns Tuesday

The farm home of Mr. and Mrs. Chas. Redwine and family, three and one-half miles west of town on the old Ragner Road was destroyed by fire of undetermined origin early Tuesday night. In addition to the five room structure, Mr. and Mrs. Redwine lost practically all their household goods in the blaze. The family was at home at the time but the fire, apparently starting in a clothes closet in one room, had gained considerable headway before being noticed. A truck from the Haskell Fire Department made a run to the blaze but arrived too late to be of assistance due to the rapid spread of the flames. The house was owned by Mrs. S. J. Redwine of this city and was occupied by her son and family. Total loss on the house and contents was estimated at \$8,000 or more.

Huge Crowd Here Tuesday for Santa Claus Parade

Despite one of the worst dust storms in several years, the visit of Santa Claus and his reindeer to Haskell on schedule Tuesday afternoon attracted one of the largest crowds ever assembled in this city for a similar event. Santa's visit and a parade in which the Haskell High School Indian Band and Pep squad took part along with units of the fire department and an added attraction of an elephant and monkey from the winter quarters of Tidwell's Shows took part, highlighted the annual program sponsored by the Chamber of Commerce to open the Christmas shopping season in Haskell. With children predominating, the Christmas shavings crowded Haskell streets for several hours preceding and during the parade. They gave Santa a rousing welcome as he paraded around the square and distributed several hundred pounds of candy to the little folks. Following the parade, Santa and his reindeer were the center of attraction during the remainder of his stay Tuesday afternoon. Following his visit Tuesday, announcement was made that Santa Claus will return to Haskell each Saturday afternoon from now until Christmas. He will be in the business section from 1 p. m. until 7 p. m. Saturdays, and will spend the entire day in Haskell on Christmas Eve.

Expression of Merchants Desired On Closing for Xmas Holidays

The Chamber of Commerce is being contacted daily by persons who desire to know how many days the business firms of Haskell will be closed for the Christmas holidays, Rex Felker, C-C manager, reports. He points out that it is difficult to talk personally to each merchant concerning this without the possibility of missing someone who would like a say in voting on things which directly affect his business. For that reason, the C. of C. asks that each merchant use the ballot below in stating his desire as to the number of days to close for Christmas.

A limited number of reserved seats for the game will be available at the C. of C. office until 12 noon, Friday. Ticket office at Indian Field will open at 1:15 p. m.

Rochester Steers, champions of District 10-5, entered regional play by defeating South Taylor (Tuscola) 69-0 on Indian Field Thanksgiving Day in a bi-district contest.

Rochester had previously defeated Valley View, 19-13, for its closest game of the season so far.

In rolling up their imposing record in West Texas Conference B football, the Steers have amassed a grand total of 661 points against 25 all told for their opponents. The Steers have been successful in only three games this season—Monday and Tuesday each listing 8 points, and Valley View 13.

Sanger Indians have piled up 585 points in eleven games this season, against 96 points for all opponents.

Sanger will field a heavy team, with a starting lineup which averages nearly 180 pounds per man. Quarterback Jerry Lovell, a 185-pounder, does the crashing while halfbacks Harvey Bishop, 170 pounds, and Murrey Thompson, 160, are the speedy scorers.

Rochester this year has one of the strongest Class B teams in the entire state, and could take more Class A teams for a hard round. The Steers rank as one of the finest blocking and tackling organizations in area high school football.

Cochin Phil Simmons' squad will be facing a hefty weight handicap of almost 50 pounds per man against the Indians—the Steers starting lineup averaging 181 pounds per man.

Fans and supporters of the Steers however, believe the speed and initiative of the Rochester squad will go a long way toward offsetting any weight advantages of the invading Indians.

The Sanger football squad, coaches and officials will come to Haskell Thursday afternoon in advance of tomorrow's game and will probably go through light drills on Indian Field Friday morning.

Commerce or drop by the office Christmas.

Mail them to the Chamber of Commerce and place them in a box that will be ready for this purpose.

The ballots will be tabulated and the desire of the greatest per cent of merchants will be the deciding factor in designating one or two days on holidays. It is requested that the ballot be returned within the next few days.

I would like to close my business for—One—Two Days.

Cpl. Robert Free Talks With Wife, Parents, In Phone Call From Japan

One of the most pleasant advance Christmas greetings imaginable came Monday morning to a young soldier's bride and his parents of Haskell in the form of a telephone call from their husband and son who was in Japan on leave from the Korean front.

Cpl. Robert Free, who had been in Korea with U. S. fighting forces since July, telephoned his wife and his parents, Mr. and Mrs. George Free, from an Army recreation and rest center in Japan. He had been awarded a trip from the combat zone in Korea to Japan in competition with units in the 23rd Infantry Regiment. Cpl. Free told that the truck unit of which he was in charge was judged as being the best maintained in the regiment and he won the coveted trip to Japan.

Cpl. Free told his wife, who is making her home with his parents, that he was in line for another trip back to Japan late in December, also that he would be eligible for rotation leave to return to the States in February. He also said conditions had not been too rough in the fighting zone in recent weeks, and that all the men were in good spirits. Cpl. Free was permitted to make an 18-minute call, which allowed time for the veteran to talk with his wife, mother, and his father. "Even at that, 18 minutes passed entirely too quickly," his young wife, declared. Incidentally, she pointed out that the telephone call came six months to the day from the time her husband landed in Korea—July 3. He entered the service in January, 1950.

Address of the Haskell soldier is: Cpl. Robert R. Free, US 54026710, Med. Co., 23rd Inf. Regt., APO, c/o Postmaster, San Francisco Calif.

Members of Junior Football Team Honored With Banquet Friday Night

Members of the Haskell Junior High School football squad were entertained at a banquet in the high school lunch room Friday night, Nov. 30 at 7 o'clock. Approximately 110 persons attended the banquet. In addition to the football team and their guests, parents, faculty members, board members and Quarterback Club officers were invited.

Coach Royce Smith acted as master of ceremonies. Glen Kreger gave the invocation. Coach Ray Overton introduced each member of the team and made a fitting remark about each. Coach Tom Jones reviewed the football season and called attention to the things about the boys and the games that had impressed him the most.

A gold football was presented by Coach Jones to Glen Kreger, who had been chosen by his teammates as the player who had exhibited the best in sportsmanship throughout the season. Coach Jones also announced the names of the 19 boys who earned football jackets. They are Richard Bartley, Oris Gibson, David Strickland, James Kirby, Bobby Furrh, Wayne Collins, Jerry Larned, Glen Kreger, Frankie Don Mullins, John Donald Pitman, Wayne Conner, Jerry Matthews, Jimmy Byrd, Bobby Lusk, Roger Cook, Jimmy Mullins, Jerry Mullins, and the two managers, Jimmy Brock and Don Elliott.

Each table was decorated with black and gold crepe paper and black and gold megaphones and pennants. Program booklets were in the shape of football helmets. At each boy's place was a miniature football player with the boy's own number painted on it. The centerpiece, placed on the speaker's table, was a football field complete with players, referee, coaches and managers. These little figures were drawn and painted by Peggy Waldrip.

At the conclusion of the banquet the boys and girls were invited to remain for a party. Mrs. Will Gilmore, assisted by Mrs. F. W. Martin, J. E. Berryhill and Ray Overton, directed the games.

Eighth grade girls, under supervision of Miss Lucile Watson served the banquet. The meal was prepared by the ladies of the high school lunchrooms. County-Wide Meeting and Banquet For Teachers Held In Weinert Monday

The Haskell County teachers met in the Weinert High School Monday night, Dec. 3 at 7:30 for a banquet. This was the first county-wide meeting of the year and was well attended.

Supt. Conner Horton of the Weinert schools, welcomed the members and guests. Gerald Julian of Weinert gave the invocation.

Appearing on the program was a male quartet from Hardin-Simmons, introduced by Mrs. Phil Simmons of Rochester and chairman of the program committee.

Another feature of the program was the singing of Christmas Carols by the entire group. Mrs. Iva Palmer led the singing

and was accompanied by Mrs. Conner Horton at the piano.

The speaker of the evening, Rev. Houston Polnac of Monday, was introduced by Willie L. Weidner, vocational teacher at Weinert.

Rev. Polnac chose as his topic "Something Different" and admonished all to do something for the minority groups in our community. He believes that it is up to the teachers and preachers to lead the way in erasing discrimination against the minority groups.

The Christmas theme was used in the table decorations. The meal was prepared and served by Weinert ladies and the girls of the Homemaking class.

New 1952 Pontiac Features Performance

First of the General Motors divisions to announce 1952 models, Pontiac is currently displaying what's new for 52 in dealer showrooms here and throughout the country. Shown above is the popular Super DeLuxe Catalina. Higher standards of performance and fuel economy are achieved by a newly designed "power train".

New 1952 Pontiac Models Being Shown For First Time This Week

Pontiac Division of General Motors today lifted the curtain on its models for 1952 which feature an entirely new power train consisting of a new dual-range Hydra-Matic transmission, higher compression engines and the lowest rear axle gear ratio (3.08 to 1) yet to appear on American passenger cars.

The combination, according to engineers responsible for the development, results in new standards of performance and economy for the 1952 cars, at the same time providing two separate driving ranges, a flexibility in driving that meets extreme conditions of heavy city traffic or safe, smooth travel on the open highway.

In addition to the new power train, the 1952 Pontiac models, now on display in dealer showrooms throughout the country, feature a number of important styling changes and refinements. There are new colors available both for interiors and exteriors of all models. Interior colors are provided in choice of grey, blue or green to match or harmonize with the color selected for the body. These interiors combine solid colors with matching tritone check patterns used for seat upholstery. Window moldings and instrument panels are similarly styled according to body color.

The newest Silver Streak models are offered with six and eight cylinder high compression engines, each series having five standard and five deluxe models, and one super deluxe, the Catalina.

Throughout the entire line a number of innovations have been made in ornamentation which quickly distinguish the 1952 models from their predecessors. There is a revised edition of the characteristic Pontiac Indian head hood ornament, modifications of the radiator grille, and other changes in the belt moulding, trunk handles and interior fittings.

While these and other appearance changes combine to distinguish the new models, the highlight among new Pontiac features is the Dual-Range Hydra-Matic Drive. The owner of

the new 1952 model is provided with two completely optional driving ranges, each having individual characteristics which make it suitable for two different classes of driving conditions. One of these systems provides the usual first, second, third and fourth gear speed range permitting smooth, economical performance for country and boulevard driving. The second is a new first, second and third gear particularly adapted for driving in congested traffic or mountainous territory.

First Golden Glove Events Due This Week at Denton

The sixteenth annual Texas Golden Gloves program will get under way this week. The first flurry of action will take place at Denton Dec. 6, 7, 8 where a district tournament is scheduled. There'll be 19 regional centers this year where contestants from district tournaments, like Denton's, will qualify for the five-night state tournament in Fort Worth Feb. 13, 14, 15, and 18. For those who win State championships, there will be an all-expense paid trip to Chicago for the annual Golden Gloves Tournament of Champions. Regional tournaments are planned for Abilene, Amarillo, Austin, Beaumont, Brownwood, Bryan, Corpus Christi, Dallas, El Paso, Fort Worth, Houston, McAlester, Odessa, Paris, San Angelo, San Antonio, Tyler, Waco, Wichita Falls. All Golden Gloves tournaments, as in the past, are sponsored only by newspapers and established civic organizations on a non-profit basis, with surplus funds going to recognized charities and development of amateur sports. The program is sanctioned by the AAU, and all contestants must be registered with that organization. In Texas the Golden Gloves program is sponsored and directed by the Fort Worth Star-Telegram.

Vocational Nurses Class Hears Talk By Dr. Cadenhead

The Haskell County Hospital Vocational Nurses class has been honored with two guest speakers the past week.

On Tuesday of last week the class opened with the devotional, Ephesians 4, being read by the chaplain of the class, Mrs. Gene Lancaster. A prayer was offered by Mrs. O. V. Kreger. After the business meeting was concluded, the class was given a lecture on Obstetrics by Dr. J. F. Cadenhead. It was very educational, and all those present felt they had gained more knowledge from listening to it, and wish to express their gratitude to Dr. Cadenhead for meeting with us.

On Thursday night of last week after the business being concluded, Mrs. Gene Frierson reviewed the book, Who Is My Patient? by Richard Dicks. This dealt with the spiritual side of Nursing. It gave illustrations on how to recognize and when to approach the patient about his religious life, and how to assist the ministers of different faiths with their duties at the bedside of the sick. It was very inspiring and the class appreciated Mrs. Frierson donating her time.

Mrs. Coleman dismissed the class with a prayer.

The nurses have voted to drop their meetings until after the Christmas holidays. The last meeting was Tuesday night, and at that time preparations were made for the annual Christmas party of the hospital staff.

CARD OF THANKS

We want to take this means to thank our neighbors and friends who so graciously assisted in the care of our loved one. We thank you for your expressions of sympathy, the beautiful floral offering and the food. We especially thank Dr. Ben Nail who was so patient and comforting. May God's richest blessing rest upon each and everyone who had a part to help lighten our burden.—Mrs. E. J. Henderson, and family.

Neglect of Eyesight Common Fault of Most People

What can you do to protect your eyes? Avoid unnecessary strain by reading in good position and with sufficient light. If your eyes bother you, have them examined by a physician trained especially in diseases of the eye.

Eye strain begins when you need to use too much effort to focus clearly. If you have normal eyes, you do not need to use the focusing muscles to see clearly at a distance; and when reading matter, you close, like reading matter, you need to focus only a little. If you are far-sighted, your eyes have to focus even when you look far away; and when you read you have to focus a lot more than a person with normal eyes.

Children have strong focusing muscles, and their eyes do not tire easily or usually need glasses unless they have a large amount of far-sightedness. Older people have weaker focusing muscles and usually need glasses for reading when they are about 45 years old. For other specific eye difficulties glasses may be needed.

One of your most valued assets of good eyes. Many people thoughtlessly abuse the eyes and think little about it until trouble comes, declares Dr. Geo. W. Cox, State Health Officer.

Safety Committee reminds rural residents that when the 1952 resolutions are made, one of the first should be to make every day during the coming year a safe one. Every able bodied member of every family will be needed during the year to carry on the production activities on the farm or ranch.

Dashing Around

by Diane

"I'll never forget," they'll tell you. Strange how many people can remember exactly what they were doing the warm, fateful Sunday afternoon, ten years ago Dec. 7, 1941.

That day that was to change the current of the lives of so many people for so many years to come.

"Pa, Ma and me" had spent the afternoon in the woods gathering Autumn leaves to decorate our house; for Mom and our teacher were soon to give a Christmas party for the whole first grade. We had done the day up brown, complete with bonfire and picnic lunch, and the whole back seat of our car was piled high with brilliantly colored leaves — Spanish Oak, Wild Plum, Sumache and Scrub Cedar. As we drove back into town we were hailed by an excited city editor who yelled something about the "Japs" and Pop just left us and went away with him in his car.

In the days to follow, we saw little of our father and for the first time in all of our life, we didn't have the undivided attention of my Mom. She wasn't ever any fun any more. She just looked sick — and sat by the radio and listened to that high staccato voice that went on and on and on. Something about "Pearl Harbor", the "USS Oklahoma" and the "Arizona". We remember the personal sorrow that came into our lives when our loved and cherished friend, a chief turret captain, went down with the pride and joy of his life — that mighty battleship the USS Arizona. We remember the first headline we ever read in a newspaper. We spelled it out slowly and Mom just looked at us strangely and said, "Of course darling, we'll hold them there or somewhere," and once more order and happiness came out of the chaos of those troubled days of our childhood. That headline burned forever on the mind and heart and memory of a six year old is as real today as it was the day it streamed across the whole front page of our daily newspaper in big, black, bold type. It said: "Wake Still Hojds."

What tricks the human mind can play on us poor mortals. Remembering all that when we can't even think of the correct solution to yesterdays Algebra problem!

Wasn't he the most typical Santa that you had ever dreamed about when you were a child? The one who came to town yesterday with his four tiny reindeer, Donner and Blitzen and Dancer and Prancer and what willing workers he had in Ralph Duncan and our mayor, Courtney Hunt, to help him on his colorful and exciting parade around the square.

We searched the faces of the people in that vast crowd and nowhere did we see a troubled or unhappy one. Truly the spirit of Christmas and of "Peace on earth and good will toward men" walked the streets of our town for a little while that day.

Home from college this week to celebrate Thanksgiving were Betty Clifton, Kenneth Tooley and Bobby Neil Smith from the University of Texas.

James and Ernest Strain from Texas A&M. Last week we left out Mary Beth Payne and Nancy Burton from Baylor University. Thank Heaven we will observe the same Thanksgiving day all over the nation next year and the world should lose a little bit of its frustration for 'a that!

Busy days in school. Along with those never ending classes, there the football banquet Friday night. The Homemaking and Agriculture classes are entertaining with a Christmas party Dec. 18, when Mrs. Fred Broach, Jr., will present "The Little Mixer." Also there's that fascinating play "Santa's Toy Shop" which will be presented two nights, Dec. 13, 14 at the high school auditorium at 8:00 o'clock by the classes of Mrs. Dale Bledsoe and Mrs. Elberta Gilmore.

We're late and we're holding up the presses and Pop is about ready to blow his top, so that's all for this time.

Bye, now.

Three Haskell Students Named On Regional Band

Three Haskell band students made this year's Regional Band. The competition was held last Saturday on the campus of McMurry College.

Larry Wheeler, Edgerbert Smith, and Sammy Vaughter were the Haskell students to win out in the competition of students from some fifty other bands in this area that surrounded Abilene.

The highest honor of the day was taken by Larry Wheeler who played high enough in the band to be named to the all state band that will get together next February in Mineral Wells.

All three of the Haskell students that made the band were given patches in the outline of the State of Texas. They are to be sewed on to their uniform, Mr. Dean said.

FHA Clients Organize Committees For Improved Farm and Home Practices

A group of FHA borrowers met in the Farmers Home Administration office in Haskell Nov. 28 to organize committees for 1952. Herman F. Myatt, State Field Representative, spoke to the group on the purpose and importance of committees and how they operated. He explained how committees had been very successful in many areas through their efforts in putting over improved farming practices such as cotton insect control and winter cover crops.

Mrs. Elizabeth Hoffman, Home Economist, discussed the production of food on the farm from a dollars and cents standpoint, showing how a family of five, by raising 1/2 acre of garden and keeping ample livestock can produce around \$1400 worth of food per year. She stressed these important factors in growing a good garden: 1. Prepare soil early in the winter by turning under barnyard manure and superphosphate; 2. Plant good seed of adapted varieties; 3. Control insects. Methods of treating and inoculating seed and also samples of best garden insecticide were demonstrated by Mrs. Hoffman.

Odus Curry, Soil Conservation Technician, showed samples of a number of grasses and discussed their value in pasture mixtures. He explained that our tall native grasses furnish a great deal more tonnage per acre than short grasses but have almost been killed out by over grazing. After general discussion the following practices were set up as essential in developing and maintaining a sound pasture and livestock program: 1 Control mesquite. 2 deferred grazing. 3 Soil testing to determine fertilizer needs. 4 Seeding with adapted native grasses. 5 Provide temporary pasture, both summer and winter.

A pasture development committee was organized with the following as members: Dailey A. New, L. B. Jones, R. V. Earles, Cecil Jetton, Elmer Underwood, Wayne Nicholson, Dailey A. New was named chairman of this committee and plans were made to visit the Spur Experiment Station early in the spring to study methods of mesquite control and pasture development.

The Garden and Home Improvement Committee was reorganized with the following members present: Mr. and Mrs. Elmer Underwood, Mr. and Mrs. Cecil Jetton, Mr. and Mrs. Wayne Nicholson, Mr. and Mrs. R. V. Earles. Mrs. Elmer Underwood was selected chairman of this committee.

The County supervisor will work closely with the members of these committees, helping them to develop and carry out their individual plans for the coming year.

Hunting Accidents Claim Five Lives In State

The Chief Clerk of the Texas Game and Fish Commission reported that at least five Texans have been killed during the 1951 hunting season.

Persons wounded, he added, total more than one dozen with several accidents apparently unreported as yet.

The data was compiled from game wardens' reports.

The Chief Clerk said a partial report on seasonal casualties "may serve as a reminder to hunters to be more careful." He said the fall shoot reaches its peak with the opening of the quail season December 1.

The Chief Clerk said two of the five fatalities were caused by self inflicted wounds. One was killed while taking his shotgun from a car. The other was leaning on his rifle barrel.

The other fatal shootings involved:

A 17-year-old boy mistaking a 30-year-old man for a wild turkey and shooting him through the head.

A 13-year-old boy jumping up in front of another young duck hunter's shotgun.

Men's Night To Be Observed at Lane-Felker Store

Men who find Christmas shopping a confusing problem when it comes to selecting gifts for women will be given a "break" by Lane-Felker Dress Shop of this city.

The store has designated each Monday night from now until Christmas as "Men's Night" and the store will remain open until 9 p. m., to enable men to visit and inspect holiday merchandise for women.

Another word to the men, there's no need to waste time eating supper, because refreshments will be served, owners of the dress shop announce.

Women are invited to come with their husbands if they wish, and the entire store personnel will take pleasure in showing the new Christmas merchandise.

Family Planning Seen Necessary To Meet Rising Costs

If family living in 1952 is to assure comfort and adequate food, clothing and shelter, plans must be made to meet the shortages in materials and labor, as well as rising costs.

Glady Darden, home management specialist with Texas Agricultural Extension Service, recently attended an Outlook Conference in Washington, D. C., at which farm and home economists made the following recommendations:

Whatever can be done for greater efficiency and labor-saving in the home and on the farm should be emphasized during the winter, thereby making fuller use of hours per worker.

Families must plan for more home food production and preservation in order to maintain health and expenditures.

Each family must anticipate its needs far in advance and plan accordingly.

Increasing the amount of savings and reducing debts as much as possible should be encouraged in the family.

Cut Non-Defense Spending While Building Defense, Mahon Advises

Congressman George Mahon, in a talk to an audience of approximately 350 in the First Christian Church here Friday night told his hearers that the nation must reduce non-defense spending, while at the same time continue building up its military preparedness program.

"We must cut out some of the things here at home that we desire and deserve," Mahon declared. "We must give up something ourselves before asking the other fellow to cut down on non-essential projects."

He pointed out that today taxes were about as high as they can go without adverse effect on American economy, that further substantial increases in taxes would destroy incentive.

With approximately 80 per cent of today's taxes going for defense preparations or costs of past wars, Mahon said that greatest saving to the taxpayer could be made in these expenditures by eliminating waste and exercise of the greatest economy possible by military planners.

"American people do not object to high taxes when the money is wisely spent, but the taxpayer cannot be blamed when he thinks tax money is being wasted," he said.

Mahon, chairman of a House sub-committee which passes on all appropriations for the Army, Navy, and Air Force, discussed briefly the military needs in the rearmament program.

"We can see the pattern for the future, but not the whole picture," he said. "We do not know whether we are in for a 100 yard dash or marathon. For that reason our leaders must shape our military policy for either the short or the long pull," he explained.

Touching on the Korean War, Mahon termed the conflict there "the bitterest, most confusing and frustrating war in the nation's history." The stand taken by the United Nations in Korea was an effort to prevent a global war, Mahon said, that could have resulted in "completely wiping out and destroying civilization as we know it today," he declared.

The challenge accepted by the United Nations in Korea has given the United States 18 months time to prepare for the threat of a third World War—preparations that were sorely needed, the Congressman declared.

While doing everything possible to confine Communism's march in Korea, Mahon warned that failure of the peace talks now underway there may result in broadening the scope of the conflict. For that reason, Mahon declared the United States

growth of an investigation by the Sheriff's department after officers had confiscated purportedly stolen merchandise in possession of the defendant.

Billy Earl Holt, Amarillo youth, was named principal in an indictment for theft of a 1946 Mercury coupe belonging to Earl McElroy. The car was taken from in front of a cafe here several weeks ago, and later was found abandoned at Lueders.

Named in separate indictments were Tommy Wallace and Walter Grothe, Haskell youths charged in connection with burglary of the Texas Theatre here several weeks ago.

Between \$50 and \$60 was taken in the burglary, and most of the money was recovered after the youths had made statements to County Attorney Royce Adkins and members of the Sheriff's department admitting the thefts.

Wallace, who gave his age to officers as 16, has been in custody since arrest, after being unable to perfect bond. Grothe had been at liberty under bond pending Grand Jury investigation.

Trial of cases developed by Grand Jury indictment will likely be set down for the January term of court, District Attorney Banks said.

Members of the Grand Jury for the current court term are C. G. Burson, foreman; Thurmond Rhodes, H. C. King, Hoyt Perry, W. A. Montgomery, Norman Nanny, Clinton Herren, John Kimbrough, C. G. Hammer, Pat Ballard, Bill Richey, Wix B. Carie.

Truett Cobb and Ewell Lusk are riding bailiffs and Thos. C. Jettison is door bailiff for the Grand Jury.

Edwin Reeves of Weinert was fined \$100 and costs on each of two complaints. One charged transporting intoxicating liquor and the second charged sale of liquor. The complaints were signed by Deputy B. T. Gordon.

Nicholas Alejandro was fined \$100 costs on a complaint charging transporting of liquor in a dry area, and he drew a \$50 fine and costs for drunk driving, with automatic suspension of driver's license for six months. The complaint was signed by City Marshal C. C. Middleton.

Paulina Infante, Weiner Mexican, was fined \$50 and costs and given a 6 months jail sentence on a charge of aggravated assault.

L. D. Blanton of Pampa, was fined \$50 and costs with automatic suspension of driver's license for 6 months, on a drunk driving complaint.

Cream 40, a new variety of Southern pea, has been developed by the Texas Agricultural Experiment Station and foundation seed will be distributed to growers for increases in 1952.

Proper Cooking Is Prime Requisite For Game Meat

Although game meat is different in flavor from domestic meat, it can be palatable and nutritious. Finances Reasonover, foods and nutrition specialist with the Texas Agricultural Ex-

tension Service, says the standard methods of cooking beef and lamb are successful for venison and antelope. Wild game should be cooked according to the type of cut and age of the animal, she adds.

For tender cuts, such as loin and shoulder, use dry heat, the specialist suggests. Season the meat with salt and pepper and place on a rack in an uncovered pan, fat side up. Do not add water and do not cover. Extra fat, such as bacon, may be added to venison or elk. Roast in a slow oven, 300 to 350 degrees Fahrenheit, allowing 25 to 30 minutes per pound. If the meat is frozen, a longer time will be needed for cooking.

When frying game meat, she says to fry heat the frying pan until it is sizzling hot. Brown both sides of the meat, turning only once. Season when ready to turn. For thick steaks or chops, reduce heat after browning to finish cooking. Insert a rack under the meat to prevent over-

cooking the meat next to the pan. Steaks, chops, or ground meat patties may be broiled on a hot greased broiler rack about three inches from the heat. If the meat is very lean, brush with fat. When it is brown enough, season and turn. Reduce the heat and cook until done. Serve on a hot platter.

Less tender cuts, such as flank, round, rump, or short ribs, can be made tasty by braising. Miss Reasonover says the first step by

this method is to brown the meat slowly on all sides in a heavy utensil. Then season with salt, pepper, herbs, spices, or vegetables. Add a little liquid in the form of water, soup stock, vegetable juice, or sour cream. Cover closely and cook at a low temperature until tender. Cooking may be done on top of the range or in a slow oven at not over 300 degrees Fahrenheit.

Proper seasoning for wild game is important, Miss Reasonover emphasizes, especially if

the "game" taste of meat is not relished. Bay leaves, thyme, marjoram, savory, parsley and chives, green pepper, celery and onion tops, garlic, cloves, sage and onion, tomatoes, ketchup, fresh dill leaves, sliced oranges, apples, and Worcestershire are a few suggestions. Basting wild game with pickle juice, tomato juice, orange, lemon or grapefruit juice, or sour cream enhances its flavor, the specialist says.

No matter how er the parade time. In fact, snow is lying on his reindeer. It is more of the same going blizzard in homeland.
